

Crime Planned Months In Advance Still No Motive For Kidnapings

CHOWCHILLA, Calif. (AP) — The motive is still a mystery. But the methods used by three silent, masked men who kidnaped 26 children and their bus driver make one thing clear — it was a crime planned out to the fullest, months in advance.

But it didn't work. The children escaped. Still, that the captors could snatch a husband of mostly tiny children in daylight from a town where everyone seems to know everyone else, and then frustrate extensive search efforts by FBI, state and local law officers for more than 24 hours, testifies to their thorough preparation.

When the plan was hatched is unknown. As far back as November 1975, however, one of the suspects is known to have bought three government surplus vans, one of which authorities have traced to the kidnaping. He paid with cash.

Two of the three he bought were never registered. The other was registered two days before the crime in Los Gatos, near San Jose. Because of that, investigators said they had to search for records of the van by hand since the information hadn't been filed in the Department of Motor Vehicles computer.

The name and San Jose address the van was registered under turned out to be phony, according to Madera County Sheriff Ed Bates.

The vans were well equipped for a flight from the scene of the crime. They carried:

- CB radios, ideal for monitoring police activity, but made even more useful by the glibby "CB volunteers" who blasted out from Chowchilla nearly every tidbit of information known about the investigation.
- Painted windows, so no one could see out — or in.
- and a tent-like tarp made the roundabout route to the gravel pits 100 miles away a mystery to those inside.
- A good supply of extra gasoline which kept the kidnapers from having to pull into a service station and taking the risk of an attendant being tipped off.
- California Highway Patrolmen had quickly alerted gas stations on the major routes in the San Joaquin Valley about the kidnaping and had told them to report any suspicious looking vans.
- The nearby creekbed where the bus was taken made an ideal hiding spot. Authorities said they could not see the bus at all from the road during daylight hours. It took a hastily organized air search to spot the big yellow bus in a thicket — and just before dark.
- In the gravel pit near Livermore, the kidnapers had an excellent hideout.
- The children were buried for nearly 18 hours in a World War II vintage military moving van about 25 feet long. It was buried in a spot in the quarry that was not being worked. The spot was surrounded by brush up to six feet tall.
- Tests of soil samples taken from the site show the truck had been buried there less than a year, Alameda County investigators said. They added that there are numerous back roads to the spot and kidnapers could have easily driven in to work on the cavern at night without being seen.

New Clues Being Investigated

LIVERMORE, Calif. (AP) — Investigators say they have compiled new clues which they believe will lead to the capture of three men who kidnaped 26 Chowchilla school children and their bus driver.

The 27 escaped unharmed more about 28 hours later.

"We have a gut feeling that we are getting closer," Madera County Sheriff Ed Bates said Sunday.

At the Alameda County sheriff's office, Lt. Ed Volpe said detectives had been given information by a man in Sonoma, 65 miles northeast of the kidnap scene, "that pinpoints where the suspects were" on specific dates last year.

And Jack Baugh, criminal division chief for the Alameda County sheriff's office, predicted authorities would be able to identify one or more of the abductors today or Tuesday.

"Right now we're optimistic that our investigative leads are developing toward some positive information that we think will take us to a suspect," said Baugh.

But despite "an astronomical amount of physical evidence," Baugh admitted that investigators still had not established a motive. "The only thing we have at this time is a kidnap," he said. "As to whether it was for terrorists, or for ransom, I don't know."

The 26 children and their driver, on a homeward-bound run from summer school, were forced at gunpoint from their bus and herded into two small vans near the Madera County town of Chowchilla, a small farming community in the heart of the San Joaquin Valley.

Their captors drove them nearly 100 miles to a gravel quarry near Livermore in Alameda County in the southern San Francisco Bay area and forced them into an underground bunker constructed on an old truck bed. The captives dug their way out Friday night after the three masked men left.

Composite drawings of two suspects and detailed descriptions of all three men believed responsible for the kidnaping were released Sunday along with one complete and one partial license number of the two vans.

While investigators searched for three suspects, Bates would not rule out the possibility "four were involved."

Despite progress, Bates was angered by the FBI's withdrawal from the case Saturday.

"Their sudden and unexpected withdrawal in the middle of the investigation left a vacuum that was very difficult to fill and taxed the resources of the state and county and hindered our investigation," Bates said in a telegram Sunday to U.S. Atty. Gen. Edward Levi and President Ford.

The FBI said the case was not in its jurisdiction since no state lines were crossed or a ransom demanded.

Bates received three photographs from Alameda County which Baugh said were of "possible suspects." Baugh believed there was a "good possibility" one of the three was involved in the kidnaping.

Bates held off showing the three photos to any of the children, however, until more photographs of possible suspects from the Chowchilla area could be gathered.

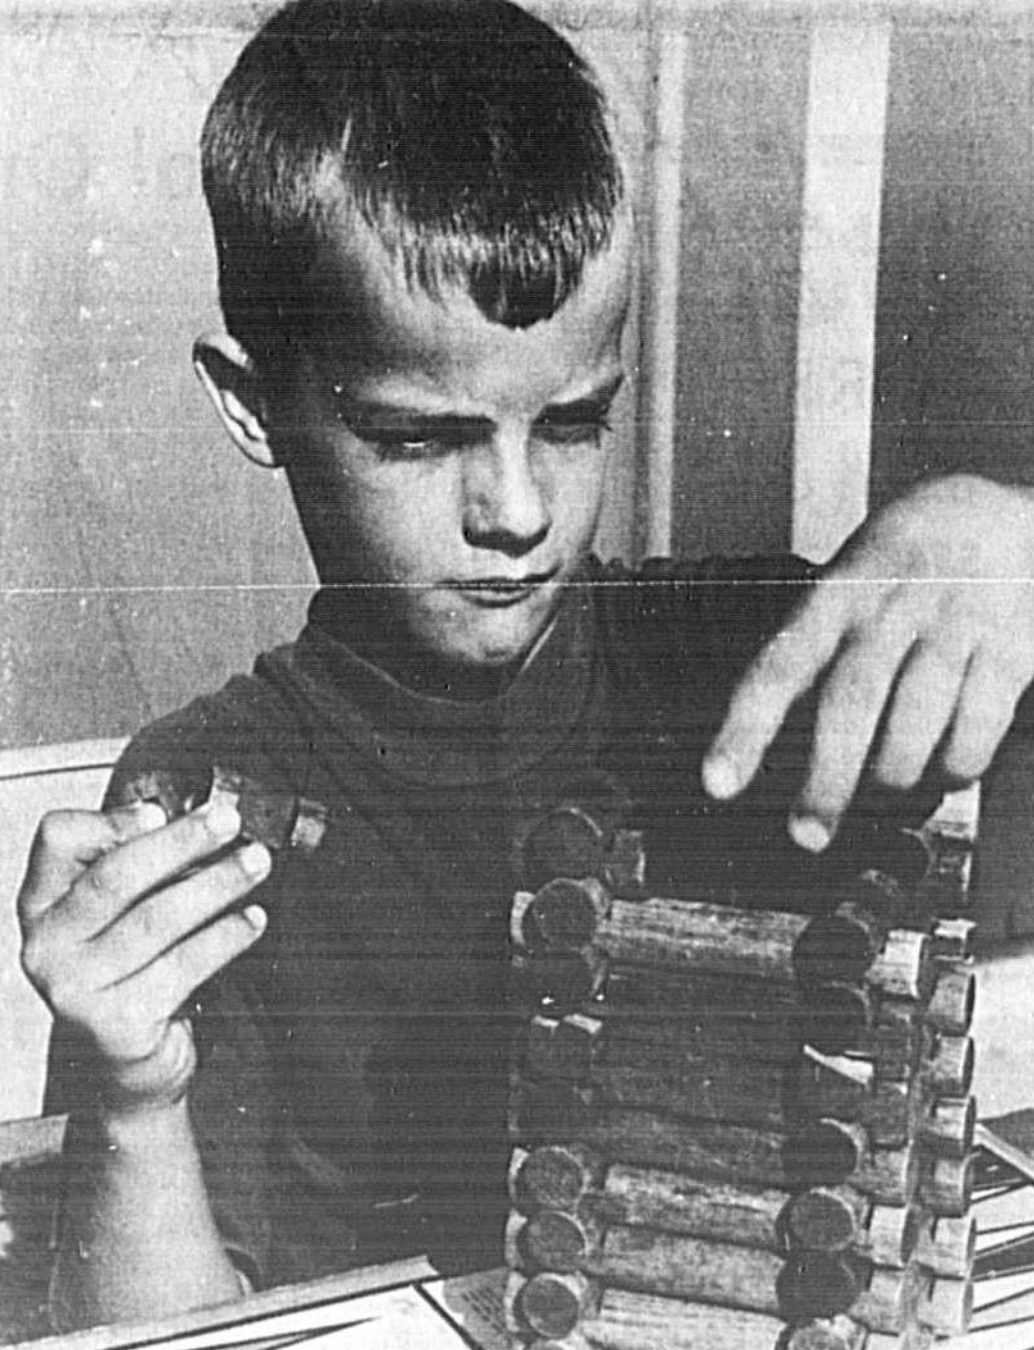

A COOL SKILL ON A HOT DAY

Ed Green of DelRay decided it was too hot in the Sanford area for anything but water skiing on Sunday, so he decided to take a spin on the St. Johns River.

He's doing just fine in the top photo as he slaloms along. However, Green is ready to drop the remaining 84 for a little harlequin ride and in the middle photo we'd have to say he's not doing too badly.

Watch out, below, though, 'cause anything can and usually does happen when skiing barefooted as Green tumbles head first into the cooling river waters.

Fortunately, Green wasn't any worse for the wear, bounced right to the surface and took off again. Want to give it a try? (Herald Photos by Tom Vincent)

SCOPA To Vote On New Officers

By KRIS NASH
Herald Staff Writer

Members of the Seminole County Port Authority (SCOPA) are expected to vote tonight on a new slate of officers for 1977, including a replacement for outgoing panel chairman Thomas Binford, whose term expired July 15.

Binford, appointed to the board in 1972 by Governor Heublin Askew, has presided over SCOPA activities for the past two years. He presently is running as an independent candidate for the Seminole County Commission against Democratic incumbent Mike Hattaway.

The county commission last week named Wendell Agee of Sanford to fill the slot vacated by Binford.

Agee's appointment was the first to follow recent passage of an amendment to SCOPA's enabling legislation which transferred appointive powers for the panel from the governor to the county commission in an effort to increase the element of "home rule."

At the June meeting, SCOPA members James Howe, Rodney Cable and Donald Jackson were designated as a nominating committee and were directed to draw up a slate of officers for the coming year. The committee has not announced its choices yet, but an inside source said the slate reads as follows:

- Donald Jackson, chairman. Jackson is a Lake Mary real estate broker who served as the city's first mayor after its incorporation in August 1973 until Margie Hess was elected and installed in January 1974.
- Rodney Cable, vice chairman. Cable, a Longwood resident who works for an Orlando insurance firm, is in the third year of his four-year SCOPA term. He also serves as the chairman of the Seminole County Democratic Executive Committee.
- James Howe, secretary. Rowe lives in Sanford and is owner and president of a local post control firm. He is a former president of the Sanford-Seminole Junior Chamber of Commerce and has worked extensively with local civic and charitable organizations.
- Edward Blackshear, treasurer. Blackshear is the principal at Crooms High School in Sanford and is a member of the Sanford Housing Authority. A resident of west Seminole County, Blackshear served as SCOPA secretary during 1975-76.
- Dave Gunter, assistant secretary. Gunter, a former Altamonte Springs police captain, received a gubernatorial appointment to the SCOPA panel in May. He has announced as a Democratic hopeful for the 1976 county commission race.

Reagan Back On The Ranch; Democratic Team Takes Rest Ford To Entertain Uncommitted Delegates At White House

By The Associated Press

President Ford plans to entertain still-uncommitted delegates at the White House this week, while challenger Ronald Reagan will be digging some post holes for fences at his 68-acre ranch in the coastal mountains near Santa Barbara.

"I think I've got some more fences to put up. I'll be digging some post holes, generally working around the place," he said after the last 55 of 2,329 delegates to the convention were elected Saturday in Utah and Connecticut.

The Democratic team, presidential nominee Jimmy Carter and running mate Walter Mondale, relaxed during the weekend. Carter was at his home in Plains, Ga., and Mondale vacationed at a friend's cabin in Minnesota and went fishing.

With four weeks left before the convention in Kansas City, Ford took a day off from delegate-hunting Sunday, attending church in the morning and spending the afternoon on the golf course.

He invited delegations from New York and New Jersey to White House receptions this week as he personalized his efforts to win over the final delegates he needs.

Reagan today started what he said would be a two-week vacation at his 68-acre ranch in the coastal mountains near Santa Barbara.

"I think I've got some more fences to put up. I'll be digging some post holes, generally working around the place," he said after the last 55 of 2,329 delegates to the convention were elected Saturday in Utah and Connecticut.

The selection of delegates to the Aug. 16-19 convention ended Saturday with Ford sweeping all 35 in Connecticut and Reagan taking all 20 in Utah.

With all 2,329 delegates for the convention now selected, The Associated Press count of announced or mandated delegate votes shows 1,066 for Ford and 1,023 for Reagan, with 12 uncommitted and 1 for Sen. Howard Baker, R-Tenn. It takes 1,130 to win. The AP count does not include those merely leaning toward one or the other.

With Reagan trailing Ford by 40 votes, the nomination is in the hands of the 172 uncommitted delegates, many of whom have met or talked on the telephone with both Reagan and Ford in recent weeks.

The Washington Post reported today that some uncommitted "top dogs" and supporters of Reagan have said privately that he will be unable to win the GOP presidential nomination.

The newspaper said some of these aides feel Reagan's chances for success were lost 10 days ago when Ford captured a majority of North Dakota's 18 delegates.

However, Michael K. Deaver, the Reagan campaign's chief of staff, denied that North Dakota had been a setback, telling The Associated Press, "I believe we got in North Dakota exactly what we planned for."

Deaver said the campaign staff will prepare a daily memo with a list of uncommitted delegates for Reagan to telephone.

Neither Reagan nor any of his aides would say exactly how they expect to pull off their upset, how they are going to defy the numbers in the delegate count.

"I'm optimistic, but I don't think anyone will really know until the first ballot is counted," Reagan said in an interview on the flight home from Salt Lake City.

But Reagan and his aides listed seven states where they say they have especially good hopes of winning uncommitted delegates: Mississippi, New Jersey, New York, Pennsylvania, South Carolina, Virginia and West Virginia.

Deaver said he believes the remaining uncommitted delegates are people who find both Ford and Reagan acceptable.

NATION IN BRIEF

Panel Seeks Source Of Report Leak

WASHINGTON (AP) — The House Ethics Committee is holding hearings in its quest for an answer to the \$150,000 question: Who leaked the House intelligence committee report to the news media? Congress also will be wrestling this week with a timetable for extending individual tax cuts as it returns to work after a two-week recess for the fourth of July and Democratic National Convention.

Man Completes Canoe Trek

JUNEAU, Alaska (AP) — Don Watson survived encounters with an angry alligator on a Louisiana bayou and mountainous waves on the Mississippi River in his "adventure of a lifetime" — a 13,000-mile, meandering trip across the country and into Alaska in a 15-foot canoe. "People tell me that I'm either the most courageous man they've ever met or the most insane," Watson, 43, said Sunday after chugging into port here one year and eight days after his journey began.

Auto Industry Talks Begin

DETROIT (AP) — The United Auto Workers, armed with a list of demands that begins with "job security," meets with General Motors today to open this year's round of contract talks with the nation's auto industry. The UAW opens its annual negotiations with other car makers later this week as it begins the task of reaching new three-year accords covering 680,000 UAW and Canadian workers.

Storms Drench Central U.S.

By The Associated Press Thunderstorms spread today from the Upper Mississippi Valley, across the Northern Plains and into the Southern and Central Rockies. Isolated storms also hit parts of Louisiana and Eastern Texas and along the South Atlantic Coast.

WORLD IN BRIEF

U.S. To Give Thailand \$388 Million In Bases

WASHINGTON (AP) — Thailand, which ordered American military forces to leave, is getting \$388 million worth of U.S. built bases and base improvements for free. On the eve of the July 20 deadline imposed by Thailand for departure of virtually all U.S. military personnel, Pentagon officials said no attempt has been or will be made to get the Thai government to pay anything for the facilities that will be left behind.

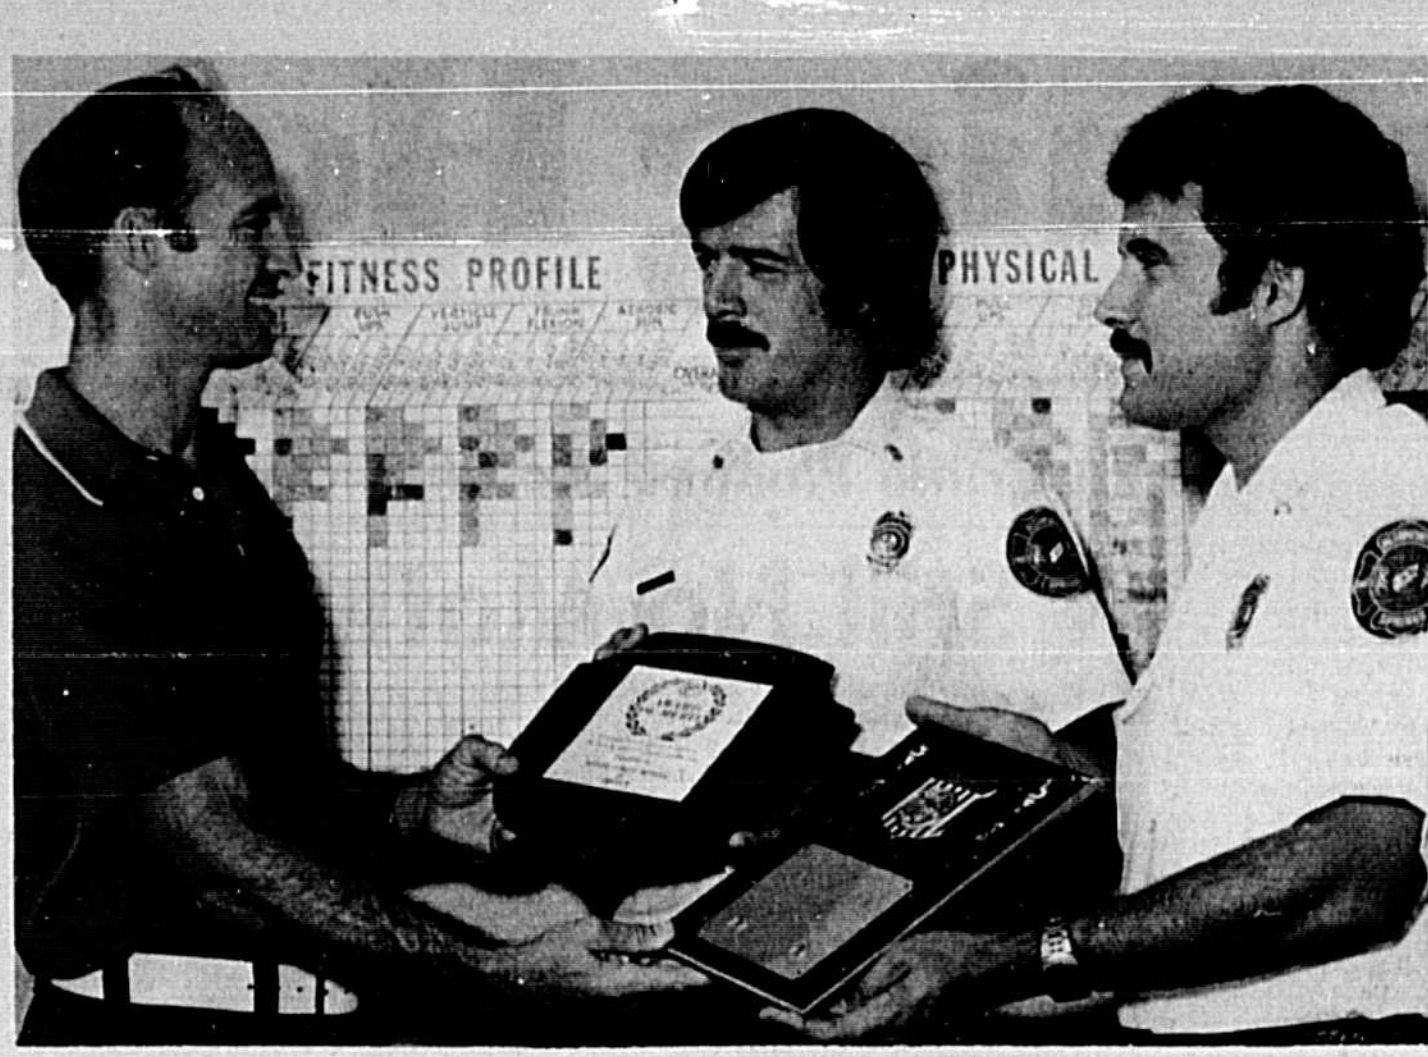

Evacuation Plans Detailed

BEIRUT, Lebanon (AP) — The U.S. Embassy announced today that evacuation plans for Americans and others from Beirut Tuesday would be by road convoy to Damascus. Chartered planes will fly the evacuees immediately from the Syrian capital to Athens, embassy sources in the Greek capital reported.

Angolan To Visit Cuba

MIAMI (AP) — Angolan President Agostinho Neto soon will visit Cuba, which sent at least 12,000 soldiers to help his forces overtake two Western-supported factions in the recent civil war, Radio Havana said. In a broadcast monitored today in Miami, Radio Havana said Neto was invited by Cuban Prime Minister Fidel Castro. The date of Neto's arrival was not released.

Stolen Auto Crashes Youths Jailed Following Chase

MIAMI (AP) — A 1966 Ford Mustang stolen from Altamonte Springs, Fla., crashed into a tree after a high-speed chase through the city, and the driver and passenger were jailed following the crash. The 12-year-old juvenile was arrested on the first-degree felony indictment on May 12 after being the object of a police search since May 2.

recks driving and attempting to flee and elude police. The 12-year-old was charged with possession of stolen property and turned over to Florida Division of Youth Services officials at the Sanford Juvenile Detention Center.

later determined to have been stolen at an Orlando residence earlier in the night, dinged a roadblock and was wrecked in a citrus grove off Green Acres Road in Seminole. The 12-year-old juvenile was apprehended at the accident scene and Apopka police took the 14-year-old driver into custody.

reckless driving and attempting to flee and elude police. The 12-year-old was charged with possession of stolen property and turned over to Florida Division of Youth Services officials at the Sanford Juvenile Detention Center.

Rep. Allan Howe Faces Trial On Morals Charge

SALT LAKE CITY (AP) — Rep. Allan T. Howe, accused of offering \$20 to two police deputies, goes on trial in City Court today, charged with the misdemeanor of soliciting sex for pay. The defense alleged prosecutorial misconduct occurred when said City Atty. Roger F. Cutler was quoted by newspapers as being critical of Howe following his arrest.

Pirates Kill Two On Boat

MIAMI (AP) — Two men aboard a disabled sailboat were shot and killed off the coast of Colombia early Sunday by what two survivors said were Spanish-speaking pirates, the U.S. Coast Guard reported today. Coast Guard CPO Ray Baker said the bodies of the victims were airlifted to Aruba and the survivors, picked up by the oil tanker Esso Lincoln, were being brought to that Caribbean island.

Tot Gets Baby Kangaroo

MIAMI (AP) — Three-year-old Todd Allen had hoped for a baby elephant, but says he isn't disappointed with his new pet, a friendly 7-month-old kangaroo. Todd's father, Phil Allen, education director at Crandon Park Zoo, brought the kangaroo home from the zoo about six weeks ago after its mother died. "We told Todd his daddy was bringing home a surprise and he said he hoped it was a baby elephant," Mrs. Allen says.

SBA Program Can Show Only One Success Many Subsidized Firms Failed: Study

MIAMI (AP) — Almost half of 80 minority-owned Florida firms which took part in a federal program to make them self-sufficient have gone out of business instead, the Miami Herald reported today. The program, run by the Small Business Administration, has closed during or after their participation in the program, the Herald said in its study.

The SBA program has attempted to help minority businesses in Florida by awarding contracts worth more than \$15 million in federal contracts, but some black contractors complain the contracts are awarded at such low prices that they can't make a profit. "We're beyond the SBA's assistance... the small profit we made wasn't worth it," says contractor William Williams, Tampa, head of Chan Mar Development Co. "I think the government is price-shopping minority companies right out of business."

Under the program, any federal agency may arrange for a contract to be funneled through the SBA to a minority-owned business without letting the contract for a bid. Contracts worth more than \$14 million have been distributed to minority-run firms across the country since the program began in 1967.

The program, run by the Small Business Administration, has closed during or after their participation in the program, the Herald said in its study.

The SBA program has attempted to help minority businesses in Florida by awarding contracts worth more than \$15 million in federal contracts, but some black contractors complain the contracts are awarded at such low prices that they can't make a profit. "We're beyond the SBA's assistance... the small profit we made wasn't worth it," says contractor William Williams, Tampa, head of Chan Mar Development Co. "I think the government is price-shopping minority companies right out of business."

Under the program, any federal agency may arrange for a contract to be funneled through the SBA to a minority-owned business without letting the contract for a bid. Contracts worth more than \$14 million have been distributed to minority-run firms across the country since the program began in 1967.

MIAMI (AP) — Almost half of 80 minority-owned Florida firms which took part in a federal program to make them self-sufficient have gone out of business instead, the Miami Herald reported today. The program, run by the Small Business Administration, has closed during or after their participation in the program, the Herald said in its study.

The SBA program has attempted to help minority businesses in Florida by awarding contracts worth more than \$15 million in federal contracts, but some black contractors complain the contracts are awarded at such low prices that they can't make a profit. "We're beyond the SBA's assistance... the small profit we made wasn't worth it," says contractor William Williams, Tampa, head of Chan Mar Development Co. "I think the government is price-shopping minority companies right out of business."

Ford's Son Jack Says Carter Debate Unlikely

HARTFORD, Conn. (AP) — President Ford's 24-year-old son Jack says he'd be surprised if his father would agree to debate Democratic presidential nominee Jimmy Carter. In a broadcast interview during the weekend, Jack Ford said he was confident his father would win the GOP nomination on the first ballot at the party's national convention beginning Aug. 16 in Kansas City.

Wilkins Successor Sought

SEATTLE (AP) — A search is underway for a successor to Hoy Wilkins, long-time executive director of the NAACP, even though Wilkins is talking at the idea of retirement, says Margaret Bush Wilson, board chairman of the group. Wilkins' successor probably won't be known until a September board meeting, she said. "We have a flexible timetable. The deadline for applications was June 17."

Canning Lid Shortage? Nobody Willing To Bet

By The Associated Press Government officials, manufacturers and consumers alike are keeping their fingers crossed and hoping that there won't be another shortage of canning lids this year. So far, however, no one is willing to predict what will happen. Previous shortages, caused by lack of materials, a failure of manufacturers to anticipate demand and hoarding by some Americans, prompted investigations by Congress and the Federal Trade Commission.

The crunch — if there is one — will come later in the summer when people actually start canning. The advance situation varies from state to state. "We anticipate no shortage," said a spokesman for the Pennsylvania Department of Agriculture, interviewed early in the summer. In contrast, a spokesman for the California Department of Consumer Affairs said he had surveyed stores and found "There's definitely a shortage."

Several factors may ease the problem. Inflation has abated and people have found that it is not always cheaper to grow and can your own food. The number of companies manufacturing canning lids has increased, meaning while, although a recent study showed that some of the new varieties are less efficient than the old standards. The USDA has several suggestions for avoiding problems with home canning. Among them: — Use jars made especially

for home canning. Do not try to substitute containers such as mayonnaise jars. — Do not use overripe food and do not pack the jars too full. — Do not use canned foods without any signs of spoilage. If the food smells funny, looks moldy or has some other unusual characteristic, throw it out. Don't taste it. — Boil home canned vegetables for at least 10 minutes before serving.

Arms Sales Fuel Beirut

When Christians in Beirut overran Moslem strongholds the probability of any meaningful Middle East peace negotiations receded further into the distance.

The bitterness of the fighting along Beirut's 35-mile-long confrontation zone, and the deep rifts that are opening among the Arab nations, are creating legends that will last for generations.

It is apparent that the recent meeting between Syria Prime Minister Mahmoud al-Ayubi and Egyptian Prime Minister Mandouh Saleh did little to ameliorate relations between these two countries.

Even if Saudi Arabia and Kuwait, sponsors of the effort to bring Syria and Egypt closer together, could use their economic muscle to force a Geneva-type conference, it is doubtful that Palestinians would attend. The Syrian invasion of Lebanon will not be forgiven easily.

Indeed the Palestinians vow that they are about to embark on a campaign of retaliation and revenge and they must be taken at face value. Their terrorism could explode almost anywhere in the world — at any airport, embassy or business.

Two forces are at work to salvage what can be saved from the situation. The Arab League is actively supporting a pan-Arab force that will have credibility among both Moslems and Christians. Because of the deep divisions among Syria, Egypt, Iraq and Libya, this appears to be an impossible task.

Another group is actively promoting the possibility of outside intervention — with France as the most lively prospect as a mediation force. However, French people do not appear to be eager to send troops, although their President Giscard d'Estaing, made the offer to do so during his bicentennial visit to the United States. And Palestinians oppose foreign intervention.

However, there is one consideration that deserves thought from those nations interested in calming hostilities in the Middle East. The quantity and the quality of the weaponry being employed in Lebanon, even by the smallest of the factions, is astounding. Arms not only cost a great deal of money, they also are available from only a relatively few sources.

If the Soviet Union, the United States, Western Europe and perhaps Israel made a concerted effort to choke off the military supplies funneled into Lebanon they will have done much to establish a climate in which fruitful peace talks could begin.

A Big Headache

One of the biggest headaches facing the Defense Department is the dispute between the Navy and its shipbuilders over settlement of contract claims.

The real problem involves two shipbuilders—Newport News and Litton Industries. They have been unwilling to settle their claims for what the Navy offered. Two other major shipbuilders—National Steel and Electric Boat, a General Dynamics subsidiary in Connecticut—have been willing to settle.

The shipbuilders claim they have been losing money because of long-term, fixed-price shipbuilding contracts that failed to allow enough for inflation. But one can ask whether they would have been seeking to renegotiate the contracts if they were making excess profits because of an overvaluation of inflation.

There are also claims because of cost overruns which the shipbuilders blame on Navy delays and change orders. These may have a sounder basis in equity than the claims for inflation. There have been management failures on both sides—by the shipbuilders and by the Navy. Whatever the outcome of the current dispute, the Navy should see to it that in the future its shipbuilding contracts are firm and fair, so that this kind of dispute cannot arise between the parties.

BERRY'S WORLD

WASHINGTON — The Bureau of Indian Affairs has treated the Indians so shamefully that it ought to be abolished.

This is the secret conclusion of the American Indian Policy Review Commission, which was established by Congress a year ago to investigate the federal government's mismanagement of Indian affairs.

The investigation grew out of a series of dramatic events, which began in November, 1972. As the voters were going to the polls, a coalition of Indian groups arrived in Washington to protest innumerable and timeless grievances.

They first occupied, then vandalized, then looted the building housing the BIA. They had discovered hundreds of file cabinets, which contained documentary evidence of the building, neglect and betrayal that have characterized the white man's treatment of the Indian. Angry, they spiraled the evidence out of Washington.

They later smuggled the evidence to us, and we wrote a series of columns. Then they presented the evidence to Congress, testifying how the Indians had been systematically robbed of their land, timber, water and mineral rights.

Now the Review Commission has confirmed the central facts. It is not pretending to issue a final report for several months, but its interim findings are detailed in a confidential

Around

The Clock

(Gita couple of hours a week that you could spare? Like kids? If so, you're desperately needed by one of 21 young fatherless boys in Seminole County.

Big Brothers program coordinator John Marinelli says 21 boys from the Seminole County area have applied to enter the program and now all they are waiting for is a man who will volunteer his time.

In order to become a Big Brother, a volunteer's background must be carefully investigated and he must be willing to spend two or three hours a week for a period ranging from nine months to a year.

Of every seven who apply to become Big Brothers, Marinelli said, "only one is accepted." He went on to say that his group wants to be sure that volunteers are stable and established in the community.

Big Brothers concentrates its efforts on fatherless boys who come from a home with no male influence.

These youngsters are crying out for love and attention. Can you help? If you're interested in becoming a volunteer, contact Marinelli at the Big Brother's office in Orlando, 60 W. Robinson Street, telephone 422-3197.

As is always the case every Leap Year, we are skipping the telecasts of the Olympic Games. (Did you realize that the games always fall on the year when there are 29 days in February?)

However, we think it's a crying shame that so much politics has again entered into this great spectacle, marring its image before the entire world.

No one yet knows exactly how many teams have dropped out of the Games over the dispute between host Canada and Taiwan and another between New Zealand and some countries sympathetic with certain racial causes.

Why should such a sad thing happen? Why should these athletes, who have prepared for years, some for their entire lives, be deprived of the privilege and honor of competing in these great Games just because a few stupid politicians can't

come to an agreement like men? It all started when Taiwan insisted its athletes be permitted to compete under the banner of the Republic of China and Canadian Olympic officials refused.

Wonder what we would have done if someone told our athletes they wouldn't be permitted to compete at the U.S.A.?

It's so ridiculous it hardly seems worth mentioning. However, we wonder now if the XXI Olympic could be truly classified as The Olympics?

Many other nations pulled out after Canada refused to oust New Zealand, which had permitted one of its rugby teams to compete in South Africa recently. South Africa, you know, practices racial discrimination and many African nations wanted the New Zealanders tossed out.

When that didn't happen, many of the African nations and their sympathizers pulled out stakes and went home, depriving their great athletes of an opportunity to take part in this, the greatest sporting event the world has ever known.

One of these days, these pig-headed politicians are going to wake up to the fact that people are tired of their constant meddling. — Bill Currie

MIAMI (AP) — The new chief of the Florida Bar says he's trying to shake up the legal profession to make it easier for people to find the right attorney when they need one.

"Some attorneys don't yet know the public doesn't know they're well, the names are in the phone book. As if that were enough," says Edward J. Atkins, a Miami attorney.

Atkins, recently elected president of Florida's 19,300 attorneys, says advertising by lawyers would be one way to improve access but the ads should carefully define an attorney's special field of interest or skills.

"I don't want hucksterism," Atkins says, "where an attorney says come see me because I just won a million-dollar verdict, but I want information for the public."

TALLAHASSEE (AP) — Florida prison inmates will soon repair auto, process meat and vegetables and even make fence posts under an expanded industries program, prison officials say.

The Department of Offender Rehabilitation (DOR) has devised the new work program under orders from lawmakers who charged that many prisoners do nothing but lie in their bunks all day.

The plan, which will be reviewed by DOR Secretary Louis Wainwright this week, will be funded this year by \$3 million appropriated by the legislature.

By The Associated Press At least nine persons died in traffic mishaps on Florida roadways during the weekend including two men who were killed when the pickup truck in which they were riding smashed into a tractor-trailer truck, the Florida Highway Patrol said early today.

The big rig had plowed into a car which had hit a bridge north of Chipley and came to a stop in the roadway, state troopers said. The trucker had set out flares and was calling for help on his radio when the pickup roared up. The trucker and the driver of the car ran for safety and were unhurt when the pickup hit the wreckage, troopers said.

Qualifying Ends Today TALLAHASSEE (AP) — Public Service Commissioner Paula Hawkins' qualifying for re-election today is expected to complete the fight for contested statewide races this year — barring any unexpected entries from her.

However, surprise candidates are not unusual as office-seekers pack the Elections Division office before qualifying ends at noon Tuesday.

TOM TIEDE

Carter Foes At Work

WASHINGTON — Jimmy Carter is about to find out that his first 18 months of presidential politics were the easiest. All he has had to do so far was weather a Democratic fusillade against his ascent, his ideas, his birthplace and his religion. Now comes the real fight, with the meanest, roughest, most convincing and shameless assault force in politics: the Republicans.

It's no telling if Carter is ready, but the GOP is for months a team of sewer-sweeping young people from the Republican National Committee has been searching under every rock in Georgia for Carter dirt. The task force, reminiscent of the Republican organizations which institutionalized Watergate, has compiled a roomful of anti-Carter information which in weeks to come will be released to the public through leaks, whispers and official indignations.

The material is said to be largely an accumulation of alleged contradictions in Carter's statements and activities. For example, the task force gleefully notes that Carter, who crosses about morality in government, was so friendly with Spiro Agnew that in 1973 he personally urged the former vice president to stay in office despite charges of corruption against him. This story is not new, Carter having admitted it on several occasions. But drawn up in documented form, Republicans feel it might negatively impress the voters.

As for this small caliber ammunition, the RNC snoopers have reportedly uncovered what in essence are smoking guns. Details are secret, but one Republican familiar with the gunboat operation hints that Carter is most vulnerable regarding federal subsidies for his peanut farm operation. The Republican says the taxpayer cash has been substantial and wonders aloud "if it's not just possible Jimmy had become a millionaire the easy way." And he adds: "His business may have also prospered by his term as governor."

There are uncounted other nasties as well. Religious. Social. Political. Republicans have gathered a particularly large amount of information concerned with Carter's stormy relations with the Georgia legislature in 1971-1972. "We have concentrated on the years of his public life," the Republican official says, "but we have also gone back to his Navy days and before. I've only seen a small part of the data, but even that has been, well, very revealing."

Revealing, perhaps. But of whom? Four years after Richard Nixon's Communist Party Elect the President cut itself a special path in the political subterranean, imaginative GOP officers are again showing themselves to be somewhat like raven fish by moonlight; they shine but they stink. Accentuating the negative is politics at its worse. Subtle hints of an opponent's evil is moral mugging. Organizing a task force to fashion character assassinations is, at this point in time, a slap at public tolerance.

It should be noted that the Republicans deny any impropriety, and there have been heard this before, on the grounds that attacking the enemy is a traditional election year tactic.

Being appointed, such a group might easily exhibit more concern over the desires of their appointor than the populace they have been appointed to serve.

Records of such boards not infrequently reveal a lack of responsiveness and concern to public feeling. Even, woefully, an apparent determination to perform as they please, or are directed by influential vested interests, regardless of the potential harm they may nurture.

To date the St. Johns River Water Management Board's activities seem as pointed as the offer of a bandaid to the man whose throat is slit from ear to ear. We are not trying to prevent possible harm to our river. . . we are supposed to be attempting to arrest a well-developed course of destruction which must be reversed if indeed the distressing situation is still reversible!

The Directors of this organization must therefore place the responsibility for the rescue of our River squarely where it belongs. . . on you, the appointer. We shall observe with interest and trepidation all future activities of "Your Board, and report 'your' progress to all Friends of the St. Johns everywhere.

J.J. Turnipseed, President Friends of the St. Johns Sanford

Letters to the editor are welcomed for publication. All letters must be signed, with a mailing address and, if possible, a telephone number so the identity of the writer may be verified. The Evening Herald will respect the wishes of writers who do not want their names in print. The Evening Herald also reserves the right to edit letters to eliminate libel or content to spare requirements.

Sanford, Fla. (AP) — A 28-year-old Charlotte, N.C., woman charged with killing a state trooper and a visiting Canadian constable says she's confident she will be acquitted.

"I feel very confident, I really do," Mrs. Sonia Jacobs Linder said before a weekend recess in the trial. "I know it's all going to come out all right."

Mrs. Linder, whose trial was to continue here today before Circuit Judge Daniel Pritch, is charged in the shooting deaths of state trooper Philip A. Black and Ontario, Canada, constable Donald Irwin, a friend of Black's.

MAHARATHON (AP) — Florida's two-day season for divers seeking the spiny lobster topped competition from commercial fishermen open Tuesday, the state Marine Patrol says.

At one minute past midnight, the lobsterers with horns on their backs but no claws may be snared with traps, buckets and just about anything else except trawls or spear guns, and the Marine Patrol said.

"As long as you're not pulling them out of traps or out of their shells" you're probably legal, said Marine Patrol Lt. Tony Casenelli.

DON OAKLEY

Consumer Victory Is Costly

As if Americans were not already displaying an increasing propensity for suing each other at the drop of a tort, the U.S. Supreme Court has now given them the right to sue an airline if it bumps them out of a flight for which they have a reservation.

In the case in question, Allegheny Airlines made the mistake of doing just that to a fellow named Ralph Nader, who is not known for suffering corporate highlandness in silence.

The airlines, of course, did not start the case. It was Nader who filed suit because they like to push customers around. It was because a lot of people apparently hedge their travel plans by making multiple reservations with two or more airlines to assure themselves of a seat with one of them. Since there is nothing to stop them from continuing to do this, the consequence presumably will be more empty seats on more flights and less revenue to the carriers, and somebody will have to pay for it.

Mr. Nader has thus scored another victory for the ordinary consumer, but like all his previous victories, it is going to cost the ordinary consumer.

The same is true with all kinds of personal injury litigation: Somebody has to pay the bill — first, the sued airline or manufacturer or municipality or insurance company, but ultimately and always the fee-paying, tax-paying, premium-paying private citizen.

This is nowhere more obvious than in the area of automobile and property insurance. Quarter-million-dollar court settlements are not uncommon today, says DeForest W. Abel Jr., president of Amicus Mutual Insurance Co., the nation's oldest mutual insurer of automobiles. With an average premium payment of \$300, just one such settlement consumes the entire annual premium payments of more than 833 policyholders.

"The fact that juries seem to overlook the effect of the granting of excessive awards will have on insurance rates is an interesting sociological phenomenon," he says.

The A.M. Best Co., independent insurance analysts keeping tabs on industry performance, estimates 1975 property and casualty underwriting losses at nearly \$4.2 billion, with the industry paying out nearly \$18 billion in claims and expenses for every \$100 earned in premiums.

Some 30 insurance companies, including several major ones, have gone bankrupt in the past two years, a mass insolvency of a magnitude not seen since the Depression. Only an improving stock market, in which the companies have invested their reserves, kept the number from being larger.

We are truly in an age of insurance, as well as an age of litigation.

The National Flood Insurance Act of 1968 established the right of property owners in flood-risk areas to insurance, which previously was either unobtainable or obtainable only at high rates. Flood insurance is now federally reinsured from tax money because private companies cannot afford to underwrite it and stay in business.

The trucker had set out flares and was calling for help on his radio when the pickup roared up. The trucker and the driver of the car ran for safety and were unhurt when the pickup hit the wreckage, troopers said.

Qualifying Ends Today TALLAHASSEE (AP) — Public Service Commissioner Paula Hawkins' qualifying for re-election today is expected to complete the fight for contested statewide races this year — barring any unexpected entries from her.

However, surprise candidates are not unusual as office-seekers pack the Elections Division office before qualifying ends at noon Tuesday.

Mrs. Hawkins, the highest-ranking elected Republican in the state, piled up more than a million votes in her election to the PSC in 1972, when she campaigned as "a housewife from Maunula."

MAHARATHON (AP) — Florida's two-day season for divers seeking the spiny lobster topped competition from commercial fishermen open Tuesday, the state Marine Patrol says.

At one minute past midnight, the lobsterers with horns on their backs but no claws may be snared with traps, buckets and just about anything else except trawls or spear guns, and the Marine Patrol said.

"As long as you're not pulling them out of traps or out of their shells" you're probably legal, said Marine Patrol Lt. Tony Casenelli.

FLORIDA IN BRIEF

New Florida Bar Chief Favors Lawyer Advertising

MIAMI (AP) — The new chief of the Florida Bar says he's trying to shake up the legal profession to make it easier for people to find the right attorney when they need one.

"Some attorneys don't yet know the public doesn't know they're well, the names are in the phone book. As if that were enough," says Edward J. Atkins, a Miami attorney.

Atkins, recently elected president of Florida's 19,300 attorneys, says advertising by lawyers would be one way to improve access but the ads should carefully define an attorney's special field of interest or skills.

"I don't want hucksterism," Atkins says, "where an attorney says come see me because I just won a million-dollar verdict, but I want information for the public."

TALLAHASSEE (AP) — Florida prison inmates will soon repair auto, process meat and vegetables and even make fence posts under an expanded industries program, prison officials say.

The Department of Offender Rehabilitation (DOR) has devised the new work program under orders from lawmakers who charged that many prisoners do nothing but lie in their bunks all day.

The plan, which will be reviewed by DOR Secretary Louis Wainwright this week, will be funded this year by \$3 million appropriated by the legislature.

By The Associated Press At least nine persons died in traffic mishaps on Florida roadways during the weekend including two men who were killed when the pickup truck in which they were riding smashed into a tractor-trailer truck, the Florida Highway Patrol said early today.

The big rig had plowed into a car which had hit a bridge north of Chipley and came to a stop in the roadway, state troopers said. The trucker had set out flares and was calling for help on his radio when the pickup roared up. The trucker and the driver of the car ran for safety and were unhurt when the pickup hit the wreckage, troopers said.

Names Qualify JoAnn Saunders

JoAnn Saunders, Democrat candidate for the U.S. Congress in the 5th District Florida, has been notified by the eight Supervisors of Elections in the 5th Congressional District that she has more than enough valid signatures on her petitions to qualify as a Democrat candidate.

To qualify by the petition method in the 5th District a candidate must accumulate 8,338 valid signatures which is five per cent of the 166,760 registered Democrats that reside in the 5th Congressional District.

JoAnn Saunders was to sign the Candidate's Oath in the Secretary of State office in Tallahassee today, making her the first Congressional candidate in Florida history to qualify by the petition method.

"I am pleased that so many people in the 5th District had faith in my ability to represent them in Washington and signed my petition. I am calling on all Democrats in the 5th Congressional District of Florida to unite behind me so we can return government to the people where it belongs and provide the people of the 5th District with sincere, honest representation in Washington."

JoAnn Saunders' quarterly report to the Federal Election Commission shows

Romania's Nadia Comaneci Chalks Up A 'Ten'

Gymnast's Perfect Score Sparks Russian Protest

By BOB GREEN
AP Sports Writer
MONTREAL (AP) — The American men swept their swimming event, the East German women dominated their and the Russians started a fuss. All were more or less expected in the first full day of competition in the Olympic Games, but the perfect performance by an 88-pound, 4-foot-11, teenage Romanian girl couldn't be anticipated. It'd never happened before.

And that's what started the fuss.

Larissa Latynine, the Russian coach whose charges normally dominate gymnastics, tossed a disgusted look at the judges who had awarded little Nadia Comaneci a perfect score of 10 for her performance on the uneven parallel bars in the compulsory exercises.

"I question the performance," said the Russian coach, obviously seeing major competition for her stars, Ludmila Tkotrichova and Olga Korbut.

"I can see a 9.5, but it should not have been a 10. There were some flaws. It was not perfect," the Russian coach said.

The judges said otherwise. And the perfect-faced 15-year-old marvel who achieved the Olympic's first perfect performance agreed. "I knew it was a 10 all

the way," she said.

She responded to the ovation with a shy little smile, a rare occurrence for Little Miss Stoneface, returned to the podium and let waves of sound and adoration wash over her.

But while the Russians may have taken a setback there, they picked up two of the five gold medals awarded in Sunday's first day of competition; the Americans scored a 1-2-3 sweep in the only men's swimming event, the East Germans got two golds — one their first ever in women's swimming, the sport they're expected to dominate in the quadrennial Games that run through Aug. 1, and the American basketball team won handily.

Mike Bruner, easily spotted by his shaved head that let the sweep in the only men's swimming event, the East Germans got two golds — one their first ever in women's swimming, the sport they're expected to dominate in the quadrennial Games that run through Aug. 1, and the American basketball team won handily.

Mike Bruner, easily spotted by his shaved head that let the sweep in the only men's swimming event, the East Germans got two golds — one their first ever in women's swimming, the sport they're expected to dominate in the quadrennial Games that run through Aug. 1, and the American basketball team won handily.

It was just sheer joy to see it."

The Americans' only other medal came as a poor second — some 10 yards back of the East German women's world record 4:07.55 in the 400-meter medley relay. Shirley Babashoff, Fountain Valley, Calif., swimming the freestyle leg, won a duel with Canada's Anthea Jardin, to give the United States the silver.

"I'm sure Russia has to be awed with what they say today," said center Mike Kupchak of North Carolina, who tossed in 10 points. Adrian Danley of Notre Dame scored 20 and Scott May of Indiana 18 as the Americans ran up a lead that reached 30 points at one time.

"I was surprised with the ease with which we won," said Coach Dean Smith.

The Russians were unmoved, however, and rolled over Mexico 128-77.

In another game, Czechoslovakia whipped Egypt 103-64. The Egyptian players took the court just moments before their government in Cairo ordered the team home, making it the 27th to pull out of these politically-plagued Games.

Most of them, more than 20 African nations, went out Saturday in protest of New Zealand's participation. They have objected to a New Zealand rugby team's tour of racially-segregated South Africa. Guyana became the first Western Hemisphere team to pull out Sunday.

The International Olympic Committee was meeting Monday and the possibility of sanctions against the teams that withdrew was a likely topic for conversation.

The Russians picked up their two golds in 100-meter freestyle and 100-meter butterfly, the women's 100-meter freestyle and 200-meter butterfly, men's 100-meter backstroke and 200-meter freestyle, and 300-rifle and another weightlifting final.

IOC Discusses Sanctions Against Boycott Nations

MONTREAL (AP) — The future of the black African countries in the Olympic Games was at stake today as the International Olympic Committee (IOC) met to discuss sanctions against the nations that have walked out of the Montreal Games.

The 27 nations in the boycott have created a situation without precedent since the Olympics began in 1896. But only those of them are subject to disciplinary action under IOC rules.

Disciplinary action could be taken against those countries whose athletes had already been drawn in their events. Africans involved in boxing and soccer are liable to be dealt with.

The countries that boycotted Saturday's opening ceremony have committed no offense against the rules.

"We cannot compel anybody to march in the parade," an IOC spokesman said. "They are simply invited to do so."

But Zambia was scheduled to meet Spain in soccer on the first day. The game was a sellout, and had to be canceled.

And boxers from Nigeria, Zambia, Egypt, Uganda, Kenya and Upper Volta all figured in a draw which had been made prior to the walkout. The IOC could take action against the national Olympic Committees of all those countries.

Sanctions could take one of three forms: —Permanent expulsion from the Olympic movement. —Temporary suspension. —Withdrawal of aid under the IOC's Solidarity Program, which uses revenues from television at the Olympic Games to finance courses in coaching and scholarships in sports administration around the world.

The rebel African countries, joined now by Guyana in South America, staged the walkout after the IOC had refused a demand for a ban on New Zealand. The Africans are in revolt because New Zealand sent a rugby team to segregational South Africa.

Lord Killanin, president of the IOC, anticipated such troubles before the Games began. He issued a warning, which has been sent twice this year to all national Olympic committees, that strong action would be taken against anyone entering athletes in the Olympics and then withdrawing them.

"Nobody is compelled to take part in the Olympics," Killanin said. "But those who do come and enter must obey the rules."

(Only two national Olympic committees have ever been permanently expelled — South Africa and Rhodesia, both condemned for racist policies in sports.

B.A.S.S. Fishermen Hold Tournament Here

By BOB BORELL
Herald Outdoor Editor
Fishermen from all parts of Florida convened at Lake Monroe Harbor Saturday and Sunday to compete in the two-day tournament held by the Bass Angler's Sportsmen Society. In spite of the 97 degree heat wave, the bass men brought in a total of 745 pounds of fish.

According to club rules, all fish which were able to survive were released. In this case, 90 per cent of the catch was returned to live and fight again.

Due to the excessive heat, this was a very low figure,

Sanford All-Stars To Play S. Daytona

ORMOND BEACH — Sanford's American League All-Stars, still recovering from last week's subdistrict triumph at Clermont, will take to the road again today in quest of victory in the Florida Little League District tourney.

Sanford plays South Daytona Beach at 10 a.m. following the 9 a.m. encounter between Ocala and St. Cloud. The district tourney is a double-elimination affair and will conclude with the Sanford team in the month of Pensacola.

The winner from the District advanced to the State Tournament later in the month at Pensacola.

Sanford Manager Mike Rotundo is expected to start pitcher Chip Saunders in tonight's opener.

Carty Hits Net Win For Indians

By The Associated Press
Yogi Berra must have been right when he once wondered how a guy could hit and think the same time. Rico Carty, you see, does both ... but not at the same time.

Four or five times a game, Carty wields his big bat as Cleveland's designated hitter, with an occasional turn at first base. But most of the time when the Indians are in the field he's only a spectator.

"You have too much time to think on the bench," Carty said Sunday after leading the Indians to a 6-1 triumph over the Minnesota Twins with a pair of two-run homers and a single.

"I know the designated hitter rule has probably kept me in the game, but I don't like it."

Carty's scoring display powered the fifth off from Baltimore and Detroit into a slugfest in the American League East ... but 11 games behind the New York Yankees, who lead the Texas 3-2 in 12 innings as the Houston Astros losing.

Elsewhere, the Kansas City Royals dumped the Boston Red Sox 6-3, the Oakland A's battered the Detroit Tigers 10-1, the California Angels ousted the Baltimore Orioles 4-0 and the Chicago White Sox clubbed the Milwaukee Brewers 12-2.

The 35-year-old Carty blasted his first homer in the third inning of Jim Hughes and belted his second, the fifth off from Steve Hargrad, in the fourth to get him out until Burginier fanned him in the seventh.

Who's Carty? He's a power-hitting slugger with the power with his ninth and 10th homers and boosted his average to .301, reliever Stan Thonson, who has been used almost exclusively as a reliever since joining the team in July during the 1974 season, allowed eight hits and struck out seven.

As for Tigers 10-1, Don Baylor and Sal Bando drove in three runs apiece and Gene Tenace hammered for Oakland while Paul Mitchell and Paul Lindblad teamed up to pitch a seven-hitter. Oakland broke open a 1-1 deadlock with a four-run fifth inning as Baylor doubled home the first two runs, Joe Hudl singled Baylor home and Bando hit an RBI double.

Angels 4, Orioles 4
Dave Collins singled home the tie-breaking run in a sixth-inning rally and Tony Solaita drove in at least two runs with a homer and single as California overcame four RBI by Baltimore's Reggie Jackson, including his 11th homer, a three-run blast that gave the Orioles a 4-1 lead in the fifth inning.

White Sox 12, Brewers 3
Lamar Johnson's aligned pair of upper deck homers — one his first homers of the season — and Kevin Bell and Bill Stein added three-run homers to power Chicago over Milwaukee ace Bill Travers.

Johnson's first home run came in the opening inning, with two men aboard and, after Bell hit his fifth homer in the second inning, Johnson blasted another to kayo Travers.

Firestone VIP VACATION CAR SERVICES

Very Important Protection at Very Inexpensive Prices!

VIP CAR SERVICE means...

- ✓ Dependable car service. Free car inspection.
- ✓ Written warranties on all guaranteed products and services.
- ✓ Only services you authorize, performed at your convenience.

Scott, Shula Feud Cooling

MIAMI (AP) — Five-time All-Pro safety Jake Scott says he may play for the Miami Dolphins of the National Football League this season after all because his feud with coach Don Shula is cooling off.

"There's always a chance of reconciliation," Scott said Sunday as he and 21 other veterans reported to the Dolphins training camp and raised the team roster to 77. "I hope it works out that way. We'll just have to wait and see."

Scott, 28, fell at odds with Shula last summer when he skipped a team awards banquet. Two games into the season Shula benched him in the contest against New England, believing Scott was having difficulty with a troublesome knee.

An irate Scott confronted Shula at the half, and Shula put him back in the game. But their relationship deteriorated further during the season. Scott finally demanded during the offseason to be traded.

"There were points in our relationship last year that I'd have been willing to go to Japan or Canada," Scott said at a press conference. But he added that he and Shula conferred over the weekend and are on amicable terms now.

"We were able to talk to each other with respect," he said. "Up to Saturday, there have just been harsh words and some raised voices."

Shula confirmed the ceasefire.

"I told him we will live up to our end and he's expected to live up to his end of his contract," Shula said. Scott's contract, with three years left, is believed to be worth more than \$100,000 annually.

Two Bucs Players To Quit Pro Ball

TAMPA (AP) — The Tampa Bay Buccaneers roster dropped after two veteran defensive linemen announced they are retiring from professional football.

Pete Durako, an eight-year pro with the Denver Broncos, and Steve Chomyscak, a long-time Cincinnati Bengal, made their announcements Sunday.

Durako had joined the Bucs as a free agent after missing play last year because of a foot injury.

"He didn't make a statement on why he's retiring, but I think he felt he wasn't going to make the team," a Bucs spokesman said.

Also retiring was Steve Chomyscak, who left Cincinnati in 1974 to play for the now-defunct Philadelphia Bell of the World Football League. He reported to Tampa after two years but saw no action and came to Tampa as a free agent.

The Bucs also announced four new defensive linemen: Mitch Sutton, a free agent who played for the Philadelphia Eagles after being drafted out of the University of Kansas; running back Larry Martinez, a rookie free agent who played for Duke; tight end John Taylor, a free agent who had played for Baltimore and Santiago; and wide receiver Lawrence Williams, who was obtained in the veteran trade allocation from the Kansas City Chiefs where he had played one year after being traded by the New England Patriots.

Pep Talks Boosts Graham to Victory

DAVID GRHAM, N.Y. (AP) — David Graham felt a little better despite a four-shot lead in the \$300,000 Westchester Golf Classic.

So, the 30-year-old Australian gave himself a little pep talk. "Why should I think negative or be nervous or scared," Graham said he asked himself before Sunday's final round. "After all, the reason I came here was to play well. I was here to win. I was doing what I should be doing. I came to play and had as good a chance as anybody."

The little self-psychic job worked just fine. Graham went out Sunday, shot a par 71 and completed a 72-hole score of 15 under 272 to win the rich Westchester by three strokes. He collected \$60,000 in his effort.

And to make the triumph even sweeter, Graham won with a set of clubs he designed himself.

It wasn't easy. The Westchester was a designated event on the tour. That meant that all the stars had to play. With the exception of Lee Trevino, they were all at Westchester Country Club — Jack Nicklaus, Halcyon Miller, Ben Crenshaw, Albert Green, Ben Crenshaw, Al Geiberger and others.

"I don't think I've ever felt better," said Graham, who now makes his home in Hollywood, Fla. "This was a big tournament from both a prestige and financial standpoint. It was my first win on national television."

Graham, whose only other victory on the U.S. tour was at Cleveland in 1972, never trailed in the four-day tourney. He shot eight-under-par 63 in the first round to the Carlton White. He led White, Mike Winn and Larry Ziegler by four strokes after a second-round 68, and maintained that margin with a third-round 70.

Sunday, Graham had his lead cut to two after nine holes, but he maintained his steady play. Winn, Fuzzy Zoeller, Tom Watson and Ben Crenshaw rallied — but fell short. When it was over, Graham had a three-stroke victory over Zoeller, Watson and Crenshaw, who finished with a 39-hole eagle putt. The second place trio were at nine-under 275.

Miller, who last week won the British Open, shot an eagle round 72 to finish seven strokes back at 279, along with defending champion Gene Littler.

What Else But Peanuts?

Pie Recipe Goes To Mrs. Carter

ROSALYNN CARTER

By DORIS DIETRICH
Herald Correspondent
Mrs. Jimmy Carter
Plains, Ga.

Dear Rosalynn,
From one rebel to another, the possibility of a southern belle reigning as the nation's first lady is thrilling beyond words.

It was with regret that we had to miss the party given in your honor by Mr. and Mrs. Everett Huskey when you made a campaign sweep of Central Florida in your husband's behalf.

I must admit when the invitation came over the telephone, I was among the ones who questioned "Mrs. Jimmy Who?"

After the tiring campaign you are to be commended for your poise and composure on television on the big night. The south came through with flying colors and your southern drawl was as thick and wholesome as all things — peanut butter.

Since you presently plan a much-deserved rest at home in Georgia, you will probably be in the throes of testing the culinary arts for your family. It is with pleasure that I enclose a recipe which I hope your family enjoys. By chance, do you all make your own peanut butter? The recipe calls for smooth peanut butter, but the crunchy type works nicely.

This delightful delicacy requires no cooking. Happy dining to you, Jimmy and the peanut gallery.

PEANUT BUTTER PIE
3-inch graham cracker crust

8 oz. pkg. cream cheese
2 cups confectioner's sugar
1 envelope Dream Whip
1 cup smooth peanut butter
1 cup crushed peanuts

Make graham cracker crust according to package directions (use a ready-made crust). Soften cream cheese and gradually beat in sugar with electric mixer until light and fluffy. Beat in peanut butter. Mix Dream Whip according to package directions and blend into mixture. Pour into crust and top with crushed peanuts. Refrigerate for several hours before serving the yummy concoction.

Bride's Book

Horton-McFadden

Nuptials Spoken

Mrs. James I. Horton III

Gayle Elizabeth McFadden and James Lawrence Horton III were married July 17 at Orange Park Presbyterian Church. Dr. Aaron N. Meckel was the officiating clergyman at the 7:30 p.m. candlelight and double ring ceremony.

The bride is the daughter of Charles William McFadden and the late Mrs. McFadden of Orange Park. Mr. and Mrs. J.L. Horton Jr., of Orange Park are the bridegroom's parents.

Mrs. J.L. Hetherington was organist. Mrs. Robert Olson who sang at the bridegroom's parents wedding was the soloist.

Given in marriage by her father the bride chose for her vows a formal gown of silk organza embellished with floral lace appliques. The attached train terminated in a chapel sweep.

Her fingertip veil of illusion was secured to a camelot headpiece accented with seed pearls and lace appliques matching the gown. She carried a nosegay of white carnations with white sweetheart roses and baby's breath. Cheryl Dawn Horton was the bride's only attendant. She wore a pale blue gown, fashioned along the empire silhouette and trimmed in navy lace. She carried a miniature nosegay of blue carnations and white sweetheart roses.

The father of the bridegroom served as best man. Ushers were Randy Stone and Robert Crittenden.

The bride's parents entertained in the church Fellowship Hall at a reception immediately following the ceremony. Following a wedding trip to Atlanta, Ga., the couple will make their home in Jacksonville.

Will Real Mom Please Stand Up?

By ABIGAIL VAN BUREN

DEAR ABBY: Six years ago I married a divorced man whose sons came to live with us because their "real" mother thought they would be better off with their father. (They were then 11 and 13.)

I love these boys and think they feel some affection for me,

yet on Mother's Day they always remember their biological mother with flowers, and I don't even get a card. In six years I've done a ton of laundry, mended their clothes, cooked for them, shopped for them and spent hundreds of hours chauffeuring them around. I've nursed them when they were sick and listened to their troubles. I lectured them about sex and drugs, instilling in them decent moral values. I couldn't have done more had they been my biological children.

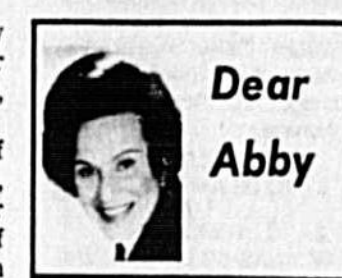

Their "real" mother has had very little time for them. She never took them on a trip or asked them to spend a holiday with her. (She phones occasionally and makes plans to be with them, but if something better comes along, she cancels.)

I think stepmothers deserve a little recognition on Mother's Day. Just because we didn't bear the children doesn't mean we don't feel like "real" mothers. It would be kindness to ask stepmothers if you like print this.

HURT ON MOTHER'S DAY
DEAR HURTY: I have long held the view that giving birth to a child doesn't make a woman a mother any more than owning a piano makes a person a musician. But the woman who takes a child into her home because she wants to and raises that child with love and understanding is, in every sense of the word, a "real" mother.

DEAR ABBY: I have a severe hearing loss. Six years ago I bought a hearing aid and experimented with it for a long time. I finally gave it up because it magnified background noises I had not heard for years and was more annoying than hearing at all.

My family criticized me for not wearing my hearing aid, but I've trained myself to read lips and find it much more to my liking. I do miss a lot at social gatherings as I can listen to only one person at a time, but I've learned to live with that, too.

Dear Abby

Sometimes I feel that I'm better off if I don't bear everything that goes on. DOING ALL RIGHT
DEAR DOING: Hoary for you! Not everyone who has a hearing loss feels severely handicapped.

DEAR ABBY: We are a young couple expecting our first child in two weeks. Our best friends had their first child (a boy) and they named him the very name we had chosen for our baby! We know they got the idea from us because when we told them the name we liked for a boy, they both agreed it was a great name.

We felt obvious resentment when we found out they used our name. Our question: The other couple will probably feel obvious resentment now if we name ours what we had planned to, but would we be showing poor taste toward our friends in doing so?

NAMELESS IN OKLAHOMA
DEAR NAMELESS: Go ahead and use the name you like. Surely the world is big enough for two boys with the same name. And there's always the chance that yours will be a girl.

DEAR ABBY: I have a severe hearing loss. Six years ago I bought a hearing aid and experimented with it for a long time. I finally gave it up because it magnified background noises I had not heard for years and was more annoying than hearing at all.

My family criticized me for not wearing my hearing aid, but I've trained myself to read lips and find it much more to my liking. I do miss a lot at social gatherings as I can listen to only one person at a time, but I've learned to live with that, too.

Designer Aimbez: 'I Don't Compromise

By ELLIE GROSSMAN
The Herald Services

NEW YORK — "I started out with extreme styling that only 10 per cent of the population would buy but that's not what I want. If you're on Seventh Avenue you need to succeed as a manufacturer. Still, I don't compromise. You don't see a basic tailored shirt in my line or an A-line skirt because a woman has a thousand of these in her closet. She doesn't need one to design them for her."

What Gil Aimbez does dream up for the Genre label — at a maximum cost of \$100 — are simple, innovative clothes, many cut square and loose. For summer, there are U-neck sundresses with toggles at the shoulder in crinkle cloth, wrap skirts, aprons, square sleeve big tops, trousers, shorts, jumpsuits and caftans in "no-colors" such as plum, apricot and yellow to meld with lots of other colors as well as the plaid he designed exclusively for them.

And there's his sense of humor. That harem jumpsuit in paper-thin cotton spreads out to the dimensions of a sheet. "You can wear it to the beach and use it as a blanket," he says. He's a comer, this short, friendly 35-year-old. "People say to me, you're that old!" And in the year and a half that he has been designing for Genre, his work has been featured in the magazines that matter and Women's Wear Daily. Three times in one week in the latter, although he admits laughing, the last mention was to correct a caption attributing his clothes to someone else.

In the workrooms behind the showroom at Genre, where employees look up and smile, there are stacks of cardboard boxes labeled "Gil's ideas." "I try to learn from my mistakes," he says, smiling. "I save charts of the past season to see what worked and what didn't. In my apron dress, for instance, I changed to shoulder buttons because I found women didn't like to pull it over their heads."

He has a library of books for stimulation and he considers what he does designing through clothes. "I conceive an idea, then look for a fabric to meet that design. This spring I did a motorman's coat, double breasted, with a drop shoulder, very soft in imported linen. It's part of my workman's compensation group — cotton-blend clothes in railroad stripes and it was inspired by a book from the 1900s.

"I like to mix patterns and all my things are designed to work together — stripes and floral prints, for example." And they'll better be made properly because he won't compromise with execution. "I once sent back 365 shirts because I didn't like the way they were made. What you see

The weekend by Gil Aimbez for Genre requires no sulface. Just wear it all — tunic jacket, zip front capped sleeve vest, baseball cap, drop shoulder stand collar shirt.

In the showroom is exactly what you get in the stores. And if there are problems and we have to switch a fabric or something I insist on sending out letters."

One of 13 children born to a Filipino school-teacher and a Japanese mother in Los Angeles, he was a fussy child. "I didn't have much but I wanted it to look right. My mother used to tell me, if you don't like the way I iron your clothes, do it yourself. And I did."

In high school, one day he passed a classroom where fashion illustration was being taught and he was intrigued. "I wanted to join it, but the principal didn't know what to do. They'd never had a boy in there before."

But Aimbez got in and, at 16, won a scholarship to an art school. Contestants submitted designs anonymously, he says, and the sweet irony of it all was, "The judges never knew I was a boy."

HOROSCOPE

By BERNICE BEDEOSI

For Tuesday, July 20, 1976

ARIES (March 21-April 19) Today and tomorrow things could develop that would mean extra dollars in your pocket. Look around. There's a profit to be made.

TAURUS (April 20-May 20) Conditions will be generally favorable where your personal interests are concerned. Take steps now to advance your cause.

GEMINI (May 21-June 20) You do your best working by yourself today. If you have important things to do, get off alone where no one can look over your shoulder.

CANCER (June 21-July 22) Be ready to do all you can today to help a buddy who has stood up for you in the past. This gesture is well worth all the effort.

LEO (July 23-Aug. 22) Important goals can be achieved today if you're willing to pay the price. Strength of purpose is necessary to scale the mountain.

VIRGO (Aug. 23-Sept. 22) You can put things in their proper perspective today. So long as you approach matters practically, the results will be rewarding.

LIBRA (Sept. 23-Oct. 23) A situation you're involved in may be a profitable turn, especially if those concerned strive to help it along.

SCORPIO (Oct. 24-Nov. 22) You might have to make a decision today, one with far-reaching effects. Once you've thought it through, don't allow your views.

SAGITTARIUS (Nov. 23-Dec. 21) If you've been thinking about embarking on a self-improvement plan, start it today. Your chances of success are excellent.

CAPRICORN (Dec. 22-Jan. 19) Organization and management are your strong suits today. If you have a project with loose ends, now's the time to tie them up.

AQUARIUS (Jan. 20-Feb. 19) Your reservoir of strength today may surprise even you.

PISCES (Feb. 20-March 20) Mental rather than physical efforts will give you more enjoyment today. And you're better equipped to use your creative instincts.

YOUR BIRTHDAY
July 20, 1976

Your hopes will be based on practical foundations this coming year. You should realize your goals, but if you take more time than you anticipate, it's those concerned strive to help it along.

Weight Affects Blood Pressure

By Lawrence E. Lamb, M.D.

DEAR DR. LAMB — My husband has high blood pressure. He takes medicine for it, which necessitates the intake of extra potassium. He gets this through medicine, oranges and bananas. He seems content with this arrangement, but I keep wondering if it is really necessary to continue this way the rest of his life. Is there no way to bring down blood pressure? And as long as he continues to take medicine can he know if his blood pressure is still high without it? He is 37 years old, 5 feet 6, and weighs 182 to 190 pounds. Also are there other ways of getting potassium than a banana a day? He hates them!

DEAR HEADER — You didn't say how high your husband's blood pressure really is. Usually it is necessary for a person who really needs medicine to keep the blood pressure down to continue to take it. The exception would be the person who alters his life style in some manner, such as weight reduction, that helps solve the blood pressure problem.

I suspect your husband could help lower his blood pressure. Unless he is very muscular he is far too heavy. I have always been impressed with what adequate weight reduction can do to lower high blood pressure in many people. I would think your husband may be 40 to 50 pounds overweight, maybe more. He might not need to take so much medicine, or the potassium, because of the medicine. If the basic weight problem were under control, anyone who has any evidence of fat deposits around the waist or small of the back and also has high blood pressure should lose weight until he is really lean, regardless of how many pounds that means he has to lose.

I am sending you The Health Letter, a booklet that gives you more information on what blood pressure means and why it is important to control it. Others who want this information can send a long, stamped, self-addressed envelope with 50 cents for it. Just send your letter to me in care of this newspaper, P.O. Box 154, Radio City Station, New York, N.Y. 10101.

The higher the blood pressure the more likely a person is to develop fatty-cholesterol deposits in the arteries. These can cause strokes or heart attacks. A lot of the success in decreasing the incidence of heart attacks in recent years is due to the control and more effective treatment of high blood pressure, so it is very important. Strokes have increased about 25 per cent in the past 20 years because of a combination of measures, including: controlling blood pressure.

The obesity not only elevates the blood pressure but often is associated with a high level of fatty-cholesterol particles in the bloodstream. Losing weight will help lower the fatty-cholesterol levels as well as lower blood pressure.

You can get potassium from milk and you can also get lots of potassium from orange juice. Perhaps your husband would prefer to drink more orange juice and eat fewer bananas. In any case I would strongly recommend that his calories be cut to the point that he gets his weight down and keeps it down.

Since his risk of an early heart attack or stroke is increased because of his blood pressure and probably because of his weight I hope he is not also smoking, cigarette smoking is bad enough anyway but when combined with high blood pressure it greatly increases the odds of a major health problem or even sudden death.

Indictments Dropped Against 3 Juveniles

Armed burglary indictments against three juveniles have been dismissed and their names added to the growing list of dismissals being appealed by district courts by State Atty. Arthur Herring.

Judge Hosemann's ruling agreed with a ruling last week by Seminole-Brevard Chief Circuit Judge Joe A. Cowart Jr. that juveniles can't be indicted by grand juries in Florida on first-degree felony offenses.

Cowart dismissed armed burglary indictments and freed Robert Allen Northwick, 16, of 500 Magnolia Drive, Maitland, and Joseph J. Santarsiere, 17, of 300 Oxford Road, Fern Park.

Assistant State Atty. Jay Novick said Monday that State Attorney General Robert Shevin's office is assisting Herring's office in filing appeals in all five cases to the Fourth District Court of Appeals in West Palm Beach.

Grand jury indictments alleged the youths — who were scheduled for adult criminal court trial this week — burglarized residences and armed themselves while inside the houses.

Judge Hosemann's ruling agreed with a ruling last week by Seminole-Brevard Chief Circuit Judge Joe A. Cowart Jr. that juveniles can't be indicted by grand juries in Florida on first-degree felony offenses.

'Old 31' Gets Probation: 'I Don't Collect No Money'

By BOB LLOYD
Herald Staff Writer

A 93-year-old Midway man, indicted by the statewide grand jury on a felony larceny charge, has pleaded guilty to misdemeanor — attempting to aid a lottery.

Boy Guess, a social security pensioner who says he was born in 1883 and still works about three months of the year as a vegetable picker, admitted Monday to Circuit Court Judge A.J. Hosemann Jr. that although he can't read or write he answered a telephone at a Washington Street, Midway, residence and passed along bolita numbers.

"I don't collect no bolita money," Guess said, "but I answer the phone sometimes."

Judge Hosemann withheld adjudication of guilt after accepting the elderly man's guilty plea to the misdemeanor count and put him on probation for a year.

Guess told the court that he's not generally known by his name but instead by the nickname "Old 31."

"Near 'bout everybody calls me 'Old 31'," he told the court, explaining somebody gave him the nickname 50 years ago in Tifton, Ga., because he was so lucky at bolita and dice games.

"I've got a feeling you've been in this business a long time," Judge Hosemann commented.

"You won't see me in court no more," Guess promised, agreeing to "tell the truth" to state agents probing a bolita operation in Seminole and Orange counties.

Guess said his last brush with the law was "about 20 years ago when Mr. (Sheriff's Capt. J.Q.) Galloway caught me with three five-gallon jugs of moonshine coming from Geneva."

Guess said he had hidden in underbrush, leaving the shine on the road, when Galloway yelled that he was surrounded and he came out and surrendered.

Survives 213 Million Mile Trip

Viking Lands Safely On Mars

PASADENA, Calif. (AP) — America's Viking 1 spacecraft landed today on a dusty plain of Mars to search for life on the red planet, space officials announced.

Radiation signals from the probe, the first American spacecraft to land on Mars, showed it had survived the landing after a 213 million mile trip that began 11 months ago.

Barring difficulties, the unmanned, three-legged lander was to begin taking black-and-white pictures of Chryse Planitia, the Gold Plain of Mars. It is the smoothest place on a planet which is marked by volcanic peaks and deep valleys and craters.

Later exploration is to include life-detection tests and soil sampling.

There was cheering at project headquarters and project manager Jim Martin and other Viking team members gathered when word of the landing reached them. They had spent hundreds of hours in the search for a safe landing spot with several frustrating delays when the landing had to be delayed twice.

Radio signals from the Viking, traveling at the speed of light, took 19 minutes to reach earth.

For more than 100 years observers have thought Mars might harbor some form of life. In the 1860s astronomers noted the existence of lines running across the planet that seemed to resemble canals. But 100 years later an American spacecraft, Mariner, flew past the planet and found that there were no canals.

Scientists expect to see a barren, sandy plain with meteorite craters scattered here and there and volcanic ridges winding across the plain.

The pictures to be radiobacked to earth, were expected to appear on television sets at the Jet Propulsion Laboratory here within an hour.

Viking 1, the first of two unmanned American spacecraft scheduled to land on Mars this summer, was launched last August 20. It arrived near Mars and went into orbit around the planet — which is about half the size of earth — a month ago.

Viking 1 is an identical lander and is soaring through space and is due to enter Martian orbit August 7.
