NUMBER 185

WILL NOT CUT TAX IN NEXT THREE YEARS SAYS SEC. HOUSTON

Outlines Program to Congress For Carrying On

STEEP INCOME TAX

WILL BE HERE TO WORRY US
FOR SOME TIME TO
COME.

(By The Associated Press.)

WASHINGTON, Nov. 8.—The nation will face a continuance of the annual tax bill of four million dollars for at least three years if congress adopts recommendations drafted by treasury officials and which, it was understood, have been laid before Secretary Houston for approval.

Mr. Houston, it was said, probably will include such recommendations in the form of an analysis of the government's financial condition in his forth-coming annual report to congress.

The analysis will show and accompanying recommendations will suggest, it was said, that a three-year program for tax revision is required in order to meet maturing government obligations and cover current Federal expenses.

Approximately eight billion dollars in victory notes, war savings securities and treasury certificates of indebtedness will be due for payment within the next three years, treasury figures show. Retention of the present aggregate level of taxes or maintenance of the annual revenue of the government at about four billion dollars then is held to be unavoidable on the face of average expenditures estimated for the period.

Recommendations to be made by Mr. Houston, it is understood, will propose abolition of the excess profit taxes in their entirety and the substitution of a graduated income tax of a substantially deeper cut than under present revenue laws. It was believed the new income taxes would apply only to incomes above \$5,000 annually and that provision would be made for a graduated increase even on the additional tax as the amount of income grows larger.

The secretary is expected to advise congress that the strictest economy in Federal appropriations is necessary if the program outlined on the basis of a four billion dollar tax bill is to be accomplished. He has said that there was no way to estimate with any degree of accuracy what even the present laws would yield in revenue because of the rapidly changing conditions in business as a result of after-the-war transition and readjustment. Mr. Houston's view of this was said to be that tax receipts would be materially lower later in the present fiscal year, which ends June 30, 1921, and that therefore the government income under the present revenue laws could not be taken as a basis for calculating future receipts.

This attitude, which is held also by practically all treasury officials having to do with tax collections, forecasts a task of great difficulty for the farmers of the new revenue act. The treasury will insist strongly on legislation which would produce four billions for the next year, but the ways and means of getting it will be left to congress except for the suggestions contained in the treasury's report. In fact, the tax law framers will be informed that there is no alternative to voting a revenue act that will produce the required amount.

WHISKEY RING IN CHICAGO BRINGS INDICTMENTS

(By The Associated Press.)
CHICAGO, Nov. 8.—Indictments are expected to be returned against the result of the investigation of the alleged Chicago whiskey ring.

NINE REMAIN OF HUNGER STRIKERS IN CORK JAIL

(By The Associated Press.)
CORK, Nov. 8.—The nine remaining hunger strikers in the Cork jail are declared in a precarious condition on the nineteenth day. They are still determined to refuse food.

STUFFY TENEMENTS NOT ALLOWED IN NEW JERUSALEM

(From Wednesday's Daily)

NEW YORK, Nov. 7.—Neither stuffy tenements, dirty factories, narrow streets nor sullied slums will be tolerated in Jerusalem and other urban centers of Palestine, "the Jewish Homeland," by the British High Commissioner.

Anticipating a heavy influx of Jews back to the Holy Land, a city and town planning commission has been appointed to regulate the distribution of population, and prevent a mushroom growth spoiling forever the beauty of the ancient cities, according to information received by Zionists here.

All town plans will have to be approved by the High Commissioner, Sir Herbert Samuel. Civic commissions with full authority will control building development in Jerusalem, Jaffa, Haifa and Tiberias, working on plans approved by a central commission. This body may be headed by Sir Patrick Geddes of the University of Edinburgh, town-planner of Bombay and other cities of India. Landowners have been advised to consult with the local commissioners before attempting new construction.

Palestine is now half-empty and there is ample room for new communities and modern quarters. In building them the poor must not be huddled in crowded settlements while the rich enjoy spacious houses and delightful gardens, said the High Commissioner in announcing his city planning ordinances.

PRESIDENT WILSON WORKS ON MESSAGE TO CONGRESS TODAY

(By The Associated Press.)

WASHINGTON, Nov. 8.—President Wilson is working on his annual message to congress. This week the president receives diplomats from San Domingo, Guatemala and Costa Rica.

MEXICAN STEVEDORES STRIKING FOR HIGHER WAGES AT VERA CRUZ

(From Monday's Daily)

VERA CRUZ, Nov. 8.—Striking stevedores and dock workers refused to accept settlement terms today and called a general strike and expected to be supported by the railroad men's strike.

NORTH CAROLINA POSSES SEARCH FOR NEGROES

(By The Associated Press.)

GASTONIA, N. C., Nov. 8.—Poses are searching for two negroes who killed John Ford, of Lincoln, and attacked two girl companions, after holding up the automobile three miles from here.

SALEM, O., CALLS FOR ASSISTANCE TO HANDLE TYPHOID SITUATION

SALEM, O., Nov. 8.—Declaring that the situation has gotten beyond control of local authorities, Mayor John W. Post yesterday telephoned Gov. James M. Cox for state aid in fighting the typhoid fever epidemic which has been raging here almost a month. Seven deaths have resulted. Thirty new cases and one death were reported within the last two days.

There are approximately 1,000 cases in the city, it was said after a survey. Only twenty physicians and 200 nurses are caring for the patients, who comprise about one-eleventh of the population.

FIFTY-ONE SHIPS HAVE BEEN SOLD

WASHINGTON, Nov. 8.—The shipping board announced that fifty-one merchant ships of all types have been sold between August 1st to October 30th for a total of \$24,675,000.

HARDING SPEEDING SOUTHWARD

WILL REST, HUNT AND PLAY GOLF AT SMALL VIL- LAGE IN TEXAS

(By The Associated Press.)

ON BOARD HARDING'S SPECIAL TRAIN, Nov. 8.—Coming to Texas to the remote village, Point Isabel, Senator Harding plans to plunge into real vacation, hunting in the morning and playing golf in the afternoon for two weeks.

Point Isabel, where the party arrived at noon today, is on the Gulf coast and within six miles of the Rio Grande. The approach of the president-elect so near the Mexican border caused considerable speculation as to whether he might use his twelve days' stay to gather first-hand information of conditions in the Southern republic, but it was said aboard the train that any steps he took would be of a strictly unofficial character.

It has been reported that efforts would be made to arrange a conference between Mr. Harding and General Obregon, the president-elect of Mexico, and informal overtures also are expected from the anti-Obregon faction, but Mr. Harding has indicated that in the interests of strict propriety he would not encourage any consultation with those who are not citizens of the United States. On the other hand, it is pointed out that should General Obregon actually present himself for a conference it might be difficult to refuse.

MORGANATIC WIFE KING ALEXANDER CLAIMS PROPERTY

(By The Associated Press.)

ATHENS, Nov. 8.—The question of the legal rights of Madame Manos, the Morganatic wife of the late King Alexander is creating interest. She claims Alexander's property because of the approaching motherhood. Attorneys for former King Constantine claimed they would contest but jurists point out if Constantine takes action might constitute admission he is no longer king.

GOVERNMENT DEPARTMENTS PREPARING ESTIMATES FOR APPROPRIATIONS

(By The Associated Press.)

WASHINGTON, Nov. 8.—The government departments are preparing estimates for the appropriation by congress and since the Republicans have the majority sharp changes are expected in the present political situation, the same as eight years ago, but the economic situation is different.

OFFICIAL CANVAS IS NECESSARY IN TENNESSEE

(By The Associated Press.)

MEMPHIS, Nov. 8.—Official canvass will be made to determine the congressional election in the Fourth district where, Hull, Democrat, claims to have beaten Clouse, Republican, and in the eighth where both Browning, Democrat, and Scott, Republican, both claim election.

ARMENIA MAY PASS INTO BOLSHEVIST CONTROL; TROOPS SURRENDERING

(By The Associated Press.)

CONSTANTINOPLE, Nov. 8.—Armenia is reported as passing under Bolshevist control. Armenian troops are surrendering and fleeing to another country.

AGREEMENT ON GERMAN REPARATIONS PLEASES THE PRESS OF FRANCE

PARIS, Nov. 8.—The agreement reached by France and Great Britain upon the procedure to be followed in settling the German reparations question is received with satisfaction in the French press yesterday.

The procedure embraces as its first stage a conference of experts at Brussels; second, a meeting of allied and German representatives at Geneva; third, consideration by the reparation commission of the findings of the first two conferences, and fourth, a meeting of the premiers to consider the commission's decisions.

COUNTRY NEEDS REST FROM POLITICS

McADOO TELLS ABOUT THE FU- TURE OF THE DEMOCRAT- IC PARTY

NEW YORK, Nov. 8.—William G. McAdoo, former secretary of the treasury, in a statement commenting on the result of the national election, declared that "what the country needs is subsidence of the passions and hatred engendered by the war and the partisan political appeals that have followed."

"It is of no value to try to explain the causes of the Democratic defeat November 2," the statement said. "The overwhelming Republican victory has given that party the presidency and both houses of the congress. After March 4 next, it will have entire responsibility for the policies and administration of the government, and cannot evade or excuse its failure to perform the promises it has made to the country. Under our political system it is always better to have one party control at Washington than to have divided authority."

"What the country imperatively needs now is subsidence of the passions and hatreds engendered by the war and the partisan political appeals that have followed. The country is sick of political standards and controversies. It wants domestic as well as international peace, and it wants restoration of that fine spirit of co-operation which made America invincible in war."

"We face domestic and international problems of great gravity. The only way to solve them is through co-operation. The highest duty of the leaders of both parties is therefore to promote better feeling among all classes of our people, to refrain from unworthy appeals to class and racial prejudices and to bring to bear upon our serious problems that dispassionate and intelligent consideration through which alone there is promise of genuine public service."

"The Democratic party has suffered a severe but not a disastrous defeat. It is far from dead; it is not even seriously wounded. Throughout our history overwhelming political reverses have been followed by extraordinary political recoveries. So long as the Democratic party is true to its mission of service to the common people, it will live."

"What we must do now is to build up and strengthen the party organization, not in the interest of any individual or group or faction, but for the cause of Democracy itself, and above all for service of the country. It will not be difficult, through proper leadership and organization to re-inspire party enthusiasm, to restore party unity, to maintain party ideals and principles and to regain popular confidence."

"To this task Democratic leaders must devote themselves with unselfish patriotism and courage."

TRUCKERS ORGANIZE TO CONTROL LABOR SITUATION

The truckers of Lee, DeSoto and Manatee counties are compelled to reduce their acreage of truck crops for this year, principally on account of the labor shortage. While the labor situation is slightly better than a month ago, the present situation will bring about some important changes for securing sufficient labor to handle the usual crops.

Sometime ago the truckers of Seminole county organized and decided on a definite wage scale. In order to carry out the same plan in Manatee county, County Agent W. R. Briggs and a number of local truckers called a meeting at Bradentown to establish a similar system throughout Manatee county. Reports indicate that sufficient labor can be secured to handle a much larger crop than is being planted, but without some definite plan of organization the uncertainty makes the situation difficult to handle.

The farmers of Manatee county, fully realizing the situation, have determined to better their conditions by co-operative action. The business interests of the county also see the need of such action and this effort is sure to bring good results.

CITRUS FRUIT OUTLOOK VERY BRIGHT PROSPECTS. GOOD CROP AND PRICES

FREE SCHOLARSHIPS FOR EX-SERVICE MEN GIVEN BY Y. M. C. A.

(By The Associated Press.)

NEW YORK, Nov. 8.—More than \$6,000,000 has been appropriated by the War Work Council of the Young Men's Christian Association for free scholarships and educational service for former service men. The latest appropriation, of \$1,260,000 just announced, brings the total to \$6,100,000.

Free scholarship awards have been given to 38,582 former service men, the educational service committee has reported to the council, representing an outlay of \$2,367,895. The men aided represent every state and more than two-thirds of the cities and counties of the union, the committee states.

The grand total, a considerable portion of which is now available for scholarships, has been apportioned as follows: Scholarships, \$5,050,000; Americanization work, \$500,000; vocational service, \$125,000; educational lecture service, chiefly in rural communities, \$100,000; publicity, supervision and administration, \$325,000.

Seven thousand volunteers, serving in 1,532 committees, supervised the granting of the scholarships already awarded, examining 50,000 applicants. The large number of applications remaining on file will be considered in apportioning the latest appropriation.

The council expects that before the end of the educational year on June 30, at least 60,000 former service men will have received assistance from the Y. M. C. A. in educating themselves.

LIQUOR FOR PERSONAL USE MAY BE STORED AT HOME

(By The Associated Press.)

WASHINGTON, Nov. 8.—Liquor lawfully acquired by persons for personal use may be stored in no place other than his home and that transportation of lawfully acquired liquor from the warehouse to the home did not constitute transportation in the meaning of the enforcement law, under the Supreme court ruling.

YONCALLA WOMEN ELECT ENTIRE TICKET BEATING MEN FOR EVERY POSITION

(By The Associated Press.)

YONCALLA, Ore., Nov. 8.—Women won in this city in Tuesday's election, an entire municipal ticket of women being chosen. Men opponents were defeated for all the offices. Mrs. Mary Burt is the name of the new mayor.

SEABOARD RESTRAINED TRAFFIC REGULATIONS

(By The Associated Press.)

WASHINGTON, Nov. 8.—The Supreme court denied the request of the Seaboard Air Line for an injunction restraining the Interstate Commerce commission from enforcing certain traffic regulations.

TAX ACT KNOCKED OUT

(By The Associated Press.)

WASHINGTON, Nov. 8.—The constitutionality of the Georgia tax equalization act of 1913 was denied by the Supreme court today.

BODIES OF AMERICAN SOLDIERS IN ENGLAND WILL BE RETURNED

(By The Associated Press.)

WASHINGTON, Nov. 8.—The bodies of five hundred and fifty American soldiers who died in England will remain buried there permanently at the request of families. Others will be returned.

HARDING WILL SAIL TO PANAMA

(By The Associated Press.)

NEW YORK, Nov. 8.—President-elect Harding sails from New Orleans November 18th for Panama aboard a United States fruit steamer. Returning he will land at Norfolk December 4th.

If you do not get your Daily Herald on time phone 481 and it will be forthcoming.

State To Exceed 13,500,000 Boxes This Year

FINE QUALITY FRUIT

ORANGE SEASON LATER THAN USUAL AND MORE COOL WEATHER NEEDED

JACKSONVILLE, Nov. 8.—There have been various estimates made on the size of the Florida citrus fruit crop this year, but so far as is known, only one estimate has been made as to quality. All are agreed that the quality is good—possibly the best ever placed on the market, according to present indications.

One great difficulty in getting an accurate yield estimate is the fact that the size of the new acreage coming into bearing each year is an almost unknown quantity. Most percentage estimates are based on the increase or decrease of fruit above or below that on the same acreage in past years and but very little attention has been paid to ascertaining the volume of the crop on the new acreage.

Early estimates on the 1919-1920 citrus fruit crop in Florida placed the probable yield at 10,000,000 boxes. These estimates were based on a percentage increase in yield over that of the previous year. The increased acreage was not taken into consideration and at the close of the packing season in July, 1920, it was learned from actual count that the various railroads of the state had shipped out of the state 12,495,925 boxes of citrus fruit. These figures do not take into consideration the amount of fruit consumed within the state, nor the amount shipped out by express.

Estimates on this year's crop place the grapefruit crop at 75 per cent of last year and the orange crop at 115 to 120 per cent of last year. Practically all estimates agree on the grapefruit crop being less than last season on the same acreage, and the orange crop being larger than last year on the same acreage. The new acreage coming into bearing seems not to have been considered in a percentage way.

In its September estimate the government's report on citrus fruit

POLES FIGHTING AGAIN WITH THE LITHUANIANS

(By The Associated Press.)

WARSAW, Nov. 8.—Fighting was resumed between the Lithuanian troops and the Polish volunteer army today it was announced. The Polish general, Zeligowski, said the Lithuanians without replying to the proposal of negotiations attacked the Poles driving them back and they launched a counter attack.

ANTI-BOLSHEVICK FORCES OF WRANGEL HOLD THE CRIMEA

(By The Associated Press.)

CONSTANTINOPLE, Nov. 8.—General Wrangel's anti-bolshevik forces are still holding keys to the Isthmus leading from Crimea to the Russian mainland. Impending winter is dreaded by the people of Crimea where there are two million with little food, clothing and money gathered.

REPRISALS TALKED OF BY JAPS IN AMERICAN DISCRIMINATION LAWS

(By The Associated Press.)

TOKIO, Nov. 8.—A firm attitude toward the United States was recommended by speakers at a public meeting held last evening for discussion of the situation created by the adoption in California of legislation affecting the Japanese. The audience of about 1,000 persons heard the speakers, who were journalists, ministers or politicians and student orators. One of the newspaper men who made an address urged that the "anti-Japanese discrimination" in America be met with anti-American discrimination in the orient. War talk was deprecated by the speakers.

JAPAN ASSURANCES NON-AGGRESSIVE IDEA

(From Thursday's Daily)
LONDON, Nov. 6.—Representatives of the Japanese military mission in Siberia have given assurances to the leaders of the Far Eastern Republic in Siberia that Japan has no aggressive intentions at the present time toward Russia, but desires to live in close neighborly relations with that country, says an official bolshevik wireless message from Moscow. The announcement of Japan's pacific attitude was made at a gala banquet given at the Verkhne-Udinsk in honor of the anniversary of the organization of the People's Revolutionary army by the aid of which the Far Eastern Republic was established.

The Moscow wireless states also that Chinese representatives at the banquet expressed friendship toward Russia.

CONTINUOUS BRAKE ON FREIGHT CARS

(By The Associated Press)
PARIS, Nov. 6.—Need for hastening the adoption of the "continuous brake" on freight cars, says M. Le Troquer, Minister of Public Works, says is made apparent by the wrecking of an express train outside Paris a few days ago. Nearly 60 persons were killed and scores injured.

Such brakes are provided for in the economic section of the peace treaties, he said, but their adoption depends upon agreement among European countries.

The "continuous brake" is designed to operate automatically upon cars that may break loose from a train. The recent accident was caused by several loose cars becoming derailed when they rolled down grade to the forward part of the freight train, waiting for them. The loose cars fell across the track of the express that arrived half an hour later.

GERMANS SHOW SCANT COURTESY TO THE PRESIDENT

(By The Associated Press.)
BERLIN, Nov. 6.—The check which has taken place in the attitude of Germans toward official personages was illustrated the other day at Templehof Field where the German emperor formerly twice a year reviewed the troops of the Berlin garrison. President Ebert visited the field a few days ago to watch the filming of a motion picture but instead of the adulation which used to be accorded to the Emperor, the crowd of 4,000 costumed performers failed to recognize the president, jostled him and gave him scant show at the sandwich counter.

The German president wandered about unaccompanied and stood for a while beside the camera man while a scene was photographed. Later he made his way against the edge of a crowd witnessing a "riot scene." When the crowd was ordered out of camera range, Herr Ebert received no consideration from the jostling spectators.

One of the crowd who recognized him called attention to his presence but few gave him any notice.

EXPRESS AND STEAMER RATES SERVICE RESUMED

TALLAHASSEE, Nov. 6.—Last spring the Traffic Department of the American Railway Express Company cancelled through rates upon joint express and steamer service, and there was no tariff covering this movement other than the local rates to and from Jacksonville. The rail and water express service had been available for a great many years and was used by small growers who could not ship in carload lots, giving them a cheaper rate to northern markets.

On the complaint of a number of shippers of fruit and vegetables at various points in the state, the Railroad Commissioners handed this

question with the American Railway Express Company, and on their representations these rates were restored voluntarily; W. W. Owens, General Manager, advising the Commissioners under date of November 2nd that arrangements had been perfected which would permit the continuance of the express rail and water service to those patrons who care to avail themselves of it, and circulars were accordingly being prepared for distribution to all offices.

SANFORD HIGH WINS AND LOSES AT PARISH HOUSE

(Continued from page one)
end of the first half, when Eustis was on the little end of a 14 to 5 score, but in the second half, personal fouls enabled the Eustis boys to come right back and roll the score up to 31 to 23. The second half was almost half over before the S. H. S. had recovered from the new start which the Eustis boys made, and they had only scored one point against 21 which the Eustis boys collected, bringing the score up to 26 to 15 for Eustis. In an effort to stem the tide, Coach Ogilvie placed McLaulin in Stone's place, and after Lovell had sprained his ankle, E. Henderson took his place, the S. H. S. took new life and gained 8 points, but to no avail and it was over too soon.

Lovell, Moye and Musson contributed the best work and were in the game every minute of the time, especially Moye, who was by far the locals best bet, and who was expected to bring the S. H. S. boys to the top. However, Lovell, Musson, Stone, Barber and Henderson all come in for their share of the limelight, and showed that Coach Ogilvie's training and advice wasn't in vain, for they were in there all the time and put up a game fight from the start.

The line up's and points scored by each player, follows:

Sanford Girls
Easterby, center, 0; Wheelless, running center, 0; Lake, right forward, 28; Spencer, left forward, 12; Carraway, guard, 0; Wilson, guard, 0; Jones, guard, 0; Wray, guard, 0. Total, 40.

Eustis Girls
Rodgers, right forward, 2; Herlong, left forward, 3; Lux, guard, 0; Bellamy, guard, 0; Gardner, center, 0; Thomas, center, 0. Total, 5.

Sanford Boys
Stone, center, 2; Musson, left forward, 6; Moye, right forward, 15; Barber, left guard, 0; Lovell, right guard, 0; Henderson, right guard, 0; McLaulin, center, 0. Total, 23.

Eustis Boys
Dykes, right forward, 8; Barnes, left forward, 19; Bayless, center, 4; Wilt, right guard, 0; Cornell, left guard, 0; Barksdale, left guard, 0. Total, 31.

BOND AMENDMENT IS DEFEATED BY A BIG VOTE 23,057 AGAINST BONDING

(Continued from page 1)

and county officers generally throughout the state, his election being assured by a vote of about two to one over Harding; while Hardee, Democratic candidate for governor, beat his Republican opponent, Gay, by a five to one vote; Fletcher, Democratic candidate for U. S. senator, beat Cheney, Republican, by a vote of nearly three to one, and Sears, Democrat, for congress, beat Bowen, his Republican opponent, by more than 5 to one.

In a few counties and precincts astonishing strength was shown by Republicans and independents.

In Franklin county, Mrs. Eleanor Floyd, who was barred off the primary ballot as the Democratic candidate on a technicality, ran as an independent, and was elected tax assessor over M. G. Fanin, the Democratic candidate, and present incumbent of the office.

Mrs. Clara Stypman, Republican, was elected county superintendent of schools in Palm Beach county, and latest returns indicate that Harding carried the county by a small majority. Major Milburn, Republican candidate for sheriff, and Cal Campbell, Republican candidate for tax collector, West Palm Beach, made startling runs, and on the late returns both appeared to have a fighting chance for election.

Pinellas county gave Harding electors majorities in every precinct except one, where Cox pulled through by the narrow margin of four votes. Dr. Grace Whitford was elected a member of the school board.

One precinct in Alachua county went Republican, the precinct being Archer, where there is a heavy negro vote. In that precinct Cubberly, Re-

CARTER LUMBER CO.**

publican, led Clark, Democrat, for representative in congress by a vote of 76 to 71.

Lake county had a special referendum vote on the proposition of retaining a county demonstration agent, the vote going in the affirmative by 1,032 for, and 583 against.

Okeechobee county returns showed that J. E. Lovvorn, running as an Independent, defeated G. C. Durand, the Democratic nominee for county judge by a decisive margin.

The DeSoto county Republican vote was the heaviest ever cast there, and the Republican presidential electors carried Oak Ridge and Pine Level precincts.

SOCIAL CALENDAR FOR THE WEEK

Monday—
Monday Afternoon Bridge Club with Mrs. Claude Howard.
St. Agnes Guild with Mrs. A. R. Key.
Tuesday—
Bridge, Social Department of the Woman's Club, Mrs. Hal Wight, Hostess.
Wednesday—
Literature and Music Department at the Woman's Club.
Thursday—
Armistice Day.
Evening—Armistice Day dance at Court House.
Friday—
D. A. R. Meeting with Mrs. A. R. Key.
T. N. T. with Mrs. Reginald Holby.

Mr. and Mrs. Emmitt Hunt arrived last evening and will be the guests of Mrs. Hunt's parents, Mr. and Mrs. J. A. Harrod for some time. Their many friends will be glad to know that they expect to make Sanford their home.

Mr. and Mrs. Earl Burdick have returned from a few days spent in Tampa.

Miss Eloise Keen, who has been the guest of Mrs. W. O. Garner, has returned to her home in Washington.

Mrs. B. J. Starling is visiting her sister in Savannah, Ga.

Miss Mae Thrasher is at home from the Florida State College for Women at Tallahassee, and will be here over Armistice Day.

Mrs. Augusta Eigenmann, of Atlanta, is with her daughter, Mrs. F. S. Dalger and will remain her guest through the winter.

Mrs. Braxton Perkins is in DeLand having had an operation on his ear by Dr. Ingram.

Mrs. C. M. Hand, Mrs. Archie Betts and Master Charles Betts arrived home Saturday after a pleasant summer spent in Plainfield, N. J.

Miss Jesse Wheeler, of Jacksonville is the guest of her sister, Mrs. H. H. Chappel on Celery avenue.

Mrs. Wilma Steed, of Kissimmee, is the guest of Mr. and Mrs. J. G. Ball.

NOW SEE PROSPECT OF REDUCED ICING CHARGES

Some relief for Florida fruit and vegetable shippers in the matter of icing charges is promised, according to information which has just reached E. D. Dow, traffic manager of the Florida Citrus Exchange.

Mr. Dow is in receipt of a copy of report made to the Interstate Commerce Commission by H. G. Wagner, Examiner for the Commission, who conducted the hearing held in Tampa last spring when the reasonableness of existing charges for refrigeration was attacked by the Florida Citrus Exchange and other Florida shippers. In reviewing the evidence submitted at the hearing in Tampa, Examiner Wagner recommends to the Interstate Commerce Commission that a reduction of 20 per cent will be made in the cost of ice as a factor in these refrigeration charges.

Mr. Dow figures that this would operate to reduce the present rate of \$77.50 for full tank refrigeration to New York to \$67.50. To Boston and Chicago the present rate of \$85.00 would be reduced to \$73.50 on full tank icing. The rate to New York thus would come down to about \$2.50 more than the old rate for this service, and about \$2.75 more than the old rate to Boston and Chicago. The charge for half tank refrigeration, if this reduction be granted, would be reduced to about \$3.00 in excess of the old charge to the various markets.

The Examiner's findings still remain to be approved and acted upon by the Interstate Commerce Commission, but shippers are hopeful they will be accepted. If they are accepted, and reduction ordered on basis of the examiner's report, this will constitute a very substantial victory for Florida shippers. It will be of particular advantage to vegetable shippers as under the old rates refrigeration was charged on a per package basis while now the per car charge includes any quantity in the load.

BEAUTIFUL POST CARDS AT THE HERALD, EACH 1c

SAW MILL MEN TO CUT WAGES

There was a largely attended and representative meeting of saw mill men at the Hillsboro this morning for discussing plans whereby they could continue operations. They have been confronted for some weeks with the problem of keeping their mills going. The price of lumber is unsatisfactory, while at the same time operating costs have increased with each month. The saw mill operators are anxious to keep their labor employed, but they cannot do so at the present wage scale. After all morning discussion it was decided that, effective Monday morning, Nov. 8, common labor will be paid a maximum of \$2.50 per day and other labor reduced proportionately. Even on this basis it may be necessary to discontinue operations altogether, unless there is very soon a considerable increase in the sale of lumber, the price being greatly below producing cost.

Information is that a number of the mills in Georgia, West Florida and Alabama have already closed down and others are planning to do likewise. Telegrams to one of the gentlemen present from North Carolina read at the meeting, said that 50 per cent of the mills in that territory had closed down tight.—Tampa Tribune.

OTHER DOUBTFUL STATES DROP IN HARDING COLUMN

(By The Associated Press)
NEW YORK, Nov. 8.—With both Montana and Nevada added to the Republican column in the electoral vote, Senator Harding now has 403 votes to 130 for Governor Cox. The list of states carried by the Democratic candidate embraces only the South and New Mexico—and of the South Tennessee went to the Republicans.

It is now certain that the Republicans will have fifty-nine members of the senate to thirty-seven for the Democrats. In the house the Republicans will have 162 more members than the Democrats, surpassing the previous high record majority which the Democrats had in the fifty-second congress—148. Final official counts in a few of the still doubtful congressional districts may slightly increase this Republican margin.

Congressional elections in three districts last night had not been officially reported and with the uncertain trend that has taken place in the Fourth and Eighth districts of Tennessee the Republicans still have a chance of adding to their record majority in the new house. The Twenty-third New York district, in which six election districts are to be heard from, shows the Republican candidate leading by approximately 2,000. The district at present is represented by Richard F. McKinley, Democrat, and his defeat is not conceded by the Democrats as the districts is regarded as a Democratic stronghold.

The other districts remaining in doubt because of the absence of official reports are the Eighth of Minnesota, and the Fifth of Missouri. Late returns today from Tennessee indicated that W. F. Clouse, Republican, was leading Representative Cordell Hull by less than 300 in the Fourth district, but Republican leaders were confident that the complete returns would show a plurality of at least 1,000 for Clouse.

In the Eighth district, incomplete returns gave L. A. Scott, Republican, a small lead over Gordon Browning, Democrat. The election of Hull and Browning was indicated in the early returns.

In the district that have definitely reported, the Republicans have elected 290 and the Democrats 138, including the two Tennessee seats which last night were placed in the doubtful column. The others elected include one Socialist, one Independent, one Prohibitionist and one Independent Republican.

Thus the Republicans, with 290 members as compared with 232 in the present congress, have made a net gain of fifty-eight members by invading many Democratic districts and filling some vacancies, while the Democrats, with 138 members as compared with 190 in the present congress have suffered a loss of fifty-two. The miscellaneous representation of four is the same numerically as before.

Sanford should spend her surplus money on more hotel accommodations—the people are coming here without any urging.

Office supplies at the Herald.

MICKIE SAYS

BOLSHEVIKS IN JAPAN

TOKIO, Nov. 8.—Japan's new religion Omoto-ko, which was founded by a peasant woman, and which is popularly supposed to be spreading socialist and even bolshevist ideas under the cloak of loyalty to the Japanese Imperial House is now finding adherents in the army, according to vernacular newspapers.

The fact that some officers on the reserve list are devoted followers of Omoto-ko, is said to be particularly disturbing to the military authorities. An investigation was started when a soldier of a regiment at Nagoya tried to organize in co-operation with socialist agitators, both inside and outside the regiment, an association to oppose military discipline.

In an interview with the Yomiuri Shimbun, Major-general Nagasaki expressed regret at the signs of unrest among the troops, but said that the number of men who exhibit such signs were few. He added: "However, it appears true that the number is growing among both the men and officers, mostly those upon the reserve list, who are becoming tainted with the hideous doctrine of the Omoto-ko. The war office is apparently conducting an investigation into this and possibly some official instructions will be issued in the near future."

Here is a Chance for The Boys and Girls To Win High Honors

Can Enter Samples of Their Work in Educational Section of the State Fair

Jacksonville — In the educational section of the Florida State Fair, Nov. 18-27, handsome prizes are offered for competition of the school children of the State and there is every indication that there will be a large number of exhibits by the youngsters.

The purpose of the Fair being educational, every effort has been made to encourage the children to take an interest in it and to stimulate their interest in their work through competition for premiums.

Think of the honor to the boy and girl, who has won a blue ribbon in addition to a cash prize for the best drawing, the best piece of manual training work, the best work with the needle done by a boy or girl in all Florida. This section of the varied array of exhibits gathered at the Fair is of interest, not alone to the kiddies, but to the grown-ups as well.

Other features, which will please the most exacting are: aviation thrillers, free acts, midway, county exhibits, livestock, poultry, pet stock, varied industries, automobile show, implement and tractor demonstrations, woman's achievements, boys' and girls club work.

Censored Shows Only Allowed at State Fair

Jacksonville. — The Midway is always a lively spot on fair grounds, and its features are in demand by the public generally. Sometimes, however, the shows and concessions comprising this section of the grounds are not subjected to a sufficiently rigid investigation and it not infrequently happens that objectionable features creep in.

All such features will be eliminated so far as possible, at the Florida State Fair, in this city, Nov. 18-27, and visitors are assured plenty of clean, high class entertainment on the Midway.

It is the policy of the State Fair to build up an absolutely high grade institution in all respects. Perfection may not be attained in any one year, but by gradually making improvements it is hoped to ultimately build up an institution that will rank second to none in the country.

Six Kinds of Safety

Have you every paused to consider the safety of the bank where you deposit your money?

The first consideration is the capital, which should be ample to meet the requirements of the community the bank is to serve.

The next question to consider is the officers in charge. They should be men of experience, high character and successful. Without men of ability no institution can succeed.

Then there is the question of confidence. The public should have confidence in the officers and in the bank.

These three principles determine the success of a bank.

We adopted these principles in the outset of our career and we expect to live up to this high standard and increase our usefulness to the community as the years go by.

We Offer You:

- 1ST: LARGE CAPITAL AND WORKING RESERVE.
- 2ND: TRAINED MEN IN CHARGE—MEN OF SEVERAL YEARS EXPERIENCE.
- 3RD: THE CONFIDENCE OF THE PUBLIC, WHICH IS PROVEN BY THE DAILY ADDITION TO OUR LINE OF DEPOSITORS.
- 4TH: PROTECTION BY TWO EXAMINATIONS EACH YEAR BY THE STATE BANKING DEPARTMENT, TWO AUDITS EACH YEAR BY AN INDEPENDENT RECOGNIZED PUBLIC AUDIT COMPANY AND TWO SWORN STATEMENTS SUBMITTED TO THE STATE COMPTROLLER BY THE CASHIER, GIVING THE BANK'S CONDITION IN DETAIL, ALL OF WHICH INSURES REGULAR, SYSTEMATIC AND THOROUGH OPERATION OF THE BANK.
- 5TH: THE ADVICE OF A COMPETENT BOARD OF DIRECTORS, WHO MEET WITH THE OFFICERS REGULARLY EACH MONTH AND ADVISE THEM AS TO THE OPERATION OF THE BANK.
- 6TH: INSURANCE OF ALL DEPOSITS EVERY DAY OF THE YEAR, THIS IS A PROTECTION NOT COMMONLY FOUND IN BANKS AND IS AN ABSOLUTE PROTECTION FOR YOUR FUNDS, IN ADDITION TO ALL THE OTHER USUAL SAFEGUARDS.

THESE ARE REASONS WHY YOU SHOULD DO BUSINESS WITH US, AND WE BELIEVE THAT NO BANK CAN OFFER BETTER INDUCEMENTS.

Vulcanite Shingles

Just Lay Them Down and Nall--That's All There Is To It

The Shoulder of Protection keeps hot or cold air—rain, sleet, etc., from forcing its way through the roof.

The Shoulder of Protection is also the Self-Spacing Device. Makes laying easy and rapid—thus saving time and money.

These Asphalt Shingles are surfaced with natural colored Red or Green Crushed Slate. Each rain washes away the accumulated dust—reviving perpetually the original rich colors.

Where these shingles are used the insurance rate is lowered—because they are fire-resisting.

Give us the dimensions of your roof. We will estimate the cost free of charge. Samples and prices furnished free.

Miami is among the progressive cities of Florida that are contemplating establishing commission manager form of government. They will all come to it before long.

The early lettuce crop of Sanford is looking good and means much money for Thanksgiving. It also means that this money will be spent here among the home merchants and will make things hum.

At the special request of the business men of Sanford the Herald will issue special Christmas stuff several weeks in advance of Christmas and instead of a big Christmas edition will print special holiday matter in the Daily and Weekly Herald and also print an almanac, something that the farmers and growers everywhere want and want badly.

We are glad to announce that the Montezuma Hotel will open in a few weeks and add another splendid hotel to Sanford's excellent list of real good hotels. With another forty room hotel like the Montezuma under able management Sanford will house many hundreds of tourists and commercial travellers this winter that could not otherwise be our guests. Sanford will be THE RESORT of this section ere long.

We have discovered a very expressive word to replace the Spanish "manana" in describing civic action among most members of trade bodies. It is "bum-bye" which is Seminole Indian for Later. This is the Miceesukee dialect spoken by the Seminoles in that part of the everglades south of Lake Okechobee.—Leesburg Commercial.

We think this is Leesburg language, Gilbert.

Because he was the father of a boy, a linotype operator who came to Leesburg to work in the Commercial office, could not get board in any private family that we could learn about and he went back to Jacksonville without striking a lick on the machine. If anyone is willing to take some of these people we would like to know about it, for unless we can house our employees comfortably they will not remain with us.—Leesburg Commercial.

The Orlando Reporter-Star issued their first Sunday morning edition yesterday, consisting of 36 pages of reading matter and advertising and with a colored comic supplement. It contained among other things a write-up of the Sanford Board of Trade and had advertisements of Sanford and the Valdez Hotel, etc., and was a fine edition. The Reporter-Star is installing a new perfecting press and expects to get out a big daily in our sister town of Orlando. Those Brossier Twins are some hustlers all right.

The Herald does not want to beg any merchant to take space in either the daily or weekly papers. The time is past for that sort of soliciting and the live and progressive merchants of this city have long ago realized that they can make no better investment than taking liberal space in the paper. Our solicitor will call on you each day if possible or you can phone us or send your copy in but remember that you are not doing the Herald a favor by advertising—it is simply

JO says "SOME OTHER TIME NEVER COMES. EVERY DAY YOU DE VERY THING YOU CAN-LL AF- THAT IS THERE. IF YOU FEEL THE URGING WITHIN, ACT. ACTION IS THE FIRST STEP TOWARD SUCCESS. ACT TODAY AND ACQUIRE SOME OF THE 8 PER CENT CUMULATIVE-PRIOR PREFERRED STOCK OF THE SOUTHERN UTILITIES CO. THERE'S NONE BETTER."

a business proposition with both parties—and not a charitable act.

The election is over and whatever ill feelings might have been engendered by the event should be dispelled by the thought that we should all get together now and work for a bigger and better city. There is no need for any trouble here and the best class of both white and colored citizens are laboring to keep it down. Sanford has a good class of negroes here that work and own property and are good citizens and if let alone will tend to their own business. Few of them would ever think of mixing up in politics unless they were urged to do so and since the election is past this should not be held against the negroes.

COMING TO FLORIDA

More than a thousand Washingtonians will leave the Capital City for Florida this winter, according to a letter from one of them. It is not so much a desire to travel as it is the purpose to keep warm, he says; and then he gives the fuel prices prevailing in the city where Republican senators have done all they can to keep the populace of the country poor, and therefore, humble.

"Briquets (coal dust and some semi-burning binder) are selling for above \$15 a ton here today. Hard coal is above \$17. It means something to people who require fifteen to twenty-five tons of fuel a season. It is serious."

What a pity the poorer, more modest living families who need from three to ten tons of coal a season cannot also take advantage of the Florida warmth and healthful outdoors!

The Florida climate is becoming so well and truly known that it is no longer possible for some unscrupulous person to give the state a black eye along that line. Too many people from every part of the country have spent winters or parts of winters in Florida, and all of them know the truth about the little need for fuel and the great saving effected in winter clothes. That this is true is evidenced by the number of automobile parties coming from distant northern and western states, bringing their tents and outdoor equipment—not even waiting to provide it when they arrive.—Tampa Tribune.

THE AMERICAN PIE COUNTER

"To the victor belongs the spoils." This quotation is often used to condemn or justify the appointive system of filling political offices. It all depends on the injection and the viewpoint. To the rabid partisan public office is more than often simply a medium of exchange wherein the faithful political worker is paid. The civil service reformer, on the other hand, while recognizing this, opposes its continuance. He would fill all offices which are now appointive by competitive examination.

There is merit in both systems—and there is evil. The appointive system has proven itself the better of the two in those positions which require the exercise of judgment and policy, just as the civil service perhaps brings a better grade of clerks and stenographers to the public service. The reason for this is simple. The character of the administration is determined largely, not by the character and worth of the individual at the head, but by the loyalty with which his subordinate executives follow his policy. Loyalty can be judged personally, although it is hard to bring it out by civil service rules. An individual can be loyal to one leader, where he cannot be to another. Since this question of loyalty to principle does not enter into the routine positions, civil service produces greater public satisfaction there.

Patronage, particularly the kind which deals in small positions, has made and unmade many politicians, and some statesmen. Politicians always seek patronage as a means to control—and statesmen often use it, as a means at hand, to aid the adoption of the ideas the yadvocate. Those who oppose the particular idea in question always call this "bribery"—those who favor the idea depreciate it as "necessity." It has been the case in all republics.—Bradentown Journal.

Mayor Titus of Daytona says that he intends to enforce the "Blue Laws" of the state in his municipality. Garages will be closed and sale of auto supplies forbidden. Drug stores will be permitted to sell drugs only.

SINCE ARMISTICE DAY THE FIRST

There are many things that have happened since the first Armistice Day two years ago when the bells and whistles announced the close of the war. It meant many things at that time the greatest being that our boys were coming home. It also meant that the nations would stop fighting—that is we all thought it meant that—but since that we have found out different as the following from the Dearborn Independent indicates:

"Two years is a short time in the life of a man, a shorter period in the life of a nation and but a second in the history of the world, yet there are those who profess to feel that the world as a whole has done very little toward its own redemption.

"Russia, they say, is in the grasp of what appears to be nothing better than anarchy. Austria is prostrated. Poland is in arms. Ireland is in rebellion. France is dissatisfied with the spoils of the victor; Germany is impoverished by the price of defeat and England and Italy are torn by labor disturbances. There is peace at home, but even here we are discovering that one cannot dance without paying the piper and we are facing the bills for our period of national and private extravagance.

The indictment sounds serious enough but before agreeing with the pessimists who think that everything is wrong, would it not be well to consider just how long the world was desperately sick before we attempted to pass judgment on the time necessary for its recovery?

"It is claimed that the world war was 40 years in the making. We know that it lasted four years. Therefore, but one-twentieth of the time spent in making the war and only half the time spent in fighting it have so far been occupied by the period of spiritual and material rebuilding.

"It is true that Russia has been undergoing revolution for four years. Is that too long a period? The French revolution lasted for 10 years and kept all Europe an armed camp.

"Admit that Austria is slow in recovering! What else can be expected of an empire which was politically and geographically demolished and which must actually be born again?

"Poland in arms is but the reflection of Russia's condition. Ireland in rebellion is only indirectly a result of the war. Italy and England have difficult labor problems on their hands, but it is noticeable that the Bolshevik movement which was at the bottom of Italy's unrest is collapsing, and it cannot be said that the strikes and riots in England are much worse than several similar occurrences in the United States.

"France may be dissatisfied but she is being paid. Germany may be impoverished in material wealth, but not in industrial spirit.

"The period which we have entered in our own country may seem lean, but it has been balanced by the fastest years that this or any other country ever saw. We have known that the silk shirt era could not last forever, that eventually we must put on our overalls and go back to work, and to the credit of the people it can be said that thus far the change is being accepted philosophically.

"Does it mean nothing when one considers the fact that, with the exception of Russia, the nations which bore the brunt of the war are hard at work paying their debts? Does it mean nothing at home that we are experiencing a bountiful harvest, that prices are coming down and that industry is rapidly adjusting itself to the changed conditions?

One does not need to be a silly optimist to see these things. It is, in fact, impossible to deny them. No man, unless he suffers from mental mionia, can look back on the condition of the nations as they wallowed through the quagmire of war two years ago without realizing that civilization's recovery has been a wonderful thing, or without feeling that this anniversary of armistice day should be marked by a spirit of thanksgiving rather than by one of apprehension."

St. Petersburg is another Florida city that is showing a remarkable growth. During the month of October fifty-nine houses were either started or completed, making the total value for the month of \$250,000 and bringing the total of new buildings so far this year to \$2,250,000.

EXCHANGE WINS POINT IN REFRIGERATION CASE

Some relief for Florida fruit and vegetable shippers in the matter of icing charges is promised, according to information which has just reached E. D. Dow, traffic manager of the Exchange.

Mr. Dow is in receipt of a copy of the report made to the Interstate Commerce Commission by H. G. Wagner, Examiner for the Commission, who conducted the hearing held in Tampa last spring, when the reasonableness of existing charges for refrigeration was attacked by the Florida Citrus Exchange and other Florida shippers. In reviewing the evidence submitted at the hearing in Tampa, Examiner Wagner recommends to the Interstate Commerce Commission that a reduction of 20 per cent be made in the cost of ice as a factor in these refrigeration charges.

Mr. Dow figures that this would operate to reduce the present rate of \$77.50 for full tank refrigeration to New York to \$67.50. To Boston and Chicago the present rate of \$85 to be reduced to \$73.75 on full tank icing. The rate to New York thus would come down to about \$2.60 more than the old rate for this service, and about \$2.75 more than the old rate to Boston and Chicago. The charge for half tank refrigeration, if this reduction be granted, would be reduced to about \$3.00 in excess of the old charge to the various markets.

The Examiner's finding still remain to be approved and acted upon by the Interstate Commerce Commission but shippers are hopeful that they will be accepted. If they are accepted and reduction ordered on basis of the examiner's report, this will constitute a very substantial victory for Florida shippers. It will be of particular advantage to vegetable shippers as under the old rates, refrigeration was charged on a per package basis while now the per car charge includes any quantity in the load.

What The Company Asks

The Company asks to earn only such profits, as are necessary to protect the rights of the public.

The public needs and demands adequate and efficient service, now and in the future.

To furnish this service, additional facilities, costing many million dollars must be constructed.

This money must be gotten from the investing public.

Investors will not put their money into an established business unless they are sure of a fair and adequate return upon their investment.

They can not receive a fair and adequate return upon their investment unless the business earns a fair and just profit.

The investor is guided by the profits earned in the past, and the prospects of profits to be earned in the future.

When the Company's profits are such as will enable it to obtain from the investing public the money needed to furnish adequate facilities to supply the demand for service, its earnings will be fair and reasonable.

A fair and reasonable profit is as necessary for the protection of the rights of the public as it is for the protection of the property rights of the Company.

What return is a fair and just profit depends upon general economic conditions.

What was a fair and just profit in 1914 is not a fair and just profit in 1920.

The investor is entitled to, and demands, the same return upon his money invested in the telephone business as he receives on money invested in other businesses.

The profits earned in other businesses determine what profits the telephone business must earn.

The available supply of money for investments is limited. The opportunity and demand for new capital is unprecedented.

The telephone business must compete with all other businesses, public and private, for this money.

The investor will put his money in the enterprise which assures him the best return.

To protect the rights of the public to receive adequate service, the profits of the Telephone Company must be sufficient to attract the investing public.

To do this the Company must earn as much as ten per cent upon its investment.

The Company's investment is all physical property: poles, wires and equipment exclusively used in furnishing telephone service. No franchises, going value or any intangibles are included, nor is there any bonds, stocks or other forms of capitalization involved.

The amount of the Company's investment is what it originally cost to construct its physical property; the "bare bones" of its telephone plant. Practically all of the plant was constructed at low pre-war prices.

Its present value today is much greater than its original cost.

To reproduce the Company's plant at today's prices, after making full allowance for its present condition, would cost 80 per cent more than the investment.

Ten per cent return upon the investment is less than 6 per cent upon the value of the Company's property.

No one questions the right of the Company to earn a fair and reasonable return upon the value of its property.

Measured by the profits earned today in other businesses in Florida, the return the Company is asking to earn is a fair and just profit.

Fla.

THE FIRST FLORIDA DIRECTORY GOOD

The first county directory ever published in the state of Florida came into my hands the other day through the courtesy of the Kinzer family, of Eustis. It is entitled Richards' Orange County Gazetteer, 1887; city directory of Orlando, Tavares, Sanford, Eustis, Apopka, Kissimmee. It was printed by the Jacksonville Times-Union, "the best equipped office in the state; plain and ornamental printing; ruling and binding." I assure you that they did do "ornamental printing" those days.

Orange county had a population then of 15,425, and comprised an area of 2,250 square miles or 1,440,000 acres—an empire within itself. It had grown from 1880 to 1885 from 6,618 population to 15,425.

To give some idea of the extent of territory Clinton Johnson, of Altoona, was chairman of the board of county commissioners, and J. P. Hughey, of Kissimmee, was one of its members. They lived 60 miles apart as the crow flies. Today by automobile road the distance is exactly 76 miles.

Of the towns mentioned Orlando is still the county seat of Orange; Sanford the county seat of Seminole and Tavares the county seat of Lake.

The railroad lines were the Florida Railway and Navigation Co. The southern division connected at Waldo and ran south to Ocala and the Withlacoochee river, 150 miles, where it evidently stopped. The Wildwood to Tavares branch was 22 miles in length.

The Florida Southern railroad ran from Astor to Tavares.

The Jacksonville, Tampa and Key West railroad had a spur from Sanford to Titusville and the Orange Belt from Monroe to Oakland.

The South Florida railroad ran from Sanford to Tampa, and from Sanford to Oviedo. The Bartow branch from Bartow Junction to Bartow. The Lakeland branch from Lakeland to Bartow, and the Pemberton Ferry branch from Tampa to Pemberton Ferry, 75 miles.

Another railroad with a great name was the Tavares, Orlando and Atlantic railroad, which ran from Orlando to Tavares, 32 miles, where it now continues on to Wildwood, a part of the Seaboard system.

In those early days, while there were two newspapers to where there is one today, there were six banks.

Orlando had a population of 4,556; Sanford, 2,378; Eustis, first called Pendryville, had 1,300; Kissimmee, 1,425; (Disston Drainage Co. was in full swing there then); Apopka, 947; and had two newspapers; Tavares, 697, and Major St. Clair Abrams was making a grade for the fourth railroad out of the town; Winter Park, 613; Longwood, 1,027 (today Longwood has maybe 250 people) had a newspaper, five churches and figured as a coming city. Cassia was settled in 1850 and had a population of 100. Higley had a population of 300. Today it has not even a postoffice.

But 36 people are catalogued in the Mt. Dora directory. Umatilla was credited with 200 people. And there are a score of towns named which have passed out of existence.

We note that the Matlocks were principal citizens and postmaster and store keeper at Sorrento. Today Shelton Matlock is a valued employee of the Tampa Tribune. Hewitt Hill was editor of the Lake Region at Eustis, and today is running the Tribune job room at Tampa.

They boasted in those days as now. Each town and hamlet talked in glittering generalities of what it was and would be. Alas and alack, some blew off all their steam in talk and had none for endeavor. It shows the case of the survival of the fittest. More than forty thousand people now live where 33 years ago 15,000 dwelled.

Orlando today has a greater population than all of Orange county of old. The total value of all real and personal property in all of old Orange was \$4,235,132. The state and county taxes were 14 mills. There were 1,160 Republicans and 1,866 Democrats voting at the polls. But 16,440 acres in all this vast empire were under cultivation.

And the question arises: What will the next 33 years bring forth?—W. P. Powell in Eustis Lake Region.

JUDGE SAYS PALMER IS TRYING TO SUPPRESS GOVERNMENT EVIDENCE

Accuses Attorney-General of Partiality in Coal Cases.

INDIANAPOLIS, Nov. 6.—Judge A. B. Anderson of the United States District Court today disclosed the reason for his proposed investigation of Attorney-General Palmer's connection with the soft coal conspiracy cases when he declared he was "going to find out whether the attorney-general can make an agreement to suppress a portion of the evidence on the part of the government." The investigation is set for next Monday, the date when the cases are to be called for trial.

Besides the judge's statement, which was made in open court, the only other development here in the investigation was the departure last night of District Attorney Van Nuys and Special Prosecutor Slack for Washington to meet the attorney-general in conference. They went at the request of Mr. Palmer, but Dan W. Simms, of LaFayette, Ind., who resigned as a special prosecutor in the case and was asked by the attorney-general to go to Washington, refused to accompany them.

PLANT CITY HAS HER MARTYRS

While the papers were issuing bulletins about Lord Mayor MacSwiney, a New England paper discovered "Silent Corkey," the Irishman who has not spoken in ten years. We may expect to see occasional bulletins from "Silent Corkey" from now on. But London and New England have nothing on Plant City, nor has the Hibernian race when it comes to silence. In Plant City we have Isom Wilson, who, according to his physician, will probably never speak again.

Isom Wilson, a resident of Starke, spent a few days in Plant City about the 20th of September. He drank some wood alcohol, which he bought for "shine" on September 20, according to Dr. W. J. Holton, who was called to his bedside on September 21. He returned to Starke and was not able to speak when Dr. Holton last heard from him.

In Dr. Holton's opinion Wilson bought his alcohol from a "moonshine ring" in the quarters, which consists of a colored clique who do not toil but prosper. He said that wood alcohol in his opinion is being used to adulterate drinks because it is easily procurable. Dr. Holton also criticized the use of wood alcohol in hair and skin lotions.

The story told by some of the colored people was that Wilson was poisoned by a jealous woman.—Plant City Courier.

The thirteenth annual Marion County fair will be held this year Nov. 23-27, and the fair officials have no superlatives about it being the thirteenth. They are ready "to tell the world" that this year's fair is going to be one of the best yet held in the most versatile of counties.

A DESIRABLE HEDGE PLANT FOR FLORIDA

Cherry Laurel, a wild evergreen plant which grows in our hammocks, is a desirable hedge plant for Florida. The seed are about the size of the common black cherry and are now beginning to ripen. These seed may be gathered in the latter part of November or December, and should be planted immediately in well prepared garden soil. Sow them about one inch apart in 12 to 15-inch rows, and cover to a depth of from one to two inches. Pack the soil over the seed.

The seedlings will come up somewhat irregularly in the spring and should be given about the same care and cultivation as a garden crop. Be careful to keep down weeds and

grass, and stir the soil frequently to conserve moisture. The plants should be allowed to grow in the seed-bed until the December or January following planting.

The young plants are transplanted from the seed bed to the position where the hedge is desired and this position should be well prepared and fertilized. Set the plants six to eight inches apart and severely cut back the tops. Careful watering and cultivation during the spring and early summer are necessary.

The plants should be sheared after reaching a height of 10 or 12 inches, most of the shearing being done at the top so as to cause sprouting, says Professor W. L. Floyd, of the Florida Agricultural College. Each shearing should be a little higher than the preceding one, and when

the hedge is from 15 to 18 inches in height lateral shearings should be made.

This plant is quite free from disease and insect attacks. It puts out suckers rapidly and, therefore, fills in the space near the ground more completely than most plants used for hedges. It is quite hardy and, if given proper care, will grow to good hedge size in two or three years after transplanting.

WEATHER REPORT

For Florida: Generally fair to night and Tuesday.

Mr. and Mrs. E. F. Lane and Mr. and Mrs. R. J. Holly went to Orlando and points in West Orange county yesterday afternoon, making the trip in the Lane car.

Deane Treadwell and W. N. Golden, of the Herald force, spent yesterday in Orlando making the trip in Deane's new speedster. Up-to-date we have not heard anything about their being arrested for speeding.

The hotels of Sanford are gaining a fine reputation over the state and all of them are filled every Saturday night and Sunday by the travelling men who come from a distance in order to spend Sunday at real hotels.

Brownlee leave tonight for DeFuniak Springs, Florida, to attend a meeting of the Synod of the Presbyterian church of Florida and will be absent from the city until Friday.

The many friends of J. L. Miller will be glad to learn that he has sufficiently recovered from a recent operation at the Fernald Hospital to leave for his home and expects to be at the bakery again in a few weeks.

Manager O. P. Herndon, of the Star and Princess in this city, is bringing some excellent pictures to the local theatres and intends to give the Sanford people the best there is in the movie line. Watch the Daily Herald for announcements and program.

Mrs. W. F. Blackman recently addressed the Woman's Club of Lakeland upon the subject of "Americanization and the Public Schools" and was enthusiastically received. Mrs. Blackman is the wife of Dr. Blackman and they reside at Wekiwa Ranch in this county near Lake Monroe.

Secretary Pearman, of the Sanford Board of Trade, visited his family at Jacksonville where he was called by the illness of Mrs. Pearman and found her suffering from a serious affliction of the throat. Mr. Pearman is anxious to move his family to Sanford at an early date and is looking for a home here.

Remember that the Herald Printing Co., has a stationery and office supply department that is ready to supply all your needs in the stationery and supply line. Postcards of all kinds showing Florida and local scenes and everything that you may want in the picture postcard line, wholesale and retail.

J. M. Bryan, of Wrightsville, Ga., has arrived in the city and will be with the Herald Printing Co., in the advertising room. Mr. Bryan is the brother of Mrs. Dr. R. M. Mason, of this city and will add another inhabitant to the city of Sanford. The Herald now numbers fifteen people on the force which means something to the commercial and social life of the city.

The Wight Tire Co.—that's the big new garage on the corner of Second street and Magnolia—have been spasmodic advertisers, but have now mended their ways and their ad will

appear daily in The Herald. They carry one of the largest and most complete stocks of repair parts for almost any car in this section, and are distributors for both the Chandler and Franklin cars. They pride themselves on giving service in every department. A trial will convince you that this is a mighty good place to take all your auto troubles.

The Hill Lumber Company has just received a car of the favorably known Keystone Alabama lime—the kind the farmers all like for spraying. You know our goods are right and we know the price is right.

The Hill Implement & Supply Co. are calling your attention to the many good qualities of Vulcanite Shingles. You just lay them on in strips and nail them down. They are far superior to the ordinary wood shingles and you can get samples and estimates without cost by visiting the Hill Implement & Supply Company.

M. D. Gatchel, who made the first real big cut in the price of sugar some time ago, comes to the front today with an ad quoting some very attractive prices. Mr. Gatchel is located at the corner of Sanford and Celery avenues, clear out of the business section, and is thus able to make real bargain prices on good things to eat. He has a large stock of goods and can be reached by Phone 110. He is well equipped for prompt service and makes deliveries from Lake Jessup to Lake Monroe. Lots of people trade with him—you might give him a trial anyway.

SUNDAY ARRIVALS AT THE VALDEZ HOTEL

Mr. and Mrs. R. A. Henderson and son, Miami; J. A. L. Gline, St. Louis; Cleveland Eros, Jacksonville; A. N. Bahman, New York; W. A. Doyl, Baltimore; E. J. Estes, Wm. E. Jeslis, Miss Geneva Estes, Jacksonville; E. M. Taylor, Atlanta; Cornelius Christlancy, D. W. Robertson, Jacksonville; Mr. and Mrs. S. Roberts, Micanopy; Fay Cilley, Jacksonville; Thos. O. Stewart, Atlanta; Dana N. Gore, Jacksonville; R. M. Broom, Waycross, Ga.; Jack Christinn, Atlanta; A. T. Guy, Florida; I. M. Prague, New Orleans; Mr. and Mrs. J. M. Russell, Miss T. D. Russell, B. G. Russell, Jacksonville; W. D. Rogers, Pittsburg; O. G. Smith, Chicago; W. H. Phillips, Kalamazoo, Mich.; J. E. Harris, Jacksonville; H. O. Brown, DeLand; W. J. Mither, Rochester, N. Y.

PIPE ORGAN RECITAL

The Presbyterian church of this city takes great pleasure in announcing the Pipe Organ Recital to be given at the church on Tuesday night, November 16th. The recital will be given by Miss Bertha M. Foster, of the Jacksonville School of Musical Art and being an artist of rare ability the music lovers of Sanford are promised a treat. The recital is absolutely free to the public and all those who wish to attend are invited to come early and secure a good seat on the night of the recital. Remember the date, Tuesday night, November 16th.

HILL HARDWARE COMPANY
After a most successful demonstration of the well-known Ideal Fireless Cooker, the Hill Hardware Company are harping on the distinctive features and merits of the Detroit Red Star Vapor Stove. They also have a big line of new heating stoves of every size and kind. Call on them for all your hardware needs.

U. D. C. CONVENTION
OPENS AT ASHEVILLE
(By The Associated Press)
ASHEVILLE, N. C., Nov. 8.—Delegates are arriving today for the convention of the United Daughters of the Confederacy which opens here tomorrow for three days.

MYSTERY SURROUNDS
DEATH OF GEORGIA
PEACH GROWER

FORT VALLEY, Ga., Nov. 8.—Hundreds of people flocked here today to visit the grave of Fred D. Shepard, wealthy grower, whose death on June 2 is now being investigated by a coroner's jury. They went to the cemetery where the body was exhumed and reburied yesterday, after vital organs were removed. The armed guard which has been on duty at the grave for several days with withdrawal when the body was reinterred.

M. S. Brown left today in an automobile carrying the viscera to Dr. Abercrombie, state chemist, in Atlanta.

Solicitor-General Charles H. Garrar stated that Dr. Abercrombie will be the most important witness before the coroner's jury when it reassembles on Friday afternoon, November 12.

The solicitor states that the laws of Georgia do not permit embalmers to use embalming fluid that contains arsenic of mercury.

Dr. Brown testified before the coroner's jury that the symptoms of Shepard's illness when he was called in indicated arsenic or mercurial poisoning. At the operation performed in the Macon hospital he said, black spots were found on the intestines.

Solicitor Garrett asserted that the autopsy confirmed the statements of Dr. Brown as to the condition of the body.

The appearance of a will mailed anonymously to Mrs. Alice Crandall, Shepard's sister, about two weeks ago, led to the investigation into Shepard's death.

At the time of Shepard's death his wife took charge of the estate. The will leaves her \$10,000 and \$100 a month during her lifetime, and takes away a large portion of the estate which she claimed.

Mrs. Shepard was Mrs. Pauline Hopson, marrying Shepard in December of last year. Six weeks after her husband's death she remarried to Dr. F. E. Elmer, of Jacksonville, Fla., and the couple are in the Florida city at this time, it is stated.

DUVAL COUNTY
FOR THE AMENDMENT

Duval county will give a safe majority for the state bond amendment, although the proposition has been defeated in the state by a vote of nearly three to one. Duval county returns show 4,673 for the amendment and 4,876 against it, but the five big city wards are yet to be heard from and these will give majorities for the amendment, it is said. One rural precinct of Duval is also unreported.

Returns from the general election in Florida counties are yet far from complete, but enough figures have been received to indicate that the proposed bond amendment was defeated.

The woman vote was an important factor in the election and women have been elected to office in some of the counties.

In Franklin county, Mrs. Eleanor Floyd, widow of the late C. H. B. Floyd, was elected tax assessor. She was barred from the primary ballot through a technicality and ran independent against the nominee.

In Pinellas county, Dr. Graco Whitford was elected member of the school board.

In Palm Beach county, with returns incomplete, it is reported that the two women candidates, Miss Agnes Ballard and Mrs. Clara Stypman, are leading.

The Logical Treatment
"ENERGIZER"

For Many Human Ills.
There IS such a thing as "ARTERIAL AREA" and "ARTERIAL ELASTICITY" in each person and after the body stops growing—at about 21—there is a natural depreciation or loss in both area and elasticity; just as there is in an auto tire or a field that is not plowed and "cultivated." It is "Arterial Hardening" that finally causes death—preceded by "High Blood Pressure"—and the ONLY real way of this condition being put-off is by getting better circulation.

And the ONLY real way of improving Circulation is the "ENERGIZER" process, which furnishes "ACTIVITY" WITHOUT EXHAUSTION or work.

It is YOUR OPPORTUNITY. Give YOURSELF some care.
