NORTH RIVER BRIDGE WILL BE THE GREATEST ENGINEERING FEAT OF AGE

Surpassing in Work and Final Cost the Panama Canal

WASHINGTON, Oct. 25.—The proposed North River Bridge, spanning the Hudson from the center of New York City to Weehawken, N. J., will be, with its connections and terminals, "the most stupendous engineering work yet undertaken, surpassing in that respect and also in final cost the Panama Canal," according to Representative Ernest Ackerman, of New Jersey.

The bridge will hang 150 feet above waterlevel in the center, to allow the passage of vessels. The solid rock formations at the terminal points will give sufficient depth for the strongest foundations.

The Hudson river bridge would contain more than ten times the tonnage of the stupendous Quebec bridge, in Canada, which is the longest span in North America, and which took 17 years to build.

The Hudson river bridge would contain more than ten times the tonnage of the stupendous Quebec bridge, in Canada, which is the longest span in North America, and which took 17 years to build.

Automobiles and motor trucks would be able to pass from New York to New Jersey, and vice versa, in a matter of minutes, and the fifteen years estimated as the minimum time required to build the gigantic bridge.

Reduction in shipping costs to and from the port of New York, and consequent benefit to the nation's commerce, would follow.

Through rail connection from the north and south, east and west would be established, and the bridge would give a new impetus to the commerce of the Hudson valley.

The bridge is not to cost the government a cent. It is to be erected by the same engineers who built the Hell Gate Arch Bridge, with finances raised by the states of New York and New Jersey.

And it rains on our Dollar Day and Woman's Club Fair.

However, they say it rains on the just and the unjust and we are needing the rain anyhow not having had much lately.

The Dollar Day idea however, is a good one and it shows what we can do in this respect next time with every melon in the city joining and helping to put it over big.

We are as much at sea regarding the reapportionment as ever and hardly know whether E. A. Douglass is right or George DeCottes is right. We can easily see how a jury can be confused.

When it comes to the reapportionment amendment we feel like leaving the matter of apportionment to the next legislature and we do not believe that they will do anything except the right thing. Reapportionment must be made according to population and according to the constitution and we feel that in any other part of Florida will get anything except a square deal.

We also fail to see just why the majority of the people of south Florida should cry for west Florida all the time. When someone it seems that the representative in south Florida degrades about as many times as the south Florida and west Florida members degrades, and the whole matter seems to be a case of getting every section of Florida together and making one grand big state without any division talk, capital removal talk or any other kind of talk except speaking good about Florida. It seems that we are wasting a lot of valuable time with this sectionalism and not getting anywhere in the result.

Now the five-cent cigar has come back, it is said. But the scent was here all the time.

STATE ROAD DEPARTMENT TELLS TALE OF FINANCIAL STRINGENCY

TALLAHASSEE, Oct. 26.—The state road department before closing its quarterly session shortly after midnight tonight, adopted resolutions designating two bridges to serve as memorials to the late W. W. Clarke member of the department.

Both bridges named to perpetuate the former member's memory are in Pinellas county, the Suwanee river bridge being designated as memorial bridge No. 1 and the safety harbor bridge as memorial bridge No. 2.

In the last hours of its meeting the department heard several delegations in the interest of minor road projects, a few of which, involving some expenditures, were granted.

Financial stringency was the dominating note of the department's two day meeting and it served as an almost impenetrable cloud, or any road work involving large outlay. During the discussion, it was asserted that five million dollars would be needed for next year's full program of road work, while something more than \$300,000 will be required to meet their obligations.

Chairman Phillips said approximately \$128,000 is now on hand and available for use between now and January 1. Against this, the department owes \$100,000 in freight bills, while its estimated expenses for the remainder of the year are between \$150,000 and \$200,000.

The gasoline tax yield is still a mooted subject. Controller Amos a few days ago gave figures to show that more than \$300,000 is due from refin-

eries under the tax laws, as funds were held pending the outcome of its litigation.

This litigation is now expected to be settled in the next two or three days, but another gloom has bobbed up in the nature of a question of interpretation of the law.

A prominent refining company, affected by the tax, has held that gasoline sold through the company's own filling stations is not assessable under the gas act. The law provides that wholesale gasoline turnovers be levied at the rate of 1 cent a gallon. The refiner bringing up the matter contends that when the gasoline is disposed of to its own filling station, a wholesale turnover does not come about.

When it is taken into consideration that these corporation filling stations have sprung up like mushrooms throughout the state, the expected yield from the gasoline tax will be materially reduced if the interpretation placed on it by that refiner is upheld.

Originally, the tax law was designed to yield approximately \$1,000,000 annually for road building purposes. Its first six months of operation indicated a yield of only about \$600,000, while State, Comptroller Amos believed it would gradually work up to around \$750,000.

The proposal that a two cents a gallon tax on gasoline be provided by the next legislature has been heard in some quarters of the body politic, and from probably as many sources a loud protest has come.

MASONIC SCHOOL OF INSTRUCTION CLOSED LAST EVENING AND WAS MOST SUCCESSFUL EVENT

Johnston, chairman of the committee, and known throughout Florida as the "Grand Old Man of Masonry" he having completed his forty-seventh year in the work in the East as Worshipful Master, T. Hunter Long, the "baby" member of the committee as Senior Warden, Mr. Lancy, of Aveo Park, Junior Warden, Walter Scott, Deacon, and Mr. Good of Key West, Junior Deacon. In the lodge were six Past Masters of Sanford Lodge, viz. Moughton, Jenkins, DeCoursey, Philips, Haynes and Tolar, with several past masters from other lodges and a number of masters of other lodges.

Bowling Schedule Released and Will Play Two Halves

TO PLAY POST-SEASON SERIES BETWEEN WINNERS FOR THE CUP

We publish below the official schedule for the 1922-23 season of the Sanford Bowling League.

The opening game will be played this coming Monday night between the Congregational Club and the Farmers and from then on until the latter part of April there will be a league game on each Monday, Wednesday and Thursday.

On account of the Congregational Club holding their regular club meetings on Thursday night and the Men's Club meeting on Wednesday night due diligence was observed in making this schedule so that as few of their games as possible would be played on those nights.

There are several of the scheduled dates that fall on holidays, such as Christmas and New Years and it will be arranged between the different clubs that should it be impossible for them to play on these dates they will make the necessary arrangements to play themselves.

TIGERS TACKLE SANFORD HIGH'S ELEVEN TODAY

The "Big" team and the "Little" team are in perfect readiness for the game with Sanford high school in that city this afternoon. The Tigers will be followed to the Celery City by a large delegation of football fans, who have snapped out of their lethargy since last Saturday when the Jungeleers fought the Ocala Wildcats to a scoreless tie at Exposition Park and demonstrated conclusively that they have the makings of a championship team.

Last year the Bengals defeated Sanford by a score that wasn't even close, the final whistle blowing after the Tiger had snarled across his opponent's goal line in every period. The score was 30 to 0.

The score this year may or may not be just as overwhelming. There is even a possibility that the tables may be turned, but you can't tell followers of the Orange and White that. They saw their eleven defeated twice, an agglorious enough beginning for what looked a thoroughly inglorious season. But the little battle with Ocala made things look differently and there is a world of confidence in the locals' hair on the eve of this annual clash.—Orlando Sentinel.

CELERY SEED

This is Woman's Club Day.

This is Dollar Day.

This is Sanford Orlando Day.

Clyde Norton left guard of the Florida outfit, broke his collar bone tackling a dummy. This puts him out of the game for the rest of the season.

The Lions and Kiwanis of Orlando are still playing baseball. They should follow the example of the Sanford Rotary and Kiwanis Clubs. These two are figuring on a football game.

Farmers and Congregationalists at the Parish House alleys Monday. And the farmers are out for blood.

And the Rotes meet Chase's outfit Wednesday, with the Merchants and Mer's Club on the cards Thursday.

And John Purdon won the "shell game" at the traps Wednesday. John is good at the "shell game."

But that box of shells comes in handy, so both John.

Even though the trap shooting season is closed these trap shooters (and trap shooters) are greasing up the old gun, getting ready to hit out for big game next month.

North, from page 1, at Atlanta today.

Ray Symes is in town today sizing up the local picture. Ray has become an expert and just as soon as some of these Sanford players get good enough to make it interesting for him he intends to take them on. We recommend Charley Henry or Bob Holby.

OLD ENGLISH HEDGES GOING

Landscape Beauties Being Sacrificed to Demands for Increased Production From Land

One of England's greatest beauties, the hedgerow of Hawthorn or "May," is rapidly disappearing. Driven out by the tractor, either in the west of England, noted for its double hedgerows, sometimes with narrow paths between, or the Eastlands, with hedges and dikes alternating to the marshes, some landmark of this kind has disappeared.

In Hertfordshire and Sussex this same thing is happening and the old sturdy roots are being dug up and burned, and replaced by miles upon miles of wire fences, to keep the sheep within bounds. Young college-bred farmers, filled with enthusiasm, facts and labor-saving ideas, have it all worked out and much of the beauty of rural England with it. Cut all the hedgerows out of four fields of 10 acres, and you have one field of 40 acres, one man and one tractor can plow it in 10 days, where with hedges it took a horse plow 40 days to accomplish the same result.

FOR THE MOVIE FAN

It's tonight.

And it starts at 7:30.

And the play is the Princess Theatre.

And the "it" we are talking about is "Her Gilded Cage."

And Gloria Swanson takes the leading part.

And Inez Powell is her chief "side kick."

And there is also a Fox News and Pathé Review.

All of which, we say, makes up one real program for the movie fans, that will not be forgotten for some time.

And there will be so many to see the picture that it will be shown right up to the last possible minute and night.

Gloria Swanson, with an all star cast to support her will make the movie fans glad they saw the "Gilded Cage" at the Princess tonight and tomorrow night.

Unique Set Occupies Half Stage

Most of half of one of the large Paramount studio stages was taken by the set for the picture representing an English country parsonage. Her Gilded Cage, the Paramount picture starring Gloria Swanson, which comes to the Princess Theatre tonight. A veritable forest of evergreens forms the background for the unique woodland effect necessary to the theme of the story, a hard in a gilded cage, so to speak.

When Two Strangers Meet

When two strangers meet, each has to make acquainted with three persons, according to Elinor Harris, who wrote the Paramount picture, "Her Gilded Cage" from the "The Nichols play, which will be seen at the Princess Theatre tonight, with Gloria Swanson in the starring role.

"For instance," says Mr. Harris, "if I, a stranger to you, meet you, I meet the man you appear to be; the man I think you to be and the man you think you are. And the same applies to me."

SERIOUS BLADDER TROUBLE

"Could not stand nor sit and was forced to cry out from intense pain," writes Henry Williams, Tarkio, Montana. "The doctors said I had inflammation of the bladder and an operation was necessary. Tried Foley Kidney Pills and improved at once. Tell all my friends about Foley Kidney Pills as it will save many from suffering and perhaps as in my case, a dangerous operation." Bladder and kidney trouble demand prompt treatment. Foley Kidney Pills give quick relief. Sold everywhere. Adv.

Origin of the Word "Cop."

The word "cop" originated in London, being derived from the three initials of "constable of police." This interesting bit of information comes from Police Commissioner Enright of New York City.

Chief Enright's theory of how the word "cop" came into being has experience, precedent and probability to back it. It has experience, because Commissioner Enright is conversant with police affairs. It has precedent, because when the words of a phrase happen to have initials which taken together, can be pronounced in one syllable, there is a tendency to lump them in one and so form a new word. It has probability because the etymology suggested is simple and natural. "Cop" is an abbreviation which any English-speaking public would like to make of "constable of police."

Nobody knows all about a word until he has looked up its origin. To do that is one of the best of helps toward fixing the meaning of words much longer and far less familiar than "cop" lastingly in the mind.—Buffalo Times.

"By the way" we almost forgot to tell you we have just received 70 gallons of varnish that we will sell at \$2.65 per gallon.—Sanford Paint & Wall Paper Store, Welaka Block.—H. A. Halverson. Fri-Mon-Wed.

Second sheets, 8 1/2 x 11, only 50c per 1,000, while they last, at Herald office.

The purchase price of baking powder does not determine economical merits—results of the story.

That's why Calumet is as much as that of baking powder.

Rev. G. V. Albertson of DeLand has promised to be with us again next Sunday at the school and will preach for us at 4:30. Mrs. A. is very frail but taking special treatments in hopes of being able later to go about with him as of old. The roads are almost impassable just now, but on his way back from Altamont Springs he stopped over with us, and Rev. Wahlburg urged him to preach. So he gave us a most talk on "The Abundant Life." The music and extra songs and duets added much to the service.
