Farmers' Markets Begin Shipments Fruit, Vegetables

(Continued From Page One)
 400 acres, cabbage and squash will be grown on 300 acres each, 200 acres each will be planted to English peas and sweet potatoes. Other crops will include snap beans, eggplant, pepper, tomatoes, cucumbers and chris.
 Wauscha should have had a heavy movement of cucumbers, pepper, eggplant and squash last week but for the cold weather. Good supplies will be available this week, with the cucumber deal reaching its peak about November 1. Quality is reported the best in several seasons.
 "At Sanford, ideal weather for setting celery during last week is expected to raise the acreage above that of last year by November 1. Romaine, lettuce and escarole are also showing an increase in acreage. Small quantities of snap beans and English peas are expected to move today. Outlook is that supply of fruits and vegetables will not be sufficient to meet the demand.
 "Rain at Starks will decrease yield and quality of early sweet potatoes about 50 per cent." Late plantings are growing good and growers are expecting good yields and quality. The Pecon crop is expected to be about 20 per cent of last year's crop. Acreage planted to leafy greens, squash and cucumbers, will be about the same as last year.
 "Farmers at Palatka are preparing to plant a large acreage to cabbage and will grow considerable mixed vegetables, such as turnips, English peas, etc. The potato situation is still unsettled due to failure of OPA to announce ceilings, but prospects are that there will be a good acreage.
 "Panacola reports a very good market in tomatoes, squash, greens, sweet potatoes and sweet hot peppers," he said.

Two Way Assaults On Europe are Believed Beginning

(Continued From Page One)
 communica announced while other Thunderbolts, Spitfires and Typhoons carried out supporting sweeps with the loss of one Spitfire. Ten enemy planes were brought down.
 A force of RAF Mitchell, White-winds and Typhoons swept into Cherbourg harbor at wavesight through a heavy hail of anti-aircraft fire that hit every plane. They bombed a medium-sized merchant ship setting it afire.
 The Germans resumed their propaganda raids early tonight, dropping high explosives and incendiary bombs on some planes in East Anglia. The Paris radio hinted that the recent attacks on Berlin were the beginning of something sinister and hitherto unknown. The mathematical regularity of the raids which, at the present stage, are purely apartment-al, hints that the beginning of reprisals, for the bombing of Germany are not far off.
 Berlin and Luxembourg radios went off the air tonight, indicating that another Allied raid might be under way against Germany.
 Hit Vienna Area
 Meanwhile, up from the Mediterranean came four-engine bombers to sweep the Vienna area of Austria, the German radio announced, and later more big formations crossed Hungary's southwest border to bomb Trans-Danubia.
 The German radio said the attack was made "under cover" of a dense layer of clouds. It admitted "minor damage to one point," despite bad weather over the Alps.
 A force of 300 bombers and 200 fighter escorts was seen near Zagreb, German puppet capital of Croatia, which fired its guns later at 16 Allied planes, the German radio said. Budapest also had an alert.
 Long Range Fighters
 In England the big aerial news was the disclosure that the twin-engine, twin-tailed, extra long-range P-38 Lightning fighters now were available for bomber escort. Believed carrying extra gas tanks, the Lightning, which can make 400 miles an hour and carry a cannon and few 50-caliber machine-guns, will be capable of reaching Berlin.
 The heavy, long range than the Thunderbolt, which on Sept. 27 escorted Flying Fortress as 300 miles to Enisei and back. The Lightnings are expected to make more than 1100-mile round trips, giving medium bombers the protection needed for distant attacks.
 The Lightning, the first fighters

More Civilian Goods For '44 Seen Possible

(Continued From Page One)
 40 percent to 50 percent.
 WASHINGTON, Oct. 25, (AP)—Plans for three gigantic new aircraft carriers are the navy's grim notice of a realistic conclusion that war in the Pacific will continue past 1945.
 Secretary Knox's announcement that the 45,000-tonners will go on the ways "soon," serves also to underscore the decision that sea-borne airpower must be employed in increasing force to crush Japan. The new giants, bristling with firepower, carrying extra armor and capable of far greater speed than existing carriers, will be able to throw against the Nipponese big bombers which now are necessarily land based.
 Made It Official
 The Knox announcement only made official information already reaching Capitol Hill.
 "The carriers will not be completed until late 1945," in plenty of time to participate in the battle of the Pacific," said one informed legislator.
 Upon the basis of information from high-ranking war and navy chiefs, he expressed that defeat of Japan could not be achieved earlier than 1947 and perhaps not until 1949.
 The evidence supplied by the carrier construction plans, was piled into information furnished members of the house and senate in secret sessions a few days earlier.
 Still generally hopeful that Germany will be defeated by the end of next year, members of congress emphasize privately the need for preparing against a let-down in public war psychology until Japan is licked.
 Important Factors
 That emphasis has grown out of these factors:
 1. Information that Japan is building planes faster than we are despoiling them.
 2. Little likelihood that the United States can obtain Siberian bases in the near future for bombing raids on Japan.
 3. Growing appreciation of the difficulty involved in reopening Burma road.
 4. Mounting realization—both by the public and members of congress—of the difficulties and distances of maintaining supply lines.

SOVIET TROOPS are in the suburbs of Gomel (1), having crossed the Dnieper south of the city. German reinforcements have failed to stop the Red Army's drive north of Kiev (2). The Russians scored another advance in the Dnepropetrovsk area (3) when they cut behind the enemy line to threaten the railway running west from that city. The German forces in Melitopol (4) are threatened by a Soviet column moving south from captured Zaporozh. (International)

Navy Day Is Observed In United States

Knox Orders "Seek Foe, Destroy Him", As FDR Promises Planes And Ships

(By Associated Press)
The United States Navy—the mightiest in the world—hammered remorselessly at the enemy today while at home the nation paid tribute to the men and deeds of the fleet.

"Seek out the enemy and destroy him", were the orders from Secretary of the Navy Frank Knox. While from President Roosevelt came the pledge that more ships and planes will be ready when needed to "protect human life, to restore human decency and to preserve human liberty."

Japan's navy, still powerful, may come out to fight in force at any moment. Joseph Grew, former American ambassador to Tokyo, declared in a prepared Navy Day address. Grew, now special assistant to the Secretary of State, repeated many warnings against under-estimating Japanese fanaticism, and said, "We still face powerful, resourceful and dangerous enemies."

The NAOTC operations training centers at Jacksonville, Miami, and other points throughout the United States Navy Day celebrations were taking place.

JACKSONVILLE, Oct. 27. (AP)—Taking their cue from Secretary Knox, stations of the naval air operations training command plan no relaxation of their rigid schedules in celebration of Navy Day.

The NAOTC operations training centers at Jacksonville, Miami, and other points throughout the United States Navy Day celebrations were taking place.

Staff Sgt. Boatie Of Lake Mary Is Reported Missing

Staff Sgt. Ned L. Boatie of Lake Mary, son of Mr. and Mrs. E. F. Boatie, 1215 E. 1st St., Jacksonville, has been reported missing in action, according to information recently received by Mrs. Boatie from the War Department.

Sgt. Boatie was an aerial engineer serving on a Flying Fortress operated from Lake Mary, Fla., where in England. He joined the Army Air Corps on July 7, 1942, and was sent to Keesler Field, Miss., for training.

Graduating at an airplane mechanic in November, 1942, he was given additional training at the Boeing Flying Fortress factory and then was sent to Las Vegas, Nev., to the Flexible Gunnery School where he graduated as an aerial engineer in February, 1943.

His mother was notified of his loss on Oct. 25.

City Election To Be Held On Dec. 7

Mayor Edward Higgins proclaimed Dec. 7 as election date to name a City Commissioner, at the meeting of the City Commission Monday evening at the City Hall, it was reported by E. J. Baver, city clerk.

In so far as W.C. Hill, the incumbent, is the only candidate who has qualified to run for the office, no primary election on Nov. 8 will be necessary, it was announced.

Mrs. Mary Strong, as lowest bidder, was given the subcontract of supplying 49 magazines to the Sanford Public Library for the coming year.

During October, grade A requirements of milk were met by local dairies, it was reported to the Commission.

Possible restrictions on the planting of shrubbery and trees next spring due to damage that might be caused by sewer pipes being deep roots, were discussed by City Attorney Fred Wilson and commissioners.

C. C. Briggs, Jeweler, Died This Morning

Charles C. Briggs, 70, local jeweler, died this morning at 6:00 o'clock at his home, 511 Myrtle St., following a short illness. He had an attack yesterday morning.

Damaged Tanker Towed To Port

The larger of two merchant tankers which collided and exploded off the Florida coast with a loss of 88 lives, is shown, as she was towed into Palm Beach. Note the battered bow of the vessel. Twenty-eight survivors of the crash explosion were also landed. Cause of the accident is not definitely known. Air Force photo. (International Soundphoto).

Heavy Food Loss Revealed By CCC

WASHINGTON, Oct. 27. (AP)—Government food losses running into hundreds of thousands of pounds including huge quantities of butter, meat, and other commodities, were reported today by the Commodity Credit Corporation.

The losses were attributed to such causes as rusty cans, insect damage, weevils and contamination.

WASHINGTON, Oct. 27. (AP)—With an enthusiastic volley of "yes" the house yesterday passed legislation requiring selective draftees to take all available single men and childless married men in the entire nation before drafting fathers.

This rule would apply regardless of the father's occupation. Under the measure, a father is defined as a man with children born prior to the bill is similar to one passed by the senate on Oct. 6, but differs in that it strengthens the authority of Major General Hersey, selective service director, by taking away much administrative power delegated to Manpower Commission McNeill. However, it removes much of the leeway the senate bill would give Hersey in determining whether some fathers should be drafted before some non-fathers.

Nine Parakeets Are Installed In Zoo

Nine Australian parakeets, the gift of Dr. A.M. Landsborough of Georville, Ohio, former winner of the Pulitzer Prize, arrived today at the Sanford Zoo, it was reported by James Moughton, park superintendent.

Parakeets are a small variety of parrots, characterized by their long wedge shaped tails. Those of Australia have beautiful green and blue plumage. Of the present shipment, seven are green, one is yellow, and the other is cobalt blue.

"They are almost all young and healthy, birds and perfect little devils," wrote Dr. Landsborough to Mr. Moughton. "They bite and pick at everything and probably everybody besides fighting and quarrelling most of the time, so I am sure you will enjoy them a lot. Mrs. Landsborough and I hope to visit Florida this winter and I am sure that we will enjoy visiting you as we have in the years past several times."

Duane H. Palmer Is Promoted In Army

AN MAJ. A. F. BOMBER COMMAND STATION, ENGLAND.—The promotion of Duane H. Palmer from the grade of sergeant to that of lieutenant, which was announced in the London Gazette, is reported by the London Gazette.

McNeill Home Is Damaged By Fire

Considerable damage to the home, furnishings and clothing of Mr. and Mrs. Malcolm McNeill, 1017 E. 1st St., which broke out about 10:30 o'clock yesterday morning in the rear of their frame structure bungalow at 1017 E. 1st St., was reported by Mrs. McNeill.

Dr. Francis Townsend May Visit Sanford

Dr. Francis Townsend, president of the Townsend National Organization for old age pensions, accompanied by Russell Saville, Sanford, will visit Sanford Jan. 15 and 16, at which time a state Townsend assembly will be held in Sanford, according to recent news.

The vote to hold the state assembly in Sanford was taken at the annual meeting of the Townsend National Organization in Miami, Fla., last night.

Rotary Cited By Government For War Work

Governor H. M. Smith Reveals Growth Of Rotary Throughout Civilized World

Declaring that "Nothing is essential to Rotary except the practical application of the ideal of Service," Harry M. Smith, governor of the 167th district of Rotary International, told the Sanford Rotary Club at a dinner at the Mayfair Hotel last night.

Pointing out that it is not only the largest organization in the world, but also the most powerful, he said that the Rotary is "not just a group of men, but a group of men who are doing the most important things in the world."

He revealed that there are now 218,000 members of Rotary in 5,174 clubs in the 49 countries of the world. There are also more than 6,000 honorary memberships held by Rotarians serving in the armed forces of the United States.

During the past year 28 new clubs have been organized in the United States and 59 in Latin America. Clubs in Algeria, Sicily and Italy were organized by Fascism have already been reorganized.

Mr. Smith was introduced by President H. J. Lehman who also welcomed into the club two new members, Harry Kudell and Dr. J. A. Smith and introduced Lieut. H. H. Coleman, USNR, (a past president) leave from duties in the Brooklyn Navy Yard and Lieut. H. J. England and Ensign K. E. Walker of the Sanford Naval Air Station.

Secretary Walter Haynes announced that a joint meeting with the New Smyrna Rotary Club has been arranged for Nov. 9 and 10. Rev. Joe Tolle reported on church attendance which for the club as a whole was 67 percent last Sunday.

Higher payments approved by Congress for servicemen's dependents became effective yesterday when President Roosevelt put his signature to the legislation.

The new scale leaves at \$60 monthly the payment to wife, but boosts from \$35 to \$40 the payment to a wife and one child and from \$10 to \$20 the payment for each additional child.

All the increase comes from the government, the serviceman's contribution remaining at \$22 monthly unless payments are made to two classes of dependents—to a wife and child, for instance—and also to parents. In that event, the serviceman contributes \$27.

The legislation also extends benefits of the law to dependents of men of all seven enlisted grades whereas they have been limited to the lower four enlisted grades. The new grades affected are staff sergeants, technical sergeants and master sergeants, and corresponding grades in other services. If they take advantage of the law they must waive subsistence and rental payments now authorized for higher enlisted grades.

O. D. Tompkins, his brother, he said, was in charge of the Academy dairy which maintains 30 cow students are helping to plant more than three acres of vegetables on muck lands of the academy farm. Mr. Tompkins said, and in addition help with the poultry work and dairy. A fair sized citrus grove is also maintained.

More than 40 girls work in the school laundry, bus helping to pay their school tuition, he stated. The laundry does all the flat work for the Florida Sanatorium, and laundry for many soldiers in nearby camps, he added.

Both the Forest Lake Academy and the Florida Sanatorium are affiliated with the Seventh Day Adventist denomination. There are approximately 160 students at the Academy, buildings of which include two large dormitories, administration and school building, printery and a large auditorium where camp meetings are held every May.

Pre-medical training is emphasized in the school curriculum, and many of the graduates of the Academy are now doctors and nurses, many of them now serving with the armed forces.

DO XMAS SHOPPING EARLY NEW YORK, Oct. 27. (AP)—Santa Claus may miss many of his gifts if you don't start shopping early. Only 50 percent of normal and the number of children is 2,000,000 greater than in 1942.

Recruits Inducted By Co. C

A number of new recruits appeared for drill at the Army National Guard, held its weekly maneuvers, school of the soldier by Sgt. Jimmy Robson while Lieut. John Melisch gave the rest of the company some close drill.

German Militarists Gloomy As Russians Continue Drive

Blimp Keeps 'Death Watch' Over Burning Ship

A Navy blimp keeps vigil over the burning hulk of the tanker one of two that collided off the Florida coast, setting it afire and taking the lives of 88 men, including Navy personnel. The vessel had to be abandoned as a total loss. The other ship was towed to port. Twenty-eight survivors of whom four were burned severely, survived. Navy photo. (International Soundphoto).

Civic All Stars To Play Station In Softball Game

A program of sports and entertainment will be held at the Sanford Naval Air Station on Wednesday, Nov. 3, in celebration of the first anniversary of the dedication of the Station on Sept. 3, 1942.

The program will include a football game between the Sanford Naval Air Station and the Sanford High School. The game will be held at the Sanford Naval Air Station on Wednesday, Nov. 3, at 7:30 p.m.

The Sanford Naval Air Station is a large and modern installation. It was dedicated on Sept. 3, 1942, and has since that time been a major center of naval aviation activity in the Sanford area.

Allied Army In Italy Takes 2 More Towns As Nazi Rearguards Retreat To Rome

BARCELONA, Spain, Oct. 27. (AP)—The Allied Army in Italy, after a grueling six-day trip from Rome described conditions in the Vatican as "perfectly normal" but said the citizens of Rome are in a "truly pitiful situation."

Soviet troops stormed the outskirts of Kirov Rog today while the German command took on the gloomiest tone toward the Russian front since Stalingrad in an apparent effort to stiffen the public and the army alike for an impending military setback.

The Berlin radio announced "A large-scale offensive movement before the Luga River, but fighting generally subsided as the last of the German rearguards were pulled back into a massive new mountain line guard in Rome."

In the southwest Pacific three vital airfields on which Japan had depended to block the American march up the Solomon Islands were reported bombed into uselessness. Enemy planes have retreated to the coast.

Hunting Season Is Open On Nov. 2 For Ducks, Geese

Monday, Nov. 2, will mark the opening day of the hunting season for ducks, geese and other waterfowl in the Sanford area. The season will run until Nov. 27.

Applications for hunting and trapping licenses will be available at the office of County Judge R. W. Ware, 111 E. 1st St., from 8 a.m. to 5 p.m. on Oct. 27 and 28.

Battle Garment Gives Navy Men 4 Protections

Aimed At Shrapnel, Burns, Drowning, Depth-Bomb Hurts

PHILADELPHIA, Oct. 27. (AP)—A new battle dress for the navy to give a man four kinds of protection was exhibited as the Association of Military Surgeons in the United States opened its annual meeting here today.

The dress protects against shrapnel, fragments of shells, bombs, against fire from explosions which have been causing 30 per cent of American naval casualties, against drowning and against blast injury. The latter are the under-water explosions of any type which are lethal four times further away from the explosion than the one would be if the same missile exploded in the air.

This battle dress weighs three pounds twelve ounces. It is made of gray-green poplin and covers a man from head to foot, except his face and hands. It is made from truck to thighs, it is padded at the back with a layer of cork. The cork is impervious to water. The bulk is much less than that of a standard uniform. The stuff is the same as that used in the kapok protective suit part from fragments and splinters. It also helps a man to float. And a sleeveless vest made of cork and water blastic material, such as expanded polystyrene, is worn through the walls of the abdomen and the chest.

Added to this battle dress, a man wears a small, flat, rubber hat with a small flap that hangs over his eyes. The hat is made of a material that is impervious to water. The hat is made of a material that is impervious to water. The hat is made of a material that is impervious to water.

The battle dress is being developed at the Naval Research Institute at Bethesda, Md. Because of the dress, the man will not sweat and a disease known as trench fever will not be contracted. A hospital ship of the future which will make its own interim weather was described in the suit.

German Militarists Gloomy as Russians Continue Drive

(Continued from Page One)

LONDON, Oct. 27. (AP)—Three Soviet armies captured nearly 100 towns and villages yesterday, as they drove the Germans westward in disorderly retreat toward the Bug river in southern Russia, taking a heavy toll in both men and equipment from the shattered invaders.

The Russians advanced from four to 12 miles on the Melitopol sector, fanned out in three directions across steeply sloping hills from the fallen gateway to the Crimea and taking 25,000 prisoners, said the Moscow daily newspaper. Among these were 2,000 German soldiers and 10,000 civilians, including a large number of women and children.

The large German army, half-trapped in the east of the river and fell back in two main sectors before the victorious Russians, who advanced up to 10 miles southwest of Dnepropetrovsk and continued to close in on the big iron and metal center of Avdiivka.

Next Big Prize

The Russians overran nine towns in the region of Kirov Rog, a city normally of 200,000 population, which seems likely to be the Red army's next big prize. According to a Berlin dispatch in the Stockholm newspaper Aftonbladet, the Russians already are in the outskirts of Kirov Rog.

In the region southwest of Dnepropetrovsk, 15 populated places fell to Soviet forces under generals Malinovsky and Konev, including the district center of Znamensk.

Near Vital Highway

A few miles northwest of Kirov Rog the Russians, according to the Moscow radio broadcast, were already within 15 miles of the Znamensk-Nikolayev north-south railway which the Nazis are fighting desperately to hold for evacuation from the Red army's losing Dnieper nose.

ALLIED HEADQUARTERS

Algiers, Oct. 27. (AP)—The American, British and British Eighth armies striking forward up to six miles have captured 10 more

some today by Rear Admiral William I. Martin, president of the organization.

The experiments are under way at the first two at Bethesda. The one is an experiment to produce a dozen different kinds of other multilayered, each of which will be a special work of art of type of environment would of recovery.

Wasp Sinking Told Kiwanis On Navy Day

(Continued from Page One)

The Wasp, a Navy Day float, was sinking in the water. The Kiwanis Club members were gathered around the float, some of whom were holding the Wasp. The float was a large, ornate structure with a canopy and a steering wheel. The Kiwanis Club members were dressed in formal attire. The Wasp was a large, ornate structure with a canopy and a steering wheel. The Kiwanis Club members were dressed in formal attire.

Determine To Hold

The Italian command in the short and hot defensive line between Naples and Rome, reports that the Italian command is determined to hold Rome at least through the winter. It has even regarded as possible that the Nazis intend to launch a counter-offensive.

Of the 10 towns whose capture was announced today, four fell to the Fifth army, including the important road junction of Francavilla, 25 miles west of Salerno and six miles north of the Volturno river. The taking of Francavilla was announced yesterday.

Further Inland Advance

From the tip of the peninsula, the Fifth Army is making a four-mile northward advance along the coast. The advance is being made at the rate of one mile per day. The advance is being made at the rate of one mile per day.

Imported Labor

WEST PALM BEACH, Oct. 27. (AP)—A group of 310 negro laborers, imported from Jamaica to help relieve the labor shortage in the Everglades areas, were sent to a Florida camp last week when they refused to work at the United States Sugar Corporation. It was announced by Paul S. Vander Schueren, district director of the labor division War Relocation Authority. The local official laborers will be returned to Jamaica, Schueren said.

A COAST GUARD PLANE (top) settles on the sea near a ship (left) that dropped in survivors of a destroyed German sub. The smoke is from a smoke bomb dropped to mark the location. Wading the rescue is a Navy blimp. Four of the seven survivors (bottom) of the midget submarine about to be hauled aboard the plane piloted by Comdr. Herbert H. Bunker, who has just been awarded the Distinguished Flying Cross in this and other rescues. U. S. Coast Guard photo. (International)

Mr. Rudolph S. Voigt Navy Day Is Observed In United States

Announcement has been made by General Officer Commanding at Wilmington, N. C., of the appointment of Mr. Rudolph S. Voigt, who now becomes General Passenger Agent of the Atlantic Coast Line system. Voigt, formerly Northwestern Passenger Agent in Chicago, later General Eastern Passenger Agent in New York.

Rotary Cited By Government For War Work

(Continued from Page One)

Mentioning the war work being carried on by Rotary Clubs throughout the world and declaring that the sons of American Rotarians are running into the front lines in every part of the world and are constantly being aided by them, Mr. Smith reminded his audience that Rotary International has been cited by the United States government for outstanding service in its war work.

However, he noted that "We as Rotarians have not yet done all we can do." He questioned the rigid application of the high ethical standards of Rotary to ordinary business methods, and wondered whether legislation providing for the Federal Trade Commission prohibiting corrupt business practices and requiring honesty in advertising, of the Wagner Labor Relations Act requiring fair dealing between employers and employees would have been necessary if the ideals of Rotary had been universally practiced.

Insisting that we should see our business as an opportunity for service, he declared that one of the five great causes, and perhaps the greatest of them all, of the present strife and discord throughout the world is seen as "the almost complete repudiation of all spiritual ideals," he added that we have great ideals but we do not always live up to our ideals in our daily lives.

Rotary Cited By Government For War Work

(Continued from Page One)

Any male person who has reached the age of 18 and who has not reached the age of 41 and who has failed to register or comply with Selective Service laws, will be brought before the local board, and if found to be delinquent as defined by regulations, will be immediately classified as I-A and ordered to report for induction. F. H. Carter, Selective Service clerk, announced today.

The softball game scheduled to be held Tuesday evening between the Lions and Kiwanis teams, was postponed due to the illness of several of the players.

City Briefs

The St. Augustine Mullet, who lost to Lake City golfers last week by a score of 26 to 1, will clash Friday evening at Seminole High School Field with the Celery, who have been carried from their 26 to 12 drubbing by the Ocala Wildcats, and are reported strengthening their line in preparation for the fray.

Corp. Lawton Benreuter of the Army Air Corps has been pending a short leave from Camp San Marcos, Tex., visiting his uncle, T.W. Lawton, Superintendent of Seminole County Schools.

BIBLE VERSE FOR TODAY

THREAT UNPROMISING PEOPLE KINDLY AND COURTEOUSLY... POWERFUL AND DISTINGUISHED LATER...

ONE SOLDIER TO ANOTHER

From The Christian Science Monitor... The hills were green in April... All carpeted with flowers...

When we were young, my brother

We used to dream we'd roam Beyond the hills and seaward... A thousand miles from home...

The largesse of the springtime

We look for granted then, Now we have learned the lesson... That comes to older men...

Wonder if the discovery of oil

in Florida will make it possible for motorists to get more miles of gas for their cars...

The Germans are expected to

take up their next defense position on the Bug River... And no doubt Hitler's headquarters will be in the bug house...

David Lloyd George at the age

of 80 has just married his private secretary... "Lloyd springs eternal in the human breast; Man never is but always to be blest..."

They used to call them draft

loggers in the last war... Now we notice they are "delinquent registrants"...

Robert Montgomery, late of Hol-

wood, has been commanding a PT boat in the South Pacific... Now a Lieutenant Commander...

Washington correspondents are

said to be convinced that President Roosevelt is planning to run for a fourth term...

Currency (paper money) now

in circulation in the United States amounts to \$19,019,000,000...

Ralph Warner, former city editor

of The Herald, more recently with the Bradenton Herald, has recently been classified as I-A...

Word from M/Sgt. Julian

from a crewman at the 47th Bombardment Group... Editor reveals that he is in the field for another four or five weeks...

Woman and a doctor were

at the bedside of the woman who had been in the hospital for several days...

Sleeping Scrap

This autumn's scrap drive will be directed largely to what is called "dormant scrap". The word means "sleeping". Obsolete machinery, tools, dies, jigs and other things...

Farms, too, and households are apt to have some of this sleeping stuff around. The scrap definitely laid away and forgotten was worked out of households pretty thoroughly a year or two ago...

Winter Heat

Blessed, this fall, is the man who has a bin full of coal. Or a tank full of fuel oil, if that's what he burns. And if he's enough of a pioneer to burn wood, he's blessed for that, too...

Such failures are reprehensible. What might have been done rather easily and regularly through the year, in building up fuel supplies, must be done now under pressure to avoid suffering...

Capua In History

The Allied troops in Italy have seized Capua. Once before in history Capua was captured by invaders, then with direful results...

Hannibal the Carthaginian, the greatest soldier of ancient times, in fulfillment of his vow to destroy Rome, invaded Italy by crossing the Alps, and defeated one Roman army after another...

Ever since, Capua has been a name of warning to any general seeking to keep his army at the peak of efficiency. Capua will have no such significance for the Allies...

Sore Canadians

The Canadians who went into the Dieppe raid were notoriously eager for it. And although they registered the losses of comrades which were the inevitable end of such an adventure, they seem to have thought that what was gained was worth it...

"The other day I found a Canadian brigadier in a dilemma, trying to figure which formation under his command to send in the first wave... 'It's a terrible job,' he said. 'The ones I do not select will be sore as hell.'"

Twenty Years Ago Today

Headline: German Capitalists Want Peace in Ruhr. Woman's Club Column—The meeting of the State Highway Beautification Association in Orlando on Wednesday was enjoyed by the following members of the local club...

United States Employment Service

Of The War Relocation Commission

THE POLICE of Camden, N. J., are holding William Bukowski, uncle of William Bessel, Jr., 34 (above), after Bukowski, a war worker, allegedly drove his car into him after a quarrel with the boy's father. The child is reported in a critical condition from a back injury. (International)

and in 1929, in co-operation with the U.S. Department of Agriculture bureau of entomology, took a leading hand in eradication of Mediterranean fruit fly.

Drunkenness Cases Increase In Court

The docket of City Court Monday showed an increase in cases of drunkenness and disorderly conduct over the week preceding.

Bond of \$101 was extracted by Ives Victor Warren, Jr., who was charged with driving while drunk. For drunkenness and disorderly conduct bond of \$16 was extracted by M.S. Hulcombe, Elmo Lee, and Clarence Field, and fines of \$5 and costs or 15 days were given to G.R. Farham and to Paul Lyons. The latter was acquitted of a charge of assault and battery.

Negro cases included Bertie Herring, found guilty of stealing an auto tire and wheel who was fined \$10 and costs or 30 days; John B. Austin and Arthur Lee Williams, charged with breaking and entering, whose cases were transferred to the County; Lucille Kearse (case continued) and Marie Harrison, fined \$5 and costs or 15 days on charges of failure to take treatment for contagious disease, and Sherman Wynn, case continued, who was charged with driving while drunk.

Other negro cases were, Walter Jackson, who was fined \$10 and costs or 30 days for disorderly conduct, and \$20 and costs or 60 days for assault and threats; Aaron Harris \$15 bond and costs or 30 days; and Martha Jackson, \$10 and costs or 30 days for disorderly conduct and drunkennes; Bond of \$11 was extracted by Samuel Briggs, charged with

Hull Mission Said Success By Roosevelt

Purpose Of Russian Conference Defined As Bringing Peace, Ending Aggression

WASHINGTON, Oct. 29. (AP) — President Roosevelt said today that the Moscow conference has been a great success and indicated it was in the final phases where formal documents of agreement are being drafted.

He also said at a press-radio conference that the overall objective was peace in the world and an end of aggression. He added he was very much in favor of a Senate declaration that would avoid war in the future, but he did not say that the final resolution under discussion in the Senate was adequate.

Meanwhile, sharply critical moves to commit this country now to post-war policies, Senator Wheeler (D-Mont.) told the Senate the passage of the Connally resolution will be interpreted by Russia as backing her "demands for a large slice of Poland, the Balkans, the Baltic states."

And Senator George (D-Ga.) charged advocates of strong international commitments with straying the effectiveness of any Senate declaration on post-war policy by dragging over words and phrases.

The Georgian, who helped draft the Connally resolution plying the United States to join with other nations to prevent aggression, told an interviewer he thought half the punch of the proposal was lost by seemingly "intermittent" debate. "I don't see that the critics of the resolution among whom is Senator William Hill (D-Ala.) are doing anything by their discussion except to create the impression in the minds of the people that the resolution is meaningless and ineffective."

Marine Corps Group Beats Shooters Of West Coast League

11 S. Marines at Quantico, Va., who were formerly outposted in a monthly Pistol Match of West Coast League, won the West Coast League of Florida, event which was held on Oct. 17, by outposting the Florida teams shot on their own ranges, by a score of 6730 to 6634. It was reported today by Byrd Gooch, president of the Seminole Gun Club.

The Marines won in Class AA, A, and C, shooting, while the Floridians won in classes B and D. With the series now even with a match apiece, the final or rubber will take place on Nov. 21, when the West Coast marksmen will make a special effort to boost their Class C average. This proved to be their weakest class of shooting as it was found necessary to put in two substitutes in this class, resulting in losing the match by more than 120 points, Mr. Gooch said.

The following scores were made by members of the Seminole Gun Club who took part in the match:

J. Wolfe	804
D. Williams	725
P. Allenby	680
P. Dowling	670
W. Graham	740
G. Mason	790
N. Wright	691
U. Haskins	654

The Seminole Gun Club has just overhauled its range on the lakefront, and has put new roofs over the shooting stands, and has covered the sides with palm-leaf awnings to keep out the wind during the cooler season.

Before Tragedy Struck Couple

POSING TOGETHER like any other married pair, the late Mrs. Patricia Lonergan and her husband, Wayne Lonergan, are pictured as they appeared without a thought of tragedy. New Mrs. Lonergan is dead, the victim of a murderer in her New York City apartment, and Mr. Lonergan, a captain in the Royal Canadian Air Force, is held at Toronto for questioning by the Canadian police. This is an exclusive International News photo.

Butner Reports St. Augustine To On Farm Status Meet Sanford At On East Coast 8 O'clock Tonight

Palm Beach County Farmers Planting Celery And Beans

Thousands of acres of string beans, droves of buyers, and auctions of beans at top ceiling prices (about \$300) are being taken place right in the fields, was the sight that confronted Leo Butner, who just returned from a visit as District Elk Deputy, to Palm Beach County.

"They're going in heavy for celery down there too," said Mr. Butner, who is a former grower, and as president of the Seminole County Farm Bureau, found much to interest him in the Oklawaha valley.

Down there, they go for the Farm Bureau a big way," Mr. Butner stated, and urged that local growers take increased interest in the bureau and send representatives to the State convention to be held Nov. 4 and 5 at the Terrace Hotel in Lakeland.

President Ed O'Neill will speak. Camerians are doing a big business in the Glades district, and celery, with smaller loads, are being shipped continuously from the fields, said Mr. Butner.

A peculiar circumstance noted today by Butner was the fact that the building of flood prevention dikes around Lake Oklawaha has lessened air circulation to the nearby fields, making it colder and increasing the danger of crop damage by freezing," he said.

The regular monthly meeting of the Seminole County Board of Commissioners, formerly held on the first Tuesday of the month, will be held on Thursday, Nov. 4, at 10:00 A.M. It was announced today by O.P. Herndon, county clerk.

County Commissioner Ford D. son recently received from the State Fish Hatchery at Winter Haven a large shipment of fingerling black bass and bluegill. About 5,000 of the bass fingerlings, he placed in Lake Mary, and 4,000 bass and 1,000 bluegill in Crystal Lake at Lake Mary. The bass will attain spawning size during their second year, he stated.

Service men and sailresses will enjoy a Halloween party Sunday which will be sponsored by the U.S.G. according to Director David Carmody. The party will start with a treasure hunt at 3:30 o'clock in the afternoon.

Robert Hartley of the Future Farmers of America at Seminole High School recently received a first prize of \$7.50 in war stamps based on his Future Farmer project of last year. Second prize of \$3.50 in war stamps was won by Robert Bradbury, and third prize, \$1.50 in stamps, went to Ed Cox.

RCAF Student Confesses To Wife's Murder

New York Heiress Is Beaten To Death In Row Over His Effort To See Baby

NEW YORK, Oct. 29. (AP) — Pale and shaky after hours of police grilling, Wayne Lonergan finally cracked yesterday and confessed he had strangled his heiress wife with his bare hands after he had beaten her over the head with a brass candlestick.

Lonergan, 25-year-old Royal Canadian Air Force student, said in his confession, announced by District Attorney Hogan that he left the lifeless body of his wife Patricia Burton Lonergan, 24, and returned to the apartment of a friend where he ordered breakfast.

In his confession, which came after the existing and circumstantial evidence had absolved the student, he stated since his arrest Monday in Toronto, Lonergan outlined his movements on the fateful Sunday morning.

He said he called at his wife's apartment furnished that in Brookline Hill at 8:45 in the morning and was admitted.

After some words he confessed he hit her as she lay on the bed with a brass candlestick which she scratched and tore at his face and he hit her again and then strangled her.

The motive for the killing was not revealed by the district attorney.

Lonergan, twice rejected by selective service for patriotism, told police in his confession which began at 2:10 this afternoon and continued until 8:10, that he left his wife's lifeless and naked body where it was found Sunday night by Capt. J. McKeogh, USMC, who called to escort her to dinner.

Lonergan admitted that his wife was a "brass candlestick" which she scratched and tore at his face and he hit her again and then strangled her.

Lonergan, who had been seen Sunday morning leaving the hotel, is being held in the district attorney's office.

Capt. F.M. Hughes Talks On Navy Day In St. Petersburg

Says Initiative Ours; 'We Will Pick Our Own Battle Fields'

ST. PETERSBURG, Oct. 29. (AP) — A Navy Day address in Wilkes park today by Capt. F.M. Hughes, U.S.N., commander of the St. Petersburg Naval Station, declared today that the initiative is ours.

"We will pick our own battle fields," he said.

The naval day address, sponsored for St. Petersburg by the St. Petersburg Chamber of Commerce, was held at the St. Petersburg Yacht Club.

Capt. Hughes spoke shortly after 2 o'clock Wednesday afternoon during the Navy day rally program that featured concert music by the MacDill field's 12 piece band and brief addresses of welcome and reply by the city's Mayor Patterson and Comdr. E.R. Franke, U.S.N.R., presiding time officer.

Other highlights of the Navy day celebration was a dinner reception tendered Capt. Hughes Tuesday night at the Yacht Club by ranking naval, coast guard and marine corps officers in the area and representatives of the city government and member of commerce.

Proceeding the afternoon rally, Capt. Hughes was the guest of the National Aeronautics Association meeting at the Chatterbox Hotel, in which Capt. Hughes appeared, was screened during the meeting.

Done offered to the Army must pass a physical test and they are being turned down for defective teeth, eyes or ears.

The U.S.G. was chartered in January, 1943, with \$10,000,000 authorized for the purchase of 100,000 tons of steel.

Mistrial Declared In County Court

Rep. Joe Hendricks Speaks On Navy Day

Four Sanford Men Leave Today for Navy

A mistrial was declared in County Court yesterday by Judge R.W. Ware after a jury failed to agree in the case of Henry Stephens, manager-proprietor of the "Black Cat" on Route No. 1, who was charged with unlawful possession of whiskey and permits for sale by his business which allowed the sale of wine and alcoholic beverages having alcoholic content by weight of not more than 14 percent.

Claude Watts was found guilty of unlawful possession of a same Harry Geiger who had faced the same charge was acquitted. These cases concluded the docket for the Fall session of County Court which will not reconvene until the next term in January, according to O.P. Herndon, county clerk.

Proceeding the afternoon rally, Capt. Hughes was the guest of the National Aeronautics Association meeting at the Chatterbox Hotel, in which Capt. Hughes appeared, was screened during the meeting.

Done offered to the Army must pass a physical test and they are being turned down for defective teeth, eyes or ears.

Perekop Endangered Last Escape Hatch From The Crimea; Japs Pushed Back

LONDON, Oct. 29. (AP) — A total of 1,200,000 German prisoners have been killed or reported missing and believed killed on the Crimean front since the beginning of the war to Oct. 15, Soviet dispatches quoting official German government statistics, said today. Casualties are said to total 14,282 killed, 100,000 reported missing and believed killed up to Sept. 30.

Threats of a crippling disaster heightened for the German Army to lay the Russians out in the last north-south railway east of the Bug River and pushed swiftly across the open Nogaik steppe to within 60 miles of Perekop, the last escape hatch of the Crimea.

American war planes intervened in the battle for Perekop, forcing German troops to central Italy near Monte Cassino. The Fifth and Eighth Army fronts showed some advances in the Crimean front.

Japan, the dispatches, must not retreat back to the impact of General MacArthur's offensive which swept up the Treasury Islands, 205 miles southeast of key base of Rabaul.

ALLIED HEADQUARTERS, ALGIERS, Oct. 29. (AP) — Defying a steady rain and deadly concentrations of German artillery, Lt. Gen. Mark W. Clark's American troops have driven the enemy from an important high ground along both sides of the Sicilian coast.

"Our progress is satisfactory," an Allied communiqué announced yesterday in reporting the capture of Perekop, 11 miles northwest of Crimea by Clark's troops and the continued success of Gen. Sir Bernard Montgomery's Eighth Army in throwing bridges across the Tigris river on the Mesopotamian front.

The Germans had massed great concentrations of armor and armor carriers to defend their mountain line running from Monte Cassino to the Tyberian area. Clark's troops captured 100 prisoners and 200 machine guns. Two of the enemy's heavy tanks were captured as well as many other types of field pieces, machine guns and mortars.

Fighting in the past few days demonstrated that Hitler's forces in Europe and in the Pacific, but a mighty effort which will come to a head in the battle of Perekop, Oct. 30.

Mole Cricket Bait Is Distributed To Seminole Farmers

A total of 25,000 pounds of mole cricket bait has been distributed to vegetable and celery growers during the past week and the supply is running fast, county agent R. Dawson stated today. Applications for the bait may be made at Mr. Dawson's office in the County House, and an empty sack must be turned in for each sack of bait secured.

The two great pests that celery and vegetable growers of this section have to face is the small burrowing mole cricket and the cut worm. Mr. Dawson stated:

"Some time ago it was the practice to use arsenic in the bait, but it was found that some types of mole cricket would not take this. The use of the U.S. Bureau of Entomology now stationed in Plant City, spent considerable time in research on the mole cricket problem while in Sanford, and found that sodium fluosilicate was an effective poison not only against all types of mole crickets, but against cut worms also. Some crumpled paper was added to the cut worm bait," Mr. Dawson said.

"Timely use of these poison baits has saved growers in the state millions of dollars annually," he added, "and eliminated the necessity of planting over many fields of celery that had been destroyed by pests."

TRAFFIC ON WAR CHICAGO, Oct. 29. (AP) — Wartime driving restrictions are reducing the traffic toll but the total since Pearl Harbor is twice the nation's battle losses, the National Safety Council said today. There were 21,600 deaths and 144,000 injuries in traffic accidents.
