BIBLE VERSE FOR TODAY
TRUST HIM ALWAYS: Com-
mit thy way unto the Lord; trust
also in Him.—Psalm 125.

WOMEN
Women are indefatigably cruel
To one another, darkly purting
Hate in the bosom, gathering slow
Fuel.

To fan each deadliest flame. Women
Perceive away and launch a subtle
savage, calculated, burning aim.

That lurks in words too intricate
to bear,
Too delicately seasoned. These
they bring
To ruined altars, smiling and
aware.

Women are priestesses who have
Invoke
Lightning and thunder out of
awful skies,
Who worship words that intimately
cloak
Significances sinister and wise,
Lovely and barbarous, with skill
to spend,
They sharpen claws that passion-
ately rend.

SYDNEY KING RUSSELL.

Almost every woman thinks
there would have been no de-
pression if her husband had only
taken her advice.

Some CWA projects in Florida
are being held up because of
alleged "labor padding." It pays
to go by the rules.

We see by the papers that
there is a town in Florida named
"Niveville." We'll bet there's no
parking problem there.

Sally Rand has decided to give
up the movies and return to her
fans. It was simply too hot for
her out there in California with-
out any fans.

We used to think that flyweight
boxing matches were staged for
the lightest class of boxers, but
now we see that one was held
the other day for some whis-
keyweights. Now we have never
actually gauged the relative
weights of a fly and a whis-
key, but an offhand and entirely un-
professional opinion would put
the whiskeyweights in an even
lighter class than the flyweights.

There will be no more CWA
after Feb. 15 unless Congress ap-
propriates additional funds with
which to carry on the work. The
present appropriation of \$400,-
000,000 will be exhausted on that
date. Roosevelt has asked for
\$350,000,000 more. Congress un-
doubtedly will grant it. But Ad-
ministrator Hopkins is taking no
chances and is terminating his calls
to meet the breeze in case addi-
tional funds are not provided.

Fewer persons were killed in
automobile accidents in 1933 than
during the previous year. What
a fine reputation it would be for
this state if so perfect a traffic
system could be perfected, and
such rigid driver requirements
could be enacted that we could go
a whole month, or a whole year,
without a single highway fatality.
That would be news which would be
broadcast throughout the whole
nation. And, believe me, everybody
would want to come to a state
where there were no accidents.

Mr. Ernest Oppenheimer has
just paid \$250,000 for a couple
of diamonds, said to be among
the finest in the world. Just at
present, diamonds, like almost
everything else, only move up and
are supposed to be particularly low
in price. A "normal" price for
these diamonds might well be
over a million dollars. Diamonds
are a good investment during
periods of depression. They are
difficult to tax. They have no
political significance like gold, and
they are easy to conceal and
keep in the event of a banish-
ment. And what is more, they al-
ways "come back" in price.

NRA Changes

Recent hearings conducted in Washington into the actual operation of the various codes and agreements set up under the NRA indicate that many phases of the Blue Eagle recovery plan have not worked out exactly as its more optimistic proponents had hoped. As a result of the investigation, A. B. Whiteside, NRA division administrator, said: "The hearing has shown conditions we did not dream of. Some prices appear to have increased to the point of being unreasonable. The hearing has changed my whole viewpoint in many respects—has changed entirely my ideas on certain questions of pricing. I am confident that the hearing will bring about great administrative changes."

One of the most significant facts produced at the investigation was that the cost of living has almost completely wiped out whatever advantage there might have been for the lower wage groups from increased payrolls. American Federation of Labor figures indicate that the income for workers as a whole increased a scant six percent from June to December of last year, while the things which they had to buy increased 5.2 percent. In other words, workers as a whole were benefited by the NRA to the extent of only .8 of one percent.

In this connection it must be remembered that most wage increases were confined to the lowest brackets. The NRA did not attempt to fix wages above the \$14 a week or 30 cents an hour class. It is only those who were getting seven or eight dollars a week and are now getting from ten to fourteen whose increased compensation offsets the disadvantages of the rising cost of living. Those who were getting twenty dollars a week, or thirty dollars a week, and whose wages have not been raised, are actually worse off by 5.2 percent.

Another point of significance which was brought out at the hearing was that many of those even in the minimum wage groups are not securing the benefits which were designed for them. As time wears on and the NRA comes more and more into its long range operation it is being discovered that minimum wage requirements tend to displace certain classes of labor rather than to increase their wages. It has been found that many textile factories are installing numerous mechanical robots and other labor-saving devices to do the work formerly handled by cheap labor whose wages had to be increased.

Less skilled forms of labor, incompetent labor, cheap labor is also being displaced by more efficient workers. Investigation has brought forth the fact that certain classes of labor cannot actually earn the wages required by the minimum wage laws and that when this is the case this labor is being displaced by more competent workmen who can earn the wages they must be paid. One illustration produced was that of a one-arm filling station helper who had been paid 16 cents an hour. The NRA increased his wages to 30 cents an hour, but when the proprietor found that he could get better two-armed helpers, who were worth 30 cents an hour to him, he did so, and the one-arm man was out of a job.

These and other cases of abuse and miscarriage of justice in NRA procedure were brought forth at the hearing. Undoubtedly, as Mr. Whiteside has said, great administrative changes can be expected. The NRA has too many creditable aspects, like the abolishment of child labor, the spread of employment, the control of competitive methods, to be wrecked on the rocks of innumerable minor defects.

Healthful Florida

All good Floridians, as well as their winter guests should be interested in the ten excellent reasons which Dr. John Harvey Kellogg has given for living in Florida. Dr. Kellogg has devoted almost an entire lifetime to the activities of medicine, surgery, and the famous Battle Creek Sanitarium, and is perhaps better qualified than anyone else to know whereof he speaks, since in recent years he has also done considerable research work in Florida.

The ten reasons of Dr. Kellogg which are well worth the thoughtful consideration of everyone who is concerned either about his health or his longevity, are as follows:

1. Half of our diseases are house maladies, produced by lack of contact with the sun and out-of-door air. Continuous out-of-door living day and night is easily possible in Florida.
2. A great variety of wholesome fruits and vegetables are available at all seasons and make it easy and delightful to follow in Florida a biologic regimen, difficult or impossible in a less favored climate.
3. The gravest menace to persons past 50 years is degeneration or hardening of the blood vessels. Intense sunshine is the most powerful of all means of combating diseases of the arteries. Sunshine, plentiful in Florida, eliminates danger of apoplexy and means the addition of many years to a useful life.
4. Sunshine and out-of-door living are the most effective means of combating tuberculosis, rheumatism, and other chronic constitutional maladies.
5. A man who lives in a cold northern climate consumes a large part of his energy in keeping warm. A mild, genial climate is conducive to longevity because the vital energy is conserved.
6. Persons living in a mild climate have a lower metabolism rate, that is the bodily machinery is slowed down, not enough to lessen efficiency, but enough to lessen wear and tear.
7. A warm climate encourages activity of the skin and in consequence free water drinking. This secures thorough washing of the body and keeps the blood free from impurities. Citrus fruits laden with vitamins and blood-building salts supply liquid nourishment of the choicest and purest sort. The world affords no better means of satisfying thirst and promoting elimination by the skin and kidneys than Florida orange juice.
8. The combination of sunny days with cool nights is most fortunate and gives to Florida the distinct advantage over warm regions which are less favorably situated. From whichever direction the wind comes, it sweeps clear across the state, so that sunstroke is practically unknown, thus preventing the depressing and devitalizing effects of continuous heat.
9. The hospitable climate of Florida renders the necessities of life so easily and inexpensively available that one of the chief causes of worry for many people disappears, thus eliminating one of the most common and active causes of premature breakdown and shortened life.
10. There is no place in America and probably no place in the world safer for a person who is advanced in years. Pneumonia carries off thousands of elderly people each winter. These victims, not to the cold air, but to unwholesome indoor conditions which cold air imposes upon persons of sedentary vocations. In Florida, no matter how aged, persons may hope to escape the pneumonia germs which are imminent in the North, wherever human beings congregated in badly ventilated places.

SANFORD, TWENTY YEARS AGO

Wednesday morning at 12:00 o'clock the entire business section of the city of Sanford was swept away by fire, with a single exception, in a couple of hours, leaving a loss of buildings that will exceed \$5,000 and a merchandise loss that will amount to close to \$30,000, with an insurance of possibly 20 percent of the entire amount. The fire was discovered by Mrs. E. G. Smith in D. F. Wheeler's frame building which was occupied by D. D. Daniels, as a drug store, from where it spread rapidly to H. P. McCall's two story frame building which is occupied by Mr. McCall as a general merchandise store. From there the fire spread to W. H. Howard's two story frame store building which he occupies as a general store. From there it crossed the street to the Wilton building, a two story frame structure occupied by the Orlando Hardware Company and W. M. Jacob's meat market. Among other buildings destroyed were the general store of J. B. Jones, treasurer

Prince Plan Of St. Petersburg Has Lost Chance To Get Discount On Taxes

(Continued From Page One) consolidate the country's rail transportation into seven great units, at \$24,690,288 against the \$100,472,000 estimate of F. H. Prince, originator of the plan. The outstanding criticism of the plan, however, was not of economics but of the fact that no competition was provided in the peninsula of Florida. Objections also were filed by the Southern committee against what it described as a non-competitive outlet from Washington to New York and lack of direct connection of one of the Southern systems with Chicago and New York. The South proved difficult territory for consolidation, the committee reported, except by abandonment of large mileage of circumventive lines. Maintenance expenditures had been reduced to such a point, it found that little saving could be obtained by concentration of the traffic on the most favorably situated lines. Bitter complaint, the report said, probably would be caused by the fact that only System No. 3 reached Florida. "It appears, however," Eastman was told, "that the only way in which System No. 4 (the other Southern line) could be introduced into the territory would be by a line, located to fit the Seaboard Air Line. This would prevent practically all savings in Florida through consolidation. Here again the cost of rail competition seems too high. The fact is that the most of the territory there is hilly, with competition with the railways now—by truck over the highways, by barge through the canals, and by steamer direct to Philadelphia, Baltimore and New York. Rail transport will have to struggle desperately not to lose the traffic it now controls." Under the Prince plan the Southern roads would be combined as follows: System No. 3—Atlanta and West Point; Atlanta, Birmingham and Coast; Atlantic Coast Line; Charleston and Western Carolinian; Clinchfield; Florida East Coast; Georgia and Florida; Georgia, Jacksonville Terminal Company; Louisville and Nashville; N. C. and St. L.; Norfolk and Portsmouth Belt Line; Norfolk Southern; Richmond, Fredericksburg and Potomac; Seaboard Air Line; Western Railway of Alabama; Winston-Salem Southbound. System No. 4—Alabama Great Southern; C. of Georgia; Cincinnati, New Orleans and Texas Pacific; Chickasaw and Greenville; Georgia, Southern and Florida; Gulf and Ship Island; Gulf, Mobile and Northern; Illinois Central (except Chicago to Freeport, Ill., and lines west and north of Freeport); Mississippi Central; M. and O.; New Orleans and North-eastern; New Orleans Great Northern; New Orleans Terminal Company; Northern Alabama; St. Louis-San Francisco; Southern Railway; Tennessee Central; Yazoo and Mississippi Valley (except line Vicksburg to Shreveport). A strong objection was registered by the committee to lack of direct connection of system three with Chicago and the northwest. The report said: "The Chicago and Eastern Illinois and the Monon have been suggested. System No. 2, according to the Prince plan, reaches St.

PAYS BILL WITH CHILD
HARRIS, March 22, Jan. 22 (AP)—How astitute mother sold her 2-year-old son to pay the grocer's bill was related in court here. The woman, 21, a Russian, married a Chinese three years ago. He recently lost his job and to settle the grocer's bill of \$62, she sold her only child to a Chinese merchant for \$50.

Miss Henderson Weds Mr. John Schirard, Jr.

Attracting the interest of a wide circle of friends both here and in other parts of the state is the announcement of the marriage of Miss Mildred Henderson, daughter of Dr. and Mrs. T. B. Henderson of Williamsburg, Va., to John Schirard, Jr., son of Mr. and Mrs. John Schirard of this city.

The wedding was performed yesterday morning at 9:00 o'clock at the home of the bridegroom's brother-in-law and sister, Mr. and Mrs. R. G. Pittman, Jr., in Bartow with the Rev. Michael Fennell, pastor of St. Thomas Catholic Church, officiating.

The rooms of the Pittman home were opened en suite for the occasion and decorated with a profusion of garden flowers and ferns. The ceremony was performed before the mantle which was lighted with candles and decorated with bowls of pink radiance roses, pink and white sweet peas, and fern.

The bride had as her matron of honor, Mrs. Pittman, who was before her marriage last Spring, Miss Katherine Schirard, while Mr. Pittman attended the groom as best man. The only other person present at the wedding was John Schirard's mother, Mrs. John Schirard.

An informal dress of soft grey crepe, having large chiffon sleeves applied in blue crepe, was worn by the bride for the occasion with grey accessories. Her shoulder corsage was of sweetheart roses, valley lilies, and fern. She also wore a grey coat of spongy woolen material.

Mrs. Pittman's dress was made of faun colored triple sheer crepe and was trimmed with a large jabot collar of brown crepe. Her hat, shoes and other accessories were in brown and she had a shoulder corsage of radiance roses and sweet peas.

Immediately after the ceremony the couple left for a short trip to various points in Florida. They will return in a few days and make their home temporarily with the bridegroom's parents at their home on West Tenth Street.

Mrs. Schirard attended Goldboro High School at Goldboro, N. C. and the College of William and Mary. Later she studied at the State Teachers' College at Harrisonburg, Va. where she received a B. S. degree last June. She is a member of Kappa Kappa Gamma social sorority.

Mr. Schirard was born in Palatka but has been making Sanford his home since early childhood. After being graduated from Sanford High School in 1925 he attended the University of Florida at Gainesville where he received an L. L. B. degree in 1931. He is a member of Phi Kappa Alpha social fraternity and Phi Delta Phi honorary legal fraternity.

Mr. and Mrs. Pittman entertained with an informal dinner party Saturday evening at their home in honor of Miss Henderson and Mr. Schirard with a small number of guests in attendance. The dining table was overlaid with a lace cloth and centered with a large three-tiered wedding cake adorned with a miniature bride and bridegroom.

FAIRBANKS SUED BY U. S.
LOS ANGELES, Jan. 22—(AP)—Douglas Fairbanks was sued for \$175,927.11 in Federal Court yesterday by the United States Government.

T. M. Dunlap, the Misses Claire Bartleson, Malva Lundquist, Ester Erickson, Mildred Stafford, Mary Young, Madeline Ioyd, and George Smith, Alfred Erickson, Jr., Vernard Shearer, M. H. Stafford, and Bobby Shearer.

Watch For
A color scheme of yellow and white was used for decorations in the rooms where the guests were entertained.

Those present were Mr. and Mrs. George King, honor guests, Mrs. L. W. Stafford, Mr. and Mrs. Alfred Erickson, Mrs. E. Woodcock, Mrs. Beula Rutledge, Mr. and Mrs.

Personals

Miss Ina Jordan left yesterday for Macon, Ga. where she will visit relatives for some time.

Miss Mary Buford Powell spent the week-end in DeLand as the guest of Miss Beatrice Howard.

Miss Anne Farron has gone to Orlando where she has accepted a position with the Florence Beauty Shop.

Claude Shoemaker has returned to Tampa after spending the week-end with his parents, Mr. and Mrs. A. D. Shoemaker, Boardall Avenue.

Alfred Robson of New Orleans spent the week-end here with his parents, Dr. and Mrs. J. N. Robson, South Sanford Avenue.

Mrs. J. S. Thorpe has returned to her home in East Orange, N. J. after spending some time here with her parents, Mr. and Mrs. A. D. Shoemaker, Boardall Avenue.

J. James Hall of New York City is the week-end guest of Mr. and Mrs. J. O. Long at their home on Oak Avenue. He plans to return to his home tomorrow.

Mrs. J. E. Laing, Miss Jeanette Laing, and E. H. Vickers spent the week-end in South Jacksonville as the guests of Mr. and Mrs. W. D. Laing.

Mr. and Mrs. E. H. Smith left today for their home in Jacksonville, after spending the week-end here with the latter's sister, Mrs. S. A. Irwin, 2045 Holly Avenue, Pinehurst.

Mrs. John G. Leonard left today for Washington D. C. where she will attend the women's council for national defense as a representative of the Florida Society of Patriots. While there she will be the guest of Princess Julia Cantacuzene.

Mr. and Mrs. Pittman entertained with an informal dinner party Saturday evening at their home in honor of Miss Henderson and Mr. Schirard with a small number of guests in attendance. The dining table was overlaid with a lace cloth and centered with a large three-tiered wedding cake adorned with a miniature bride and bridegroom.

Watch For

Those present were Mr. and Mrs. George King, honor guests, Mrs. L. W. Stafford, Mr. and Mrs. Alfred Erickson, Mrs. E. Woodcock, Mrs. Beula Rutledge, Mr. and Mrs.

SUPREME COURT GIVES OPINION ON TRUST FINANCING

Decision Affirms Lower Court's Ruling On Palmetto Bond Case

TALLAHASSEE, Jan. 22—(AP)—Public policy, supreme court held yesterday, is against "the investment of trust funds by institutions holding such funds in securities owned by the corporation."

"The doctrine," the court said in an opinion written by Associate Justice W. H. Ellis, "may be scoffed at by self-conceited people swept off their feet by a little brief authority, or secure in the self-sufficient opinion of their own rectitude, but to countenance the practice as meeting the approval of the law would be to open the law to a saturation of fiscal debaucheries and invite the venal corruption into the home of decent business."

The court's opinion was in the case of the city of Leesburg against G. G. Ware, J. C. Lee and A. L. Miller, as bond trustees for the city of Leesburg, and the First National Bank of Leesburg. The supreme court affirmed a lower court opinion about \$15,000 which the trustees invested in city of Palmetto bonds.

The city claimed that Ware, while acting as member of and secretary to the board of bond trustees, also was president of the First National Bank of Leesburg, and that, as bond trustee, he purchased with bond funds, for benefit of the city, bonds held by the bank of which he was president.

The court held that the bonds were not in default at the time of sale, and that "it appears there was no suspicion of fraud in the transaction; that Mr. Ware acted for the trustees, and in the best of good faith."

"We perceive nothing in this transaction on the part of Mr. Ware that indicates he had either for himself or his bank a sinister purpose in purchasing the bonds from the bank of which he was president, and acting on the part of the other two trustees but an imprudent, careless, shirking of duty in entrusting business of that character to any one to perform."

Justice Ellis held the lower court's decree dismissing the city's

D.A.R. Members Hear Talk On Gen. Sanford

An interesting talk on General Sanford's library and collection of antiques was made by Dr. Hanna, professor at Rollins College, at the regular meeting of Sallie Harrison Chapter of the I. A. R. held Friday afternoon at the home of Mrs. W. M. Thigpen on Magnolia Avenue.

Mrs. Samuel Polston presided over the meeting when resolutions were adopted on the death of Mrs. A. T. Rosetter. At this time Mrs. Roland L. Dean and Mrs. A. Bartholdi Peterson were selected to serve as delegates to the state conference to be held in Miami. Alternates chosen were: Mrs. John G. Leonardy, Mrs. G. D. Bishop, Mrs. Frank L. Woodruff, Mrs. Ernest Krupp, and Miss Alice Caldwell.

The resignations of Mrs. W. J. Thigpen and Miss Katherine Wilkey were read and accepted with regret. Mrs. A. Bartholdi Peterson was then appointed to serve as chairman for the George Washington party to be held on Feb. 22.

At the tea hour refreshments were served informally in the living room by the hostess, assisted by Mrs. H. J. Pemberton and Mrs. A. L. Miller. Those present were: Mrs. Samuel Polston, Mrs. R. J. Holly Mrs. G. I. Loucks, Mrs. Vail Lovell Mrs. H. J. Lehman, Mrs. Frank L. Woodruff, Mrs. A. Bartholdi Peterson, Mrs. H. J. Pemberton, Mrs. John G. Leonardy, Mrs. L. P. Hagan, Mrs. W. M. Thigpen, Miss Nona Willy, and Miss Alice Caldwell.

bill of complaint should be reversed. But Chief Justice Davis, and Associate Justice Whitfield, Terrell and Buford "are of the opinion that since no actual fraud, or corrupt purpose, on the part of the particular defendants below was either alleged or established in this case, that the decree of the chancellor dismissing the bill of complaint on its merits should accordingly be affirmed, on the grounds that the right of the city to have it set aside is now past by reason of delay."

However, the opinion was concurred in by the entire court "insofar as it sets forth the principles of law applicable to case like this."

PRISONER IS SUICIDE
FORT LEAVENWORTH, Kan., Jan. 22—Louis B. Durand, 41, in-

CHRISTIAN SCIENCE CHURCH

"LIFE" was the subject of the Lesson-Sermon in all Churches of Christ, Scientist, on Sunday, Jan. 21.

Among the citations which comprised the Lesson-Sermon was the following from the Bible: "Verily, verily, I say unto you, He that heareth my word, an' believeth on him that sent me, hath everlasting life, and shall not come into condemnation; but is passed from death unto life" (John 5:24).

The Lesson-Sermon also included the following passages from the Christian Science—textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy: "One moment of divine consciousness, or the spiritual understanding of Life and Love, is a foretaste of eternity. This exalted view, obtained and retained when the Science of being is understood, would bridge over with life discerned spiritually the interval of death, and man would be in the full consciousness of his immortality and eternal harmony, where sin, sickness, and death are unknown" (p. 598).

SUNKEN GOLD SOUGHT
LONDON, Jan. 22—(AP)—A new contract for the salvage of gold from H. M. S. Lutins, which foundered in October, 1799, off the

Dutch coast, has been entered into between Lloyds and Dutch firms. The Lutins carried bullion to the value of more than \$5,000,000 and \$700,000 worth of gold and silver coin. By 1801 treasure to the value of \$415,000 was recovered and up to 1861 an additional \$220,000 was salvaged.

COLD CONTROL BY U.S. IS PLANNED TO BE ABSOLUTE

Stegall Outlines 10 Major Objectives Of Roosevelt Measure

WASHINGTON, Jan. 22.—(AP)—Government control of the country's gold will be absolute, even to the point of melting down existing gold and forming it into bars, under the legislation requested by President Roosevelt.

1. Transfers to the United States the ownership and possession of all Federal Reserve Bank gold (including that held by Federal Reserve agents) and provides for payment therefor in gold certificates.
2. Authorizes the Federal Reserve banks to maintain reserves against Federal Reserve notes and gold certificates.
3. Changes the government's power to regulate the acquisition, transportation, holding or treating, deposit, export, or carrying of gold.
4. Provides forfeiture of gold (whether acquired, transported, held, or treated, imported, exported, or carried in violation of this bill or regulations of the secretary of the Treasury, and also a penalty equal to twice the value of the gold.

EARNINGS OF U. S. PEOPLE ARE REPORTED

(Continued From Page One)

more between 1929 and 1932 than any other class. The percentage decline in six major industries was 39.8. Salaries in the same group were 59.3 percent of 1929.

In 1929, the total income produced—that is, actually earned by corporations, farmers and an average of \$43,037,000,000, or almost \$2,000,000,000 more than was actually distributed. This \$2,000,000,000 was turned into corporation surpluses and individual savings.

In the next three years, however, more income was paid out than was produced. This was possible because the distributors of the money were able to draw on savings, and further on, actual assets.

"A significant divergence in the declining trends," the study said, "is apparent as between labor income and property income; by 1932 the former had fallen off 40 percent, while property income distributed received but 30 percent. This situation was brought about by the maintenance of interest payments rather uniformly up to 1932, with dividend payments well maintained in 1930, but declined thereafter more rapidly than labor income."

Manufacturing was the largest industrial class contributing to income accounting for 22 percent of the total distributed in 1929. Trade, finance, and services followed in order, accounting for 14, 12, and 11 percent of the total respectively.

"The decline in income distributed was most severe in the construction industry, the 1932 volume being but 28 percent of the amount paid out in 1929. Income in mining fell off about 60 percent and in manufacturing about 55 percent in the four-year period. In the manufacture group,

value of the gold. 5. Provides that no gold shall hereafter be coined, and that no gold shall hereafter be paid out or delivered by the United States and that all gold coin of the United States shall be withdrawn from circulation and formed into bars. There is provision for redeeming gold bars to pay foreign balances and for industrial, professional and artistic uses, and for other purposes not inconsistent with the bill.

6. Provides that no currency of the United States shall be deemed in gold except to the extent permitted in regulation issued by the Secretary of the Treasury with the approval of the President, but that gold certificates owned by Federal Reserve banks shall be redeemed at such times and in such amounts as in the judgment of the Secretary of the Treasury are necessary to maintain equal purchasing power of every kind of currency of the United States and that the reserve for United States notes and for Treasury notes of 1930 and the security of gold certificates shall be maintained in gold in full value to the dollar amounts required by present law.

7. Establishes a method of accounting for the gain or loss in value of treasury gold occasioned by any change in the weight of the gold dollars.

ROOSEVELT TO OPPOSE SMITH CROP LOAN ACT

(Continued From Page One)

The Administration's Senate opponents yesterday solidified their forces to defend the House-approved Roosevelt dollar-devaluation effort to attach amendments sharply limiting the broad powers the measure would confer upon the secretary of the treasury.

The President wants the bill enacted exactly as it was sent to Capitol Hill and Democratic leaders are determined and confident that he shall have his way. They hope to send the measure to the White House by Saturday, but concede another week-end may intervene.

Even though the opposition should be successful in obtaining Senate approval of one or more of the changes it wants, Administration spokesmen are confident the House to uphold the Chief Executive. That branch Saturday beat off all efforts to amend the bill and then passed it by the expected vote of 360 to 40.

The words of Chairman Rogers of the Senate committee, in charge of the bill, that "the President wants the bill just as it is" were enough to swing the huge Democratic majority into a massive cordon which would be impervious to any amendments.

The bill has four primary purposes: It would authorize clipping a minimum of 40 percent from the 23.22 grains of gold which by legal definition are now the equivalent of one dollar; it would vest in the treasury title to every ounce of the nation's monetary gold, including that now held by the Federal Reserve banks; it would establish a \$2,000,000,000 stabilization fund to be used in regulating the foreign value of the dollar; and it would free the treasury of many present restrictions upon its authority to issue government securities and thus simplify the big borrowing operations that lie ahead.

MIAMI, Jan. 22 (AP)—Business in the South, says James Hammond, publisher of the Memphis Commercial Appeal, vacationing here, is better than it has been in years.

"The farmers are happy. They had a good cotton crop and it brought good prices. I don't think you could find a used car in Memphis," the publisher declared.

"And repeal has saved the day for the southern lumber industry. New lumber mills have sprung up all over Tennessee and other Southern states and old ones that have been idle for years now are running full tilt manufacturing barrel staves."

Discussing complaints in Georgia and Florida that NEA and CWA wages are too high for negro labor, Hammond said "we've just awakened to the fact that we've been paying our negro help too little. Now we see that when we pay higher wages more money is put into circulation and business profits in the long run."

NEW YORK, Jan. 22.—(AP)—Harrison Fisher, whose beautiful American girls have appeared on magazine covers for more than 25 years, is dead.

FRENCH TRAINING TO GUARD SELVES FROM AIR ATTACK

(Continued From Page One)

Under the direction of Marshal Petain, inspector general of aerial defense, working with the national union of reserve officers, the league of aerial defense and the Paris police department, the "passive defense" of the French capital and surrounding villages has crystallized into definite form.

Four thousand instructors selected chiefly from the membership of the national union of reserve officers and the league of aerial defense are giving courses in city halls and public buildings to train civilians in the use of gas masks and first aid in case of attack.

More than 25,000 shelters have been located and charted by a recently-completed canvass designed as a preparedness measure in case of a repetition of the day when bombs fell on Paris.

These include deep shelters such as catacombs and subway passages as well as the cellars of buildings having four or more stories.

Plans will indicate their whereabouts should the necessity arise. New buildings are required to be built in a manner which will provide bomb-proof protection.

throughout the city, as patients many of them in serious condition were unable to obtain medical attention or medicines.

Dr. Felix Grandea, President Mendicino's newly appointed secretary of the interior, was in frequent conferences with strike leaders and is actively endeavoring to find a quick solution to the problem.

Official announcements on the cabinet were still lacking and the communications, public works, labor and public instruction portfolios were still undecided.

Contract Awarded For Biggest Ballroom
WASHINGTON, Jan. 22.—(AP)—The National Geographic Society yesterday announced award of a contract for building the world's largest ballroom in the Government-Operated Corporation at St. Albans.

Return Of Part Of House Committee Yets Compensation Sees Navy Up With Disatisfies Legion Treaty Limit Soon

(Continued From Page One)

The American Legion last night expressed the belief that presidential restoration of veterans' compensation didn't go far enough but Democratic leaders apparently agreed with Senator Carter Glass of Virginia that the administration had gone as far as it intended to this session.

Glass, chairman of the Senate appropriations committee, apparently agreed also that the President's \$31,000,000 liberalization was all that was necessary, except disagreement with other administration policies.

At the same time the Legion through its national commander, Edward A. Hays, announced that it would continue its legislative campaign for further increases to ex-service men.

Hays said in a statement that the President's modifications of Economy act regulations "do not restore to the rolls a single service disabled war veteran who was put off by operation of the Economy act."

He also asserted that the President's regulations do not "retard any hospital treatments not heretofore authorized by administrative instruction."

Senator Reed (R. Penn.) said the new regulations would not deter him from pressing for passage of the four-part Legion bill although he believed they would be used by some senators as "an excuse" for voting against new legislation.

Difficulty Arises In Filling Farley's Role
WASHINGTON, Jan. 22.—(AP)—Finding a new chairman for the Democratic national committee is another task that has been added to the multiplicity of difficulties suddenly besetting the Democratic party.

It was disclosed yesterday that James A. Farley, the chairman who conducted the campaign of President Roosevelt for election two years ago, had asked to be relieved of his party duties in order to devote his full time to work of being postmaster general.

He will continue his work with the committee, however, until a new chairman is found and no successor appeared to be immediately in sight.

above the earth's surface, will be 179 feet in diameter when entirely filled with gas.

Return Of Part Of House Committee Yets Compensation Sees Navy Up With Disatisfies Legion Treaty Limit Soon

(Continued From Page One)

WASHINGTON, Jan. 22.—(AP)—A United States navy, under the London treaty limits upon completion of its present program was pictured today by the House appropriations committee in reporting the \$294,747,000 naval supply bill.

Taking issue with statements by Admiral William Standley, chief of naval operations, that the condition of the fleet was unsatisfactory, the committee reported construction under way "which upon its completion will bring us current with treaty limitations in all combat categories, completely discounting average tonnage."

The committee provided for an increase of 2500 enlisted naval and 1000 Marine personnel. The measure was nearly \$4,000,000 less than for current appropriations and more than 1,500,000 below the budget estimate.

Babson Tells Rotary Club Tide Has Turned
ST. PETERSBURG, Jan. 22.—(AP)—Roger W. Babson, economist, told more than 200 Rotarians and business men here yesterday that "the tide has turned" and that "the country is now heading into a period of expansion in business and industrial activity."

"My studies indicate that the recession in business which has been in progress since 1929 has run its course," Babson declared. "Retail sales in most centers have been making a good showing and stocks are being reduced," the noted economist continued.

Later in his talk Babson mentioned labor troubles as "the main fly in the ointment" in the way of speedy recovery. "All sane employers are desirous of being able to pay good wages from both a business and humane interest," he said. "There is, however, an honest disagreement amongst employers as to the wisdom of shortening hours and curtailing production."

FORMER ACTRESS DIES
NEW YORK, Jan. 22.—(AP)—Amelia Shaw Sumnerville, a popular actress of a generation ago, died yesterday from the effects of fractured hip suffered in a fall on the icy pavement. She was 71. The actress had appeared in "Tribe" and "Mary, Mountain Maid." Her last role, several years ago, was in "The Gingham Girl."

Another correspondent at Kathmandu said it was virtually certain that a hitch had occurred over the expedition's request for permission to fly more than once over Nepal. The Nepalese already had refused permission to establish an advance airbase at Kathmandu.

As he watched, Mrs. Mack held out a long one he stood with his hand on his hip and stammered: "Say! Say! Say!" "Tomorrow I will make a round and then for six weeks I expect to play every day. March 1 I will slip down to Fort Myers a day ahead of the boys, ready for another campaign."

Nothing but a great year for the American League is seen by Mr. Mack. "Mr. Roosevelt has done wonders with his reconstruction program. Men in the street who have not had the money to attend ball games will again go through the turnstiles. And small employers, who because of the unsettled state of affairs have been sticking close to their businesses, will now have time to take an afternoon off. And then in Philadelphia we will have Sunday baseball."

A close race for the junior circuit was Mr. Mack's opinion. With the Senators and Yankees weaker than last season, other teams have been strengthened. "Take Detroit," the veteran manager said. "I don't predict a knockout for Cochrane in his first year, but I wouldn't be shocked if he did win."

LANDON DEFEATS SEMINOLE FIVE BY 27-14 SCORE

Local Men Halted By Sterling Defense Of Young Basketeers

Coch Leonard McClucas announced that his Seminole High School basketball team will play a double-header at the local school auditorium tomorrow night, starting at 7:30 o'clock. The strong Apopka team will be the opponent, he said, both the "A" and "B" teams to go into action.

JACKSONVILLE, Jan. 22.—London High's basketball team concluded the most successful week of play in the Southside school's cage history Saturday night with a 27 to 14 victory over Seminole High of Sanford. Only a slim crowd, mostly students, was on hand to see the Lions rack up their third triumph in as many starts this week.

Landon and Seminole battled on even terms for only the first few minutes of the game Saturday night. Charlie Gavin caged a field goal and a free throw and then Gus Swanson, elongated center, torped in a pair of goals from the field to give the Southsiders a 10-4 advantage at the end of the first period. They were never headed.

In the second quarter Ian (Scotty) Henderson, Swanson, and Robby Robinson collaborated to add seven points to the Landon total while Knight and Kelly were picking up four for the visitors, leaving the halftime count at 17-8. With Coach Trogdon holding Swanson and Henderson on the bench, there wasn't much doing in the third chapter, both clubs being able to make but three points. The fourth period saw the Lions outscore the enemy seven points to three.

Once again Landon's relentless man-to-man defense formed a barrier a rival quintet was unable to pierce with any degree of effectiveness. The visitors only scored three times from the field, once in the first half.

The game was more or less of a free throw exhibition. The officials called a total of 33 fouls, 15 on Sanford and 18 on Landon. Two Landon athletes, Earl Denny, guard, and Robinson, forward, were banished from the court via the personal foul route.

Landon was slightly the better in cashing in on its opportunities from the 15-foot line, making good on 11 out of 19 tries, as compared to eight out of 18 successful attempts made by Seminole.

Swanson was the game's leading scorer with four field goals, all made in the first half, and two foul goals.

The lineups:

Landon (17)	1
Gavin	1
Henderson	1
Robinson	1
Wren	1
Kelly	1
Swanson	4
Adams	1
Henry	1
Harke	1
Blow	1
Totals	17

Seminole (14)	1
Jordan	1
Light	1
Wells	1
Conroy	1
Stiles	1
Holmes	1
Harringer	1
Totals	14

Officials: Falcon (Florida), and Burkhalter (Auburn)

OVIEDO

Mrs. Martha Cornelia Carlton, pioneer citizen of Island Grove, died at the home of her daughter, Mrs. J. N. Thompson, in Oviedo Friday morning at 2:35 o'clock. The funeral was held at Island Grove Saturday, Jan. 20th at 1:00 P. M. Her three sons, B. F. Carlton, of Cocoa; W. T. Carlton, of Trenton; D. A. Carlton of Island Grove and her only daughter, Mrs. J. N. Thompson, her grandson, E. I. Hundrix, and Cora Lee Carlton were at her bedside at her death.

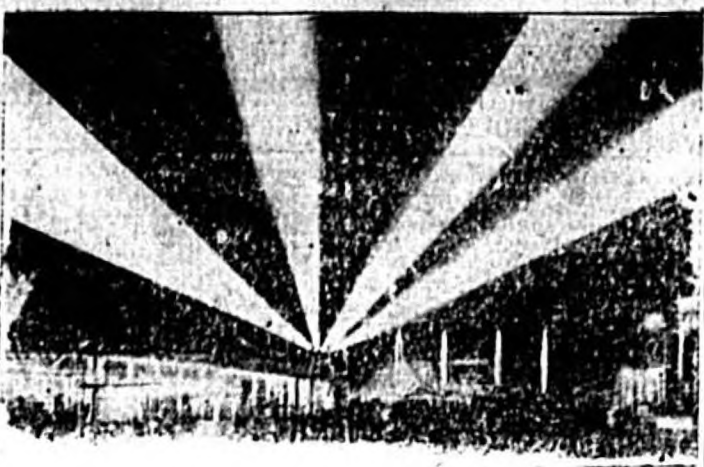

Mr. B. F. Wheeler entertained with a surprise party for her niece.

Watch For

?

POWERFUL LIGHTS AT TAMPA FAIR

Four brilliant navy searchlights, visible on clear nights for more than 50 miles, will be played over the Florida Fair in Tampa, January 30 to February 10. The monster lights are owned by the Royal American Shows, midway attraction at the state fair this year. Two huge generators, developing thousands of horse power, are used to operate the lights.

Upsala—Grapeville

The Dorcas Circle will hold its first meeting of the New Year at the home of Mrs. L. Vialas as we have in past years. It is hoped there will be a good attendance of members and their friends.

The election of officers for the Upsala Sunday School resulted in Mrs. Ansley being re-elected as superintendent; Mrs. John Borell as treasurer; Mrs. Esther Ericson as organist and secretary with Ernestine M. S. as her assistant secretary; Roy J. S. as one Bible teacher; Mrs. Ansley as intermediate and Mrs. C. Moran as primary teacher. Mrs. Borell after long and faithful service resigned as teacher of the latter class, feeling it was too much for her strength. We forgot to mention that Mrs. Linn, the Sunday School missionary who now takes Rev. Albertson's place was a recent visitor of our school. We are glad that Mr. Albertson on account of age could not come on the work, though so well fitted for it.

Miss Dorothy Lee, on her 16th birthday at her home Friday, Jan. 19. Games were enjoyed throughout the afternoon and delightful refreshments were served. Those present were Dorothy Lee, Minnie King, Sparks Lee Langlo, Olive Pittman, Charlotte Lawton, Anna Cedar, C. U. Mitchem, Mildred Dickery, Joyce Wainright, Louise and Frank Wheeler, John Lunley, Roy Clonts, William Henry Martin, Miss Oliver, and Mrs. C. S. Lee.

ALABAMA FIVE LEADS SOUTHERN COURT LEAGUE

Crimson Scores Fifth Victory Of Season; Week's Tilts Scarce

ATLANTA, Jan. 22.—(AP)—The crimson flag of Alabama was attached to the No. 1 position in the Southeastern Conference basketball race yesterday.

White Kentucky, last year's champion and tied with Alabama for the lead a week ago, was lilted from conference competition by the Crimson's win a skirmish from Tennessee, 41 to 31 and edged out front with five wins to Kentucky's four.

Intelligence from the conference basketball battle fronts was meagre, for only four contests were played in which any jockeying of

positions was involved. Louisiana State improved its ranking by taking a pair from Tennessee, winning the first in a hard fight, 29 to 25 and easily whipping the Greenies in the second 48 to 26.

Georgia Tech jumped into a tie for third position with Vanderbilt by defeating Sewanee 40 to 39. It was the sixth straight loss for Sewanee but the purple quintet played its best game of the year and almost won.

Mississippi State won a pair from Southwestern of Memphis 67 to 29 and 61 to 25, and Georgia turned back Presbyterian twice, 31 to 17 and 39 to 26.

Mississippi University defeated Howard College twice 47 to 20 and 50 to 20, and Vanderbilt won over Cumberland 44 to 21. Tennessee barely beat Emory and Henry 32 to 31 and Kentucky won from Chattanooga 47 to 20.

Alabama plays the University of Mississippi Friday and Saturday in the feature games of this week. It marks the opening of the conference season for Mississippi.

for a week-end of rest and quiet, adhered strictly to her determination to have a brief vacation from the activities of a President's wife yesterday. Today Mrs. Roosevelt planned to arise early so she might be in Atlanta in time to catch an airplane for Washington.

RUNS FOR LEGISLATURE

GAINESVILLE, Jan. 22.—W. H. Ennels, Alachua automobile dealer, yesterday announced his candidacy for election to the Florida legislature in group 2, Alachua county. A former Seaboard Air Line conductor, he resided in Jacksonville for 25 years before coming to this county in 1923.

MISTRIAL DECLARED

MARIANNA, Jan. 22.—A mistrial was ordered yesterday in the case of Mrs. Ella Mae Mumford, charged with the murder of Miss Inez Lindsay, after a Circuit Court jury failed to agree upon a verdict in 24 hours of deliberation.

BRIDGE PLANS REJECTED

WASHINGTON, Jan. 22.—Secretary Ickes, the Public Works Administrator, said the Key West

\$12,000,000 highway bridge project had been rejected by the PWA administration.

SECOND AUTO DEATH

LAKELAND, Jan. 22.—Lakeland's second death in three days from automobile accidents, came yesterday when Charlie Burnett, negro, died at a hospital. John Bedgood died a few hours after

AUSTRIA OUTLAW PAPER

VIENNA, Jan. 22.—(AP)—The government last night practically outlawed the socialist newspaper Arbeiter Zeitung by prohibiting its public sale or delivery except through the postoffice for a period of two months.

MRS. ROOSEVELT RESTS

WARM SPRINGS, Ga., Jan. 22.—(AP)—Mrs. Franklin D. Roosevelt, who came to Warm Springs

What A Boy!

What a man he'll make.

His flesh is firm.
His frame is sturdy.
His teeth are sound.

Milk has the essential qualities that give to your baby the assurance of glowing health and sturdy growth.

CHEVROLET FOR 1934

It's here now, for the first time: the car that all America has been standing by to see and drive—Chevrolet for 1934! And if you aren't among the first to attend the gala introductory showing, you're going to miss one of the biggest, most exciting events of the whole motor car year. There never has been a new Chevrolet model with so many basic and sweeping advances as this one. Its different—totally unlike anything you've seen or anything you will see in motor cars for 1934!
