LOOKING 'EM OVER

DR. EARL S. WELDON (l) president of Seminole Junior College, Robert McGee, S.J.C. art instructor, and Marcia McGrew Migdalski, student art assistant, inspect art works of college students who won awards in the recent Apopka Womens Club art exhibit.

Judge Looks 'Em In The Eye

MIAMI (AP) — Judge Edward Cowart says his conscience is clear if he can look a man in the eye and still tell him he has to die in the electric chair.

"I had the slightest doubt, I couldn't look the man in the eye," Cowart, a circuit judge in Dade County, said Wednesday. During the past three months, Cowart, 49, has sentenced two men to die under Florida's death penalty law, the first passed after the U.S. Supreme Court threw out all the old ones last year.

"It's not pleasant to sentence somebody to die," Cowart said. "It's awesome. We're dealing with a man's life. It's a lonesome decision."

Minimum Emotion
"I make up my mind, not my heart. My decisions are made with a minimum of emotion. But I wouldn't be human if I had no emotion."

"A judge is a person, he has to be able to sleep at night," Cowart said. "He has to believe in the decision he made."

Follow The Law
One case involved Lloyd Swan, 26. He had been found guilty of brutally beating a semi-invalid woman after breaking into her home.

Unions Contribute
The biggest labor union gifts came from the national AFL-CIO Committee on Political Education, which gave over \$43,000 to Democratic congressional candidates.

Common Cause has been active in electoral reform and is a chief advocate of public financing for federal elections.

The Straus committee was listed as having raised \$376,367 for House candidates and \$269,802 for senatorial candidates.

The largest givers among business and professional ranks was the Committee for Therapeutic, Agricultural Political Education, the political wing of the Associated Milk Producers Inc. It gave \$87,500 for Democratic House campaigners and \$72,000 for senatorial candidates.

Houses Involved
Common Cause said various political committees gave

Manatee Okays Refinery Concept
BRADENTON, Fla. (AP) — Belcher Oil Co. of Miami has received preliminary approval of a multimillion dollar plan to build a refinery and offshore loading facility in the Gulf of Mexico off Port Manatee.

State Moves To Control Gas Delivery
TALLHASSEE, Fla. (AP) — Florida energy chief Homer Hutchinson says oil companies can't deliver all the gasoline due Florida but it may not be long before he can do something about it.

Manatee Okays Refinery Concept
The Manatee County Planning Commission gave "conceptual approval" to a \$273 million Belcher proposal Wednesday, saying "there does not appear to be significant problems with respect to housing, transportation or undue burdening of water, sewer, solid waste disposal or other public facilities."

Manatee Okays Refinery Concept
The council said, it could not approve Belcher's plans. Belcher proposes to build a 300,000-barrel-a-day oil refinery at the port, connected by pipeline to an unloading platform 30 miles out in the Gulf.

Manatee Okays Refinery Concept
Director Arthur Fischer said, "it is the opinion of the (county) Planning Commission that material as submitted by Belcher is adequate in scope and detail to serve as a basis for approval or denial of the content for development."

Manatee Okays Refinery Concept
But Fischer said the information "would not be adequate for any final plans" leading to actual construction.

Manatee Okays Refinery Concept
He suggested that Belcher give the commissioners copies of all reports and studies submitted to various state and federal agencies.

High Winds Damage Alabama

By The Associated Press
A line of thunderstorms with winds gusting up to 60 miles per hour moved across Alabama late Wednesday and early today, causing widespread damage and numerous injuries.

Police in Albertville, in Northeast Alabama, said five persons were injured when high winds struck a trailer park, destroying two mobile homes.

State troopers said two people were hurt in high winds that hit Etowah, near Montgomery. Officers said a convict was hit by a truck as he worked to clear limbs from U.S. 78 at the Walker-Marion county line north of Birmingham. The man, Elmore Baker, was in satisfactory condition at a hospital.

Condition reports were not available on the other injured. There were numerous reports of fallen trees and power failures as winds up to 60 miles per hour accompanied a line of fast-moving storms.

3rd Son Operated For Cancer

CINCINNATI, Ohio (AP) — A team of four physicians began surgery at Children's Hospital this morning to amputate the left leg of Stephen Souterland, 13.

The Miami, Fla., youth, learned Wednesday that a tumor above the knee was cancerous. The hospital said the leg would be removed to the top of the thigh.

The operation was scheduled to last roughly four hours. Stephen is the third son in his family to have a rare form of cancer.

His brother Jeffrey died in 1969 at the age of four of lymphatic leukemia. His brother Michael, now 8, underwent two operations here for a rare malignancy of the spinal nerve lining. He has been free of symptoms for the last two years.

Stephen's parents, Raymond, 35, and Sarah, 34, have kept a constant vigil since the boy entered the hospital.

State Moves To Control Gas Delivery

TALLHASSEE, Fla. (AP) — Florida energy chief Homer Hutchinson says oil companies can't deliver all the gasoline due Florida but it may not be long before he can do something about it.

State Moves To Control Gas Delivery

TALLHASSEE, Fla. (AP) — Florida energy chief Homer Hutchinson says oil companies can't deliver all the gasoline due Florida but it may not be long before he can do something about it.

The House Transportation Committee approved 14-1 Wednesday an emergency petroleum allocation bill that would give Hutchinson the authority to control distribution of gasoline in Florida.

He presently has direct control only over the small fraction of fuel in the state reserve.

The bill also provides for a 15-member advisory council with power to subpoena oil company records. It also gives Gov. Reubin Askew emergency authority to order counties to

adopt odd-even gasoline rationing. Hutchinson, meanwhile, said he has been notified that oil companies can deliver only 27 million gallons of the state's 34 million gallons of gasoline ordered for Florida for March by the Federal Energy Office.

He said several major oil companies are having supply problems so it may be April 15 before the extra 7 million gallons reaches gas pumps in the state.

Transportation Chairman Vernon Holloway, D-Miami, called the bill "one of the most needed pieces of legislation we will have to help give relief to those areas of the state not receiving their fair distribution of petroleum."

Rep. Gary Cunningham, D-

be said. "This bill is getting us into the problem of government intervention."

Cunningham, a member of the task force that developed the bill, is not a member of the Transportation committee so he could not vote on the measure.

The bill would empower the state energy office to develop a uniform system of gasoline rationing based on selling to cars with odd-numbered tags on odd days and even tags on even days.

Counties would not be required to adopt the plan.

Manatee Okays Refinery Concept

BRADENTON, Fla. (AP) — Belcher Oil Co. of Miami has received preliminary approval of a multimillion dollar plan to build a refinery and offshore loading facility in the Gulf of Mexico off Port Manatee.

The Manatee County Planning Commission gave "conceptual approval" to a \$273 million Belcher proposal Wednesday, saying "there does not appear to be significant problems with respect to housing, transportation or undue burdening of water, sewer, solid waste disposal or other public facilities."

The approval reverses a recent suggestion by the Tampa Bay Regional Planning Council to reject the bid.

The council cited various environmental hazards and claimed there was insufficient information and technical data. Until such data was supplied, the council said, it could not approve Belcher's plans.

Belcher proposes to build a 300,000-barrel-a-day oil refinery at the port, connected by pipeline to an unloading platform 30 miles out in the Gulf.

Director Arthur Fischer said, "it is the opinion of the (county) Planning Commission that material as submitted by Belcher is adequate in scope and detail to serve as a basis for approval or denial of the content for development."

But Fischer said the information "would not be adequate for any final plans" leading to actual construction.

He suggested that Belcher give the commissioners copies of all reports and studies submitted to various state and federal agencies.

A Letter from LORI WILSON

THE FLORIDA SENATE TALLHASSEE SENATOR LORI WILSON

Your Legislature begins its annual session on April 2nd in Tallahassee. For the past several weeks, we have been continually meeting with citizens of Sanford, Seminole, Volusia and Orange Counties to discuss your problems and needed legislation for 1974.

As your independent Senator, it is important that I serve your interests in every action I take or vote I cast. We must keep in close touch during these critical weeks.

To keep us informed and up to date on your views, we are organizing a group of Official Legislative Contacts.

If you would like to volunteer to work with me during this session — by providing us with public opinion or information that would help me better represent the views of the people of this district — please fill out the bottom of this letter, clip and send immediately to:

SENATOR LORI WILSON, State Capitol, TALLHASSEE, FLA 32304

Name (print)
Address
Phone Numbers
Special Subjects of Interest (if any)

I will continue to work fulltime for strong people responsive government. Thank you for your support.

Independently yours, Lori

Auto Makers Speculating On Gas Prices

By JAMES A. GROTH
Copley News Service

If a Detroit automotive executive and a Chicago marketing consultant are correct, we should have plenty of gas—at a reasonable price—if the right steps are taken.

Lee A. Iacocca, president of the Ford Motor Co., says he has the answer to the energy crisis and Robert Brooks, a marketing consultant with John Gustafson & Co., thinks he knows how to keep the price down.

Iacocca says the best solution to the energy crisis is to abolish all controls on the price and allocation of petroleum products and to burn "those standby rationing coupons."

"If everyone in the regulatory business would stand back and let the natural forces of the marketplace take over," Iacocca says, "we would have gasoline for the summer vacation season and heating oil for next winter."

He also urges Congress to maintain vehicle emission-control standards at the 1973 interim levels for three years—through 1977. If this is done, he says, the auto industry could save the country more than six billion gallons of gas just in added economy of the new cars built during those three years.

But the Ford president feels the key to the energy crisis is the removal of price and allocation controls on petroleum products. He says if

these controls are lifted, the price will go up and incentives for more imports and production will return to the marketplace.

"But the new price won't get close to \$1 a gallon," he says.

"The Wall Street Journal says the market will stabilize at 99.9 cents a gallon, and that seems quite reasonable to me."

Iacocca pointed out that Europe, which is 72 per cent dependent on Arab oil, has "no long lines, no allocation, no rationing, no federal energy office shifting supplies from here to there."

"Sure the prices are higher, but they've got gas—and they're even wiping your windshield."

Iacocca says higher fuel

prices in Europe have caused people to be more careful how they use fuel and to select more efficient cars. "They haven't given up their mobility, they just don't waste gasoline. I'm sure they should have done that."

Brooks feels that much of the high cost of gasoline is due to low-volume, high-cost retailers who buy from wholesalers. He feels this method has become obsolete except for limited convenience purchases.

Large self-service gasoline stations can help reduce much of the cost of crude oil increases by reducing marketing costs, he says.

For this to happen, however, three things will have to take place. First, the average cost of crude oil delivered to U.S. refineries will have to stabilize at around \$3.50 per barrel. Second, federal and state governments must want to

avoid the wrath of the public by not increasing gasoline taxes. And third, and most important, modern marketing methods, characterized by very high-volume, low-cost, self-service gasoline retailing, must become the rule nationally.

There were 116,385 accidental deaths in the United States according to the National Safety Council's latest official figures for 1969. Of these deaths, 80,706 were male and 35,679 were female. Half of the accidental male deaths, 40,213, were motor vehicle related while 15,578 females died in vehicle accidents. The 15-to-24 age group had the highest fatality rate with 24,668 deaths, of which 17,443 were motor vehicle related. The World Almanac notes.

Q. The wheel bearings of my trailer have failed twice in the last year. Is there any reason? B.V., Napa, Calif.

A. It could be that you have failed to have these serviced. Trailer wheels turn at a faster frequency than the wheels of a car and thus absorb more punishment. If bearings aren't serviced often, they will lose the protection afforded by lubricant and will fail.

Automotive questions of general interest will be answered in this column. If you have a question about your car, motorcycle, or recreational vehicle, write Motorways, Copley News Service, in care of this newspaper.

WORLD ALMANAC FACTS

Askew: U.S., State Should Preserve Swamp

TALAHASSEE, Fla. (AP) — The federal and state governments should buy the Big Cypress Swamp to preserve it "as a monument to life itself," said Gov. Reubin Askew.

Askew's statement, as read to a Senate subcommittee in Washington by environmental aide Ken Woodburn. The subcommittee is considering a House-passed bill to provide \$116 million for federal participation in the purchase.

"Florida's commitment to this cause is not merely hollow rhetoric," Askew said, pointing out that the state has begun a \$40 million purchase of part of the southwest Florida swamp and placed development controls on surrounding areas.

Nixon Papers Demanded

By DONALD M. ROTHBERG
Associated Press Writer
WASHINGTON (AP) — The special Watergate prosecutor's office has subpoenaed additional documents from the White House, it was disclosed today.

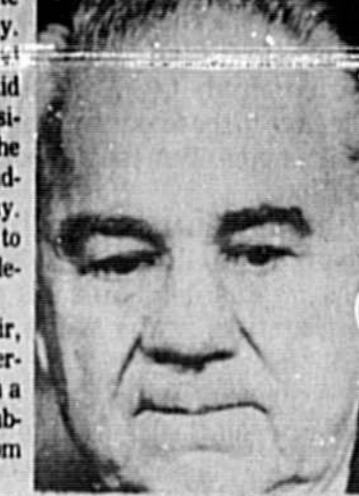

A spokesman for special prosecutor Leon Jaworski said the subpoena directed to President Nixon was served on the White House last Friday. Deadline for compliance is Monday.

The spokesman declined to say what the subpoena demanded.

Earlier, James D. St. Clair, President Nixon's chief Watergate lawyer, acknowledged in a television interview that a subpoena had been received from the special prosecutor.

St. Clair appeared on the NBC "Today" show.

Jaworski disclosed on Feb. 14 in a letter to Sen. James O. Eastland, D-Miss., chairman of the Senate Judiciary Com-

LEON JAWORSKI

Sought By Monday

the material Nixon had refused to supply included 27 tapes sought for the investigation of the Watergate cover-up as well as evidence relating to investigations of contributions from the dairy industry and the accounting firm of Arthur Andersen & Co. to the House plumb line unit.

The President has contended in several recent public appearances that he has given Jaworski all the material he needs to complete his investigation. Nixon has said he has given the special prosecutor 19 tapes and some 700 documents.

The subpoena issued Friday was the first one directed at the President by the special prosecutor's office since last July.

Air Force Promotion

Air Force Col. William C. Branan formerly of Sanford has been selected for promotion to the rank of brigadier general.

The 1942 Seminole High School graduate is currently serving as vice commander of the Fourteenth Aerospace Force in Colorado.

While attending high school, Branan was co-captain of the football team and the recipient of the Peter Schaal Trophy, as the "Most Valuable Player." He also attended Florida State University.

He plans to move his family of six to Sanford upon retirement.

Nixon Theme: Won't Quit Or Yield Tapes

WASHINGTON (AP) — Any political campaign has its set piece. The Speech a candidate delivers day after day to stress his major themes. President Nixon's campaign to rebuild public confidence and block impeachment is no exception.

It has been the nationally broadcast and televised question-and-answer session. He has held four of them in less than a month. Two were White House news conferences, two on the road. He says there are likely to be more.

Whatever the questions put to the President, his two key answers have been the same. —He will not resign, contending that to do so would destroy the presidency itself.

—He will not agree to turn over additional White House tape recordings and documents sought by House impeachment investigators, on grounds this would break the confidentiality essential to any president.

He has, at the same time, repeated his

demands for a swift end to Watergate investigations, declaring anew that one year is enough, that dragging it out drags down America.

The words have changed somewhat, the tone became tougher at his session with the National Association of Broadcasters in Houston Tuesday night.

Nixon suggested, for example, that the House Judiciary Committee may try to obtain the reports via the courts, but warned that if the House tried to circumvent the legal processes, he will continue his resistance.

"...I am suggesting that the House follow the Constitution," he said. "If they do, I will."

Nixon did not answer directly the question of whether he would comply should the House committee issue a subpoena for specific items. But he implied that he would not, contending that the principle of presidential confidentiality applies to impeachment as to any other investigation.

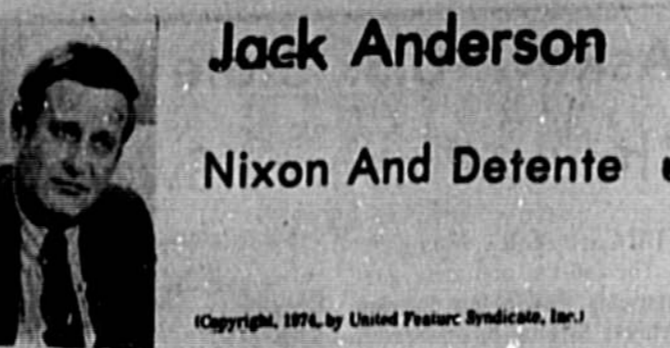

That is an argument he used earlier in his unsuccessful effort to withhold White House tape recordings from the Watergate grand jury on grounds of executive privilege.

The tone and substance of the questions varied, from those of business executives in Chicago to those of a newsman in Houston and Washington. But they produced the same information.

On resignation, and on the question of yielding up additional documents, Nixon said repeatedly that he was defending his office, guarding the prerogatives of the White House for those who will succeed him.

Nixon said in Houston that he had paid too little personal attention to the re-election campaign that spawned Watergate, and added "I don't intend to be in another campaign, needless to say."

But he is in one now. This time it is not for votes in an election; it is for public support in the struggle over the scandals.

Jack Anderson Nixon And Defente

WASHINGTON — The Securities and Exchange Commission issued a criminal inquiry into the peculiar merger of two big companies whose principals later stated an amount of \$100,000 to help reelect President Nixon.

The merger of National and Granite City steel companies had been fiercely opposed by trustees at the Justice Department. Nevertheless, then-Attorney General John Mitchell, with quiet White House backing, let it go through without so much as an explanation.

Hanna Mining holds a huge interest in National and, therefore, benefitted financially from the merger. Significantly, Hanna's able attorney, H. Chapman Rose, is now helping Nixon with his tax problems.

Rose's son, Jonathan, has also worked as an assistant to Peter Flanagan, the White House Ambassador-in-residence to big business, who played a backstage role in the steel merger. Hanna's chairman, Gilbert Humphrey, who is also a director of National, has additional ties to the White House. His dad, the late George Humphrey, served as treasury secretary when Nixon was Vice President. Both Humphreys have been strong Nixon backers.

The other beneficiary of the merger, Granite City, is represented in Washington by the Collier, Shannon, Hill and Edwards law firm. One of the partners, Robert Collier, has been an effective Nixon fundraiser.

We have also been able to trace over \$100,000 in the 1972 Nixon campaign from Hanna, National and Granite City directors and associates.

Now the SEC, according to knowledgeable sources, is poking into the merger. Here are the facts of the complicated case. Since 1966, the Justice Department has beaten back steel mergers because the industry's overconcentration was causing inflationary prices and sluggish production. Nevertheless, the top four steel corporations controlled 54 per cent of the market in 1971, causing some economists to urge that the industry be broken up into smaller companies.

Yet exactly the opposite began to take place as the fourth-ranking company, National, and the 11th-ranking company, Granite City, began talking about merger. Even as they were negotiating, Nixon called for a "competitive spirit" to make America stronger economically.

The President's public statement turned out to be mere camouflage, however, for his Administration's private actions. Behind the scenes, National and Granite City officials began a series of secret meetings with Mitchell, Flanagan and former Commerce Secretary and Nixon fundraiser Maurice Stans.

The steel men concede that they pressed their case for the merger in Washington, though they insist the meetings with Stans were "general" in nature.

So far, the SEC, whose investigation is still in a preliminary phase, has reached no conclusion on White House involvement in the merger. Flanagan told as his master of the steel meetings was vague. Rose failed to return our calls.

Footnote: Ralph Nader and his aide, Mark Green, unveiled a rat in the merger nine days after it occurred. They tried in vain to get an explanation from Mitchell. Then a St. Louis Post-Dispatch reporter, Dana Spletzer, did a brilliant job of digging out the early facts in the case.

ABLE AMERICAN: The foreign aid program, whose blundering overseas gave its representatives the nickname "Ugly Americans," offered refrigerators to the Eskimos, built sawmills in countries where there were no forests and shipped toothpaste to millions whose people had no toothbrushes.

But last September, the Nixon Administration persuaded Dan Parker, head of the Parker Pen Company, to take charge of foreign aid. Parker impressed Congress with his background and intelligence.

Since then, however, he has been quietly to straighten out the problem-plagued agency. It is too early yet to pronounce his reforms successful. But increasingly, the Ugly American is becoming known as the Able American.

Or, as one old-time bureaucrat, referring to the cumbersome agency, told us: "The monster has been harnessed."

KANGAROO SLAUGHTER: Backroom Washington politics have encouraged the wholesale commercial slaughter of thousands of rare Australian kangaroos.

For more than a year, Australian authorities have pleaded with the U.S. Interior Department to place three dwindling kangaroo species on the endangered species list. This would protect the threatened animals by closing off the huge American market to the importation of their skins.

But former Assistant Interior Secretary Max Edwards was hired by a major importer of kangaroo hides to block the action. He closed himself last year with Assistant Secretary Nathaniel Reed, after which the Interior Department retreated from its tough protectionist stance.

Meanwhile, hunters have continued to slaughter kangaroos in the belief that the U.S. demand for the valuable skins will eventually force the Australian government to lift its own year-old ban on the exportation of kangaroo products.

Footnote: Reed and other Interior officials assured us that Max Edwards' lobbying had nothing to do with their foot dragging. Edwards did not return our calls.

THE FEED on Wednesday revised its March allocations, giving nine states additional gasoline supplies. All other purchases enough to reduce state allocations remained unchanged.

The FEED on Wednesday revised its March allocations, giving nine states additional gasoline supplies. All other purchases enough to reduce state allocations remained unchanged.

He added that gasoline prices possibly rising as high as 70 cents a gallon could help discourage consumption and thus shrink the shortages to the range of 1.5 to 3 per cent.

Last week the average price for regular gasoline was about 53 cents a gallon, up from an average of 50 cents in 1973.

Gasoline shortages in February and March have been figured at about 17 per cent — resulting in long lines at service stations in many areas and emergency allocations late last month by the Federal Energy Office.

Simon told a House Appropriations subcommittee Wednesday that drawing down on gasoline inventories could reduce the shortages to about 4 to 7 per cent.

WORLD TODAY

Disident Leaves Russia

ROME (AP) — Soviet disident Pavel Litvinov arrived in Rome today after declaring he left Russia because he was threatened there with new imprisonment.

The 33-year-old electrical engineer, grandson of former Soviet Foreign Minister Maxim Litvinov, was accompanied to Rome by a wife and two children. He plans to visit Holland after a week in Italy and to begin a visit to the United States on April 8. He has said he hopes to teach physics at an American college.

Litvinov said in Vienna that if he had not left the Soviet Union, he might have ended up in a Siberian labor camp. He was sentenced to four years in a Siberian labor camp for protesting the 1968 Soviet-led invasion of Czechoslovakia.

Litvinov had said Monday when he left Moscow for Vienna that he hoped to return to his homeland.

Flight Eliminated

MIAMI (AP) — Pan American World Airways will eliminate its historic Miami-Nassau route next month and has asked permission to suspend other Caribbean flights, company spokesmen say.

The company, which withdrew from the Miami-Freetown market last year, has been beset by financial setbacks and fuel shortages.

The Miami-Nassau service was inaugurated 46 years ago and was the carrier's second international route. Only its Key West-Havana service was begun earlier.

Pan Am flies a trijet Boeing 727 to Nassau daily, with additional flights on weekends. The service duplicates routes of Eastern Airlines and the island's new airline, Bahamasair.

We're not simply planning a suspension of service to Nassau," Pan Am spokesman Sergio Belmont said Wednesday. "We intend to cease operations there altogether."

The carrier plans to end the service on April 22. Under without approval from the U.S. Civil Aeronautics Board.

But spokesmen said the firm is asking CAB approval to suspend service between New York and Freetown, New York and Antigua, and Chicago and Jamaica on April 22. The flights would be restored in December.

Unopposed, Ends Third

BRIDGEWATER, N.Y. (AP) — Democrat Gerald Wisnoski was unopposed when he ran for re-election as mayor of this tiny New York village. But he finished third.

Everett Holmes, a 65-year-old former village trustee, became the village's first black mayor with 69 write-in votes, while Charles Brown finished second with 23 write-ins in the Tuesday election.

Wisnoski polled 17 votes in this community of 363 residents.

Some Welcome Home

CAPE ELIZABETH, Maine (AP) — Michael A. Kinney got less than a hero's welcome when he returned home last week from an 18-month Army stint in Korea. He was mistakenly thrown in jail for desertion.

Kinney showed officials his discharge papers, but Army flyers listed him as deserted and the Federal Bureau of Investigation computer at the National Crime Information Center confirmed the report, officials said.

From the Cumberland County Jail, Kinney was allowed to call his congressman, Rep. Peter N. Kyras, who got him out several hours later.

"He was fortunate to be out that fast," said Sgt. Santo J. DiCiccio, the AWOL apprehension supervisor at Fort Devens, Mass. "It usually takes us from three to five days to check the records. This happens quite often."

Said Kinney of the mistake: "I figured it was typical Army."

Higher Prices Could Ease Shortages

WASHINGTON (AP) — Federal energy chief William E. Simon says further gasoline price increases may help discourage consumption and thus ease shortages.

Simon told a House Appropriations subcommittee Wednesday that drawing down on gasoline inventories could reduce the shortages to about 4 to 7 per cent.

He added that gasoline prices possibly rising as high as 70 cents a gallon could help discourage consumption and thus shrink the shortages to the range of 1.5 to 3 per cent.

Shots Fired, Princess Escapes, Man Held

LONDON (AP) — Ian Ball, a 26-year-old unemployed Englishman, was brought into court today and charged with attempted murder during an attempt to kidnap Princess Anne from her car in the heart of London Wednesday night.

Ball, lean-faced and bearded, stood stiffly in the dock at the Bow Street Magistrate's court, handcuffed to two detectives. He spoke only once during his 60-second appearance, saying in a London accent: "I want to apply for legal aid."

The court ordered him held for another hearing on March 28 on the charge of attempting to murder Princess Anne. Personal bodyguard, Inspector James Beard.

Beaton was one of four persons wounded as the would-be kidnaper fired repeatedly at the royal limousine. The others were Anne's chauffeur and a policeman and a passing journalist who tried to intervene.

graph said the letter asked for a \$2.5-million ransom, and the Daily Mail said it was full of ravings about alleged injustices.

Police from Buckingham Palace, 150 yards away, overpowered the gunman, and police sources said the letter asked for a million pounds (\$2.3 million) and was addressed to Anne's mother, Queen Elizabeth II.

The Daily Telegraph said the letter asked for a ransom of a million pounds (\$2.3 million). The Daily Mail said it was full of wild ravings about alleged injustices.

Witnesses said the gunman ran into St. James Park, then turned and leveled a pistol at the police. One officer, Peter Edwards, 21, brought him down with a flying tackle, and the other officers rushed in to help Edwards.

Police would give no information about Ball in advance of his court appearance except to say that he had no fixed address. Following the attack, there was speculation immediately that it was the work of Irish nationalists, but the police said they believed the motive was not political.

The attack was the first against any member of the British royal family since 1968 when a man threw a loaded revolver in front of King Edward VIII. The royal family occasionally has received death threats but is not normally surrounded by heavy security arrangements.

Police gave this account of the attack on the princess: The queen's only daughter and the army officer she married last November were returning from a showing of a documentary film about 4 p.m. when a white Ford forced the limousine to a stop on the Mall, the ceremonial avenue leading to the palace.

A man got out of the Ford and began shooting, hitting Alex Callender, the royal chauffeur, and Inspector Beaton and shattering the front and rear windows of the limousine. Beaton tried to fire back, but his gun jammed.

The man also shot Constable Michael Hills, on foot patrol nearby, and Inspector Brian McConnell when they tried to intervene. Hills managed to get off a warning on his walkie-talkie before he collapsed.

Anne, her lady-in-waiting, Rowena Bransley, and Capt. Phillips, stayed in the back of the limousine until more police arrived to rescue them. One eyewitness said the gunman shook the door in a vain attempt to get in.

Prince Glad Sister Safe

SAN DIEGO, Calif. (AP) — Prince Charles of Britain has been described as being "deeply shocked" by the shooting in London in which his sister and brother-in-law narrowly escaped injury.

The 25-year-old heir to the British throne is here as a communications officer on the British frigate Jupiter, which is due to end a visit to Southern California today.

Princess Anne and her husband, Capt. Mark Phillips, escaped unharmed when a gunman fired at their car in what British authorities have termed a kidnap attempt. Three other persons were injured.

'Piggyback Operation' Railroad To Combine

Seaboard Coast Line Railroad will spend close to a million dollars in consolidating piggyback facilities in Tampa, Fla., W. Thomas Rice, chairman and chief executive officer of SCL, announced today. SCL now has piggyback operations at 34th, 56th and 78th streets, in Tampa, and the new facilities to be built at SCL's Ueta Yard will handle all trailer traffic in Tampa now being handled at those three facilities. "By consolidating our piggyback operations, we expect a considerable reduction in number of switching movements across route 41

caused by operations at our 50th street facility," Rice said. "Piggyback traffic on SCL has been growing very rapidly, and with the fuel crisis, we expect more and more trailer traffic," Rice continued. The Family Line System, which consists of SCL, Louisville and Nashville, Georgia, Clinchfield, and the West Point Route railroads, recently announced acquisition of 3,500 new trailers for use in piggyback operations, bringing their trailer fleet to 11,000. The new facilities at Ueta will include two tracks with a 44-car capacity.

OUR INDUSTRY NEEDS FRIENDS LIKE THESE 1,2,23 NEWSPAPERS.

There are currently 1,223 newspapers throughout the nation who donate space for a continuing series of N.A.D.A. ads produced public service ads. These ads not only serve the readers of these newspapers, they accomplish something more. They tell the world what America's new car and truck dealers stand for. They help the entire automobile industry by creating a better climate for retail sales and service of all automotive products. The series began four years ago when N.A.D.A. first invited all newspapers to publish these ads, tied in with their local new car dealer associations. Produced almost monthly throughout the year, our public service advertisements cover subjects like safe driving, ecology, mechanics certification, the competitive free enterprise system and community service. These 1,223 newspapers have a personal interest in the automobile industry.

NATIONAL AUTOMOBILE DEALERS ASSOCIATION
2000 "K" Street, N.W., Washington, D.C. 20006. Official organization of America's franchised new car and truck dealers.

Sports Spotlight

By J Richards
Herald Sports Editor

Recent columns lamenting the lack of financial support from the community for Seminole Junior College track team, interpreted as criticisms by athletic director and basketball coach Joe Sterling prompted him to reply that the track team was actually the richest of the lot, spending more than any other sport at the school. I used track as an example of a nationally ranked team at the school barred from even "going-a-begging" to the community by order of the athletic department and the school president Dr. Earl Weldon. In essence, Sterling agrees the program is financially under-financed, but defends his policy of soliciting the community for support until the school's gymnasium is completed—sometime this year. No criticism was intended. I just wanted the community to know what kind of athletes were toiling at the school (some national champions) and just how little they actually had to work with. It's a shame when a school can get its outdoor track team all the way to fourth place in national indoor championships when it doesn't even have an outdoor track. It's even more of a shame when the school produces outstanding basketball, baseball and track teams when the "home" facilities have to be borrowed from some high school. I wondered in print if there were some way of getting much-needed additional support from the community SAC so effectively publicizes throughout the state and nation.

SJC Foundation
There is an organization at the school — The Seminole Junior College Foundation — designed to handle public donations and other support but it has been more or less dormant for the past few years. Coach Sterling points out that when the school's gymnasium is completed along with other additions, he thinks the time will be appropriate to go to the community for support. He wants to have a facility before asking for help. "A place the community can be proud of," he says, "and be willing to help out with." The school's extra-curricular activities funds comes from fees set by the state paid

Pit Stop

By CARL VANZURA
Seminole County fans who made the trip to Gainesville over the weekend saw some of the best drag racing ever held in the Sunshine State. The weather was perfect for the 25,000 people on hand for the fifth annual Gatornationals. As the field was filling during Saturday's qualifying rounds, a final check showed that Gary Beck, Edmonton, Canada was the top man in Top Fuel with an E.T. of 6.014 at 235.60 mph. Close behind was Dave Settles, Houma, La. with an 8.188 at 227.45 mph. Don Garlits, Seffler, Fla. was the third top qualifier at 6.235 — 231.85. In the first round of top fuel Gary Beck, John Wiebe, Carl Olson, Mike Waggoner, Dave Settles, Jim Murphy, Jim Hundley and Dale Park were all winners on their first run. Losing in the first round was crowd favorite Garlits to Wiebe's hole-shot and defending champion Herm Petersen. John Austin, Ft. Lauderdale, Fla. blew a clutch in his dragster throwing him into the slide, causing him to spin three times at over 200 mph. In the second round Beck, Settles Funk and Murphy remained in contention with strong crowd pleasing runs. In the third round it worked down to just Gary Beck and Dave Settles left in the final run for the \$11,000 first prize. Beck who blew a motor in the semi-final knew his engine wasn't up to par so did not make a burn out as Settles was "bolting the hides" for the biggest race in his life. The race was decided on the starting line as Beck drew a red light trying to get a jump on Settles. On the final run Settles turned 6.350 as Beck blew another motor.

Two Don's met in the final round of Fuel Funny Car on Don Prudhomme and Don Schumacher defeated opponent after opponent after opponent until there was just each other. Prudhomme, Grand Hills, Calif. in his Army sponsored Vega edged out Schumacher by inches as he turned 6.389 to "The Shovel" 6.741. In the first round low qualifier Kosty Ivanoff lost the body off his car at 211.76 mph as it soared in to the air for over 100 ft. Pro stock was full of surprises and upsets. All the favorites were beaten as the field was brought down to the final run. The talk of the meet was two 1/8th Hornet's making the field. Gapp and Roush had their team cars in the first and second position with Wally Booth third in the American Motor's Hornet. The Pinto's of Gapp and Roush and the Hornets of Kanners and Booth made it through the first round as did Bill Jenkins in his new 1974 Vega. Defending champion Don Nicholson was one of the first round losers to Booth. In round two the Pinto and Hornet teams each lost one car as Wally Booth beat his number one car and Wayne Gapp broke in the first round victory and was unable to change engines in time to run. In the third round racing was so close it took the electronic timing to pick the winners as Jack Roush turned 8.851 — 152.80 to beat Frank Iacono 9.053 — 152.80. Wally Booth beat Richie Zol 8.956 — 152.80 to 8.017 — 152.54. In the final run for \$11,700 Booth and Roush lined up with the crowd up on their feet for this run. Never has an AMC car won a major title and you could sense the feeling of the crowd as the Hornet was a clear favorite in this run. In just 8.972 seconds it was over as Booth edged out the Pinto by .04 of a second as the crowd went wild. Johnny Brown will once again make an attempt to make the field at a championship race meet as he is scheduled to go to Warner Robins Ga. next weekend. Johnny who had his sanitary Corvette used to go to the Gatornationals received word that the entry field was full and therefore was not accepted. It is policy that at a major race the cars are taken from the ones that support the points meets during the year. With this in mind Johnny plans to make all four meets in our division this year.

With the new race season almost here I am in the process of making a complete edition of Seminole County report on all the cars we have running out of our fine area. I will need some help from some of you who have cars and would like to be mentioned in this write up. I want information on drivers, owners and types of vehicle raced, written out and sent to me at The Sanford Herald.

Phillips' Clout Difference As Hounds Still Unbeaten

Herald Correspondent
Clay Phillips, fifth inning home run to centerfield with one man on proved Lyman winner until the final inning. The Winter Park field is limitless in the outfield and Phillips powered the ball over the centerfielder's head and kept rolling while he and Jeff Hodges circled the bases. The blast scored the eighth and ninth runs.

Winter Park JVs Top Lyman, 8-3

FOREST CITY—The Lyman Jayvees took an 8-3 trouncing at the bats of Winter Park, at the Lake Brantley home field. The Wildcats unleashed a barrage of 10 hits and 8 runs. Jim Meadows absorbed the loss for Lyman while Donald Reid picked up the win for Winter Park. Steve Ashby was the only offensive power for the Hounds and he came through in his first starting assignment with a three-run homer in the sixth inning with Matt Simonelli and Scott Worderski on base. For the Cats, Kevin Roberts was their power, going three-for-three, including a two-run homer over the center field fence. Steve Reid added strength with two hits in three appearances and Mills Reddick and Dan Brandt picked up two hits apiece. The Wildcats scored first in the second inning after Brandt picked up one of his two doubles. Dan Abel advanced him to third and Bob Moffat picked up the RBI with a sacrifice fly to centerfield. In the third inning the Cats picked up two more runs. Roberts led off with a single, Stipes flew to rightfield, and Steve Reid walked.

'Prize Pupil' Lopes Steals As 'Master' Wills Watches

By ANDY LIPPMAN
AP Sports Writer
The go-go Los Angeles Dodgers are in high gear this spring. But that's nothing new according to their manager Walter Alston. "It's always been our forte — pitching, defense and base running." The man who is helping keep the tradition alive is a past master of base stealing — Maurry Wills, who while playing the all-time record with 194 steals. Wills is coaching the Dodgers on base stealing and his prize pupil this spring has been Dave Lopes, who stole two bases Wednesday as the Dodgers won their fourth straight exhibition game with a 5-3 victory over Cincinnati. In other exhibition baseball action, the Houston Astros downed the Montreal Expos 7-3. The Philadelphia Phillies edged the New York Mets 10-9, the Texas Rangers trimmed the Minnesota Twins 10-9, the St. Louis Cardinals edged the New York Yankees 3-2, the Baltimore Orioles ripped the Kansas City Royals 4-3 and the Detroit Tigers beat the Boston Red Sox 6-3.

Whalers 'Settle' For Oiler Tie

By The Associated Press
New England goalie Al Smith, tongue-in-cheek of course, admits he's a loser because of Edmonton's Rusty Patenaude. "No, really, it's just that he's scored a few times on me this year," Smith said. It could have been worse, but Patenaude's goal and another by Ed Joyal did force the World Hockey Association's East Division leading Whalers to settle for a 2-2 tie with the Oilers Wednesday night. Elsewhere in the World Hockey Association, the Houston Aeros edged Cleveland 5-4, and the Jersey Knights beat Los Angeles 8-5. In the National Hockey League, the Vancouver Canucks got by the New York Rangers 7-4, Pittsburgh and the New York Islanders battled to a 1-1 tie, the Buffalo Sabres beat the Chicago Black Hawks 3-2, and Detroit beat the Montreal Canadiens 7-4. New England got both its goals in the first period from Don Blackburn and Tom Webster. Neither team was able to score in the final frame or in overtime. Casuaris 4, Crusaders 1. The Aeros scored three goals in the first five minutes of the third period, two by Jim Sherritt and another by Murray Hall, to break a 2-2 deadlock and then hold off a late Edmonton rally. Knights 8, Sharks 5. Brian Perry and Wayne Ralyer each scored two goals apiece, leading Jersey past the Los Angeles Sharks. Casuaris 7, Rangers 5. Vancouver erased an early 3-0 lead with the help of two quick goals by Don Lever near the end of the first period, then came roaring back with three goals in the final two minutes of the game to defeat New York Islanders 1, Penguins 1. Ralph Stewart picked up a

'Super Soph' Harris Runs To 4 Firsts For Brantley

(Herald Photos By John Cherna)

By JOHN CHERNA
Herald Correspondent

LONGWOOD—Ron Harris, Lake Brantley's "super sophomore," pulled in four first places and one second to help the Patriots to a third place finish in the annual Freshman-Sophomore Track Meet Tuesday at Lyman.

While Harris was a one-man team for the Forest City crew, Lakeland Kathleen used depth along with excellent sprinters to capture first place with 94½ points. Apoka was second with 93 and the Patriots took third with 70. Lyman was fourth with 63 followed by Sanford Crooms in its first track meet with 21 points. Trinity Prep finished with 16 and Oriedo had 10½. Sanford Naval Academy, too, eighth with eight points.

The annual Freshman-Sophomore Meet is, as the title indicates open only to ninth and tenth graders. The meet has enabled many outstanding freshman and sophomore performers to compete at their own level instead of against high school seniors and juniors.

Harris won the 120 high hurdles, the intermediate hurdles, high jump and 220 yard dash while finishing second in the long jump. He ran for the Lyman track team last year and Head Coach David Huggins had his outstanding performer by boundaries to Brantley.

The afternoon started off with Harris winning the 120 high hurdles in 1:1. Lyman's John Osborne was second with a 17.2. Kathleen proved they had the sprinter in the 100 yard dash as they took both first and second. Owe established a new meet record of 10.8 followed by teammate Gant in 10.9.

In the 460 yard dash Henry Stanley from Lake Brantley won in a time of 52.9. Mark Swearington from Lyman was second with a 54.8.

The 800 yard run was taken by Trinity's Thad McNulty in 2:10.1 followed by Apoka's Hatten in 2:14.2.

Carter from Apoka won the shotput and Jerry Huran from Lyman won the discus 104½. Carter heaved the shot 41½' for a new meet record while Huran threw the discus 127' for a new meet record.

Kathleen took two of the final relays winning the sprint relay in 2:16 and the mile relay in 3:7.2. In both cases Apoka was second.

In the last distance event Apoka's Taylor finished well ahead of the crowd in 10:48.3. The 800 yard run was taken by Trinity's Thad McNulty in 2:10.1 followed by Apoka's Hatten in 2:14.2.

Lakers Back On Top Of Heap

By The Associated Press

The Los Angeles Lakers are back on top in the National Basketball Association's Pacific Division and their confidence is showing.

"I don't think Golden State can win the rest of its games," said Jim Price after the Lakers' 120-114 victory over Milwaukee Wednesday night, "so it's up to us to win the rest of our games."

"I think our win against New York Sunday night picked us up after our two losses to Golden State. Then when Golden State lost to Milwaukee we all realized we were still in this."

Price and backcourt mate Gail Goodrich combined for 51 points as the Lakers rallied in the second half to beat the Bucks. The victory left Los Angeles one game ahead of Golden State, a 110-107 loser to Seattle in the battle for a playoff spot.

The Lakers have three games remaining and the Warriors five games.

Elsewhere in the NBA, Atlanta dumped Boston 99-89; Chicago edged Kansas City 104-101; Detroit topped Houston 102-89; Capital dumped Cleveland 101-91; Portland defeated Philadelphia 113-106; and New York outlasted Phoenix 106-104 in overtime.

Los Angeles trailed by six points at the half, 61-55, but broke it open in the third period, outscoring Milwaukee 44-27. The Lakers shot a sizzling 59 per cent from the floor during the quarter.

Goodrich scored 27 points, Price 24, Connie Hawkins 21 and Elmore Smith 20 for the winners. Kareem Abdul-Jabbar, named the league's Most Valuable Player earlier in the day, led the Bucks with 27 points.

Sonics 110, Warriors 107; Dick Snyder's jump shot with 14 seconds left and a layup by Stan Watts eight seconds later accounted for Seattle's victory. Hawks 99, Celtics 89.

Pete Maravich jumped in 38 points as Atlanta beat Boston for the first time in six meetings this season.

Bulls 87, Kings 86.

Jimmy Ray's free throw in the closing minute proved decisive as Chicago held out to second in the Midwest Division by one game over Detroit.

MVP Jabbar 'Pleased'

LOS ANGELES (AP)—Kareem Abdul-Jabbar says his most consistent of five National Basketball Association seasons rewarded him with his third most valuable player honor.

"I thought I was doing a good job. I knew I would be considered," the Milwaukee Bucks' 7-foot-2 center said at a 15-minute news conference Wednesday. The Bucks were here to play the Los Angeles Lakers Wednesday night.

Jabbar, in the players' balloting, received 528 points to 431 for Buffalo's Bob McAdoo. Detroit's Bob Lanier was third, followed by last year's MVP, Dave Cowens of Boston, and Elvin Hayes of Capital. Kareem said he was particularly pleased because the selection was made by players. He said he voted for McAdoo.

(Herald Photos By John Cherna)

She SCUBA Dives For 'Drowned' Golf Balls

COCOA BEACH, Fla. (AP)—Frances Dixon admits that scuba-diving for golf balls in murky, polluted water infested by snakes and alligators is not glamorous women's work. But she says it pays.

"I would dive in a septic tank if I had a reason and the money," she says. She has contracts to retrieve balls from streams and lakes as deep as 60 feet at a dozen area golf courses. Averaging 10 cents a ball, she usually makes \$30 to \$50 a day but says some days she finds 3,000 to 4,000 balls.

With her scuba equipment and a knife to cut entangled fishing lines, she will stay under water for as long as two hours, depositing balls in two string bags she carries. A filled bag of 500 to 600 balls will weigh 15 pounds in the water but 60 pounds on land.

Mrs. Dixon, who began diving when her husband was stricken in New Mexico.

ERA Tenners To Play

A Pro ERA Sports Rally featuring national figures and tennis matches between Florida co-eds and male legislators will be held in the Davis Army Gymnasium in downtown Orlando Sunday, from 2-5:00 p.m.

Country and Western singer Fernin Huskey will make a personal appearance and sing "For the ERA, and the Satellite." The ERA, and the Satellite All-Stars, Gainesville, Fla., will also perform.

The main event of this ERA (Equal Right: Amendment) Rally will be tennis matches with the University of Florida and Hollins College Women's tennis teams challenging male members of the Florida Legislature and other officials from Florida.

Some of the officials who will attend are U.S. Representative Bill Guter, a candidate for the U.S. Senate; State Senator John V. G. Merritt; Island Representative Ralph Maxwell King, President of the Brevard Community College in the Cape Kennedy area; Burton Young, a candidate for the U.S. Senate from North Miami; and Jane Robinson, a Florida House Representative from Merritt Island.

The Hollins and U-F Women's Teams are rated among the top four in the State of Florida.

Children under 12 free, with tickets available at Streep's Ticket Agency or at the door.

The rally is located on the Florida Exposition Grounds near the Florida State Fairgrounds, Orlando. The rally will be held at the Florida State Fairgrounds, Orlando.

Pro Sports Likened To Toy Shop

By FRANK MACOMBER
Copley News Service

America's toy department is gathering in so much moola that each year the toy makers and the toys get far more on how the multimillion-dollar melons should be split up.

Toy department is a rather vague synonym for the nation's professional sports. It caught on after a sports editor remarked one day that he considered the sports pages of the newspaper really are the "toy department," where folks turn to for a time such realities as higher prices, taxes and the gasoline shortage.

At any rate, professional athletes and the owners of the teams on which they play more and more each year are at each other's throats over contracts, salaries, fringe benefits, pensions, you name it.

representing the leagues' player associations. If they don't demand up some grievances or drams up for bettering the world of the professional athlete, they don't earn their money.

Then world heavyweight champion George Foreman was sued for \$2.5 million by KO, Inc. of Las Vegas, for breach of contract, a court action which conceivably could delay his bout with Ken Norton in Caracas, Venezuela, March 26.

And instead of a story about how the National Football League's teams are getting set for spring practice, there's a piece quoting running backs O.J. Simpson, Larry Conka and Franco Harris that an NFL player's strike seems inevitable, mostly because of salary negotiations and often bitter repartee between management and players. What the reader wants is news about what the athletes are doing to earn their money.

Recently, for example, the sports pages have been cluttered with yarns about how the players are going before arbitrators with their grievances, most of them complaints about not enough money for the 1974 season.

Shabby End

As usual, the consumer gets the shabby end of the deal. His sports pages are filled with stories of lawsuits, injunctions, salary negotiations and often bitter repartee between management and players. What the reader wants is news about what the athletes are doing to earn their money.

Recently, for example, the sports pages have been cluttered with yarns about how the players are going before arbitrators with their grievances, most of them complaints about not enough money for the 1974 season.

Rapier On Links; Miller Has Style

By JERRY MAGEE
Copley News Service

In a game in which the most effective instrument has become the budget, Johnny Miller wields a rapier.

The San Francisco is a stylist of the most accomplished sort, a nobleman, as it were, walking among butchers.

"It used to be you had to have a good swing to get on the tour," remembered Miller. "You always hear the story about the famous English golf writer who asked where the tournament was and somebody pointed to some players on the course and said, 'Out there.'"

"Can't Be Tour"

"The Englishman looked at some of the swings and said, 'Oh, no, that can't be the tour.'"

It was, though, and Miller knows when this home-run-or-no-out trend began: when Arnold Palmer, all shoulders and graces and charisma, began letting it fly.

"The young players now are so dedicated and so score-oriented," noted Miller. "Arnie came along with his swing, looking like he was hammering a nail or something, and all of a sudden the game became score-oriented."

It is Miller's thinking that too many of the touring strong arms have only one swing. In some situations, they are helpless. Miller has three swings.

"I have a Lee Trevino fade, a Tony Lema hook and my own swing," explained Johnny. "The three swings are so distinct in my mind that all I have to do is picture them."

Winchester '22 Magnum

Winchester '22 Magnum Now 99⁹⁹

Lever action with exposed hammer. Winchester '422 magnum. Walnut finished stock. A better low price for a limited time only!

Mitchell 300 spinning reel. Has tungsten carbide line guides, adjustable drag system, anti-reverse, push button snap off spool, 4 spools of different line capacity.

Texaco Keglers Upset Leaders

Bettie Butt's 165-457 was high for Bufts Texaco as they upset the Florida Keglers in the Plaza Laundromat by three points in the Generation Gap bowling league. Libbie Whitehead scored a 192-431 for the losers.

Donna Peppore fired a 179-533 for Hacienda Village as they defeated the four wins over Albent-All.

Betty Norwood's 190 was high for Whitaker Paving and Jan Renaud led the U.S. Bankers as they split the points 52-51.

Jan Renaud scored the 54-7; Donna Lepore 9-10; and Bobbie Retalick picked up the 4-57. The 3-10 fell for Jeannette Andrews, Bettie Butt, Ann Coleman, Shirley Simas, and Jo Watson.

Mar Mills and Sandy Russell converted the 2-7 and Jan Reilly the 4-7.

Donna Lepore chalked in two turkey's. Eddie Mylott, Betty Norwood, Lois Owens and Jo Watson also rolled turkey's.

The league welcomes Angela Keese who joined the Fly Caster boat team.

Study Narrows Regional Sewer Plans

By BOB LLOYD
City Editor

Consulting engineers were directed Wednesday by a joint Seminole County-Sanford-Lake Mary regional sewer committee to research costs and feasibility of north county sewer system. It would use either a single treatment plant east of 14 south of SR 46 or a system using a plant in that area plus the present Sanford treatment plant without further expansion.

Cal Conklin, of Clark Dietz and Associates, indicated the report will be ready for the committee's April 3 meeting. The firm is doing a \$15,000 study on water quality management in the north 40 per cent of Seminole County that will provide information required in the first steps

Alternates Aired

Wednesday Conklin presented to the committee the first draft of the study showing four alternate systems and costs for construction of treatment plants, collection systems and operations through 1990.

Using a projected 80,000 population by 1990 in the study area engineers said projected sewerage flows would be 14.2 million gallons a day to treatment plants.

Estimated Costs

The report draft shows top alternate plans in cost ef-

iciency so far would be expanding the present three-million-gallon-a-day (MGD) capacity Sanford treatment plant to 14.2 MGD and eventually to 14.2 MGD by 1990 or a combination of a 9.5 MGD Sanford plant and a 4.7 MGD plant in the 1-4-Lake Monroe area.

The single Sanford plant alternate would utilize pumping of sewage from south Sanford, Lake Mary, Greenbelt and Wekiva River (Heathrow) service areas to the plant.

The two-plant system would require pumping from Lake Mary and south Sanford to the Sanford plant and from the Greenbelt and Wekiva River areas to the 1-4-Lake Monroe plant.

The highest cost estimates are for zero discharge of effluent into bodies of water utilizing holding ponds and land spreading of non drinking water quality effluent.

The committee directed further study on the new alternate plans considering need to acquire suitable un-

developed tracts of land for zero discharge disposal. Conklin said 356 acres of suitable land would be needed for zero discharge disposal and could be up to 10 miles from the treatment plant or plants.

Committee members called a \$7,000 an acre land cost used in the study "unrealistic." Engineers said they will now use latest comparable land sales prices the study area to arrive at projected land costs.

Conklin said state and federal pollution control requirements are now approaching levels of treatment that would cost midway between the cost estimates presented Wednesday.

The committee directed further study on the new alternate plans considering need to acquire suitable un-

Crisis Not Licked, Bank Chief Cautions

CHICAGO — Americans shouldn't be lulled into thinking they've got the nation's energy problems licked because the Arab lifted the oil embargo, the president of the American Bankers Association (ABA) warned.

"The lifting of the embargo will cushion, but not lessen, the severity of the nation's energy problems," Rex J. Morthland said.

Morthland, addressing the ABA's 26th Annual National Credit Conference, said the lifting of the embargo will not drop prices of petroleum to anywhere near what they were 18 months ago. "Oil prices may go down, but there's a strong possibility they will start climbing again, though not as quickly as in the past six months," he added.

Morthland alerted bankers to three "potential consequences" that could develop in the economy if energy costs continued to increase.

The first consequence of rising energy prices, he said, will be to continue to spur the exploration and development of new sources of energy. Financing these projects could cause capital shortages in other areas such as housing, and drive interest rates up, Morthland added.

He said the question that arises is will the government attempt to hold interest rates down and thereby trigger another period in which funds flow out of financial institutions into other money market instruments.

It is estimated, Morthland added, that between 1971 and 1968, energy industries will have to spend at least \$70 billion to meet the nation's energy needs. "Their capital spending would swell to more than 30 per cent of all business capital spending by the end of that period."

The second consequence of increased energy prices will be the attempt to make more efficient use of energy. "The economy will tend to favor those industries that use less industry and more labor, because labor will be less expensive relative to energy. As a result, the price of most services will fall in relation to most goods," he explained.

United First Florida Expands

Frank Smathers Jr., president and Chief Executive Officer, announced that the \$1.6 billion United First Florida Banks, Inc., company had added its 38th member and moved into the state's Northwest region by completing acquisition of The Peoples Bank of Tallahassee.

Fourth largest of 11 banks serving the Leon County market, The Peoples Bank of Tallahassee brings an addition of \$32 million in assets to the state's third largest banking group. The acquisition called for an exchange of the bank's 78,000 shares, with Louis Hill continuing as Chairman of the Board and Gary J. Cooley as President.

"Holding company support provides the bank with the most sophisticated financial services at greater economies," Smathers and Hill said. "It marks the beginning of the growth of United First Florida Banks in the Panhandle area."

Opened for business in 1959, The Peoples Bank of Tallahassee has become one of the most important banking institutions serving a county population of 110,000. Deposits in the bank have steadily increased to \$28.5 million. It operates a two-story building with drive-in facilities and adequate parking. The bank owns eight parcels of real estate totaling 81,300 square feet with 35,600 additional square feet under lease, all exclusively for banking.

Juice Sales Hit Peak

Canned single strength grapefruit juice sales hit their highest peak in five months with a 481,024 case movement in the week ending Feb. 23, United Growers said.

The sales mark enabled seasonal movement of Florida's "Silver Sunshine" to pass last year's record sales for the first time, according to Wilson (Red) McGee, general manager of the Orlando-based grower organization.

"Present inventory is approximately 25 per cent under last year. With product pack of single strength and reconstituted juice currently 17 per cent below the equivalent 1972-73 season week, hope is dropping industry can compile an annual 6-million case inventory many industry leaders feel is a safe, minimum carryover to fill trade pipelines from one year to the next," McGee said.

The United spokesman said that with heavy sales advertising and promotion scheduled by the Department of Citrus "further supply drain" should be expected.

"With growers faced with increasing costs across-the-board on every processing and production segment, a wholesale price of \$1.90 a case minimum is now indicated.

"This price (\$1.90) is a survival price for the grower and we again urge industry to get the price at least this point," McGee said.

His Mission: Change The World; His Motto: Expect Your Miracle

NEW YORK (AP)—There is a visionary glint in John McConnell's eyes as he describes his mission. He hopes for nothing less than to change the world. Inside his attic case is a reminder: "Expect a miracle."

Many people won't agree with McConnell on the nature of the change needed. What is good to him might be unpalatable to others, including many businessmen.

Son of an evangelist, former seaman, businessman and publisher, McConnell at age 59 is president of the Earth Society and founder of Earth Day, to be celebrated on the first days of spring, March 20 and 21.

He explains that Earth Day "is set aside to remind each person of his right, and the equal right of every other person, to the use of this global home, and at the same time the equal responsibility of each person to preserve it."

In just a few years the idea has spread to include observances by the United Nations, governmental agencies, states, cities, villages.

Stromberg-Carlson Sets Open House March 30

By JEAN PATTESON
Herald Staff Writer

In 1970, Stromberg-Carlson started limited manufacturing with only a handful of people in its plant located on Rinehart Road, north of Lake Mary Boulevard. Today the company is Seminole County's largest industrial employer with more than 900 persons working in the six-acre covered plant.

The company will host an open day at the plant March 30. "We are proud of our record of growth in the Sanford area and we are pleased to be part of a community," said plant manager Frank B. Kemper. "We want to give the public an opportunity to know us better."

Doors will be open from 10 a.m. to 3:30 p.m. A VIP tour and ribbon-cutting ceremony will precede the open house.

Guided tours of the recently expanded plant are scheduled to show the many operations required to produce the company's sophisticated and highly complex telephone switching systems. Exhibits and demonstrations will include the Crossreed line of electronic switching systems made in Sanford, and visitors will have the opportunity to use the company's Vistaphone picture telephones.

Times Have Changed The Fashion Follies

By BARBARA HERRERA
Copley News Service

Remember the 1960s? There was Nostalgic Nellie, heroine of the 1960s, in one corner; and in the other, mad, mod Millie, the kooky young thing who thought every occasion a costume party.

And caught in the middle — you, the American woman. Well, this is your year. The year that finds the independent American woman winner and finally champion after the long fashion bout.

Nellie and her late show frocks have pretty well settled down to the fashion capitals — Paris, London, Rome, yes, even New York, where couturiers design new dresses with an old look for well-behaved customers bored with the classics.

And mod Millie, like mini-skirts, hot pants, long, stringy hair, the peasant look, the ethnic look, and shinky, chunky shoes is going... going... and almost gone. That, happily, leaves you — Ms. America, no longer squeezed between fashion trends, but free to choose between the best of the trends.

BOATERS LAUNCH their crafts from the boat ramp at Sanford Marina to enjoy a cruise on the St. Johns. Sunny spring days are luring Sunday sailors away from television.

State Shakes Mansion Sale

By DONNA ESTES
Herald Staff Writer

LONGWOOD — Plans of the Central Florida Society for Historic Preservation to sell the 1818½ Bradlee-McIntyre mansion, located in the city's historic district, may have been dashed by a state official Wednesday night.

William Thurston of the state Department of Archives and History said a U.S. Department of Interior-approved \$25,000 grant to restore the house could be lost if the house is sold to a private individual.

Sheila Brown, a real estate agent who has the house listed, said she has used the approved grant as a major selling point and has an interested buyer from out-of-state.

Board, Teachers Face Problems

In a "we want to know you better mood" the Seminole County School Board met Wednesday night to discuss problems and complaints. The complaints, with one exception, were general.

The board learned — much to its surprise — that the principal evaluation sheets the board requested teachers to complete were being filed through the offices of the principals themselves.

As one teacher put it, how can you be objective when you know the principal will read it and probably know who wrote it?

Other complaints revolved around salary, janitorial provisions, lighting, equal opportunity and building repairs.

The session was called by Board Member Stuart Cullpepper "to get to know the teachers, and their wants and desires."

Teachers said they wanted better communication with the board and advance information on school construction.

The board learned — much to its surprise — that the principal evaluation sheets the board requested teachers to complete were being filed through the offices of the principals themselves.

As one teacher put it, how can you be objective when you know the principal will read it and probably know who wrote it?

VOLUSIA OFFICIALS CONFER WITH BOARD (L to R) Scoville, Mrs. Rumph, and Kelly

Officials Mull Deltona's Needs

A committee has been appointed by Mrs. Rumph to accumulate facts and figures on incorporating the community to be brought before the members as soon as the study is complete. The session with county officials was held to discuss all aspects of the question. Among the items brought up for consideration were police protection, street lights, mandatory garbage disposal, recreation facilities and bus service. Kelly to have prepared information on how Deltona residents can receive the most services at the least cost. This means either one of three methods, she said, "incorporation, special taxing district or just remaining as is."

HOBBIES DISPLAYED DEBBIE MUSSELWHITE, 10 year old Scout in Deltona Troop 61 displayed her collection of dolls of all nations and sea shells at Girl Scout open house.

GIRL SCOUT COLOR GUARD TROOP 61 of Deltona color guard performed at open house held at Deltona United Methodist Church. From left Judy Mitchell, Kim Dolton, Maria Svenson, Jean Umstead and Leslie Hosick.

VFW Auxiliary To Honor Chief

By FANNETTE EDWARDS Herald Correspondent
DEBARY — Veterans of Foreign Wars Auxiliary 6093 will honor District 18 Commander Roland Ballaragon and District Auxiliary President Reah Davis at a dinner-dance Mar. 30 at 7 p.m. in the DeBary Volunteer Firemen's Recreation Hall.

Following the dinner and meeting, games were played and prizes awarded. Hostesses for the evening were Mrs. James Hutson, Mrs. Myron Eggart and Mrs. Jim O'Brien. The club meets the third Monday of each month in the Community Center at 6 p.m. in the DeBary Volunteer Firemen's Recreation Hall.

At the March meeting of the auxiliary, Mrs. Alice Beint, treasurer and Americanism chairman, reported that a dozen 3 x 5 American Flags and 300 flag etiquette booklets have been ordered to be presented to sixth graders at the DeBary Elementary School on Loyalty Day, May 1 and to DeBary Public Library for the general public.

The Auxiliary had donated \$75 to the National Auxiliary's "Cancer Aid and Research" program, given on a \$1 per member basis. Members are making articles to be bought to Lake City V.A. Hospital April 6 the Rehabilitation Committee. They include lab robes, duty bags, bibs, bed slippers and any other items needed by the bed and wheel chair patients in the hospital. This is a regular project.

The "Mini" bazaar last month, showed a profit of \$154.29 on the White Elephant Sale; \$21.90 on the luncheon served and \$10 from a donor, plus \$73.15 from the Post.

Hostesses for the meeting were Mrs. Margaret Tempich and Mrs. Pass. Next meeting will be held April 5 at 7:30 p.m. in the Firemen's Recreation Hall.

Plans Luncheon DELTONA — Deltona Civic Association Auxiliary luncheon meeting Mar. 21 at 1 p.m. will carry out a "Garden of the Month" theme with tables decorated to represent the 12 months of the year. Mrs. Charles Magione and Mrs. Bern Kiesel are co-chairmen of the event, that will take place in Deltona Community Center.

Special guests will be Mrs. Luella Porto and Mrs. Kathryn Von Nieder, hausen of Deltona Entertainment will be presented by Mrs. William French.

Cards and games will follow the luncheon and meeting.

Club Outing DELTONA — The Illinois Club of Deltona met Monday evening at 6 p.m. for a carry-in dinner in the Deltona Com-

unity Center, followed by the regular monthly meeting. Mrs. Sally Roehner, president, presided.

Jim O'Brien, past president and program chairman, announced a trip to Disney World May 10, during Senior Citizens' Week there. The club also plans trips to other interesting places in Central Florida.

Following the dinner and meeting, games were played and prizes awarded. Hostesses for the evening were Mrs. James Hutson, Mrs. Myron Eggart and Mrs. Jim O'Brien. The club meets the third Monday of each month in the Community Center at 6 p.m. in the DeBary Volunteer Firemen's Recreation Hall.

Hospital April 6 the Rehabilitation Committee. They include lab robes, duty bags, bibs, bed slippers and any other items needed by the bed and wheel chair patients in the hospital. This is a regular project.

EMPIRE STATE CLUB INSTALLS ATTENDING FIRST board meeting of new Empire State Club officers in Deltona are (l to r) Mrs. Albert Sletter, financial secretary; Fred Cannon, first vice president; Mrs. Charles Weydig, recording secretary; and Gregory O'Connell, president. Also present, Mrs. Winifred Jordan, third vice president and Arthur Wirth, second vice president and Leslie Scott, treasurer.

St. Johns Camp-O-Ree Success

More than 350 Scouts, Webelos and leaders attended the weekend Spring Camp-O-Ree held at Tomoka Springs north of Deltona. The St. Johns District covers Northern Seminole County and West Volusia.

The Scout troops began arriving about 4:30 p.m. Friday evening, and the woods were transformed into a very busy little village as the units pitched their campfires and started to pitch their tents.

Scouts of Troop 500 Deland conserved the gasoline for their family cars by bicycling to the camp. Harvy Francisco, Scoutmaster of Troop 590 and SM, Tom Stewart of Troop 89 represented the newest units to camp. Other leaders attending from Sanford included Bill Tyre, 34; Johnny King, 117 & 103; Virgil Morgan, 507; Chris Elisea, 545; Clarence Fogg, 501; Ted Blue and Cio Combs, 508; Ken Marlar, 548; Delmar; Danny Johnson, Deltona Springs; Terry Lingo, Deltona; Charles Short, Lake Helen; Greg Bouquet, Orange City; from DeLand, Joe Damer; John Giovanni; Bob Jay; Rank Daville; Russ Walls; Sam Dawson; Frank Umstead and Richard Hasty.

Friday evening, there was a campfire and an Order of the Arrow tap. The leaders had a meeting to complete plans for Saturday.

Col. I. B. Bradley of Deltona, is forming a Bowling League in which service organizations may participate. Those desiring to join should contact Col. Bradley.

Next project of the club will be a "Trash and Treasure" auction, time to be announced later.

Spruell Beall made a request, at the regular meeting, for good discarded clothing, which he wishes to take to Jamaica in April, to distribute to needy persons. Lightweight clothing is needed as the climate is warm the year round.

Noble Henry Sprague, chairman of the annual paper drive, is asking all members to let him know, at this affair, whether or not they will participate and offer their services on this drive. Proceeds from this sale go to the fund that supports Shrine Crippled Children's Hospitals and Burns Hospitals in the state.

DELTONA — The Illinois Club of Deltona met Monday evening at 6 p.m. for a carry-in dinner in the Deltona Com-

unity Center, followed by the regular monthly meeting. Mrs. Sally Roehner, president, presided.

Seminole Seniors

By BENJAMIN SHORE Copy News Service
WASHINGTON—In February, 1971, the United States and other nations signed a treaty to control international trafficking in addictive but non-narcotic drugs, and in June that year President Nixon sent the treaty to Congress for ratification.

If things go as expected, Congress will ratify the treaty later this year, ending three years of internal dispute and delay by the treaty's major signatory which needs it the most. This treaty dealing with psychotropic substances, such as LSD, amphetamines, barbiturates and various tranquilizers, would contain many of the controls recently enacted by Congress for the domestic battle against drug abuse.

According to Sen. Birch Bayh, D-Ind., chairman of the Senate subcommittee on juvenile delinquency which recently held hearings on legislation to permit the United States to ratify the treaty, heroin users are outnumbered 17 to 1 by abusers of psychotropic drugs.

"These are not drugs illicitly grown in Turkey and refined in France," Bayh said. "Nor are they drugs illicitly grown and refined in Asia's golden triangle, but legitimately produced products, which when abused often result in tragedy."

John R. Bartels Jr., administrator of the U.S. Drug Enforcement Administration (DEA), told Bayh's subcommittee: "In all categories of drug abuse, our nation is perhaps the most seriously affected, and this is no less true in the case of the drugs which would be controlled under this treaty."

The United States is the world's greatest market for such mini-altering drugs—the uppers, downers, LSD and other hallucinogens, and many other varieties of substances which technically are not narcotics.

Until 1971, American drug manufacturers produced amphetamines with abandon. Millions of capsules and tablets were diverted into illegal channels and ended up on school playgrounds and wherever else youngsters bought their kicks.

Although amphetamines and barbiturates in various forms have legitimate medical and scientific research purposes, their consumption by persons seeking chemical kicks can lead to addiction more difficult to break than heroin.

Yet despite the major federal crackdown on deliberate domestic overproduction of these drugs, the United States continues to be flooded by them because there is a lucrative market here.

"Lack of international controls is merely another unfortunate example of the kind of double standard with which drug abuse is often regarded," Bartels told Bayh's subcommittee. "It is the kind of double standard which views heroin addiction with horror, but is willing to overlook barbiturate addiction or dependence on amphetamines as a different and less harmful sort of thing. This is an outdated notion which should be unequivocally rejected."

According to the DEA, a new agency created to broaden the war on drug abuse, some 3 million amphetamine tablets believed made in Mexico were seized at the border by U.S. agents in 1971.

Congress Ready To Ratify Drug Treaty

Dear Abby Earphones Will Shut Music In Neighbor Out

By ABIGAIL VAN BUREN
© 1974 by Chicago Tribune & J. S. S. Inc.

DEAR ABBY: We are an elderly couple living in a three-room apartment on the second floor. Our greatest pleasure is listening to the radio and TV. My wife especially enjoys the Saturday afternoon Metropolitan Opera broadcasts.

Our problem is the tenant directly below us. When we have our radio or TV on, she starts knocking on her ceiling with a broom handle as a signal for us to turn down the sound. She knows my wife is hard of hearing because she wears a hearing aid, and we try to keep the sound down because we don't want trouble with the neighbors. My wife gets irritated when this knocking goes on while she's trying to listen to the TV.

We asked the lady downstairs to please quit harassing us in this manner. Her only answer was: "Don't talk to me about it. For years I have listened to you walking on my head!"

Do you think a complaint to the landlord—or the police—would be in order?

DEAR READER: This is a matter for the landlord—not the police. But since listening to the radio and TV is your greatest pleasure, why not consider getting earphone attachments for them? Apparently, the sound is more disturbing than you realize.

DEAR ABBY: I am a woman, 38 years old, 5 foot 9, and 200 pounds. I have three beautiful daughters from my first marriage and a 16-month-old son from my present marriage. My husband is a very handsome 26-year-old man who says he loves me just the way I am.

My problem is that I can't love myself the way I am. I have always had a weight problem. I love my husband very much and don't want to lose him—just the weight.

Can you tell me something about the operation where they remove part of your stomach to lose weight? I am serious about this and have heard it can be done. SERIOUS.

DEAR SERIOUS: Ask your doctor and let him make such a recommendation—if he will. But remember, unless one removes the CAUSE, it will do no good to treat the symptoms.

DEAR ABBY: My 33-year-old son is an attractive, successful professional man who always has a girl on the string. He will date her exclusively for months, winning and dining her and giving her a big rush. He even ingratiates himself with her parents. And just when everyone expects him to slip a ring on her finger he decides she is not the girl for him.

The girl ends up with a broken heart, and my son and the heartbreaker starts the same routine with another girl. I can see it happening again, and I am terribly upset. What is wrong with a man who behaves this way?

DEAR DISTRESSED: That all depends on what goes on between your son and the girl. If he only dates her and makes no promises and she winds up with a broken heart, she has taken too much for granted. But if he leads her on with promises of marriage and then drops her, he's a heel. Don't be distressed. He's better off than the man who marries and has a couple of children and THEN decides the girl is not for him.

For Abby's new booklet, "What Teen-Agers Want to Know," send \$1 to Abigail Van Buren, 122 Lasky Dr., Beverly Hills, Cal. 90212.

CARROLL RIGHTER'S HOROSCOPE

from the Carroll Righter Institute
FORECAST FOR FRIDAY, MARCH 22, 1974

GENERAL TENDENCIES: You have a day to quietly wrap up whatever has been left incomplete. Accept early delays and obstacles appearing in the path of your desires. You have the time now to perfect your plans and make them workable.

ARIES (Mar. 21 to Apr. 19) You are able to help those who are in a difficult position. Talk with associates and make long-range plans for the future.

TAURUS (Apr. 20 to May 20) You want to be with good friends but they are busy now. Know what your personal desires are. Spend more time on your hobby.

GEMINI (May 21 to June 21) You have much work to do of a specified nature so don't get involved in anything that could interfere. Plan future wisely.

MOON CHILDREN (June 22 to July 21) Everything seems to be moving slowly because of the positions of the planets. Take it easy and don't become impatient. Have a delightful time with one you like very much. Be logical.

SAGITTARIUS (Nov. 22 to Dec. 21) Ideal day to study your home and do those things that will make it a more comfortable and charming place. Attend the social tonight.

LEO (July 22 to Aug. 21) Attend to those duties that are cluttering up your life and clear the slate for bigger and better things ahead. Try to cheer up mate.

VIRGO (Aug. 22 to Sept. 22) A partner may not be in the mood to do what you want so get busy with other matters and accomplish a great deal. Be sure to keep promises.

LIBRA (Sept. 23 to Oct. 22) Get busy at the work ahead of you. It may not be inspiring but has to be done quickly and well. Show particular kindness to kin tonight.

SCORPIO (Oct. 23 to Nov. 21) Although an invitation is late in coming, don't become impatient. Have a delightful time with one you like very much. Be logical.

IF YOUR CHILD IS BORN TODAY... or he or she will need much love and devotion early in life if the mid-confidence here is to be built up sufficiently to make a successful life. The educational curriculum should be ideal. Teach early to complete whatever has once been started. A good family life is very important to your progeny.

"The Stars Impel, they do not compel." What you make of your life is largely up to YOU!
Carroll Righter's Individual Forecast for your sign for April is now ready. For your copy send your birthdate and \$1 to Carroll Righter Forecast, The Sanford Herald, P.O. Box 625, Hollywood, Calif. 90222.

Flower Show Rules Listed For 'Beauties In DeBary'

By FANNETTE EDWARDS
Herald Correspondent

DeBARY — The 1974 Garden Club Standard Flower Show, "Beauties In DeBary," is scheduled March 29 from 10 a.m. to 5 p.m. in the Community Center on Shell Road.

The show is open to all amateur gardeners. Co-chairmen are Mrs. Alvin G. Becker and Mrs. Donald Middleton, Division I. The following rules are applicable: only amateur gardeners may enter the horticulture contest. Plants in containers must be entered between 4 and 6 p.m. on March 28, and all other entries, in place by 10 a.m. on Friday morning.

Native plants on the Florida reservation list may be displayed with botanical and common names. Property should be marked with exhibitor's name (concealed). All entries must be passed by the classification committee before entry.

Decision of Judges will be final. Exhibitors will be permitted to use background material if desired.

Section "B" is Modern Beauties, with classes 4, 5 and 6 entitled, "Birds in Flight," "Dancing Lady" and "Garden Fantasy."

Garden Circles

DELTONA — Garden Club members attended a tree seminar in city hall of Ormond Beach on March 13.

Mrs. Ewald Korth, president and also one of the sponsors as tree chairman of the sixth District of the Florida Federation of Garden Clubs, was one of the seminar speakers.

Other sponsors included the Council of Garden Clubs, Halifax District, and Ormond Beautification Board.

Speakers included T. R. Townsend, Volusia County extension director who substituted for Larry Loebholz, and R. L. Eikum, county forester, Florida Division of Forestry.

A panel discussion followed by Townsend, Eikum, Richard Truit and William Swisher, director of Ormond Beach Department of Parks and Recreation.

Attending were Mrs. Whitman Hopton of Gardenia Circle; Mrs. Frank Losinieccki, Mrs. LeRoy Kisteman, Mrs. William Oley, Mrs. Howard Wiggins and Anna Kostel of Heather Circle, and Mrs. Korth.

Others attending were Mrs. Augustus Williams Jr., director of District VI, F.F.G.C.; Mrs. David Gray, assistant director; the horticulture class of Daytona Beach Junior College; the city manager of Ormond Beach and a large group of horticulture enthusiasts.

Spring is just around the corner and the time for beautification is now.

With eyes aimed toward making the Sanford area the most beautiful spot in the country and in cooperation with the Civic Improvement Project, Ixora Garden Club is sponsoring a benefit azalea sale Friday and Saturday from 9 a.m. to 5 p.m.

All varieties of the popular plant which grows readily in Central Florida will be on sale next to Cowan's in downtown Sanford and at Publix in Sanford Plaza.

According to Mrs. William Rape and Mrs. Jim McDaniel, chairman of the sale, net proceeds will benefit CIP, a two-year beautification program sponsored by Sanford Woman's Club, Sanford Junior Woman's Club and Junior Miss Club.

The Seminole County Federation of Women's Clubs will hold a meeting May 22 at the park on the Wekiva River owned by the clubs. The meeting will take the form of a picnic and work session.

Members will have the opportunity to help in cleanup operations and to discuss donations by members and the public to cover the cost of operating the park. Soon after the May meeting, the park is expected to open on a daily basis from 9 a.m. to 10 p.m.

Refrigeration and other facilities will be available to those persons visiting the park. The Federation of Women's Clubs Board of Trustees is looking for a retired couple interested in serving as caretakers of the park. Part of the retainer would be a free home trailer within the park.

Anyone wishing more information about the new facility should write care of P.O. Box 923 Longwood, Fla.

THREE GRAND FOR RETARDED CHILDREN
BETA SIGMA Phi's annual king contest, a highlight of the February Valentine Charity Ball, netted more than \$2,700 for Seminole County Association for Retarded Children. Sponsored by BSP City Council, all chapters of the sorority contributed to make a grand total of \$3,000 to benefit retarded children. Linda Sapp, BSP City Council treasurer, presents check to Willie Dixon, president of SCARC, while June Warner, City Council vice president looks on.

Mr. and Mrs. Charles M. Long of Rockledge, formerly of Sanford, announce the birth of their second daughter, Shannon Renee on March 13.

Grandparents are Mrs. Dorothy Berger of Norfolk, Va.; Robert Sullivan of California; and Mr. and Mrs. H. E. Long Sr. of Jacksonville.

IKEBANA SPRINGTIME SHOW ON EXHIBIT at DeBary Hall are arrangements made by Ikebana enthusiasts at the Ikebana Springtime Show. Four Japanese flower arranging schools entered arrangements in Ikenobu Ichiyo, Sogetsu and Chara. Mrs. Lucille Davis (1), advisor to DeLand Chapter No. 129, Ikebana International, shows her entry, "Springtime and Youth", depicting a little girl playing with a litten kitten as she gathers a basket of flowers, to Mrs. Earline Halbert, chapter president.

Auxiliary To Honor Doctors

Women's Auxiliary to Seminole County Medical Society will honor their husbands at a dinner Friday with the cocktail hour beginning at 7 p.m. at Mayfair Country Club.

A Hawaiian combo featuring Polynesian dancers will provide entertainment during the festivities.

The official national celebration began in 1934 as a tribute to Dr. Crawford Long who made history in the medical field when he discovered ether as an anesthetic in 1842.

The red carnation, a symbol of courage, was adopted as the official flower. In keeping with this tradition a carnation-decorated pencil and history of Doctor's Day will be placed on each patient's tray at Seminole Memorial Hospital. Red carnation floral arrangements will be featured in the emergency room and hospital lobby.

Bridal Parties Fete Miss Sammet

MISCELLANEOUS BRIDAL SHOWER (1 to r) Mrs. Sammet, Miss Sammet, Mrs. Mack, Mrs. White

By ELDAN NICHIOLS
Herald Correspondent
ALTIMONTE SPRINGS — A miscellaneous bridal shower was held for Miss Eileen M. Sammet, bride-elect of W. Clark Mack III, at the home of Mrs. E. J. Mack on March 16.

Pink and white carnations were used as the table centerpiece, accented with a pink and white cake and a white, pink and blue umbrella.

Wedding bells and umbrellas depicting the shower theme, decorated the living and dining area.

Refreshments of assorted sandwiches, celery stalks, cake and fruit punch were served. The hostess gift was a set of baking dishes and utensils.

Approximately 50 guests were invited.
KITCHEN SHOWER
A surprise kitchen shower for bride-elect Eileen M. Sammet was given by her Sorority Sisters, Gamma Lambda Chapter of Beta Sigma Phi, at the home of Mrs. Walt Yastrenski.

Coffee and cake were served. The chapter presented the honoree with a basket filled with kitchen utensils.

Attending were Dina Futrell, Ann Hansen, Fran Hoffen, Jane Carpenter, Evelyn Gray, Evelyn Byrd and Judy Webb.
BRIDESMAIDS LUNCHEON
Mrs. Jack King was hostess

March 9 at a bridal luncheon at Maitson & Jardin Restaurant honoring Eileen Sammet. The luncheon menu consisted of avocado mold, fresh green salad, ham souffle with green beans, almond ice-cream and cherry cheesecake.

A complete dinner set of china in the honoree's chosen pattern was the hostess gift.

Attending were Mrs. Charles B. Sammet, mother of the bride; Mrs. Percy White, grandmother of the bride; Mrs. Willie C. Mack Jr., mother of the future groom; Julia White, bridesmaid; and Barbara Tamm, maid-of-honor.

Women's Buying And Saving Power May Ease Mortgage Money Crunch

NEW YORK — (NEA) — Every woman wants her own home. There's nothing new or unusual about that.

But today's woman is doing more than merely wanting it. She's getting it," said Jackson W. Goss, president of Investors Mortgage Insurance Company of Boston. "And she is very often getting it all by herself by putting her money where her own is."

IMIC is a leading organization in the private mortgage insurance industry. The company works with lenders such as savings and loan associations, mutual savings banks and commercial banks, by insuring the top 20-25 per cent of high-ratio conventional mortgage loans.

"Women have discovered their neighborhood savings and loan associations as the best place to begin," Goss added. "If the estimated ten-million families who want to buy their own home each put a hundred dollars into an account there would be one billion dollars on available mortgage money now."

"Conceivably, women could single-handedly ease the mortgage money crunch," he said. "Could be he's right. Liberated, independent, pound-wise and not penny-foolish, the average woman no longer relies entirely on her husband to provide her with her home."

Bank Makes Projections In Planning For 1985

NEW YORK (AP) — Prosperity and problems, a questioning of basic economic assumptions and less involvement by the federal government are among the projections being used by a major bank in planning for the year 1985.

Bankers have a tendency to count years before they occur, but usually their most serious projections are confined to the very immediate future. But for its own internal use, the Continental Illinois National Bank went further.

It forecasts the Gross National Product, or the total of all goods and produced and services provided, as rising from about \$1.3 trillion in 1973 to nearly \$2 trillion in 1985 — and that's after discounting for inflation.

Yes, they expect inflation to continue, at a rate averaging close to 3 per cent between now and 1985. Otherwise that GNP figure would come out to something like \$2.86 trillion.

Measured in constant dollars, nearly 60 per cent of all families are expected to be earning \$10,000 or more in 1985 — the percentage was about half that in 1970 — and the median income is foreseen rising to \$12,000 from \$8,500.

But just as inflation and higher than usual interest rates are likely to persist, the bank's forecasters told its staff, so will it be more difficult in the future to achieve a jobless rate near or below 4 per cent.

The savings rate, which during the past three years topped 6 per cent briefly, is foreseen as averaging around 6 per cent, or only slightly lower than average of the decades of the 1960s and 1970s.

The cult of youth is expected to fade as the birth rate declines to two children per woman, but the percentage in the 25-44 age bracket is projected to rise significantly. And that means more housing — nearly double the 1966 rate. Women will be in the ascendancy in job markets, income, influence, power. Over the past 20 years female employment grew by about 70 per cent, while male employment rose 20 per cent. That trend is expected to continue.

Continuing another trend, the economy is expected to become even more service-than-product-oriented, meaning the majority of jobs will be in trade, transportation, finance, the professions and the like rather than in manufacturing.

Expectations of changes in society's attitudes and values toward business, the quality of life, work, income, living standards and the like conceivably could present some touchy problems.

TV Ratings May Drop This Fall

By DICK KLEINER

HOLLYWOOD—(NEA)—The lights are burning late in the offices of ABC, CBS and NBC. The network brass, their eyes haunted and their mouths dry with fear, are worried about what to put on the tube next fall.

The writers' strike still drags on. No new scripts can be written. None of the new, highly touted shows will be seen, at least not in September, because there are no scripts for them to shoot.

But something will have to be aired, otherwise the public will be forced to do something drastic. Like take to each other. And there's no profit for the networks in human conversation.

So the network executives are even now considering alternatives. With a little imagination and ingenuity, they can come up with some acceptable substitute programs. You might be interested in

come possibilities for fall viewing:

THE MARCEL MARCEAU HOUR, 60 minutes of pantomime. This is such a natural that all three networks are bidding for the services of the great mime, who could do the 72-74 season's answer to Mike Connors.

THE DENNIS MENACE FESTIVAL. Returns, you see, can be used, and there are certain to be many hours of your old favorites back again. Besides Dennis the Menace, you'll be able to renew acquaintances with some other delights from the past — OZZIE AND HARRIET, SUGAR-FOOT, RICHARD DIAMOND and all those grand old timers.

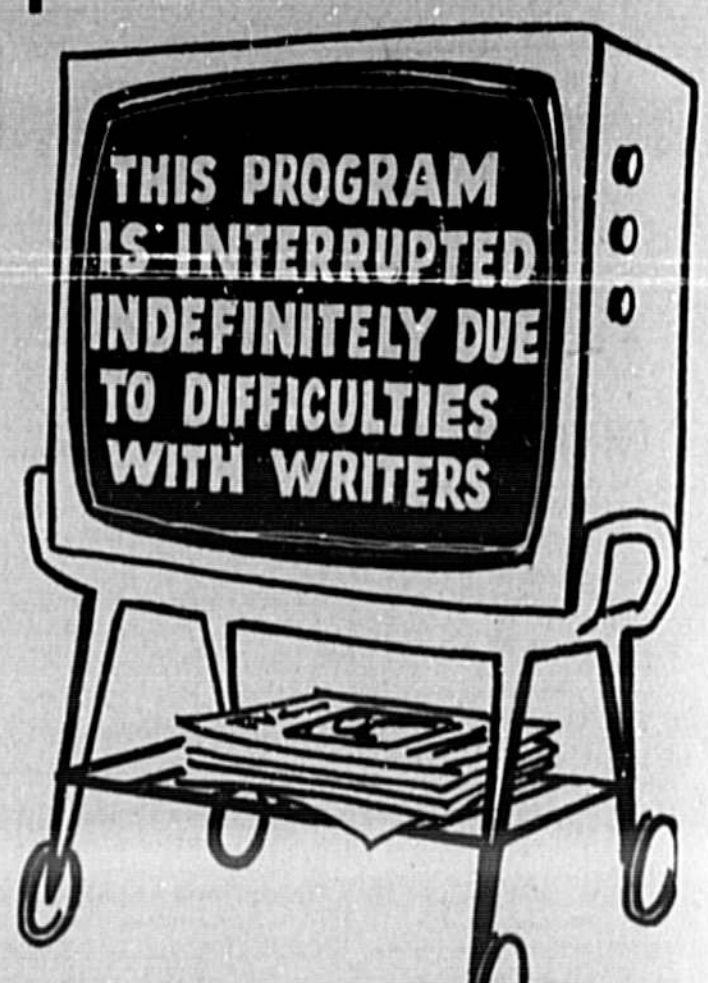

NASTURTIUMS I HAVE KNOWN is sure to make the top 10 next fall, assuming that the networks can find a botanist who can do lib. On libbing, you see, is O.K.—anything is O.K. as long as there's no script, or written anything.

DEAN MARTIN PRESENTS GLEN CAMPBELL

PRESENTING THE ROLLER DERBY is a sure winner. In fact you can make a bet now — Roller Derby gone wild will win an Emmy.

They were all set to sign a deal for AN HOUR WITH THE WORLD'S BEST WRESTLERS, but they had to cancel it — they found out wrestlers worked from scripts. Otherwise, though, sports will be big. The networks are even now considering televising other sports events, and we are certain to see the INTERNATIONAL QUOTE CHAMPIONSHIPS, THE NATIONAL AAU FIELD HOCKEY FINALS and THE WORLD'S BEST CURLERS.

Music shows will proliferate, as long as the MCA can do lib and don't need scripts. I understand ABC has plans for THE BOBBY BREEN HOUR, CBS is working up THE MRS. MILLER SHOW and NBC is all set for SIXTY MINUTES WITH JAMES MCCORD, WHO ALWAYS SINGS.

Service News

CLARK MOORE

Navy Airman Recruit Clark L. Moore, son of Mr. and Mrs. Marion B. Moore of Longwood, visited the Far East port of Hong Kong while serving aboard attack aircraft carrier U.S.S. Midway. He spent five days in the British crown colony on a rest and recreation visit. On the 64,000-ton Midway, as a forerunner of the Navy's family overseas residence program, will be operating out of Yokosuka, Japan, with the U.S. Seventh Fleet for two to three years.

JOSEPH WAGONER

PT. PIERCE—Sgt. Ralph Jacob, local Air Force Recruiter, has announced the enlistment of Joseph Roy Wagoner, 301 Dolphin Ct. Joe is married to the former Terry Johnson of Sanford.

Wagoner has taken advantage of two enlistment options, guaranteed job and the six-year enlistment. Joe will be attending school for Missile Systems Analyst Specialist at Sheppard AFB, Tex. upon his successful completion of basic training, six short weeks, at Lackland AFB, Tex. Wagoner will also be seeing his Airman 1st class strips on upon graduation of basic, in recognition of his six year enlistment.

He is a 1973 graduate of Ft. Pierce Central High School.

ERNEST E. BUTLER

PANAMA CITY — U.S. Air Force Technical Sergeant Ernest E. Butler, son of Mr. and Mrs. Ernest R. Butler of 104 Whitten Road, Sanford, has received the Meritorious Service Medal at Tynall AFB.

Butler, a communications equipment repair technician, was cited for his outstanding duty performance at Taipei Air Station, Taiwan.

He is now at Tynall with a unit of the Aerospace Defense Command.

PATRICIA CURRY

JACKSONVILLE, Fla.—Navy Trademan Second Class Patricia A. Curry of 601 Lilac Road, Caseberry, drills one weekend monthly with Naval Air Reserve Unit here.

THOMAS NYE

SAN ANTONIO — Airman First Class Thomas W. Nye, son of Mr. and Mrs. Donald J. Nye, 1804 Maple Ave., Sanford, has graduated at Lackland AFB, Tex., from the U.S. Air Force security policeman course conducted by the Air Training Command.

The airman, who was trained in security and law enforcement, is being assigned to Forbes AFB, Kan., for duty with a unit of the Strategic Air Command.

PVT. STEVEN BERG

TWENTYNINE PALMS, Calif.—Marine Pvt. Steven M. Berg, son of Mr. and Mrs. Gabe Berg of 375 Imperial Dr., Caseberry, has begun basic electronics training at the Marine Corps Base here.

When he completes this school he will be assigned to specialized training in communications-electronics.

2 City Zone Members Quit Over Wall

By BOB LLOYD
City Editor

Two of the nine members of the Sanford Zoning and Planning Commission have resigned protesting city commission action overruling a Z-P order that United State Bank of Seminole demolish 18 feet of a 10-foot-high, 190-foot long brick wall adjacent to a restaurant on U.S. 17-92.

David N. Berrien and attorney Phillip H. Logan submitted letters of resignation Thursday night to Z-P Chairman Art Harris for forwarding to city commissioners, who appoint the advisory board.

Harris, a member of the board for 19 years, said he has considered resigning too

because of the city commission action.

Obstruction

Albert C. Phelps, accompanied by attorney Robert Peirce, attended the Z-P meeting and told members a "wall has been 'plastered' with a wall that obstructs view of his restaurant and makes it unsafe for his customers to enter and exit his driveway."

"We ruled it is a safety hazard and were overruled by the city commission," Harris said, "and this board has no recourse."

Z-P Member Jeff Davis told Monday night's city commission meeting and is angry.

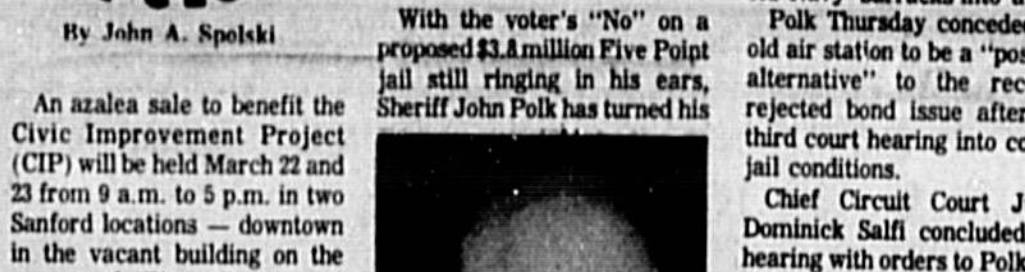

Phelps said his customers are complaining the wall makes it unsafe for them to use his 12-foot-wide driveway from U.S. 17-92. He said the wall is as high as his building and southbound motorists in the 45-mile-an-hour speed zone can't see the restaurant until they pass it.

The wall is on the north and west sides of Phelps' restaurant at the edge of a parking lot for the bank's new building on the west side of U.S. 17-92. The bank is now located across the four-lane divided highway at the Sanford Plaza Shopping Center.

"Leaving that wall as it stands is every bit as intelligent as constructing it in the first place," Logan said today. "I think there's no question it is a safety hazard," City Manager

Sheriff's Latest Consideration: Turn Navy Barracks Into Jail

By CHRIS NELSON
Herald Staff Writer

With the voter's "No" on a proposed \$1.5 million Five Point jail still ringing in his ears, Sheriff John Polk has turned his sights on a possible \$400,000 conversion of Sanford Airport's old Navy barracks into a jail.

Polk Thursday conceded the old air station is a "possible alternative" to the recently rejected bond issue after the third court hearing into county jail conditions.

Chief Circuit Court Judge Dominic Salfi concluded the hearing with orders to Polk and the county commission to report in one month "on alternatives to secure confinement of prisoners through December, 1975."

Salfi, with Circuit Court Judge Robert MacGregor and County Court Judge Wallace Hall, also ordered immediate hiring of a jail nurse and physician and said he doubted any bond issue could take effect before 1976.

Polk later said he has toured the former 300-man Navy barracks, built in 1963 for

FARM PRODUCED GROCERIES
...Jumped 3.1 per cent

State Oil Hunt Team Seeks Cheaper Fuel

MIAMI (AP) — Florida's largest electric company has teamed up with a major oil company in hopes of finding a steady fuel supply.

The Florida Power and Light Co. will share the costs and results — if any — of a \$10.5 million oil search in a 26-county area of Central Florida.

The search is an attempt to "develop a source of fuel for our customers in hopes of finding a steady fuel supply."

Congress shares the blame for inflation. It is fully aware that all these giveaway programs cost huge amounts of money.

Mother Nature Bans Fire Market Basket Jumps Rate Of \$1 A Week

WASHINGTON (AP) — The annual cost of a market basket of U.S. farm-produced groceries jumped 3.1 per cent or a rate of \$1 a week per household from January to February, according to government figures announced Thursday.

Market basket statistics are kept by the Agriculture Department, based upon Labor Department statistics expected to be available next week. The consumers are, however, most of 1974 food price increases. unofficially from consumer price index figures announced Thursday.

Province Has 6 Weeks To Live

HARRAR, Ethiopia (AP) — Ethiopia's Hararge Province, a mountainous, semidesert region as big as Italy, has six weeks to live, its officials say.

Without huge grain handouts and without rain, the remaining cattle herds will die. Tens of thousands of peasant farmers and nomad herders will starve. The eastern fifth of Ethiopia will turn into a dust bowl.

Though it is affecting seven of the country's 14 provinces, where nearly two-thirds of the 26 million Ethiopians live. Some qualified observers say 200,000 or more have starved to death, double the estimated toll last

Littlest Commissioner

SAN ANSELMO, Calif. (AP) — In her first meeting as a parks and recreation commissioner, Aha Mathieu voted against poison oak removal, won a fight for a bigger community building and didn't get a hat.

The last item wouldn't be news, except that opponents of her appointment had predicted Miss Mathieu would lose interest, become distracted and fidget during the commissioner's lengthy budget sessions.

"I'm not bored," she declared Wednesday night during a recess in the meeting. Under review was a proposed \$22,588 budget for the coming fiscal year.

And she managed to stay wide awake until the meeting adjourned at 11:15 p.m., well after her normal 8:30 p.m. bedtime.

Aha, a seventh grader, was appointed to the unpaid seat by the city council on a 3-2 vote March 12. She had written the council saying that "parks are for children and we need representation."
