FATAL RIOTS DISTURB CALM IN HAVANA

First Anniversary Of Enlisted Men's Up- rising Finds City In Grip Of Bombers

HAVANA, Sept. 4.—(AP)—At least one man was killed and another is known to be wounded in a fight between dock workers which broke out at the waterfront today.

Dope Smugglers Release Man They Tortured 1 Month

NEW YORK, Sept. 4.—(AP)—Kidnaping of a French seaman by an international gang of smugglers and his torture during a month of captivity were disclosed by federal authorities today after government men armed with machine guns had arrested two men and a woman.

The seaman, William Rosen or Gullamir Rosen, identified one of the prisoners as the leader of the gang and the man in whose Brooklyn apartment he was held captive.

He identified the man's wife as the woman who cooked for him during his imprisonment.

Investigators said that Rosen, seaman of the French liner Champlain was abducted because he threw a package into the sea believing it contained potash.

Instead it held narcotics valued at 40,000 francs or \$840.

Rosen appeared at police headquarters with his wrists bruised from the ropes with which he was tied night and day, and his forehead was scarred from lighted cigarettes. The gang released him because it was fearful of detection.

NRA Chief In Tampa Resigns Because Of Lack Of Compliance

TAMPA, Sept. 4.—Jack Carr, chairman of the Tampa NRA and chairman of the board, resigned Saturday, and in a letter to Walter Hawkins, state director of NRA compliance boards, gave some personal, unofficial observations on the NRA and other Recovery agencies.

Lack of compliance and lack of interest, he said, are keeping the NRA from fulfilling its original purpose.

"The men who conceived the idea of NRA and put it over deserve a place on the pedestal of fame," he wrote. "The idea of the NRA was one of the greatest masterpieces of modern thinking I've ever known."

"The NRA adjustment board was never forthcoming and generally the children saw that they were not to be favored by the NRA. Meanwhile, public interest in the meaning of the Blue Eagle faded, so it naturally would be anything, no matter how important, cannot be maintained beyond a certain point. The NRA is a failure because it is not doing the thing it was intended to do."

Rockefeller Will Be In Daytona Soon

DAYTONA BEACH, Sept. 4.—(AP)—John D. Rockefeller plans to come to Daytona Beach "occasionally next month." It was said at the "Tom Mooney" hearing here today.

Stock Mart Board About Ready To Act

HYDE PARK, Sept. 4.—(AP)—Joseph Kennedy, chairman of the new Federal Stock Exchange Commission, today reported to President Roosevelt the commission would take over control of the vast securities market on Oct. 1, and he added that he saw no harmful effect to legitimate business in it. Enroute to Washington to complete rules and regulations, Kennedy said this vital manipulative regulations would be drafted in a week or so.

U. S. MUST FIND HALF BILLION BY LEVY OF NEW TAX

Need Revives Talk Of General Sales Tax For All Of Nation

WASHINGTON, Sept. 4.—(AP)—The Administration will be forced to ask the next Congress to enact a \$500,000,000 tax bill in January because numerous levies now returning that sum to the Treasury will expire on July 1, 1935.

Already there is some talk on Capitol Hill about reviving the once defeated general sales tax to replace the existing so-called "nuisance" levies. Unless the Administration recommends the proposition, however, the chances for its adoption are considered slim.

The revenue question is being studied by Treasury and House Ways and Means Committee experts. Their recommendations are to be placed before President Roosevelt probably in November when a Ways and Means sub-Committee is expected to report.

Order Outlawing Relations Between Jews, Nazis Issued

BERLIN, Sept. 4.—An order outlawing any relationship between members of the Nazi party and Jews has been prepared by Rudolph Hess, deputy party leader. It was learned yesterday.

The commandments of ostracism were given as follows: Members of the Nazi party must not engage Jewish lawyers. No Jew may receive a letter of introduction or a recommendation from a party member to government officials or party functionaries.

Contributions to party collections must not be received from Jews. Jewish stores must not display Nazi shields or symbols. Members of the party must not be seen in public places with Jews. They must avoid all kinds of private relations with Jews.

It was learned 8,000,000 copies of the order have been printed and await distribution to party members.

In the past Hess has refrained from assaults upon the Jews.

Tom Mooney May See His Dead Mother

SAN FRANCISCO, Sept. 4.—(AP)—Warden James B. Holman will decide whether Thomas J. Mooney will be allowed to leave San Quentin prison under guard for a few hours to attend the funeral of his aged mother who for years was in the thick of the fight to establish his innocence in the bombing of the 1916 Preparedness parade.

Officials at San Quentin prison, where Mooney is serving a life sentence, said there was no provision in the law permitting them to give prisoners temporary freedom.

Giant Shark Devours Beautiful Blonde

BUSAK, Yugoslavia, Sept. 4.—(AP)—A giant man-eating shark weighing 800 pounds devoured Agnes Novak, beautiful 18-year-old blonde, while she was swimming in the Adriatic Sea yesterday.

HIGHLIGHTS OF TALKS IN U. S. ON LABOR DAY

Addresses By Leaders In Many Lines Take Cognizance Of Big Textile Union Strike

The following excerpts were taken from Labor Day addresses in various sections of the nation yesterday:

Mayor F. H. LaGuardia, of New York City to a holiday crowd at a Century of Progress, Chicago—"A strike is the last means of solution, and not the first. . . . It must always be remembered that the public interest is paramount. . . . Starvation is not a legitimate weapon for capital to use against labor. It is no more legitimate for labor to use it against the public. . . . If the working people are to be regimented, I would much rather see them regimented in honest labor, paying a decent living wage, than regimented on the relief rolls, on the bread lines and at the doors of private charity."

Senator William E. Borah, before a union labor meeting at Pocatello, Idaho—"No one knows better than labor that where constitutional government has been broken down, supplanted by the totalitarian, or bureaucratic state, labor has immediately been robbed of its rights, its freedom of action, and forced down to the level of economic slavery."

William Green, president of the American Federation of Labor, at Wichita, Kan.—"It is the opinion of representatives of labor and many outstanding economists as well as many enlightened and progressive employers that industry and the nation must accept and apply the six-hour day and the five-day week as a real remedy for unemployment."

"The basis of practically all strikes that have occurred in the past year is found in the determined refusal of employers to permit their workers to organize and to recognize the organizations selected by their workers as collective bargaining agencies."

Secretary of Labor Perkins at Boston—"The savings of many people are invested in industry and they are entitled to expect the maintenance of profits. . . . Purchasing power is increased and maintained by the employment of more men and women at wages which put them in the class of steady purchasers. . . . American workers will do their part in the coming days of the long, slow, steady pull to further recovery."

FERA Salary Cuts To Be Effective Thursday

JACKSONVILLE, Sept. 4.—Salary reductions for all Florida Emergency Relief Administration employees, who make more than \$12 a week, will become effective Thursday. This will affect several thousand persons throughout the state.

James F. Stone, Jr., state administrator for FERA, ordered the salary slices several days ago, as an economy measure, to meet what he considers "totally inadequate" allotments for Florida. Salaries in excess of \$12.50 annually will be cut 10 percent, and salaries below \$12 will be slashed 5 percent, except where employees are getting \$12 a week and less who will not be affected.

Meriwether Family Jack Martin Improving After Injury

Physicians attending Mr. and Mrs. A. E. Meriwether and children, DeWitt Greer and Jack Martin, all local persons who were injured in an automobile accident on Mellonville Avenue early yesterday morning declared the injured to be out of danger late today.

Mrs. Meriwether, who suffered lacerations and a broken rib, and Mr. Greer, whose chest was slightly crushed, were the more seriously injured in the smash which involved a Baker Dairy milk truck driven by Mr. Greer, and the Meriwether automobile, driven by Mr. Meriwether.

The latter has two children, and young Martin, helper on the milk truck, was cut and bruised slightly.

The accident occurred at Mellonville Avenue and Second Street at about 6:30 o'clock yesterday morning. The Meriwethers were returning from a vacation at a nearby beach to their home on Magnolia Avenue when their car was struck by the milk truck which was near the end of its route.

The Meriwether car was struck nearly broadside, and it was tossed off the street against the stone marker marking the site of Fort Mellon. The milk truck turned over, spilling its contents and a small quantity of dairy products. It was badly damaged.

First Grapefruit Are Being Picked

TERRACEIA, Sept. 4.—A local fruit company started picking the first grapefruit of the season here yesterday. The first car will start rolling Northward within the next few days. The fruit is said to be large and the quality splendid.

HIRAM JOHNSON HOLDS NEW DEAL FOES TO RIDICULE

Cries Of Unconstitutionality Of Plan Derided By Senator

SAN FRANCISCO, Sept. 4.—(AP)—Cries of unconstitutionality against the New Deal were ridiculed by Hiram W. Johnson, of California, fiery independent Republican supporter of President Roosevelt's program, in a Labor Day address here yesterday.

"Some of the (Roosevelt) policies pursued have been frankly experiments," he said. "With some of them we may have disagreed; with some of them we may have felt either they might not accomplish the object intended, or to obtain the desired end, but at least a titanic effort has been made."

"The sum total of what has been done so enormously overbalances that with which we may have disagreed, that the debit side in comparison with the credit side in real accomplishment has been negligible."

"Those who caviled at any activity; those who for political reasons have sneered at every effort, the timid and ultra-conservative who have trembled with fear at every advance have resurrected at each forward step the bogey man of unconstitutionality, and many of them now constituting themselves the self-appointed guardians of the constitution are figuratively crying against what they applauded to term assaults upon and violations of that instrument."

"So long as they deemed the constitution the shield and the buckler of the sacrosanct right of exploiting the few, the voice of those loudest in tender solicitude were unheard in this land. Now they are heard in cacophonous shrieks. . . . Those of us who have passed through periods of this sort in the past can smile at the sound and fury of some of the present prophets of the Constitution x x x."

Johnson also discounted the possibility of a dictatorship in the United States. "We are not blind," he said, "to the errors that democracy may commit, x x x but the people's government has the right of determination, and this right x x x must and shall be preserved, x x x No dictatorship of one sort or another will we ever tolerate."

Evangeline Booth Heads Salvationists

LONDON, Sept. 4.—Commander Evangeline Booth, descendant of the founder of the Salvation Army, last night was elected head of that organization, succeeding Gen. Edward John Higgins.

Commander Booth won over Commissioner Henry Maps, present chief of staff of the Salvation Army, her chief opponent for the post as general. She is 69, eldest daughter of William Booth, founder of the organization and its first head, and for years has headed the American branch of the Army.

Tampan Found Shot To Death In His Bed

TAMPA, Sept. 4.—(AP) Jerry M. Bacalis, 43, president of a Tampa bottling company, was found shot to death in his home on Davis Islands here, early yesterday.

One bullet from a revolver entered his left temple. Three men are being held in the city jail for investigation.

Police listed the men as Peter Frank, George Bacalis and Charles Lemon. The latter, officers said, was booked as from Savannah, Ga.

HOOVER HOLDS U. S. POLICIES AS DAMAGING

In Article "Challenge To Liberty," Former President Decries Regimentation Plan

PHILADELPHIA, Sept. 4.—(AP)—Condemning policies of the Roosevelt Administration, which he inferentially labels "will-of-the-wisps," Herbert Hoover in the current issue of Saturday Evening Post declares the American people are faced with "the issue of human liberty."

The former president in his first discussion of political questions since he left the White House, decries "economic regimentation" and, of it, says: "The whole thesis behind this program is the very theory that man is but the pawn of the state."

"It is a usurpation of the primary liberties of man by government. It is a vast shift from the American concept of human rights, which even the government may not infringe, to those social philosophies where men are wholly subjective to the state. It is a vast casualty to liberty if it shall be continued."

Mr. Hoover's copyrighted article is titled: "The Challenge to Liberty." The Saturday Evening Post released a portion and not the complete article for newspaper publication. In its statement accompanying the release, the weekly magazine says: "Although there is no mention of the present White House incumbent by name, a digest of the staggering number of powers delegated to the Chief Executive in the administration policies and with the un-American attitude of Congress in yielding virtually dictatorial powers to the President."

After sounding an opening theme of opposition to dictatorial governments throughout the world, Mr. Hoover writes: "In haste to bring under control the sweeping social forces unleashed by the political and economic dislocations of the World War, peoples and governments are blindly wounding, even destroying, those fundamental human liberties which have been the foundation and the inspiring of progress."

Concerning the American scene, the former President writes: "In every generation men and women of many nations have died that the human spirit might be free. In our race, at Plymouth Rock, at Lexington, at Valley Forge, at Yorktown, at New Orleans, at every step of the West."

Birth Control Again Advocated For U. S.

PASADENA, Calif., Sept. 4.—(AP) Birth control, not only for the sake of the mother, but for the future of the nation, was advocated last night in an address by Dr. Haven Emerson, president of the American Public Health Association.

"Although this country is higher than most nations in public health work, he said, this needless sacrifice of mothers is a 'disgraceful condition which must be remedied in the future.' . . . Let us teach for the sake of women," he said, "the knowledge which will permit them to choose the time and circumstance of their own child bearing."

Powerful Beacon Ray Would Blind Aviator

PARIS, Sept. 4.—(AP)—An anti-aircraft light ray invention capable of blinding fliers at long range was reported yesterday by the Paris midl.

The newspaper said the light ray was a 1,000,000-candle power affair, the patent for which has been offered the French government by a German inventor forced to flee from Germany.

The Midi suggested the light beam could protect white cities from attack by blinding the pilots of bombing planes and declared that an experiment with a 150,000-candle power projector showed it could blind at a distance of one mile.

Police Find Negro Who Survived Shots

SAVANNAH, Ga., Sept. 4.—(AP)—A negro who lived through the fury of a fusillade of bullets fired by a mob yesterday was placed in jail here in a critical condition and apparently dazed by his experiences.

The negro, booked as George White, is charged with an attempted attack on a white woman and was taken from the hands of officers last Friday night.

Big Strike Appears To Be Meeting Only With Slight Success

Sloan Disputes Claim That \$10 Week Is Average Salary In Cotton Industry

NEW YORK, Sept. 4.—(AP)—George A. Sloan, president of the Cotton-Textile Institute and chairman of the cotton-textile authority, yesterday disputed claims of labor leaders that \$10 a week is an average wage in the industry.

"The latest available reports published by the United States bureau of labor," Sloan said, "placed the average hourly wage received by cotton textile workers at 39 cents. For a standard work week of 40 hours, this would average \$15.60 a week and during the coal period, until market conditions became bad this summer, the vast majority of the mills were able to give their employees 40 hours of work."

"It must be understood that these average wages do not in any sense mean maximum wages. Skilled workers receive much more than the average which is lowered by the large number of unskilled workers. However, no unskilled machine worker can receive less than \$12 for a 40-hour week."

"This summer with conditions of abnormally reduced demand, the cotton textile industry has put into practice the most effective and widespread share-the-work movement the country has ever witnessed. Instead of soaping, wholesale shutdowns or suspensions as have been customary in many previous summers, we secured NRA's co-operation in temporarily reducing the hours."

"This had the effect of spreading employment as it prevented any mill from running two full 40-hour shifts, thereby giving at least 400,000 workers a possible income during this period when public demand for cotton goods had been drastically reduced."

Columbo Relatives Exonerate Brown

HOLLYWOOD, Sept. 4.—(AP)—(AP)—Mourning relatives of Russ Columbo said yesterday they held no resentment toward Lanning Brown, Jr., noted portrait photographer, whose old dueling pistol exploded unexpectedly and killed the radio and movie singer here Sunday night.

"It was quite obviously an accident—an act of God," said Jack Columbo, brother and business manager of the slain singer. "The pistol was possibly a hundred years old. No one knew it was loaded. How could we be resentful toward Mr. Brown. He's taking the whole thing harder than any of us."

Alba Hotel Sold To Satisfy Old Suit

WEST PALM BEACH, Sept. 4.—(AP)—The Alba Hotel in Palm Beach, a boomtime construction, was sold at a special master's sale here yesterday to Robert E. Graham and company for \$222,220 and unpaid taxes amounting to \$144,000.

The master's sale was held to satisfy a mortgage foreclosure suit brought several years ago by the First Trust and Savings Bank of Miami.

CITY NEWS BRIEFS

Local weather over the week-end: Saturday, high 80, low 74; Sunday, high 78, low 67; Labor Day, high 86, low 70;

The illness of a member of his party has served to delay the start of a long motor tour of the Midwest and Canada in which County Clerk V. E. Douglass was to have participated. The party was scheduled to leave here early yesterday.

Cards received in Sanford today from Gordon Barnett of Fern Park developer, fern grower and president of the Sanford Junior Chamber of Commerce, indicate that his motor tour of the West with Mrs. Barnett is proving itself as exceeding their expectations. The couple were in Denver last week. They are expected home in about 10 days.

W. A. Stapler, white resident of this city, was fined \$200 or the alternative of 90 days in jail, when he was brought before Municipal Judge S. A. B. Wilkinson in a special session of court last week to answer to a charge of driving an automobile while drunk. Chief of Police Roy G. Williams reported Mr. Stapler as being on the "chain gang" today.

Superintendent of Schools T. W. Lawton is expected to return to Sanford late tonight after a vacation spent in North Carolina. He will be in attendance at the September meeting of the Board of Public Instruction, scheduled to begin at the Court House at 10:00 o'clock tomorrow morning.

An above the average opening day attendance was reported at Lake Monroe, Geneva, and Decatur school houses yesterday morning as the 1934 term opened officially when upwards of 200 pupils gathered for first day's assignments. In addition, the opening of the Lake Monroe negro school under the direction of Sadie Hogan, also attracted a large number of colored children.

The return this morning of H. N. Sayer, City Hall bookkeeper, to his duties after a two weeks' vacation in Georgia, leaves only City Clerk F. S. Lamson as a major city employee who has yet to spend two weeks of his time away from steadily mounting duties. In contrast to last summer, City Hall employees find every moment of their time taken up by an increasingly (Continued On Page 4)

New England, South Workers Lukewarm To Idea Of Giving Up Present Tasks

By The Associated Press
The first day of the general textile strike was hailed today by union leaders as a "tremendous success" while employers declared that a poll of the industry in New England indicated that a majority of the workers were opposed to the strike.

In New England where there is an aggregate of 125,000 workers, it was reported that at least 50,000 were idles.

In the great textile centers of the Carolina's a survey indicated that approximately 80,000 men idle and the same number working.

In a dozen or more other textile states affected by the strike, indications were that at least half the workers are idle.

The last disorder reported in the strike today was at Macon, Ga., where flat fights were numerous, several arrests were made and many threats were heard. One automobile loaded with mill office workers was overturned when it encountered a picket line.

The full effect of the strike on the 650,000 workers actually at work when the strike was called, remained undetermined.

Sharply divergent views of the potential effectiveness of the strike came from industrial and labor chiefs.

George A. Sloan, president of the cotton textile institute, said in New York that a "preponderance" of mill workers in the South had refused to support the strike call.

He based his statement on an incomplete survey of textile centers in North and South Carolina, Georgia, and Alabama. Governor Blackwood, of South Carolina, said he had received reports indicating that three-fourths of the state's textile mills were operating.

Francis J. Gurman, chairman of the special strike committee of the United Textile Workers, clung to his previous statement that the mills would be 50 (Continued On Page 3)

U. S. School Teachers Face Better Season

CHICAGO, Sept. 4.—(AP)—The little red school house and big city institutions, with some important exceptions, joined yesterday in a happy theme song of better days on the eve of their opening for a new year.

A survey showed that in nearly all states the constricting effects of the depression upon the educational system will be lessened in the school year starting today. Parts of the drought area, however, still anticipate slim educational fare.

Hot Georgia Campaign Will End On Sept. 12

ATLANTA, Ga., Sept. 4.—Georgians will elect a governor Sept. 12 after an extremely active campaign in which President Roosevelt's "New Deal" has been a major issue.

Governor Eugene Talmadge outspoken critic of most New Deal policies, is opposed for reelection by Circuit Judge Claude Pittman, of Cartersville, and Bill Gilliam, Atlanta alderman. All pro Democrats seeking their party's nomination which is equivalent to election in Georgia.

CITY BRIEFS

(Continued from Page 1)

Large number of persons calling to pay taxes, water bills, register complaints, seeking data on the City's financial and debt conditions, and a thousand and one other matters. Every office employee has at least 50 percent more work to do, and at the same old salary.

County Judge J. G. Sharon is expected to return to Sanford on Thursday after a two weeks' vacation spent in Virginia.

Announcement was made this morning that there will be no meeting of the Seminole County Agricultural Association this week. The next meeting is scheduled for Thursday night, Sept. 13, at 8:00 o'clock.

Worshipful Master A. L. Betts announced this morning that he expects all members of Sanford Lodge No. 32 F. & A. M. to attend tonight's meeting, scheduled to be held at 8 o'clock. They will be carried out in the Fellowship degree.

All members of former Junior and Senior High School orchestras were extended a special invitation this morning that they join the Sanford Concert Orchestra, which is about to resume its winter practice sessions. George C. Fellows, orchestra director, who will direct a first practice at the Elks Hall next Thursday night, starting at 8:00 o'clock, extended the invitation on behalf of the personnel of the orchestra.

Sunday and Monday might have been holidays to some people, but to employees of the Florida Power and Light Co. downtown office they were moving days which resulted in the company's office in the Melch Building being moved one door west. A new grocery firm

will locate its Sanford branch in the double storehouse which is created with the moving of the power company office.

Building permits issued at the City Hall during August numbered only two. One permit went to J. J. N. Heddleston, local contractor now engaged in remodeling the Melch Building on First Street. It was for \$1500. The second permit was granted to the Dan O'Connell Co. but the amount was not named. It calls for the erection of a gasoline storage terminal on the lake front. J. N. Atzarello, and W. H. Williams were given permits to destroy two old buildings, while James Moughton was granted a permit to construct a shed for the City.

Leonard McLucas, athletic director at Seminole High School, who arrived here late Saturday after a summer spent at Camp Clearmont in Alabama as a boys counselor, was the unfortunate participant in an automobile accident which ended fatally for W. C. Jarvis, north Florida resident, early Saturday morning. Mr. Jarvis stepped into the path of Mr. McLucas' automobile on the Quitman highway north of Madison. His neck was broken and he died. Mr. McLucas was absolved of blame in connection with the affair when witnesses, including Sheriff G. L. Morrow, Jarvis' companion on a fox hunt, said that it was an unavoidable accident.

Local police discovered last week that the negro man they arrested in an automobile in Goldboro last Monday is a dangerous and widely hunted criminal who is wanted for highway robbery, the theft of automobiles, and a suspicion of murder. The negro, Alex Manton, alias Fred Thomas, is now in Nashville, Tenn., where he will face serious charges. His arrest here last Monday was brought about when police found a sawed off shotgun in the automobile. Investigation revealed that he stole the car in Nashville, and that his Florida license tag had been stolen from a car owned by Harry M. Papworth, now summering at Daytona. Further investigation re-

vealed that the negro is one of the few negroes who staged Volusia County. Deputy T. J. Stearns over the head while he was returning from South Carolina some months ago to answer charges of robbery.

Paul Bonner, former shortstop for the Sanford Baseball Club and now one of the outstanding members of the Palatka team in the Northeastern Florida League, spent today in Sanford visiting friends. The Palatka outfit needed only a victory over Deland this afternoon to assure its appearance in the play-off series with St. Augustine. Young Bonner believes that his team will take the series with ease although the Saints present one of the strongest independent baseball clubs in the South. Bonner was named Sunday as the best shortstop in his league, he having been chosen by four of the six managers who were asked to select an all-star team. Rip Dunbar, of St. Augustine, a former Sanford player, was chosen as the league's best right-fielder, while Bob Pittman, of Gainesville, shared all-star third base honors with Bobby Barrett, of Palatka. Pittman formerly played for Sanford, while Barrett is a recent member of a Boston Braves team.

President Carlos Hernandez's cabinet was summoned into urgent session as the government sought ways and means of bringing order out of the prevailing general confusion.

In the early days of the World War, when two enemy planes met, the pilots bled away at each other with shotguns filled with bolts and scrap iron.

A shalston believed that of Black Kettle, Cheyenne Indian chief, was quarried by workmen on a dam project near Cheyenne, Wyo.

Two other bombs were set off in Marianas suburb, one of these being at a gambling house where 60 were wounded.

The capital struck during the thousands of shots fired during the miniature war yesterday that centered around the tall building of the Cuban Telephone Company, \$11,000,000 American-owned corporation harassed these last few months by labor troubles.

Quick Relief for Chills and Fever

and Other Effects of Malaria

Don't put up with the suffering of Malaria—the teeth-chattering chills and the burning fever. Get rid of Malaria by getting the infection out of your system. That's what Grove's Tasteless Chill Tonic does—destroys and drives out the infection. At the same time, it builds up your system against further attack.

Grove's Tasteless Chill Tonic contains tasteless quinine which kills the infection in the blood. It also contains iron which builds up the blood and helps it overcome the effects of Malaria as well as fortify against reinfection. These are the effects you want for COMPLETE relief. Grove's Tasteless Chill Tonic is pleasant to take and absolutely safe, even for children. No bitter taste of quinine. Get a bottle today and be forever freed from Malaria. For sale at all stores. Now two sizes—50c and \$1. The \$1 size contains 3 1/2 times as much as the 50c size and gives you 25 percent more for your money.—Adv.

BANDITS ROB SMALL BANK OF BIG SUM

Heavily Armed Thugs Kidnap President, Wife, Cashier, After Tying Up Children

LAKE CITY, S. C. Sept. 5.—(AP)—Three men robbed the Palmetto Bank of Lake City of approximately \$100,000 today after kidnaping J. H. Carter, bank president, and his wife from their home and tying the Carters' three children to their beds. The robbers invaded the Carter home about 8:15 o'clock, 45 minutes before the opening hour, and held up the family with pistols.

After tying the Carter children, the eldest a 16-year-old girl, to their beds, Carter and his wife were forced to accompany the robbers to the bank.

NORTH BERGEN, N. J. Sept. 5.—(A P)—Six men, all armed and some with machine guns held up employees and customers of the North Bergen Trust Company today, and escaped with an estimated \$11,000. They covered their escape by a barrage of bullets.

Enroute there, the leader of the trio, a young red haired man, told Carter they were taking him to open the vault after the time lock made possible.

At the bank, however, they found that Fred Staley, cashier, had already arrived and the vault was unlocked.

Taking what money was in the vault, the robbers then forced the bankers and Mrs. Carter into their car and left.

Three blocks from the bank Mrs. Carter was put out, and the robbers drove away with the bankers.

Mrs. Carter and her home and released the children and then advised officers of the robbery.

Carter and Staley telephoned from Lamar, 30 miles away, that they had been released unharmed.

The bandits had four sawed off shotguns, two sub-machine guns, and six pistols in their car.

500 Head of Cattle Will Be Sent From Oviedo On Saturday

County Agent C. R. Dawson has announced that the Seminole County quota of cattle to be taken from the flood area in the upper St. Johns River valley, will be accepted at Oviedo next Saturday.

The animals are being sold to the government to be used, when needed, for the relief of the indigent this winter.

Two hundred head of native cattle will be taken from the flooded range of this county, and 300 head from Orange county, making a total of 500 head to be shipped from Oviedo.

W. G. Kilbee, of Geneva, and Perry Cameron, of Sanford, have been named as appraisers. They will make recommendations solely on the basis of the number of pounds of beef for coming purposes each animal will supply.

Mr. Dawson said Mr. Kilbee and Mr. Cameron were chosen because of their experience in killing out beef, both having been in the business for many years.

In this connection, Mr. Dawson stated that he had visited Oviedo and found that the pens which will hold cattle until they are sent away are all adequate and strongly built.

Another Tropical Storm Is Brewing

WASHINGTON, Sept. 5.—(AP)—The Weather Bureau today issued the following storm warning: A tropical storm is developing in the east of Mexico, the direction of the movement uncertain but it is possible to reach the south Atlantic and the Caribbean waters.

Sinclair's Enthusiasm For New Deal Rekindled After Long Talk With Roosevelt

FLORIDA EXHIBIT AT FAIR PLEASURES JOHN MEISCH, SR.

Display Can Hardly Be Improved Upon, Says Head of Commission

County Commission Chairman John Meisch, Sr., turned away from his task of directing the setting of exhibit plants in road beds on his West Side farm this afternoon to say that Florida's exhibit at the Chicago World's Fair could hardly be improved upon, and that the Fair itself is a marvel.

With his wife, daughter, and granddaughter, Mr. Meisch has just returned from a motor trip which took the party to Chicago as guests of Lorenzo A. Wilson, chairman of the Florida World's Fair Commission, and Mr. Meisch's summary of the trip indicates that it was a most enjoyable one.

It was not Mr. Meisch's first trip to Chicago, nor his first view of a World's Fair. He has been to the Windy City several times, and saw the World's Fair in Lege, Belgium some years ago.

But, this visit and its accompanying entertainment will be long remembered, Mr. Meisch indicated, because it was under the direction of persons who were interested in entertaining on a lavish scale and giving guests an insight of the highlights of the Fair.

Of the Florida exhibit, Mr. Meisch had nothing but praise. Compared to California, Florida has "stolen the show," despite the fact that the California exhibit appears to be much more costly.

"It doesn't show up as well as our exhibit," Mr. Meisch said.

Tremendous crowds now are visiting the Fair, he said, and all exhibits are crowded day and night. Probably the greatest attraction in the Florida exhibit at present is the orange show booth which, installed only a few weeks ago, is a sensation from the view point of sales.

"You can't get near the counter," Mr. Meisch reports of the stand which is located in the tropical garden feature of the exhibit. "Hundreds of people stand in line to buy an orange short cone and I was told that over 10,000 cones were sold in one day. I remember seeing a farmer from Iowa, wearing overalls and an open work shirt, remarking that if he comes sold for a nickel instead of a dime, the crowd would fall off to nothing."

The only complaint Mr. Meisch had of the Fair is that there is "too much midway" which affects the view point.

SHORT LIVED STRIKE HOLDS UP PAINT JOB

FERA Crew Walks On City Hall Project But Returns Later

A strike without violence, but one that lasted for not more than two hours, held up the work of repainting the City Hall at noon today when 10 painters, not satisfied with the hour and wage method employed, walked from the job at noon.

They walked back to work about two hours later after FERA officials went into some detail to explain that their salary is fixed by FERA case and workers and other officials at the FERA office in the Court House, and that it is based on the amount of money the state workers believe each laborer can live on for a week, either singly or with a family.

The explanation appeared to suit all returned to work, FERA officials at the City Hall said that the affair blew over quickly. It was all a misunderstanding and not worth reporting. All of the men are working again.

Roscoe Robinson, one of the painters, informed The Herald shortly after the walkout that the group started to work on Monday, Aug. 27, at noon. Each man, he said, understood that he would be paid at the rate of 70 cents an hour for a 40 hour week.

"But," he said, "so far we have been working only 20 hours per week, and instead of being paid 60 cents an hour for that 20 hours of work, we received only \$2.40 for the week's work, and were told that the balance of \$9.60 would be paid in weekly installments of \$2.40 each. A man can't support a family on such a small amount, so we decided to quit."

It was explained at the City Hall that case aid workers are supposed to make a survey of the needs of every employed person and to determine just how much he needed to keep himself fed and clothed for a week. The painter's were being paid off on that basis, it was explained.

Uncle Sam Is Paying More To Run Many Sided Government

WASHINGTON, Sept. 5.—A sharp increase in government expenditures during August placed the Treasury's deficit for the first two months of the new fiscal year at \$475,518,585, almost double the amount for the same period last year, it was disclosed last night.

The deficit on Sept. 1, 1933, was \$229,684,450.

August expenditures totaled \$513,090,494 compared with \$466,273,908 for July, the Treasury's monthly statement said. It was the first increase since a steady decline began last January.

Receipts, however, rose to \$266,264,217, a monthly increase of \$88,976,414.

Lives Of Aged Orlando Pair Snuffed By Gas

ORLANDO, Sept. 5.—(AP)—Henry Stephenson, 77, former sheriff of Volusia county, and his 65-year-old wife were found dead in their gas-filled apartment here early yesterday.

Coroner Sam White declared the aged couple had met death at their own hands and waived an inquest.

The bodies were found in bed by the ice man who he called to deliver ice. They had apparently died during the night. Investigating authorities said all the windows were closed and the jet of a gas heater was open.

Stores To Close For Next Two Thursdays

Pending advice from state headquarters, the Local Retail Code Authority this afternoon suggested the extension of the Thursday afternoon closing period in local stores for the next two Thursday afternoons.

The action came during a special meeting in which it was indicated that many local merchants are anxious to extend the closing periods for another month despite the fact that the National Retail Code Authority permits Thursday afternoon closing during only three months of a year.

A compromise was reached that, it is believed, will be agreeable with all merchants, and a telegram was sent to Jacksonville late today, stating that the local authority suggests that the closing period be extended for the next two weeks.

BIZARRE STORY OF MUNITIONS PLOT REVEALED

Senate Probers Learn Inside Details Of Zaharoff's Part In Submarine Sales

WASHINGTON, Sept. 5.—(AP)—Disclosures that two American and British armament makers had combined to dominate world submarine building, with Sir Basil Zaharoff as their super-salesman, were written yesterday into the open records of the Senate munitions investigating committee.

The bizarre story, clouded with hints of international intrigue, was unfolded during the day-long questioning of three officials of the Electric Boat Company of New London and New York.

This concern, now building submarines for the United States Navy, was shown to have an arrangement with Vickers Ltd., former British armament company, through which business was divided, and few submarines were constructed throughout the world without one or the other getting a share in the profits.

Still on the stand when the hearings closed for the night were Henry R. Carze, president of the Electric Boat, a low-voiced, unflinching, business man; I. V. Spear, vice president, hawk-nosed, tanned and broad of shoulders; Henry R. Sutphin, another vice president, heavy-set and solemn faced. They will resume again today.

From the moment they took the oath at 10 A. M., there poured out a series of revelations about a business surrounded by rumor, whisper—and mystery. Among them were:

(1) A letter, transmitted by Carze in 1917, containing the suggestion by a firm of lawyers that Zaharoff avoid payment of income tax to the United States on money received from the Electric Boat Company.

(2) A letter from Zaharoff that (Continued On Page 4)

Jacksonville Milk Dealers Are Asking More For Product

TALLAHASSEE, Sept. 5.—(AP)—When the Jacksonville housewife brought in today's bottle of milk its price was 1 cent a quart higher than it was yesterday.

The state milk control board announced it had authorized increases effective today in the price of milk in the Jacksonville area at the solicitation of a majority of the dairymen.

The new price for grade A sweet milk at retail is 15 cents a quart, against the old price of 14 cents. A pint will cost 7 cents.

An increase to 17 cents for certified milk, and to 16 cents for special baby milk also will be announced. The price of certified milk is 10 cents and special baby milk 9 cents.

Entire Winter Park Police Force Given Its Walking Papers

WINTER PARK, Sept. 5.—The entire Winter Park police force was dismissed and a new city judge was appointed here Tuesday by the city commission in one of the most vigorous house cleanings ever undertaken by the administration.

L. W. Morris was appointed new chief, replacing Sol Harper, who had been named chief by Mayor or James A. Treat following irregularities which burst on the public last week in which charges were preferred against E. G. Hancock who was alleged to have struck a drunken man with a night-stick.

E. G. Akm, Jr., an Orlando attorney, was appointed new municipal judge immediately after I. A. Dewiler had tendered his resignation at the night meeting of the council. It was unanimously accepted.

Trade Body Advised That Repair Work On Geneva Road Has Not Been Halted

Repair work on State Road No. 14 leading from Geneva to Sanford has not been discontinued, and repairs to the brick section of this road will be resumed as quickly as possible.

This word was received at the Chamber of Commerce office today from E. S. Lofberg, head of the Fourth Division of the State Road Department, in answer to numerous complaints which had been made as to the condition of the road.

"As information to you," Mr. Lofberg wrote, "and you may not be fully advised, I wish to advise that we have not discontinued operations on Road 14. It is true that the crew which was employed was removed for a few days for the purpose of salvaging treatment material from the work on Road 3 just completed south of Sanford, and this treatment material is being salvaged for use on Road 14 to improve the same spots complained of by Mr. P. J. Felner. Consequently, your information that we had discontinued our activities on Road 14 is without foundation."

Stores To Close For Next Two Thursdays

Pending advice from state headquarters, the Local Retail Code Authority this afternoon suggested the extension of the Thursday afternoon closing period in local stores for the next two Thursday afternoons.

The action came during a special meeting in which it was indicated that many local merchants are anxious to extend the closing periods for another month despite the fact that the National Retail Code Authority permits Thursday afternoon closing during only three months of a year.

A compromise was reached that, it is believed, will be agreeable with all merchants, and a telegram was sent to Jacksonville late today, stating that the local authority suggests that the closing period be extended for the next two weeks.

Schall Finally Releases His "Bill Of Particulars" Citing Forms Of Press Censorship

ST. PAUL, Sept. 5.—(AP)—Charging the Federal Administration had begun "false and exaggerated" government reports as "propaganda to support the New Deal," Senator Thomas D. Schall, of Minnesota, yesterday set forth an eight-point "bill of particulars" as alleged proof of his press censorship accusations against President Roosevelt.

In a telegram to President Roosevelt, Senator Schall asserted he had insufficient space to present comprehensively proof of his charges, that attempts were being made to establish a press censorship in the United States.

"Unless public sentiment and voters prevent," Senator Schall said, "we shall have a federalized national press service run by those in power to perpetuate them in power."

The Minnesota senator has (Continued On Page Two)

Federal Judge Issues Restraining Order Holding Names Of Voters On Books

NEW ORLEANS, Sept. 5.—(AP)—The federal government yesterday stepped into the Senator Long-Mayer T. Semmes Walmaley political battle of Louisiana, yesterday issued a restraining order against the state-appointed registrar of voters, R. J. Gregory, commanding him not to remove the names of any voters from the list to be used in the Sept. 11 congressional primary.

The registration office is now, and has been for more than a month, in possession of Senator Long's national guardsmen who broke in under cover of darkness to take control amidst a great clatter of arms.

As the federal government took a hand in the political muddle for the first time, Senator Long was directing the inquiry of his legislative committee into asserted charges of vice and corruption in the city government of Walmaley. The committee and Senator Long were under the protection of state soldiers.

The petition was submitted in federal court by two voters, A. Morgan Brian and Ernest P. Miller, who charged that Long, Governor Allen, the registrar of voters and General Raymond H. Fleming, head of the national guard, on the night of July 30, 1934, "entered into a conspiracy" the object of which was to deprive the plaintiffs of the right to vote in the Sept. 11 primary.

Liquor Question To Be Placed Up To Voters Nov. 7

Required Number Of Persons Sign Plea Asking An Election

Voters of Seminole County will have an opportunity on Nov. 7 to decide whether or not they are for or against the repeal of all of this state's prohibition laws.

This was indicated at the September meeting of the Board of County Commissioners, held at the Court House yesterday, when the Commissioners, after accepting a petition presented to them by G. W. Spencer, local attorney, ordered it turned over to Supervisor of Registration W. J. Thigpen for checking against the official list of voters.

The petition was signed by 332 registered voters residing in seven of the county's 15 precincts.

Mr. Spencer, in presenting the petition in behalf of the several signers pointed out that under the terms of an amendment to Article 19 of the State Constitution the names of only five percent of the registered voters of any community need be affixed to petitions asking that certain questions be set before the voters for decision.

The petition he presented represented approximately nine percent of the registered voters.

At the request of a special Seminole County Chamber of Commerce delegation which included F. E. Danner, County Agent C. R. Dawson, Gus Schulah, and H. J. Gut and E. J. Meyer, the Commissioners voted to lend their support to the campaign aimed at stopping all distilleries within the county without apparent benefit to any person or property.

No action was taken on a telegram from Lorenzo A. Wilson, of Jacksonville, chairman of the Florida World's Fair Commission requesting the Commissioners to consider appropriating another \$1000 toward the maintenance of the Florida exhibits at the Fair.

The Commissioners took no action on an appeal by George H. Upchurch that fines and costs levied against him for driving an automobile with an improper license be remitted. The Board decided that it had no authority in the matter.

Election precinct No. 8, known as Gabriella precinct, was officially changed to Goldenrod precinct, name by which it is to be known in the future.

Martin Stanko and a group of Slavia was advised that work on what is known as the Mikler road (Continued On Page Four)

Landis Holds Local Option Election Okey

Ocala, Sept. 5.—(AP)—The board of commissioners of Marion county had before it yesterday an opinion from the office of Attorney General Cary D. Landis saying local option elections of liquor may be held legally at the general election in November.

Following the receipt of the opinion the board called a repeal referendum at the November general election.

ROOSEVELT TAKES HAND IN WALKOUT

President Appoints Mediation Board To Act In Strike Which Some Say Is Failure

By The Associated Press
President Roosevelt today moved to appoint a mediation board for the general strike in the textile industry at the same time that employers' representatives announced a meeting to plan a defense against the alleged intimidation of workers remaining on jobs.

Meanwhile at Washington, the strike committee of the National Textile Workers responded to the President's announcement that he was appointing a mediation board with "It can be taken as a matter of course that we shall go as far as possible to meet the wishes of the President."

George Sloan, President of the Cotton Textile Institute said that any board appointed by President Roosevelt in the textile strike "will receive our utmost respect. We will gladly make available to it all the facts in our possession."

At Greenville, S. C., a squadron of approximately 625 strikers from Spartanburg county, augmented by several hundred local workers today forced the closing down of the Dunham mill, thru which had been operating under National Guard protection.

Fine hose, bayonets, and steel helmets which 120 troopers had prepared for use in defending the plant were not brought into play, as the mill management, harassed by several days of contention with the unionists, decided to close rather than run the risk of violence.

Heads of silk, woolen, and cotton industrial organizations announced a meeting to plan against (Continued On Page 4)

Sloan Claims Big Strike Is Failure Citing Statistics

NEW YORK, Sept. 5.—(AP)—George A. Sloan, president of the Cotton Textile Institute, late yesterday announced he had heard from mills representing 348,000 workers, and the reports showed 254,000 were at work, and 92,000 out.

July figures, Sloan said, showed that these same mills employed 410,000 persons in that month.

He said his reports showed 154,000 at work in the South and 100,000 at work in the East, with 60,000 out in the South and 32,000 out in the East. Sloan added that 64,000 remained to be heard from.

"These figures indicate," Sloan said, "that the strike is a failure." (Of those out, Sloan said, thousands were out "against their will by reason of intimidation.")

Ants Nearly Devour Paralyzed Woman

OKLAHOMA CITY, Sept. 5.—(AP)—A wealthy paralyzed widow, victim of a fierce attack by thousands of red ants, was reported recovering at her home in Britton, Okla., yesterday.

Had not a neighbor and a night watchman, attracted by her screams, entered her home two and a half hours after the attack began, fatal injuries might have been inflicted upon Mrs. A. W. Gott, owner of numerous farm properties.

When rescued by Pat McGrew, a grocery clerk, and L. M. Corbett, a nightwatchman, she was almost unconscious, and her eyes were swollen shut.

Broward Taxpayers Lose In Their Suit

TALLAHASSEE, Sept. 5.—(AP)—The long contended Broward county post authority suit in the supreme court yesterday brought a decision by the court that unless taxpayers show by an amended bill that their property is illegally or excessively taxed, their action against present assessments will be dismissed.

A contest of the assessments was brought by a group of taxpayers in the district. They asked the court to declare null and void the bonds issued by the port district, and to enjoin the port district, and the cities of Fort Lauderdale and Hollywood from levying a tax with which to pay the bonds.
