

New Father Reports Shortage Of Names

there's a shortage of girls' first names, according to the father of a three-week-old Liverpool, N. Y. girl, who returned a name form to the county unfilled.

chell, county registrar of vital statistics, the father wrote: "We have not named the child yet and have no reason for believing we will do so soon. The fact is we spent some time getting

a name. The child turned out to be a girl and we could not get the name we spent so much trouble getting. Times being what they are, shortages of everything—it will be impossible to get a name within a reasonable time."

Mitchell said it was the first time in the history of the department that a supplemental name form had been returned without the necessary information written in.

Fire losses attributed to flammable wooden roofs exceed \$16,000,000 annually.

Every year, more than 3,500 lives are lost in farm fires alone.

Bodies Of Fliers Found In Heroes' Grave In Norway

VERSAILLES, France—The American Army graves registration command, in final reports issued here, told how the bodies of 11 United States Army air corps fliers, missing since September 9, 1944, were found in recent Scandinavian operations of a U. S. Army disinterment team.

The crew in a four-engine bomber bound with heavy cargo for Norwegian underground forces crashed into towering Mount Skor-

vefoll, in the Telemark Mountains, shortly after midnight on September 10, 1944.

The disinterment team found that their bodies had been buried in a common grave by loyal Norwegians with a stone marker nearly engraved "they gave all a man can give for freedom and peace."

Fresh flowers decorated the grave and bring the bodies back to life.

Cabinet Gives Study To Coal Strike Threat

Attorney General Is Analyzing Contract Between J. L. Lewis And Government

WASHINGTON, Oct. 25. (AP)—The threat of a strike in the coal mines was carefully considered today by top-level government leaders.

The subject was discussed at a 40-minute meeting of President Truman's cabinet. Attorney General Tom Clark disclosed that his office is analyzing the government's contract with the United Mine Workers.

That the agreement which was negotiated last May after the government took over the idle pit coal mines. The boss of the United Mine Workers, John L. Lewis, wants the contract re-opened. He says he will consider the contract void unless the negotiations start by Nov. 1. The government, which still is operating the mines, has taken the stand that the contract must remain in force until the mines are returned to their private owners.

The Attorney General made it clear today that he had not been asked to study the contract, but he added:

"We always analyze those things so we will be ready if called upon."

As for today's cabinet meeting, all that could be learned immediately was that the coal situation was mentioned. It was said that President Truman gave out a statement which was an optimistic over chance of preventing the walkout.

On the brighter side is the settlement of a strike which had dragged on for half a year at the Allis-Chalmers farm machinery plant in La Crosse, Wis. The settlement won a pay boost of 10 cents an hour.

The situation in the maritime strike also is seen as hopeful. All that stands in the way of a settlement now as far as east and Gulf coast ports are concerned is a matter of a few days. A proposal made by the A. F. of L. Masters, Mates and Pilots Union, Terms of the union's latest offer to the ship operators have not yet been disclosed.

With the merchant marines still tied up, New Yorkers found themselves surrounded by 10,000,000 pounds of sugar — but it might just as well have been on the moon as in New York harbor. The sweet stuff is lying aboard strike-bound cargo ships, and can't be unloaded.

The strike of pilots on trans-Atlantic airlines continues to move toward possible settlement at wage parleys in Washington.

In Hollywood the dove of peace is fluttering above the war movie industry. A jurisdictional row which has been going on for 18 months, the two rival unions involved, the conference of studio unions and the International Alliance of Theatrical Stage Employees, are expected to agree to submit their dispute to arbitration.

Plans Are Made To Promote Research

TARPON SPRINGS, Oct. 25. (AP)—Plans to establish a Florida Resources Research Center, similar to the famous Woods Hole Laboratory at Cape Cod, on three small islands in the Gulf off Tarpon Springs were announced today.

Dr. Robert James, a Clearwater Beach inventor who was closely associated with the Woods Hole Scientist, says the James Foundation which he heads, has leased Abisko Key, Datchman's Key and North Key from the Department of the Interior on a 20-year basis. A government lighthouse is located on the southern tip of Abisko Key, the largest of the three islands.

The Florida scientist, a pioneer in perfecting the concentration of citrus juices, states experiments will be conducted in chemistry, physics, bacteriology, oceanography and anything else suggested to the foundation as a means of developing any source of food, shelter or clothing through the expansion of Florida's natural resources.

Dr. James has been experimenting for some time on converting seaweed into agar. The plans to continue this study as well as analyzing many of the 600 varieties of seaweed in these waters to determine new edible species, trying to develop uses for the thousands of acres of non-commercial sponges in the Gulf area off Tarpon Springs, and experiments in local wood.

Dr. James plans to confer with Florida members of Congress to secure help in getting priorities and the materials and equipment needed for his island laboratory.

Inactivated Armada

Part of the huge 300-ship armada anchored at Green Cove Springs on the St. Johns River lie quietly at rest, framed by trees. It is here that the largest group of ships in the entire United States is moored, some awaiting inactivation, some totally inactivated. Eventually, 351 ships will be berthed at 11 piers now being constructed at a cost of over \$10,000,000.

Morris Reports On School Meet In Gainesville

Plans Made By Superintendents For Improving Of Schools

Many plans of school organization and finance, based on answers to questionnaires recently circulated among citizens, were figured out by superintendent of schools in his state at his meeting this week in Gainesville, and these plans will be recommended to the Legislature as a means to improving the educational status of the State of Florida according to Herman E. Morris, acting county school superintendent.

In the matter of school finance, the superintendent proposed a balanced, comprehensive program of state aid as recommended by the advisory committee of school finance. Mr. Morris reported that he was recommending that more study be given to the tax-paying abilities of various school districts, and that counties make school taxation efforts in line with their ability to pay; also that possible deficiencies be made by the State.

It was decided that teachers' salaries should be decided on the basis of previous training. Other recommendations by the committee were: place the cost per unit of transportation at \$1,200; allow each instructional unit or classroom a \$300 upkeep allowance and a capital outlay of \$400 annually for permanent outlay such as building repairs. This setup will be of such a nature that all schools in the state will share equally in this program, said Mr. Morris.

Laws were recommended that the total allotment for teachers' pay be exclusively expended for that purpose and for no other. It was also proposed by the Finance Committee that salaries of superintendents be put on a fair and equitable basis, and that the \$900 restriction clause be eliminated.

The naming or election of school superintendents is to be left up to the counties. It was decided it was recommended that in naming future superintendents, that they have an M. A. degree and two years' experience as an administrator also a teacher's certificate. This law is not to be retroactive or pertaining to superintendents already appointed, said Mr. Morris. School principals (as in Seminole County) are to be appointed by the State after consulting with trustees. Principals in towns will recommend teacher appointments.

The matter of teachers' salaries is still being worked upon. The next meeting of superintendents will take place Dec. 5 in Jacksonville.

JAPS TO HANG

SINGAPORE, Oct. 25. (AP)—An Australian war crimes court has sentenced General Kumakichi Harada, the commander in chief of Japanese air forces in Java during the war, and his chief intelligence officer, Col. Kazuo Masugi, to be hanged. They were charged with unlawfully ordering the execution of three Australian airmen forced down during wartime minelaying operations off Macassar.

10 Are Killed As Riots Flare In Calcutta

Agreement On Posts In New Government Is Regarded As Encouraging Event

CALCUTTA, Oct. 25. (AP)—Ten persons were killed and 37 others were hurt this morning in a new outbreak of rioting during Hindu-Muslim rioting in Calcutta. Rioting has upset normal routine in Bengal to such an extent that officials here are trying to rush food into the trouble areas.

But there's better news from India's boiling political front today. In New Delhi, a high source in the Hindu-led All-India Congress party says the Congress and the Muslim League have reached a compromise.

It's apparently a solution to the distribution of portfolios in the interim coalition government. That's the issue which had threatened to bring about the resignation of all Congress party ministers. It's expected that the cabinet posts will be announced shortly by the Viceroy.

Seminole Is First In State Among Vital Statistics

Seminole is the first county in Florida to have its bureau of vital statistics located at a health unit, according to Dr. Frank Quillman, director of the Seminole County Health Unit.

Clayton Mayo, state director of vital statistics, which include a record of births and deaths, intends to make a different set-up than the one formerly in use in compiling these statistics, said Dr. Quillman and all counties which have health units will follow the example of Seminole.

The late H. C. Hawkins was in charge of these statistics for the Sanford, Lake Monroe area. Miss Dorothy Pope of the Health Unit is now deputy registrar for the area. Mrs. J. C. Howell at Titusville, Longwood, etc. J. B. Jones will be deputy for the Oviedo area. Securing of these vital statistics is of vital importance from a health angle, said Dr. Quillman. He has shown motion pictures relative to the body defense against disease and given talks on the subject to more than 2,000 school pupils at seven schools. In addition, he has given two other talks based on the facts of nutrition.

The cause and cure of Much Sores of Florida sores, technically known as impetigo contagiosa or skin disease caused by streptococci or staphylococci, and which is highly contagious, is the subject of an article written by Dr. Quillman for his monthly publication, "The Seminole Chief." The only thing needed to prevent it is to use soap and water daily," he writes. If promptly treated, impetigo may be cleared up in a few days, but often it is neglected and lasts for weeks.

ESTONIANS READY
MIAMI, Oct. 25. (AP)—Sixteen Estonian refugees, heartened by an expression of sympathy from President Truman but ordered to leave the country, were today preparing today to sail for the Dominican Republic. But the group will leave without their leader, Capt. Felix Tandere, He has advised Francis Dever, officer in charge of immigration, that he and his wife will not go to the tropics. Capt. Tandere says his wife's heart condition will not stand the climate.

SETON FOUNDATION
SANTA FE, N. M., Oct. 25. (AP)—The 2,500-acre estate of Ernest Thompson Seton near Santa Fe, N. M. is to become the Seton Foundation for the study of natural history. The 84-year-old Seton, who was an author, artist and naturalist, died Wednesday.

Dick Holtzclaw Ends Happy Vacation Here
After a happy two months' vacation, during which he was free from IRS income tax restrictions following his discharge, Sanford's noted "operatic" tenor, Dick Holtzclaw, professionally known as Richard Wentworth, laid down his fishing rod reluctantly, sang a sweet farewell to the St. Johns River and his favorite fishing haunts, and left for Detroit, Mich. to report for rehearsals in a new musical play.

According to Charles Holtzclaw, his brother and a former Army captain, Dick spent most of his time fishing while here, and gained back some of the weight he had lost while in the Army. He was formerly with the Chicago and San Carlos opera companies.

REDS DEFEATED
BRIGHTON, ENGLAND, Oct. 25. (AP)—The British Trades Union Congress has defeated a resolution which was critical of Britain's foreign policy toward Greece, Spain and Germany. The action followed a charge by Prime Minister Clement Attlee that the measure was filled with communistic misrepresentation.

Russians Yield To Pressure For Debate On Veto Power

As U. N. General Assembly Convened In New York

THIS GENERAL VIEW, taken from the rear of the auditorium, shows the 300 delegates from 51 nations listening to President Harry S. Truman open the General Assembly at Flushing Meadows, New York. After the formal opening, the Assembly will get down to the difficult task of attempting to bring peace to the world.

Police Arrest 150 Jews After Night Of Bombing

Twelve Persons Were Wounded 3 Seriously By Explosions

WASHINGTON, Oct. 25. (AP)—Secretary of State James Byrnes today placed the State Department on record as wholeheartedly supporting President Truman's demand for immediate and substantial immigration of European Jews into Palestine. Secretary Byrnes made that statement in a letter to Rabbi Stephen Wise, American member of the Jewish Agency for Palestine executive committee.

British police have arrested 150 Jews following the night explosion of three bombs and hand grenades in the Haymarket district of London. Twelve persons were wounded, three of them seriously. The injured were listed as 11 soldiers and one civilian, a ten-year-old Arab boy.

The situation in Jerusalem is described today as tense, with soldiers on patrol, snipers in the bushes, three of whom were taken from a number of roundups at the scene of the bombings. The army explained, however, that no actual suspects have been arrested.

The outbreak here is a ground organization, the Steeg gang, had warned earlier in the week that British soldiers firing firetraps would be shot. Propaganda leaflets declared that more and more bombs would be put in the path of British army vehicles.

The soldiers injured last night were enforcing the recently imposed down-to-task curfew, imposed on Jerusalem's Jewish quarter. The outbreak here is a ground organization, the Steeg gang, had warned earlier in the week that British soldiers firing firetraps would be shot. Propaganda leaflets declared that more and more bombs would be put in the path of British army vehicles.

PROCLAMATION
WHEREAS, Navy Day Nineteen Hundred and Forty-six affords the people of the United States an opportunity to salute the achievements of our Navy; and
WHEREAS, this first Navy Day following demobilization from mankind's greatest war offers an opportunity for public recognition of the peacetime mission of the Navy, to guard our nation's freedom; and
WHEREAS, this year is an especially appropriate occasion to honor the veterans of World War II and to emphasize the importance of maintaining a strong peacetime Naval Reserve, trained and ready to man our fleet in the event of national emergency; and
WHEREAS, the slogan for Navy Day, this year is "Your Navy, Your War, Your Honor in Peace";
THEREFORE, I, H. JAMES GUT, Mayor of Sanford, Fla., hereby proclaim Sunday, October Twenty-Seventh, Nineteen Hundred and Forty-Six, as Navy Day and call upon all citizens of Sanford to take part in observance of this day through the many channels open to them.
Herein unto I have set my hand this 22nd day of October, 1946.

H. JAMES GUT,
Mayor, City of Sanford, Fla.

John R. Jones, Jr. Named Instructor At Seminole High

Price Of Meat Is Cause Of Anguish Among Shoppers

John R. Jones, Jr. has been appointed full time instructor in the Vocational Agriculture Department at Seminole High School for veterans who desire the farm training.

Jones served in World War II and was graduated from Seminole High where he won honor in Future Farmer work. Jones was honored by being selected as the best Future Farmer for the State of Florida and won the American Farmer Degree, the highest Future Farmer honor that a student can attain at a Future Farmer meet in Kansas City in his senior year at the local high school.

Jones attended the University of Florida school of agriculture for three years and majored in truck farming. He has been active in truck farming in Sanford since 1932 and has a farm on Bear Hill Avenue.

Jones served in World War II as a flight instructor in the Air Corps Reserve.

The training program includes three hours each week in classroom instruction, two hours per week in field work on the farm, and a one-hour session on the individual's farm, and three hours per month are devoted to maintenance and use of farm equipment.

During the past month the 14 enrolled students have studied the insects and diseases relative to truck crops. Any veteran who is interested in studying under the farm training program is requested to contact Alex R. Hanson, county supervisor of the farm training.

Lions Club Plans To Sponsor Circus Here

The Sanford Lions Club today decided to sponsor a circus in Sanford on Oct. 31 to arrange their aid to the blind program. An appeal by Miss Edna Chittenden for aid in raising \$1,500 toward making the Seminoles High School library up to date, was taken under consideration by the club.

Carl Schultz and Robert Dennis, new members, were welcomed by King Lion Henry Witt. Several members were fined by Tail Twister Dick Elsherry for wearing neckties.

TWO WOMEN KILLED
In Domestic Tragedy
"GARDEN CITY, N. Y., Oct. 25. (AP)—Nassau county police have unfolded the story of a domestic tragedy which brought death to two women.

They say that Dr. Frank H. Lasher, a prominent physician, shot to death his wife, Gladys, about 45 and her mother, 75-year-old Mrs. Emma Bryan. Lasher also is said to have wounded his 21-year-old son—a Navy veteran—and then turned the gun upon himself.

According to district attorney James Gehrig, the 60-year-old doctor committed the act apparently in disappointment over his son's failure to resume medical studies because of disabilities he suffered during the war.

The son is in one hospital with a bullet wound in his chest while Dr. Lasher is in another with four bullet wounds inflicted by a .22 caliber rifle. His condition is described as extremely critical.

Price Of Meat Is Cause Of Anguish Among Shoppers

Butchers Expecting Lower Prices As Supply Increases

By WILLARD CONNOLLY
Some a dozen men met today where several elderly housewives were gazing longingly at the well filled meat counter. Their attention was focused upon some fine looking pork chops with a price tag marked 81.

"I wonder if it costs anything to look at these?" observed one lady sadly.

"No, I don't think so," replied the other lady. "Just take a good look, go home and take out your frying pan and imagine you are frying pork chops."

It is easy to see that if the situation persists and enough housewives buy imaginary pork chops, the price of the real ones will be a good deal higher.

The butchers' take an optimistic view of the situation, however, and predict that high prices will not last long. The president of one local Florida meat market, who is also president of the manager of the local stock exchange, said that the price of pork chops will drop from 60 to 35 cents a pound, and that the price of beef will drop from 45 to 35 cents a pound.

Meanwhile, according to a local meat counter manager, he has had to pay a wholesale price of 48 cents a pound on sides of beef, 40 cents on family carcasses, 51 cents on pork hams and 60 cents on white bacon. He explained that present "small rises" in price are due to elimination of the five-cent a pound subsidy formerly paid by the government to processors to hold prices down.

NAVY DAY SHOW

NEW YORK, Oct. 25. (AP)—Twenty-six units of the United States fleet—led by the battleship Missouri—steamed into New York harbor today to take part in Navy Day celebrations. Among the ships anchored in the bay are the destroyers Conne, Fletcher, Cuyler, Gurko and Strubling; There's the light cruiser Little Rock, the assault transport Noble, the landing-craft repair ship Gordius and several LSM's and LST's.

CHURCH DRIVE

NEW YORK, Oct. 25. (AP)—The Presbyterian Church in the United States has opened a drive to raise \$27,000,000 to rebuild and strengthen church agencies which were weakened or destroyed in the war. At a news conference in New York, a spokesman said that \$16,000,000 will be used to aid Protestant groups in Europe and the Far East.

SALE

D. D. Daniels, Oviedo grower, has purchased the Cushing House, largest rooming house in Oviedo, from Mrs. Annie Fleming.

THE WEATHER

Scattered thundershowers in north-west portion and widely scattered showers east and south portions this afternoon. Scattered thundershowers over north portion tonight and over south and central portions Saturday. Cloudy and cooler in extreme north portion Saturday.

Vishinsky Declares However, That Such Discussion Will Be Only Waste Of Time

NEW YORK, Oct. 25. (AP)—Russia today backed down on her demand that the veto question be stricken from the agenda of the United Nations General Assembly. The Russian demand was withdrawn today by Andrei Vishinsky in the face of strong opposition led by the United States and Britain. However, Vishinsky warned that while his country now will agree to debate on the use of the veto, such discussion "will be a waste of time and will bring no practical result."

The meeting of the 14-nation steering committee had proceeded strictly according to advance predictions until the surprise Russian move. As had been forecast, Vishinsky led off the committee session with a demand that the veto be stricken from the agenda. No sooner had Vishinsky taken his seat, than a British delegate, Sir Hartley Shawcross, took the floor to express his opposition. The United States delegate, Acheson, then stated that a veto question should be stricken from the agenda. Vishinsky led off the committee meeting. He added that any change in the veto provision of the UN Charter would be a "head blow to the peace agency."

Vishinsky wasted little breath in announcing his stand. Said he: "Soviet Russia will reserve the right to express its opinion on the veto question at the right time. I will now say only that these terms should be stricken from the agenda."

OPA Continues To Decontrol Prices

WASHINGTON, Oct. 25. (AP)—Deputy Price Control Administrator McNeal today announced that he had decontrolled prices on a number of items. The new list, he says, will include a number of clothing items, such as suits, coats, dresses, and shoes. McNeal says a master list of goods to be freed from price ceilings is now on OPA Chief Paul Porter's desk.

The most items to be decontrolled include suits, coats, dresses, and shoes. McNeal says a master list of goods to be freed from price ceilings is now on OPA Chief Paul Porter's desk.

Asked by newsmen if the list would be issued before the election, McNeal said: "I don't know."

GHOST ROCKETS

STOCKHOLM, Oct. 25. (AP)—The Swedish newspaper Aftonbladet today quoted a German worker arriving in Stockholm as saying that Germans had seen Russians fire "ghost-rockets" from Stolpmunde northward across the Baltic Sea coast, midway between Danzig and Swinemunde.

SHAME!

MADRID, Oct. 25. (AP)—The Flangist newspaper Arriba has denounced Secretary-General Trygve Lie's report to the United Nations Assembly yesterday. The report urged to prompt action against the Franco regime. This, says Arriba, is a "typical monument to Communist shamelessness."

ORANGE BOWL BULGES

MIAMI, Oct. 25.—Attendance at the 1946 Miami-Holy Cross Orange Bowl football game was an all-time high—38,000.

 HENRY A. WALLACE

Editor Wallace
 Henry A. Wallace, in deciding to become editor of the New Republic, has chosen a good way to keep his views before the public. This method was adopted by Theodore Roosevelt on retiring from the presidency. He became contributing editor of the Outlook, a long-established weekly remembered by older readers. Coolidge also turned to writing a column.
 It is somewhat comforting to other editorial writers to hear that far from getting the \$75,000 per year first announced as his stipend, Wallace will get something nearer one-fourth of that amount. Editorial writing has its values, but seldom a commercial value like that of the early Wallace rumor.
 The position has perils as well as advantages. The necessity of saying something every week may lead a man to express views which he later regrets. Even an avowed politician as Theodore Roosevelt found this out. Soon after the first world war broke out, he wrote in the Outlook that the fate of Belgium, overrun by the Germans, was none of our concern. Later he criticized President Wilson sharply for not having protested strongly against the German invasion of Belgium. The fact that he had once advocated President Wilson's precise course was brought up and decidedly blunted the edge of his criticism.
 Editor Wallace may encounter similar pitfalls.

Social Calendar
 MONDAY
 Truth Seekers Class of the First Methodist Church will hold the annual luncheon at 1:30 P. M.
 TUESDAY
 The Presbyterian Business Women are invited to meet with the Business Women of District No. 2, Oct. 22, at the First Presbyterian Church in Orlando.
 Mrs. Joe Corley is in charge of transportation arrangements.
 The Women of the Presbyterian Church will meet in the Social Room of the Presbyterian Church to make bandanas for the White Cross chapter at 9:00 A. M.
 The First Baptist Church will have a social for all members of the church at the church annex at 7:30 P. M.

Mrs. Fred Williams Sponsors Art Show
 An exhibition of fine arts from the House of members of the Sanford Women's Club will be held Wednesday afternoon at the club with many articles from foreign countries being shown. Mrs. Fred T. Williams, Mrs. W. A. Leavitt, Mrs. O. P. Herndon, Mrs. W. B. Brisson and Mrs. Francis Meriwether.
 The exquisite tea table arrangement was formed by the table being laid with a lace cloth and centered with a bouquet of garden flowers. Silver services were placed at each end of the table. Home baked fancy cookies and cakes and mixed nuts were served with tea. Hostesses for the afternoon included: Mrs. C. J. Fisher, Mrs. E. C. Harter, Mrs. John Eick, Mrs. H. A. Moutch and Mrs. C. A. Heitzel.
 Members present were: Mrs. C. R. Dawson and Mrs. Rosemary Dawson, Mrs. E. B. Clemens, Mrs. H. M. Crumley, Mrs. F. E. Smith and Mrs. S. M. Hightower.
 Also present: P. Herndon, Mrs. J. E. Stephenson, Mrs. J. A. Cobb, Mrs. J. S. Spencer, Mrs. H. W. Neasey, Mrs. E. E. Blair, Mrs. H. I. Lehman, Mrs. John Eick, Mrs. J. E. Neasey, Mrs. B. E. Beck and Mrs. W. B. Brisson.

Phyllis Shames Is Given Birthday Party
 Mrs. Frank Shames honored her daughter Phyllis with a lovely party on Tuesday at her home in Mayfair upon the occasion of her eleventh birthday. The group of guests gathered in the party room around a fire and enjoyed telling ghost stories, toasting marshmallows, cooking hamburger and playing games.
 Fun and potato chips were also served during the evening. Jack-batters and paper plates were the festive party decorations. A sandcastle match was held and prizes were awarded as follows: Sandra Dunn who dressed as a gypsy in a red and blue flowered skirt with a red and blue sash and ruffled blouse; Sammy Jacobson who came as a grandmothers Linda Leonard and her sister Edna Leonard; one-eyed Pete the Pirate.
 Those enjoying the party were Jeanette Hatfield, Linda Leonard, Evelyn Johnson, Joan Wright, Sandra Dunn, Mary Ann Wilkes, Mildred Miller, Beverly Gray, Nettie Ruth Batters, Gert Bratt, Susan Shames, Garret Johnson, Sammy Jacobson, Tommy Spear, Sydney Johnson, Edwin Tison, George Hardin, Bobby Morris, Gordon Toll, Henry Corley and Mrs. Cecil S. Shepard and Earl Ratliff.

Fire Safety
 Most people have, without thinking much about it, a feeling of personal safety when they are sheltered by a building called fireproof. This feeling is without function in fact, according to Maurice Webster, an architect, writing in the October Atlantic. He says:
 To say that a hotel is of fireproof construction means that it has been so designed as to eliminate the possibility of more than a minimum and predictable fire loss. Fireproof construction is the child of fire insurance, and any safety to occupants is merely a by-product.
 Mr. Webster goes on to say that most buildings are designed to contain a fire of intense heat for a period of hours without serious damage to their construction. The design of many large buildings is favorable to the quick spread of fire and to the formation and spread of dense gases which are the cause of the heaviest loss of life. This, no matter how carefully marked, are usually obscured by smoke. The wonder is that anyone at all escapes from such traps.
 The public should demand that all buildings housing large numbers of people should be not only fireproof but fireless. This could be done by the installation of automatic sprinkler systems and vents for elevator shafts and stair wells. Protection of life is surely more important than protection of property.

Overseas Business
 Aeronautical shows, automobile shows, mercantile fairs and business displays in European countries, are recently organized by their governments to eliminate countries' intention to take an active part in world trade.
 According to an article in Business Week, France, Holland, Switzerland and Russia are aggressively going after foreign markets for their goods and are getting the orders. Great Britain is in the forefront of this movement, and on a larger scale than any other country. Their exhibition can take it" exhibition is being advertised all over the world, and everything displayed being advertised all in a reasonably short time. The article claims that the U. S. is lagging far behind Europe in this competition.
 Businessmen say that the ten per cent of our manufacturing factors which we normally export makes off the difference between operating at a profit and merely breaking even. In that case, American business had better get on the ball and start taking the order books around the world.

SANFORD FORUM

Ellis Sanford Herald:
 The writer will appreciate space in your Sanford Forum to publish complimentary Mr. R. A. Cobb for his very plain and complete data regarding this headcase that is so aptly named the tax payers and the slaughter house. In an area named the Slaughter House that is being made by the property owners in the area the County Farm Bureau had better find some other place for this firm in Slaughter House and cattle to save being this imposition to a head. If not then it is going to be taken over the heads of the Farm Bureau and it will not be long before they will realize it.
 Yours very truly,
 O. E. WILHELM

BLACK BLACK MARKET
 PARIS, Oct. 25 — (AP) — The French black market has done an about face. A court at Sena found 1,286 eggs under the official price floors. The buyer was a cooper about it until the firm decided to quit.
 Now, we have before us one tell what, in the way of orders and unsatisfactory conditions because one knows that this work proposed cannot be carried on without showing these above mentioned results.
 The press-plan, yes we used it, but the Slaughter House, positive ly no and from the comments that are circulating and moves that are being made by the property owners in the area the County Farm Bureau had better find some other place for this firm in Slaughter House and cattle to save being this imposition to a head. If not then it is going to be taken over the heads of the Farm Bureau and it will not be long before they will realize it.
 Yours very truly,
 O. E. WILHELM

Seminole High Invades St. Petersburg For Tilt Tonight

Florida Military Academy To Give Celery Feds Battle

Cadets Have Strong Starting Eleven But Reserves Are Weak

The Seminole High School Celery Feds will invade St. Petersburg tonight to tangle with Al Rogers's Florida Military Academy eleven in a tilt that promises to be hard fought and well played.

The Feds will be in top condition to battle the Cadets, because the local lads have not engaged in a gridiron battle since defeating the DeLand Bulldogs on the local field Thursday two weeks ago by a 26 to 19 margin.

The Cadets have a strong first team, but reserves are few. A hefty right guard, Buddy Freeze and a bruising right tackle, Roland Wilson are the standouts in the F. M. A. line.

The backfield is considered tans, light yet fast and elusive. The F. M. A. backfield quartet are feared by all opponents. Mercury Kavoushli (the kid with "mercury" in his heels) is a skat back.

Joe Ezar, Trick Shot Artist, To Appear At Club

Buffet Supper Will Be Served After Exhibition Match

Joe Ezar, nationally known trick shot artist, who has participated in golf exhibitions and is well known in the pro ranks, will exhibit his trick shot artistry at the Seminole Country Club Sunday afternoon at 5:00 P. M. The public is cordially invited to attend and no admission will be charged.

An exhibition match will be played at 1:00 P. M. Those who will participate in the match are Joe Ezar and Clyde Terwilliger against Jim Spencer and G. W. Spencer. The contest will be an 18 hole match.

Following Ezar's tricks a buffet supper will be served and all members of the club and their guests are invited to be present.

Jaycees, Blackouts Cop Bowling Lead

The Sanford Bowling League got under way last evening and when the dust had settled scores found the Jaycee and Blackout teams tied for first place, having won three each.

The high team for a single game was held by the Jaycee quintet with a total of 741.

High scorer for a single game was Ed Jenkins bowling for the Jaycees, who rolled 297.

STANDINGS

Team	Won	Lost
Jaycees	3	0
Blackouts	3	0
Lance Toast-Chee	2	1
Bauer's Appliances	2	1
W. O. State Bank	1	2
Vets Happy-Go-Lucky	0	3
Seminole Co. Motors	0	3

Dave Crisp is a fighting fullback. Ed Spivack is rated as a fine break-away artist and Doug Middlebrook is highly touted as a blocking back.

The Cadet starting lineup includes: Sam George, 158, and Ralph Dewberry, 148, at the end posts; Ernie Whitehead, 175, and Roland Wilson, 185, at the tackle spots; Mack Strauss, 158, and Buddy Freeze, 195, guards and Ed Jamison in the center of the forward wall; Middlebrook, 158, at the quarterback slot; Spivack, 147, and Kavoushli, 160, at the halves and Crisp, 158, in the fullback position.

Last year the Cadets won seven contests and dropped three. This year Rogers's gridlers have copied two games and have been defeated in two tilts.

The Celery Fed starters will likely include: Spencer Hardin and Howard Wheelchel at the end posts; Harold Kastner and Bobby Sparkman at the tackle spots; Bill Ludwig and Nollie Trapp filling the guard spots and Gwynne Reef at center. In the backfield will be Clarence Grantham at quarter, Jan Jenkins and Holly Percy at the halves and Willis Anderson in the fullback position.

Photo by Raymond Studio
Clyde Terwilliger, Jr., local club pro, who will team with Joe Ezar, nationally known golfer and trick shot expert, on Sunday afternoon at 1:00 P. M. on the Seminole Country Club course to play against G. W. Spencer and his brother, Jim Spencer. Sanford's top amateur golfer, Joe Ezar will give a trick shot exhibition at 5:00 P. M. following the match. The public is invited to attend.

INSIDE SPORTS REPORT

By ARTHUR BUCKWITH, JR.

Football Predictions
The Duke-Army game will be the "Game for the South" Saturday. Duke has quite an impressive record so far this year and their win to 9 trouncing of Richmond last week enhances their spirit. Army, with the touchdown twins, will dump Duke.

The University of Florida's Fighting Gators tangle Saturday with North Carolina in what promises to be a better game than many people expect. Florida played inspired ball against Miami last Saturday and with Parker and Graves in the lineup the Gators will be still harder to down. Florida is definitely improving but they won't have the stuff to beat Charlie "Choo-Choo" Justice and Walt Pupa of North Carolina.

Tennessee will continue their victorious march and will take Wake Forest. Tennessee's precision and power battered a highly praised Alabama team last week, so we think Tennessee will take Wake Forest.

Georgia Tech ran roughshod over L. S. U. in a 26 to 7 battle last week as one of the remaining football powers in the South. Georgia Tech will toss Auburn.

Harry Gilmer is due to drive

Alabama back into the win column with a victory over Kentucky. Kentucky was lucky to eke out their 10 to 7 win over Vandy Saturday.

Indiana will trip Kentucky. Notre Dame will romp over Iowa; observe Oklahoma; Holy Cross will trip Harvard; Col. Umiar will trim Dartmouth; Cornell to beat Princeton; Texas Aggies to corral Baylor; Missouri will lick S. M. U. and Yale to rout the Conn. Guard.

West Virginia to win over Syracuse; Oklahoma to triumph over Washington; Southern Cal. to down Stanford; U. C. L. A. to smother Santa Clara and North Carolina State will have an easy time with V. P. I.

Ride—Don't Walk Is Modern Motto
FORT WORTH, Tex. — Boys nowadays won't even walk to the corner store and that's a reason why there are more knee injuries, observes Albert (Smitty) Smith, veteran trainer of Texas Christian University football teams.

Smitty, who has been trainer, custodian of equipment, greenkeeper for athletic fields, painter, father confessor, bucket-upper and friend to countless boys in the two decades he has worked at the school that produced such grid giants as Sammy Baugh, Davey O'Brien, Ki Aldrich and Darrell Lester, says:

"These kids don't walk anymore. Why they drive a car half a block to a store. No wonder knees don't stand the grind as well as they used to."

But Smitty hastens to say that while the boys these days are not nearly so mature and tough they're smarter—they have to be to learn all the stuff used in football now. "I'll take the smarter kids even if they aren't as old or tough," he declares.

Times sure have changed, the trainer observes. "When I came to TCU Matty Bell was coach, we had

Tex. Lineman Says Military Service Doesn't Harm Play

By HAROLD V. RAYLAY

AUSTIN, Tex. — Harold (Spot) Collins, the chunk of granite down in the mighty University of Texas line, says nuts to the observation that military service handicaps an athlete.

"If a guy keeps in mind, all the tips that he's going to get back and play the best possible game he can play, he'll not let himself get so far out of shape that he can't get back in condition by some conscientious work," declares the defensive leader of the Longhorns, who ought to be well-qualified to speak on the subject.

Spot was all-Southwest Conference back at Texas before the war. That's when he directed the offensive plays. Then he served a three-year hitch in the Marines, seeing action at Okinawa and duty in China.

He's one of the few college players who have directed both offense and defense during their careers.

Collins returned to Texas this year weighing 215 pounds—which was a little too much for a fellow who's only 5 feet 8 1/2 inches. By some good hard work he trimmed down to 195 for the start of the football season. Since then he's dropped another five and will probably stay at 190.

His switch from the backfield to the line is indicative of his type of playing. He always has been a team player and his every act is directed for the benefit of the team.

They are amazed out at the university at Spot's ability to diagnose and nail opponents' plays as they break.

Collins has been outstanding in clearing holes for speedy Ralph Ellsworth, Bobby Layne and the other Texas runners to scamper through, and bawking rough to dump opposing backs for losses or very little gain. The way he's going he'll be one of the few football players ever to make All-Conference both as a back and lineman. He is one of the most aggressive leaders Texas football teams ever have had. Quick to spot a weakness in opposing teams and direct Longhorn players to it, Collins generally plays like a back on defense where he can speedily remedy any error in play.

On offense, he plays an aggressive game and makes a habit of out-charging his opponent.

This will be Spot's last year at Texas. He plans to continue in football as a coach after graduation.

Official Testifies In Hearing Over Commission Rule

MIAMI, Oct. 25—(AP)—An officer of the Florida Tackle and Gun Club and wildlife editor of a Jacksonville publication is to continue his testimony today in a hearing in Miami attacking the State Game and Fresh Water Fish Commission's ruling that has closed Lake Okechobee to commercial fishing.

The witness is Paul Mains of Jacksonville. He was on the stand yesterday when Circuit Court Judge Ross Williams adjourned court.

During the hearing Judge Williams warned some 30 spectators against "any controversy that may work out in violence." The judge interrupted court to order all persons waiting outside to come into the courtroom. He said he didn't know what was going on in the hall but added—

"If there is some controversy it may lead to unpleasantness. And he warned—"Don't get into any controversy that may work out in violence because violence does not pay."

Mains who is secretary-treasurer of the Florida Tackle and Gun Club, has testified sports fishing is worth \$250,000,000 a year to Florida.

Testimony for the plaintiff—H. G. Stewart, a Moore Haven fish dealer—already has been concluded with several witnesses testifying of their losses since the lake was closed to commercial fishing the first of the month.

The hearing which began yesterday is expected to be concluded today or early Saturday. Testimony already presented includes statements that the quantity of fish in Lake Okechobee has shown no decrease in recent years but the ban has made idle many thousands of dollars' worth of equipment.

SPORTS ODDITY

By Associated Press

You've all heard the story about the golfer who was kidding his friend about a hole in one and then went out and sank an ace himself.

Well, 13 years ago, in Oak Hill, W. Va., no less than, three men did just that.

Three members of a foursome were kidding the fourth, S. A. Scott, about his recent hole in one. One of them, Dewitt Snyder, then got an ace on a 155-yard hole.

The second, C. C. Howell, dropped his on the 145-yard eighth hole.

The third, B. C. Burnside, put his tee shot on top of Howell's ball.

Agricultural fairs have been an integral part of American country life for well over a century.

Peaches were introduced into England from Persia in 1562.

SPORTS LAUGH

By Associated Press

A group of football players at Washington and Jefferson College were sitting around many years ago talking about some of the difficult courses they were taking. One of the members of the group was a fellow who was long on muscles but short on brains.

They mentioned Latin and Greek and how tough both subjects were. Somebody then brought up calculus and at the mention of anything mathematical, our muscles man jumped into the conversation with both feet and said: "Gosh, fellows, and don't forget that long division is no cinch, either."

WASHINGTON LETTER

By CHARLES MOLONY
WASHINGTON—Want a genuine, government-minted, 1943 date, bronze medal commemorating Light Horse Harry Lee's Revolutionary War exploits?

That's the first medal ever made by the U. S. Mint, turned out the year after the Mint was founded, but you can get it from the Mint at Philadelphia for \$2.25 plus postage.

What you get may be as freshly struck as the Mint's newest medal, the Fred M. Vinson number in its secretaries of the treasury series (\$1.50), but it's made from the original 1793 plates.

The Bureau of the Mint here has assembled for the first time a collection of all the commemorative medals struck since this country was made up of British colonies. The result looks like a collector's—or maybe a swindler's—dream.

Leland Howard, assistant director of the Mint, says, however, that there is surprisingly little swindling in the form of passing off newly struck copies as ancient originals of these medals—nothing in the class of the "rare" coins racket.

Nevertheless, says Howard, there have been cases in which even a collector of rarities has netted up perhaps \$20 for an old-date medal he could have gotten from the Mint for \$2.

All presidents, secretaries of the treasury and most directors of the Mint have been honored with medals, along with Army and Navy heroes and miscellaneous citizens. Exploits, many of them veiled in the mists of history, have been commemorated also.

The Presidential Series began as "Indian Peace Medals." These carried on a tradition under which likenesses of the English King, Georges, were distributed to the pre-Revolutionary redskins as hopeful hints there'd be no tomahawk tossing or other disturbances.

George Washington holds the record for medals, with ten honoring him. Lincoln's the runner-up. Howard, a Southerner, pointed out sorrowfully that the Confederacy's Robert E. Lee has never been honored like his father, "Light Horse Harry."

The U. S. had seven medals minted in France before the U. S. Mint was established, but the Philadelphia Mint has the original plates for them and sells all seven.

Many of the early medals were designed by celebrated artists, such as France's Du Vivier. They show in fine detail entire scenes of battle—charging horsemen, smoking guns and cannon, lines of riflemen and what-not.

Biggest and most expensive medal, however, is a \$10 bronze number, four inches in diameter, minted in 1888 in honor of one Joseph Francis, inventor of a system for saving the lives of persons about about in distress. It features an intricate life-saving scene.

Mint officials say there are several thousand collectors of the medals, and a lot of others who buy pretty numbers to give as Christmas presents. The Mint has issued approximately 200 different medals.

Rosy Future Seen For Citrus Growers

BRADENTON, Oct. 25. (AP)—Real estate men who specialize in grove sales predicted a rosy future for the Florida citrus industry today. Speaking to the Florida Association of Realtors who met in convention in Bradenton, S. H. Bokman of Clermont said that six years ago the citrus industry netted \$8,000,000 and that last year the industry received a net return of \$125,000,000.

Bokman said the entire citrus organization is on a firm footing and is destined to keep growing. The development of by-products, he explained, would be one of the propelling factors pushing the big industry ahead.

R. C. Hatton of Bartow county pointed out that citrus was the last agricultural crop to go into the red in the depression which began in the late twenties. He said the price of Florida's citrus land was far below Texas and California sales prices.

Following the discussion of Florida's citrus industry, a national real estate leader called for the decontrol of rents. Boyd T. Bernard of Philadelphia, president of the National Association of Real Estate Boards, said that the retention of rent ceilings while other commodities are being decontrolled will discourage all new construction of rental housing.

Our 5 Year Plan

Let's look at it this way: Every 1000. you are now spending yearly for fire and windstorm insurance can be reduced to \$40 by buying a 5 year renewable policy. You save 10¢ of every 1000.

Now based on our present dividends, by buying a mutual policy from us, you can further reduce your yearly cost to \$7 1/2¢. Having \$2 4/5¢ of every 1000. You can't lose. If you don't get a dividend you are not paying any more than the published rates for your insurance.

The Mutual Companies we represent have always paid annual dividends to policyholders. M. Boyd & Co., Your Mutual Insurance Friend, phone 104.

ONE OF NEW YORK CITY'S longest picket lines stretches down lower Broadway as striking members of the National Maritime Union march to the offices of the American Merchant Marine Institute. Purpose of the demonstration was to bring pressure on shipowners to sign an agreement to end the strike. (International)

NOT WATCHING WHERE he was going, this 50-foot, 60-ton whale wound up in Long Island Sound at Huntington, L. I., N. Y., and floundered twenty feet off shore in ten feet of water. Hundreds of school children and adults swam around the stranded mammal, who suddenly gave up and died before he could be towed to deep water. (International)

GIs Teach Sports To German Cops

By RICHARD KASISCHKE
All Newscasters
BERLIN—American soldiers who made a tremendous hit with German children by giving them classes in baseball, have now taken up the chore of instructing Berlin's civilian police in basketball and volleyball.

The cops also wanted instructions in baseball, but their request came too late in the season and will be reconsidered in the spring.

Berlin's police in prewar years had proficient basketball teams, but their new deNazified ranks don't know much about the game.

When the commander of the police force asked the U. S. Military Government's Public Safety Branch for "some coaching, AMG asked soldiers to volunteer. A daily course was arranged in an American sector gymnasium called "Madison Square Garden." The cops trained there, drawn from all sectors of the city, will return to their units and coach others.

Head of the coaching staff is Pfc William Hornig, 26, Newark, N. J., who was an all-sports man at Newark's East Side high school.

Sons Give Father Some High Ideas

JEFFERSONVILLE, Ind. (AP)—Walter E. Prentice, 59-year-old Jeffersonville attorney, believes in keeping up with his sons.

Two of them, Robert J. Prentice, 29, and Dixon W. Prentice, 27, decided to take flying lessons. The father, followed suit.

"They tried to tell me I was too old but I think I've convinced them you're never too old to learn," said Prentice senior.

All three have soloed, preparatory to receiving private pilot licenses. A third son, Dr. William E. Prentice, a Jeffersonville dentist, has been flying for years.

N.R.A. Feels Duty To Warn Hunters To Hunt Safely

WASHINGTON, D. C., Oct. 25. (Special)—This fall 1,000,000 Americans will take to the fields or woods to hunt. The National Rifle Association, having a vital interest in the subject of firearms, feels it is its duty each hunting season to warn hunters on how to hunt with safety.

The NRA sees no reason for the hundreds of hunting accidents, many of which bring death, that happen each fall. For years the Association has kept a close check on hunting accidents and can trace them all back to sheer carelessness of one type or another with one of the most inexcusable being—clogged barrels.

No experienced hunter will ever admit he has been guilty of a clogged barrel. That just happens to the neophyte who is out for the first time or the guy that gets out one or two days a year. Nothing could be further from the truth. It could and does happen to the crack hunter as well as the neophyte.

The excitement of the hunt, the tracking of prey is liable to make any careless. The hunter will be walking through the snow or mud, brush up against a tree or crawl through a fence and accidentally clog the muzzle of his gun. He then sights some game and fires before he looks to see whether his barrel is free. By

not checking first to see if the gun is clear he not only takes a chance of running the barrel of his weapon but he takes a good chance of injuring himself. He should always check his gun barrel before firing. And, whenever possible, remember to check from the breech end.

In the case where the hunter has been lying in wait for game he might lay his gun down. The barrel might or might not come in contact with the ground. However, in all cases when picking it up again the hunter should check his barrel to see that it is clear.

All hunters should get into the habit of checking their guns periodically when in the field. It will help to cut down accidents. In 1944, the last year for which statistics are available, over two thousand accidents occurred. Many of them were caused by clogged barrels.

Therefore, get into the habit of thoroughly cleaning your gun every night. Check it constantly when out hunting and help to cut down unnecessary hunting accidents.

PICKLE IN A PICKLE

MIAMI, Oct. 25 — Ike Pickle (Miss. State, 1937) is singled out as the No. 1 goat of the Orange Bowl series for letting Duquesne's Ernie Hefferle get behind him to catch a 70-yards-in-the-air pass thrown by Boyd Brumbaugh to win the game, 13-42. Pickle quit covering Hefferle because he reasoned no one could throw a pass that far.

TOP GROUND-GAINERS Georgia's 1942 effort which produced 449 yards as the Bulldog ground-gaining performance in spangled Texas Christian University's Orange Bowl classic was sity, 40-26.
