Britain To Cut Military For Solvency Sake

Churchill Announces **Effort To Protect Financial Stability**

LONDON (AP)—Prime Minister Churchill announced today Britain will cut back her defense effort to protect her financial solvency.

He stressed, however, that this decision in no way implied any weakening in her majesty's government's determination to take its full part in the effort of the North Atlantic Alliance.

Churchill read a prepared statement in the House of Commons on a defense policy.

He said that last year defense cost Britain 1,402,000,000 pounds (\$4,093,600,000). The same amount of defensive equipment this year will cost 1,620,000,000 pounds and next year 1,800,000,000 pounds in inflationary factors account for the rise.

The prime minister did not state how far the defense effort would be cut back. He did say, however:

"We must prevent any substantial rise above this level of defense expenditure."

Churchill's statement was interpreted to mean that Britain's defense spending would remain more or less constant. Effects of inflation would merely result in a decreased quantity of arms output.

The Prime Ministers of Britain, Canada, Australia, New Zealand, Pakistan, Ceylon and Southern Rhodesia and finance ministers of India and South Africa have been meeting in London since last Thursday.

High officials said a few hours before their session today with the British Cabinet that, as far as they knew, the group has no plan for a Korean settlement. But the consensus, they said, does seem to be that the Commonwealth defense spending would remain more or less constant. Effects of inflation would merely result in a decreased quantity of arms output.

The Prime Ministers of Britain, Canada, Australia, New Zealand, Pakistan, Ceylon and Southern Rhodesia and finance ministers of India and South Africa have been meeting in London since last Thursday.

Thousands Line Streets Of City As Santa Claus Parade Is Held

Downtown streets were jammed with crowds estimated to number 10,000 to 15,000 people yesterday afternoon. Approximately 1,000 persons trooped past them in the colorful, musical Christmas parade which opened the four-day Tourist Festival.

Santa Claus came strutting into town aboard a screaming fire truck rather than the traditional sleigh. His arrival was accompanied by a shrieking jet plane from the Sanford Naval Air Station, flying low over the downtown section.

Winners in the parade were picked by Captain J. L. Chittenden, commanding officer of SNAS, Mrs. S. L. Whalley and Mrs. Nancy H. Cox, representing the Seminole County chapter of the Red Cross and dressed like a Red Cross nurse, won first prize, while the second prize went to Susan Paule, representing Yvette's lunch stand, and the third prize went to the local Cub Scout troop.

Lyman School won the competition in which children appeared on floats, West Side Primary School, second, and Geneva School, whose float showed little Susan Fulford dressed as an angel and driving a reindeer, was third.

Prizes were waiting to be claimed last evening at the Chamber of Commerce by the Red Cross, the Cub Scouts and Lyman School. Other prizes had been received.

Police Chief Joe Williams estimated the size of the crowd at 10,000 people, while Highway Patrolman offered an estimate going as high as 15,000 people. Crowds jammed the curbs four persons deep along the route of march.

Eight bands participated in the parade from Seminole, Orlando, Edgewater, East, Orlando Home-Winter Park and DeLand High School, Crossroads Academy and Santa.

Head Of Wage Body Quits In Protest Move

Truman's Board Chairman Leaves Post In Disagreement Over President's Action

WASHINGTON (AP)—President Truman's wage board chairman quit his job today in protest over the President's approval of an extra wage boost for coal miners above and beyond the recommendations of all top defense agency officials.

Archibald Cox, chairman of the Wage Stabilization Board, waited only overnight to resign. He made no formal statement, but told a reporter the White House might have something to say this morning. The Truman action, while counter to recommendations of his stabilization board, did assure a year's peace in the coal mines.

The President yesterday approved the full 31.90 daily wage increase for John L. Lewis' 375,000 soft coal miners. He said he didn't want President Eisenhower have a coal strike crisis on his hands when he takes office next month.

While the move averted an almost certain strike, it opened the door to a boost in coal prices to consumers and touched off unrest among public and industry members of the wage board.

Majority had held that a wage boost beyond \$150 would be inflationary.

WSB chairman Cox, a 40-year-old Harvard law professor, has been in office for four months. He accepted Nathan P. Feininger, whose actions in the steel case last summer resulted in Congress passing a law restricting the powers of the WSB.

Industry members of the WSB said through a spokesman they would boycott all board meetings until they have expressed long questions raised by Truman's action. Herbert Kelley, executive assistant to the seven industry members, told newsmen they would get together tonight.

Meanwhile, Kelley telegraphed industry members of the 14 WSB regional boards of the decision not to participate in the board meeting here. This could bring the entire wage control program to a standstill, at least until the industry chart a course of action.

Adlai Says He And Truman Are In Accord Not To Snipe At Ike Just For Party Sake

Taft Chance As Floor Leader Is Held Doubtful

GOP Leader Thinks Criticism Of Ike's Choice Hurt Ohioan

By JOHN CHADWICK

WASHINGTON (AP)—Two Senate Republicans were in disagreement today on whether Senator Robert A. Taft of Ohio should be chosen as GOP Senate floor leader by his ally on President-elect Eisenhower's choice for secretary of labor.

The Republican lawmaker, a staunch Taft backer who asked not to be quoted by name, foresaw as a result the "draft" of Sen. Styles Bridges of New Hampshire, the present floor leader, for another term.

But another Taft supporter, also requesting anonymity, said an organized effort would be made to elect Taft to the post. He would not predict the outcome, but said the drive would be sopped only if Taft removed himself from consideration.

Bridges spread word soon after the Nov. 4 election that he wanted to pass the leadership job to other hands and take over the less burdensome duties of the temporary president of the Senate.

In case of a dispute over his successor, however, Bridges has now changed his mind and is now known to be willing to continue in this post to promote party harmony.

Taft had declared he is available for the job, but he has not yet accepted the nomination. He said he is in the home presently at the Dreamworld Trailer Court.

"And it's a real home too, with all the modern conveniences," he said. "For several weeks I have been taking the children to school and to the various places where my husband works and they were very simply unimpeachable."

"So many times we heard, 'We don't allow children' till we just got trailer mended. My husband follows the construction work and we wanted something that was comfortable and livable in live-in from place to place."

Both Mr. and Mrs. Wilkie are native South Carolinians. He is employed by the Ford Motor Co. construction company on a lead Air Station project. They moved into a house on wheels four years ago and wouldn't trade their year of living for any other under the sun.

Named To Eisenhower Cabinet

SINCLAIR WEEKS (left), 39 chairman of the Republican Education Committee, has been named secretary of Commerce in the Eisenhower Cabinet. Weeks, a former senator, is a native of Massachusetts. (Right) Adlai Stevenson, 54, has been named by the President as secretary of Labor. A renegade Democrat who supported Dwight D. Eisenhower in 1952, Stevenson, 54, is president of the United Association of Journeymen and Apprentices of the Plumbing and Pipefitting Industry.

Stevenson Says Aim Of Demos Is To Retire Deficit, Serve Public's Interest

WASHINGTON (AP)—Adlai Stevenson said today he and President Truman are in complete agreement not to wage war on Dwight Eisenhower's program simply for party advantage.

And he told reporters at a White House news conference that the Democratic party's two major problems are (1) to wipe out a deficit of more than half a million dollars and (2) to "serve the public interest."

Stevenson spoke to newsmen after conferring with President Truman at the White House. The Washington residence for which he hid in his unsuccessful campaign for the presidency.

He made no major pronouncements at the news conference, but chatted amiably with reporters who pelted him with questions about his political future and that of the Democratic party.

The Illinois governor did say these things:

"I have no immediate plans for the future other than to take a long rest and possibly to travel abroad."

"I know of no plans for a change in the leadership of the Democratic National Committee, but it may be necessary to reorganize the committee structure because of the deficit in funds."

He added that he expects his hand-picked national chairman, Stephen A. Mitchell, to stay on in the job.

"It is up to the Democratic leadership in Congress to serve as the instrument of being constructive and a wholesome influence in our public life."

"Some Southern Democrats at (Continued on Page Six)

Jaycees Face 11 Projects During Next 2 Months

Junior Chamber Is Nearing Its 250 Membership Goal

After successfully staging the Christmas parade yesterday, the Junior Chamber of Commerce waded into a general discussion and outline of an ambitious program of projects to be completed within the next two months, at their Yacht Club meeting today.

President Douglas Stenstrom outlined the numerous "undertakings" as follows:

1) Finish up the "Voice of Democracy" essay contest for Junior High school students in the County high schools.

2) Organization of a Jaycee building school to instruct youths on the proper method and procedure with Elton Moughton, Jr., acting as chairman.

3) Completion of the Jaycees' 21 drive to assist the Seminole County Tuberculosis Association.

4) Organization of a leadership program under the chairmanship of Brillee Othman in conjunction with the Junior Chamber program in January.

5) Staging of the Christmas Lighting Contest, which John Williams is serving as committee chairman.

6) Presentation of the "Good Government" and "Outstanding Citizen" awards by a committee headed by T. F. Tucker.

7) Current Jaycee membership campaign under the direction of Dick Healy. The drive ends on Dec. 15 and is being staged in conjunction with the national Junior Chamber campaign.

8) Completion of the fund-raising drive for the Jaycees' Shrine Shopper's Tour, under the direction of Carl Priole.

9) Mr. Stenstrom also listed three more projects coming under the leadership of Mr. Healy.

10) Blazing the annual Jaycee Circuit on Jan. 20. The "Rover Brothers" Circus will be used this year.

11) Talent show on Feb. 26.

12) Sale of reflector taxes for bumpers on cars and bicycles. Mr. Healy will be chairman of this committee.

"The results of our membership drive have been good so far and our 250 goal will be reached before the drive ends," Mr. Stenstrom predicted. So far, 217 memberships have been turned in by Mr. Healy.

Haggard Seen As McCarty Choice For Racing Post

TALLAHASSEE (AP)—Dr. Curtis Haggard, Miami dentist, may be Gov. elect Dan McCarty's choice for chairman of the State Racing Commission.

That was the word from friends of McCarty today. He could not be reached immediately at his Ft. Pierce office.

His assistant, Warren Blackmon, said the governor-elect hadn't completed makeup of the five-member board which supervises racing and legalized pari-mutuel betting.

He said McCarty hopes to have names of men who have agreed to accept appointment to the commission and other top positions in his administration ready for an announcement next week.

The present commission chairman is Carl Hanton. Ft. Myers News-Press publisher, Ix Myers and those of the other four members, expire Jan. 6 along with that of Fox Warren who appointed them.

Dr. Haggard has been a friend of McCarty since their college days at the University of Florida. His wife headed the women's division of McCarty's Dade County campaign last spring.

Elizabeth in Tallahassee Judge Hugh Taylor instructed rival attorneys in the Broward County bond validation suit to stress the constitutional aspect of the case in their final briefs.

The court issued its orders after all testimony had been taken in the improvement commission's petition for validation of a 15 million dollar bond issue to help finance a two-tunnel, 10-bridge traffic relief project.

The bonds would be repaid with tolls collected for use of a proposed tunnel at Las Olas Boulevard and a bridge at S. E. 17th St. in Ft. Lauderdale plus Broward County's surplus gasoline tax money.

The City of Hollywood and the taxpayers claims the decision to build was an arbitrary one on the part of state and county officials. The tunnel, however, is more expensive than bridges at the same sites.

The objectors also declare the use of the surplus gas tax money for use of a tunnel under the Las Olas Waterway at Las Olas Boulevard in Ft. Lauderdale and a bridge at SE 17th St., also in Ft. Lauderdale.

The suit by the City of Hollywood and the taxpayers claims the decision to build was an arbitrary one on the part of state and county officials. The tunnel, however, is more expensive than bridges at the same sites.

The objectors also declare the use of the surplus gas tax money for use of a tunnel under the Las Olas Waterway at Las Olas Boulevard in Ft. Lauderdale and a bridge at SE 17th St., also in Ft. Lauderdale.

Miami Dentist To Get Chairmanship, Say Ft. Pierce Friends

TALLAHASSEE (AP)—Dr. Curtis Haggard, Miami dentist, may be Gov. elect Dan McCarty's choice for chairman of the State Racing Commission.

That was the word from friends of McCarty today. He could not be reached immediately at his Ft. Pierce office.

His assistant, Warren Blackmon, said the governor-elect hadn't completed makeup of the five-member board which supervises racing and legalized pari-mutuel betting.

He said McCarty hopes to have names of men who have agreed to accept appointment to the commission and other top positions in his administration ready for an announcement next week.

The objectors also declare the use of the surplus gas tax money for use of a tunnel under the Las Olas Waterway at Las Olas Boulevard in Ft. Lauderdale and a bridge at SE 17th St., also in Ft. Lauderdale.

State Road Board Convinced Tunnels Are Real Solution

TALLAHASSEE (AP)—The State Road Department is convinced tunnels are the only practical long-range solution to Broward County's traffic problems.

Department Chairman Alfred McKechnie and several members told the Leon County Circuit Court judges today that the tunnels would be the only practical long-range solution.

The City of Hollywood and a group of Broward state taxpayers are protesting state plans to float a 15 million dollar bond issue to help finance a two-tunnel, 10-bridge traffic relief project.

The bond would be repaid with tolls collected for use of a proposed tunnel at Las Olas Boulevard and a bridge at S. E. 17th St. in Ft. Lauderdale plus Broward County's surplus gasoline tax money.

South Carolina Couple Find Living In Trailer Is All To Their Liking

By RALPH J. TOMPKINS

It didn't take the W. H. Wilkies long to learn that trailer folk are still just good plain American people like the rest of us. The Wilkies and children, Maxwell, 13, and Hugh, 6, are making their home presently at the Dreamworld Trailer Court.

"And it's a real home too, with all the modern conveniences," he said. "For several weeks I have been taking the children to school and to the various places where my husband works and they were very simply unimpeachable."

"So many times we heard, 'We don't allow children' till we just got trailer mended. My husband follows the construction work and we wanted something that was comfortable and livable in live-in from place to place."

Both Mr. and Mrs. Wilkie are native South Carolinians. He is employed by the Ford Motor Co. construction company on a lead Air Station project. They moved into a house on wheels four years ago and wouldn't trade their year of living for any other under the sun.

Johnnie B. Austin Is Found Guilty Of Breaking, Entering

A jury composed of five men found Johnnie B. Austin guilty today of breaking and entering into the home of Mrs. H. H. Austin, 4110 S. W. 13th St., in the Seminole County Jail.

The jury returned its verdict after a maximum 30-minute deliberation in the county courtroom.

The defendant was charged with breaking and entering into the home of Mrs. H. H. Austin, 4110 S. W. 13th St., in the Seminole County Jail.

Fr. Daniel Hegarty To Deliver Oration At Elks Services

The Rev. Fr. Daniel Hegarty, chaplain of the Winter Park Lodge of the Elks and pastor of the St. Margaret Mary Church of that city, will deliver the oration at joint Elks memorial services here Sunday, during which several selections will be presented by a 10-piece ensemble from Seminole High School, Howard McCough, chairman, and past excellent ruler announced today.

Participating in the services, which will start at 2:00 p. m., will be Orlando Lodge No. 1079, Winter Park Lodge No. 1830 and Sanford Lodge No. 1241. The public is invited to attend.

The 10-piece ensemble will sing "Abe With Me" and "Our God, Our Help," according to the program. Members of the ensemble are Mary Ann Wilke, Ann Raborn, Joan Wright, Eloise Snyder, Sylvia Hayes, Merle Crissey, Barbara Riggs, Sandra Dunn and Joyce Jones, members of the Trilite Trio, and Larry Bates, Edwin Tidmore, Ray Davis, Jimmy Whaley, Joe Hutchinson, Eugene Estridge, Jimmy Kridler and Arthur Hawkins, members of the boys' double quartet. They will be accompanied on the piano by Jeanne Linn Miller.

A regular meeting and initiation will be conducted at the local club tonight, starting with dinner at 6:30 o'clock. Other events planned by the Elks Club are a Christmas ball on Dec. 20, a children's Christmas tree, a New Year's Eve party and a benefit auction.

Beer Commercial Is On Church Program

WASHINGTON (AP)—Congress has approved a program that allows beer and cigarette commercials to be shown on radio and television even appear at times on church programs.

Paul C. Mitchell, a science teacher who heads the committee for peace and social action at the First Methodist Church in St. Petersburg, told a House Commerce subcommittee yesterday the commercials come "at all hours, day and night, including the Sabbath, regardless of the audience, and without reprieve."

Mitchell said the committee is introducing Dr. Norman Pease, the famous preacher and Christian author, stepped to say: "This is a word about kick-backs."

Plans Are Made For Lake Mary Festivity

Plans for their annual Christmas Yule Celebration, which will be held shortly before Christmas were discussed last night at the regular meeting of the Lake Mary Chamber of Commerce, Raymond M. Ball, president, said today.

The annual affair, during which presents and candy are distributed to children of the community and entertainment is furnished, will be staged under the direction of Arthur Tomkinson, Liberal Club chairman, and the celebration has been named. Mr. Ball stated.

Favorable committee reports were made and eight new members were taken into the organization. The meeting was concluded with Commission Orla E. Fouracre addressing the group on proposed road improvements in Lake Mary.

A question and answer period followed.

Woman's Body Found In Market's Office

MANFIELD, O.—The body of a woman believed slugged by robbers was found in the blaine office of a super-market early today. Police Capt. Paul Whipp reported.

He identified her as Mrs. Leah Sternbaum, about 30, wife of Ernest Max Sternbaum, owner of a super-market chain here.

Capt. Whipp said it appeared robbers had set fire to the office after slugging Mrs. Sternbaum and her husband. Sternbaum was found unconscious in an alley behind the office.

Police are investigating the case.

Plans For Turnpike Will Be Explained

MIAMI (AP)—A public meeting will be held in Tampa, probably near the end of January, to explain plans for the Florida Turnpike.

The super-highway committee of the Miami Chamber of Commerce said Wednesday a large working model of an expressway will be available for the meeting and will contrast travel over a limited-access highway and a highway with crossroads.

Committee members said many people know little about the proposed 275 million dollar highway that would be built from Jacksonville to Miami with a branch to Tampa.

Faville Declines To Be Named As Hospital Trustee

Howard Faville, president of the First Federal Savings and Loan association, said today that he had asked George Tushy and Douglas Stenstrom, co-chairman of the Citizens Hospital Committee, to withdraw his name from the list of men proposed as trustees for the Citizens Hospital.

Mr. Faville said that the demands on his time were such that he felt he could not give all the time that would be required by this important project in its early stages.

Mr. Faville said, "I feel honored that I should be considered by the Hospital Committee and the County Commissioners for a job of this nature. I am certainly most interested in seeing that the hospital project is pushed to completion as soon as possible, but I am compelled because of this that I am compelled to ask the withdrawal of my name. I feel that a great deal of time will be required to get this important job done, and I know that at this time I just cannot give the time to it."

When told of Mr. Faville's decision, the two chairmen of the committee as a whole when they said that they regretted the fact that the local business man could not serve.

Davis Home Near City Limits Is Burned To Ground

While Hicks, Burns, his wife and five children were smoking the big Christmas party at the home of the late Mrs. H. H. Davis, 4110 S. W. 13th St., in the Seminole County Jail.

The fire broke out in the living room and spread to the ground around the house after about 10:00 p. m.

Year-Round Use For Amphitheater Seen

LAKE WALES (AP)—Prospects are reported bright for year-round use of the big amphitheater built near here for the winter production of the Paxon Play.

F. Carl Sisk, general manager of the amphitheater, told a civic club the following organizations have shown interest in using the facility.

The University of Florida drama department as a summer field laboratory; a group planning a big scale production based on Florida history; the St. Petersburg symphony orchestra and the Florida State University symphony.

First performance of the Paxon Play in the 3,000 seat outdoor theater will be presented Jan. 9. There will be performances three times a week ending March 6.

Holsum is your best choice of enriched breads because it contains ALL the vitamins and minerals, including Sunshine Vitamin D, as recommended by the National Research Council's Food and Nutrition Board.

Here's what you get!

One-half pound (eight slices) of Holsum Bread will supply you with at least the following amounts or percentages of your minimum daily requirement for these essential food substances:

Thiamine (Vitamin B.) . . . 55%
Riboflavin (Vitamin B.) . . . 17.5%
Niacin 5 milligrams
Iron 40%
Calcium 17%

plus

Sunshine Vitamin D 35%

Scientists say Sunshine Vitamin D is necessary for the body to utilize Calcium in the diet. Without Sunshine Vitamin D, Calcium from any source is not fully utilized. You must have both and Holsum gives you both. Holsum is your biggest value in bread because it gives you better flavor and extra nourishment at no increased cost.

Italian Children Famed For Effort In Catching Snails

By JACK BRUNINI
 ROME — It was raining very hard, but the nine children of Peppino d'Annunziato didn't mind it. They lined up, the little ones first, squeezing their noses against the dripping window pane of the ground floor kitchen. When the rain stopped they rushed out, carrying little straw baskets. "Ooh! Look, how big and fat they are," cried Gianni. There are at least 20 under this cabbage leaf," shouted Maria from the garden. The children were after snails. The big fat spitting ones that Europeans consider a delicacy cooked with fat and garlic, although most Americans don't like them.

The nine d'Annunziato children are famous in the neighborhood. They supply snails to a collector every day it rains. They receive as much as 40,000 lire (\$60) a week. To collectors, snails are worth 50 lire a kilo (10 cents for 2 1/2 pounds). They are worth much more on foreign markets and Italy exports them in quantities to neighboring countries, mostly to France. Italians eat them too, of course. Besides the "d'Annunziato" collectors, there are pros in this sport too. The professional snail catchers go out mostly at night, and comb the fields for snails. Apart from snails consumed locally, five tons of them cross the border into France every day packed in special crates, for French restaurants and homes. Italians are grateful to France for eating snails in such quantities. It means good ready money, and it frees the fields of them. Sometimes snails are a plague about had as locusts. They eat new leaves of vegetables, corn, wheat and trees. Collectors will take snails of all kinds—green, brown, yellow, and white—provided they are half an ounce in weight and an inch or more in diameter.

Entertainers Barred In Protest Of Strike

CHICAGO — Owners of nearly 60 night clubs in the Chicago metropolitan area barred entertainers last night in protest against a strike called by the American Guild of Variety Artists against four night spots. A spokesman for the owners said taken strikers were ordered in four cities. More than 300 entertainers, including strip teasers, were affected by the shutdown. The four strikers clubs, including two in suburban Chicago, were closed. The clubs remaining open had music but no entertainers. Milton Hayner, attorney for the Cafe Owners Association of Chicago, said the guild is a national director of the Guild, ordered the strike after members of the association refused to agree to a request that the association pay the Guild \$1.50 per performer a week.

Secondary Schools Group Adds Members

MEMPHIS, Tenn. — The Southern Association of Colleges and Secondary Schools wound up its annual meeting today by adding a number of high schools to the association. Public Walker, superintendent of public schools in Jackson, Miss., was elected president of the association. He succeeds Guy H. Wallis, president of Georgia State College for Women at Milledgeville, Ga. High schools, private and public, added to the association included: Alabama—Cullman High; Central High, Florence; S. R. Butler, Huntsville; Livingston High; Pell City High; Thomason High, Silver; B. H. Comer, Sylacauga; and Sumter County High, York. Florida—Bunnell; Central Catholic, Jacksonville; Tomlinson Vocational, St. Petersburg; Williston High; and Orlando's Edgewater and William R. Boone high schools.

Officials Concerned Over Swiss Climbers

NEW DELHI. — Swiss legation officials today began to show signs of great concern over the prolonged delay in news of the outcome of the Swiss Everest expedition. One commented: "We are not making a joke over the fact we cannot tell you anything this time." Legation officials said they had no information on perils rumors here that a representative of the Swiss Alpine Foundation in Zurich, Edward Peus, is flying to Delhi to investigate the fate of the foundation's expedition. The Swiss officials discount "unauthorized" reports attributed to Nepalese travelers that the expedition has completed the descent of Everest and is now en route to the Nepalese capital of Kathmandu. Instead they appear to be beginning to fear the worst. The Swiss team began its climb of unquaranteed Mt. Everest Oct. 6. On Nov. 17, sources in contact with the expedition said the final assault party had reached a point on the mountain from the summit which is more than 20,000 feet high. No man ever has reached the top and returned to tell about it.

PRESIDENT-ELECT Gen. Dwight D. Eisenhower is pictured at his New York headquarters as he conferred with his advisors on the Korean war, the selection of a cabinet and other major problems. In the group (l. to r.) are Sen. Styles Bridges of New Hampshire, Gen. Eisenhower, Sen. Robert A. Taft of Ohio, and House Speaker-to-be Rep. Joseph W. Martin of Massachusetts. (International Exclusive)

Widening Of Election Laws Is Suggested

WASHINGTON — Disclosure that Eisenhower boosters spent at least \$1,200,000 in pre-convention activities without reporting it brought a suggestion from a congressional committee today that election reporting laws be broadened. The expenditure, made by the Citizens for Eisenhower committee, did not have to be reported under present law, which requires political committees to report only receipts and expenditures in a general election. The spending to help win the Republican presidential nomination for Eisenhower was disclosed yesterday by Walter Williams, chairman of the Citizens for Eisenhower committee, to a special House committee studying possible election law revisions. Chairman Rogers (D-La.) told newsmen it indicated the need for some system of determining how much is collected and spent in an entire campaign, from the time a candidacy is announced until the election takes place. Other committee members expressed similar sentiments but agreed that the main difficulty facing Congress in the question of whether control of primary elections and pre-convention activities is a field in which Congress has jurisdiction. Hereafter, Congress has jurisdiction on the theory that the states alone hold jurisdiction over primaries and other non-general election activities.

Reds Demand Return Of Russian Deserters

BERLIN — The Soviets demanded the return of a Russian deserter in the West today and the Americans promptly countered with a request to interview an American soldier the Reds say has gone over to them. Soviet Foreign Minister Vyacheslav Molotov demanded that the U. S. immediately return Russian Pvt. Alexander Kulikov, who entered West Berlin last Thursday and asked "political asylum." Molotov charged the Americans were "forcibly" detaining the Russian and were trying to "make him turn traitor to his country." Maj. Gen. Lemuel H. Mathewson, the U. S. commandant here, replied in a letter that Kulikov was a legitimate political refugee and suggested that the Russians come interview him and see for themselves. Mathewson added he would be "gratified" for the same opportunity to interview Pvt. Carl T. Blake, an American soldier from Covington, Ky. The Communists earlier this week said he had deserted to the Red zone, fleeing "American imperialism."

Diplomat Resigns As High Commissioner

WASHINGTON — Walter J. Donnelly, a career diplomat for nearly 30 years, has resigned as U. S. high commissioner to Germany, administration sources disclosed today. These sources, who asked not to be quoted by name, said Donnelly informed President Truman that he wishes to enter private business. The nature of that business was not known. The 55-year-old diplomat has been the top ranking American official in West Germany since July 12, when he was named to succeed John J. McCloy. His job has been much the same as that of ambassador, although he does not hold that title because the German peace contract has not yet gone into force. Donnelly holds the rank of personal ambassador. When the peace contract goes into effect, the high commissioner post will be ended. Washington sources said the President has accepted Donnelly's resignation, but has delayed announcing it for diplomatic reasons.

Suggestion Made To Hold Primaries Same Date In U.S.

By WILLIAM J. CONWAY
 CHICAGO — The Council of State Governments today suggested that presidential primaries in the states be held on the same date. Such primaries now are stretched out, state by state, from March through June. The council passed along this idea to state lawmakers. It would be highly desirable for the states to fix identical dates for presidential primaries, preferably a date within about a month of the national convention. "This would avoid the present unduly long period of the pre-convention campaign and would encourage all leading candidates to enter the primaries of all states instead of a few." The council said only 19 states now give their citizens a chance to take a direct hand in selecting the presidential nominees of the major parties. There are two methods of doing this. Under one, the citizens can express their preference for the nomination by voting in a preferential primary. Under the other the citizens vote for delegates to the national convention of their parties. The council said present primary laws have been criticized because of variations in dates and provisions. Results in some states are binding on convention delegates, for instance, but not in others. But it also said: "There is little sentiment today for a nationwide presidential primary whose results would be final, displacing the national conventions."

South Koreans Will Not Accept Proposal

UNITED NATIONS, N. Y. — Foreign Minister Y. T. Pyun announced today the South Korean government cannot accept the Indian compromise plan on Korea approved by the U. N. Assembly. Pyun said a communication to Lester B. Pearson, president of the Assembly, will state his government's rejection of the Indian plan. "Our government cannot accept the Indian resolution because it is against the spirit of the constitution of the Republic of Korea," Pyun said. The U. N. plan calls for all prisoners of war to be sent to a demilitarized zone for repatriation by a commission. Pyun's government regards all Korean prisoners as citizens of Korea.

Threat Of Railway Car Shortage Hops Up Early This Year

TAMPA (AP) — Threat of a railroad car shortage, almost an annual bugaboo for the Florida farmer, cropped up early at the annual meeting of the Vegetable Growers Association of America. A prediction that Florida agriculture would experience such a shortage of rail-freight tonnage beginning about Jan. 15 was made Wednesday by James K. Knudson, head of the Defense Transport Administration. U. S. Sen. Spessard L. Holland said he looked for greater efforts by the incoming Republican administration to meet the problem of transportation shortages. Neither speaker offered any indication of the threat. Knudson said he hoped the trucking industry would be able to help out in the pinch as it did last year. "We have fewer freight cars this year than we did last year at this time," Knudson said. "We will do the best we can to make the cars go as far as they can and as fast as they can."

Holland said he thought the farmer would benefit under the Eisenhower administration by greater use of section 39 of the tariff laws. He explained this was intended to help make up for losses for higher prices due to tariffs on equipment and other items. He provided that 30 per cent of the payments go into a fund for the benefit of agriculture. The senior Florida senator looked for the Republicans to push down on the Community Credit Corporation for greater efficiency and to restate the Production and Marketing Administration. He described PMA payments for soil conservation as "nothing in the world but handout" payment for what farmers "should do anyway."

HERE IS AN AERIAL VIEW of the area near "Dove Tavern" on the left side, where nearly 100 motor cars and bus passengers were crowded for the gas-driven billiards which swept out of the mid-west. At least 150 cars were attributed to the storm. (International Exclusive)

OPS Ordered To Wipe Out Certain Ceilings

WASHINGTON — A federal court today ordered the Office of Price Stabilization to wipe out price ceilings on a long list of food products processed from fruits and vegetables. Among them are jams, jellies, preserves and honey, all canned and dehydrated soups, including those containing meats, strained and chopped baby and tumor foods, vinegar and sauces.

Citrus Group Isn't Sold On Western Area Possibilities

LAKELAND (AP) — The Florida Tangerine Co-operative isn't as sold on the Rocky Mountain area as a prospect for expanding sales as it was a month ago.

Philip C. Morse Jr., manager of the co-operative, recently visited that area and advised upon his return that the organization shift a promotion campaign planned for the Salt Lake City area.

On his recommendation the Florida Citrus Commission agreed to use the \$20,000 earmarked for the Salt Lake City promotion in the Minneapolis-St. Paul area instead.

He said there is too much competition from cheaper Arizona tangerines because of the difference in shipping costs between Arizona Salt Lake and Florida-Salt Lake.

Morse said Florida citrus is being sold in Salt Lake City but is offered only as a fill-in between the seasons for various California and Arizona crops.

"Potentially Salt Lake City has great promise as a Florida market but that may be several years away," Morse said.

The commission Wednesday also approved \$25,000 for the grapefruit promotion in Detroit, Pittsburgh, Boston, Buffalo and Albany; and \$70,000 for promotion of temple oranges in New York, Cleveland, Chicago and Philadelphia.

It voted contributions of \$30,000 to the Florida Citrus Exposition, \$4,000 to provide free citrus juice in the cloakrooms of Congress and \$500 for the State Chamber of Commerce, \$1,000 less than last year.

The commission decided in view of larger crop estimates to shift over to its "B" budget of \$2,000,000 for consumer advertising. It had been operating under a tentative "A" budget.

The commission gets its revenue from a per box tax on all citrus marketed. The larger the crop, the more advertising is generally needed to sell it, but also the revenue is higher.

Lee Firm Low Bidder On Key West Project

CHARLESTON, S. C. (AP) — Bids for more than two million dollars worth of construction at the U. S. Naval Auxiliary Air Station, Glynn Co., Ga., were opened at Sixth Naval District Headquarters here Wednesday.

Duval Engineering and Contracting Co., Jacksonville, Fla., was apparent low bidder at \$2,147,311.50 with Faulk and Coleman Construction Co., Tallahassee, Fla., second at \$2,163,519.44, and J. D. Manley Co., Leesburg, Fla., third at \$2,225,231.14.

Construction of a concrete runway 200 feet wide and 8,000 feet long, with a concrete apron 350 feet wide and 2,500 feet long, is covered by the bids.

Announcement of the award will be made later.

In another bid opening, Lee Construction Co., Sanford, Fla., was apparent low bidder for construction improvements at the Navy's Key West, Fla., pumping system. The company entered a bid of \$141,950. However, award of the contract has been postponed pending certification that three other bids were mailed before the closing time for receiving bids.

Racing Commission

(Continued From Page One)

allocated to the county.

Judge Taylor also told the attorneys to include arguments on equality of including in one bid project the toll facilities with other separate and distinct facilities and the pledging of the surplus gas tax to the entire project.

He rescheduled final arguments in the case for Dec. 29 here instead of Dec. 15 at Quincy to permit opposing attorneys to obtain depositions and to allow time for preparation of a transcript of the record.

One of the final witnesses, Sec. Ralph Polk of the State Board of Administration, testified he would want to reconsider the entire proposal if the interest rate offered by bond bidders was more than 3.5 per cent.

He estimated the bonds could be sold at 3 per cent interest. The validation petition would permit an interest rate up to 8 per cent.

Trailer Family

(Continued From Page One)

school, has according to her mother learned to adjust herself wonderfully to the frequent changes in her schooling due to the vicissitudes of trailer living. Her grades remain remarkably good despite it all.

A second problem frequently arising is the lack of seating accommodations for guests to the Wilkie home. Mrs. Wilkie just loves to entertain their friends and says she has learned to solve this inconvenience quite satisfactorily by using a number of folding chairs.

"No more apartment hunting for me," frankly admitted Mrs. Wilkie. "Trailer living. I just love it!"

Stevenson

(Continued From Page One)

ready have challenged Stevenson's status as Illinois' leader in the next Ben. Burns' Maybank of South Carolina said he regards Sen. Richard Russell of Georgia as the party's better leader.

"The President and I are in agreement," Stevenson said. "The party interests must be subordinated to the interests of the country and the public welfare."

"We do not intend to try to influence Democratic in Congress," Stevenson, delay or in any way to influence the national administration, but we do intend to be as active as we can in the cause of our party."

Miss Ann Schaefer, as she will appear in a scene from Josef Meier's Black Hills Passion Play, portraying Helene dancing in Herod's Court at the Passion Play Amphitheatre now under construction at Lake Wales. Pioneer Club members will witness the opening performance January 9. Public performances will be featured Sunday, Tuesday and Thursday from January 11 through March 5. Miss Schaefer is one of 38 professional performers in the troupe which will be supplemented by a cast of 150 locally chosen performers. Two thousands reserved and unreserved seats are available for each performance and advance reservations are now being accepted by the Passion Play Amphitheatre, Box 71, Lake Wales, Florida. Visitors are welcomed at the huge Amphitheatre where eight permanent buildings on eastern America's most exotic stage set are ready and other work is being rushed to completion.

Christmas Seals 1907-1952

Christmas Parade

(Continued From Page One)

ford Junior High School, Magnolia Avenue was jammed with bands following the parade as Christmas carols rose into the air and drum majorettes performed during a massed-bands demonstration.

The 13 drum majorettes of the Orlando Boone High School band were dressed in petite Santa Claus costumes. A troupe of 6-year-old Negro majorettes took part in the parade back of the Grooms band.

A band of welcome was extended by the Junior Chamber of Commerce, co-sponsors of the parade with the Merchants Association, to 14 youngsters from the Slavia Lutheran Haven for Children and Old Folks.

These children were given prizes at a station at First Street and Magnolia Avenue from which to watch the parade and later were taken on the annual Jaycee orphan Christmas shopping tour. Proceeds from balloons which the Jaycees sold yesterday went toward this tour in which the children could purchase Christmas presents for members of their families and friends. Also the children were interviewed over Radio Station WTRR by Marion Harman.

The children attended the festivities under the supervision of Mrs. Andrew Deibel, wife of the Haven's superintendent, and Mrs. Jane Holler, house mother, while Miss Betty Milder assisted by furnishing transportation for some of the tots. Carl Frisco was in charge of the portion of the project for the Jaycees.

Police Chief Williams remarked the parade was "one of the best we've ever had." Approximately 25 policemen and SNAS shore patrol directed traffic. "It was easy to handle the traffic," the chief said, and the affair was "very orderly." He said that traffic which normally would have gone on Park Avenue was diverted to French Avenue.

Cont. Chittenden remarked the ladies had difficulty in choosing winners in the parade because all the entries were so good.

Among the star floats were two from Casselberry. One of them depicted a Yule scene in a home, complete with Christmas tree, fireplace, "grandmother" by the fire and youngsters at a piano. The other float carried a "queen" and little "princess" with their "attendants." The float was decorated with "frosted" ferns, one of the mainstays in the economy of the small community. The floats were entered by the Casselberry Lions Club and the Woman's Club of Casselberry, respectively.

The Beta Sigma Phi sorority entered a float made of green burlap, while the Sanford Tourist Club had a car in the parade with a placard bearing the inscription, "Snow Birds," on the back of the vehicle. The float of the Business, Professional and Civic Club, Colored organization, depicted a fire-lance with Christmas presents in front of it.

Striking among the spectators was C. D. Dink, chairman of the County Board of Commissioners, who was wearing a huge, white station hat. Also out of the ordinary was the system used by the Jaycees to fill the balloons they were selling. They employed a vacuum cleaner in the project, putting it in reverse and placing a special attachment at the end of the hose.

A military flavor was given the parade by a contingent of march-line sailors from SNAS.

John Pierson, chairman of the festival committee, was parade marshal, while assistant parade marshals were Robert Rumbley, Ralph Precourt, Cliff Ables, James D. Haver, James Gut, Willie Hunt, Mack Cleveland and Elton Moughton. Judging was in the charge of Gordon Seaver.

Although the weather was threatening yesterday morning, the afternoon was quite favorable for the parade.

Activities in the festival today began with a shuffleboard tournament this afternoon at Fort Mellon Park. Events this evening will take in a band concert by the Seminole High School band at 6:00 p.m. at the Tourist Center, the dedication of the new tourist building at 7:00 p.m., while events tomorrow will be a shuffleboard tournament between Orange City and Sanford contestants at 2:00 p.m. and a community sing at the Tourist Center at 8:00 p.m.

Jaycee Projects

(Continued From Page One)

began. "We have a tremendous task in front of us during the next two months, fellows, and we will need all the help from new memberships that we can get."

Five projects will have to be carried out before Christmas: TB drive; light contest; membership drive; shopping tour drive; and "Voice of Democracy" essay contest.

In reporting on the Christmas parade, Mr. Stearns quoted Highway Patrolman R. D. Harrison as estimating the crowd at between 7,500 and 15,000. "Bob" claimed that it was the biggest crowd to ever see the Christmas parade in its four year existence," the Jaycee press said.

"There is no question but this was the biggest and most successful parade we have ever staged," he added. "Over 1,000 people participated in the parade along with eight bands."

Mr. Pierson announced that the Orphan Shopping fund picked up \$17.50 from the sale of balloons during the parade and an additional \$17.50 from the candied apple concession.

It costs about \$40 an acre to establish permanent pasture, farm experts say.

EAL Is Replacing Its Striking Engineers

MIAMI, Fla. — Eastern Air Lines today began replacing flight engineers who struck for higher wages.

Members of the AFL Flight Engineers International Association moved from its payroll and "instituted an extensive training and checkout course for an entirely new group of engineers."

"We don't believe the company can fire us, we are not resigning and none of us is planning to go back to work," said Jack Robertson, president of the Miami chapter of the union.

Robertson said the engineers would go back to work if the company would grant them the same pay structure—not the same pay but the same rules for figuring it—that the pilots have.

Record Of Hospital Visits Introduced

JACKSONVILLE — Detailed accounts of various hospital visits were put in the record today in the income tax evasion trial of

Clyde W. Atkinson, Tallahassee attorney. He is accused of reporting only \$70,000 of a \$170,000 income between 1945 and 1949.

The trial is now in its third week and promises to go into a fourth. Over 100 exhibits have been introduced and there has been de-

tailed, technical and exhaustive cross examination over most of them. Details of Atkinson's intestinal disorders were introduced to show that during much of the time concerned, he was too ill to back after his records personally. Copies of records introduced in

No Fundamental Change Planned On Korean Policy

By JOHN H. HIGHTOWER
WASHINGTON (AP)—The Truman administration apparently plans to make no further policy moves to solve the Korean situation. The next step, officials said today, will be up to President-elect Eisenhower.

Officials said today it will be up to the incoming regime to make any fundamental changes such as prosecuting the war beyond its present limits or putting additional economic or military pressures on Communist China.

The Truman administration is said to feel no new policy moves are advisable before Eisenhower's inauguration seven weeks away. Two reasons are advanced:

1. Any large undertaking could hardly be completed before Jan. 20, thus committing the new administration to deal with a program it may not approve.
2. The United Nations' flight in Korea is an Allied fight, requiring Allied co-operation in any policy development. Before agreeing to a new project, it is said, the U. N. Allies would want to know how the Eisenhower administration feels about it.

CHARLES F. BRANNAN, U. S. Secretary of Agriculture, holds his credentials as he shakes hands with Mexico's outgoing President Miguel Aleman in Mexico City's Hall of Honor. U. S. Ambassador William O'Dwyer (right) waits his turn. Representatives of 57 nations gathered in the capital city to bid Aleman farewell.

Miners Get Raise From Truman Who Over-Rules Board

By ROWLAND EVANS JR.
WASHINGTON (AP)—Another year of peace in the nation's coal mines appeared assured today but to win it President Truman had to over-rule all his top defense agency officials and grant coal miners an \$2.70 wage boost.

The President yesterday approved the full \$1.90 daily wage increase for John L. Lewis' 375,000 soft coal miners because, he said, he does not want President-elect Eisenhower to have a coal strike crisis on his hands when he takes office.

The move averted an almost certain strike, but it opened the door to a boost in coal prices to consumers and touched off unrest among public members of the Wage Stabilization Board.

Although none are expected to resign, WSB Chairman Archibald Cox was known to be undecided and may quit.

One WSB member also said Truman's decision would have a "terrible and disappointing effect" on unions which in the past have accepted WSB reductions and now have wage cases pending before the board.

Coal miners themselves—whose basic minimum daily wage is boosted \$18.25—were reportedly jubilant. One top United Mine Workers official at Pittsburgh said the move "unmistakably averted a strike." John Bisvoglio, president of UMW District 5, said his men had been getting "itchy" over delay.

Lewis had negotiated the \$1.90 increase with industry, but the WSB had cut this to \$1.50 on the grounds that any more would "irreparably damage" the stabilization program.

Lewis and Harry M. Moses, president of the Bituminous Coal Operators Association, appealed the WSB decision to Economic Stabilizer J. Edgar Hoover.

But Hoover refused to overrule the board. Defense Mobilizer Henry H. Fowler also refused to change the WSB decision. That left it up to the President—and his inner circle of advisers.

Truman's decision to grant the full \$1.90, announced in the form of a letter to Putnam, said the "probable consequences" of a failure to do so would be a disastrous coal strike which would create a "crisis" for Eisenhower.

Putnam, announcing the President's decision to newsmen said: "This is not the decision I would have made. It is not the decision I would have recommended."

It means higher price ceilings for many varieties of soft coal, but probably not for all. Most soft coal has been selling well under existing ceiling prices, and the higher wage costs can be absorbed for some varieties within present ceilings.

Truman estimated the extra cost of producing coal now will be "perhaps 5 or 6 cents a ton."

But the decision indicates that a similar contract signed by Lewis and the hard coal industry, now pending before the WSB, will also be approved. This would lead to defense programs than granting

New Trend Seen In Public Discussion Of Health Angles

By ALTON L. BLAKESLEE
DENVER (AP)—It seems to be becoming public meeting time—fashioned—by doctors to talk to people about their health.

Two events tonight at the American Medical Association clinical sessions are pretty unusual, if not the start of a new trend of doctors meeting the public.

There is another television show, over 58 stations of a TV network (NBC 10 to 11 p.m. EST) with doctors telling of new advances against three of the greatest disease enemies—heart disease, cancer and mental illness.

That's the new fangled way. The old-fashioned way is an invitation to the public here in Denver to hear six top heart experts talk at a sort of town meeting, free of charge, sponsored by the Colorado Heart Association (C.H.A.), through courtesy of the AMA.

It's highly unusual, if not unique, for the public to be invited to this kind of scientific panel discussion. Authorities from Cleveland, New York, Los Angeles and Rochester, Minn., will report what's new in rheumatic fever, hardening of arteries, high blood pressure, heart surgery, job opportunities for heart patients, and what heart exams can do.

The broadcast said to be the largest single network telecast in history will take viewers into the ward of Colorado Psychopathic Hospital. It will show doctors helping patients with mental illness return to normal life.

A pickup from Johns Hopkins Hospital in Baltimore will show a move of a cancer cell, pulsing with waxard life, and a minister and an auctioneer who won victory over cancer.

Scenes from Los Angeles County Hospital will report advances against heart disease, including demonstration of how a tube is inserted into a vein in the arm, then pushed up to the heart to act as a diagnosing heart condition.

In the period from 1946 through 1951 about seven million females were added to the population of the United States, which was about 50 percent greater than the number of males added during the same period.

Stevedoring Firms Admit 'Goodwill' Gifts For Favors

NEW YORK (AP)—Stevedoring firms have acknowledged making big "good will" payments to union leaders, dock bosses and steamship company officials to keep labor peace and to obtain business on New York's waterfront.

Opening of public hearings yesterday by the New York State Crime Commission lifted the lid on alleged crime and racketeering in the city's seven billion dollar a year shipping industry.

It has been estimated the industry's annual losses run to 350 million because of such things as pilfering, smuggling, and pay kickbacks by longshoremen to their union bosses.

An opening day's witness was white-haired Ruth M. Kennedy, secretary treasurer of the stevedoring firm of Daniels and Kennedy, Inc. Miss Kennedy testified that gratuities are "an established practice in the business."

The witness said her firm, in five years, paid \$7,500 to Joseph P. Ryan, president of the AFL International Longshoremen's Association.

In 1948, Miss Kennedy testified, checks were drawn to fictitious persons and the money was turned over to dock union officials.

"In 1948," she said, "we had some labor trouble and we thought it would be easier for the people getting the money to hide their identity."

Miss Kennedy's nephew, James C. Kennedy, president of her firm, also testified the payments were "gratuities only."

He was asked, "Were they to influence union officials and to prevent quickie strikes and other troubles?"

"If they prevented strikes, that was all right," Kennedy replied. "You invested in good will."

"Yes," said Kennedy.

Kennedy said his firm, for years, gave Ryan \$500 each spring and \$1,000 each Christmas. Smaller payments went to other I.L.A. men, he said, and also to representatives of the AFL Teamsters Union and the AFL Warehouse and Paper Handlers Union.

From private testimony, the commission quoted Capt. Douglas Yates, a vice president of the Jarka Corp., the city's largest stevedoring firm, as saying the company could not be sure of enough help to service ships without the aid of five certain I.L.A. men.

The commission further quoted Yates as saying, "We wanted these people at our beck and call"

Dent In Bow Fails To Delay British Liner

SOUTHAMPTON, Eng. (AP)—The liner Queen Elizabeth arrived today after crossing the Atlantic with a dent in her side caused by a collision with a tug in New York harbor.

Hardly anyone aboard felt the bump as the mammoth 83,000-ton liner steamed out of New York five days ago.

Ship engineers stuck a concrete plug behind the dented place on the hull near the bow and the liner continued her voyage. Rivets in the shell plate were cut away but there was no serious damage.

Family Of Seven Is Wiped Out In Blast Caused By Leakage

YOUNGSTOWN, O. (AP)—Firmers today blamed leaking propane gas for a raging fire that blasted through a frame dwelling and wiped out a family of seven.

Assistant Fire Chief Frank Lehnert said the gas, used for cooking, probably overcame all of the victims before the fire broke out last night.

Killed were Henry Tuchman, 34, a bakery route salesman, his wife Catherine, 32, and their five children, Henry Jr., 13, Patricia, 10, Carol, 8, Mary Grace, 4, and Jo Ann, 2.

Their one-story home just north-east of this city was burned to the ground.

Bodies of the father and mother were found in the living room. They were believed to have been watching television when the fire started around 11:15 p.m. Four of the children were in beds in two bedrooms.

The other child, Mary Grace, was taken alive from the fiery dwelling by a neighbor, but was dead when she arrived at a hospital.

Emil Sotkovsky, 27, summoned by Mrs. Ann Sudon, a neighbor who saw the flames, dashed out of his house to carry the one child from the burning home. Clad only in his underwear and without shoes, he raced across an open field, donning his pants on the way.

"The smoke was so dense I couldn't see anything," Sotkovsky said. "So I started to feel around and I felt a baby crib and a baby huddled in a corner. I picked up the baby and ran outside and it to Mrs. Sudon."

"I tried to go back into the house, but the fire and smoke kept me out this time."

Plans For Lighting At Xmas Should Be Considered Early

TALLAHASSEE (Special)—Plan your Christmas lighting early for safe and attractive arrangements. Mrs. Bonnie J. Carter, home improvement specialist with the state home construction office suggests.

A wide variety of decorative lighting fixtures and light bulbs of many different colors, sizes and shapes are manufactured, but this year supplies may not meet demand in every store. So shop early while there's still a good selection to choose from, Mrs. Carter advises.

Before you shop however, check on last year's lights to see if any burned-out bulbs on Christmas tree "strings" need replacing or any repairs are needed.

Most satisfactory, generally, are the strings in which each bulb lights independently. So if one burns out, it does not cut off the rest. For convenience, look for strings with add-on connectors for attaching additional sets of lights and for clips on other arrangements that fasten them easily and firmly to the trees where you want them.

Outdoor Christmas lighting has increased in popularity with the years and adds much color and cheer to the holiday scene in the country over. For outdoor lighting, be sure sockets and bulbs are made for weathering and avoid circuits from rain or other dampness, says Mrs. Carter. Only heavy-duty cord should be used for outside extensions. The small strings of bulbs for indoor Christmas trees are not safe for outdoors.

As for indoor lighting he suggests have no worn installations that expose wires and no loose connections at sockets or plugs. By decorating, make sure light bulbs will not come in contact with anything combustible.

To avoid use of extension cords, place your Christmas tree close to a wall outlet, but if such wires are needed, use the heavy-duty kind are safest. At least one wire should be placed where they will not be tripped over, where they will not be run along window ledges where they touch curtains, or over metal nails, hooks or hot radiators.

If Santa should leave "Santa's electric train" under the Christmas tree, take care not to connect it there. Any metal decorations that fall on the tree may short circuit, cause sparks and possibly a fire. Finally, for safety, disconnect light on the tree when you leave the room or the house. Outside decorative lighting may be left on, however.

New Crop Of Farm Price Policies Is Facing New Chief

By OVID A. MARTIN

WASHINGTON—A new crop of farm price policies is facing a new chief when he comes to Washington next week for a pre-inaugural view of his job as secretary of agriculture in the new Eisenhower administration.

Denison, a former agricultural leader and now an agent of the Mormon church, has notified outgoing Secretary Charles F. Brannan that he expects to come to Washington next week for a briefing on his Cabinet duties.

The current farm picture, which the officials believe it will lead him to especially set up new programs designed to broaden markets for agricultural products at home and abroad.

The secretary designate will find that prices being received by farmers have slipped below the parity goal of federal farm programs for the first time since 1950.

Furthermore, Denison will find that the government's investment in farm products under price support programs is growing steadily. This investment has reached a record of about \$4,300,000,000 since the start of the war in Korea.

But demands growing out of defense spending permitted the department to suspend all but about 10 billion dollars worth of this by July of this year. Since then, however, the investment has been going up again. It now is above the two billion dollar mark.

Denison will also find that the department is running into trouble making good on its commitment to support corn, wheat, and rice at 90 per cent of parity. Parity is a standard for measuring farm prices, declared by law to be equally fair to farmers and those who buy their products.

Corn, for example, has been selling for an average of 84.5 a bushel, or 20 cents below the support price.

Furthermore, the department is being called upon for the first time in nearly 18 months to buy outside to carry out a price guarantee to dairymen. At the same time, moving into price support, stockpiling a large volume for the first time since 1946.

While there are no support programs for beef cattle, hogs, sheep, and lambs, Denison will find much producer dissatisfaction with acreage reduction programs. Beef cattle are being sold for a year's price above and lamb about 20 per cent above last year's price.

Denison will discover also that net farm income is down. He will see that the production cost-is going down and probably will continue to decline next year.
