### Spanish Fiesta Friday At Lyman High

By JANE CASSELLBERRY  
A gala Spanish Fiesta will be sponsored by the Spanish Club at Lyman High School at 7:30 p.m. Friday in the school cafeteria, which will be elaborately decorated for the occasion.

PAINTING decorations for Spanish Club's Fiesta at Lyman High School cafeteria at 7:30 p.m., Friday, are (left to right) Carol Sullivan, Shelle Morrison, Terri Turner and Melinda Casselberry.

WORKS of Orlando artist Edith Peter are on display through Jan. 8 at DeBary Mansion.

### New Pointsettia On Market

The Christmas flower—pointsettia—has been undergoing a big change in recent years. New varieties are appearing among them Paul Mikkelsen, which holds up longer than the other kinds. This pointsettia is a cross between a red seedling and a white variety which has long been known to retain its freshness better than the rest.

TUMBLING is a new sport at South Seminole Junior High School where a group of students have chosen it for weekly activity period under the direction of Mrs. Diane Thunhorst. Connie McCormick demonstrates her agility with a back extension.

### AROUND THE CLOCK

By LARRY VERSHIEL

Somebody pinch me . . . Get the word today that the seven new school buses will arrive from Conway, Ark., tomorrow morning.

The Florida State Bank opened mortgage foreclosure proceedings against the Valdez Hotel owners . . . Pity the poor Go-Go Girls.

Look for DeWitt Mathews to be named president of the Chamber of Commerce at the board of directors meeting Dec. 15.

Oh, yes, the chamber is definitely taking an active role in the courthouse row and probably will come out with a statement after the new president and directors take over.

There were eight absentee ballots cast in the city election . . . In Group 1, J. H. (Jimmy) Crapps received six and Earl Higginbotham two . . . In Group 2, J. Videl Jones (not Fidel) received one, and Al Wilson, six.

Nobody asked me but I think despite the fact Jim Crapps got only some 100 votes he still has the respect of all in Sanford . . . What most people resented was the "clique" pushing him into the race.

Around the first of the year the County Commission will get together for a workshop session on what local legislation to get our delegation to push during the spring term . . . We imagine some "hot potatoes" will be talk of a water control district . . . Remember it was defeated in 1964 . . . Establishing a "jury" charge to pick circuit and County Court judges . . . Getting legislation to set up a referendum of the people to abolish JPs and constables . . .

We doubt the Commission will do anything about courthouse fees officers and a medical examiner . . . Too much politics . . .

If only the local medical association would start pushing medical examiner needs.

Remind me to ask Tax Assessor Mary Earle Walker how the tax inflow will be affected by the low stock market prices this year end. The much discussed—and cursed—intangible tax on securities definitely will "bleed" now, won't it? . . . slow much . . . as compared to last year, for instance.

We all remember what a black day Dec. 7 was . . . Remember what happened last Dec. 8? Well, Sanford air station will be phased out.

County will start work next week on constructing recreation parks (baseball diamonds come first) at Southside, Rosewood, Goldsboro, Midway and Jacksonville-High Schools.

City has agreed to give election poll workers a 25 cent an hour raise . . . They were getting 41.

City Commission has indicated it will adjourn its regular session Monday night and attend courthouse forum on mass

## Casselberry 'Monster' Is No Joke To This Family

The mysterious man and the horned monster mask is no joke to Mrs. Joseph Casack of 1081 Winter Park Drive, Casselberry, or to her two little girls who have nightmares about their terrifying encounter with him last Friday afternoon.

### County Sales Soar

Gross sales from all sources in Seminole County in September, 1966 increased \$1.5 million over sales during September a year ago, a report prepared by the Florida Retail Federation shows.

INTERIOR WORK on the new Montgomery Ward department store in Casselberry began this week with company engineers in charge. Construction on the million-dollar complex, which also includes an auto service center, is going along on schedule. (Herald Photo)

This represents better than a 19 per cent increase. Figures for September, 1965, show \$8,085,164. For the same month this year, the figure jumped to \$9,641,866.

Total increase for the entire state was 12.6 per cent.

## Altamonte Adopts Budget Draft Of New Charter Presented

Budgets totaling \$211,050.65 for the water department and general operation in the town were adopted by the Altamonte Springs Town Council Wednesday evening.

Largest expenditures in the \$145,600.65 general operation budget are capital outlay, \$48,375.65; streets, sanitation and parks, \$30,000; police department, \$19,380, and utilities, \$10,125.

Largest sources of revenue listed are real estate tax at five mills, \$50,000.05; cigarette tax, \$25,000; parking assessments, \$21,251; and utility tax, \$15,000.

Largest anticipated expenditures in the water department budget, totaling \$65,250, are reserve fund, \$23,212; bond interests, \$19,125; and renewal and extension fund, \$22,913.

Water sales are expected to bring in revenue of \$61,000. Fiscal year in Altamonte begins Jan. 1.

In other business the board decided to request Lee Coch, developer of Oakland Estates, to withdraw application for rezoning of lots 29 through 35, block F, facing Maitland Avenue, from R-1 to R-3, until six months has lapsed from date of the last public hearing on the matter.

Approved soil cement tests for Lake Orienta Hills on advice of the engineer.

Appropriated \$50 for the department for promotion of the fire department.

Referred the plan which had been submitted by Friendship Baptist Church for enlargement of its facilities to the building committee for study and recommendation.

Requested that Greater Construction Company submit estimates of costs of paving Spring Lake Road before the town decides if it will participate in a joint paving project with the company which plans to develop Hillcrest Estates.

A preliminary draft of a new charter for the town of Altamonte Springs was presented by S. J. Davis Jr., town attorney, for purposes of discussion and review at meeting of the council Wednesday.

Supplemental articles will be presented at a later date, Davis reported, with final draft ready by March 15. Davis urged a series of work sessions be scheduled to discuss the new charter. Following presentation of the final draft, copies will be made available for study by citizens of the town and public hearings will be held. The charter then will be presented to the legislative delegation for adoption by the legislature.

The present charter was adopted in 1921.

# State's Judicial System Headed Toward Revision

TALLAHASSEE (AP)—A host of amendments dealing with the state's judicial system are being considered by the Florida Constitution Revision Commission, which has yet to really put the lieutenant governor issue to rest.

An amendment, which could be brought up at any time, would bring the on-again-off-again lieutenant governor matter up today before the group.

The amendment, presented by Republican Rep. Donald H. Reed of Boca Raton, provides for election of a lieutenant governor. Action on it was passed over Wednesday when the commission was in a standstill.

The proposed office of lieutenant governor in the new state constitution.

Meanwhile, even as the lieutenant governor matter waited in the wings for a final sentencing, a general committee of the commission worked last in preparing the framework of a suggested plan for the state's judiciary.

Some amendments have already been presented. The committee's plan could come up today and are a certainty for Friday.

Meanwhile, the constitution-writing group Wednesday dealt with a score of finance and taxation amendments.

Highlights of these sessions was passage of an amendment abolishing uniform taxation of property and adoption of a proposal to allow classification for property.

The proposal, calling for just valuation of property with each classification rather than fair market value, would allow the legislature to vary the amount of tax for different types of property.

Also approved was an amendment stating that state departments and agencies may issue revenue certificates for capital improvements payable from direct earnings of such improvements.

The measure also stipulates that "no state taxation or rents from public revenues shall be used to pay such certificates for improving, acquiring or construction roads, bridges and tunnels."

Ralph A. Mariscano of Tampa, spokesman for the measure, said it was intended to free expressway authorities such as ones in Tampa and Jacksonville to expand.

Mariscano said that these authorities are classed as agencies and that the only way they can currently sell bonds and revenue certificates that are based on expressway tolls is to back them up with the secondary gas fund.

The commission also approved an amendment providing for condominiums (where a person owns an apartment) and cooperative apartments (where a person owns stock in the corporation which owns the building) which have a lease of 99 years or more.

Defeated were amendments to raise the homestead exemption from the present \$3,000 to \$10,000 as a measure to exempt household goods and personal effects from taxation.

Reed moved to postpone indefinitely action on his amendment which would forbid any tax on intangible personal property by the state or any of its subdivisions.

The long agenda forced the commission to go into its second night session, but the calendar was cleared and the group adjourned at 7:10 p.m.

Chairman Smith reminded members that all amendments must be acted upon by committee and brought onto the floor promptly for action.

## PTO Challenged By Speaker

Examples from lives of great Americans were used by Judge Volie Williams Jr. to issue a challenge to members of the Lake Mary PTO.

Judge Williams told his audience it could "look to our forefathers for wisdom and inspiration, as children of God, created equal."

"People who become easily offended because of a particular group with which we identify ourselves make us lose sight of the fact that every ethnic group has contributed to America in some way, has fought for her and died for her."

"Southern Americans, Protestant Americans, Catholic Americans, Negro Americans and others have all helped to make this nation the greatest on earth," Judge Williams reminded his listeners.

"The goal of our forebears was a land of united brotherhood, blessed by God," he declared.

Judge Williams was introduced by Frank Melane, PTO president.

Melane expressed appreciation to everyone who worked to make the annual winter festival, held last weekend, a success, with proceeds of \$200 more than last year.

He declared that more denials are needed and urged women to volunteer their services. Next meeting of the Lake Mary PTO will be in February.

## Satellite Aims For Station

CAPE KENNEDY, Fla. (AP)—America's new ATS multi-purpose satellite drifted slowly westward along the Pacific Ocean today, aiming for a stationary orbit 2,300 miles above Christmas Island.

The National Aeronautics and Space Administration said that in about 12 days control jets would jockey the satellite into the desired location.

While it hovers over one point on earth, ATS, for Applications Technology Satellite, will test new space communications and weather forecasting techniques.

ATS, the first of five such satellites made by Hughes Aircraft Co., was launched from Cape Kennedy Tuesday night.

The process that has seen Harvard become educational will be complete here except for social clubs, which will remain exclusively male.

Dallas, Tex., has constructed more office buildings than any other U. S. city except New York since the end of World War II.

## Coeds Taking Over Harvard

HARLOW, England (UPI)—A 23-year-old driver in this city firmly believes that "turn about is fair play."

When an officer stopped him, then drove his car to the station house before giving him a ticket for driving a vehicle with bad brakes.

Paul Rubin responded by charging the officer with the same offense.

The officer thought it was a joke, but his superior didn't.

A judge will hear both cases later this month.

WATTS, HOWARD COLTON — Burial for Howard Colton Watts,

# The Big Picture

Most of us like to turn our backs on unpleasantness, hoping it will go away. It doesn't often happen that way, though. Sanford and Seminole County face the reality that our "main industry," Naval Air Station, will be moved. We must face the fact that as parts of this, we are to lose great neighbors, a fine payroll, some aggressive, active people. And this means a major economic adjustment for everyone — not just the business men, ALL of us. And out of a sincere united effort MUST come a Plan of Progress.

Perhaps a good starting point is the realization that others, too, are fighting for the government and industrial dollar. Much is being written on this topic in its various phases now, but in a current issue of TIME (Nov. 25, p. 110) there is plenty of food for mental digestion.

Here we read of the battle between boroughs for the Atomic Energy Commission's proposed plant. Cities — and that means not only the officials, but the citizenry as a whole — battle when all the beef, brown and brains they can muster into a struggle that might well be compared in vicious effort to a Gator-Seminole football game. But with much higher stakes.

The first factor we must recognize is that competitive concessions just MUST be made. TIME says "(two cities) are battling for that plum with OFFERS OF FREE LAND, IMPROVED SCHOOLS, AND EVEN TAX-SUBSIDIZED POWER EXPANSION. The skirmishing is part of an increasingly competitive struggle among states and cities for new factories."

The Chamber of Commerce officials here, because of comments of site-seekers, are made painfully aware of our tax structure (that just recently took almost a five mill charge). You can be sure that taxes are vital considerations everywhere. Again quoting TIME's analysis:

"However it strikes consumers, Massachusetts' new sales tax is helping the state to win back industry because it holds the promise of lower property taxes."

Sanford and Seminole County officials are blessed with progressive officials — greatly needed in the struggle for payrolls, yea, for the very existence of political subdivisions.

It behooves all of us to get the BIG picture and how our very lives fit into it. How competitive are we? Again, TIME says "According to one recent estimate, no fewer than 20,000 organizations and 100,000 people — 25 per cent more than a year ago — now devote full time to seeking a share of the U. S. industry's \$60 Billion-a-year investment in new plants." This says nothing about the added Billions of government's similar spending as we gallop toward socialism.

We will do well to encourage and support our local leaders as they struggle to overcome the adverse effects of others in order that we who live here (and LOVE it!) may in future years enjoy life and enjoy it more abundantly.

## Thought For Today

"O death, where is thy victory? O dust, where is thy sting?" — 1 Cor. 15:55.

Why fear death? It is the most beautiful adventure in life. Charles Frohman, American theatrical manager.

### Analysis Of The News

WASHINGTON (AP)—Maybe the whole thing's wrong. Maybe Congress is too stupid, too stiff, to cramp, too much in a rut and out of date. Maybe it needs to move outdoors, on a mountain or near one, in a field, in the woods, near a stream, or under a tent.

Perhaps a little music, or singing, or a few horsemen dashing up the grassy aisle to the last minute to break a tie vote would live things up a bit, carefree for awhile. But not long ago, a group of Viet Cong officers across the way in Cambodia were seen to be in a similar mood. They were seen to be in a similar mood. They were seen to be in a similar mood.

The Cambodian government had just sent word that if VC and North Vietnamese troops in Cambodia were to be allowed to stay, they would be allowed to stay. They would be allowed to stay. They would be allowed to stay.

There's a real revolution in the Senate's way of doing things. It's a real revolution in the Senate's way of doing things. It's a real revolution in the Senate's way of doing things.

## BERRY'S WORLD

It's beginning to sink in on politicians that they've lost their way with the belief the Cambodian officials were quite angry. The commanders held a hurried meeting to discuss their problem.

Here are the results of that secret conference:

"Our VC and North Vietnamese troops have been overconfident. They think they are safe because they are on friendly territory (Cambodia). But they underestimate the enemy."

"We're getting careless at concealment. We're easily seen. Our air and artillery shelters are visible. They're dug near roads. The shelters are not dug in the same pattern as the Cambodians use."

"Our movements are frequently seen. Noises—jokes and loud conversations—are often heard. Quarters are not properly camouflaged."

"Some of our units are located near main roads and rivers. Smoke from their cooking can be seen. Our patis are too exposed and can be easily detected."

"Our personnel carry weapons openly and wear different dress than the local people."

## Dr. Crane's Worry Clinic

Shirley's anger may be justified in part, but the professional colleges disagree. For the male sex enjoys greater prestige than the female, due in large part to the reasons outlined below. This is still a man's world and probably always will be, unless, possibly, for that "Sex Difference" booklet below!

Case B-104; Shirley D., aged 25, is indignant.

"Dr. Crane," she began, "why do the professional schools hold a grudge against women students?"

"For example, the medical colleges restrict the number of female applicants to not more than 10 per cent."

"But aren't women just as smart as men?"

"So why should such favoritism be shown the male sex?"

PRACTICAL FACTS: Professional schools simply are very practical.

There may be room for only 125 freshmen in the medical school.

And it may cost an average of \$10,000 to educate that freshman the next four years, over and beyond his own tuition.

Endowments and grants make up the heavy background costs. Since society deserves approximately 50 years of diligent service from each of those medical graduates, the schools figure that male students are more reliable bets.

For women often get married.

If they have children, this reduces their likelihood of engaging in a full practice.

And if Armstrong were a senator, and public car his trumpet to put on an anti-filibuster filibuster, he'd pack the place, wherever it was. And if Marian Anderson could get elected to the Senate, and instead of making a speech, gave a weekly performance with her magnificent contralto, the Senate could help reduce the national debt by selling tickets.

And there would be 100 per cent roll calls in the House every time for sure if the speaker were a filibuster to block a bill. Neither House nor Senate has any sense of humor. There's not a comedian in either place. This could be remedied if there were a Sen. Jack Benny or a Rep. Milton Berle.

In fact, they may far surpass the average male doctor.

And even the women patients tend to shun women nurses, as well as female dentists, lawyers, engineers and engineers.

Why?

Because the male enjoys more prestige in the eyes of women than does the female.

That even holds true in the literary field.

Although I make no claim to being a more clever writer than the women who handle newspaper "advice" columns, when given equal space this "Worry Clinic" always rates well ahead of all the columns by women advisors.

And as a double check on the reader polls, the mail input to this column runs 10 to 10 times that which is attracted by the other writers, even though you are charged 20 cents while they may offer "free" mail service!

It may not be just or even

## Quotes

Today the great university in a metropolis must have a special and urgent concern for the future of the city and the future of those in our cities who lack full equality of opportunities.

—M. George Bundy, president of the Ford Foundation.

Any country which can put a man on the moon ought to be able to put a man on his feet on earth.

—Vice President Humphrey.

If you are here not because we're great men but because we're large we happen to be lucky.

—Senate Majority Leader Mansfield.

The biggest and we mean it literally impact on the college basketball season in more than a decade is in the form of a 21" 200-pound Jew Alexander of U.C.L.A.

Normally, size alone is worth all the baloney, but in this case, it's the talent of the individual, too.

On opening night, last Saturday against Southern Cal, Alexander scored 40 points in overtime, Wyoming upset Nebraska 102-98. Georgia I downed Georgia Tech 89-87 and Bowling Green humbled Michigan 90-83.

Trade CHICAGO (AP)—They call southpaw Dick Ellsworth the unlucky pitcher, a tag that may vary when changes from a Chicago Cubs to a Philadelphia Phillies baseball uniform next season.

The Cubs traded their one-time \$50,000 bonus baby from Fresno, Calif., to the Phils Wednesday for right-hander Ray Coll and a substantial sum of cash.

Top Back By The Associated Press His teammates teased Dan Conners, Oakland's 26-year-old linebacker, about being a kid and he takes modest offense.

"I don't know that I'm such a boy," Conners said. "Gus Arnold (another Raider linebacker) is only 22. . . . Heck, he only shaves twice a week."

Conners looked full grown against Orange Bowl Conference Champ, Sanford's defending Group Champs, and his performance in the 28-28 tie made him The Associated Press' Defensive Player of the Week in the American Football League.

Slurs DALLAS (AP)—Jerry Lewis, first Negro to get an athletic scholarship in the South, says he doesn't miss a day of his education at SMU despite reports that racial slurs are causing him to consider withdrawing from SMU as a sophomore this season, declared, "I have no plans of leaving Southern Methodist but my father has been concerned and I will talk to him about it."

Rebellion DENVER, Colo. (AP)—A brief rebellion by 12 Negro players on the Denver Broncos of the American Football League has ended.

"As far as I'm concerned this is a closed incident," Coach Ray Malavay said after Wednesday's practice. "We had an excellent practice and I don't think this thing will have an effect on our play on Oakland Sunday."

How to settle the debate . . . The AP Poll (Sportswriters) favored Notre Dame by three points. The UP Poll (Coaches) favored Michigan State by three points. Why not let the players decide the argument with a rematch to be played in Chicago at Soldier's Field with 210,000 seating capacity?

It might be noted that the record crowd of 90,011 that saw the game in Spartan Stadium was in fourth place for the top attendance of the day.

Ohio State-Michigan drew 85,465; Tulane-L.S.U. had 82,360, the largest crowd ever to see a collegiate game at night; U.C.L.A.-Southern California played to 81,990.

Who says that college football isn't big time business? All that??? For just ONE DAY???

The upcoming "Superbowl" between the AFL/NFL champs, scheduled for January, is going to be a gasser!

Not only for the natural interest revolving around the best from each league finally meeting in a game like this, but it's expected to be the richest football game ever. And possibly the richest single game sporting event in history, too.

The probable individual player share is guessed to be \$24,000 each. (If only I had gotten interested in football as a kid instead of learning at such a tender age that there were other things than little girls . . . like little girls, huh.)

## S O S

Credit Gene McDowell of F.S.U. with being a pretty persuasive kind-of-a-guy.

Mr. M. is the Freshman Football Coach at Florida State and when he was in Sanford, back in the early part of October, we credited him with an S.O.S. statement that went like this, "We'd sure like to have Whigham and Stokes at FSU."

At that time, he was also interested in another Sanford product in the form of Dick Moore's Dan Simon.

Look for a "big-time announcement," set for this Saturday, at which time these three will be offered college scholarships.

Do you realize the number of local graders now on the various F.S.U. rosters? Butch Riser, Mike Gray, and now these three.

In talking with F.S.U. this week, I asked if it were true that with all these local boys they were going to change the name to "Sanford" State University?

"They'd consider it," but after all, John, we have so much tradition that it'd be hard to change at this late date."

What the heck, I said, didn't you say that?

And now, about those polls . . . .

These different "polls" are for the birds. . . . Is what I'd really like to say. But, I suppose they're a necessary evil to create and maintain interest in a sport, and we'll just have to live with 'em.

Take the football scene as an example.

You like 'em when they come out with what you'd normally want, like Spurrier as the Heisman recipient, but they "go you up" when a fellow like Whigham is omitted from the State Regionals, right?

Another example . . . do you honestly think that Notre Dame would be satisfied to use-up the clock and get for a tie were it not for the ultimate "top team" rating?

Heck no!

You and I have both seen the pros score two touchdowns and more with two minutes left in a ball game.

What's New? PALM BEACH GARDENS, Fla. (AP)—The dynamic duo of pro golf, Jack Nicklaus and Arnold Palmer, led into the second round of the richest-ever \$275,000 PGA team championship today.

Proving again that the best cure for a bogey is a birdie, the Nicklaus-Palmer team carded a best-ball 68 Wednesday on the "monster" 6,800-yard East course of the PGA National Golf Club.

Grab Headlines Maryland, Southern Illinois, Ohio University, Wyoming, Georgia and Bowling Green grabbed the headlines in college basketball Wednesday night with unexpected victories.

Maryland beat North Carolina State 64-58, Southern Illinois whipped St. Louis 69-59, Ohio U. edged Indiana 91-90 in overtime, Wyoming upset Nebraska 102-98, Georgia I downed Georgia Tech 89-87 and Bowling Green humbled Michigan 90-83.

Reminding The Local Hoops . . . Looks like most of our local high schools will be sporting winning basketball ball quints this season. Joe Sterling and his Raiders of Seminole Junior College are off and flying and should be a stimulant in whetting the fan's appetite. They play next Saturday at 7:30.

Oviedo plays Citrus and Crooms meets Deland tomorrow while Lyman is at Bishop Moore on Saturday along with a complete selection of other cage contests. Seminole High School and Seminole College travel to Central Florida Junior College, South Seminole Junior High is at Osceola, Sanford Naval Academy journeys to Montverde and All Soul's plays Good Shepherd at Bishop Moore on Sunday. Who says they don't have anything to do over the weekend? . . .

Hello Up There . . . . . According to Lyman's Head Basketball Coach Murray Arnold, they have a young man playing in a mostly "all veteran" Orange Bowl Conference.

The Greyhounds face quite a challenge in their first four games as they meet Bishop Moore—defending Region Champs; Sanford—defending Group Champs; Deland—defending Orange Belt Conference Champs; and Lakeview with 6'10" Doug Gamble. Good luck, Coach, you're going to need it. . . .

How to settle the debate . . . The AP Poll (Sportswriters) favored Notre Dame by three points. The UP Poll (Coaches) favored Michigan State by three points. Why not let the players decide the argument with a rematch to be played in Chicago at Soldier's Field with 210,000 seating capacity?

It might be noted that the record crowd of 90,011 that saw the game in Spartan Stadium was in fourth place for the top attendance of the day.

Ohio State-Michigan drew 85,465; Tulane-L.S.U. had 82,360, the largest crowd ever to see a collegiate game at night; U.C.L.A.-Southern California played to 81,990.

Ohio State-Michigan drew 85,465; Tulane-L.S.U. had 82,360, the largest crowd ever to see a collegiate game at night; U.C.L.A.-Southern California played to 81,990.

Who says that college football isn't big time business? All that??? For just ONE DAY???

The upcoming "Superbowl" between the AFL/NFL champs, scheduled for January, is going to be a gasser!

Not only for the natural interest revolving around the best from each league finally meeting in a game like this, but it's expected to be the richest football game ever. And possibly the richest single game sporting event in history, too.

The probable individual player share is guessed to be \$24,000 each. (If only I had gotten interested in football as a kid instead of learning at such a tender age that there were other things than little girls . . . like little girls, huh.)

Slurs DALLAS (AP)—Jerry Lewis, first Negro to get an athletic scholarship in the South, says he doesn't miss a day of his education at SMU despite reports that racial slurs are causing him to consider withdrawing from SMU as a sophomore this season, declared, "I have no plans of leaving Southern Methodist but my father has been concerned and I will talk to him about it."

Rebellion DENVER, Colo. (AP)—A brief rebellion by 12 Negro players on the Denver Broncos of the American Football League has ended.

"As far as I'm concerned this is a closed incident," Coach Ray Malavay said after Wednesday's practice. "We had an excellent practice and I don't think this thing will have an effect on our play on Oakland Sunday."

How to settle the debate . . . The AP Poll (Sportswriters) favored Notre Dame by three points. The UP Poll (Coaches) favored Michigan State by three points. Why not let the players decide the argument with a rematch to be played in Chicago at Soldier's Field with 210,000 seating capacity?

It might be noted that the record crowd of 90,011 that saw the game in Spartan Stadium was in fourth place for the top attendance of the day.

Ohio State-Michigan drew 85,465; Tulane-L.S.U. had 82,360, the largest crowd ever to see a collegiate game at night; U.C.L.A.-Southern California played to 81,990.

## All-America

NEW YORK (AP)—Notre Dame, the national champion, and Michigan State, the runner-up, each placed three men on The Associated Press All-America football team announced today.

They are Tom Ragner, offensive guard, Nick Eddy, offensive back, and Jim Lynch, linebacker, from Notre Dame; and Clint Jones, offensive back, Bubba Smith, defensive end, and George Webster, defensive back from Michigan State.

Steve Spurrier of Florida, the Heisman Award winner, heads up the offensive backfield as quarterback and Mel Farr, UCLA, rounds it out.

The team was based on recommendations of the AP football board of sports writers and sportscasters, who also voted weekly on the Top Ten teams.

Woes For Rick

You can say one thing for Rick Barry: he doesn't let missing a few better him.

The San Francisco forward, who leads the National Basketball Association in scoring by a wide margin, had his problems in the Warriors' 116-106 loss at Baltimore Wednesday night.

After scoring 47 points against New York Tuesday night, Barry was held to 21 by the Bullets, and only managed to connect on eight of 23 shots from the floor. The latter figure shows that Barry missed them or not, Barry kept on.

In the meantime, the Bullets, playing their first game under new coach Gene Shue, raced off to a 29-lead in the opening minutes, fell behind early in the third period and then staged a winning rally at the beginning of the fourth quarter.

In other NBA games, Boston beat Cincinnati 119-91, New York edged Detroit 118-116, Philadelphia took Chicago 117-103 and Los Angeles outlasted St. Louis 139-129 in overtime.

# Review Of Stock Portfolio Could Save \$\$\$

By RAY DE CRANE  
Investors who had gains or losses—either actual or paper—in 1967's turbulent stock market may find it profitable to review their portfolio this month. Trades made within the next three weeks will be completed before the end of the year, making it possible for investors to

take full advantage of any tax savings. The best way to plan your investments is to make a complete record of all your transactions for the year in the same fashion you follow in preparing your tax return. Separate your operations into short-term (hold six months or less) and long-term transactions (those held longer than six months before a sale). Combine all your short-term gains and losses first. Do you arrive at a net short-term gain or a loss? Did you have a short-term carry-over from last year? If so, enter that carry-over into your tabulation. Repeat the same operation for your long-term transactions.

## Answers For Veterans

By HERR JOHNSON  
Q—I am drawing a VA pension and a check from social security but I am having a hard time making ends meet because of the cost of living. How much money could I make before losing my VA pension? D.C.N.  
A—That is a question I cannot answer without investigating your individual case. I would advise you, or any veteran receiving pension, who is considering employment to contact your service officer before such a step, so that a close look at your case can put you on a safe ground for such a course of action.

## Legion Unit Enjoys Party In DeBarry

The Auxiliary Unit to DeBarry Herbert D. Gibb Post 2050, American Legion, held the annual Christmas luncheon and Card Party Saturday, in the Plantation Room at DeBarry Restaurant. The tables and room were decorated in the holiday theme, and the president, Mrs. C. E. Butler, welcomed members and guests, and her committee, Mrs. Alfred Newell, Mrs. John Lewis, Mrs. Edmund Jovanna, Mrs. Viola Lamberson and Mrs. J. S. McLaughlin.

## Blue Angels' To Get New 'Chief Angel'

PENSACOLA (AP)—A Texan once shot down over North Viet Nam was named as the next leader of the Navy's famous Blue Angels precision flight demonstration team. The office of the Chief of Naval Air Training said Lt. Cdr. Billy Vernon Wheat, 34, of Houston, Tex., will take over in January from Cdr. Bob Amuck, who will report to the Miramar Naval Air Station, Calif., for fleet refresher training.

ever. Should you take a loss in an effort to cancel a previous gain, you might want to buy right back into the market, convinced that prices are depressed and there is a chance of a future gain. Don't sell 100 shares of ABC Company to take a loss and then, within 30 days before or after the sale, buy another 100 shares of ABC Company for its long-term profit potential. If you do this, you will create a "wash sale" and Internal Revenue will not allow the loss. Internal Revenue laws refer to the purchase of "substantially identical" stock after a loss transaction as a "wash sale."

Most brokers have lists of stock switches that can be used to avoid the loss sale trap. For example, it is possible to sell stock of one automotive manufacturer and buy (within 30 days) the stock of another car maker. Or you can sell AT&T and buy T&T. Your broker, of course, is the best source of information on such stock switches.

Wheat was shot down over North Viet Nam a year ago. He was wounded and spent three hours in the jungle before being rescued by a helicopter. The next leader of the Blue Angels is Lt. Cdr. Billy Vernon Wheat, 34, of Houston, Tex., who served 16 years in the Navy. A former enlisted aviation electronics technician, he was commissioned in February 1964 as a lieutenant. He holds the Distinguished Flying Cross, the Air Medal and the Purple Heart. Wheat is presently assigned to the office of the Chief of Naval Personnel in Washington. Amuck has led the Blue Angels the past three years. During that time, the team made 28 public appearances, including a European tour last year. The Navy also said two other new members will be assigned to the Blue Angels in 1967. They are Lt. John E. Allen, 26, of Monroeville, Pa., and Lt. Frank J. Gallagher, 29, of New York.

## Crackdown Seen For 'Conchies'

PORTLAND Ore. (AP)—A U.S. District Court judge says he may soon increase the sentence for military draft violators. After sentencing a young man to three years in prison, Judge John F. Elkenny said Wednesday he may make it five years for future violators of draft laws.

## Unexpected Bargains

LONDON (UPI)—Ladies at a recent neighborhood rummage sale here never had it so good. A deliveryman mixed up the addresses and brought to the sale an order of new dresses valued at \$68 each and intended for a nearby shop. Before the mistake was discovered several of the dresses had been snapped up for \$11 each.

## Mrs. Gloria Accardi Heads Bridge Club

New officers of the Deltona Duplicate Bridge Club were elected Tuesday at the annual Christmas party and meeting. Serving will be Mrs. Gloria Accardi, president; Dr. R. R. Roseborough, vice president; Mrs. Naomi Nicholls, secretary; Charles Daglia, treasurer; Miss Ethel Johnson, game director; Dr. Frank Bunnell, two year director, and C. R. Andrews, three year director. In the game, there were 12 tables, in two sections, in play with Frank Matheson directing. Winners were, Section 1, NS, first, Col. and Mrs. William

Small World, Suspects Find MIAMI, Fla. (AP)—Three men learned it's a small world when they got off an airplane that flew from Miami to Los Angeles Tuesday.

In the Los Angeles airport Sgt. John Hayward, waiting for a flight to Miami. Hayward's superiors said he recognized the three travelers as men wanted for questioning about a Miami crime. He had Los Angeles officers arrest them on suspicion of robbery.

## Deltona AARP Meets Friday

By MILDRED HANBY  
Deltona Chapter 888, American Association of Retired Persons, will hear a presentation on AARP's new "Coordinated-Care" program at the December meeting at 2 p.m. Friday at the Community Center on Lake Monroe. Speaker will be Samuel C. Boardman, representative of the AARP Insurance Service. The new program is designed to work hand-in-hand with Medicare and, following the explanation, there will be time allowed for questions and answers. All interested persons are invited to attend.

## Deltona AARP Meets Friday

President of the Deltona Chapter is Lawrence O. Coyner, 573 Normandy Boulevard. Refreshments will be served at conclusion of the meeting.

## APPOINTED

City Manager Warren E. Knowles of Sanford has been appointed by Kenneth Thompson, president of the Florida League of Municipalities, to serve on the statewide retirement committee of municipal employees for 1967.

## Stocks Urged As Yule Gifts To Tots

AP Business News Analyst NEW YORK (AP)—The New York Stock Exchange has just completed mailing to its members some information on how to promote shares of stock to Christmas gifts, especially to youngsters. The exchange described such gifts as "both educational and practical," as "combining sentiment with good sense," and as adding "excitement and involvement to life."

Immediately, some ways were suggested at today's depressed stock prices certain shares might substitute for the Christmas card but hardly for the gift itself. The exchange, thinking otherwise, explained its conviction in a letter to executives of brokerage houses. Such gifts, it is said, "create good will and help educate a whole new generation of investors."

As proof of the potential market, exchange officials noted that studies show "a promising age group for growth in our business over the years ahead lies among youngsters under 21." As proof of the existing market, 1,300,000 minors now own stock—a figure which has tripled in the past three years and increased more than 500 per cent in the past decade.

Afternoon Church Ceremony Unites Miss Jane Lundy And R.A. Simmons

Miss Jane Irene Lundy and Robert Allen Simmons were united in marriage at 3 p.m. Sunday afternoon at the First Methodist Church of Oviedo with Rev. Robert Barber officiating at the double ring ceremony.

The bride is the daughter of Mr. and Mrs. John Emiel Lundy of Oviedo, and the groom is the son of Mr. and Mrs. Edward Q. Pechar of Camp Hill, Pa. Two standing baskets of giant white mums and gladioli were used to decorate the church. The mums were spiked with flecks of ruby red coloring and in the background were two seven-branched candelabra.

With Their Dazzling Gowns Swishing... They'll All Be Belles Of The Champagne Ball

The glitter and glow of the holiday season will burst in full array Saturday evening when the Champagne Ball is presented by the Seminole County Mutual Concert Association.

Mrs. Newman will be wearing a jeweled two-piece ensemble of turquoise knit, complemented by a matching chiffon scarf in the low V-neckline. This season's concert membership chairman, Mrs. Nesmith, will be in a smart black sheath adorned with soft shirred chiffon, gathered at the shoulder line.

ABANDONING HIS NAVY blues for formal civilian attire is Rear Adm. Harry Smith (USN Ret.) with his lovely wife, Grace, who will be among the throngs attending the Champagne Ball, Saturday night, at the Sanford Civic Center.

ARE KIDNEYS & BLADDER FUNCTIONING PROPERLY?

If not, try "2-20" formula. "2-20" is a mild diuretic to the kidneys. It flushes out body poisons and relieves bladder irritation. If you feel nervous, uncomfortable and "run-down," get a bottle of "2-20" today at your drug store. "2-20" has helped thousands. Yes, you can get more out of life by feeling your best. A product of McPhail Laboratories. Liquid or Tablets 720

**Blazing fire, raging out of control, destroyed a new and used furniture store at the corner of Celery and Sipes Avenues late Thursday.**

The store was managed by Cecil Carlton and the building was owned by Francis Meriwether. The structure was valued at \$7,500 and the contents at approximately \$10,000. Nothing was saved and it was reported that the store was not insured.

Alarm was answered by the Midway-Cannan and Lake Mary Volunteer Fire Departments, but the fire reportedly was already out of control when they arrived.

Cause of the fire had not been determined today.

**The Shad Are Running**

The shad are commencing to run. S. B. (Jim) Crowe, fishing camp operator on the St. Johns River, reported this morning. Full impact of the annual shad run will be felt about Dec. 27, "when the moon is full," Crowe said.

**Cleveland Gets Committee Post**

Seminole County Legislator Mack Cleveland Jr. today was named to the important Committee on Governmental Organization and Efficiency, by House Speaker Ralph Turlington.

The committee will use as basis for its work the investigations of the Legislative Committee on Governmental Organization and Efficiency, which will turn his recommendation over to hold . . . in sickness and in health. . .

## County Getting Jessup Causeway Cost Study

Feasibility study of the Lake Jessup causeway will be presented to the Seminole County Commission next week by C. W. (Bill) Benedict, district engineer of the State Road Department.

The study will include an alignment of the causeway and estimated cost.

The causeway . . . extending from the foot of an improved Seminole Avenue across Lake Jessup to a point in the vicinity of Tusculwilla Road and SR 419, west of Oviedo. . . is being expedited locally because of the placement of the new Florida Technological University on SR 50 three miles south of Oviedo.

The causeway would shorten the 10-mile distance between Sanford and Oviedo by about 10 miles.

Apparently the causeway will be a toll-free highway since the County Commission has not requested a "traffic and earnings" study by the State Road Department.

Presently, at the request of the County Commission, the State Road Department is negotiating with a private engineering consulting firm for a feasibility study of traffic and earnings for the proposed causeway across Lake Monroe. In other words, this causeway would be paid from tolls.

The engineering firm would conduct a traffic count on Hwy. 17-92 and a "spot check" of automobiles "from the point of origin" and whether the "driver would be willing to pay a toll to travel a lesser distance."

It is estimated this causeway would reduce distance around Lake Monroe by about three miles. The toll would be less than the expense of operation of the car.

This new highway would extend from Hwy. 17-92 at a point between Orange City and DeLand, through Enterprise, across Lake Monroe and connect with the foot of French Avenue.

PILE OF RUBBLE is all that remains of Cecil Carlton's Furniture Store at the corner of Sipes and Celery Ave. after a fire of undetermined origin completely destroyed the building and contents about 6:30 p.m. Thursday. (Herald Photo)

**Fire Wipes Out Furniture Store In Area**

Blazing fire, raging out of control, destroyed a new and used furniture store at the corner of Celery and Sipes Avenues late Thursday.

The store was managed by Cecil Carlton and the building was owned by Francis Meriwether. The structure was valued at \$7,500 and the contents at approximately \$10,000. Nothing was saved and it was reported that the store was not insured.

Alarm was answered by the Midway-Cannan and Lake Mary Volunteer Fire Departments, but the fire reportedly was already out of control when they arrived.

Cause of the fire had not been determined today.

**Seminole School Buses Arrive**

Four of Seminole County's seven new school buses arrived here early today, with the other three expected "later today."

Students and parents may look forward to the long-awaited easing of the bus over-crowding situation when school resumes after the Christmas holidays.

School board officials were elated when informed at their meeting Thursday that the buses "are on the way at last."

The new buses were ordered last February through the state bus pool order. Delay in delivery has been laid to diversion of truck body materials to the Viet Nam war.

In making the announcement, Walter Teague, administrative aide, told board members, "not to expect to see the buses in use the next day, because they will have to be checked out, inspected and tested for defects and equipment as specified in the order."

"Since we have only five more days of school before the holidays, they probably will begin operation the first week in January. Parents will be informed of changes in schedules and bus routes, due to age, making an addition of five new buses to transport students."

Each of the buses seats 66 persons. State safety team officials have been in Seminole County this week, working with transportation officials and drivers.

It was announced that with the completion of this week's workshop several senior drivers will have had over 100 hours of training.

**Seminole To March In Inaugural Parade**

Seminole High School's Marching and Twirling Band will strut the streets of Tallahassee in the governor's inaugural parade, Jan. 3, Bandmaster William Elmour announced today.

Wearing their brand new Seminole Indian uniforms with the feathered headdresses, the local group will join bands from all other counties in the state.

Decision to accept the invitation from the Tallahassee Chamber of Commerce was made at a meeting, Thursday.

The parade scheduled that afternoon. The students will pay for their rooms and meals.

After touring the FSU campus and the Capitol, the local Marching Seminoles will return here on Jan. 4.

**Cleveland Gets Committee Post**

Seminole County Legislator Mack Cleveland Jr. today was named to the important Committee on Governmental Organization and Efficiency, by House Speaker Ralph Turlington.

The committee will use as basis for its work the investigations of the Legislative Committee on Governmental Organization and Efficiency, which will turn his recommendation over to hold . . . in sickness and in health. . .

## Tax Receipts 'Good'

Approximately \$8.4 million out of a total tax roll of \$5.4 million combined county and city taxes had been collected at the end of November, Troy Ray, county tax collector and Howard Wheeler, city finance officer, reported today.

Seminole County and Sanford taxpayers are due to receive the 4 per cent discount of their taxes in November to boost collections in the county to 64.9 per cent of the total and 60 per cent of the total in the city, figures show.

County Tax Collector Troy Ray reported these figures today:

In 1965, at the end of November, out of an estimated total of \$3,413,646 in taxes, 69.5 per cent or \$2,375,577 had been collected.

This year, at the end of November with an estimated tax roll of \$4,761,564, 64.9 per cent have been collected for a total of \$3,086,867.

Out of the total county taxes, 67 per cent goes to the schools or \$2,073,706. School finance officer Walter Teague has received \$720,000 so far this year, compared to \$450,000 this time last year.

In the City of Sanford, Howard Wheeler, city finance officer reported a total of \$381,200 had been collected at the end of November this year, compared to \$259,700 at the same time in 1965.

Total city tax roll is \$645,362. Discount in December is three per cent.

**VAH-6 Sets Command Change**

Reconnaissance Attack Squadron 6, which only last week returned from a combat deployment in the South China Sea, will have a change of command at 2 p.m. Monday at Sanford Naval Air Station.

Cdr. C. R. Smith, who assumed command last December, will be relieved by Cdr. W. S. Thompson, formerly RVAH-4 executive officer.

The "Fleets" of RVAH-6 returned last week after eight months deployment aboard the aircraft carrier USS Constitution off Viet Nam. The deployment was the first for the Fleets since they moved to Sanford from Whitley Island, Wash., in 1965.

Capt. E. E. Fowler Jr., commanding officer of Reconnaissance Attack Wing 1, will be the featured speaker Monday.

Smith will assume command of RVAH-6 as SPSAS, succeeding Cdr. Dean E. Webster.

**D.C. Bound**

AUSTIN, Tex. (AP) - President Johnson flies back to Washington today for a round of budget conferences and such official engagements as the lighting of the national Christmas tree.

County Judge Karlby Housholder had a busy two and a half hours yesterday afternoon. Judge Housholder heard some 27 pleas in County Court. There were 11 guilty pleas, 23 not guilty, 31 continued cases and 97 bond estimates.

Judge Housholder said it was the heaviest docket in the court. Housholder, before serving as County Judge, was County prosecutor for many years.

**Judge Has A Busy Day At County 'Plea Day'**
