

### McLucas Takes Dismal View Of New Football Season As Material Fails To Inspire

Prospects facing Coach Leonard McLucas with his Seminole High School football schedule for 1934 are the most dismal of any since the first of the school back in 1920.

This statement was attributed to Coach McLucas this morning after three days of training in which he has directed about 50 boys, most of them 120 and 125 pounders, through setting-up and other preliminary exercises.

Practically an entire first team was lost by graduation this spring, and only four of the 1933 "regulars" are back.

The remainder of the boys are the second, third and fourth stringers of last year, a handful just up from Junior High, and one or two new-comers.

"This is the first year that I haven't had at least one man who weighs 165 pounds or over," Coach McLucas said in surveying what he has, what he expects, and what might be the result of the season's play.

Stating that he must build a team around Jack Hughes, Olive Miller and Leslie Harnage as backs and Ralph Pearson as linemen, Coach McLucas said that unless more boys come out, and larger boys, his team will be composed of misfits, when compared with teams which included men like Melton Ware, Woodrow Rice, George Moyer, Murray Kanner, and Randall Slaughter.

He doesn't deny that some of his hopefuls lack the courage and determination, but present day football, even in Central Florida high school circles, requires weight as well as courage, and the prospects, therefore, are unusually dim.

Three of the nearly 50 men now training practice "services" weigh about 160 pounds. There are about 10 to 150 pounders, and all the rest are slender, inexperienced boys who are just anxious to play football for Coach McLucas.

Some of the newcomers are Elwin Riqures, Jack Pearson, Charles Beldin, Billy Wilkinson, Ralph Monger, Harold Duker, Tom Wansley, Speck Cochran, Bob Williams, and Theo. Williams.

However, Coach McLucas will spare no time nor effort in developing what he has and trying to fit it into shape to meet a most exacting schedule. Practice sessions are to be held every afternoon except Saturday and Sunday starting at 3:30 o'clock.

The season's schedule is as follows:

Date	Opponent	Place
Sept. 12	Daytona	Daytona
Sept. 15	Daytona	Daytona
Sept. 18	Daytona	Daytona
Sept. 21	Daytona	Daytona
Sept. 24	Daytona	Daytona
Sept. 27	Daytona	Daytona
Sept. 30	Daytona	Daytona
Oct. 3	Daytona	Daytona
Oct. 6	Daytona	Daytona
Oct. 9	Daytona	Daytona
Oct. 12	Daytona	Daytona
Oct. 15	Daytona	Daytona
Oct. 18	Daytona	Daytona
Oct. 21	Daytona	Daytona
Oct. 24	Daytona	Daytona
Oct. 27	Daytona	Daytona
Oct. 30	Daytona	Daytona

### Announcements

### OVIDO

Miss Amy Ruth McKnight, of Davenport, who has been visiting her uncle and aunt, Mr. and Mrs. A. F. Farrell for a short time returned home Sunday. She was accompanied by her parents who spent Sunday here.

Mr. and Mrs. G. C. Wilson, of St. Augustine, returned home Sunday after a short visit with their aunt, Mrs. J. N. Thompson. Mrs. Thompson accompanied them for a two weeks' visit with relatives and friends in St. Augustine.

Dr. L. C. Jenkins preached an interesting sermon to an appreciative congregation last Sunday morning at the Methodist Church.

Mrs. J. W. Coats left last week end for Savannah where she will visit for a few days.

Mr. and Mrs. C. L. West and family left Wednesday for a two weeks' stay at Daytona Beach.

Charlie West, Jr. will leave Sept. 20 to resume his studies at the University in Gainesville.

Mr. and Mrs. Allan Thompson and son, Jimmy, have returned to Inverness where Mr. Thompson is coach and an instructor in the Inverness school.

Prof. and Mrs. J. Tilden Jacobs, of Lake Monroe, were guests of their mother and sister, Mrs. Mary Jacobs and Mrs. Theo. Aulin, Sunday.

Miss Lella Mae Payne and James Emmitt Kelsey, of Oviedo, were married Saturday afternoon in Judge Shanon's office at the Court House in Sanford by Mrs. Shultz.

Miss Payne came to Oviedo recently from Bilal, Miss. and made her home with her sister, Mrs. H. H. Byrd, while Mr. Kelsey has made his home here the greater part of his life. He is engaged in celery growing.

### AUSTRIA'S SPARE CHANGE USED UP ON REVOLUTIONS

Recovery, Therefore, Held By Many As Faintest Of Hope

VIENNA, Sept. 7.—(AP)—Two revolutions within six months have absorbed all the spare change in Austria. Moreover, they have brought seriously the revenues of the state and the income of individuals, so that recovery seems to many Austrians to be a vain hope. When the smoke of February's revolution cleared away 1500 Socialists were dead, and the government had a stack of bills totaling \$20,000,000. The revolution in July, touched off with the assassination of Chancellor Dollfus, cost almost as much as the first revolt.

To meet these expenditures, large for a tiny country, the government levied a special "security tax" on the people. Many were unable to pay.

The country's financial resources are so low that the government now is seeking a new foreign loan through the League of Nations. At the same time it seeks, through the League, to induce foreign powers to cut interest rates on loans already contracted.

The government has been unable to pay its employees on the first of the month. A little is being paid them now in three installments each month.

Foreign trade has dwindled to the vanishing point. Tourist traffic, formerly one of the most productive sources of revenue, has virtually ceased. While apparently it is perfectly safe for American and other foreign visitors to come to Austria, tourists are apprehensive. So they pass up one of the most beautiful and interesting countries of Europe, and business here languishes.

Railroad trains entering Austria are almost empty. When an Associated Press correspondent traveled from Berlin to Vienna he was the only passenger in a big steel coach, which had accommodations for 60.

The present disturbed political situation, and tariff walls, isolate Austria more and more. Austrians are not permitted to travel into Germany except by special authorization. Germans are not allowed to enter Austria unless they pay a tax of 1,000 marks.

Unemployment in Austria is increasing steadily. The streets of Vienna are filled with the workless, many begging. There are as many women and children as men among the beggars. Thousands cannot pay rent, to say nothing of taxes, and retail shops are going into bankruptcy every day. Rent for many stores and apartments have been cut in half in two years, yet vacancies increase.

The people, for the most part, are shabbily dressed. For most of them life is a constant struggle. Their attitude is one of utter despair, for they profess to see no future for their country. Consequently many are ready to embrace Nazism.

The jails are so crowded with members of the outlawed socialist regime in Vienna and with persons involved in the recent Nazi "putsch" that it has been necessary to convert factories, gymnasiums and warehouses into prisons. The maintenance of these thousands of prisoners entail heavy expense.

Concentration camps have relieved the pressure on established jails. In Carinthia so many Nazi workers and sympathizers were arrested that there is a serious shortage of laborers to harvest the crops.

The government of a nation so thoroughly discouraged, divided and hopeless is being attempted by youthful Chancellor von Schuschnigg. He has started with vigorous policies, and a strong determination to maintain the independence

### ST. JOSEPH WAS FLORIDA'S FIRST BOOM TIME CITY

West Florida Settlement Was Largest State Town In 1838

TALLAHASSEE, Fla., Sept. 7.—(AP)—Florida's first boom town was St. Joseph, records in the state library here show. The French founded a settlement there in early Spanish days but they abandoned it. State Librarian W. T. Cash says. About 1833 a town was started on the former settlement spot and by 1838 it had become one of the largest, if not the largest, city in Florida.

It has long since disappeared. Nothing now remains but a monument marking the site of Florida's first constitutional convention. Storms and disease wiped out the city after it had ground in the commercial world of Florida's early days.

Trade rivalry with Apalachicola—a flourishing port not far east of St. Joseph—brought Florida and Georgia business men into St. Joseph in 1831. Within a year they built Florida's first steam railroad, running from St. Joseph to Lake Wimico which connects with the Apalachicola River.

"For a few years," Cash says, "the town flourished like a green bay tree and by 1838 was probably the largest place in Florida."

The state librarian has an old letter which tells of the housing problem in St. Joseph during the boom.

of Austria. The world is watching while he tries to stand against the tide of Nazism.

### "Full Feeling" After Meals

Here is how Theodor's Black-Draught proved helpful to Mr. Archie W. Brown, of Fort Green, Fla. "I have taken Black-Draught when I have felt dull from over-eating or eating too hurriedly," he writes. "Small doses right after meals rid me of gas and heavy feelings. I am a great believer in Black-Draught."

Theodor's BLACK-DRAUGHT Purely Vegetable Laxative. "GENTLE AND SURE."

### For SWEETENING YOUR SOIL

### use KAL-CITE A POTASH-CALCIUM MIXTURE

Use KAL-Cite to correct and improve soil conditions in your vegetable fields and citrus groves. It is safe, dependable and economical. At this season, vegetable lands are being prepared for fall and winter crops. Hardwood Ashes are commonly used for soil improvement. KAL-CITE is a much superior product to use for this purpose. It is a hardwood ash base mixture built up with selected forms of calcium and potash in which are included added sources of the less common elements that have proved by recent experience to be so effective as soil amendments. It contains twice as much lime and potash as does hardwood ashes and is applied on that basis.

Use COPPER KAL-CITE to correct ammoniation and die-back in citrus trees. COPPER KAL-CITE is KAL-CITE to which Copper Sulphate has been added. It is an excellent tonic for both the soil and the tree.

Use a brand of IDEAL FERTILIZERS for outstanding and dependable results in growing your vegetable crops.

SEMINOLE CELERY SPECIAL  
IDEAL THREE FIVES CELERY SPECIAL

Here are two very popular brands for use in your section. There is a brand of IDEAL FERTILIZER for each crop grown in your community. Consult our local representative or write us direct about soil treatment and the proper feeding of your crop.

# Maine May Overshadow Many Primaries On Tuesday

The second Tuesday of September, the 11th, will be a political day. Many opinions will be expressed by party leaders then and what the Maine election of Monday, Sept. 11, portends as to candidates in the 47 other states.

Probably, the Maine election and Massachusetts thereof will overshadow the actual voting of Sept. 11. On that day primaries in eight states and conventions in five will make nominations for Congress. Particular attention will be given to a fight between Senator Huey P. Long and Mayor William C. Cramer of New Orleans over control of the New Orleans delegation to the house.

Conventions and caucuses on Sept. 11 follow:

## Lawrence Hurls New Charge At TVA Methods

(Continued from Page One)

When the Tennessee Valley Authority's position and mine," he said, "may be simply stated, the federal agencies imagined that to accomplish their own objects they had a right to force the liquidation of a going concern at Knoxville, Tenn., which was neither in pecuniary nor in financial difficulty, at all, but which was wholly solvent and paying regular dividends throughout the depression.

"I do not believe any governmental agencies have such authority under the constitution of the United States.

"If we assume that the private company in question had no further right to exist and also if we assume that the Tennessee Valley Authority can measure what is or is not a fair value of the property it is buying, being the judge and jury and plaintiff, all in one, then I admit the stockholders of the private company cannot complain but must be satisfied with whatever the government sees fit to give them.

"But I know of no principle of law or morality which permits government to threaten ruinous competition to a private company, refuse to hold a condemnation proceeding and then force a company to sell at a lower price than actual cost."

## CITY BRIEFS

(Continued from Page One)

Rodman Lehman, son of City Commissioner and Mrs. M. J. Lehman, a member of the faculty at Seminoles High School since his graduation from Rollins College some years ago, has accepted the principalship of Winter Park Senior high school, it was announced yesterday. Superintendent of Schools T. W. Lawton stated this morning that so far, no successor to Mr. Lehman had been selected.

Gordon Brantley, secretary of the Florida World's Fair, Commission at Jacksonville, made a special trip to Sanford Thursday to see whether or not he could convince County Board Chairman John Melech, Sr. that Seminoles County should contribute at least another \$250 toward the state-wide fund to maintain the Florida Exhibits at the World's Fair.

Such correspondence and many arguments have passed between Commission officials and the county officials, the net result of which was that the county has contributed \$125 toward maintenance of the exhibits. Mr. Brantley was advised by Mr. Melech that he would increase the amount held at the next meeting of the Board.

Monday night, meeting of the City Commission is expected to decide upon the city's response to the offer of \$100,000 for the purchase of the city's water supply.

## Director Of PERS Gives Reasons For Speed Allowance

PALATKA, Sept. 10.—E. B. Donald, administrator of the Florida Emergency Relief Administration, has issued from his office in Palatka a statement explaining the cause for reduced pay during absence.

"In order to give the citizens of this district a little better idea of what the picture really looks like," Mr. MacDonald stated.

"I think that it would be interesting as well as instructive, to all concerned, to review a few facts. We will go back to March and we find that our allotment for the State of Florida for that month was \$2,500,000. From that month on there has been a gradual decrease until we find ourselves with an allotment for July of \$1,000,000. In March, the State of Florida had 15,725 unemployed persons on the rolls. In July this number had increased to 97,000. Using these figures, a little mathematics will show by comparison that we had approximately \$200,000.00 less to operate on in July than March; and we had to distribute this money among approximately 12,000 more people in July than we had in March, which clearly indicates that naturally our allotment to each client had to be reduced to like proportion.

"To help off-set this situation the natural thing to do is to attempt to cut our operating expenses, and as a result, our Administration costs were reduced by \$278,000.00, this being a saving that was applied to administering relief for certified clients.

"While this reduction in our allotment was taking place, and the decrease of our expenditures was made effective, it was interesting to note that the business activity of the state fell off 12 1/2 percent, which naturally meant that payrolls in general were on the decline, while on the other hand, retail food prices during this particular period showed an increase of 27 percent. So, it is easy for one to summarize that while our allotment to the state was seriously curtailed, our case load was greatly increased in the face of declining business activity and increase in food prices; and it is a natural result that it made the relief program a much more serious one as well as complicated and inadequate.

"I feel that much of the misunderstanding of the people in general towards our general operation has been caused by not knowing the actual facts. It will be the endeavor of this office, as facts permit, to acquaint the public, through the press, of the actual status of the Emergency Relief program."

## Assurance that Senator Park Trammell will be a member of a Party of prominent Floridians who will be the guests of the Seminole County Chamber of Commerce on an inspection trip along the St. Johns River on Oct. 8 was given yesterday by Joe Ferris, Mr. Trammell's secretary. At the same time, announcement was made that George B. Hills, of Jacksonville, one of the state's foremost waterway enthusiasts, has accepted the invitation extended him. So far, Congressmen Wilcox, Green, and Peterson, C. B. Treadway of the State Road Department, Mr. Hills, and Charles L. Heath, of De- Land, have accepted invitations.

## Reporting that 84 women were in attendance at Women's Home Demonstration Club meetings held in the county during the past week, Miss Josephine Bajdarski, County Home Demonstration Agent said that the conducted meetings at Geneva, Orinda, Con- necta, Goldensrod and Lake Mary. The subject at each meeting was "Children's Clothing," and was which naturally meant that pay- rolls in general were on the de- cline, while on the other hand, retail food prices during this par- ticular period showed an increase of 27 percent. So, it is easy for one to summarize that while our allotment to the state was seriously curtailed, our case load was greatly increased in the face of declining business activity and increase in food prices; and it is a natural result that it made the relief pro- gram a much more serious one as well as complicated and inade- quate.

## Chamber of Commerce officials learned with much interest this morning that a crew of 14 men under the direction of J. E. Moor- head located at Titusville this week to begin a physical survey for the proposed St. Johns Indian River canal project. The survey is making its headquarters in that city, and it is expected to remain there for about four months. The crew will make topographic and hydrographic surveys in the vicinity of Titusville, and it will erect a number of towers for use in tri- angular work. A series of borings along the proposed route also will be made to determine the nature of the soil.

## Returned from a several week's vacation which was just that is Maxwell Stewart prominent young insurance man, who accompanied Mr. and Mrs. Glen Lingle and son home from Cobden and Anna, Ill., where they had been spending the summer. Passing up the World's Fair at Chicago, Mr. Stewart in- stead visited the site of the old 1894 World's Fair in St. Louis. Ma- jor buildings of that Fair still are standing, Mr. Stewart said, and at- tracting large crowds. Both Mr. Stewart and Mr. Lingle commented upon the condition of the crops and the countryside in that section, reporting that it "looked pretty hopeless."

## Had not scores of other persons picked out the choice pieces of furniture which was used by world notables who made the Royal Poinciana Hotel in Palm Beach their winter home. The City of Sanford might today be the scene of enough of the furniture to fur- nish, possibly 100 rooms in the Mayfair Hotel. This was revealed yesterday by City Commissioner V. A. Spear who spent Monday in Palm Beach inspecting the building and its contents. He said that the best furniture had been sold and removed before he arrived, and that what was left was of very poor quality and in just ordinary condition. "At the price it was offered to us," he said, "I wouldn't have touched it with a 10 foot pole, and as a matter of fact, I wouldn't have selected a single thing, even if I was a curio dealer who wanted some relic of the old days."

## TEACHERS EXAMINATIONS

Will be held at the Junior High School, Sanford, Fla., beginning at eight o'clock on Thursday, September 10, 1934.

Teachers with the appropriate certificates will be admitted to the examinations.

## REPORT SHOWS GREATER USE OF ELECTRICITY ON HITLERISM

ATLANTA, Sept. 10.—(AP)—A report from the Federal Bureau of Investigation shows that the use of electricity in the South is being used to a greater extent than in the North.

The report, which is based on a survey of the use of electricity in the South, shows that the use of electricity in the South is being used to a greater extent than in the North.

The report also shows that the use of electricity in the South is being used to a greater extent than in the North.

## U. S. Plans Aid For 16,000,000 During Winter

(Continued from Page One)

utilize hides and wool from sheep and cattle purchased in the drought area for manufacture of coats, gloves and shoes for the destitute.

"We are working out a plan for using them without upsetting marketing conditions. One reason we decided to take over the hides in our new contracts was because they are being dumped on the market by the packers, very naturally, because our contract provided that they keep the hides," Hopkins said.

"No said the hides could be distributed 'over a period of time' for cutting and manufacturing purposes to aid unemployed adding the plan would be aimed 'to not interfere with existing sales.'

Hopkins revealed that more than 1,000,000 cattle have been transferred to southern pastures from the drought area, but that by late autumn the feed problem there would become acute.

"We are considering every angle for possible forage during the winter. We may make purchases of feed from Cobden or elsewhere. Feed will be supplied also to families on relief rolls in the drought areas to protect their cattle," he added.

Speaking of the competition against "hides" on relief rolls, Hopkins said, "We are making a drive to get relief rolls down to those people in need. We want our relief rolls down to those people in need."

## Planned For Oct. 1 Survey of South Shows Summary Of Hitler Business

ATLANTA, Sept. 10.—(AP)—A survey of the South is being planned for October 1, which will show the summary of Hitler business in the South.

The survey, which is being planned for October 1, will show the summary of Hitler business in the South.

The survey also will show the summary of Hitler business in the South.

## Uphaw said he had spoken to some 4,000,000 students from Maine to California, seeking to stimulate American youth to shun both Communism and Hitlerism as the twin dangers of our present civilization.

Uphaw said he had spoken to some 4,000,000 students from Maine to California, seeking to stimulate American youth to shun both Communism and Hitlerism as the twin dangers of our present civilization.

Uphaw predicted that the next national convention of the Prohibition party would get the jump on the two major parties by inserting a "Hitlerism" plank in the platform against the "twin dangers."

Uphaw also predicted the Democrats and Republicans in 1938 would re-adapt wet planks which would "cause the population of the United States to flock to the Prohibition standard by the millions."

## REPORT SHOWS UP SOUTH GREATER USE OF ELECTRICITY ON HITLERISM

ATLANTA, Sept. 10.—(AP)—A report from the Federal Bureau of Investigation shows that the use of electricity in the South is being used to a greater extent than in the North.

The report, which is based on a survey of the use of electricity in the South, shows that the use of electricity in the South is being used to a greater extent than in the North.

The report also shows that the use of electricity in the South is being used to a greater extent than in the North.

Uphaw said he had spoken to some 4,000,000 students from Maine to California, seeking to stimulate American youth to shun both Communism and Hitlerism as the twin dangers of our present civilization.

Uphaw predicted that the next national convention of the Prohibition party would get the jump on the two major parties by inserting a "Hitlerism" plank in the platform against the "twin dangers."

Uphaw also predicted the Democrats and Republicans in 1938 would re-adapt wet planks which would "cause the population of the United States to flock to the Prohibition standard by the millions."

## REPORT SHOWS UP SOUTH GREATER USE OF ELECTRICITY ON HITLERISM

ATLANTA, Sept. 10.—(AP)—A report from the Federal Bureau of Investigation shows that the use of electricity in the South is being used to a greater extent than in the North.

The report, which is based on a survey of the use of electricity in the South, shows that the use of electricity in the South is being used to a greater extent than in the North.

The report also shows that the use of electricity in the South is being used to a greater extent than in the North.

# A Brand New SEASON

SEPTEMBER marks the opening of a brand-new season in this business of running one's life. Back home—back to work—back to school. Time to take stock of most everything. isn't it? What's needed for the house, for the children, for yourself? . . . At least a dozen spending decisions to be made very soon.

How about choosing a school for the youngsters? (It's not too late even now.) And school equipment, too—pen-and-pencil set, typewriter? Then don't forget new linens and towels for the house—and bathroom supplies, of course. Perhaps the pantry wants restocking. And you are going to redecorate at least one room, aren't you?

Whatever your needs, the advertising pages of this newspaper will help you decide wisely and save money. You can depend on our advertising service . . . for if they didn't, you wouldn't be reading this advertisement. Read all the advertising pages. They have something for you.

### INTEREST LAGS IN ST. PETE TOWARD HOUSING PLANS

#### Survey Reveals That Many Requests Have Been Made For Cash

ST. PETERSBURG, Sept. 6.—Local lumber and supply dealers who have conducted a survey to determine the extent of interest here in the National Housing Administration's home modernization program expressed themselves as disinterested with the results of the survey at a meeting held recently at the St. Petersburg Novelty Works.

Interest was lacking, it was reported. However, Henry Simpson, credit manager of the Pinellas Lumber Company and member of the dealers' committee appointed to make the survey, reported that he had received requests for new construction totaling \$50,000 and requests for home modernization totaling \$9,000.

He said he would continue to push the campaign to secure loans here for residents desiring to repair and improve their homes.

"I have information from a reliable source that if local banks

### MILD BUILDING BOOM REPORTED THROUGH SOUTH

#### 92 Percent Increase In Construction For 8 Months Is Reported

BALTIMORE, Sept. 6.—(AP)—Construction, building and engineering activities in 16 Southern states continued to climb during August and for the first eight months of this year had increased 92 percent over the same period of 1933.

The Manufacturers Record reported yesterday that construction awards of \$43,187,000 during August represented an increase of five percent over the month of July and 18 percent over August, 1933.

The total expenditure of \$346,187,000 on construction work during the first eight months of this year was nearly twice as much as the \$180,007,000 expended during the same period of 1933. The 1934 totals were 36 percent greater than in the same period of 1932, when construction contracts totaling \$254,545,000 were awarded.

Roads, streets and bridge projects led in the way during the entire eight months. The Record reported. Awards of \$12,483,000 in August brought to \$137,827,000 the total for this classification during this year. The report also said indications are that contract letting for such projects will be heavy during the next few months, because of favorable weather conditions during the winter months.

"On the whole there are evidences of building and construction activity in volume," The Manufacturers Record said, "but account must be taken of the fact that federal projects and federally-financed projects dominate. For months now funds have been expended with almost reckless abandon in an effort to prime the pump and start the flow of private funds into building, construction and industrial projects. But a survey of the situation reveals that more than any one thing essential to a return to normalcy in the construction industry is a restoration of confidence."

General building awards during August amounted to \$6,082,000 bringing the amount so far this year to \$22,229,000. Contracts for store buildings totaled \$618,000 during the past month. Private owners and chain stores were reported as opening new stores and improving locations.

### UNIONS AWAIT TEST OF THEIR STRIKE ORDER

#### (Continued From Page 1)

declared in a statement issued from his office after conferring with leaders of the nationwide walkout.

That means that the "war chests" of the powerful unions will be placed at the disposal of the strikers.

Green was not prepared to say the amount of money that will be hurled into the battle.

There are approximately 4,000,000 workers associated in labor unions affiliated with the federation. An assessment of \$5 a worker would place \$20,000,000 available to the textile leaders to continue their battle to the end with the industry.

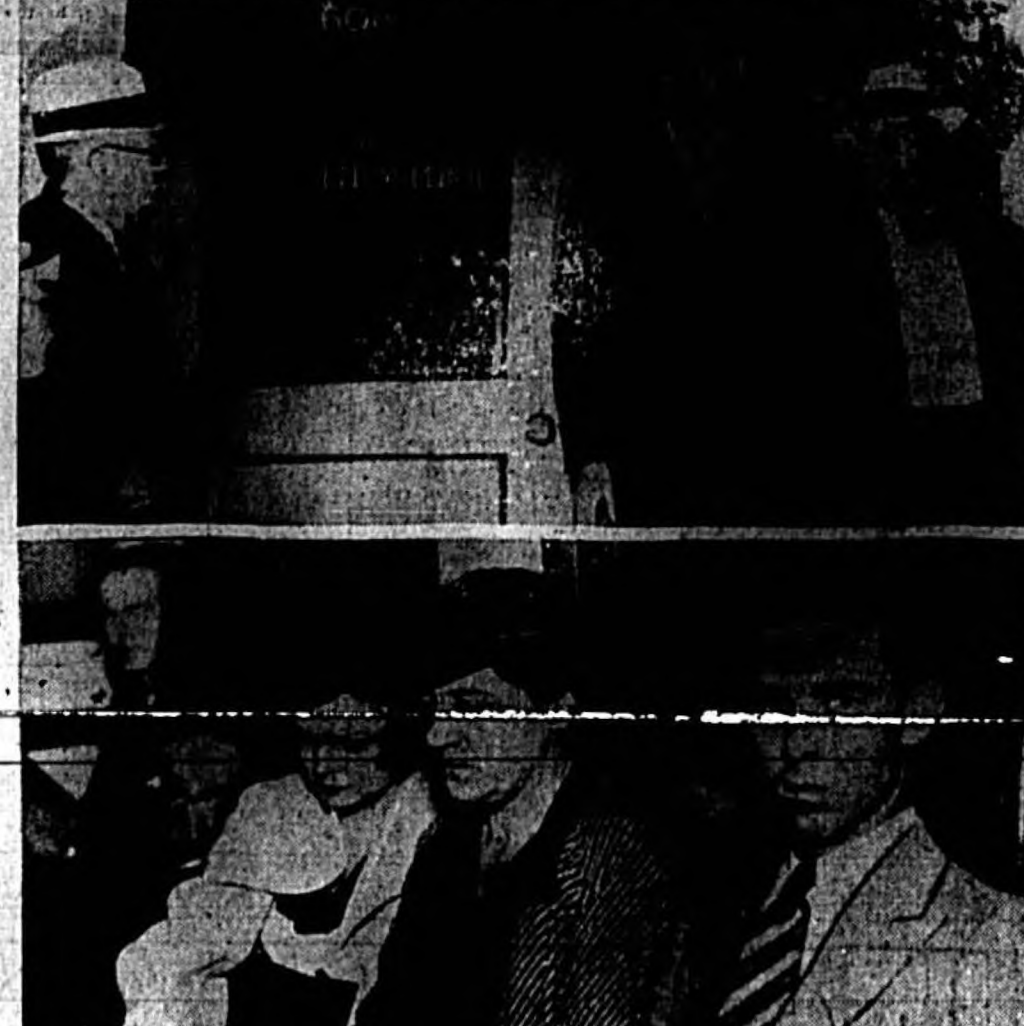

The success or failure of the strike was seen here last night to depend on the amount of money provided for the strikers.

When German issued the call which brought nearly 400,000 workers from their looms and spindles, the textile union had less than \$1,000,000 with which to care for their needy.

They said they might demand federal relief but denied they had made application for it so far.

Federal Relief Administrator Hopkins said yesterday no relief would be given to strikers unless it was proved beyond doubt that they were in need.

### MOTHER OF SLAIN CO-ED ACCUSES TAYLOR

"I believe he killed my daughter!" Thus sobbed Mrs. Lon New in accusation of Harold Taylor, 29-year-old civil engineer, who is on trial in Birmingham, Ala., for the murder of Faye New, Howard college student. At the top Taylor (bareheaded) is shown leaving the courtroom in custody of officers. In the center below is Mrs. New in court as she waited to testify. At her side are Mrs. Bessie Reeves, friend of Faye, and A. B. Cain, the slain girl's sweetheart. (Associated Press Photos)

### WHERE FIRST LIVES WERE LOST IN MILL STRIKE

As the general textile strike spread riotously through the south and east, the first lives were taken in an outbreak at Trion, Ga. Two men were killed there and more than a score were wounded when strike sympathizers clashed at the Trion cotton mill. W. M. Hix, a deputy sheriff, and J. V. Blalock, strike sympathizer, were the two killed. Above is shown the mill where the gun battle took place. Below is a group of pickets in front of the plant. They armed themselves with clubs and iron bars. Mac Harris (arrow) a strike, was wounded in the neck. (Associated Press Photos)

### STRIKERS FLEE SHOTS AFTER UPSETTING AUTO

This unusual Associated Press picture was made last night at Trion, Ga., when a group of strikers, led by Mac Harris, upset a car and shot at a group of men who were passing by. Harris was wounded in the neck. The car was overturned and the driver was killed. (Associated Press Photos)

### OUSTED OFFICIAL SAYS CONSCIENCE CLEAR OF GUILT

#### Bob Simpson Says He Called Shots' Attention To Shortage

MIAMI, Sept. 6.—Declaring his conscience is clear of any wrong-doing and calling attention to the fact that it was he who discovered the shortage with which his office is charged, Bob Simpson, for 10 years county tax collector, upon his return recently issued a statement regarding his recent suspension by the Governor.

Simpson said he repeatedly asked for an audit and now that one has been made will spend as much time as necessary in an attempt to discover the cause of the shortage.

Becker meanwhile was completing details preparatory to checking in Sept. 1. One of these, he said, is word from the county commission as to whether it desires him to post \$50,000 bond, as required by law, or \$150,000, which he has offered.

"Upon my return to Miami I received an executive order suspending me from office. The matters set forth were fully explained by me to the Governor in my resignation of June 9. I estimated the shortage to be the same as that mentioned in the suspension order, and I also said the greater portion of that amount had been due for more than two years. The Governor agreed with me.

"This shortage, according to the audit which I requested, amounts to \$127,809.10. My checking up shows that the shortage was for the year 1930-1931. When proceedings were started by me against my cashier in 1932, all I could then find short was about \$40,000. For this shortage I had him arrested in 1932, and collected and turned over to the proper source \$10,000 from his bond. This particular shortage is included in the \$127,809.10 mentioned in the Governor's order.

"The state auditor's report was completed while I was in North Carolina last month, and I intend to closely examine it and determine, if it is possible, how the shortage occurred, but I know that it covers the period of 1930-1931. I took office under my present commission in January, 1933, and practically since that time have been ill. I feel sure, however, that there is no shortage during this present term of office.

"In the suspension order it was stated that partial collections were made for occupational taxes without licenses being issued, and that such collections were withheld in the sum of \$1,450.50, but the order says that such collections had been turned over by me. This is correct. During the license year some merchants pay their license tax in installments, and fall to pay them in full before the end of the license year. If they pay in full, I issue a license; if they fail, I retain the money and turn it over at the end of the year to the county, keeping such amounts in a bank or invested in liberty bonds until my turn-over is made.

"In regard to my other tax collections the money is turned into the proper fund within the time stated in the statute, but during the year 1930-1931, when I discovered the shortages complained of, the tax roll could not be balanced until an audit was made, and such audit, as I say, was not completed until July of this year.

"It will be necessary for me to check over the auditor's report and determine what amounts therein are errors chargeable to the errors and insolvency list, and what amounts therein, if any, were lost when banks closed their doors, and which are now in process of liquidation. I started the investigation which led to the discovery of the shortage; I repeatedly asked for an audit; I welcomed a thorough investigation of my office because I knew and now know that it will ultimately be shown that I personally have not received and kept any money, irregularly or improperly. My conscience is clear.

"I feel pleased that the Governor has appointed a man of the caliber of Mr. Becker to take over my office, and I shall be glad to render him every assistance and co-operation which he is entitled to in his new position.

### Crew Claims That All Of 318 Passengers Would Have Lived By Obeying Orders

(Continued From Page One) a few hours after the fire, and a national guard observation plane reported seeing several more bodies floating in the sea. Little attention was given at the moment to handling the bodies as all attention was turned to caring for the exhausted survivors.

Fifteen or 20 of these were rushed to hospitals with injuries mostly of a minor nature. Meanwhile, survivors were given clothing by the Red Cross, and women of the town quickly organized to give hot coffee and food to all survivors.

Tales of horror were told by the fatigued crew and passengers. Members of the crew until stopped by officers told of the deck watch attempting to check the flames alone and calling out the crew only to find the water pressure too low in the hose.

The raging flames gained a quick headway in the inflammable curtains, draperies, tapestries, and rugs in the library, spreading so rapidly that the superstructure was in flames fore and aft.

### LAKE MARY

Mr. and Mrs. R. M. Ball and two children spent Sunday and Labor Day at Coronado Beach.

Lucian Dean, of St. Augustine, was a guest of Donald Anderson over the week-end.

The vacation which Rev. J. M. Thompson and family were enjoying at Black Mountain, N. C., was brought to an end by a telegram that Mrs. Thompson's father, Rev. Booth of Hubbard, Ohio, was not expected to live.

Mrs. Thompson went at once to her parent's home and Rev. Thompson and two children returned to Lake Mary.

Rev. Cowan, who was to preach last Sunday night at the Community Church was unable to come as he was called to Evangelistic work elsewhere.

Mr. and Mrs. R. Skewes and brother-in-law, also Mr. and Mrs. Dick Skewes enjoyed Labor Day at Daytona Beach.

Eight of the Boy Scouts and Cub Scouts enjoyed a two day camping trip at Shiholzer's Camp on Lake Emma the past week.

Mrs. Thomas Wansley returned home last week after a visit to her mother in Washington, Ga.

The many friends who have enjoyed the sermons preached by Rev. Booth and who also enjoyed knowing him personally, will regret to hear of his death early in the week. Both Rev. and Mrs. Booth and son, Norman, spent the winter here two years ago and they have also visited here at other times as guests of their daughter, Mrs. J. M. Thompson.

had followed orders. Leroy Kelsey, seaman from Albany, N. Y., dramatically told of the scene aboard the big ship as the fire broke out in the early morning with a stiff northeaster blowing.

The crew, he said, had succeeded in getting all the passengers on deck despite the inferno. The flames licked out across several decks, assailing the nostrils of the men and women who had been aroused from their slumbers and ordered on deck in night clothes or hastily donned garments.

The crew urged them across decks and to other life boats. Sparks and sizzling fell about them but Kelsey said they refused to leave, and the sailors were forced to take to the boats themselves.

# NEW PICKET DRIVES WILL BE LAUNCHED

## Settlement Efforts At Standstill With Manufacturers Refusing Proposals

WASHINGTON, Sept. 10.—(AP)—Renewed picketing drives were planned today by strike leaders in the nation's textile walkout as many mill owners reported their intention of re-opening plants under military protection.

Efforts toward a settlement of the controversy were at a standstill as the strike entered the second week after manufacturers had rejected the arbitration proposal by labor.

Francis J. Gorman, national strike leader had proposed that the mediation board headed by Governor John G. Winant, of New Hampshire, summon employers' representatives while Gorman and union leaders would represent labor.

The textile mediation board moved last night to speed up arbitration of the nation-wide walkout of mill workers as labor fixed 6 P. M. today as the deadline for acceptance by industry of its plan to settle the dispute.

Chairman John G. Winant, invited George A. Sloan, head of the cotton textile institute, to meet with the board this morning to discuss the strike leaders' proposal.

Sloan accepted. The mill owners previously had ignored the offer of an armed truce made last night by Francis J. Gorman, chairman of the special strike committee of the United Textile Workers.

Gorman proposed all mills be closed while the textile board attempts to arbitrate the dispute. Union pickets would prevent the plants' reopening if the decision of the board would be mandatory by both the operators and labor.

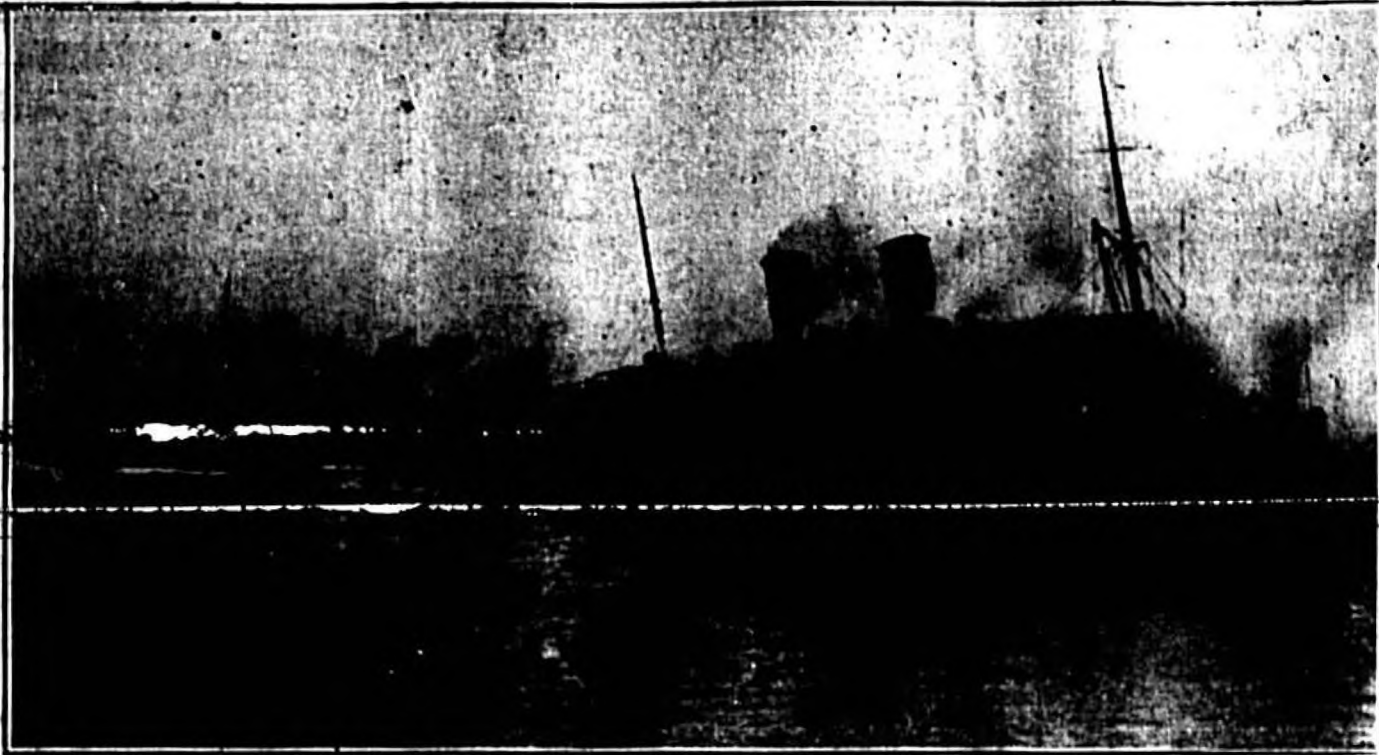

Late yesterday, after he had failed to hear from representatives of the industry, Gorman fixed 6 P. M. today as the deadline for the mill owners.

"We have made our move to restore peace to the industry," he said. "If the owners do not accept—well, we can do nothing more. It will be their move."

Wholesale Gasoline Market Nears Collapse

WASHINGTON, Sept. 10.—(AP)—A plan intended to prevent a threatened collapse of the wholesale gasoline market and at the same time clamp the lid down more tightly on illegal petroleum production was approved today by Secretary Ickes. It was brought forward by the industry and recommended by its planning board.

# VIEW OF SEA HOLOCAUST FROM RESCUE SHIP

This picture was taken from the S. S. Monarch of Bermuda while she was taking aboard survivors from the Morro Castle which was burned with a loss of more than 100 lives. In the distance are seen three life boats making their way to another rescue liner. The fire is still eating into the bulk of the once magnificent Morro Castle.

# TREASURY PLANS TEST OF CREDIT OF ITS NEW DEAL

## Huge Refinancing Program Already Seen As Big Success

WASHINGTON, Sept. 10.—The government announced plans last night for its huge refinancing program which will determine whether the New Deal's credit is good.

All treasury officials are confident it will be. The treasury will ask persons holding a total of \$1,250,000,000 worth of maturing fourth Liberty bonds, bearing a 4-1-4 percent interest, to exchange them for bonds bearing 3-1-4 percent interest.

Mr. and Mrs. Harry M. Papworth were in Sanford today for a short time on business which called them from their summer home at Daytona Beach. They returned late this afternoon, planning to remain for probably another week, or until the heat spell has broken. Mrs. Papworth has apparently recovered from a heavy cold which confined her to the home over last week-end.

# Neal Myers Freed By Jury Of Farmers

NORMAN, Okla., Sept. 10.—(AP)—A jury of farmers acquitted Neal Myers yesterday of a charge of murder brought in connection with the death of his college sweetheart, Marian Mills, 19.

Teardrops flooded the eyes of the 21-year-old pharmacy student, as the jury announced the verdict, overriding the state's contention that the University of Oklahoma beauty queen died last July from the effects of an illegal operation for which it sought to hold Myers responsible.

# Arthur Bridgers Joins Rodman Lehman In Retiring From High School Faculty

Saturday's announcement that subjects taught last year by Mr. Rodman Lehman, Seminole High School faculty member had resigned to become principal of Winter Park High School, was followed by the announcement this morning of the resignation of Arthur Bridgers, Jr., from Seminole High faculty.

Superintendent of Schools T. W. Lawton stated that Mr. Bridgers had decided to remain in the North this winter, as an agent for an insurance firm. He had taught in Seminole High for the past two years, and at Junior High for one term. Mr. Lawton said that Prof. E. J. Laney will be drafted to teach

# CITY NEWS BRIEFS

Local weather Saturday, high 87, low 74, rainfall .13 of an inch; Sunday, high 89, low 75, rainfall 10 of an inch.

The City Club offers many happy returns to Jacky Spencer, Lansing "Buddy" Dulose, Joe Douglass and Arthur J. J. J. Dingfelder, whose birthdays are celebrated today, and congratulations to Mr. and Mrs. C. M. Flowers upon the 10th anniversary of their marriage. Congratulations also are extended to Dr. and Mrs. J. H. McCauley upon the fifth anniversary of their marriage, celebrated yesterday.

Mr. and Mrs. Harry M. Papworth were in Sanford today for a short time on business which called them from their summer home at Daytona Beach. They returned late this afternoon, planning to remain for probably another week, or until the heat spell has broken. Mrs. Papworth has apparently recovered from a heavy cold which confined her to the home over last week-end.

Dr. L. T. Doss, of this city, was elected yesterday as president of the Central Florida Chiropractors Association, to serve from October, 1934, through September, 1935. He had been vice-president of the organization for the past two years. Election came at a meeting in Orlando where it was decided also that Dr. Doss should represent this section at the annual convention at Daytona next month.

The 19 charter members of the Sanford Junior Antlers Lodge will gather at the Elks Hall at 8:00 o'clock tonight to start their motor trip to San Lando Springs where they will spend the evening swimming and enjoying other games. Officials of the Lodge today urged all boys who would like to become charter members to do so before Wednesday night's meeting. All newcomers are cordially invited to join the picnic tonight.

Mayor W. A. Leffler will preside over tonight's meeting of the City Commission but for the third consecutive year.

# Harold Taylor Freed In Death Of Girl

BIRMINGHAM, Ala., Sept. 10.—(AP)—Harold Taylor, charged with killing Faye New, 19-year-old Howard college co-ed, was acquitted by a jury in Jefferson circuit court here yesterday.

Taylor, imperturbable and stoic through the trial, went as impetuous the foreman's words dinned on him, and his attorney, Howard Montgomery, collapsed and had to be carried from the court room.

4 North Carolinians Die In Plane Crash

NORTH WILKESBORO, N. C., Sept. 10.—(AP)—Four persons were instantly killed late yesterday when an airplane crashed near Clingman, 18 miles east of here.

# REPLY MADE TO SUPREME COURT CHARGE AGAINST PRODUCE BUYERS DEATH SENTENCE

## FACTS EASILY SECURED GIVE TRUE PICTURE, CLAIMS DINGFELDER

TALLAHASSEE, Sept. 10.—(AP)—The supreme court today reversed for new trial the conviction and life imprisonment sentences of Mosby Finch and Ralph Stokes on a charge of kidnaping in Putnam county.

It was a reversible error, the court ruled, when Judge George Jackson, presiding at the trial in Tallahassee, failed to charge the jury that the proof of kidnaping for ransom was necessary to return a conviction under the so-called "Florida Lindbergh Law."

Finch and Stokes, charged with kidnaping Adam Sikes and holding him for ransom, were the first to be convicted under the law.

Landis Rules Again On Local Option Elections Of Nov. 7

TALLAHASSEE, Sept. 10.—(AP)—The supreme court today ruled that local option prohibition elections called on petitioners presented to county commissioners prior to Sept. 7 are invalid, but he held that the petitions could be withdrawn and presented again, and the elections would be legal.

Local option elections may be held on the same date as the general election, the attorney general said, if five percent of the qualified voters sign a petition calling for the ballot.

A number of County Commissioners already have called a local option vote on petitions presented prior to Sept. 7.

# Grace Liner Safe In Port After Close Call

BALBOA, Canal Zone, Sept. 10.—(AP)—The Grace liner, Santa Rita, a fire smoldering in its hold and her passengers sleeping soundly in their cabins steamed to port today under her own power.

Canal Zone firemen who sped 50 miles into the Pacific Ocean to fight the blaze on the vessel were credited with saving her possibly from a fate like that of the Morro Castle.

Incendiarist Held To Blame For Horrible Morro Castle Fire

NEW YORK, Sept. 10.—(AP)—Chief Officer William F. Warms, Master of the Morro Castle, said the fire brought death to more than 100 of its passengers Saturday, told a government inquiry today he suspected that the blaze was started by an incendiarist.

Warms said he based his belief on the fact that an incendiary attempt was made on the boat on its previous voyage.

# NEW DEAL BENEFITS RELATED

## Richberg Points To Billion Dollar Gain In Farmers' Income As Proof Of Worth

WASHINGTON, Sept. 10.—(AP)—More than 10,000,000 bushels of a billion-dollar increase in farm income were Recovery milestones pointed out to President Roosevelt yesterday by Donald Richberg in his last report on New Deal achievements.

"You may take profound satisfaction in your leadership and in the achievements of your administration," the secretary of the executive council told his chief. He added that the record was one of many difficulties and some disappointment but on the whole of great achievement.

Issued on the eve of the Maine election today and primaries in 10 states later in the week, the report immediately was scanned by Republicans seeking answers helpful to their cause.

"The Nation has risen out of the depths of its worst depression," Richberg said, "and is moving steadily forward in the process of a definite economic recovery and is building new defenses against a recurrence of economic ills from which it has been suffering."

The money expended in these great constructive efforts is, of course, far less than the cost of the year of participation in the World War with its vast destruction of life and property. It has been a small price to pay for a great gain."

Richberg said 16,000,000 applications in national and state employment services within the last 12 months indicated the magnitude of the unemployment problem, and added "it is natural to feel disappointment that there have not been greater reductions in unemployment."

On the other hand, he said, "the achievements of one year are clearly evident, although only partially measured, by these facts:

Over 4,000,000 workers have been re-employed in private enterprises.

Over 1,000,000 others have been given temporary public employment.

Over 67,000 have been employed during part of the year on permanent public works.

"Farm prices of seven basic commodities have been raised within the year to 95 percent of pre-war parity and total farm income has increased far more than one billion dollars.

Over 3,000,000,000 have been (Continued on Page Three)

BIG STORE CANCELS \$176,436 IN DEBTS

NEW YORK, Sept. 10.—(AP)—The Hiram Department Store announced in newspaper advertisements recently it had cancelled customers' debts aggregating \$176,436.88.

Earlier this week the firm said it would discontinue all dividends for one year in order to lower prices and stimulate buying.

# Incendiarist Held To Blame For Horrible Morro Castle Fire

NEW YORK, Sept. 10.—(AP)—Chief Officer William F. Warms, Master of the Morro Castle, said the fire brought death to more than 100 of its passengers Saturday, told a government inquiry today he suspected that the blaze was started by an incendiarist.

Warms said he based his belief on the fact that an incendiary attempt was made on the boat on its previous voyage.

He also thought significant the fact that a blaze was discovered in the ship's locker which "blew out" at the start of the fatal fire.

The company's formal report of first fire, produced at the hearing, agreed with the details of the Chief Officer's story.

Pathe News releases first pictures of the Morro Castle disaster at the Milano Theater tonight. The picture was taken from an airplane circling the burning ship early Saturday morning while passengers can be plainly seen leaping into the water. Survivors tell the story of their rescue. Other pictures show exhausted passengers struggling in the water near the beach after their eight mile swim from the boat.

His belief was shared in Balboa, the Canal Zone, by several officers of the Grace liner, Santa Rita, which made port today, with a fire in her hold, also declared after docking that "The fire here and also on the Morro Castle was the work of an incendiary radical organization."

Their views were shared in Havana by Captain Oscar Hernandez, Chief of the Havana Port Police, who declared that "The Morro Castle fire seems to have been the work of communists, apparently of a passenger who boarded the ship with fire-making chemicals in his baggage."

At Asbury Park, a terrific blast which shot sparks and flaming embers high in the air today prevented watchers from boarding the hull of the luxurious liner which caught fire Saturday.

On the beach not far from (Continued on Page 4)

Morgan Income Tax Returns Under Fire

WASHINGTON, Sept. 10.—(AP)—The Senate Banking Committee charged internal revenue agents today with "hasty enforcement" for accepting "without examination" the income tax returns prepared by J. P. Morgan and Company.

The lengthy review of evidence that officials of the Morgan Company of Cuba, Czech and Company, and the Capital City Bank of New York "avoided" income taxes by "a variety of methods" was presented by the committee.

James Roosevelt Safe After Being Missing

BOSTON, Sept. 10.—James Roosevelt, the President's oldest son, reported lost at sea last night, is safe at Portland, Maine, he notified his summer home at Marion by telephone. He was on a racing schooner, reported overdue.

Coast guard and naval vessels had been ordered to search for the missing boat.

# Interesting, Restful Vacations Enjoyed By Local Clergymen During Summer

Interesting and thoroughly restful vacations were enjoyed by local clergymen this summer, it is revealed in short interviews secured by The Herald today from Rev. H. D. Brownlee, Rev. J. H. Rev. W. A. Cooper, and Rev. Matt Rev. W. A. Cooper, who have just returned from visits to several sections of the country.

Rev. Bram accompanied Rev. H. L. Loutill, former pastor of Holy Cross Episcopal Church, to the School of the Prophets in Evergreen, Colorado, where they spent three of their six weeks of vacation in study and reflection. En route Colorado by way of Chicago

and Rt. Rev. Iram stated that "Nothing is exaggerated in stories about the effect of the long drought, for we saw hardly a blade of green grass or foliage from the time we crossed the Mississippi until we reached Denver."

Among the things which impressed Rev. Bram and Rev. Loutill were the great numbers of new automobiles seen on the highways, the hundreds of tourists from all sections of the country, and the activity in the gold mine regions of Colorado and the oil well regions of Oklahoma and Louisiana.

Rev. Brownlee and his family (Continued on Page Three)
