SANFORD, FLORIDA, FRIDAY, JULY 4, 1919

NUMBER 60

WOMEN VOTE IN FLORIDA SOME CITIES

STATE RATIFICATION NEVER MADE BUT SISTERS HAVE LOCAL SUFFRAGE IN SOME PLACES

While the national woman suffrage question is coming in for so much discussion and general enlightenment of the public upon its accomplishments to date, a few minutes might be spared to glimpse the past and present accomplishments in the way of municipal suffrage.

Maryland women seem to have had a substantial hand in starting that ball on its way. The Maryland legislature of 1900 granted to the taxpaying women of Annapolis, the charter rights of woman's suffrage.

Florida followed suit in 1915, when equal municipal suffrage was granted in Fellsme, St. Lucie county. Two years later the same right was given in several other charter towns of Florida: Aventura and Cocoa, in Brevard county; Delray and West Palm Beach, in Palm Beach county; Moore Haven, in DeSoto county; Deland and Orange City in Volusia county; Florence Villa in Polk county; and Clearwater in Pinellas county. Then, in April of this year, Gov. Catts signed the Orlando woman suffrage charter which gave municipal suffrage to the women of Orlando, in Orange county.

Women taxpayers by virtue of their large number in Waycross, Ga., received a grant of suffrage in white primaries in 1917. This followed presentation of a resolution by the Waycross city council to the representatives from Ware county, of which Waycross is county seat. The city democratic executive committee of Atlanta, Ga., granted white women the right to vote at white primaries May 3, 1919.

Another southern state has a place here. Lookout Mountain, Tenn., received municipal suffrage for women by a bill signed in April, 1917, by Gov. Thomas L. Rye. The germ of this bill was the open won of the women there to have a woman member of the school board. This brought about finally the first woman suffrage bill ever brought up to a legislature of Tennessee to be ratified.

In connection with presidential suffrage, municipal suffrage for women has been granted by the legislature of North Dakota, Illinois, and Nebraska. The legislature of Vermont granted it to the women of the state two years before it granted them presidential suffrage. In that state women are voting at municipal elections in all incorporated towns.

Ohio stages a variation. In three home rule cities, Columbus, Lakewood and East Cleveland municipal suffrage for women was gained by referendum to the voters at the polls instead of by the legislature. Under the new state constitution these cities can make their own charters.

Won't Go On Ships

Norfolk, Va., July 2.—If the I. W. W. has not fastened its clutches on the men who follow the sea for a living, then it is a brand of Bolshevism that threatens to tie up the nation's shipping, declared Col. R. H. Paddison, United States Shipping Commissioner today, referring to conditions at this port.

"There appears to be a concerted movement on foot to tie up all shipping and the situation has become intolerable. I have about decided that the only recourse that we have is to call on the Department of Justice to make a thorough investigation. If Bolshevism is making such headway in this country that it can tie up commerce on the high seas, it is pretty near time we knew something about it."

MASONS BUY PROPERTY

Purchase Parramore Lots and Will Build Fine Home

Sanford lodge of Masons have just closed a deal for the Parramore property located on Park avenue opposite the new court house. For many years this property was used for livery stable purposes but the coming of the automobile forced the disencumbrance of the stable business

and for the past few years the property has not been occupied.

There are two fine building lots in the property with an east frontage on Park avenue of 100 feet and running west 117 feet and will give the Masons plenty of room for a fine building and space around the building. The Chapter and the Order of Eastern Star will assist the Masonic lodge and it is understood that in the near future a fine two story building will be erected on the lots. In fact the property was purchased for the purpose of providing a home and lodge room for Sanford Masons and the site for the new building is ideal. The property abuts on the bulkhead lake front and is two blocks from First street and is well situated for a Masonic home.

To Control Food Price
Berlin, July 2.—Under an agreement with the railroad strikers, the government proposes a reduction in the price of foreign, especially American food, totalling 1,500,000,000 marks, to be distributed and charged to the empire in free states and communities.

Half a pound of American flour now costs 2 marks, 20 to 50 pennings, and in future will cost from 80 to 85 pennings. A quarter of a pound of rice which now costs 3 marks will be reduced to 2. Cereals will be lowered from 2 marks, 20 pennings to 1 mark, 10 pennings, and 1 mark, 30 pennings. The price of foreign meats will be cut down from 11 marks to 4 marks, 55 pennings per pound. American bacon, a quarter pound of which now costs from 7 to 8 marks, will be reduced to 4 marks and 4 marks, 50 pennings. Fifty grammes of foreign fats, the price of which is from 6 to 7 marks, 50 pennings, potatoes also will be cheaper under the new system.

The New Cigar Factory
Sanford's new cigar factory has an advertisement in this issue regarding their new brands that are now on the market and are proving good sellers. The brands are Pat's Peg, Some Brush and Tampa Trail. A letter being their prize winner. As their ad relates the factory is owned and operated by Pat and Winters and Schellie and Louis Miller and their Sanford friends. Look for the popular brands and smoke the cigars that are made in your own home town.

The new factory is located in the Bishop block and the boys are always glad to see you and to show you over the place.

First Bale Brings \$1,000
Houston, Tex., July 1.—One thousand dollars was paid for the first bale of 1919 Texas cotton here yesterday, when it was sold at auction on the cotton exchange. The bale weighed 471 pounds and was sold at \$2.12 a pound to N. D. Naman of Houston. It was grown by Salvador Cardenas in Fidalgo county.

Mrs. C. H. Dingee of Jacksonville is in the city this week, the guest of Mrs. R. J. Holly. The many friends of Mrs. Dingee are glad to see her again.

Peace at last!

Saturday afternoon the news was flashed to the Herald office and a bulletin was immediately posted announcing the event, one of the greatest in the history of the world war. The people here were prepared for the news and there were no demonstrations made after the news was received and business was resumed as usual. The actual facts of the signing are told in the following despatch.

Premier Clemenceau put the direct question to the Germans, whether or not they were willing to sign and execute loyally all the terms. The other delegates did not arise when the Germans entered the hall. At 3:44 the cannon began to boom announcing the completion of the ceremony. The signatures had not, however, as a matter of fact, then been completed for at that time the smaller nations were still signing in alphabetical order. The proceedings formally closed at 3:43 o'clock. The protocol was signed by all who signed the treaty, but the Rhine agreement was signed by the Germans, Americans, Belgians, British and French plenipotentiaries.

As Premier Clemenceau, President Wilson and Premier Lloyd George emerged from the palace the great crowds gathered outside, swept the cordons of guards aside and cheering madly the three statesmen were swept along by the surging thousands. Many soldiers broke ranks and joined in the demonstration.

The Germans left the hall first, the allied delegates remaining in their seats. Those assembled in the hall then went into the terrace to see the fountains playing.

At the last minute a change was

made in the program to expedite the signing, two additional tables being placed beside the one within the historical hall on which the treaty was laid, and one held the Rhine convention, the other the protocol containing the changes and interpretations of the treaty, all these had to be signed by each plenipotentiary.

Hours before the time set for the ceremony, a seemingly endless stream of automobiles began moving up the cannon lines hill, past the Arch of Triumph, carrying delegates and the official guests to the ceremony.

The thoroughfare was kept clear by the pickets, dragoons and mounted gendarmes.

The events of the past five years are summed up briefly as follows:

Five years ago Archduke Francis Ferdinand and his wife the Duchess of Hohenburg were assassinated by alleged Pan-Serbian fanatics at Sarajevo. That was the incident which gave the Hohenzollerns and Hapsburgs a pretext for war, and led the kaiser to exclaim: "Now we shall see what an army is." However, racial and political differences had made Europe and especially the Balkans a "mass of tinder ready for lighting." These differences found themselves in the Austrian Serbian situation which burst into flame at the assassination. In everything that Austria demanded she was backed by Germany. On July 23 Austria presented her ultimatum to Serbia. Two days later Serbia replied, and the next day the Big Bully, Germany, ordered the other nations to keep their hands off Austria who was determined to chastise the little country. The same day Sir Edward Grey suggested that each

power should send representatives to London to discuss means to avert complications. On July 28 Germany and Austria refused Grey's offer, and the same day Austria declared war on Serbia and the following day began to bombard Belgrade. Two days later Germany declared war on Russia, and the war was on.

While the event of five years ago was a pretext for the Central powers to wage war it has since been proved that the Hohenzollerns and Hapsburgs while not ready for war in every department would have won the war if they had played it fair and square. Instead they tried to make up for their incompleteness by cruelty, inhumanity and viciousness. They blundered consistently in their foul, unwarranted attacks upon the little nations and civilization, and first drew Great Britain in, later Italy and finally America. The Anglo-Saxon race, the English speaking race, turned the tide of war and defeated the Huns. Had Germany and Austria played the game according to rules of war Belgium would not have been violated and Great Britain might have stayed out of the war long enough to have enabled the Central Powers to dispose of France and Russia. Then the war gods of Hunland could have rested on their victories, finished the work of equipping army and navy, and perfecting the diabolical instruments of war, and in a few years turned upon the world and subjected it to Germania's beastly ideals of culture.

It is more than a coincidence that defeated and humbled Germany, from a military standpoint at least, should sign the terms of peace on or very close to the fifth anniversary of the event at Sarajevo which to all practical purposes was the starting point of the Hohenzollerns and Hapsburgian dreams of world empire.

Change in Fertilizer Prices
The Department of Agriculture has furnished to County Agent C. M. Berry a list of the maximum f. o. b. prices at which principal grades of mixed fertilizers can be obtained in 30 ton lots at all south Atlantic and gulf ports. Mr. Berry has the list of all the fertilizers and the farmers are requested to call on him and get the prices. For instance, the formula used here so much is Ammonia 4 per cent, Phosphoric Acid 7 per cent, Potash 3 per cent. This mixture according to the government report will sell for \$44.75 per ton at Tampa or Jacksonville in 30 ton lots. For cash 5 per cent off would bring the price at about \$45 per ton delivered here. These prices have been compiled after a canvass of every state in the union and a comparison of prices of fertilizer and the farmers should know this fact and be governed accordingly. See Mr. Berry for further particulars.

Will Control Wheat
Chicago, July 2.—Julius Barnes, American wheat director who will have direct control over exportation and importation of wheat and flour beginning tomorrow, announced today that properly executed licenses already issued by the war trade board would have the same force and effect as if issued by him.

WAR TIME PROHIBITION EFFECTIVE

NEW LAW WILL BE ENFORCED EVEN IN THE LARGEST CITIES BY GOVERNMENT OFFICIALS

Washington, July 3.—Wartime prohibition, effective at midnight Monday will be strictly enforced so far as the present machinery of the internal revenue bureau can function at that time. It was said at the department offices today that intentional violation of the law in New York and other cities would be stopped by department agents. Whether the force can break up any secret traffic that remains will be decided only by time but officials said the increased appropriation asked for general law enforcement would permit of a considerable enlargement of the department's force.

Beer containing 2 1/4 per cent of alcohol is regarded by department of justice officials as intoxicating and persons who undertake its sale will be arrested it is said. Suit has been brought in Baltimore to have the courts determine whether such is intoxicating with the definition of the law but before final judgment is entered congress will have specifically fixed in the enforcement law the amount of alcohol which beverages may contain.

In the opinion of the department of justice officials and congressmen, wartime prohibition laws will have been enforced when the constitutional amendment becomes effective prohibiting the shipment of beer into territory where its manufacture and sale is forbidden by local law. Information has reached the department that many persons living in "dry territory" have stored quantities of liquor in "wet cities" with a view to transporting it after today, but enforcement of the Reed amendment will in no wise be relaxed.

The New Tax Law
The article in this paper on the new tax law that provides for the redemption and sale of tax certificates held by the state of Florida may have been misleading in regard to the time. The law is in operation now so far as redemptions are concerned giving the owners or agents until January first before certificates can be sold.

Section 7 says:
That none of the provisions of this act shall go into effect or become operative, in so far as relates to the sale of tax certificates, until January 1, 1920, thereby giving the owner or agent or representative of the owner, or other person acting for the owner, the privilege of redeeming his land under it is act, up to and including December 31, 1919, without any person having the right to purchase the same.

State Taxes Higher
The state millage for the year has been fixed showing an increase over last year of 50 per cent and an increase over 1916 of 100 per cent. Twelve mills is the amount of revenue. Twelve mills is the amount of revenue, divided as follows:
General revenue, 5 mills; state school tax, 1 mill; pension tax 3-1-8 mills; state board of health, 1/2 mill; state road, 2 mills; state prison, 3-8 mills.

Last year the millage was 8, while in 1916 it was 6 1/2. The valuation of the state last year was \$535,000,000. This year it is likely to be nearer \$370,000,000. Twelve mills on that valuation will raise \$4,440,000.

Three years ago the valuation was about \$310,000,000. A 6 1/2 mill levy on that produced \$2,015,000.

The big item of new taxes is in the federal aid for good roads. Two mills, and in the state prison fund, 3-8 of a mill, part of which is due to the fact that the turpentine operators are no longer using the convicts. The pension tax is also a little higher than last year.

Chauncey Wilson has escaped from Orlando, where he was held in captivity by the Butt Tire Co., and he will be with the Sanford Cycle Co., where he will have charge of the vulcanizing department. Chauncey's many friends are glad to see him back in a real city again.

PATRIOTIC CELEBRATION

Brotherhood Class of the First Methodist Church Has Arranged the Following Program to Welcome Home the Returned Soldiers and Sailors.

The Brotherhood Class of the Methodist church will give a welcome to the returning soldiers and sailors next Sunday night at 8:30. Seminole county has not welcomed the boys home as yet and the Brotherhood Class will be the first to show the boys an appreciation of the great work performed by them over here and over there.

Everybody is cordially invited to attend the meeting and it is hoped a great outpouring of the people of this county will be present to greet the boys. All the soldiers and sailors are requested to come to the meeting in their uniforms.

All patriotic spirits will aim to be present at the Big Welcoming Event for which elaborate preparation is being made, as heretofore announced in this paper. The Brotherhood has the arrangements in hand, and Mr. E. T. Woodruff has been requested to take charge of the music. The evening promises inspiration, enjoyment and patriotic as well as spiritual uplift, such as is only on rare occasions afforded the people of our community. Below is a brief announcement and list of the good things that may be expected:

Union meeting at the First Methodist church of Sanford, Fla., Sunday evening, July 6th, at 8:30 p. m.
Welcome: By the Churches and Sunday Schools of Sanford to the returning boys; Order of Exercises—America—Hymn 720, Verses 1, 2 and 4 (Everybody wake the echoes with Patriotism)

- Invention by Rev. M. H. Massey
- Ring Out, Sweet Bells of Peace—Roma
- Scripture Lesson by Rev. E. D. Brownlee
- A Soldier's Talisman—Oberthur
- Welcoming Home Coming by Supt. Haynes
- The Marcellaise and Star Spangled Banner
- Introduction of Hon. E. A. Douglass, Vice President of the Wesley Brotherhood Class by Supt. Haynes
- True-Hearted, Whole-Hearted, Hymn 420 (Let everybody "Peal out the watchword")
- Address by Rev. C. DeW. Brower—Subject, Patriotism
- The Sword of Bunker Hill—Covert
- Short Addresses by the boys who have been on the other side: Prof. J. C. Hutchison, Jr., Oliver Murrell, Herman Steele, Hon. R. J. Holly, Fred Corey Wight, Worthington Blackman
- Battle Hymn of the Republic—Verses 1, 2 and 3. (All unite in a Grand Final of "Glory, Hallelujah")
- Benediction by Pastor.

RAILWAY RATES TO BE ADVANCED

Public Treasury Will Be Relieved of Burden of Meeting Deficits in Earnings.

EDITORS' POLL IN CONGRESS.

Heavy Vote for Return of Roads Arouses Interest at the National Capital.

Washington.—The national poll on the railroad question by 6,000 newspaper editors throughout the country has aroused great interest at the national capital. With 81 per cent. of the editors giving it as their impartial opinion that the public favors an early return of the railroads to their owners and only 11 per cent. favoring Government ownership or operation, the members of Congress of both political parties propose to provide speedily for the legislation to make it possible to restore the roads to private management before the end of the year.

In Congress there is a general agreement that the following steps will have to be taken before the roads are returned to their owners:

1. An advance in rates to meet the greatly increased cost of labor and materials in order that the Public Treasury may be relieved of the burden of meeting monthly deficits and the roads made self-supporting. The Director General of Railroads states that the increase in rates thus far is about 25 per cent. as compared with an increase in operating costs of from 50 to 100 per cent.
2. Greater nationalization of public control of transportation—a single public control in the Federal Government in place of 49 masters in the different States, with conflicting laws and regulations.
3. Legalization of consolidations and common use of lines and facilities wherever in the public interest.
4. Assurance through an act of Congress that in the future the Government will approve of rates for freight and passengers that will not only be fair to the public, but fair to the roads, and that will yield a sufficient income.

ATLANTIC HOTEL
Hay and Hogan Sts., JACKSONVILLE, FLA.
All railroad ticket offices in building. Center of everything. All modern improvements. First class in every way. Hot and cold running water in rooms.
Rates, \$1.00 up.
Room and bath \$1.50 up

A Narrow Escape.
"I met in Switzerland the girl who afterwards became my wife, and proposed to her on the verge of a chateau."
"Good heavens! suppose she had thrown you over?"

Opposite Proceedings.
"There is one very queer thing about my wife's bills."
"What is that?"
"The more she contracts them, the more they expand."

An Economist.
"Pa, what is an economist?"
"An economist, my boy, is a man who tells what you should have done with your money after you have done something else with it."

The Result.
"I had a friend who went hunting for a peach of a wife."
"What happened?"
"He picked a lemon."

Serious.
"Pa's sick."
"Anything serious?"
"You bet. Whenever anything's the matter with pa it's always serious."

Of Course.
"I suppose there were times in my life when I did need a good dressing."
"Probably they were your salad days."

Naturally.
"The vessel yonder ought to be called the Poodle."
"Why so?"
"Because it is a French bark."

DADDY'S EVENING FAIRY TALE

By Mary Graham Bonner

THE DOCTOR KEEPER.

"The animals in the zoo were talking," commented Daddy, "and they were talking of their adventures before they came to the zoo."

"Many of them had come from foreign lands, though a good many too had been born right in the zoo. Those who had been born in foreign lands, and in far off places, and near distant rivers were talking of their adventures while the ones who had been born in the zoo only talked of zoo happenings."

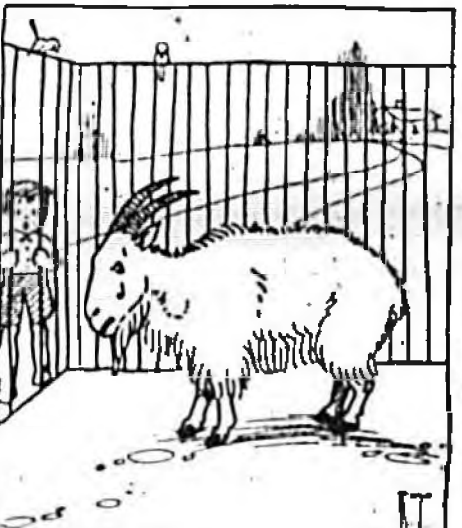

"Then, after awhile, after they had talked of adventures, Jerry, the Rocky mountain goat, a great creature of the zoo—so he considered himself at any rate, spoke and said:

"Animals of the zoo! Attention please! I have great news to tell you. It was an adventure but it was more than an adventure."

"All the animals looked at each other, shook their heads and said, 'It was an adventure, and yet it was more than an adventure. It was something very wonderful, we're sure.'"

"Wouldst have me tell it thee?" asked Jerry.

"The animals' once more wagged their heads and said to each other, 'It

"I Swallowed a Baseball."

must be very fine if he talks in this way."

"Jerry overheard them and said, 'You are right, friends, it is very fine.'"

"Tell it to us," roared the animals.

"At once, fellow animals of the zoo," said Jerry,

"And clearing his throat and coughing twice in a most peculiar way he said, 'It is more than an adventure when one is ill. It is more, a great deal more. And it is more because it is worse to be ill than to have an adventure. Having an adventure is sometimes dangerous but it is usually great fun.'"

"Being ill is often dangerous and it is never fun."

"Jerry paused, and one of the lions from his cage roared out, 'I had a cold once, but no one thought it was dangerous. In fact everyone thought it was my own natural voice.'"

"Well," said Jerry, "it isn't always dangerous to be ill, but my illness was dangerous and magnificent."

"How could it have been magnificent if it wasn't fun?" asked another one of the animals.

"Ah," said Jerry, "you do not understand. It was magnificent because it was so big and so unusual and so interesting."

"How in the world could an illness be big?" asked some of the other animals.

"Mine was," said Jerry proudly.

"Tell us about it, the animals begged."

"My illness was a baseball."

"And what in the world, pray tell, is that?" asked a zebu near by.

"It is different from most illnesses—to have the baseball," said Jerry, "it's not common like colds and aches and trouble with the teeth. It's an illness seldom had—it's one that a superior creature like myself would have."

"You see I swallowed a baseball once and it got stuck in my throat. So I had the baseball illness. See?"

"All the animals nodded their heads."

"But I didn't think it was magnificent until the baseball was removed, and who do you think took that horrid baseball out of my throat?"

"I will tell you myself to save you all the trouble of guessing. The good keeper took it out. Yes, he found me in great pain, one night, many years ago. The zoo doctor was not around just then, but our keeper was nearby—and he heard my moaning and my groaning."

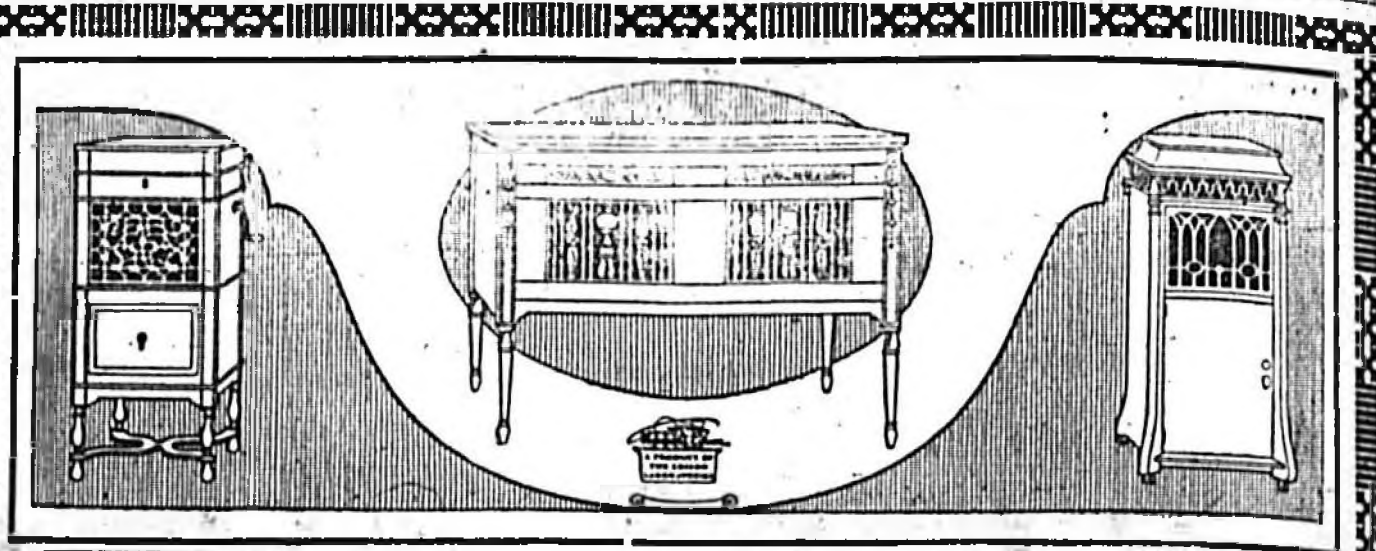

"He got everything ready and he gave me something soothing to stop my pain until the baseball was out. So I have always called the keeper my doctor keeper from that night to this day. And now that it is all over, now that I have forgotten about the way it hurt I can boast of having had an interesting illness—the baseball illness."

"I was going to tell you of how my toenails grew quite crooked and had to be fixed," said the lion, "but after having the baseball illness nothing else is worth mentioning."

"Nothing," agreed Jerry proudly, "but the good doctor keeper."

Effort Has Its Value.

However good the thing you gain, the effort of securing it has its value. To work for something is not strength thrown away. That which comes to us without trying profits us little, but honest effort, put forth for any honest end, pays large interest.—Girl's Companion.

When Wood Seems to Live and Breathe

THE effect is almost uncanny. It reminds one of "The Unknown Purple," one of the season's hits in New York. In the play, the hero, who has discovered how to become invisible at will, vanishes into thin air while in full view of the audience. And still his voice can be heard issuing from a purple ray.

That is how the New Edison impresses people. They feel that the artist must be there in the flesh, concealed somewhere in the room. With such complete fidelity is the singer's voice or instrumental interpretation Re-Created by

The NEW EDISON

"The Phonograph with a Soul"

As a matter of fact it is utterly impossible to distinguish the voice of the living artist from this marvelous instrument's Re-Creation of it. More than 2000 tone tests in which the artist sang in direct comparison with the instrument have proved this assertion. More than 2,000,000 people have attended these tests and not one has been able to state when it was the singer he heard and when the Re-Creation.

Call at our store the next time you're in the vicinity and prove to yourself that the claims you've heard made for the New Edison are not too strong.

COUNTY HAPPENINGS

A BUNCH OF INTERESTING ITEMS FROM CORRESPONDENTS—EVENTS OF SEMINOLE COUNTY—EFFICIENT REPORTERS FOR THE HERALD

WEST GENEVA AVENUE
 We are still having rain but it is good on the potato crops.
 Mr. and Mrs. Jesse Thompson are going to move on his brother Jack's place next month and we are all glad to have them in our little settlement.
 Mr. and Mrs. Will Robinson and family spent last Sunday in Geneva.
 Miss Edna Thompson and Mr. Lafayette Humphrey spent Sunday afternoon with Mrs. J. E. Vaughn.
 Mr. and Mrs. Tom Fortier were calling at Lake Mary Sunday.
 Mrs. J. E. Vaughn and Mr. Paul

Mansfield called at Mr. Sheaffer's Tuesday to see the large yellow jacket's nest. It is the largest that has ever been seen in the world. I think it must be fifty years old. It is six feet high and eleven feet around.
 There are many sights to be seen in this old world that we haven't seen.
 We are all glad to know that Mrs. George Ballinger is able to be out again, after a bad spell of sickness, all with the good care of Dr. Puleston.

Upsala calling for good roads! Well, they sure need something to excite the time for Jesse Lee is the only one that has nerve enough to buy a car out that way. Now Lake Mary says nothing and has four fine cars to its credit. We say build the roads where there is something to run on it. Just put sidewalks in Upsala as there are only foot passengers out there.

The A. C. L. shop boys were looking for a raise. So were the merchants. Well, groceries are higher, so guess they must have got it, the merchants.
 Wonder what the Germans think when the American boys celebrate the Fourth of July over there. They will sure have to shoot something for they probably won't have any fire crackers.

LONGWOOD PICK-UPS
 Jasper Driggers, the second Longwood boy to return from France arrived last Friday.

Miss Fern Singletary of Jacksonville is visiting her grandmother, Mrs. Geo. Lewis.

Mrs. Sam Ellnor and two little daughters, Louise and Elizabeth of Havana, Fla., are the guests of Mrs. Ellnor's parents, Mr. and Mrs. J. M. Waits.

A. Y. Fuller of Orlando was looking over his grove on Friday and having it worked.

Annie Niemeyer returned from Palatka last week, where she had been visiting friends.

Mr. and Mrs. Frank Miller of Sanford are chaperoning a party of young Sanford people at their camp at Palm Springs.

Rev. Milton of Kissimmee held services at the Baptist church on Sunday.

Geo. Lavine and family and Mrs. Partin were calling on relatives in Orlando on Saturday.

Mr. and Mrs. J. S. Dinkel were in Sanford on Wednesday.

Miss Olive Dinkel returned to Orlando on Saturday.

There are several Longwood ladies who so faithfully served the Red Cross during the year 1918 who are entitled to a service badge.

EAST SANFORD
 Rev. J. R. Allen was over from Enterprise Sunday to preach at Moore's Station church. T. B. Konard on moving to the West Side resigned as superintendent of the Sunday school. Elwood Irish has been appointed to fill the position. As usual, being the fifth Sunday in the month the contribution was sent to the Enterprise Orphanage.

Mrs. C. C. Morris and Alice are in Orlando and Forest City visiting relatives this week.

Doak Hasty was in Jacksonville the first of the week.

Mr. and Mrs. Archie Purvie are taking a three weeks' auto trip on the west coast and will visit Mr. Purvie's parents in Tampa.

Mr. and Mrs. I. D. Martin are leaving on the boat Saturday and will take the Apache in Jacksonville and go by water to Portland, Me. They will be back on November.

Mrs. F. F. D. is away this week for Haverhill, N. H. to visit her sister and will be back in Boston, Mass.

Mr. and Mrs. C. D. Couch and little daughter returned Monday from a pleasant vacation at Daytona Beach.

Mr. and Mrs. Ed R. Gormley, son and daughter of Jacksonville, with Mr. and Mrs. W. M. Haynes and daughters from town were calling on East Side friends Monday. The Gormleys are driving a fine new car.

Philip R. Andrews of Celery avenue has gone to his summer home in Kennebunk, Maine.

Mrs. G. C. McDougal, Mr. and Mrs. Norman N. Swanson, Miss Catharine McDougal, Mrs. Libbie Woods, Mrs. Anne Weeks, Paul and George Figgall and Miss Clara Jones from ... had a delightful day at Coronado Beach last Wednesday.

Mr. Pezall of Beardall avenue returned home Tuesday from a three weeks' stay in St. Louis, Mo., his former home.

Mr. and Mrs. Clifford Bell, daughter and son and their nephew, Paul Younts are driving to Charlotte, N. C., this week to be gone some time.

We hear F. F. Dorner and Ed. Biggers are in Jacksonville buying cows to begin a dairy business in Sanford.

Sam Younts, inspector for the East Side for the Sanford Truck Growers, Inc., this past season, has gone to Pittsburg, Pa., to take a position.

Mr. and Mrs. J. F. Hickson have moved into their attractive new home on French avenue.

Mrs. J. C. Hall of Celery avenue

WILLARD DEMPSEY

Today is the day of the big scrap. We believe that Willard is going to have the hardest battle of his career to fight. We pick Dempsey as the man knowing the most about boxing. He is the most scientific. To offset this Willard has his brawn. Willard is the oldest and biggest, but this does not by any means make him the best man

BECAUSE

Take the Gent's clothing stores of Sanford for instance. We are not the biggest YET, we are not the oldest, in fact we are the youngest of them all, but—WE ARE THE BEST. We don't have to say this about ourselves either. Ask the man who trades with us. He has traded elsewhere before we opened, he knows. Another thing, you have heard merchants giving you this, "we appreciate your business" stuff haven't you? We have said this too, but we do better than that, WE PROVE IT. One of our ways of proving it is in the values we give. We can't be beat when it comes to

was hostess to a jolly crowd of young people Tuesday evening. Many delightful games and delicious refreshments were enjoyed.

Mr. and Mrs. T. O. Tyner made the trip to Isleworth Sunday to carry down their mother, Mrs. Bengston to the home of her daughter, Mrs. Noah Fry.

Miss Edna Williams spent the week end in town with friends while her father took a trip to Daytona Sunday with friends.

Mrs. Garda Lundquist and four children of Pensacola are visiting here at the home of their parents, Mr. and Mrs. J. E. Lundquist. We understand that her husband since he recovered from the loss of his arm has been given a better position as overseer by his company.

Next Sunday was the day for Rev. Albertson to be with us but we have not yet heard from him.

Mrs. J. E. Lundquist visited her daughter on Tuesday as the latter was quite ill the first of the week, threatened with appendicitis.

Jesse Thompson returned last week from Waycross but is still crippled with rheumatism. They are expecting to move on to their brother Jack's place next week.

Mrs. Volie Williams returned Sunday evening from a month's vacation spent with relatives in Kentucky and Virginia. She very much enjoyed meeting with her new mother.

Our Congressman

I know I have a congressman in Washington, D. C., for now and then he comes around to get a vote from me; He proudly shakes me by the hand and asks about my needs, and when he goes to Washington

What's more used (or abused) than a pocket knife? And we don't know of a pocket knife that's used more than the PRIMBLE—nor one that will stand more abuse. We don't know of a knife—the world over—that has better blade-quality, edge-retaining quality than the PRIMBLE. It's the knife of good service and long service.

The handles are secure. Blades are perfectly fitted. The spring action is dependable and the blades do not work loose and wobble after constant use, nor will they project and catch in your pocket. The PRIMBLE blade is forged from best English steel, and your protection lies in the PRIMBLE shield (etched on blade) which marks it as genuine. Don't you think it would be well to provide yourself with a really good pocket knife—in fact, the best to be had? Our line of "PRIMBLE" includes the pattern and size you prefer.

SANFORD FURNITURE CO.

J. D. DAVISON, Manager

He sends me garden seeds. Whenever there's a bill for which I'd like to have him vote I trust in him and tell him so. By telegram or note; And he gets every one, I know, And every one he reads, For always when the spring has come He sends me garden seeds.

The other day I wrote to him: "We put our faith in you To make the League of Nations safe If Wilson puts it through." His answer came right back to me: "Appreciate your needs. Am sending in tomorrow's mail Some lovely garden seeds."

I'm glad I have a congressman in Washington, D. C., His legislative efforts there Mean, oh, so much to me! He is my representative, For me he intercedes, And always when the spring has come

He sends me garden seeds, Radishes and lettucees, Tomatoes, cucumberses, Such lovely garden seeds! —J. P. McEvoy in Saturday Evening Post.

This sounds like comedy but really there is much truth in it after all and McEvoy knew what he was talking about when he composed the above poem. Florida at this time does not need seedling congressmen. We do not want garden seeds, we want real work and we want to hear from time to time that our congressman is really doing something and if it is impossible for him to do anything then get off the job and let another do it and believe me there are other men who can do something up there beside draw their salary.

How does De Valera get that way? He is in New York and announces himself as president of Ireland. Has the good old strains of Kellys and Murphys and O'Learys and Shaughnessys and all the rest run out in Ireland? As the Times-Union suggests we might just as well nominate Patrick O'Flaherty for president of France.

Sanford will have that pavilion on the lake front some of these days. Some club will build it. There are rumors now of the Woman's Club selling their property on Oak avenue and building a fine club house on the lake front. This is indeed gratifying and will be fine for the Woman's Club and fine for Sanford. We will never enjoy the advantages of the lake until we build a pavilion and club house on the shore.

Sometimes I think that maybe the people here are hardhearted because they seem neglectful of the

commonwealth but I have knocked around the world a whole lot and right here in Sanford I believe we have the biggest hearted people that can be found anywhere. For instance I happened to be at many funerals, at funerals of people in straitened circumstances, at homes where the people had insufficient clothing, at accidents of various kinds where the victims needed clothing and a home for the time being and never in all these years have I found the people of Sanford lacking in that Good Samaritan spirit that should be the basis of true religion. There are some ladies of this city and one lady in particular who is always on the job when a kind and helping hand is needed. Should anyone at any time need a car it is there for them. Should assistance be needed at any time day or night this lady is there and she does not lend this assistance in a way that makes the recipient feel that he or she is under obligations. This lady has ample means of her own and she delights in assisting those who need it and there are others here just like her. Thank God for this great Christian spirit that is never found wanting among our townspeople. They are of the salt of the earth.

If some man don't build some more houses in Sanford soon there will be a riot among the people who have been dispossessed by the buyers. I cannot rest well at night there are so many rings at my door by people who want to rent or buy my house. The city council will have to erect tents to house the people ere long. There never was such a rush of people looking for houses here in the past thirty years.

Over against the over time faith worker put the man who is self centered and simply filling up his required time in selfish interest. To him life is a workshop in which he draws his pay for work done. Interest in his work is simply a matter of drawing his pay. He does not put himself into the task but his limited time is carefully measured by the money return. His work is drudgery, only his money reward is of any interest. He knows nothing of Kipling's "All for the joy of doing." He does not fish as the true sportsman, for the sake of the fishing but just to fill full his creel and count and weigh his catch. What he can get out of life with the least expenditure of himself is his ever constant study." —J. T. S.

Says an exchange: "Queer, isn't it, that the most rampant and radical ranters against the prosperous people and institutions of this country are men and women who have never had anything themselves, and wouldn't know what to do with wealth or property if they had it. But they talk about how things should be done and what better times there would be without any law or order. And the queerest thing about it all is that some people who seemingly should know better listen to such 'mouthings' and are misled thereby."

Boys are returning from the service now and are looking for their old jobs back. Most of them in Seminole county are being well cared for. Some left here without a job, and of course come back without a job. These boys must be looked after as well as the fellow who left a job. Maybe when the boy left he did not want, need or care for a job, but now that he has seen things in the service he has come to realize what life and service mean. It is the duty of every citizen of this and other counties as well, to provide these young gentlemen with jobs in order that they may take up their life's duty and be self sustaining—that they may complete their education—or that they may finish paying for their homes—in order that they may do the thousand and one things you could or would expect a young red blooded American to do after having gone through the war or wars—after having fought for the right for you and for me. Now if you should happen to have a job or if by a little changing you can make a job for one of these manly fellows just call him up or stop him on the street and say to him "Come on over to my place and I'll give you work." He will look you in the face and thank you—then his heart will be glad—glad that he has done what he did and what he could while wearing the uniform. Think it over.

BEER NOT BARRED

Washington, July 1.—As wartime prohibition took effect Monday night the department of justice announced that its agents throughout the country would not attempt tomorrow to stop the sale of 2 1/4 per cent alcoholic content beer.

The eleventh hour development, a flat reversal of an earlier ruling today by the department was due to the uncertainty as to how the federal court of New York might rule on a pending claim by brewers that been containing that much alcohol is not intoxicating.

While this uncertainty existed as to beer of lighter alcoholic percentage than that sold generally heretofore, full warning was given that with respect to whiskey and all beverages as to whose intoxicating powers there was no doubt, every governmental agency would be set to work in a determined effort to prevent their manufacture and sale.

How long the sale of 2 1/4 per cent beer might continue would depend ordinarily on the speed of the courts, but congress will, step to the front in an effort to complete the effectiveness of the wartime law.

Daily Thought.

Let us consider the reason of the case. For nothing is law that is not reason.—Sir John Powell.

Unexpected Information.

A clergyman lost his horse on a Saturday evening. After hunting with a boy until after midnight he gave up in despair. The next day, somewhat dejected at his loss, he went into the pulpit and took for his text the following passage from Job: "Oh, that I knew where I might find him." The boy, supposing the horse was still the burden of thought, cried out: "I know where he is. He's in Deacon Smith's barn!"

SANFORD REAL ESTATE CONTINUES TO MOVE HOME PEOPLE BUYING

PEOPLES BANK ANNEX BUILDING SOLD TO BALL HARDWARE COMPANY — OTHER SALES IN CITY AND COUNTY PROPERTY

One of the largest deals in city property and especially of business property pulled off in Sanford in the past few months was the sale of the store rooms and office building of the Peoples Bank of this city. The property is located in the heart of the city and consists of three large store rooms facing on First street opposite the Hotel Carnes and the second floor in offices and is considered one of the best locations in Sanford. This property was sold Tuesday to the Ball Hardware Co. of this city by the Peoples Bank. The building is brick and is about eight years old and gives the Ball Hardware Co. a fine location and plenty of floor space.

This sale means the removal of at least three firms who are located in this building as the new firm expects to take possession in about thirty days. The price of this building has not been made public but it is rumored that it was around the \$20,000 mark.

Other sales noted this week are the Dr. Kelley farm to C. L. Byrd on the west side at a handsome sum,

two fine city lots corner Tenth and Palmetto to D. P. Drummond who will build at once, the O. W. Brady farm of 50 acres and 70 acres of the H. H. Chappell place to John Russell, the McGahagan place, corner Myrtle and Sixth streets, to H. L. Gibson, four blocks on the lake front just east of the Zachary-Tyler Veneer Co. to G. D. Bishop for a home and farm, the Dr. Person farm on the west side to Geo. McCrum of New York.

The Rich farm at Cameron City has been sold to R. L. Grier, a Sanford grower who has been renting this property for some time.

The Parramore property on Park avenue, opposite the court house, to the Sanford Lodge of Masons.

All of the above sales were made through the A. P. Connelly Real Estate Co.

Other sales noted are the Jewett farm on the west side to T. J. Miller and the Bruce Miller farm on the west side to E. L. Brown.

All of these sales with the exception of the Person farm to McCrum were made to home people who know the value of the property in this section and are anxious to secure it at once. In fact this buying and selling of property among local people demonstrates that there is a fixed value to Sanford property and

friends who will wish her happiness. Mr. Vincent is a prominent business man of Vero, Fla., and has a host of friends who unite in extending cordial congratulations to him and his bride.

Sheaffer Has The Nest

R. C. Sheaffer finally obtained the mammoth yellow jacket's nest and has brought it to his home at 113 Elm street where it is attracting considerable attention. The nest was located in a swamp near Cameron City and it took Mr. Sheaffer several days to gas the jackets and get them groggy enough to enable him to dig out the bottom of the nest and bring it away intact. The nest had been built around a pine stump and was also stretched from several small trees making it difficult to cut it loose. The nest is six feet high and measures ten feet in circumference and is pronounced by those who know to be one of the largest yellow jackets' nest that has ever been discovered in this part of the south. Mr. Sheaffer has several fine pictures of the nest and is holding it for a curio collection that he is making. He has several good offers for the nest but has decided to keep it and place it on exhibition. The jackets are great workers and make their nests from a pulp of wood that is very much like gray wrapping paper, very soft in texture.

Any one wishing to see the nest can go to Mr. Sheaffer's residence at any time.

Why Stings Hurt

The pain caused by the sting of nettles is due partly to formic acid and partly to a chemical resembling snake poison. Our nettles are comparatively harmless; but in India, Java and elsewhere, there are varieties the painful effects of which last weeks, and in some cases months, like snake-bites.

Signs of Executive Ability

"Smart baby."
"You bet. He'll make a fine executive some day."
"What makes you think so?"
"He has everybody in the house working for him already."

Oh, Piffle!

Bob—I understand she is the most proper person you ever met.
Sam—You bet; won't even accompany you on a piano unless there is a chaperon near.

APPEARANCES

"I must look like an easy thing."
"What makes you think so?"
"Everybody tried to do me. Even when I went to my gardener's to buy a vine, he tried to sell me a sucker."

A Ragtime Melody

Pickaninny's in de crib,
"Cryin' like de chickens,
Mamma's bakin' 'nue cakes,
Daddy's huntin' chickens."

The Easiest Way

"How do you and your wife manage to adjust your little differences so pleasantly?"
"Easily enough. I just admit I am wrong."

farming property adjacent to the city.

Many farmers are selling their improved lands and buying new land with a view of clearing up the land and making new farms for they realize more than the newcomer how good these lands are when brought into perfect condition.

The Sanford section is undoubtedly the greatest farming section in the world and when home people begin buying lands and city property and back their faith with their money it means a steady growth that will build a great city and a great country here in the next few years.

JAILER'S NARROW ESCAPE

Inmate of Cell Shoots David Speer Making Slight Wound

Jailer David Speer had one of the narrowest escapes from a bad wound that mortal ever can and live to tell the story.

A. P. Dawson of Altamonte had been arrested for failing to dip his cattle as prescribed by law and brought to jail here late Saturday night. He had not been searched for weapons as he was not supposed to carry any and was placed in a cell where he stayed until Sunday morning. He called Jailer David Speer to the door of the inner cell Sunday morning, saying that he wanted something and as Mr. Speer came close he reached out with a pistol and fired point blank at him. The jailer saw the movement in time to raise his right hand slightly which deflected the gun and made a flesh wound in his right hand and across his abdomen. The pistol was pointed straight at his body when Dawson pulled the trigger and the narrow escape from death or at least from a serious wound is miraculous. After firing on Speer Dawson threatened to shoot any one who came near and it looked like the sheriff would either have to kill him or gas him. As Hon. Forrest Lake knew Dawson the sheriff asked Mr. Lake to come down to the jail and get the gun from him and Mr. Lake answered the call and quietly and without any trouble asked Dawson for the gun and gave it to the sheriff.

No one seems to know just what is the matter with Dawson as he seems rational enough but believes in re-creation and is in trouble over his cattle and has figured in the courts at various times.

Vincent—Jackson

The following notice in the Jacksonville Times-Union will be interesting to Sanford people who know Mrs. Jackson as the sister of Mrs. R. J. Holly of this city:

"A marriage of much interest to friends throughout the state was solemnized Sunday afternoon at the home of Mrs. M. F. Thomas, on West Fourth street, Springfield, when her sister, Mrs. Carrie-Tyner Jackson became the bride of Mr. Thomas Arnold Vincent.

Rev. Dr. W. A. Hobson, pastor of the First Baptist church, performed the nuptial ceremony, which was witnessed by relatives and a few most intimate friends of the bride and bridegroom.

The house was beautifully decorated with ferns and cut flowers.

Following the ceremony an informal reception was held, during which refreshments were served. Assisting in serving were little Misses Ethel and Elizabeth Gary, attractive young nieces of the bride.

The bride wore a becoming traveling suit of pongee silk with hat and accessories to match.

Mrs. Vincent has resided in Jacksonville only a brief time, but has endeared herself to a wide circle of

KIDNEYS WEAKENING?

LOOK OUT!

Kidney troubles don't disappear of themselves. They grow slowly but steadily, undermining health with deadly certainty, until you fall a victim to incurable disease. Stop your troubles while there is time. Don't wait until the pains become big aches. Don't trifle with disease. To avoid future suffering, begin treatment with GOLD MEDAL Hearten Oil Capsules now. Take three or four every day until you are entirely free from pain.

The housewife of Holland would almost as soon be without food as without her "Real Dutch Drops," as she quaintly calls GOLD MEDAL Hearten Oil Capsules. They restore strength and are responsible in a great measure for the sturdy, robust health of the Hollanders.

This well-known preparation has been one of the national remedies of Holland for centuries. In 1894 the government of the Netherlands granted a special charter authorizing its preparation and sale.

Do not delay. Go to your druggist and insist on his supplying you with GOLD MEDAL Hearten Oil Capsules. Take them as directed, and if you are not satisfied with results your druggist will gladly refund your money. Look for the name GOLD MEDAL on the box and accept no other. In sealed boxes, three sizes.

"Southern" Tires Give More Than Their Full Guaranteed Mileage

The Makers Guarantee 6,000 The Tires Double it 12,000

"Southern" Tires are Thick Tires

"Southern" tires are hand made tires—built layer on layer by skilled tire makers. The best materials are used; fabric made of extra strong Sea Island cotton; pure gum, fine Para and Ceylon plantation rubber, new and live, and high-grade compounds.

"Southern" tires are tough, resilient and very hard to puncture. The treads are one-eighth to one-fourth of an inch thicker than most other treads. The side walls are one-thirty-second to three-thirty-seconds of an inch thicker than those of most other tires selling at about the same price.

There are "Southern" tires for every car, plain and non-skid treads. When you next need a tire think of the above facts and let your good tire judgment lead you to select a "Southern".

parted from either place and the games between Sanford and Orlando in the state league will bring up the gates receipts in both places. The lowering skies kept some people from coming into town but most everybody who could get out to Holden Park was there and the way they sat in the rain and watched the game proves that ball fever is still a disease, and not an epidemic.

The grounds had been placed in first class condition but no ball park can withstand such a downpour of sky juice as that of yesterday and still present a clean face and the boys of the two teams needed bathing suits rather than their nice uniforms.

The game was probably the best game that has ever been played in such watery conditions and while it could have been improved upon in spots considering that both teams are new and have never played together before the game was good and many spectacular stunts kept the fans on their toes.

From an impartial standpoint it looks like Sanford and Orlando are pretty well matched and if they will stay in this class we can look for some great crowds at Holden Park. Of course this does not mean that other teams coming here will not be as warmly welcomed or that Sanford will not take so much interest in the games but you know what we mean, don't you, Orlando?

Sanford has a great battery in the person of Harris. The pitcher is a right hander and has a good curve ball. Through the game he had a steady downpour of rain and this is the spirit that prevails in ball circles in these two towns of Sanford and Orlando, two of the greatest ball towns in the U. S. A.

Among the features of the game was the good work of G. W. Spencer and Chapman, just when their club work was needed.

Blunt the first bag holder made a fine running catch of a foul ball and also made the first hit of the game with a long drive.

Harris made a pretty running

catch in last half of the fourth retiring the side.

Pitcher Chapman made a good drive getting to first and on a wild throw made second.

Oppenheim, the center fielder was there with a fine catch of a long drive.

Inman on third was there and in the eighth caught a hot liner putting it down to second and making two outs when things looked a bit bilious.

G. W. Spencer in right had a ditch and a bogged up car in front of him during the game but in spite of the handicap made good.

On account of our sport writer having his only suit of clothes on the game he was forced to remain in bed this morning and the Herald going to press a day early in order to take the Fourth off precludes this paper giving the game what it deserves in the way of full particulars.

The first game was a good one from every angle and if the boys on either team did not show up as they should in a few plays we can easily see that Sanford and Orlando both have good teams.

Of course there will be some changes made in the team here as the men have not been assigned all round as yet and only by playing several games can the manager and the captain know just where to take out and fill in and get the team down to real working order.

Sanford has a great battery in the person of Harris. The pitcher is a right hander and has a good curve ball. Through the game he had a steady downpour of rain and this is the spirit that prevails in ball circles in these two towns of Sanford and Orlando, two of the greatest ball towns in the U. S. A.

Among the features of the game was the good work of G. W. Spencer and Chapman, just when their club work was needed.

Blunt the first bag holder made a fine running catch of a foul ball and also made the first hit of the game with a long drive.

Harris made a pretty running

U. S. A. — Friends of the family will regret to learn of the death of Mrs. Sarah E. Farris, which occurred in this city on the evening of June 20th, at the residence of her son, Mr. J. B. Farris, 25th St. and Broadway.

Mrs. Farris came to Sanford to reside with her son, H. B. Farris, about three years ago. She was the widow of the late R. W. Farris of Bruton, Alabama. Born in Bruton Ala., Dec. 25th, 1842 she had reached the ripe old age of 76 years and seven months at the time of her death. Interment took place at Bruton, Ala., Sunday, June 22.

Greatly beloved in the home circle a devoted mother and kind friend her loss will be keenly felt by those who knew her and loved her best.

Two sons and three daughters are left to mourn her death: H. B. Farris, Miss Florence Farris and Miss Mary Farris of this city; Mrs. Rabb, of Bainbridge, Ga., and J. B. Farris of Camilla, Ga.

Keely Grove Sold
One of the largest grove deals turned in several months was the sale of the P. M. Keely grove at Sanford to C. B. Elam of this city. The price approximating \$50,000.

The Keely grove is known as one of the show places of Seminole county. It is situated on Crystal Lake and comprises 23 acres. There was in all 150 acres which went with the sale. That which is not under grove is excellent farming and timber land. Mr. Elam intends later to add to the size of his grove.

The transaction was closed Tuesday, Mr. Keely making the sale direct. Though Mr. Elam is in the automobile business, being president of the Florida Auto and Supply Co. he knows the worth of the citrus industry of this section and is to be congratulated on his recent buy.

This is his first venture in citrus grove property though he has numerous other real estate holdings through out this section of the state,

being interested in some of the largest cattle herds which roam the Kissimmee prairies. Reporter-Star.

RECEIVE MEDICAL ATTENTION

News for Discharged Soldiers, Sailors, Marines and Other Personnel, Beneficiaries

All persons discharged from the military or naval forces resulting in and about this city can now receive medical attention and medical examination for the filing of applications for compensation. The United States Public Health Service, the medical advisors to the Bureau of War Risk Insurance, have established offices in Sanford, and Dr. J. T. Denton, whose address is 206 East First St. has been appointed as local government examiner. All persons desiring to obtain insurance or filing application for compensation under the Bureau of War Risk act, must furnish a medical certificate of their present physical condition. These persons by applying to Dr. J. T. Denton, at 206 E. First street may be examined and all necessary papers filled out free of charge. Such persons will also receive at the expense of the government, medical relief, or be sent to a government hospital or institution, should this be necessary.

The headquarters for the Fifth

District, which comprises the states of North and South Carolina, Georgia, Florida and Tennessee, have been established in Atlanta. Persons desiring further information should write to Dr. J. A. Watkins, 5th Floor Chamber of Commerce Bldg., Atlanta, Ga.

WILL MEET IN ORLANDO

Cattle Owners and County Officials Will Gather There

A meeting of cattle owners, county commissioners and others interested in tick eradication work in the counties surrounding Orange county has been called for 10 a. m., July 7th at the court house in Orlando.

Members of the State Live Stock Sanitary Board and officials of the government will be there to discuss matters of great importance to the cattle owners in this territory.

It is expected that the policy of the board will be announced following the conference, based on all the facts that may be presented. The county officials and a large delegation of cattle owners from Seminole county should be there to represent this county's interests, as the systematic tick eradication campaign is going along very nicely and we can get released from quarantine this year if the work is kept going.

And this is the Glorious Fourth.
 With two game of balls today one should not go hungry for amusements.

The one day of days when all America should feel more thankful.

And then our boys are home or at least some of them are home and we can celebrate as never before.

Speaking of farm labor and shortage of help what is the matter with giving the soldier boys jobs on Sanford farms?

Honeymoon month is over but the young folks will not mind that a bit and July will be just as popular with Cupid's favorites.

We will put the St. Augustine Record against any other paper in the south for a bright and lively sheet full of news and "everything."

After reading of the Los Angeles man who drowned himself with a glass of beer, Ben Johnson of the copy desk rises to inquire, "O Death, where is thy sting?"—Macon Telegraph

Good old Telpelt is making the Good News one of the best papers in the state and is putting a sturdy hammer blow in bringing his section before the people. But "Telpelt" will have more to say concerning into that country this season than ever before.

This is the season for the candidates to announce by writing the newspaper free notices and getting a share of the space before the campaign opens. But they will have to be a little more than usual in paying for their notices. They will have to pay for their notices in the Florida newspapers.

We remember the petty that if Bob Holly had not been one of the owners of the Morganover contest the Sanford Herald would have been a little wiser. Goodbye News. We won't be a good try for the very good reason that the Herald is the only one in Marion county.

LIKE GENTLEMEN

now, those who did not make the supreme sacrifice side by side with their Canadian cousins, and it is pleasing to hear them tell how that wonderful Canada treated us like "gentlemen."

Gunner Harry Smith, a Connecticut soldier, back home in the New York Times, says which is worth listening to. "I was discharged one hour after arriving in Canada from overseas, and equipped with my first month's gratuity allowances, transportation and service badge, was on my way home in the United States in 'jazz time.' We were also allowed \$30 for civilian clothing. I am now receiving \$70 and my wife \$30 per month for the time stated. My wife received regularly and promptly \$30 per month during my absence, plus foreign exchange money. I cannot speak too highly of the wonderful country which treated us 'American volunteers like gentlemen.'"

As Mrs. Malaprop said, "comparisons are odorous."—Tampa Tribune.

THE PRICE OF A BRIDGE

How many human lives would it take to represent the cost of a bridge across the St. Johns river where that stream enters Lake Monroe, four miles east of Sanford?

This question is a proper one and is raised because of a frightful accident occurring on the Osteen ferry a few days ago. Many a motorist has made the trip across this ferry when traveling between Sanford and New Smyrna. It is a case of carefully "crawling" down a steep grade to the little ferry only large enough to hold two motor cars. Then the "hoat" is pulled across the narrow but deep waterway and there is a steep climb to get on terra firma. On this particular afternoon a Maxwell containing a man, wife, three children and negro nurse man followed a big truck on the ferry. The truck was left in reverse, when the driver started the machine it boomed into the Maxwell, tumbling car and occupants into thirty feet of water. A kind Providence permitted the rescue of every one of those people, although for an hour it was feared the mother and baby were past rescue. All had been pinned under the top, but were soon extricated, although with great difficulty. It seems that the St. Johns here forms the dividing line between Seminole and Volusia counties and that so far the powers that be have been unable to get together on a joint bridge proposition. Surely there is sufficient argument to lead to prompt action. The fund of any member of the Florida Farmers of Marion county more than the few hundred dollars that would be needed to get a bridge across the St. Johns to replace the Osteen ferry. St. Augustine Record

THE NEW DRY LAW

It is a common thing to see liquor stores for beverage purposes unless for export. Removal for beverage purposes of distilled liquors held in bond, unless for export, is prohibited by law.

The law permits:
 - Use of wine for sacramental purposes.
 - Prescription by physicians of medicinal liquors for internal use and alcohol for external use when the patient is under constant supervision of the physician, quantity prescribed at one time must not exceed one quart.

CHANGED CONDITIONS IN FLORIDA

Some on writing of farm and live stock conditions in Marion county makes one particular reference that applies more or less to practically every county in Florida, the writer saying:
 "Six years ago most of the farms had native cattle and hogs but at this date it is difficult to find a farm

that is not well stocked with thorough bred or very high grade hogs and cattle and a vast number of the farmers are keeping up the registry on their stock."

This changed condition in Florida, with reference to cattle and hogs is most gratifying and particularly to those who have by their improved live stock brought it about. It is a change from scrub animals and poverty to pure bred or high grade live stock and comparative influence. Two instances to prove this are many. They are to be found on the Florida farms and cattle ranches. They speak loudly in attestation of the truth of the advancement and prosperity of Florida cattle and live stock breeders.

It is impossible to estimate the money value that improved live stock breeding and raising has brought to Florida farmers and breeders. Likewise, it is not possible to calculate the good, aside from increased wealth, that has come to breeders and raisers of thoroughbred cattle and hogs. Their owners have become more enlightened, have broader visions of things and affairs; they live better, have more of the comforts of life—and, like as not, money in bank, or government bonds. They and their families have more of the comforts of life, sons and daughters are being better educated than were their elders—and altogether the conditions of living have advanced in keeping with the improvement in cattle and live stock. This is not a dream nor a picture in imagination. It's a fact, plain, unvarnished truth.

What is more, Florida farmers and cattle and live stock raisers, those who have joined the advanced class of pure bred live stock owners will never go back to razor back hogs or to piney-wood cows. The best of thoroughbreds will be none too good for them henceforth. Times Union.

EDITING A NEWSPAPER

Editing a newspaper is a pleasant business if you can stand it.

If it contains any advertising the subscribers claim they take too much space.

If there is a scarcity of advertising it is unpopular and the people won't have it.

If we attend church regularly they say we do it for effect.

If we stay away from church, they say we are inordinately irreligious.

If we accept an invitation to a wedding they say we are invited to waste it away.

If we are on the street much they say we neglect our business.

If we avoid going on the street they say we don't bustle around after the news.

If we wear a long wadded muff it is said that our business is languishing, except on the days when we are on the street.

THIS YEAR'S COTTON CROP
One Million Bales Less Than That of Last Year

Washington, July 3. A cotton crop about 1,000,000 bales smaller than last year's was forecast for this year by the department of agriculture today in estimating prospective production at 10,986,000 bales. Average this year shows a cut of 8.7 per cent from last year's, the decrease being 3,247,000 acres and the total 33,960,000. The agitation for a reduction in acreage which the department of agriculture says occurred in every cotton growing state, the scarcity and high price of labor and unfavorable planting weather caused the heavy decrease.

A SANFORD MAN'S EXPERIENCE

Can you doubt the evidence of this citizen?

You can verify Sanford endorsement. Read this:

A. W. Wathen, farmer, 400 W. First St., says: "I have used Doan's Kidney Pills off and on for several years and they are the best kidney remedy to be had. I suffered a lot with my back and kidney weakness. On several occasions Doan's Kidney Pills have come to my rescue when I was completely down and out with kidney trouble. Whenever I feel their need now they always bring the same quick results and I can't say too much for their praise. Started on them May 22, 1914.

On March 19, 1918, Mr. Wathen said: "I am still as strong as in years of Doan's Kidney Pills. I have never needed Doan's since giving my last endorsement."

Price 60c at all dealers. Don't simply ask for a kidney remedy, get Doan's Kidney Pills, the same that Mr. Wathen had. Foster-McClellan Co., Mfgs., Buffalo, N. Y.

growers according to the department, but most of the small proprietors and tenant farmers maintained or even increased their plantings this year. Many other farmers who had not grown cotton for years planted it this season in hopes of high prices by picking time.

Boll weevils are reported active in a large part of the belt. Cotton production was forecast at 10,986,000 equivalent to 500 pound bales by the department of agriculture, basing its estimate on June 25 condition of the growing crop, which was 70 per cent of a normal, and an area of 33,960,000 acres under cultivation on that date.

See Island production was forecast at 15,000 bales and Egyptian at 45,000 bales, making a total of 60,000 bales compared with 88,395 bales last year.

A heavy decrease in Sea Island and Egyptian was reported by the department of agriculture for this year to 152,000 acres of which 45,000 is Sea Island, compared with a combined acreage of 398,000 last year.

Production last year was 12,040,532 bales, two years ago 11,042,000, three years ago 11,150,000 and four years ago 11,192,000.

This year's area under cultivation June 25 compares with 35,000,000 acres under cultivation that date last year and 45,800,000 acres, picked.

The June 25 condition compared with 25.6 per cent of a normal on May 1 this year, 85.1 last year and 80.1 the average condition for the last 10 years on June 25.

The condition reported today forecasts a yield of 156.1 pounds per acre and the forecast of total production on that basis allows 1 per cent from the planted area for abnormal conditions. The total out turn will probably be larger or smaller than the amount forecast as conditions hereafter are better or worse than average conditions.

Didn't Keep Their Agreements

"Propaganda for the reduction of acreage affected principally the larger plants but most of the small proprietors and tenant farmers, who had disposed of their 1918 crop at high prices maintained or even increased their plantings. Many other farmers who had not grown cotton for years planted it this season, hoping to receive high prices prevailing at planting time. In portions of Oklahoma, Missouri and along the northern borders of the cotton belt, wheat was planted this year because of the government guaranteed price. The Sea Island sections of Georgia and Florida was heavily reduced as to acreage planted because of boll weevil ravages, as is the case in the newly infested sections of Georgia and South Carolina, considerable cotton already planted having been placed up and planted to other crops.

"There is general complaint in most sections of fatness too much rain, grassy fields and a scarcity of labor. Because of the mid winter of 1918 and the wet season to date, weevils are reported as very active in southern and eastern Texas, Arkansas, Louisiana, Mississippi, Alabama, Florida, Georgia and parts of South Carolina. The weather in the north part of the belt has been too cool for good growing. Through conditions were complained of in portions of South Carolina only."

Sea Island acreage and production forecast by states follows:

Georgia 25,000 acres and 6,000 bales.

Florida 20,000 and 2,000.

South Carolina 10,000 and 700.

Island producing section.

Florida, and said bonds will be sold, delivery to be made ten days after acceptance of bid.

Payments for said bonds to be made within said period of ten days after acceptance of bid. All bids must be accompanied with a certified check for one and one-half per cent of the amount of bonds to be sold. The city commissioners of Seminole county, Florida, reserve the right to reject any and all bids. Proposals should be addressed to the Board of County Commissioners of Seminole County, Florida, at Sanford, Florida.

Witness my hand as clerk of the Board of County Commissioners of Seminole County, Florida, and the seal of said board on this 12th day of June, A. D. 1919.

(Seal)
E. A. DOUGLASS,
Clerk Board of County Commissioners of Seminole County, Florida.

Notice of Application for Tax Deed Under Section 8 of Chapter 1888, Laws of Florida

Notice is hereby given that Thomas Wilson, purchaser of Tax Certificate No. 194, dated the 4th day of June, A. D. 1917, has filed said certificate for tax deed to issue in accordance with law. Said certificate embraces the following described property situated in Seminole county, Florida, to-wit: Lots 1 and 2 of Block 1 of Florida Land & Colonization Company, Ltd's Addition to South Sanford. The said land being assessed at the date of the issuance of such certificate in the name of Unknown. Unless said certificate shall be redeemed according to law the deed will issue thereon on the 15th day of July, A. D. 1919.

Witness my official signature and seal this 12th day of June, A. D. 1919.

E. A. DOUGLASS,
Clerk Circuit Court Seminole Co., Fla.
By V. E. Douglass, D. C.

AN ORDINANCE

An Ordinance entitled an Ordinance requiring the grading and paving of Ninth street from the east line of Park avenue extending east to the east line of alley in the Town of E. R. Trafford's map, excepting therefrom the intersection of said Ninth street with Magnolia avenue.

Be it ordained by the mayor and city council of the city of Sanford, Florida:

Section 1. That Ninth street beginning at intersection on east line of Park avenue and extending east to the alley, in the Town of E. R. Trafford's map, excepting therefrom the intersection of said Ninth street with Magnolia avenue, shall be paved with crushed brick and curb pavement to be of a width of twenty feet, twelve inches high and four inches in thickness.

Section 2. That said paving of said street shall be graded and paved in accordance with the plans and specifications therefor, submitted by the city engineer of Sanford, Florida, and now on file in the office of the clerk of said Sanford, Florida. The paving days from and after the date of this ordinance shall become effective, but in the event any property owner, owning property abutting on that part of said street herein required to be paved, shall fail, within the time herein provided, to grade and pave said street in front of his or their respective premises, in accordance with the terms of this ordinance and with the plans and specifications therefor, the city engineer of said Sanford, Florida, shall be authorized to do so and under the direction of the city of Sanford, and the proportionate costs thereof shall be assessed against the lot upon which said paving shall be done and the

city of Sanford shall have a lien therefor against the said land enforceable in like manner as other liens.

Section 3. That upon failure of any property owner to do the grading and paving herein provided for, the same shall be done by the city of Sanford, or shall be let by a contract by the city of Sanford to the lowest and best bidder, in accordance with the aforesaid plans and specifications submitted by the city engineer and two thirds of the costs of such grading and paving and curbing, one third to be paid by the owner of the lot on the date of the completion of the work shall be a lien, superior to all other liens, except only liens for taxes, against and upon the lots or property fronting or abutting upon the streets hereinbefore described, and one third of such costs shall be paid by the city of Sanford.

That the estimated costs of grading and paving per square yard for the paving of said street with curbing is \$2.75 per square yard, and the estimated total costs of paving the same as described is \$27,500.00, and the estimated cost to lot owners per front foot is \$2.81.

Section 4. That the city engineer is hereby required within ten days, after the first publication of this ordinance, to prepare and file an estimate of the amount of liens for such paving which the city will claim against each of the lots fronting or abutting upon the street so paved, which estimate shall be based upon the estimated costs of the work and upon the frontage of lots abutting the street so to be paved.

Section 5. That any person owning any interest in and to said property abutting upon that portion of said street to be so paved shall have the right within thirty days after the filing of said estimates with the city clerk to present to the said city clerk a sworn petition to be presented to the city council, setting forth that in the opinion of the petitioner the estimated amount of such costs and liens upon such lot is incorrect, showing wherein it is incorrect or why it will exceed the special benefit accruing from the work and paving done and to be done in front of said lot.

Section 6. That the city council shall, after proper notice and within the time provided by ordinance, to prepare and file an estimate to hear any and all petitions and complaints which may be filed in reference to the estimated costs of the paving herein provided for and shall make due and proper inquiry into the same, and if it shall appear to the satisfaction of the city council, after the amount of such lien is that the estimated amount of said lien is that the amount of such lien to be claimed by the city of Sanford, for the paving of the said street in front of said property, and after the city council has heard all petitions and given all property owners an opportunity to be heard and make all corrections which in their judgment is just, and equalized all accounts and assessments as a lien against said property to be enforced as other liens at any time after Jan. 1st, 1920 with interest as provided by law and ordinances of said city.

Passed this 2nd day of June, 1919.

P. L. MILLER,
President City Council.

I hereby certify that the foregoing ordinance was duly passed by the city council of the city of Sanford, Florida, on session, the 2nd day of June, 1919.

F. P. RINES,
City Clerk.

Approved by me this 2nd day of June, 1919.

J. D. DAVENPORT,
Mayor.

Notice of Sale of \$100,000.00 Seminole County, Florida Highway Bonds

Notice is hereby given that sealed proposals will be received by the Board of County Commissioners of Seminole County, Florida, on or before 2 o'clock p.m. on the 15th day of July, A. D. 1919, at the county clerk's office at the court house in Sanford, Seminole county, Fla., for the purchase of \$100,000.00 Seminole county, Fla. Highway Bonds, said bonds to bear interest at the rate of five and one-half per cent per annum, and are dated July 1st, 1919, interest payable semi-annually, said bonds to be issued, consisting of three hundred bonds of the denomination of \$100.00 each, maturing July 1st, 1949. Said bonds to be sold, subject to the approving opinion of Messrs. Dillon, Thompson & Clegg, obtained by Seminole county.

Notice of Application for Tax Deed Under Section 8 of Chapter 1888, Laws of Florida

Notice is hereby given that Curtis Mason, purchaser of Tax Certificate No. 194, dated the 4th day of June, A. D. 1917, has filed said certificate for tax deed to issue in accordance with law. Said certificate embraces the following described property situated in Seminole county, Florida, to-wit: Lots 1 and 2 of Block 1 of Florida Land & Colonization Company, Ltd's Addition to South Sanford. The said land being assessed at the date of the issuance of such certificate in the name of F. J. Goodspeed.

Tax Certificate No. 195, dated the 4th day of June, A. D. 1917, said certificate embraces the following described property situated in Seminole county, Florida, to-wit: Lots 1 and 2 of Block 1 of Florida Land & Colonization Company, Ltd's Addition to South Sanford. The said land being assessed at the date of the issuance of such certificate in the name of F. J. Goodspeed.

Tax Certificate No. 2226, dated the 2nd day of June, A. D. 1917, said certificate embraces the following described property situated in Seminole county, Florida, to-wit: The N.E. 1/4 of Section 19, Tp. 21 S., R. 11 E., Sec. 11 East. The said land being assessed at the date of the issuance of such certificate in the name of P. E. Lieubach.

Tax Certificate No. 1461, dated the 3th day of June, A. D. 1917, said certificate embraces the following described property situated in Seminole county, Florida, to-wit: The N.E. 1/4 of SW 1/4 of Section 31, Tp. 21 S., R. 11 E. The said land being assessed at the date of the issuance of such certificate in the name of K. A. Mills. Has filed said certificate in my office, and has made application for tax deeds to issue in accordance with law.

Unless said certificates shall be redeemed according to law tax deed will issue thereon on the 15th day of July, A. D. 1919.

Witness my official signature and seal this 12th day of June, A. D. 1919.

Look at this Waffle Recipe
It's an exceptionally good one for making waffles, too.

1 cup of flour
1/2 cup of milk
2 eggs
1/2 cup of butter
1 level teaspoonful of RYZON

You can depend on the flour, the eggs, the butter and the salt always behaving in about the same way. But the baking powder—that's another story. If it's good, it means success and a delicious breakfast. Everybody happy!

If it's poor stuff it will make a mess of things, perhaps cause a complete loss of the other ingredients and spoil the whole Sunday morning for the whole family.

That's why we wouldn't care to recommend a baking powder unless we knew all about it, unless we had tested it ourselves.

We do know RYZON and we urge you to try it because we know it will make you our friend.

It's always dependable; always of uniform high leavening power; always pure.

We also want you to get to know the RYZON Baking Biscuits. Once a million of them are used already in American homes. Ask us about it.

SANFORD, - FLA.

ON THE FUNNYSIDE

Silvery Sounds.
That was a great speech you made the other day," exclaimed the admiring friend.
"I'm afraid," replied Senator Sorghum, sadly, "that I am getting to be one of these silver-tongued orators. A number of people have told me it was a great speech, but none of them seem able to remember what I said."

The Power of Suggestion.
"I wish that garage man hadn't told me to leave the carburetor adjustment alone."
"Why?"
"Until he mentioned it I had no idea there was such a device and now I find I can't resist the temptation to tamper with it."

Economy.
"We must be very economical, my dear, under the new luxury tax."
"Yes, my dear, I've been thinking about that. Already I have found a shop where I can get a lovely new shade for the living room lamp for \$25 and that's just inside the exemption figure."

Changed.
"She can open a telegram without trembling."
"That's nothing. I notice nowadays a lot of women are taking upper berths in the Pullmans and thinking nothing of it."

Once in a Lifetime.
"Every fellow has to have the experience at least once, and there's no use advising him against it."
"What's up?"
"He's going to try to paper the living room himself."

A PHILANTHROPIST.

"Permit me to give you a piece of advice. It will do you good."
"I doubt that, but you are so anxious to get it out of your system I know it will do you good, so fire away."

Honest.
An honest man
Is Ezra Hat
He will pay back
A borrowed match.

A Blockhead.
"You call that anarchist a block-head?"
"Yes. If his cranial equipment isn't deadwood it becomes a fire-brand."

A Repeater.
Father—Did I tell you what my boy said to Walker?
Friend—Yes; three times last night and four this morning.

His Place.
"What place does that queer fellow fill in his mechanical business?"
"Oh, I guess they use him anywhere they need a crank."

Some Exceptions.
"He is a man who boasts he can handle any subject without gloves."
"Then let him try to fix a live wire or to hive bees."

Always Is.
"What's the financial trouble in the printing-department?"
"I don't know, but I suppose there is the devil to pay."

The Idea.
"What makes Jones such a queer leaden color?"
"I guess it is the plumbago his wife says he's got in his back."

The Limit.
Lawyer—Did you take cognizance while in the saloon—
Witness—No, siree. I didn't take nothin' there but a drink.

Quite Different.
"Isn't there a great deal of esprit de corps in that organization?"
"Not a little bit. Every man Jack of it is on the water wagon."

DADDY'S EVENING FAIRY TALE
By MARY GRAHAM BONNER

THE MARCH WIND.

"How do you do?" said Mr. Wind.
"How do you do?" said Mr. Hall.
"Hello, friends," said Prince Sleet.
"Greetings, comrades," said old King Snow.
"Glad to see you all around," said the king of the clouds, and Nurse Fog, the army of raindrops and the mist grandchildren laughed and whistled and sang with glee:
"Folks will 'most blow away,
Now that we feel so gay."

"It's so good to see all my old friends gather around me in this way," said a deep, low voice, which suddenly changed to a high, piercing voice as it said:
"You're all so faithful and so true to me."
"That voice makes me feel like blowing a good old gale," said Mr. Wind. "I wonder why it is?"
"We feel the same way," said the army of raindrops.
"So do we," said the mist grandchildren.

"We do, too," said Mr. Hall and Prince Sleet.
"And I would like to look after the children," said Nurse-Fog.
"I'm ready for a party," said old King Snow. "How about you, king of the clouds?"
"I'm ready," said the king of the clouds.

"Of course you're all ready," said the voice.
"Your voice sounds so familiar and

He Wants to Blow and Blow.
It makes me feel so gay," said Mr. Wind, "but who are you?"
"I'm the month of March," said the voice. "You can't see me, because I'm a whole month, and I'm made up of days and nights, of moments and hours, of weeks—until there are more than four weeks or until there are thirty-one days."

"All that time I spend with the earth people and animals and birds. I come every year just at this time, and I make you all feel like having a regular winter frolic."
"I get a great deal of abuse. Folks say: 'Now be careful in March. Don't take off your warm clothes, for March is treacherous.' And when they say that I am treacherous they mean that I'm apt to give them mild weather and in the very same day give them cold weather and let you blow your head off, Mr. Wind."

"I've never blown my head off yet, month of March, and I've blown pretty hard," chuckled Mr. Wind.
"True, true," said the month of March.
"Tell us some more about yourself," said Prince Sleet.

"Some folks are more kindly when they talk about me. Some birds do me the honor to come back while I am here and some flowers and trees begin to think about getting up for the spring."
"But I'm a very unpopular month. I allow all you rascals do just as you please. I let you blow and storm. I let you rain and hail and snow. I let you have fogs and mists and cold rains and winds. I let you do anything you please. It is the month when the wind and the rain and the snow and the sleet can have a regular frolic."

"And as soon as I come I blow some of my magic power into Mr. Wind and he feels then so full of life and energy that he wants to blow and blow—just as he wants to now."
"I have put so much of that magic power into him that folks call him the March wind."

"Yes, I'm an unpopular month. Folks say I'm apt to do anything. They say they can't depend on me. They say most dreadful things about me. They say that I make people catch cold. I'm sure I can't help that. Creatures will have to look after themselves when I'm around, as I am giving all of you such a good time."

"You do that all right," they all shouted. And Mr. Wind blew harder than ever as he said: "Dear month of March, you're a great favorite of mine, even if you're not like some, but I feel honored and flattered to be called the March wind, after you, dear, wild, windy, stormy, blowy month of March!" And then a wonderful windy storm began!

Doing Better.
"I see 'ye have a new hired man, Eary. How is he doing?"
"Resting considerable easier than the other did, thank ye!" a trifle grimly replied honest Farmer Hornbeak.

Wisdom in Saving.
A man may, if he knows not how to save as he gets, keep his nose all his life to the grindstone and die not worth a groat at last.

English Words.
It would be impossible to give the exact number of words in the English language. Words are constantly being coined and foreign words are being added to the language. A recent edition of a leading dictionary gives between 400,000 and 500,000 words. Many of them are derivatives, as run, running, ran, runner, etc.

Tablet to Horace Greeley.
The Vermont Press association placed a memorial tablet on the old building at East Poultney where a ragged fourteen-year-old boy, in 1825, began a painful apprenticeship as a printer, in which he obtained a working knowledge of the most dynamic of all the arts. The ragged boy was Horace Greeley, and the building was the office of the Northern Spectator—a country weekly newspaper.

Taboo.
When anything is forbidden, or its exclusion has been ordered, English-speaking people sometimes say it is "taboo." The word is derived from an institution once common throughout Polynesia and New Zealand. It signifies something set apart or prohibited, because of its being either sacred or accursed. This has given rise to the use and significance of the word in English.

Making Goodness Attractive.
It is not always the best people who are the most popular; and though popularity is no safe standard it counts for much in a person's scope of usefulness. If we have good things to offer let us offer them so attractively that others will be glad to accept; not so clumsily that what we offer will be rejected with scorn. If we can make goodness beautiful we make it beloved.—Exchange.

Transportation of the Future.
Transportation is the fundamental of progress in civilization. All things must pass through it as through the neck of a bottle. If we can transport energy without using cars to carry it, there is just so much gain. Electricity is energy without substance. Its transmission calls for no vehicle other than a copper wire. Hence it is obvious that we must look to electricity for distributing the power on which our economic future as a nation depends.

Three English Institutions.
Wherever the sons of Britannia may roam, three great and unmistakable English institutions set them apart from other races and creeds: Tea in the afternoon, handkerchiefs pushed up the sleeves and "dress" for dinner.

Helpful Charlie.
Little 4-year-old Charlie was missing one day. His mother going in search of him finally found him in the library sprinkling a valuable book that was on the table. "Why, my boy, what are you doing spilling that nice book of dad's?" "I was just wetting it for him because he said it was too awfully dry," he replied.

The British Kingdom.
Great Britain includes England, Scotland and Wales. It is called Great Britain in distinction from Brittany (Britagne, Lesser Britain). In the union with Scotland in 1707, Great Britain became the official name of the British kingdom, and so continued until the union with Ireland in 1801. Since then the form has been Great Britain and Ireland.

CHANDLER SIX \$1795

The Fact of the Matter

YOU can see for yourself that the Chandler is the most closely priced fine car in the whole American market. Printer's ink lends itself to the presentation of claims and facts alike. We make it our purpose, in speaking of the Chandler, to deal with facts only.

And this we believe to be the fact, that no other automobile, built so well, built of such good materials, built in such good design, is priced within hundreds of dollars of the Chandler price.

The Chandler motor is truly a great motor. There is none better. Fifty thousand Chandler owners know it. And countless thousands of their friends and neighbors know it. Now in its seventh year of constant development, without radical change of design, it approximates perfection.

The whole Chandler chassis, simple and sturdy, is dependable and enduring. And Chandler bodies, graceful in line, roomy and comfortable, luxuriously upholstered and beautifully finished, are suggestive of the best custom work.

The New Series Touring Car
will delight you and your family. It is big and handsome, seats seven grown persons without crowding, and will take you anywhere in comfort. The Chandler is fast when you want speed. It is flexible and instantly responsive in crowded traffic. It is powerful on steep grades.

The Earlier You Place Your Order, The Earlier You May Have Your Car

SIX SPLENDID BODY TYPES

Seven-Passenger Touring Car, \$1795	Four-Passenger Roadster, \$1795
Four-Passenger Dispatch Car, \$1875	Convertible Coupe, \$2595
Convertible Sedan, \$2695	Limousine, \$3095

Hard Work Needed.
If the power to do hard work is not talent, it is the best possible substitute for it. Things do not turn up in this world unless somebody turns them up.—Garfield.

Privilege of Money.
Clothes don't make a man, but it's only the millionaire who can go about his business looking like a rhapsodist.—London Answers.

The Eagle of Napoleon.
Napoleon revived the ancient symbol of the Caesars. The Napoleonic eagle itself was eight inches in height and nine inches across the wings. It stood on a brass block three inches square, and weighed three and one-half pounds. Modern eagles are as nothing compared to the old ones, as difficult to hide as the big drum.

Sepoy Preparedness.
In the Madras presidency in the first half of the last century recruit boys—sons of old soldiers—were kept with each Sepoy regiment, clothed, drilled and fed and enlisted as soldiers when they attained the age of sixteen. The system had something to recommend it, as the state got a trained youth as a soldier instead of a country bumpkin who had all his training to learn.

Too Deep for Him.
An Irish sailor, after pulling in 50 fathoms of line, muttered to himself: "Sure, it's as long as a day and tomorrow; it's a good week's work for five men." More of it yet. "The say's mighty deep, to be sure." Then he suddenly stopped short, and, looking up to the officer on watch, he exclaimed: "Bad luck to me, sorr, if I don't believe somebody's cut off the other end of this line!"—Congregationalist.

A Real Hero.
Self-respect will sometimes do as much for a man as real physical courage. The man who wants to run and doesn't is a hero.—St. Louis Globe Democrat.

Poor Picker.
They were discussing the raising of children at the chamber of commerce show recently and Dr. Maude Wiley, in charge of the Welfare league, told an amusing story. Seems the little girl had been spanked by her father for disobeying. With tears running down her cheeks she ran to her mother, crying, "I think papa's perfectly horrid. Was he the only man you could get?"

Full Glory of Cherry Blossoms.
Blooming of the cherry trees in Japan occurred earlier this year than usual, owing to the exceptionally warm weather of the early months. The blossoms were out in great profusion on Sunday, March 30. The higan sakura trees in Ueno park were in full bloom; the yoshino sakura, or common variety, came out in full blossom on April 3, the anniversary of the first emperor of Japan. Everybody in Japan is enjoying the arborescence of springtime.

Professional Earnings.
Questionnaires sent to the graduates of the Harvard medical and law schools brought out the fact that the average physician earns \$554 in his first year of practice, about \$1,000 in his second year, about \$2,000 in his fifth year and nearly \$5,000 by his thirtieth year, and that the average lawyer earns \$604 in his first year, \$1,110 in his second year, \$2,668 in his fifth year, \$4,426 in his eighth year and \$5,825 in his tenth year of practice.

Joint on Gas Globes.
To clean gas globes, wash with soap and warm water in which a little salt of lemon has been mixed. The great difficulty in the way of getting the ground glass used for some globes to look white is the grease which sets closely in the roughness.

How a Crab Grows.
The crab's equivalent to the internal bones of animals is its tough outer shell, which does not grow. The baby crab is forced to get rid of this tough, confining person. So it breaks itself loose internally and then splits its old protecting home across the extreme back ridge, creeping out in that way.

Educational Note.
Never try to find out anything, or try to learn anything, until not knowing it has come to be a nuisance to you for some time. Then you will remember it, but not otherwise. Let knowledge importune you before you will hear it. Our schools and universities go on the precisely opposite system.—E. W. Howe's Magazine.

National Anthems.
"The Star-Spangled Banner" is now regarded as our national anthem; that of England, "God Save the King"; France, "The Marseillaise." The other allies apparently have no distinguishing title for their national airs. The national air of Italy is known to us simply as the "Italian National Hymn" and that of Portugal as the "National Air of Portugal," etc.

Italian Philosopher-Martyr.
February 17 is the anniversary of the burning in Rome, in 1600, of the Italian philosopher, Giordano Bruno. He was subjected to continual and terrible persecution for seven years prior to his death, in the hope that he would recant. In 1889 a monument was erected to him under papal protest at the place where he perished at his stake.

West Point Cadets.
Each senatorial congressional district and territory, including Porto Rico, Alaska and Hawaii, is entitled to have two cadets at the West Point Military academy and the District of Columbia four cadets. There are also 80 appointments at large, especially conferred by the president. The law authorizes the president to appoint cadets to the military academy from among men in the regular army and National Guard, the total number not to exceed 180 at one time.

Made Record Trip.
Capt. Klaus Larson, in his little motor boat Ferro, made a successful trip from the foot of the cataract through the Whirlpool rapids of Niagara falls on September 19, 1910. Despite the battering of the Whirlpool rapids Larson went through safely; the little boat was lost to sight most of the time, but at Great Wave it was shot 20 feet out of the water. Except the old Maid of the Mist, sent through in 1864 to avoid seizure, Larson's is the only engine-propelled craft to have gone through the rapids.

DADDY'S EVENING FAIRY TALE
By Mary Graham Bonner

MOUNTAIN SHEEP'S PAIN.

"I don't feel as well as I did," said the mountain sheep whose name was Jim.

"Neither do I," said Mr. Blackie, the tall ostrich. They were both in the zoo talking from their yards to each other, for the day was a bit warm. At any rate it was much, much warmer than it had been for a long time and they were all enjoying in the weather in the zoo.

"Perhaps," said Blackie, "we are having a spring weather; what say you, Mr. Jim?" "My dear ostrich," said the mountain sheep, "you mean spring fever." "And why, pray tell, do I mean spring fever?" asked Blackie. "Because that is the thing folks get in the spring," said Jim.

"I'm not 'folks,'" said Blackie. "What is spring fever, anyway? I only know it comes in the spring."

"How strange," said Jim, with a funny little smile.

"Why strange?" asked Blackie, in quite a serious tone, as though he didn't understand it at all.

"It's not in the least bit strange," said Jim. "Then why on earth, or in the zoo, did you say it was strange?" asked Blackie.

"I meant it sarcastically," said Jim. "When one means a thing sarcastically one means to be a little superior and proud and wiser than the other fellow."

"Can't two mean the same thing?" asked Blackie.

"Of course," said Jim. "Then why did you say that when one meant a thing sarcastically, and so forth, and so forth?" inquired Blackie.

"One merely means anyone—no one in particular."

"How dull," said Blackie. "Not dull at all," said Jim. "It's merely the correct way to talk."

"Oh, pardon me," said Blackie, grinning foolishly and making a low bow.

"When I said it was strange that spring fever came in the spring I meant it wasn't strange at all, but quite the most natural time for it to come."

"And so," said Blackie, "you said it was strange when you thought it wasn't strange."

"From the tone of my voice you should have known it was said sarcastically," said Jim.

"How can you expect a stupid ostrich to know anything about things said sarcastically?" asked Blackie.

"I don't suppose I can," said Jim. "Still, you know spring fever comes in the spring."

"Ah," said Blackie, smiling a foolish smile, "it is good to hear that the ostrich can tell you something you don't know."

"Yes; can't tell me anything I don't know, for I do know that. It is simply something you know, too," said Jim.

"Tell me about the spring fever, then?" asked Blackie.

"Spring fever is something which makes folks or animals feel sick and poorly, and as though they didn't want to do anything at all."

"That's what I've got," screamed Blackie. "I don't want to do anything at all. I should think that would be an illness which folks and animals would get very, very often."

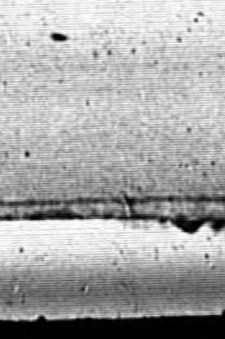

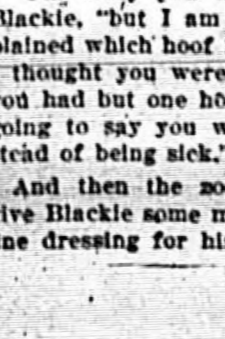

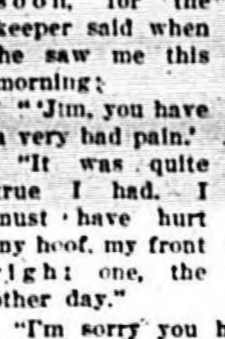

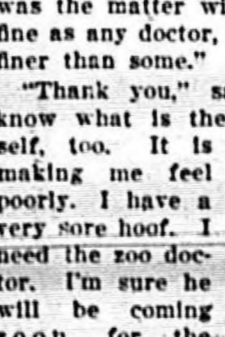

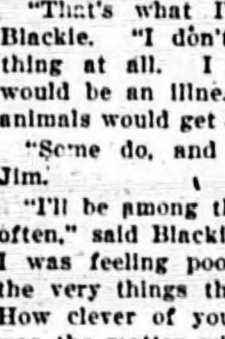

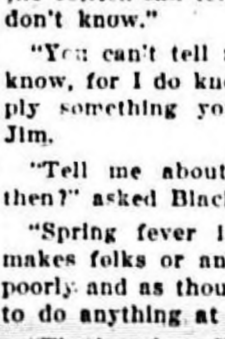

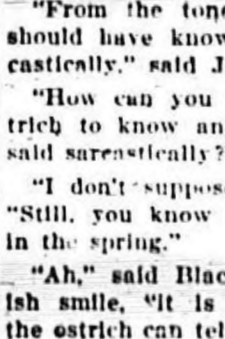

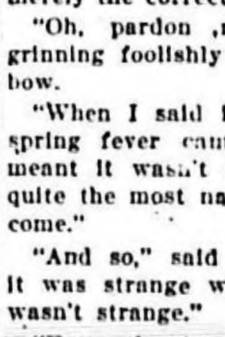

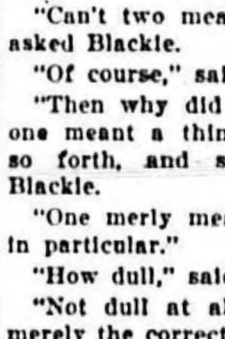

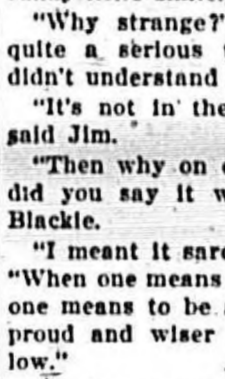

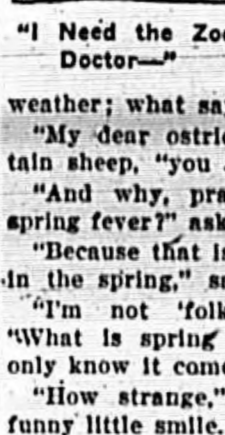

"Some do, and some don't," said Jim.

"I'll be among those who do get it often," said Blackie. "As I told you I was feeling poorly and those are the very things the matter with me. How clever of you to find out what was the matter with me. You're as fine as any doctor, and I'm sure much finer than some."

"Thank you," said Jim. "And I know what is the matter with myself, too. It is making me feel poorly. I have a very sore hoof. I need the zoo doctor. I'm sure he will be coming soon, for the keeper said when he saw me this morning."

"Jim, you have a very bad pain."

"It was quite true I had. I must have hurt my hoof, my front right one, the other day."

'East Coast Special'

Bee Hives

We are now manufacturing Bee Hive Material from Selected Cypress boards, "The Wood Eternal," which East Coast beekeepers seem to be particularly well pleased with.

PRICES ON STANDARD HIVE PARTS
Prices f. o. b. Eau Gallie. Freight must be added

NATURAL GUANO CO.
AURORA, ILLINOIS

The citrus area of Florida is comparatively limited in extent and wonderfully blessed by nature in a combination of soil, sunshine and showers unequalled elsewhere.
In this territory can be produced grapefruit and oranges so superior in quality that as their merits are properly made known to the consuming public there will be ample demand.
And for such of these food and health fruits of Florida as are intelligently and scientifically marketed there may be secured prices so remunerative as to make production profitable.

The records of the citrus industry of Florida present ample evidence of inherent ability to stand on its own foundation and to return those engaged in it proper dividends on their investments and adequate compensation for their labor.
Co-operative marketing as practiced for ten years by members of the Florida Citrus Exchange has demonstrated that the growers of the state possess the means and the power for the full protection of their interests without entangling alliances with other sections or other industries.

Ship your fruit through the Exchange and help to maintain Florida citrus independence and supremacy. For further facts, write, wire, phone or call on

ELDER SPRINGS WATER
THOMAS D. BAKER, Ph. D.
Analytical and Consulting Chemist - Professional of Natural Science
Emeritus, Rollins College, Florida
Private Laboratory of Rollins College
Winter Park, Fla., Nov. 5th, 1911

Mr. T. O. Charles
Sanford, Fla.

Dear Sir:
I have completed careful chemical analysis of the sample of water that you brought me early last week, and have obtained the following results:

Color	Clear	Chlorine	1.75 parts per million
Reaction	Neutral	Total solids	8.80 parts per million
Free Ammonia	00 parts per million	Hardness	23.03 parts per million
Albuminoid Ammonia	Trace	Nitrate	Trace

The absence practically of free and albuminoid ammonia in this water and its very small amount of chlorine indicates its excellent quality for household purposes. In addition to the good quality characteristics of superior household water, it possesses special features of much value, especially those of excellent natural aeration and low degree of hardness.

The bacteriological analysis, resulting in an average total count, in four samples of the water, of 3 bacteria per cent., and in finding no colon, or other harmful bacteria, fully confirm its good quality indicated by the CHEMICAL analysis.

Of the many waters of this and other regions that I have analyzed, I have found none superior in all good qualities to that of the "Elder Water."

Yours very respectfully,
(Signed) THOS. D. BAKER
