

Finnish Strike

(Continued from page one)

atic Union" is just another name for the Communist Party. At the Congress, the party was the pattern for the attack which now appears to be taking form in the Communist strike offensive.

Finland's Social Democratic government was heavily assailed in the Congress. It heard the prophetic charge (as reported in Moscow's Pravda):

"Bogrovskis circles (in Finland) are increasingly impatient in their demands that the living standards of the workers be lowered. The bourgeoisie (ruling class) is well aware that such measures are impossible under democratic government and require a more tractable government."

For the Russians, this charge is tantamount to saying Finland is headed for a Fascist government. A claim Finland was in control of Fascists would afford the Communists an excuse for attacking.

The Congress' speakers called the Social Democratic government of Premier Aaro A. Fagerholm "traitorous." This, too, is a familiar design in the overall pattern.

Finland, early in 1948, signed a treaty of friendship with the Soviet Union in which the Russians made a promise to allow the Finns to lead their own lives in an independent state.

But Moscow obviously has been worried about Finland's leanings toward the West. To use the Russian phraseology, "it was not by accident" that the Russians have maintained since the war their military base at Forskalla, on Finnish soil.

Finland would make a neat finishing touch to the chain of Communist states in Eastern Europe. She stands out, in Moscow's eyes, like a sore thumb.

At THE CHURCHES

Summer Class To Graduate At Stetson

DELAND, Aug. 19—(Special)—The largest summer class in the history of John B. Stetson University received degrees from President J. Ollie Edmunds in early-morning ceremonies here today.

The class, nearly double that of last summer, represented 49 Florida towns, 14 states and one foreign country, Korea.

The commencement speaker was Dr. Thomas Hansen, pastor of Main Street Baptist Church, Jacksonville, and a trustee of the university. Others participating were Rev. Edgar H. Cooper, pastor of Mayfair Baptist Church, Jacksonville, Rev. A. Grady Snowden, pastor of First Baptist Church Deland, Harold M. Griffin, professor of voice, and Shirley Bush, organist.

Strength in Faith

Great crises in the lives of men call for strength of mind and soul which no earthly power can give. When his own efforts and resources fail, man's help must come from God.

This troubled woman has learned the secret of faith and is putting her case in the hands of God. There she will find strength and comfort sufficient to her needs and will see clearly through the shadows that surround her.

Faith is a key that will unlock most of our human problems and resolve most of our difficulties—if we will only develop it. It is a light in human darkness, comfort in man's distress, strength in his weakness, and hope in his despair.

People should know more about the power of faith and the wonders it can work in human life. The story is written in the Bible, embodied in the teachings of the Church, and grafted upon the hearts of believers.

Threat Of War Seen In Latest Soviet Moves

British Say Situation Deteriorates; Splinter Communist Party In Berlin

BY ASSOCIATED PRESS
Premier Marshall Tito of Yugoslavia drew support from a group of German Communists today. This sign of the growing split in the ranks of world Communism came as Yugoslavia's war of words with Russia reached a new pitch of intensity.

British newspapers quickly noted the similarity between the German language used by Hitler before he sent the German army into action five years ago. They said the Russian note sounded like the worst threat of war since 1939.

Typical was the comment of the London Daily Mail. It said the acute hostility between the Yugoslav and Russian governments "has reached such a pitch that an outbreak of war would not be astonishing."

The concern of the Kremlin itself over its relations with Tito apparently was reflected in the Soviet press and radio, which devoted much space and time to foreign reactions to the Soviet note.

Half of Pravda's foreign news page was taken up with dispatches from abroad on the subject. Single headlines in the official Soviet Communist party newspapers were:

"Tito's clique conducting secret negotiations with Vatican."
"Furious denials of the Tito clique with Greek monarchist elements (Nationalists)."

Tito has been feuding with the Kremlin for more than a year. His government was thrown out of Communist International Information Bureau for nationalistic views. He is reported to have been expelled from the organization.

One of the Kremlin's fears is that Tito's show of national independence will spread to other eastern European countries in the Soviet sphere and to Communist parties elsewhere. This fear is shown by Moscow's insistence that Tito must lend a knee and salute his "mistakes."

Titoism may have taken root in Germany. German Communists who hate Russia formed a new splinter party today and promptly sent a telegram to Tito.

The new organization described itself as a "free Communist party." It claimed 4,000 active members in the Russian zone of Germany and another 400 in the western sectors of Berlin.

Karl Heinz Scholz, veteran German Communist underground organizer, told a reporter in Berlin:

"We have formed to fight imperialist imperialism. The so-called internationalism is a lie."

RFC To Consider Terminal Financing

A. K. Maddox, field representative of the public agency branch of the Reconstruction Finance Corporation in Atlanta, Ga., is due to arrive here soon to confer with City Manager Clifford McKibbin regarding the financing of the waterfront terminal.

A field investigation of the terminal facilities will be made by Mr. Maddox, who will also check the parking meters revenues which have been pledged for the project, if needed. He will report findings to the RFC in Washington, D. C.

W. C. Hutchison, traffic rate expert, has submitted his final report to the City on his study of the present freight charges of canned citrus from Central Florida and has suggested charges for shipment by water from Sanford to various northern points, said Mr. McKibbin.

ANOTHER CONFESSION
FORT WAYNE, Ind., Aug. 22.—(AP)—A third man today had confessed implicating in a series of Fort Wayne sex slayings for which two other men already have been imprisoned. One of those now in prison is under sentence of death and the other is serving life.

With three men on their heads and four killings to be cleared up, authorities admittedly are puzzled.

Nature Goes On Rampage Causing Wide Destruction

Small Hurricane Is Reported Heading Toward Florida

MIAMI, Aug. 22.—(AP)—A small Atlantic hurricane centered about 500 miles east of Miami today as President Truman visited the city to deliver an important address to the Veterans of Foreign Wars convention. The storm, first of the 1949 season, was referred to as "Harry's hurricane" by storm trackers because of the coincidence of the Chief Executive's visit. Fine weather prevailed here, however, for Mr. Truman's appearance.

BY ASSOCIATED PRESS
Nature unleashed its savage fury on scattered parts of the globe over the weekend, bringing death to scores of persons and causing widespread property damage.

A small Atlantic hurricane, whipping toward the Florida coast today, poised a threat of further destruction.

In the worst disaster in France since the war, raging forest fires killed at least 78 persons in the southwest corner of the (Continued on Page 8)

Sanford Given \$300 By March Of Dimes

The Seminole County Chapter of the National Foundation for Infantile Paralysis received from national headquarters of the March of Dimes organization yesterday a check for \$300, to assist in payment of local polio patients' medical care. It was announced today by Chapter Chairman Dr. R. W. Ruprecht.

The money was requested from the emergency epidemic aid fund because the local Chapter, which retains 50% of March of Dimes proceeds each year for financial assistance to polio patients, whose families can not pay full costs unaided, has run out of funds.

So far this year national headquarters has advanced \$4,120,007.23 to chapters as a result of increased incidence of infantile paralysis plus a heavy carry over of cases from 1948, year of highest incidence since 1916, Dr. Ruprecht said.

The Seminole County Chapter is continuing to pay costs of care for one patient stricken in former years. There have been no recent cases of polio reported here.

HOLLER HONORED
NEW YORK, N. Y., Aug. 22.—(Special)—Roy Holler of Sanford, Florida, a representative of the New York Life Insurance Company, has been named a member of the 1949 Nylc Star Club. It was announced today by Dudley Dowling, Vice President of the Company.

The Nylc Star Club is an organization of leading members of New York Life's field force of more than 1,500 agents from throughout the United States and Canada. Mr. Holler has been invited to attend an educational conference of the Star Club October 24-25 at the Hotel Seaside, Ocean City, Va., at which some 500 agents will be present. Mr. Holler will be accompanied by his wife and daughter, Mrs. Martha Beck, 24, and daughter, Fernandis, 24.

Gen. Spaatz Terms B-36 Peace Force

Retired Air Force General Says Russian Army Could Over-Run Europe

WASHINGTON, Aug. 22.—(AP) General Carl Spaatz, retired Air Force chief, said today the B-36 bomber and the atomic bomb are the greatest forces for peace in the world.

It was because he anticipated that the B-36 could play this role, Spaatz said, that he decided in late 1946 to early 1947 to push the "Five-Year" program of acquiring the plane.

An outside influence affected his decision, he said.

In terms of wars of the past, he said, Russia could subdue "practically all of Europe and Asia in a relatively short period of time" but the B-36 and the bomb maintain "a balance of power for peace."

The General was called before the House Armed Services Committee in its inquiry into whether political influence or favoritism figured in developing the big, six-engine B-36.

Spaatz said that when he concluded the Air Force he made a decision to continue a contract for 100 B-36's in 1943. His decision was made around December 1940 or January 1941.

Spaatz said that in a preliminary statement, "that the results to be obtained from possession of an inter-continental bomber were so enormous as to justify going ahead and taking the chance of failure, just as was done in developing the atomic bomb which this plane is designed to deliver."

Even after rehabilitation of Western Europe's political, economic and military strength, Spaatz said, the B-36 and the atomic bomb "will still be most potent instruments for maintaining a balance of power for peace."

When today he began, Committee Chairman Vinson (D-Ore.) told reporters only one anonymous document figure in the investigation so far. He knew nothing about a second statement mentioned in published reports.

The anonymous document was one of the things leading to the committee's inquiry, Rep. Donnell (D-N.C.) turned it over to the group without saying where he got it. It suggested favoritism in the B-36 program.

In response to questions, Spaatz told the committee that members of the senior officer board ruled on the basis of the development of "invincible" to any efforts to give favorites among plane manufacturers.

Asked whether political influence would affect recommendations of the board, Spaatz said: "That would not enter into it at all."

To a request from Rep. Donnell to be released (on page 8)

Mrs. McDaniel Loses Father In Atlanta

Word has been received of the death Thursday night of E. T. Richardson, father of Mrs. T. J. McDaniel. Mr. Richardson died at his home in Atlanta, Ga.

Besides, his daughter, he is also survived by the widow, Mrs. Helena Byll Richardson and three sons, Randolph A., Sterling H. and Edward Ogden Richardson of Atlanta; also four grandchildren.

Funeral services were held Saturday at 11:30 A.M. in the H. S. Patterson Funeral Home in Atlanta.

MAYOR IN CAPITAL

Mayor Andrew Carraway was in Washington, D. C. today visiting his brother, Acy Carraway.

HARRY LAUDER ILL

STRATHAVEN, Scotland, Aug. 22.—(AP)—Sir Harry Lauder, the famed Scottish comedian, was reported critically ill today at his home near Strathaven. Sir Harry celebrated his 79th birthday Aug. 4.

V F W

Commander Pat Johnson of VFW Post 3283 is attending the VFW national convention in Miami. His family is with him and he expects to be away for a week.

TOURIST MEETING

John Benkart, president of the new tourist group, thanked members for his recent election at a dinner and meeting attended by about 25 members at the Tourist Club Saturday night and stated he is looking forward to a very pleasant tourist program.

Truman Pleads For Approval Of Europe Arms Aid Program

There Were No Congressional Blues Then

WHILE PRESIDENT TRUMAN URGED REPEALERS at a Washington press conference to support legislation to speed up the delivery of arms to Europe, he said today that there were no Congressional blues then.

When he signed the Lend-Lease Act in 1941, he said, "I did not know what I was doing. I was just following the lead of the President."

Truman said he was not a member of the House of Representatives at the time, but he was a member of the Senate. He said he was not a member of the House of Representatives at the time, but he was a member of the Senate.

FISHERMEN DROWNED

MOBILE, Aug. 22.—(AP)—The bodies of three fishermen were recovered from Mobile Bay today.

The bodies were recovered from the bay today. They were recovered from the bay today. They were recovered from the bay today.

TO DEATH

NEW YORK, Aug. 22.—(AP)—Mrs. Martha Beck, 29, and Raymond Fernandez, 34, today were sentenced to die in the electric chair the week of Oct. 10 for the murder of Mrs. Janet Fay, 46, Albany, N. Y., widow.

Neither defendant displayed any emotion as Supreme Court Justice Ferdinand Pecora pronounced sentence. Mrs. Beck attempted to smile, but the expression on her face appeared to be more of a grimace.

Fernandez was calm. He was sentenced first. He walked away from the bench, glanced at Mrs. Beck, smiled and said something. His voice was so low, however, that it was impossible to hear what he said. Mrs. Beck did not say what he said.

THOMPSON THOMPSONED

Thompson Ernest Thompson, who was seriously injured a week ago in an automobile accident on West First Street, was taken Saturday in an Erickson Ambulance Hospital to Bay Pines Hospital. He was 42 years old, according to Dr. Orville Barba. Thompson is a World War II veteran.

STORE PURCHASED

Roy A. Redding recently purchased a store building at 1409 West Tenth Street from D. B. Stafford.

JIMMY BEGGS DEAD

ORLANDO, Aug. 22.—(AP)—James D. Beggs, 38, Orlando postmaster since 1935 died in a hospital here yesterday.

Beggs was confined to the hospital since Aug. 7 with a stomach ailment. He had been in poor health three years but had continued at his work.

Giants Win Two Out Of Three Baseball Games During Weekend

The Sanford Giants won two out of three games over the weekend by pounding out a 12 to 3 victory over the Gainesville G-Men here Friday night and by winning the first game of a local double header with Daytona Beach Saturday night. Rain in Orlando prevented play last night with the Senators.

Tonight the DeLand team will be here for another game.

The Giants in scoring 18 runs made 18 hits off Pontello and Mickey Gainesville hurlers Friday night. Harry allowed the G-men 14 hits but kept them well scattered.

Jack Boback limited the Daytona Islanders to but one hit to win the seven inning opener of the Saturday night double header, while the Giant batters were alarming the offerings of Riffeberg and Triay, Islander hurlers.

The second game was marked by three home runs a night hit over the left field wall by Islander short stop Montalano in the fourth frame, another by Daytona in the seventh by Lou Boudreau and in Sanford's half of the inning, Pedro honored to left to score Lake and Mathe whom Kendrick had walked. Hevli's homer tied the League home run record for the season at 17.

Alarmed by the Giant rally, Daytona threw Wally Gaddis, Sanford nemesis, into the breach and he stopped the Giant batters cold. The Giant's Tom Cataldo, phone in center field with several sensational running catches that cut off Daytona hits.

Birmingham Team Wins, Loses One With New Orleans

By STERLING SLAPPEY
Associated Press Sports Writer

The home run busting Nashville Vols handed the Birmingham Barons a job to do yesterday when they won a doubleheader from Memphis.

These two victories meant that second place Birmingham had to win both their games from New Orleans last night to even keep pace with the league leading Vols. Birmingham couldn't quite make it. The Barons split with New Orleans, winning the first game 8-6 but losing the second 7-6 in the 11th inning. The long drawn out agony of that second game cost Birmingham a full game in the race to overtake the Vols and leaves the Barons two and a half games behind with only 20 days left in the season.

New Orleans got a bit of difference to the southern pennant race or even a first division berth but Chattanooga and Little Rock also divided. Chattanooga won the first game 10-7 and the Trava the second 4-1.

Mobile got a grip on third place with a doubleheader victory over Atlanta which will be hard for fourth place New Orleans to shake loose. The Bears whipped Atlanta 9-4 and 2-1.

Birmingham was outbatted badly in the first game but three errors by New Orleans second baseman John Merson and one by catcher "Mittell" made up for Birmingham's hitting. Six hits were the best Birmingham could do while New Orleans was on a tear with eleven.

New Orleans led the Barons 4-1 until the first of the seventh and looked like the Barons were going to lose a lot of headway in the race to catch Nashville. However, the Barons scored seven times that inning.

New Orleans got a two-run lead in the second game but Birmingham came back with four runs on Red Lavigne's grand slam home run. The Pelicans tied the game in the fifth and again in the tenth and finally scored their winning run in the 11th when two men were out.

Nashville again used home runs to whip Memphis. Tookie Gilbert hit his 27th and 28th and Carl Sawatski got his 39th hit over the fences of Little Sulphur Dell.

Bromwich, Sidwell Britain Blames Loss On Poor Approaches

MAMARONECK, N. Y., Aug. 22.—Great Britain never can expect to regain the Walker Cup until its golfers overcome the Americans' mastery around the greens, says Percy (Laddie) Lucas, captain of the visiting forces.

"We're going right back to England and start working on our wedges and short irons," the 33-year-old former RAF wing commander said today as he reviewed Britain's 11th setback in 12 cup clashes with the U. S. "That's where your fellows broke our backs."

The cream of Britain's amateur snottmakers were repudied, 10-2, in the renewal of the international classic last week-end over the foot course.

There was one consolation for the Britons as Uncle Sam's applicants won three of the four Scotch foursomes and seven of the eight singles matches.

The No. 1 American entry in both events was runner-up, Ronald White, 28-year-old English champion, trouper Willie Turnesa, the U. S. Amateur titleholder, and U. S. in singles. He teamed with Joe Carr to beat Turnesa and Ray Billows in the foursomes.

Jim Leonard, new coach at Villanova, once was grid coach of the professional Pittsburgh Steelers.

Washington, D.C. - Boy's happy Florida champion in the person of Dick Pope, Jr., of Cypress Gardens, Fla. who was snapped shilling into shore after successfully defending his National Water Ski Championship.

BALTIMORE, Md.—Boy's happy Florida champion in the person of Dick Pope, Jr., of Cypress Gardens, Fla. who was snapped shilling into shore after successfully defending his National Water Ski Championship.

Both Bromwich and Sidwell were far more impressive than Richard (Pancho) Gonzales, the national singles titlist, who, with the veteran Frankie Parker, bowed to two Australian aces in the semi-final round.

The other playing member of the American Davis Cup team, Ted Schroeder, spent most of his time last week practicing for the trophy competition. But he has been out of competition since he won the Wimbledon singles honors early last month.

The Australians appear confident that they will win at least three of the five Davis Cup engagements. Most tennis students who saw them and the three American selectees in action here concede that the Davis Cup is due for another long trip to the "down under."

Before that all-Australian championship match, Louise Brough and Mrs. Margaret Osborne DuPont won their eighth consecutive women's doubles titles by defeating Doris Hart of Miami, and Shirley Fry of Akron, O., 6-4, 6-0.

Other national doubles winners were Wilmer Allison of Austin, Tex., and Gil Hall of New York, in the men's veterans' division, Mrs. Hazel Hotchkins Wightman of Brooklyn, and Mrs. Marjorie Gladman Buck of New York in the women's veterans' competition and G. Dishi Matarer, Sr., and J. J. of Armore, Pa. in the father-son class.

Good Season Is Seen For Gators In Spite Of Its Tough Schedule

GAINESVILLE, Aug. 22.—(Special) On the eve of the 1949 football season, and at a time when folks throughout Florida are predicting Gator wins ranging from five to eight, it might be interesting to take a quick look at what outsiders say about Florida's opponents...

Let's take the good according to PIC Football Quarterly:

Citadel: Built around 21 lettermen, seven of them returning lettermen. Charlie Fabian, Walt French, Lucien Hickney and Pele Bollen expected to benefit by added year of experience... Six newcomers bolster the outlook at guards.

Tulsa: Twenty lettermen appeared on the three-deep roster at the end of the spring grind... Notable among the monogram men are a pair of starting guards, Roger Lelew and Arnold Burroughs... In the backfield will be E. J. Whitman and Bob Grayes, a couple of cool, ball-bugging half-backs who can also handle defensive assignments well.

Auburn: The attack is being shifted from the single wing to a standard "T" and it is probable that little Travis Hill will lead the way from quarterback... Guard replacements are the strongest, while tackle could be the weakest spot on the club... General lack of replacements is also slowing up Coach Brown's plans.

Vanderbilt: A ball club equipped with the tools of destiny and an uncertain future... The passing should be better as should the running, but there is weakness in the defensive bastions... Herb Rich is a grand competitor and could be tabbed for All-American.

Georgia Tech: Graduation has entirely cleaned out the 1948 football eleven with the exception of tackles... Guard is expected to be ordinary and center weak... Exceptional aid is expected from the freshmen of '49.

Birmingham: Coach Red Smith will take the line will take care of itself, especially the guards, but he needs someone to deliver the mail... Brightest sophomore prospect is Sonny Horton, 185-pound tackle... Coach Smith says Furman is strongest in depth and ability at guards, short on experience at tackle, no depth at end and new

Duck Stamp Bill Is Signed By Truman

WASHINGTON, Aug. 22 (Special)—On Aug. 13th President Truman signed into law the Duck Stamp Bill, announced Carl D. Shoemaker, Conservation Director, National Wildlife Federation.

The National Wildlife Federation has consistently supported this bill and similar bills in previous sessions of the Congress.

The Federation believes that newly acquired waterfowl refuges should be opened for public hunting under strict regulation of the Fish and Wildlife Service. The bill permits not to exceed 50 percent of the area of new refuges to be opened to such hunting, thus giving the average sportsman an opportunity to enjoy this sport along with those who have duck clubs around the borders of such areas.

In order to give more protection and more money for acquisition and administration, the bill increases the cost of the Duck Stamp from \$1 to \$2. Congressman Clark W. Thompson (Tex.), chairman of the sub-committee on Conservation of Fisheries and Wildlife, led the fight on the House floor and moved the suspension of the rules in order to secure its passage.

There was no recorded opposition and the bill was passed without dissenting vote. Thompson had his own companion bill in his committee but reported to the Senate bill introduced by Senator Johnson of Colorado in order to expedite its passage.

Michigan State College's football team average 16 first downs and 35.9 points per game during the ten game 1948 season.

Syracuse University's football team will play three night games this fall—all at home in Archbold Stadium.

New Villanova football coach Jim Leonard, who played under Knute Rockne at Notre Dame, won football letters both as a back and a lineman.

SPORTS IN BRIEF

BANZHALL
By ASSOCIATED PRESS

PHILADELPHIA—The second game of a National League double header was forfeited to the New York Giants when Philadelphia fans showed the field with pop bottles necessitating a decision in the ninth.

TENNIS

BROOKLINE, Mass.—Australia's Jack Bromwich and Billy Sidwell won the national doubles title by beating fellow countrymen, Frank Sedgman and George Worthington, 6-4, 6-0, 6-1. Louise Brough and Mrs. Margaret Osborne DuPont won the women's doubles by defeating Doris Hart and Shirley Fry, 6-4, 8-6.

PITTSBURGH—Lucie Davidson, Kansas City, won three titles in the national public parks tournament. Byron McManus of North Hollywood, Calif., won the men's singles crown.

SWIMMING

SAN ANTONIO, Tex.—Zoe Ann Olson, Oakland, Calif., won her 4th national diving championship at AAU meet.

GRAND RAPIDS, Mich.—Jim Greer, San Francisco, won the Grand Rapids open with a 72-hole score of 59.

MAMARONECK, N. Y.—United States amateur golfers retained the Walker Cup by defeating Britain's forces, 10-2.

BOXTON, Mass.—Capt. Bill Moseley, Portsmouth, Va., won the Inter-service championship with a 72-hole score of 282.

RACING

WINDSOR, Ont.—(\$2.00) world record of 1:56 for a half mile with turns in winning fallaway stakes at Waukegan.

WASH. STATE

WASH. STATE—The Washington State Seminoles will face Livingston State Teachers College at Selma, Ala., on Saturday, Nov. 5 instead of Friday, Nov. 4, as originally scheduled. Athletic Director Howard G. Danford announced the change this morning after receiving notice of the new playing date from Livingston officials. The game will start at 8:00 P. M.

Other games on the Florida State schedule this fall include: Wakefield field here, 8:00 P. M. Oct. 1; Mississippi College there, 8:00 P. M. Oct. 5; Erskine College here, 8:00 P. M. Oct. 18; University of South Carolina there, 8:00 P. M. Oct. 22; Mercer University at Jacksonville, 8:00 P. M. Oct. 28; Louisiana State here (Montgomery), 8:00 P. M. Nov. 12; Wakefield field here, 8:00 P. M. Nov. 19.

WEST POINT, N. Y.—Harold Dean Shultz will get a lot of work as an Army back when the football season rolls around next fall. The lad from Huntington, Ind., should be very happy because Shultz and work are synonymous.

He worked his way through high school because his father died when Hal was 11. Until admitted to the U. S. Military Academy he worked at various jobs. At 18 he helped around a filling station and although he started out by draining a car crankcase, cleaning the gears to look, he held the job for almost four years.

Shultz also had a morning paper route, labored on a construction job and played the saxophone in a dance band.

He was really tiny when he first entered high school at 12. He weighed 110 pounds and reached only five feet three inches. He was one of the smallest and weakest members of the Army football team.

More and Better Telephone Service for Florida

FAMILIAR SIGHTS in the cities, towns and rural sections of Florida are telephone folks building new facilities to make your telephone service bigger and better.

New buildings being erected... new central office facilities being installed... more poles, more cable going into use... more and more of what it takes to improve and enlarge the telephone network so vitally important to the growth and prosperity of the state.

Our postwar program of construction of new facilities is the largest in the history of the state. And it is producing abundant results—providing telephone for more and more people; improving service for all telephone users.

The demand for telephone service has been served more than before the war. So our construction program to meet that demand. And all this exciting activity is financed on a single goal—to give the people of Florida the best telephone service it is possible to provide.

A. E. Dunlap, Florida Manager

Some Insects Gain Immunity To Sprays Thought Deadly

By ROBERT E. GEIGER WASHINGTON, Aug. 22—(AP)—Tough insects have scientists baffled. They can't be killed by ordinary doses of the most deadly poisons.

The scientists want to know if they were born that way or acquired their ruggedness because they have to live in "tough neighborhoods."

Frank H. Habers of the Division of Insects Affecting Man and Animals, Agriculture Department, has studied everything he could find that has been written on the subject. He says these tough insects still are one of science's major mysteries.

Habers went into the private lives of many insects and discovered it is not unusual to find

tough characters. As far back as 1908 scientists found that among some insects that infested trees, called the San Jose scale, a few individual insects could survive lime-sulphur sprays.

After a few sprayings these hardy characters were the only ones left. They bred a whole generation of insects that couldn't be killed by the usual spray methods.

In recent years some hardy mosquitoes were found in the Pontine Marshes near Rome. They could live as long as 48 hours after being dusted with DDT. Other mosquitoes died within three hours.

If DDT resistance was acquired like a heavy smoker acquires a tolerance for nicotine the scientists would not be so puzzled. But the fly is capable of passing along this resistance to his children.

Habers says the mystery still hasn't been solved, but he has an idea he wants to try.

He's going to try breeding the offspring of fly weevillers—let's call them "Labe"—a single whiff of DDT without passing out.

Batches of flies would be allowed to lay eggs, then would get the DDT treatment. The eggs of those that turned up their noses would be used to raise the weak strain.

Those cocooned weevillers, of both sexes, will be turned loose with the ones hard to kill.

"Soon we should have a crop of cross-bred flies that will be neither tough nor weak, just in-between," he says.

That's the kind of a fly the scientists want, a push-over for fly poison.

"The fly is a friendly creature," he says. "It's very easy to turn out cross-breeds."

WHEN INFANTILE PARALYSIS cases in Springville, N. Y., increased from none last year to six by the end of this week, the town of 3,000 residents decided to do something about it. They hired a helicopter to help wipe out the fly and mosquito population in and near Springville. Here, the helicopter skims along at tree-top level engulfing a gasoline station with a DDT-fog, harmless to humans, but which brings quick death to insects. Stagnant pools, backyards and river, which runs through the town, were "covered" by the fog. (International Soundphoto)

Something New in Woolens Makes Them As Washable As Nylons

NEW YORK, Aug. 22 (AP)—Now the girls can wash their wool sweaters and their men's wool socks, and next day expect to find both just as shapely as ever.

Woolen garments, shrinkage-controlled and washable, shortly will appear in department and specialty stores throughout the nation. At least that's what Chertoff, Peabody & Co. promises us today. The company says at last it has found the way to do for wool what it already has done for cotton and rayon. It calls the new non-shrinking process for wool, Sanforolene.

Garment to be offered for sale this fall include sweaters, socks, wool coats, men's wool sport shirts, slacks, women's skirts, infants' wear and yard goods.

This comes at a time when the woolen fabric business is beginning to feel the competition from nylon. Only the tight market for nylon yarn has kept these sweaters from making greater inroads into the wool sweater market.

The new wool process also comes on the eve of National Sweater Week which the Foundation is sponsoring. The last week in September, when it plans to have a sweater girl contest across the nation.

The sweater business, the foundation says, is not to be sneezed at. Last year the industry produced more than seven million sweaters, and more than five and a half million similar garments, such as polo and business shirts.

The industry shipped nearly \$300 million worth of the items. The Foundation does not say how many sweaters are made up of wool and how many are made of synthetic fibers.

Most of them were sold along the Atlantic coast, but the Far West bought \$112 million worth, and even the hazy Southland took \$5 million worth.

The ladies, God bless 'em, bought nearly three million sweaters last year, twice as many as the boys did. But the males are buying more of the polo and business shirts, and more of the woolen sport shirts.

The Chertoff Peabody firm pioneered in fabric shrinkage control in 1927, and when it Sanforolene cotton garments. It brought out Sanforolene for rayon garments 18 months ago. And now

MURROUGHS PROFIT NEW YORK, Aug. 22 (AP)—Burroughs Adding Machine Co. reported net profit for six months ended June 30 was \$4,696,217 equal to 93 cents a share. This compared with \$6,336,611 or \$1.27 a share in the like 1948 period. Sales increased to \$45,626,414 from \$46,454,056 a year ago. The report noted 1949 net profit was after provision of \$100,000 for expenses in connection with introduction of new products.

The least used letter in the English alphabet is the letter "Z". It has been discovered by La Salle in 1671.

People Of Europe Are Pictured As In Hopeless State

By LUDD M. SPIVEY (Editor's note: The following is one of a series of articles by Dr. Ludd M. Spivey, President of the Southern Callers, Laborers and Unemployed in Europe. It is his fourth trip abroad.)

PARIS, Aug. 22.—(Special)—It is difficult for us in America to appreciate how the Europeans feel toward Russia. In the first place the people here are hopeless. They see no future for themselves individually or collectively.

Since they can see no economic or social revival in their own continent, they are turning their eyes to try Communism. Those who do not trust Communism are in constant dread of war. They are all aware that Russia could likely overrun all Europe within a few days.

Because of this constant fear of war the people with money are not willing to make long time plans. I have driven over the whole of Paris and I have not seen one building erected. I have been told that the French who have money to invest are using it in North Africa and South America.

The scarcity of money has produced a lot of gangsters in France. They are different from our gangsters. They don't kill and so far as I have been able to read, they don't get caught either.

Food and clothing are about double in price what they were when I was in France last year. It is difficult to find even a small restaurant where you can get a meal for less than \$3.00. If you want to go to the best places the check will be from \$12 to \$35. Many of the tourists are complaining, but they stay on just the same, and more are coming.

I have felt here a little more enthusiasm for Americans than I did last year. Perhaps the coming of the American tourist has helped. And too, I think there is an increasing awareness on the part of the whole of Europe of our economic and political importance.

A number of Frenchmen have told me that they did not believe that America fully realized what a big task confronted it. Most of them pointed out that they believed that time was working for Russia and not us. They are afraid that we will lose much of the bomb. Certainly the bomb would not save Europe. The Russians could likely take most of it before we could or would use the bomb.

The Europeans are constantly pointing out that the big cities of Russia are not important in a military sense. They say that we could destroy the factories and yet the Russians would fight successfully just the same.

Let's hope that things will turn for the better in the next five years. We live in a world where new forces are rising all the time. The economic and political climate will change and it may change for the better. Dr. Rainald Rockman, pastor of the Christ Methodist Church of New York City, is here in Paris speaking at the American Protestant Church. Dr. Rockman is honorary alumnus of Florida Southern. I took him to the little restaurant which I wrote about in another article. He agreed with me that it had the best food he had tasted in France.

Some of my friends are taking me to the high mountains of France for a week. Perhaps there I will get cool. I want to feel one cool breeze before I go to Spain. There the weather is extremely hot.

DOG'S MASTER ARRIVES HOME, BUT IS TOO LATE

REVERLY HILL, Calif., Aug. 21.—(AP)—Duffy the dog is dead. The five-year-old Cocker Spaniel succumbed several hours after arrival of his young master. The dog had been injured when his pet had been injured. He showed no interest in living without him.

When Charles (Chuck) Hoyler arrived at the vet hospital where Duffy lay, the dog lay thumping weakly. Tears welled in Chuck's eyes as he said "Don't die, Duffy, you're going to get well."

Chuck looked into his master's eyes and looked back. There he saw a few morsels of ground meat. The dog's food had been in sight since he seemed to be waking up. He evidently had held out just long enough to see his master. The dog was dead when the vet was called. Under the name of Dog's Master, Duffy had been in the news for several weeks.

SCOTT'S SCRAP BOOK

By R. J. SCOTT

McKibbin Talk

(Continued From Page One)

City of Sanford took over the water supply franchise and the reservoir, overhead storage tank, pumping station and field were built, said Mr. McKibbin.

Water was obtained from art wells which delivered water when compressed air was pumped to the bottom of the well. Water from the wells flowed by gravity through a redwood pipe line to the reservoir at French Avenue and Thirteenth Street and was pumped to the mains and into the elevated storage tank by semi-diesel engines. The tank has a capacity of 200,000 gallons.

The two diesel engines now operated at the plant were installed in December, 1937 and the air lift equipment was replaced by electric motor driven turbine type water pumps which are now operated at the seven wells south of the city and near the Orlando Highway.

The redwood line, he stated, gave too much trouble and in 1941 was replaced by a cast iron line. At the plant the water is cascaded over corrugated iron baffles to prevent the sulphur gas which then flows into the reservoir.

"In order to insure that fresh water circulates in all the pipes of a water distribution system, engineers usually plan it so that there are few dead ends as possible. This is done by looping the system, laying the pipe all the way around a block or up to a point where it can connect with another water main. In this way fresh water from the plant continually circulates in the system and the pipes nor to become stagnant.

Future engineering for Sanford's water system will extend this method of distribution, as well as place valves in the mains at strategic points. At the present time there are only a relatively few water main valves. When a main breaks in some part of the town it becomes necessary to isolate several blocks of the system and completely shut off the water before the broken section of the main can be repaired.

"This inconvenience many more people than is necessary and decreases the fire protection since the fire department in case of a fire would have to lay out several blocks of hose before beginning to fight the fire," Mr. McKibbin stated.

AN ARMY CORPORAL looks over the wreckage of two Mustang Air Force fighter planes that tangled in mid-air over North Haven, Long Island, New York, and crashed to the ground, killing two Air Force officers. Two other servicemen Lt. Joseph E. McCord (left) and Lt. Harold W. Manor are shown (bottom) after they bailed out to safety from the planes. (International)

George Barr

George Barr

(Continued From Page One)

Barick not only disallowed the catch Pafko said he made, Sawyer related, but failed to call time when Pafko set up a howl. Nelson ran all the way in for a home run that won the ball game.

In Chicago, the official scorer of the game said Barick called the play. Barr was chief umpire in that game.

Chicago's sign was set off when Ashburn claimed he caught Lafata's drive to left center. Barr said he didn't catch it.

Ashburn who usually is an outfielder of ball players also set his glove on the ground. DeLoach left fielder, second baseman and they stormed after Barr.

The other Phils joined in and so did the fans. The crowd filled Shibe Park. Bottles and fruit were flung on to the field. One man hurled as many as 100 bottles while Phils led him across the field.

The Phils tried to catch the crowd with announcements that their main address was...

Gov. Warren

(Continued From Page One)

Gov. Warren said a very wide range of bills will be introduced in the early hours of the special session of the Legislature and the special session of the Legislature will probably be held in the early hours of the special session.

Gov. Warren said he would not be in a hurry to call the Legislature into session until he had had a chance to study the bills. He said he would not be in a hurry to call the Legislature into session until he had had a chance to study the bills.

B-36 Probe

(Continued From Page One)

(D-NC) for comment on the advantages a hearing of this sort might give a potential enemy, the retired General replied: "I think that it is one of the unfortunate parts of an investigation that an attack on the ability of the B-36 to do its job forces the Air Force to give more and more information to the Congress and the public to get appropriations for the B-36. All that gives information to the enemy and the consequences are obvious."

"I think one of the greatest disadvantages of the country has been given by these mysterious charges against the B-36 which have resulted in dragging out into open view these figures on performance that should be highly secret."

Spaats said that "absolutely" he still stands by his decision that the B-36 is the best ship to carry the atom bomb.

Touche also put in a plug for a 70-group instead of the present 40-group air force.

"The security of the nation demands it," he said.

In response to other questions, Spaats said he was not difficult for a nation as large as Russia to cope with.

He said a mighty network of radio stations and observers would be necessary to track the ship. As to possible interception by fighter aircraft, Spaats said "five or six fighters would be required to down a B-36."

"If there were a formation," he went on, "many more fighters would be required."

Spaats claimed that the atom bomb carrier is heavily armed, and said it could absorb "a lot more punishment after it has dropped its bomb load than a bomber in the use of the ship, he suggested, "it should not be limited to either day or night flights."

Nature On Rampage

(Continued From Page One)

country. The fires destroyed entire villages and burned over 100,000 wooded acres.

Army firefighters said today they had the blaze under control. In the Pacific Northwest, violent earth tremors rocked a wide area but no casualties or major damage were reported. The quiet apparently centered in British Columbia's Skeena River valley but was felt as far south as Portland, Ore. A two-foot wave lashed the waterfront of Ketchikan, Alaska, moments after the shock hit the area. Power lines were torn down and water mains broken in some parts of Seattle.

The hurricane, probably increasing in size and intensity, roared toward the Florida coast, but observers said there was no immediate danger to the coast.

At 5 A. M. (EST) the blow, with 90-mile-an-hour winds at its heart, was centered about 440 miles east of Nassau in the Bahamas. It was moving west-northwest some 20 miles an hour.

In the drought-stricken west, hundreds of firefighters battling flames in the national forest areas of six states where at least six major fires still raged out of control.

Three swept through the Payette National Forest of central Idaho and three others through the Yellowstone National Park in Wyoming. Four firefighting crews were hospitalized.

In Quebec, fragments from exploding anti-aircraft shells missed army firefighters battling a brush fire on the army proving grounds at St. Maurice in Haut. The shells were buried under the trees. No injuries were reported.

Meanwhile, seismographs picked up severe earth tremors in other parts of the world.

At West Branch, England, seismologist H. J. Shaw recorded a sharp earthquake, probably centered at the eastern end of the Himalaya Mountains. The quake, which began at 10:15 P. M. (EST) Sunday, was so severe they disconnected three recording instruments.

In New York, the Fordham University seismograph recorded one of the heaviest earthquake vibrations in several months about 2,500 miles south of New York City. Seismologist said the vibrations were so intense actual location was difficult to determine.

Truman Speech

(Continued From Page One)

the arms program would go to the Atlantic Treaty countries, he said the Philippines and Korea will share like others "whose security is important to world peace."

"We must continue our aid to Greece and Turkey," Mr. Truman said. "We should help Iran maintain its firm stand against Soviet pressure."

Mr. Truman said military aid is "part and parcel" of the policy of helping European recovery. He conceded it was costly, but said "it represents an investment in security that will be worth many times its cost." And he said it is "the cost of peace."

Unless the democracies stand together to weld a defense structure strong enough to prevent another conflict, he said, they can be taken over "one by one."

"The United States' efforts to aid other countries with those of Russia, the President cited U. S. support of the United Nations and its aid to Greece and Turkey in 1947 which "prevented the interplay of both countries."

He said the Marshall Plan recovery program prevented general collapse in Europe.

The President applauded the signing of the pact of Rio De Janeiro binding North and South America together in a defense alliance and compared this with the North Atlantic defense pact.

"The next task," he said, "is to back up this principle with military assistance to European nations, and to certain other nations, which are unable to build up their defenses without outside help."

He said the help would be extended in three forms: (1) by aid to these nations in increasing military production; (2) by transferring to them essential military equipment; and (3) by sending experts to help train and equip their military forces.

The President praised the VFW for its contribution to international policy including its support of the North Atlantic Treaty. He spoke of his pleasure that the collapse of Europe, "prevented by our other Atlantic Pact countries."

Without America's allies in the defense of our world, Mr. Truman said, "we would be alone."

"We and the United Nations principles must be supported by national action, such as all nations should do," he said.

He said the economic recovery plan "will be the building block of a new world order."

Public Debt Rises Above \$255 Billion

WASHINGTON, Aug. 22.—(AP)—The public debt, rising as the government overspends its income, has climbed above \$255,000,000,000 for the first time since February, 1948.

Treasury data showed today the debt totaled \$255,076,846,000 on Aug. 16 and was on its way up. The government already is \$1,874,700,000 in the red for the 1950 fiscal year, which began July 1, and apparently is headed deeper into the hole for the full year as a whole.

In rounded figures, government spending so far this fiscal year amounts to \$5,341,000,000, or about \$300,000,000 more than at this point last fiscal year.

Receipts from taxes and other sources so far this fiscal year total \$3,466,000,000 and are about \$1,875,000,000 less last year.

Citizens Income Hits New Peak In U. S.

WASHINGTON, Aug. 22.—(AP)—The individual income of the average American reached a new high of \$1,410 last year as compared with \$1,319 in 1947.

A report issued by the Commerce Department this week-end covered individual income—as distinguished by the take of corporations—from all sources.

The dollar total of \$206,000,000,000 it showed for 1948 bettered 1947 by 8 per cent, but a gain in population trimmed the individual average back to 7 per cent.

The largest regional gain was 12 per cent credited to eight central states, Illinois, Indiana, Iowa, Michigan, Minnesota, Missouri, Ohio and Wisconsin.

The smallest increases, 6 per cent, were in the six New England states, Connecticut, Maine, Massachusetts, New Hampshire, Rhode Island, and Vermont; and four far western states, California, Nevada, Oregon and Washington.

The only two declines reported were 4 per cent in North Dakota and 1 per cent in Kansas.

From a per capita or average standpoint, New York led the country with \$1,891 in 1948 while Mississippi was at the bottom with \$768.

Threat Of War

(Continued From Page One)

is a fraud. We reject any plans for a dictatorship over the people."

Russian-Yugoslav relations worsened last June when Russia ceased backing Yugoslav claims to Austrian territory at the Paris Conference of the Big Four foreign ministers. Yugoslavia's Tito said his double crossed her in order to get the Western Powers to agree to give her the territory.

The Communist government had long ago given up on the idea of getting Austrian territory to settle the claims, but had wished to place the responsibility for the decision in Moscow's lap.

The Communist strike offensive against the Yugoslav government, which remained dead to Red pleas for further walkouts. Strikers in many industries were reported to have taken to work. These included bakers, brewery workers, dock workers and lumberjacks.

The Social Democratic (Socialist) government of Premier Karl A. Fagerholm charged that the series of walkouts was an attempt to prepare Finland, which lives in the shadow of Russia, for a Communist coup.

The Communist timetable called for more than 100,000 of Finland's 500,000 unimpaired workers to be on strike today. The government has not yet been able to compile an official report on the number who actually have left work, but employer estimates place the total at 27,000.

duction in Western Europe and said that to continue its momentum "the obstacles created by the fear of military aggression" must be removed.

"We have learned that the defense of the United States and the defense of other freedom-loving nations are indivisible," Mr. Truman went on. "We have learned that we can serve our country best by joining in the common defense of the rights of all mankind."

Strike Ends

MADISON, Wis., Aug. 22.—(AP)—Ratification of an agreement ending a weekend strike of 40 negro employees of a food products firm was announced today.

Atty. M. Michael Eslin of Milwaukee, representing the strikers, said the agreement was signed in the office of Dist. Atty. Robert E. Conroy in Madison.

James H. Beck, an official of the May Food Products Co. of near Madison, said the agreement was signed in the office of Dist. Atty. Robert E. Conroy in Madison.

Prize Winner

Tito Offers To Settle Row With Russia

No Knee-Bending Is Seen, However, In Latest Of Seven Notes To Kremlin

BEGRAD, Aug. 22—(AP)—Yugoslavia expressed willingness tonight to reach a settlement with Russia on "all disputed questions" between the two warring countries.

In a new note to the Soviet government Yugoslavia told Moscow that Premier Marshal Tito was willing to end the bitter fight with the Kremlin.

At the same time, Yugoslavia served a stern warning to Russia's rulers to keep their hands off the internal affairs of this Balkan Communist country.

The note was the first cooling word in a war of words that had become white hot in the past two weeks. It was the seventh note in an exchange between Belgrade and Moscow.

Yugoslavia formally expressed her "readiness to approach the solution of all disputed questions with the U. S. B. R. in accordance with the spirit of the international obligations undertaken by both governments."

There was no immediate indication of what Moscow's reaction would be to this extension of the overture which has been at odds with the Kremlin for 14 months.

The Moscow-directed Cominform (Communist International Information Bureau) expelled Tito and his Yugoslav Communists for nationalistic deviations from what Russian leaders regard as orthodox Communism. The Russians have called on the Yugoslavs to overthrow Tito. He did not change his position, however.

There was no attitude of knee-bending in today's Yugoslav note, however.

The Yugoslav government understood that no pressure from the Russians was to be exerted.

Previews '50 Pearls

ONE OF THE feature attractions at the Jewelers' Exposition at New York's Waldorf-Astoria is Miss Roma Paige, wearing a swim-suit made up almost entirely of pearls. The gems and pearls displayed at the show are valued at approximately \$35,000,000. (International)

City Authorizes Furtherance Of Housing Project

Higgins Announces Public Housing Officer Coming Here

The City Commission last night endorsed a proposal by Edward Higgins, manager of the Seminole County Chamber of Commerce, for obtaining a public housing project in Sanford, for the building of 50 units for white and 100 units for colored residents.

Negro Editor At Communist Trial Hits Capitalism

NEW YORK, Aug. 22—(AP)—Federal Judge Harold R. Medina today told jurors in the Communist conspiracy trial that the "stage of the trial" now in its seventh month, the trial is one of the longest criminal trials in American history.

Attorney General Tom C. Clark has estimated it will cost "roughly \$1,000,000."

Boyle Re-elected To Civil Service Board

Civil Service employees of the City re-elected L. F. Boyle Friday as a member of the Civil Service Board for another two-year term.

N. O. Garner, assistant secretary of the Board, announced today.

Mr. Boyle received 100 votes, with none against him, making the vote unanimous. Although some of the employees were away on vacations the vote was the heaviest ever cast in a Civil Service election in Sanford, said Mr. Garner.

"The Civil Service Board of the City of Sanford," he stated, "is according to information that I have received, the only board in the State having a state senator on it, and incidentally, having its assistant secretary as a member of the State Executive Board."

"Considerable enthusiasm was shown during the election," he declared, and satisfaction was shown over the large complimentary vote given to Mr. Boyle who has served so faithfully since Civil Service was inaugurated in 1944."

ODOM TO FLY

CLEVELAND, Aug. 22—(AP)—Capt. Bill Odom, second-in-command of the National Air Force here Labor Day.

LIE DENOUNCED

WASHINGTON, Aug. 22—(AP)—The Japanese-American Citizens League today accused a British propaganda leader of spreading lies about the Japanese attack on Pearl Harbor on the eve of the Japanese attack.

In an open letter to H. Carl Smith, general secretary of the League, the Japanese-American Citizens League (Temperance) said that the British propaganda leader had been spreading lies about the Japanese attack on Pearl Harbor.

BEKING WITH FRAUD

ATLANTA, Aug. 22—(AP)—After two weeks of probing, special state Deputy George Shaw reported today Georgia's House Judiciary "is reaching the fraud and corruption."

Show also announced that state files on "one of the most notorious racketeers" in the state, who has been known as "Boss" [redacted] had been taken out of his home.

Murray Says Steel Views Insult Truman

Randall's Statement Declared Untrue: John L. Lewis To Negotiate Contract

NEW YORK, Aug. 23—(AP)—Philip Murray, president of the CIO Steelworkers Union, declared today that statements of steel industry executives before a presidential fact-finding board were "an insult to the President of the United States."

Murray, beginning the union rebuttal to the steel companies presentation, devoted his opening statement to an answer to Clarence B. Randall, president of the Inland Steel Co. The union seeks a 30 cents-an-hour package, including pension and insurance benefits.

"Mr. Randall impugns the motives of the President in establishing the steel industry board," said Murray, who also is CIO president. "He charges the President with taking 'extra-legal action' at my request and implies that the President did so because of 'political alliance' and obligation to me."

"Mr. Randall's statement in this regard is an insult both to the high regard in which the person of the President of the United States is held by the American people and to the American people themselves."

Murray added that "I cannot of course presume to answer for the President. I can say for myself there is no truth or substance in this statement."

Randall, who was the first industry witness before the board, declared that President Truman, in establishing the fact-finding procedure in the dispute, had proclaimed government wage fixing and had started on the road to a "Socialist or corporatist state."

The Inland president said the union had not bargained in good faith with the steel companies, and "through political alliance with the steel companies, with the government, with the public and with the American people, he has been able to persuade the White House to step in."

Mr. Truman secured a 60-day extension on this case.

Rev. Zimmerman Tells Rotary Of National Guard

Chaplain Sees It As 1 Of Few Bastions Of States Rights

Declaring that "war is a nasty and brutalizing business" and never allows anything, the Rev. H. L. Zimmerman spoke to the Rotary Club yesterday on "The National Guard" and said that there is a time when war is the only way "to safeguard our advancing but stumbling civilization."

Posting out that the regular Army consists of some 600,000 men with an average cost to the government of \$16,000 each, Rev. Zimmerman said the National Guard consists of 365,000 men with an average cost of \$800 each, indicating the tremendous saving to the taxpayers of the National Guard system.

He explained that the National Guard is one of the few remaining "bastions of States Rights" and called attention to the attempt made at the close of the "great war" to nationalize it. This attempt, he said, was defeated through the efforts of the National Guard Association.

"The National Guard is a citizen army," he said. "Its 'top brass' is made up of men who are not only professional soldiers, but they are also businessmen and professional soldiers. Thus the National Guard is in a sense a citizen army and are ready to go into active service at moment's notice."

Rev. Zimmerman traced the history of the 16th Regiment from its service on the Mexican border, through the first World War to the South Pacific campaign during the second World War. He said that it was one of the outstanding units in the Army and added that two of its battalions received Presidential Unit Citations.

He also reviewed the recent assignment at Fort Jackson and the National Guard camp of today with one during the past war years, adding that the saving is much more rigorous and complicated now than then.

"My Hacienda," Wester-Connolly Song Published

A musical composition, "My Hacienda," a Mexican love song tango, with lyrics by Willard Connolly and music by Harry Wester, has been published by Mills Music, Inc. in New York City, according to word received today by Mr. Connolly.

The composition was introduced by Wendy Barrie, well-known actress and television actress, to the publishing firm when she returned from Sanford to New York winter before last.

The front cover is finished in deep red and white and features a picture of Miss Barrie in the title role. The piece was broadcast by Walter Kimble over Station WDBO some time ago. Mr. Connolly and Miss Barrie formulated their plans for the introduction of the piece during an interview at the Mayfair Inn. She then contacted Norman Waremud, musical director of Mills Music, Inc.

Mr. Wester, composer, lives with his mother in Leno, N.Y. His father, the late E. Wester, came here from Providence, R. I. and was a violin maker who learned his trade in Sweden, where his other son Birger, a Lakeland piano dealer and violinist, was born. The Wester family moved north for several years during the early thirties and Mr. Wester and his brother, Birger, studied music in New York and Boston. He served with the Third Army overseas during the war, for some time as a chaplain's assistant in France, and later with an armored division in the drive into Germany and Austria. Mr. Wester is now engaged as pianist for the Paul Coble orchestra and is a piano tuner.

Mr. Connolly, who wrote the lyrics for "My Hacienda" has lived in Sanford since 1938 at the home of Mr. and Mrs. Louis West at 108 East Eighteenth Street. He has been a husband with long orchestras for many years. He came to Florida from Cleveland, O. and joined the Sanford Herald staff as a reporter during the early part of 1945.

Latest Photo Of President Truman And Cabinet

PRESIDENT HARRY S. TRUMAN poses with members of his Cabinet following a meeting at Blair House in Washington. Shown (left to right) are: Defense Secretary Louis Johnson, Secretary of State Dean Acheson, President Truman, Vice President Alben Barkley, Treasury Secretary John W. Snyder, Attorney General Tom C. Clark, who has been named a Supreme Court Justice. He will be succeeded by Earl Warren. Interior Secretary John A. Ladd, Agriculture Secretary Charles Brannan, Commerce Secretary Charles Sawyer, Labor Secretary Maurice Tobin. (International)

Business Looks Up As Children Prepare Wardrobes For School

NEW YORK, Aug. 23—(AP)—It costs money to get your child ready for school as it you don't know. And the nation's merchants, as well as many manufacturers, are hoping you'll look up the young sprout this month and next with plenty of new clothes, shoes and accessories.

Prices are slightly lower than last year in most stores, but you still may pay some mighty fancy prices if you want your child to wear fancy clothes.

Usually it costs a little more to outfit a boy than a girl. It takes more and sturdier leather, wool and cotton to hold junior in line.

Back-to-school promotions already have started in retail stores across the land. Good sales totals are reported in many places.

They're not a "fad" to teenage fashion stores in Dallas, with models displaying everything from handmade pinpoints to shopping bag net formalities for the high school holiday dresses.

Both in Oregon and in Brooklyn, store report firms are in the fastest selling color in the back-to-school promotions. The South reports a sale of \$2,000,000 and jobs to those going away to school.

But the older pupils aren't the important customers by any means. Some Boston merchants estimate it would cost \$40 to fit up a boy for first grade, if the clothes he already has in the closet don't meet his needs. Quality is a factor, clothes would cost \$40.

Thanks to big baby crops during the war, there'll be more children going to school this year than ever before—more than 30 million boys and girls under 18 years of age are expected to enter the classrooms. It's the largest potential retail market that the outfitters of the young ever have had.

Figuring out how much you're spending this fall on your own wide and not und multiply that by 30 million, and you'll see why merchants around the country look for their business to get a shot in the arm next month.

It'll be a bigger market next year, and the next. The largest baby crop of all was in 1947.

As it is, state governments spent \$2.4 billion on schools in the year ended June 30, 1948. (Continued on page six)

Destruction Is Spread Over U.S. By Forest Fires

MIAMI, Aug. 23—(AP)—The season's first Atlantic hurricane moved northward about 300 miles in the state, he revealed, but as a new "area of suspicion" was reported east of Puerto Rico.

Flames from Roosevelt Roads, Pinar, and Rindley Field, Florida, were sent to the vicinity of the Virgin and Lee ward islands, about 1,000 miles northeast of Miami.

Pairings Released In Men's Singles Of Tennis Tourney

Pairings in the men's singles of the Sanford Tennis Tournament, sponsored by the J. C. Hutcheson Club, were released today by Mrs. P. M. Tangles at the Mayfair Inn.

Women of each match will be determined on the basis of the quarter finals on Aug. 24.

The pairings are as follows:

First Bracket
Gene Tucker vs. Harold E. Herberich vs. "Duh" Epps
J. Hamilton Bistee vs. Joe McCallin.

Second Bracket
Clay Williams vs. Bobo Dean.
Jim Higgins vs. C. V. Proctor, Jr.
Frank Bowen, Jr. vs. Ray Fox.

Play will begin today and players are urged to complete all matches as soon as possible, said Mrs. Tangles. "Contact the person you are to play," she advised, "and post your scores on the bracket sheet posted on the Mayfair Court."

STATES RIGHTS

WASHINGTON, Aug. 22—(AP)—William H. Talbot, national committee chairman for Louisiana, said today if the Democratic National Committee kicks him out, he will take his fight back home and "slap them down."

Talbot is one of the States Rights national party leaders seeking to oust because of their support of the States Rights presidential ticket in 1948.

WHITE GIRL RAPE

NEW YORK, Aug. 23—(AP)—Two 16-year-old negro youths were called into court today on charges of raping a white girl after beating and robbing her boy companion in Bronx Park.

The youths confessed to rape, assault and robbery after being traced through the contacts of an abandoned child case. Assistant District Attorney George Zelnick is prosecuting.

Tell If 'Contract Pressure'

TWO ARMY OFFICERS, shown above, told the Senate "five months" progress in Washington of being given for action on the "Contract Pressure" by Gen. Alden Walt, suspended chief of the Army. They are Major John Gay (left) and Col. John A. [redacted] (right), chief of the technical command of the Army. Gen. Walt was reported to have been "suspended" from his post on Aug. 18, 1949.

House Group Votes U.S. Arms Aid To Greece And Turkey

Henderson Tells Lions Club About Needs Of State

WASHINGTON, Aug. 23—(AP)—The combined Senate Committee on Foreign Relations and Armed Services today approved \$29,010,000 of arms aid for Greece, Turkey, Iran, Korea, and the Philippines.

The committee delayed until later this week a decision as to how much military assistance shall be given European members of the Atlantic Pact under President Truman's army aid program.

Chairman Connally (D-Tex) of the Foreign Relations Committee announced that the combined groups approved \$11,170,000 for Greece and Turkey, and \$27,640,000 for Iran, Korea and the Philippines.

Similar amounts have been approved previously by the House, which on July 14 approved \$1,160,990,000 asked by the President for European members of the Atlantic Pact.

Meanwhile the Air Force gave Congress an estimate of \$1,022,000,000 for the cost of the B-36 bomber program.

The House passed out in testimony by the General Electric Co. regarding the proposed investigation of the General Electric Co. regarding the production of atomic energy.

Ranking member of the House Armed Services Committee, investigation of the General Electric Co. regarding the production of atomic energy.

Ranking member of the House Armed Services Committee, investigation of the General Electric Co. regarding the production of atomic energy.

Population Growth Of 800,000 In 10 Years Is Revealed

Problems faced by the State Legislature in meeting the needs of Florida as its growth increases were today outlined to members of the Lions Club by Charles Tom Henderson of Deland, assistant to Attorney General Richard Egan and son of Mrs. E. M. Carroll of Sanford.

He was introduced by Randy Kirchoff, president of the Deland Lions Club, who pointed out that Mr. Henderson graduated from high school here, is a graduate of Stanford University where he later became a professor, and attended Yale Law School.

Tracing the growth and need of increased government services as agriculture developed in Florida, Mr. Henderson pointed out that Florida was once the outstanding agricultural part of the state. With the development of commercial fertilizers the center moved to south Florida, he said.

The state's population has increased from 2,800,000 in 1900 to more than 4,000,000 today, and during the past 10 years 800,000 additional people have made their homes in the state. More than 1,000,000 people live in the state annually, he pointed out.

Good government has had to follow the increase in population, and as men have planted crops government support has been needed in the form of good roads to get crops to market. Today, he declared, Florida has 12,000 miles of highway of which 8,000 are paved and has produced more than any other southern state. The average farmer in the state, he revealed, has an annual income of \$4,700 compared with the \$2,000 of 19 years ago.

Value of agricultural crops are \$200,000,000 a year and more in the state, totals more than two and a half times the total of 1930.

Paint Firm Given 'Second Chance' To Bid On State Tags

TALMADGE, Aug. 23—(AP)—The Cabinet today was charged with giving the Paint Firm a "second chance" to bid on state tags.

The accusation was made by Douglas McCoy, representative of the Harris Standard Paint Co., when he testified before the House Committee on Finance and Taxation.

The contract was awarded to the Glidden Company last week on the recommendation of Governor Warren who produced a letter in which the firm promised to post a bond guaranteeing its product would meet state specifications.

Mr. McCoy also claimed that his company were given the usual five percent preference allowed Florida firms; his bid would be \$11,000 less than the Glidden Company.

COMMITTEE STANDS

MIAMI, Aug. 23—(AP)—The Miami Daily News said today the Senate Finance and Taxation Committee "will stand as it is" at the special session of the Legislature.
