80th Year, No. 220 — Sanford, Florida

## At A Glance

### FHP checkpoints set for next week

SANFORD — The Florida Highway Patrol will be conducting vehicle inspection and driver license checkpoints from Friday through next Thursday on U.S. 17 between Orange Boulevard, Sanford Avenue, County Home Road and Old Lake Mary Road.

The FHP has found these checkpoints to be an effective means of enforcing the equipment and driver license laws.

### Sentenced for robbing bank

SANFORD — The man who tried to rob the First Union Bank at First Street and Park Avenue in May of 1987 was sentenced to six months in jail by Seminole Circuit Judge Robert McCreary.

Raymond Edward Thornton, 68, had just arrived in Sanford by bus about a week before the robbery and put the idea of robbing the bank while sitting in a bar across the street. They walked into the bank and handed the teller a non-demanding ransom. Police were alerted by a silent alarm and arrested him as he walked out of the bank with about \$200.

Thornton pleaded guilty to armed robbery in March. Judge McCreary ordered him to serve 10 years on probation after his release from jail. Alcoholics Anonymous meetings three times a week and not to get within a block of the bank or the bar were conditions for committing the robbery.

### Blakley sentenced to electric chair

SANFORD — Seminole Circuit Judge O.H. Eaton Jr. sentenced Robert Blakley to death Thursday afternoon for the April 29, 1985, beating to death of a young girl. Blakley, 41, was sentenced to life in prison for the murder.

Eaton wrote: "Selection of a three-pound sledge hammer as a murder weapon reinforces the conclusion that this murder was especially heinous and heinous in fact."

Eaton further stated the murder was cold and calculated because Blakley, 41, deliberately walked to the garage of the home at 301 Wekiwa Ave. in Longwood and returned to kill his wife, leaving his three children asleep in another room and his wife would be helpless to defend herself.

A jury found Blakley guilty of the murder on Oct. 21, 1987, and on Oct. 22, 1987, recommended the death penalty unanimously.

## Commission wants 'power launching' banned

By Wayne Mize  
Herald Staff Writer

SANFORD — Power boats that use the city's marina and boat launching ramp need not fear exclusion from using the facilities in a proposed ordinance now before the City Commission, according to Commissioner John Y. Merritt.

An ordinance proposal discussed by the commission at its Monday workshop deals mainly with charging non-residents an annual fee for a launch fee and the controlling of existing parking at the marina and municipal parking lot.

However, mention was made at the workshop meeting by commissioners of eliminating power launching.

Actually, power launching is a misnomer because it doesn't refer to launching boats from the ramp, but loading them onto trailers by gunning the engine and running the boat on to the trailer for hook up.

Boats are usually loaded onto trailers by a hook and crank system that is part of the trailer.

The discussion by Commissioners of eliminating power launching was made in reference to the actual loading of boats and did not mean that power boats would be excluded from using the facility, said Merritt.

No sail boats or power boats can use the marina, said Merritt. "All we want to do is stop people from using power to load their boats."

Merritt explained that the use of engine power to load a boat weakens the ramp structure as

the water turbulence eventually removes the sand from under the ramp and causes the concrete to break away.

According to City Manager Frank A. Eason, the \$80,000 taxpayers spent several years ago to repair the launch ramp was in part due to power launching.

Also, a suit brought against the Star of Sanford, a single hull passenger boat that was using the marina at the time to help recoup some of the money was

unsuccessful, according to Eason.

The Romance, a passenger boat with twin hulls, now using the marina, does not concern Eason as did the Star of Sanford.

The Star was single hull, a steel hull, a very heavy boat with powerful engines, explained Eason. The Romance is light weight with twin hulls and sits high in the water with no deep draft as did the Star. It has a much better design. It doesn't

### High above Sanford

It's a tall order but the water tower on Mellonville Avenue is getting a real going over. Workers are sandblasting the structure inside and out to rid the tank and

lower of old paint and rust before putting on a fresh, new coat. The project is under the direction of the city utility department.

## Seminole judges receive high marks from lawyers

SANFORD — Seminole County judges received high marks from attorneys in a survey conducted by the Florida Judicial Council. The survey ranked the judges among the top 100 in the state.

The survey was conducted by the Florida Judicial Council, a non-profit organization that promotes the judiciary. The survey ranked the judges based on their performance in the courtroom.

Among the judges surveyed in the last 12 months of their service by all Seminole County's 11 judges.

While the 11 judges graded better than average overall, Circuit Judges O.H. Eaton Jr. and T. Vernon Mize Jr. got the top overall scores. Circuit Judge

St. Joseph Davis Jr. received the lowest overall grade but was still above average.

The grading system was a plus minus system with the highest mark being a plus 2 for outstanding. A plus 1 was above average, a zero was average and minus 1 below average and minus 2 extremely poor.

See JUDGES, page 6A

### P&Z makes recommendations

## Liquor sales requests OK'd

SANFORD — The Planning and Zoning Commission has approved three requests for property to be used for the sale of alcoholic beverages in the city.

The P&Z commission's approval must now be approved by the public hearing by the city commission.

The commissioners also approved one rezoning request, denied another and tabled two other items during Thursday night session.

P&Z commissioners approved a conditional use request for a proposed package store/restaurant establishment in Seminole Plaza on Orlando Drive.

Stephen E. Sullivan, current owner of the liquor center on Airport Road, said he plans to move the business to

Seminole Plaza and hopes to add the on-premise sale of all alcoholic beverages, which will require a Class 4 license.

Currently, the city has only one Class 4 license available and will not have another until 1990 when a general census is taken. Class 4 licenses are awarded on a per capita basis.

The P&Z also approved recommendation of a Special Class 3 license, which involves the sale of all alcoholic beverages with food for Memory Lane, 2963 Orlando Drive. Memory Lane, featuring music from the 50s and 60s, currently sells only beer and wine with a limited menu.

Special Class 3 licenses have no limit restrictions and can be awarded at will by the City Commission.

Commissioners also approved

a request for a restaurant to sell beer and wine with food on premises at Carlo's Italian Restaurant, 1008 French Ave., an old new management.

Other action taken by the P&Z:

- Approved rezoning for commercial use property owned by the Seminole County School Board located south of Seminole Centre and east of Gregory Mobile Homes. The school board plans to sell the property.
- Approved rezoning for commercial use property on Lake Mary Boulevard across from Bayhead Ranch Club.
- Denied a request for use of property for the sale of all alcoholic beverages at 2061 Airport Blvd.
- Approved a site plan for a wholesale distribution center at 901 Collier Way.

—Wayne Mize

## Sanford agrees with St. Johns protection plan

By J. Mark Bartfield  
Herald Staff Writer

SANFORD — Sanford city officials support a state proposal to protect several tributaries of the Wekiwa River and portions of the St. Johns River as long as they can continue discharging treated wastewater into the St. Johns.

A state public hearing in Seminole County on a college campus near Sanford Mayor Bruce Smith said City Engineer P.E. Merritt supported state plans to increase the level of protection of Wekiwa River tributaries and the St. Johns River by including them in the state's water quality program.

As part of the program, 100 of Wekiwa River tributaries will be included in a water quality program, Merritt said.

Seminole will spend \$1 million to clean up the river, Merritt said. The state will spend \$1 million to clean up the river, Merritt said. The state will spend \$1 million to clean up the river, Merritt said.

He was one of several speakers

### Proposal

**What:** A state hearing on a plan to protect several tributaries of the Wekiwa River and portions of the St. Johns River.

**Sanford view:** City officials support the plan if the city can dump treated wastewater into the St. Johns when it cannot be used for irrigation during wet weather.

**DEER reaction:** The Sanford plan would evidently not pollute the St. Johns, but tests to be completed in six months will make a final determination.

Sanford will spend \$1 million to clean up the river, Merritt said. The state will spend \$1 million to clean up the river, Merritt said.

Sanford will spend \$1 million to clean up the river, Merritt said. The state will spend \$1 million to clean up the river, Merritt said.

See PLAN, page 6A

## Sprague family to identify found body

SANFORD — Sprague family members will work to identify the body found Saturday in the Gulf of Mexico.

The body, tentatively identified as Robert Sprague, was found Saturday in the Gulf of Mexico. The body was found in the Gulf of Mexico.

Sprague, Tampa, and his brother Robert of Sanford, along with two other passengers were lost at sea Saturday when their 23-foot fishing boat capsized in rough waters.

The Pinellas County Medical Examiner's Office said today that the exact cause of death of the recovered body has not been determined. However, an official said it is believed to be either exposure or drowning.

An appendage death certificate will be issued until additional test results pinpoint the exact cause of death.

Currently, the body is listed as

John Doe until positive identification is made.

However, David J. Barrett, Pinellas County Sheriff, said Thursday that based on the description given by the family, the body is certain the body is their son, Robert, who Barbara, 57, Winter Park, also tentatively identified the body after the telephone call.

Barbara said that David would be returning to Sanford and buried in Oak Lawn cemetery.

She said David worked as a cabinet maker in Tampa and had been separated from his wife Barbara.

The search for the three remaining survivors, boat owner Robert, 50, 1001 W. W. Drive, Frank Clement, 41, and a female, known only as Angel, was called off by the Coast Guard Wednesday night.

The fishing party left the Seminole Marina at Clearwater Friday morning and was to have

## IN BRIEF

### Rest stop crusader in blue van returns to scene of the crime

LONGWOOD — When Seminole County sheriff's investigator Bob O'Connor stopped at the eastbound rest area off Interstate 4 at Longwood, he experienced a feeling of deja vu when a man offered him a deal on what he claimed was a diamond and gold ring.

About six months ago, O'Connor had arrested a man at the same rest stop who made him a similar offer. The man arrested in that case was a companion of the man offering to sell the ring to O'Connor in the latest incident.

The suspect dropped his price from \$75 to \$20 when the investigator told him he didn't have the original price.

O'Connor agreed to the transaction at the lower rate and asked the suspect to step over to his blue van. Upon doing so, O'Connor ordered the suspect to put his hands on the van and arrested him for soliciting.

The ring seller reportedly said, "Oh, no. You're the man in the blue van." He allegedly said his companion, the one who had been arrested by the same officer under similar circumstances, had warned him to stay away from the man in the blue van.

The suspect, Kent Laverne Jackson, 22, of DeLand, is being held in lieu of \$100 bond. His companion was not arrested.

Soliciting is prohibited in the rest area.

### Man arrested after struggle

WINTER SPRINGS — A Winter Springs man who allegedly resisted a police effort to take custody of a 17-year-old Ormond Beach runaway, today faces charges of resisting arrest with violence, disorderly intoxication and contributing to the delinquency of a minor.

Thad Duane Stockmeyer, 18, of Ormond Beach, was arrested at 12:35 a.m. today, at 183 Garden Drive, Winter Springs, by city police.

Officers said when they arrived at that address to pick up the girl, who had been reported missing, they were confronted outside by the suspect.

According to reports, Stockmeyer became angry and began yelling at the officers but agreed to allow the girl to leave after she appeared to have calmed him down.

The couple entered the house, reportedly to allow the girl to get her shoes, but police intervened when it became apparent that the suspect intended to lock the door to the residence.

Officers struggled briefly with the man before handcuffing him and taking him into custody.

Stockmeyer is being held in lieu of \$5,000 bond. The girl was returned home.

### Sexual battery charges filed

SANFORD — A 47-year-old Altamonte Springs man is being held without bond after being accused of sexually battering a 13-year-old girl.

Paul Wayne Hackett, of 1280 Cardinal Court, was arrested Thursday afternoon after the girl told Seminole County sheriff's deputies the man began assaults on her when she was nine years old.

She recently reported her allegations to Health and Rehabilitative Services workers, who in turn alerted sheriff's investigators.

Hackett has been charged with sexual battery and lewd and lascivious assault.

### Phone assault leads to charges

CASSELLBERRY — Casselberry police arrived at 1001 Espande Way #37-E, at about 1 a.m. Friday and reported seeing an irate woman carrying a telephone.

Police said she allegedly hit William Turkington, 38, of that address on the chest with the phone before police pulled her away.

Turkington reportedly told police the woman had attacked him earlier with her hands, a wine glass and a typewriter.

Angela Denise Hutchins, 26, of the same address, was charged with battery and disorderly conduct. She has been released on \$500 bond to appear in court May 17.

### Roommate reports cocaine

ALTAMONTE SPRINGS — Police say Christopher Scott Wayt, 21, of 331 S. North Lake Blvd., was arrested at his home at 12:50 a.m. Friday and is being held in lieu of \$5,000 bond after the man's roommate became angry over a bottle of cocaine the suspect allegedly had in his possession.

Police said Lori Baker, the man's roommate, was reportedly pushed against a wall and hit in the face after she discovered the cocaine.

She called police and gave them permission to search for the bottle, which police reported finding under a bed.

### Driving under influence arrests

SANFORD — The following persons face a charge of driving under the influence in Seminole County:

—William Stvak, 40, of 2611 Hiawatha Ave., Sanford, was arrested at 10:11 p.m. Wednesday after he was seen driving erratically on 25th Street at U.S. Highway 17-92, Sanford. He was also charged with driving with a suspended license and as a habitual traffic law violator.

—Robert S. Sealts, 34, of 500 Airport Blvd. # 1513, Sanford, at 12:25 a.m. Thursday after his speeding car was seen weaving on U.S. Highway 17-92, Sanford.

—Eric Rolland Latrell, 23, of 767 Wymore Road #2, Altamonte Springs, at 1:55 a.m. after his car fishtailed when he drove from a parking lot onto Douglas Avenue, Altamonte Springs.

—Kenneth James Klester, 29, of Orlando, was arrested at 7:10 a.m. Wednesday after his car was in an accident on Chapman Road, near Oviedo.

# Man arrested after dispute

LONGWOOD — What was originally thought by Longwood Police to be a hostage situation turned out to be a dispute between two ex-spouses over their 17-year-old daughter.

A Longwood man was taken into custody by city police after allegedly brandishing a gun when his ex-wife, who lives next door, demanded their daughter, who was visiting his house, leave the residence.

Police say Charles Edwin Harper, of 1163 Hunt Road, was arrested outside his home at about 10:15 a.m. Thursday and

charged with aggravated battery.

Melda Dee Monk, of 1183 Hunt Road, summoned police after Harper met her at the door of his home with an army rifle when the woman came by to ask her daughter to come home.

Acting Longwood Police Chief Terry Baker said Harper was armed with a .30-caliber M-1 U.S. Army-issued military rifle. Harper had the gun loaded and ready to fire when he escorted Monk from his property, according to police reports.

When officers arrived, Harper surrendered without incident.

"Basically it was an ex-domestic argument and not a hostage situation," said Officer Steve Falk. "HRS (Department of Health and Rehabilitative Services) is looking into the case."

Falk said the daughter apparently goes back and forth between the two houses and reportedly did not want to stay in the house with her mother's boyfriend.

Bond for Harper, who was booked into the Seminole County jail, was set at \$1,000.

—Susan Loden and Jane Casselberry

# Illegally dumped chemicals to be removed today

By J. Mark Barfield  
Herald Staff Writer

LAKE MARY — A state contractor is expected to remove today the chemicals illegally dumped at the "Mud Flats."

State officials found that the chemicals pose no threat to human health nor to the environment, city officials said.

Assistant Fire Chief Steve Chapman said investigators from the Florida Department of Environmental Regulation Emergency Response Team found several chemicals and acids of the type used in photography processing at the site, but apparently none of the containers had spilled their contents and all can be removed safely.

"The amounts they found were such small quantities that even if some of them had spilled, they wouldn't have endangered the environment or public health," Chapman said.

A passerby found several piles of containers with chemicals at the marshland area southeast of Country Club Road and Rantoula Lane known locally as the "Mud Flats" Tuesday, Chapman said. He said five piles of the containers were scattered over a one- to two-acre area. The containers ranged from one quart to one gallon in size.

More than 20 chemicals were identified in the piles, Chapman said.

# Police identify man killed in accident

ALTAMONTE SPRINGS — The Florida Highway Patrol has identified Daniel Alan Bloch as the man killed in a head-on collision Wednesday night on State Road 427.

Bloch, 24, of 425 Wymore Rd., Altamonte Springs, was driving

his 1984 Datsun pickup south on SR 427 at 7:05 p.m. when he tried to pass a slow-moving vehicle by swerving into the north-bound lane, said FHP Lt. Art Brown. He was struck in the front and left side by a 1979 Ford pickup, driven by Dean

Smith of Winter Springs, Brown said. No charges will be filed, Brown said.

The death brings the number of Seminole County traffic fatalities this year to 11, compared to seven this time last year.

# Second suspect charged in March robbery

SANFORD — A second suspect is in custody today in connection with the March robbery and beating of a Sanford boy.

Seminole County sheriff's deputies arrested Reginald Killingsworth, 19, of 1837 McCarthy Road, Sanford, at his home at 9:20 a.m. Thursday. He faces the same charges of armed robbery and use of a firearm in a felony as co-defendant, Gregory Tillman, 18, of 3037 W. 23rd St., Sanford, who was arrested in the case by Seminole County sheriff's deputies on April 4.

Tillman allegedly escaped from deputies at the time of his arrest. He was quickly re-captured and has been charged with additional counts related to the escape. Both suspects remain jailed without bond.

They are accused of confronting, attacking with a club and robbing Thomas Peters, 17, of 4120 Tangelo Drive, as Peters waited for two friends to return to help him free a vehicle stuck in the mud at then end of Tangelo Drive in Sanford.

Firearms and other items were

taken in the robbery. Peters told deputies he was beaten with a four-foot long stick and was told he would be killed if he didn't remain still as the robbers fled.

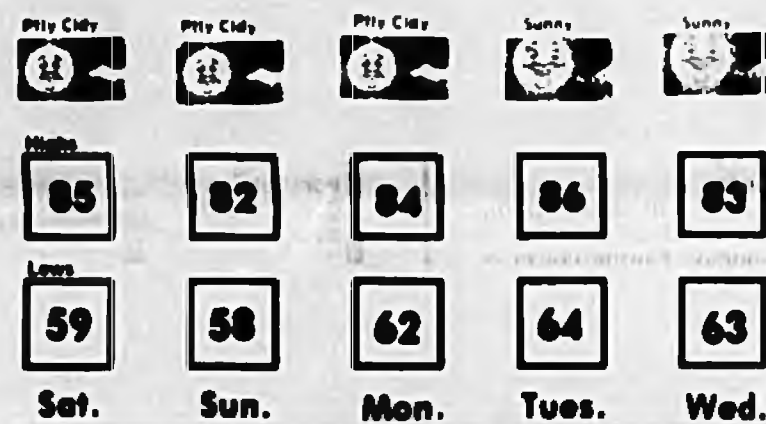

Tillman was reportedly identified by one of Peter's companions, who spoke to him as he passed Tillman and a companion, as Peter's friends were going for help. Tillman was reportedly identified in a photo lineup by the victim and witnesses.

—Susan Loden

# WEATHER

## Five-Day Forecast

For Central Florida

# Rain only falls when forecast

By Fred H. Cooper  
Herald Staff Writer

In the never ending search for truth and information for all avid readers of the compendium of weather lore, the whys of our no rain condition in Seminole County has been sought. The answer has been found, and in the most logical place: The National Weather Service.

"It doesn't rain unless we forecast it to rain," said the reigning denizen of the meteorological laboratory controlling our county. "If, and when, you see rain, then you'll know that we forecast it. Otherwise, No rain!"

Forecasts for the next three days have been perused, but to no avail as air as finding any prognostications relative to moisture from the sky. Temperatures may go as high as 88 or 89 degrees in Altamonte and 86 degrees in Sanford. Lows will be in the low to mid-60s, probably. Clear skies and all that stuff. Just perfect weather for the great out-of-doors.

Thinking of the great outdoors, many within our county have shown concern for the environment and have issued warnings about ecological problems facing Seminole in water pollution possibilities and harmful affects on various creatures such as birds, animals and humanoids. Jokes have been made that if we don't shape up our act, the animals may retaliate. Guess what, they have. At least one bird.

The northern spotted owl has sued the federal government in an attempt to get on the endangered species list, an omission environmentalists blame on political pressure from the timber industry.

The owl and a coalition of

environmental groups filed suit in U.S. District Court against the U.S. Fish and Wildlife Service in an attempt to get the birds placed on the federal endangered species list.

The lead plaintiff is the northern spotted owl.

The warning is obvious. The suit was filed out in Oregon, but the heron may be next to sue.

Enjoy your fun outdoors during these beautiful days but if you decide to foul the natural habitats, make sure your liability insurance is paid up and be prepared to fight foul.

The NWS is obviously forecasting precipitation up north and out west.

Snow scattered over southwest Nevada this morning as gusty winds continued to whip across the Southwest and rain drenched the East.

Wind advisories remain over southeast California and high wind watches for have been posted for much of New Mexico as well as the eastern foothills of Colorado, according to the National Weather Service.

Rain reached from Ohio across southern New York, southern New England, Pennsylvania and the Virginias, and widely scattered thunderstorms were reported in western Texas, the weather service said.

The mercury is expected to shoot up into the 90s in west central Texas and the Texas Rio Grande valley.

(Reports by United Press International and data provided by the National Weather Service were used in compiling this report.)

# COMING EVENTS

## Professional Saleswomen schedule installation dinner

The National Association for Professional Saleswomen, Orlando chapter, will install officers Tuesday, May 10 at 6 p.m. at the Ramada Inn, 151 N. Douglas Ave., Altamonte Springs. Dave Dukehart, vice president with Prudential and national vice-president of the board of NAPS, will be guest speaker at the dinner. The national NAPS president is scheduled to attend from California. Reservations required by May 6. Call 345-045.

## Parenting class offered

An Effective Parenting course will be presented by Verdel Pugh, MA, on Tuesdays, May 10 through June 14, 7-9 p.m. at Peaceful Zion Baptist Church. The free 12-hour course is sponsored by Seminole Community College, Parent Resource Center, Inc., and the state Department of Health and Rehabilitative Services. It is intended to meet the needs of parents with children of any age. To pre-register, call ext. 575 or 553 at 323-1450 or 843-7001.

## SOS has program on exercise

SOS (Support Obesity Surgery) Seminole Chapter will be held Tuesday, May 10, 7-9 p.m. in Classroom 103 of the Physician's Plaza Building, 521 W. State Road 434, Longwood. Health-O-Cise will present a program on the benefits of low-impact aerobics and a short exercise program. There will also be a panel discussion featuring several patients. The support group is designed for the person who has had bariatric surgery, their families and friends. Call 332-6500.

## AA schedules meetings

- Sanford Alcoholics Anonymous meets Friday at noon and 5:30 p.m. for open discussion and 8 p.m. for step meeting at 1201 W. First St.
- Alanon meets at 8 p.m., Fourth St. and Oak Ave., Sanford.
- 24-Hour AA Group meets for open discussion, 8 p.m., Fourth Street and Oak Avenue, Sanford.

## Voter registration offered

Voter registration will be sponsored by the Seminole County Republican Executive Committee on Saturday, May 7, 14 and 21 from 10 a.m. to 3 p.m. at 245 W. State Road 436, Suite 1077, Altamonte Springs. Mid-Florida Homebuilders Association Auxiliary will sponsor voter sign-ups on Monday, May 9, from 9-9:30 a.m. at Maronda Homes, 377 Maitland Ave., Suite 114, Altamonte Springs, and Wednesday, May 11, 10 to noon, at Hooker, Barnes Homes, 2180 W. State Road 434, Suite 1150, Longwood.

## AA meetings scheduled

- Alcoholics Anonymous groups meeting on Saturday include:
  - Sanford Women's AA, 1201 W. First St., 2 p.m., closed meeting.
  - Sanford AA, 1201 W. First St., noon and 8 p.m., open discussion; 8 p.m., upstairs, 90 & 90 Beginners.
  - Casselberry AA Step, 8 p.m., Ascension Lutheran Church, Ascension Drive (off Overbrook Drive), Casselberry.
  - 24-Hour AA Group (open), 5:30 p.m., Fourth Street at Oak Avenue, Sanford.
- Sunday meetings**
  - Sanford AA, 1201 W. First St., 10 a.m. and 8 p.m., Sunday. Open discussion.
  - Sanford Big Book AA, 7 p.m., Sunday, Florida Power & Light, N. Myrtle Ave.

## Teens give peer support

Families Together Teen Support Group meets from 11 a.m. to 1 p.m. every Saturday at Suite 206 Sweetwater Square, 900 Fox Valley Drive, (off Wekiva Road) Longwood. Call 774-3844 for further information.

# Cuban art controversy leads to resignations

MIAMI (UPI) — Seventeen of the 54 directors of the Cuban Museum of Arts and Culture have resigned along with five top owners in a bitter and sometimes violent controversy over whether to hold shows for Castro sympathizers.

The resignations came Wednesday, a day after a pipe bomb had been thrown through the Museum's glass front door causing minor damage but no injuries. They came moments after an unsuccessful attempt to oust Vice Presidents Ramon Cernuda and Teresa Saldise.

The resignations cast doubt on the future of an exhibition of works by renowned Cuban painter Amelia Pelaez, which received final funding this week and is scheduled to open May 27. Exhibit curator Giulio Blanc said he was certain the show was doomed.

"They've given her over to the Cuban government," Blanc said. He said the museum caved in to erroneous claims Pelaez was a communist sympathizer. "Pseudo-patriotic hysterics are responsible for all this. They've made total fools of themselves and all of Miami," Blanc said. The problems surfaced in advance of an art auction April 22 which included artists who still live in Cuba and were believed by some to be propagandists for the Fidel Castro regime. The auction had been narrowly approved by the directors.

# Pittsburgh mayor dies of rare ailment

PITTSBURGH (UPI) — Third-term Mayor Richard Caliguri died early today of a rare, incurable disease in which the body produces proteins that attack the vital organs, hospital officials said. He was 56.

City Council President Sophie Masloff will serve as acting mayor until the end of Caliguri's term next year. She becomes the city's first woman mayor.

Paramedics were called to Caliguri's home shortly after midnight and found the mayor unconscious, said Scott Meyers, a spokesman for Shadyside Hospital. Caliguri was taken to Shadyside at 12:25 a.m. Doctors there attempted to resuscitate him for more than 60 minutes.

"It is especially sad for me," Masloff said. "Dick was a dear friend, not only politically but personally." Caliguri, a Democrat who was elected to a third term in 1985, put in a full day of work Thursday and was "very upbeat," said one of his aides.

"We were able to get no cardiac activity whatsoever," Meyers said.

Last week, doctors said Caliguri was a potential heart transplant patient if his condition worsened but his aides said there was no indication that a transplant might be needed in the near future.

The mayor was pronounced dead at 1:36 a.m., Meyers said. The cause of death was listed as cardiac amyloidosis. Caliguri disclosed last fall that he was suffering from amyloidosis, a rare, incurable and potentially fatal disease in which the body produces excess proteins called amyloids that can attack the vital organs.

"There was no immediate indication of a vast deterioration today of his heart," Meyers said. Caliguri first learned he had amyloidosis less than a year ago, after he became dizzy while playing golf, but he didn't disclose that he had the disease for several months.

**Public support requires answers**

The Reagan administration apparently raised the military ante in the Persian Gulf last week by authorizing U.S. naval forces to assist neutral merchant ships that are under attack. The operative word is *apparently* because the White House is playing its cards closely in order to keep Iran guessing how the United States will respond. A change of signals Monday has everyone guessing.

The administration's latest zig was to suggest that it may return to the limited rules of engagement in the gulf that existed prior to last week's combat with Iran. This seems designed to assure a wary Congress that the White House is proceeding with all due caution.

Presumably, under the new rules of engagement, U.S. warships would have far more latitude to protect endangered neutral vessels in the gulf. This would be a significant departure from the previous policy, which dictated that U.S. ships could not intervene unless a Navy ship or a U.S.-flagged carrier was being attacked.

Actually, the expanded naval responsibility being considered is consistent with the U.S. policy of ensuring that the shipping lanes in the Persian Gulf remain open. The strategic imperative of this policy is manifest, since more than half of Japan's oil comes from the region as does 25 percent of Western Europe's oil.

Even though the Reagan administration backed into this position last May when it began re-flagging Kuwaiti vessels and escorting them from port to port, the principle of keeping this major oil artery open remains a valid, bedrock policy.

Nevertheless, the Reagan administration's broadening responsibilities in the Persian Gulf raise several nettlesome questions.

What, for example, constitutes a neutral ship beyond the first priority given to those American-owned and foreign-flagged tankers that transport oil through the gulf? Candidates for protection would surely include vessels under Liberian and Panamanian registry, some owned by U.S. investors and with Americans on board. Japanese and Saudi tankers might qualify. Soviet, French, and British warships have been escorting their tankers, and Italian, Dutch, and Belgian ships are patrolling the gulf to safeguard their carriers.

A more complex question is whether the administration's plan to order Coast Guard cutters to the Persian Gulf could trigger the War Powers Act. Under current law, Coast Guard vessels may be transferred from the Department of Transportation to the Defense Department "in time of war or when the president directs..." Our guess is that sending the Coast Guard would not activate the act, inasmuch as temporary operational control of these cutters could be shifted by the president to the gulf-command structure.

And what about America's allies? Are they doing their fair share to protect their own ships and to ensure that the shipping lanes remain open? Although Japan has paid for some of the protection accorded its vessels, why shouldn't its warships join those of the United States and Western Europe?

Finally, why should the United States assume a disproportionate share of the risks in the Persian Gulf when this nation receives less than 5 percent of its oil requirements from the region? The stock answer is that the responsibilities of a super-power in a lawless, violent world are global.

That answer presumes public support for a policy of considerable cost, risk, and uncertainty. Ultimately, public support depends upon an understanding of the issues; the administration must make the case or its new rules of engagement. Which is precisely what we recommend that President Reagan do in the near future.

**WASHINGTON WORLD**

**Soviets amenable to U.S. summit requests**

By Helen Thomas  
UPI White House Reporter  
WASHINGTON (UPI) — Whatever the White House advance team asked for in Moscow in pre-summit planning, the answer from the Soviets was basically "no problem."

Tom Griscom, director of White House communications, said that he and his delegation looked over some 20 to 25 different proposals and sites to decide on the president's agenda while in Moscow May 29-June 2.

The summit meeting in the Soviet Union, Reagan's fourth encounter with Soviet leader Mikhail Gorbachev, will follow the Washington summit last December as a model. Reciprocity is the name of the game — mirroring the third summit in the United States, which was deemed a success.

"No request we made" was turned down by the Soviets saying "it's not possible," said Griscom, who added the advance team had a leg up in already knowing some of the Soviet players who came to the Washington summit.

The president's stay will be limited to Moscow, but he will go places within the

Kremlin. He plans to speak to students at Moscow University and visit the writers' club to meet with the Soviet literati.

Some refuseniks, handpicked by the U.S. Embassy in the Soviet Union, will be met by Reagan at Spaso House, the ambassador's residence in Moscow, and the president will probably try to meet some other Soviet citizens along the way, having been upstaged in Washington when Gorbachev jumped out of his limousine to shake hands with crowds on a busy corner during lunchtime, while en route to the White House.

White House hopes are high that Reagan will be able to take with him a ratified copy of the Intermediate-Range Nuclear Forces Treaty, banning land-based missiles with a 300- to 3,400-mile range.

The Senate will begin consideration of the INF treaty on May 11, and there are still some knots to be tied before the skeptical are ready to vote for ratification.

Reagan and Gorbachev signed the INF treaty during their Washington summit, and the two superpowers had talked about the possibility of

signing a treaty to reduce long-range nuclear missiles during the fourth summit. However, hopes for preparing such an agreement in time have since dimmed.

In Moscow, the president is not expected to pull any punches about his long-held views on the suppressions in Soviet society and the Kremlin's adventurism in regional wars.

At the same time, he is anxious to continue his good relations and obvious rapport with Gorbachev in hopes of easing East-West tensions during his last months in office.

The two leaders have set aside time for tete-a-tete with only their interpreters present.

During the summit, there undoubtedly will be some ceremonial occasions and some signings of cultural agreements, along with two banquets — one at the Kremlin and a return-the-hospitality dinner hosted by the Reagans.

Linda Faulkner, the White House social secretary, is going to Moscow in advance of the summit to plan the dinner. Attuned to the Soviets' enjoyment of American jazz, the White House has already selected Dave Brubeck and his musicians as the evening's entertainment.

**WILLIAM RUSHER**

**Bringing you the 'news'**

Wrapping up our survey of former leftist or liberal activists now working for the news divisions of the three major television networks, we turn our attention today to NBC.

Let me stress that, as in the cases of ABC and CBS, the names that follow don't even begin to scratch the surface as a list of key NBC personnel with leftist or liberal political opinions. These are only those people whose records of prior employment or other public activity on behalf of left/liberal causes were reported by the Nexis computerized data-retrieval system when such names were requested by the Media Research Center.

As before, we have not listed network commentators (such as John Chancellor at NBC or George Will at ABC) who are legitimately entitled to express their own political opinions on the air. Also excluded are political consultants formerly employed by particular candidates but now hired by the networks for their expert advice during this election year — people like Walter Mondale's Bob Beckel at ABC and Jack Kemp's John Buckley at CBS. The stress, in other words, is on people responsible for coverage of the news and presumably committed to a reasonable neutrality concerning it.

In the case of NBC News, then, we start with senior vice president Thomas Ross, who served as Jimmy Carter's assistant secretary of defense for public affairs. Quite a benign eye to cast on the Reagan administration, eh?

Of course, Ross must no doubt contend with Tim Russert, vice president of NBC News "for editorial control." That might be more reassuring if Russert hadn't been chief of staff to New York's Democratic Sen. Pat Moynihan until 1983, when he left to become counselor and media strategist to Gov. Mario Cuomo. (In 1984 he went from Cuomo to NBC.)

Well, then, can we take any consolation from the fact that Tom Rogers is NBC's vice president "for policy planning"? Not much! Rogers was formerly senior counsel to the House Subcommittee on Telecommunications and Finance when that body was chaired by liberal Democratic Rep. (now Sen.) Tim Wirth. As a former congressional staff counsel myself, I can assure you that a high degree of ideological sympathy between a chairman and his counsel is axiomatic.

**JACK ANDERSON**

**Inspections may overlook cattle disease**

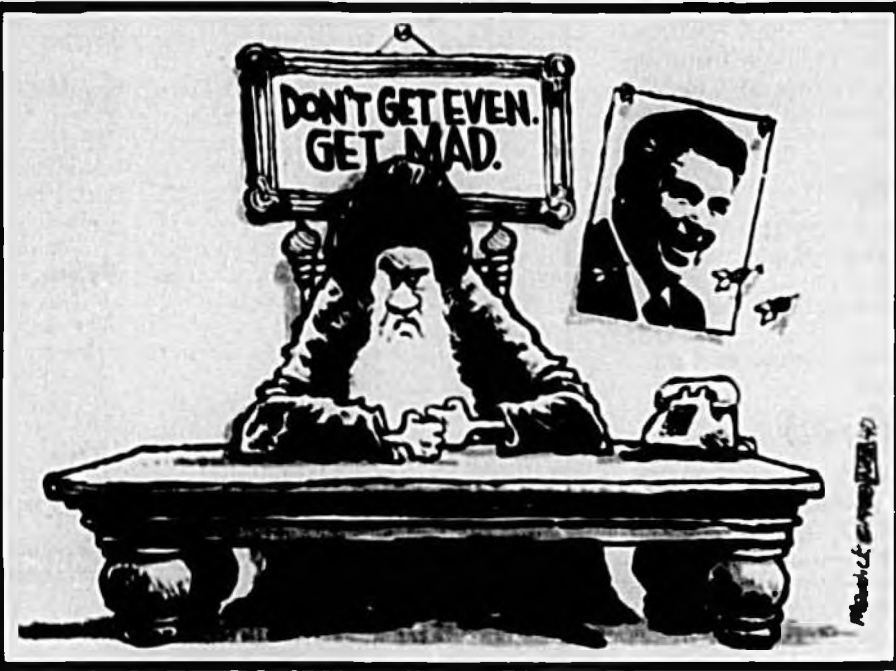

By Jack Anderson and Dale Van Atta

WASHINGTON — Unwholesome beef may be landing in American supermarkets because of a new slaughterhouse inspection system that changes the way inspectors check for diseased carcasses.

The Department of Agriculture is testing the new streamlined inspection system, SIS, in four meatpacking plants. Under the new system, government inspectors have turned over many of their duties to the employees of the meatpacking companies.

Specifically, the company inspectors now look for filth such as dirt and manure where bacteria can breed. The USDA inspectors look for disease.

Government inspectors working under the SIS method reported last year that they were having trouble discerning cysts and other unhealthy conditions in the heads of cattle, according to internal USDA

**BEN WATTENBERG**

**Koch-bashing**

Let me add an eyewitness parenthesis to the furor about Ed Koch, New York's feisty mayor — which perhaps offers lessons about the politics of style, substance and symbols. Koch has become a villain. It's said that during the New York primary election he "polarized" a tense city and that he was "divisive," splitting apart the black and Jewish communities. All this because he challenged Jesse Jackson's views and his presidential qualifications.

But consider what happened on the weekend before that primary. The polarization pot was boiling: Koch had already been quoted (much out of context) as saying that Jews would be "crazy" to vote for Jackson.

I had been invited, with several others, to lunch with the mayor at Gracie Mansion on Saturday. Koch brought up two interesting topics. He mentioned that he would be appearing that afternoon at the opening of the "Black Rodeo" in Harlem. And he said that on Sunday he would be on the "This Week with David Brinkley" program.

He said that on the Brinkley show he intended to say that Jackson was regarded as untrustworthy by many of the black leaders of the civil rights movement, and that he intended to cite the "bloody shirt" incident.

There was little comment at the table. The mayor spoke matter-of-factly. It was not big news. Everyone in politics knew of the rivalries within the civil rights movement. The "bloody shirt" story was old stuff. Jackson claimed that he was the last one who talked to Martin Luther King Jr. in Memphis before he was shot, that he cradled King in his arms, and then, pleading illness, left for Chicago to appear on television wearing a bloodied shirt. Most civil

rights leaders don't believe Jackson's story, and Dr. King regarded Jackson as "boastful" and "self-promoting."

There was talk at the table about Koch's Harlem visit. Wouldn't he be booed by a large all-black crowd? Koch said he didn't mind being booed — whenever it happened he just made believe people were cheering him!

After lunch I accompanied Koch to Harlem as he welcomed the black cowboys. As soon as he emerged from the car, he was surrounded. "It's the mayor!" yelled excited kids who quickly recognized the celebrity face. Soon, wearing a cowboy hat, Koch was on a horse circling the arena, along with other dignitaries. For the first half of the circle, there were no boos, and plenty of cheers. Then, gradually boos began, and a growing chant, "Jackson, Jackson, Jackson!" Koch waved his cowboy hat and grinned broadly, yielding mixed cheers and boos. Everyone seemed to have fun; the mayor cared enough to come.

Sunday morning, I watched Koch on television. He repeated what he had calmly told us the previous afternoon. But his tone this time was harsh and strident. Alas for Koch, it was the stridency, not the substance, that came through. Lesson for politicians: Don't be strident.

That afternoon there was a parade in New York to honor the founding of Israel. Two other presidential candidates, Michael Dukakis and Al Gore, joined the march. Jackson had announced he would not. Was it because he thought he would be booed by a mostly Jewish crowd? Because it would be polarizing?

Both were close political calls. Until I saw how Koch was greeted by the black crowd, and how well he handled it, I thought Jackson was smart to duck the Jewish event. Now, I think he erred.

**SCIENCE WORLD**

**Fish talk with sexy voices**

By Jane Sutton

MIAMI (UPI) — Scientists have discovered that damselfish recognize each other by their voices and that at spawning time the male with the lowest voice is considered the sexiest partner on the reef.

The female damselfish chooses a mate by listening to the chirps of the males. There is a direct correlation between the animal's size and the peak frequency of the sounds it makes.

Since the male damselfish watches over the eggs until they hatch, the female will pick the largest male available in order to give her offspring the best chance for survival on the reef.

"The lower the voice, the more sexy he is," said Dr. Arthur Myrberg, a researcher at the University of Miami's Rosenstiel School of Marine and Atmospheric Science.

Damselfish also use their voices to defend their homes. They are territorial and make certain sounds that other fish recognize as "keep out" noises that mean the turf is claimed.

In the laboratory, Myrberg and his associates have been able to condition male damselfish to come to a particular area of the tank when one sound is played and to leave the area when another sound is played. The two sounds are identical except for a slight difference, 20 to 30 hertz, in peak frequency.

In the fish, a pitch difference this small would correspond to a size difference of less than one-eighth of an inch.

"Since all animals vary slightly by size, this means that damselfish can recognize individuals by their sound alone," Myrberg said. "Fishes are doing that which we often do: they recognize individuals by factors associated with spectral frequency. They tune in to the pitch of an individual's voice in order to recognize it."

"We have been able in the last several years to control the behavior of fishes on the reef as well as in the lab, through the use of sounds. We have been able to increase courtship behavior. We can force females to spawn with males they normally would not have spawned with based on transmitting sounds near that male," Myrberg said.

The damselfish, a colorful fish usually 3 to 6 inches long, found on reefs throughout the Caribbean and the Bahamas, was chosen for the experiment because it is highly vocal. But the researchers believe the ability to distinguish subtle differences in frequency is possessed by many, if not most, species of fish.

Besides obscuring the signs of disease, the company "check droppers," as they are called, increase the risk of spreading disease to healthy cattle because they do not always sanitize their knives between cuts, according to a list of problems that government inspectors at the Monfort meatpacking plant in Grand Island, Neb., gave to their managers last summer. Sources in the plant tell us the problem still exists.

The complaints about SIS come from USDA inspectors in the plant. But top officials at the USDA and Monfort tell us that the plant workers are trained to recognize diseases. The workers sanitize their knives in hot water, wash their hands and change their aprons whenever they deal with diseased tissue, said Dr. Rod Bowling, Monfort's vice president of quality control.

Government inspectors allege in internal memos that they have also

found abscesses, hair and even cactus spines on cattle tongues that have been processed for human consumption. The contamination was missed by the company workers, the documents say.

Check droppers are supposed to feel cattle tongues to detect abnormalities, but the list of problems cited by USDA inspectors last summer at the Grand Island plant included the allegation that workers were not examining the tongues consistently.

USDA officials are confident that the problems have been solved, because they do not show up on the quality-control records kept by government and company inspectors who make spot checks on the check droppers during every shift. But sources inside the plant tell us that check droppers inspect the tongues more thoroughly when the company quality-control inspector is watching.

# Six Seminole County cities OK road impact fees agreement

**By J. Mark Barfield  
Herald Staff Writer**  
SANFORD — Officials from six of seven Seminole County cities gave their qualified approval Wednesday to an interlocal agreement between the county and cities to collect and distribute road impact fees.

Committee members also gave their approval to a prioritized list of 16 road projects which would receive the impact fee funding, although Casselberry officials questioned county calculations used in determining traffic levels on Seminola Boulevard.

Mayors and commissioners representing the cities will review the proposed interlocal agreement and its accompanying road priority list in two weeks.

The interlocal agreement was sought by the county when three cities, Sanford, Casselberry and Winter Springs, sued the county seeking to avoid collecting the fees for the county. Circuit Judge Kenneth M. Leffer decided last week the county could not force the cities to collect the fees, jeopardizing the county's road building plans for the next 20 years.

Under the agreement a committee of eight, comprised of the mayor from each of the seven cities and the county commission chairman, will determine road improvement

priorities. If the road list, or changes in priorities, are approved by six of the eight committee members, the county would agree to accept the list.

However, if committee members seek to add new roads—and spending—to the list, County Administrator Ken Hooper said the county could not legally guarantee to spend its funds for the improvements. The county has agreed to contribute local option gas taxes, in addition to impact fees, to the county-wide road-building program.

Bill Simmons, Sanford city engineer, said if the county can't guarantee to approve the committee's requests, then a clause should be added to the agreement allowing cities to drop out of the program if they disagree with the county's decision.

Hooper said a default statement could be added, but if a city drops out of the program, the entire road-building program is threatened. He said he would ask county attorneys to review the request.

The six city officials and Hooper also gave their endorsement of the proposed first road-building priority list and will recommend to their city and county commissions the list be approved.

Topping the priority list is the widening of Howell Branch Road to four and six lanes from State Road 436 to State Road 426. The

\$10.5 million project could be begun in 1991 and completed in four years if the agreement is approved by the cities and the county.

County Road 427 between State Road 434 and Longwood-Lake Mary Road will be widened to four lanes between 1991 and 1995 as the second-highest priority on the list. The cost of the project is estimated at \$6.5 million.

Other top recommended widening projects include:

•Tuskawilla Road between State Road 426 and East Lake Drive.

•Red Bug Lake Road between State Road 436 and Eagle Circle.

•And Seminola Boulevard between U.S. Highway 17-92 and Lake Drive.

Casselberry City Engineer Ken Ehlers questioned the ranking of the Seminola Road segment because county calculations show traffic increased from about 10,000 automobile trips per day to 20,860 between 1980 and 1987, but only project an increase to 23,567 trips per day between 1987 and 1995.

County Engineer Jerry McCollum defended the county's methods in calculating future traffic on the road by saying the county's computer programs were the latest and best available, but agreed to review the computation because of Ehler's concerns.

# Northern spotted owl 'sues' federal government

PORTLAND, Ore. (UPI) — The northern spotted owl, its numbers dwindling, sued the federal government Thursday for a niche on the endangered species list.

The owl and a coalition of

environmental groups filed suit in U.S. District Court in Seattle, said Lynn Hering, spokeswoman for the Portland Audubon Society.

The suit, announced in Portland, would force the U.S.

Fish and Wildlife Service to list the owl as a federal endangered species.

"The lead plaintiff is the northern spotted owl," Hering said.

# TO MY FELLOW CITIZENS A FEW THOUGHTS AND FACTS ACCUMULATED IN MY SEARCH FOR TRUTH

In the begining the Lord gave Eve to Adam for a helpMEET. There was no mating until Eve was afflicted with Asynesia, from "frollicking" in the Garden with Beelzebub. Now there is more interest in Mating than in MEETING. It was then that she and Adam ate of the Fruit from the tree of knowledge.

AND THAT SAME CUROSITY (ASYNESIA) is why all the JUST SAY NO propaganda is money wasted for those who insist on trying drugs are so afflicted. SOME MEN AND WOMEN MUST BECOME, AGAIN helpMEETS.

AND IF YOU CLOSE ALL OF THE "FILLING STATIONS" YOU WILL BRING AUTO TRAFFIC TO A SCREECHING HALT.

YOU CITIZENS CAN STOP THE MURDER, SLOW THO IT MAY BE, OF YOUR CHILDREN BY CLOSING "THE FILLING STATIONS" FOR ILLEGAL DRUGS, THE SELLERS.

## HOW

BY DEMANDING OF YOUR PRESIDENT, GOVERNORS, LEGISLATORS, JUDGES AND THE COMMUNICATION MEDIA, THAT THE SELLERS OF ILLEGAL DRUGS BE GIVEN A MANDATORY LIFE SENTENCE. NO PAROLE.

## CITIZENS YOU WILL BE IN COMMAND IN SEPT. & NOV.

IF YOU DO NOT GET CONFIRMATION THAT SUCH A LAW WILL BE PASSED, THEN "THROW THE RASCALS OUT" YOU CAN DO IT IF YOU TRY. DO YOU REALLY CARE ABOUT OUR CHILDREN'S FUTURE? NOT TO MENTION THE AMERICA OF WHICH YOU SING, SO OFTEN, BUT NEVER THE 3rd STANZA OF THE STAR SPANGLED BANNER. WHY?

I sent the following letter to President Reagan, NEVER HAD AN ANSWER. Until I sent it to Nancy, Then I got back a bunch of "TRIFE" from the Alcohol, tobacco and firearm people.

Dear Mr. President:

Thank you for your start on the effort to make the U.S. "DRUG-FREE". I know that it would be impossible to get the Draconian law, as proposed in the enclosed letter to Governor Graham, at least, until the Lord provides you the opportunity to appoint at least two more Conservative justices.

However, it would, maybe, be possible to get a MANDATORY LIFE SENTENCE for all sellers of the horrendously murderous drugs that are being pushed on the younger generation in this country. Such a sentence would be much more COST-EFFECTIVE towards stopping this heinous thing than treatment for people already addicted and would go along way towards taking the "COCAINE MONKEY OFF OF UNCLE SAM'S BACK."

And furthermore it would put the political monkey on the backs of those Socialist-Statists (So-Called "LIBERALS") in that if they refused support for such a bill "penalty" they could be asked "WHERE IS YOUR REAL CONCERN FOR THE YOUNG OF THE NATION?"

Cordially & Sincerely  
S.B. "Jim" Crowe

HAVE YOU EVER SEEN ANYTHING ON THE COST EFFECTIVENESS OF THE WAR ON DRUGS? I'm talking about DOLLARS, NOT THE WASTED LIVES.

## NOW FOR SOCIAL SECURITY

THE S.S. PEOPLE SAY THERE WILL BE 4 TRILLION PLUS IN THE FUND BY 2010. DO YOU KNOW, THAT THE MONEY THAT GOES INTO THIS FUND BUYS BONDS AND THEN THE ACTUAL MONEY IS PUT INTO THE GENERAL FUND AND IS SPENT, JUST AS WITH THE INTEREST THAT IS PAID ON THOSE BONDS.

THEN TO GET THE MONEY OUT OF THOSE BONDS TO PAY YOUR SOCIAL SECURITY YOU ARE TAXED AGAIN, THUS YOU ARE PAYING TWICE. NOW ONE WAY OUT OF THIS DILEMMA IS TO ISSUE TREASURY NOTES (GREENBACKS) Not FRN's-FEDERAL RESERVE NOTES.

PUT THESE ON THE FUND, YOU WOULD PAY NO INTEREST ON THESE. OF COURSE YOU WOULD HAVE TO GUARD THIS "ATTRACTIVE PIECE OF CHEESE" FROM THE POLITICAL MICE.

AND IT CAN BE ADDED TO BY LOANING IT TO SAVINGS & LOANS AND BANKS AT 3% with the provision that it MUST BE LOANED FOR INDIVIDUAL HOUSING AT 6%, 100% profit from banks and Savings & Loans, AND GET 3% ON YOUR TAX MONEY, THAT YOU HAVE ALREADY PAID.

DON'T LET THEM TELL YOU IT CAN'T BE DONE CONGRESS HAS THE POWER TO DO ANYTHING, EVEN TO CHANGE THE CONSTITUTION, WITH YOUR CONSENT.

## NOW FOR THE ENERGY CRISIS

WELL LET'S START WITH THE INTERNATIONAL ENERGY ASSOCIATION, ONE OF HENRY KISSINGER'S BRAIN-CHILDREN, WHICH PROPOSED TO REDUCE OUR "ENERGY SUPPLY" BY 75% ENERGY, UNLIMITED ENERGY, IS THE LIFE-BLOOD OF OUR CAPITALIST SOCIETY.

HOW CAN IT BE OBTAINED, WITHOUT DEPENDENCE ON ARAB OIL? FIRST GIVE FREEDOM TO DRILL FOR OIL IN OUR OWN TERRITORIES. DO NOT LET THIS BE INHIBITED BY THE "MAKE THE WORLD SAFE FOR WORMS AND WOODPECKERS" CROWD." THEN WE HAVE NUCLEAR ENERGY (HORRORS, NUCLEAR ENERGY). It is safer than coal, (COAL FIRED PLANTS), LIFE FOR LIFE.

NEXT, WE HAVE HYDROGEN GAS THE PERFECT FUEL

WHILE NOT YET A FEASIBLE SOURCE OF ENERGY, IT IS STILL A FEASIBLE SOURCE. NUCLEAR PLANTS WHEN NOT BEING USED TO FULL CAPACITY COULD PROVIDE THE POWER TO DECOMPOSE WATER FOR IT IS 1 PART HYDROGEN 2 PARTS OXYGEN.

AND IF AS MUCH BRAIN-POWER WERE APPLIED TO THIS PROBLEM, AS IS APPLIED TO MAKE MOUNTAINS OUT OF MOEHILLS, IN OUR SOCIETY, THE PROBLEM PROBABLY COULD BE SOLVED OVERNITE.

THEN WE HAVE THE BURNING OF COAL "IN SITU" (IN PLACE) THIS WOULD, IN LARGE PART HELP THE AIR-POLLUTION PROBLEM AND WE WOULD NOT HAVE THE PROBLEM OF DISPOSING OF THE ASH FROM COAL-FIRED PLANTS. 2,000 ACRES FOR OUC'S PLANT.

WELL FOLKS, I HAVE LAID OUT THE PROBLEMS AND SOME OF MY ANSWERS.

## THE REST IS UP TO YOU

YOU CAN DO IT IF YOU TRY. HAPPY HUNTING THE BALL IS IN YOUR HANDS, YOU CAN DROP IT, OR YOU CAN RUN WITH IT AND WIN THE GAME. WIN OR LOSE, IT IS IN YOUR HANDS. YOUR FELLOW CITIZEN,

S.B. "Jim" Crowe

P.S. THE SEMINOLE COMMUNITY COLLEGE IS OFFERING A COURSE IN "CRIMINAL JUSTICE." HAVEN'T CHECKED ON WHAT THEY WILL TEACH, BUT, I HOPE IT WILL BE JUST HOW "CRIMINAL" OUR JUSTICE ("JUSTICE?") IS.

WHO PAYS THE COURT COSTS AND ENDLESS APPEALS FOR THESE MURDERERS AND RAPISTS THAT SIT ON DEATH ROW FOR YEARS? YOU DO, I THINK.

S.B. "Jim" Crowe

**Prices opened mixed**

NEW YORK (UPI) — Prices opened mixed today in moderate trading of New York Stock Exchange issues.

The Dow Jones Industrial average, which fell 16.08 Thursday, was up 2.99 to 2023.22 shortly after the market opened.

Declines led advances 378-333 among the 1,156 issues crossing the New York Stock

Exchange tape. Early turnover amounted to about 6,500,000 shares.

Before the market opened, the Labor Department reported that the nation's civilian unemployment rate fell .02 percentage point to 5.4 percent in April, the lowest level since June 1974.

Wall Street had feared that a surge in non-farm jobs would only confirm fears that the economy might face higher inflation and interest rates.

**Dollar opens higher; gold, silver mixed**

By United Press International

The dollar was higher in light trading against key foreign currencies in New York today following the Labor Department's report on the nation's employment situation. Gold was mixed.

The Labor Department reported the nation's unemployment rate fell to 5.4 percent in April from 5.6 percent in March.

Tim Scala, Treasury manager of Manufacturers & Traders Trust Co., said the employment data showed the nation's economy was still strong.

Economists and investors had expected a drop in the April jobless rate, based on preliminary unemployment claims figures, and said higher inflation might cause the Federal Reserve to tighten credit — a prelude to

higher interest rates.

Scala said the data was in line with most market expectations.

In earlier trading in the Far East, the dollar closed slightly lower in light trading against the Japanese yen, closing at 124.88 yen, down 0.45 from 125.33 yen on Monday.

Tokyo money markets were closed Tuesday, Wednesday and Thursday in observance of national holidays.

Before the employment figures were announced, currency traders in Europe said the dollar was stuck in a narrow range as they remained cautious.

On the European markets, the dollar began the day in Frankfurt at 1.6825 West German marks, up from Thursday's close of 1.6742.

**Jobless rate falls to 5.4 percent**

WASHINGTON (UPI) — Unemployment fell to 5.4 percent in April, the lowest level since June 1974, the government announced Friday, raising fears of inflation and higher interest rates.

The nation's April jobless rate was down 0.2 percentage point from the previous month's level of 5.6 percent. The improvement in April, the Labor Department said, was largely because of a drop in unemployment among adult men.

Some 6.6 million Americans were unemployed in April, the government said, almost 200,000 fewer than the previous month, after seasonal adjustment.

The Labor Department said 174,000 non-farm jobs were added to the economy in April, signaling a probable increase in personal spending and fueling fears of higher inflation.

Economists and investors had expected a drop in the April

jobless rate, based on preliminary unemployment claims figures, and said higher inflation might cause the Federal Reserve to tighten credit — a harbinger of higher interest rates.

**Citrus Shipments**

WINTER HAVEN (UPI) — Today's citrus shipments reported by the Division of Fruit and Vegetable Inspection. Shipping total in 4-5th bushel cartons and cannery totals in 13-5ths bushel boxes:

**Rail** — 11,211 grapefruit, 14,166 late oranges, 287 honey tangerines.

**Export** — 136,098 grapefruit, 3,024 late oranges.

**...Power**

Continued from page 1A

have the same effect." Mercer said that by the time the proposed ordinance comes before the City Commission for its first public hearing the prohibiting of engine power for pleasure boats could be included.

The ordinance was formulated by Faison, Bob Kelly, director of Public Works, and Bill Simmons, city engineer.

Mercer said that the proposed ordinance may be discussed at its meeting Monday. At that time, commissioners could instruct the city attorney to proceed with the drawing up of the actual ordinance as agreed upon by the commissioners.

The ordinance would then be placed on two separate agendas

at City Commission meetings for public hearings before becoming official.

The proposed ordinance calls for a \$100 annual fee or a \$6 daily fee for use of the marina for non-residents. The \$6 daily fee would only be collected on weekends and holidays and would not be charged during the week.

Sanford residents will only be required to obtain a decal, at no charge, for use of the facility.

The expected revenue from the fee for non-residents is \$31,000 a year. The revenue figure was based on opinion and casual observation rather than any actual data sampling, according to Faison.

Faison said a study of marina traffic during the first six months the ordinance was in effect would provide "hard" fig-

ures for any future changes in the ordinance.

The proposed ordinance would earmark \$7,100 of the generated revenue each year to maintain the boat ramp.

None of the 138 trailer parking spaces now available to boaters at the marina would be eliminated. Currently, there are fourteen spaces close to the marina and boat ramp and another 24 in the lot nearby. Additional spaces are in the municipal lot.

The marina entrance would be manned by a fee-collector. The boat ramp and parking area would be monitored by an off-duty police officer to insure correct trailer parking and the launching and loading of boats. The marina would be manned only on weekends and holidays.

**...Judges**

Continued from page 1A

The poll result in order of overall grades are:

- Eaton, circuit judge, 1.17.
- Mize, circuit judge, 1.17.
- Wallace H. Hall, county judge, 1.12.
- Alan A. Dickey, county judge, 1.07.
- Fredric M. Hill, county judge, .91.
- Edward M. Jackson, circuit judge, .86.
- Nancy F. Alley, general master, .78.

● Kenneth M. Leffler, circuit judge, .71.

● Harold F. Johnson, county judge, .66.

● Robert B. McGregor, circuit judge, .35.

● Davis, circuit judge, .13.

Eaton received the highest mean scores from attorneys in seven categories: oral communication, handling of written communication, quality of written communication, promptness in orders and rulings, handling of judicial calendar, legal-judicial associations and community service.

Mize received the highest

mean scores in five separate categories: ability to grasp important concepts, courtesy, flexibility, resourcefulness and freedom from bias or prejudice.

Hall received top scores in judicial ethics, breadth of knowledge and judgement.

Davis received below-average mean grades from lawyers in eight categories: ability to grasp important issues, judgment, breadth of knowledge, handling of written communication, promptness in orders and rulings, handling of judicial calendar, flexibility and resourcefulness. — Wayne Mize

**...Plan**

Continued from page 1A

Florida district of the Florida Department of Environmental Regulation, said the Sanford plan apparently will not pollute the St. Johns and other waters leading from it, including the lower Wekiva River, but testing won't be completed for at least six months to make a final determination.

Environmentalists and county officials from Volusia and Lake Counties wholeheartedly supported state plans to add Black Water Creek above the Lower Wekiva State Preserve, Lake Norris, Seminole Creek,

Sweetwater Creek and Sulphur Run to the state OFW list. They also supported plans by the state to declare the St. John's River between State Road 44 and Interstate 4 as an OFW.

"This is an unusual chance to preserve the Wekiva River waters," said Fred Harden of the Friends of the Wekiva. "If we're to improve the St. Johns, this is a good way to start."

The Friends group successfully petitioned the state in 1982 to have the Wekiva River and two tributaries, the Little Wekiva and Rock Springs Run, declared OFWs.

OFW designation would limit discharges into the waters to the same water quality as the rivers

to preserve water quality and protect the surrounding environment.

Jerry Brooks, chief of the DER bureau of Laboratories and Special Programs overseeing the OFW program, said the state Environmental Regulation Commission (ERC) could approve the OFW designation by September. The designation would apply to all new applications for discharge permits and not existing ones.

Phyllis Saarnen of Longwood, an ERC member, said she was encouraged by the support of environmentalists and said Sanford has made substantial steps toward improving wastewater treatment.

**...Sprague**

Continued from page 1A

returned late the next day. When her husband did not return home on time, Patricia notified the Seminole County Sheriff's Department and the

Coast Guard on Monday.

A Robert Sprague Memorial Scholarship Fund has been established at Lake Mary High School, where Robert taught carpentry. Patricia, who teaches a nursing course at the same school, requested the memorial

fund instead of flowers.

All donations should be directed to the school, said Principal Don Reynolds. The scholarship will be awarded annually to a deserving student in a trades course. — Wayne Mize

**Rules Committee votes to rescind convention call**

TALLAHASSEE (UPI) — The Senate Rules Committee voted 6-3 Thursday to rescind Florida's 1976 call for a constitutional convention to force Congress to balance the federal budget.

The proposal by Sen. Marlene Woodson, R-Bradenton, substitutes a public appeal for Congress to propose a constitutional amendment to balance the budget for ratification by the states — the traditional means of changing the constitution.

Even supporters of Woodson's proposal agreed such an appeal is probably meaningless. But they feared there would be no way to rescind a constitutional convention to the narrow issue of limiting federal spending.

"A greater danger to this country than the national debt is the loss to your freedoms if you lose the Constitution that we have lived with for 200-plus

years," Sen. Dick Langley, R-Clermont, told advocates of the convention.

"We all want to go to the same place. The question is which route do we take," Langley said. "Your route is filled with danger and bandits and blown out bridges and a lot of other problems. Our route is staying on the safe road."

Thirty-two of the needed 34 states have called for a constitutional convention on a balanced budget, Woodson said. But in recent years, liberal and conservative groups alike have begun urging restraint, arguing it is not known who would attend such a conference, what the ground rules should be, or how radically the convention could change the Constitution.

The Alabama Legislature voted to rescind its call for a convention last week. But the legality of rescinding such votes

is not clear.

"It is my feeling that we can't that the previous Legislature couldn't bind this Legislature," Woodson said. "It hasn't been resolved because it hasn't been tested in the courts."

Opponents of rescinding the 1976 vote argued the Constitution provides for amendment through a convention, and the states should pursue that option absent any indication Congress plans to take up the chore on its own.

But Rules Chairman Dempsey Barron, D-Panama City, an early supporter of the convention, argued Congress can evade its responsibility as long as the convention remains an option.

"It is my judgment that if we keep giving them this escape hatch, to say we are waiting for the states to call a convention, that they will never balance the budget," Barron said.

**Legislature bans open containers in cars**

TALLAHASSEE (UPI) — The House and Senate have sent Gov. Bob Martinez legislation intended to reduce the carnage on the highways by preventing motorists and passengers from drinking in moving vehicles.

The only exemption would be for riders in limousines or motor

homes 21 feet or longer. Martinez is expected to sign the bill, which had been proposed unsuccessfully for years, into law.

The bill (CS-HB 165) would make possession of an open alcohol container in most moving vehicles a moving violation, carrying a fine of \$52 and the loss of drivers license points.

A passenger would be guilty only if he were actually holding the open container when stopped by police. The driver would be solely responsible for any other open container in the vehicle.

The motor home amendment was designed to accommodate legislators upset at the idea of losing their "natural right" to drink while on the way to football games with a non-

drinking driver at the wheel. Rep. Fran Carlton, D-Orlando, said the 21-foot minimum would clear motor homes but still prohibit drinking in even the longest van.

The House vote was 104-1, with Rep. Keith Arnold, D-Fort Myers, the sole dissenter. The bill passed the Senate by a vote of 33-4. Dissenters were Sens. Tom McPherson, D-Fort Lauderdale, Mary Grizzle, R-Belleair Shore, Carrie Meek, D-Miami, and Arnett Girardeau, D-Jacksonville.

**Condemned killer's death sentence upheld**

TALLAHASSEE (UPI) — Etheria Verdell Jackson, condemned to death for the murder of a Jacksonville furniture store owner, has lost an appeal of his conviction and sentence before the state Supreme Court.

The court rejected Jackson's arguments Thursday that the judge in the case had made several procedural errors during the trial and in sentencing.

Jackson was sentenced to death for the December 1985

murder of Linton Moody. According to court records, Jackson attacked the 64-year-old Moody when Moody came to collect payment on a washing machine purchased by Jackson's live-in girlfriend.

**Ordinances intended to improve residential areas**

By Joyce Herald UCF Intern

LAKE MARY — Lake Mary City Commissioners adopted three ordinances Thursday night, all designed to clean up residential areas, and approved a compromise reached for architectural fees related to the Rinehart Road Public Safety Complex.

The ordinances outlaw wrecked, disabled or partially dismantled vehicles on property, prohibit trucks from parking in residential areas, and gives the city power to place a lien on property for the cost of mowing weeds or cleaning up rubbish.

Violators of the ordinance pertaining to disabled vehicles will be given written notice and have 10 days to correct the problem. Appeals can be submitted to the Code Enforcement Board. Vehicles will be removed and disposed of if the owner fails to appeal or correct the violation.

The parking ordinance prohibits any vehicle "having a rated capacity of one ton or more" from parking in residential areas, but excludes pickup trucks and recreational vehicles.

An exception to the ordinance says that the city does not

prohibit vehicles used in the operation of a business which is operating in a residential area through being "grandfathered" in. However, the ordinance says those business owners may not add or replace any of their vehicles with ones now prohibited by the ordinance.

The intent of the ordinance prohibiting weeds and standing water is to eliminate breeding places for insects and rodents, and to prevent urban blight. It allows the city to correct or remove violations and place a lien against the property to recover the costs of removing the violation, plus \$100 to cover administrative charges.

Commissioner Randolph Morris commented on the new ordinances saying, "These are not rich people or Yuppie or Heathrow laws." He explained that many complaints he received came from "lower income parts of town."

Also during the meeting, a citizens advisory committee presented its recommendation for architectural fees for the proposed Rinehart Road Public Safety Complex submitted by Catalyst, Inc.

The committee had been asked to review the fees and

negotiate with the architectural firm when the firm proposed fees of \$86,450.

A \$52,500 compromise was accepted by the citizens advisory committee, Catalyst, Inc. and the city commission.

The new figure was reached by downscaling the design of the project, and the city will rely on its own consultants for construction administration, landscape design, and other services.

The proposal does not include soil and survey work and the commission allocated \$7,500 to pay two contractors for those jobs.

In other business, the commission:

● Accepted a bid of \$20,777 from Multi-Group Contractors, Inc. for finishing city hall's temporary offices at The Shoppes of Lake Mary.

● Denied a sign variance requested by Astronet Corporation.

● Adopted May 1 as Law Day and May 1 through May 7 as Law Week.

● Denied the request of Jo Gall, 299 Main Road, for a one-chairsalon.

● Approved revisions to Timacuan Unit 15 Final Plat and site plan for a clubhouse facility.

**AREA DEATHS**

**DONALD M. LAROCQUE**  
Mr. Donald W. Larocque, 64, 3982 Sabal Drive, Oviedo, died Wednesday at Orlando General Hospital. Born Feb. 2, 1924 in Lynn, Mass., he moved to Oviedo from Billerica, Mass., in 1983. He was a planning engineer for Polaroid Co. He was a Lutheran.

Survivors include his wife, Gerda; three daughters, Donna Lynch, Billerica, Heidi Vedder, Orlando, and Deana Gotthell, Oviedo; three grandchildren.

Winter Park Funeral Home, Winter Park, in charge of arrangements.

**KATIE ROBINSON**  
Mrs. Katie Perkins Robinson, 84, Apt. 96, Redding Gardens, died Wednesday at the home of her daughter in Sanford. Born July 12, 1903 in Timmonsville, S.C., she moved to Sanford from there in 1913. She was a homemaker and member of New Bethel Missionary Baptist Church and Lilly White Lodge No. 71.

Survivors include husband, Thomas "Tommy"; a son, Raymond Perkins, Rochester, N.Y.; a daughter, Marion P. Shaw, Sanford; three brothers, Willie Dubose, Sanford, and Andrew Dubose, Jacksonville; Jimmy Dubose, Syracuse, N.Y.; a sister, Nealle Jenkins, Sanford; five grandchildren; six great-grandchildren.

# NATION IN BRIEF

## Councilman pushing for stricter sprinkler laws in wake of fire

LOS ANGELES (UPI) — More than 500 high-rise buildings should be required to install sprinkler systems to prevent a repeat of the worst high-rise fire in city history that killed one man, injured 40 people and left millions of dollars in damage that could have been prevented by sprinklers, a city councilman said.

City Councilman Nate Holden, vice chairman of the city's Police, Fire and Public Safety Committee, said he would ask the council today to strengthen city law to require sprinklers in all high-rise buildings.

"What is needed are corrective actions like the retrofit of high-rise buildings with water sprinklers to protect the safety and welfare of our citizens," Holden said.

## Workers missing at refinery

NORCO, La. (UPI) — Fires raging today at a Shell Oil Co. refinery prevented rescue teams from searching for six workers missing since an explosion that killed another employee and damaged most homes and businesses in this Mississippi River town.

At least 70 workers and residents were injured by the explosion that shot a rosy-orange fireball into the sky before dawn Thursday and generated shock waves that shattered windows and doors, collapsed walls and ceilings and knocked residents out of bed in Norco.

Prices went up Thursday on world oil markets in response to the disaster, which one analyst said removed 1 percent of the U.S. gasoline supply.

## Union says plant a 'time bomb'

HENDERSON, Nev. (UPI) — Union officials warned in 1982 that management of the rocket propellant plant that blew up this week was more concerned with production than safety and that the factory could be "blown off the face of the Earth" as a result.

Officials of Pacific Engineering Co., which makes propellant for space shuttle boosters and ballistic missiles, said neither its operation nor its product led to Wednesday's disaster that killed one executive, left another presumed dead and injured more than 270 people.

# FLORIDA IN BRIEF

## Acting FDLE director nominated for full-time duties by governor

TALLAHASSEE (UPI) — Gov. Bob Martinez says James "Tim" Moore is ideally suited to become director of the Florida Department of Law Enforcement despite his lack of street-level police experience.

Martinez chose Moore from 140 applicants and nominated him for FDLE chief on Thursday. Moore, 37, has been acting FDLE director since March, when former director Robert Dempsey resigned for personal reasons.

Moore will become director only if the six-member Cabinet accepts Martinez' nomination. The Cabinet is expected to consider that nomination on Tuesday.

## Cocaine found on playground

POMPANO BEACH (UPI) — A 5-year-old kindergarten student's discovery of a bag of crack cocaine on the school playground has resulted in the arrest of her mother, officials said Thursday.

The girl, a student at Markham Elementary School, found the small brown envelope containing \$20 worth of crack during lunch break and stuffed it in her sock. A classmate told her teacher and when the educator asked her what she had, she said "Geek rock," a slang term for crack, said police spokeswoman Connie Ryan.

When asked what she planned to do with the crack, the girl said she was "taking it home to grandma," Ryan said.

School officials called the girl's mother, Robbie Sheppard, 21, and also notified police. Both arrived at the school around 2 p.m. Tuesday.

During a background check police discovered that Sheppard had two outstanding warrants on drug and trafficking charges. When they tried to arrest her, a fight broke out in which the mother used her child as a shield, said Ryan.

She said it took three police officers to subdue the 5-foot, 155-pound woman.

# Excavation reveals Indian relics

CAPE CANAVERAL (UPI) — Halfway through a six-week excavation at the proposed site of Kennedy Space Center's new VIP launch viewing area, archaeologists have unearthed thousands of clues to life in ancient Florida.

Pieces of pottery dating to 2000 B.C., tools, animal bones and remains of campfires and shelter posts have been extracted from the 1.5-acre site of a 4,000-year-old Indian camp.

"The Indians camped here for a short time, fished, hunted and cooked. This is just like it was when the Indians left it," explained principal investigator Bob Johnson, owner of Archeological Consultant Inc. of Jacksonville, the firm NASA hired for the dig.

Indians migrated for thousands of years from the mainland to such sites along the Banana River. Scientists hope to learn more about the Indians' lifestyle by studying relics of their visits, discarded as garbage.

"There are many sites like this all over the area. I imagine that this area was vastly inundated with people at one time. It was an ideal place for them to live," said project director Dana St. Claire.

After several months of study the artifacts will be donated to the state for its public collection. A few pieces may be kept for display at the Spaceport USA tourist attraction.

Most artifacts date from 800 A.D. to 500 B.C., although a few pieces of rare pottery date to 2000 B.C., St. Claire said, and there are indications the site may predate 2000 B.C.

There are no other sites documented that old on Florida's east coast, he said.

The site was first identified as historically significant in 1973, when workers found ancient pottery scattered in an old citrus grove still on the property. State and federal officials required NASA to have the area excavated or relocate the pro-

posed viewing area. "We really don't have another good site with a view of both

launch pads and out of the way of our operations. That's why we're forced to use this site."

said Mario Busacca with the NASA environmental management staff.

## At A Glance

### National: SPBA, Rinker victorious

**SANFORD** — In Little National League action last week the SPBA squad rolled to a 16-8 victory over the Railroaders behind the two hit pitching of Eric Roberts and Andre Rawlings.

Rawlings also led the hitting attack as he stroked a triple and three singles with two runs batted in and three scored. Andrew Amie added three singles with three RBI's and three runs. Darvis Brohnan and John Harris each added a single to round out the hitting attack. Richard Salmon and Tony Lewis led the Railroaders as each came up with a single and a run batted in.

In other National League play Rinker routed DAV, 22-1, with Charlie Farmer tossing a no hitter. Farmer added three singles and a home run to lead the offense as he finished with three RBI's and three runs scored. Mike Horn added three singles and three runs. Willie Williams added a double and a single with both Don Hunt and Calvin Jones adding a double.

### American: Cove rips Seminole Ford, 31-8

**SANFORD** — In Little American League action, Carriage Cove ripped Seminole Ford, 31-8, and Sun Bank downed First Union 21-11. Dave Larry led Carriage Cove with a home run and two triples with five runs batted in and five runs scored. Richard Pederson added a homer, a triple and two singles with six RBI's and five runs scored with Calvin Campbell added three singles and two walks with five runs scored and two batted in. Joshua Watson rounded out the attack with a triple, two doubles and two singles with six RBI's and four runs scored. Joe Tittle led Seminole Ford with a grand slam home run for four RBI's and a run scored.

James Livingston led Sun Bank with a solo home run and finished with one RBI and three runs scored. Isaiah Berry added a triple with two runs batted in and three scored. Shawn Williams added two doubles with four RBI's and three runs. Gene Jackson added a double and a single with two runs batted in and three scored.

Matthew Harris led First Union with a home run and a double to finish with two RBI's and two runs. Roger Peterson and Harry Flowers each added a single to round out First Union's hitting attack.

### Junior: Kiwanis trips Ball Motor, 13-12

**SANFORD** — In Junior League play the Kiwanis outlasted Ball Motor Line, 13-12, and the Woodman downed Rotary 15-8. Corey Bennet led the Kiwanis with a triple and three runs batted in and two scored. Matthew Parker added two singles with two RBI's and two runs. Scott Davison added a single with a run batted in and a run scored. Mike Dillon led Ball Motor Line with a single and a double with four RBI's and two runs scored. Tyrone Williams added a double and a triple with two runs batted in and two runs scored. Phillip King added a pair of singles and a run scored to lead the Ball hitting attack.

James June led the Woodman with a double and a single finishing with three runs batted in and two scored. Brian Cotton also connected on a double and a single and finished with one RBI and two runs scored. Ned June added a single and scored three runs to lead the offensive attack.

### Baseball School to hold summer classes

**SANFORD** — Beginning Monday, July 25-29, Florida Baseball School will conduct a summer class for boys ages 8-13 and 14 and over. The class will include classroom as well as field practice on all fundamentals. It will be from 8:30 a.m. until 11:30 a.m. Cost is \$95. For more information, call 323-1046.

# Lady 'Noles roll to region crown

By Mark Mythe  
Herald Sports Writer

**GAINESVILLE** — Seminole's girls rolled to the 3A Region 2 track title compiling 82 points compared to Haines City's 42 while the boys team finished fourth with 28 points.

The Lady Tribe will be going after their third state title next Friday at Showalter Field in Winter Park. Seminole won the Class 4A meet the last two years before the school dropped a class this year. The boys will try to rebound after a couple of mistakes and hope to do well with its young squad.

The Seminole girls outdistanced the closest competition Thursday by 40 points. Haines City was second at 42 with Orlando Jones third at 37 followed by New Port Richey Ridgewood at 22.

Seminole's mile relay squad of Yolonda Baker, Dorchelle Webster, Adrian Hillsman and Shownda Martin ran the state's fastest time in the event with a winning time of 3:51.57. It also is

## TRACK/FIELD

the best time ever run by a Class 3A mile relay team.

Webster added two more first place finishes in the 110 hurdles with a 14.39 clocking and in the 330 low hurdles, finishing with a nice time of 42.9. Hillsman placed second in the 330's as she ran 46.0.

Webster also placed second in the long jump with a leap of 17-8½. Martin placed third in the event as she leaped 17-5.

Martin added two wins with a pair of outstanding times. First she won the mile with a 5:04.39 clocking before running the state's fastest time in the 880 with a 2:11.41 clocking.

Chineta Gilchrist advanced to the state meet in the shot put as she came up with a fourth place finish on a throw of 40 feet and three inches, her first time ever over 40-feet. Oviedo's Suzanne Hughes placed second in the high jump at 5-2 to qualify

for her second state meet.

Baker and LaShon Cash each qualified in the 100 meters as they finished second and third respectively. Baker crossed with a time of 12.37 with Baker right behind at 12.41. The Lady Tribe 440 relay team of Baker, Cash, Nadrian McGill and Hillsman, teamed up to place second with a 48.22 clocking to continue to the state finals. Angela Ward placed fourth in the 440 with a 60.03 clocking to add depth to the Lady Tribe attack. Cash came back to finish third in the 220 at 25.91 with McGill taking fourth at 25.95 to round out the qualifiers.

Ocala Forest came on strong in the end to take the boys title with 60 points followed by Lake Wales at 45, Hernando 43 and Seminole 28. Oviedo finished sixth at 21.

The Seminole boys were led by Walter Hopson, who won the high jump with a leap of 6-8 that tied his own school record. Oviedo's Brian Wilson placed

second, also tying the school record at 6-8.

Lewis Butler and Robert Moore took third and fourth place to qualify in the triple jump with Butler finishing with a 46-2 effort and Moore going 45-11½.

Alan Seward won the 120 high hurdles for the Tribe with a 14.57 clocking with Chris Eaddy placing fifth at 15.1. Seward also qualified in the 330 hurdles with a 38.7 clocking.

Oviedo's Karl Wright won the 330 intermediate hurdles and broke the school record with a nice time of 37.6. Wright also finished second in the 100 meters with a 10.73 clocking. Wright ran a 10.5 in the preliminaries but he could not catch Lake Wales' James Jackson in the finals as he blazed to a 10.46.

Seminole's Jason Kaiser came up with a nice performance in the two mile as he finished at 10:09 and sixth place.

## Lady Patriots 3rd in region

By Chris Fister  
Herald Sports Editor

**WINTER PARK** — Lake Brantley's Lady Patriots have been running in the shadows of first Seminole High, then Lake Mary all season long. Thursday night, Brantley stepped out of the shadows and into the spotlight among Seminole County teams at the Class 4A Region 3 Championships before 951 fans at Showalter Field.

Distance runners Heather Camino, Joyce Tullis and Kristen Pauley and quarter-miler Lisa Frizzell all turned in outstanding performances as the Lady Patriots finished third in the meet with 36 points. Orlando Oak Ridge, led by Jovene McDuffie, took first at 63 followed by Orlando Evans at 52. Brantley should have had 42 points but was disqualified (see related story on Page 10A) in the mile relay.

Brantley's showing was one of few highlights for the county at Thursday's meet. Lake Mary, which scored 115 points in winning the district last week, finished with 19½ points and in seventh place. Lake Howell (3 points) and Lyman (0 points) failed to qualify any athletes for next Saturday's Class 4A State

## TRACK/FIELD

Championships at Showalter.

Camino, a junior, had one of the top individual efforts at the region meet. She cruised to first place in the mile run with a time of 5:30.3, and came back to finish second in the two mile at 12:01.7. Camino came from fifth place to second in the last half of the two mile race.

"She (Camino) has shown tremendous improvement this season," Lake Brantley coach Charlie Harris said. "Her best two mile last year was a 12:45. Today her goals were just to qualify for state. She put herself in position that if it came down to the last lap or the last sprint, that she would come out on top."

Tullis, only a freshman, also qualified for state in both the mile and two mile. She finished second in the mile at 5:33.5, and third in the two mile at 12:05.5. Lake Brantley grabbed three of the four state qualifying spots in the mile as Kristen Pauley finished fourth in 5:38.6.

"All of our distance runners went out with the strategy that they would go out hard, then

Herald Photos by Tommy Vincent

Heather Camino (left), Joyce Tullis (center) and Kristen Pauley (right) enabled Lake Brantley to dominate the mile at Thursday's Region 3 meet at Showalter Field in Winter

Park. Camino won the event with Tullis second and Pauley fourth. All three qualify for next Saturday's Class 4A State Championships.

## Cavs dump Bulls

**RICHFIELD, Ohio (UPI)** — Cleveland and Chicago enter decisive Game 5 of their first-round playoff series Sunday with momentum on the side of the Cavaliers and the Bulls home after all four games have been won by the host.

"It will be another struggle, the survival of the fittest," said Cleveland's Ron Harper, who had 30 points Thursday night when the Cavaliers claimed their second straight victory, 97-91, to tie the series 2-2.

"Blood, battle, World War Five — that's what that game will have. The team that can convert its chances will have the edge, and the fans in Chicago will help the Bulls. We just have to be that much better."

Harper and Larry Nance, who completed a 3-point play with 1:58 left in the game, both made key blocks down the stretch in the Cavaliers' second straight victory.

"We can't be satisfied," said Nance. "In this next game, we just can't make the mental mistakes. We have to be aggressive."

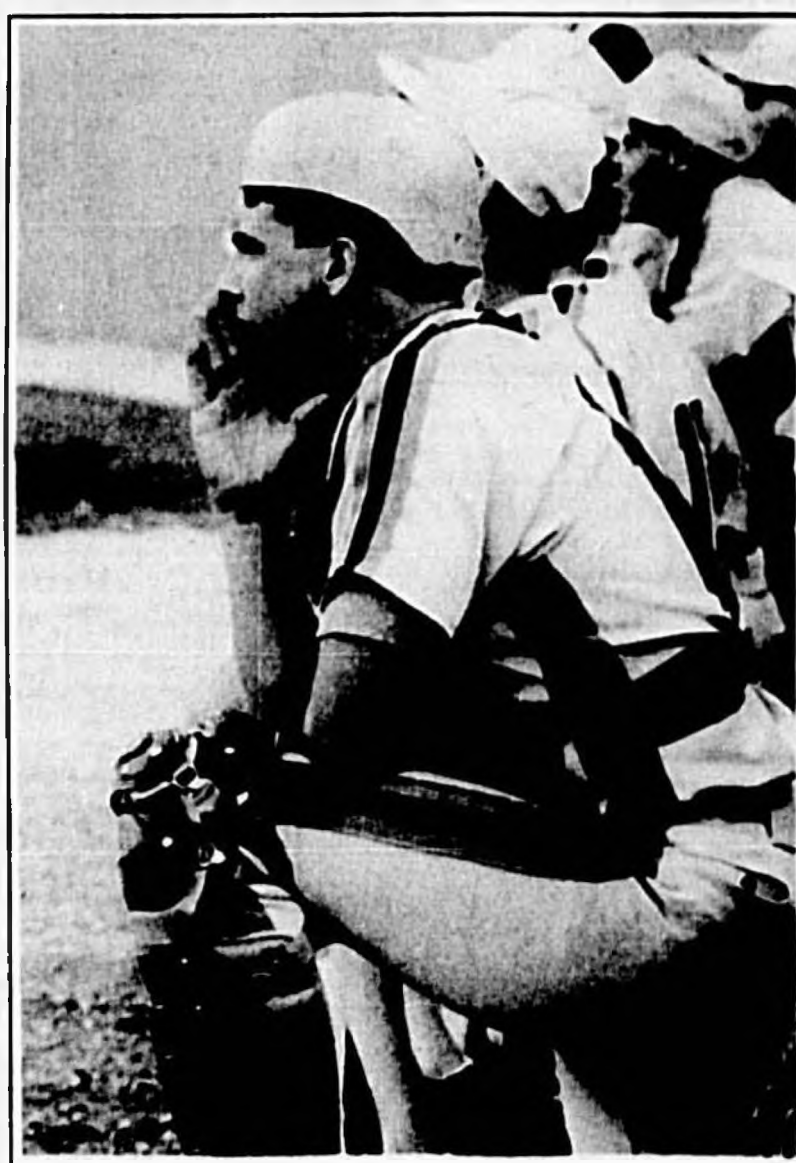

The 1 p.m. EDT series finale at Chicago Stadium will be nationally televised by CBS.

"I don't think Cleveland has the momentum right now. No team has that in a short series," said Chicago's Michael Jordan, who had 44 points despite playing with a sore back.

"We're two competitive teams, two young teams trying to become better and every break, every turnover, every mistake is costly."

Brad Daugherty added 17 points for Cleveland before a crowd of 20,026 at the Richfield Coliseum, where the Cavaliers

### Lion roar

Oviedo's Joey Beasley shouts encouragement to a teammate during Tuesday's Region game against Ocala Vanguard. Oviedo triumphed, 10-2.

## Section playoffs on road

Oviedo's Lions and Lyman's Greyhounds will hit the road today for sectional playoff action.

Oviedo, 19-8, plays at Tampa Plant in the 3A-2 Section playoff. Game time is 7 p.m. The Lions advanced with a 10-2 rout of Ocala Vanguard on Tuesday

while Plant upended Tampa Jesuit.

Lyman, 17-13, hopes to keep its Cinderella playoff run alive as it goes to Merritt Island for the 4A-3 Section playoff. Game time is 8 p.m. The Greyhounds ousted Apopka, 3-2, on Tuesday while Merritt Island downed West Palm Beach Forrest Hills, 3-2.

## Brantley mile relay should be reinstated

**WINTER PARK** — Something was rotten in the state of Winter Park on Thursday night. There were more disqualifications and re-examining of events than you usually see in an entire season.

Unfortunately, Seminole County was involved in many of the incidents. And, in at least one case in particular, unjustly so.

The Lake Brantley girls mile relay team, led by Lisa Frizzell's tremendous 58.4 split on the anchor leg, finished with a fine time of 4:06.5 and in third place, earning a berth in next week's Class 4A State Championships. What took place after the race was over is hard to explain.

Here's the story: At first, the Brantley team was disqualified by the Orange Track Officials because one of its runners had took "four steps off the track while running a curve."

Later, head official Joe Laughlin reinstated the Brantley

Chris Fister

team. That meant Leonard moved from fourth to fifth and lost a spot in state.

The Leonard coach, whose team finished a good seven seconds behind Lake Brantley, later protested the reinstatement. Laughlin and one of his fellow officials got together after the meet and heard the stories of both the Brantley and Leonard coaches. Both coaches had different stories.

After hearing both sides, Laughlin, a good 40 minutes

See REINSTATE, Page 10A

## Gomez, Edberg waste little time in winning

**NEW YORK (UPI)** — With rain falling, the skies sullen and the forecast ominous, hurry-up tennis was the name of the game.

Six of Thursday's singles matches at the Eagle Tournament of Champions were re-scheduled to start simultaneously at the first break in the weather. When their chance came, Stefan Edberg and Andres Gomez wasted little time to get back to the comfort of the clubhouse.

Gomez, the defending champion, was on court for merely 37 minutes in crushing 15th seed Milan Srejber of Czechoslovakia, 6-1, 6-0, while Edberg, the top seed, defeated No. 16 Thomas Muster of Austria, 6-4, 6-3, in 75

## TENNIS

minutes, his best effort of the week.

"I tried to concentrate and get on top of him," Gomez said. "I didn't want to stay out there all day, going on and off the court. I'm very happy the match is over."

The victories propelled Edberg and Gomez into the quarterfinals of this \$677,500 clay court event, where they were joined by sixth seed Mikael Pernfors of Sweden, No. 7 Aaron Krickstein and Spaniard Alberto Tous.

Pernfors, troubled by tendinitis in his left knee, overcame Pedro Rebolledo of Chile, 3-6.

A's top Jays for 11th in row

United Press International: Once again, it's "Celebration" time in Oakland and Terry Steinbach finally has joined the party.

The Athletics used to play Kool & the Gang's hit song "Celebration" after victories a few years ago and they may have to reinstitute that custom at the Oakland Coliseum.

Oakland extended its winning streak to 11 games Thursday with an 8-5 triumph over the Toronto Blue Jays as Steinbach, one of the few A's not hitting early this season, keyed the latest victory.

Steinbach, who limped into the game with a .182 average and just three RBI, broke out of a 1-for-23 slump by hitting a solo homer and a two-run single.

Brewers 9, Rangers 1: At Milwaukee, Greg Brock tripled home two runs in the first inning and Glenn Braggs added a three-run homer against Texas to power the Brewers to their sixth straight victory.

Red Sox 16, White Sox 3: At Boston, Dwight Evans and Todd Benizler each contributed four hits and four RBI to key an 18-hit attack against Chicago and help the Red Sox snap a four-game losing streak.

Yankees 5, Royals 3: At Kansas City, Mo., Mike

BASEBALL

Pagliarulo hit two sacrifice flies, including one in the sixth inning to supply New York's go-ahead run. New York swept the two-game series and has won the first four games of a seven-game road trip.

Mariners 7, Indians 2: At Seattle, Alvin Davis hit his fifth career grand slam to highlight a five-run sixth inning that extended Cleveland's losing streak to three games.

Tigers 6, Angels 5: At Anaheim, Calif., Alan Trammell produced three hits and two RBI to carry Detroit. Tigers starter Walt Terrell, working his way back from an ankle injury, lasted just 4 2-3 innings and Guillermo Hernandez, 2-1, pitched three scoreless innings for the win.

Reds 10, Phillies 4: At Cincinnati, Eric Davis collected three hits, three RBI and scored four runs to lead Cincinnati over Philadelphia. Jose Rijo, 4-1, pitched three innings to pick up the win in relief of starter Tom Browning.

Nettles burns Braves: MONTREAL (UPI) — Bryn Smith and two relievers teamed on a six-hitter Wednesday night and Graig Nettles delivered the go-ahead run with a seventh-inning single to help the Montreal Expos down the Atlanta Braves 4-1.

Parsons further stirs hot Winston Cup chase: TALADEGA, Ala. — Phil Parsons' victory in the Winston 500 Sunday at Alabama International Motor Speedway made him the seventh different winner in nine Winston Cup races this season.

Parsons further stirs hot Winston Cup chase: The seven different race winners and eight different Busch Pole Award winners so far this year haven't been lost on the Winston Cup drivers.

Parsons further stirs hot Winston Cup chase: The way this season has been going, I wouldn't be surprised if we tie the record of 13 different winners in one season in the next six races.

Parsons further stirs hot Winston Cup chase: Steady rains throughout the day and into the night forced the cancellation of Winston Racing Series action at Volusia County Speedway last week.

Aguirre's 38 lead Mavericks

HOUSTON (UPI) — Mark Aguirre, often criticized for inconsistency, was simply spectacular Thursday night.

Aguirre scored 38 points, including a club-record 27 in the third period, and the Dallas Mavericks beat the Houston Rockets 107-97 to win their first-round playoff series 3-1.

"I'm a rhythm player," said Aguirre, whose previous playoff high this season had been 16 points.

"I don't read a lot of things written about me. If I go out and play according to the way people write, I'd hurt our team."

The Mavericks advanced to the second round of the Western Conference playoffs against the Seattle-Denver winner.

"I thought he had a great game at a perfect time," Dallas Coach John MacLeod said of Aguirre.

"I assure you nobody wanted to have a great game like he did. The things said about him ... I'm just glad he's wearing a green uniform."

Rolando Blackman added 17 points and 10 rebounds for Dallas while Sam Perkins and Brad Davis had 14 each.

Aguirre set a club record for points by a player in a quarter, held to 6 points in the first half.

Aguirre scored the first 13 points for Dallas in the third to give the Mavericks a 57-51 lead.

He left the game after picking up his fourth foul with 5:48 left. The 6-foot-6 forward returned late in the period and sank two consecutive 3-point jumpers — giving him three in the quarter — to put Dallas ahead 79-70 with 1:10 left.

Aguirre finished the quarter hitting 9 of 10 from the field and 6 of 6 from the line as Dallas led 83-76 entering the fourth period.

Houston pulled to within 5 points twice, but a 3-point play by Aguirre with 5:26 left put the Mavericks up 95-84 and the Rockets never threatened after that.

Parsons further stirs hot Winston Cup chase

TALADEGA, Ala. — Phil Parsons' victory in the Winston 500 Sunday at Alabama International Motor Speedway made him the seventh different winner in nine Winston Cup races this season.

The seven different race winners and eight different Busch Pole Award winners so far this year haven't been lost on the Winston Cup drivers.

The way this season has been going, I wouldn't be surprised if we tie the record of 13 different winners in one season in the next six races.

Nettles burns Braves

MONTREAL (UPI) — Bryn Smith and two relievers teamed on a six-hitter Wednesday night and Graig Nettles delivered the go-ahead run with a seventh-inning single to help the Montreal Expos down the Atlanta Braves 4-1.

Jeff Reed led off the seventh with a pop fly that right fielder Dale Murphy dropped for an error after colliding with second baseman Ron Gant.

Reed took second and Mitch Webster came on to run. Webster went to third on a groundout. Nettles, pinch-hitting for Smith, stroked a two-out single up the middle off Rick Mahler, 0-4, to score Webster.

Smith, 1-2, pitched seven innings and allowed five hits. He walked one and struck out four.

Andy McGaffigan hurled 1 2-3 innings before Jeff Parrett got one out for his first save.

Atlanta: 10 RBIs, 4 runs, 1 hit. Jeff Parrett (5 1/2) pitched 2 2/3 innings.

Montreal: 4 runs, 10 hits, 2 errors. Jeff Parrett (5 1/2) pitched 2 2/3 innings.

Atlanta: 10 RBIs, 4 runs, 1 hit. Jeff Parrett (5 1/2) pitched 2 2/3 innings.

Montreal: 4 runs, 10 hits, 2 errors. Jeff Parrett (5 1/2) pitched 2 2/3 innings.

Atlanta: 10 RBIs, 4 runs, 1 hit. Jeff Parrett (5 1/2) pitched 2 2/3 innings.

Montreal: 4 runs, 10 hits, 2 errors. Jeff Parrett (5 1/2) pitched 2 2/3 innings.

Atlanta: 10 RBIs, 4 runs, 1 hit. Jeff Parrett (5 1/2) pitched 2 2/3 innings.

Montreal: 4 runs, 10 hits, 2 errors. Jeff Parrett (5 1/2) pitched 2 2/3 innings.

# Lyman takes third in region

## Marshall, Mitchell, Radkewich pave way for Greyhounds

**By Mark Blythe**  
Herald Sports Writer

**WINTER PARK** — Lyman High School came up with a nice all around performance to claim third place in the 4A-3 Region track meet Thursday night before 951 fans at Showalter Field.

Lyman finished with 37 points, with West Palm Beach Twin Lakes taking the title with 44 points and West Orange taking second with 41. Lake Howell finished 10th overall with 14 points. Lake Mary tied for 12th with 11 and Lake Brantley finished tied for 20th with two points.

"We had a number of quality performances tonight," Lyman coach Fred Finke said. "Darren Marshall had a spectacular meet and Teddy Mitchell and Nick Radkewich each came up with a great race in the two mile."

Marshall placed second in the 330 hurdles with a fine time of 39.0, ran the anchor leg on the second place mile relay team, and was involved with a controversial call in the 120 high hurdles.

In the 120s West Orange's Paul Johnson was the clear winner with Marshall being listed as the second place finisher. After a dispute, though, there was to be a run off between Marshall and Martin Andrews of Twin Lakes. Lyman coach Fred Finke, though, gave the qualifying position to Andrews to keep Marshall from competing

### TRACK/FIELD

In the run off.

"Darren has done everything I could possibly ask from an athlete and I don't want to kill him," Finke said. "I think he was upset with my decision, but I think it will turn out to be a wise choice."

Mitchell won the two mile run with a personal best time of 9:32.8 with teammate Radkewich taking second, also with a personal best time, with a 9:33.7. Lake Mary's Brad Smith, coming off a stress fracture, also qualified in the two mile as he finished third at 9:39.8.

Mitchell also qualified in the mile run as he placed third with a time of 4:24.6. Boone's Dan Carroll won the event with a 4:20.3 clocking as he edged Spruce Creek's Dave Circelli, who crossed at 4:20.7.

Lake Mary's Cecil King set a meet record in the long jump as he finished with a leap of 24.3. King, though, injured himself on his last jump and was not able to come back and qualify in the triple jump where he leads the state.

Lake Howell's Brian Horvath had a good showing in the pole vault as he cleared 13-6 to claim the regional title. Horvath made a nice attempt at 14 feet but knocked the bar

down with the lower half of his body after nearly getting over the bar.

"We were hoping he could go over 14 feet tonight," Lake Howell coach Doug Blackwell said. "He's cleared 13-9 in practice and he had a real good attempt at 14 feet tonight. We hope he can clear 14 next week and place, we'll also keep our fingers crossed and hope he can go up to 14-6."

The Silver Hawks also placed Cornell Rigby into the state finals as he finished third in the 440 with a time of 50.8. Rigby has run 49.7 before and Blackwell is hoping Rigby can be close to that time next week.

"We're missing something somewhere," Blackwell said. "His times should have come down, we'll need to find the right workouts for him to do next week and hope he can go down into the low 49's at the state meet. I think he'll have to be in that area to place."

Lake Brantley's Clint Johnson just missed reaching the state finals as he placed fifth in the 100 meters. Johnson finished with a 10.9 clocking, just behind Evans' Horace Copeland.

"I really think he beat the kid from Evans," Lake Brantley coach Charlie Harris said. "It was close but if you go back and look at the tape I think it shows Clint finishing fourth."

Herald Photo by Tommy Vincent

Lyman's Teddy Mitchell (right) and Lake Brantley's Darin Tugman were the leaders after the first lap of the mile run in Thursday's region meet. Mitchell went on to take third in the event and qualify for state with a time of 4:24.6.

### ...Brantley

Continued from 8A

reserve some strength during the middle laps," Harris said. "The reason for that was if it meant beating someone to qualify, they had the kick left to do it."

Frizzell, a senior, ran three superb times in the quarter and qualified for state in the open 440 for the second season in a row. She ran a 61.0 in the preliminaries of the 440, then came back in the finals to run a 60.2 for second place.

"I hope to better my time at state next week," Frizzell said. "My best open quarter is a 58.8 and I'd like to go under that. I'm also hoping to do better than last year. I would have made the finals but I tripped up at the finish and was fifth in my heat."

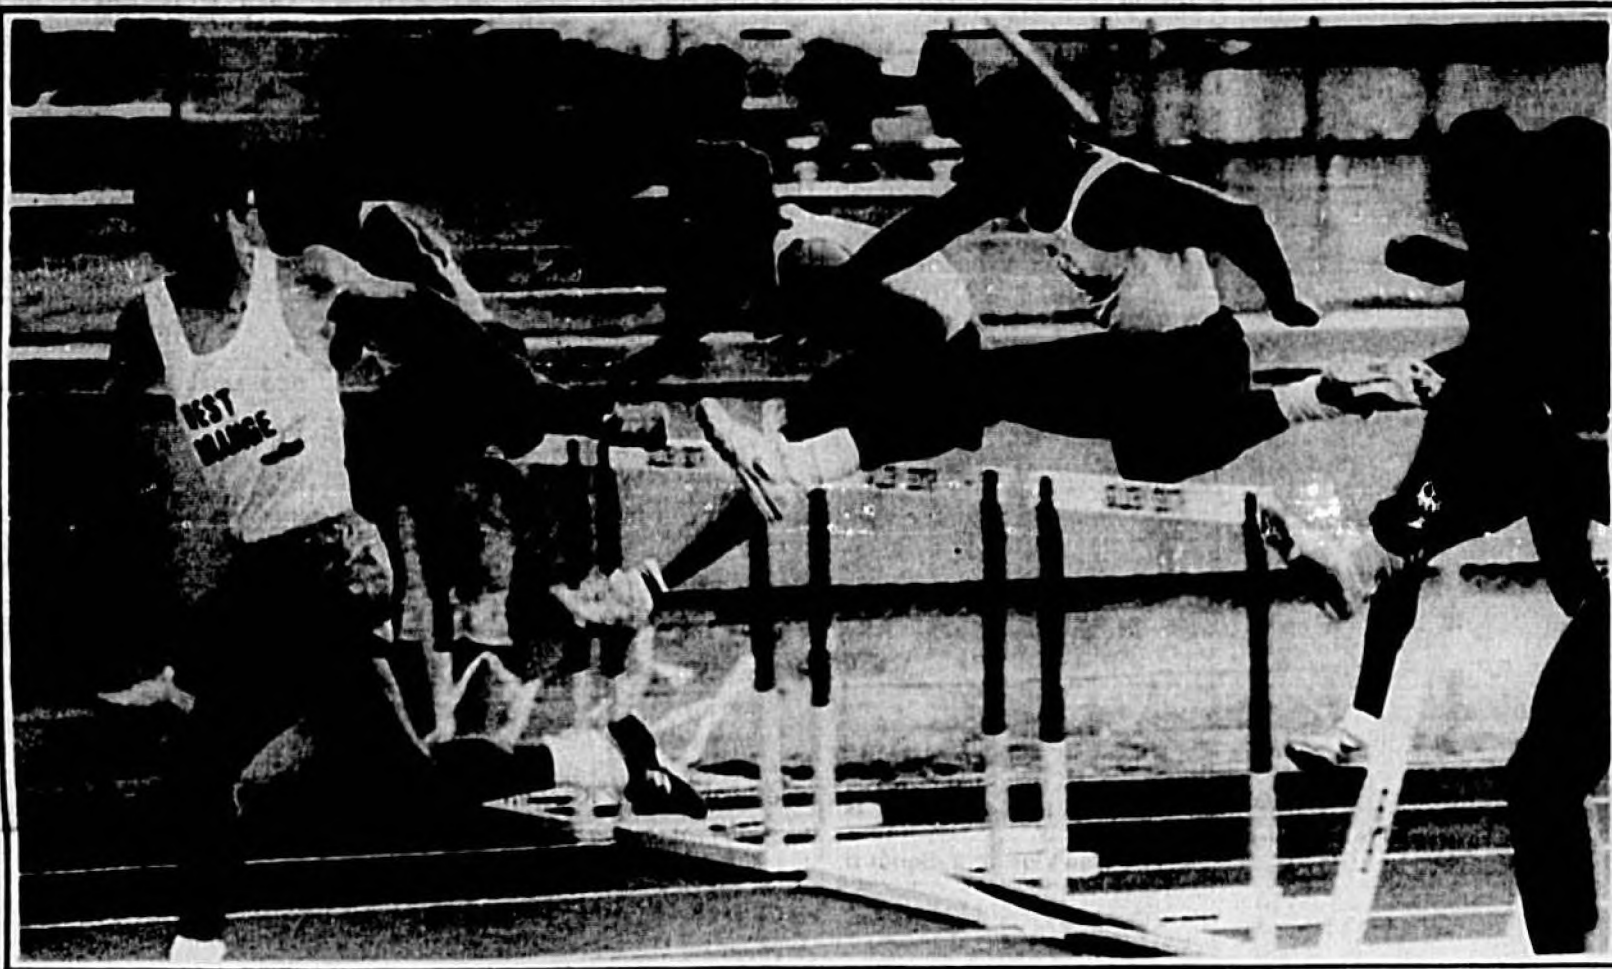

In the mile relay, Lake Brantley was in fifth place on the last lap when Frizzell took the baton and blazed to a split of 58.4 as the team finished with a time of 5:05.6. An-N appeared. Lake Brantley was third in the race, but they were then disqualified. Later, the Brantley team was reinstated, only to be disqualified again after the meet was over.

Lake Mary qualified three individuals for the state meet including Oneyke Berry in the 110 hurdles, Tabatha Gano in the 330 hurdles and Jennifer Caputo in the high jump.

Berry finished fourth in the high hurdles with a time of 15.3. Gano took fourth in the 330 lows at 47.7 and Caputo was third in the high jump at 5-0.

Just missing state berths for the Rams were Teri Whyte and Amy Kuvach. Whyte was tied for fourth in the high jump but lost in a jump off for fourth place. She also placed fifth in the 440 dash at 62.5. Kuvach finished fifth in both the shot put and discus.

Lake Howell's top performance was by Stacy Johnson who finished fifth in the 880 run at 2:24.6, two tenths of a second out of fourth place. The Lady Hawks also took sixth in the mile relay.

### High hurdlers

The race in the boys 120 high hurdles (above) had West Orange's Paul Johnson in the lead followed by Apopka's Rod Woods (outside). Lyman's Darren Marshall and Twin Lakes' Sam Andrews (center) were also in the race. In the girls 110 hurdles (right) Lake Mary's Oneyke Berry (left) and Evans' Tonya Crews are even going over the final hurdle. Crews took third and Berry fourth as both qualified for next week's state meet.

Herald Photos by Tommy Vincent

### ...Seminole

Continued from 8A

Seminole had a mix up in the 440 relay and dropped the baton. The Tribe mile relay squad, made up of sophomores and freshmen, placed fourth in its heat with Kevin Richardson.

Dalvin Davis, George Frison and Joseph Murphy making up the team.

Steve Warren made it to the finals in the 220 with a 22.5 effort in the prelims but false started. Frison ran 22.7 in the prelims and did not make it to the finals.

### ...Tennis

Continued from 8A

6-2, 6-1. Krickstein defeated Jimmy Brown, 6-3, 7-5, and Touis beat Israeli Gilad Bloom, 2-6, 6-3, 6-2.

The start of the day's activity was delayed an hour and 35

minutes because of rain. This was followed by four minutes of competition before another suspension of 1:17.

The strategy of starting six matches at the same time on scattered courts proved to be a wise one when steady rain began in late afternoon, suspending the rest of the schedule.

### ...Reinstate

Continued from 8A

after the meet was over, then ruled Brantley was again disqualified.

Brantley coaches Marty Williams and Charles Harris plan on filing a protest with Fred Rozelle, Executive Secretary of the Florida High School Activities Association, today. If Rozelle is as fair a man as he's said to be, he should reinstate the girls mile relay team of Lake Brantley High.

Brantley's number two runner, Lisa Chambers, had just taken the handoff from Ashley Brockington and made the break to the inside. She was in fifth place at the time and still on the straight away when her momentum carried off the track. She took no more than two steps off the track, then jumped back on.

In no way did Chambers impede any other runner and in no way did she gain an advantage either in place or in time. Even if she did gain a fraction of a second in time, it had nothing to do with the outcome of the race. That was decided on the final lap when Frizzell went from fifth to third place and beat the fourth and fifth place teams by seven seconds.

The Leonard coach argued that Chambers went off the track in the curve and took at least four steps. She said that an advantage may not have been gained but that the rule states that the particular case should result in disqualification. She pointed out that the rules must be followed.

Then, the Leonard assistant coach was talking about how a competitor in the shot put threw a shot that was not weighed prior to the meet. According to the rules, all shot puts must be weighed. A person throwing a shot that was not weighed is supposed to be disqualified. Then the coach said, "Oh, but it was okay because she came back and threw the same distance with the legal shot." Is that a hypocrite or what? Go by the rules, right.

Since there was clearly no advantage gained and no other runner was disturbed by Chambers, the bottom line should be the result of the race. Therefore, Lake Brantley deserves to be in the state meet.

Now, the ball is in Rozelle's court.

Chris Fister is Sports Editor of the Sanford Herald.

## GARDENING

# Mulch makes great weed-killer, moisture-saver

Most homeowners are looking for ways of reducing maintenance in their yards and gardens. The use of a mulch around plants can greatly reduce the time spent mowing and weeding.

A mulch consists of any kind of material applied to the soil surface around plants to control weeds, conserve moisture, and moderate soil temperature. The mulch material may be organic, such as compost, bark, leaves, grass clippings or similar material; or inert, such as gravel, pebbles or polyethylene film. Mulches suppress weeds when the mulch material itself is weed-free and is applied deeply enough to prevent weed germination or smother existing

smaller weeds. An occasional weed may poke through the mulch, but it can be easily pulled out.

Mulch materials have many beneficial effects upon the soil and plants. They prevent loss of water from the soil by evaporation. Moisture moves by capillary action to the surface and evaporates if not covered by a mulch. Mulching will prevent crusting of the soil surface, thus improving absorption and percolation of water into the soil and at the same time, eliminating erosion.

Maintenance of a more uniform soil temperature can be obtained by mulching. The mulch acts as an insulator that keeps the soil cool under intense

Celeste White

sunlight and warm during cold spells.

Organic materials used as a mulch can improve soil structure and tilth. As it decays, the materials work down into the topsoil. Decaying mulch also adds nutrients to the soil.

Mulches add to the beauty of the landscape by providing a

cover of uniform color and interesting texture to an otherwise drab surface. Dark-colored mulches widen the pupil of the eye, allowing more of the sensible light from flowers to enter the eye. Consequently, those dark mulches give plantings a more attractive appearance.

The time to apply a mulch on most established ornamental plants is in the spring. When applying a mulch to newly set vegetables or ornamental plants, do so after they are put into place and thoroughly watered.

For best results, apply mulch at least 2 to 4 inches deep over the whole area; but avoid covering the crowns of low-growing ornamental plants. Keeping the layer deep enough to do the job

is important. This means that more mulching material should be added to the older layers to get the maximum benefits of mulching.

Many organic materials, such as straw, wood chips, and sawdust are rich in carbohydrates and low in nitrogen. Usually, you will find it beneficial to add nitrogen fertilizer to the material before applying it as a mulch. One to two cups of fertilizer high in nitrogen (ammonium nitrate, sodium nitrate or ammonium sulfate) for each bushel of organic material will supply the needed nitrogen.

When plastic film is used as a mulch, it is essential that fertilizer be applied before placing the mulch material on the soil.

Broadcast and incorporate into the top 2 to 3 inches of soil a complete fertilizer at the rate of 2 pounds per 100 square feet of garden area. The mulch material reduces the leaching of fertilizer from the area where the roots will develop, hence larger amounts of fertilizer are not required. Landscape fabrics allow both water and fertilizers to pass through.

Mulching may be your most valuable garden practice. A good mulch will reduce the amount of cultivating, weeding and watering and increase your chances of growing a healthy and vigorous plant.

## Judge to speak at Seminole NAACP branch awards banquet

The Seminole County Branch of the National Association for the Advancement of Colored People (NAACP) will hold its Annual Freedom Fund and Awards Banquet on Saturday, May 7, at 7 p.m. at the Cavalier Motor Inn, 3200 South U.S. Highway 17-92, Sanford.

Guest speaker for this occasion will be the Honorable Alee L. Hastings, Federal Judge of the United States District Court, serving the Florida Southern District. Hastings is a graduate of Crooms Academy and a native of Altamonte Springs.

Information and tickets are available by contacting Turner Clayton, Jr., at 323-0033.

The Rejected Stone Full Mission Missionary Baptist Church will present a Night of Spiritual Gala titled "Uh Oh! We're late for the Easter Parade" on Friday, May 6, at 8 p.m. at the Sanford Civic Center.

Featured will be the soloist Rachel Adams, first runner up of the Star Search Talent Competition, Eastern Region, for 1985. Other special guests include Little Tim (Rock) Raines, son of Montreal baseball star, Tim Raines, Sr.; Zackery Williams, grandson of "Alfalfa" of televi-

Marva Hawkins

sion's Little Rascals; the Sanford Middle School Tumblers, and modeling by children aged 10 to 12. A hilarious three-act skit by Adams and sister-in-law Toni will be presented.

The benefit program will help the building fund for the recently purchased church at 132<sup>nd</sup> Sheppard Ave. Donations are tax-deductible and checks should be made payable to Rejected Stone Full Mission Missionary Baptist Church, P.O. Box 1201, Sanford. Tickets for the gala may be purchased in advance for \$4 and at the door for \$4.50 and \$1 for children aged 12 and younger.

"Mother's Everywhere" is the theme for the pre-Mother's Day musical/fashion show/banquet, featuring the Reddick Memorial Gospel Choir. Sanford's Mayor

Betty Smith and the Sanford Woman's Club Choral, the Rev. Marlo Smith, soloist and organist, the Rev. Ben Adams and gospel saxophonist, Ronald Nathan, will also be featured. The public is invited to witness the latest in fashions for church and spring wear. Tickets are available from the members of New Bethel Missionary Baptist Church's Young Adult Usher Board, and are priced at \$10 each or \$50 for a table of six. Call 323-7224 or 323-1763. The event is set for Saturday, May 7, at 5 p.m. at the Sanford Civic Center. The Rev. William F. Lewis is pastor of New Bethel.

Providence Missionary Baptist Church, Lake Monroe, will observe their annual Women's Day Service with the theme: The Role of Christian Women in God's Divine Plan as Wives, Mothers, Teachers and Molders of Lives.

The series is set for Sunday, May 15, at 11 a.m. The guest speaker will be Sister Rosie Randall. The Rev. J. Hagin is Pastor.

(Marva Hawkins is a Sanford Herald correspondent covering Sanford news. Phone: 322-5418.)

## He's done workin' on the railroad

Benny C. Joseph of Sanford holds a plaque after retiring from 40 years with Atlantic Coastline Railroad. Sharing the occasion with him at a company retirement party are, from left, Kardell Scott and Kenneth

Freeman, co-workers; and Earl Joseph, Gina Joseph, Sheryle Joseph, and Benny Joseph Jr., his sons and daughters. The party took place in March.

## Pet peeves hibernate, see light of day 4 years later

**DEAR ABBY:** Will you please publish two of my pet peeves? One is people who say, "I could care less." Abby, don't they know that they are saying exactly the opposite of what they mean? If they really do not care, they should say, "I couldn't care less."

The other is people who say, "Do you mind if I ask you something?" How do I know if I mind or not before I know what they are going to ask me? I always say, "Go ahead and ask me; then I'll decide whether or not I'll answer it."

I have a few more pet peeves, but I'll settle for these two. Twenty cents is such a small amount to get this across the miles to you.

**ALICE J. DUTTON,  
LYNN, MASS.**

**DEAR ALICE:** Your letter,

Abigail Van Buren

dated Oct. 5, 1984, reached me just a few days ago, and it cost me 5 cents to retrieve it. I realize that the Postal Service is having its problems, but this is ridiculous!

**DEAR ABBY:** A reader wrote that he was shocked when the Christmas card he had sent an elderly friend in a nursing home was returned with a large "DECEASED, RETURN TO SENDER" on the envelope.

What a callous way to find out that a friend had died!

My husband, Leonard, worked for MGM as a casting director for 42 years. We sent a Christmas card to Bobby Webb, a very dear man who worked with Leonard for more than 40 years. He was living at the Motion Picture Home. Our card was returned to us, and on it was written: "Gone to heaven!"

I wept, and so did Leonard. Wasn't that a lovely way to let us know that our friend Bobby had passed away?

**MARION MURPHY**  
DEAR MARION: Beautiful. It beats "Gone to hell" by a mile.

(Problems? Write to Dear Abby. For a personal, unpublished reply, send a self-addressed, stamped envelope to Dear Abby, P.O. Box 69440, Los Angeles, Calif. 90069. All correspondence is confidential.)

## Free spree

Sharon vanderBerg of Sanford stands with a cartload of groceries after a one-minute, 58-second shopping spree she won at Xtra Super Food Center in Winter Park. Flanking her are Larry Kaplan (left), of the sponsoring Florida Department of Citrus, and Bob Joyner, store produce manager. In a contest co-sponsored by the WDBO radio, vanderBerg won the grand-prize spree, which resulted in \$1,142.21 in free groceries. To win, vanderBerg correctly named a Florida citrus recipe and had her name chosen at random from others who identified recipes.

## Ship president on committee for state tourism

LONGWOOD — Nanci Yuronis, of Longwood, has been selected as one of five on a steering committee for the Governor's Conference on Tourism.

Yuronis, president of Rivership Romance in Sanford, said she is honored to be the only committee member chosen from Central Florida.

In preparation for the annual conference, to take place in St. Petersburg Oct. 1-4, Yuronis will meet with the steering committee on lining up speakers and nailing down tourism issues as conference topics.

About 700-800 attend the conference, Yuronis said, including representatives of sales and marketing for tourist attractions.

# Scaly patches on skin just cosmetic problem

Peter H. Gott, M.D.

DEAR DR. GOTT: Scaly patches are developing all over my back and face. I'm 69. My doctor calls it keratosis and says to just scrape it off. Well, that hurts. What else can I do?

DEAR READER: Keratosis are scaly raised discolorations that develop on aging skin. They are very common and no one, to my knowledge, knows their cause. As you have discovered, they are painful to scrape off. Therefore, I disagree with your doctor about this method of treatment.

Since keratosis are entirely benign and constitute only a cosmetic problem, I usually urge my patients to leave them alone. If the skin lesions arise at friction points, such as on belt lines or under bra straps, they can be surgically removed in a simple office procedure. However, new ones tend to grow back, so surgical removal may be an ongoing commitment.

DEAR DR. GOTT: The doctors said I had nephritis. My kidneys have lost 20 percent of function. Are they correct that there is nothing I can do to slow down or correct this condition? Progressive kidney disease is a hard pill to swallow for a 33-year-old mother with a 1-year-old baby.

DEAR READER: The answer to your question depends on the type of nephritis (kidney inflammation) that you have. Nephritis can be hereditary (Alport's syndrome) and untreatable except by dialysis or kidney transplant, or it may be secondary to infection, drugs or chemicals. For example, post-streptococcal nephritis is self-limited and requires no treatment (except antibiotics for strep infection); complete recovery is the rule. Drug-induced nephritis is probably the consequence of allergic reactions to certain medicines. Almost all antibiotics can cause this, as can anti-inflammatory agents, such as aspirin, and heavy metals, such as lead. Treatment depends on the cause.

You should be under the care of a nephrologist, a kidney specialist. Progressive renal disease is, indeed, an unat-

tractive proposition; however, there is much that can be done to spare you from this complication.

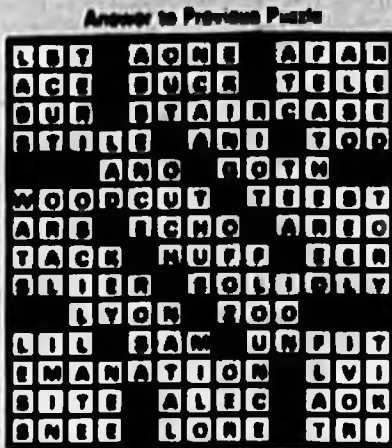

To give you more information, I am sending you a free copy of my Health Report on KIDNEY DISORDERS. Other readers who would like a copy should send \$1 and their name and address to

## WIN AT BRIDGE

By James Jacoby  
South opened one no-trump and his partner quietly passed. The result — three overtricks. And then the discussion began. South: "My dear fellow, you really should give me the courtesy of a raise with eight points including two kings." North: "Sorry — I never invite game with only eight points, no five-card suit, no nines and no 10s." South: "But ..." North: "I say, can we get on to the next deal?"

At first this observer's sympathies were with South. After all, kings are nice cards, and they do take tricks. Then I let a bit of objectivity seep into my thinking. How good would three no-trump be as a contract if, for example, South's spade 10 were

a deuce? The answer is that with just that one slight alteration — a change not even involving a face card — making nine tricks in no-trump would probably require a 3-3 club split plus the favorable location of the queen of diamonds. And South would surely accept a game invitation with 17 points, even if he was missing the 10 of spades.

So cast your glance once again at the South hand: 17 points, three aces and a king, and really heavy intermediate spot-cards in both major suits. My conclusion is that South should have treated his cards as an 18-pointer and opened one club, intending to jump to two no-trump. Then they would have gotten to game.

## HOROSCOPE

### What The Day Will Bring...

#### By Bernice Bode Oool YOUR BIRTHDAY MAY 7, 1988

Don't be discouraged in the year ahead if it takes a bit of time to build up momentum in pursuit of your objectives. Small steps will eventually turn into large strides.

**TAURUS** (April 20-May 20) Acting on your own initiative, you may realize a modest return from something you do today. Pride of accomplishment will exceed your profit. Trying to patch up a broken romance? The Matchmaker set can help you understand what it might take to restore the relationship. Mail \$2 to Matchmaker, c/o this newspaper, P.O. Box 91428, Cleveland, OH 44101-3428.

**GEMINI** (May 21-June 20) People over whom you may think you have little influence will follow your suggestions to a "T" today. Your listeners will appreciate good ideas when they

hear them.

**CANCER** (June 21-July 22) Someone whose assistance you presently need will come through, but you'll have to gain his/her confidence first. Proceed with patience and sincerity.

**LEO** (July 23-Aug. 22) If you are making special plans today, be sure to include a friend who always invites you when he/she has something special cooking.

**VIRGO** (Aug. 23-Sept. 22) A goal you're anxious to achieve is attainable, but you might have to do it a step at a time. Don't be impatient. Remember: Rome wasn't built in a day.

**LIBRA** (Sept. 23-Oct. 23) Pleasant news could be in the offing today through someone with whom you're associated in a joint endeavor. It should make your day.

**SCORPIO** (Oct. 24-Nov. 22) Don't lock yourself into unproductive ideas at this time. If you give vent to your imagination today, you'll come up with sounder concepts that lead to improvements.

**SAGITTARIUS** (Nov. 23-Dec.

21) Sharing time today with people whose company you truly enjoy will have a revitalizing affect on your outlook and attitude. Don't be a loner.

**CAPRICORN** (Dec. 22-Jan. 19) A side source for increasing your income can be found at this time. It's not likely to make you rich, but it could bring you some extra money.

**AQUARIUS** (Jan. 20-Feb. 19) You will feel better if you have some kind of pleasurable outlet today. Try to select an activity that is weighted more to the mental side than the physical.

**PISCES** (Feb. 20-March 20) There are indications that you may be surprised today by the comments of someone whose confidence you didn't think you enjoyed very intimately.

**ARIES** (March 21-April 19) You are likely to be more comfortable today dealing with small groups than you'll be if you are lost in a crowd. Limit your socializing to a few close pals.

# Iraq president praises American military presence in Persian Gulf

MANAMA, Bahrain (UPI) — Iraq's president praised the U.S. military presence in the Persian Gulf Thursday, saying the 30-ship fleet sent by the United States is successfully completing its mission to protect shipping.

"The source of real danger to the gulf states and Iraq comes not from the U.S. fleet, but rather from Iranian aggressiveness," Iraqi President Saddam Hussein told the Egyptian weekly magazine Al-Musawar. The interview also was published Thursday in two Kuwaiti daily newspapers.

Also Thursday, Iraq said its jets had sent missiles into a "large naval target" — Iraq's standard reference for a tanker in Iranian service — in the southern gulf, where the two nations have been at war for nearly eight years.

Shipping sources were unable to confirm the Iraqi claim, and a government spokesman in Baghdad did not say when the attack occurred or give the registry of the stricken vessel.

Iraq's last confirmed strike against a neutral vessel in Iranian service was against a Cypriot tanker March 30. It has claimed more hits since, but shippers have been unable to confirm them.

Hussein, bolstered by recent Iraqi military successes in retaking Faw — its strategic peninsula on the gulf previously held by Iran — blamed Iranian attacks on neutral shipping for forcing the United States and the Soviet Union to strengthen their military presence in the region.

He said Americans entered the gulf "re-

luctantly" at Kuwait's request and praised the U.S. Navy escorts he said were successfully protecting Kuwaiti tankers from Iranian attack.

Iran accused the United States last week of increasing regional tension with its decision to extend naval protection to neutral shipping in distress. Previously, U.S. forces had been restricted to protecting only those ships flying the U.S. flag.

The Iranians, still smarting from a costly naval encounter with U.S. forces April 18, also accused Washington of tilting toward Iraq in the gulf war. The Reagan administration denied the charge.

Adm. William Crowe, chairman of the Joint Chiefs of Staff, told reporters in the gulf this week that Iran remains a dangerous foe despite its heavy losses in battles with the U.S. Navy.

Saudi Arabia, which backs Iraq, also denied accusations Thursday that a man arrested by Iranian security forces was a Saudi spy. Iran said Wednesday the spy entered the country illegally with a large sum in cash to spread pro-Saudi religious propaganda.

The Iranian spy charge was the latest in a series of exchanges between the two gulf adversaries after the Saudis broke off diplomatic ties with Iran April 27, and deported all Iranian diplomats.

The Saudi government dismissed the accusation as "another fabrication" from Iran, and said the Iranians may have hired someone to act as a spy and make accusations against Saudi Arabia.

# Study shows doctors' orders usually altered

CHICAGO (UPI) — More than half of all doctors' orders for diagnostic tests are altered by hospital clerks or lab technicians, but the tests actually performed are usually more appropriate than the ones the doctor ordered, a study indicated Thursday.

On average, the study of two New York hospitals found, clerical alterations or laboratory "interpretations" of doctors' orders decreased the amount of inappropriate testing from 37 percent to 25 percent.

Dr. Albert Finn, a resident pathologist at the State University of New York at Stony Brook, said the finding posed an unusual dilemma for the medical establishment.

"On the one hand, we absolutely can't tolerate having non-physicians going around changing a doctor's orders," Finn said. "But when these changes are resulting in improvements, we have to look at how to make these changes appropriately."

Finn emphasized the alterations were not purely random. They often occurred when a clerk used a computerized ordering system that restricted

choices to appropriate tests or when a experienced lab technicians decided "the doctor meant something other than what he wrote."

"These are both types of input that doctors could benefit from," Finn said. "But they still should be the ones to change the orders. Systems have to be put in place to make sure that happens."

The researchers looked specifically at the ordering of thyroid function tests, primarily because there is general agreement among physicians about which tests to order for which conditions.

choices to appropriate tests or when a experienced lab technicians decided "the doctor meant something other than what he wrote."

"These are both types of input that doctors could benefit from," Finn said. "But they still should be the ones to change the orders. Systems have to be put in place to make sure that happens."

## Legal Notice

**NOTICE OF ADMINISTRATION TO ALL PERSONS HAVING CLAIMS OR DEMANDS AGAINST THE ABOVE ESTATE AND ALL OTHER PERSONS INTERESTED IN THE ESTATE:**  
YOU ARE NOTIFIED that the administration of the estate of JANE G. COLEMAN, deceased, File Number 88-286-CP, is pending in the Circuit Court for Seminole County, Florida, Probate Division, at the address of which is 301 N. Park Ave., Sanford, FL. The personal representatives of the estate are CAMILLE COLEMAN and DR. GARY MERRILL COLEMAN, whose addresses are CAMILLE COLEMAN, 434 Steamboat Ct., Altamonte Spgs, FL and DR. GARY MERRILL COLEMAN, 2471 Woodbury, Portland, Tazs.

The name and address of the personal representative's attorney are set forth below.

All persons having claims or demands against the estate are required to file with this court, WITHIN THREE MONTHS FROM THE DATE OF THE FIRST PUBLICATION OF THIS NOTICE: (1) all claims or demands against the estate and (2) any objection by an interested person on whom this notice was mailed that challenges the validity of the decedent's will, the qualifications of the personal representative, venue or jurisdiction of the court.

**NOTICE OF ACTION TO: E. RICHARD DURANT, et al. vs. E. RICHARD DURANT, et al.**  
Defendants.  
NOTICE OF ACTION TO: E. RICHARD DURANT and SHARON K. F. DURANT, his wife.  
Address: 3500 Pinnacle Drive, Hattiesburg, MS 39401.  
YOU ARE NOTIFIED that an action for Foreclosure of Mortgage on the following described property:

Beginning South 25 feet and East 48 feet of the Northwest corner of the Southwest 1/4 of the Northwest 1/4 of Section 7, Township 21 S, Range 30 E, run South 100.00 feet, East 140.00 feet, North 50.00 feet, North 20 Degrees 56 Minutes West to Point East of Beginning; West 112.82 feet to the Point of Beginning, Seminole County, Florida, has been filed against you and you are required to serve a copy of your written defenses, if any, to it, on Stuart H. Gillitt, Attorney for Plaintiff, whose address is Suite 214, 1570 Madras Avenue, Coral Gables, Florida, 33146 on or before June 7, 1988 and file the original with the Clerk of this Court either before service on Plaintiff's attorney or immediately thereafter; otherwise a default will be entered against you for the relief demanded in the complaint.

# Scaly patches on skin just cosmetic problem

DEAR DR. GOTT: Scaly patches are developing all over my back and face. I'm 69. My doctor calls it keratosis and says to just scrape it off. Well, that hurts. What else can I do?

DEAR READER: Keratosis are scaly raised discolored patches that develop on aging skin. They are very common and no one, to my knowledge, knows their cause. As you have discovered, they are painful to scrape off. Therefore, I disagree with your doctor about this method of treatment. Since keratosis are entirely benign and constitute only a cosmetic problem, I usually urge my patients to leave them alone. If the skin lesions arise at friction points, such as on belt lines or under bra straps, they can be surgically removed in a simple office procedure. However, new ones tend to grow back, so surgical removal may be an ongoing commitment.

DEAR DR. GOTT: The doctor said I had nephritis. My kidneys have lost 20 percent of function. Are they correct that there is nothing I can do to slow down or correct this condition? Progressive kidney disease is a hard pill to swallow for a 33-year-old mother with a 1-year-old baby.

DEAR READER: The answer to your question depends on the type of nephritis (kidney inflammation) that you have. Nephritis can be hereditary (Alport's syndrome) and untreatable except by dialysis or kidney transplant, or it may be secondary to infection, drugs or chemicals. For example, post-streptococcal nephritis is self-limited and requires no treatment (except antibiotics for strep infection); complete recovery is the rule. Drug-induced nephritis is probably the consequence of allergic reactions to certain medicines. Almost all antibiotics can cause this, as can anti-inflammatory agents, such as aspirin, and heavy metals, such as lead. Treatment depends on the cause.

You should be under the care of a nephrologist, a kidney specialist. Progressive renal disease is, indeed, an unattractive proposition; however, there is much that can be done to spare you from this complication.

To give you more information, I am sending you a free copy of my Health Report on KIDNEY DISORDERS. Other readers who would like a copy should send \$1 and their name and address to:

P.O. Box 91369, Cleveland, OH 44101-3369. Be sure to mention the title.

(C)1988, NEWSPAPER ENTERPRISE ASSN.

Peter H. Gott, M.D.

## WIN AT BRIDGE

By James Jacoby  
South opened one no-trump and his partner quietly passed. The result — three overtricks. And then the discussion began. South: "My dear fellow, you really should give me the courtesy of a raise with eight points including two kings." North: "Sorry — I never invite game with only eight points, no five-card suit, no aces and no 10s." South: "But ..." North: "I say, can we get on to the next deal?"

At first this observer's sympathies were with South. After all, kings are nice cards, and they do take tricks. Then I let a bit of objectivity seep into my thinking. How good would three no-trump be as a contract if, for example, South's spade 10 were

a deuce? The answer is that with just that one slight alteration — a change not even involving a face card — making nine tricks in no-trump would probably require a 3-3 club split plus the favorable location of the queen of diamonds. And South would surely accept a game invitation with 17 points, even if he was missing the 10 of spades.

So cast your glance once again at the South hand: 17 points, three aces and a king, and really heavy intermediate spot-cards in both major suits. My conclusion is that South should have treated his cards as an 18-pointer and opened one club, intending to jump to two no-trump. Then they would have gotten to game.

## HOROSCOPE

### What The Day Will Bring...

By Bernice Bede Osol  
**YOUR BIRTHDAY**  
**MAY 7, 1988**

Don't be discouraged in the year ahead if it takes a bit of time to build up momentum in pursuit of your objectives. Small steps will eventually turn into large strides.

**TAURUS** (April 20-May 20) Acting on your own initiative, you may realize a modest return from something you do today. Pride of accomplishment will exceed your profit. Trying to patch up a broken romance? The Matchmaker set can help you understand what it might take to restore the relationship. Mail \$2 to Matchmaker, c/o this newspaper, P.O. Box 91428, Cleveland, OH 44101-3428.

**GEMINI** (May 21-June 20) People over whom you may think you have little influence will follow your suggestions to a "T" today. Your listeners will appreciate good ideas when they

hear them.

**CANCER** (June 21-July 22) Someone whose assistance you presently need will come through, but you'll have to gain his/her confidence first. Proceed with patience and sincerity.

**LEO** (July 23-Aug. 22) If you are making special plans today, be sure to include a friend who always invites you when he/she has something special cooking.

**VIRGO** (Aug. 23-Sept. 22) A goal you're anxious to achieve is attainable, but you might have to do it a step at a time. Don't be impatient. Remember: Rome wasn't built in a day.

**LIBRA** (Sept. 23-Oct. 23) Pleasant news could be in the offing today through someone with whom you're associated in a joint endeavor. It should make your day.

**SCORPIO** (Oct. 24-Nov. 22) Don't lock yourself into unproductive ideas at this time. If you give vent to your imagination today, you'll come up with sounder concepts that lead to improvements.

**SAGITTARIUS** (Nov. 23-Dec.

21) Sharing time today with people whose company you truly enjoy will have a revitalizing affect on your outlook and attitude. Don't be a loner.

**CAPRICORN** (Dec. 22-Jan. 19) A side source for increasing your income can be found at this time. It's not likely to make you rich, but it could bring you some extra money.

**AQUARIUS** (Jan. 20-Feb. 19) You will feel better if you have some kind of pleasurable outlet today. Try to select an activity that is weighted more to the mental side than the physical.

**PISCES** (Feb. 20-March 20) There are indications that you may be surprised today by the comments of someone whose confidence you didn't think you enjoyed very intimately.

**ARIES** (March 21-April 19) You are likely to be more comfortable today dealing with small groups than you'll be if you are lost in a crowd. Limit your socializing to a few close pals.

(C)1988, NEWSPAPER ENTERPRISE ASSN.

# Iraq president praises American military presence in Persian Gulf

MANAMA, Bahrain (UPI) — Iraq's president praised the U.S. military presence in the Persian Gulf Thursday, saying the 30-ship fleet sent by the United States is successfully completing its mission to protect shipping.

"The source of real danger to the gulf states and Iraq comes not from the U.S. fleet, but rather from Iranian aggressiveness," Iraqi President Saddam Hussein told the Egyptian weekly magazine Al-Musawwar. The interview also was published Thursday in two Kuwaiti daily newspapers.

Also Thursday, Iraq said its jets had sent missiles into a "large naval target" — Iraq's standard reference for a tanker in Iranian service — in the southern gulf, where the two nations have been at war for nearly eight years.

Shipping sources were unable to confirm the Iraqi claim, and a government spokesman in Baghdad did not say when the attack occurred or give the registry of the stricken vessel.

Iraq's last confirmed strike against a neutral vessel in Iranian service was against a Cypriot tanker March 30. It has claimed more hits since, but shippers have been unable to confirm them.

Hussein, bolstered by recent Iraqi military successes in retaking Faw — its strategic peninsula on the gulf previously held by Iran — blamed Iranian attacks on neutral shipping for forcing the United States and the Soviet Union to strengthen their military presence in the region.

He said Americans entered the gulf "reluctantly" at Kuwait's request and praised the U.S. Navy escorts he said were successfully protecting Kuwaiti tankers from Iranian attack.

Iraq accused the United States last week of increasing regional tension with its decision to extend naval protection to neutral shipping in distress. Previously, U.S. forces had been restricted to protecting only those ships flying the U.S. flag.

The Iraqis, still smarting from a costly naval encounter with U.S. forces April 18, also accused Washington of tilting toward Iraq in the gulf war. The Reagan administration denied the charge.

Adm. William Crowe, chairman of the Joint Chiefs of Staff, told reporters in the gulf this week that Iraq remains a dangerous foe despite its heavy losses in battles with the U.S. Navy.

Saudi Arabia, which backs Iraq, also denied accusations Thursday that a man arrested by Iranian security forces was a Saudi spy. Iran said Wednesday the spy entered the country illegally with a large sum in cash to spread pro-Saudi religious propaganda.

The Iranian spy charge was the latest in a series of exchanges between the two gulf adversaries after the Saudis broke off diplomatic ties with Iran April 27, and deported all Iranian diplomats.

The Saudi government dismissed the accusation as "another fabrication" from Iran, and said the Iraqis may have hired someone to act as a spy and make accusations against Saudi Arabia.

# Study shows doctors' orders usually altered

CHICAGO (UPI) — More than half of all doctors' orders for diagnostic tests are altered by hospital clerks or lab technicians, but the tests actually performed are usually more appropriate than the ones the doctor ordered, a study indicated Thursday.

On average, the study of two New York hospitals found, clerical alterations or laboratory "interpretations" of doctors' orders decreased the amount of inappropriate testing from 37 percent to 25 percent.

Dr. Albert Finn, a resident pathologist at the State University of New York at Stony Brook, said the finding posed an unusual dilemma for the medical establishment.

"On the one hand, we absolutely can't tolerate having non-physicians going around changing a doctor's orders," Finn said. "But when these changes are resulting in improvements, we have to look at how to make these changes appropriately."

Finn emphasized the alterations were not purely random. They often occurred when a clerk used a computerized ordering system that restricted choices to appropriate tests or when a experienced lab technician decided "the doctor meant something other than what he wrote."

"These are both types of input that doctors could benefit from," Finn said. "But they still should be the ones to change the orders. Systems have to be put in place to make sure that happens."

The researchers looked specifically at the ordering of thyroid function tests, primarily because there is general agreement among physicians about which tests to order for which conditions.

## Legal Notice

**CITY OF LONGWOOD, FLORIDA**  
NOTICE OF PUBLIC HEARINGS  
TO CONSIDER ADOPTION OF PROPOSED ORDINANCE TO WHOM IT MAY CONCERN:

THIS IS HEREBY GIVEN by the City of Longwood, Florida, that the City Commission will hold a public hearing to consider enactment of Ordinance No. 88-01, entitled:

AN ORDINANCE OF THE CITY OF LONGWOOD, FLORIDA, AMENDING THE CODE OF ORDINANCES BY REVISING CHAPTER 16.5, PURCHASING ORDINANCE, BY AMENDING THE BOND AMOUNT FOR THE PURCHASING AGENT; PROVIDING FOR SIGNATURE AUTHORITY; PROVIDING FOR CERTIFICATION OF ENCUMBRANCE AND UNAUTHORIZED PURCHASES; A. M. E. N. D. I. N. G. SMALL PURCHASES; AND PROVIDING FOR CONFLICTS, SEVERABILITY AND EFFECTIVE DATE.

Said Ordinance was placed on first reading on Monday, May 2, 1988, and the City Commission will consider same for final passage and adoption after the public hearing which will be held in the City Hall, 125 West Warren Avenue, Longwood, Florida, on Monday, the 16th day of May, A.D. 1988, at 7:30 p.m. or as soon thereafter as possible. At the meeting in which the Ordinance is read and heard with respect to the proposed Ordinance. This hearing may be continued from time to time until final action is taken by the City Commission.

A copy of the proposed Ordinance is posted at the City Hall, Longwood, Florida, and copies are on file with the Clerk of the City and same may be inspected by the public.

A taped record of this meeting is made by the City for its convenience. This record may not constitute a true and correct record for purposes of appeal from a decision made by the Commission with respect to the foregoing matter. Any person wishing to ensure that an adequate record of the proceedings is maintained to appellate purposes should make the necessary arrangements at his or her own expense.

Date this 3rd day of May, A.D. 1988.

## Legal Notice

**IN THE CIRCUIT COURT OF THE EIGHTEENTH JUDICIAL CIRCUIT, IN AND FOR SEMINOLE COUNTY, FLORIDA**  
CASE NO. 89-302-CA-13-0  
JORGE LLAMES, Plaintiff.  
vs. GARY ALLEN STURGILL, H. D. REALTY, INCORPORATED, a Florida Corporation and JOE D. ANDERSON, an individual, Defendants.

**NOTICE OF ACTION**  
TO: GARY ALLEN STURGILL  
2623 Lee Street  
Hollywood, Florida 33020

You are hereby notified that a suit has been filed against you in the Circuit Court for Seminole County, Florida, entitled:

JORGE R. LLAMES, Plaintiff, vs. GARY ALLEN STURGILL, H. D. REALTY, INCORPORATED, a Florida Corporation and JOE D. ANDERSON, an individual, Defendants. Case Number 89-302-CA-13-0.

The nature of this suit is an action seeking to quiet title on certain real property located in Seminole County, Florida, described as follows:

Lot 178, Sunrise Unit Number 3 "B", according to the Plat thereon, as recorded in Plat Book 24, Page 42, Public Records of Seminole County, Florida.

You are hereby requested to file your written defenses with the Clerk of said Court and a copy thereof upon the Plaintiff's attorney whose address is 318 Annie Street, Orlando, Florida 32806 and whose name is MIKEL W. CARPENTER, on or before May 18, 1988, or a default will be entered against you.

WITNESS my hand and seal as Clerk of the Circuit Court, in and for Seminole County, Florida, this 12th day of April, 1988.

# Mirror-image Southern belles reflect Victorian era

Story and cover photo  
By Susan Loden  
Herald Staff Writer

About eight years ago while looking through old snapshots at my mother's home, I found a photo of mirror twin girls, about eight years of age, who appear to be the quintessential, well-to-do Southern children of the Victorian era.

Charmed by the sweet-faced blondes, each shielded from the sun by a parasol, and dressed in matching, lacy, white blouses and striped skirts with their arms resting on a fence, I asked, "Who are they?"

"That's Mama and Aunt Dell," said my mother, Bernice Jennings Loden. It was a surprising revelation to me. I had only known my grandmother, Nellie Nora Cooper Jennings, as a matronly, plump lady with her hair in a traditional bun, who always asked her grandchildren for "sugar." This was delivered as a kiss to her soft face. She died in 1962, at age 71, so I never had more than a child's perception of her strictly as a grandmother.

My mother said she and her four siblings were also fascinated by the childhood photo image of their mother and aunt. The photo was probably taken around 1900 at the Cooper home in Knox County in rural east Tennessee.

My mother gave the photo to me, her more sentimental daughter. Over the years I considered having an artist render a version of the photo. Beyond its personal significance, it is a unique representation of another place and time.

Last December at Oviedo's "Great Day in the Country," I met Chuluota artist Patricia Bibb, who had just taken the "Best of Show" prize with her "folk art," doll version of a British girl in sailor dress. Bibb had taken the

same prize the year before in the annual Longwood Arts and Crafts Show with one of her Santa Clauses.

I coveted Bibb's creations, which feature fabric molded faces and detailed costumes. I decided that she could create a unique work using the photo of my grandmother, Nellie Nora and her twin, Della Dora Cooper, as inspiration.

Bibb agreed, and I felt as if I had commissioned a statue of my grandmother, who in her adult life was a wife and mother of five surviving children out of a total of 10 births.

When I paid Bibb about \$200 for the dolls I felt guilty taking them from her home in March. She said they are her best work. It was as if I was taking twins away from a surrogate mother. I promised her "visitations," so she can feature her creations at area art shows this fall.

In the photo, as with the dolls Bibb delivered, my grandmother, Nell, is on the right and her twin, Dell, is on the left. They were the second and third children born to Alexander and Ida Elizabeth Cooper, who had a total of 11 children. The twins were born Nov. 15, 1891, in Knox County on the outskirts of Knoxville. Their father operated a farm and a steam shovel business.

Much of their early life centered on a small country church located at Bell's Camp Ground. That's where they are buried, along with several generations of my maternal ancestors. That church was the site of a critical moment in the creation of my family, for it was there the man who was to be my grandfather began to court my grandmother.

However, Nell wasn't the first choice of Dennie Mack Jennings. He passed a note in church to Dell, saying he would like to court her. Dell had a suitor, so she passed the note to her twin. That was the beginning of the romance of

my grandparents.

Dennie Jennings, a railroad engineer, was a neighbor of the Cooper family. He was born in the same community in 1866 and was struck and killed by a truck in Knoxville in 1934.

In the mid-1970s my eldest aunt gave me my grandmother's treadle Singer sewing machine. Inside a locked drawer of the sewing cabinet I found two mementoes of my grandmother's life. One was her voter's registration from 1920, the first year that women were allowed to vote. The second was a letter dated Feb. 17, 1910, which she wrote to her sweetheart, my grandfather. That letter, like the photo and the voter's registration, introduced me to yet another facet of my grandmother and gives a glimpse at my grandfather as well.

In that innocent letter, 18-year-old Nell, who was completing her senior year in high school wrote:

"Dearest Dennie,  
"I was very much surprised when I read your letter. I didn't think you would ans. Not before spring anyway. Ho. So, I won't get to catch you in a story. I believe you are a true blue now sure enough. Don't get scared. I don't think I shall lose confidence in you.

"I sure am glad that you enjoyed yourself while you were with me. I am proud to say that I sure did enjoy myself while I was with you. That's all right with me about you grinning at Ella. I don't care if you grin at her all the time whenever you see her.

"I received that valentine all O.K. To be sure it pleased me. It looked all O.K. That letter didn't go to Mac. The mail carrier left it at our box. Oliver (brother) got it out and gave it to me after I came from school. He wouldn't let Dell or Mamma read it. Mamma said she would read the next one and I told her to read it. I didn't care.

"I don't need to try to make you happy for you are all ready as happy as you need to be. Ho. Dennie, I don't keep my mind on you at all when I am in school. You know I don't. Ho. I just have my mind on Mr. R. and some times my books, ho-ho.

"I think Mr. Rudder has the smallest corner in my heart. I think he is wanting to make up again. He writes several good notes. He said he always did want to go with me but I didn't want to go with him.

"He asked me how was you and I getting along and I told him not at all. He said looks like that I could get along with such a nice looking gentleman as you. I think I ought to. Ho...

"Mr. McConnell told me this morning that you were coming out today. I hope I will get to see you. If you don't come out Saturday night be sure and come out Sunday.

"I had a card from Mr. Roy Mays yesterday. He said that Mr. Ward had him cut out. Someone told me that he wanted to go with me and of course I know he does very bad. He might want to go when he couldn't get to go with R. that would be the only time I guess.

"Well I guess I haven't very much to write to you for I will have to study a little about my books. Ho Ho. Ans soon.

"As ever, Nell. (Over) Say We all solved that puzzle and we want rewarded for it. Now."

It's hard to imagine my grandmother as a young woman writing that letter. It's even more difficult to picture her as one of the girlish twins in the photo. And now, I have an image of my grandmother and her sister in doll form. I can't imagine what she would think. I think it's a bit bizarre, but nice. And with Mother's Day on the horizon, it leaves me with special thoughts for my mom as well as for her mother. As a friend said when he saw the dolls, "There are your roots."

# 'Bourne Identity': Chamberlain gets tough

By Joan Hanner  
UPI Feature Writer

NEW YORK (UPI) — The king and queen of miniseries team up with the prince of thrillers in "The Bourne Identity," a fast-paced shoot-'em-up with a plot that makes hairpin turns and leaves the roadsides of Europe littered with corpses.

Richard Chamberlain and Jaclyn Smith star in the four-hour miniseries based on the Robert Ludlum best-seller, to air on ABC Sunday, May 8 and Monday, May 9, 9-11 p.m. Eastern time.

The cast also includes Donald Moffat, Denholm Elliott and Sir Anthony Quayle.

"He's a much more modern guy than I usually play," Chamberlain said in an interview.

The actor, whose miniseries have included "Centennial," "The Count of Monte Cristo," "The Man in The Iron Mask," "Shogun" and "The Thorn Birds," added, "I've been back as far as the 14th century, and now I'm finally making it into

the 1980s.

"My character, Jason Bourne, is interesting because he has a very tough and brutal side, and on the other hand he can be quite sensitive. It's a departure for me — I haven't played anybody quite this much of a tough shoot-at-the-drop-of-a-hat kind of guy.

"And the love story works very well. Jaclyn Smith is so beautiful that you might suspect she might not be able to act, but she's a wonderful actress, very natural, intelligent yet vulnerable."

The story is vintage Ludlum, piling contradiction atop confusion, zooming along too fast for the viewer to question anything. This is not a story where you can go out for a beer and come back where you left off. Chances are you'll miss several murders and wind up in a different city.

The adventure begins on the stormy seas off the coast of France, where a wounded man goes over the side of a ship. The ship is lost and the man

Jaclyn Smith

washes up on the rocky shore. Local fishermen take his almost lifeless body to an English doctor who lives alone except for his bottle.

The wounded man, Chamberlain, has nightmares in which he speaks in Spanish, French, German and an Oriental tongue. He also has a tiny photographic negative implanted in his hip, which the doctor finds, bearing the name of a Zurich bank and the

number of a Swiss bank account.

The Chamberlain character has amnesia and, when some nasty types appear on the scene, takes off for Zurich to try to learn his own identity. At the Swiss bank he learns he is J. Bourne and has \$15 million on deposit.

He also finds out he is the target of assassins, and as he tries to escape them in Zurich he takes hostage a beautiful Canadian economist, played by Smith.

Chamberlain finds he has all the skills of a killer and fears he may be the international terrorist known only as Carlos.

Smith, at first scared to death of her captor, eventually throws in with him after he saves her from one of the bad guys who is trying to rape and kill her.

The two racket around Europe and New York, trying to discover the secret of Bourne's identity. Along the way a lot of people get killed — fortunately with silencers which keeps the noise level

down.

"The Bourne Identity" makes no demands on the viewer's intelligence — except to keep track of the plot twists — but it is good, gory fun with a high body count.

The acting is first rate. Chamberlain, who as television's Dr. Kildare back in the 1960s had a face as smooth as a baby's, now shows some wear and tear, which makes him more interesting-looking and also more believable as the complex and tormented Bourne.

Smith, Charlie's prettiest angel from 1976 to 1981, remains one of the loveliest women on television and, unfair as it may seem, she also performs well, carrying her role with ease.

The scenery in this show — shot in elegant avenues, quaint streets and dirty alleys in Nice, Paris, Zurich, London and New York — deserves co-star billing.

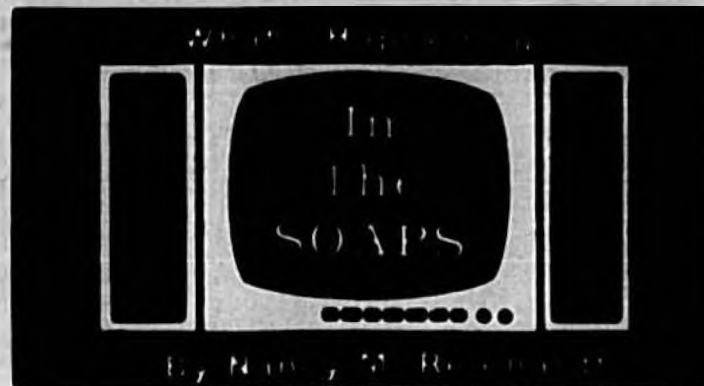

# TELEVISION

May 6 Thru May 12

## Specials Of The Week

Sanford Herald, Sanford, FL

Friday, May 6, 1988-3

### FRIDAY EVENING

**8:00**  
**UNSOLOVED MYSTERIES** Mysteries include a psychic who helps police solve crimes, a man who washed off with more than \$1 million of his employer's money. (In Stereo) □

Singer Stacey Q guest-stars as herself on ABC's "Full House." The series airs Fridays on WFTV-Channel 9.

### ALL BY CHILDREN

Natalie became upset when she realized that Silver was dead. Palmer, who came to see Natalie because she missed their divorce hearing, later disposed of Silver's body by wrapping it in a rug and dumping it into a pond on his estate. Cindy and Stuart decided that they aren't going to Paris to get married, because they want their friends and family to attend their wedding. Tom encountered with Barbara, who led him off to the bedroom. Jeremy had a vision in which he saw someone threatening Natalie's life. Jackson's ailing Aunt Debra told him that he wasn't responsible for the accidental drowning death of his sister even though Jackson's father had laid the blame on him. Debra insisted that both Jackson and Travis had tried to save their sister's life but were unable to rescue her. Nico continued to pursue Julie.

### ANOTHER WORLD

Matthew told Mark and Mike that he and Kevin are trying to elude a classmate, Ted, who was accidentally injured when Kevin caught him attacking Kevin's sister. Tracy, Donna and Michael were thrilled that Vicki was able to get her twin sister, Marley, to attend Donna and Michael's wedding ceremony. After searching Drew's hotel room and finding some incriminating papers, Cass told Mar that he suspects Drew is behind the Cory Publishing takeover attempt. Amanda blabbed to Jamie that Vicki said she saw Lisa kissing Adam. Lisa attended Donna and Michael's wedding with Alan after she learned that Vicki and Jamie had spent the night together. Scott told Vicki that she's the new owner of Bay City General Hospital. Amanda was relieved when Sam was released from the hospital, but Sam kept mum that he has blurred vision. Vicki is caring for Mike, the little boy who started in front of Sam's cab.

### AS THE WORLD TURNS

Working undercover with Hankette, Casey, conned Suzanne Fines into letting him talk to Craig, who is being held prisoner. Craig, who has been on a hunger strike, is in appalling physical condition. Beau told Pam about her relationship with Laura. Andy saw Laura coming out of Bob's bedroom. Bob told Laura that he doesn't love her, then lied Laura from her job as Christopher's baby-sitter and suggested that she get psychiatric help. Iva shared an airline seat from Chicago with Lucinda's obnoxious new employee, Kirk Anderson. After another of Lydia's scares, the McKethnie curse was broken and Duman received word that Beatrice and Brian's girl child was born without any harm to Beatrice. Laura lied to Tom that Bob had fallen in love with her, but later Tom and Bob discussed how to get Laura straightened out without creating a stir. Seth was stunned to learn that Sabrina had married Colin Crowley.

### THE BOLD AND THE BEAUTIFUL

Steven returned home with Donna, who convinced Steven that Beth is still in love with him. Stephanie realized that Brooke has known about Beth and Eric's marriage plans for some time. Clark rejected Eric's payroll money and insisted that he just wants a chance to prove that his dress designs can make a bundle of money for Forester Enterprises. Margo, who has been having a fling with Clark, warned him to keep away from Kristen. Kristen wants nothing further to do with Clark. Brooke realized to Ridge, who reported to Stephanie, that Steven returned to his family.

### DAYS OF OUR LIVES

Frankie admitted to the police that he witnessed Grace's murder. With the help of a police artist, Frankie described Grace's killer, who fit the description of Professor Schenkel, a.k.a. "The Alien." The police arrested Schenkel. Justin vowed to get revenge against Jose Torres, who shot Victor. Victor survived the shooting. Adrienne fretted that Justin will revert to his underworld ways to get even with Jose. Kimberly and Shane made love.

but Shane's feelings for Eve and Gabrielle to still upstaging to Kimberly. Jack took the credit after Kayla convinced the district attorney to drop the charges that Melissa tried to kill Kayla. Eve started to move in on Frankie the minute she learned that Melissa had nursed making up with Frankie, who was forced to admit that he had been of Paula's pad the night of Grace's murder. Jo feared she may have breast cancer. Justin took over Victor's crime family.

### QUEBEC LIGHT

Will arranged the death of Solida's (Sunni) father, Mr. Welles, who died in a car "accident." Mindy smooched with Frank, who admitted he wrung every penny he had to visit her in Venezuela, but Mindy insisted that they can only be friends. Chelsea is angry at Phillip again because he's keeping luminous secrets from her. Russ agreed to continue as Kacy's lawyer after Russ agreed to testify on Mandy's behalf. Johnny convinced Nick that he doesn't think he'll ever love anyone but Rosie, who is still in a mental hospital. Li Wyatt was curious about Will's intense interest in the investigation of Mr. Welles' death. Alan, who had Reva sign papers to annul their "hospital bubble marriage," told Reva that he loves her and wants to marry her. The hit man that Nick hired to kill Josh assured Nick that he'll do the job right. Alan Michael disavowed about Dinah, but can't forget Harley.

### LOVING

A mysterious woman who recognized Ava from a newspaper clipping about "Clay Alden," realized that Ava is impersonating Clay. Stacey fumed when Jack accused her of neglecting J.J. so that she could finish writing her romance novel, which Jack thinks is a waste of time. Ava was relieved when Kate agreed to keep mum that she knows Alan's true identity. Jack was arrested on drunken driving charges. After cooling down, Jeff agreed to continue working on the "Image" video project and to give Trisha a try as his assistant.

### ONE LIFE TO LIVE

Viki didn't believe Maize's story that she knows where Clint is, but Kevin believed Maize. At Clint's Arizona ranch, Maize had a run in with George, who was about to murder an unconscious Steve. Maize rode off on Clint's horse, Duke, who later strangled Maize in the desert. A stunned Maize was later transported back to the year 1988. Clint, who has all but given up getting back to Viki and Anna, was restless when Ginny accepted his marriage proposal. Renee, who recovered from the poison that she's been secretly giving Ana, was arrested on charges that she endangered Ana's life. Cassie told a recuperating Rob that she loves Jonathan. Sarah consoled Cori, who became upset when he learned that Tina paid an art gallery owner to exhibit Cori's photos. Viki told Ito that she loves him, but as a brother-in-law, not a lover. Steve underwent surgery to save his life.

### GENERAL HOSPITAL

Duke lied to Anna that he has no current connections to organized crime. Robert is determined to prove that Duke had something to do with Marty's disappearance. Cheryl disappeared from her hospital room after Robert and Tiffany tried to persuade her to undergo a kidney transplant operation. Robert punched out Scott after Scott went to Cheryl's hospital room and tried to pressure her into investing her client's money in Medi-Tech, the company that is planning to take over General Hospital. Victor arranged for Duke to hire his man, Radalphi, to manage Duke's New York City nightclub. Lory snatched through Scott's office and read a note that said Steve and Dan would be forced to retire from General Hospital after the Medi-Tech takeover. Terry isn't so sure she wants to get involved with Patrick again. Sean and Felicia are investigating Fina's disappearance.

# Will HDTV storm American apathy?

Guy MacMillin

The image on the new Japanese high-definition TV sets is hard to describe. I can tell you there are twice as many lines as an ordinary TV picture. The screen is rectangular, so movies don't have the edges chopped off. But, to appreciate the picture, you've got to see it, as I did recently at Sony headquarters in Tokyo.

The extra detail adds depth. Black is black. Grays are every shade of gray. Colors don't run together. Actors on the screen look like tiny people going about their business inside the box.

Japanese viewers will be able to enjoy HDTV in about 18 months. Then it could cross the Pacific. Broadcasters in this country are worried about that.

When Americans see these HDTV sets, they're going to want to buy them. But Japanese HDTV is incompatible with regular television. You can play tapes and receive satellite transmissions with stunning clarity, but the sets won't pick up conventional TV.

The commercial networks' audience has shrunk 20 percent in just a few years, thanks to pay TV and VCRs. If HDTV catches on, it could shrink more.

Meanwhile, NBC has come up with a version of HDTV that is compatible with regular TV, but it's said to be a good deal less impressive.

There's a high-stakes war going on in home video. American industry lost the first battle years ago; most of the hardware is imported now. The next struggle will be to retain American profits in the software businesses — pre-recorded tapes, cable TV, broadcasting.

It's not going to be easy. The two most serious problems are technical quality and value.

Rent a copy of "The Buddy Holly Story" and see what I mean. This 1978 Columbia Pictures film sells for \$79.95 on videotape. Like too many pre-recorded tapes, the picture is grainy. At times there's a double image. It looks like something recorded off a channel in the next town. Fansther money and record the clear print that runs from

time to time on Cinemax. That is, if they get Cinemax, clearly or at all. The choice of pay-TV channels and the picture quality on many cable systems is, shall we say, limited. Signals are under-amplified, then scrambled and de-scrambled so often that, by the time they get to the living room, they look like something filmed through a mosquito net.

So, 2 million families have opted for backyard satellite dishes, which do offer a spectacular choice of channels, good pictures and stereo sound. But, there too, shortsightedness reigns.

Pay channels — many of which are owned by cable companies — often discourage satellite viewers. For example, Showtime charges \$10.95 a month to satellite customers, twice what cable operators pay.

Problems with quality abound in home video: Broadcasters refusing to invest in stereo sound, Macrovision anti-copying technology that makes rented tapes flash and flicker, the complete absence of pre-recorded tapes to play on the new Super VHS video recorders. The philosophy of some in the home entertainment industry appears to be: "Let them watch mush."

The industry resembles American automobile manufacturers of 25 years ago. They said, "Take it or leave it." Competition came along. Customers left it.

Now, competition is on its way in home entertainment. In addition to perfecting HDTV, Japanese companies have been investing in U.S. record companies and movie studios.

With that investment, they are bringing a traditional respect for quality and value. U.S. firms that don't develop a similar attitude risk going the way of the tail fin.

## TV show leads to capture of another fugitive

VALDOSTA, Ga. (UPI) — "America's Most Wanted," a television show that dramatizes unsolved crimes, led police to capture a fugitive from a Florida prison even though he was not the suspect identified in the broadcast.

David Michael Sarner's employer, Gloria Clanton, told Lowndes County sheriff's deputies that Sarner, a manual laborer, resembled a man portrayed on the TV show that dramatizes unsolved crimes and displays the photographs of suspects.

Clanton, describing Sarner as a good worker, said she contacted deputies after a friend of hers said she thought he looked like rape suspect Alex Kelley.

Sarner, 21, is not Kelley but he was a fugitive from the Lantana Correctional Institute in Palm Beach County, Fla. He was arrested at the Comfort Inn motel in Valdosta.

While attempting to match Sarner's fingerprints with Kelley's, investigators learned he had escaped Feb. 21 from the Florida prison.

 for ALL OF US

Mary (Maria) Gibbs, right) has mixed feelings when her best friend from high school, a successful psychologist (Roxie Roker), comes to visit on NBC's "227." It airs Saturday on WESH-TV, Channel 2.

# Two different actresses were 'upstairs'

Dear Dick: Recently, I have been watching "Upstairs, Downstairs" which I had not seen before. Please tell me how and when Elizabeth became Georgina. — J.M., Palm City, Fla.

Dear J.M.: I think you are confusing two actresses who look alike. They are two entirely separate characters. Elizabeth, played by Nicola Pagetti, was in the early episodes of that marvelous series but got pregnant and left for America. Georgina, played by Lesley Anne Down, was a cousin, and joined the cast later. But Elizabeth did not "become" Georgina.

Dear Dick: A friend and I have a \$20 bet to settle. I say Will Sampson, who played Tall Eagle in "Fire Walker," also played Chief in "One Flew Over the Cuckoo's Nest." My friend says I'm crazy. Who's right? — J.H., Houston, Texas.

Dear J.H.: It's your friend who needs the padded cell. The late Will Sampson was, indeed, Chief in that memora-

Dick Kleiner

ble film.

Dear Dick: I'd like to have you settle a bet for two friends of mine. Who was the writer of the song, "Me and Bobby McGee"? Was it Kris Kristofferson or Roger Miller? — R.A.C., Mt. Iron, Mich.

Dear R.A.C.: It was Kristofferson.

Dear Dick: So many others have complained about this problem. It seems that "Beauty and the Beast," and many other programs, have such loud background music that you can't even hear the dialogue. It was particularly noticeable on a show some weeks ago when a man was

dying and whispering. Who can I contact about this problem? — I.S.H., Pocatello, Idaho.

Dear I.S.H.: You're right, there have been many complaints about it, and I don't know the answer. It is simply thoughtlessness and stupidity on the part of the producers. Write to your local station or the network, but it's been going on for years and I doubt it will change.

Dear Dick: I know the actor who played Mac on "Cover Up" died in 1984. His name was Jon-Erik Moen. But can you tell me the circumstances leading to his death? Illness? Accident? What? — L.L., Worth, Ill.

Dear L.L.: He shot himself accidentally.

Dear Dick: I was wondering if Danny Parcell on "Tour of Duty" is married. If so, does he have children? If not, give me his address, please. — B.S., Rathliff City, Ohio.

Dear B.S.: No, not married and no, no, no children. But

also no, no address.

Dear Dick: I watch re-runs of "Wonder Woman," with Lynda Carter. Can you tell me what year it started and ended? And how old is Lynda Carter today? — I.N., Sugarland, Texas.

Dear I.N.: "Wonder Woman" ran from 1976-79. Lynda Carter is still wonderful today, at 36.

Dear Dick: Would you please tell me who played the part of the service man opposite Barbara Stanwyck in the movie "Christmas in Connecticut"? — P.L., Moncton, N.B., Canada.

Dear P.L.: That was Dennis Morgan.

Dear Dick: Will you please settle this for me. My son says that Patricia Neal was the grandmother of Lynn-Holly Johnson in the movie "Ice Castles." I say no. Who did play that part? — S.F., Ashton, Idaho.

Dear S.F.: You're right. It was Colleen Dewhurst.

Dear Dick: A friend and I have been arguing over the girl who played Hayley on

"Santa Barbara." My friend says she also played Elena on "Texas," and I say she didn't. Can you clear up this mess? — S.M., Naysi, Va.

Dear S.M.: It is no longer messy, and you're right. Stacy Edwards played Hayley, and Caryne Richman played Elena.

Dear Dick: Would you settle an argument for me? Is Jonathan on "Little House on the Prairie" the same voice as on "The Flight of the Navigator"? — L.W., Piquette, Miss.

Dear L.W.: Merlin Olsen played Jonathan — and, although I am not sure who you mean by "the voice," it wasn't Olsen; he was not involved in that film at all.

## GO GUIDE

**Raceways**, a new exhibit at Orlando Science Center, 810 E. Rollins St., Orlando, allows visitors to explore the thrill ride phenomena by conducting experiments with momentum, friction and gravity. Developed by the Boston Children's Museum with support of National Science Foundation, it will be on display through May 29, Monday through Thursday, 9 a.m. to 5 p.m.; Friday, 9 a.m. to 9 p.m.; Saturday, noon to 9 p.m. and Sunday, noon to 5 p.m. Admission: \$4 for adults; \$3 for children and seniors; and \$10 for families.

**Dinner Auction** to benefit the Alzheimer Resource Center will be held Friday, May 13 at the Park Suite Hotel, Altamonte Springs, with the auction preview to begin at 6 p.m. The auction will be held at 8:30 and dinner at 8 p.m. More than \$14,000 in merchandise and prizes have been donated including

sporting goods, vacation packages and a mink jacket. The cost is \$17.50 per person.

**Kids and Family Day** will be held 10 a.m. to 5 p.m., Saturday, May 14, Altamonte Park Plaza, State Road 434, Altamonte Springs.

Free clown faces by 4C. Free admittance, game tickets 25 cents each.

**Young Artist's Day** at Central Florida Zoo, Highway 17-92, Lake Monroe, will be held Saturday, May 14 from 9 a.m. to 3 p.m. Registered participants admitted free. Preschool through 12th grade artists can draw their favorite zoo animal in their chosen medium. A panel of judges from Matland Art Center will select winners in each age group, who will invited to an awards dinner. First prize drawings will be purchased by the zoo for display, second and third place will receive trophies. Prizes complete for prizes.

## ...Soaps

Continued from page 3

### RYAN'S HOPE

Lizze agreed to marry John Ryan, decided to resurrect her budding journalism career by writing a story about George Anthony, who reportedly has time-consuming, Jack confided to Sister Mary Jo that he's worried about the sibling rivalry that's springing up between Ryan and Zeta. Sister Mary Jo begged Jack to prevent Ryan from writing her story on George after Ryan sent the man's real name is Anthony Domingo. Ryan apologized to Brewster for running his good name, but he heard taking Zeta back as a bribe.

### SANTA BARBARA

After coming out of his hypnotized state, Scott remembered that Pamela was the woman who shot Hal. Mason prevented C.C. from killing Pamela after C.C. realized that all these years Pamela had let him think he had killed Hal. Fearing the consequences of her actions, Pamela swallowed an overdose of pills, but Jeffrey found her after she had passed out. Cruz was stunned when the lab reports showed that the bones found at C.C.'s house were Hal's. Cruz suspects that the bones are those of Mark McCormack. Eben

is upset that she's not pregnant yet. Tom took an ailing Chip to Scott, who advised her to notify the child's father (Cruz) about the baby's illness. Julia accepted Mason's marriage proposal. T.J. took money out of Sophia's account to help repay a loan from his former lover, Olivia. While working on the Lari's books, Marge discovered the money was missing.

### THE YOUNG AND THE RESTLESS

Paul and Cassandra made love, but he's disturbed that he still doesn't know anything about her past. Jill didn't jump at the chance when Marc suggested that they secretly market her men's cosmetics line in Europe — without John's knowledge. Nikki didn't believe Victor, who said that his relationship with Lauren is strictly business. Tim was encouraged to see that Traci was using his office space to work on her romance novel, but she cautioned him that her marriage to Brad still tanks above her career as a writer. Cricket, whose real name is Christine, agreed to let Scott call her Chris. For the first time in their lives, Cricket and Jessica made plans to spend Mother's Day together. Carol admitted to Skip that it doesn't bother her that she's handicapped because she's worn her leg brace all her life. The baby's crying is driving Nina nuts. John and Jessica spent more time together.

By Vernon Scott  
UPI Hollywood Reporter  
HOLLYWOOD (UPI) — A film being released this month is so unique it offers moviegoers an entirely different intellectual and emotional experience.

"Powaqqatsi" (Po-wa-quat-si) hauntingly records the transformation of the world at the end of the 20th century in a manner guaranteed to spellbind future historians.

It is a sociological and historical document of our times.

One can only imagine how popular such a film document would be today if there had been motion picture cameras during the Stone Age, the Roman Empire, the Dark Ages and the Renaissance.

"Powaqqatsi" is as different from "The Breakfast Club" or "The Last Emperor" as space travel from a pogo stick.

The unusual movie is made all the more so by its lack of dialogue, plot and narrator. It combines only images and a searingly beautiful score that bond together to provide 100 minutes of breathtaking experience working on many levels — emotional, spiritual, intellectual and aesthetic.

"Powaqqatsi" is essentially a profound exposition of the contrasting ways of life, mostly in the Southern Hemisphere, of people who live and work close to the earth and the frenzied existence of industrial urban centers. It shows how each affects the other and the curiosity of their co-existence — human subcultures, one foot in antiquity, the other in the future.

The film is not a documentary in the accepted sense. Moviegoers interpret what they want from the images, a great many of them in slow motion, that flash on the screen.

Nor is it a political tract in the sense of left wing or right

wing. It deals with concepts that affect all mankind. It touches on religion, social structures, values and the human condition.

The title is taken from Hopi Indian tribal words for black sorcerer or dark magician dealing with transformation. Literally, the word Powaqa refers to a negative sorcerer who lives at the expense of others. Qatsi means life.

"Powaqqatsi" is the second of a trilogy by producer-director Godfrey Reggio in association with Mel Lawrence and Lawrence Taub.

The first was "Koyaanisqatsi" (life out of balance) described by the filmmakers as the first non-linear spiritual "trip." Like "Powaqqatsi" it was made to be absorbed rather than simply viewed.

The themes of both films suggest that today's industrialized, technology-driven society is fast losing touch with the natural order of things on the planet without providing solutions or forecasting ultimate consequences.

Reggio is a tall, bearded man in his 50s, a former member of the Christian Brothers, a Roman Catholic monk who spent many years in a monastery.

A native of New Orleans who became involved with the Santa Fe Institute of Regional Education, he spent eight years doing social work with street gangs. He remains spiritually oriented, dedicated to raising public consciousness.

Somehow managing to look at home in the Polo Lounge of the Beverly Hills hotel, Reggio explained the nature of "Powaqqatsi," its lack of dialogue, explanations, conclusions.

"If you attend a symphony of Beethoven or Mozart, you don't ask about the meaning of the music," he said.

"Audiences seeing 'Powaqqatsi' need not ask what the film means. The question is, is it a meaningful experience. Actually, the film is a triad — music mingling with the images to allow the viewer to provide his own experience.

"To me it is a genuine absorption and elapse of time. It's a conceptualization that requires reference to prior experience."

The production of "Powaqqatsi" is a wildly improbable scenario in itself.

It was made under the aegis of a pair of the most successful popular box-office filmmakers of all time, producer George Lucas ("Star Wars") and producer-director Francis Coppola ("The Godfather"). Moreover, it is being released by The Cannon Group, best known for its savage action films.

The film was three years in the writing and preparation, including film crews in a dozen different nations that

provided 96 hours of film, which were reduced to less than two hours.

A brilliant score was provided by Phillip Glass, counterpointing Reggio's direction of scenes that jolt the mind and soul.

Glass researched his music in South America and Africa. He employed more than 90 musicians and singers using indigenous instruments and integrating African, Latin, Indian and Middle Eastern rhythms.

"This film does not take sides politically," he said. "If anything, it deals with anarchy. It questions the appropriateness of centralized economies as opposed to the traditions of thousands of years of human beings living in rhythm with the environment."

"I should think what the film exposes will bring no joy to communists nor capitalists."

"It probably will come as a surprise to realize that approximately 65 percent of human beings on earth live in simple societies. In the polyphonic societies, on the other hand, there are no rituals, nor spirit."

"In highly industrialized societies dedicated to modernity, war is the one great ritual as opposed to the simple rituals of simple societies."

Reggio quickly pointed out that "Powaqqatsi" does not show the noble savage in conflict with modern civilizations.

"Quite the opposite," he said. "The overwhelming majority of people on the planet are not remotely living the cultural lives of 1,000 years ago. The picture doesn't say what should or shouldn't be. It's an impression of how life is changing."

"Among the many graphic shots is one of a native boy walking along a dusty road in some forlorn country when an enormous truck rumbles up behind him in a billowing cloud of choking white dust. The truck, representing the impersonal, inexorable monster of technology, passes the youngster, completely obliterating him in the suffocating cloud."

We also see Third World country laborers working as beasts of burden in gold mines and in an Egyptian brick factory.

Other unforgettable scenes were shot in Nepal, Hong Kong, India, Peru, Kenya and Brazil, altogether 12 countries on five continents.

Memorable, too, is a sequence of close-ups of the faces of human beings who live, work, love and die in cultural planes that defy analysis.

"It will show civilization as it is manifested in kingdoms, empires and nation-states," he said. "'Naqoyqatsi' involves the relationship between mass society and war."
