## VETS WILL NOT ASK FOR CASH BONUS DEMAND

### Will Concentrate At Next Congress Upon Restoration Of Cut Under Economy Act

WASHINGTON, Sept. 21.—(A.P.)—A survey of the plans and activities of veterans' organizations yesterday indicated America's ex-service men have stopped for the present their cash bonus demands and will concentrate at the next Congress on restoration of cuts under the economy act.

As the veterans of foreign wars have called for a drive for repeal of the economy law, a study of resolutions adopted by American Legion state conventions preliminary to the national convocation at Chicago two weeks hence disclosed a similar objective.

The action of the state conventions is usually indicative of the course of the proceedings at the national convention of the legion.

Review of actions of state conventions disclosed that only five voted for cash payment of the bonus, which was favored by a nine to one vote at last year's convention.

A dozen of the state assemblies have favored the four-point program advanced by the legion's national rehabilitation committee and nearly all have voted for it with slight changes.

This program—in contrast with the plans of other veterans' organizations—does not propose repeal of the economy act, but centers on restoration of full benefits to service-connected cases and liberal medical facilities.

American Legion officials said yesterday their organization would "fly its own flag" and indicated it would not join with other organizations in fighting for blanket repeal of the economy law.

The final decision on this, however, they said, would be made at the Chicago convention, Oct. 2 to 5.

The call for united action toward repeal of the economy law went out from James E. Van Zandt, commander in chief of the Veterans of Foreign Wars, to heads of other veterans' organizations, inviting them to a conference here Oct. 18.

The legion's four-point plan follows:

"That no war veterans disabled in line of duty suffer any reduction of those benefits granted each veteran in the World War veterans act as in effect prior to the act of March 3, 1933 (the effective date of the economy law).

"That hospitalization under federal government auspices be afforded all veterans not dishonorably discharged, who require hospital treatment, and who are not able to reasonably pay for their own treatment.

"That preparation of service-connection for all veterans properly granted such service-connection under laws in existence prior to March 3, 1933, be recommended as an item of legion policy.

"That the benefits provided for dependents of veterans as established in the World War veterans act be resumed and maintained."

## Stir Created In Kidnaping Trial

OKLAHOMA CITY, Sept. 21.—(A.P.)—A stir was created in the opening of Charles F. Urschel kidnaping trial today when Fred Coleman, son of T. M. Coleman on whose farm, Okla., farm, the government contends the plot was hatched, tried ineffectually to make a speech. He was hustled downstairs quickly. A United States marshal who talked with Coleman said he believed a threatening message had been sent him.

## ADDITIONAL FUND AWARDED STATE FOR STORM AID

### \$700,000 Is Allocated For Labor To Help In Rehabilitation

WASHINGTON, Sept. 21.—(A.P.)—Following and supplementing the recent visit of Gov. Dave Sholtz to Washington, efforts of Chairman C. B. Treadway of the Florida Advisory Board for Public Works were crowned with success yesterday when he was enabled to announce that Emergency Relief Administrator Harry I. Hopkins had allocated an additional relief fund amounting to \$700,000 for labor in rehabilitating and repairing roads damaged by the recent storm in Florida.

The National Board of Public Works also agreed to supplement this sum by a grant of \$300,000 to be used for purchasing materials for this repair work in the storm area. This storm area has been defined to Marcus C. Frazz, emergency relief director for

## Southern College Begins 49th Year Amid Ceremonies

LAKELAND, Sept. 21.—Visitors from many parts of Florida joined Lakeland citizens and the faculty and students of Southern College in exercises yesterday which began the institution's forty-ninth year. First classes began yesterday morning at 8 o'clock.

President Ludd M. Spivey, who presided, introduced more than a dozen persons of prominence, who spoke briefly. Most of Lakeland's civic clubs had speakers present.

Two former presidents of Southern figured in the exercises. They were Dr. J. P. Hillman, of Tampa, and Dr. S. W. Walker, of Jacksonville.

J. Edgar Wall, of Tampa, chairman of Southern's board of trustees, extended greetings. Other Tampanians introduced were Dr. J. H. Daniel, president elder; Dr. A. Fred Turner, pastor of First Methodist Church; the Rev. R. L. Allen, pastor of Seminary Heights Methodist Church, and the Rev. J. A. Hendry, pastor of Nebraska Avenue church.

Lakeland speakers were Harry Laird, chamber of commerce; Dr. C. A. Raymond, Rotary Club; and First Presbyterian Church; W. S. Rodgers, Kiwanis Club; Miss Grace Pope, Flannette Club; Guy Wilson, Lions Club; Mrs. C. E. Smith, Woman's Club; Mrs. T. H. Lander, Sorority Club; Dr. E. Ira Barnett, Southern trustees; Dr. Carl S. Cox, Lakeland school superintendent, and Dr. C. E. Wyatt, ministerial association. Dr. Spivey introduced several trustees and new faculty members.

## DEMANDS FOR INFLATION ARE BEING STUDIED

### President Talks With College Professor Who Has Made Study Of Money Situation

WASHINGTON, Sept. 21.—(A.P.)—Amid the clamor for inflation, President Roosevelt gave thoughtful consideration to the problem yesterday in a long talk with Dr. George Warren of Cornell, who has made a study of the European monetary situation for the President.

For several hours, the economist talked over the question with Roosevelt, relating to him the results of his study.

No official word came from the president's reports about the capital that Warren was working out plans for a commodity dollar.

The commodity dollar is one whose buying power with relation to commodities would remain constant, but whose ratio to gold prices would rise and fall with the commodity index.

Along with the study the President was giving the dollar, the general expansion program of the administration was moving forward along a wide front.

Coupled with the plans for pushing money into circulation through public building projects, broadening credit to farmers, home owners and business houses, new efforts were being directed toward disposal of farm surpluses by bringing agricultural prices into line with those of goods that the farmer buys.

Coincidentally to the visit of the president was disclosed that Russia had offered to buy three million bales of cotton and a quantity of steel and other necessary credits could be arranged.

The American claims tonight total \$65,000,000. This is opposed, principal and interest at this government's Kentucky bonds, \$272,000,000; private export debts, \$80,000,000; claims of American industries for the confiscation of property, \$300,000,000. The Kremlin claims, a total on which has never been set, result from the Archangel and Vladivostok expeditions.

It has been the firm position of the Moscow government that negotiations to settle the claims must follow the establishment of normal diplomatic relations.

Also involved in all probability would be the question of government credit. At present, the government by the American Trading Corporation, the Soviet agents, are not eligible to discount American industries have sought for some time a government guarantee for Soviet sales, similar to major grant Russia by other major producing countries.

## Many Are Involved In Gotham Strikes

NEW YORK, Sept. 21.—(A.P.)—Strikes involving about 100,000 workers were in progress today here and a walkout of transit employees appeared a possibility. The American Federation of Labor, through its affiliate in the street transportation industry, prepared to seek a showdown between the unionization of 30,000 workers and the company union policy maintained at present.

## U. S. RECOGNITION OF RUSSIA SEEN IN NEAR FUTURE

### President Is Assured Freedom Of Action Without Any Outcry

NEW YORK, Sept. 21.—(A.P.)—The United States, it was widely indicated last night will recognize the Soviet Union before congress convenes in January.

Although such a declaration is an administrative act, President Roosevelt was represented by a consultant on foreign affairs as wishing to dispose of this much-undevoted matter at a time when he was assured freedom of action without any outcry from a possible anti-Soviet bloc in congress.

The president was represented in several usually well-informed quarters as having decided on Russian recognition some time ago but has awaited a time when the progress of domestic affairs would allow him ample opportunity to settle the matter decisively.

Aside from the exchange of notes and understandings, recognition of the U. S. R. S. also undoubtedly would necessitate a decision on the manner of settling claims.

The American claims tonight total \$65,000,000. This is opposed, principal and interest at this government's Kentucky bonds, \$272,000,000; private export debts, \$80,000,000; claims of American industries for the confiscation of property, \$300,000,000. The Kremlin claims, a total on which has never been set, result from the Archangel and Vladivostok expeditions.

It has been the firm position of the Moscow government that negotiations to settle the claims must follow the establishment of normal diplomatic relations.

Also involved in all probability would be the question of government credit. At present, the government by the American Trading Corporation, the Soviet agents, are not eligible to discount American industries have sought for some time a government guarantee for Soviet sales, similar to major grant Russia by other major producing countries.

## NEGROES FINED FOR ATTACK ON FIELD WORKER

### Group Was Organized To Compel Celery Settlers To Demand \$3.00 Per Day Wage

The existence of a group of negroes, organized for the purpose of forcing celery settlers to work for not less than \$3.00 per day, was revealed yesterday afternoon at a special session of police court when 12 members, arrested Monday by local police, were handed sentences and warned not to repeat their offense.

Quick action on the part of Chief of Police Roy G. Williams in following up a complaint made by a farm negro brought about the arrest of 11 members of the gang Monday, while the other was captured that night.

Judge S. A. B. Wilkinson found all 12 guilty of "Unlawful Assembly" and pronounced heavy sentences on the two leaders but let the others off with lesser punishment.

The leaders of the gang were Milton Graham and Abraham Nelson, who were sentenced to pay fines of \$25.00 each or serve 60 days in jail. Washington was given the alternative of paying a fine of \$100.00 or serving 10 days in jail. James Sargent, Fred Maxwell, John Williams and Charles Henderson were found guilty and ordered to pay fines of \$100.00 each or serve 30 days, while the others, Willie Jones, George Belsky, Henderson, Fred King, Roosevelt Anderson, Emmett Booth, Holt and Rufus Hicks were sentenced to pay fines of \$20.00 each or serve 10 days.

John Henry Jones local farm negro, is charged against all 12 of the defendants. He told the court he had been organized as a celery strike and was ordered to quit his job and go to jail. He said he was ordered to pay \$200.00 per day and was ordered to quit his job and go to jail. He said he was ordered to pay \$200.00 per day and was ordered to quit his job and go to jail.

The courtroom was crowded with local negroes, yesterday afternoon and according to Judge Wilkinson the majority present seemed to be against the group and were active in the conviction. All of the defendants were fined and the majority were ordered to pay the balance of the fine.

Telling adjourning court Judge Wilkinson warned the defendant that in the future if any of them are caught before him on the same charge he would give them the limit. He also pointed out that under a recently enacted law kidnaping is a capital crime.

## Final Draft Of Retailers' Code, With Provision For Price Control, Disclosed

WASHINGTON, Sept. 21.—(A.P.)—Final draft of the code of fair competition covering the general retail trade, made public yesterday, carries the much controverted price control provision framed so that every merchant would be required to keep his selling prices at 10 percent above "wholesale delivered price" of any merchandise except for special sales.

A. D. Whiteside, deputy commissioner of the NRA, who made public the draft along with the code for drug stores, said that the price control provision could in no sense be construed a price-fixing action since no profit could enter a retail transaction unless the merchant obtained 25 percent above wholesale price.

The value of the provision, he said, rests primarily in limiting retailers' losses and preventing continuance of "loss leader" selling by which merchants attract customers with low-priced goods in the hope they will buy items carrying a much higher profit.

The two broad codes, reaching every community in the nation, would blanket more than 5,000,000 employees under the recovery program.

The drug code prohibited drastic slashing of retail prices on standard trade marked goods whose price is announced by the manufacturer. The retail clause reads: "In order to check predatory price cutting and minimize operating losses resulting therefrom, Department of which Mr. Treadway is also chairman.

Labor must be furnished through Emergency Relief Bloc." (Continued On Page Three)

## SITUATION IN CUBA GROWING MORE CRITICAL

### Another U.S. Boat Enters Havana With Marines And Blue-jackets Lining Dock

HAVANA, Sept. 21.—(A.P.)—The American destroyer Number 240, with her marines and sailors drawn up in formation on deck, and the ammunition ship Nitro entered Havana harbor today as opposition groups pressed their demand that the government of provisional President Grau San Martin resign.

Anti-American sentiment was expressed in a demonstration by a small group of Cubans who assembled before the home of James Ward Stickey and shouted "down with Americans."

Prisoners, brought in from Camaguey province, where Captain Juan Blas Hernandez is leading a revolt, reported the incident number 2000.

A palace announcement said government troops had surrounded the rebel leader Juan Blas Hernandez and his followers in a ranch in Camaguey province.

The information, which came from an army captain commanding the troops pursuing Blas, said the chieftain and six or seven of his lieutenants were surrounded and that some of his followers had fled.

Private advice from Tampa, near Antilla on the north coast of Oriente province, said two foreign managers of a sugar mill, an American and a Canadian, were held by workers who seized the mill a week ago. Their names were not immediately learned.

Reports from Tampa said the workers were armed with machine guns, rifles and revolvers, thwarted an attempt by soldiers to liberate the two foreigners. They were said to have told the military leaders that if any of the bodies of the American and the Canadian would be delivered "over the fence."

Santiago, the capital of the province of the same name, witnessed bloodshed when soldiers and students fired on a communist demonstration. (Continued On Page Three)

## FIDDLE CONTEST ON CRACKER DAY DRAWS INTEREST

### Many Entrants From Various Sections Of State Are Expected

Interest in the Fiddler's contest which is to be staged here Saturday, Sept. 30, as a feature of the day's celebration, is mounting not only in Sanford and the surrounding communities but also in places throughout central Florida, according to an announcement made this morning by Mrs. John Leonard, general chairman of "Cracker Day."

Mrs. Leonard said that she had written to fiddlers in various communities, especially to those where recent similar contests had been held, and that she has received favorable replies.

The contest will be held on the grounds of the court house. The winners will be awarded a cash prize and a certificate of appreciation. The contest will be held on the grounds of the court house. The winners will be awarded a cash prize and a certificate of appreciation.

## PEOPLE SLOW TO TAKE ADVANTAGE OF FARM LOANS

### Office In Orlando Has Had Few Applications From Here

Investigations of the Regional Agricultural Credit Corporation in Orlando by a representative of the National Farm Credit Association have revealed that applications for loans from Seminole County farmers are coming into that office very slowly, according to information received this afternoon.

W. E. Mullikin, Jr., Washington, D. C., was in Orlando yesterday conducting the investigations concerning reports that there were delays in furnishing funds to farmers. Mr. Mullikin reported that money is available to farmers on satisfactory security within 10 days.

According to the government representative the requirements for receiving loans are a crop lien upon all crops grown by the applicant, backed by additional security in the form of a first mortgage on real estate or chattel mortgage upon farm equipment.

It was further explained that in the event a farmer cannot give a first mortgage on account of a moderate one already existing it is possible to apply to the land commissioners' office, which can furnish funds to lift the existing mortgage, and then advance its security in favor of the Regional Agricultural Credit Corporation.

Application blanks for loans and information may be obtained at the Sanford National Bank. The regional office is located in the Exchange building, Orlando and may be reached by telephone by calling No. 3578.

It was also pointed out today that the regional Agricultural Credit Corporation is entirely separate and distinct from the Federal Land Bank at Columbia and should not in any way be connected or confused with it. The R. A. C. C. makes crop production loans only.

## Farm Credit Will Be Discussed At Meet

### COLUMBIA, South Carolina, Sept. 21.—(A.P.)—Expansion of farm credit facilities in the third land bank district, which includes Florida, will be discussed tonight at a conference of Henry Morgenthau, Jr., governor of the farm credit administration, and leaders of four states.

The cotton group took to the White House Tuesday demand for inflation and other steps they felt necessary to aid the cotton grower, but Roosevelt was unable to see them because of his cold.

President Roosevelt had on his desk the inflation petition of the cotton group, but no comment was forthcoming about it.

## Tropical Disturbance Is Nearing Yucatan

MIAMI, Sept. 21.—(A.P.)—A tropical disturbance was in the North western Caribbean today, about 475 miles southwest of Miami and approximately 325 miles southwest of Havana. It was moving west or west-southwest 100 miles east of southern Yucatan and probably will reach the Yucatan Peninsula tonight, the Weather Bureau said.

## Man Who Charged Prison Camps With Murders Is Sought

TALLAHASSEE, Sept. 21.—(A.P.)—The present whereabouts of James Travis, pardoned Florida convict who charged in a New York newspaper article, he had witnessed six murders in Florida prison camps, are unknown to Ernest Jerome Hopkins, former Wickesham committee investigator who wrote a preface to Travis' report.

Travis said in his published article that "nothing ever came of five of them." The sixth was the case of Arthur Mallifort, for whose swastika death George W. Corson, former camp captain, was sentenced to 20 years for manslaughter.

Nathan Mayo, state prison commissary, wrote Hopkins, inviting him to assist in obtaining more specific information from Travis regarding the "murders." Hopkins' answer to Mayo also stated he had consulted with the editor of the paper publishing the article and that he also did not know where Travis was but that "he would try immediately to have him located."

## Wets, Drys Seek Uniform Laws To Control Liquor

WASHINGTON, Sept. 21.—(A.P.)—Prominent wets and drys of both parties united yesterday with retail beverage dealers to seek uniformity of state laws on liquor dispensing and low taxes to drive out the bootlegger.

With 31 states having voted to ratify repeal, leaving but five more necessary to erase prohibition from the constitution, officials of the national association of retail beverage dealers met today to organize to outlaw distiller of brewery-owned and operated liquor dispensaries.

Former Senator Watson, of Indiana, told about 50 members of the organization at a luncheon yesterday that although he had represented his state in Congress as a prohibitionist, the issue was not a question of wet or dry.

"Now that repeal is almost here it is a question of what we are going to do," he added.

Watson and Representative Britton, of Illinois, both Republicans, gave Preckhiser, Missouri, for promoting ratification of repeal.

"If Herbert Hoover was president, I don't believe 10 states would have ratified repeal, whereas 31 already are on file and the remaining five will come within a few days," said Britton. "The wets would not have followed Herbert Hoover or Al Smith. President Roosevelt was the best leader."

President Roosevelt has announced that a study be made of the situation of existing the constitution of the United States regarding the liquor laws.

## Prohibition Ballot Beginning To Shrink

TALLAHASSEE, Sept. 21.—(A.P.)—The Florida prohibition election ballot, which contained 135 names on the expiration of the time for candidates to qualify began to shrink today as dry organizations withdrew the names of eight listed candidates.

State Secretary Gray said he would inform the voters of the names of the candidates.

Orlando dry leader, said in a request later for withdrawal of six additional candidates.

Candidates in Tallahassee requested withdrawal of permission to appear on the ballot. They were: J. M. Pardon, and others.

Mr. Gray said he would inform the voters of the names of the candidates.

## Sanford Kiwanians To Stage "Ladies Night"

So that they might appropriately observe Constitution Week and at the same time stage their annual "ladies night," Sanford Kiwanians postponed their regular weekly noon luncheon until tonight when they will meet at the Colony Club.

The program for tonight will include a talk on the meaning of Constitution Week by Mr. Overton, the president; a patriotic solo by Miss Velma Elger; an address on "The Citizens of Kiwanis International" by a member; and the main address of the evening, "To Do With The Constitution Is For Better Citizenship," by John Leonard.

Mr. Overton urged all members to be present and to bring their wives or guests.

## Kidnaping Plot To Seize Governor's Daughter Revealed

TOPEKA, Kansas, Sept. 21.—(A.P.)—A kidnaping plot in which his 16-year-old daughter, Peggy Ann, was to have been prisoner until he granted executive clemency to members of the notorious Harvey Bailey Wilbur Underhill gang, now confined in the Kansas penitentiary, was made public today by Governor Alf M. Landon.

Miss Landon, high school senior, is under the surveillance of armed guards since the plot was revealed to the governor more than three weeks ago. The guards, armed with riot guns also have maintained watch over the executive mansion. Eleven men, including six long-term convicts and a woman, were said by the governor to be involved in the plot. Their names were not disclosed.

## Co-operation Among Dairymen Is Stressed At Meeting Here Today

Co-operation among dairymen and the necessity of growing feed for cattle on the grounds of the dairy, were stressed as major questions confronting the milk producers of Central Florida, by Hamlin M. Brown and W. M. Nettles of the extension department of the University of Florida at Gainesville, who addressed a gathering of local dairymen during a luncheon served at Dooney's Palm Cafe at noon today.

Ed Biggers, Philip McRae, Dr. C. W. Baker, C. C. Howard, Howard Walker and Mr. L. E. Stealing were present and before the meeting was brought to a close they voted unanimously in favor of a motion complimenting "The Herald on its editorial entitled 'Drink More Milk' which appeared in last night's issue."

Mr. Brown said his talk on the need for greater crop production on the plot of the individual dairy and said that if the soil is not suitably adapted for the growing of necessary feed crops it is advisable to move the dairy.

"Land in Florida is plentiful and cheap," Mr. Brown stressed, "and if your land will not produce feed, look around and move to land that will. Now is the time for Florida dairymen to select the best of lands throughout the state."

Mr. Nettles outlined the recent milk control law which has been placed into effect throughout Florida. He said that now is the time for dairymen to organize and take advantage of the benefits offered under the laws of the National Industrial Act. "Uncle Sam has offered us the chance to organize," he pointed out, "but the government also has the right to force those who do not join with an organization to keep in pace with its provisions."

## WILLY POST INJURED

QUINCY, Illinois, Sept. 21.—(A.P.)—Wiley Post round the world flyer was slightly injured today when his plane, the Winnie Mae, crashed as he was taking off from the airport for Des Moines, Iowa.

### Counterfeit Money

In spite of the fact that money today appears to be about the most important thing in the world, very few of us apparently know anything about it. We not only do not know where it comes from, what is behind it, why it is important in trade, how much of it there is, and what ultimately becomes of it, but we do not even know what it looks like.

All of us have seen money, of various types and descriptions, but how many of us could say what a five-dollar bill looks like? From a five-dollar national bank note? How many of us could tell whether the twenty-dollar bill which we last saw was a counterfeit?

The United States News says that the most practical method of counterfeiting is known as the photomechanical process. Forged notes of this kind are distinguished with some difficulty from genuine money. Photography makes the reproduction absolutely perfect. There can be no error in spelling, printing, or similar details from faulty original. Notable defects almost always consist of faulty coloring of the serial number and in the seal and back of the note.

In the reduced size of currency the Federal government has worked out an entirely new system of currency designating. There are five different types of currency which carry the name designating the particular issue. The seal and serial numbers are printed in colors: blue for silver certificates; yellow for gold certificates; red for United States notes; brown for national bank notes; green for Federal reserve notes.

The denomination of each note is indicated by the portrait on the face and the embossment on the back. The individual who familiarizes himself with the portrait system will readily detect "fakes" from a low to a high value. If a note bearing the numeral "10" with a portrait of Washington should come under such informed observation, it will be recognized as a \$1 note raised to the \$10 denomination.

The portrait chart of the new currency provides for the \$1 note, portrait of Washington with ornate numerals "1" on back; \$2 note, Jefferson, with representation of Monticello on back; \$5 note, Lincoln, with Lincoln Memorial in background; \$10 note, Hamilton, with portrait of Hamilton on back; \$20 note, Grant, with United States Capitol on back; \$50 note, Franklin, with Independence Hall, Philadelphia, on back; \$100 note, McKinley, ornate "100" on back; \$5,000 note, Madison, with ornate "5,000" on back; \$10,000 note, Chase, with ornate "10,000" on back.

The check letter is always used in describing counterfeit notes; if not correct, the note is a counterfeit. The check letter is found inside the panel in the lower right hand corner on the face of each note; beside it is the plate number in small numerals. These letters and numbers are printed in black and are not to be confused with letters preceding and following the color letter and serial numbers.

Check numbers on genuine notes run from A to I; they are synchronized on all but national bank notes, with the serial numbers. By dividing the entire serial number by six, the remainder will be the check number. If the remainder is 0, the note is a counterfeit. The check letter is A, B, C, D, E, F, G, H, I, J, K, L, M, N, O, P, Q, R, S, T, U, V, W, X, Y, Z.

When the letters are in the order of the alphabet, the note is a counterfeit. If the letters are in the order of the alphabet, the note is a counterfeit. If the letters are in the order of the alphabet, the note is a counterfeit.

Travel along the frontier of the Corridor with a German guide and you will hear much of the intricacies of the present boundary. But a few questions will bring out the German's story of a country which has been nothing but a "border town" for many years.

Which has the better claim to the Corridor? Germany held it for 150 years before the end of the World War. It held it for 200 years before that. Earlier still it was a Roman province. It was a Roman province. It was a Roman province.

Today, in the rural district is belonging to the Free City of Danzig, the population is 95 per cent German. In the town there are few in the villages. There used to be more, but the officials—police, school teachers, railway clerks, etc.—who were there before the World War have gone back to Germany.

Sanford, Twenty Years Ago. Misses Nellie Elder, Margaret Wink, Laura Lee, and Annie Lee are expected to be the guests of honor at the next dance.

It's making people talk!

Last week alone, 12,700 people told us

"Your new Gulf gas is a real value"

"Higher anti-knock... more power... quicker starting... That's what motorists are telling us about the new and better Good Gulf Gasoline... They have tried it themselves... and they like it! In just one week 12,700 of these motorists set down and wrote letters telling us about their experiences with Gulf's great new motor fuel. And here is what some of them said: 'ever-seen'... That's what they are saying about Gulf's latest and greatest achievement... That new and better Good Gulf Gasoline! Try it today. You'll get more power, more miles and more value for your money. Stop wherever you see the sign of the Orange Disc... and you'll know you're getting the best. ... MORE POWER"
