## Methodist Home Children Taught To Meet World

Quoted from page three of the Sanford Herald, which includes a medical examination, investigation by a parent and the superintendent, and being legally committed to the home by a county juvenile judge.

The children may be adopted by people whose homes measure up to the standards for a Christian home, Rev. Barnes says.

"In all instances," he declares, "the children being adopted must themselves be satisfied to leave their parents or sponsors committing their children to the home notified when an adoption is pending, the superintendent explains, and if they are unwilling to have the children again, they may do so.

Rev. Barnes tries to see that the children get the best social, mental, physical and spiritual preparation for life, and part of this training consists of sharing the duties and responsibilities of the home. For example, all the work in the dining room and kitchen is done by the children under the supervision of one staff member, the children in the dairy and the 16 Jersey cows are under the care of the older boys, directed by one of the residents, and supervised by the home farm, L. O. Hill.

The children attend church in Enterprise, but though the home is a church institution, religion is not over-emphasized.

There is no limit for the residents of the Methodist Home. The children are kept until they are capable of taking their place in the world. The home assists insofar as possible in securing employment.

Entertainment is largely left to the children themselves. There is a particularly good show of this in DeLand, or Sanford, where they will be allowed to attend some of the rooms have tables, and there are plenty of books to play and books to read. There is also a pool table swimming pool which is beginning to attract some of the attention right from the administration building.

The children are encouraged and encouraged to play in the home dining room.

The home was on a 100-acre tract, which was purchased by gifts from the community. The home was organized by Mrs. Mary Young, previously the children had been sent to a Methodist home in Mason, Ga. L. N. Moon headed the trustees as president.

It had already been decided

stock, vegetables are bought outside. Rev. Barnes explained that the home is located in such a rich vegetable producing area that it wouldn't pay to raise its own crops.

Rev. Barnes, who came to the home at Enterprise after six years at the Livingston Memorial Methodist Church, parsonage in Jacksonville, is married and has a three-year-old son, Fred Ronald. He is one of a family of six boys, and his grandfather, two uncles, and two brothers are Methodist ministers. His wife, whom he met while they were students at Asbury College, is the daughter of a Methodist minister. Young and personable, both are well-liked by the children.

When Rev. Barnes was called to the home two months ago, he brought with him as business manager an old friend, Fred W. Kelly, who was then superintendent of the Brewster Methodist Hospital for Negroes in Jacksonville.

Strike issues were left for future investigation and negotiation. The company makes ferro-vanadium, a steel alloy ingredient used in making armaments.

Meanwhile C. I. O. unionists voted in Chicago to end their long strike at four International Harvester plants and return to work today pending negotiation of their demands before the mediation board. They seek elimination of piece work, wage increases and recognition at two units.

The board obtained a settlement of a third strike, at the Cornell Dubilier Corporation in Plainfield, N. J., in negotiations Saturday and the fourth strike, at the Universal Cycles Company, was settled before the board could act.

An agreement for the settlement of a two-day C. I. O. strike for recognition at the huge Cambria works of the Bethlehem Steel Corporation was ratified by workers at Johnstown, Pa., enabling an immediate return to work.

Dr. Ruprecht Is Elected To Head Rotary For Year

Model Airplanes Are Exhibited At Meeting By 3 Builders

Dr. R. W. Ruprecht was elected president of the Rotary Club today for the year beginning July 1. Walter Haynes was elected secretary; J. H. Colclough, treasurer; and Ed. M. Swain, sergeant at arms.

Dr. A. W. Epps, who has served as secretary for the past ten years and who has an unbroken attendance record since he joined the Rotary Club in 1924, relinquished his position as secretary and was elected to the board of directors. T. Bradford Byrd was also elected a director.

Jimmy Ingley, Eric Jeter and Billy Hollyhead entertained the Rotarians with an exhibition of model airplanes and descriptions of their motors and flying qualities. W. St. Haynes, who had charge of the program, introduced them as outstanding members of the model airplane association and winners of numerous state contests.

Kyle demonstrated an "Olson 25" motor made by the Olson Manufacturing Company of Tallahassee. He said these motors come in three sizes, 19-23-50, that his was the middle size, a two-cycle motor of 1.7 horsepower, with a speed up to 10,000 revolutions an hour. Yesterday he said his plane flew for 10 minutes on a 15 pound motor run. It took him about three months to build the plane, he said, and cost about \$30.

Billy Hollyhead demonstrated a "Olson 60" motor, the largest model plane made, it is operated with an "Olson 60" motor of 4 1/2 horsepower. (Continued on Page Two)

Public Will Air Its Views On Proposed Local Legislation

Sanford residents will be given an opportunity to express their views on proposed legislation affecting the City when a mass meeting will be held in the City Hall Wednesday afternoon at 3:30 o'clock with this district's representatives in the Legislature.

Special legislation affecting the City will be submitted to the Legislature when it convenes Apr. 8 includes a bill providing for the election of four City Commissioners and the Mayor at one time for two year terms, Senator Housholder said.

Other bills, which were advertised by the City on Mar. 14, include:

1. To declare the sewerage system of the city a public utility, and to authorize the city to impose rates and charges for the use of such utility.

2. To authorize the City to borrow money for municipal purposes, prescribing the maximum amount of such a loan, how the indebtedness shall be evidenced and how it shall be repaid.

3. To declare the collection and disposition of garbage by the City a public utility and to authorize the City to impose and collect a charge for the collection and disposition of garbage.

Nazi-Serb Situation Grows Worse Hourly

BELGRADE, Yugoslavia, Mar. 31—(AP)—Relations between Germany and this Balkan kingdom grew worse hourly today, and the German legation secretary asserted that only an "unexpected miracle" could save the situation.

The great crisis of Axis relations, on orders from Berlin and Rome, was proceeding.

England Claims Victory At Sea

1500 Italians Said Lost When Five Of Their Ships Sink

A Nazi source at Belgrade asserted today the Reich intends to wait only until the last evacee has left Yugoslavia before serving an ultimatum with a short time limit demanding demobilization of the Yugoslav army.

It was impossible to confirm this either in official German or Yugoslav quarters, but tonight was reported to have been set definitely as the deadline for all German nationals to leave Yugoslavia.

The failure of Yugoslavia to demobilize, according to this German source, would bring immediate hostilities.

At present, men are being added hourly to Yugoslavia's army of about 1,200,000.

The British Admiralty claimed a victory in the greatest sea battle of the war—a three-day clash in the eastern Mediterranean in which 1600 Italians are believed to have perished amid the sinking of five Fascist warships.

Even as Britain's royal navy dealt this staggering blow at Italian sea power, British troops announced the occupation of Direddawa in Ethiopia, while the United States government acted to a dramatic series of raids on Axis shipping in American ports.

R. A. F. bombers meanwhile blasted the French "navy" on the coast and German Channel shipping. (Continued on Page Two)

Mrs. Smith Faces Mrs. Carraway In City Golf Finals

Mrs. Andrew Carraway and Mrs. E. B. Smith have advanced to the finals of the women's division in the city golf tournament, and will play sometime this week to determine the champion in their division, Allan Stewart, pro at the Sanford Country Club, announced today.

Mrs. Carraway gained the final bracket by defeating Mrs. John Ivey by a score of 3 and 2, and Mrs. Smith gained her place in the finals by winning over Mrs. John Eck, 2 up.

In the consolation play Mrs. Phil Grashoff will play Mrs. John Tatum to determine the winner in that flight, Mr. Stewart said.

Mrs. Grashoff defeated Mrs. W. G. Fleming to gain the finals, and Mrs. Tatum won from Mrs. W. A. Leavitt.

The consolation championship flight in the men's division continues, though G. W. Spencer has won the finals and is the new city champion. What Mr. Stewart termed one of the best matches of the year took place yesterday when Robert Axt, former city champion, played Henry Weston.

The match went 20 holes and Mr. Axt was the winner. He will play either John Ivey or Roy Hilder in the consolation finals.

Mr. Ivey beat Fred Holly 1 up, and Mr. Hilder defeated Elmer Toll 1 up. Mr. Axt gained his position in the final bracket by defeating F. D. Scott 1 up.

In the first flight Harry Toole defeated Richard Deas to win the match and the score was 2 to 1.

An exchange of team matches between the ladies of the Sanford Country Club and those from the Dub-dread Country Club in Orlando is planned for the near future, Mr. Stewart said.

"Tempo" Building Hitting Feet—Again in Washington

By CHARLES J. NEWBERRY, Central Press Columnist

"Tempo" building has been hit again in Washington's vicinity in a violent storm.

Tempo is short for temporary, and temporary means a huge 17-story edifice, built up so fast...

The cantina's first attack of tempo building immediately followed Uncle Sam's entrance into the last World War.

Tempo being restored, the civilian army didn't shrink, however, it stayed as big as in wartime until much later.
