

Football Fans Face Season Without Single Home Game, Team Prospects Are Dim

By PETER SCHAAL
Creating a mild sensation among lovers of football in this city yesterday was an announcement by Coach Leonard McLucas, athletic director at Seminole High School, that his 1935 squad will not play a single home game this season.

Lack of a proper field and seating facilities for even a small number of people is given as the reason for what may be considered as an unusual situation in which the football fans of a city of over 10,000 persons will have to content themselves with visits to other cities or witness games between Groves Academy and other negro high schools.

Coach McLucas revealed a 1935 schedule of nine games, three of which were supposed to have been played in Sanford. However, since they were arranged some weeks ago, Coach McLucas has taken steps to have them transferred to foreign fields, and as a result football fans out as far as Sanford in concerned for the first time in over 20 years.

On top of his announcement of no home games is Coach McLucas' gloomy review of the coming season which looks as one in which Seminole High may have a squad far below the usual standard.

The loss of 12 letter-men last year finds the 1935 team with only a handful of players, most of them sophomores and freshmen. The team will have to be built around the Williams brothers—"King Kong" and Bob—and Edwin Squires since such outstanding players as George McClanahan, Jack Hughes, Oliver Miller, Leslie Harnage, J. W. Almah, the Parsons, Charlie Beddie, Sam Dighton, Monk Monger, and Spec Cochran have been graduated.

Boys expected to make their appearance for football this year include the Williams' and young Squires, Roy Wright, Lester Phillips, Leon Lawson, Harold Doherty, Franz Warner, James Hill, H. B. Hodges, Jr., Robert O'Hara and Tom Wansley.

Coach McLucas was hopeful that during the summer several new families would move into the city and that they will provide some new material for the 1935 squad. Not more than one or two men could be picked up in this manner.

First practice of the year is set for 4:00 o'clock next Monday afternoon at the High School and Coach McLucas expects all of his team to respond.

New uniforms, featuring silk pants similar to those worn by college teams will be handed out just as soon as the personnel of the team can be demonstrated through practice sessions.

Islanders Will Meet Feds Here Tomorrow At 3:30

Harden Scheduled To Oppose Bunch In Battle Of Hurlers

By PETER SCHAAL
Burio Taylor's Sanford Celery-feds will meet Emil Yde's Leesburg Islanders at Municipal Park tomorrow afternoon at 3:30 o'clock in an important Central Florida Baseball League contest.

Doc Harden will likely start for the Feds against the second place Islanders and his opponent is almost sure to be Jake Bunch, the submarine, chucker with a record of 11 victories and nine defeats this year.

The game will be for the full nine innings and it will be the first of six which the Feds are scheduled to play between tomorrow and next Tuesday night.

Next Sunday the Feds will play a double bill at Cocoa, Monday afternoon in Sanford with DeLand and Tuesday afternoon in Leesburg again.

The Feds, although they pounded five Kinsey for 14 solid blows at Cocoa yesterday afternoon, kicked the game away behind some creditable hurling by Al Caldera, burly Jacksonville left-hander who gave up only six hits, three of them of the scratch type, only to lose.

The score was 4 to 1 in favor of Cocoa. Fans who saw the tilt report that Dave Swindell's work at bat was most amazing.

Caldera's hurling convinced Manager Taylor and all of the Feds that the youngster has the stuff and that he'll have to be the trouble against the rest of the club during the remainder of the season.

Although the Celery Feds collected 14 hits off Spec Kinsey while the Islanders were held to six by Al Caldera, the visitors made eight errors, and three error-batters were walked, giving the Indians five unearned runs.

The Feds started off well enough in the first inning when McLucas and Yde singled and rapped in on a triple by Swindell.

They threw themselves for a run in the second frame however. Yde's fly for Cocoa led off with a fly ball that Swindell dropped. Edges rolled one to Barnes who threw wide to see and putting two runners on the sacks.

Sanford made an attack on Kinsey for five hits that tied up the game in the fifth inning, but a passed batter, a stolen base, and two hits gave the Indians their

British Subjects Ordered To Leave Ethiopia In 4 Days

(Continued From Page One)
British might try to get Ethiopia to join the League for help and let the League appoint Italy to the task of policing and developing Ethiopia.

From Addis Ababa came dispatches indicating that preparations for war continue. Reports reached the Ethiopian capital that several thousand Somali warriors had fled to Ethiopia with Italian rifles. It was also reported the Ethiopians had obtained munitions from secret underground chambers and ancient monolithic churches. There were more signs of evacuation by foreigners.

The eyes of observers turned to yesterday's extraordinary meeting of the Italian cabinet at which heated and uniformed and with the sound of marching feet in the air, Mussolini and the official family will discuss Italian preparedness for any eventuality, in Europe or Africa.

And there was some speculation in European capitals about the forthcoming rival parades of sea forces, both British and Italian, as they are ordered to conduct maneuvers in the Mediterranean.

CITY BRIEFS

about 27 pounds of bacon from the White Tavernery were fined \$5 and costs each on charges of petty larceny while Pete Hoffman, negro, who stole

\$10 from a friend, was fined \$25 and costs.

Joel Fields, local truck operator and contractor, is bringing Sanford and its celery fields considerable publicity in various farm papers circulated widely around the nation. It was reported today "The Country Gentleman," with a circulation of over a million copies monthly, carried a full page advertisement for the International Truck Co. including a picture of one of Mr. Fields' trucks in a local celery field.

The average New Englander looks upon Florida as a paradise and eagerly awaits the time when he can call it his winter home, said Ed Walker, representative of the United States Chamber of Commerce, during a short talk made before Sanford Rotarians at the Mayfair Hotel yesterday noon.

Mr. Walker, now visiting his brother, Heyward Walker, in Sanford, discussed Florida as it appears to the rest of the nation, and made reference also to the organization which he represents, terming it the agency which attempts to express the thoughts and desires of American business men. The noon program included musical selections by the Shannon brothers, W. A. Lester presided.

U.S. Holds Inadequate Reply By Soviets

WASHINGTON, Aug. 28.—The state's department censures Moscow's reply to the American protest against communist activities in this country as unsatisfactory, it was indicated last night.

As soon as the Soviet note was dropped on the desk of Secretary of State Hull, he called into conference Assistant Secretary Moore and Robert F. Elley, chief of the division of Eastern European affairs.

Beyond indicating dissatisfaction, state department officials would not comment until they made a careful study of the note. It is possible that Hull will confer with President Roosevelt before making a statement.

The Morris Plan Company of Orlando has plenty of money to loan at reasonable rates on various plans for any worthy purpose.

Such loans run for one year and are repaid easy weekly or monthly payments.

If you need money, consult our representative Mr. Ira E. Southward, at 116 North Park Avenue.

HOW WOULD YOU LIKE TO STOP SCOURING POTS and PANS FOREVER?

When you cook electrically, no soot blackens pots and pans because electricity heats without flames. And with electric cookery no heat creeps up around the sides, causing the food to stick to the pot at the high water mark.

Cleanliness is only one of the many reasons why electric cookery is better. Automatic control, certain results, safety, and your low Thrifty Three electric rate, all help to make electric cookery the best way for you to cook.

The electric range itself is as easy to clean as a china dish. The absence of smoke and soot saves kitchen curtains and walls, too.

See us or your dealer.

Until September 7, 1935. The Range of your choice for only \$5.00 down. Balance over 24 months with new lower carrying charges.

Belgium's Queen Is Killed By Accident

Car Leaves Road

Queen Astrid of Belgium, the former crown princess, was killed in an automobile accident in Switzerland this morning.

NEW YORK, Aug. 29.—As an answer to recent criticisms of President Roosevelt's failure to take the country into his full confidence regarding future policies, George Creel will present in Collier's Weekly tomorrow a complete exposition of the President's plans.

Having his information on authoritative administration sources, Mr. Creel announces that the federal budget is to be balanced in 1939. The plan for this balancing has been worked out, at the President's dictation, by Treasury experts, and is as definite as precise figures can make it.

For the present year, ending July 1, 1936, receipts will be \$302 million dollars and the deficit \$892 million. For next year, ending July 1, 1937, receipts will be \$300 million, with a deficit of \$900 million. For the following year, ending July 1, 1938, receipts will be \$300 million and deficit \$900 million. In 1939, the deficit will be wiped out and there will be a surplus of \$60 million.

Says Mr. Creel: "The President holds that the best and quickest way to balance the national budget is to balance the budget of the American citizen. Even so, receipts and expenditures are being given careful consideration, and the Treasury experts already see the day when the budget can be balanced, and that without ignoring an essential governmental duty or human obligation."

"The United States has not neared its debt limit, and another fact stressed by the President is that the cost of the debt structure is being steadily reduced. Two years ago a little over 4 percent, its cost is already down to nearly 3 percent."

Some of the other important subjects on which Mr. Creel, speaking with authority, undertakes to interpret the present presidential policies are:

Amending the Constitution "It is the President's deep conviction that the Constitution was never meant to be a dead hand, chilling human aspiration and blocking humanity's advance, but that the founding fathers conceived it as a living force for the expression of the national will with respect to national needs. Believing that the vast and bewildering changes in American life compel new objectives in human relations, the laws he has proposed are frank attempts to gain those objectives, and he will keep up the drive. In the next few months, the Supreme Court will hand down fresh pronouncements. If the Constitution is construed liberally, the President will have no other alternative than to go to the country with a constitutional amendment that will lift the Dead Hand."

President's tax program: "The principle laid down is that taxes

State WPA Okeys Armory Project

JACKSONVILLE, Aug. 29.—The Florida Works Progress Administration today approved and sent to Washington for final review and allotment of funds a project calling for a new armory at Sanford. The structure would be a two floor frame building with 70 by 105 foot dimensions. Federal funds asked are \$24,616; sponsors contribution \$3,100.

Railroads Of Nation Tied Up In Legislation

NEW YORK, Aug. 29.—Four pieces of legislation which will have an important bearing on the future of American railroads, have been enacted at this session of Congress; the railroad retirement bill, the regulation of motor trucks and buses, the railway reorganization bill and the extension of the co-ordination of transportation act.

The retirement or pension act is the most disappointing and the most important to the carriers because it will cost them \$60,000,000 annually at least.

Although no definite decision has been announced, officials and counsel of the various carriers are studying the preliminary drafts preparatory to launching another court attack testing the constitutionality of the pension bill. The roads will probably follow the same line of attack as they made against the 1934 bill which they were successful in having the Supreme Court declare unconstitutional.

Counsel for the roads are preparing to carry their case first to the Supreme Court of the District of Columbia, which court permits an immediate appeal to the Supreme Court of the United States without having to resort to intervening tribunals.

The House passed the Cramer bill imposing a 1 percent tax on railroad payrolls to finance the new railroad retirement program, 3 1/2 percent of the tax to be paid by employees and a 1/2 percent by roads.

In this connection it is interesting to recall the ruling of Chief Justice Hughes last May which was held to bar Congress from any further pension law.

The gravest aspect of the decision is that it does not rest simply on the constitutionality of the law.

Opening Guns Held Already Fired In Campaign Of 1936

WASHINGTON, Aug. 29.—(AP)—Although election day still is some 14 months away, the disposition of political leaders now is to speak of the 1936 campaign in the present, rather than the future, tense.

Various unusually early party activities have contributed to this, but the culminating event widely regarded as a sort of curtain raiser—was the exchange of speeches between President Roosevelt and Republican House Leader Snell.

Mr. Roosevelt disclaimed political intent, but he spoke over the air to a Democratic party gathering, and he dealt almost exclusively with topics which are surrounded by the most active political dispute.

Mr. Snell hardly alluded at all to political affiliations, but he addressed the nation as delivered under the auspices of the Republican national committee, and his appeal for votes against the New Deal was frank and open.

Motives, whether partisan or otherwise, are not clear.

Jack Hickson Catches More Chicken Thieves

Another chicken thief has fallen victim to the relentless pursuit of Deputy Sheriff Jack Hickson, credited with knowing the whereabouts and characteristics of more Seminoles County negroes than any other man in the county.

Sunday night Deputy Hickson was called to the County Convict Camp by Paul Biggers, who reported that a negro named Andrew Mays alias Willie Smith had escaped from the camp and was used to trail him to a point near Lake Mary where the arrest was made.

This morning Deputy Hickson had a tip that the negro was in Georgetown. Ten minutes later, the negro was seen outside a grocery store carrying a bag of chickens.

Seeing Deputy Hickson, the negro dropped the bag and fled, and for the next half an hour the two, later joined by Deputy M. C. Gordon ran in and out of houses and up and down alleys until finally the negro was cornered and pulled from under a house.

The chickens are believed to have been stolen from owners in Lake county where the negro is thought to have been hiding. He probably will be turned over to authorities in that county.

Rev. Jas. A. Johnson Dies After Illness

Rev. James A. Johnson, 49, former pastor of the Wesleyan Methodist Church at Palm Bay and before that a local grocer who had resided in this section for 26 years, died at his home, 1919 West First Street at 6:55 o'clock this morning. He had been ill for several years.

Funeral services were held this afternoon pending word from relatives.

Rev. Johnson was born at Knoxville, Tenn., June 16, 1886. He came to Sanford 29 years ago and practiced truck farming until about 12 years ago when he entered the ministry as an evangelist. He had not served in this capacity except occasionally during the past five years.

Surviving him are a widow, Mrs. Nora Johnson (nee Sanford) five daughters, Mrs. Carl Sanford of Magnolia, Miss Mrs. J. V. Brown, Mrs. Alton Martin, Miss Pauline and Miss Jean Johnson of Sanford; three sons, Alvin E. Johnson, Wesley Johnson, and Robert L. Johnson, all of Sanford; his father, J. B. Johnson of Knoxville, Tenn.

Trail Of Karpis Leads To Resorts At Saratoga Spring

SARATOGA SPRINGS, N. Y., Aug. 29.—(AP)—Persistent reports spread through resorts in Saratoga Springs today that Alvin Karpis, St. Paul's public enemy number one, has been "playing the races" and had escaped a trap on Aug. 16.

Both federal and city authorities denied any knowledge of Karpis' residence here.

Meanwhile, the Saratoga Springs Saratogian published what appeared to be an account of the kidnaper's activity and credited it to a "source close to federal operatives."

The newspaper declined to reveal this source.

The paper said federal operatives and police had surrounded an obscure farm house on Loughberry Lake near here Aug. 16 but learned that Karpis had left six hours previously.

It added that Karpis was arrested in Northampton, Mass., Aug. 12 and charged with a traffic violation, assembly under a false name.

He is said to have posted \$200 bond and left town without his automobile.

The newspaper says the fingerprints taken from the car were sent to Washington and identified as those of Karpis.

Georgia Plans To Erect 8 Wholesale Farmers' Markets

ATLANTA, Aug. 29.—(AP)—Georgia went into the wholesale produce business on a large scale yesterday when the Department of Agriculture announced the leasing of property to eight wholesale farmers' markets for operation of state-owned farms.

Commissioner of Agriculture Tom Linder signed the lease under authority of an act of the 1935 Legislature.

He announced sites had been selected in Atlanta, Macon, Thomasville, Gainesville, Glensville, Douglas, Gainesville and Valdosta.

With construction work completed, Linder said markets in Thomasville, Gainesville and Cartersville are ready for operation.

"A clearing house for the Southeast" was what Linder said he wanted the Georgia system to become.

C. F. Marshall, Former Game Warden Has Plan To Protect Wild Life

A project for the protection of migratory birds under federal laws and other wild game and fish under state laws is being promoted by C. F. Marshall, former game warden of this county.

Mr. Marshall expects to appear in person or to be represented at the next meeting of the county commissioners, at which time he will appeal to this group of county executives for their full cooperation in the establishing of the project.

He outlines his plan as follows: Five competent men to be selected by the work relief director of W. F. A., four as wardens and one as supervisor.

It will be the duty of the wardens to enforce both federal and state laws relative to wild game and fish.

The men, operating in their respective counties must be taken from the W. F. A. relief rolls. It will be the duty of the supervisor to see that competent men are assigned to these jobs. He will also check the mileage on their automobiles, instruct them as to their duty, assign them to certain territory and to enter into the field with them when necessary.

He employed for a period of twelve months in 1934 for the purpose of being employed in 1935 for twelve months, paid semi-monthly from the W. F. A. funds, then saving the state government the expense of employing game wardens.

He also proposes that funds be raised by the sale of licenses or fines be spent for restocking, excepting a sufficient amount for administration and equipment.

The supervisor and wardens will be given both federal and state equipment.

Italy Ready To Defend Its Stand To Last

Mussolini Says Britain Has Nothing To Fear And That Sanctions Are 'Out'

Mr. The Associated Press. A declaration by Premier Mussolini, approved last night at an extraordinary session of his cabinet near the famous battlefields of Brno, told the world England "had nothing to fear from Italy" but that League of Nations sanctions will lead to "most serious complications."

A communique issued by the cabinet said Italy would defend its East African stand "to the very last" at the Sept. 4 session of the League of Nations council. It said Italy has taken necessary steps to face sanctions, and the cabinet decided upon a number of far-reaching economic provisions.

Piero Pini, in an address to the international congress of Catholic nurses at Castel Godeffo, issued a strong appeal against recourse to war as a means of solving the Italo-Ethiopian crisis.

The French cabinet also met in a momentous session and authorized Premier Laval to proceed freely at the League of Nations council session on the crisis Sept. 4, to place France's safety above the possibility of an African war.

The cabinet gave Laval a free hand to oppose any suggestion of threats of force against Italy, and urged that he strive to keep France on friendly terms with both Italy and England.

A London military source said senior members of the British cabinet had met today.

South Florida's First Grapefruit Rolled Out Today

HOMESTEAD, Aug. 29.—(AP)—South Florida's first crop of grapefruit from the 1935-36 crop year, and five more will be rolling toward northern markets by Sept. 1, it was revealed here today.

Green River, manager of the Florida Fruit Products, Inc., of Homestead, Fla., said he was successful in efforts to have a state fruit inspector dispatched here to testify to the maturity of grapefruit.

"It is the best fruit in position to meet the best Florida grapefruit in 15 years of experience," he said. "It is a real Florida grapefruit, not a reason North Florida grapefruit at all by while the rest of the state ships."

Revels said his concern has been packing since Monday and the first car was ready to move today.

"We are not trying to bootstrap," he said. "This fruit is not green. It has been graded carefully. There's no sense in letting it waste while waiting for Governor Shells to get around to naming his control board."

Purcell Co. Auto Is Located In Carolina

Mystery surrounding the theft and disappearance on Aug. 12 of a Buick belonging to the Purcell Co. of this city, was solved with the arrest yesterday in Sumner, N. C., of a man who gave his name as Louis Atkins.

According to Sheriff J. P. McClellan, Atkins had been arrested in Sumner, N. C., on a charge of stealing gasoline. An investigation indicated that the man was concealing facts relating to the car, and a further check-up disclosed that it was the property of the Sanford store's officials.

Following further advice from Sumner and the signing of extradition papers by the governor of North Carolina, Sheriff McClellan said Atkins will be held here.

The automobile was stolen from a parking spot in front of the Purcell Co. store on West Street between 8:30 o'clock and 9:00 o'clock Monday night, Aug. 12.

City Faces Loss Of \$667,393 Due To Sheriff's Sale

Bible Verse For Today: THE EYE OF THE LORD—Behold, the eye of the Lord is upon them that hope in his mercy.

At least one county is not insured for the rainy season to be over—Ethiopia.

Uncle Sam will give the next European war the once-over and that'll be enough.

A pessimist is a person who waits until he catches cold before buying a fishing boat.

Speaking of Ann Landberg's book, "North to the South," William Lyon Phelps says, "She can write as well as I."

We saw where Jimmy Walk says he is now coming back to New York. Which is something New York can be thankful for anyway.

The Republican party is about running the country for president. It would be a good idea to have the party who has shown the most leadership in the past.

The "Herald" is a member of the Associated Press which is exclusively entitled to the use for republication of all news dispatches received in this paper and also the local news published herein.

If it hadn't been for the Ford a good many people would be walking today with a hand riding. Which is a pity, as it has been a great help to the other people.

The A.A.A. is the only one of the four major agencies that is not a government agency.

Judge Buxton of Miami says the "Herald" is a "Herald" in fact it is almost as bad as the federal government.

Most of the editors in Florida are having a good laugh over that recruiting amendment which was supposed to save the State of Florida a lot of money but which in reality, it now develops, actually increased the costs about \$75,000 a year.

The depression is not over yet. In all opinion and faith, writes John Temple Graves, "we can't help wondering when we hear Walter Lippmann and others say the national emergency is ended how they got out of their minds the millions still remaining unemployed. It seems to us that even though things are vastly better there is still an emergency to face as the unemployment rolls remain so large."

It seems to us that even though things are vastly better there is still an emergency to face as the unemployment rolls remain so large."

Shooting The Works

During its session which closed on Monday night Congress appropriated just \$10,256,258,928.06 for government expenditures, setting a new world's record for political profligacy. Not many of us know how much money ten billions, two hundred and fifty-six millions, two hundred and fifty-eight thousands, nine hundred and twenty-eight dollars and six cents is, but it is about one-fourth of all the bank deposits in the United States.

That is some spending! It is what is known as inflation, not the crude old-fashioned printing press kind of inflation, but a thoroughly modern, highly technical, scientific, brain trust type of inflation.

The effect is like that of a drug, or a stiff shot of corn. Each new flotation of bonds, each new distribution of money, makes the country feel better.

Barring drastic Keeley cures, the ultimate consequences of inflation are inevitable and always the same just as they are with dope fiends.

The Republican party is about running the country for president. It would be a good idea to have the party who has shown the most leadership in the past.

JUST BETWEEN FRIENDS

By GEORGE GARNER

To say that the return home is the best feature of a vacation is customary; but really it is an exaggeration. To have a home to which one can return is one of God's greatest blessings.

In an outing at the seashore and in the mountains, the physical and recreational enjoyments outweigh somewhat the mental inspiration; but, on his return, one begins to dig the more serious impressions out of his abundance of reminiscences.

Without unpleasant comparison one rejoices that his lot is cast in central Florida, rather than in its coasts or in the North Florida mountains.

Chaperoned by their Master, Philip, to the W. L. Learner, Mrs. J. H. Wang, Mrs. M. J. Phillips, Mrs. J. M. Wilson, Mrs. R. H. Stinson, Mrs. W. West, Mrs. H. Roberts, Mrs. A. L. Niles, Mrs. Anderson and Helen Hart.

The depression is not over yet. This being true, it is well worth while to examine the speeches and the surrounding circumstances in some detail. The following facts are set down for whatever they may be worth as indicating what is to come hereafter.

From among many available sources, a speaker commonly regarded as a staunch conservative was selected to make the Republican reply.

Both addresses were couched largely in general terms, with little specific mention of concrete governmental problems or individual legislative proposals.

The one specific measure to which Mr. Sewell devoted considerable space was the bill increasing the tax on wealth which he condemned as designed to "confiscate property."

The special points advanced by Mr. Roosevelt were in relation to regulation of banking and industry, which he spoke of as necessary to save the economic structure.

Publicly discernible in the background of the discussion lay the shadow of the constitutional issue, but its outlines remained almost as nebulous as before.

Canal Funds To Be Held Until Probe

Roosevelt Promises Peterson No Action Will Be Taken Until New Study Is Made

WASHINGTON, Aug. 30. (AP)—President Roosevelt today promised Representative Peterson of Michigan in a letter that a "detailed and careful consideration" will be given the possibility of a sea level ship canal from Florida's fresh water supply before funds are released for the project.

The state canal, estimated at \$16,000,000, would open a water route across the peninsula connecting the Atlantic and the Gulf.

The president has been reported to be under consideration an amendment of funds to begin work on the project.

Senator Clegg said yesterday he did not know whether the Florida ship canal would be taken up at the meeting of the works relief committee Wednesday.

Teachers Seen As Under Terms Of Compensation Act

WASHINGTON, Aug. 30. (AP)—Teachers are workers and are some under the provision of the state's workmen's compensation law, in the opinion of Seminole County Attorney O. S. ...

The opinion before them was that the Hillborough board of directors is providing the protection required under the provision for this had been in the school budget.

The Tampa trustees of the school provided for janitors, messengers and other workers.

They previously had been paid full pay for five days of a year, cumulative up to 10 days during layoffs due to school closing.

The new law provides for a salary up to 60 percent of the full salary up to \$16 a week.

This compensation continues for 250 weeks, but does not total over \$1,000 in any one year.

Experts estimated that the \$1,918 for the first year, plus teachers, but drivers, janitors and others in each county.

SENATOR FLETCHER ILL. WASHINGTON, Aug. 30. (AP)—Senator Fletcher of Florida was confined to his apartment by an attack of pneumonia. His condition was reported as not serious.

WHEN TONY EATS, HE REALLY EATS

Tony Laurentis, Philadelphia barber-epicure, got hungry the other day and when he finally pushed his chair back from the table he had on a dozen thick steaks, two thick steaks, four pounds of spaghetti and a meat roast. To help that large quantity of food down Tony drank a gallon of beer and a gallon of wine. Fortunately for Tony's pocketbook the meal, which added twenty pounds to his weight, was free. GOP Leaders See Sebring Electorate Knox-Borah Fight To Vote On Newest Refunding Issue

SOME FIGURE ON DARK HORSE LIKE LANDON GETTING NOMINATION \$2,000,000 PRINCIPAL WOULD BE REFUNDED ON 50 PERCENT BASIS

SEBRING, Aug. 30. (AP)—Sebring freeholders will vote Sept. 21 at a special election on the refunding bondholders' protective committee.

The contract, already accepted by city council, provides for refunding of the bond debt principal.

Rich Hurying To Get Rid Of Stocks Commission Says

WASHINGTON, Aug. 30. (AP)—Spending ahead of new and higher taxes, a commission says today that many stockholders were shown by securities commission reports yesterday that they were selling more than \$100,000,000 in stocks in July.

An estimated saving of \$100,000,000 on the \$2 billion tax bill was effected.

Largest July gifts were \$1,470,000 in the twenty seventh by Kate Hanna, Harry Cleveland, son of M. A. Hanna Company, and \$1,800,000 by Andrew Mellon, former secretary of the treasury.

Consisting of 48,000 shares of a percent cumulative participating preferred in the Pittsburgh Coal Company.

Total gift taxes on the \$2,000,000 in July would be about \$120,000 under the present law against \$700,000 under the new.

Aide from a \$27,000,000 gift in June by John D. Rockefeller, Jr. July gifts were at a higher rate and both months greatly exceed previous months on the commission's records.

Daytona Beach Completes Plans For Labor Day Week Celebration

DAYTONA BEACH, Aug. 30. (AP)—Plans have been completed for the staging of a five-day program in celebration of Labor Day week, the general committee representing the Central Labor Union and every civic and commercial organization of the city meeting with Frederick Houser, city publicity director and general chairman of the festivities, for that purpose.

The program will be made up of 25 events.

The celebration, which will center around Labor Day, is the longest ever attempted at this time of the year and has become known as the "Second Frolic." Local hotels have reported unprecedented registrations and it was said yesterday that indications are the greatest crowd of pleasure seekers ever to assemble at Daytona Beach will be in the city, Monday, M. E. Forsyth, president of the Central

LABOR DAY WEEK. Sunday, Sept. 1. 2:30 P. M. Automobile races; 7:30 P. M. Interdenominational church services at Washburn; 8: Municipal band concert; 9: Lifeguards exhibition in front of boardwalk; 11: 1 P. M. Club dance at Seabreeze Swim Club; 11: 30 P. M. Grotto dance.

LABOR DAY WEEK. Monday, Sept. 2. 10:30 A. M. ...

LABOR DAY WEEK. Tuesday, Sept. 3. ...

LABOR DAY WEEK. Wednesday, Sept. 4. ...

LABOR DAY WEEK. Thursday, Sept. 5. ...

U. S. Debt At 40 Billions Belgians Pay Last Homage To Dead Queen

Solon Paints Striking Picture Of Rise In Expenses, Deficit In Past Four Years Funeral Services For Former Princess Will Be Held Tuesday At Brussels

WASHINGTON, Aug. 30. (AP)—A striking picture of the rise in governmental expenditures and deficits since 1931 was compiled yesterday by Representative John Taber of New York, ranking Republican on the House appropriations committee.

Taber put expenditures of the session of Congress just closed at \$10,256,000,000 a peacetime record.

The record since 1931 as compiled by him follows:

Year Ending June 30, 1931. Expenditures \$ 3,987,424,521.50 Deficit 883,669,899.29

Year Ending June 30, 1932. Expenditures \$ 4,313,522,508.90 Deficit 2,837,376,754.46

Year Ending June 30, 1933. Expenditures \$ 5,804,425,295.16 Deficit \$ 1,788,694,004.33

Year Ending June 30, 1934. Expenditures \$ 7,105,050,894.94 Deficit \$ 3,980,496,822.42

Year Ending June 30, 1935. Expenditures \$ 7,371,826,168.81 Deficit \$ 2,578,357,362.81

With appropriations of \$10,256,000,000 just voted, Taber estimated that the year's deficit next June 30 will be several billions of dollars.

"The record of this Congress makes it the largest from the standpoint of peacetime appropriations for expenditure purposes," he said.

"The last session of the 73rd Congress was larger when you include the stabilization fund appropriation and the appropriations for the R.R. but for expenditures purposes the record just ended is the largest in history."

Taber predicted that the national debt will soar above the staggering total of forty billions of dollars in the next year.

Gallows, Chair Get Lives Of 4 Persons Around U. S. Today

Four convicted slayers were put to death today, two by electric chair and two on the gallows.

At Ossining, N. Y., Alfred J. Landay died in the chair for the murder of Mrs. Bernice Farnsworth who was killed with an axe.

Ben Boyd, negro, was electrocuted at Huntsville, Texas, for the murder of Robert (Smuggly), stabbed during an altercation.

Eddie Gayman and Ray Hamilton were hanged at New Madrid, Mo., for killing Arthur (Lashon), filling station attendant during an attempted holdup.

Bill Barnes and Paul Nelson received reprieves from Governor Futral a few minutes before they were to be electrocuted in Arkansas.

Lamson Tells Of Loss Under Exemptions

If the Homestead Exemption Amendment had been in effect last year, the City of Sanford would have lost about \$12,500 in general operating expense revenue, it was revealed at the City Hall this morning by Clerk F. S. Lamson.

Mr. Lamson declaring that the city is being operated at a cost of about \$6000 per month, said a check of his records showed that persons who have applied recently for the benefits under the Amendment paid \$24,800 in taxes on their property, last year.

Since one half of the tax collections goes for bond debt retirement, the city, therefore, would have lost \$12,400 or about 17 percent of its operating expenses.

KILLED BY NEGROES JACKSONVILLE, Aug. 30. (AP)—H. L. Lynch, 45, died in an ambulance en route to a hospital early yesterday after being shot by two negroes. He was found lying on a street in the 2300 section.

FLORIDA GOVERNOR RETURNS

Gov. Dave Sholtz of Florida is shown above as he and Mrs. Sholtz arrived at New York on the liner Majestic, after a vacation abroad. The governor announced last week the newly created state Civil Control Commission to make an exhaustive study of foreign export markets. (Associated Press Photo)

Cecil Allen Falls To Death At Start Of Bendix Air Race

Pilot Who Flew To Fame In 1931 Dies At An Airport

BURBANK, Calif., Aug. 30. (AP)—Death claimed Cecil Allen today as he followed eight other planes taking toward Cleveland and New York in the annual \$12,500 Bendix trophy race.

Allen, 32-year-old former trans-Pacific flyer, was killed when his plane crashed a mile away from the terminal, apparently never having gained altitude after diving down the five-bound runway.

Eight other flyers, including Annie Earhart and Ted Rowan, turned speed southwest unaware of the tragedy.

Allen first flew to fame when he and Don Mayo attempted a non-stop flight across the Pacific in 1931. Battling storms and a fuel shortage they took a month to fly from Japan to Tacoma, Wash., after being forced down on the bleak Aleutian island and then flying to the Siberian coast for a point landing, which they used for fuel.

Members of the royal household stood watch over the casket containing the body of the former British princess, who had won Belgium's heart.

Nuns prayed in the four corners of the black-draped reception room. Astrid, born a Protestant, joined the Catholic Church after her "love match" marriage to Leopold in 1924.

The Queen's skull was fractured when she was thrown from the automobile. The car swerved and struck a tree when Leopold took his eyes from the road to look at a map Astrid was consulting.

Hauptmann Lawyers Have New "Surprise"

HOLLYWOOD, Calif., Aug. 30. (AP)—C. Lloyd Fisher and Vincent A. Muro, attorneys for Richard Bruno Hauptmann, issued a joint statement here yesterday that their investigators have incriminated a child in Long Island under circumstances indicating "there was more than a possibility it might be the missing Lindbergh child."

Fisher came from New Jersey to confer with Mrs. Emma Glockner, sister of Hauptmann, announcing she plans new legal steps in an effort to save from execution the man convicted of kidnapping Col. Charles A. Lindbergh's child.

The two attorneys declined to amplify the following statement which they issued after noon yesterday.

Two Sanford streets would be improved under projects approved here yesterday by the Florida Works Progress Administration.

Federal officials at Washington will review the applications and allot funds if they are satisfactory.

One project calls for relaying brick on First Street from Sanford Avenue to Poplar Avenue and patching and surfacing the street the rest of the distance to the city limits.

The project would cost \$19,891 in federal funds. Sponsors promised an additional \$4,075.

Real Shells Used By Italy In Maneuvers

Duce Continues His Preparations For Proposed Invasion Of Ethiopia

BOLZANO, Italy, Aug. 30. (AP)—Make believe was abandoned in war maneuvers on the Austrian frontier today as Italian artillery and machine guns poured real shells and bullets over the heads of thousands of advancing infantry.

The deadly missiles were studied for harassing exposures by leaders who said the real artillery fire is designed to eliminate the panic into which soldiers often fall when they hear shells of their own guns whistling over them.

These maneuvers went ahead with preparations for the invasion of Ethiopia while the Ethiopians in east Africa continued plans to repel the Italians.

Great Britain is reported to be set on plans for invoking international punishment of Italy if Mussolini does not give up the armed invasion of Ethiopia.

Great Britain will follow a firm program of action at the Sept. 5 League council meeting at Geneva, despite the warning by Premier Mussolini that the infliction of sanctions upon Italy would result in a serious situation, informed quarters said yesterday in London.

London.—The proclamation of Duce Wednesday night, was described in these quarters as just another public statement. Britain, it was said, hopes the United States and France will jointly call a Briand-Kellogg peace pact conference if Geneva deliberations fail to bring a solution to the Italo-Ethiopian crisis.

Bolzano, Italy.—While Mussolini again surveyed Italian war operations, a prominent Italian banker said the four economic moves made by the Duce Wednesday night in the east African emergency were about the most important ever taken by the government.

Dove Shooting Season In South Is Ordered Extended

WASHINGTON, Aug. 30. (AP)—In answer to numerous protests from the South, the biological survey yesterday announced dove shooting in Southern states would begin and end 10 days earlier than originally provided in the 1935 federal hunting regulations.

Approved by President Roosevelt, the new amendment makes the mourning dove season Sept. 21 to Jan. 5 in Delaware, Maryland, Virginia, Kentucky, Tennessee, North Carolina, Florida, Alabama, Mississippi, Louisiana, Arkansas, Oklahoma, Texas, New Mexico, Arizona and California.

Formerly set to open Oct. 1 and close Jan. 15, the season was changed to equalize privileges of dove hunters throughout the country. State laws prohibiting October and early November shooting in the interest of upland game birds resulted in a practically closed season on doves in some states under the original provisions of this year's federal regulations.

Fort Myers Seeks Soft Water Plant

FORT MYERS, Aug. 30.—Delegated to obtain approval of the \$200,000 soft water project, Mayor George Shapard left last night for Tallahassee and Jacksonville to confer with state officials in order to get the project sent to Washington.

This project is on a PWA loan basis with the federal government granting 25 percent of the money and the city paying back the remainder over a 20-year period.

The city soft water pumping and purifying plant project has been prepared by the Roberts Engineering company of Atlanta. A representative of the engineering company will meet Mayor Shapard in Tallahassee to confer with PWA officials. The plan is to pump water from a battery of 12 shallow wells.

Mrs. Rogers Denies Insurance Reports

WASHINGTON, Aug. 30. (AP)—Mrs. J. Edgar Hoover yesterday had been authorized by Mrs. Will Rogers to announce that her husband carried only \$50,000 in insurance.

The RPO chairman, an old friend, talked with her daily by telephone since Rogers was killed in an Alaskan plane crash.

Jones quoted Mrs. Rogers as saying first reports that Lloyd, Ltd. of London had paid a \$2,500 accident insurance policy were erroneous.

He said Rogers carried \$200,000 in accident insurance and \$200,000 in regular life insurance.

State WPA Board Approves Street Widening, Repair Projects Here

Two Sanford streets would be improved under projects approved here yesterday by the Florida Works Progress Administration.

Federal officials at Washington will review the applications and allot funds if they are satisfactory.

One project calls for relaying brick on First Street from Sanford Avenue to Poplar Avenue and patching and surfacing the street the rest of the distance to the city limits.

The project would cost \$19,891 in federal funds. Sponsors promised an additional \$4,075.
