SANFORD, FLORIDA, FRIDAY, APRIL 1, 1921

NUMBER 33

## LIUT. CONEY DIED YESTERDAY BODY SHIPPED TO BRUNSWICK

DEATH WAS EXPECTED DAILY SINCE THE  
FORMER SANFORD BOY BROKE HIS  
BACK WHEN PLANE HIT TREE

WAS ATTEMPTING TO BEAT OWN  
RECORD IN CROSS-COUNTRY FLIGHT

When Something Went Wrong With the Engine  
and in Attempting to Make a Landing  
Fatal Accident Occurred

NATCHEZ, Miss., March 31.—(By The Associated Press).—William DeVoe Coney, 27 years of age, who was seriously injured when his airplane crashed into a tree near Crowville, La., last Friday morning, died of his injuries at a local hospital at 5:20 p. m. yesterday.

The death of the lieutenant, whose back was broken in the fall, resulting in a complete paralysis of his body from the chest down, was not unexpected, as his physicians had announced earlier in the day that he could live only a few hours.

Mrs. E. F. Coney, his mother, of Brunswick, Ga.; Mrs. W. H. Devoe, an aunt, of Jacksonville, Fla., and E. F. Coney, a brother, of Brunswick, were with the flier at the time of his death, having been constantly at his bedside since their arrival here last Sunday.

Lieut. Coney is a son of the late Edgar F. Coney, a lumber man of Brunswick. He was born in Atlanta in November, 1893. His youth was spent in Brunswick.

At the outbreak of the Mexican trouble in 1916, he enlisted with the Brunswick Rifles, an infantry organization, and saw service on the border. Returning to Brunswick in 1917 about the time the United States entered the European war, he entered the officers' training camp at Fort Oglethorpe, Ga., where he was commissioned as a second lieutenant of infantry. Later he was transferred to the air service, receiving his preliminary training at the ground school at Georgia Tech in Atlanta. He was assigned as flying instructor during the war and had no opportunity to see service at the front.

On the day he was injured the announcement was made at San Diego of his promotion to a first lieutenant.

Funeral arrangements have been left to Major Claggett of the 4th aviation corps, who came here to attend the lieutenant, and they have not yet been announced.

Mrs. H. B. Coney and children, of this city, departed at noon for Jacksonville where they will join Mr. Coney, a brother of Lieut. Coney, and attend the funeral services in Brunswick Saturday.

## PLUMS ARE BEGINNING TO FALL NOW

(By The Associated Press)  
WASHINGTON, March 31.—President Harding today announced the appointment of Charles H. Burke, of Pierre, S. Dak., as commissioner of Indian affairs. George H. Carter, of Iowa, was appointed public printer, and Thomas Robertson, of Maryland, was appointed commissioner of patents.

## Aged Cardinal Laid to Rest in Baltimore

(By The Associated Press)  
BALTIMORE, March 31.—The greatest assemblage of church dignitaries ever massed on this continent gathered here today for the funeral services of Cardinal Gibbons. They came from all parts of the United States and Canada, while thousands, differing in creed but united in love for the dead churchman, were also present. The funeral services began at 9:00 o'clock this morning.

## GRAPE GROWERS HOLD MEETING IN LAKE LAND

IT IS PROBABLE THAT A STATE  
ORGANIZATION WILL BE  
EFFECTED.

LAKE LAND, March 31.—Grape growers from all parts of the state will meet here April 9 for the purpose of discussing phases of the industry and organizing a state association.

Among important subjects to be discussed is the organization of a marketing bureau and the adoption of rules for shipment. In past years, it is said, some growers have persisted in selling their grapes when half ripe in order to reap the advantage of early marketing, and the result is that many consumers have become prejudiced against the Florida bunch grapes.

Another subject to be considered is that of baskets or containers. Heretofore tomato baskets, peach baskets and a few grape containers have been employed while some growers have gone so far as to sell their product in bulk, putting them upon the market in such condition that the highest prices were out of the question.

Proper grading and preparation of bunches for packing is regarded as of high importance, as ragged and small bunches mixed with first grade fruit tends to reduce the value of the crop as a whole.

## Millionaire Paper Manufacturer Dead at Punta Gorda

(By The Associated Press)  
PUNTA GORDA, Fla., March 31.—Charles Dean, a millionaire paper manufacturer of Boston, died suddenly last night aboard his yacht at Captiva. The body was brought here today.

## Florida Public Health Association

JACKSONVILLE, March 31.—Organization of the Florida Public Health Association will be effected here April 8. At the time the Association will take over the affairs of the Florida Tuberculosis Association, the work of which has been absorbed by the larger organization.

## BONIFAY ELECTS NEW MUNICIPAL OFFICERS

BONIFAY, March 31.—Bonifay's new municipal officials as recently installed in office are as follows: G. W. Banfill, mayor; Ben Johnson, marshal; and H. B. Douglass, E. A. Williams, B. L. Green and G. G. McKinley, councilmen.

## FLORIDA STATE INTERSCHOLASTIC AQUATIC MEET

WILL BE HELD IN WINTER PARK  
ON SATURDAY,  
APRIL 30.

WINTER PARK, March 31.—The governing committee for the Florida State Interscholastic Aquatic meet has almost completed preparations for the event, which will be held at Lake Virginia here Saturday, April 30. Notifications that they will send competitors to the meet are being received daily from high schools of the state, all of which were invited to participate.

West Palm Beach (boys) took one cup home last year and St. Petersburg high school (girls) are confident they will carry the girl's cup back to St. Petersburg the second time.

## J. F. ANGE, PRESIDENT OF THE BANK OF ORANGE, SHOT IN BACK BY R. D. WARING

Shooting Outcome of Refusal to Admit Waring  
Into an Organization Being Perfected at Kissimmee; Wound Not Thought Serious

The Orlando Morning Sentinel of today says:

J. F. Ange, president of the Bank of Orange, was shot and wounded in the back by R. D. Waring, Orlando real estate man, about eight o'clock last night, at the Waring home, 13 East Amelia street. Mr. Ange was operated upon immediately after being taken to the Orange General Hospital and the bullet removed. Dr. C. D. Christ stated to The Sentinel that his wound was not serious, and that the patient was able to converse freely with friends after the operation. Mr. Waring was removed to the county jail.

There were no eye-witnesses of the shooting other than the principals, and R. A. Yates, assistant cashier of the Bank of Orange, as far as can be determined, and R. D. Waring is in such a nervous condition that his version of the affair, according to physicians attending him, could not be given.

In his statement of the happenings at the home of Mr. Waring, Mr. Ange said that he had gone there after being repeatedly called on the phone by Waring, who stated that he couldn't sleep until he had an interview with him. A business deal at Kissimmee, from which Waring had been refused participation in some weeks ago, was the proposition that he again wished to talk over with Mr. Ange.

Mr. Ange had just completed the interview after a final refusal to consider Waring's proposals and had turned toward the door when a shot came from a pistol in the hands of Waring. The bullet struck Mr. Ange in the back, and he exclaimed: "Waring, you have killed me!" "Yes, you, that is what I intended to do," Waring replied.

Mr. Ange turned on Waring and in the scuffle which ensued managed to knock the weapon from his hands. He left the house then and getting into his automobile drove back to his office where the business conference, which he had left, was still going on. "I am shot, get me to the hospital," he ordered.

## JAX TRACTION COMPANY FAVORS SHORT SKIRTS

JACKSONVILLE, March 31.—Although some people may object to short skirts the Jacksonville Traction company is in favor of them, for they prevent accidents, if the corporation's statistics for the last several years prove anything. J. S. Harris, claim agent for the company, announces that figures for 1914 showed 180 accidents here that year in which women were involved while boarding or alighting from street cars. Statistics indicate that such accidents decreased in number as the women followed Dame Fashion's decree and made their skirts shorter, for in 1920, when they were at "height of fashion" the total was only 73. The records show that the greater number of accidents to women in leaving or boarding cars resulted from long skirts, in most instances the heel of the shoe catching in the hem. Few of them caught in 1920, however, Mr. Harris declares.

## EX-EMPEROR CHARLES ATTEMPTING TO SEIZE THE HUNGARIAN THRONE

Irish Primate  
Interviewed  
Interest Peace

(By The Associated Press)  
Belfast, March 31.—Cardinal Logue, Primate of Ireland, interviewed Tuesday by Sir William Golding and three Southern Irish Unionists with the object, it's understood, of securing an opening of peace negotiations between the Irish Republican Parliament and the British Government.

TROOPS ARE RALLYING TO HIS SUPPORT IN FORCE

## HAS CROSSED THE FRONTIER

Reported that Allies Did  
Not Desire His Return  
to Austria

(By The Associated Press)  
LONDON, March 31.—A Paris dispatch today says that it is reported that a majority of the Hungarian troops have rallied to the standard of Emperor Charles, who is marching on Budapest.

VIENNA, March 31.—It is unofficially reported here that Admiral Horthy, the Hungarian regent, has resigned and will let events take their course. Chas. is reported enroute to Budapest and the army is adhering to him on the move.

Reports received here today are that Ex-Emperor Charles has proclaimed a military dictatorship at Steinsamanger, and that General Lehar is said to be ready with fifteen thousand troops to march on Budapest and by force, if necessary restore Charles to the throne of Austria.

PARIS, March 31.—Former Emperor Charles crossed the frontier between Hungary and Austria last Saturday by producing a foreign passport which represented him as a Red Cross official, says a Vienna dispatch.

LONDON, March 31.—It is reported that the Hungarian Ministerial Council has decided to crown Charles, former Emperor of Austria, King of Hungary, within two or three days, said a Central News dispatch from Vienna. Advices from other sources have made a mystery of Charles' whereabouts, but the Central News said that he was at Steinsamanger consulting with arriving officers.

County Andrássy, former Austro-Croat Dithlen told the ex-King that the allies would not consent to his return, according to a Geneva dispatch which said that Austria was taking steps to prevent Charles from remaining in that country. It is reported that warrants have been issued for the arrest of persons assisting Charles to enter Austria from Switzerland.

A dispatch, dated Tuesday, said that the Spanish Consul at Vienna was arranging with Austria to permit Charles to return from Switzerland. An exchange telegraph dispatch from Vienna said that Charles told Admiral Horthy of France that he did not object to his return to the Hungarian throne. It is reported that Charles was compelled to leave Hungary under Spanish protection.

## FLORIDA STANDS AT HEAD OF AGRICULTURAL CLASS

TALLAHASSEE, March 31.—A crop can be marketed in Florida every hour in the year, according to a declaration made by W. A. McRae, state commissioner of agriculture, in his annual report on the Florida state marketing bureau.

While most states produce nine-tenths of the time and market one-tenth, we have something to market every hour of the year, says the report. We average selling a carload of perishables every eight minutes, and when we add the staples and live stock to our sales we must get rid of ten carloads every hour, or eight trainloads daily.

## USUAL BOARD INVESTIGATION TO TAKE PLACE

(By The Associated Press)  
WASHINGTON, March 31.—Acting Secretary Roosevelt today started a personal inquiry into the flight of the naval balloon missing from Pensacola with five men. The inquiry is preparatory to ordering the usual board investigation. The Department has not officially given up hope but admitted that but little hope is entertained that the men will ever be found.

## \$35,000,000 For Military Purposes Of Japanese

TOKIO, March 31.—A new military loan issue amounting to Y. 70,000,000 (about \$35,000,000) was announced by the Japanese government recently, following a conference of leading bankers from Tokio, Nagoya and Osaka.

The rate of interest is 5 per cent and the term of redemption six years.

The proceeds will be used for financing the government's military projects.

## Fifty Miamians Are Baptized

(By The Associated Press)  
MIAMI, March 31.—Fifty persons were baptized last night at the First Baptist church. The membership is now 1240, the largest of any church in the city.

## A RIPE OLD AGE

TAMPA, March 31.—Lehine Armwood, a negro, 100 years old, is dead in a hospital here today. He leaves two sons and many grand and great grandchildren.

## WILL MOBILIZE ALL AIR FORCES

(By The Associated Press)  
WASHINGTON, March 31.—Simultaneous mobilization of all army and navy air forces is under way in preparation for bombing tests against naval vessels during June and July. Army fliers are gathering at Langley field, Virginia, and the navy fliers at Hampton Roads.

## Election Laws To Be Amended

(By The Associated Press)  
TALLAHASSEE, March 31.—Attorney General Buford today prepared recommendations for an amendment of the election laws to conform with the provisions of the federal woman suffrage amendment. The recommendation, which will be presented to the legislature, provides for the elimination of the word "male" and that poll tax be paid on or before the third Saturday before election. It is also provided that no persons who become entitled to vote during the year 1920 be prevented from voting because they did not pay poll tax for that year.

## BRYAN'S BIBLE CLASS TO TAKE A VACATION

MIAMI, March 31.—William Jennings Bryan's Bible class here, which includes several thousand members, will be in session next Sunday for the last time until December 5, it has been announced.

"It has been a most enjoyable season," said Mr. Bryan in discussing the work this winter, "and the large attendance has been maintained much later than last year. I feel that through the instrumentality of this class we may have brought under the influence of the gospel some who were not in the habit of attending divine worship, and that has been the object of this effort."

## THIRTEEN CLUB MET LAST NIGHT, MAKES DONATIONS

REPORTS SHOW BIG RESULTS IN THE LAST SIX MONTHS

It was last September that saw the birth of the Thirteen Club, beginning with the Gala Day event, working from there into bigger things that have been accomplished by this organization since.

Seven of Sanford's busiest business men met at luncheon once a week for several weeks before their first undertaking, the Gala Day affair, and after the results of their efforts showed so satisfactory, it was decided to continue with an increase in membership so that all the live wires could have a chance to render their services. Six more men were admitted making a total at that time of thirteen men, from whence the club derived its name. A little later on the club membership was increased to twenty at which number it remained until this day.

This club had then and has now for its sole purpose the furthering of the interests of Sanford, this City Substantial of ours, and from the reports rendered at their regular meeting last night no other one organization has accomplished more in the short length of time that they have been operating than the Thirteen Club.

The personnel of this club, from Col. Geo. Knight as its chairman on down has not changed since its organization with the exception of the new names that were added. The interest displayed by each and every member has been such that it was impossible for any movement undertaken to die and everything started was completed.

The Sanford Rod and Gun Club was one of the Thirteen Club's largest undertakings and each and every member worked hard that this might be put across. Every member to a man joined this Club besides their efforts in securing enough members to make it possible. The Thirteen Club in addition to this also donated the sum of \$1,000 to the Rod and Gun Club.

In the treasurer's report at the regular meeting last night it was learned that the total number of donations made to different organizations and for different things were as follows: Over \$100 to the Fernald-Laughton Hospital, \$1,000 to the Sanford Rod & Gun Club; \$50.00 to the Woman's Club White Way Fund, \$25 to the Sanford band; \$25 to the Sanford Library and several donations of a smaller character.

The money that this club donated was not raised through any begging methods, no contribution was asked of any individual or concern. The money was raised through entertainments of different kinds. The entertainment idea was for a two fold purpose, one, that this necessary money could be raised without calling on people to dig down in their pockets as has been done in the past and the other reason was to furnish to the Sanford people amusement and entertainment that this city of ours has lacked in years gone by.

The money donated to the hospital was raised through the Gala Day activities while the balance was raised through shows, carnivals and the many nice dances that the Club has been putting on monthly.

The Johnny J. Jones' Exposition shows were brought to town by the Thirteen Club, and each member donated each evening of his time for this week that it might be a success.

The Million Dollar Band, although not altogether a Thirteen Club affair was handled by this Club at the request of many of Sanford's citizens and it is needless to state here just how much this band was worth to Sanford for its weeks stay.

These activities as well as many others not mentioned here have done wonders for Sanford this past season and plans are under way for even greater things, announcement of which will come later. And, as stated before these men, all of them the busiest of our business men, laying aside their work, giving of their valuable time, working many nights while others sleep are doing it with just one idea in mind, that is, that Sanford shall go ahead, that Sanford shall have the things that other towns have, that Sanford shall throw off that yoke that has been around her neck in the years gone by and forge ahead as one of the very best cities in Florida. The Thirteen Club's motto is, "Sanford First, Sanford Always," without the least selfish motive in any way connected with it.

The Chautauqua that comes to Sanford next week is not here under the auspices of the Thirteen Club, but chief amongst its backers are members of the Thirteen Club and the Club being a great believer in entertainments of a higher nature are urging upon every one to attend these entertainments, to purchase season

tickets for themselves and families that the financial end may be a success.

And you can be sure that wherever any thing is going on that means anything for this town of ours and the Thirteen Club does have charge of it as a Club, its members will be there strong.

Join the Rod and Gun Club, attend the Thirteen Club affairs, it's for you they are working.

## NEW EMBLEM FOR CHAMBER OF COMMERCE

EVERY MEMBER WILL USE IT ON HIS STATIONERY AND ON HIS WINDOW

How do you like the new seal of the Chamber of Commerce?

Having one of them as a transparency on your window or on the wind shield of your auto means that you are a member in good standing of the Chamber of Commerce.

And what does this mean? It means to every visitor to the city that Sanford has a progressive and live Chamber of Commerce and that you are proud to be a member of it.

That you are known by your works and to be a member of your local Chamber of Commerce signifies that you are a real citizen in every respect. That you are spending your money for the upbuilding of your town, that you have faith in your home town, that you are striving to put and to keep your home town on the map and the very fact that you are a member of the Chamber of Commerce means that you are a solid citizen.

Every member of the Chamber of Commerce in good standing is entitled to use this emblem on his stationery, on his store window if he is a merchant or professional man, on his auto or anywhere that he chooses and as time goes by it will be more and more the badge of real citizenship in Sanford just as it is in every city in the United States and foreign countries.

The secretary of the Chamber of Commerce has several of these cuts for the members for their printing. He will also have the transparencies for the windows in a few days. Get them and flaunt them to the public for in the next twelve months Sanford people will know who are the real citizens of Sanford and those who are doing nothing for their home town.

## Horticultural Society Meets at Miami, April 12th to 15th

ORLANDO, March 24.—(Special.) Miami hotel rates are not extortionate, and no one need be kept away from the meeting there of the Florida State Horticultural society on April 12 to 15. Not only is the Miami hotel men indignantly disclaim the report which recently has been going around concerning high rates and lack of accommodations there, but Bayard F. Floyd, secretary of the State Horticultural society backs them up in their disclaimer. Expecting something like 2,000 members of the body to be present at Miami, Mr. Floyd made the trip there for the particular purpose of looking into the matter of accommodations. He says there will be roof for all, and the hotels are making special rates for the gathering which are entirely reasonable. All one needs to do in writing for reservations is to mention the fact his or her presence in Miami on these dates is for the purpose of attending the horticultural gathering in order to be sure of good accommodations at a reasonable figure.

Mr. Floyd says the people of Miami apparently recognize most fully the value of the big organization with its nominal dues and lack of selfish interest, and are going to do their best to make the visitors' stay there a pleasant one. Because of this, the growing interest in scientific cultural methods, and of the very interesting nature of the program for this meeting, he is looking forward to a record breaking attendance.

## Another Boat Added

PALATKA, March 24.—Another boat has been added to the Jacksonville-Palatka line to be used in carrying Irish potatoes from Palatka to Jacksonville for shipment north.

Copyright 1921 Hart Schaffner & Marx

## Lower Your Clothes Cost

You may say, "How can I do that when clothes cost more?"

We'll tell you how and we'll back it with the guarantee that if you aren't satisfied—money back.

Get good all-wool clothes; the kind Hart Schaffner & Marx make; the prices are higher than those of some clothes. The cost is lower because the clothes last longer; you pay less per day to keep a suit on your back—and the clothes look better while they last.

## Sanford Shoe and Clothing Company

The Home of Hart Schaffner & Marx Clothes

### Cannot Take Passengers to Tallahassee by Airplane

WEST PALM BEACH, March 24.—Senator Thomas J. Campbell, of this city, who has engaged an airplane in which to make the trip to Tallahassee to attend the coming session of the legislature, proposes to "drop in" upon a number of constituents and friends enroute to the capital.

His first stop after leaving here will be made at Okeechobee City where he expects to confer with many of his constituents who may have some late legislation to propose. The next stop will be at Kissimmee, his boyhood home, where he expects to greet old friends. Other landings will be made at Ocala, Gainesville and Live Oak.

Senator Campbell has been forced to decline several requests for a "lift" along the route because the capacity of the machine is limited to the pilot and one passenger. Dr. Lincoln Hulley, member of the senate and formerly candidate for governor, was among those who sought to make the flight with Mr. Campbell.

### BERGDOL MAY BE RETURNED TO RECEIVE MEDAL

WASHINGTON, March 24.—All the papers in the War Department relative to Bergdoll, now in Germany, were transmitted to the state department today at the direction of Secretary Weeks with the request that they be considered from an international viewpoint. Weeks said nothing to indicate any formal request for the return of Bergdoll had been made to the German government.

### Tallahassee Best Governed City in the United States

TALLAHASSEE, March 24.—Tallahassee during the last year became one of the best governed cities in the United States according to the City Managers' Association of New York, and J. W. Greer, local city manager, has been listed as one of the ten most successful managers of the country. Tallahassee adopted the commission-manager form of government a little more than a year ago.

### More Bread For The Same Money

ST. PETERSBURG, March 24.—News of the drop in flour prices at last has reached St. Petersburg. One of the principal local bakeries announced today that it would increase the size of its loaf 15 per cent, instead of reducing the price. Other bakeries have already increased the size of the loaf sold, it is said. It is likely that there will be an increase in the size of the loaves if not a decrease in price in all the bakeries here within the next few weeks.

### Palatka Plant Resumes

PALATKA, March 24.—The Florida Wooden Ware Company, which until recently had operated only nine days since last December, has resumed full time, providing employment for approximately 100 workmen. The concern manufactures lard buckets, tubs and other articles.

### EASTER POST CARDS

Fine Line of Post Cards for Easter at the Herald office. One Cent each.

### Orlando Chautauqua a Roaring Success

The Redpath Chautauqua closed its five day engagement Tuesday night at Orlando. The Chautauqua this year was a success in every respect.

The program was up to the Redpath standard and some think it was above the standard.

The lecture by Harry L. Fogleman was so well liked by the business men of Orlando that they are forming a party to make a trip to Sanford in order that they may hear Mr. Fogleman the second time.

Let's go, and make the Sanford Chautauqua a howling success by buying season ticket today. Prices \$2.50 plus 25c war tax for adults and \$1.25 plus 13c war tax for children.

KEY WEST POTATO PLANTS \$1.75 per 1,000 Ready April 1st, delivered at station or in Sanford. W. V. DUNN R. A., Box 224-A, Sanford, Florida

### Hastings Potatoes Running Large But Not So Many

PALATKA, March 24.—Forty-five barrels of potatoes to the acre was the yield of some of the land at Federal Point, near here, when digging began recently in the East Palatka, Hastings and Federal Point sections. The yield this season will not be as large as in former years, it is said, but the quality of the early potatoes is declared to be the best ever seen. The labor situation shows a marked improvement over last year and for that reason the season is expected to be short.

### Sanford Furniture Hospital

Have your old Dressers Rebuilt into Dressing Tables.

Furniture repaired and refinished. Brass beds refinished.

## SHOULD COMBINE EFFORTS FOR BENEFIT OF SANFORD CENTRALIZE OUR FORCES

**Rod and Gun Club  
Could Combine With  
Cham. of Commerce**

**USING BULKHEAD**

**FOR BUILDING THAT WOULD  
HOUSE ALL THE ORGANIZA-  
TIONS IN THE CITY.**

The following letter to the president of the Chamber of Commerce from D. C. Marlowe is worthy of the consideration of Sanford people:  
Sanford, Fla., March 26, 1921.  
Mr. J. G. Ball, President,  
Chamber of Commerce,  
City.

Dear Sir:—Purely in the spirit of municipal improvement and with solely an idea of general city and county co-operation, I wish to address you in re the proposed Rod and Gun club. Personally, I am a subscriber to this fund and will become a member, but I do feel that as yet Sanford is too small to maintain various different clubs to advantage. We, of course, all believe in Rotary clubs, gun clubs, etc., but do not you and the board of governors of the Chamber of Commerce believe it a better plan to centralize our efforts to the extent of using the money now in hand and subscribed for the gun club to the building of a Chamber of Commerce to-speak and have all auxiliaries radiate under the head of the Chamber of Commerce?

There is available considerable city property on the bulkhead for this purpose that no doubt the city would be glad to donate or even sell for a reasonable sum in order to get our water front improved. If, then, we were to co-ordinate our efforts and build a Chamber of Commerce building in which could be housed a rod and gun club, the Woman's club, the library, etc., would it not be more beneficial and a better asset for Sanford than to separate our efforts and eventually fail in our undertakings because of lack of support? In spending our money we should look to more than the immediate present. We should bear in mind that congress has recently appropriated \$65,000 for deepening the river between Palatka and Sanford. This means concerted effort on our part to have this money spent in deeper channel work. I say it from fifteen years' experience as a transportation man that we are losing at least \$500,000 annually in carrier rates because of our inattention to our waterway right at our door. We must work for a deeper channel, and once this is obtained, there will be no trouble about getting refrigerator ships operating on regular schedules between Sanford and points east, such as Baltimore, Philadelphia, New York and Boston, four of our greatest eastern markets. To do this, however, we must centralize our efforts and the best medium is through our chamber of commerce.

Casually speaking, to secure a service of this kind would reduce our rate on lettuce, celery, etc., from approximately \$1.06 per crate to less than 70 cents, or a saving of not less than 36 cents per crate—more than the profit to farmers this season. Bear in mind, also, that under this plan of refrigerator ships, two-thirds of our crops that move east would use this means of transportation and this equals at least 2,000 cars, averaging 350 packages to the car. Figure this out at 36 cents per crate and see the saving.

I don't want you to think me a pessimist or a drawback to any effort being expended for the benefit of Sanford, but I do think that the best way to succeed is a co-ordination of effort and resources.

I must say that the contemplated location for the rod and gun club is rather out of the way. Only those having cars would be frequent visitors and, beside, this additional dredging would have to be done in order to allow boats of deep draft to enter a boat basin built there.

In view of all these facts and future possibilities, can we not unite our money and efforts and erect a Chamber of Commerce community building at the foot of Park avenue or, say, to the north of Park, or beyond the present railroad trestle, where property is free and could be beautified with little expense.

Let's do what we can under the auspices of our Chamber of Commerce.  
Yours very truly,  
D. C. MARLOWE.

**DRINK  
Elder Springs Water. Its 99 98-100  
per cent pure. Phone 311.**

**MOTORED TO SANFORD FOR  
DINNER.**

Last night a jolly party motored over to the Valdez Hotel in Sanford for an Easter dinner, which this hotel served in a wonderful manner. They returned by moonlight, having a wonderful evening of pleasure. The party consisted of Misses Elizabeth Yowell, Kathrine Barnes, Alice Benton, and Messrs John Fletcher, McKay Fletcher and Julian Harris.—Reporter-Star.

## ANNEXATION OF WEST FLORIDA IS OLD TALK-STOKES

**RAY COUNTY SOLOS FINDS NO  
SENTIMENT FOR PRO-  
POSAL.**

PANAMA CITY, March 29.—"Much has been said with reference to selling Western Florida to Alabama, but it's the same talk we hear every two years next prior to the convening of the legislature," said J. Ed. Stokes, representative from Bay county, when approached for an expression of his views. Continuing Mr. Stokes said: "Sentiment in the West Florida counties which would become the step-child of Alabama is overwhelmingly against any such measure. I have talked with representative men from every county west of the Apalachicola river during the past week and find no sentiment whatever for such a movement."

"So far as I am able to learn there is not a newspaper in West Florida supporting the project; no organization of any kind and very few private individuals are even friendly inclined," said Mr. Stokes, "and I see no cause to worry. This was Florida when other portions of this state was a wilderness and when Alabama was looked upon as a section bordering Florida on the north."

Mr. Stokes further gave it as his opinion that probably the state could be divided some day, but that there was no prospect for annexing any portion of it to Alabama.

## Center Hill Growers Have 2,000 Acres Planted in Beans

CENTER HILL, March 28.—Farmers in this section have devoted 2,000 acres this season to green beans, which have already netted them approximately \$15,000. Eight hundred acres are planted in tomatoes, while 500 acres are cultivated in cucumbers.

It is expected the section will produce for shipment 25 carloads of vegetables a day.

All needy residents of Muskegon, Mich., who are out of work are being given aid by the city. The city loans the funds, taking a note payable on demand without interest.

## Drinking a Glass of Hot Water is a Splendid Habit

**Cleanse and sweeten the system  
each morning and wash away  
poisonous, stagnant matter.**

Those of us who are accustomed to feel dull and heavy when we arise; splitting headache, stuffy from a cold, foul tongue, nasty breath, acid stomach, lame back, can, instead, both look and feel as fresh as a daisy always by washing the poisons and toxins from the body with phosphated hot water each morning.

We should drink, before breakfast, a glass of hot water with a teaspoonful of limestone phosphate in it to flush from the stomach, liver, kidneys and bowels the previous day's indigestible waste, sour bile and poisonous toxins; thus cleansing, sweetening and purifying the entire alimentary tract before eating more food.

The action of limestone phosphate and hot water on an empty stomach is wonderfully invigorating. It cleans out all the sour fermentations, gases, waste and acidity and gives one a fine appetite for breakfast. A quarter pound of limestone phosphate costs very little at the drug store, but is enough to make anyone who is bothered with biliousness, constipation, stomach trouble or rheumatism an enthusiast on internal sanitation.—Adv.

## SPLENDID CONCERT ENDS MOOSE MEET

**DAYTONA WILL BE THE NEXT  
PLACE TO GATHER.**

Following the ceremonial and frolic Saturday night, the final day of the meeting of the Loyal Order of Moose in Tampa was brought to a close with a splendid concert yesterday afternoon by the famous Seminole Legion Band of Jacksonville in Plant Park. Earlier in the afternoon the Moosemen assembled in front of the Tampa Day hotel and had their pictures taken. The remainder of the afternoon the delegates spent visiting points of interest in the city and nearby. Last night every outbound train carried its quota of delegates back to their respective homes.

Late Saturday afternoon a short business session was held. During the meeting Daytona was selected as the place where the August ceremonial and frolic will be held.

Visiting delegates expressed themselves yesterday as well pleased with their stay in Tampa, and especially with the high grade of entertainment program arranged by the committee of the local lodge. During the ceremonies over 200 candidates were initiated into the mysteries of Moosehood and plans for a membership drive to be staged in Tampa were also made. Judge M. Henry Cohen, dictator of Tampa Lodge, No. 708, will have charge of the drive and will set aside a special day, to be known as Moose Day, on which day the members will stage an intensive drive. The Tampa lodge has set 1,000 members as its membership goal in the near future.

Thursday night at the regular meeting of the Tampa lodge in the Woodmen's hall installation of officers will be made. The officers were elected at the last meeting of the lodge in February and were as follows: Judge M. Henry Cohen, re-elected dictator; William O'Hare, vice-president; A. Basholdt, prelate; R. G. Albury, treasurer; G. A. Pierre, secretary; and trustees, J. A. Jones, C. C. Utter and E. D. Hitchcock. There will be other officers appointed following the installation ceremonies.—Tampa Tribune.

## Bridge at Osteen Ferry May Soon Become a Reality

The county commissioners of Volusia and Seminole counties are planning to build a bridge across the St. Johns river at the Osteen Ferry, which is on the direct road from New Smyrna to Sanford.

Commissioners G. C. Beck, of New Smyrna, and Isaac A. Stewart, of DeLand, of the Volusia board, have been chosen to confer with the Seminole commissioners in this proposition. We understand that the Seminole commissioners are unanimously in favor of building the bridge and that four out of five of the Volusia commissioners favor the plan. The tax payers of the coast side of the county have long favored building this bridge, and for the sake of getting it will doubtless be willing to make some sacrifices. We will probably be able to give some definite information in regard to the plans next week.—New Smyrna Beece.

## National Editors Praise Florida

The editors have seen Florida. Coming from every corner of the nation, they gathered together 400 strong at Pensacola and toured the state to Miami. Much of what we possess they have seen and enjoyed. They have come and seen and returned. It is for us to ask ourselves, did they form favorable impressions of our state?

We had the pleasure of being with the editors on their tour for a few days. Of course every occasion was taken to learn their thoughts and impressions of what they were seeing, and in many cases the particular editor did not know us to be of Florida. All the editors with whom we talked were very warm in their praises of the land of flowers. It was evident that many of them were greatly surprised. A large number said they had always felt that the statements concerning the glories of the state were nothing more than dreams and imaginations advertised as realities.

Our agricultural organizations and methods and our agricultural possibilities drew from the scribes an unusual amount of praise. The work of the county and home demonstration agents proved very interesting to them and none lost an opportunity to converse with the agents.

It is beyond questioning that the editors are going back home well pleased with Florida and glad they visited it.—Florida University News Service.

Try a Herald Want Ad.—It pays.

## GEN. BLITH'S APPOINTMENT OF OFFICERS

(By The Associated Press)

TALLAHASSEE, March 28.—Major General N. A. Blith, commander of the Florida division, United Confederate Veterans, in a general order has announced the appointment of staff officers for the division, naming W. A. Rawls, of Pensacola, adjutant general and chief of staff with the rank of colonel. The remaining appointments follow:

John L. Morgan, Lakeland, assistant adjutant general, and assistant chief of staff, with rank of colonel.

B. M. Robinson, Orlando, assistant adjutant general, with rank of lieutenant-colonel.

L. H. Harp, Crescent City, assistant adjutant general, with rank of lieutenant-colonel.

H. J. Peters, Leesburg, assistant adjutant general with rank of lieutenant-colonel.

W. H. Ballard, Tampa, assistant adjutant general with rank of lieutenant-colonel.

E. C. Blanton, Plant City, assistant adjutant general, with rank of lieutenant-colonel.

C. D. Turner, Madison, assistant adjutant general, with rank of lieutenant-colonel.

Rt. Rev. E. G. Weed, Jacksonville, chaplain general, with rank of lieutenant-colonel.

Rev. H. H. Sturgis, Brooksville, assistant chaplain general, with rank of lieutenant-colonel.

Dr. H. E. Palmer, Tallahassee, surgeon general, with rank of lieutenant-colonel.

L. W. Kicklighter, Starke, judge advocate general, with rank of lieutenant-colonel.

L. W. Jackson, Gainesville, color bearer, with rank of lieutenant-colonel.

W. S. Turner, Captiva, commissary general, with rank of lieutenant-colonel.

C. J. Thomas, Miami, assistant commissary general, with rank of lieutenant-colonel.

W. C. Hyland, Manatee, quartermaster general, with rank of lieutenant-colonel.

Silas Jernigan, Milton, assistant quartermaster general, with rank of lieutenant-colonel.

William Miekler, St. Augustine, inspector general, with rank of lieutenant-colonel.

Frank E. Saxon, Brooksville, chief of ordnance, with rank of lieutenant-colonel.

G. W. Bassett, Quincy, chief engineer with rank of lieutenant-colonel.

Brigade commanders: Brig. Gen. T. J. Appleyard, First brigade, Tallahassee; Brig. General W. E. Mitchell, second brigade, Oklawaha; Brig. General H. H. Vancey, Third Brigade, Tampa.

Veterans placed upon the roll of honor follows:

Major General B. W. Partridge, Monticello; Major General J. A. Cox, Lakeland; Major General I. H. Buchanan, Chipley; Major General Alfred Ayer, Ocala; Brig. General Theo. Randall, Madison; Brig. General John M. Martin, Ocala; Brig. General F. E. Dey, Milton; Brig. General S. M. Robertson, Chipley; Brig. General F. B. Taylor, Tampa; Brig. General A. G. Taylor, Tampa; Brig. General W. H. Sebring, Jacksonville; Brig. General R. D. McLeod, Crawfordville; Brig. General J. S. Frink, Jasper; Brig. General B. C. West, Antioch.

## PLOW LANDS IN FLORIDA ARE HIGHER

**AVERAGE \$4 AN ACRE MORE  
THIS YEAR THAN  
LAST**

(By The Associated Press)

WASHINGTON, March 29.—Plow lands in Florida average \$4 more per acre in value this year than a year ago, \$7 higher than in 1919 and \$8 higher than in 1918, according to a report just issued by the Department of Agriculture.

For the state as a whole the average value of poor plow lands this year is given as \$25 an acre, while last year it was \$23 and in 1919 their value was \$21. Average good plow lands were valued at \$55 an acre this year compared with \$35 last year and \$48 in 1918.

The average value of all plow lands in the state this year is placed at \$40, last year at \$36, in 1918 at \$38 and in 1917 at \$32.

At a recent meeting of St. Augustine's board of trade it was decided to take no definite action on the matter of creating a road and bridge district across the Mantanzas river to Anatasia Island and to construct roads through the island.

SANFORD MILITARY UNIT MEANS MUCH TO THE CITY IN MANY DIFFERENT WAYS

Information Given Below is Important to All Concerned

By Capt. H. C. F. Dohm, Organization Officer

About a year ago Congress appropriated funds and the War Department at Washington allotted certain military troops for the state of Florida, based on its population; these troops call for one regiment of infantry with its headquarters company, band, service company, medical detachment, state staff corps and departments, quartermaster corps, and it has recently added thereto, thru the efforts of the new Adjutant-Gen. Col. Charles P. Lovell, units of coast artillery, motor transport, howitzer, etc.

At this writing, the regiment has been practically completed, there remaining but the infantry unit just secured by Orlando and one company of machine gun to be located on the East coast, for which applications have already been filed.

The First Florida Infantry is located at the following places and were organized in approximately the succession given: Daytona, Miami, Live Oak, Branford, Starke, Lake City, Fort White, Tarpon Springs, St. Petersburg, Hastings, Jacksonville, Lake Worth, West Palm Beach, Brooksville, Marianna, St. Augustine and Orlando.

All rifle units except Brooksville, Marianna and Lake City, which are equipped with Browning machine guns; Fort White as a medical detachment, St. Petersburg as a howitzer company, using one-pounders and light mortars, Hastings and St. Augustine compose the service company, the band, which is a very efficient organization under the leadership of F. E. Chamber, who is also leader of the famous Shriner Band at Jacksonville, is made up of members in St. Petersburg, Clearwater Tarpon Springs; it is equipped with a full set of instruments recently furnished by the War Department.

It is a matter of record that the partly completed regiment only partly equipped made a very good showing at the encampment last year, held at Camp Johnston; it is without doubt going to make an excellent record this year in July at the annual two week's encampment, because of its better equipment and its stronger strength, both in officers and enlisted personnel.

The program this year includes a four-day school for two officers and eight men of each unit, who are requested to attend; then follows the fifteen-day encampment, at which men will also qualify for the rifle team to go to Camp Perry, where the national matches are held through the month of August; this team will represent Florida; the state match will also be held at Camp Johnston for the Talliferro trophy now held by Daytona, having won it last year. It will be seen that the National Guard offers much to interest the man with military inclination.

There is no expense attached to it for members, as the government pays all that, in order to maintain and have ready an efficient fighting force of citizen soldiers in an emergency which has been conceded as the most economical policy thruout the entire country and a good substitute for a large standing army.

During the world war the National Guard made a name for itself to such an extent that the regular outfit, the regular army, conceded it to be a most remarkable and unexpectedly efficient fighting force.

Much has been said about the equipment furnished by the War Department, but it will do no harm to again mention that the National Guard is being furnished the identical articles as is the regular army, they being all brand new, class A material; these include cotton and woolen uniforms, shoes, overcoats, raincoats, underwear, stockings, blankets, arms, ammunition, all other ordnance articles and as well all items in medical, signal, and engineer property; in addition, motor transportation is furnished, these including three-ton White trucks for the rifle units, regular White machine-gun trucks for those units, G. M. C. ambulances for medical outfit, and heavy-duty trucks, motorcycles and other cars for different organizations.

The government is going to considerable expense in fitting out the National Guard and of course expects its return therefor; it has been estimated that it takes approximately \$17,000 average annually to maintain a sixty-five man company. It means to each enlisted man who will do his duty, about \$90.00 yearly income, according to grade, the pay being one day's pay of the regular army corres-

ponding rank for one night's drill with full pay at encampments.

Were it possible to get the actual information about its advantages and its necessity before the young man, there would be very little if any trouble in securing the quota allowed, but in these days of prosperity, the young man gives little thought to his actual bounden duty to his community and his country at large so far as the military is concerned; it is hoped that the serious-minded responsible young citizen will give the matter consideration and use his efforts on his more careless-minded brother by bringing the real truth to his notice. We talk much of "100 per cent" Americanism; but how many of us can really lay any claim to that title right now; it is not that men won't come forward when needed, for that has been proven beyond all doubt in the last war, yet, when the call did come, what shape was the country in, were we ready? No, it cost us millions and millions of dollars to rush it through and don't forget, it cost us thousands of lives, because in the rush for troops, we sent men over there who were only partly trained, some men so inefficient as to know nothing about the army rifle; this was at the time unavoidable, but do we want to go through that again; who can prophesy when the next call will come; what do we see in the daily press every day; will any one dispute that it is possible to happen at any minute; think it over and reason, young man, and then act; do that now.

It is the duty of every father and mother and every employer of young men to encourage the young man to take an interest in the National Guard which makes for efficiency in business—makes a real man out of an ordinary man, stamps him as a good citizen, keeps some off the street corners, makes him proud, benefits him physically, mentally, morally, financially and in every other way. The soldier of today is looked upon by the old veteran who is now too old to be of military service to his country, but who, as a young man, was "right in it" from his feet up; and, first to last, ask any "old-timer" what thrill runs in his breast and up and down his spine when he sees a young soldier in uniform carrying himself erect and with the stride of his position.

The writer of this article, being in uniform doing service in the organization of the new National Guard, meets many of the old veterans and in no instance has he noticed anything but the expression of love and gratitude and respect and the tear in the eye when grasping the hand which is just simply "pushed out to him."

Ministers, doctors, lawyers, other professional men, business men, plain citizens, mothers, daughters and sweethearts, and every other good, loyal, peace-loving mortal is in favor of the movement. Bolsheviki, Soviets, agitators, criminals, other law-breakers and similar tribesmen are against it. Where do you stand? Get information from Capt. H. C. F. Dohm, the organization officer or Lieut. DeCottes or Lieut. Wight.

CARDUI HELPED REGAIN STRENGTH

Alabama Lady Was Sick For Three Years, Suffering Pain, Nervous and Depressed—Read Her Own Story of Recovery.

Paint Rock, Ala.—Mrs. C. M. Stegall of near here, recently related the following interesting account of her recovery: "I was in a weakened condition. I was sick three years in bed, suffering a great deal of pain, weak, nervous, depressed. I was so weak, I couldn't walk across the floor; just had to lay and my little ones did the work. I was almost dead. I tried every thing I heard of, and a number of doctors. Still I didn't get any relief. I couldn't eat and sleep poorly. I believe if I hadn't heard of and taken Cardui I would have died. I bought six bottles, after a neighbor told me what it did for her. "I began to eat and sleep, began to gain my strength and am now well and strong. I haven't had any trouble since. I sure can testify to the good that Cardui did me. I don't think there is a better tonic made and I believe it saved my life."

For over 40 years, thousands of women have used Cardui successfully, in the treatment of many womanly ailments. If you suffer as these women did, take Cardui. It may help you, too. As all druggists.

GENUINE "BULL" DURHAM tobacco makes 50 good cigarettes for 10c

PERSONAL NOTES

(From Saturday's Daily) E. A. Farnelle and son of Oviedo were in the city this morning on business.

D. D. Weaver of Lakeland is in the city and proposes to locate here in the laundry business.

Mrs. J. E. Umbach motored up from Miami Friday and is the house guest of Mrs. Ralph Wight.

J. S. Dinkel and daughter, Miss Olive Dinkel, of Longwood were among the visitors to the city this morning.

E. H. Kilbee, former county commissioner, and a prominent citizen of the Geneva section, was in the city today.

Ben Overstreet, one of Longwood's progressive business men, was in the city today on business and seeing his many Sanford friends.

Mr. and Mrs. R. S. Holly left this morning for Ellenton where they will spend Sunday and Mrs. Holly will spend some time with home folks.

Mr. and Mrs. M. D. Casler visited Sanford on Sunday where they spent a few hours with their son and his wife—Mr. and Mrs. Harper Casler.—Kissimmee Gazette.

Messrs Harry Waterhouse and H. C. Robb of Wheeling, W. Va., were in the city today taking the boat for Jacksonville and home, after spending the winter at various cities in the state and enjoying the good fishing.

(From Monday's Daily) Mrs. Umbach, who has been visiting her many Sanford friends over Sunday, will leave tomorrow for her home in Miami.

Editor William Glenn, of the Orlando Sentinel was among the Knight Templars attending the services at the Baptist Temple yesterday.

The many friends of Mrs. R. L. Griffin will be grieved to learn that she is very low at the Fernald-Laughton Hospital, after undergoing an operation several days ago.

Mrs. Sandy Anderson and Mrs. Howard P. Smith will entertain at an Easter tea Tuesday afternoon from 3 to 5 at the home of Mrs. Anderson on Magnolia avenue. The tea will be for the Methodist church fund, through Circle No. 2. All members and friends of the church are invited.

Mrs. John Herby will leave today for her home at Dayton, Ohio, after spending the winter here with her daughter, Mrs. Schelle Maines. Judge Maines will accompany her as far as Jacksonville, where he will attend the meeting of the State Bar association. This has no reference to the old subject before the Volstead enactment, but means that he will attend the session of attorneys from all parts of Florida.

Mr. and Mrs. F. J. Gonzales and family arrived here Saturday from their home in Miami and they will be here all this week. Miss Francis will be operated upon for appendicitis at the Fernald-Laughton hospital today. Joe left today for Miami, but will return Thursday and the family will leave for home as soon as Frances is able to travel. The Gonzales family are old residents of Sanford and their many friends are giving them a warm welcome and are

glad to know that they are prospering in their new home.

Mrs. W. L. Henley entertained Saturday, March 26, at a Peter Rabbit party for her Sunday school class. Pink and white decorations were artistically used. After being served with punch, an Easter egg hunt was enjoyed on the lawn, that had been visited by "Brer Rabbit" hiding many brightly colored eggs. After the hunt they were entertained indoors with a game of "Peter Rabbit," each guest trying to pin a lettuce leaf on the mouth of the rabbit. Margaret Long received the prize, a pretty white rabbit. The table had for its centerpiece a white rabbit in a miniature nest surrounded by tiny rabbits and baby chicks. The favors were little pink and white candy rabbits. The color motif was further carried out in the delicious refreshments.

(From Tuesday's Daily) The T. U. T's meet Friday with Mrs. Robert Herndon.

Mrs. Donald Smith left yesterday for Sarasota to visit her mother.

The St. Agnes Guild met with Mrs. F. S. Dalger, Jr., yesterday afternoon. It was a social meeting after which sherbet and cake were served.

Mrs. B. J. Starling and her daughter, Mrs. A. B. Peterson, and little son, leave today for Jacksonville to visit with Mrs. Starling's sister, Mrs. Robert Sims. From there Mrs. Peterson will go to her home in Jamestown, N. Y.

Mrs. Frank Griggs and little daughter, Mary, were the guests of Mr. and Mrs. George LaVigne of Longwood last Sunday.

Mrs. Thos. East and little daughter Yvonne, of Sanford, Florida, are visiting her parents, Mr. and Mrs. Walter Smith.—Okaloosa, Miss., Messenger.

Joe Gonzalez left for his home in Miami this morning. He was accompanied by Edward Rumph who will be the guest of his brother, Hume Rumph, for a few days. Mrs. Gonzalez will remain here for several weeks until Miss Frances is able to be taken home. The operation at the Fernald-Laughton hospital was very successful.

666 is a prescription for Colds, Fever and LaGrippe. It's the most speedy remedy we know.

In response to the inquiry of many telephone subscribers: "What can I do to help my service?" this advertisement is published.

Slow Answers Impair Service

Telephone users here make thousands of telephone calls every day.

On more than one per cent of these calls, the person called does not answer for a minute or more after the bell rings.

True a minute isn't long, but telephone service is a matter of SECONDS. We do our part in seconds.

Delayed answers by subscribers on so many of the daily calls necessarily slows down the service and hampers the operators in their efforts to improve the service.

Often the operator is blamed by the calling party when you are slow to answer.

Answering promptly when the telephone bell rings will assist greatly in maintaining good telephone service.

Friendship in many cases is only money deep.

A wish gratified is no longer a wish. It has lost its charm.

The wise man takes a hint in time. The fool regrets when too late.

Honesty brings man its own reward, but a thief often snatches it away.

Yes, many people acquire great fortunes honestly. They are willing to them.

The man who wants to be right with his fellows should first get right with himself.

The man who minds his own business generally finds that business well worth minding.

Some people appear to carry their honor in their pockets, and such pockets are generally full of holes.

Europe is again a bunch of tinder, with every nation dreading the time when another will apply the torch.

Some men are so averse to recognizing their own faults that they soon become convinced that they are without flaw.

A clean town creates comment. Comment attracts a place. Advertising puts us on the map. Let's keep this town clean.

Yes, we may live for years without knowing the true hearts of our neighbors, but their families and their dogs and cats do.

A keen mind, a healthy body and a willingness to do should make a success of any man—but it often sends them to jail instead.

Even one lone man can do much for the community in which he lives, but when all men pull together there is no end to the possibilities.

The world war at least taught the kaiser that instead of being "Me und Gott," it seems to be "Gott und Me," as evidenced by his latest interview.

Many cities are boasting of their increase in population. But it would be more to the purpose to lament over the depopulation of the farms.

The young man who carefully prepares himself for his life work finds plenty of work to do. 'Tis only the waster who finds his substance dwindling.

The fact that Lizzie Ford spent the night in the B. & O. Garage in the company of the notorious Dodge Brothers, is no reason why there should be room for scandal. It could have been that they were just "tired."

The weather looks threatening and the weather reports says rain and cold weather but this does not frighten the people of Florida. We need rain and we need cold weather, especially here in the winter vegetable section and we know that in March and April all danger of a frost is over. We are in the most favored section of the world, and we should tell the world about it.

Let everybody get in behind every good movement for Sanford regardless of who is back of the movement and help put it over. We can have one of the busiest cities in Florida here this summer if we just thought so. The cities that have been most successful are the cities that have the confidence of the majority of the citizens and citizens who are willing to meet every one half way on every project that looks good.

Sec. Lansing's book looks to us like a case of sour grapes. He had nothing to say about the Peace Treaty when it was in the making and now that it is over he wants to sting those who would not let him play in the Paris "back yard". The true sportsman will keep still after he loses out and refuse to "squak". Mr. Lansing would have more friends by keeping still and not taking a shot at Mr. Wilson now that he is down.

**SOLID IN THE ABSTRACT**

This often has been called the age of concrete, and after observing some of the work of some of our great legislators we are convinced there is no better way to distinguish it.—Cincinnati Enquirer.

**SUCH IS FAME**

Now if "Dr." Boh Holly, snorting slinger of satire on the Sanford Daily Herald, will emulate his Washington namesake, and deliver a series of lectures on his experiences illustrated by moving pictures, conditions will warm up along with the season.—Reporter-Star.

The board of censors would probably ban the pictures, even if the people stood for the lectures.

**CHAMBER OF COMMERCE MADE A GOOD START**

The Sanford Chamber of Commerce under the able guidance of Secretary Pearman, has started things off in good shape for 1921.

Now, will we keep it going and add to the momentum during the entire year.

The Herald believes we will—believes our people are fully awakened to the importance of taking Sanford ahead to the proper place it belongs.

The time is ripe to do things in Sanford—big things.

Let's all go now.

**SANFORD IS GETTING DESIRABLE PUBLICITY.**

The announcement that the Sanford Chamber of Commerce had sent a committee to Washington to urge Sanford's claims for the location here of one of the proposed government hospitals appeared in all the newspapers of the United States using the Associated Press report, and The City Substantial is receiving a great deal of very desirable advertising as a result. An editorial in the DeLand Daily News of yesterday says:

"A delegation of Sanford boosters is in Washington trying to induce the government to locate one of its five big hospitals for incapacitated soldiers at Sanford. As DeLand is making no effort to secure the location of this hospital—here's hoping that the Celery City will get what it goes after."

**WHO KEEPS THE PEDDLERS?**

Sanford and vicinity are now getting the usual annual tide of peddlers, who are making a house-to-house canvass with every kind of an article of merchandise from a patent toothpick to the most important articles of daily necessity. The talk put out by this class of people is always the same. They try to make their product seem the finest on the market and often intend to make themselves so insistent and disagreeable that the housewife will buy because of actual fear or in order to get rid of them and go on with the work.

There are merchants in Sanford handling reliable merchandise of all kinds that are needed in the home. These merchants are at all times courteous to their trade and stand behind their goods with guarantees of satisfaction, upon which their future business depends. When you buy goods from a peddler ninety-nine times out of a hundred it is second-grade stuff of which you never heard, and when it fails to give the fifty-seven different kinds of satisfaction for which you have a supposedly iron-clad guarantee you suddenly discover that the person who sold it to you is out of the country and you have absolutely no come-back.

Stick to your home dealer who sells a standard product and stands behind it. When a peddler comes to your door find out his business before he enters and if he is trying to sell you something for nothing shut the door on him and you will be dollars and time ahead.

**SUMMER TIME NEED NOT BE SORRY TIME**

The Walt Mason of the Florida press, Sir Walter Thorndyke, of the Kissimmee Valley Gazette gets off the following that is good for the readers of every newspaper in Florida to digest:

"When there used to be too many say when winter tourists went away: 'Well, now, we've not a thing to do but take a pessimistic view of everything, both great and small—and chew the rag until next fall!' But now no reason can be found for loafing constantly around; look at the man who has the pep—who keeps up with a lively step—and you will note he is the one who makes his plans—and sees they are done. He sets out trees—he plants the seeds—his place is always free from weeds; and in his yard is always room to place shrubs with a love bloom. The "sag" is taken from his fence—to brighten up at small expense the whole surroundings of his home, if in a place where cattle roam. And if he has a patch of

ground and wants to save, he hustles 'round to get spade, a rake, a hoe, and every day an hour or so back to the primal work he'll go—and then delight to see things grow. And then, perhaps, he'll "tinker 'round"—and fix up needed things he's found; perhaps he'll spend an hour or more in "trueing up" some saggy door; or fix a window where the screen has rusted out and looks "light mean"; or drive a few nails in the floor so speaking planks will groan no more; replace a board that's rotted through and make the steps as good as new; and, later on, he'll buy a brush, and when he gets his paint he'll rush to spread it with an artist's touch—and all this doesn't cost him much. And if one has a little pluck, is optimistic as to luck, and has a modicum of sense, he can, at very small expense, secure a tract of decent land and raises good stuff to beat the band. This state produces things of worth—in fact, I know no spot on earth more blessed by Nature in the way of growing stuff to make it pay. And here's a point to bear in mind—a better one 'twere hard to find—the more stuff's raised the more you'll see the better market there will be. So let's start in all fresh and new and do the things we ought to do; don't let the summertime seem drear—but get to business with a cheer; move from the rut—smooth down the road—each one decide to bear his load—and each declare, with all his might: "This is s-o-m-e t-o-o-w-n—and she's a-l-l-r-i-g-h-t!"

It has been said that the Lord takes care of fools who can not care for themselves, but if so He has his hands full in shepherding people who have been throwing money to the birds in extravagant forms of living during the past three or four years.

All the 'hicks' do not live in Florida. They gold brick them in New York City much easier than in Florida. A smooth stranger yesterday sold a restaurant man part of the Grand Central Station. He paid part of the sum and went home for the balance. When he came back the smooth stranger had left—probably for Mimini or Cuba.

**NOTICE OF APPLICATION FOR TAX DEED**

Under Section 575, of the General Statutes

Notice is hereby given that Realty Trust Co., purchaser of Tax Certificate No. 1531 dated the 5th day of November, A. D. 1895, has filed said certificate in my office, and has made application for Tax Deed to issue in accordance with law. Said certificate embraces the following described property situated in Seminole county, Florida, to-wit:

S. half of SW quarter of SW quarter of SE quarter, Section 35, Twp. 19 S., Range 30 E., containing 5 acres, the said land being assessed at the date of the issuance of such certificate in the name of Unknown.

Also Tax Certificate No. 2050, dated the 5th day of June, A. D. 1891, has filed said certificate in my office, and has made application for tax deed to issue in accordance with law. Said certificate embraces the following described property situated in Seminole County, Florida, to-wit:

Reg. 30.67 chs. W of NE corner Sec. 2, Twp. 20 S., Rge. 30 E., run S 5 chs. W 10 chs. N 5 chs. E 10 chs. The said land being assessed at the date of the issuance of such certificate in the name of Unknown.

Unless said certificates shall be redeemed according to law tax deed will issue thereon on the 10th day of May, A. D. 1921.

Witness my official signature and seal this the 31st day of March, A. D. 1921.

**The Logical Treatment**

**"ENERGIZER"**

Ask Us. For Many Human Ills Ask Them

**DO-IT-NOW—IT'S CHEAPER**

**A Few Thoughts**

We are Successfully Treating—After All Other Means Have Failed—The Following:

**"ENERGIZER" WHAT IT DOES**

It successfully treats anemia, rheumatism, paralysis, dyspepsia, obesity, neuralgia, constipation, sciatica, writer's cramps, liver diseases, varicose veins, muscular contractions, joint affections, sprains and deformities, faulty circulation or nutrition, spinal congestion, disease of the nervous system, sleeplessness, Bright's disease, diabetes and high blood pressure, even after all other means have failed. References: Any bank or business house in Sanford. Does It Cheaper and Better and DOES IT.

And the ONLY real way of improving Circulation is the "ENERGIZER" process, which furnishes "ACTIVITY" WITHOUT EXHAUSTION or work.

IT IS YOUR OPPORTUNITY. Give YOURSELF some care.

COME IN —NOW— FIND OUT

**L. C. CAMERON**

11 North Orange Avenue

THE ONLY "ENERGIZER" OFFICE IN THE SOUTH

Across from San Juan

**ORLANDO, FLORIDA**

We are advised by the "ENERGIZER" management that this valuable service may still be obtained in Sanford by those who will arrange to take a definite number of Treatments at definite times.

Also where it is not practical to move a patient—such as Paralysis cases—to the "ENERGIZER" office, that a machine may be placed in the home, where the Treatments can be given at stated times, in full co-operation with the Family Physician.

The "ENERGIZER" process is capable of greatly aiding ANY FAIR MEDICAL treatments, and Public Opinion will sooner or later DEMAND that COMMON SENSE and LOGICAL EFFICIENCY should control HUMAN BETTERMENT rather than VIEWPOINT-HABIT or 'PRESTIGE'—(i. e.—Dollars).

And it DOES appear that the "ENERGIZER" IS efficient.

**RATS PASS UP ALL OTHER FOOD FOR ONE MEAL OF RAT-SNAP.**

Their first meal of RAT-SNAP is their last. Kills in a few minutes. Dries up the carcass. Rats killed with RAT-SNAP leave no odor. RAT-SNAP comes in cake form. Break into small pieces, leave where rats travel. No mixing with other food. Cats and dogs won't touch it. Safest, cleanest, surest rat and mouse killer. Three sizes, 35c, 65c, \$1.25. Sold and guaranteed by Ball Hardware Co.—Adv.

In Circuit Court, Seventh Judicial Circuit, Seminole County, Florida.—In Chancery

**FORECLOSURE—NOTICE OF MASTER'S SALE**

**PHOSPHATE MINES OF POLK COUNTY ARE CLOSING DOWN**

Practically Every Mine Has Shut Down or Will Close Within Next Sixty Days.

The Lakeland Morning Star of yesterday says:

Practically every phosphate mine in Polk county has closed down or will be closed within sixty days, according to the best information available at this time. Today the Lakeland phosphate company paid off its help of about 200 men and only a light force of a few men will be maintained to watch the plants and keep pumps working. Phosmico, Brewster, Tighman, Charleston, Jane Jay and Pembroke mines have practically shut down completely, while the big Pierce or A. A. C. mine and the Standard mine at Madulla, owned by a French company, is running only four days per week. Swift and Company mine is still operating with part of its force and Prairie Pebble, one of the largest phosphate mines in the world, is still running, but Manager Martin stated recently that he did not see how they could keep going more than thirty or sixty days at the most.

This means that one of the biggest industries in Polk county is being shut down, the reason being given as that of the lack of demand for phosphate rock at this time and because money cannot be borrowed on the mined material on hand. It is an estimate to state that close to 2,400 men will be thrown out of work by a complete shut down, although every mine will maintain a few men as guards and for the pumps and the pay roll will run something like \$60,000 per month.

**SCENIC HIGHWAY TOO NARROW FOR PRESENT TRAFFIC**

AVON PARK, March 29.—A special meeting of the Associated Boards of Trade of the Scenic Highlands will be held in Lake Wales Tuesday, March 29, at 2 p. m., for the purpose of discussing ways and means to secure the widening of the Scenic Highway from Haines City south from nine to sixteen feet, also to discuss the question of securing repairs to the road from Frostproof south to the DeSoto county line.

The vast amount of travel from Haines City down the Ridge during the winter months has thoroughly demonstrated the necessity of widening this highway and the condition of the road from Frostproof south is so bad as to render travel over it almost impossible.

The Associated Boards of Trade of the Scenic Highlands is one of the most powerful bodies in the state and is composed of all the boards of trade on the Scenic Highlands from Haines City south to Lake Childs. It will put forth a Herculean effort to have the Scenic Highway widened and the road south of Frostproof repaired. From the DeSoto county line south the Highlands Good Roads League will take up the matter of improvement, as well as push a strong movement for the building of a hard-surfaced road to the east coast.

It is expected there will be a large attendance at the meeting in Lake Wales Tuesday.

The organization of the South Atlantic Highway association with the object of a hard-surfaced highway from Wilmington, N. C., to Miami by way of Jacksonville, was announced by A. B. Kessler, secretary of the local chamber of commerce.

**UPSALA AND GRAPEVILLE**

Rev. G. V. Albertson, our Sunday School missionary, is expected to meet with us again next Sunday. Sunday school as usual at 2:30 with the new quarterlies on hand and church service at 3:30.

We are all thankful for the rain on Monday and Wednesday evening.

Little Clair Bertelson was ill again and Dr. Denton was called out. She is better now, we hear.

Mrs. August Swanson has been caring for a sick friend in town for a number of days.

Mrs. Ericson and little Esther, Mrs. Elyba Lee, Lenora and baby Carl, were callers Monday at the homes of Mrs. Krell and Mrs. Ballinger.

Mr. and Mrs. Bargquist of Tiger Bay, came Saturday to spend Easter with their children and friends in Upsala.

Mrs. Westerdick has been ill for a few days. Lillian Glidewell came home with her from meeting on Saturday.

Friends of Mrs. DeForest are glad to hear she is recovering from her recent illness. Carpenters are busy repairing her residence.

Miss Eunice Tyner is still at the worth grove with Mr. and Mrs. Noah Fry.

Recently Mr. and Mrs. Reed and Mr. and Mrs. Krell took a day off and motored over to New Smyrna where they ate lunch, then on to Daytona to call on friends and home by the DeLand route.

There was a pleasant party for the children, given at the home of Arthur Lee Campbell in honor of his fifth birthday; a number of neighbors and their little ones as well as some from town, made a merry time of it.

Mr. and Mrs. Hamerick, of Okechobee and children, spent a couple of days with their sister, Mrs. Charley Arrents as well as her brother, Master Hawk. At present her mother from Monticello, is here helping care for little Walton who has made a brave fight for life, suffering now from an abscess on his liver. Miss Millhime, the trained nurse, is caring for him, but friends and neighbors help.

**OLIVET COMMANDER, NO. 4, KNIGHTS TEMPLAR**

This organization held their annual Easter service at the Baptist Temple at Sanford, Sunday.

The service was a very impressive one and a very enjoyable program was rendered. The program included several musical numbers among which was a song by a mens chorus, a violin solo by Mrs. J. C. Marshall, vocal solo by Mrs. Julius Takach. The Easter sermon was delivered by Sir George Hyman, D. D., who had as his subject "The Miracle Superlative." About sixty members of this order attended from Orlando.—Orlando Sentinel.

**"I NEVER KNEW YOU COULD KEEP RATS OUT OF A BUTCHER SHOP"**

What Ralph Watkins says: "Floured rats around store had enough to feed on; wouldn't touch anything suspicious. Heard about RAT-SNAP, gave it a trial. Results were wonderful. Cleaned all rats out in ten days. Dogs about store night and day never touch RAT-SNAP." Three sizes, 35c, 65c, \$1.25. Sold and guaranteed by Ball Hardware Company.—Adv.

E. A. Mayback, of Bowanville, N. Y., who has been spending the winter here, departed for his northern home today. The Daily Herald will keep him posted regarding Sanford happenings, and he expects to be with us again next winter.

**PERSONAL NOTES**

(From Wednesday's Daily) Mrs. S. Puleston entertains the Duplicate Bridge Club Thursday at her home on Magnolia avenue.

Mrs. Chas. Britt will entertain the Spendthrift Club Friday.

The Nine Seminoles meet this afternoon with Mrs. Reginald Holly.

Mrs. S. Puleston entertained the night club at Palm Springs Monday night with a picnic supper. A good time was enjoyed by all.

A. P. Connelly and Dr. R. A. Stevens left Sunday night for Washington, D. C., in the interest of trying to locate a government hospital here.

Mrs. Hilma Lilja, from Springfield, Mass., and T. E. Lilja from New Haven, Conn., leave tonight after spending the winter here the guests of Mrs. Alfred Lilja.

Mr. and Mrs. H. B. Everson and daughter, Miss Maude, of Flushing, N. Y., are expected to arrive tomorrow and will be the guests of Mrs. Alfred Lilja for a few days.

In a letter received yesterday from LeRoy D. Jones, of El Reno, Okla., he informs his mother, Mrs. H. A. Neul, that he and his wife and baby daughter, will leave for Sanford April 3 for a short visit. Mr. and Mrs. Jones will come by way of Jacksonville, and make the delightful trip down the St. Johns river.

(From Thursday's Daily) Jack Britton, from Americus, Ga., was in Sanford yesterday.

Mr. and Mrs. Roland Dann, of Chuluota, are in the city today.

Mrs. A. A. Moran is visiting Mrs. Will Hand and attending the Chautauqua.

Mrs. Ernest Krupp has returned from Lakeland, called there by the illness of a friend.

Miss Virginia DeCoursey returned to Stetson after spending the Easter holidays with her parents.

Arthur G. Morris, traveling salesman for the Allen Company, of Jacksonville, was here yesterday on business.

Culver Estheredge, of Geneva, is visiting his uncle, Chief Speer, nursing a broken arm, and enjoying the Redpath Chautauqua.

Mrs. D. C. Marlowe had as her dinner guests Saturday her uncle, Adj. Gen. C. P. Lovell and wife, Miss Reid and Major Stevens and his wife.

H. E. Pace is building a new bungalow on West First street. He is having the foundation and chimneys constructed of coquina rock, the first of the kind to be used in this city.

The Daily Herald was today honored by a short visit from Mr. and Mrs. T. E. Fitzgerald and their bright little son Frederick, of the Daytona Morning News; Mrs. Lois K. Mayes, of the Pensacola Journal and Mr. Edward Taylor of the Miami Herald. Mrs. Mayes is the guest of the Fitzgeralds and will attend the meeting of the Florida Press Association at Tampa Saturday. She is vice-president of the association, and has been with the National Editorial association throughout their tour of Florida and was the only lady member to visit Cuba. Mrs. Mayes is an old friend of the entire Herald bunch and we were all mightily pleased to meet this charming lady again.

**BIG EATERS GET KINDEY TROUBLE**

TAKE SALTS AT FIRST SIGN OF BLADDER IRRITATION OR BACKACHE.

The American men and women must guard constantly against kidney trouble, because we eat too much and all our food is rich. Our blood is filled with uric acid which the kidneys strive to filter out. They weaken from overwork, become sluggish; the eliminative tissues clog and the result is kidney trouble, bladder weakness and a general decline in health.

When your kidneys feel like lumps of lead; your back hurts or the urine is cloudy, full of sediment or you are obliged to seek relief two or three times during the night; if you suffer with sick headache or dizzy, nervous spells, acid stomach, or you have rheumatism when the weather is bad, get from your pharmacist about four ounces of Jad Salts; take a table-spoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate clogged kidneys; to neutralize the acids in the urine so it no longer is a source of irritation, thus ending bladder disorders.

Jad Salts is inexpensive; cannot injure, makes a delightful effervescent lithia-water beverage and belongs in every home, because nobody can make a mistake by having a good kidney flushing any time.—Adv.

Mr. and Mrs. C. A. Raulerson were shopping in the city from Geneva yesterday.

Mr. and Mrs. W. T. Berry Jr., will leave Sunday for a visit with home folks in Apopka. Mrs. Berry was a faithful member of the Herald force and she will be missed by the entire bunch.

**GENEVA FLASHES**

Well, everything is on the go the same as it is the other 364 days in the year. So there!

Prayer meeting Wednesday evening at 7:30. The Sunday school gave an Easter program Sunday night. The children sure did fine. About 40 children took part in the program. The church was crowded.

Brother Wright and wife and children of Oviedo, attended the meeting.

Mr. and Mrs. J. M. Littler and two children, of Osteen; Barney F. Griggs and Miss Lillie Littler, of Sanford spent Sunday with Mr. and Mrs. T. W. Prevatt.

Mrs. Roy Tillis and children, of Sanford; Mrs. Pearl Larbur and daughter of Armond are visiting Mr. and Mrs. E. H. Kilbe for a few days.

Mrs. William Kilbe gave an egg hunt for the children Monday evening. After the hunt light refreshments were served. About twenty pupils were there.

Mr. and Mrs. Wakefield were in Orlando Saturday delivering marmalade.

Barney F. Griggs, Miss Lillie Littler, Mr. and Mrs. J. M. Littler, Mrs. J. M. Prevatt, Mr. and Mrs. T. Prevatt and Christine, McClellan enjoyed a trip to Lake Horney the other night.

Mr. and Mrs. Brown and family and Mr. and Mrs. Lovey and family, Mrs. Vick Peters and family went on a

fishing party Saturday at Econlock-hatchee creek and reported catching plenty of fish.

Mr. and Mrs. T. W. Prevatt, Mrs. J. M. Prevatt and Mrs. McClain were seen in Sanford Saturday on business.

T. W. Prevatt killed a few hogs Saturday. Yum, yum!

Mr. Grover Leffles had a fine horse to get drowned Sunday.

"And There Wasn't the Slightest Small from Dead Rats."

Writes John Simpkins, farmer of Annandale, N. J.: "Rats were costing me hundreds yearly; tried dogs, ferrets, poison, could not get rid of them. Bought \$1.25 pkg. of RAT-SNAP (5 cakes). Used half, not a live rat since. Dead ones a plenty. I like RAT-SNAP because after killing rats it dries them up—leaves no smell." Three sizes, 35c, 65c, \$1.25. Sold and guaranteed by Ball Hardware Co.—Adv.

**NEW FERTILIZER FACTORY**

On the fourth day of last October our factory, the largest of its kind in the entire South, was burned to the ground. Luckily the acid chambers, laboratory, machine shop, and other buildings making up our immense plant were saved.

In our various Branch Houses throughout the state and warehouses here in Jacksonville we had stored thousands of tons of our famous IDEAL FERTILIZERS as customary at the beginning of each season. On the very day of the fire a large force of men started to work on a temporary mixing plant which was soon running night and day. Our trade has thus been served throughout these days of trial, with little delay.

We appreciate the sympathy and co-operation given us by our many friends, and are glad to announce that work on the new factory is now well under way. It will be much larger even than the old factory, and equipped with the very latest and best devices.

**WILSON & TOOMER FERTILIZER COMPANY**

## Florida Should Have Conservation Commission

TO PROTECT THE FISH AND GAME

Florida is one of the three states that does not have a fish and game commission, a department of conservation, or some other such department to strictly supervise the fish and game laws, and Florida suffers in consequence. Florida should have a department of conservation. There is a movement on foot now for such a department.

The attached correspondence between John C. McRae of Milton and John H. Wallace, commissioner of conservation of Alabama, is of unusual interest to residents of Florida at this time.

Milton, Fla., March 3, 1921.  
Hon. John H. Wallace, Jr.,  
Montgomery, Alabama.

Dear Sir:—  
As a citizen and as a member of the 1921 Florida legislature, in an interest in the enactment of a law for the conservation of our game and fish, can you furnish me with a copy of the Alabama fish law, and suggest any changes in same which, in your opinion, would improve or strengthen or improve the law?

Thanking you for a prompt reply, I am,  
Very truly yours,  
John C. McRae.

Montgomery, Ala., March 4, 1921.  
Mr. John C. McRae,  
Milton, Fla.

Dear Mr. McRae:—  
In response to your favor, permit me to advise you that, under separate cover, today, I am sending you a copy of the conservation statutes of Alabama, also some other literature bearing upon the conservation of birds, game and fish.

On many occasions in the past I have had the honor of addressing the legislature of Florida upon the vital question of conservation. Several years ago the legislature of Florida enacted a comprehensive statute for the preservation of birds, game and fish, which was subsequently repealed. I have the honor to suggest, in order to really and effectively conserve the flora and fauna of Florida, that the next legislature enact a statute, as follows:

First: Create a department of conservation and group thereunder all of the various conservation activities of the state, such department to be administered by a commissioner of conservation.

Second: The establishment of the following divisions under such department: (a) division of birds and game and inland fisheries; (b) division of coastal and shell fisheries; (c) division of forests and mineral resources.

Third: Require every resident who hunts on lands other than he owns or rents, but hunts in the county of his residence, to take out a county hunter's license and pay therefor the sum of \$1.00; require every resident who hunts on lands other than he owns or rents and who hunts outside the county of his residence to take out a state hunter's license and pay therefor the sum of \$5.00; require every person who traps for fur-bearing animals on lands other than he owns or rents to take out a trapper's license and pay therefor the sum of \$10.00; require every non-resident of the state, who hunts in the state of Florida, to take out a non-resident hunter's license and pay therefor the sum of \$15.00; require all non-residents who fish in the state of Florida to take out a non-resident fishing license and pay therefor the sum of \$2.50. The proceeds of the sale of such licenses to be covered into the conservation fund, to be used in defraying the expenses incident to administering and enforcing the conservation laws of the State of Florida.

Fourth: The commissioner of conservation should be required to appoint game and forest protectors, (the term game warden is harsh and is becoming obsolete) to enforce the provisions of the conservation statutes. There should be a short open season on all resident birds and game, and the season on migratory game birds should be made to conform with the federal regulations on such birds. Many of the most valuable birds of Florida are already extinct and others are scheduled to a destiny of early extermination. Local conservation laws are absolute failures; they have never and never will be enforced. There is now in the game and fish protection fund of the state of Alabama over a hundred thousand dollars, placed there under the operation of the conservation laws of this state, which is a net profit to the taxpayers of this state. In the meantime we have secured hundreds of thousands of convictions for violations of such statutes, and each year the infractions are becoming less numerous. A day is set aside, each year, for

the study of birds, their economic value and their relation to the happiness and prosperity of man. Assuredly, the best means of conservation is by and through education. You cannot secure such education without a department of conservation. Only the states of Florida, Mississippi and North Carolina are without departments of conservation, or other similar commission, or department, to enforce their conservation statutes.

The state of Florida has a magnificent opportunity to profit by all the mistakes that have been made in the past, and in reality to enact a model and modern conservation law, and I believe she will at the next session of her legislature.

Annually, thousands of visitors from other states journey to Florida, most of whom are attracted there by the presence of birds, game and fish; when these resources have vanished, the state of Florida will no longer hold for them the enchantment which now allures them, and thus it is that the millions of dollars which are now being expended each year by non-residents during their sojourn in Florida will go into the channels of trade in other lands whose natural resources have not been vandalized to the point of extinction.

I most heartily congratulate you upon the very splendid stand you have taken in the matter of saving, by an act of the Florida legislature, the people's birthright, their natural resources which in reality are the treasure chest of the state of Florida.

If I can be of any further service I shall be happy to have you command me.

Very truly,  
John H. Wallace, Jr.,  
Commissioner, Department of Conservation, State of Alabama.

## FIRST CARLOAD OF POTATOES IS SHIPPED NORTH

PALATKA, March 28.—The first car load of potatoes out of the Hastings-Palatka section was loaded and sold Saturday afternoon by C. W. Gray, of Federal Point, and shipped north. The price was \$7.50 to \$9.00, according to grade, which is considered satisfactory by the growers and indicates that the market will be good for the next few weeks, at least.

Several other cars are being loaded today and it is expected that they will be shipped tonight. The quality in all of the stock dug so far is said to be of the finest, and those who were beginning to worry over the drought have taken fresh heart since the fine showers of Thursday.

The marketing bureau will be opened at Hastings, on April 4 for reports of prices and conditions, which will be a great help to the growers. Labor, thus far, seems to be plentiful and farmers are not apprehensive about getting as much as they need.

## Divorcees in Florida One to Every Eight Ranks Twenty-fifth

WASHINGTON, March 29.—Florida ranks twenty-fifth among the states in number of divorcees in proportion to marriages, the International Reform Bureau announced yesterday. One divorce to every eight marriages is the state's record.

Before hiring a bank clerk it might be a good idea to ask his opinion of Judge Landis.

When one has to deal with a haughty clerk, he reflects that a little deflation of the ego wouldn't come amiss.

## "Pain's enemy," -I'll say it is!

WHEN you want quick, comforting relief from any "internal" pain, use Sloan's Liniment. It does the job without staining, rubbing, bandaging. Use freely for rheumatism, neuralgia, aches and pains, sprains and strains, backache, sore muscles.

## HOMELESS FLORIDA CHILDREN PLEAD FOR GOOD HOMES

CHILDREN'S HOME SOCIETY UNABLE TO FIND GOOD HOMES FOR OLDER BOYS AND GIRLS

A serious situation has developed in Florida concerning the homeless and orphan children of the state, under the care of the Children's Home Society of Florida, for it seems impossible to secure enough good family homes to provide for these little homeless youngsters, especially those from five years up to fourteen years, both boys and girls.

The demand for babies still exceeds the supply all the time, therefore the Home Society has no difficulty in securing plenty of good homes for wee babes. Children from babies up to five years of age—are also in constant demand, but children above five years of age—somehow do not seem to be wanted at all.

As a result the receiving home of the children's home society in Jacksonville—is overcrowded with children from six to thirteen years of age, there being many more boys than girls.

Many of these boys and girls are exceedingly attractive—and will make the finest kind of young men and women as they grow up, if they can only find good homes where they will have a reasonable opportunity for education and training.

The Children's Home Society must find good homes at once for these children, for the Receiving Home has a very limited capacity—and other children are constantly coming in from all parts of the state needing the care of the Society, and there will be no room for them unless those at present in the Home can be placed out.

There surely must be childless homes in this county—that could make a place for one or more of these homeless children and just now is the time to make your application for a fine boy or girl—or a pair of them. All applications should be sent directly to Marcus C. Fagg, State Superintendent, 328 St. James Bldg., Jacksonville, Fla., who will gladly provide just the right youngster for your home. Think it over and do it today before you overlook it. There is no greater service that you can ever render.

## Recommendations for Waterway Projects in Florida Announced

WASHINGTON, March 29.—In addition to his recent recommendation that \$100,000 of \$15,000,000 recently appropriated for river and harbor work be expended on the St. Johns river from Jacksonville to the ocean and that \$100,000 be spent upon Hillsborough Bay, Maj. Gen. Lansing H. Beach yesterday recommended other allotments for projects in Florida.

The recommendations made yesterday include \$1,000 for the St. Johns river from Jacksonville to Palatka and \$15,000 for the St. Johns river from Palatka to Lake Harney.

Other Florida projects are: Apalachicola Bay, \$10,000; Upper Chipola river, from Marianna to its mouth, \$5,000; Holman river, \$1,000; Channel from Apalachicola river to St. Andrews Bay, \$2,500; Choctawhatchee river, Florida and Alabama, \$6,100; Escambia and Cenech rivers, Florida and Alabama, \$2,000; Pensacola harbor, \$67,000.

## MRS. RICHARD PATTIN.

(From Tuesday's Daily)  
Mrs. Richard Pattin passed away at her home, 137 Ocean avenue, Daytona Beach, Monday, March 28, after an illness of one week.

Funeral services will be held Tuesday, March 29, at 2 P. M. at the Presbyterian church of Sanford, Florida, of which she was a member.

Mrs. Pattin was born in Marietta, Ohio; spent part of her life in that city and lived for fifteen years in Cuba, then came to Florida, where she passed the last years of her life. She is survived by three children: H. W. Pattin of Calgary, Alberta, T. B. J. Pattin of Havana, Cuba, Mrs. Mary Pattin Ware of New York City, a grandson, Richard P. Ware of New York City and three grandchildren. Her niece, Miss L. D. Pattin, of Marietta, Ohio, was visiting her at the time of her death.

Her husband, Richard Pattin, died at Sanford, Florida, three years ago. Mr. and Mrs. Pattin celebrated their golden wedding anniversary at their daughter's home in Clifton, Mass., in 1912.

The erection of a new packing plant at White City is now assured, the report that \$12,000 had been subscribed having been made at a recent meeting held by those interested.

MRS. J. M. CRAIG, of Los Angeles, Calif., who says no one can feel more grateful for what Tanlac has done than she does. Has gained twelve pounds and health is better than in years.

"Of all the people who have taken Tanlac I don't believe there is anyone who feels more grateful to it than I do," said Mrs. J. M. Craig, of 674 1-2 E. 40th Street, Los Angeles, Calif.

"I suffered from nervous prostration and was so weak that I could not even sweep the floor and during the day I would have to lie down three or four times. I tried to walk, but found out that half a block was all I could stand before I would give out. Nervous spells came on me often. Finally my husband urged me to try Tanlac and I am indeed glad he did, for it proved to be just what I needed.

"The first two bottles did not seem to help me. I guess it was because I was so bad off, but on the third bottle I could tell I was improving and that gave me more hope than ever of getting well. My improvement from then on was rapid and by the time I had taken five bottles I was better and stronger than I had been in years.

"It enables me to sleep soundly at night and I have gained twelve pounds. That was several months ago and from then until now I have been in as good health as I ever was in my life. I have told all of my friends and relatives what a wonderful medicine Tanlac is."

Tanlac is sold in Sanford by the Union Pharmacy.—Adv.

## More than just materials

When you let us supply your building needs you get a great deal more than just so many feet of lumber—bundles of shingles—pounds of nails—or panels of Beaver Board.

You get the benefit of our building material knowledge and experience in Service that helps you get the results you want at the right price. Service first in planning the work—more service in selecting proper materials—speedy service in delivering the goods.

You pay for the materials. The service pays for itself in the larger volume of business it brings through super-satisfied customers.

It will pay you to be one of them.
