House of Babes, which used to stay open to 5 a.m., had to close its doors by 2 a.m. when the county passed its stricter adult entertainment code last summer.

LaBret said that he believes that the board has intermingled the House of Babes issue with that of Sassy Merlot's and VIP Gold, the two clubs which opened without adult licensees.

"House of Babes is a licensed adult club," LaBret said. "This is a land use issue but it hasn't been addressed as such. We got caught in a political minefield."

County officials are confident the board's action will be up-

"We'll zealously defend," said Deputy County Attorney Lonnie Groot.

or near the bridge in the past year. These caused mammoth delays in both directions. Even minor accidents have caused extended delays.

Funds are programmed to continue widening I-

4 - the stretch just west of the bridge between Lake Mary Boulevard and U.S. Highway 17-92 expected to be completed by 2002.

Barley gave an update on the Central Florida

Light Rail Transit System Thursday. Although the approved plans for the system include rails from Sea World into Orlando, Seminole and Volusta officials continue to work toward ex-

rending the route.

"Progress has been made," Barley said. "The four cities (Eatonville, Winter Park, Maitland and Altamonte Springs) want light rail but they don't like the location. It isn't that they're being obstinate. They say that's not the case."

Seminole and Volusia officials envision a light rail span across the St. Johns between the two sections of the I-4 bridge. They're optimistic it will happen, but they're not sure when.

Why you can trust what the Bible has to say

By Wayne Harvey, Pastor

FIRST BAPTIST CHURCH OF SANFORD

I grew up in the church and went to Sunday School every week during my childhood and teenage years so, by the time I got to college I thought I knew the Bible well. I had memorized the books of the Bible in Vacation Bible School. I knew which books were of history, which were the gospels and that the last book of the Bible doesn't have an "a" at the end of it! But sometime during high school I read the first five books of the bible in sequence and, for the first time, it all came together. I learned how Abraham was related to isanc, how Jacob and Joseph were related and who was whom. Finally Bible characters were more than just characters-they fit into a context that made

When I went to college, however, and took Bible courses, I didn't find the same perspective that my Sunday School teachers had. I learned many things that my Sunday School teachers hadn't taught me. Fortunately, most of my professors in college and all of them in seminary had a good purpose: to help us students learn more about scripture without losing our faith in the Bible. Since then my confidence in the Bible has increased. The more I've learned about it, both for it and against it, the more I've come to trust it. I have come to do as Paul instructed Timothy (14-15a): Continue in what you have learned and have become convinced of, because you know those from whom you learned it, and from infancy you have known the holy scriptures.

Now, how about you? Do you really trust the Bible? Do you really believe it? Here are some good reasons why you can trust the Bible.

The Bible is time-proven

The Bible is the most durable book in the world. In spite of its enemies, it is still a best seller. It has been banned, burned and besmirched throughout history yet it's still here. I has been attacked by skeptics who say it is nothing more than men's words yet it still speaks loudly. It has been called outdated and no longer relevant yet it's still changing lives. It has been ridiculed as inconsistent with modern science

Heaven and earth will pass away, but my words will never pass away."

(Matthew 24.35) yet its teachings are still being proven.

Some critics have said that it isn't the same book it was a thousand years ago, that translators and others have corrupted it. Yet after 1947 when the Dead Sea Scrolls were discovered, scientists learned that those copies of our Old Testament books copied around 150 BC were the same books as we have in our Bibles nearly two thousand years later. The Bible has endured intact.

But the attacks of its enemies are nothing compared to the abuse of those who say they believe it. Everybody from the Nazis to the Mormons to the Ku Klux Klan have claimed its teachings support their port slavery, racism, child abuse, communism, free sex, materialism and more. Yet it still tells the same truth it always has.

The Bible has endured not only its enemies but also those who love it. When I was pastor of a small congregation in Indiana during seminary, I enjoyed the Bible teaching of our one adult teacher. Effle. She knew the Bible well most of the time. However, she got mixed up occasionally. For instance, one Sunday morning she went on about how Jesus angrily "laminated" the Pharisees. Another time she complained that some people don't know scripture well. "Why," she said seriously, "they can't even quote John 3.16; 'For God so loved the world that he gave his only forgotten Son"! But God's Word will survive even Effic's mistakes.

The late preacher Charles Spurgeon said: See what vitality the Gospel hast Plunge her under the wave, and she rises the purer from her washing; thrust her in the fire, and she comes out the more bright for her burning; cut her in sunder, and each piece shall make another church; behead her, and, like the hydra of old, she shall have a hundred heads for every one you cut away. She cannot die, she must live; for she has the power of

That agrees with what Jesus himself said (Matthew 24.35): "Heaven and earth will pass away, but my words will never pass away.

The Bible is God-inspired

Paul said simply (16a) "all scripture is God breathed." Many authors had a part in writing the books of the Bible but only one Author is responsible for the Bible. It's God's book, not man's!

Peter says all we need about this idea 12 Peter 1.20-21): You must understand that no prophecy of scripture came about by the prophet's own interpretation. For prophecy never had its origin in the will of man, but men spoke from God as they were carried along by the Holy Spay.

The litble is unique in all of history. No other book has God for its author. No other book speaks for him as the Bible

The Bible is Christ-directing

Paul identified for Timothy who is at the core of the Bible (15b): "the scriptures are able to make you wise for salvation through faith in Christ Jesus." Someone has said that you can cut the Bible any where and it will bleed. That means you can be sure the Bible will direct you to Jesus and his cross for salvation. The Bible is a book about redemption. It is the book of hope, showing ultimately Jesus as our only hope over our sin. The Bible's central message is salvation in Jesus. Even in the Old Testament, God presents his means of salvation.

One thing that makes the Bible so ap-

pealing is that it is both simple and profound. It is clear enough for a child to understand yet deep enough for scholars and preachers to never exhaust it. You can trust the Bible because it will point you to Jesus. Years ago, before he had built the Crystal Cathedral and a giant television ministry, Robert Schuller got started in a drive-in theater parking lot where people drove up to the speakers in their cars and listened to his sermons. Starting out in a big way, he got one of the best-known preachers he could find, Norman Vincent Peale, to preach on Sunday morning. Just before he introduced him, however, he realized that he'd forgotten Peale's blo-Picace see Bible, Page 5A

Tankard and Tribe to bring musical message to New Life Word Center

By Marva Hawkine HERALD CORRESPONDENT

Ben Tankard and the Tribe of Benjamin will appear Saturday, March 14, 7 p.m. at the New Life Word Church, Pastor Ronald Merthle.

The community can witness the great keyboardist Ben Tankard as he speaks through his latest release 'Gift Yo Prazve On". He has a lot of say in the eighth album history. He has dynamic keyboard talent and an exciting new vocal ensemble. Tribe of Benjamin.

This group has come up with a diverse, totally accessible, and arresting collection of songs. Ten of them are Tankard originals that mix flavors of R & B, Jazz and popmusic with jammin' urban

contemporary, creating a multi-format sound that is highly church friendly.

The album title is a simple statement of praise of God "Spend Some Time With Me". Also included is the anthem "Sing For the Children", and "Livin' 4 U", a gentle prayer like rap that finds Tribe stirring a quieter fire and Ben steps out for an inspired keyboard ride.

graphical sheet. After praying about what to do, he went out and said this: Ladies and gentlemen, we have with us today the greatest positive thinker in the world. His name is a household word. He is, in my mind, the most beautiful pernon I have ever known. If you get to know him personally and have a chance to talk to him alone as I have, you'll be born again. His name is Jesus Christ; and here to tell us all about him is Norman Vincent

That's what the Bible does: it tells you about Jesus and that's really all you need to know to get started with God. The Bible is life-changing

Paul wrote (16-17): All scripture is useful for teaching, rebuking, correcting and training in righteousness, so that the man of God may be thoroughly equipped for every good work.

The Bible isn't just a book full of stories, sayings and moral leasons. It's a book of transformation. It will change you if you will let it.

Listen to people who knew the Bible. The great early American preacher, Henry Ward Beecher, said: The Bible is God's chart for you to steer by, to keep you from the bottom of the sea, and to show you where the harbor is, and how to reach it without running on rocks and bars.

Cardinal John Henry Newman said, "I read my newspaper to know what people are doing and I read my Bible to know what people ought to do." Dwight L. Moody said about the Bible: "Sin will keep you from this Book or this Book will keep you from sin." Even Mark Twain, not usually known for being a believer, said: Most people are bothered by those passages in scripture that they cannot understand; but as for me, I always noticed that the passages in scripture that trouble me most are those

that I do understand. The story is told of an agnostic who visited the Fiji Islands. When he learned that many of the natives had become Christians, he went to their chief and told him, "It's a pity that you've been taken in by the foreign Christian missionaries. No one believes the Bible any more. People don't really believe that story of Christ dying on a cross for people's sins. They know better now. I'm sorry you've been so foolish as to accept their story." The chief smiled, however, and replied to the agnostic, "See that big rock over there? That's where we used to smash the heads of our victims. See that furnace? That's where we used to roast the bodies of our enemies. If it hadn't been for those missionaries and what they taught us about the Bible. we would still be the same, You'd better thank the Lord for the Bible. If it weren't for the Bible, you'd now be our suppler!"
You can trust the Bible. It's

proven its value and durability. It comes from God to you. It will point you to Jesus. Its message will change your life if you will let it. You can trust the Bible.

Ben's own trek began in Daytona Beach, where he was born and raised. A son of a pastor and missionary, his relationship with Christ as well as his prodigious talents on plano didn't come until his carly childhood.

He is a constant talent at the top of the gospel charts with numerous Stellar awards and two Grammy nominations

OWNERS

Dear Valued Customers,

Due to recent coverage on WFTV Channel 9, we are compelled to inform you that several important facts have been missing in the reports:

- The points in the survey of the restaurants were taken from the past two and half year's records. China King has been under our management for only two years. The points accumulated during the 6 month period before acquisition were not mismanaged by Hun Lung Inc.
- During two years of management, we have maintained notable cleanliness in our premise. We have complied and rectified every citation and have not failed to do so.

We thank you for your patronage, and assure you that we will zealously maintain to cater quality food at an affordable price and pleasant dining environment for your enjoyment.

The management of China King

EMPLOYEES

To Whom It May Concern,

We have been employed at China King Buffet for 4 1/2 and 5 years and would like to inform you that some of your Action News reports are totally untrue. You state that M. Lam closed a business because of Health Violations and re-opened here. China King has been open for 5 years and Mr. Lam only took over management 2 years and 3 months ago. You also report we have had filthy conditions and health violations in the past 2 1/2 years. We have been here for all our inspections and the only violations we've had were before Mr. Lam took over.

Maybe we've had warning of a utensil being placed in a sink it shouldn't have been in or pest control problems which every restaurant has especially in Florida, but Mr. Lam is always quick to correct any problem we have and has done so all along. Why don't you put that in your report?

On your web site you show 18 other restaurants with many violations however you only show Bamboo Cafe' and China King on film, both Chinese Restaurants. Could that be discrimination? Also the way you show on your commercials the kitchen of Bamboo Cafe' and then our sign gives the impression that is our kitchen and it is

We understand you have a job to do and respect that fact but we also have jobs and if our customers believe your reports we will no longer be able to make a living.

We eat at China King almost every day as do our family and friends. Obviously if our restaurant was as dirty as you report neither us or our families would eat here.

We can also assure you we would not be writing you this letter with our signatures if we thought it would backfire.

As frequent viewers of Channel 9 we are very discouraged by the way this story was handled and wonder if the news we rely on every day is only half of the story as this one is.

Please know this letter is to tell you our side of the story as employees that want to get the story straight.

Sincerely,

War where

CUSTOMERS

To Whom it may concern:

My wife and I have been coming to China King for years. We have had very good service and food from this restaurant. I can say the food has been of the the highest quality.

Prices and service are the best in this area.

Jerry L. Comeil, Sue Ann Corneil Sanford, FL

I have been coming to China King for the past two years and have never had any negative experiences. The food is excellent, well prepared, and a vast selection is offered. It definitely is one of the best values in Central Florida. On three different occasions I have seen the "negative" reports and they seem to be in accord with the current "media mania" which seems to continue to "Beat A Dead Horse". There are some very serious infractions being committed on a regular basis with about every "fast food" franchise, but due to political affiliations these go unreported due to their influence. China King should not be "singled out." for any reason. I will continue to come here and and bring my international friends.

David Goodpaster, Casselberry, FL

To Whom It May Concern,

I am a frequent regular customer of China King Buffet, I

find the food here delicious. The atmosphere and service very enjoyable and the prices are the best in town. I've been a regular customer here since I moved from New York 2 years ago.

Donald C.Pritchett, Jr. Sanford, FL

To Whom It May Concern,

I have been a resident of Sanford since the 60's. I have never had anything but excellent food and service at China King, and I frequent this restaurant quite often.

Jim Brogdon Sanford, FL

To Whom It May Concern,

We have been eating here for the last several years, and have found the food to be excellent.

In our opinion the restaurant is always clean and sanitary, and the employees are efficient and courteous.

We love this place and we will continue to dine here, as the food is excellent and reasonable and we eat here at least twice a week.

THE WEEK IN PREP ATHLETICS

Games of the Week

You're no sports fan if you miss.

By Jeff Berlinicke ASSISTANT SPORTS EDITOR

Tonight: Oviedo at University High School, girls regional soccer tournament, 7:30.

Oviedo is one of the hottest teams around, especially after pulling off a district championship with a stunning win over Lake Mary last week.

The Lions have advanced with two wins since, including regional wins over Boone and Tallahassee-Lincoln.

Last weekend, the Lions won on a Jamille Castro first-half goal and Tiffany Christiana, the Lions' freshman tender, held off Boone as the Oviedo defense dominated, allowing only two shots.

With a trip to the Great Eight on the line, Oviedo stayed hot, beating Lincoln, 4-0. Senior Karyn Hall, headed for Florida next season, scored three goals and Kristal Waits added another while Christiana stayed flawless.

A win tonight will send the Lions to the state Final Four where they have a shot at a rematch with Lake Mary.

Tonight: Lake Mary at East Lake High School (Tarpon Springs), girls soccer regional tournament, 7 p.m.

Lake Mary rebounded well from its loss in the district finals to Oviedo, scoring wins over Winter Park and Orange Park.

The win over third-ranked Winter Park avenged last year's crushing 4-0 defeat early in the regionals. Lake Mary has been almost unbestable for the past two months, with only the sudden

The Rams have been scoring, with a number of players including Christina Cooley, Aly Benitez and Jackie Van Looven. Jordan Kellgren has been strong in the nets and the defense hasn't given up a goal since early in the Winter Park loss.

Lake Mary is a team set on making up for last season's disappointment and have already beaten two of the top teams in the state to reach the round of eight.

Tonight: Lake Mary at Meibourne High School, boys soccer regionals, 7 p.m.

The Rams are still on an emotional high after the loss of former standout Dustin Garber. They are also dominating the opposition. Last

week, the Rams opened regionals with a resounding 6-1 win over Winter Park, then followed it up with a 4-0 rout of Niceville.

Lake Mary has gotten better as the season has progressed. Danny Wymer scored a hat trick in the win over Winter Park and Pat Mangan and Fernando Villalobos can acore with anyone.

Kurtis Musson is the man in the nets for Lake Mary and he stood out in the overtime win over Oviedo that gave the Rams the district title two

Next week: Big Blue Bonanza baseball tournament at Lake Brantley High School

For many Seminole County baseball teams. the Big Blue Bonanza has been the real start to the season. This year, three Seminole County schools - Winter Springs, Lake Brantley, Seminole - will participate and district rival Deland will also be on hand. Seminole's Tim Raines, Clyde "C3" Williams, Chaz Lytie, and Lake Brantley's Robbie Sitz, Felipe Lopez and Brian Chan-cellor are just some of the players that will participate as the area teams vie for positioning in the district and conference bragging rights.

The schedule is: Monday: Seminole vs. Evans, 1:30 p.m.; Winter Springs vs. Deland, 4:30 p.m.; Lake Brantley vs.

Eustis, 7:30 p.m. day: Lake Brantley vs. Evans, 1:30 p.m.; Winter Springs vs. Eustis, 4:30 p.m.; Deland vs. Seminole, 7:30 p.m.

Wednesday: Lake Brantley vs. Seminole, 1:30 p.m.; Evans vs. Winter Springs, 4:30 p.m.; Eustis vs. Deland, 7:30 p.m.

Leaders to battle in Senior Baseball

From Staff Reports

ORLANDO Robert Smith had a grand slam and a triple and Bill Gracey doubled and singled as the Cardinals topped the Mariners 18-7 in Orlando Senior Baseball Association action last Sunday at Edgewater High School.

In addition to the two Seminole High School graduates' heroics, Terry Frazier, Dean Smith, Chris Gagliano and Mark Shetrone also had two hits each for the winners.

Gene Edgar, David Vendur and Nick Brady combined on the pitching win.

This Sunday at 10 a.m., the Cardinals and Yankees, which beat the Mariners 18-3 on the opening week of the season, will square off to decide who will remain undefeated and take over sole leadership of the league.

The Mariners and the Braves will play the 1 p.m. contest. All games are being played at the beautifully renovated Edgewater High School Baseball Field in Orlando.

The OSBA (for players 40years of age and over) would like to thank the Edgewater administration for allowing the league to use the field. Without Edgewater's help, the league would not be as affordable for the players as it is and the league probably would not be in existence.

We love to hate those lovebugs "Lovebugs" are small black flies with red thoraxes. Males are 1/4 inch, and females are 1/3 inch in length. These slies are members of the family Biblonidae and are known as March flies. Several species of March flies are native to Florida, however, Lovebugs, Plecia nearctica Hardy are recent in-

vaders from the west. Southern Louisiana experienced flights of lovebugs during the 1920's. The species was described by Hardy in 1940 from specimens collected in Mississippi. First reports of their presence in Florida were made in 1947 from Escambia County. Subsequent reports indicate their presence in Leon County in 1955-56 and Alachua-Marion Counties in 1964-65. Since that time, flights have progressively moved southward. In 1974, specimens were collected in Homestead. Lovebugs also have moved northward and have been reported from Georgia and Charleston, South Carolina. Two flights of lovebugs occur late April and May. A second flight occurs during late August and September. Flights extend over periods immediately after emergence of the females. Adult females live only 2-3 days.

Larvae Aid Growing Plants

Female lovebugs lay from 100 to 350 eggs which are deposited beneath decaying vegetation. Larvae (immature stage) feed on decaying plant material and live on the soil surface just beneath the decaying organic matter, Larvae perform a beneficial function by converting the plant material into organic components which can again be used by the growing plants. After larvae mature, they transform into pupae. The pupal stage requires about seven to 10 days.

Adult lovebugs are harmless and do not sting or bite. They feed on the nectar of various plants, especially aweet clover, goldenrod and Brazilian pepper. Usually, lovebug flights are restricted to daylight hours and temperatures about 68 de-

grees F. At night lovebugs rest on low growing vegetation.

Lovebugs Hinder Motorists Lovebugs are a considerable nulsance to motorists. They congregate in unbelievable numbers along highways and the insects spatter on the windshields and grills of moving trucks and automobiles. Windshields become covered with the fatty remains, and vision is obscured. During the flights the flies clog radiator fins causing cars to overheat. They also get into refrigeration equipment on trucks causing them to malfunction. The fatty tissue will cause pitting of the car's finish if it is not removed within a few days. Flies enter cars and sometimes drivers and passengers soil their clothing by sitting on lovebugs. They are also a considerable nulsance to fresh paint. The flies enter houses under construction in such numbers that carpenters refuse to work. Beekeepers complain because worker bees do not visit flowers that have been infested with the flies.

A number of environmentally acceptable insecticides have been evaluated for effectiveness in controlling lovebug larvae and adults. Most of the insecticides were effective in controlling the adults, and several controlled the immature stages. However, insecticidal control of the lovebug is impractical because infestations occur over such a vast area and the high populations are present for such a short period. To control adults in confined areas such as entrance ways and porches, one can use the usual household aerosol

This guy's a loser,

dump him fast I have been dating this gay

for about six months. Last week he informed me that he is moving back in with his ex-wife for a while. He said it was so he could save up enough money so he could buy a house and we could get married. I told him I would prefer for him to keep his apartment even if it meant waiting a while to get married, because I just didn't feel right about him moving back in with a woman he'd been married to. He accused me of not trusting him and said that if I was going to be so suspicious it was just going to be my problem. I tried to believe him, but I decided to check on his story, so I called his ex. I couldn't believe what I found out! Not only had he not said anything to her about this being a temporary living arrangement, but she has a five year- old child by him that he had never mentioned. He said they had been apart seven years. She also said they have been seeing each other for the past year, so that means that he has been seeing her the

whole time we were dating. When I called him and confronted him with all this, he not only denied everything, but twisted everything around so much that he made me feel like I am the one with the problem

instead of him. I know it sounds stupid, but I still love him and want to try to get things worked out be-tween us. Should I try to forget what I learned and hope he has learned his lesson, or should I apologize to him for checking up on his story and ask him to forgive me. I really want him back, even if I do have to share him.

Miserable in Altamente
Dear Miserable,
I can't believe you would consider apologizing and trying to reunite with a guy like this. He makes the run-of-the-mill jerk look like a saint; but he was right about one thing you do have a problem! He's obvi-ously a smooth-talking creep with no conscience and no sense of right and wrong. The fact that you could even con-sider re-establishing a rela-

tionship with him makes me think you are as messed up as he is. This guy is a liar, and a cheat. The only reasonable reaction should be disgust for him and pity for his wife and child. If his behavior seems forgivable to you, you need to get help in establishing some boundaries, and redefining what a "normal" reaction would be. Don't kid yourself that he will have learned his lesson this time and not continue doing this stuff to everyone he gets close to. Leave him alone; he's a loser. Predators Reduce Lovebug Flights

During the past ' several

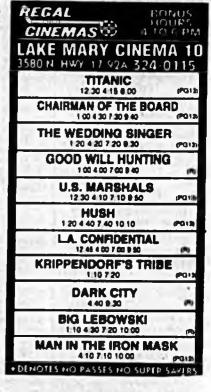

years, both the April-May and August-September lovebug flights have been substantially reduced in North Central Florida. This reduction in the population is partly attributed to predators. Larvae are found in extremely high numbers in pasture-type communities, and due to their congregating behavior make ideal situations for certain bird predators. Examinations of the contents of the gizzards of robins collected ranged from a high of 266 to zero with an average of 110.8 per bird. Lovebug larvae have been found in the gizzards of quail. Although examinations of the stomach contents of armadillos have been negative, observations suggest that they, too, may be excellent predators of the larvae.

Laboratory studies using invertebrate predators found in lovebug infested pastures indicated they were voracious predators too. These included carwigs, two species of beetle larvae and a centipede.

There are several things that can be done to lessen the problem facing motorists. By traveling at night motorists can avoid the bugs; lovebugs do not become active until about 10:00 a.m. Traveling at slower speeds will reduce the number of bugs that will be spattered. A large screen placed in the front of the grill will keep the radiator fins from clogging and will protect the finish on the front of the car. If a large screen is not used in front of the grill, at least place a small screen behind the grill in front of the radiator.

Spattered bugs should be washed off the car as soon as possible. Lovebugs are more easily removed, and the chance of damaging the car's finish is lessened if the car has been waxed recently. When the remains are left on an unwaxed car for several days, the finish will often be permanently damaged. Soaking for several minutes with water aids in their removal. When lovebuga are numerous, some motorists spread a light film of baby oil over the front of the hood, above the windshield and on the grill and bumper. This practice will make their removal a simpler task.

Sugar is a no-no for many diabetics

DEAR DR. GOTT: My fasting blood sugars consistently run about 300 milligrams/deciliter. I know that I should limit sugar in my diet, but my doctors won't tell me how much I can have.

DEAR READER: None. You have to eliminate table sugar, cane sugar and corn syrup (commercial sweetener) from your diet, because you are diabetic. Ordinarily, the fasting blood sugar should not exceed 110 milligrams per deciliter. Yours is clearly too high, indicating that you don't have enough insulin to correct it. Therefore, one answer to your problem is to eat no sugar whatsoever. Refined sugar is not a vital nutrient: you can do without it

DEAR DR. GOTT: I have a chronic fungus infection under my breasts, along my waist, under my arms, and in my genital area. What causes this? Creams don't work

DEAR READER: Yeast infections of the skin and genitals are common in diabetics. I suggest that you bring this to your doctor's attention and have a blood sugar determination. If you have diabetes, yeast infections can be extremely hard to eradicate until your sugar levels are brought. under control with diet and or medi-

To give you more information, I am sending you a copy of my Health Report "Diabetes Mellitus," Other readers who would like a copy should send \$2 plus a long, self-addressed. stamped envelope to P.O. Hox 2017, Murray Hill Station, New York, NY 10136. Be sure to mention the title.

DEAR DR. GOTT: I have three questions.

Does pulling a child's hair keep it full and strong?

Does brushing your teeth until your gums bleed help prevent cavities? Does stretching my penis at night when I go to bed help lengthen it?

DEAR READER: No, no and no. Pulling hair is uncomfortable and unnecessary. This practice will not strengthen the hair shaft.

Vigorous brushing day in and day out - to the point of bleeding - will not help protect against dental discase. In fact, over time, intense brushing may wear down the enamel. as well as injure the gums. Ask your dentist to instruct you in proper brushing

Although some religious mystics in India have adopted the habit of hanging stones from their penises in order to lengthen their organs, I think this practice is crazy. Pulling on it at night isn't going to help either. Leave well enough alone.

DR. GOTT PETER GOTT, M.D.

DEAR DR. GOTT: My LDH is 452. What does this mean? All my other blood tests are normal, and I feel fine.

DEAR READER: Lactic dehydrogenase is an enzyme produced by the liver and other body organs. The normal values are 200 to 450 units per milliliter. The enzyme is released into the bloodstream from a wide variety

Actually, your LDH value is only borderline high and, in the absence of symptoms and other abnormal blood tests, can probably be ignored. However, your family physician is the best judge of the significance of this finding and whether further investigation tsuch as a lung scan and stress test) should be carried out.

Of course, one must also consider the possibility that the lab made an error. Therefore, I recommend that you follow your doctor's advice, which should — in my opinion — involve a second LDH determination in a few

WIN AT BRIDGE

On the day of superstitions

By Phillip Alder

On the second of four Friday the 13ths this year, how do you view superstition?

There are superstitions at the bridge table, like "queen over jack," but they are excuses for avoiding analysis.

On this deal, South was in four with a diamond. After winning in hand, declarer played a spade to dummy's ace and a spade to his king. When the queen didn't drop, South conceded defeat, losing one spade, two hearts and one club.

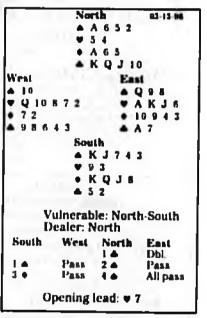

"That was unlucky," claimed South. The spade queen wasn't over the jack. And I took the percentage play in

I hat is such a killy superstition. observed North. "It is true that at the rubber-bridge table, where players rarely shuffle properly, a queen might stay glued to a jack from a previous deal, but it is hardly a reliable rule upon which to rest the success of your contract.

"Also, you failed to take into account that information affects the a priori odds. Here, East made a takeout double of my one-club opening. This strongly implied that he was short in clubs and long in the other three suits. spades. West led a heart, East taking player to double when short in spades, you should have finessed in trumps on the second round."

Edmund Burke, an Irish philosopher and statesman, claimed superstition is the religion of feeble minds. Joseph Hall, a former Bishop of Norwich in England, said it is godless religion. And Goethe felt it is the poetry of life. To each his own!
