Federal building, Detroit, Mar. 18-A amazing story of freasied finance, by which Aaron Sapiro so-called "wheat king" ex-ploited American farmers for his own profit, was told the jury today in the mellion-dollar Ford-Sapi-ro libel suit by Senator James A. A fortune rolled into Sapiro's hands. Reed showed, by listing fees in nine states alone that totalled over \$300,000.

Students Of The "Floating University" Prefer Paris Cafes To The Battlefields

PARIS, Mar. 17—Rollicall of the students of the "Floating University" on board the S. S. Byndam was a scant affair to-day.

When the roll was called at 8:30 o'clock this morning at least one fourth of he students failed to answer "present." The trivert was spread that the large number of absences were due to many of the students attending "night-classes" at the Montmartre cafes last night.

"This sight-seeing is boring," said one student who admitted he had no intention of visiting the battlefields. "We'll go to the Louvre in order to have something to write home about, but the outtlefields are too much exertion," the same student bragged that he hadn't attended a class since leaving Los Angeles and hadn't "cracked a book" since the tour started.

The spirit of "flaming youth" was very much in evidence today. The faculty had arranged to take all the students on a tour of the battlefields, but a good many of the students seemed to prefer Paris to seeing the scenes of the World War.

Why are there so many charming women today?

NEVER before have there been so many charming women.

WHENEVER you go, you find them. Vivacious, happy beautiful delightfully dressed in the most exquisite taste,

CLEAR, pink-and-white complexion, luxurious, well-kept hair, gleaming teeth, trim athletic carriage—these are almost universal characteristles of American women of today,

AT first thought it may sound absurd, but one of the most powerful teachers has been advertising.

ADVERTISING has helped to teach us all that the real basis of beauty is health and cleanliness. We are the great users of soap and water in the world. ADVERTISING has taught us how to care for our teeth, our hair, our

feet, our hands and our complexions. ADVERTISING has taught us how to dress-how to choose colors and fabrics and becoming styles.

ADVERTISING has taught us how to talk, how to entertain,

ONE REASON why so many women are charming is because so many women are reading advertising. From advertising they are learning the secrets of great beauty specialists. They are getting health information of inestimable value. They are learning the secrets of becoming dress from the famous designers of Paris and New York.
