PAN-AMERICAN PACT IS UNDER ATTACK IN PANAMA

ARMED CITIZENS OPPOSED TO TREATY

Fellow Citizens
In Pact Authors
Now Against It

PANAMA, Jan. 8.—(AP)—
Panamanian sentiment against
the Pan-American treaty is
growing here, and the government
is doing its utmost to prevent the inflaming of
the populace. Proposed mass
meetings have been forbidden
and the congressional committee engaged in studying
the treaty has been requested
to delay its report.

Dr. Harmonio Arias, former
Panama delegate to the League of
Nations, leader of the fight against
the pact, speaking before the Ro-
man Catholic church yesterday, said:

"It is impossible for any one to
say whether or not the Com-
munity will ratify the treaty
negotiated between the
United States, but it is evident
that in all sections of the country every man
and child feels that an in-
itiative must be committed against
the event of its appearance."

those who negotiated on
behalf of Panama seem dissatisfied
with their principal argument in
that it is the most
obtained from the United
States.

Expressing his admiration
of the United States and admiring
its civilizing influence throughout
the world, Dr. Arias said:

Instead of remedying the hardness
of Panama, brought by the
war of 1913 and by its ten-
year interpretation by the
United States government the new
establishes additional and
severe burdens in Pan-
ama which will impede at least
slower her progress and
without materially benefitting
the United States."

I am absolutely sure, as the
world at large is aware, that there
are reasons for securing to the
United States whatever might be
necessary to a revenue convenient for
salvation and protection not only
for the Canal but of the immense
and prestige she secured by
joining the canal, and at the
time of permitting weak and
poor countries to attain the economic
and prosperity which
she, if for no other reason,

sacrifices and humiliations
suffered on account of

Menace Of Mob Spreads To
Kiangsi Where Conditions

HANKOW, Jan. 8.—(AP)—The
Cantonese government late to-
night promised to withdraw its
troops and pickets from the British
concession tomorrow.

Quiet prevailed here through-
out the day because of heavy rain
which prevented the coolies from
assembling in the streets.

All British firms have kept their
doors closed but American concerns
continue to operate. All British
women and children have been
moved out and the men remaining
here were confined to one building
near the river by consular orders.

Two ships bearing women and
children safely passed Kiangsi,

R. J. HOLLY LAUDS I. N. S. SECURED BY SANFORD HERALD

Local Correspondent Of Big
News Gathering Body Ex-
tends Congratulations To
Herald On Its New Service

Congratulations upon the instal-
lation of the International News
Service have been pouring into the
offices of The Herald since the an-
nouncement yesterday that a full
eight-hour leased wire service had
been secured and that the readers
of The Herald would hereafter re-
ceive the benefit of two major
news-gathering agencies.

R. J. Holly, Sanford correspond-
ent for the International News
Service, stated today that The Herald's
step in acquiring International
News was a step forward and that
the great news reports now used
by The Herald would be of value
to the reading public of Gemini
country.

Following is a message from Mr.
Holly to the publishers of The
Herald:

"As the Sanford corre-
spondent of the International News
Service, I wish to congratulate The
Sanford Herald upon obtaining
the I. N. S. eight-hour service and
the installation of the automatic
printing machines.

"International News has won an
enviable place in the ranks of
newspapers all over the world, and
its slogan, 'Get It First, But
First Get It Right,' is closely fol-
lowed by its correspondents. From
a small beginning in Florida a few
years ago, the International News
has won its way upward and now
covers every part of the state with
a network of wires that give per-
fect service.

"The automatic printing machine
is an innovation in the newspaper
service that cannot be com-
pared to anything previously at-
tempted for the reception of news.
With a state-wide organization to
gather news, the value of the ser-
vice will be reflected in the columns
of The Herald.

"I feel proud of the fact that I
represent such a wonderful agency
and will try to justify the confi-
dence placed in me. I am also
proud of the fact that The Sanford
Herald acquired this great service
and the automatic machines which
supplement the efforts of the
international in giving the world's
news while it is news."

Formulas For Denatured Alcohol Are Defended By Commercial Users

GATTON, Jan. 8.—(AP)—
Proposed resolutions continue
in congress to get rid of the
use of denatured alcohol
in industrial alcohol
and the leading commercial
users of this product have
defended the formulas as "protective
of governmental and lawful
interests."

The National Paint, Oil and Var-
nish Association yesterday ap-
pealed to Assistant Secretary An-
drews to "stand by your guns" in
opposition to the dry chief.

In addition, the chief of the
Commercial alcohol committee, said denatured alcohol
is essential raw material in the
oil and varnish trade, that
it was used in this country
in greater quantity against 20
in England, and that any

change in the formula without con-
sultation with representatives of
industries interested "would be un-
warranted."

The name of Elbert H. Gary of
the United States Steel Corporation
has entered the latest prohi-
bition debate, with W. H. Rayton,
national chairman of the Associa-
tion Against the Prohibition
Amendment, assailing his views
that American men had benefited
under the Volstead act.

Declaring he did not question
the right of the corporation to do
anything it could to increase the
efficiency of its employees,

Mr. Rayton said "when a
corporation asks the government
to intervene and to deprive a work-
man of his pleasure and amuse-
ment or even of his bad habits in
order that the corporation and its
stockholders may get better re-
sults from its workmen, it is trad-
ing on very dangerous grounds."

Sunday Concert Of Band Is Announced

GANDIL BECOMES CENTER IN PROBE OF BALL SCANDAL

One Of Eight Banished Sox Stars Has Been Quoted As Saying Risberg "Did Not Tell The Half Of It"

CHICAGO, Jan. 7.—(AP)—Chick Gandil, of eight men tarred with scandal when organized baseball cleaned house in 1920, was the central figure today in the resumption of Commissioner Landis' investigation into alleged baseball crookedness begun Wednesday with Swede Risberg's story.

Although Risberg, another of the baseball outcasts, made charges of "sloughing" involving nearly two score diamonds lights, Gandil has been quoted as saying Risberg "didn't tell half of it."

Gandil has been described as the "collector" of the \$1,100 fund raised by the 1917 White Sox and paid to some members of the Detroit team.

When Risberg said, however, that the fund was pooled to pay Detroit to "slough" a four-game series to Chicago, thus smoothing the road to a Chicago pennant, he was denounced in chorus as a "bar" by the men he accused. The money, they said, was given certain Tigers as a reward for beating Boston three games in a row a fortnight after the alleged "sloughed" series. Boston was rung up to the box.

Bill James, the so-called "pay-off" man, is another principal whose testimony today was expected to let up another shade that has been drawn around some of the alleged dugout doings of September, 1917.

James, a member of the Tiger pitching staff in 1917, and later a player on the White Sox roster, has been named as the man to whom Gandil handed the \$1,100 for distribution to certain members of the Detroit team.

Remaining over for today's continuation of the public hearing are most of the players and former players who jammed the offices of baseball's overlord Wednesday. Risberg was among those who remained.

"I told Commissioner Landis I would come here and face every man who took part in these games," he said. "Well, I faced them, didn't I? And I'm still here, and will stay here until Landis says my presence is no longer required."

"I came to the hearing to testify and act as a gentleman should act. I think I did my part, while certain players were allowed to call me a liar, a pig and other names."

"If any of those fellows want to step out in an open lot and call me names and try to get away with it, let them name the time and place."

Commissioner Landis hoped to complete the taking of testimony today.

GANDIL SWEARS TIGERS THREW GAMES IN 1917

NEW ORLEANS, Jan. 7.—(AP)—John Francis Samuel Dalton, eater extraordinary, has advanced his claims to the long-distance eating championship of the world. Furthermore Dalton invites eaters to contest him.

A record established some time ago in a contest, witnesses said, was three cups of coffee, one and a half quarts of wine, a box of crackers, two slices of jelly cake along with eight dozen eggs.

In a letter to the New Orleans States, Dalton claims that a light work-out for him would be one bottle of tobacco juice, 50 hard-boiled eggs and a dozen oysters, the last six with sugar.

His enthusiastic manager placed 20 dozen oysters or 100 hard-boiled eggs as a conservative estimate of a fair meal for his champion.

A reporter went to test the eaters statement that Dalton's appetite, after he had devoured a bottle of tobacco, several dozen oysters and all the reporter's expert money was good. With oysters Dalton threw in bananas and bell peppers.

POSTAL RECEIPTS IN CHRISTMAS SHOPPING RUSH BREAK RECORD

WASHINGTON, Jan. 6.—(AP)—Santa Claus' messenger, Uncle Sam, raked in a neat bit of money for his services this Christmas. The exact amount he has not had time to calculate, but his workers estimate the American public paid approximately \$18,000,000 to the postal service handling gifts and greetings.

Total postal receipts for December are estimated at about \$69,000,000, while the average monthly receipts for the year prior to December were about \$31,000,000. The increase in revenues for December represent roughly the cost of carrying Christmas gifts and greetings,

Never before had such a huge sum been paid to the postal service for handling Christmas mails nor had such a quantity of gifts ever been handled during the holiday season. Postmaster General New is proud of his postal workers in distributing the vast quantity, at the same time giving credit to the public for its co-operation in mailing early.

11 Millionaires Are In One Scot Family

GLASGOW, Jan. 8.—(AP)—Eleven millionaires is the record of the family of J. and F. Coats, cotton manufacturers. James Coats, who founded the business in 1824, became a millionaire, as did his three sons, and all their grandsons.

The present head of the family is the young Lord Glenstan, a director of the firm, a former officer in the Black Watch, and one of Britain's most eligible bachelors. His father's fortune is nearly \$5,000,000.

James Coats started his business in the Scottish village of Fernhill. When the father and son James died the business passed into the hands of Thomas and Peter. Peter was knighted and had a son who became Sir James Coats. His brother Thomas was father of the first Baron in the Coats family, Lord Glenstan, father of the present senior member.

"This committee will not only be unanimous in favoring federal aid for the larger development of the port of St. Petersburg but it will recommend a submarine base."

Panama Rail Head Dies In New York

NEW YORK, Jan. 8.—(AP)—Edward A. Drake, vice-president of the Panama Railroad Company, died last night from a paralytic stroke suffered last week.

He was born in Boston in 1845, and for more than 30 years was a member of the New York Stock Exchange. He was credited with playing a significant part in organizing this government to take over the building of the Panama Canal after the French failed. He urged the selection of the Panam route in preference to the Nicaraguan route.

Thousands Of Men Assist U.S. Gather Statistics On Crop

WASHINGTON, Jan. 8.—(AP)—A corps of more than 200,000 reporters makes the Division of Crop and Livestock Estimates of the Department of Agriculture one of the largest fact-gathering organizations in the United States.

"Forecasting of crop and market conditions is being improved annually by the division," W. F. Callander, chief statistician, says. "The division's statistics at present are organized in a study of the correlation of prices and marketing factors to acreage and weather to yield and the establishing of the most accurate price, or equivalent of 100, in the condition of crops."

The reporters gather crop statistics, including conditions, yields, acreages, prices and stocks, and submit one report a month. They serve without pay. The division according to Callander, has from one to ten reporters in every county.

Approximately 50,000 separate estimates and reports are issued annually. In compiling them, 9,000,000 schedules on crop and livestock data are used by the reporters.

Seiberling Named Defendant In Suit Instituted By Goodyear Tire Company

AKRON, O., Jan. 8.—(AP)—The Goodyear Tire and Rubber company today filed suit against F. A. Seiberling, its former president for \$1,311,116.56 charging fraudulent misappropriation of company funds.

Two amounts are named in the suit, \$251,154.45 with interest from Nov. 1, 1919, and \$1,030,262.51 with interest from Dec. 31, 1919.

The \$251,154.45 represents interest at the rate of 6 per cent on millions in Goodyear money alleged to have been used by Seiberling for private purposes as charged in an answer filed yesterday by John Sherwin, Cleveland banker, in the Goodyear stockholders' suit pending in Summit county court.

The \$1,030,262.51 represents

Graphite Surface Of Oildag Big Aid To Motoring Wear

Bearings and cylinder walls are tremendously vital features of an automobile motor. It is, therefore, highly important that these parts be given the best treatment possible, consistent with normal operating handling.

The "Graphite Surface" established by using Oildag Motor Lubricant along with the customary crankcase oil, furnishes the most perfectly lubricated and, therefore, will prolong bearings and cylinder walls which have ever been known. The film of graphite deposited on the rubbing metal surfaces apart, even though the lubricating oil breaks down temporarily (as it is repeatedly doing in every car when in operation), thus practically eliminating wear which would otherwise occur.

It is evident that if two rubbing surfaces, such as piston rings rubbing against cylinder walls, are separated positively by films of graphite, whose excellent lubricating qualities are unaffected by even excessive pressure or temperature, those rubbing surfaces cannot come into direct metal to metal contact and wear, thus very materially lengthening the operating life of those parts.

Golden Rod Flags Of Kentucky To Be Retired From Army

FRANKFORT, Ky., Jan. 8.—(AP)—After having served in the Mexican, Civil, Spanish and World wars, Kentucky's 80 year old state flag has been forced out of military life by a sprig of goldenrod.

The flag first saw service under the Second regiment, Kentucky National Guard, known in 1848 as the Kentucky Volunteers.

The addition of a wreath of goldenrod to the state flower, to the Kentucky seal on the field of blue was authorized in the 1926 session of the legislature.

The state flag of California has golden rod on it; however, and because of this the United States war department could not accept Kentucky's banner as the standard of the 14th Infantry of the United States army.

The flag may be used at any state ceremony but cannot be carried to the summer camps of the national guard. A new flag with trumpet vines in the place of the goldenrod is being made to replace Kentucky in the national army.

Barbers Are Scorning Tips In Order That Dignity May Be Won

INDIANAPOLIS, Jan. 8.—(AP)—Barbershop patrons who have for years "dined" or "quartered" their way past their favorite razor or scissars wielder are advised that they frequently bestowed tips are undesirable.

James C. Shanesy, president of the Journeyman Barbers' International Union, says that his organization is opposed to tipping and will seek to eliminate the practice. "Millions of dollars come into the hands of barbers in the United States and Canada yearly through tips but the price we pay in reduced dignity and loss of patronage is too high," he asserts. "Officials of this union realize that they are taking a momentous step in opposing tipping. Many of our members will disappear but we believe majority will favor our cause."

The anti-tipping campaign also will be extended to beauty parlors, Shanesy said, as "cosmeticians" are members of the Barbers' Union. The Associated Master Barbers will support the union in its stand, he said.

Approximately 50,000 separate

estimates and reports are issued annually. In compiling them, 9,000,000 schedules on crop and live-

Name Of Arid City Means "Good Water"

CANBERRA, Australia, Jan. 8.—Canberra, the District of Columbia of Australia, when "dry" is pronounced by the natives as "camb-ya," and in the aboriginal language means "good water" of which there is an abundance wells built before the coming of the white men.

Canberra, where parliament will soon be opened in its new home by the Duke of York, is known as the "bush" capital because of its location, and Yarraville House, an old fashioned "bush" homestead, has been converted into the vice-regal residence for the Duke and Duchess of York during their visit here.

The Duke first saw service under

the Duke of York, in the Kentucky

regiment, known in 1848 as the

Kentucky Volunteers.

The addition of a wreath of goldenrod to the state flower, to the Kentucky seal on the field of blue was authorized in the 1926 session of the legislature.

Dry Act Reacts In Favor Of Rich Man, Says Marine Officer

Bandits In Mexico State's Attorneys In Florida Total 21 Now, Is Report

OAKLAND, Calif., Jan. 8.—(AP)—Brigadier General Smiley D. Butler, distinguished soldier and foe of illicit alcohol, who spent months fighting graft and bootlegging as director of public safety of Philadelphia, has changed his mind about the Volstead law.

Speaking before a luncheon club here, the commander of the Marines on the Pacific coast, denounced the prohibition statute as class legislation, saying it reacted against the poor man and favored the rich one. Its principal demerit, he indicated, is the manner in which the enforcement has grown out of it.

General Butler, who won much publicity for having the late Col. Alexander S. Williams, of the San Diego Marine base, court-martialed for serving cocktails at a party at which the general was the guest of honor, declared in his address, which was delivered yesterday, that he originally believed the Volstead act was written to apply to everybody, but that he has since learned that such is not the case.

Another Suit Will Be Filed Soon In Effort To Nullify U. S. Law

Los Angeles Courses Are Practice Grounds For Tourney Entrants

LOS ANGELES, Jan. 7.—(AP)—The six leading golf courses here began scenes of practice Thursday for those of the 151 qualifiers in the Los Angeles \$10,000 open tournament who were determined to keep in trim for the medal play.

El Caballero in the hills northwest of Los Angeles, was pronounced in ideal condition for the classic. The course is a difficult par 72 and the entrants will have a record card of 62, set by Jack Tarrant, resident professional, to shoot at.

TAMPA, Fla., Jan. 8.—(AP)—Col. Peter O. Knight and Judge James F. Glenn issued a joint statement here today declaring another suit will soon be instituted in the United States supreme court in a further attempt to nullify the federal inheritance tax act.

The court decided Monday that the state was without power to maintain a suit testing the constitutionality of the act. Col. Knight and Judge Glenn were associated with State Attorney General Johnion in representing the state in the first legal skirmish with the government.
