STILL FIND WITCHES

Woman Freed for Sorcery Recently in Pennsylvania.

"Hex" Doctor Shoots Wax Image to Relieve Pains Caused by Powers of the Evil Eye—Salt in a Lawyer's Bed.

New York.—A woman tried for witchcraft! We hold up our hands and wonder at the bigotry of those narrow-minded Puritans in Salem, Mass. Such a situation seems so remote from anything that would be possible today! So we are in the habit of saying, but it is not an impossibility.

Only a short time ago a woman was tried for witchcraft in a court of law in south Pennsylvania. That was not the name used in the charge that was brought against her, but that was the accusation that was lodged in the minds of every one who was interested in the case, which was tried in a region so thoroughly saturated with traditional superstition that not even the present prosperity and general education can destroy them. Technically the woman was convicted of obtaining money under false pretenses, but actually she was convicted of being a witch—a "hex" doctor who "pow-wowed."

In the home of a prominent lawyer in Camden county there is a hole in the post of a mahogany bedstead filled with salt which witnesses to his belief in witchcraft. At one time he prosecuted a case against an old woman who, when convicted and fined, left the court muttering incantations and vowing vengeance.

That night the lawyer was suddenly attacked with violent pains in the head. The curse had come upon him and he feared the wretched old woman, whom he believed to be responsible for it. Only witchcraft can drive out witchcraft. No doctor of medicine would do in such a case.

A day laborer who was born with a caul over his face was brought in through the back door and taken to the bedroom of the suffering lawyer. The electric lights had been extinguished and a candle flickered at each side of the bed. Looking at the patient through the veil, which he avers is the identical one that he was born with, the "hex" doctor muttered his peculiar ritual, tied a rattlesnake around the sufferer's neck and bored the hole in the northeast leg of the bed, filling it with salt, over which he had chanted incantations. This done, he announced that the evil powers had notified the witch, who lived in a hut at some distance, that she could no longer hold dominion over the body of her enemy, the lawyer. The patient believed that his pains ceased from that hour.

A prosperous merchant in Carlisle permitted the body of his infant child to be covered with a coating of green paint in obedience to the orders of a

"hex" doctor who had been called in to ward off the evil spirits.

A stranger in Carlisle pretended that he had suffered from pain in the stomach which he believed to be due to the evil eye of an old woman of the town who was generally believed to have the ability to exercise this baleful power. A "hex" doctor visited him, and when he thought he had discovered a faith in their mysteries the stranger withdrew and later summoned him to his house, where he was informed that he had discovered that an old witch had made a wax image of the stranger and stuck pins in certain parts of it. Hence the pains.

Could he be cured? asked the patient. The "hex" doctor assured him that his powers were superior to those of the witch and he undertook to prove it. Getting a wax image, he placed it in front of the fireplace, shoved a brass bullet into an old musket-loading pistol and extinguished all the lights but that made by the fire.

The doctor knelt on the floor and the patient was told to hold his hands upon the seat of his pains. The bullet was then fired into the abdomen of the wax figure, while incantations were said, and the man was assured that he was cured. With all truthfulness he could say that he had no more pain and for himself had proved the existence of witchcraft in Pennsylvania in the twentieth century.

Matterhorn of Men.

In the corridor of one of our American high schools two great pictures hang as companions; that crazy peak among mountains—the Matterhorn; that crazy peak among men—Abraham Lincoln.—From Ariadne Gilbert's "More Than Conquerors," in St. Nicholas.

Mercenary.

"What did your audience do when you told them you had never paid a dollar for a vote and never intended to?" Inquired the friend of the candidate running for re-election. "Well, a few applauded, but most of them seemed to lose interest."

He Knew Better.

Newitt—"They say that the person with a strong imagination has absolutely no head for figures." Marryat—"Don't you believe it. When my wife gets her imagination at work upon her age she can make arithmetic look silly."

Modern Student.

"How about your geometry? I want you to do something in that." "Well, it's this way, father. Unless I make a certain percentage in football, they won't let me take the geometry at all."

Place for the Thermometer.

If you have only one thermometer, sacrifice your curiosity as to the outside temperature and hang it in your living room, that you may preserve your health by keeping the room "just warm enough."

Character Told by the Nose.

It is an ancient belief that the nose indicates ancestry. We speak about the aristocratic nose with its high bridge and the plebeian nose of the toiler. Certainly, in a great many cases, race can be distinguished by the nose. The Hebrew could hardly be confused with the typical negro nose. The highly-arched nose is supposed to indicate tendency to rule, and the flattened nose shows servility.

All in the Vision.

Some people think that everything in the world is twisted and corrupt, and that no human being can be trusted. Others who are wiser feel very differently about it. As Ruskin says: "In all things throughout the world, the men who look for the crooked will see the crooked, and the men who look for the straight will see the straight."

French Remedy For Stomach Trouble

The leading doctors of France have for years used a prescription of vegetable oils for chronic stomach trouble and constipation that acts like a charm. One dose will convince you. Severe cases of years standing are often greatly benefited within 24 hours. So many people are getting surprising results that we feel all persons suffering from constipation, lower bowel and stomach troubles should try Mayr's Wonderful Stomach Remedy. It is now sold here by L. R. Phillips & Co. (Advt.)

ANTI-TRUST LAWS WILL OCCUPY STAGE IN THE SENATE

THEY WILL LIKELY BE TAKEN UP IN THE SENATE TODAY

PARTY CONFERENCE BY THE DEMOCRATS

OTHER INTERESTING NEWS OF THE WORLD AT LARGE IN JABLOID FORM

Washington, June 23.—The senate will begin work on anti-trust legislation today unless plans of the leaders fail. Senator Newlands will bring the first measure on the program to the floor by calling up the federal trade commission bill...

Emerson E. Dietrich, manager of a theatrical production presenting a troupe of trained lions was killed and partly devoured in Chicago by six lions when he entered the car in which they were caged.

Suffragette baiting has become the regular Sunday amusement of London crowds. Police were kept busy today in Hyde Park protecting the women and escorting them to places of safety.

Dr. Armstrong Here

Dr. and Mrs. E. F. Armstrong on their beautiful yacht, Riverview Maid, are in the city this week the yacht being anchored at the city dock.

Lawn Social Was Great

The lawn social given by the Brotherhood of the Presbyterian church last Friday night was a great success socially if not financially and those who attended are looking forward to more of these social gatherings during the summer.

All during the evening delightful music was rendered by the Brock Church Orchestra on the porch and the spacious residence was also open to the public, the cool rooms offering the ladies a chance for social conversation and getting together.

A huge score board leaning against the house attracted the attention of the people present and upon getting nearer it they discovered \$500 and \$250 and \$100 sections, which interpreted meant that any one who felt disposed could put their name down for that amount and during the evening about \$8000 was pledged for the starting of the new building that will soon grace the lot at the corner of Oak avenue and Third street.

The social while not a successful financial venture was a great contribution of the church people of Sanford, as all of them combined in making it a delightful social gathering and the members of the Brotherhood class feel that they have been amply repaid by the generous response of those present and from their humble efforts a great start toward the new church has been made.

Windham—Moore

It seems that our old friend, Jimmy Windham of Orlando has been married and his bride is Miss Florence Moore, sister of Mrs. Hopson of this city and well known here. The following from the Saturday edition of the Reporter-Star follows:

Mr. James E. Windham left yesterday afternoon for Daytona, where, it is announced by his friends, on Sunday he will lead to the matrimonial altar Miss Florence Moore. Mr. Windham is one of the popular managers of the Yowell-Duckworth store, being at the head of the shoe department. The bride to be is quite well known here, and has been one of the efficient teachers in the public schools of Orange county, having been at Oakland during the last term.

The University Catalogue The University of Florida catalogue for 1914-15 is a neat book of 200 pages now ready for distribution. It contains valuable information about the history of the University, its government and regulations, the names of its officers and teachers, and of the state governing boards. It talks about the beautiful campus, the splendid buildings and the excellent equipment; gives detailed information about the various departments of instruction, courses of study, and states the terms and methods of admission to the university; it shows the low cost of attendance and the opportunities for self help at the university, and a calendar showing the date of opening next fall and of other important events of the university year.

FLORIDA COOLEST STATE SANFORD COOLEST CITY BY OFFICIAL FIGURES

A GREAT SURPRISE TO OUR NORTHERN FRIENDS—THE FORMER WINTER RESORT NOW A SUMMER RESORT

ACCORDING TO THE OFFICIAL REGISTER THE STATE OF "SUNSHINE, FRUITS AND FLOWERS" IS THE COOLEST IN THE UNION

Florida is the coolest state in the union in the summer and Sanford is the coolest city in the state. This is proven by the Times Union of Jacksonville in an article in the Sunday edition in which the temperature was taken officially and the following figures given to the public.

Jacksonville's temperature register yesterday was 85; and only two places in the state touched the 90 mark, while all the rest of the country the high nineties and 100 were the rule.

Very little rain was reported from Florida stations, or from any of the rest of the country, and the forecast seemed to indicate clearing or clear weather, where unsettled conditions and local showers had been common during the past week.

Generally fair Sunday with gentle, shifting winds, mostly south over the northern portion of the state, was what was said of today, by the local weather man.

The following are the maximum temperatures reported by Florida stations yesterday:

Table with 2 columns: Station Name and Temperature. Includes Apalachicola (90), Gainesville (84), Jacksonville (85), Key West (88), Miami (88), Madison (86), Marianna (90), Sanford (82), Tampa (86), Titusville (88), Tallahassee (88).

MASONIC PICNIC

The Masons and Their Families Will Picnic at Woodland Park

The Masons and their families expect to have one big time at Woodland Park next Thursday and the following invitation has been extended to the Masons:

You and every other Mason in hearing of this notice are invited to attend this annual picnic. You and your family and any who are masonically connected. The fare is the round trip, leaving at foot of Park avenue 8, 8:30, 9 A. M. and 12 M., and after, if necessary to accommodate those desiring to go. Your baskets will be taken out in a team. Tag it, bring it to T. J. Miller & Son store. Don't be worried with the basket.

In the event that any of the members have been overlooked the Masons wish it to be understood that any and all Masons and their families are cordially welcome to attend the picnic. Invitations were sent out by postal but some of them may have been delayed in transmission. Woodland Park is one of the prettiest picnic grounds in the state and the Masons' picnic is bound to be a success. Remember the date, next Thursday, June 25th.

Story—Bogard

Miss Anna D. Story was married to Mr. W. S. Bogard at 6 o'clock Sunday afternoon at the home of her sister, Mrs. A. D. Wells, who lives in the southeast section of the city. Rev. E. T. Poulson of the Baptist church officiating. It was a simple but impressive home wedding. The contracting parties live at Chuluota and both are highly esteemed young people, who have a host of friends to wish them joy and success.—Reporter-Star.

Postmaster Too Old

Representative Sparkman, bids to his great regret, that Postmaster General Burleson will not consent to the appointment of his friend, Captain James McKay, as postmaster of Tampa.

Captain McKay is very popular, but he is seventy-four years old, and the Postmaster General feels him out on that account.

sections of the country, the area of precipitation during the last twenty-four hours being confined mostly to the northeast with a narrow belt of precipitation from South Dakota westward to the Pacific slope. Fair weather prevails over practically the entire southern section, and particularly over the cotton belt.

Temperatures are higher over central and southern sections of the country, but cooler weather prevails over the northeast and Great Lakes region, which is under the influence of an area of high barometer. Over Florida the temperature at 7 a. m. was 80 degrees, and practically the same temperature prevailed on the immediate Gulf coast westward to Texas.

The winds are light and variable on the lower coasts. Conditions favor generally fair weather over this section tonight and Sunday; light variable winds, mostly southerly.

Trip to Enterprise

On account of the Camp Fire Gilda at Enterprise the ferry boat will have special cheap rates of 25 cents the round trip beginning next Thursday morning. The boat Alma May will leave Sanford dock at 9 and 11:30 in the morning and 4:30 in the afternoon.

Special trip from Sanford Thursday night for the Aspinwall entertainment. Boat will leave Sanford dock at 7:30. Round trip 25 cents.

SANFORD'S CANNING FACTORY

Will Put Up Fruits, Vegetables, Kraut, Turtle and Clam Soups

The Herald has set forth the advantages of a canning factory in the Sanford section for many years and at last one man at least has seen the advisability of having a canning factory here where so many fruits and vegetables, fish and clams can be had and where so much is wasted every year that could be canned and sold afterward.

A. Buch, the manager of the Seminole Fish Co., has a place in the Lesser building and for some time has been in the fish and produce business, but being an expert cannor he has been keeping his eyes open to the possibilities of this business in Sanford and will soon have a most complete outfit for the canning of all kinds of fruits and vegetables as well as sour kraut, turtle soups and coquina clam soup that is the delight of the epicure and makes the weak strong.

There are so many tomatoes that go to rot each year in the fields here that Mr. Buch ought to get all he wants merely for the picking and they can be put up at a nominal cost and sold back to the trade at a reasonable price. Turtles are plentiful, both the soft shell and the green sea turtles and the coquina clams are most plentiful on the coast.

Mr. Buch, who is a German and knows about sour kraut has an idea that a can of good sour kraut with a few walnuts in them will tempt the appetite of any one and he has a special ran of this kind that will prove most popular with the trade.

YOUNG LARRY DOYLE

And Grandfather McComb is Praised With Joy

Word comes from New York that Mr. and Mrs. Larry Doyle are the proud parents of a fine new boy and the mother is doing well. Grandfather McComb writes The Herald that he is feeling very tired but very happy and there is rejoicing in the home of the gallant captain of the New York Giants. Mrs. Doyle was Miss Gertrude McComb of this city and her many friends here and throughout Florida will be glad to hear of the arrival of little Larry Doyle.

FLORIDA LEADS AGAIN

Fuller's Earth Comes in Great Quantity From Florida

Washington, June 23.—Another distinction has come to the state of Florida. In a bulletin on "The Production of Fuller's Earth in 1913" the United States Geological Survey says:

"Florida is the leading fuller's earth producing state, having reported for 1913 over two-thirds of the marketed output of the entire country."

Florida is first in the production of pineapples, first in the production of long staple cotton, first in the production of naval stores, first in the production of cigars manufactured from Cuban tobacco, and now it is officially accorded first rank in the production of fuller's earth.

The bulletin deals interestingly with the subject, saying in part:

"The original use of fuller's earth, from which it obtains its name, was in fulling of cloth. But little is now used in the country for that purpose, the principal use being in the bleaching, clarifying or filtering of fats, greases and oils. It is also used in the manufacture of pigments for printing wall papers, for the detection of certain coloring matters in some food products, and as a substitute for talcum powder. The common practice with mineral oils is to dry the earth carefully, after which it is ground to suitable sizes and run into long cylinders, through which the crude, black mineral oils are allowed to percolate slowly. As a result, the oil that first comes out is perfectly water white, and much thinner than that which follows. The oil allowed to continue percolating through the earth until the lating through the earth until he color reaches a certain maximum shade.

With the vegetable oils the process is radically different. The oil is heated in large tanks beyond the boiling point of water; from 8 to 10 per cent of its weight of fuller's earth is then added; and the mixture is vigorously stirred and then filtered off through bag filters. The coloring matter remains with the earth, the filtered oil being of a pale straw color, providing the operation has been conducted with sufficient care.

Fuller's earth was first discovered in the United States in 1891 near Alexander, Ark., by John Lisen, who is still a producer. This earth was used for a time by the Southern Cotton Oil Company, at Little Rock, but its use was finally abandoned. In 1893 fuller's earth was discovered near Quincy, Fla., by accident. An effort was made to burn brick on the property of the Owl Cigar Company; the effort failed, but an employee of the company called attention to the close resemblance of the clay used to the German fuller's earth. In consequence of this discovery there was considerable excitement and supposed deposits of fuller's earth were reported from a number of states. The material in the most of these deposits was found to be of no value as fuller's earth.

From the inception of the industry Florida has been the leading product state. At first the production was only two or three states. In 1897-1899 it was reported from Florida, Colorado and New York, with a very small proportion from Utah; in 1901 Arkansas was added to the list. From 1904 to 1907 Arkansas was the second largest producer. Fuller's earth was found in Georgia soon after its discovery in Florida, but Georgia did not appear as a producer until 1907. When it was the third largest producing state it has ranked second since 1909. In 1904 Alabama and Massachusetts, and in 1907 South Carolina and Texas are reported production; in 1909 California entered the list."

Ball Game Thursday There will be some ball playing next Thursday at Holden Park when the Braves from Winter Park will come up to take the scalps of the Celery Growers and the ball fans should be out in force to see the game and encourage the home team. Much of the success of the season depends upon the attendance and so far this season there has not been the crowd at the games that the boys would like to see. Let every one come out on Thursday and help the boys not only financially but with your presence. They are endeavoring to give Sanford some good amateur ball and they should receive better support.

THE PEACE MAKERS TAKE NEW TACK IN MEXICAN TANGLE

WILL MAKE AN EFFORT TO PREVENT THE REGULAR DEADLOCK

CARRANZA'S AID WILL BE SOUGHT

NEW SUGGESTIONS TO EMBRACE SEPARATE PLANS FOR THE CONSTITUTIONALISTS

Niagara Falls, Ont., June 23.—The South American mediators today proposed a new course of action, which not only will prolong mediation proceedings, but eventually may work out a solution of the Mexican problem.

The nature of the plan, designed to prevent the deadlock between the American and Mexican delegates from abruptly ending the conference, has been more closely guarded than anything that has transpired at the conference.

It became known, however, that another effort was being made to bring the constitutionalists into close touch with the purposes of mediation without formally admitting them. The suggestion contemplates separate conferences between the American delegates and representatives of the constitutionalists. Justice Lamar and Frederick W. Latham would continue their dealings with the Huerta delegates through the mediation board. In this way all elements in the Mexican situation would be drawn together and there would be no necessity for the declaration of an armistice until some argument was reached and approved by the constitutionalists. The plan was said to be a result of the visit of Minister Naon of Argentina, to Washington, where President Wilson is said to have emphasized the written statement of Justice Lamar that any agreement not approved by the constitutionalists would be "a paper agreement," and would not accomplish the sole purpose of the United States, which is the pacification of Mexico.

Juniors Have Outing

The Junior Christian Endeavor of the Presbyterian church here were delightfully entertained Thursday afternoon at the home of Howard Swartz on Silver Lake, some three miles south of Sanford. The greater portion of the party went out in a large wagon filled with straw; others went in automobiles, while still more enthusiasts went in private conveyances. Each of the party carried a well filled lunch basket and upon arrival proceeded to take full charge of Mr. Swartz's home. Silver Lake has a splendid sandy bottom, thus making it an ideal bathing place, there being private docks along its shores. The party hurriedly donned their aquatic clothing and proceeded to disport themselves in placid waters of the lake. Mrs. Richard C. Maxwell was given the prize for high diving. Mrs. C. P. Paxton took the award for the greatest long distance swimmer. Mrs. Graham was given a prize for being able to remain under the water longer than any one. Esiah Furdon, Lillian Herring and Lillian Gibson swam a draw swim for a box of chocolates and will have to do the whole stunt over. Francis Dutton and Junior Dutton, a couple of tots who reside near the lake were given the prize for being the best all around swimmers in either deep or shallow water.

After the swimming contest had been completed the party repaired to headquarters where the feast had been spread, coffee made and lemonade built, and the damage done to the cats proved to be total in its demoralizing effects.

The party was chaperoned by Mrs. Maxwell, Mrs. T. K. Bates, Mrs. Paxton and Mrs. Graham. The young ladies were Misses May Doyle, Lillian C. Gibson, Alice D. Whitner, Mabel C. Bowler of Jacksonville, Mel H. Whitner, Lettie Caldwell, Lucy C. Whitner, Lillian B. Herring, Esiah Furdon, Annie Whitner, Esther Woodburn, Murial Harrold, Geyne Roberts, Frances Aspinwall, Virginia Smith, Frances Leavitt and Frances Dutton. The young men were Edwin Chittenden, W. J. Thielen, Edward M. Gills, Robert Dean, E. D. Rowley, M. G. Davis, Howard Swartz and Junior Dutton.

### BE SAFE AND SANE

ORDINARY PRECAUTIONS SHOULD BE USED BY THE PARENTS OF CHILDREN

BY THE STATE BOARD OF HEALTH

The Lord helps those who help themselves.

But it is not to be expected that those who deliberately transgress the laws of Nature, either through ignorance or willfully, are likely to escape the consequences.

Mothers allow their young children to play in the crowded street and blame the automobile driver for the sad result that calls for a little white casket. Men and women trifle with or neglect their sanitary surroundings and their friends lament the untimely and premature ending of a useful career. The fault is not with our stars but with ourselves that we are sickly underlings and that we do not live out the years that we think we are entitled to.

It has taken many years of sad experience to teach us the dangers attending the promiscuous use of firearms and fireworks on or about the Fourth of July, and even yet only a few of us have a sufficiently vivid realization of these dangers to consistently avoid them. The nation wide call for a safe and sane celebration of that day has lessened the old time harvest of death, but it hasn't stopped it—not yet.

The two principal classes of sufferers from these patriotic excesses are the small boy, ranging in years from ten to twelve up to forty and fifty, and the innocent bystander. The first of these is the aggressor and the one that has made the Fourth dangerous. The second cannot help himself. For the first it is hardly fair to call these happenings accidental, for every boy knows the risk and dares it because he honestly believes he is smart enough to escape damage. It would almost appear that the real accident occurs when nothing happens and no one is hurt.

It is likely that so long as fireworks are manufactured and so long

as the small boy can finance the situation, he will continue to blow off a few fingers, fill his skin with powder and maim the innocent bystander for many Fourth's to come. And so the situation seems inevitable, it is well to be prepared in advance to render first aid to the injured, or at least to know in advance what to do when such accidents come.

The burns and deeper wounds caused by exploding fireworks are likely to produce tetanus, resulting, in its final development, in lockjaw. The horrors of death from this cause are similar to rabies, wherein the patient is conscious to the end, suffering excruciating agony.

Tetanus usually develops in from six to eight days after injury. Following this the disease speeds rapidly to the conclusion, and the time for treatment is before tetanus has the chance to develop. The danger is in the delay in getting treatment, preventive treatment.

The only reasonably certain preventative known is the anti-tetanic serum, use of which has so largely retarded development of tetanus that its failure is the exception. Its administration requires the services of the physician, but every doctor in these days is prepared to give this treatment.

The danger from such burns is too serious to be trifled with. While the injury may not at first appear dangerous, the chances for infection are too many to risk. No sensible man who is not prepared to die will gamble with his life with the chances ten to one against him, when available medical treatment will increase those chances to at least a hundred to one for recovery.

Therefore, if your patriotism leads you to disastrous and unexpected happenings, go to the doctor and go quick.

#### Laundries Butcher Shirts

Goode M. Guerry, a member of the Tampa Tribune staff, paid the laundries of Tampa his respects in the following telling fashion in today's paper:

Some facetious caterer to the lobster palace habitues of our modern Babylon has written a poly chromatic satire on clothes. He entitled it 'Clothes,' certain to enmesh the interest of fashionable women and men who find it a difficult matter to find a new way to squander money without seeming penurious. The play was more or less a success with those it was intended to interest.

"Since we know that fine toggery and fashions have been discussed from every angle, from which most of the women may be seen, literally and figuratively, we will attempt nothing further than a few observations regarding the care of clothes. Incidentally our purpose is to rebuke, but mildly, the person or persons who operate the forty-horse power grinding machines in our modern laundries. We have heard much protest of recent years, resulting undoubtedly, from the careless operations of these grinders."

"Our personal observation has been that a shirt or other garment is very often ground up without regard to uniformity. We cannot furnish a demonstrat on with the shirt we are now wearing, but the other one is open to inspection, almost all the way round. The one we are now engaged in wearing has not yet been put through the mill, and we offer these kindly suggestions to the laundry mill man in order that we may not be forced to the expediency of purchasing another shirt before fall.

"One of our recent complaints to the urbane and gentlemanly attendant who answers the telephone at the mill assuaged much of the resentment we felt when the other shirt came home ripped from the most remote point on the compass to the other. We advised the telephone attendant at the mill that they had ground up both of our shirts. We could decipher no trace of resentment in his tones as he advised that at this season in Florida man needed but few clothes, and didn't need those very bad."

#### Economic Epigram

A sentimental declaration, even if it runs counter to sound economics and the best interests of society, will have more adherents than a profound truth in political economy, the adoption of which demands an immediate sacrifice.

#### Gets Well Paid for It

If a millionaire manufacturer works harder than his employes, it is only in accord with the eternal fitness of things. He gets more pay.

#### Revenged With Dynamite

Nichols, Fla., June 23.—John Black, the colored man who shot his wife and Israle Goodwin when he found them together at his home between this place and Mulberry Friday night, taking to the woods and evading arrest after the shooting, returned to the house about 2 o'clock Sunday morning and completed his work of vengeance by blowing the pair, and the house as well, into the air with dynamite.

Black is believed to have stolen his dynamite from the phosphate company late Saturday night, then to have slipped over to his old home where the wounded negro and the woman were staying.

They could have had no warning of his intention and doubtless never knew what hit them.

The man and the woman and the house were blown to small bits by the force of the explosion and the man must have used a quantity of dynamite to wreck the cabin in the way he did. The shot was distinctly heard by many people in this city Sunday morning but as it was not known what caused it no pursuit was organized until daylight Sunday.

Though officers have been searching for the man he is still at large. He is believed to be armed and he has threatened to take the lives of other colored people whom he holds in some way responsible for his troubles.

#### The State Canvass

Tallahassee, Fla., June 23.—(Special).—The state canvassing board met and canvassed the returns from the recent Democratic primary. The result follows:

For United States Senator: Fletcher 32,042, Stockton 21,733.

Congressman, First District: Acosta 4,717, DeBerry 889, Sparkman 8,322.

Congressman, Second District: Denton 3,677, Clark 9,215.

Congressman, Third District: Stokes 2,848, Wilson 10,394.

Congressman, Fourth District: Acosta 2,513, L'Engle 3,804, Malone 2,714, Segr 2,476, Williamson 1,425.

Commissioner of Agriculture: Appleyard 16,133, McRae 31,831.

Justice Supreme Court (two to be nominated): Avery 21,648, Ellis 24,163, Shackelford 23,334.

In the Senatorial race Mr. Fletcher beat Mr. Stockton 10,309 votes. In the First Congressional District Mr. Sparkman had a majority over both opponents of 2,716, and a plurality over Angle, his nearest competitor of 3,605.

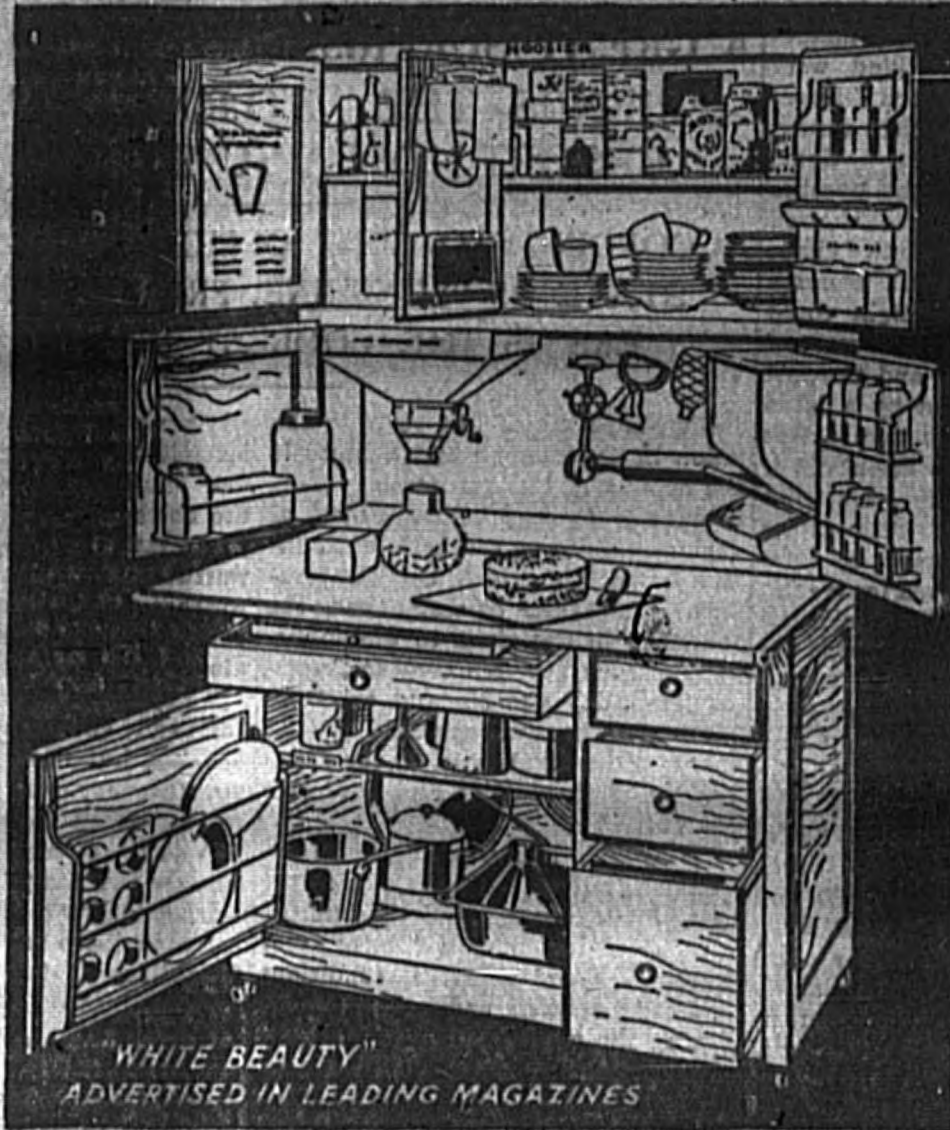

#### Business

Business is the king pin of all professions—the master profession, because business is the one fabric woven out of all entangled activities of a community which go to make up society, and society is life.

## This is the 1st Authorized Mid-Summer Hoosier Cabinet Sale on the Hoosier \$1 Plan

This mid-summer sale is authorized for the first time, because so many Hoosier agents were unable to get Hoosiers for their spring sales, and many more could not get their full allotment. But even now, only a limited number of Hoosier Cabinets can be turned out of our new factory building in time for mid-summer delivery—an average to each sale of less than twenty. So, only you who enroll early can count on delivery during the hot months, when you need your Hoosier most.

THE HOOSIER MFG. CO., New Castle, Ind.

### Tomorrow, Only \$1 Puts This NEW HOOSIER in Your Home—Don't Wait!

The mid-summer sale terms are:

1. You may choose any of the new Hoosiers—"White Beauty," or "Oak Interior" at slightly less price.
2. \$1 puts your Hoosier in your home at once.
3. \$1 weekly quickly pays for it.
4. The low cash price fixed by the factory prevails strictly.
5. No interest—no extra fees.
6. This sale is under direct supervision of the Hoosier Company.
7. Sale is strictly limited to our small summer allotment of new Hoosiers.
8. Your money back if you are not delighted with your Hoosier.

This is your opportunity—if you act quickly—to own this wonderful Hoosier on the most liberal terms ever offered. You may search the whole world and find nothing that will save you so much labor in your kitchen as this new Hoosier.

White Beauty is a wonder of convenience. It combines three roomy cupboards, a large work table and package pantry in one spot so you can sit down at work and save miles of steps.

You have places before you for 400 articles, all at your fingers' ends. You save most of the weary hours other women spend in their kitchens.

This new Hoosier on these terms is the greatest kitchen cabinet bargain you have ever seen. The few we have will be sold in no time at all. Only those women who grasp this opportunity tomorrow can be sure of getting one of these cabinets on the liberal Hoosier plan.

# W. W. ABERNATHY

Corner Fourth Street and Palmetto Avenue

### The Only Place in Town Where Hoosiers Are Sold

Read about these conveniences that made the HOOSIER necessary to over 700,000 women:

(1) Mrs. Christine Frederick's famous "Housekeepers' Food Guide"—on the upper left door—answers the eternal problem: "What shall we have for dinner?"

(2) The Cook-book Holder on the middle upper door holds your cook book securely when not in use. When you are cooking, simply open up the book to the proper page behind the holder. It is on a level with your eye, always clean, never in the way.

There are 40 special conveniences in the NEW HOOSIER—17 are entirely NEW.

(3) The Hoosier Metal Flour Bin holds fifty pounds. It is low and easy to fill. The sliding glass front enables you to clean the entire bin easily. The inside is entirely of metal, with no corners to hold flour. First flour in is always out first.

(4) The New Shaker Flour Sifter is the most wonderful of all the new Hoosier inventions. It is the only flour sifter ever made on a kitchen cabinet that shakes flour through instead of grinding it through. It cannot wear out and cannot grind through any grit or foreign substance that might be in the flour.

OUR WINDOW DISPLAY is the talk of the town—come and see it.

(5) A new feature in the Base Cupboard is a narrow shelf conveniently located for the storage of canned articles. Most women will find this a great convenience as an "emergency shelf." It will save many trips to the cellar or pantry.

TOMORROW YOU may examine all the new features. You incur no obligation. But you should come early. You may be too late to get one on the HOOSIER PLAN if you delay. Come and SEE this remarkable NEW Hoosier tomorrow.

#### LATER OPENING IS FAVORED

Major League Owners Awaken to Folly of Starting Seasons Too Early—Toner in Line.

It took a long time to do it, but National League magnates apparently have awakened at last to the folly of starting the major league seasons too early. Next year, if popular sentiment among the club presidents prevails, the major league fans are very likely to wait until near the first of May for their regular diet of pleasure.

The parsimony of some few National League club owners was responsible for all the early spring tortures during the past two or three years. Ban Johnson for the past five years has advocated a much later start than has been observed. Indeed, at the time Charles H. Ebbets and Charles W. Murphy fought so hard for a schedule of 168 games the big star of the American League was openly advocating a cut to 140 games in his circuit. He would have gone through with the plan, too, if his colleagues had not backed out at the very last moment. They thought such a contracted period of activity would give the rival major league too great an advantage.

The past few years have worked a marvelous change of heart. To begin with most of the grasping magnates have dropped or been dropped out of the National League. Their places have been taken by such genuine sportsmen as James E. Gaughy and William F. Baker. Ebbets never was a bad fellow—only at one time he

kept company with some strange colleagues.

Ban Johnson declared in Chicago the other day that the American League would not begin its season so early next year. He said it as if he meant to conform to this plan regardless of the National League. However, it is quite likely that he has talked the matter over with Governor Toner and that the National League president is of the same mind. In fact, Toner said in Brooklyn that he would welcome a later start. What he says bears a great deal of weight in National League affairs.

"Movies" and Monotony. Stranger (in Hickville)—"Life in this burg must be kind of monotonous, isn't it?" Hotelkeeper—"Used to be a little that way, but two weeks ago the manager of our theater started to change the pictures twice a week."

Fewer Study for Ministry. Statistics show that in the early days of American colleges about one-half the graduates adopted the ministry as a profession. At the present time only about five per cent of the college graduates become ministers.

On His Way. "Why doesn't that dachshund come when I call him? The idea of talking on me." "He's coming as fast as he can," said the man's wife. "He's got his front legs started!"—Washington Herald.

### Takes Off Freckles, Removes Tan, C. H. DINGEE

Beauty your complexion. Get rid of those freckles. You can invest 50c in a jar of WILSON'S FRECKLE CREAM and they'll disappear. Severe cases may require two jars—no more. We positively guarantee 100% and if your complexion isn't fully restored to its natural beauty, we agree to refund your money without argument. And in addition, WILSON'S FRECKLE CREAM is a hair, face, and body cream. Doesn't cause hair to grow, and does positively remove TAN and FRECKLES. Try it at our risk. Price 50c. WILSON'S FAIR SKIN SOAP 25c. Wilson Freckle Cream Co., Charleston, S. C., makers. For sale by SEMINOLE PHARMACY.

MRS. PEARL CASON DRESSMAKING OVER HERALD OFFICE FRESH Home Made SAURKRAUT Seminoles Fish Market Phone No. 1

THE SANFORD HERALD

Published Every Tuesday and Friday Morning by THE HERALD PRINTING COMPANY... R. J. HOLLY, Editor... W. M. HAYNES, Business Manager... Subscription Price, \$2.00 a Year in Advance...

Florida was the coolest state in the Union on Saturday and Sanford was the coolest city in Florida.

Editor Triplett will be sadly missed in Kissimmee after his many years' work on the Valley Gazette.

Hon. Jeff Browne of Key West publishes his family tree in the last issue of Dixie. Jeff must be getting ready to run for something.

Having heard nothing from Editor Joe Ferris of the Orlando Sentinel who has been ill with typhoid fever it is reasonable to suppose that he is getting better.

On account of the serious illness of Ferris of the Sentinel and Howard of the Citizen the meeting of the Lake Region Press Club will more than likely have to be postponed until a later date.

There is some talk of Hon. W. Y. Knott making the race for Governor next time. Up to date Mr. Knott has not said that he would run or that he would not.

The idea of a daily paper in Sanford seems to be taking very well and many have voluntarily come to the office and promised that they would support such an enterprise.

Editor Holly of the Sanford Herald promises Sanford a daily paper this fall if the citizens and business men will give him the proper encouragement, and if Sanford is wise it will assure the necessary support for a good daily.

Bob Holly was born with red hair. He didn't like the color, so would have none at all. But what if the color had been to Bob's liking and he had refused to part with any of it, lo, these long years? What a poet he would have made.

Editor Holly of the Sanford Herald says that if the Sanford band will once more play "Dixie" he will go to Pensacola and kill one of those Mexican seals. That band must be getting worse and worse.

The Zolfo Truth thinks Bob Holly of the Sanford Herald would have been a great poet if nature had provided him with only a few flowing locks on his dome of thought.

They may know what they are about, but we would advise the Sanford Herald and the DeLand News which are contemplating daily issues of their papers, to count well the cost and work, before doing so and then not do it.

Good advice to two ancient Floridians from one who has been in the state two years. Codrington and Holly at least think they know what they are doing and DeLand and Sanford ought to support a daily if Orlando can have two.

April D. Miller, assistant business manager and editor of the Eustis Lake Region was in the city Friday afternoon and paid the Herald office an appreciated visit. Mr. Miller is a Kentucky product transplanted to Florida and like all other Kentuckians in our state is a good one.

FOR SPEAKER

Theo. T. Turnbull of Jefferson county and J. O. Adkins of Alachua county will be candidates for the speakership of the next House of Representatives at Tallahassee. Adkins will probably not make it, though he is eminently qualified for the place and would without doubt make a splendid presiding officer.

WRONG KIND OF DOPE

A number of papers are printing a story which is doubtless a lie, that a boy was killed by an alligator while swimming in the Withlacoochee. The name of the boy is not given, indicating that it is manufactured. At any rate it is not a good advertisement for Florida waters.

ETERNAL VIGILANCE

The summer is upon us and this is the time to think about health regulations. Other cities in the north and south are having typhoid fever and as yet Sanford has not had one case to report. With our pure artesian water system and flowing wells it is impossible for the people of Sanford to get typhoid fever except through one source, the fly.

FLORIDA'S COOLING BREEZES

The wonder and joy of our northern visitors in the summer are the breezes that sweep over the peninsula of Florida by day and by night and regardless of the intensity of the sun's rays even at noontime get in the shade and have these refreshing breezes blow over you in the extreme satisfaction of living in Florida and makes this state a summer as well as a winter resort.

This breeze wafts over orange groves, which has just been covered with perfume laden blooms; it is cool with the breath of the sea that beats upon our outer, protecting keys; a gentle, caressing breath; sweet as a maiden's kiss; soft as a mother's tender sigh.

This is good news to the people of Florida. It may be many days before a plant is established for the use of these plants as described by Mr. Anderson. It will be a source of satisfaction to know that the pest can be turned to good use if the proper steps are taken.

SOLICITING BUSINESS

One of the recent progressive steps in the religious world has been what is called the Every Member campaign. It is based on the idea that there are a great many people who attend church who would be willing to give to the work of the church, if their contributions were solicited.

It is not often that the churches can teach a lesson in business efficiency to the business men. Yet here is a case in point. Many merchants are conducting their business with a lack of enterprise which is just as marked as the hap-hazard way in which church finances are often run.

The mere fact that he appears in the public prints with a story of his business spreads abroad the opinion that he is a pusher. The public values enterprise. It will pass by the old timer, and go down in some side street to hunt out the man who shows initiative.

Several times in the past the local harbor, and the whole of the St. Johns river for that matter, has been badly clogged with water hyacinth.

Value in the Hyacinth

United States Consul General George E. Anderson, Hong Kong, China, has made a report to the government which is very interesting upon this subject.

First English Concertina

The first English concertina was made in 1829, but there was a German concertina long before that time. Mozart (who seems to have written for every instrument in existence in his day, including barrel organs, mechanical clockwork, etc.) wrote an adagio in C major for the concertina in the year 1779.

Soldier's Most Tiring Position

The average soldier finds the most tiring position to be that of standing motionless in the front rank, exposed to the enemy's fire without being able to reply.

Of One Mind

Fuzzy Uncle (after leaving the curio shop, showing his nephew the way to buy curios) "There you are, you see. When you are dealing with people like that just bargain the point a bit, and how comes the price ten shillings?"

Sanford to the Gulf

IT FREQUENTLY HAPPENS That a person pays a bill in currency and forgets to ask for a receipt, and occasionally another bill is rendered and paid for the second time. This can be avoided in payment by check which supplies an undisputed receipt. Accounts subject to check [large or small] are cordially invited. PEOPLES BANK OF SANFORD WE WANT YOUR BUSINESS SANFORD, FLORIDA M. M. SMITH President H. R. STEVENS Vice-President H. E. TOLAR Cashier R. R. DEAS Asst. Cashier

the upper St. Johns, Ocklawaha river and Kissimmee river via Lake Okeechobee and the Caloosahatchie river to the Gulf of Mexico.

These resolutions, as made public by the committee, are as follows: Whereas, the St. Johns river is the greatest natural highway of Florida, and the continued improvement of this river is of vital importance to a large and constantly increasing population, and

Whereas, the improvement of the Ocklawaha river, a tributary of the St. Johns and a link in the trans-Florida canal, is soon to begin, which improvement will make the St. Johns river still more important, and

Whereas Hon. D. U. Fletcher, Florida's senior United States senator has introduced a resolution in the United States senate providing for a survey from the St. Johns river to the Kissimmee river, thence leaving to the Kissimmee river, thence leading via Lake Okeechobee and the Caloosahatchie river and Fort Myers to the Gulf of Mexico; therefore be it

Little Happenings—Mention Of Matters In Brief

PERSONAL ITEMS OF INTEREST

Summary Of The Floating Small Talks Specially Arranged For Hurdled Herald Readers

Dr. L. B. Bouchelle of Thomasville, Ga., is the guest of his daughter, Mrs. Henry Wight of Sanford. Miss Ruth McDaniell is enjoying a short visit to her aunt, Miss Eva Martin of Jacksonville. A. D. Zachary of Magnolia avenue are spending a few weeks at their mill at Markham. Tomato wraps and tomato crates at F. F. Dutton's, 78-tf. Broom holders just for the making at Lefler's, 87. Miss Lillian Herring, who has been attending school in Virginia is home again for the summer. B. Davis and family have gone to Tampa where they will reside in the future. Fresh yeast cakes and popcorn at Mrs. A. Simon's, 65-tf. That good old hotted ham at Lefler's, 87. Mrs. C. W. Goodrich of Orlando is the guest of Mrs. S. C. Chase this week. Many winsome lassies are in the city enroute to Enterprise for the Camp Fire Girls encampment at that place. E. T. Sperring of Ocala spent Sunday in the city the guest of his sister, Mrs. Fletcher of Sanford Heights. The quality and the price is right on hay and grains at Dutton's, 78-tf. B. G. Smith has returned from a trip to Jacksonville and expects to resume his run on the Oviedo Cannonball in a few days. Mr. and Mrs. H. A. Ferran of Euclid spent Sunday with Mr. Ferran's sister, Mrs. D. L. Thrasher. They left yesterday for their home in the Paradise of Lake county. Cotton seed meal, shorts, bran at F. F. Dutton's, 78-tf. Mrs. C. H. Evans and children of Bradenton are visiting relatives in Sanford. They are enroute to Georgia, where they will spend the summer. Mrs. J. W. Sperring and Miss Elsie Newman of Live Oak and Mrs. O. C. Davis of Lakeland are the guests of Mrs. J. C. Fletcher at her home on Sanford Heights. George Teratus has returned from Tampa where he took in the big Eagles picnic at Pass-a-Grille and thoroughly enjoyed himself as only a good Eagle knows how to do. Pepper, eggplant crates at F. F. Dutton's, 78-tf. George Armstrong of the Western Union spent a few hours at home with his mother Friday last enroute from Lakeland to Jacksonville, to which office he has been promoted. The ferry boat will make special rates and special trips to Enterprise this week on account of the Camp Fire Girls being at Enterprise for two weeks' outing. See the schedule in this issue. Thursdays and Sundays—Woodland Park. Picnic conveniences, amusements. The only safe, clean outdoor swimming pool, emptied daily, cleaned and re-filled from artesian well. Shower bath, toboggan slides. Leased privately also. 85-tf. J. P. Musselwhite, the effervescent, torrential king of the Genovis section was in the city on Monday. He was talking up a collection to buy woolen under-shirts for the people of the Malay archipelago. Miss Mary Muldowney and Miss Josephine Murdock, two popular young ladies of Tampa returned home Sunday afternoon. They were the recipients of many charming attentions and extremely popular with the younger set. Mrs. George Spence entertained pleasantly a few friends Thursday afternoon with the popular game of croquet. When scores were counted it was learned that Mrs. Deane Turner had made top score and she secured a handsome hand-drawn plate for her success. The evening served delicious peas salad, water and ice for her guests.

NOTICE

To Builders and Contractors The plans and specifications of the new Methodist Episcopal church, South may be seen at the Seminole State Bank. Sealed bids for the construction of same will be opened June 20th, 7:30 p. m. The committee reserves the right to reject any and all bids.

FOREST LAKE

Pres. of Building Com.

Mrs. B. T. Houser left yesterday for Lakeland where she will have charge of the music at one of the theaters in that city.

I. C. Hughes has returned to Sanford after spending the past two years at Fort Myers and other cities in South Florida.

Another car of fine ripe bananas is on the teack at the express office and they are going fast. Get them while they last. One of the finest cars of the season.

Get your ice cream from Dubart's Ice Cream Factory. 86-tf

Half bbls Pillsbury flour in wood \$3.15. L. P. McCuller. 85-4c

Mr. and Mrs. C. A. Reed left last week for an indefinite stay at Daytona Beach. They drove over stopping at DeLand several days to visit friends.

Hon. Forrest Lake has returned from a trip over several important sections of the state and is feeling jubilant over his prospects as speaker of the next house. They will be unable to beat Mr. Lake for this much coveted position.

Ralph Woodruff, son of Hon. Frank Woodruff had the misfortune to break his arm last Friday while swinging from a horizontal bar. The little fellow is able to be about as usual but it will be some time before he can do the gymnastic stunt again.

I have a first class painter and sign writer. We can do your harness repairing and auto top work now. 14-tf W. H. UNDERWOOD.

H. E. Tolar, the efficient cashier of the Peoples Bank is able to get down to the bank again and greet his many friends. After his recent illness he sojourned at Lake Mary for a few days and is feeling able to take care of the bank business with his accustomed vigor.

Chickens

Juicy fryers at Lefler's. 87-

Kent Rossetter is driving a fine new Overland car and says that there is nothing quite as good. Kent was the first Overland owner in Sanford and his first car lasted him for three years and is good yet.

W. C. Parker was over from Coronado Beach yesterday where he and his family are spending the summer. Billy reports that seaside resort as coming right along and many new improvements being made that will make the visitors more comfortable.

Hay, oats, corn, chicken feeds at F. F. Dutton's. 78-tf

J. D. Hood has returned to Sanford for a few days to look after his new home that is being built on Magnolia avenue. He has been following up the crops through Georgia and the Carolinas and expects to return in the early fall and occupy his new home.

Paul Biggers is getting his fine soda fountain and other fixtures and expects to be ready for business in a few days. The equipment is one of the best and Paul's new place will be a credit to the city.

S. J. Biggers is home for a few days from points in South Florida where he has been disposing of some fine bananas. He has a new car here and they are of the finest quality.

Miss Flora Walker of this place and Miss Pearl Hunter of Winter Park, both excellent teachers in the Grammar Schools left last week to take the teachers' course at the Florida State Normal at Gainesville.

Valencia oranges, every one guaranteed full of juice, at Turner's. Phone No. 75. 77-tf

C. C. Worthington was in the city yesterday calling on his many friends. He has been at Kissimmee for the month past, being engaged with Messrs. Collins and Bradley in getting up a special edition for the Kissimmee Journal.

Hon. G. W. Entsminger of Longwood was in the city yesterday and reports Palm Springs as the ideal summer resort. It is only three miles from Longwood and Mr. Entsminger is building a summer shack there for his family to camp for several weeks.

Notice Horse Owners I have a first class expert horse shoer Give him a trial. 14-tf

W. H. Underwood

In speaking of the Junior Civic League exercises at the band stand last week in mentioning the names of those who the youngsters dealt with for the flowers the name of Rev. P. P. Strong was inadvertently left out. We took pleasure in making this correction as it was solely a mistake of the printers.

Dr. Housholder and brother, Attorney E. F. Housholder expect to leave tomorrow for Bradenton to visit their parents, Rev. and Mrs. Housholder. They will make the trip through the country in their Ford car and Dr. Housholder's family will make the trip on the train. They expect to be absent for several weeks.

Ball game next Thursday between Winter Park and Sanford. Come out and cheer the boys to victory.

J. E. Ingraham, vice president of the F. E. C. Ry., and head of the immigration department of that road was in the city yesterday shaking hands with his Sanford friends. He was enroute to Chuluota where the East Coast Ry. is making a city of beautiful homes for the tourist and homeseeker. Mr. Ingraham expects to take up the question of stock farms and will locate many settlers in the Chuluota section and other parts of the new line toward Okeechobes.

Come out to the ball game next Thursday when the Winter Park braves will tackle the Celery Growers.

Complete assortment lamps, wash bowls, pitchers, crockery, etc., at Lefler's. 87-

Another long distance walker was here yesterday by the name of Edward De Baheur and he claims to be walking from New York to Jericho going by way of Hell's Bells and froze to death. He is selling newspapers to get along and he carried off a bunch of Sanford Herald's that he expects to sell at Enterprise and Orange City Junction. These pedantic disciples are becoming very numerous in Florida but usually they follow the snow birds north in the spring.

Good game of ball is promised next Thursday when the Winter Park professionals will play the Sanford amateurs.

Fresh bread, rolls, pies every morning before 6 o'clock, at Lefler's. 87-

Paul K. Weaver, the efficient cashier of the Citizens' Bank of Kissimmee was in the city a few hours on Saturday. He was enroute home from Lafayette, Indiana, where he has been spending his vacation and where he had the pleasure of attending the reunion of his old class at Purdue University. He also attended the automobile races at Indianapolis and thoroughly enjoyed his vacation visiting his many friends and relatives in Illinois.

Valencia oranges, large and luscious at Turner's, phone No. 75. 77-tf

At Holden Park next Thursday the Winter Park team will play the Sanford Home Guards for the championship of the Sandspur League.

Longest Day of Year

Sunday was the longest day in the year. Not that there were more than twenty-four hours in the day—but there were more hours of daylight out of the twenty-four, and less hours of light and darkness. The chickens went to roost later—no, Pauline, the statement has no reference to your hours—and the sun came peeping out earlier.

David Fisher, local observer was appealed to for data concerning the length of the day. He gladly came to the rescue, with his official compilations, which show that Sunday had 13.9 hours of daylight.

"But it will not show up as the longest day," compared with other days now," he said, "for it is by the smallest fraction of a minute and the figures we have don't go that fine. Our sunrise and sunset figures show ten days of the same length."

The sun yesterday rose at 4:28 o'clock at Tampa—provided it lived up to the schedule the weather bureau set for it—and set at 6:20 o'clock yesterday evening. A few days back it rose a few minutes earlier, but set correspondingly earlier—except for that incalculable fraction—and for the next four or five days there will be practically 13.9 hours of daylight, too.—Tampa Times.

Stuffed Pepper Magoes

Cut the tops from one peck of peppers, remove the seeds, save the tops. Stand the peppers upright in a tub, put one teaspoonful of salt in each, cover with cold water, soak over night. Chop three good sized heads of cabbage and one-half peck green tomatoes (chopped), add to it one teaspoonful of ground allspice, a half cup of mustard seeds two table spoonfuls of salt and if liked one teaspoonful of ground mace and one or two onions.

Mix thoroughly and stuff the mixture in the peppers. Put on the tops and tie with soft twine.

Stand upright in stone jar, cover with cold vinegar. Stand aside for one week, drain off the vinegar, cover with fresh cold vinegar. Add one cup of mustard seeds or two table spoonfuls of chopped horse radish to the last vinegar.

Drop a postcard and G. E. Snyder, Meers, R. No. 1, Sanford, Fla., who will deliver for 75 cents prepaid anywhere within one hundred and fifty miles of Sanford peppers, green tomatoes and cabbage to make the above receipt.

W. V. Dunn was in the city from Lake Mary on Saturday and reported that on the lake shore near his home the earth sank suddenly about six feet in a hole with a circumference of about ten feet square. It was at a spot on the shore where Mr. Dunn and many of his neighbors had been in the habit of driving with their teams to water their horses and naturally he feels very thankful that the earth sank at a time when no one was near the hole. These sink holes are common enough in certain parts of Florida but this is the first one reported in this section in a long time.

Must Use Pure Water

With a view to reducing the prevalence of typhoid fever and other communicable diseases often caused by the use of impure water, the acting secretary of the treasury has just signed an amendment to the interstate quarantine regulations that is of interest to the steamboat men of the Florida steamers and those employed on other inland streams.

The amended regulations follow: "No person undertaking to furnish water for drinking or cooking purposes to any vessel in any harbor of the United States intending to clear for some port within some other state or territory in the United States or the District of Columbia shall furnish water taken from the waters of such harbor, or from any other places where it has been or may have been contaminated by sewer discharges. Any person violating this regulation will be liable to a penalty of not more than \$500 or imprisonment for not more than one year or both, at the discretion of the United States District Court." The treasury department looks to the medical officers of the public health service and the state and local authorities of Florida and elsewhere to enforce the new regulations.

Three New Towns

In the Manufacturers' Record of Baltimore notice is given of the progress of the Florida East Coast Railway in developing three towns along their line.

At Chuluota 640 acres are being laid out in city lots, the main streets are being hard surfaced with boulevards around the inclosed lakes. The surrounding 10,000 acres are being surveyed and platted into 5 and 10 acre tracts. A brick hotel will also be put up, the contract having been let.

At Kenansville the same process is being gone through, 640 acres reserved for the town, with the out-joining lands sub-divided into five and ten acre tracts.

The largest town of the three is located on Lake Okeechobes and on the end of the branch line of that name of the railroad. Here 1,200 acres are being laid off for the town site with the adjoining land sub-divided into small parcels of five and ten acres.

This should prove a big boom for the East Coast in particular and the state in general.

Members Eastern Star

You are cordially invited to attend the Masonic picnic at Woodland Park next Thursday June 25th. Indoubtedly the name of the Eastern Star was left out of the original invitation but it is tacitly understood that the Eastern Star is always welcome whenever the Masons have an affair of any kind.

Gentleness at Home.

Use your gentlest voice at home. Watch it day by day as a pearl of great price, for it will be worth more to you in days to come than the best pearl hid in the sea. A kind voice is joy, like a lark's song, to a hearth at home. It is a light that sings as well as shines. Train it to sweet tones now, and it will keep in tune through life.—Ethel Burritt.

Bad News.

Small Peter, disguised as a district messenger, was delivering play telegrams to his sisters, who were approving dispatches of a more or less startling nature. When it came Lillian's turn, she read aloud from her bit of yellow paper, amid finely stimulated whiffs of snuff "Railroad wreck. I was instantly killed. Your loving husband."

IS COMING!

DR. J. C. DAVIS, who has been coming here for a number of years and fitted many of the best people in and around Sanford with glasses, is at The Robbins-Nest Hotel and will remain until SATURDAY, JUNE 27th.

Headache of years standing cured with glasses by Dr. Davis.

Come early. Don't wait until last day.

References: Mr. J. E. Pace, Dr. Robson, Mr. D. A. Caldwell.

The Story of Children's Hats

THE story of children's hats used to be a brief one until specialists turned their attention to this particular kind of millinery. Now it is long and fascinating and much more worth while than ever before.

Looking to the ideas designed for grown-ups for inspiration, and translating them into forms suited to little wearers, has given us the greatest variety of adorable bonnets and hats ever made ready for spring. By specializing, designers have broadened the field and are demonstrating that it was heretofore neglected. They have created discrimination and discernment by placing before mothers a really wonderful array of juvenile hats.

From the little lady of three years, who looks like an angel in everything put on her, to "the awkward age," when the girl is harder to suit than she ever was or ever will be again, the designers of this millinery have considered the needs of children. This gives the little ones a chance to exercise their tastes and preferences, and it is amusing and surprising to find that they have very decided opinions as to what they like or don't like.

For a little girl of six two models are shown in the picture. The bonnet might be worn by a younger child and the sailor hat by an older one. The bonnet is of pink chiffon taffeta faced with shirred chiffon and having the lace over the upper brim. The

crown is a small puff of taffeta. The shape suggests the always fashionable poke bonnet, but the brim is wider as the crown is smaller than the usual poke.

There is a sash of wide, soft mesaline ribbon about the crown, finished with a rosette and knotted ends at the left side. At the right there is a small bouquet of little field flowers.

The little sailor shape is made of hemp in all the bright colors and faced with a partial facing of black velvet. The crown is a plateau, plaited into the brim. It is trimmed with a collar of velvet ribbon with short hanging loops and ends at the back. At first glance it seems almost a replica of sailors made for grown-ups. But there are little differences. The colors used in it are brighter, there is a different balance between the brim and crown, and the management of the trimming is distinctly childish.

Besides the usual abundant use of ribbon many flowers are featured in children's millinery. Velvet ribbons on mesaline hats take the place of the mesalines used for little children. Braids are like those used in shapes for grown people, with the plaid patterns used often. Faces and children are in greater demand, with ribbons and then more ribbons. The plain, lightweight weaves in light tones and high luster hold first place as trimming for children's hats.

JULIA BOTTOMLEY.

Ford THE MOTOR CAR Think of the Company behind the car and you'll realize why Fords and Government bonds are bought with equal assurance. Strongest financially—world-wide in scope—largest in volume of output. We build our reputation into the car and guarantee service afterwards. Five hundred dollars is the price of the Ford car about the same as the five day; the new car even less. It is a Detroit complete with equipment. Get catalog and particulars from C. F. WILLIAMS, Agent or EDWARD HIGGINS, Salesman, or Sanford Machine and Garage Company

# CURBSTONE GLEANINGS

## BUDGET OF OPINION "JUST BETWEEN YOU AND ME."

### EVEN THE GATE POST NOT IN IT

#### A CHIEF IS AMONG YE TAKING NOTES AND FAITH. "HE'LL PRENT 'EM"—SO SAYS SAUNTERER.

"How's the family?"  
 How's the family? Heerd him say  
 Them cheerin' words jist thataway  
 A dozen times a day, an' more.  
 Jist like we hadn't met before;  
 Meant it, too, as much at last  
 As what he did when first he ast;  
 It seemed a part of every day  
 A-herin' Abel Martin say:  
 "How's the family?"

Ab's idee of family meant  
 About the hull durned regiment,  
 Settin' hens an' all, an' when  
 He'd ast about em, seemed that then  
 Somethin' touched me thataway  
 That I couldn't help but say  
 "They're all well an' bleeched to you  
 For astin' 'bout the amily, too—  
 "How's your family?"

"How's the family?" Lawsey me,  
 How hull'omelike that used to be  
 'Fore he got his second stroke,  
 An' got so bad that when he spoke  
 He couldn't make a word or sound,  
 Only switch his lips around,  
 Yit we knowed that first an' last  
 The good old soul was try'n to ast  
 "How's the family?"

"How's the family?" Now, I swan,  
 We miss it lots since he's been gone!  
 It seems there's jist a bit of cheer  
 We used to like that's missin' here,  
 Words we didn't preciate  
 An' never will until the Gate  
 Opens There some biased day  
 An' Ab's a-waiting there to say  
 "How's the family?"

—JOHN D. WELLS.

Col. Peter O. Knight was the  
 guest of the Rotary Club at  
 Tampa one evening recently.  
 He spoke of the pioneer days of  
 South Florida and of the present  
 values of the soil and the opportu-  
 nities offered to men with grit and  
 muscle.

According to Col. Knight when he  
 came to Squith Florida from Cedar  
 Keys back in 1884 the question that  
 agitated the minds of all the nat ves  
 was whether "cawn an' taters" could  
 ever be raised. Col. Knight told  
 about his trip on board the Cochran.  
 On his second trip two years after,  
 he came in a sailboat and rode on  
 the first construction train that ever  
 made the trip from Bartow Junction  
 to Arcadia. At one hotel where he  
 he stopped on that trip (it must have  
 been at Arcad a), he declared there  
 was an immense hunk of some kind  
 of vegetable in the yard. A hatchet  
 was sticking in the side of the big  
 hunk and part had been chopped  
 away. Calling a negro Col. Knight  
 asked for information.

"That thar thing?" said the negro,  
 "why that's a sweet tater. We  
 jist cuts offen it what we wants fer  
 dinner an' lets the rest lay thar."  
 "How long will that potato last  
 you?" asked the visitor.  
 "Wall, Ah reckon about chue  
 months," answered the ebon man of  
 parts.

And right there, so Col. Knight  
 declares, he decided that ground  
 that will grow such a monstrous  
 sweet potato would grow Irish pota-  
 toes, corn and other vegetables.  
 That his estimate is right is proven,  
 he submits by the records of the  
 Hastings section, now the largest  
 single Irish potato shipping point  
 in America, having topped a million  
 dollars for potatoes alone the past  
 season.

It was four years after his second  
 visit that Col. Knight came so Florida  
 to make his home, settling in  
 Tampa. Then there was one bank  
 in that city, the First National, and  
 this, with another at Dade City,  
 took care of the entire financial  
 business of South Florida. The com-  
 bined capital and deposits were only  
 \$330,000. Today with only 900,  
 000 population, Florida has doubled  
 the bank deposits of South Carolina  
 and in comparison with practically  
 every other southern state holds  
 high rank. All of this Col. Knight  
 attributes directly to the products of  
 the soil.

The speaker did not dwell at  
 length upon his career as a profes-  
 sional man in Florida. He went  
 directly into the subject of his re-  
 cent farming experience, telling some  
 thing of what he has accomplished  
 in the way of satisfaction and con-  
 tentment by getting back to the soil  
 and gave the members of the Rotary  
 Club some figures that made  
 the greatest impression of the ses-  
 sion. He set forth that the corn  
 raised in Florida every year is worth  
 more than Florida cost—five million  
 dollars. He cited the fact that  
 over 80,000 carloads of products of  
 the soil are shipped from Florida  
 every year, most of the shipments

being made at times when other  
 producing points are lying idle or  
 wrapped in snow. Especially did he  
 dwell upon the shipment last season  
 of 2106 carloads of pineapples over  
 the East Coast railroad from sandy  
 stretches of soil that a few years ago  
 were thought worse than wastes.

There seems to be much com-  
 ment on the fact that 1914 is an off  
 year for newspaper men and yet it  
 has never been any cinch for a news-  
 paper man to get anything except  
 a bunch of cussing. At times it  
 seems to me that the newspaper  
 man can hardly expect to get what  
 he deserves unless he stands up  
 for what is really coming to him  
 and soaks every individual right and  
 left that opposes him. This seems  
 to be the way to get through the  
 world and in this respect the editors  
 have been too lenient. Instead of  
 propitiating every crank that comes  
 in the office to tell you your business  
 you ought to pitch into the whole  
 bunch and show them up. There  
 are a lot of people right here in San-  
 ford who have done enough to send  
 them up for twenty years and yet  
 the paper has never spoken of them  
 except in glowing terms and saved  
 their families the humiliation that  
 would follow if the truth was set in  
 black and white. And these same  
 people are continually knocking the  
 paper because it does not do this or  
 that in favor of certain individuals.  
 As the Jacksonville State expresses it:  
 Every newspaper man in the state  
 who was a candidate for office was  
 defeated. What do the poor jinks  
 want to aspire to office for anyway?  
 They are hewers of wood and draw-  
 ers of water.

But goshdinit, that's jist the  
 trouble: The newspaper man is  
 handed cord wood as a swap for his  
 paper and has to cut it himself. He  
 is expected to view with alarm an  
 impending political crisis and boost  
 the political ambitions of the man  
 who wants to save a country that  
 doesn't need saving. And the hell-  
 uvit is, after writing ripsporting  
 editorials, he finds his linotype metal  
 supply exhausted, and that darned  
 cordwood jist simply won't work in  
 the linotype machine at all. It  
 isn't fair. The newspaper man  
 needs public opinion. The linotype  
 machine molds type. And it takes  
 money to keep these works going.  
 And the newspaper man is entitled  
 to a chance to get sure enough  
 money for rendering great service to  
 his state and country. President Ches-  
 ter A. Arthur had 33 suits of clothes,  
 27 pairs of shoes and 165 pairs of  
 pants. How many newspaper men  
 in Florida have one pair of perfectly  
 good pants, meaning two legs and a  
 whole seat? The newspaper men  
 went before the voters with bare  
 facts. And they didn't get a look-  
 in.

Hearing that they were about  
 to have sidewalks on Sanford  
 Heights I strolled out that way last  
 Sunday and it certainly looks like  
 those folks out there will now have  
 a way to walk to town without drag-  
 ging through the dust as they for-  
 merly did. It also struck me that  
 many property owners on Park ave-  
 nue between Tenth street and Hugu-  
 eue between Tenth street and  
 Hughey will now have to cut the  
 weeds from their places and fix  
 them up because with the coming of  
 sidewalks all these improvements  
 must be made. There are some lots  
 on the way out there that are a dis-  
 grace to their owners who are posing  
 as public spirited citizens and they  
 have for years allowed a tangled  
 growth of weeds and trees to take  
 their property, never caring to clean  
 them up simply because they were  
 vacant. Now that the city has  
 taken a hand in helping Sanford  
 Heights these public spirited citizens  
 who have a wilderness on their lots  
 should be made to clean them or the  
 city will do it for them and charge  
 same to the property. It is high  
 time the Heights was coming into  
 its own.

There are a number of fine grass  
 plots on Magnolia avenue and the  
 property owners deserve credit for  
 taking such an interest in the city  
 and yet every day some careless  
 driver of horses or mules will allow  
 his team to wander at will over these  
 plots and eat and tear up the grass  
 by the roots. There is positively no  
 protection to the grass or flowers  
 and I really think that the city  
 council would be doing the right  
 thing to pass an ordinance making  
 it an offense for any horse to be  
 allowed to wander over the streets

and eat the grass from the curbing  
 and grass plots. There is no reason  
 in the world for the teams doing this  
 and these public spirited people who  
 are trying to improve the looks of  
 the city should be encouraged.

Some of us take an interest in  
 the public schools and some do not.  
 It often happens that a man with  
 no family takes more interest than  
 the man with a large family. It be-  
 hooves all of us whether men of fam-  
 ilies or not to take an added inter-  
 est in the schools for they are the  
 moulders and the builders of the  
 future nation. Criticisms have been  
 leveled at the school boards from  
 time to time about the so-called  
 large salaries of the teachers and yet  
 I want to say that at no time has  
 any board in Florida paid too much  
 for a good teacher. Teachers and  
 preachers and newspapers are prob-  
 ably the poorest paid people in the  
 world and being in the latter class  
 somewhat I will not take up any  
 time with the newspapers but the  
 teachers—our teachers are not now  
 and never have been paid enough  
 for their services. As one who  
 knows from experience I say that a  
 school teacher has the most difficult  
 and exacting position of any pro-  
 fession and their miserable pit-  
 tance is a disgrace to the state.  
 Along this line the following from  
 the Times-Union is good although  
 I do not agree with them in saying  
 that we do not need good school  
 houses:

"Commenting on the fact that  
 the aggregate salaries of the teachers  
 of Allentown, Pa., have been in-  
 creased \$27,400 the Democrat, pub-  
 lished in that city, says:  
 The Democrat does not believe a  
 school should be run like a factory.  
 Teaching is a profession and not a  
 trade. The lowness of the salaries  
 when compared with the recom-  
 pence enjoyed by those in other pro-  
 fessions has driven many young men  
 and women of individuality and  
 originality into other lines where the  
 remuneration was greater and the  
 prospects for advancement were bet-  
 ter. The material rewards of the  
 public school teacher are few—or,  
 rather, were few in the past. How-  
 ever, we can see in the future a  
 substantial change for the better.  
 The work of the teacher is being  
 more appreciated.

We wish we could impress on the  
 people of Florida the fact that the  
 matter of overwhelming importance  
 in connection with education is the  
 teacher. The Florida conception,  
 however, is the building. It seems to  
 be the general impression that if a  
 community puts up fine school  
 buildings that community is much  
 interested in education and is mak-  
 ing great progress in education.

We do not believe that half as  
 good work is being done in the fifty  
 thousand dollar schoolhouses today  
 as in the little log schoolhouses or  
 other little schoolhouses a half cen-  
 tury ago. Then a community want-  
 ed a teacher or teachers and paid  
 them decent salaries. The houses  
 they taught in were incidental, they  
 were merely intended for warmth  
 in winter and to keep off the sun  
 and rain. When men valued edu-  
 cation instead of pretense the sal-  
 aries of the teachers in one or at  
 most in two years would pay for the  
 building. Now it is frequently the  
 case in Florida and perhaps in other  
 states that the combined salaries of  
 the teachers who teach in one of  
 the fine high school buildings would  
 scarcely pay eight per cent on the  
 money spent in building it.

One trouble with our public school  
 system is that we haven't half  
 enough teachers. The other is one  
 of two things—either we don't pay  
 our teachers half enough or else we  
 ought to employ teachers. It is  
 ridiculous to give such a title to one  
 not worth more than thirty or  
 thirty-five dollars per month when  
 we must pay a fair bookkeeper three  
 or four times as much.

The general average of salaries is  
 at least twice as high as it was  
 thirty or forty years ago. If we  
 may judge by our own state the  
 average salary of teachers is not  
 more than half as high as thirty or  
 forty years ago. If our teachers are  
 worth more than we pay them com-  
 mon honesty requires that we pay  
 them more. If they are not worth  
 more they are worth nothing.

By taxation or in some way this  
 state should at least double its ap-  
 propriation for public schools. And  
 until we do provide for good teach-  
 ers with reasonable salaries a fine  
 school building should be regarded  
 as a badge of disgrace to the com-  
 munity that builds it.

**Cheap Floor Stain.**  
 A very inexpensive stain can be  
 made from burnt umber and hot wa-  
 ter. Five cents worth of the burnt  
 umber will stain several floors; that is,  
 where a rug is used for the center.  
 Pour the hot water over the burnt  
 umber, little at a time, till it is thor-  
 oughly dissolved. Use a quart of hot  
 water to five cents worth of umber;  
 that makes a pretty dark brown stain.  
 Let it dry, then rub on with good floor  
 wax and polish.

## RECORD OF THE CROSS

### SYMBOL IS ONE OF MOST AN- CIENT RECORDED IN HISTORY.

#### May Be Traced Back Five Thousand Years, to the Babylonian Era, as Explained by Students of the Past.

The cross is so old that the records  
 of men do not go back to the first one.  
 Christianity took a very ancient sym-  
 bol and made it Christian, but nobody  
 knows just why.

To understand all there is to know  
 about the cross we must go back four  
 or five thousand years to astronomy  
 and astrology as understood by the  
 ancient Babylonians. Under their clay  
 tablets and stone monuments, and  
 upon the monuments of the Persians,  
 the Hittites and every other ancient  
 nation we find crosses of all shapes  
 and kinds. Even the Egyptians de-  
 corated their high priest when he was  
 officiating in the greatest of their  
 temples with the figure of the cross.  
 There must, therefore, be some great  
 and universal significance in this sym-  
 bol or its use would not have been  
 so widespread.

The Babylonians offer the clearest  
 explanation of this symbol in their  
 expression, "the four ends of the  
 earth," which is also found in the  
 Bible. The people of Bible times  
 knew that the earth was round, for  
 Isaiah speaks of the "circle of the  
 earth" and then of the "ends of the  
 earth." This makes the conception  
 plain that to the early Semites—for  
 Babylonians and Hebrews were all  
 Semitic and the Cuneiform and He-  
 brew languages have many words in  
 common—the earth was round and  
 had four ends, or, as we put it today,  
 "four points of the compass."

If the circle of the earth is drawn  
 and then bisected in either direction,  
 by straight lines the perfect cross is  
 made, thus symbolizing the whole  
 earth.

The early Babylonians went further,  
 and in their polytheism established  
 one of the gods as ruler over each of  
 these ends of the earth, identifying  
 each god with one of the great planets,  
 whose motions they studied so care-  
 fully. The north was presided over  
 by Nergal and the planet which we  
 call Mars. The east had Marduk and  
 the planet Jupiter, the south had Nin-  
 ib and the planet Saturn, while the  
 west was ruled by Nabu and his  
 planet Mercury. The names of the  
 stars were different in Babylonian,  
 but they corresponded to the planets  
 as we know them by these names.  
 The north was identified with winter  
 and midnight, the east with morning  
 and spring, the south with midday  
 and summer and the west with even-  
 ing and autumn.

Some of the Babylonian inscriptions  
 also show that the four phases of the  
 moon were indicated by the cross.  
 The mystic quality of this symbol pen-  
 etrated the life and literature of the  
 people because they held that the di-  
 rect influence of the moon and stars  
 upon the affairs of men was constant-  
 ly felt.

Studying the inscriptions on ancient  
 tablets, monuments and bowls, we find  
 crosses of every shape, from the swas-  
 tika to the maltese, and even the Ro-  
 man cross with a prolonged lower  
 part.

It is more than suggested that there  
 is a direct connection between this  
 four-fold division of earth and heav-  
 ens, as symbolized by the cross which  
 stood for the complete whole and the  
 so-called Tetragrammaton or four-let-  
 tered name for God of the Hebrews.  
 This is the word rendered in English,  
 Jehovah, or by advanced scholars,  
 Yahveh. The four consonants in the  
 Hebrew are YHWH, the vowels not be-  
 ing reckoned as of any significance.  
 It is now suggested that because of  
 the monotheism of the Hebrews, be-  
 lieving in one God and not in many,  
 they used the four consonants to in-  
 dicate the four ends of the earth and  
 heavens, and combining them into one  
 word made that stand for the one God  
 of heaven and earth.—Cleveland  
 Leader.

**World's Largest Apartment House.**  
 A. F. Leitch, architect of this city,  
 states that his home town, Newark, N.  
 J., will soon boast of the largest apart-  
 ment house in the world. Ground has  
 been broken for a building to be 13  
 stories high in front and 15 stories in  
 the rear. The building will be located  
 at 742-48 High street, with a frontage  
 of 105 feet on that street and a depth  
 of 225 feet. The construction cost  
 will be \$550,000. A lane from Spruce  
 street to the rear of the building will  
 run to a private garage, capable of  
 accommodating 100 automobiles.  
 There will be a palm room, a social  
 room, a ballroom and a restaurant on  
 the thirteenth floor. The restaurant  
 will accommodate 400 diners at one  
 time. A roof garden, covering the en-  
 tire structure, will be a feature of the  
 building.—Wall Street Journal.

**Dying Aviator's Nerve.**  
 The power of the will to control a  
 badly injured body was never better  
 illustrated than in the case of Doctor  
 Constantine, a volunteer aviator in the  
 service of the Bulgarian army, who was  
 fatally wounded by a Turkish bullet  
 while sailing his aeroplanes over the  
 trenches at Tchataldja. Notwith-  
 standing the shock, the pain and the  
 rapid hemorrhage, Doctor Constantine  
 kept his nerve and was able to turn  
 his aeroplane around, guide it back to  
 the Bulgarian lines and volplane safe-  
 ly down among his friends. He died  
 as the aeroplane reached the ground.

## CLASSIFIED ADVERTISING

All Local Advertisements Under  
 This Heading THREE CENTS a  
 Line For Each Insertion. Minimum  
 Charge 25 Cents.

In answering an advertisement  
 where no name or house number is  
 mentioned in the ad please do not  
 ask The Herald for information as to  
 the identity of the advertiser.  
 Usually we do not know who the  
 advertiser is and if we do we are  
 not allowed to give out this in-  
 formation. Simply write a letter  
 and address it as per instructions  
 in the ad.

## FOR SALE

For sale at a bargain if taken at  
 once—one Berkshire boar, registered,  
 3 years old. Address Leonard Vil-  
 len, R. D. No. 1, Sanford, Fla.  
 86-4tc.

CAMP FIRE GIRLS ARE AT ENTERPRISE FOR A GRAND TIME

THEY WILL CAMP AT THE HOTEL FOR A TWO WEEKS VISIT

FIRST ANNUAL OUTING OF FLORIDA'S GIRLS

SWIMMING, BOATING, FISHING, CAMP FIRE CHATS, LECTURES, MUSICALES TO ENTERTAIN THEM

The Camp Fire Girls are present at Enterprise this week in force and every incoming train and boat is bringing them to this city to embark for the mecca of their hopes—the hotel at Enterprise where for two weeks they will be comfortably ensconced and where they will enjoy the time with boating, bathing, musicales, talks and conferences.

This great meeting of the girls of Florida for their first annual outing promises great returns in good health and instruction and no better or more beautiful place in the south could be found than at Enterprise.

On the shores of beautiful Lake Monroe at Enterprise, the home of the Methodist Orphanage, the Methodist Conference and where that great Christian worker, Miss Emma Tucker has accomplished so much for the religious gatherings, among the good people of Enterprise and where the young folks can have all the boating, fishing, swimming and the finest drinking water in Florida the girls are bound to enjoy their two weeks' outing and enjoy every minute of their stay.

The following program has been arranged for Friday, Saturday, Sunday and Monday and the program for the ensuing days will be published in Tuesday's Herald:

Saturday, June 27th: Rising Bell at 6:30. Breakfast, Room Inspection, Bible Class, Mission Study Class, Technical Councils, Camp Fire Girls, Editorial Staff, Camp Paper, Dinner at 12. Quiet Hour, Trips to Swimming Pool, Home of Bueno Refr. Auto to Deland, Supper at 6. Camp Fire Councils, Lights Out at Ten.

This program will be followed daily, with the exception of Sunday, when the following program will be carried out:

Rising Bell, Breakfast, Morning Worship, Mrs. Mabel Stevens Principal of Southland Seminary of Gainesville, Dinner at 12. Quiet Hour, Vespers, Supper at 6. Evening Worship by Mrs. Bishop.

Monday, June 29th: Rising Bell, Breakfast, Room Inspection, Bible Class, Mission Study Fishing Trip, Dinner at 12. Supper at 6. Address at 8. "The Girls and the World" by Rev. George Hyman of Sanford Secretary of the Baptist Foreign Missionary Union. Vespers on the Dock, Lights out at 10.

Tuesday, June 30th

Rising Bell at 6. Breakfast, Room Inspection, Bible Class, Mission Study Class, Technical Councils, College Girls and Sunday School Workers, Dinner at 12. Quiet Hour, Trips to Swimming Pool, Indian Mound, Stone Island, Supper at 6. Address: "The Old Woman and the New" by Dr. Carnine, pastor of the Methodist Church at Deland. Among those who have arrived from Jacksonville are the following: Miss Lena Brockaw, Miss H. Minn, Miss Helen Minn, Mr. Waldberg, Miss Gaines, Miss Gayner, Miss O'Brien, Miss K. Searing, Helen Smith, Mrs. Werner, Miss Sara Muriel, Miss Waterbury, Miss Middlecott, Miss Sloan, Miss Welch, Miss Ethel McCoy, Miss Tucker, Miss Crin, Miss Newman, Mrs. Newman, Miss Cartson, Mrs. C. Dickman, Mrs. Griffith, Mrs. Weid, Mrs. Plummer, Mr. Van Duran and wife and Ed Herten.

Margaret Zachary Better. Word comes from Orlando that little Margaret Zachary is improving at the hospital after an operation for appendicitis. She was in a serious condition and her parents and friends here were greatly alarmed about her and the report that morning that she was no longer in the hospital was a great relief.

Some Dancing

New York, June 25.—With a meter attached to her ankle and hip, Mrs. Almada Reeves of 145 State street, Brooklyn, said she danced 25,000 miles before she "suffered a breakdown."

"Dancing is a good thing," she said, "if taken in moderation. But here is the great trouble—once a girl becomes a proficient dancer she is besieged on all sides for 'just one more number.' The fact has proven my downfall. I can dance as well and as long as the next, but there is a limit to human endurance."

I have agreed not to take off my tangometer. It is the first one ever used in this country, I think, and the persons owning the patent are anxious to learn the extent of the experiment. I think the instrument is something that the pedestrians use when taking long hikes.

"At any rate I am sorry that I am encumbered with it. I promised that I would not tango, all the way to Bermuda and back. And, oh, me! There is going to be dancing on the boat."

Auction Bridge

Mrs. B. W. Herndon was the charming hostess of the Auction Bridge Club which met at her attractive home on Park avenue Monday afternoon. After several interesting rounds of the popular game the prize, a lovely pair of silk hose was awarded to Mrs. Samuel Puleston, for making top score. Dainty refreshments, consisting of peach sherbet, angel food and cake were served by the hospitable hostess, whose guests were Mrs. Walter Clay, Mrs. T. A. Neal, Mrs. R. A. Newman, Mrs. F. L. Miller, Mrs. A. P. Connelly, Mrs. S. Palesten and Mrs. C. O. McLaughlin.

For Canal Exposition

Altoona, Pa., June 25.—Take two passenger coaches, stand them side by side on adjoining tracks, knock out the inner side of each, lay a connecting floor, and stretch a canvas over the tops of both.

That is a description of a moving movie theatre being built today at the shops of the Pennsylvania Railroad here for the Panama-Pacific Exposition at San Francisco next year. The theater will be appointed and finished as one of the Penn's regulation steel coaches. It will be completed about November 1 and taken to the exposition shortly afterward.

The unique theater will be part of the road's exhibit. In it will be given pictures of scenes along the Pennsylvania lines.

Congregational Church

Next Sunday, subjects suitable to Independence Day will be presented; in the morning, 11 a. m., "America's Position in the World Battle;" in the evening at 7:30, "How Does Christianity Help Good Citizenship?" All are cordially invited to these services. Good music and a cordial welcome for all.

The regular communion service will be held the first Sunday morning in July, instead of the last Sunday in June as announced heretofore. Please let all the members remember this.

Baptist Services Sunday

9:30 Sunday school. 11:00 Preaching. Subject of sermon, "Double Hearted." 3:30 Jr. B. Y. P. U. 6:45 St. B. Y. P. U. The last program in the contest for efficiency will be rendered by Company C. Great interest has been shown in these contest programs.

7:45 Preaching, subject "The Iron D d Swim." You are welcome to all the services of our church.

GEORGE HYMAN, Pastor.

Hill-Land

Mr. Charles H. East, Jr., of Eau Gallie Fla., and Miss Evelyn C. Hill, the youngest daughter of Mr. East, were married at the home of the bride's parents at 4 o'clock Thursday morning and left on the 10:20 train for a brief wedding trip to Key West and other points on the East Coast before going to Eau Gallie, where they will make their home. The groom is agent for the Flagler system at that place. Rev. Dr. J. P. McKinnon of Orlando officiated at the marriage, which was witnessed by members of the bride's family. The contracting parties are estimable young people who have many friends here who will wish them every happiness and success.

SANFORD'S GREAT WHITE WAY CAN BE INSTALLED WITH VERY SMALL COST

THE CITY SHOULD BY ALL MEANS HAVE BETTER LIGHTED STREETS AS SOON AS IT IS POSSIBLE TO DO SO

SYSTEM INSTALLED IN OTHER CITIES OF FLORIDA

SANFORD COULD HAVE CLUSTER SYSTEM ON FIRST STREET AT A SMALL COST WHICH WOULD PROVE OF INESTIMABLE VALUE TO THE CITY IN BRINGING TOURISTS HERE

The Herald has contended that Sanford has insufficient street lights or in other words the business portion of the city could be greatly improved by better lights in a white way system similar to that installed by other cities and that will soon be installed by Orlando. This is the time of the year to discuss these matters and have the white way installed before the winter rush of new people to our city. There is nothing that would add quite so much to the appearance of our city as a white way on First street at least and if possible out Park avenue to the union passenger station.

This question has been discussed by the citizens and various boards of aldermen and the idea of the city owning the electric light plant before the white way was inaugurated. This would probably lessen the price but is not absolutely essential to the installation of the white way. Editor Reese of the Orlando Reporter-Star recently paid a visit to three Florida cities in which white ways were installed, some of them with municipal plants and some with private ownership plants and his deductions given below will prove most interesting reading to Sanford people on this subject:

"Clearwater is a much smaller town than Lakeland or St. Petersburg, but has a more modern white way than either. It has twenty posts carrying a single luminous arc. Sixteen of the lamps are burned all 11:30 each night, and the four remaining lights are left on for the balance of the night. Here the electric company paid for the posts and the installation and charges the city \$5.60 per month for each post. The company has a clause written into the contract with the city providing for the reimbursement for the system in the event the city should exercise its rights to purchase the plant. The post used at Clearwater is cast iron with cut out in the bottom, the first cost was \$21, with \$6

for the lamps, and \$4 each for installation, but along with this cost must be considered the special transformer and rectifier necessary for this system, which cost \$850. Clearwater owns its own water plant, has a rate of \$1 minimum for 3,500 gallons with a sliding scale and a rebate for mills and packing houses using great quantities.

Lakeland owns its light and water plant. Its white way posts are installed on three streets in the center of the business district; there are sixty of them. The posts are iron with concrete foundation, five light multiple, one top light and four below, installed with three wire circuit, connected so as to allow the top light to remain burning all night, while the four bottom lights are turned off at 11:30. The top light is a 60 watt light and the others are 40's. The posts cost \$35 each without installation, the total cost per post being \$50.75. The property owners paid for the posts and installation and the city accepted the system as a part of the lighting system of the city and furnishes the lighting. The plant being owned by the city the cost of furnishing the light does not appear. The water rate is \$1 minimum with an allowance of 4000 gallons; twenty cents a thousand above minimum to 25,000; eighteen cents a thousand to 50,000 gallons; seventeen to 75,000 gallons; fifteen cents to 100,000 gallons; and ten cents upward.

St. Petersburg also has a five light post, but fewer of them than Lakeland; having only fifty; but the top light is 100-w, and the lower lights are 60's; the posts are set on four streets in the business section, and cost \$69 each without the lamps. The city pays the electric company 10 cents per night for the five lights to burn from 7 to 10. St. Petersburg owns its own gas plant. The rate for water is 50 cents minimum with an allowance of 2,500 gallons, with a rate of 20 cents per thousand above.

SANFORD PAST AND FUTURE PROMINENT JACKSONVILLE BOOSTER CALLS SANFORD THE COMING CITY

To the Editor of the Sanford Herald: My Dear Sir—I wish to express my agreeable surprise through your valued columns of the Herald; of the wonderful developments and activity I find in your prosperous town of Sanford.

I have been a visitor to Sanford for over thirty years. I well remember the time when it was oranges and nothing but oranges, but thanks to fate the entire state of Florida has discovered the can forge ahead independent of the orange industry as she has proven in the past few years that her resources are almost unlimited.

I paid a visit to your town of Sanford just one year ago this month, the 29th of June. I found the spirit of the times on every side, and everyone was looking ahead for great prosperity, and I got on my arrival the way they have not been disappointed. I saw the streets full of busy shoppers, I saw all the stores, and I saw the modern times, all doing good business. Prosperous farmers and truckers may be seen all over your town, and I learn from reliable sources that this has been a remarkably favorable year for the truckers, and they all have good bank accounts, and from the large number of banks I see in your

town it evidently is a fact that there must be plenty of money here, and I have not found a citizen yet who wanted to leave Sanford.

The favorable geographical location of Sanford, with its magnificent water transportation, and its great railroad center, and with the public spirit shown by her citizens I believe is going to place this town in the near future at the head of all inland towns in a commercial sense, as the capacity of her productive soils is unlimited, as is demonstrated by the hundreds of thousands of dollars worth of celery, lettuce and other crops that are raised here, and when Sanford voted for the bond issue to bulkhead her water front and to make general civic improvements I considered it the master stroke of her existence. The bulkheading of the water front on Lake Monroe, and filling in the low land, building boulevards and promenades along the front will so beautify the city and improve the general conditions that it will increase the valuation of the city at least two million dollars in the next five years, and at the same time make Sanford a most attractive winter resort, which combined with her many other advantages and the continuation of the present public spirit Sanford will soon be a

little city of 20,000 souls. I hope the reader will not think I am addicted to flattery. I write as I see it. Developments and civic improvements are my greatest pleasure. I am spending over one hundred thousand dollars on the civic improvements of Riverview, which the entire city of Jacksonville is so proud of, and I am already realizing the great benefits to be derived from these improvements. Your city, Mr. Editor, is on the right track and I wish her and her citizens the greatest success. E. H. ARMSTRONG.

RIVER ITEMS CUT

Florida Statesmen Let The State Suffer In Appropriations

Washington, June 26.—The river and harbor bill as reported out of the committee on commerce to the senate contains the following Florida items:

Table with 2 columns: Item Name and Amount. Items include Apalachicola Bay (\$25,000), Tampa Bay (6,900), Channel, Clearwater Harbor through Boca Ceiga Bay to Tampa Bay (22,700), Fernandina Harbor (25,000), St. Andrews Bay (60,000), Santa Rosa Sound (5,000), Lake Crescent and Dunn's Creek (1,000), St. Lucie Inlet (50,000), St. Petersburg Harbor (1,500), Deep Creek (9,000), Apalachicola River (15,000), Caloosahatchie River (2,000), Crystal River (10,000), Holmes River (3,000), Anclote River (22,000), Blackwater River (5,000), St. Johns River (300,000), Withlacoochee River (1,000).

The following items for Florida and Alabama jointly are included: Choctawhatchee River \$25,000, Escambia and Conecuh Rivers 15,000, Pensacola Bay to Mobile Bay 50,000. The committee declined to restore in committee the big Florida items which it cut out, claiming that it was too late to reopen the bill. This has put it up to Senators Fletcher and Bryan to secure the restoration of the eliminated items by amendment in the senate if it can be done.

Our Daily Paper

The people of Sanford want the Daily Herald and the management of this paper wishes to give them one of the best daily papers in the state. We would not think of foisting a make-shift upon the public. It will carry Associated Press dispatches; giving the readers all the world's events right from the wires and five hours ahead of any other daily papers that are now being taken in Sanford. We are just across the alley from the Western Union telegraph office and the post office, and the daily Herald will make the mails on record time and contain all that is good in every department. That it will be appreciated by the business men of Sanford seems certain and the following is a sample of the letters received every day:

Editor of the Herald: "Seeing announcement of your daily that you expect to launch in the fall would say that our firm will make a contract for advertising in your daily for six months or longer if you decide to continue after next April. Realizing the value of the daily in Sanford not only from the advertiser's standpoint but also from the viewpoint of a man who knows what it will mean to Sanford I have no hesitation in saying that not only will our firm contract for advertising but will take stock in the venture if there is any to sell. There is nothing that our city could invest in that will yield any greater returns in a hundred ways than a good daily and I know that the Daily Herald will be all that the name implies. We cannot do enough for the good old Herald." Yours, etc.

The gentleman who wrote the above did not wish to have his name printed but we appreciate his words because he means all that he says and his letter is an inspiration to the management.

Miss Elida McCulley entertained about twenty five young people Tuesday night in honor of the Misses Station of Sanford. After several games, were played delicious refreshments of punch and cake were served. The Misses Station rendered some very fine music with cornet and piano accompaniment. At a late hour the young people left having enjoyed a very pleasant evening and voting Miss Elida McCulley a very charming hostess.

FLA. FARMER'S AID OF \$10,000 TO ASSIST IN FARMING

FUND APPROPRIATED BY THE GOVERNMENT IS AVAILABLE

UP TO FLORIDA PEOPLE TO MAKE ARRANGEMENTS

OTHER INTERESTING NEWS OF THE WORLD AT LARGE IN TABLOID FORM FOR HERALD READERS

Washington, June 26.—\$10,000 will be available to the state of Florida for the making on Wednesday of next week (July 1) and it is expected that the state will make the necessary arrangements to take it away. The money is appropriated in the Smith-Lever agricultural bill and is a contribution to state farmers' cooperative work. Under this legislation the government will give an initial sum of \$10,000 to the state and an increasing sum annually in proportion to the growth of the rural population on condition that the state or local subdivision thereof gives "dollar for dollar."

Various states are sending their agents here to arrange for their share of the money. Five members of the Kentucky board on cooperative farmers' demonstration work are now here and they announced today that the \$10,000 for the state of Kentucky will be available July 1. They had an interview with the department officials. The first work in Kentucky will be to employ additional county agents to supplement the instruction of twenty-one now at work.

Dayton, June 26.—Motorcyclists from all sections of Ohio gathered here today for the opening of the annual three day convention of the Ohio State Federation of American Motorcyclists. One of the features will be a hill climbing contest at Fort Ancient.

Poughkeepsie, N. Y., June 26.—Cornell was favorite in the historic intercollegiate regatta to be held here over the regular course on the Hudson today. The University of Washington crew, winner of the Pacific Coast Intercollegiate Regatta, because of its recent and rapid improvement, admittedly was a dark horse, with Wisconsin feared in some quarters as a possible runner up. Adherents of Columbia, Syracuse and Pennsylvania, however, were confident and willing to back their beliefs with bets on their favorites.

One of the greatest crowds in the history of the famous race lined the banks, packed the observation train and crowded every available vantage point to witness the annual struggle for college supremacy on the water. The varied colors of the fair spectators' dresses added brilliancy to the ranks of the thousands who cheered the varied crews.

Evans, Ind., June 26.—Thirty-eight years ago today General Geo. A. Custer and 600 of his heroic command were slaughtered by ten times their number of Sioux Indians under the terrible Sitting Bull. The event was recalled here today by Geo. H. Welch, 69, formerly an Indian fighter, now a farmer living two miles west of Evans. Under Capt. T. B. Weir, we were ordered to the rear by Custer, said Welch. "There were three commands out to Round-up Sitting Bull, who had led his braves off their reservation and was causing trouble. Custer miscalculated and was tricked into an ambush that left him surrounded by 6,000 blood hungry Indians. The terrible thing was that we could see the plight of Custer and his band, but could not even help him. After the massacre we held Sitting Bull on the banks of the Little Big Horn until reinforcements came from Ft. Lincoln. Because the Indians held Custer in such reverence—they called him Big White Chief. Custer was the only member of the band who was slain that day who was not scalped or otherwise mutilated. One man who participated in the battle with Custer, spoke to me. He is called the Crow, one of Custer's scouts.
