Kiddies Enjoy Jaycee Egg Hunt

Easter Dance Set April 6 To Benefit Hospital Auxiliary

More than 200 children turned out for the Jaycee Easter Egg hunt in Fort Mellon Park yesterday afternoon.

A vegetable Easter Parade of youngsters gathered on the opposite side of the street from the area in which eggs were hidden awaiting the opportunity to dash into the sections designated for certain aged children.

More than 25 dozen eggs were hidden where the children could find them. Of the more than 25 dozen eggs, 20 were plainly marked "Prize" and could be swapped for one of as many gifts arranged for by the Jaycees and contributed by generous Sanford Merchants.

The Sanford Police Department was on hand to control the traffic around an area where so many children had gathered for the event.

Children wearing in prize eggs were: Donald McMurray, Walter Frisque, Kelly Nelson, Junior Spears, Dolores Seymour, Warren Miller, David Moore, Patricia Foley, Steve Rahn, Casey Dunn Jr., Denise Barracough, Arthur Lee Miller, Curt Foley, Mark Raburn, Elizabeth Oden, Delores Gale Peters, Bobbie Mason, Jack Bohannon, Jimmie Buckler, Susan DeKie, Tommy Crowe, Peggy Powell, Diana May, Patricia Ann Benton and Carol Hall.

An interesting moment in the Jaycee Egg Hunt was when Dolores Gale Peters, 18 months old and Bobbie Mason, 20 months old turned in prize winning eggs.

Nine Jaycees were on hand for the event headed by chairman of the committee Dave Thrasher. Those assisting in the Junior Chamber of Commerce Annual event were: Manny Cannel, Tony Rusai, Bob Kilpatrick, Melvin DeKie, Jack Barracough, Jim Buckler, Ernie Shiffert and Carl Overstreet.

Tickets will be sponsored by the Seminole County Jaycees of which A. E. Peterson Jr. is president with Garfield Wilson serving as chairman of publicity. Tickets may be purchased at the Jaycee Information Booth at the corner of Park Ave. and Seminole Blvd.

Serving with Mrs. Roundhill on the finance committee, in addition to Mrs. Epps are Mrs. A. B. Peterson Sr., Mrs. H. B. Pope, Mrs. J. E. Gradick, Mrs. John E. Higgins, Mrs. E. H. Laney, Mrs. John Schirrad Jr. and Mrs. V. C. Messenger, publicity chairman.

Mrs. Epps announced that in addition to round dancing, square dancing will be enjoyed as well as a program of entertainment to round out an enjoyable evening for those attending.

Proceeds of the dance will be used to purchase much needed equipment for the new hospital and it is hoped by those planning the affair that the public will give generously wholeheartedly to make this first annual dance a success.

Proceeds of the dance will be used to purchase much needed equipment for the new hospital and it is hoped by those planning the affair that the public will give generously wholeheartedly to make this first annual dance a success.

Residents Invited To First Federal Open House Friday

First Federal Savings and Loan Association will hold an open house this Friday from 7 to 9:30 p. m. and residents of Sanford and the surrounding area are invited to be present.

The local thrift organization is joining over 500 other similar institutions throughout the country in the observance of the 125th anniversary of the founding of the savings and loan industry in the United States.

Visitors to First Federal on Friday evening will have an opportunity to watch the machine bookkeeping operation designed for fast, accurate accounting. The newest in microfilm also will be an interesting feature of the evening.

There will be favors for the adults and balloons for the youngsters. It was said by George Touhy, executive vice president. Refreshments will be served, also.

The anniversary celebration, Touhy said, is to afford the public another opportunity to get better acquainted with the Association, how it operates and channel funds into home construction.

The initial savings and loan association was formed in April, 1811 with a loan of \$75, grew steadily until 1880 when the industry reached a pre-depression peak of almost \$6 billion.

Total assets in 1934 were \$10 billion but in the 12 years since then they have climbed to four times that figure.

Jaycee Caucus Set In Longwood April 8

The Winter Park Jaycees will be host to the 4th District Jaycee Caucus April 8th, 3 p. m. at the Longwood Hotel, Longwood, Florida. Francis Jackson, Winter Park Jaycee President said today.

There are several items of importance on the agenda for this meeting, including the election of the 4th District Vice President for the coming year.

Attendance prizes arranged by the Winter Park Jaycees will include a four day trip for two to Nassau by Mackey Airlines with three nights at the beautiful Royal-Elizabeth Hotel. A chicken dinner to be served at 5 p. m. will be included in the registration fee of \$2.75.

Delegations are expected from Jaycee clubs in Orlando, Apopka, Maitland, Ocoee, Lake City, Oviedo, Sanford, DeLand, Daytona Beach, Palm Bay, Titusville, Kissimmee, Lake Wales, and other nearby communities.

Picture Of Local Man To Be Placed In Training Room

A picture of a Sanford man, captain of the University of Florida Gator team in 1917, will be hung along with those of other captains in the training room, according to Sam Landford, University of Florida trainer who made an appeal today for pictures of former captains not in their files.

The appeal for pictures, made known today, included one of E. A. Wilkinson.

Mrs. Wilkinson, contacted by The Sanford Herald, said that she had a picture of the former football captain in the yearbook for 1917, and would gladly allow its use.

Easter Seal Funds Reported At \$1,014

Easter Seal campaign funds were reported as \$1,014 Friday at noon.

Mrs. Harold Appleby, chairman of the Seminole County Easter Seal campaign fund said that the large contributions have been coming in wonderfully well, many of them from contributors who have never donated to the fund at all.

The nationally designated slogan "Fight Back at Cancer With a Check-up and a Check" was adopted at Friday's meeting and a comprehensive survey of all campaign activities checked with those present at the meeting.

The Special Gift campaign starts today and will come to a close April 15 at which time volunteer workers will report to Harold Kastner, president.

Following the distribution of educational literature for the campaign workers, reports were heard from Don Bales, General Chairman, Rayburn T. Miller, Irving Pryor and Miss Myrtle Wilson.

Each health chairman of the Seminole County Home Demonstration clubs in the outlying communities will participate in the Educational and Fund Raising crusade against one of man's most cruel enemies, cancer.

Also present at the meeting Friday were: Myron Rock, Wilson Horne, Jim Hunt, R. A. Billhimer, Elton J. Moughon Jr., A. D. Saunders, Rex Packard, T. N. Anderson, W. C. Hutchinson, Miss Dorothy Powell, and Mrs. Harold Kastner.

Miss Ruth Zimmer, Field Representative of the American Cancer Society, and Mrs. Julius Dingle, Chairman of the Seminole County Chapter, outlined the aims and functions of the American Cancer Society and also informed the workers on "where the dollar goes."

County To Receive \$44,000 Under Racing Allocation

Seminole County receives \$44,000 from the office of the State Comptroller from the fourth monthly distribution of the current racing season. A total of \$44,000 goes to each of the 67 counties of the State. This distribution includes \$38,000 from revenue received from jalisco, horse and dog tracks, and \$6,000 from the additional tax on dog tracks enacted by the 1933 Legislature.

This year's distribution to counties is \$1,874,000 more than last year's distribution at this time. Last year \$4,700,000 had been distributed to the 67 counties, while for the same period this year a total of \$8,376,000 has been distributed.

Each of Florida's 67 counties has already received more money under the racing allocation this year than they did during the entire racing season last year. Last year's total distribution to counties amounted to \$127,300 per county. With this month's distribution each county will have already received \$128,000.

Because of the successful tourist season and increased racing it appears that racing revenue for this year will exceed original estimates of \$18,400 per county from both racing taxes.

Warren Rally Set Tomorrow Night

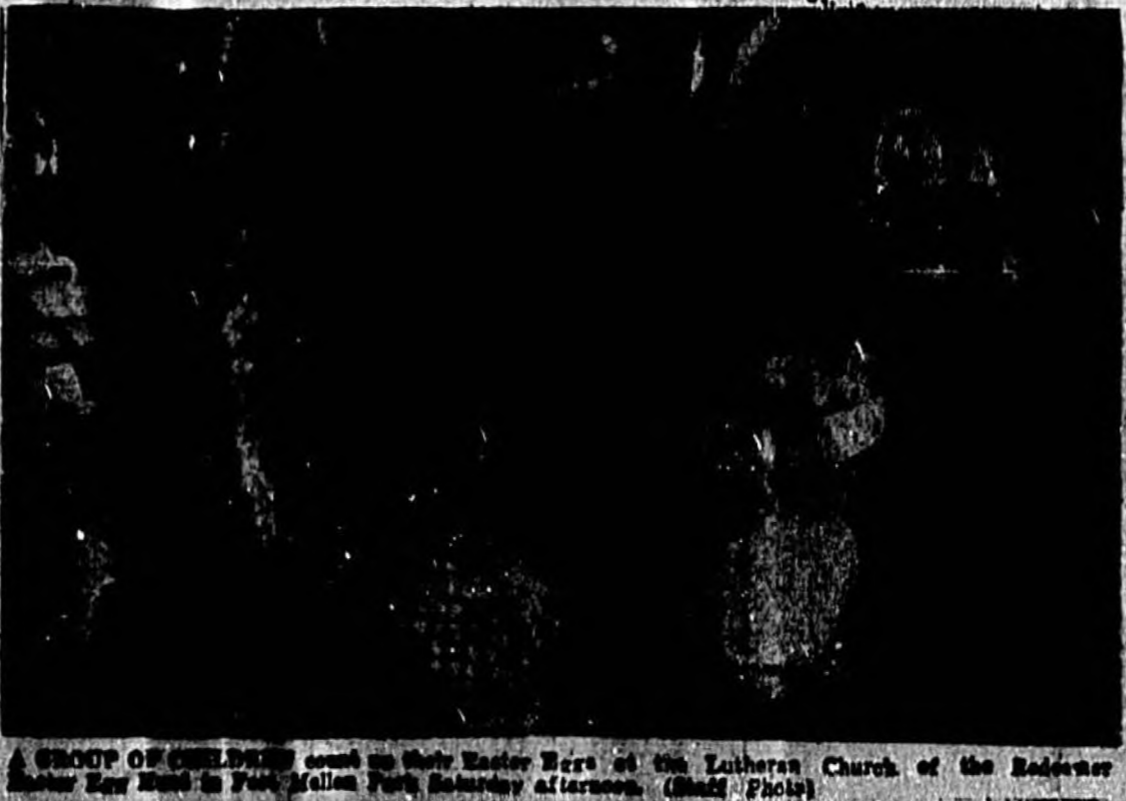

A Fuller Warren for Governor rally will be held tomorrow night at the Educational Building on Commercial Ave. at 7:30 p. m., according to Earl Higginbotham, Seminole County Fuller Warren for Governor campaign committee chairman.

Higginbotham said today "all Fuller Warren supporters and anyone interested in his campaign, are invited to attend tomorrow night's meeting."

Rothermel Reveals Growth Of Southern Bell In Sanford

Mack, Williams Ask Rotarians Hear Talk

Florida Highway Patrol Trooper T. Mark Mack and Patrolman Carl Williams today appealed to Sanford and Seminole County citizens to watch out for the kids as they drive along the streets and highways of our City and County.

"April will usher in some mighty fine playing and walking weather here in Central Florida," said the officers, "which means that more and more kids will be swarming all over the streets, playgrounds and highways and just about everywhere to play."

"We all know that it is hard to control what a child will do, so let's do the next best thing and watch the driving behavior of thoughtfulness of the grown ups," suggested the two officers.

"The child who is a good student of safety in school and at home, forgets all about the rules of safety when his play ball rolls out into the street," they declared.

"Then, it is our responsibility that we watch out for the kids and don't let any misfortune, traffic-wise—overtake them. It behooves all of us to operate all set for any emergency when we drive around where kids might be, and in warmer weather, you can expect them almost everywhere."

"It is a bleak picture in read about," said Mack and Williams, "but in 1934 there were 1,850 child pedestrians under 16 years of age killed, 224,000 injured. Out of those killed, 100 were injured, were in Florida and some of them maybe from our own community."

"Let's drive for two while on the streets and highways," said Trooper Mack and Patrolman Williams, "ourselves and the kids who might dart in front of our car."

Group To Discuss Letting Of Contract

A meeting of the General Henry Shelton Sanford Memorial Library and Museum Association members will be held Tuesday afternoon at 4:30 to discuss the awarding of the contract for the new building to be constructed in Fort Mellon Park.

The meeting will be held in the Educational Building on East Commercial Avenue.

All persons interested in the General Sanford Memorial Library and Museum, which is proposed for the housing of an extensive library and many pieces from the General Sanford home, are invited to attend the meeting.

The Building Committee, said General J. G. Hutchinson, will be in a position at the time of the meeting to make recommendations in regard to the awarding of the contract.

Contracts were opened Friday architect, John Burton, with A. K. Shoemaker, Jr., the low bidder.

Rev. Hartsfield, Frequent Visitor Here Dies Friday

The many friends in Sanford of the Rev. Jesse F. Hartsfield of Blakely, Ga., will regret to learn of his death in Jacksonville Friday.

He and Mrs. Hartsfield had been visiting their son and daughter-in-law in Jacksonville at the time of his death.

A retired Baptist minister, the Rev. Mr. Hartsfield was born in Tallahassee, March 17, 1880. He just celebrated his 55th birthday along with his granddaughter Pat Hartsfield. He was pastor of the First Baptist Church of Eastman, Ga., until his retirement.

Survivors include: his wife, Mrs. Ethel S. Hartsfield; one son, Lawrence Hartsfield, Jacksonville; and two grandchildren, Patricia and Lawrence Hartsfield Jr., Jacksonville.

The Rev. Hartsfield will be buried at Jefferson, Ga. today. He visited here on numerous occasions with Mr. and Mrs. Frank Meisch.

Tucker, Bauman To Attend Confab

Practically every bank in the state will be represented when bankers of Florida convene for their 62nd Annual meeting to discuss affairs of state, banking, finance, economics, and politics, it was announced today by C. B. McLeod, President of the Florida Bankers Association and President of the Bank of Crestview.

Attending the meeting from Sanford will be Robert L. Bauman, President of the Sanford Atlantic National Bank and T. E. Tucker, President of the Florida State Bank.

The Annual Convention will be held at the Hollywood Beach Hotel in Hollywood, on April 12, 13, and 14. Between 800 and 900 bankers and their wives and guests are expected to attend.

Headliners for the Business Sessions, in addition to President McLeod, include such noted personalities as Fred F. Florence, President American Bankers Association and President Republic National Bank, Dallas, Texas; Ray E. Green Bank Commissioner for the State of Florida, Tallahassee; and Gaylord A. Freeman, Jr., Vice President First National Bank, Chicago, Illinois. In addition, reports of activities and accomplishments of the Association during the past year will be rendered by all Committee Chairmen. Governor LeRoy Collins is expected to attend a portion of the Convention.

The serious business of the occasion will be supplemented by an elaborate program of entertainment for both men and women which will be climaxed by the Annual Banquet on the night of April 14. Also at this event newly elected officers of the Association will be installed and each will make brief talks.

Stadium Is Filled For Annual Easter Sunrise Services

The Sanford Memorial Stadium was well filled yesterday morning for Easter Sunrise Services sponsored by the Seminole County Ministerial Association.

The joint services drew members of many faiths to the early morning worship where the proclamation "Christ is Risen" was heard as the sun came up at 6:30 a. m.

The Seminole High School Band, under the direction of Ernest Cowley, played the chorale "In Three Jo Gladness" and the psalm "The Seminole High School Glee Club was heard in two choruses "Beneath The Cross of Jesus" and "Hail, Arise." The Glee Club was under the direction of Miss Ollie Reese White.

Presiding at the early morning service was the Rev. Robert M. Spink Jr., The Rev. Chester W. Spink read the scripture and gave the prayer.

The Easter Message was given by Chaplain Lynn Arnold of the Sanford Naval Auxiliary Air Station.

Ushers for the Easter Sunrise Service were members of the Seminole High School Tri-Hi-Y Club assisted by members of the school's Key Club.

February Gas Tax Report Revealed

The gasoline tax of 2.25¢ per gallon sold in Seminole County during the month of February this year amounted to \$64,800.27, according to the current report made by Ray E. Green State Comptroller.

Of the total amount of gasoline tax collected in Seminole County, \$22,830.61 was returned to the county for road bond and road building purposes, said the report.

Gasoline sales in Florida for the month of February (sales reported and tax collected during March) hit a new high for this fiscal year of 119,132,777 gallons. This is 4,944,064 gallons more than sales for the previous month of January, 2,189,385 more than sales of the previous high of December, and 13,543,159 more than the sales of February of the previous year of 1934.

Similarly, tax collections on gasoline sales also hit a new high, amounting to \$9,559,384, an increase of \$66,825 over collection of the previous month and an increase of \$1,118,866 over the collection for the same month of the previous year of 1935. This is the first time that gasoline tax collections exceeded the previous year's collections by over one million dollars. Percentage increase of sales and collections is 75.5 per cent over the same month for the previous year.

Gasoline tax collections this fiscal year have proven to be a sound, steadily increasing source of revenue to the State for use in road construction. Collections for the first three-quarters of this fiscal year, July through March, total \$87,869.03 exceeding the same period of the last fiscal year by \$7,305,197.

Mrs. R. Lott Dies In Jacksonville

Mrs. Rhoda Lott, 83, died last Friday at 12:05 p. m. at her home of her son, Inman Lott, 4234 South Drive, Jacksonville.

Mrs. Lott is the mother of Mrs. John J. Carver of Sanford.

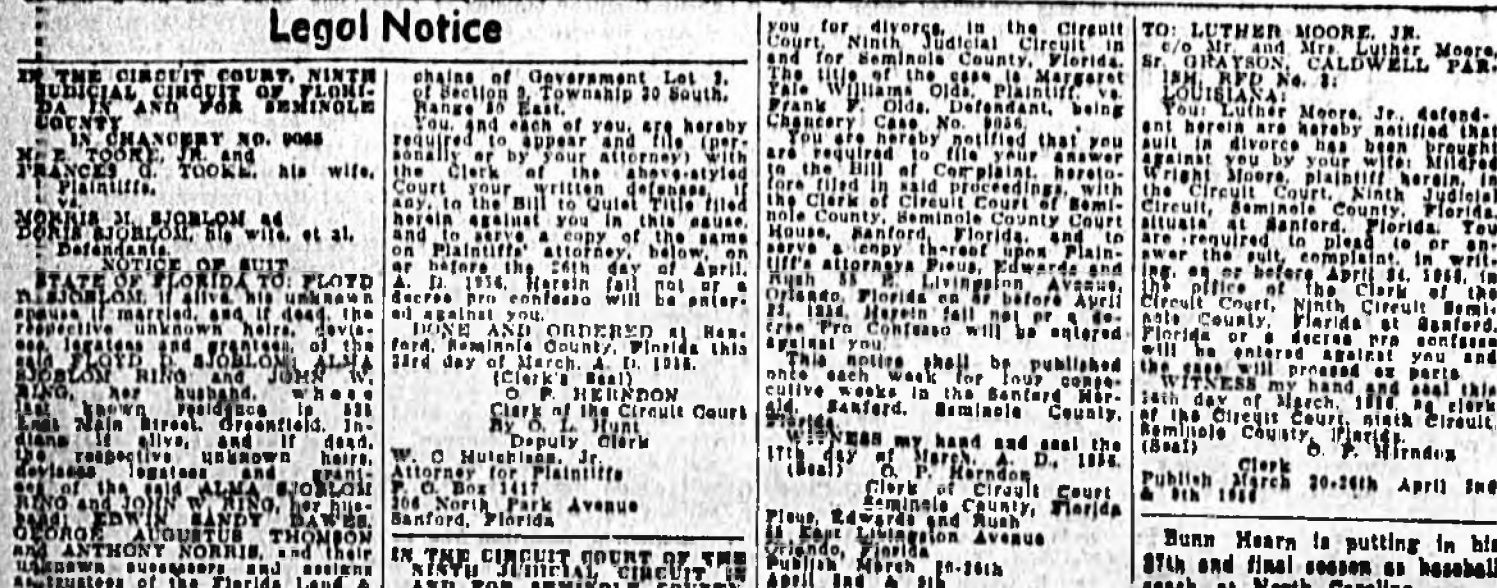

She was born in...
Mrs. Lott lived at...
Ga., until 1923 when she moved to Sanford and made her home with her daughter, Mrs. J. H. Carver, until two years ago.
She had been ill for five years.
Mrs. Lott is survived by...
children Mrs. H. L. Manly, Jacksonville, Ga.; Mrs. William C. Sell, Ambrose, Ga.; Mrs. Cooper J. C. Atlanta, Ga.; Mrs. Lott, Jacksonville; Mrs. W. L. son, Pensacola; and Mrs. J. Carver, Sanford. Also 24 children and several grand children.

The remains will be...
Douglas, Ga.

Body Found In X-Ray Chamber

WEST PALM BEACH (A-P)—Police said the body of Dr. Rex Bleak, 47, missing since Friday, was found last night by his wife in the gas filled X-ray chamber of Bleak's office.

Matchsticks?

Fiddlesticks!

...I've switched to switches!

Yes, switching is truly "matchless" because... the really modern way for cooking, washing, laundry, housework.

- COOL... doesn't heat up the house!
- They love CLEAN... no soot or mess!
- SAFE as electric light... and just as economical!
- And remember... it's cheaper to go all-electric than to use a combination of fuels.

GOP Slogan Appears Headed For Big Test

INDIANAPOLIS (AP)—The "peace and prosperity" slogan the Republicans hope will re-elect President Eisenhower and regain control of Congress appears headed for critical testing in Indiana.

As a swing state where the major political parties are fairly evenly matched, Indiana presents seven months before the November election what amounts to a typical slice of the nation's economy.

Industry generally is booming. The biggest steel mill in the world showers its sparks on full schedule in Gary, with a tremendous expansion in capacity planned.

In the cities, large and small, an air of prosperity is everywhere. Indianapolis department stores are as crowded and as well stocked as those in New York.

State income tax collections reached a peak in the first three months of the year. Gov. George N. Craig says there is "virtually no unemployment" in the state.

But on the farms and in the smaller towns the story is different. There the pinch of low farm prices shows up in the unpainted barns, the theater with the "closed" sign, the vacant store buildings and the dealer's over-stocked tractor showroom. The bigger operators are getting by, but it is the little fellow, with 200 acres or less, who has been hard hit.

The farmers are complaining loudly. How they will express their feelings at the polls in November is, as yet, anybody's guess. But many politicians believe that on their verdict might depend party control of the U.S. Senate, the governorship, some congressional seats and possibly the state's presidential electoral vote.

There are unmistakable signs Eisenhower remains popular in Indiana. Democratic National Chairman Paul M. Butler is credited only with expected realignment of some unnamed presidential candidate of his party will beat the President here.

By the same token the assertion of Republican Gov. Craig that Vice President Nixon could carry the state if anything happened to Eisenhower is greeted with snickers by Democrats. Craig himself conceded he couldn't imagine a "greater deterrent" to the Repub-

licans than to have Eisenhower withdraw.

GOP State Chairman Alvin C. Cast made no secret that he is mighty happy about Eisenhower's decision to run.

Eisenhower's running again at 63 after having a heart attack does not seem to have become an issue in Indiana, despite pointed references by Butler.

Democratic Claude Wickard, former secretary of agriculture, is campaigning against GOP Sen. Homer Capehart primarily on farm issues in a contest that hinges on control of the Senate. Capehart's vote is needed by the Republicans in their effort to upset the present 49-47 Democratic control.

Wickard said he thinks the farmers will shoot holes through GOP prosperity claims. And he added that Republican "peace" claims won't stand close inspection.

Eight candidates are contending for the Democratic governor nomination.

Delegates to the Democratic National Convention in Chicago will be picked at district caucuses at the state meeting, with the convention naming at-large delegates.

Generally speaking, the party organization in the state is in the hands of supporters of Adlai E. Stevenson. In their annual course of events he would get the majority of the state's 26-vote delegation.

But Stevenson's defeat by Sen.

FORMER POLICEMAN ACQUITTED

JACKSONVILLE (AP)—A Federal Court jury yesterday acquitted William Rose, former Negro policeman at Daytona Beach, of charges he violated another Negro's civil rights by beating him.

Nine witnesses testified that Rose beat David A. Bensley, 23, without provocation after arresting him on a speeding charge in July 1954. One witness said two white officers stood by and watched "as if it were a sideshow of some kind."

Rose and the white officers, John Edward Vantronk and Leonard Lee Carrier, said Bensley was beaten when he lunged at Rose.

Estes Kefauver of Tennessee in the Minnesota primary was a body blow to the organization, Kefauver has had a backing of strength in the state and it is likely to be increased by his primary victories.

Backers entered Kefauver's name in the state's first presidential primary May 8. Kefauver will have no opposition and thus will get Indiana's first-ballot vote, at the Democratic National Convention.

The delegation will be split after the Mayor Phillip Bay of Indianapolis has announced Markon County delegates will go to Gov. Frank Lausche, Ohio's "favorite son" candidate.

Symsonia Searches For Doc Number 2 As First Leaves

SYMSONIA, Ky. (AP)—Symsonia, where a quest of a doctor brought it wide publicity, is in the market for another one.

The town—which had been without a doctor—built a clinic equipped a rent-free office and opened the door to any qualified physician.

Dr. Fred J. Cecil, who accepted the offer last July, has moved his practice to Horace Cave, Ky.

"I often sat all day long waiting for a patient or two," he said, declaring the people treated him like a "penicillin doctor."

"For something real before they would go to Paducah," he said.

WOMEN LOSE DEBATE (AP)—The male debating team, defending the negative of the resolution, "That Women have a Natural Superiority over Men" was adjudged the winner over the feminine team.

The women were students at Emerson College, Boston. The men— inmates of Norfolk State Prison Colony.

Everyone Must Work Together For Better Schools In County

A survey team of the State Department of Education will be in Sanford and Seminole County to evaluate the needs of our county's school system for additional schools, school rooms, and added facilities. Of course, the outcome of the county's survey must await the survey to be conducted by this team. . . . noses must be counted . . . and the type of facilities to be provided . . . before any of us will have the answer.

But in the meantime, plenty of talk is going on about Seminole County's role in education and our immediate and pressing needs to take care of those going to school now.

For instance Wallborn C. Phillips Jr., school builder wrote E. R. Tilley, chairman, State Department of Education the other day to point out some of the facts and figures that might be used by members of the survey team coming here.

Mr. Phillips has cited the fact that "there is a lot of talk about bringing in new industries and doing all of the things that make a community grow. Sometimes I think we fall to realize completely that what we need, worse, than bringing in new industry, is to merely get the City, County and State to provide for this area new schools and new roads and other facilities needed and done this is done, I have the feeling that new industry will, to a very large degree, come along on its own accord. Of all the things needed, perhaps schools are the most basic of the basic."

Only recently, the Superintendent of Public Instruction Rayburn T. Milwee and the Board of Education, appealed to the Board of Seminole County Commissioners for \$50,000 in funds to be matched for adjustment in the salaries of our school system's teachers.

May we point out that Pinecrest School, although our newest addition to the schools in the Seminole County system, is already outgrown with authorities pondering the next step to be taken at this location.

We must also reveal that the Seminole County Board of Education is paying \$900 a year to the Orange County Board of Education for transportation of school children to Orange County Schools because there are no facilities for them in this county.

The south portions of the county are growing by leaps and bounds as well as

It was pointed out at the recent special meeting of the Board of Seminole County Commissioners that salaries are so low that teachers with a four-year teaching degree could not be attracted to our county.

We hasten to add that facilities could have the same sort of attraction to new school teachers. If Seminole County could boast of the most modern school facilities in the south, there would not be too many months pass by, with proper dissemination of facts, before there would be a clamor among new teachers to come here for their start toward a successful teaching career.

Salary and facilities go hand in hand when it comes to bringing the best in teaching personnel to a community.

We can't help but agree with Mr. Phillips in his urging the State Department of Education to put the proper emphasis on new facilities for Seminole County and Sanford.

We have the brand new Pinecrest School, we have our start in road building, now we need the most important of all facilities for the training of the youngsters for the future—the necessary schools.

And while we're speaking of schools, why not locate one of the new Junior colleges in Seminole County?

However, let us point out that one group or one person cannot do this job of making possible our needs alone. We must work hand in hand — school teachers, builders, Board of Education and citizens.

the other sections of Seminole County. Particularly in the southwest section where the Tanglewood Development is rushing along to completion is there need for new school facilities.

There again, is another section of the county fast developing into a well rounded community in need of school facilities. The Loch Arbor development is growing each day with new homes and other areas being added for development.

As Wallborn C. Phillips Jr., said recently, "It is high time that we began getting some things for Seminole County which are long overdue."

Several new schools are needed, along with the expansion of present facilities such as Lyman school. And in view of such needs, in Sanford and in various sections of the county, it is hoped that the Survey team can recommend for Sanford and Seminole County more than just the minimum additional facilities.

The county school system is not only greatly overcrowded today but the situation is going to become considerably worse as the natural growth of the area and the Navy expansion program cause increase in school enrollment.

Plans, formulated and more or less shoved to one side because of recent growth, would abandon the Sanford Junior High School building. Seminole High School would be enlarged and expanded.

There are no double classes being taught at the present time in Seminole County. But if facilities are not provided there is nothing to guarantee that such plans could not become necessary practically overnight.

We have boasted of such phenomenal growth that we will reach fifty-thousand population in Sanford by 1955. Plans should be forwarded to take care of our immediate future.

It was pointed out at the recent special meeting of the Board of Seminole County Commissioners that salaries are so low that teachers with a four-year teaching degree could not be attracted to our county.

We hasten to add that facilities could have the same sort of attraction to new school teachers. If Seminole County could boast of the most modern school facilities in the south, there would not be too many months pass by, with proper dissemination of facts, before there would be a clamor among new teachers to come here for their start toward a successful teaching career.

Salary and facilities go hand in hand when it comes to bringing the best in teaching personnel to a community.

We can't help but agree with Mr. Phillips in his urging the State Department of Education to put the proper emphasis on new facilities for Seminole County and Sanford.

We have the brand new Pinecrest School, we have our start in road building, now we need the most important of all facilities for the training of the youngsters for the future—the necessary schools.

And while we're speaking of schools, why not locate one of the new Junior colleges in Seminole County?

However, let us point out that one group or one person cannot do this job of making possible our needs alone. We must work hand in hand — school teachers, builders, Board of Education and citizens.

What Kind Of Parent Are You?

- By THE ASSOCIATED PRESS
- What kind of a parent are you? What with a great deal of current and conflicting literature on the subject, chances are the answer may be a confused parent.
- The following questions may help to clear up the confusion. Drawn up by a recognized specialist in child psychology, they reflect current professional thinking on the knotty subject of relationships between parents and children under 10.
1. Do you ever spank your child? (Y/N)
 2. When Junior brings home a bad report card, do you become upset? (Y/N)
 3. Do you think you like, not love, your child? (Y/N)
 4. Do you and your spouse argue over the management of the children? (Y/N)
 5. Do you attempt to influence your child's decision on what he will do when he grows up? (Y/N)
 6. Do you insist that your child take music, ballet or art lessons?
 7. Do you regularly attend PTA meetings? (Y/N)
 8. Do you interfere in your child's quarrels? (Y/N)
 9. Do you always try to be "reasonable"? (Y/N)
 10. Do you encourage (a) telling the truth? (Y/N)
- Answers on F—
- There probably are no such things as the ideal parent and the ideal child. However, there are signs after all these years that the parent-child relationship is getting back into some sort of human focus.
- Few parents will be able to achieve honestly a perfect score in this quiz; it would, as a matter of fact, alarm the psychiatrist to meet a parent who did. Some parents will undoubtedly score under 50, which may be a signal warning that you are over-protective, over-concerned, over-ambitious for your child. Take 10 for each correct answer and figure anything over 70 as dandy.
1. Yes. If you don't, you may be causing him a lot of trouble and agony at not being able to get something out of his system. Maybe a spanking is what he wants. Just be sure you're spanking him for something he's not somebody else including you.
 2. No. If he gets bad grades because he can't do any better, you cause him pain and humiliation. If it isn't that, it's your job to find out what's bothering him.
 3. Yes. Almost every parent loves his child. But life is very much easier and more comfortable if your child is a person you like—your kind of person. But don't be scared if he isn't.
 4. No. It frightens a child, and it is an indication that the parents are more interested in proving a point of view than in the welfare of the child. The winner merely proves which parent is stronger.
 5. No. The wise parent rides the many waves of a child's enthusiasm, encouraging showing interest but never showing.
 6. No. Let him ask for these things himself—or offer them. Never impose them on him.
 7. Yes. You may not enjoy the meetings, but it will show your child your interest in his school and his life away from home. And you may find out some interesting things about both your child and the school.
 8. No. That is, not unless someone involuntarily shows signs of being damaged severely. Generally, let the children work out their own problems—unless there is danger of losing teeth or more.
 9. No. Nothing can be more depressing to a child than to be faced with a person who never raises his voice, who faces all a child's aggressive impulses with bland reserve. After all, it is better for him to learn that he's going to deal with human beings who react to situation. If you scream once in a while, he'll learn that he's entitled to a good healthy scream occasionally, too.
 10. No. Not unless you want to turn your home into a combination FBI and secret intelligence system. Let everyone stand on his own feet, and never reward disloyalty or leasdom.

Johnson's Political World Rougher

By JAMES MARLOW
Associated Press News Analyst

WASHINGTON (AP)—The political world of dark-haired Sen Lyndon B. Johnson of Texas had a smooth and pleasant look when he got up on the morning of July 2, 1958. It's a little rougher now.

Any criticism of him on that day last July was minor. He wasn't quite off and he had gone a long way in politics; he was leader of the Democratic majority in the Senate.

He had just done a remarkable job—through conciliation and consideration for Democrats and Republicans alike—of getting both sides to work together and ram through one bill after another with a minimum of fuss.

He didn't go in for speeches himself. He paid attention to details. He had inexhaustible energy. He never said he thought of the presidency. But if he did, he had plenty of time.

On the evening of July 3 he suffered a heart attack which almost killed him. The best tribute to his success as a Senate leader was shown in the days which followed when one senator after another filled the Congressional Record with praise of him.

Getting Democrats and Republicans to work together is not the way to create issues which can be used readily in a presidential campaign.

Since the Democrats don't control the White House, they must depend on their congressional leaders to produce a program which can be offered the voters.

Right after Congress came back in 1957, Johnson began pushing a bill to take natural gas producers from under direct government price control. He may have felt he was putting his political right foot forward. His native Texas is loaded with natural gas producers. In a way it turned out to be his left foot.

Sen. Francis Case (R-SO) disclosed a gas lobbyist had offered him a \$2,500 campaign fund contribution which he turned down. This made an investigation of lobbying almost mandatory. And although the Senate passed the gas bill, President Eisenhower vetoed it.

A couple of regular Senate committees were anxious to begin a lobbying investigation but Johnson got the Senate to create a special committee for this task. That committee hasn't started work yet and doesn't know when it will.

Then the Senate took up a war with a debate on a constitutional amendment for changing the system of choosing a president. It was finally abandoned.

The Democrats have talked of making natural resources a campaign issue. They accuse the Eisenhower administration of giving them away.

But last week Paul Butler, chairman of the Democratic National Committee gave Johnson and his fellow Texas, Speaker of the House Sam Rayburn, a startling nudge.

He said the Democrats would be in a weak position to complain about the Eisenhower administration's handling of natural resources unless they themselves did something.

Southern Democrats had been mentioning Johnson as a possibility for President. His friend Rayburn came out for Johnson as Texas' "favorite son" and head of its delegation at the Democratic National Convention.

Then Texas' Gov. Allan Shivers, who calls himself Johnson's friend, challenged Rayburn's called his proposal on Johnson a "typical" effort to divide conservative Texas Democrats. This means a fight over the delegation, with Johnson in the middle.

Firm Carries Money In Supermarket Basket From Vault

COLUMBIA, Pa. (AP)—The Columbia Trust Co. has completed the largest cash transaction in its history.

It started last November when renovations began at the bank and the firm carried on its daily business in an old restaurant.

Every day bundles of money would be taken from the bank vault, put in a supermarket basket and wheeled to the restaurant. At the end of the day the money would be wheeled back to the bank vault.

An official estimated that four million dollars was handled that way.

DRY REPORT

DURANT, Okla. (AP)—A Durant man, Wilson Hoffman, won a \$25 prize for a fishing tip sent in to a national contest—but he can't collect it. The contest was sponsored by a liquor firm. Officials wrote Hoffman, congratulating him for his winning entry but said they could not pay him because he resides in constitutionally dry Oklahoma.

Then Simon Peter smote the high priest's servant.—John 18:10.—Peter did not win that argument. Violence defeats itself. This was but one of Peter's many mistakes.

LETTERS TO THE EDITOR

ALEXANDER TAKES ANNEXATION STAND

Editor,
Sanford Herald

Since my talk at the last meeting of Seminole County Jaycees in Sanford, I have been approached by a number of persons who did not feel that I made by position clear relative to the issue of annexation. This is a vital issue to the people of Sanford and the fringe area that is desired to be annexed. Therefore, I want to make my position on this matter absolutely clear, as I feel every candidate for a public office should commit himself and make his stand clear on all vital issues.

My position on annexation is as follows: Whenever a fringe area has become so thickly populated to be truly urban in character and it is in the mutual best interest of the residents of that area as well as the municipality which it adjoins for the area to be incorporated in the municipality, and receive police, fire, sewerage, water, garbage service, health protection, and other municipal services, said area should be in a fair and impartial manner annexed to the town. By fair and impartial manner, I mean a manner whereby the fringe area would be burdened only by its fair share of town obligations and would receive municipal services and facilities commensurate with the financial obligations that would be imposed upon the annexed territory by being included in the municipality.

If the City of Sanford requests me to introduce or support a Special Act that would annex a fringe area as above described, and said act be reasonable, fair, impartial, and consistent with the common right and interest of all parties affected, I will introduce said act and work for its passage. If it is in the mutual best interest of the town and the people in the fringe area for said territory to be annexed, I would not require a referendum of the people in the territory to be annexed.

Americans Starting Travels Early

By SAM DAWSON

NEW YORK (AP)—Americans are starting their travels earlier this year.

Tourist agencies reported booking more than the usual number for the Holy Week observances in Italy, Spain and Portugal. A six-fold number of Americans have chosen Japan for the March-April flower season. Florida reports a record number there for the Passover and Easter holidays.

Record throngs are expected to visit other lands this year. European hotels, transoceanic airlines and ships report earlier bookings than usual. Domestic airlines reported reservations for Easter holiday flights were made weeks and even months ago.

Estimates of the number who will go to Europe in quest of culture or pleasure run as high as \$50,000 and on the total who will make trips outside the United States as high as two million. They are expected to spend more than 1 1/2 billion dollars.

While Europe gets the most of the tourist business outside this hemisphere, other lands are drawing more each year. Travel in the Pacific was up 20 per cent last year. The passport division of the State Department reports 20,000 Americans went to Japan last year, 20,000 to Australia, New Zealand and South Pacific islands. Americans visiting India have numbered as high as 20,000 in a year and this may be topped in coming months because of the celebration there of the 3,000th anniversary of the enlightenment of Buddha.

The Department of Commerce, in a study of American tourist folkways in 1954, puts their average expenditure on a European trip at \$1,457, including the cost of crossing the Atlantic. It notes that in the previous five years the average rose about 3 per cent each year.

THE SWALLOWS of San Juan Capistrano arrived home right on schedule again this year. Smart birds—even that crazy day in February didn't fool 'em.

Four daughters and two sons of an Ontario family are to be wed the same day. Cupid must have traded his bow and arrow for a machine gun.

A Virginia group has bought an old, abandoned jail—will convert it into a club house. They must figure that, in summer, it should be cooler.

We just been discovered that the armored body of an English knight, slain in battle in 1332, has been stolen from its crypt in a church in England. No one looking for the culprit—it could have happened more than 600 years ago.

The weather bureau's huge mechanical "brain" in Washington failed to forecast that big snow storm. Maybe it just forgot.

Light planes are replacing horses in herding cattle, we read. Today's cowboys is really high in the cockpit.

A Los Angeles architect urges building of a non-stop conveyor belt which would carry autos above city streets. Maybe this wouldn't relieve traffic congestion, suggests Grandpappy Johnson—but think of the saving on tires!

THE QUICKSILVER POOL

CHAPTER TWENTY-SEVEN
ADAM INTO THIS, ARE YOU? Lora asked uneasily.
 "Why not? I can't be any worse off than I am now, and I'm not sure I'm any better off than I am now," she turned beneath the covers. "I've heard him storm about the way men aren't enlisting. And I think he'd like to shoot every deserter. He seems bitterly intent on winning the war on the Union side. It might be just as well not to talk to him about these things. He could cause you trouble if he liked."
 "Perhaps you're right," Wade stared into the fire again for the space of time, lost in his own thoughts.
 Suddenly Lora said, "You're afraid of Morgan Channing?"
 "Why should I be afraid of Morgan Channing?" Wade asked coldly.
 "There was no turning back now. He was already angry, so perhaps this was the time to go ahead, to step boldly into the dark labyrinth."
 "I'm not quite sure why you're afraid of her," she said. "Jimmy calls her Morgan Le Fay and says she's like that plotting queen. And of course, there are those who say she has always wanted you and that she'd cheat and lie and steal to get you."
 He put his hand upon her shoulder, pushing her back against the pillow. "What are you talking about? Say what you mean!"
 "There was a time something happened," she said, not moving, though his fingers hurt her shoulder. "A time I don't understand—up there in the woods. Perhaps it isn't true at all. Perhaps it's just one of those stories that goes around. About you and Morgan."
 His fingers tightened. "Jimmy?" Jimmy's been telling that beastly story again?"
 "Then it's not true?"
 He let her go and turned away. For a long moment the only movement in the room was freighted glancing on the ceiling. Then he got up and went toward the door without speaking.
 Lora slipped out of bed, her long hair falling over her shoulders. She looked at her wrist. She was looking at the watch. She was looking at the watch. She was looking at the watch.

Souchak Regains Touch

WILMINGTON, N. C. (AP)—Mike Souchak has regained his putting touch—just in time for the Masters Golf Tournament opening Thursday at Augusta, Ga.
 The 210-pound, 28-year-old former Duke University football end putted his way to victory by a single stroke over Dick Hayes of St. Petersburg, Fla., in a rousing final hole of the \$12,500 Azalea Open yesterday.
 Mike came to the final green and under par. He had to sink a five-foot putt for a birdie and a 68 to match Hayes's closing round and stay one shot ahead.
 Souchak, who plays out of Grosinger's, N.Y., stroked the ball and turned his back on it. The crowd's whoop told him what he said later he had known as soon as he hit the ball—it was in the hole.
 Mike's 273 total was 18 under par for the 6,793-yard Cape Fear Country Club course and meant \$2,250.
 On the 14th he putted one in from 50 feet for an eagle 2 after a mighty drive reached to the fringe of the green on the 310-yard hole. He also dropped a 10-footer on the ninth for a birdie to keep ahead of Mayer as each turned in 33.
 Mayer, won \$1,500 second money. Gene Luttler, Palm Springs, Calif., leader through the first two rounds and in a three-way tie for the lead at the start of the last 18, had his poorest round, 71, to finish third at 276, good for \$1,170.
 Doug Ford, Mahopac, N.Y., was fourth with 277 for \$980, ahead of George Bayer, Cincinnati, and Art Doering, Cedarhurst, N.Y., who tied at 278, each winning \$790.

AL WIGGINS
 THEIR ALL-AROUND SWIMMER STAR WILL DEFEND HIS N.C.A.A. 150-YARD INDIVIDUAL MEDLEY TITLE—HE'S WORLD CHAMP IN THE 100-METER BUTTERFLY.

Athlete From Duke Wins Trophy Again

GAINESVILLE, Fla. (AP)—For the third straight year an athlete from Duke University won the Kearney-Rayburn Trophy as the outstanding individual among several hundred competing in the Florida relays Saturday.
 Dave Sims earned the trophy this year with a record smashing 9.5-second 100-yard dash, victory in the broad jump and sprints in two relay events.
 Sims is aiming at the Olympic games in Australia later in the year. He ran a 9.4-second 100 yards at Ft. Jackson, S. C., a week ago—then the 95 dash here that smashed the Florida relays record of 97 held by Bill Adams of Florida and Jackie Creel of Auburn.
 There is no doubt in the minds of many who saw the long legged 10-year old Sims stride to easy victory Saturday that he not only is likely to compete the Olympics for the United States but that he is a threat to the world record of 9.3 seconds for the 100-yard dash.

Machine Gets Most Attention At NCAA Meet

NEW HAVEN, Conn. (AP)—New world, American and meet records came out of the 33rd NCAA swimming meet, but the item that got most attention was the machine.
 The machine was a device set up to record the finishes in Yale's Payne Whitney gym and it nearly caused the judges to quit.
 The machine got the heavy-ho just before the final two races Saturday night—dubbed "a flop."
 An electronic device developed at the University of Michigan, the machine was used with success in the Big Ten championships during the past year.
 And it was doing okay here until Friday night when it called a tie—twice in the event—between Yale's Rex Aubrey and Stanford's Robin Moore in the 50-yard sprint.
 Chief Judge Bob Muir said the three first place judges picked Aubrey as the winner, "but we had decided in advance to go along with the machine, and in this case, the machine showed dead heat."
 Muir said the machine "definitely goofed" later that night in the butterfly stroke race, but he added "the mistake was obvious since (Dick) Faden won by a clean margin."
 The machine found itself in real trouble with the judges after the 100-yard sprint Saturday night. It picked Al Rubin of Northwestern; the judges Aubrey.
 The judges threatened to quit then but were placated when Muir announced, "we're losing the machine out from now on."

HANSBROUGH

MORE HIGH MOUNTAINS

DENVER (AP)—The U.S. Geological Survey reports on new measurements show Colorado has 54 mountains towering 14,000 feet or higher, instead of 52, indicated by older surveys.
 The additions, regional engineer Robert O. Davis said, are Missouri Mountain, 14,067 feet above sea level, and Huron Mountain, 14,005 feet. Both are in the State Range area near Buena Vista in central Colorado.
 Liberty, at 14,401 feet, is still tops. But the state's second highest, by latest measurement, is Harvard, with a new reading of 14,399 feet. Mount Massive now is third with 14,418 feet.

Milwaukee Braves May Have Lost Pennant In March

By JOE REICHLER

WAYCROSS, Ga. (AP)—Pennants, as a rule, aren't lost in March, but that's exactly what may have happened in the case of the Milwaukee Braves when Gene Conley, their ace righthander, suffered a recurrence of his chronic back and shoulder miseries.
 Although slightly encouraged by the latest medical report on the ailing shoulder of the 6-8 pitcher which showed "definite improvement," nobody in the Braves' camp knows for sure when Conley will be able to pitch again. If at all. He was left in Bradenton when the Braves broke camp the other day.
 Milwaukee must have a sound Conley if it is to make up the 13½ games that separated it from the pennant-winning Brooklyn Dodgers last year. If Conley can't take his regular turn and contribute the 15-20 victories expected of him, the Braves' will be lucky to do as well as last year when they finished second.
 Manager Charlie Grimm, a sincere and forthright person who doesn't try to sell you a bill of goods, put his finger on the Braves' situation the day before the Conley

The only boxer to win two consecutive Olympics was H. W. Malin of Great Britain. He won the middleweight championship in the 1920, and 1924 Games.

Playoff Tonight To Decide Members Of Olympic Team

KANSAS CITY (AP)—Four teams of the finest amateur basketball players in the nation tonight begin a round-robin playoff to determine personnel of the United States' entry in the coming Olympic Games.
 The playoffs run for three nights.
 The Phillips 66ers, runners-up in the National AAU Tournament at Denver a week ago, and the armed forces team start the action, followed two hours later by the AAU champion, Seattle Buchanan Bakers, against the College All-Stars.
 From the talent array will come the 12-man team that represents this country in the world games at Melbourne, Australia, beginning next November.
 Buchanan Bakers, coached by Paul Fidler, and Gerald Tucker's Phillips 66ers, are given the best chance of success because of their experience as playing units. There is not a standout favorite, however.
 The College All-Stars, headed by such lads as San Francisco University's two-time All America Bill Russel and Hal (King) Lear of Temple, are coached by Bucky O'Connor of Iowa University.
 The armed forces unit, coached by Bruce Drake of Oklahoma University fame, will give height to the other three teams, but appears capable in every detail.
 Only one American League team failed to hit a home run at every ball park in 1955. The Chicago White Sox didn't hit any homers at Washington's Griffith Stadium.

Anderson Pleased With Improvement

Watermelons at Fort Myers and cantaloupes at Immokalee; spring tomato best opening at Fort Pierce; heavy volume Pole beans and increasing tomato supplies at Ft. Pierce; strawberries at Starke; improved bean prices and outlook for production April at Pompano; increased time activity in spring vegetables at Ft. Pierce; the first field cukes grown in Wauchula; improvement in prices at Sanford; and the good supplies at Pahokee in spite of adverse weather conditions are the highlights gleaned from Manager reports of market conditions throughout the State.

Director L. H. Lewis of Florida State Farmers' Markets reported, Manager Sandy Anderson is pleased with the price improvement on the heavy volume of cabbage moving thru the Sanford State Market, but regret celery to still on the bottom step prices. We had fairly good demand for practically all varieties and prices generally were satisfactory. Sales totaling 57,619 units of 33 varieties of produce, grossed \$115,512.

MONICA DAVIS amuses herself with a toy Ferris wheel, symbol of her title as Queen of Palisades Amusement Park, New Jersey, for 1956. The park's 59th opening marks the beginning of the new outdoor amusement season.

Rev. J. H. Bronson Dies In Mt. Dora

Rev. Jeremiah H. Bronson, 706 Florida Avenue, Mt. Dora died Saturday, March 24, at his residence.

A former resident of Sanford, the Rev. Bronson moved to Mt. Dora several years ago.

Funeral services for the Rev. Bronson were held this afternoon at 4 p. m. at St. Paul's Baptist Church with the Rev. B. H. Hodge officiating.

CHECKER PLAYING MAY BE ANSWER

ST. PETERSBURG (AP)—This city is betting that checker playing will help curb juvenile delinquency.

Checker instruction was given to a thousand school children this winter and Newell W. Banks, the teacher, takes the position that for every youngster you get to say "it's your move" then one less boy or girl is looking for devils.

He teaches checkers to the youngsters on a voluntary basis.

Celestino Garcia, former middleweight champion, drives a truck on a California movie location.

DAVID KWAUGER, 10, son of the Democratic Presidential aspirant, accepts his father, Sen. Estes Kefauver (D-Tenn.), a Hereford Holstein heifer. It was presented to him at the Senate Office Building in Washington by the Gasoline Retailers Association of New Hampshire. The heifer, "Queen" of Laconia, N.H., will be shipped to the Senator's farm in Tennessee. (International Soundphoto)

Green Shingles Cause Problem With Commission

ST. LOUIS (AP)—The City Art Commission is going to take another look at Roy Moise's application for green shingles on his house.

The commission, brought into the case since the home is near a park, recently ruled out the color picked by Moise and his wife and said they'd prefer white or Tennessee tan.

Mrs. Moise stood fast to her selection. Public Safety Director Joseph P. Seastric said the application would be resubmitted for additional study and consideration.

All this probably makes Moise happy. At the outset he said his wife wants green "and I've gotta live with the woman."

ARSON CHARGE DISMISSED

SARASOTA (AP)—An arson charge against Lora Pittsford, whose wife accused him of setting fire to their house while she was asleep, has been dismissed.

Asst. State Atty. William Stockham said he dismissed the arson charge because he intends to file a "closely related" charge, which he would not specify pending formal filing.

Mrs. Dorothy Pittsford, 34, was rescued from the blazing house March 14 by neighbors. She suffered minor burns. Pittsford was found in the house unharmed.

VOICE OF AUTHORITY

OMAHA, Neb. (AP)—Two motorists who jumped out of their cars after an intersection collision and started a loud argument were quickly cut down to size by a School Safety patrolman.

The patrol boy left a score of youngsters at the curb, marched out into the street and confronted the angry motorists: "Say, you guys, cut out of here, I've got to get these kids to school before they're tardy."

Only seven geldings have won the Kentucky Derby. The last was Clyde Van Dusen in 1929.

County Board Told Voting Machines Will Arrive Soon

J. T. Landon, representing the Shoup Voting Machine Company, told the Seminole County Board of Commissioners this morning "We'll do our best to have a crackerjack election here."

The Board of County Commissioners have ordered 23 Shoup Voting machines to be used in Seminole County in the coming elections. Five of the machines are on a loan basis and the others have been purchased outright.

Landon told the commissioners, after Mrs. Camilla Bruce, Supervisor of Registration for Seminole County arrived at the meeting today, "You should have your returns 30 minutes after the election is over."

The machines leave the factory tomorrow morning," Landon said, "and should arrive here within a few days."

A factory man is coming with the machines and will be with them for 30 days to conduct the election for you and to instruct the voters how to use them. They will be taken to whatever precinct you shall direct for instruction of the voters."

Landon suggested that the Board of Commissioners would want to appoint one man to be responsible for the machines and to learn to use them and take care of them.

He advised the Board of Commissioners that the factory man would prepare the ballots, have them certified, have them printed and to prepare the tabulation sheets.

Landon said that the inventor of the voting machine, Shoup, who is also inventor of the National Cash Register, would be in Sanford personally to see and meet the Board of County Commissioners.

Bids Opened Today In Tallahassee For 17-92 Project

Bids were opened this morning in Tallahassee for the four lane and paving of 17-92 from the Orange County line to Five Points.

Commissioner John Meisch, attending the opening of bids for the project and representing Seminole County, advised at noon today by telephone of the bids.

J. D. Manley of Leesburg was the apparent low bidder at \$935,238.99.

Next low bidder for the project was believed to be the Wolf Construction Company of St. Augustine at \$990,023.13.

The third low bidder was Cragg Construction Company of Ocala at a price of over one million dollars.

The low bid exceeds the budgeted \$800,000 by approximately \$135,000.

However, it was pointed out that today's formal opening of the bids does not mean that the contract is awarded.

Church Launches Program

The Christian and Missionary Alliance Church last night launched a new and unusual program to raise funds for the completion of the church building, located at Park Ave. and 14th Street. At a supper for the congregation an intensified effort to sell a bond issue of \$18,000.00 was begun.

The plan is designed to give opportunity to members and friends of the church to invest in savings bonds issued by the church. Seventy bonds have been printed totaling fifteen thousand dollars in denominations of \$50.00, \$100.00, \$250.00, and \$500.00. They mature serially over a period of 14 years, some falling due every six months, beginning the first year. Each bond bears a serial number and a predetermined maturity date. Every bond is a bearer bond so that the initial purchaser may sell it to someone else if he desires.

The idea behind the plan is to provide a sound investment so that even those with small amounts of money may invest, and have their money work for the church while earning a fair return.

Each of the bonds pays 5 percent interest per annum—payable semi-annually. The interest is paid by coupons attached to the bonds, which mature at each six months interval. The Florida State Bank will be the agent for the church in liquidating the bonds. This is provided through a special sinking fund account at the bank.

The pastor of the church, Rev. David S. Carnethi reports that at the kick-off supper which was served on the church lawn by the ladies of the congregation more than half of the total issue was sold in over twenty of the bonds.

During the coming week various selling committees will be at work endeavoring to sell the full amount of \$18,000.00. The committees are headed by Mr. Thomas H. Stringer as general chairman. Other committees are coordinated by Mr. and Mrs. Fay Lea, Mr. and Mrs. Manning Harriet, Mr. and Mrs. H. D. Hagg, Mr. and Mrs. Joe Coggeshall, Mr. and Mrs. Jack Hanks, Mr. and Mrs. Herl Henson, and Dick Mabe.

Entire Slate Will Be Heard At Rally Tonight

The first in the 1956 series of Democratic Rallies, sponsored and conducted by the Seminole County Democratic Executive Committee, will be held tonight in the Seminole County Court House.

The entire slate of candidates with opposition in the Seminole county political picture is expected to be heard.

According to James Lee, chairman of the Seminole County Democratic Executive Committee, "Local candidates will be given preference and will speak first."

There are 26 candidates with opposition in the local races for various offices. However, additional speakers will probably be the candidates for House of Representatives and for the Senate.

Each candidate, reportedly, will be allowed five minutes to speak in which time he will tell the rally audience of his qualifications and platform.

A quiet calm has settled on the political scene in Sanford and Seminole County for the past week. Candidates are working feverishly with personal calls, special invitations to speak before selected groups, and in mapping their campaign strategy that will climax May 8.

Tonight's rally, which will start at 8 o'clock, is the first of 11 similar rallies to be held throughout Seminole County.

The candidates are expected to speak from the same platform in Lake Monroe, April 7; Lake Mary, April 10; Longwood, April 12; Bear Lake, April 17; Altamonte Springs, April 19; Ponia, April 20; Fern Park, at the Prairie Lake American Legion Hut, April 21; Oviedo, April 24; Geneva, April 27; and again in Sanford May 4.

Speaking at all of the rallies is scheduled to begin at 8 p.m.

Odham Charges Fouracre For 17-92 Bypassing City

Drug Store Meet Revealed

A Seminole County Board of Commissioners meeting this morning, packed with requests for roads of various sorts, broke into a session of fireworks between J. Bralley Odham, chairman of the Citizens' Long Range Highway Planning Committee at the meeting on road business and Commissioner Otis Fouracre.

Odham accused Fouracre of attempting to get a commitment from the Seminole County Board of Commissioners to back a road which would bypass Sanford.

Commissioner Fouracre denied the accusation when he said, "I think you will find that I have made more motions than anyone else on this Board to further the paving of 17-92 through Sanford."

Odham retorted with "You must be talking for the benefit of the press and the audience."

Bralley Odham had earlier asked if "There is any opposition on this Board to the building of 17-92," pointing his finger at Commissioner Fouracre in asking the question. "I have had too many calls on it," said Odham. "Too many rumors are circulating and I am hearing too much about such opposition."

City Commissioner John Krider, getting to his feet during the argument between Bralley Odham and Commissioner Otis Fouracre, stated, "I heard you say we weren't going to build French Ave."

"I emphatically deny it," said Fouracre. "I have never opposed 17-92 or French Ave."

However, Krider, not satisfied, told the audience that a man was in the audience that heard him state that French Ave. would not be built. These are your words, said Krider. "You said you can do whatever you want to but you will never get French Ave." The City Commissioner then pointed to City Commissioner Earl Higginbotham and said, "Here is the man who heard you make the statement."

Fouracre then reminded Odham and Krider, "I made the motion to appropriate \$50,000 to the city for French Ave."

"But that is secondary road money that should be used in the city and that's the first time in 20 years the city has received any of the funds," said Odham.

"The trouble is," said Odham, "that you too frequently said that nothing could be done." Odham continued, "all up and down the highway I'm hearing too many rumors even in one instance when you were moving a house you told one lady that the road would never be built."

"It's a lie," Fouracre said, "and I'll tell her that."

As Bralley Odham started to speak, (Continued on Page Eight)

Citizens Approach Board About Fixing 'Hazardous' Road

"Lake Drive near Casselberry is in a very dangerous and hazardous condition," John Button and Henry Duncan told the Board of Seminole County Commissioners today.

However, Commissioner R. C. Dodd said that the road is "in far better condition than any road in my district."

"The people who live along this road," said Button, who identified himself as a son of Lynn Button, "are deserving of consideration."

Button and Duncan accused Commissioner Dodd of improving a road on which was located nothing but "land you own and another farm."

"You've pushed roads through that won't benefit anybody," Button said.

Dodd's comment was "As I told your father years ago, and also your brother, I am thinking about your road but I don't have enough money in the budget to do all of them."

Button then asked Dodd point-blank, "Are you building roads for millions and not taking care of the citizens who live along these other roads?"

"You've cleared a mile of road through Moss's property, that benefits no one but him," he said.

"I'm not going to approach anyone for right-of-way," said Button. "Until I get a commitment from you and after four or five years of thinking I believe that you can make a commitment."

I am speaking of the road that should be represented by \$60,000 and more coming in."

The Board of Commissioners concluded the argument for bypassing the road with the statement that all commissioners will inspect the road and report later on its condition.

Wright Is Named Collins' Campaign Director For County

The Campaign Director and Campaign Treasurer for Governor LeRoy Collins, campaign for Governor in Seminole County were named today.

Bob Folkes, State Campaign Director, for Governor LeRoy Collins named J. Dan Wright Jr., vice-president of the Patrick Brick Company, as Campaign Director for Seminole County.

Folkes said that the Florida State Bank would be the depository for the LeRoy Collins campaign for Governor funds here.

Wright said today that there will be a public meeting of all who are interested in supporting Collins for Governor, at the Seminole County Court House 8 p. m. Thursday night.

Bob Folkes, State Campaign Manager for Governor Collins will be present to discuss the various phases of campaign organization that local supporters will undertake in their efforts to help elect Governor Collins. Wright stated "This is my first venture as a campaign director for any candidate for public office. I realize there is a lot that I do not know about politics, but there is one thing I am sure, LeRoy Collins is making Florida the best Governor we have ever had, and I want to do all that I can to help elect him. I hope that all citizens in this county realize that this is their invitation to join with me and other supporters of the Governor in helping to elect him. The meeting is a public meeting so that everyone who wants to help can play a part in this campaign. Gene Tucker is serving as County Campaign Treasurer and we are going to need the help in the form of money, moral and physical support of all those interested in helping Governor Collins make Seminole County a greater county and Florida an even greater State."

Central Florida Firm Receives Jolt From Scientists

Today, Tomorrow Will Be Interesting To Local Residents

A Central Florida firm which in recent months has been advocating an organic control for spreading decline in citrus has received a slap on the wrist from citrus scientists.

The company's claim—that of a product which will effectively control the burrowing nematode, said to be the cause of spreading decline—was jolted in a statement released today by Ed L. Ayers, State Plant Commissioner.

Ayers did not identify the company, but said the organization has been promoting a delinquent advertising campaign.

"Research conducted by the Citrus Experiment Station at the University of Florida has proved the claim of a successful control for the burrowing nematode to be without foundation," he said.

"The State Plant Board has felt that the product had no real value in connection with the control of decline, but policy dictates that no refunding statement be issued until the product in question has been given sufficient and fair trial. Tests now have been completed and I feel the result can be made known."

Ayers said that tests on a grove treated by the company indicated that the burrowing nematode population apparently had not been reduced.

Vermont Resident Spending First Winter In Sanford

Donald Flamm Is At Conference

E. L. Fuller of Windsor Vermont, who carries a Fireman's Badge inscribed with "40 years service" is spending his first winter in Sanford.

However, after receiving a picture of his home in Windsor recently, he says, "I'm going to move down here permanently just as soon as I can sell this property."

Fuller is staying at 813 Magnolia Ave.

Describing his home he says, "There are six feet of snow around it in some places, eight feet in others, and the garage is practically hidden by the huge drifts swept up against it."

All the while, Sanford has been basking in spring-like weather.

Post To Establish Ground Observer Corps In Sanford

Doctor Says Ike Working Full Time

A meeting has been called by the Campbell-Losing Post of the American Legion for the purpose of establishing a Ground Observer Corps here.

The important get-together will be held at the American Legion Hut on Seminole Boulevard at 7:45 p. m. Thursday night.

Post Commander George Maybury said yesterday that Sergeant Lund will attend the meeting to assist in the organizing of the local Ground Observer Corps and to put the unit into operation spotting planes.

Maybury urged all interested citizens who would like to perform a patriotic duty to attend this meeting.

Undetermined Fire Destroys Buildings

Robert G. Lees Dies In Hospital

DAYTONA BEACH, Fla. — Fire of undetermined origin destroyed a hotel, theater and two stores early today.

Fire Chief Charles Lee said damage would be about \$1 million dollars and it was the city's worst fire since James destroyed The Breakers at Daytona hotels nine years ago.

Fire officials at first indicated they thought the fire had been set and questioned a man but later released him.

Fireproof buildings on each side of the fire area helped prevent spread of the flames.

A water main burst at the height of the fire and firemen had to lay hose lines to the Italian River a block and a half away.

Water was still being played on the ruins late this morning and several remaining walls were knocked down as safety measures.

The fire started about 11:30 p.m. (EST) in the 1,040-seat Empire Theater and spread to the adjacent Orange Hotel.

About 100 guests of the three-story hotel were evacuated. About 100 theater patrons had left about 30 minutes before the fire was discovered.

The fire was brought under control at 3 a.m. but by then the 46-room hotel was gone.

The theater, a jewelry store and a children's dress shop were destroyed when front and rear walls collapsed.

Volunteer Firemen In Casselberry To Hold Barbecue

Hospital Notes

CASSELBERRY—A chicken barbecue supper will be held by the Casselberry Volunteer Firemen at the new municipal building Saturday from 5 to 7 p. m.

Proceeds from the barbecue will be used to pay for new equipment and to support the budget of \$10,775.20, set up for this year, according to Chief Paul Bates, who has extended an invitation to the public to attend.

The fire company is maintained by voluntary contributions and total funds received to date, including proceeds from a fish dinner amounts to more than \$800, according to Bates.

Tennis Exhibition Is Slated Tonight At Mayfair Courts

Jaycees To Elect Officers Thursday

A tennis exhibition will be played this evening at 8 o'clock at the Mayfair Inn tennis courts between five of the leading tennis players in this area.

"The public is invited to see the matches," said Frank Deane, tennis pro at the Mayfair Inn.

Those playing in the exhibition this evening will be: T. E. Tucker, local tennis champion; Bob Hurdorf; Sidney Summerfield, Tennis Pro at Daytona Beach; Frank Deane, Mayfair Inn Tennis Pro; and Commander George F. Haws Jr.

Umpire for the matches will be Charles Morrison.

Johnny White (Sanford)

ROSE, CARNATION NAMED FOR GRACE

MONTE CARLO — A new rose and a new carnation will greet Grace Kelly on her wedding day. Both are being named for her.

The "Grace of Monaco" rose was developed by Francis Meiland, internationally known grower of Cap d'Antibes.

The carnation—Princess Grace—was grown by two Italians, Pietro Farina and Henri Billo of San Remo.

II FALSE FIRE ALARMS

WARREN, Ohio (AP)—Paul Cornman, 46, a volunteer fireman, has been charged with turning in 11 false fire alarms during March. Sheriff's deputies said Cornman, who drives a township school bus, admitted turning in the alarms to get the 82 firemen receive for answering each call.

'GOODWILL' TEAM PHILADELPHIA

P-TA Sets Meet

SNOWBOUND BUT BEAUTIFUL

PHILADELPHIA — The Philadelphia Yearly Meeting of Friends announced today a "goodwill" team of Quakers will visit Montgomery, Ala., in the near future to examine the racial situation there.

Alabama was stirred recently by a dispute over the attempt of a Negro girl student to enter the University of Alabama.

It was announced today that the Seminole High School P-TA has changed its meeting date from April 8 to April 10 at the school auditorium.

All members are asked to note the change and to attend the important meeting on the 10th.
