

## TWENTY-THREE ARE DEAD IN CANADIAN FLOOD THAT SWEEP BRITANNIA

### Half of Houses in the Valley Go Down in Flood

### WARNINGS FAILED

### Waters Came Down Side Mountain and Spread Over the Town

VANCOUVER, B. C., Oct. 31.—The toll of lives lost in the flood which plunged down the mountainside Friday evening virtually wiping out the town of Britannia Beach on Howe Sound and partially inundating Fraser valley just east of here, reached thirty-six tonight. The property loss is estimated at several million dollars.

VANCOUVER, B. C., Oct. 31.—Twenty-three persons are known to be dead, thirteen and perhaps more are missing and fifteen are nursing serious injuries as the result of the disastrous flood which plunged down a steep mountain side Friday night and transformed the model copper mining settlement of Britannia Beach into a scene of desolation and ruin. Fully half of the 110 neat, freshly painted cottages were carried away on the crest of the flood. Others were smashed to pieces by the force of the onrushing waters and most of the remainder were still partially submerged.

Four children are dead and ten others are reported to be missing. Ten of the dead and all of the injured were brought to Vancouver on the steamer Capitano. All the injured are expected to recover.

An energetic search for the missing was made today, but the work was necessarily slow because of the difficulties in clearing away the wreckage in the sea of mud and water. It is considered doubtful if the bodies of some of the missing will ever be recovered, as they are believed to have been washed into the muddy waters of Howe sound.

Manager J. Donahue, of the Britannia mines described the efforts made by those on duty at the mines property, three miles back from the beach to warn the residents of the danger. When the railway fill, which caused the accumulation of water in the hills gave way, and released a roaring torrent into the creek, a warning of the disaster to come was sent over the private telephone lines of the mines. This message was received by Miss Ellen Patterson, telephone operator on duty at the compressor plant in the village. She promptly rang everybody connected by telephone, relaying the miners' message.

"For God's sake get out of your houses; flood coming down the creek." Before the warning could be understood and circulated about the town, the waters crashed down the mountain side sweeping away transmission lines and plunging the village into darkness.

### RANK OF AMBASSADOR GIVEN TO DELEGATES APPOINTED BY HARDING.

(By The Associated Press) WASHINGTON, Oct. 31.—The rank of ambassador was given today to the American delegates appointed by President Harding to represent the United States at the armament conference.

## VETERANS RELIEF BUREAU CANCELS ALL CONTRACTS WITH MUNICIPAL HOSPITALS

### One of Administrative Reforms in Activities Recommended

(By The Associated Press) WASHINGTON, Oct. 31.—Cancellation by the Veterans' Bureau of all contracts with the state, municipal and private hospitals not established prior to July 1st, 1917, and with all others found to be unsuitable, included among the administrative reforms in veteran relief activities recommended by the special senate committee investigating the subject in its report published today, the second compiled by the committee in its yet uncompleted task. The committee recommended an appropriation of \$10,400,000 for this purpose.

### NOTED ENGLISH AUTHOR WILL BE IN JAX VISITING OLD FRIEND.

(By The Associated Press) JACKSONVILLE, Oct. 31.—H. G. Wells, noted British author, will spend a week in Jacksonville after the Washington disarmament limitation conference as guest of John Othen, advertising manager of the Florida Metropolis. Mr. Wells and Mr. Othen were class mates in a grammar school in England, and have not seen each other in thirty-eight years. They have kept up a correspondence, however, begun in their school days.

### Group of Experts Working Out Plan Limit Armaments

### Will Meet With American Delegates to Conference

(By The Associated Press) WASHINGTON, Oct. 31.—Secretary Denby, Admiral Koontz, chief of naval operations, and a group of naval experts are working out an American proposal as to limitation of armaments again will meet today with American delegates to conference. It was assumed the general theory of limitation of naval armaments which this government believed might be successfully applied had been completed and approved at previous meetings of naval experts. Naval problem, however, generally understood at most difficult one to come before approaching conference.

## SEC. WEEKS INVESTIGATES MUSCLE SHOALS

### CONFERS WITH HARDING AND WANTS HENRY FORD TO MEET HIM

(By The Associated Press) WASHINGTON, Oct. 31.—Secretary Weeks, returning today from an inspection of Muscle Shoals, Ala., nitrate and power plants, conferred with President Harding and announced he had requested Henry Ford to come to Washington for a conference relative to Ford's offer for the project.

### REMOVAL OF BODIES OF YANKS TO AMERICA HAS NOW BEEN COMPLETED.

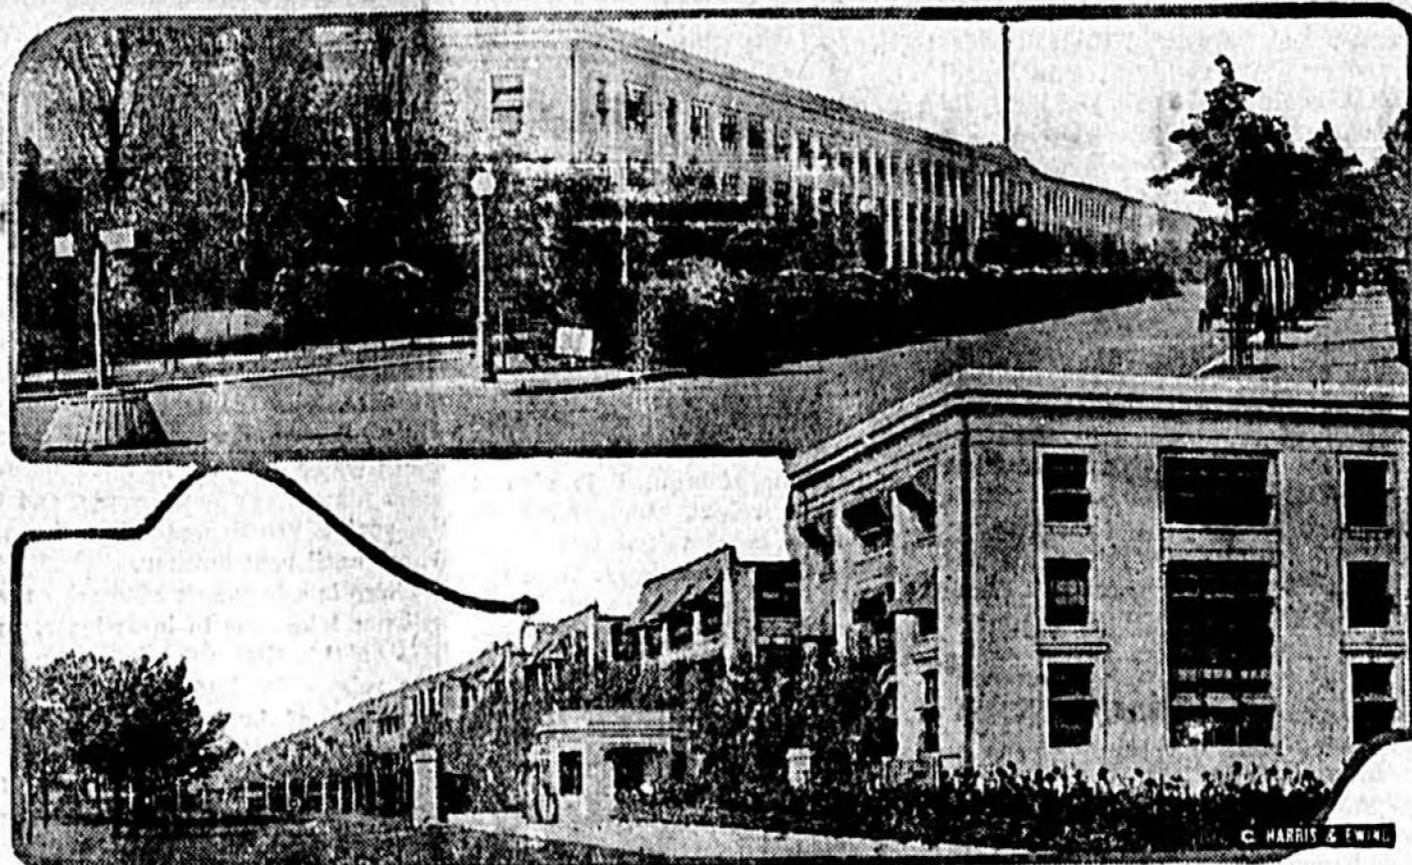

(By The Associated Press) RICHMOND, Va., Oct. 31.—Raymond Nelson, who has been superintending much of the work of the disinterment and forwarding to this country of bodies of American soldiers killed in the world war, has returned to his home here.

The work of bringing the bodies of American soldiers has been practically completed, according to Nelson, and the bodies remaining in France will be brought together in four great cemeteries in different parts for the facilitating of their care.

### WEEKS WEATHER.

(By The Associated Press) Weather Outlook for the Period October 31 to November 5, Inclusive. South Atlantic and East Gulf States: Unsettled and rain beginning of week and generally fair thereafter; normal temperature.

## Views of the New Navy Building in Washington

Front and rear views of the new navy building in Washington. The two rear wings shown in the rear view have been given over for use as offices for the arms conference.

## EX-SERVICE MEN'S COMPENSATION HAS NOT BEEN SETTLED SAYS COMMANDER EMORY, OF LEGION

### In His Address Today at the Third Annual Convention Being Held in Kansas City

(By The Associated Press) KANSAS CITY, Mo., Oct. 31.—The issue of national adjusted compensation for the ex-service man has not been at all settled, John G. Emory, national commander of the American Legion, declared here today in his address opening the third annual convention of the Legion.

"Such means as were used last summer to beat adjusted compensation cannot ultimately succeed," Commander Emory told the Legion. "Nothing is settled until it is settled right."

"The American people are the court of last resort and wherever the American people have by the ballot passed judgment on the matter of adjusted compensation that judgment has been an endorsement of the Legion's stand. "I cannot conceive of a congress so derelict in its duty, so unmindful of its just obligation to those who served their country at great financial loss, or so blind to the wishes of our people as to be misled again into refusing to adjust the economic balance between the man who went to war and the man who did not."

Commander Emory reported that

"in the face of adverse industrial conditions, which have hit the ex-service man harder than any other class, the Legion has gained in strength and its financial position has steadily improved."

He suggested that the political clause in the Legion's constitution, which "will not permit any who holds or is seeking salaried elective public office to hold office in the Legion or in any department or post thereof," be extended to include appointive offices. He added that he felt that "no person in public life, in community, state or nation, should be allowed to speak for the Legion, and that the Legion must be allowed to continue to speak for itself when issues involving service men are concerned, and then in terms which all the world will understand."

Commander Emory paid high tribute to the late Commander Frederick W. Galbraith, Jr., who was killed in an automobile accident. He said his one aim had been to carry through the great program which Commander Galbraith had left unfinished.

## INJUNCTION TO STOP UNION EFFORT AT MINES

### IN WEST VIRGINIA WHERE MINERS ON STRIKE FOR PAST YEAR

(By The Associated Press) INDIANAPOLIS, Oct. 31.—Injunction directed at stopping of the United Mine Workers from efforts to unionize the Williamson coal field in West Virginia where the miners have been on a strike for more than a year, was issued today by Federal Judge Anderson on the ground the union was seeking to restrain trade.

### TEXAS RAIL STRIKE MAY BE ADJUDGED AT CONFERENCES TODAY.

HOUSTON, Oct. 31.—Outwardly the strike situation on the International and Great Northern railroad remained unchanged last night. The six hundred trainmen who went on strike Saturday, Oct. 22, still were out and no adjustment leading to their return to work had been made. Their strike was authorized some time previous to, and put into effect after, the recent permission for a national strike by the big five brotherhoods. The I. & G. N., strike was unaffected by the general strike recall.

A member of the German relief stage for forty-four years has never addressed that body. Respectfully referred to congress.

In China talkative women are divorced. And still we send missionaries to China.

## REPUBLICAN FIGHT ON BONUS BILL

### TO TAX REVISION OPENED TODAY BY SENATOR NEW

(By The Associated Press) WASHINGTON, Oct. 31.—Republican fight on the Reed soldier bonus amendment to tax revision bill opened today by Senator New who raised the point that the amendment was unconstitutional. Now said the amendment proposed to tax one class of citizens for the benefit of another and that this at least was in violation of the constitution. Democratic leaders said today account reported plan of Republicans to lay the Reed amendment on the table. It would not be offered until there had been free discussion.

### UNION CHIEFS AWAIT INJUNCTION AGAINST ORGANIZATION TODAY.

(By The Associated Press) INDIANAPOLIS, Oct. 31.—Issuance tomorrow of Federal Judge A. B. Anderson's injunction directed toward stopping efforts of the United Mine Workers of America toward organizing the Williamson coal field in West Virginia, was awaited today by union chiefs, coal operators and lawyers with anxiety and uncertainty as to the probable scope of the order.

The only development, however, was a conference of defense lawyers interested in the case and it ended without any announcement as to their plans.

### FLORIDA SCHOONER FOUND CAPSIZED OFF DRY TORTUGAS.

(By The Associated Press) MOBILE, Oct. 31.—The three masted schooner, J. W. Somerville, of St. Andrews, Fla., to Portorico, with a cargo of lumber, was found dismasted and capsized forty miles off Dry Tortugas, according to advices received in a telegram today to J. W. Somerville, of Gulf Port, owner of the vessel. No mention was made of the fate of the crew. The message stated that the vessel was found by the coast guard cutter Tallapoosa, which is towing her to Key West. The Somerville carried a crew of nine men.

## GEORGE WHITE WILL NOT QUIT CHAIRMANSHIP

### OF DEMOCRATIC PARTY AND KNOWS NOTHING OF CHANGE

(By The Associated Press) ST. LOUIS, Oct. 31.—George White on arrival here today for the Democratic National Committee meeting tomorrow denied reports he would resign the chairmanship. White said he knew nothing of the definite character which could come up at the meeting.

### FOUR IRISH WOMEN ESCAPE FROM PRISON MOST DARING IN HISTORY.

(By The Associated Press) DUBLIN, Oct. 31.—Four Irish women, political prisoners in Mount Joy prison here, escaped last night. A rope ladder was thrown across the prison wall and the fugitives clambered down the steep embankment and escaped, completing the most daring jail delivery in the history of the prison.

### BANK RESOURCES DECREASE.

WASHINGTON, Oct. 31.—Aggregate resources of 30,815 banks in the country, amounting to \$10,688,830,000, declined by \$3,300,200,000 during the past fiscal year, according to a statement of banks' reports for June 30, 1921, issued last night by Comptroller of the Currency Crissinger. The 8,154 national banks reporting showed a reduction in resources of \$2,893,891,000.

Any good paragraph may have to appear in print as original matter at least eighteen times.

## INTERNATIONAL CONFERENCE LIMITATIONS OF ARMAMENT IS LESS THAN TWO WEEKS OFF

### Preliminary Preparations Being Made Into Final Stages for Big Meet

(By The Associated Press) WASHINGTON, Oct. 31.—With the formal opening of the International Conference on Limitation of Armament less than two weeks away, preliminary preparations swung into final stages today. The American delegation is scheduled to hold another of its sessions at the State Department and indications are the technical advisers would be ready with practically complete reports bearing on general subjects embraced in conference agenda.

## GOOD WILL MESSAGES SENT OVER

### Famous Leaders of Europe Side by Side with Americans

### 3-DAY PROGRAM

### Com. Emery Called the Convention to Order Today

(By The Associated Press) KANSAS CITY, Oct. 31.—The message of greeting from the veterans of other Allied armies brought by famous leaders of European fighting men was the outstanding incidents of the three day program of the American Legion convention opening today. General Diaz, of the Italian armies; General Baron Jacques, of Belgium; Vice-President Coolidge, who is representing President Harding, were among the spectators and speakers today. Admiral Earl Betty, of the British grand fleet, was expected to arrive this afternoon and Marshal Foch and General Pershing tonight. National Commander Emery called the convention to order and the invocation was pronounced by Rev. John Rinzor, of Chattanooga, National Chaplain. Memorial services for F. W. Galbraith, was the noon-time feature while at the afternoon session Diaz and Jacques were to address the convention.

## Dagoes Raise Cain Over Syndacalists Who Are on Trial

### Threats Against General Crowder and American Legation

(By The Associated Press) HAVANA, Oct. 31.—Threats against Maj.-Gen. Enoch H. Crowder and the United States legation in Havana are contained in a proclamation distributed here in connection with the Sacco-Vanzetti case. The posters denounce General Crowder as a "representative of the American bourgeoisie" and threaten "the dagger of vengeance" against the Americans.

The police, however, are taking prompt action. Last night they arrested ten persons at the headquarters of a syndicalist labor organization. A number of terrorist proclamations were found on the premises. Other arrests are expected.

The prisoners will be given preliminary hearings today in a special court which is investigating the terrorists agitation.

ROME, Oct. 31.—Various radical organizations have renewed their agitation in behalf of the Italians Sacco and Vanzetti, under conviction for murder in the United States. Large posters with the photographs of the two men are being displayed on billboards.

A committee, headed by the communist Deputy Bombacci, was received last night by the Marquis Dalla Torretta, foreign minister, who said everything was being done to see that the men received justice.

### SAVANNAH BANK CLOSES

(By The Associated Press) SAVANNAH, Oct. 31.—Stat eBank Examiner T. R. Bennett took over the affairs of the American Bank and Trust Co., of Savannah yesterday. According to the examiner's report, a portion of the paper held by the institution was considered doubtful.

**Dozen Gridiron  
Battles on Today  
on Southern Fields**

ATLANTA, Oct. 29.—The old witch who used to divide herself into as many parts as she pleased will be the envy of southern football fans today, for the last Saturday in October will furnish a dozen gridiron contests that no follower of the great college game wants to miss.

To begin with, Centre plays Harvard again in the Cambridge stadium, and Georgia Tech meets Penn State at the Polo Grounds, New York; Virginia invades the lair of the wounded Princeton Tiger and Tulane tackles Detroit University on the latter's field.

The quartet of inter-sectional battles that are sure to produce colorful games whatever the outcome, are in no whit surpassed in interest by several strictly southern struggles. Georgia and Auburn engage in their annual clash today at Columbus, Ga.; Vanderbilt and Tennessee meet in Nashville; Alabama and Louisiana state play in New Orleans and Seawane and Kentucky state face each other in Louisville. Among the other big games will be the Washington and Lee-Virginia Polytechnic Institute contest at Lynchburg, the Virginia Military Institute-North Carolina state game at Raleigh, the North Carolina University-Maryland match on the latter's field, and the Furman-Citadel bout in Greenville. Another important South Carolina match was decided yesterday when the State University beat Clemson 21 to 0.

Many games between evenly matched teams of the smaller institutions complete an interesting schedule.

**PLANT CITY WAS  
FORTUNATE IN STORM.**

PLANT CITY, Oct. 29.—Conditions in Plant City are assuming a normal aspect after the storm of the first part of the week. The damage in this community was mainly to the citrus and vegetable crops, trees, poles and wires. That the damage to the citrus crop and trees will in no place around Plant City exceed 25 per cent of the value of the crop, seems to be a conservative estimate.

Growers were busy Wednesday and Thursday gathering and preparing for shipping fruit from the ground. Shippers are co-operating with the growers to dispose of the fallen fruit. They were paying fifty cents a box for it yesterday. Much of this fruit had to be thrown out as culls or immature. Some of the fruit left on the

**HUNTERS FIND  
FLORIDA GAME  
IS ABUNDANT**

WASHINGTON, D. C., Oct. 29.—Florida boasts more ducks and geese and shore birds than ever before, according to a survey just completed by experts of the U. S. Department of Agriculture at the opening of the gunning season, which shows that game is more abundant than in many years.

The survey shows that quail, wild turkeys, and deer are reported also to be more abundant than for several years. There are also a number of bears scattered over the state and little trouble is anticipated for the deer or bear hunters who desire to get the limit allowed him under the law. There is a possibility, however, of the large quantities of ducks and geese in the northwest section of the state being scared away overnight, as they were last season, by an airship. The migratory birds do not take the presence of the birdman kindly and leave just as soon after his arrival as they can rise and fly.

This is to be a banner season for the American sportsman. Game of the sort usually hunted is more plentiful, generally speaking, than it has been for many years. In some localities there are more ducks and geese than the oldest inhabitants ever saw before. East of the Mississippi river migratory birds are making their southern flight in unprecedented numbers. The quail, or bob white, is present also in numbers not equaled for years. And the deer is not so scarce, apparently, as it used to be.

All told, the 5,000,000 hunters who will carry a gun into the field or to lake or river between now and New Year's are apt to find the happiest hunting grounds of many years, according to reports to the Biological Survey, United States Department of Agriculture, from United States game wardens stationed from Maine to Florida and from the Atlantic to the Mississippi. The department recently set a letter of inquiry to each warden and a summary of their replies is given below:

In Maine there are a number of locations for deer hunting where indications point to good sport. Ducks are reported very abundant from numerous boys, with coot shooting good all along the coast. Pheasants were not very abundant but ruffed grouse were reported plentiful all over the state, particularly in the northern portions. Wild geese do not stop in Maine on their flight south but may be found in good numbers in Great South Bay, New York.

Through the ducking grounds of Virginia and North Carolina there will be more ducks and geese this season than there have ever been before—even measured by the memories of oldest inhabitants. Ruffed grouse, pheasants, deer and bob white are reported plentiful. In Virginia state authorities have requested all county game wardens to report available accommodations for hunters, anticipating a big movement to the field.

trees was damaged from thorn pricks and excessive rain; but this damage it is thought, will not exceed 5 per cent. A large portion of the grapefruit had been picked before the storm. The loss is not as great as was at first supposed.

It is said that Plant City was the only place of size in this entire section between Orlando and Tampa to have electric service Tuesday night. Part of the city had lights all night Tuesday night, and the Courier plant was in the fortunate class.

**Polk Co. Grand Jury  
Holds School Heads  
Incapable of Duty**

LAKELAND, Oct. 29.—The Polk county grand jury, in session at Bartow, before adjourning without date Tuesday, reported to Circuit Judge John S. Edwards, that on investigating the matter of the alleged shortage in the county school board office said to total approximately \$14,000, it has found the shortage to be due to an "utter lack of capacity to perform the duties of their office on the part of the former superintendent of public instruction, John A. Moore, and chairman of this board, G. B. Murrell, and we further find that neither the present superintendent of public instruction, C. A. Parker, nor any member of the present board has promptly and thoroughly performed the duties of their office in such a way as to safeguard the interests of the citizens of this county in this matter."

The grand jury further recommended to Governor Hardee, that the present superintendent of public instruction and school board be suspended from office pending an investigation. The alleged shortage in question is said to have been caused by Joseph D. Woodward, clerk for the past nine years to the school board. It is charged his irregularities extending over the last four years of diverting school funds to his personal use.

**Railroad Labor  
Board Decision on  
Strike Question**

Says Union Going on Strike Will Forfeit All Rights and Contracts

(By The Associated Press)  
CHICAGO, Oct. 29.—The Labor Board today issued its decision on the hearing to determine the responsibility for the general strike threatened by the big five railroad unions, making three findings, the third of which held "That any union going out on a strike will forfeit its right and rights of its members in all existing contracts and lose all benefits accorded by transportation act."

The citrus fruit growers may console themselves with the reflection that they will not have to give up so much to the transportation companies. Maybe the water lines will be able to move the fruit left on the trees.

**Man and Wife Held  
For Murder in 1916,  
Freed at Hearing**

WAUCHULA, Oct. 29.—F. J. Townsend and wife, arrested several days ago on a charge of murder in connection with the killing of T. J. Lee here in 1916, were released after a preliminary hearing yesterday.

Lee was killed by shots fired thru his window. His son was arrested at the time, but released when he proved his innocence. With the release of the Townsends the authorities said they had no clue to the slayers of Lee.

**SOVIET GOVERNMENT  
WILL RECOGNIZE DEBTS  
OF IMPERIAL REGIME.**

(By The Associated Press)  
RIGA, Oct. 29.—Official confirmation that Russian soviet government has agreed under certain conditions to recognize foreign debts of the Imperial Russian government, was received here today through the official Bolshevik news agency.

**MILLIONS FOR GOOD  
ROADS IN FLORIDA**

Governor Hardee has no fear now of anarchists, bolsheviks or boll weevils. He has appointed his personal staff of Lieut. Colonels and has four newspaper men on it which should hold him for a while.

In another part of this issue is an article about the golf course recently erected at Gainesville by Gainesville people. It is high time that Sanford people took up this important matter and instead of talking about it did something.

Congratulations to the Orlando Sentinel. It came out yesterday on the new press, eight columns and sixteen pages and a big city paper in every respect.

"Sanford is developing into a factory town," declares the Herald, and while some pieces might not understand and fear that things were not improving in Sanford, it is evident that the Herald means the best and most desirable impression to be carried.

RIGHT, BROTHER MILLER!

Newspapers should not be considered objects of charity by business men of the community in which they are published. Occasionally advertising, on a small scale, is contributed in order to assist a publication in weathering the storm of depressed business periods.

HEINZ SPAGHETTI

One of the many delicious Heinz products is the cooked spaghetti in a tomato sauce with cheese. All that needs to be done to prepare the dish is to heat the can 15 minutes in boiling water before opening.

Deane Turner

Phones 497-498 WELAKA BLOCK

WE ARE GLAD TO ANNOUNCE

That the strike is off. For the past thirty days Sanford especially has been talking about the strike and what it would mean to so many of our people because so many Sanford citizens are railroad people—either officials or employees and Sanford was bound up in the strike as only a railroad center can be bound.

Much can be said for either side and much can be said against either side but at this time the public cared but little who was at fault. All the public knew about it was that they had been gouged outrageously by everyone during the war and after the war and they had reached the limit.

FACING FACTS

It is our firm belief, Orlando in particular, and Florida in general, will have a prosperous season. But there are certain facts that must be faced, which if they are not will in our opinion add materially to lessening the inflow of money to this community.

We speak of exorbitant rents. There is no use to try and get around the fact that times in the north are hard. They have been felt by the rich as well as the poor. To be sure the poor feel the stringency of the conditions to a greater degree than the rich.

In view of which fact it is ridiculous to think people are coming down and pay some of the exorbitant rates asked for rooms, apartments and furnished houses in Orlando and other towns. We will be kicked and cursed by a few of our fellowmen for these few words, but it is because these few are either aiding the present high-priced condition or have a wrong impression as to what just criticism will accomplish.

We know of bungalows, scarcely worthy of the name, that are being held for \$1,000 for the season. One thousand dollars for approximately twelve weeks' rent, on an investment of not more than three or four thousand dollars. It is ridiculous. Other properties are priced proportionately high.

ida. We must meet readjustment of conditions face to face.—Orlando Reporter-Star.

Every town except Sanford. We know of a dandy new home furnished renting for \$100 per month which is some different from Orlando. Not be in a tourist town in every sense of the word Sanford is not in the high price class.

HIGH SCHOOLS ARE FOR LIGHT WEIGHTS.

Comparing the football team of the Orlando high school with those of Plant City and Lakeland an observer is struck with the dissimilarity of physique. The Orlando boys seem to be mere youths while the players on the Lakeland and Plant City teams seem to be of mature years, they are older, bigger and brawlier.

You are right. Some of the big stiffs that Florida High Schools have hired to play football should be back in the boiler factories where they belong. Sanford, Orlando, Palatka and a few more teams are playing only High School boys.

SHIP BY WATER.

Is the slogan that will give Florida cheaper transportation rates. There seems to be no other method that offers any relief. The railroads have determined to add on as long as the patient public will stand it. Appeals to the Interstate Commerce Commission have given no relief.

The establishment of a boat line to the outside world from Manatee and Sarasota counties will help every individual in both counties. Every citizen who can should take a little block of stock in the boat company without delay.

CITY MANAGER FORM OF GOVERNMENT IN ORLANDO.

The city managers in Tampa and Miami seem to be getting along satisfactorily. After the present Orlando administration leaves office we hope Orlando will have the same form of government. And we have no doubt but the present administration would as soon have a city manager a few months prior to their farewell in order that things could run smoother.

The grand wizard collapsed, and it won't be long before the whole thing follows his example.

SYSTEMATIZED CHARITY.

Lakeland's winter dependents are among the most faithful of our visitors. They disappear every spring, it is true, and their whereabouts through the warm weather months are unknown to us, but we hardly know that winter is here before we have them back—the blind, the crippled, the fatherless, the jobless, and that most familiar figure of all, the person who, after reaching here, finds himself suddenly out of funds and unable to go either forward or back.

Charity is a noble virtue, but we wonder if our leniency and generosity with many of these regular applicants for our winter charity, are not plain "casiness." Surely, these people belong somewhere. Surely there are in the world somewhere people who are in a position to know whether their claim on the pity of the public is legitimate.

There is a lazy sort of charity that will not take time to investigate, and it is on this that our winter dependents rely. The Red Cross makes it a matter of business and common sense to find out both the worthlessness of the object and the wisest way to render assistance.

ORANGE OUTLOOK NOT BAD

With apples scarce and high in price this fruit is practically eliminated as a competitor of oranges. This, together with the fact that a less number of boxes of oranges will be shipped this year than last, should have a good effect on the market for Florida oranges.

Time was when financial panics and depressed conditions in the country meant demoralization in the citrus business. The distribution area was small, small commission handlers or cash speculative buyers knew but a few markets and continued piling up of fruit in these few markets meant a smash in prices.

Depressed conditions should not interfere, and do not, with the steady shipment of fruit. The shipper who comes out best in the end is the one who has a steady supply in markets day after day, taking the bad with the good.

If he lives up to his name the new senator from Pennsylvania should be able to make trouble for the agricultural bloc.

IT'S A FACT—you can not dry your laundry in the sun when it is raining. So call the SANFORD BRANCH LAKELAND STEAM LAUNDRY. They can dry it, rain or shine. All work called for and delivered the 3rd day.—GIVE US A TRIAL

# DOWN ON THE FARM

Agricultural News as Prepared by Agricultural Department Florida University

## Taking College to the Farm

Going into the groves, truck patches and fields with the farmers, selecting specimens of the diseases and insect enemies pointed out by the farmers as being trouble makers, and then gathering the farmers into groups for the purpose of discussing these enemies and insects, is the method practiced by the staffs of the Florida Experiment Station and Agricultural Extension Division.

An instance of this manner of field instruction was a trip into Hillsboro, Pasco and Polk counties by District Agent E. W. Jenkins; County Agent E. F. DeBusk, Lake county... Dr. O. F. Burgerger plant pathologist, and Prof. J. R. Watson, entomologist. Many groves were visited. Farmers had been notified of a field meeting and in every instance gathered in appreciable numbers. Farmers were asked to pick out or point out diseases and insects which gave them trouble. After a tour through the grove or field, all gathered and the specialists took each disease or insect up, one at a time, and told all about it—what it is, its life history, and how it might be controlled.

The instruction, or the school, does not end here. These parties carry along with them lanterns and stereoscopic slides, whereby the entire life histories of the diseases, and insects might be shown and understood. And, since soil preparation, cultivation and fertilization are important phases of crop culture, these subjects always come in for their share of the discussions and illustrations.

## Preparing Show Animals for Exhibition.

An animal cannot be fitted for show over night nor can it ever be expected to obtain a sleek coat and good finish on the open range. It takes work and care to put an animal in show condition, and several weeks should be taken for the preparation.

A great many deserving animals are placed on exhibition with poor coats. A rough, shaggy coat is against the animal and may be the deciding factor in awarding the first prize to another animal. The curry comb and brush should be used daily, according to John M. Scott, animal industrialist

## CHIPS

Rust mites can be controlled by spraying with lime-sulphur solutions.

"A fair for farmers and not for fakars" should be the motto of some of the county fairs.

Citrus growers will find that by carefully removing dead wood from the trees the dropping of fruit will be reduced.

Tools and implements left in the open through the winter can be depended to deteriorate very much before the spring work begins.

Sweet potatoes should be dug before the frost has killed the vines as they will keep much better. Select days of sunshine to dig. Let them lie in the open to dry well before storing.

Sows bred early in November will bring pigs in the spring at a time when there will be little danger of their being injured by cold and at a time when grass is green and tender.

Much soil fertility is lost every winter by soil washing or erosion. Put a stop to it by keeping the hilly lands in sod, planting a cover crop, providing underdrainage, filling the gullies with brush, etc.

Brood sows expected to farrow should be kept in a healthy condition. Plenty of succulent feed should be provided for them. Nothing is better than an oat, rye or rape pasture supplemented by a little grain or shorts.

One thing the modern housekeeper is thankful for as Thanksgiving approaches is that nowadays it isn't good taste to load the table full of so many kinds of food that no one is able to make even a pretense of eating it.

The county commissioners at their last meeting at Bartow awarded the contract for work on roads of Special Road and Bridge District No. 6, and accepted the bids of August Hechschler, L. H. Cramer and J. A. Byrd, for the \$40,000 bond issue to cover the costs.

# INTERIOR WHOLESALE GROCERS' ASSOCIATION ORGANIZED AT ORLANDO.

ORLANDO, Oct. 31.—Twenty-five wholesale grocers of inland Florida met in this city Saturday, and organized the Interior Wholesale Grocers' Association, for the purpose of promoting cooperation and understanding in their industry. Orlando, Kissimmee, Palatka, Lakeland, Bartow, Bradentown, Arcadia, Fort Myers, Lake Wales, Sanford, Fort Pierce, and Plant City, were represented at the meeting.

B. A. Brown, of Lakeland, was elected president of the association. Other officers are: Vice-president, B. W. Williams, Bradentown; secretary-treasurer, L. C. Hefner, Orlando; and the executive committee is composed of J. L. Williams, Leesburg; J. Gibson, Lakeland, and R. F. Willis, Orlando.

# CURFEW AND POOL ROOM ORDINANCE IN EFFECT IN JACKSONVILLE.

Juvenile Jacksonville bled itself to the family domicile last night before ten o'clock, and juvenile Jacksonville will continue to seek the shelter of the paternal roof before 10 o'clock every night hereafter. For—like a well advertised breakfast food—"there's a reason."

And the reason is that Jacksonville's curfew law, fathered by Councilman George J. Garcia, and passed by the city council, went into effect last night, the police receiving orders to clear the streets of all persons under sixteen years of age, unless they are accompanied by a parent or guardian, or some one designated by a parent or guardian to act as an escort.

The new bill provides that children under sixteen years of age who are found on the streets after 10 p. m., are subject to arrest. Parents or guardian of children apprehended will be subject to a \$10 fine or ten days' imprisonment.

The bill, introduced and fought for by Councilman A. E. Adamson, providing that poolrooms shall close at midnight and not reopen until 7 o'clock the next morning, also became a law yesterday. Chief Roberts has instructed his men to see that this particular law is strictly enforced. The bill also provides that pool rooms shall close at midnight Saturday and not reopen until Monday morning. Each

# ...Start... a Bank Account

Start a bank account with us and we will help you make it larger. We are equipped to care for your deposits with absolute safety. There is no function of a bank we cannot perform. Every facility afforded to farmers and others for transaction of their banking business. Accounts may be opened by mail and monies deposited or withdrawn in this way with equal facility. There are scores of young men in Sanford who should start a bank account. The dimes they throw away every month if brought to our bank would make them independent as they reach the noonday of life. In fact, every person who has a dollar should start a bank account. Try it and you will always thank us for this advice.

The world news the day it happens, delivered at your door each evening, 15c the week.

at the Florida Experiment Station. For best results it will be necessary to keep the animal blanketed.

It is not advisable to make animals over-fat but they should have a good finish of smooth, even flesh. Cattle and horses may receive a liberal quantity of cottonseed meal, peanut meal, or linseed meal. These feeds will put a gloss on their coats which could not be had in any other way. These feeds will also make the skin soft and pliable.

Many stockmen let their animals run on the range even when they are feeding them for show. This is not advisable since their coats cannot be kept clean and free of burrs. It is best to keep them in the lot or on cultivated pasture and give them plenty of feed and care.

"Florida Honey Week" It seems that we are beginning to realize that Florida honey is pretty good stuff. According to the Florida State Beekeepers' Association we can buy it here at home much cheaper and better than to wait for it to be shipped out of the state, mixed with other honeys, put into fancy packages and sent back to us for three or four times the original price.

One cannot eat the fancy package; and railroad freights and middleman's profits "butter no parsnips"; so, wherein is the sense of it all, this spending of our money for things that possess no real value to us as consumers?

At any rate, these things are what we are to hear about during "Honey Week," which, according to plans, will be the week before Thanksgiving.

Florida beekeepers, and other good friends of Florida, are going to "show us," and we think they have a good and wholesome story to tell us.

To paraphrase James Whitcomb Riley: "The frost is on the 'punkin' and the corn is in the shock; the pancakes are a-cookin' and there's honey in the pot, or, if it isn't there it ought to be."

Let's get the decks cleared for Thanksgiving, and pancakes, and "Florida-First Honey."

The world news the day it happens, the Herald office.

# EASY TO DARKEN YOUR GRAY HAIR

YOU CAN BRING BACK COLOR AND LUSTRE WITH SAGE TEA AND SULPHUR

When you darken your hair with Sage Tea and Sulphur, no one can tell, because it's done so naturally, so evenly. Preparing this mixture, though, at home is messy and troublesome. At little cost you can buy at any drug store the ready-to-use preparation, improved by the addition of other ingredients called "Wyeth's Sage and Sulphur Compound." You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time. By morning all gray hair disappears, and, after another application or two, your hair becomes beautifully darkened, glossy and luxuriant.

Gray, faded hair, though no disgrace, is a sign of old age, and as we all desire a youthful and attractive appearance, get busy at once with Wyeth's Sage and Sulphur Compound and look years younger.—Adv.

## COUNCIL REGULATES FISHING AT DEFUNIAK.

DEFUNIAK, Fla., Oct. 31.—Fishing may be enjoyed two days in the week in Lake Defuniak, under certain restrictions, it was made plain in the resolution which passed the city council recently. No person may catch more than ten fish per day, and all fish caught four inches or under in size must be thrown back into the water. Some large bass have of late been seen in the water and a few of these have been caught.

Bartow's paving program, authorized the latter part of May, is being completed. Street commissioner J. E. Childs, assisted by E. H. Brown, county road foreman, with the county road force, has had charge of the work. Two miles of asphalt street have been added to the city's paved street section.

two offenses of this law carries a fine and a third offense will bring about the revocation of license.

Police last night did not make any arrests of minors found on the streets but instead informed them of the new law and warned them not to be out after 10 o'clock again without being accompanied by some older person.—Times-Union.

## ASK FOR YOUR RECEIPT.

Subscribers to the Daily Herald should ask for a receipt when the carrier boys collect from you. It is the only protection you have in case the carrier changes or there happens to be a mistake in the account. Each carrier boy is supplied with receipt books, and is commanded to give a receipt by the Herald. See that you get your receipt at the end of each week if you are paying that way.

## ROGER BABSON TO SPEAK AT DAYTONA.

DAYTONA, Fla., Oct. 31.—Roger Babson, world-renowned statistician and educator on business subjects, will address a combined meeting of the Kiwanis and Rotary clubs in this city the first week in February, according to an announcement made this week.

Mr. Babson has been secured as a speaker at the Florida Forum and Assembly, at Daytona Beach on the first Sunday of that month, and at the same time Robert S. Holmes, president of the forum and a Rotarian, secured Mr. Babson's promise to address such a meeting of business men. The invitation to address the Forum here was the only one of fifty similar invitations Mr. Babson received, which he accepted for the coming winter.

In Circuit Court, Seventh Judicial Circuit, Seminole County, State of Florida.—In Chancery.

## DIVORCE—CITATION.

Cecil I. Mooney, Complainant, vs. Alma Bernice Mooney, Defendant. To Alma Bernice Mooney, care Calle V. Cato, 313 W. Marshall St., Richmond, Va.:

It appearing from the affidavit of the complainant herein that you are a resident of a state other than the state of Florida; that you are a person over the age of twenty-one years and that there is no person within the state of Florida service of a summons in Chancery upon whom would bind you, it is hereby ordered that you appear to the bill of complaint filed herein against you on the Rule day for November, 1921, to-wit, 7th day of November, 1921.

And it is further ordered that this citation be published in the Sanford Daily Herald once each week for four consecutive weeks.

Witness my hand and official seal at Sanford, Seminole County, Florida, this 24th day of September, 1921. (SEAL) E. A. DOUGLASS, Clerk of Circuit Court. SCHELLE MAINES, Solicitor for Complainant. 9-26-57c

Mrs. Loucks, will accompany them home.

#### HALLOWE'EN PARTY

Tomorrow evening the members of St. Agnes Guild will entertain at a Hallowe'en party at the Parish House from eight to eleven o'clock.

There will be a delightful musical program, followed by games, contests, fortune telling and other features in keeping with the Hallowe'en season. Refreshments will also be served.

The public is most cordially invited to attend.

#### G. F. S. HALLOWE'EN PARTY.

The members of the Junior Chapter G. F. S. were most delightfully entertained at a Hallowe'en party Friday evening at the home of Mrs. John G. Leonardy.

The house was artistically decorated with golden rod and bright yellow daisies. The guests all wore ghost costumes, and enjoyed bobbing for apples in a tub and biting them from a string; witches stocking was also played, and later the guests assembled on the porch in the dark and told ghost stories. In guessing the conundrums little Miss Camilla Puleston guessed the most correctly and was awarded "Capt. Kid's" Treasure Chest.

After the contests Mrs. Leonardy served ice cream sandwiches with bananas and nuts, each topped with a witch riding on a broom stick, with candy, cakes and apples.

The members who attended this pleasant occasion were: Elizabeth Whitner, Camilla Puleston, Pearl Robson, Bea Howard, Mary Helen Morse, Mary Welland, Marguerite and Helen Edwards.

#### FOR MISS THRASHER

Miss May Thrasher was the charming honor guest at one of the most delightful parties of the early fall season, Saturday afternoon when Mrs. E. M. Galloway entertained at bridge at her lovely country home.

The Galloway home was prettily decorated in a color scheme of pink and green carried out with quantities of Mexican pink vine and pink roses. Three tables of players enjoyed a spirited game. The tables were artistically and appropriately designed in miniature brides in full wedding attire and dainty bride's maids.

The honoree was presented a lovely piece of Georgette lingerie, while

top score prize a pink chiffon sash was won by Miss Adelaide Higgins. Mrs. C. R. Kirtley won second prize, and was also given lingerie. In cutting for the consolation Mrs. Ed. Betts was the fortunate one and received a vase.

Following several progressions, the tables were laid with dainty hand-made covers and delicious refreshments of chicken salad on shredded lettuce, olives, hot rolls and nuts in baskets were served. Later the guests were invited in the dining room for coffee, the table had as its centerpiece a large wedding cake gaily decorated with a "Lolly Pop" bride, surrounded with bride's maids, and other attendants, around the cake were "Lolly Pop" dolls as spectators.

Miss Thrasher was most becomingly gowned in brown canton crepe with hat to match.

Mrs. Galloway was assisted in entertaining the guests by Mrs. D. L. Thrasher and Mrs. R. E. Newman.

Mrs. Galloway's guests included Miss May Thrasher, Mrs. D. L. Thrasher, Mrs. R. E. Newman, Mrs. Ben Caswell, Mrs. C. R. Kirtley, Mrs. Joe Chittenden, Miss Adelaide Higgins, Mrs. Ed. Betts, Misses Sara and Geraldine Muriel, Mrs. Robert Hines, Miss Agnes Dumas, Miss Fern Ward, Mrs. Dick Brown, Miss Daphne Wimbish, Miss Marie Teague, Miss Florence Henry, Mrs. Karl Schultz and Miss Mary Elizabeth Puleston.

AMERICAN MAGAZINE CONTRIBUTOR HERE.

Among the prominent visitors to the city today, were Dr. and Mrs. G. M. Randall, who are touring the State. Dr. Randall is a globe trotter, and has travelled from Greenland to Mexico in North America, and seen all the foreign lands. He went into the world war at the Mexican border and remained until he had seen Berlin, being with the medical corps. He was with the first Perry expedition to Greenland, and the Arctic Circle, and when he speaks about that country, he speaks authoritatively. He said this morning that he had never, in all his travels, seen any country that had the possibilities of the Sanford section, and he intends to write an article soon for the American Magazine about this part of Florida. He was taken around the farming section by Secretary Pearman and fell in love with Sanford and the farming industry, and above all, the sub-irrigation system as practiced here by the winter truck growers.

Sanford, just passing through the big storm, and able to take care of the flood of waters caused by three days of rain and showing but small effects, tells the story, and the dry season of the entire summer and fall told the rest.

HARRY WALSH IS COMING HOME

The following from Harry Walsh, at Detroit, is self explanatory:

Detroit, Mich., Oct. 27, 1921. Friend Bob:

First of all, excuse pencil, as that is about the only handy writing outfit I can find.

Upon receipt of this note, kindly discontinue mailing that up to date paper of yours to Pontiac, Mich., as we are leaving for home, (Sanford Fla.) very shortly. Expect to drive our car to Baltimore, Md., and then take the Merchants & Miners' boat for Jacksonville. Expect to sail November 8th.

We will take up our residence at the Oak avenue house I purchased some time ago. I believe the number is 705.

We have had a very enjoyable summer in the north, but how we long to be back in Sanford. In fact, the town looks better to me every year.

Hoping this finds you and your good family in the best of health, I beg to remain,

Your friend,  
HARRY L. WALSH.

CHRISTMAS SEAL SALE.

There is a very definite relationship between the sale of Christmas Seals and the death rate from tuberculosis through the country. Utah has the lowest consumption death rate in the United States and in 1920 sold the largest per capita of seals of any State except New York. Utah sold 6.1 seals for every man, woman and child, of the State in 1920, and had a death rate from tuberculosis of only 45 per 100,000 of the population.

Among other States having the lowest rates of death on account of consumption, are Wisconsin, Michigan, Minnesota, Oregon and Montana. Those States have also had a relatively large sale of Christmas Seals.

Dr. Israel L. Kapplan, president of the Florida Public Health Association in commenting on the relationship between the sale of Seals and the tuberculosis death rate, says: "There seem to me to be two factors in this relationship. First, in connection with an aggressive Seal sale there goes forth a lot of publicity regarding the nature of tuberculosis and its prevention that is of value to the general population in avoiding the disease and a great deal of hope to those who have the disease by the slogan 'consumption is curable.' In connection with every Seal sale there has been a great deal of information disseminated in regard to food preparation and living and sleeping in the fresh air. The other factor in this low death rate in states where the strongest sales of Seals has been conducted is the fact that there is true more money for education and hospital provision and consequently more adequate support of institutions maintained by taxation.

Florida stands among the states with both a medium death rate from consumption—105 per 100,000 of the population and a moderate Christmas tuberculosis Christmas seal sale in 1920, 2.6 seals per capita. The number of seals sold in 1917, the year of organization of the association, was .7 per capita and the death rate 110 per 100,000 of the population. The total sales increased from \$7,000 worth in 1917 to \$26,000 worth in 1920, and the total death from tuberculosis decreased from 1,085 in 1917 to 1,016 in 1920.

How to keep the roaming boys on the farm and the roaming cattle off seems to be one of the Florida farmers' problems.

### MEETINGS

PARISH HOUSE CALENDAR.  
Monday, Oct. 31, Night, Holy Cross Men's Club dance.

Tuesday, Nov. 1, 8 p. m., "Measuring Party," S. Agnes Guild.

Friday, Nov. 4, G. F. S., Party, Mrs. John Leonardy, directress.

#### RALPH STODGHILL HERE

Mr. Ralph Stodghill, baritone singer of Alabama, is here. He is in charge of the singing at the Baptist Temple. Already large audiences are in attendance. The solos of Mr. Stodghill have pleased his hearers. A large chorus is organized. Dr. George Hyman is the preacher. The meetings will last only one week. Closing next Sunday.

For office supplies, stationery, etc. come to the Herald office.

Little Happenings Mention of Matters in Brief Personal Items of Interest

THE WEATHER

For Florida: Unsettled weather with local rains this afternoon and probably in East portion tonight; Cooler in North and Central portions tonight; Tuesday generally fair.

Don't forget the dance at the Parish House tonight. Good music.

Have your watches and jewelry repaired at McLaulin's. Two first class watch makers. Prompt service. 140-tfc

Mr. and Mrs. Claude Raulerson, of Geneva, were among the visitors to the city today.

The Temple Pipe Organ Club will hold its Christmas Bazaar November 26th. The place to be announced later. 182-Mon-Thur-tfc

Dr. and Mrs. G. M. Randall, of Maine, were in the city last night and today, going to the east coast this afternoon.

The Ladies of the Episcopal Church will hold their Bazaar and Supper, December 1st and 2nd in the Parish House. 171-tfc

Dance at the Parish House tonight and you are invited. Good music, refreshments, favors. \$2.00 yourself and ladies.

Princess Pat?

Harry Neel and LeClaire Irwin, of the Herald Printing Co., left yesterday for Okeechobee City, where they will look over the plant of the News and expect to return tomorrow.

Party finding button in O. K. BREAD will receive 50c. During week there will be a special button put in O. K. Bread worth \$1.00 to finder. Your grocer will give you the money. There will be a button in one loaf each day. 188-1wc

W. A. Snyder, of New York, is in the city looking over the plant of the Bel-Jar Coffee Co., and attending to the advertising matter. He has charge of the publicity end of the business and is an experienced advertising and publicity expert. He likes Sanford very much and expects to spend much of his time here while he is in Florida.

"EXIDE" BATTERIES—Our Pullman cars, airplanes, submarines, telephones and great 7,000 mile wireless stations are equipped with the master "EXIDE" Batteries, the battery is the life of your car, get the best. We recharge and repair all makes.—Ray Brothers, Phone 548. 176-tf-c

Word comes from Miami, that Dick Terheun, Jr., is quite a hero. It seems that he rushed into a burning home down there one day last week and rescued a young girl from the smoke and flames and is now in line for a Carnegie medal. Dick is a Sanford boy, and the son of Mr. and Mrs. R. A. Terheun, of this city.

BATTERIES—America's first car was regularly equipped with starting and lighting Batteries in 1911, this battery was an "EXIDE", today the master battery of the world. Do not be misled by the so-called just as good.—Ray Brothers, Phone 548. 175-tf-c

SANFORD'S TEMPERATURE

Well, the weather seems to be an unsettled question like the peace conference, politics and city government but all things will be settled some time even the undertaker's bill and we suppose the weather will take its course. One cannot expect a sudden calm after such a big storm. And anyhow a few little showers are always welcome. The temperature is just right and everything is sitting pretty. And Armistice Day is approaching on spiral puttees.

Table with 2 columns: Item and Value. Includes Maximum 84, Minimum 62, Range 66, Barometer 29.93, Rain .13, Calm and cloudy.

Princess Pat?

Mr. Edgar A. Ball, who arrived here last week with his family, is now living at 719 Oak street and will give lessons on all band instruments. Mr. Ball was instructor for a number of years at the Shirman Indian College, Riverside, Cal., under Roosevelt's administration, having charge of the musical department, and would like to organize a class here for the purpose of training them so that in the near future they can take their place in the Sanford municipal band. 183-tfc

Party finding button in O. K. BREAD will receive 50c. During week there will be a special button put in O. K. Bread worth \$1.00 to finder. Your grocer will give you the money. There will be a button in one loaf each day. 188-1wc

Hupmobile makes final reduction, open models, \$1250, Detroit.—B. & O. MOTOR CO., Sanford. 188-tfc

Father Hennessey and Father A. Mainville paid the Herald office a visit today and were surprised at the magnitude of the office and the equipment. Father Mainville is looking after the mission work in this diocese under Father Hennessey, and has been here for several weeks. He is originally from Canada, and is a French-Canadian by birth. Being at one time a teacher of printing in one of the Canadian colleges, Father Mainville was very much interested in the new linotypes and other up to date machines of the Herald office. He likes Sanford and Florida very much and will probably spend the entire winter in this section.

Princess Pat?

The remarkable thing about furnished apartment is that anybody should be able to collect so many useless pieces of furniture.

Hupmobile makes final reduction, open models, \$1250, Detroit.—B. & O. MOTOR CO., Sanford. 188-tfc

If the strike talk has resulted in a reduction of freight rates, as some of the leaders claim, it has been a good thing, even if it did give the country a good scare.

Princess Pat?

The reason people place very little value on advice is because they don't have to slip out after night and break a law to get it.

Hupmobile makes final reduction, open models, \$1250, Detroit.—B. & O. MOTOR CO., Sanford. 188-tfc

About the only place where the speed laws are not violated is the road back to normalcy.

SPOON ON THE STAIRWAYS

Ideal New York Trysting Place Found to Be in the Midst of the City's Busy Whirl.

Publish it not in the streets of Astoria nor whisper it to old Mrs. Grundy, but Dan Cupid finds a way even in the prosaic jungles of lower Manhattan to provide youthful lovers with a place to spoon, observes a New York Sun writer. The top of a Fifth avenue bus may do for those who are hardened to the ways of the great city, but there are some, indeed many, who just can't say sweet nothings to each other with the rest of the international world looking on.

For these kind, architects have provided a quiet spot in practically every office building in New York, and it only remained for the sweet young things to find it. They have. It's a fact that the average New Yorker, business man or woman, messenger or stenographer, has no use for the stairway. They, he or she, ride in the elevator, even if it's only one floor. As a result, the stairways have all the seclusion of a quiet nook, hours away from Broadway on the sunny side of a hill, only the light in most stairways is provided by a few candle power globe of varying degree of intensity, depending upon the cubwebs.

And as a trysting spot, well, there was evidence in some that they were also used as a place in which to enjoy a little lunch, while discussing the propensities to begin housekeeping in a little flat on Harlem way, or out in Brooklyn. The evidence being crumbs, cigarette ashes, and an occasional hair-pin.

ASSERTS HE HEARD SHERMAN

Civil War Veteran Was Present When Famous Soldier Declared That "War is Hell."

John Koolbeck, seventy-nine, the only living man who heard Gen. William T. Sherman's famous exclamation, "War is hell," now lives in Denver with his grandson, John Koolbeck. Before his death General Sherman tried to recall the incident of the utterance, but failed. John Koolbeck remembers where, when, why and how the statement was made. He tells the story:

"After Vicksburg, Joe Jackson retreated across the Pearl river at Jackson, Miss. Sherman was in command of our army. I was with Gen. E. F. Winslow as aide-de-camp. My regiment was the Fourth Iowa Cavalry. We were after the enemy and the infantry had just gone over the pontoon bridge across Pearl river.

"General Sherman sat on his horse at the edge of the river, apparently lost in thought. Just as the cavalry started over, the hoofs of the horses clattering against the loose planks, Sherman looked up and called out to us, 'Boys, war is hell!'

"I was at the head of the line with Winslow. So I heard him clearly. Sympathy for his tired troops prompted him.

General Winslow and all other members of his staff are dead. Mr. Koolbeck was the youngest of the party.—Denver Times.

Has at Least One Virtue.

Whatever else may be said about Charles Holmes, negro, no one can say that he is not frank.

Holmes, recently convicted on a charge of burglary, appeared for sentence before Superior Judge Harold Lunderback.

"Holmes, what did you do for a living before you got into this trouble?" asked the court.

"Jes' stealin' and gamblin', Mistah Judge," answered the defendant. "Jes' stealin' and gamblin', sir, and Ah was considered proficient and professional in both lines."

Sympathetic Childhood.

Lately, in a garden not far from Boston, the lord of the manor set a trap to catch the woodchucks that were monopolizing his vegetables. Instead of serving its purpose, the trap caught a neighboring family cat by the paws, and nobody dared to release the agonized animal—until two little children came along. Hearing the cries of the cat, one of the children gently accepted the cat, while the other opened the jaws of the trap and released poor kitty. The incident serves to illustrate the fearlessness of sympathetic childhood in relieving distress.

Novelist Lost Vogue.

During the deluge of "realism" Mrs. Southworth's vogue as a novelist declined, but the older generation, or the older generations, remained faithful to her and her books sold well. Mrs. Southworth had furnished much entertainment for young and old people for more than fifty years, but there came a time when age forced her to restrict her output. At least two of her novels were published after her death, and during her life and after its close many of her stories were republished, and there were numerous "new editions."

Going Up.

"Mildred's dance was in the aviation service during the war, was he not?" "Yes, and I'll wager that he will establish a new record for altitude flights when he discovers how much it costs to keep Mildred in clothes."—Judge.

HALLOWE'EN And don't you know that even wooden indians move on Hallowe'en? Last year in a neighboring town a wooden indian left his cigar store post to be found next morning walking in a movie. Everyone goes somewhere on Hallowe'en. We have brought in some special shirts and neckwear for our young men to wear that night. They are fine values—appropriate patterns. And the new suit you want for that night—just you come and look at what we have for you. Perkins & Britt THE STORE THAT IS DIFFERENT Sanford, Fla.

WILL BOOST HOME PAPERS

Week of November 7-12 Set for Nation-Wide Endeavor

"Subscribe to your home town paper." This is the slogan of a new nationwide movement backed by the National Editorial Association and other agencies. The movement has back of it far more than a selfish desire on the part of newspapers to acquire increased circulation, for it is, in effect, a step toward the perfect unification of America by the strengthening of ties that bind everyone to his native soil.

The campaign is, moreover, an excellent opportunity to boost the home town. The men and women who were born and reared here have, some of them, been away for many years and many important changes have taken place—changes in which they would be greatly interested. It is more often the case than not that private correspondence overlooks these changes, however carefully one might attempt to write "the news" in a letter.

The newspapers, on the other hand, prints all the items of interest, large and small, and is the ideal medium through which to keep in touch with in the old home town.

In order to stimulate this movement we are this week offering an extra copy of The Weekly Herald to every subscriber who calls or writes for it. This extra can be sent, with a special subscription blank which we will furnish, to any member of the family who is away from home. Or, if preferred, we will mail a copy free of charge to anyone you designate.

TAX RETURNS TO BE OPEN TO CONGRESS.

WASHINGTON, D. C., Oct. 31.—Income tax returns made to the treasury by corporations and individuals would be open to inspection at the request of either house of congress under a provision of the tax revision bill adopted today by the senate without a record vote.

Senator Heflin, democrat, Alabama, conferred with southern house and senate members on the possibility of raising revenue by imposing a tax on certain cotton futures contracts of the New York and New Orleans exchanges.

A provision of this kind will accomplish one of two good things, said Senator Heflin. It will either raise several million dollars of revenues or prevent trading in certain cotton futures contracts that are very injurious to the cotton producers of the United States.

The first concrete action of the day was the adoption of a compromise amendment striking out the provision imposing a tax of 50 cents on surety bonds and on all policies of guaranty and fidelity insurance, including policies guaranteeing titles to real estate and mortgage guarantee policies.

Senator Calder, republican, New York, offered an amendment to the corporation tax section exempting from the 15 per cent corporation tax corporations "organized exclusively for co-operative home ownership." The amendment was urged by New York representatives of such corporations, who conferred today with republican leaders.

It has been discovered at the "peace" conference that some Irishmen have no horns.

FIVE ROOM BUNGALOW Located within fifty feet of brick street to be sold this week on very reasonable terms. See A. P. CONNELLY

 There is noting like going "out" to make the republican party get together. When they are "in" they quarrel like cats and dogs and the nation's business suffers.  
 You can't judge by appearances. The bald man is seldom a hard-boiled egg.

**BOSS "BULL" MAN TALKS ABOUT HIS ELEPHANTS AND PEANUTS.**  
 It's a good thing they had a \$12,000,000 peanut crop in Texas this year, said the boss "bull" man of Howe's Great London Circus and Van Amburg's Trained Wild Animals, coming to Sanford, Wednesday, November 2, "for these durn elephants will eat just about that amount of goobers before the long haul back to winter quarters. Every time that ninth 'bull' over there hears a whistle he thinks it's a peanut stand. When the 5 o'clock whistles go I have to plead with him to keep him from walkin' away with the menagerie top. And that after he's eaten all the peanuts that several thousand people have fed him before and after the matinee."  
 "Doesn't it slow up their performance eating all these peanuts?" the bull man was asked. "Eatin' never slowed any of these three herds, especially eatin' goobers. The young ones and the old ones are alike when it comes to the peanuts. Sack after sack as the crowds pour by and never

a bull that has enough. There was once an elephant that lived in captivity to the fairly ripe old age of 130. They say the sick room was stacked with gunny sacks of peanuts during the last illness and that the poor old pachyderm wrapped his trunk around three sacks as he died.

"You take those 'cats'—the lions, tigers, leopards, panthers, jaguars—the gorillas, the baboons, the hippo, those freak beasts in that line of cages across the tent and even the camels, the bleon, the gnu and all of 'em—well, eatin' makes 'em loggy, but the 'bulls' can eat their weights in goobers and dance like Pavlova. Watch Mona Thompson and the other women trainers give 'em the word to do 'the Death of the Swan' dance in the rings today. They'll be chockfull o' those peanuts, but they will float to the music—simply float."

**ASK FOR YOUR RECEIPT.**

Subscribers to the Daily Herald should ask for a receipt when the carrier boys collect from you. It is the only protection you have in case the carrier changes or there happens to be a mistake in the account. Each carrier boy is supplied with receipt books, and is commanded to give a receipt by the Herald. See that you get your receipt at the end of each week if you are paying that way.

BAD MAN IS OUT AGAIN

Roy Gardner, California's mail bandit, escaped from McNeill's Island federal prison recently. This is the third escape of Gardner. In April, 1920, in San Diego, Gardner held up and robbed a United States mail truck of \$97,000 and was serving 25 years when he, with a number of other prisoners, made a dash for liberty during a baseball game at the federal prison. Two of the prisoners who tried to escape with him were shot while Gardner escaped.

ADVERTISING WILL HELP RESTORE NORMAL BUSINESS

Advertising is more necessary today to manufacturers and retailers than ever before. It can be used to help restore the proper balance of trade, produce more work through emptying the dealers' shelves. The sooner any business—and especially the retail business—price their present inventories so that the public will rush in and buy, the sooner salesmen who now have goods to sell will have an opportunity to get real substantial orders from retailers.

Orders from retailers will help the manufacturers make up their minds to help sell their goods to the consumer through advertising. Such advertising—provided the price and the quality of the merchandise are right—will help the retailer sell the consumer at less cost than through any other means.

When you stop to consider that an advertiser may use a national or local newspaper campaign at a cost of 1-10 of a cent per home reached, you can readily understand why newspaper advertising pays so well.

If advertising can be used to restore proper buying by the consumer—and I know it can if properly used—then automatically the unemployment problem will be solved and solved quickly.

So let us all get about to see what we can do to help solve this unemployment problem by getting behind a "Every American build a home" campaign—and also through our efforts to help the retailers clear their shelves through energetic and persistent advertising and salesmanship.—William H. Rankin.

**Sifting Out the Fleas.** It is known that plague is carried from one person to another by fleas and that these fleas normally live on rats, but Major F. W. Craig of the Central Research Institute, Kasauli, India, asserts that only certain species of fleas are to blame, and he is now making a special study of all the varieties of fleas in India in an endeavor to find which is really the guilty one.

Is it not about time for those Irish conferees to ask the public not to expect too much from their meetings

MILLIONS NOW LIVING WILL NEVER DIE

Subject of Lecture at Star Theatre Last Night by J. Edward Grimes

Speaking before a large audience in the Star Theatre last evening, J. Edward Grimes, of Jacksonville, representing the International Bible Students' Association, urged a most literal interpretation of his subject, "Millions Now Living Will Never Die."

"I have the pleasure to bring you the grandest message it was ever a mortal's privilege to convey to his fellowman," he declared, and proceeded to quote scripture upon scripture in support of his contention that the time is coming when the human family will enjoy everlasting life on earth, and that that time will come in the life-time of the present generation. The substance of the lecture was as follows:

All Christians believe that the Bible is God's word and truth. All Christians, Catholic and Protestant, agree that the Bible teaches that God created the first man perfect; that this man sinned and was sentenced to death before he begat any children; that he was driven from Eden, and later exercised his divinely given functions to beget children, and that his children were all "born in sin and shapen in iniquity" (Psalm 51:5); and that for this reason every one of the human race has been born imperfect, inheriting this imperfection from the first man—Adam.—Romans 5:12.

All Christians further agree that God made a promise to redeem man from death (Hosea 13:14); that he promised Abraham: "In thy seed shall all the families of the earth be blessed" (Genesis 12:3); that later Jesus came to earth; that Jesus was baptized in the Jordan; that he was afterwards crucified upon the cross and arose from the dead and ascended on high.

For the past nineteen hundred years Christians have been preaching these doctrines. If they are true, then the pertinent question is, Why has God permitted the carrying out of such arrangement as above mentioned? What is his real purpose in it? Other Scriptures answer this question conclusively, that his purpose is to provide for the restoration of man to his original perfection and thereby grant to man everlasting life on the earth.—Acts 3:19-21.

Every one of the prophets of old foretold that it was God's purpose to grant restoration blessings to the human race. (Acts 3:24). Only a few persons will go to heaven. Jesus said that there would be but a little flock. (Luke 12:32) What, then, will become of the other millions of earth's population? The answer is, God will give them an opportunity to be restored to perfect human conditions. If restoration of the human race is not true, then the promise made to Abraham must be void; the promise to redeem the human race from death could not be true, and the death and resurrection of Jesus would be wholly useless. We know these are all permitted for a purpose and that the perfect wisdom of Jehovah devised this arrangement and he has been carrying it out for the express purpose of blessing mankind.

Jesus plainly said: "I am come that they (the people) might have life and have it more abundantly." (John 10:10). Again he said that he came to give his life a ransom, a purchase price, for man. (Matthew 10:28). Again we read: "God so loved the world, that he gave his only begotten son, that whosoever believeth in him should not perish, but have everlasting life." (John 3:16) Again, that Jesus gave his life a ransom for all, to be testified to all in due time. (1 Timothy 2:5, 6) Unless, then, the

opportunity comes to man to know the truth, to obey it, and when obedient to live, these promises are a mockery and Christianity a failure. No Christian will admit that Christianity is a failure, because he knows it will not be. God's word must accomplish its purpose.—Isiah 55:11.

This being true, then, all must admit that a time will come when this opportunity for life everlasting will be offered to the people. The question is, When is that time? Uppermost in the minds of the Lord's disciples was this question. They expected the Messianic Kingdom to be set up some time. He had told them it would happen at the end of the world. He told them he was going away and would return again for them; and because they were so anxious to know when the blessings promised to Abraham would begin, they propounded to him this question: "Master, tell us how may we know of your presence and of the end of the world."

Jesus did not answer this question by telling them that when the due time arrived God would bring forth some strange phenomenon in the skies; but his answer shows that the evidence would be such that when the time does arrive every thinking person could understand. Hence he answered that the end of the social and political order existing then, and still existing in a measure, would begin with a world war, followed by famine and pestilence and revolutions in various parts of the earth. (Matthew 24:7). These things had the beginning of their fulfillment in 1914. According to Bible chronology, the gentle times ended there, and Christians expected the trouble to begin, as indeed it did. The famine has come; the pestilence has afflicted the earth; revolution has upset many governments and is now threatening all the social fabric of the world.

Jesus furthermore said that at that time there would be great distress in the earth, men's hearts failing them for fear of what they see coming on the earth (Luke 21:25, 26); and now we see this fulfilled.

He further states that as it was in the days of Noah, so should it be at the end of the world. In Noah's day there were giants in the earth. At the present time there are giants. The giants in Noah's day were typical of the giants of this time. At present there are giant corporations which are absorbing all the smaller ones and controlling all the business interests of the world. The big ones are swallowing up the little ones.

Jesus furthermore said that the Jews would return to Palestine and that would be conclusive proof. They have returned.

According to the jubilee system, which was typical of the reign of Messiah when the blessing of the world should begin, the time is here. The jubilee types must of necessity end in 1925, at which time earth's shall cease and the blessings of life begin to be offered to the human race. There are millions of people now on earth who will surely be living at that time; hence if they are obedient to the Messianic kingdom then to be established, they shall live and not die.

Without a doubt that is the time Jesus referred to when he said: "He that liveth and believeth in me shall never die." (John 11:26) And again: "Verily, verily I say unto you, if a man keep my saying, he shall never see death." (John 8:51) The application of Christ's merit will lift the curse from mankind; and then, as the Scriptures show, he will teach men how to think, how to act, how to care for themselves, what is proper food; and gradually they will be regenerated in body and in mind, and thus continuing until all of the human race who are obedient, will reach a state of human perfection and continue to live and not die. Then will be fulfilled the prophetic words of the Master spoken through John the Revelator: "And I saw a new heaven and a new earth; for the first heaven and the first earth were passed away; and there was no more sea. And I John saw the holy city, new Jerusalem coming down from God out of heaven, prepared as a bride adorned for her husband. And I heard a great voice out of heaven saying, Behold, the tabernacle of God is with men, and he will dwell with them, and they shall be his people, and God himself shall be with them, and be their God. And God shall wipe away all tears from their eyes; and there shall be no more death, neither sorrow, nor crying, neither shall there be any more pain; for the former things are passed away. And he that sat upon the throne said, Behold, I make all things new. And he said unto me, Write, for these words are true and faithful. And he said unto me, It is done. I am Alpha and Omega, the beginning and the end. I will give unto him that is athirst of the fountain of the

water of life freely.—Revelation 21:1-6.

In the book "Millions Now Living Will Never Die" each of these points is treated in detail and proven by the Scriptures, more than 500 Scriptural texts being cited.

MEAT INJURIOUS TO THE KIDNEYS

TAKE A TABLESPOONFUL OF SALTS IF BACK HURTS OR BLADDER BOTHERS

We are a nation of meat eaters and our blood is filled with uric acid, says a well-known authority, who warns us to be constantly on guard against kidney trouble.

The kidneys do their utmost to free the blood of this irritating acid, but become weak from the overwork; they get sluggish; the eliminative tissues clog and thus the waste is retained in the blood to poison the entire system.

When your kidneys ache and feel like lumps of lead, and you have stinging pains in the back or the urine is cloudy, full of sediment, or the bladder is irritable, obliging you to seek relief during the night; when you have severe headaches, nervous and dizzy spells, sleeplessness, acid stomach or rheumatism in bad weather, get from your pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast each morning and in a few days your kidneys will act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate clogged kidneys, to neutralize the acids in urine so it is no longer a source of irritation, thus ending urinary and bladder disorders.

Jad Salts is inexpensive and cannot injure; makes a delightful effervescent lithia-water drink, and nobody can make a mistake by taking a little occasionally to keep the kidneys clean and active.—Adv.

A newspaper item says Admiral Sims has declined to make a speech, but those who know the admiral are almost positive he has been misquoted.

Things are not so bad as they might be. We've heard any woman reeling Amos's only a man, but a good cigarette's a smoke."

OFFICE SUPPLIES AT HERALD OFFICE

TYPEWRITERS All Kinds --- All Makes

- NEW L. C. SMITH (Cash or Terms) for .....\$100.00
USED UNDERWOOD (cash) for ..... 25.00
USED MOLLE, PORTABLE (cash or Terms) ..... 50.00

We are agents for the new PORTABLE REMINGTON TYPEWRITER—the greatest machine on the market. It is a big typewriter if you want to use it on your desk. It is a little typewriter if you want to carry it with you anywhere. Can't be hurt, built like a battleship, few parts, simple of construction, will never wear out. Come in and see it. Standard keyboard.

We have also taken the agency for the new FORT PITT Machine—the wonder of the ages in the typewriter world. A standard typewriter that will do any class of work, will do it better, will do it cheaper, will stand the strain longer, easy running, makes no noise, built on the proper lines and the cheapest machine on the market.

ONLY \$75, Why Pay More

Everything is coming down—so are typewriters. Don't be misled on this subject. Let us show you how you can save money on this necessary adjunct to your business office.

The Herald Printing Co. ALL KINDS OF TYPEWRITER RIBBONS, PAPER, SUPPLIES

Build It Now! This funny looking little guy with the big nose and bald head has got to face the music. The determined attitude of the Mrs. tells us that she is absolutely through seeing rent money handed over to Mr. Landlord. She wants a brand new home of her own. She's got the plans, and she knows where the lumber is coming from. Us! There's another bald-headed man in this town who said he was going to build this year. If he doesn't get busy pretty soon we'll set his wife on him! HILL LUMBER CO. SERVICE QUALITY PRICE
