

NO MORE RAISES ASKED BY RAILROADS SOON SAYS CHAIRMAN ASSOCIATION

BIG BUSINESS DONE BY ALL ROADS THE PAST YEAR

SATISFIES THEM

AND THEY WILL NOT RAISE RATES WHICH IS SOMETHING TO BE THANKFUL FOR

NEW YORK, Dec. 27.—American railroads are completing a record year and have no intention of asking for another general increase in rates, Thomas DeWitt Cuyler, chairman of the Association of Railway Executives, declared tonight in a statement reviewing the railroad situation for the year of 1920.

The year just ended, Chairman Cuyler said, saw American railways placed again under private ownership and under such direction saw them move a larger gross tonnage than ever before and also establish new records in the amount of transportation gotten out of each car. These records, Mr. Cuyler added, were not achieved by the railroads alone, but with the aid of shippers in unloading cars and with "the day and night, rain or shine, work of hundreds of thousands of employes."

The railway executives association chairman referred in his review to reports that railroads plan to ask for a further increase in rates, and in that connection said:

"I know of no movement on the part of railroads for a general increase in rates, nor do I expect any. It is true that the railroad companies are not yet receiving from the increased rates anything like the 6 per cent return needed. But the railway executives realize that they are trustees of a great public interest in the reduction of railroad operating expenses to the lowest possible figure, and every effort will be made during the coming year to accomplish this by further economies and efficiency."

INFLUENZA IMMUNE AFTER AN ATTACK SAYS THE MEDICOS

WASHINGTON, Dec. 27.—Influenza attacks carry definite immunity to subsequent attacks lasting several years according to public health service announcement after intensive study. Declare since epidemic 1918-1919 affected so large proportion of population seems reasonable for believing should disease become prevalent this winter would not assume epidemic proportions of last two years nor be in such severe form.

FRANK CLARK WOULD JAIL MALE VAMPS

WASHINGTON, Dec. 27.—A bill has just been offered in the house by Congressman Frank Clark of Florida to prevent ogling, flirting and mauling on F street, Washington's fashionable shopping street, which would jail the male species indulging in this practice.

The bill provides that all persons who loiter on the street or who stand at or near the entrances of theatres, motion picture shows or other places of amusement and by any means whatsoever annoy any woman or girl with whom such person had no previous acquaintance are each and all of them hereby declared to be vagrants.

"There is a species of the male even more deadly than the female that has made a certain street in the national capitol famous as well as infamous from the Potomac to the Pacific coast," Mr. Clark said.

"A year on the rock pile is the best cure for them," he said, and it will make the worst ho-vamp want to wear blinders for the rest of his natural life.

The Florida congressman's attention was first called to the presence of the so-called "cake-eaters" by reading of the antics of young men on the Washington streets. When he decided to introduce this bill, designed to break up circles of negro idlers, he approached the subject with an open mind toward including the masculine flirt within the scope of his bill. It was not until he took an afternoon stroll down F street that his mind registered something more convincing than doubt so far as the existence of these male "vamps" goes. It is said that he approached a popular corner and spied a young dandy leaning idly against a doorway for support with the ever present cigarette at hand. The congressman stood for a moment, it is also related, gazing upon the human clothes model googling every young woman who passed that way. That was enough for the Floridian. He had seen all he wanted.

FRUIT GROWERS MEET IN ORLANDO TUESDAY A. M.

CITRUS MEN OF STATE WILL HOLD MOST IMPORTANT MEETING AT 10:30.

What promises to be one of the most important meetings of the year for the citrus fruit men of the state will be held in Orlando tomorrow morning at 10:30 in the Board of Trade rooms just opposite the San Juan Hotel. The meeting is the result of a smaller meeting held in Leesburg last week at which the preliminary steps were taken for the big meeting in Orlando.

The citrus fruit growers of the state have many problems to discuss the principal one being the exorbitant freight rates that make the shipping of oranges prohibitive this season. The packing houses have closed for holidays and unless the prices are much higher after the first of the year they may not open at all. A serious problem for the citrus grower is the freight rates and handling of the crop and the same situation confronts the vegetable growers. They are paying exorbitant prices for labor and everything that goes into the raising and shipping of fruits and vegetables and they are holding the meeting in order to make a concerted effort to get together for the mutual protection.

Every citrus fruit man in Seminole county should be at this meeting.

WHITE CHRISTMAS AT PRESBYTERIAN CHURCH SUNDAY

SUNDAY SCHOOL AND CHURCH GAVE TO THE ORPHANS—APPROPRIATE EXERCISE

The Presbyterian church was a scene of Christmas cheer last night when the various classes of the Sunday school and the members of the church and a large gathering of people attended the White Gift services. This service is conducted each year, having supplanted the old order of the Christmas tree whereon each member of the Sunday school received a gift and following out the teaching of the Bible that it is better to give than receive the Presbyterian Sunday school now has a special White Gift service, all of the classes giving something to the Thornwell Orphanage that the little ones there may have a joyous Christmas and be made comfortable throughout the year. The idea when first started consisted of giving gifts of money and clothing but it was found that the money could be used to better advantage by the officials of the orphanage and each year sees a big increase in the giving this year, the Brotherhood Class giving \$175 to the little children in our care.

The rostrum of the church was beautifully decorated in ferns and palms and Christmas decorations and in the center was the white cross from which long streamers were extended bearing the new \$1 bills given by the classes and as the various classes were called a representative arose and unfurled the streamer, letting it fall, meantime telling the name of the class and the amount given with an appropriate verse. Readings and recitations commemorating the Christmas time were rendered and each class was represented in the exercises from the tiniest tot to the grown folks. One of the features of the exercises was little Carmen Guthrie, who wheeled her little baby brother into the church in a white carriage and standing beneath the cross gave a verse about the Cradle Roll of the Sunday school. The choir rendered several selections in Christmas music and Dr. Brownlee gave a brief history of the White Gift celebration during the exercises. At the beginning of the exercises each class in their respective rooms of the Sunday school rendered a special Christmas song before coming down and taking their places in the audience and the entire program was well rendered and was most appropriate and enjoyed by everyone present.

A large sum of money was realized in which many who are not members of the church participated and gave to this most worthy institution that is taking care of so many hundreds of little ones who have been left desolate by the loss of parents and relatives.

PARSON WYNNE, AGED NEGRO, WAS KILLED

SUPPOSED HE WAS "STUCK UP" FOR HIS MONEY AND KILLED WHEN HE RESISTED.

Saturday night was the time of a cold-blooded murder probably the result of a "stick up" staged by hold-up men when Parson Wynne, an aged negro of Goldsboro, was killed. Two negro suspects are held in the county jail having been apprehended by Officer Walker shortly after the crime was discovered. The Parson is alleged to be a dispenser of booze of the moonshine variety according to police annals, and it is supposed that the negroes, knowing that he had money or probably seeing him flash a roll after they had paid him for liquor decided to relieve him of the money. As to whether he resisted and was killed or whether the killing was the result of some argument will probably never be known but his body was found at his house late Saturday night after the shots were heard and the officers had been summoned to the scene.

Nothing is known of the case further than this as the preliminary hearing will not be held until tomorrow.

EMERSON HOUGH ILL CHICAGO, Dec. 27—Emerson Hough, author, reported serious condition from pneumonia.

BOARD OF TRADE BUILDS HOUSES AT CLERMONT

PLAN THAT COULD BE FOLLOWED IN SANFORD AND OTHER CITIES

At Claremont Saturday afternoon the citizens of that town congregated at the site of the first bungalow to be erected by the board of trade and with impressive ceremonies laid the corner stone, in which was placed a bottle containing a history of the town, the origin and culmination of the plan for the civic body to erect a number of houses to relieve the congestion of housing conditions, to which all assembled subscribed their names.

The chairman of the building committee, Mr. Fincher, presided, and in a felicitous manner introduced the speakers, who were President Boyer of the board of trade, who painted a glowing picture of the future of Clermont with the spirit predominating in the town; Banker C. O. Roe, who reviewed Clermont from its inception to its present stage and looked forward to what it could be with paved streets and wondrous drives about the lakes, and a sewerage system, and all that goes to make a modern city. W. B. Powell, secretary of the Lake County Chamber of Commerce, commended the citizens on their activities in solving a serious problem and trusted the building program would grow until they would be building bungalows by the miles—home, if you please. Volunteer speakers were called for and among those responding were eight or ten citizens, including a lady, who spoke most feelingly of her love for Clermont and of its potential possibilities.

The bungalow is being erected on a lot donated by one of Clermont's citizens, and a second lot has been donated for the second building to follow. The people there have subscribed about \$5000 for the building fund and it is expected that the first house will be completed for about \$4000. It will be modern in every respect. It is said that a buyer is ready to take over the house, which will allow the second house to be started at once.

Secretary and Mrs. C. W. Williams and Mrs. W. B. Powell also attended the ceremonials and to Mr. Williams we are indebted for the account of the affair. Mr. Williams believes that Eustis could profit by Clermont's example.

The houses are to be sold at actual cost, no profit being asked, therefore the buyer will not only get the value of expert supervision without cost, but many a little thing that will be done by the citizens in beautification, as well as the lot as a gift.—Eustis Lake Region.

PRESBYTERIANS REJOICE OVER THE NEW PURCHASE

HAVE RAISED SUFFICIENT FUNDS TO BUY GRAHAM BUILDING

WASHINGTON, Dec. 27.—The following from the Washington Times today will be read with interest in Florida:

"One year ago C. E. Graham, a wealthy cotton manufacturer of Florida, made proposition to the Ministerial Relief Board of the Southern Presbyterian Church of Louisville, to the effect that he would sell his sixteen-story Graham office and bank building at Jacksonville, Fla., to it for \$500,000, provided it could raise that amount in subscriptions by December 1st."

Rev. Dr. D. H. Sweets, secretary of the Ministerial Relief, has announced that the amount has been subscribed by \$100,000, and the board is prepared to consummate the purchase of the structure, one of the largest in Florida, valued at \$1,700,000, but which cost Mr. Graham only about \$700,000, he having purchased it when the bank which owned it failed. It cost nearly \$900,000 to build more than nine years ago. The rentals will mean \$5000 a month for ministerial relief in the church.

The Graham building at Jacksonville was built formerly by the Heard National Bank and is one of the finest structures of its kind in the South.

GOVERNMENT TROOPS CLOSE IN ON D'ANNUNZIO

INCREASED RATES HIT THE STATE A HARD BLOW

THE GROWERS LOSE

RETURNS RECEIVED FOR FRUIT AND VEGETABLES EATEN UP BY CARRIERS' CHARGES

JACKSONVILLE, Dec. 27.—Because of the high freight rates existing on railroads, growers in Florida and other Southern states are facing a critical situation. Growers and shippers are losing heavily. General conditions in the fruit industry have not been satisfactory, although heavy shipments of fruit have been made. Hundreds of cars of Florida oranges have been sold in the North during the last few weeks at prices which leave little or nothing for the growers, and in many cases the fruit has not realized enough to pay for picking, hauling, packing and freight.

Shipments of Florida fruit have been heavy this year. Supplies of competitive citrus up to the present have been comparatively light, and the fruit men believe that under normal conditions the markets would have absorbed the Florida oranges at very reasonable prices. Shippers say the South has not taken its usual proportion of the shipment on account of the purchasing power of the consumers being below normal. This result growers attribute to low prices for cotton and other commodities.

The low prices in the South have forced a larger percentage of sales than usual in the Middle West and Eastern markets. Growers and shippers in Florida believe that the important point is that while the average price, delivered in the markets during the past few weeks will not net the growers cost of production the same average price a few years ago, would have given the grower about enough to cover the cost.

Orange growers in Florida are now paying freight rates 66 per cent higher than the rates paid three years ago. The railroad officials argue that the increased freight rates come out of the consumer. This is not true, fruit shippers state, in connection with perishables. Selling prices on perishables are governed by the law of supply and demand in the opinion of local shippers. They declare that it is impossible to name and maintain a selling price on fruits and vegetables based on cost and consequently they say the increases in freight rates are paid by the producer.

Railroad officials say the increase in freight rates are so small, as compared to the prices paid by the consumer, that they do not make any difference one way or the other. Shippers maintain that this is not correct.—The Produce News.

TEMPLE BOOK ROOM

A book room has been opened at the Temple and is run on a co-operative basis, the books being sold at the lowest possible price, based on Sunday School Board, Nashville, Tenn. Miss Allie Trafford has charge of the book room. A fine line of Bibles are carried at all times. They would make excellent Christmas presents.

TEMPLE REST ROOM

The temple rest room is being equipped by the ladies of the Euzellan Class and is to be used as a drop-in place for people going to and from the business district. Also visitors and tourists in Sanford will be given a real welcome here.

THE 75 MILLION CAMPAIGN

In the seventy-five million campaign of 1919 the First Baptist Church of Sanford subscribed \$25,000 to be paid in five years. The fact of this large and liberal subscription is that it is backed by enthusiastic and consecrated members. This church desires not to limit its gifts to home needs but to reach the remotest bounds of the world.

READING ROOM AND LIBRARY

The reading room and library of the Temple is open on every Friday evening from seven to nine. There are over six hundred books and some of the best magazines are there for reading. Miss Carrie Stanley is the director of this part of the work.

GYMNASIUM

There is being erected an open-air gymnasium on a lot held by trustees for the church. The lot is just to the rear of the pastor's home. A combination tennis, basketball and indoor baseball ground is there. In the spring a swimming pool will be erected. Also swinging rings and walking ladders with traps.

THE PULPIT FURNITURE

The beautiful set of pulpit and communion furniture has been presented to the Church by the friends and relatives of George and Philo Fox. The set is composed of nine pieces and has been specially built. It will bear a memorial name plate. A delay in shipping will necessitate the opening of the Church without this set. It will arrive about January 1st.

THE W. M. U.

In September the W. M. U. was organized to work on a large scale. The one hundred and eighty-six members were divided into eight circles, each having a chairman, secretary and treasurer. These officers have to report to the four general officers. The circles meet at the discreet homes once a month. Every quarter there is a general meeting of all the circles together at the Baptist Temple where an interesting program is rendered. Each circle carries out the monthly missionary program and a free will offering is taken at each meeting, the money to be used as the general officers direct. There are no dues but every member is expected to contribute to missions each Sunday, through the envelope system into the Church treasury. The following general officers were elected: Mrs. E. M. Carroll, president; Mrs. Lossing, vice-president; Mrs. Savage Scott, secretary; Mrs. John Abrams, treasurer.

The general officers see that the work is carried out, introducing the personal service work and study classes. Following are the groups and chairmen: Philo Fox Circle, Mrs. Chas. Marshall; Jennie Spalding Circle, Mrs. Lossing; Kathleen Mallory Circle, Mrs. DeCoursey; Mattie Guynn Circle, Mrs. Gatchel; Nellie Turner Circle, Mrs. Geiger; Peelman Circle, Mrs. Houston; The Business Women's Circle, Mrs. David Speer; the Y. W. A., Mrs. Hyman and Mrs. Ryan.

We hope to accomplish great things for the Lord during the new year.

MISS SARA MARDRE, NOTED MUSICIAN

The First Baptist Church is to be congratulated on being able to secure Miss Sara Mardre of Atlanta as the pipe organist for the Temple. For some time she has been the accompanist for Mr. Charlie Butler who was with Billy Sunday. She gives up this work to come to Sanford where she will teach piano and pipe organ and play the organ on Sundays for the Church. Prior to this she was a teacher in Cox College and did pipe organ work with the Atlanta Conservatory of Music. For three summers she was the accompanist for Miss Lucy Adams at the University of Tennessee.

Already the enrollment of students for both piano and pipe organ is encouraging. Those desiring lessons from this talented teacher will do well to enroll at an early date. She comes to Sanford January 1st.

THE STAIN GLASS WINDOWS

The design and coloring of the windows is very artistic. Windows were donated by the church for the following former pastors:

- Rev. G. H. Nash.
 - Rev. D. J. Blocker.
 - Rev. J. W. Wildman.
 - Rev. Paul Willis.
 - Rev. M. M. Womboldt.
 - Rev. J. W. Perry.
 - Rev. W. H. Massey.
 - Rev. W. S. Coons.
 - Rev. Geo. P. Guild.

 - Flake B. Y. P. U.
 - Berean.
 - Euzellan.
 - Faithful Workers.
 - Scouts.
 - Love and Service.
- The windows were built by the Southern Art Glass Company of Jacksonville, Fla.

THE PEWS AND CARPETS

The pews of the new auditorium are well built and beautifully made. The

arrangement is such that a person may see and hear as well in one part of the house as the other. The Ladies Aid of which Mrs. A. M. Walker is the president bought the pews. The carpet is of the shade of brown that harmonizes with the woodwork of the interior which is dark oak. The carpet was bought through Kohn-Futchgott of Jacksonville.

TEMPLE LECTURE COURSE

Each year there is a lecture course put on at the Baptist Temple. This part of the work of the church has proven not only successful but also inspirational to the many attendants. The year 1921 will bring the following:

- Dr. Russell H. Conwell. The greatest lecturer in the world.
- Dr. Stephen Wise, the most renowned Jewish Rabbi in America.
- Dr. Clifford Anderson Owens, eloquent and forceful preacher and lecturer.
- Hon. Ralph Parlette, on "The University of Hard Knocks."
- Dr. Lincoln McConnell, on "The Guy Who Delivers the Goods."
- Dr. J. Franklin Roy, "Missionary to Japan."

UPSALA AND GRAPEVILLE
Christmas greetings to all.
Miss Margaret Ericson spent Sunday in town the guest of Mrs. Collier Norman Swanson visited at the home of his parents Monday.
Elmer Bergquist and his sister, Miss Ruth, will spend the holidays with their many friends in Upsala.
Albert Cruse and family spent Sunday with relatives near Wekiwa.
We are sorry to learn that Mrs. Geo. Clark is quite poorly this week.
Miss Margaret Ericson has accepted a position with Yowell & Co. for the Christmas trade where she will be pleased to see her many friends.
Miss Eunice Tyner is home for the holidays from her work at Windemere.
Mr. and Mrs. Tyner are also expecting Mr. and Mrs. Fry and mother, Mrs. Bengston, as their guests from Friday until Sunday from Isleworth Grove.
We were all pleased to have with us Mrs. Mealer and baby for our little Sunday school service which meets now at 2:30.
The children are all rejoicing in the Christmas holidays and looking forward eagerly to the coming of Santa Claus.
Here's hoping that he will forget none of them and may each little heart also hear the sweet story of Jesus and realize that we celebrate Christmas as the birthday of our Saviors.
Mrs. Seigfrer Vihlen, a sister of Mrs. Leonard Vihlen, lately suffered a bad accident by a fall which broke a bone in her arm and leg at her home near Miami.
Willie Tyner and wife and her sister, Mrs. Brown of Sanford, spent Sunday in Upsala, coming out with their cousin, Elmer.

MEMORIAL TO CLARA BARTON
School in Which Great Woman Taught is to Be Preserved as Educational Landmark.
"A public school is impossible," the good folk of Borden town, N. J., told Clara Barton, the greatest woman teacher of her time, and one of the best friends to children in all time. "It has been tried and always it has failed."
She had taught at Hightstown in 1853, and the fame of her conquests of expertly bad boys had spread. Her pupils were her champions, and wherever their enthusiasm could reach some of the general prejudices against public schools were shaken. But Borden town was ten miles away.
The new teacher took a tumble-down, unoccupied building, with six pupils, but in six weeks the place was too small to hold half of the little Borden towners who wanted, at last, to go to school. It had become—though no one knew it then—an educational landmark. The old structure where she proved that there was life in public schools will be taken care of for the future.
Since Clara Barton was the founder of the Red Cross in America, that organization took the responsibility of buying the school when it was in danger of destruction, but they could not buy the site. Now the building has been moved and the land on which it stands has been donated.
Burlington county teachers have restored the interior so skillfully that it is almost exactly as it was when Miss Barton taught there.

AS A FRENCHMAN SEES US
Americans Are Gamblers in Business and Careless in Thrift, is Verdict Ho Randers.
Half a dozen British writers having looked us over this summer and recorded their impressions, a Frenchman, Louis Thomas, is now doing the same thing for the French Capper's Weekly, the Opinion.
"American wastefulness is a stupefying thing to Frenchmen," says Thomas. "We are thrifty and even we must admit, avaricious. Our experts, who co-operated with them in war enterprises, found them abominably wasteful, indifferent to costs and improvident to the last degree."
"The reason is simple," says Thomas. "Americans are gamblers."
"They do not want to make a moderate profit, a steady, regular, perhaps mediocre income, but, on the contrary, to make a great deal of money in a very short time, to 'get rich quick.'"
"They gamble at business—not at roulette or baccarat; but it is gambling all the same."
"As for wastefulness: "So many people here have made their money by chance, by good luck, by a flash of imagination, and not by the sweat of their brow, that they are naturally wasteful and spendthrift to an extent which we can hardly imagine in Europe."
"Everyone wastes, even the poor, and particularly the women, who, for the most part do not seem to have time to acquire the habits of economical housekeeping possessed by women of the old world."

Taxes of the Nations.
The tax burden in important countries was computed for the financial conference held at Brussels. Expressed in dollars at the rate of exchange current in the summer, the Nation's Business states. It is shown that per capita the United Kingdom pays the highest taxes of \$87.00; the United States is second, with \$56.00; France, third, with \$34.00; and Norway, fourth, with \$23.80.
With the income per capita, the economists compared the present government revenue of the latter to the former—which comes nearest to showing the relative burdens of taxes today—is lowest in the United States at 8 per cent and highest in the United Kingdom at 27 per cent. The other countries come in between.

The Cooties.
Colonel Roosevelt told a war story at an Albany reception.
"A doughboy," he said, "had just got back home from the war, and he was lurching in a cafeteria when a dear old lady in the next chair to his own leaned over across her plate and said:
"'I, too, have a soldier son, young man, and a lucky one at that. Would you believe it? My boy went through the war without a scratch."
"'Gee, lady,' said the doughboy, 'spill us the name of his insect powder, will ye?'"

WATCH NIGHT
Time was when Christians used to assemble and spend the last fleeting hours of the old year on their knees. It is a good Godly old custom—this watch night service. It is most pleasing to the Giver of all Good to have His children get together and recount His precious blessings—blessings of mercy—of life preserved—of escape from terrors of pestilence or bereavement or famine. It is a good old Godly custom to confess our sins, personal, civic or national and to ask forgiveness for the same, and to pray for the spirit of earnest endeavor to live right and glorify Him the coming year, so fraught with blessed opportunity and momentous obligation. Will we do it—we Christians of Sanford? Will we assemble with our pastors and pray for God's glowing inspiration to do His will this coming New Year, or will we let the occasion pass without improving it—while the world reels with suffering, sorrow and sin? CONTRIBUTED.

MOLLE

THREE - UNIT - MACHINE
Possesses every essential feature of larger, heavier and more costly typewriters. Three unit machine: base, carriage and action. Many troublesome parts eliminated. The machine for both office and home. Does the work of any typewriter regardless of cost.
For foreign languages, especially equipped with from one to five dead keys—does not interfere with standard keyboard.

WHERE PRICE AND QUALITY MEET
And that must determine your choice of a typewriter. You have no place for the cheaply constructed machine nor will economy permit the outlay of an extravagant sum. Good business sense finds the solution in the MOLLE. The MOLLE incorporates every essential feature you find in any machine at any price. Yet it is unusually simple, both in construction and operation. Built in three units—base, carriage and action—many extra parts are eliminated. This means a saving in repairs and a bigger saving by keeping it on the job. The MOLLE lightest of touch, speediest of action, will do anything that a writing machine is called upon to do with the least amount of noise and effort.

BONES OF HISTORIC RACE

Anthropologists Intensely Interested in Discovery of Indian Skeletons in California.

New indications that California was once inhabited by a race of gigantic Indians was furnished when sewer diggers on Ferry and Howard streets, in the heart of the business district of Martinez, Cal., uncovered an Indian burial ground, with skeletons measuring more than seven feet.

Several skulls and one well-preserved skeleton are to be given over to the investigators of the anthropology department of the University of California. The skulls and skeletons are declared to be of highly important and scientific value.

Discovery of the burial ground has revived an old Indian legend that an immense treasure of gold nuggets was interred with a body of a chief of the ancient tribe of the giant Indians. So convinced are the residents in the truth of this legend that great crowds have thronged around the sewer diggers, largely hampering their activities, and more than a score of persons have applied to the municipal authorities for positions on the city's sewer-digging crew.

According to the ancient Indian legend, the vast gold treasure was buried in close proximity to where the bones were recovered.

Eight years ago William Alfman, curator of the museum in Golden Gate park, San Francisco, declared that skeletons unearthed near Concord were the most valuable contributions to the scientific investigations of the state's prehistoric Indians.

FIND SHELLS CENTURIES OLD

Belief That Relics Unearthed by Workmen in Oregon Were Used as Ornaments by Indians.

Sea shells about six inches across were uncovered by workers recently at Big Eddy, near The Dalles, Ore., lying at the heads of Indian skeletons. They were decayed and crumbled when touched. These shells showed indications of having been used as ear ornaments. They are of the species of shell-fish commonly called "coghogs" on the Atlantic coast, according to persons who have observed them, and do not grow to the size of those found on the Pacific coast.

Wonderfully perfect spear and arrow-heads, made of obsidian, a rock found no nearer than California, also were unearthed. All of the chipping on the arrow-points found appeared to be much finer than later Indian work, local amateur collectors declared.

The relics found by highway workers at Big Eddy are an accumulation of centuries, in the opinion of D. L. Cates, city recorder, who has lived in and around The Dalles for more than 60 years. He points out that in the hills back of Big Eddy trails worn in the rock may be seen, evidence of the activities of Indians who used these trails for hundreds of years. Mr. Cates says that at Big Eddy the Indians find finer salmon fishing than at any other place along the river and have been making the trip to that place annually probably ever since salmon began running up the Columbia.

Photography 100 Years Old.

This is the centenary of photography. So rapidly does the world progress, so essential a part of our civilization has become the taking of pictures, that it is difficult to realize that the art was unknown when Monroe first entered the White House. Yet in 1820 Niepce, first of all men, succeeded in producing what might be called a photograph, a rude impression on a silver plate rendered sensitive by a layer of asphaltum saturated with oil of lavender.

And though this discovery awakened world-wide interest at the time, this method could not be put into general use, and not until 1839 did Daguerre succeed in producing the first practical photograph. After that date the art advanced rapidly, so rapidly, in fact, that before 1850 the daguerrotype was common in every village, in every family. From the silver plates of Niepce to the motion picture of today is a long step, a step which but illustrates the rapidity with which modern civilization advances.

It Did Come Suddenly.

An unusually interesting communication was received by a New York life insurance company from the Dahlstrom Metallic Door company of Chicago. A letter, pointing out the advantages of insurance, was mailed to Mr. Dahlstrom on November 16, 1920. A part of this letter read as follows: "Have you ever thought that your turn may come suddenly. Suppose it did—" The answer to this supposition, as written by some unknown person, is as follows: "It did. He's dead. Returning letter and postcard. Can't forward. Keeping blotter. Can use this."

Homes That Preachers Came From.

It is interesting to note the type of homes that preachers come from. In the Methodist denomination 64.7 per cent of the preachers come from farmers' homes and 11.8 per cent from preachers' homes. In the southern Presbyterian denomination 47.7 per cent come from farmers' homes and 18 per cent of the preachers come from parsonages. In the Presbyterians of the United States of America 33 per cent come from farmers' homes, while 15 per cent come from parsonages—From Georgia Methodist Conference Notes in Atlanta Constitution.

EAST SANFORD

Greetings of the season to the Herald and all its readers.

The first celery to leave Sanford in car lots will be two cars grown by Christ Bucusel, of Cameron City. A. Moses has bought it and paid \$2.50 per crate here for it. It is a variety of Greentop. Mr. Moses will ship it to New York, leaving here the first of next week.

Aahley Purvis, also of Cameron City, will cut five cars of Golden Self-bleaching celery next week. W. B. Ahern paid \$2.00 per crate here for it and will ship it to Chicago markets. Both of these fields of celery are said to be fine stuff.

Mr. and Mrs. C. E. Chorpening are about the happiest folks in Florida, this week as their daughter, Mrs. Bryan Squire and their three children will be here from Jacksonville for the holidays and their son Horace will be here from Cleveland, O. The Chorpreings will have a family dinner party Christmas, Mr. and Mrs. A. Corpany will be guests. Altogether here will be fourteen in the party.

Miss Maude Cameron will be here from Tampa Friday to remain over Christmas with her parents, Mr. and Mrs. A. B. Cameron and sister, Claire. Miss Cameron has not been home for a long time as she has a position in Tampa that is not easy to get some one to fill.

Ed. J. Cameron is at home from Postwick for the holidays.

Mrs. Jennie Provatt and son Walker, were over from Geneva Sunday visiting her son, Will and family.

Mrs. Herman Brantley arrived here from Indianapolis, Ind., Friday to join her husband. Mr. Brantley came here with his parents some time ago from Montgomery, Ala.

Miss Lorotta Tracy is here from St. Petersburg to remain over the holidays with her brother, Elwood and daughter, Mrs. E. P. Moore.

Mr. Akin, of Atlanta, was a recent visitor at J. W. Corley's.

Dame Rumor is saying John Warren and Miss Harv. of Celery avenue, are to be married Christmas day.

The little Steels boys, George and Robert, have the whooping cough.

Mrs. C. E. Chorpening's Sunday school class of girls and boys enjoyed a weenie roast and picnic last Friday evening at Robinson's Springs. Mrs. Chorpening and Mrs. A. Corpany chaperoned the party. Every one had a dandy time.

Mr. and Mrs. R. L. Grier are receiving the sympathy of their friends at the death of their best mule, a fine 16, 5-year-old. It broke out of the yard last Saturday night and got something to eat, presumably poison in some kind of crops for cut worms, and was found dead Sunday morning. The mule was valued at \$500.

TO DISTRIBUTE INDIAN LANDS TARRHEEL STATE

WASHINGTON, Dec. 26.—Distribution of the lands now held by Cherokee Indians in Western North Carolina, provided for in a bill introduced in the house by Representative Weaver, Democrat, North Carolina, will come up soon, before a sub-committee, Mr. Weaver announced today.

Each Indian would be allowed thirty acres of land under the bill, Representative Weaver said the lands of this colony consisted of between 40,000 and 50,000 acres in Swain county, containing valuable water power sites which probably will be retained by the government.

The New Smyrna-Cornado Board of Trade, which is about the liveliest civic organization on the East Coast of Florida this winter, pulled off a novel stunt here recently when invitations were sent broadcast to every man, woman and child in the city and community to gather at the public school building for a "Jamboree."

Are ye of little faith?

The sun is still shining and the sky is blue.

Come out this week and enjoy our Million Dollar Band.

This is the time to prepare for the many new people who come to Florida after the holidays.

Sanford still needs two auto camps, one on each side of the city. The one on Sanford Heights is inadequate and should be abandoned.

We could house a thousand people here right now with two auto camps and this would mean at least two thousand dollars a day being spent here the rest of the season.

Now is the time for the growers and the business men to join the Sanford Chamber of Commerce. The transportation committee alone offers you more than your annual dues will pay in ten years to come.

It is high time that the progressive people of this city weeded out the unprogressive and placed them where they belong. Whatever helps one helps all and those who stand back year after year refusing to give anything to the Chamber of Commerce, to the advertising of the city, to the many features that mean so much to all the business interests have no right to share in the business that is brought here through the untiring efforts of a few big-hearted, up-to-date and progressive citizens. There is a way to make singers out of those who refuse to sing.

HAVE YOU GOT THE VEGETABLE BLUES?

You have all heard the old song about having the "alcoholic blues" and just now a bunch of people here have the "vegetable blues" and it hangs over the city in big streaks of imaginary lines that seem ready to drop over on some of them and crush them down. These "vegetable blues" have been an epidemic here for many seasons and while there are one or two seasons that they could not possibly have an epidemic on account of the high prices there always creeps into the business affairs of the city that discordant note about what the crops might or might not do and the business seems to be builded upon the sands that are continually sliding away from under the foundation of our structures. This should all be changed and regardless of whether the growers make fortunes or not the situation should be and is solid enough to go right ahead making our plans for the future and there should never be any blues in this section. We are not a one crop section, we are not dependent upon rains, we are not afraid of losing the entire output on account of a cold snap and if it ever does in period of ten or twenty years freeze again the orange trees soon "come back" and the man who sticks comes back with them, the vegetable grower goes right along and plants another crop and if he does not recoup his losses he at least evens up things a bit. This farming game, while it borders on the spectacular and seems to be a gamble is no more gamble than the ordinary business man tackles when he enters business

J.P. SAYS: Peace, Power and Plenty are effects of certain definite causes and effects are invariable in their operation. The same cause will invariably produce the same effect. "Like begets like." "Whatever a man soweth, that shall he also reap" are natural laws governing the growth and development of life. It applies to your social as well as to your financial success. A man with money by careful investment makes more money with the money he already had, and good, clean, money brings peace, power and plenty. THE SOUTHERN UTILITIES COMPANY'S 8 PER CENT CUMULATIVE PRIOR PREFERRED STOCK offers an excellent investment and may be secured for cash or on the installment plan. There is none better.

and when the merchant goes broke he goes broke all over and has nothing left upon which to fall back. The farmer always has enough to eat and can find some one to stake him to another crop and if there is any more prosperous section anywhere than right here we fail to find it. And yet after Christmas we find so many with the thought that everything is off, the market's bad, the prospects ruined and no chance to recoup any losses that might have been sustained.

The outlook is problematical just now. It is always problematical. It is problematical with every business man in the city. This game of life is problematical. When we arise in the morning it is a gamble as to whether we will finish out the string and come home at night. We might cross the street in safety or we might get killed by an airplane or a fast driver in an auto or a sign might fall on us as we pass along the street or we might eat a bad oyster, etc, etc. However, this does not deter us from going right ahead and doing business each day just as though death did not lurk right around the corner with a black jack ready to hold us up at any time. If we stopped to study about what might happen we would never get anywhere and the man who intends to get ahead and does get ahead does not stop to think about what might happen—in nine cases out of ten he is prepared for eventualities as much as a poor mortal can prepare—and he is too busy to contemplate what might happen on the shores of Dismal Lake, he is sailing over the azure blue of the lake and Hope and meets each day with a song of praise and thanksgiving that the Lord has allowed to him to live and enjoy life. This continual grouch and croakings and lamentations will never get us anywhere. Regardless of the fact that fruits and vegetables are not bringing much on the market now we should go right ahead bolstering up our business. We should go right ahead making plans for better freight and express rates and then—go ahead building hotels and business houses and homes and putting up tents for the thousands who are headed this way and want to stop in Sanford if we can find a place for them. We have no time for sitting around in sackcloth and ashes and bemoaning our fate. If half of the people here had as much to contend with as the newspaper man did, if half of them had gone through the trying times of the last four years as the newspaper man has gone, if half of them were confronted with the trials and tribulations and troubles and little profit year by year they would hardly have the spirit to continually boost and boost and boost all by your lonesome. It is nothing to feel bright when everything is bright but it takes some real stuff to keep moving when there are so many "blues" scattered around all the time.

Sanford never had such real prospects as right now. Sanford growers have the world by the tail with a down hill pull and do not know it. Sanford merchants have the grandest chance to get together and make this the greatest city in Florida in the next four years. Don't stop anything, but start everything and start it now with the new year upon us. It makes us tired to have this little spurt of discontent hit this section about this time each year when there is no real reason for it. We intend to get behind the railroads and make them give us what we want and must have. We intend to have the growers get together on some plan that will market their celery crop to good advantage. We intend to help the business men of this city to bring more trade here and we intend to do something right now to bring in new people and find them homes for the remainder of the season and last but not least we would ask each and every man here to join the Sanford Chamber of Commerce and with a concerted effort to do all of these things for which we are always grumbling and seeking but which will never come to us without some effort on our part.

For heavens sake, quit talking about what happened in Georgia and other states. We are not living in Georgia but in the greatest state in the union and one that has had some hard blows but has always recovered and one that has not been hit by anything this season except a case of "blues" that are more imaginary than real.

Get busy and help us to help you

and by helping each other and pulling together there will never be anything here except prosperity.

AMATEUR JOURNALISM

Early in the spring of 1920, about February 1st, I think, I was struck with the idea of getting out an amateur paper. Almost all boys have a yearning similar to this sometime or other, and I had always been interested in writing and publishing. My typewriter had just arrived, and I got busy on the first issue. It was to have four typewritten pages, 6 by 9 inches. I typed 10 copies of the first issue and mailed them out to different boys, as samples.

Lewis Shipp, of Sanford, took the job of assistant editor, and he also typewrote a few on his typewriter. By this time I was ready to start on the second issue, I had ten subscribers at the rate of 25c per year. The second issue had a grand (?) circulation of 25 copies.

About this time I decided that I had to have a press. It was too slow and laborious to typewrite 25 separate copies. So I kept my eye peeled for a press. I wanted one somewhere around a 6x9 hand press. None showed up, and I was just about ready to give up, when I managed to buy just the one I needed from Mr. Robb, in this city. He had it laying in his shop for several years, and was glad to dispose of it as much as I was glad to get it.

I ordered the rollers and type in a jiffy, and while I was waiting for it I typewrote the third issue, which had a circulation of 30 copies, and contained 6 pages.

Well, after what seemed months of waiting, the material finally came, and I got ready to print the fourth issue of the "Florida Scout." This was the next to the last week of school, so I was busy "boning" for the exams, and had very little time for printing. I set up the type for one column of the front page, when to my disgust I found that I didn't have enough type. I ordered more type at the Herald, and when it came I set up the other column. (The paper was to be eight 6x9 pages). Then I was all ready. Lifting up the form, I found that the type fell out in places. After fixing this, I set the chase in the press and made a proof. There were mistakes galore. Correcting these, I was finally ready to print. I printed it all right, making 125 copies.

About this time I began to get results from the advertisements I had sent to other papers, and I got quite a few subscribers. The "Seminole Scout" published at Jacksonville, combined with my paper, and this helped my paper a whole lot, as the S. S. was then "Florida's Leading Tribe Paper." After the consolidation I took over this slogan myself, and still use it.

Now the scene shifts to January, 1921. I now have 500 paid subscribers and the paper is now printed on a large power press, which I own. The postal clerks at the postoffice nearly have a fit when I bring my paper down for mailing. Byron Stephens, Sanford, illustrates it with a cover design. I believe I get as much mail as Bob Holly himself.

WILLARD LUMLEY, Sanford, Fla.

WEEKLY WEATHER REPORT

Forecast for the period December 28 to January 1, inclusive: South Atlantic and East Gulf States: Considerable cloudiness and occasional rains; normal temperature first half, much colder later half.

And the next big day is New Years.

The time for those new resolutions and all that.

The City Commissioners will hold their regular meeting tonight.

The beautiful poinsettias in the many yards in this city give the visitor a holiday greeting that is beautiful. Plant more of them.

The carpenters are busy today building the grandstand at the Peoples Bank corner for the Million Dollar Band. They play this afternoon about four o'clock and will play there each day this week.

There may be plenty of moonshine and "red likker" in Sanford but it was not in evidence on Christmas day. The city was remarkably quiet in this respect for which all of us are truly thankful.

The many friends of F. A. Schumpert are glad to see him again and to know that he is prospering at his business of selling farming supplies and irrigation plants in South Carolina and other states. Mr. Schumpert is spending the holidays with his daughters, Mrs. George A. DeCottes and Mrs. G. D. Bishop.

Frank Lossing has leased the planning mill recently operated by S. O. Schneider and later by Pitts & Gibbs and will operate the mill for his contracting business. Mr. Lossing is ready to do all kinds of building, carpenter repair work, etc. He has an advertisement in this issue setting for this fact. Give him a call when you need anything in this line.

The concerts of the Million Dollar Band are free to everyone but if you want to give anything toward the concerts drop your money in the beautiful lily white hands of Charlie Britt or Judge Maines. They will accept it with thanks. This band costs real money—but then it is a real band. The progressive business men and citizens of Sanford have made these concerts possible by their generosity.

Park avenue should be made a one-way street as there are numerous accidents on this street especially when the various churches are holding services. The cars park on both sides of the street leaving only a narrow lane through which it is difficult to drive and there will be a serious accident on this street unless it is made a one-way street or the cars are parked on the side streets adjacent to the churches.

Don't stop buying just because Christmas is over. Your pocketbook may be depleted but our merchants are putting on some big sales in a few days that will eclipse anything before attempted and you should watch the Daily Herald for the glad tidings. They have big stocks of seasonable goods and are intending to sell them to make room for the spring stocks that will soon be coming in. Now is the real time to save money.

A. Theford has hung out his shingle and will practice law in this city, having rented the law offices formerly occupied by the late Major A. K. Powers. Col. Theford practiced law in Arkansas and when the war broke out was sent to Florida where he served until the armistice and falling in love with the state remained. He was attracted to Sanford by the business opportunities presented by this city and has decided to cast his lot among us where he is made welcome by the members of the bar and citizens generally.

All the city lacked in "home coming" week was supplied by the arrival of Jim Harris, who spent several days in the city coming down from Jacksonville to visit his mother, Mrs. Anna Woodbridge. Jim Harris

was one of Sanford's institutions a few years ago and was a live wire in everything and anything. He was the greatest booster of baseball and all kinds of sports and a booster for the city for many years being the largest freight handler in the city and he and his mule were known far and wide by the people who wanted something hauled. Jim left Sanford at the outbreak of the war to work in the ship yards at Jacksonville, a position that he is still holding.

Abe and Issy Kanner are the guests of their parents, Mr. and Mrs. Chas. Kanner, for the holidays.

A. Raffeld and Miss Esther Fleischer are in Palmetto the guests of friends for Christmas and expect to return tomorrow.

Zeb Ratliff has returned from a trip to Miami where he spent Christmas with home folks.

Mr. and Mrs. Reginald Holly have returned from a visit to Palmetto where they spent the holidays with the parents of Mrs. Holly, Mr. and Mrs. James Wood.

Dick Muse, one of the West Side growers and an old strawberry grower from way back is receiving one dollar per quart for his strawberries and has a fine patch of this fine fruit.

If you have not seen Humoresque at the Star see it tonight. It is one of the best moving pictures ever shown here. Tonight is the last night of this fine picture—the kind that you have been wanting to see.

Give your friends a year's subscription to the Daily or Weekly Herald. There is nothing better in the way of a gift. It means more than any one thing in their life and the life of our city. Keep them posted for a whole year on what Sanford and Seminole county are doing.

Postmaster—Elder thought that Christmas was over last week but woke up today with one of the biggest rushes of the season. Just a hangover from Christmas but a Christmas rush nevertheless. This has been one of the busiest seasons the postoffice has ever known.

Judge and Mrs. Schelle Maines have as their guests, Mrs. Maines's parents, Mr. and Mrs. John Herby, of Dayton, Ohio, and the nephew of Judge Maines, J. E. Maines, of Lake Butler. Mr. and Mrs. Herby are former residents of Sanford and their many friends are glad to have them back in Sanford for the winter.

Hundreds of people from surrounding cities were here yesterday afternoon to hear the concert rendered by the Million Dollar Band. The Christmas concert was also enjoyed by the city people and many from the surrounding territory. The band is bringing many new people to Sanford and will bring them here all week. There is nothing like plenty of good music to liven up things.

MUNICIPAL COURT GRIND

Christmas passed off very quietly there being but few cases before Judge Maines and as the judge was feeling very good over Christmas he was very kind to most of them, feeling that none of them should be slighted and since they had evinced a disposition to break into jail he made it easier for them to do so. The following cases were up this morning: Willie Williams, disorderly conduct. Found guilty and fined \$25 and costs and 30 days in jail.

R. Allen was arrested by E. E. Walker for carrying concealed weapon. Bond estreated.

Charles Jefferson was arrested by E. E. Walker for disorderly conduct. Fined \$10 and costs and 15 days in jail.

Joe L. Kirkland was arrested by E. E. Walker for disorderly conduct. Discharged.

Daisy Spline was arrested by E. E. Walker for disorderly conduct and on a plea of guilty was fined \$25 and costs and given 30 days in jail.

Frank Spline was arrested by E. E. Walker for disorderly conduct and was found guilty and fined \$10 and costs and 10 days in jail.

John Dixon was arrested for having in his possession a still and apparatus. Bond estreated and capias issued.

CRIME WAVE IN NEW YORK CITY ENDS

DECLARED NOTHING MORE THAN XMAS DRIVE FOR THE “WIFE AND KIDDIES”

NEW YORK, Dec. 26.—New York's coterie of criminals-at-large with one striking exception spent Christmas at home, police reports indicated last night. Police officials claimed the apparent cessation of outlawry bore out the prediction of Commissioner Enright that the recent bustling activity of the lawless was nothing more than a Christmas drive for “their wives and kiddies.”

One burglary, believed to have been perpetrated this morning at about the same time Santa was negotiating the last chimney, was reported. Diamonds, Liberty bonds and money, the value of which has been undetermined, were taken from the safe of a wholesale clothing merchant in East Fourteenth street. Entering through an adjoining establishment the bandits cut their way through an eighteen-inch wall. In leaving they started a fire, probably with a carelessly tossed cigarette stub in the building through which they entered.

Damage estimated at \$75,000 was caused by the blaze which was confined to the fifth floor of the structure.

Five men, suspected by the police of having participated in the holdup and shooting two weeks ago of a Harlem grocer were arrested yesterday and held in \$5,000 bail each for a hearing today.

AUTO PLUNGES INTO RIVER, TWO DROWNED

ST. PETERSBURG, Fla., Dec. 26.—Mrs. Henry Kramer, 55, and Miss Emily Kramer, 54, New Brunswick, N. J., were drowned yesterday afternoon when the automobile in which they were riding ran off a bridge. Henry Kramer, husband and brother, who was driving the automobile, was rescued. He was taken to a hospital, where it is said his condition is considered serious.

First reports that the automobile was driven off the bridge while the party was watching an airplane were denied by Mr. Kramer. The party had driven to a beach resort after their Christmas dinner and were returning.

RAIN ROKE UP THE BAND CONCERT

The Million Dollar Band was playing in fine shape this afternoon as this paper went to press when the rain started and ran the boys off the platform. They will probably finish the concert tonight at the same place.

There was a big crowd out to hear them but there will be a bigger one tonight.

PRESENTED WITH MASONIC EMBLEM

Judge Maines is the proud possessor of a fine Masonic emblem that was presented to him by the Baptists Sunday School and Church yesterday. Dr. Hyman making the presentation speech. The emblem is a watch fob or pin and is worn today by the judge who feels that it is not only good to be a Mason but also a Baptist.

BITTEN BY RARE SPECIES OF SNAKE, DIES.

WEST PALM BEACH, Fla., Dec. 26.—John P. Clark, age 40, former postmaster here and well known taxidermist, died here late yesterday as the result of the bite of a harlequin snake. Mr. Clark lived but nineteen hours after having been bitten by the snake, which is a rare species.
