

## St. Johns Defeats Florida Power By Score Of 6 To 5

**Powermen Forfeit Game Due To Lack Of Enough Players**

St. Johns softball team defeated a crippled Florida Power and Light club last night 6 to 5.

The game was forfeited by Florida Power due to not having enough players to form a team.

However, the team managed to find two or three persons to fill in so a game was played anyhow although it didn't count in the records.

Florida Power scored once in the third, once in the fifth, once in the sixth, and twice in the seventh to tie the score at 5-all. But St. Johns came back in their

half of the seventh to score one run to take the game.

St. Johns recorded two runs in the first inning, one in the fourth, one in the fifth, and one in the seventh.

With the score tied at 5-all, St. Johns came to the plate. C. W. Williams grounded out, R. Cornell was safe when his ground ball to third was thrown wide at first. On J. Tatum's line double to left field, he rounded third and beat the throw home for the winning run.

Hodge, Hopkins, and Darrell Ferguson led Florida Power at bat with two hits apiece. For St. Johns J. Tatum showed the way with three hits out of four times at bat.

Pitching for Florida Power, Darrell Ferguson permitted seven hits while Mason, tossing for St. Johns, gave up nine safeties.

## Hundreds Are Known Dead In Oil Town Fire

near Lopes Contreras, received three days of national mourning and quickly raised a relief fund of \$110,000.

Several years ago the government, with the assistance of the oil companies, built a new village to replace Lagunillas. In spite of fire, water, gas and lights, the natives did little. It and failed to move in great numbers.

Many of the victims were believed to be children.

More than 3000 men, women and children were trapped when fire started in the squat town built on piles above an oil-filled lake.

The fire turned oil-capped waters of Lake Maracaibo into a raging inferno along piles containing petroleum wells with the mainland.

It started when a gasoline lamp caught fire in the Caracasa bar.

Lagunillas, founded 25 years ago with the exploitation of oil in Lake Maracaibo, was built in approximately 100 orphans were

two parts—one over the lake and the other on land. The over-water section, inhabited chiefly by squatters, was the part razed by the fire.

The flames spread quickly throughout Lagunillas, most of which was built on stilts, and burned a short bridge connecting the town with the mainland. Destruction of the bridge cut off the only escape for the inhabitants, 200 of whom survived but were left homeless.

Witnesses said the flames, licking the oil-soaked foundations of the huts, quickly consumed most of the buildings and discarded metals, rose to a great height as the fire swept over the lake, the surface of which is always covered by an inch-thick oil cap.

The screams of the victims were heard as their shackles blazed away and many, with retreat cut off, were forced to jump into the flaming lake.

Two hundred persons who attempted to escape aboard life boats were lost when the craft overturned apparently because of overloading.

Survivors, many of them suffering from burns, were given refuge at nearby oil fields, while

## Jim Higgins Advances To Semi-Finals Of Tourney

Jim Higgins advanced to the semi-finals of the city badminton tournament last night by winning his quarter final match from Bob Reita in two straight games.

The scores were: 15-8, 15-6.

No other matches were played but several will be played tonight and tomorrow night. Scheduled for play yet in the men's tournament before the semi-finals are Clyde Parker and C. H. Wiscoop, and the winner of that match

will meet Guy Wood. Scheduled for play in the women's division either tonight or tomorrow night will be Miss Dot Marshall and Mrs. R. M. Hardaker, and the winner of that match will play Miss Dot Powell tomorrow night.

Director of Recreation R. M. Hardaker invited the public to attend the matches, pointing out that the admission is free and that some good badminton will be

seen all over Florida," he said.

The Democrats of Florida in session for Governor G. G. Smith in the spring, will be going to insist that that man be one of intelligence and of integrity, a man possessing the qualifications of a statesman, a man of courage, a man of action and a man who knows the needs of the people of the State of Florida.

Francis P. Whitehair, that man and unless my prediction goes amiss, he is the next Governor of Florida," Mr. Samis said.

"A survey of Whitehair's

character and friends in the

political arena shows him to be

a progressive, honest and forward-looking administration in

city, county and state."

He declared Florida is "out-

standing" in natural advantages

but said "poor local, county and

state government has restricted

the development that merit war-

rants. To overcome this condition

I propose the application of plain

business principles, backed by an

advised and militant citizenry."

Honorable Murray Samis, state's

attorney of Deland, introduced

Mr. Whitehair.

"He is a man whose word is

relied upon—who is loyal to his

friends; a man whose integrity is

unquestioned and whose ability is

proven."

An excuse is made that a number of small, independent growers have no home or packing facilities of their own, etc.

"Cooperative growers don't have

any home either until they build

packing houses of their own and

make the necessary sacrifice to

do it. We regret that Florida

Citrus Growers, Inc., the so-called

Simon-pure grower organization,

apparently favored—perhaps open-

ly to the packing houses, law

is now attempting to defend it.

"It is not within the province

of this bulletin to voice an opinion

as to which is the better system,

but in arriving at our decisions

we should rather remember that

the right to individual liberty and

to private property cannot exist if

the state and the individuals are

not to be made to compete one with

the other. Ultimately there will

be but one survivor and it will

not be the individual. It never

was. This is just one instance

at home which, taken with so

many others, is bound to bring

forth a crop from the seeds which

have been sown, and America is

already well on the way to its time

of harvest. It may be that we

want to let it happen where we

are going and the price we will

have to pay for such a brand of

salvation."

## Pierce Butler Of High Court Is Dead At 73

## Justice Called Conservative

Had Been One Of Con-  
sistent Dissenters  
In Court Decisions

WASHINGTON, Nov. 16.—(AP)—Associate Justice Pierce Butler of the Supreme Court died today.

The 73-year-old justice had entered the hospital for treatment of bladder trouble last summer, and with the exception of two weeks when he was able to return to his home, had remained there since.

Death meant that President Roosevelt's appointees would be in the majority on the court. Mr. Roosevelt has named four of those on the nine-man tribunal.

Butler was a Democrat, but officials of the Administration had termed him as one of the two "conservative" members of the court, the other being Justice James C. McReynolds.

Major decisions to which Butler dissented last term included rulings holding constitutional the 1938 Agricultural Adjustment Act, holding that a group of private power companies could not attack the constitutionality of the Tennessee Valley Author-

## Local Nimrods Report Good Luck And Plenty Of Ducks This Season

The rumble of guns heard in the distance yesterday morning throughout the day warned the duck hawk of war on this side of the world but just the opening of duck season, although at times it seemed like a young war, as the hunters threw lead at the whirling wings of ducks, coots and other migratory waterfowl.

Numerous hunters returned last night with reports of successful seasons, indicating that there are a large number of ducks in this area this season.

County Judge R. W. Ware reported today that he has sold approximately 300 hunting licenses to date and that most of these purchasers bought the required stamp which permits them to hunt ducks. The annual hunt on other game opens next Monday and the County Judge urged the nimrods to purchase their licenses in his office before

## Dutch, Belgians Hope To Launch New Peace Appeal

THE HAGUE, Nov. 16.—(AP)—The Netherlands Government last night admitted the collapse of the Dutch-Belgian peace pact and mediation offer by confirming its search for a means of launching a new appeal, perhaps with more support of the American Republics.

The statement was a restoration of the hope previously expressed that both will retire from public life on that date, was the question that it raised.

If the statement was applicable to the third term question—and men in Roosevelt's position do not lightly make assertions which contain political connotations—it may have meant that the President does not expect to run again.

At most, it was far from definite, and the third term decision still unanswered. However, the statement does suggest a general situation that any final fight which may be upon it is considered of such importance in Washington.

The President spoke beneath a cloudless sky, his speaker's platform framed in derrick and guy wires. A few hundred persons gathered, standing below the platform, a rough wooden platform on which a temporary bank of speakers had been placed.

The platform is to complete an architectural grouping which the Lincoln memorial, the White House and the capitol are the three other units and the Washington Monument the center.

The President will speak on Friday evening, and Lincoln as many days ago who left a short time ago the nation, as did Roosevelt when he came.

## Gestapo Chief Is Seeing First Real Test Of Career

Himmler Must Find  
Those Involved In  
Munich Explosion

MUNICH, NOV. 16.—(AP)—The Munich beer-cellars bomb explosion which very harshly wiped out the top men of Nationalism is the first real "tough break" in the career of icy-visaged Heinrich Himmler, Gestapo chieftain.

Heretofore his secret police operated with an efficiency that put everybody in Germany on guard at the mere mention of the word "Gestapo".

There have been reports of other attempts on Hitler's life, but apparently no attempt was so bold as this one or came so near succeeding.

Now Himmler, who was born in that same Munich 39 years ago, faces the job of hunting down and punishing the daring saboteur.

None of the other jobs of this sometime Nazi has attracted any like the attempt this one that led to him being entered.

Himmler first entered Germany's service in 1918, one year after he got out of high school.

So many men had been killed in the war that boys were being called to the colors. Young Heinrich went to the front as stand-

by-soldier in an infantry regiment.

Five years later he joined a group of nationalists who were very harsh and became connected with the Hitler movement. When the "beer-cellar" putsch of November 9, 1923, was being plotted, he was assigned to occupy the Bavarian war ministry building.

The putsch failed but not without involving his full time in Nazi work, and in increasingly important jobs.

In 1929 he was appointed head of the most powerful Nazi organization, the "SS" (schutzstaffel). This was a kind of black-shirted political prastor. He was used for special work. So proud was Himmler of his "SS" leadership that later when he became head of the German police system he listed his "SS" title over his police title on his personal letterhead.

With the Nazi seizure of power, Himmler was one of the most powerful—and probably the most popular—men in Germany. As "SS" officer, police and oversaw the extra-legal concentration camps into which men disappeared "often not to return."

Himmler divided the prisoners into a "mildewed" group and a group that "cannot be betrayed." For the latter, he predicted, "the gates of the concentration camp will never swing open again, for the state must consider them permanently against them."

In April, 1934, Himmler got the job that made him responsible to no one except Adolf Hitler. He was named head of the dreaded Gestapo (Geheime Staats-Polizei). Himmler reor-

ganized the secret police system, staffing it from top to bottom with men from his "SS." According to general belief, Himmler headed the secret tribunal which operated two months later during the blood purge.

Under Himmler the Gestapo became ubiquitous. It telephone, opens mail, seizes church, business, and scientific meetings, imposes curfews and宵禁, suppresses and ex-suggests publications. Limits control over property or conflectates his "SS" members in certain areas, takes people into "protective custody."

The man who can haunt the dreams of anti-Nazis is said to be as charming socially as he is stern professionally. He speaks in the soft accent of Bavaria, lives with his family near Munich, takes an interest in sports, is popular, has two hobbies—hunting cheetahs and studying early Germanic lore. He is a strong anti-clerical and a violent anti-semite.

On state occasions he sits on the platform. Behind his pincers, his sharp eyes rove critically over the audience.

This anecdote illustrates how his Gestapo is regarded in Germany:

"At a dinner in the home of a trusted Nazi he was seated amid somber-looking heavy curtains. "A woman who is behind the curtain," quipped a lady.

"Of course, the Gestapo," her partner shot back.

Everybody laughed knowingly.

## Kissimmee Seeks To Become Petunia City

KISSIMMEE, Nov. 16.—The idea of making Kissimmee the Petunia City of Florida, launched by civic organizations a month or so ago has taken on actual being as more than 5,000 plants have been planted, or rather transplanted, by 110 local citizens.

This is only a beginner, according to Dr. E. L. Lord, Superintendent George Lake and the original sponsor. These are six or eight thousand more plants available and more being planted to meet the demand which is expected to reach every nook and cranny of the community as the first set plants begin falling en bloc.

Dr. E. L. Lord, editor of Sub-tropical Gardening magazine, has volunteered his editorship in the cause of beautifying the city, and says that to give a city an earned name of some flower is far better than all the money one can think up in an acre. No city has aspired for the title of "Petunia City," he says, and Kissimmee is out in the front already with "copyright" to the name.

**Piggly-Wiggly Has Largest Type Of Swiss Cheese Made**

Piggly-Wiggly Grocery Store has just received a Swiss cheese of the largest type made—a 200 pound wheel. It was announced today by the store management.

These 200-pound wheels take 2,500 pounds of milk to form the necessary amount of curd that goes into the cheese.

One of the oldest of modern cheese varieties, Swiss cheese originated in the Canton, Bern Valley of Emmental, Switzerland, probably early in the 15th century. It is definitely known that the industry was established by the middle of the 17th century.

Emmenthaler cheese is now manufactured in almost every country where cheese is made. Swiss cheese made in Switzerland is now being designated generally as "Switzerland" cheese. Despite the popular notion to the contrary American-made Swiss cheese ranks with that produced anywhere in the world.

Sanford's all-star softball team right defeated the DeLand all-star team by 3 to 2 while DeLand's girls' team beat the Sanford girls' team 6 to 2. Misses Kinlaw, limiting DeLand club to four hits the DeLand team put on the steam hammer to collect eight safecuts. Dilland, tossing for DeLand scored once in the second and once in the third, and scored three runs in the last four consecutive hits. DeLand leading by two to nothing, Darrell Ferguson came up in the seventh in-

## CHALKING 'EM UP With CHARLIE CHALKER

Miami Methods  
One of the reasons the Orange Bowl game is growing by and bounds every year is because the committee in charge conducting arrangements knows the value of publicity. What more important than they know that they have to have some research publicizing before they try to tell the American public about it. Almost every day we receive articles from the Orange Bowl publicity staff; stories well written and full of interesting information. And from all we can gather there's no time to have a swell time down there in Miami about New Year's Day. So far we haven't had the first publicity story from the Orange Bowl, Cotton Bowl, Rose Bowl, or any of the other post Thanksgiving classic groups. We don't know yet where the different leading teams will play this year and we don't know who will play at Miami but we believe those sun-tanned sons of apollo at the southern tip of Florida will come up with the best game against this year. We'd like to see Tennessee the hot after the first class outfit in the Orange Bowl but even though Missouri could go east Oklahoma would be nice. We'd like to see Christmas lead his males southward. You couldn't find a

place with more color than Missouri and Tennessee.

## Western Senators Disagree On New Justice Of Court

Several Plan To Urge  
Naming Of Westerner  
To High Tribunal  
But Borah Dissents

Murphy's Name Is  
Widely Mentioned

Funeral Of 73-Year-Old Jurist Held In Washington Today

WASHINGTON, Nov. 17.—(AP)—Western senators divided today over the need of appointment of a supreme court justice from beyond the Mississippi to succeed Justice Pierce Butler.

Several said they would urge the President to name a westerner, but Borah (Idaho) questioned the importance of geography in the selection.

The name of Attorney-General Frank Murphy figured prominently in capital speculation. Although resident of Michigan rather than the west, Murphy is a Catholic, as was Butler.

The 73-year-old justice was the only member of that faith on the court. He died early yesterday and the funeral will be at 11 A. M. today. Butler will be at St. Paul, Minn., his former home.

Roosevelt said he will wait until Congress convenes to "fill" the vacancy.

Borah was the only Justice whose home was west of the Mississippi, although Justice Douglass was born in the Pacific Northwest.

Senators King (D-Utah), and Adams (D-Colo.) said they felt the West had not been given representation with the selection of Douglas.

Adams will recommend Circuit Judge Sam G. Bratton of New Mexico, King will urge Harold M. Stephens, Utah Catholic member of the United States Court of Appeals at Washington. Senator Schlesinger (D-Wash.) also mentioned. Among Catholics suggested John T. Lee Vane, former Minnesota supreme court chief justice and Charles Fahy, NLRB general counsel.

**Capone Suffering From Lingering Disease Of Brain**

BALTIMORE, Nov. 17.—(AP)—A broken, flabby, ailing Capone today stared vacantly into the ceiling of a \$30-per-day hospital suite, free from prison cells in which he had lived seven years but contained now to a lingering brain disease.

In or near the hospital were several guards assigned to keep the fallen vice-emperor under surveillance. Attorney General Frank Murphy said certain things "have come to our attention."

Whether the agents guarded Capone from himself or gangland friends was not made clear. The 50-year-old bodyguard, Al Capone, was released from federal prison yesterday and brought to a hospital here for treatment of a case of paralysis so far advanced that physicians doubted his recovery.

The once-swaggering, performed stunts of his mind cloudy and debilitated by suffering, who used to be the Union Meyer's hospital site for six months and six months and 10 days of an 11-year sentence for creation of federal income taxes.

After no communication by staff members, the reporters and pressmen who have almost kept him company in his short-term confinement, he has been seen only once since his release. He was seen in the hospital grounds, however, when he was taken to the hospital for treatment of his brain disease.

He was seen again yesterday morning, when he was taken to the hospital for treatment of his brain disease.

National Guards Leave Sunday For Week Of Training

Appreciation Express-ed For Co-Operation Of Employers

Final preparations for the field training period of the 12th Infantry regiment of the Florida National Guards, to be held at Keystone Heights next week, were made by the three local National Guard companies at the drill sessions in the Armory last night. The troops will leave Sunday morning by motor convoy.

Appreciation for the "fine co-operation" of employers in San-ford in making the field training available was expressed yesterday by Major George DeCicca, post commander and commanding officer of the First Battalion in the regiment. As a result of this co-operation, almost 100 percent of the personnel of the three units will be able to participate in the additional training authorized by the War Department, Major DeCicca said.

The local troops have been instructed to report to the Armory Sunday morning about 8:30 o'clock and they will leave for the training area by motor convoy shortly after 10:00 o'clock.

Involved in the movement to Keystone Heights from Sanford are Col. J. D. Lindley, commanding officer of the 12th Infantry; Lt. Col. J. C. Hutchison of this city, a member of Col. Ayer's staff.

Major DeCicca said the Guardsmen would muster for pay on Friday and will break camp Saturday, returning home on Saturday afternoon, about 4:00 o'clock.

Fifty-three cents per day per man has been allotted by the War Department for subsistence during the additional field training period. This amount, it was stated, is in excess of the amount ordinarily allotted for the feeding of the men. A turkey dinner is slated for the troops on Thursday, Nov. 23, the Thanksgiving day authorized by the President.

The first two days will be devoted to company training and the third will spend three days in solution of a regional problem.

In the latter maneuver, the 12th Infantry will constitute the attacking force while the Florida troops of the 106th Engineers, combat battalion, will act as defenders.

Approximately 150 men and 10 officers will start from Sanford. The daily schedule for the encampment is as follows:

First call—5:40 A. M.  
March—5:45 A. M.  
Assembly—5:55 A. M.  
Mess—6:25 A. M.  
Patrols—6:35 A. M.

## HUNDREDS BURN TO DEATH WHEN FIRE SWEEPS VENEZUELAN OIL VILLAGE

Hundreds of native workers were dead or missing in a fire which swept across the oil-coated waters under La Guanilla, above, petroleum producing village on Lake Maracaibo, Venezuela. Villagers lived in tax-free, rent-free shacks,

which were built above the water because of swampy condition of shore caused by oil seepage. The flaming waters had been covered by oil an inch deep.

General Motors, Affiliates Must Pay \$5,000 Fine

Judge Overrules Defendants Motions In Anti-Trust Trial

SOUTH BEND, Nov. 17.—(AP)—Federal Judge Walter C. Tracy imposed fines of \$5,000 each on the General Motors Corporation and its three affiliates convicted of violating the Sherman Anti-trust Law.

The three affiliates and the General Motors Sales Corporation, the General Motors Acceptance Corporation and G.M.C. of Indiana.

The defendants' attorney, arguing the motion for arrest of judgment, questioned the jury's verdict convicting the corporations, but acquitting the 17 officials of the concern, including President William S. Knudsen and board chairman Alfred P. Sloan, Jr.

Government lawyers hailed the conviction a victory in the broad federal anti-monopoly drive at factory control of car financing.

The corporations were charged with forcing the dealers to finance sales through the G.M.A.C.

A jury in federal court here last night convicted the General Motors corporation and three subsidiaries of violating the Sherman Anti-trust Law. The subsidiaries were the General Motors Sales Corporation, General Motors Acceptance Corporation and G.M.C. of Indiana.

The officials acquitted were George F. Bentkay, Chevrolet gene manager of New York; E. C. Clegg, Chevrolet manager of Indianapolis; W. E. Miller, Chevrolet sales manager of Birmingham, Mich.; W. F. Truesdell, Buick sales manager at Flint, Mich.; H. J. Klinger, Pontiac general manager; William S. Knudsen, president of Detroit; Russell Lasher, Oldsmobile sales manager at Minneapolis; Ralph W. Morris, General Motors Acceptance Corporation manager at Chicago; W. J. Murphy, Pontiac sales manager at Chicago; John J. Quinn, Jr., of New York, president of G.M.A.C.; Alfred P. Sloan, Jr., of New York, chairman of General Motors' board of directors, and G. E. Smith, Chevrolet regional manager at Chicago.

The jury acquitted 17 officials of the firms.
