Street And Sewer Improvement Plan Proposed For City

Krider Offers Plan To Raise \$50,000 A Year For Municipal Improvements

City Commissioner John Krider last night outlined plans for raising \$50,000 yearly for vital needed street and sewer improvements, and told the Commission that this amount could be derived from three sources: a sewerage charge, preferably on a per toilet schedule, a 6 percent gross rebate by the Florida Power and Light Co., and the new cigarette tax.

He estimated that a low sewer or toilet charge would raise about \$12,500 yearly.

"Along with this, a new franchise with the Florida Power and Light Co. with a 6 percent gross 'kick back' would produce \$18,500 yearly," he declared. "This I would like to submit to our voters for their approval, so I am asking for a referendum."

"Using our income of \$12,500 yearly from the sewer tax; \$18,500 from the new power franchise, the balance from the cigarette tax would make up a fund of \$50,000 yearly for street and sewerage improvements," he asserted.

"I believe that the next 10 years are going to be vital to the growth of our city," said Mr. Krider. "In the period between now and 1955 when our present power franchise expires, we can add 100,000 for city improvements. Of 80 cities in Florida I served in, the Florida

Family Dies On Christmas Eve Of Poisonous Gas

NEW YORK, Dec. 28.—(AP)—With all preparations made for a merry family holiday, a father and mother and their two young children died last Christmas eve—and never got up.

The bodies were found today in a gas-filled, gaily decorated east side apartment, with wreaths at the windows and the makings of a big turkey dinner in the kitchen refrigerator.

Police said the family apparently was wiped out when a gas refrigerator used up the oxygen in the unventilated apartment.

A decorated tree with unopened packages of wrapped food beside the double bed in which the bodies of five-year-old Veronica Gask and her brother Andrew, Jr., three, were found.

On a dresser was a package marker: "To our daddy from your angels."

The father, 33, a bank employee, and his wife Veronica, 28, were found in the apartment's other bedroom.

Beside the turkey and trimmings in the refrigerator, there were fruit and nuts and two red candles on the kitchen table.

A sister of Mrs. Gask called police after she went to the apartment, at 428 East 71st Street, this morning to deliver a telephone message to her brother-in-law and was unable to rouse anyone by repeated knocking.

The sister, Mrs. Mary Fabek, then smelled fumes. She went out on a fire escape and peered through the children's bedroom window. She saw the children in their bed and, frightened by their rigid position, rushed back into the building and called the police.

Police broke in through the children's window and found the three-room, fifth story apartment filled with fumes. All the windows were closed.

A gas company representative said the kitchen refrigerator was in order but the heating ventilation was apparently consumed oxygen in the room.

Mrs. Fabek said she last saw her family Christmas eve when the children were asleep and the parents were decorating the tree.

BIGGEST SHIP
LONDON, Dec. 28.—(AP)—Maritime officials hurried today with reports the Omond White Star liner, sailing to New York, was the Queen Elizabeth, but New officials said the reports were misleading.

A spokesman for the company said it has no place for placing in order for such a superliner—Elizabeth is now the world's largest—"at the present time." However, he added:

In the ordinary course of time the company, like the other shipping companies, has continually improved the types of ships it carries. It is not unusual for the company to increase its tonnage from time to time.

Reds Release American Held On Spy Charge

Relief Official Was Arrested Dec. 15 By Hungarians On Orders Of Russia

VIENNA, Dec. 28.—(AP)—Soviet authorities agreed today to release Israel G. Jacobson, American Jewish relief official, to the custody of United States officials.

Jacobson, held by Russians at the Austro-Hungarian border after being expelled by Hungary as a suspected spy, was expected to be released this afternoon.

Brig. General James Foy, Deput

puty U. S. high commissioner, was assigned to make arrangements for Jacobson's release, probably dealing with his Russian counterpart, Col. Gen. Alexei Zheltov. They were to select a site somewhere in the Russian occupation zone where the release would take place.

Jacobson was taken into custody by Soviet border guards last night shortly after he was freed from a Hungarian jail for 12 days. When he reached the border, a Soviet patrol told him his papers were not in order. U. S. officials in Vienna promptly asked the Russians to release Jacobson.

The U. S. appeal was made

through a military liaison officer to Russian headquarters here, but no reply was forthcoming immediately.

Russian troops held Jacobson as he crossed from Hungary into their occupation zone at the Austrian frontier town of Nickelsdorf.

Informants in Hungary said Jacobson lacked the necessary travel permit for going through the "Ruskin route." All U. S. legal efforts were being made to obtain the four-power pass as quickly as possible.

The 57-year-old Jacobson, director of the library of the American Legion, Air Corps Reserve, Baptist Church, Masonic Order, Seminole County Junior Chamber of Commerce, State Democratic Executive Committee, Veterans of Foreign Wars, and United World Federations.

GOVERNOR RESTS

TALLAHASSEE, Dec. 28.—(AP)—Governor Warren is "resting comfortably" at the Tallahassee Memorial Hospital today after spending a "very good night."

He returned to the hospital Monday to continue recuperation from "physical and nervous exhaustion." He had had the best part of two weeks to stay over Christmas with his wife and relatives.

When she returned the fourth little girl's hands were bleeding and a small mongrel dog, the family pet, was licking the wounds. Mrs. Martinis said she believes the dog frightened the rats away.

His physician said the Governor needs "several more days rest."

VETERANS AFFAIRS

TALLAHASSEE, Dec. 28.—(AP)—The State Department of Veterans Affairs has no right to employ workers to deal solely with members of a particular veterans organization. Attorney General Richard Evin ruled yesterday.

He told state service officer Melvin T. Dixon the department may cooperate with veterans' groups, but "such cooperation could not be carried to the extent of paying the salaries and expenses of persons who represent many a private veterans' organization and whose dues are paid only with the money of the private veterans' organization in question."

NEW YORK, Dec. 28.—(AP)—Winston Churchill — Time Magazine editors say — is the "man of the half-century."

The portrait of the wartime British Prime Minister by American artist Ernest Hamlin is on the cover of the Jan. 2 Time which contains a 16-page supplement "The Half-Century."

White House Officially OK's New Indonesia

H. Merle Cochran Is Named Ambassador To New Republic; Truman Ends Rest

WASHINGTON, Dec. 28.—(AP)—The United States today formally recognized the new government of Indonesia.

H. Merle Cochran was named as the first ambassador to the republic.

The White House announced that Cochran has already presented his credentials.

As US representative of the United Nations Commission for Indonesia, Cochran had a major hand in bringing about the agreement that created the new republic in the East Indies.

Cochran has given up his UN post and also his post as ambassador to Pakistan to take over his new duties.

President Truman is appointing Edward H. Dowd, Jr. of Nebraska as acting U. S. representative to the Commission for Indonesia.

The White House announced that Mr. Truman is appointing Avra M. Warren of Maryland as ambassador to Pakistan.

Edward H. Dowd, Jr. of Nebraska is now ambassador to the UN.

The White House press corps, however, did not know who would succeed Warren at Helsinki.

However, responsible State Department informants said they thought John M. Cabot, Jr. of New York would be chosen general at Shanghai for the last two years.

Power Company Plans Expansion Program In 1950

More Than \$18,000,000 To Be Spent Next Year On Facilities

MIAMI, Dec. 28.—(Special)—Confidence in Florida's outlook was the keynote of an \$18,000,000 construction program for 1950 announced here by McGregor Smith, president of Florida Power and Light Company.

The utility's 1950 plan has a "double-barreled" objective, Mr. Smith said. They include extensive improvements and enlargement of present facilities to improve still further the service to present customers, plus major additions to power plants, substations and lines to serve new customers, some 10,000 of whom he confidently expects the utility to gain during the year.

We intend to push our construction program to keep ahead of Florida's continued growth," Mr. Smith said. "Florida is achieving better rounded economy than ever before in its history. Interest in the state's industrial possibilities, its increasing popularity as a year-round resort, the tremendous boost to the citrus industry from frozen concentrated orange juice and the high output from tourism and development of other fields, all help develop an economy that is sound and expanding. We expect a continuing substantial population growth to the border," he said.

A communiqué from the Hungarian Ministry of Interior said Jacobson lacked the necessary travel permit for going through the "Ruskin route." All U. S. legal efforts were being made to obtain the four-power pass as quickly as possible.

Sea-Going Fish Cannery May Be Sold By U. S. To Foreign Concern

WASHINGTON, Dec. 29. — (P) — The government has asked the fishing and canning industries what to do about its big—and highly controversial—factory ship, the Pacific Explorer.

The Maritime Commission recently asked would-be buyers to submit bids for the vessel.

The highest offer, \$120,000, came from a Tangiers, North Africa, operator.

Highest domestic offer was \$45,600 from a Seattle concern.

And, if the vessel—equipped to catch, can and freeze fish—is sold to a foreign concern the product may turn up in competition with the U. S. fishing industry for U. S. markets.

Then, too, the government spent \$400,000 in 1945 to convert the 8,000-ton, 401-foot World War I steel vessel for fishery work.

The Reconstruction Finance

subsidy."

From March to July, 1948, the Explorer operated in western Alaskan waters. It processed almost 400,000 King crabs and more than 1,800,000 pounds of bottom fish. Since then it has been in dock at Astoria, Ore.

A. W. Anderson, chief of commercial fisheries for the Fish and Game Service, told a reporter that at the result of the Maritime Commission's action he has asked industry for an opinion on disposition of the ship.

The National Canners Association and the National Fisheries Institute said they are studying Anderson's request.

"At those bids, it looks like the government is taking an awful shellacking," commented Charles Carr, an official of the cannery association.

Carr added that if the vessel is sold to a foreign concern, it may turn up again in the tuna or sardine fisheries, competing with U. S. operators for the U. S. market.

TODAY'S BIBLE VERSE

Nothing but our memories. Good
or bad they are eternal. Bad
memories carry feverish torment.
Kindly memories gloriously enrich
life. We brought nothing into this
world and it is certain we can
carry nothing out.—Tim. 6:7

Don't forget that The Herald
will publish a paper this coming
Saturday (get your copy in early),
and no paper on Monday.

We don't know how you feel
about it, but we are delighted with
the appearance of the new swimming
pool. It is much bigger and
nicer than we had anticipated. It
is quite an asset to the city.

An eminent psychologist, Dr.
Lawrence Averill, of Worcester,
Mass., says: "Comic books make
children behave like their parents,
and that is bad." He might well
have said that parents make children
behave like comic books, and
that, too, is bad. However, there
are some ideals which must be preserved in the dealings of
nations. It is time for the United States to decide what its
ideals are, and uphold them.

Keeping Ideals

Three years ago Americans were shocked and enraged
when the new Yugoslavia of Marshal Tito arrogantly shot
down three unarmed American military transport planes,
killing five Americans. Today, it appears, Marshal Tito has
become our bosom companion, our old and esteemed friend.

This sentiment has progressed so far that a remark by
President Truman, sending off the new ambassador to Yu-
goslavia, to the effect that the United States is opposed to
aggression against any country, was interpreted by some
commentators as a "warning" to Russia not to attack Yu-
goslavia. There is nothing to indicate that the Tito govern-
ment has become any less communistic, any less totalitarian
or any more democratic than it was three years ago. Yet
now we seem to have embraced it.

A similar sentiment is struggling for strength in the
case of Spain. The Franco government was so distasteful to
Americans that we sponsored a United Nations resolution
recommending that all free nations withdraw formal re-
cognition. That government has not changed its character
for the better in any respect; yet now there is a subtle and
growing movement in favor of a proposal that the United
States extend formal recognition to France, in violation of
a United Nations policy which is largely of our own making.

To be sure there is no special reason why we should
single out Franco's government for reprobation, when we
maintain a pleasant official relationship with Argentina,
whose government is just in exactly the same Naziified,
totalitarian, evil pattern as that of Spain. We rub elbows
with Argentina; we scorn Spain again when its military
position suddenly achieves a certain small importance.

It is small wonder that other nations find the United
States a friend of doubtful constancy. How can they know
what strange turn our diplomacy may take tomorrow? There
are some ideals which must be preserved in the dealings of
nations. It is time for the United States to decide what its
ideals are, and uphold them.

Helping With Children

Every ten years for the past half-century a child con-
ference has been held in Washington to consider ways of
improving the lot of all American children. Next year will
see the meeting of the Midcentury White House Child Con-
ference; the purpose of which is defined by the chairman of
the executive committee, Dr. Leonard W. Mayo, as being
the consideration of "how we as parents and professional
workers can help develop in children the mental, emotional
and spiritual qualities essential to individual happiness and
responsible leadership."

This conference will take up the physical, economic and
social conditions essential for this development. Included for
the first time will be young people from various youth
groups whose opinions will be considered. The first result
of this meeting will be a printed report which is expected
to offer parents practical help with the problems of child-
rearing.

The idea that the nation's children are in a broad and
general sense the nation's responsibility is a fairly new con-
ception. The old notion that each family was a self-contained
unit has, with improved communication and transportation,
expanded to include the national family and the world
family. The primary responsibility still belongs to the family,
however, and while the democratic state it may remain
there. It is disastrous for the family to abdicate its respon-
sibility to the community, as well as for the community to
fail in its responsibility to the family.

The Decorative Mood

"The bland occasional chair may be moved easily to
suit the decorative mood," said a line under a picture in a
newspaper's interior decorating department.

Now, at last, we have the word for it. When the Little
Woman moves everything around into strange places in the
room has a queer and unaccustomed look, it is because the
Decorative Mood has come upon her.

We men always kick about this when it happens. But
really, when the room is given a fresh, cheerful and different
look by a woman who has a good sense of form and balance,
why doesn't she like it, too?

Sure we do; but it would never do to let them know
about it.

Seeds Tested For
Resistance To Cold

NEW YORK, Dec. 29.—(AP)—
The Mississippi agricultural ex-
periment station reported today a
new, quick way to discover what
kind of crop plants will stand
the cold.

The report was made to the
American Association for the Ad-
vancement of Science by Dr. G. S. Braun.

The seeds are soaked in run-
ning water for 20 hours. Then
they are frozen. That kills a lot
of the seeds. Those which sur-
vive freezing are the "winter-
hardy" plants wanted by farmers.
By freezing at lower and lower
temperatures it is possible even
to test the few minute plants that
can stand almost any cold. This
hardiness is hereditary, so that it
is not necessary to discover which
seeds to start a new variety.

While Soviet ships have a right to port in St. Thomas for supplies, water and repairs—provided they abide by U. S. port regulations—some Navy people point out that the Caribbean route is the long way around for a vessel on the Europe-Vladivostok run.

It would be shorter, they say, to go through the Mediterranean or the Indian Ocean, and thence up the east coast of Asia.

The specific questions

Also up for decision, according
to some informants, were:

1. French requests for help in

Hollywood

By BOB THOMAS

HOLLYWOOD, Dec. 29 (UPI)— Charles Laughton, home after reading the bible and other books of literature from Canada to Texas, bears this discovery:

"One of the things about the audience I talked to is the fact that I encountered almost no questions about the personal life or scandals or habits of Hollywood stars."

"When people did want some 'inside' information about Hollywood, they were usually students who wanted to know about the technical aspects of film acting or photography or some related subject."

Laughton wouldn't say whether this denoted a general apathy toward Hollywood, in general, or merely a trend away from scrutiny of the stars. At any rate, it should be food for thought for Hollywood correspondents, including this one.

The actor-reader was enthusiastic about his reception with U.S. audiences. He indicated there is a great thirst among Americans, especially young ones, for hearing the good writings of the ages. It is a demand which was satisfied in older days by the Chautauqua circuit, but which has been neglected in modern times.

Laughton spent two hours reading the Bible, Shakespeare, and a play by William James, "Dickens," and other works to his listeners. He performed this fast in 15 towns and traveled 5,000 miles by car. A recent U.S. citizen, he acquired a new respect for American geography.

"Before this trip," he said, "I knew little of the United States, aside from what I saw from a plane or train window. I travel between Hollywood and New York. The tour taught me a great deal about this country, particularly how much there is of it."

"I read before audiences composed of business men, school teachers, bobby-soxers and college students. They had these things in common: a natural affection for good literature, a profound enthusiasm for living theater, and a desire to have made me feel at home wherever I went."

Laughton had only one bad moment during the tour. That came when a drunk began heckling him in Chicago. The actor finally left the microphone and said to the audience: "This man is annoying me; if he is annoying you, why don't you throw him out?"

The audience took the hint and quieted the heckler. Laughton then opened his Bible and chose this selection from proverbs: "Look not thou upon the wine when it is red . . . at last it biteth like a serpent and stingeth like an adder."

Otherwise, the tour ran smoothly. Crowds numbered as high as

\$5,000, the total for the Blooming-ton, Ind., date.

A Tonic For The Missus

The missus came marching in
with a new hat yesterday. She was
so happy as a circus poster.

I've learned one thing about the
hats she buys. A hat is a tonic to
her. If she's feeling blue, nothing
gives her a lift like a new hat.
Now, I could trade in my old grey
fedoras without raising my blood
pressure a notch. But I'll admit
that more than once I've bought a
new briar pipe I didn't need—just
because life was getting a little
bit monotonous.

With Buck Howell it's something
else again. When Buck is feeling

low, he gets over it by blowing on
a broken-down clarinet he hasn't
mastered in twenty years.

From where I sit, different peo-
ple are going to respond to
different things in different ways.
So let's keep a friendly under-
standing of what other folks get
out of a new hat, an old clarinet,
a chocolate soda or a temperate
glass of sparkling beer or ale now
and then.

Oklahoma Wins All-College Tourny For First Time; Miami Beats Penn

OKLAHOMA CITY, Dec. 30.—(AP)—Oklahoma City University, which helped originate the all-college basketball here 14 years ago, could not win the opening rounds, finally won the title in its seventh attempt.

In the battle for third place, Oklahoma A&M easily downed Arkansas 57-33. The Aggies, defending champion, lost to Oklahoma City, 57-56 in the semifinals.

OU's Farrel Craig, a 6-10 junior, was named tournament's outstanding player by coaches, officials and sports writers.

Texas trounced Baylor 49-41 for the consolation trophy yesterday and Vanderbilt stopped Alabama 53-44 for seventh place.

In New Orleans, Kentucky came from behind in a one-minute climax that carried them to a 57-56 overtime victory over Villanova last night and to the Sugar Bowl finals against Bradbury.

It was Villanova's first defeat in eight games and the first one-point victory in Sugar Bowl history.

Bradley coasted to the finals by trouncing helpless Tulane 78-46 in the first game of the tournament double-header.

Tulane and Villanova play to-night in a consolation game that opens the double-bill at 7:45 P.M.

University of Miami's fast-breaking basketball team survived a desperate comeback by the University of Pennsylvania to win its fifth straight game, 64-62, before 2,472 fans at the Coliseum last night.

It was Penn's second straight defeat of its Florida invasion. The Lions lost to the University of Tampa, 57-53, Tuesday night. Miami and Penn play again tomorrow at 7:45 P.M.

Losing 42-52 with three minutes and 20 seconds to go, the Hurricanes almost saw the deadly marksmanship of Herbert Lyons overshoot them.

After Capt. Phillips Harman had pumped in two field goals to ignite the comeback, Lyons scored six points in the final 90 seconds, twice stealing the ball and hitting the hoop.

Work Started On Navy Tennis Court

Street Superintendent Sid Rilchard yesterday took the first steps toward the improvement of two cement surfaced tennis courts at the Municipal Airport immediately west of the New York Giant headquarters building.

In addition to sealing up and smoothing over the cracks on the court surface a mesh wire fence, 12 feet high will be erected around the courts. Mr. Rilchard estimated that the work can be completed within a week.

The cement of the court is light green in color. Lines of the court are built in and will be painted white. About 50 four inch posts, 12 feet high, will be necessary for the enclosure.

La Motta May Lose NYBC Boxing Crown

NEW YORK, Dec. 30.—(AP)—The date of the dual middleweight championship may be on the way back.

Jake La Motta isn't keen about meeting the Feb. 1 deadline set up yesterday by the New York Boxing commission for him to sign for a March defense. The "Bronx Bull" says he won't be ready until June.

Chairman Eddie Eagan of the New York Commission won't wait until June. He has decided to keep Jake La Motta in the title picture by setting up a tournament among the four leading challengers. He didn't name the contenders.

That leaves the door open for Jake to be stripped of his New York title but still remain it in the National Boxing Association stakes which do not always co-operate with the New York Commission.

Penn State To Meet Carolina In Dixie Finals

Pennsylvania Trims West Virginia In Surprise Upset, 46-41

RALEIGH, N.C., Dec. 30.—(AP)—An upsetting crew and the tourney favorite square off tonight in the championship finals of the Dixie basketball classic.

Penn State, twice a surprise winner in the final annual classic, comes up against host North Carolina State, which had been figured all along to be one of the finalists.

The Pennsylvania club swept into the title match by knocking off West Virginia, 46-41, last night after second seed Arthur Larsen of Georgia Tech, 57-34.

The championship clash will bring together two of the biggest crowd-pullers in the tourney—Penn State's Joe Tocci, a five-foot-seven, 150-pound forward who stole the game from West Virginia, and N. C. State's forward Sammy Ranino, who rang up 50 points in the Wolfpack's two victories.

The title game will be run off at 9 P.M. following a 7:30 P.M. clash between Penn State's Lee P. Just and Georgia Tech's third place.

The final program of the three-day event got under way with two afternoon games. The opener Duke and Wake Forest in a battle for seventh place, with Rhode Island State and North Carolina following for fifth place.

North Carolina gained the consolation flunks by upsetting Duke, 60-52, last night. Rhode Island State whipped Wake Forest, 81-67.

N. C. State's hard-driving Wolfpack was just too strong for Georgia Tech. Ranzino and Dickey alternated in a shooting outburst to give State a 10-lead after four minutes. The Wolfpack had honored the edge to 32-21 by half-time.

After running the margin to 24 points, at 40-26, the Wolfpack cut the pace and coasted in Tech could manage only three field goals in the second half.

Mickey's Village Boy Wins Piney Woods

It was the 20th win for the entry, owned by J. D. Rovick of Monticello.

Second place was taken by champion Stilla Sam, owned by Lester Varn of Jacksonville. Association rules state that the open rules of play and provides trophies.

Separate flights will be held for boys and girls, Cowell said.

Team championships and medals will be chosen on the qualifying rounds on the opening day. Match play will follow.

The tournament was held last year in Miami with 50 boys and one girl participating.

Mulloy, Flam To Battle In Sugar Bowl Net Finals

NEW ORLEANS, Dec. 30.—(AP)—Gardnar Mulloy and fourth-seeded Herbert Flam meet today for the singles championship of the Sugar Bowl tennis tournament.

Flam, the number one seeded Miamian, advanced to the finals as expected, but Flam's entry came after a 6-4, 8-6, 6-3 upset over second seeded Arthur Larsen of Georgia Tech, 57-34.

The champion, the Cinderella team of the tournament, upset Wyoming 36-35 in an overtime game last night. The score was 32-32 at the end of the regulation game.

In the battle for third place, Oklahoma A&M easily downed Arkansas 57-33. The Aggies, defending champion, lost to Oklahoma City, 57-56 in the semifinals.

OU's Farrel Craig, a 6-10 junior, was named tournament's outstanding player by coaches, officials and sports writers.

RUN BOWL
EL PASO, Tex., Dec. 30.—(AP)—Coaches for Georgetown University and Texas Western scheduled double workouts today to whip their squads in shape for the Sun Bowl game Monday.

Single drills for both teams are slated tomorrow and Sunday.

Tentative starting lineups announced last night by the two coaches show Georgetown with a weight edge of at least six pounds, most of it in the backfield. The westerners' line will have a half-pound advantage.

The Tigers use a single wing-back and the Admirals operate from the T-formation.

Oklahoma, LSU End Drills For Sugar Bowl Tilt

Powerful Opponents Took Opposite Paths To Bowl Classic

NEW ORLEANS, Dec. 30.—(AP)—Oklahoma and Louisiana State University followed far different paths to winning football, and their meeting in the Sugar Bowl Monday is a major oddity.

Coach Bud Wilkinson's Oklahomans opened the season with a reputation of being one of the great teams of the post war years. Nothing happened all season to detract from that reputation.

Theirs was a case of having everything and proving it 10 straight times.

LSU ranked very near the bottom of an unusually weak Southeastern Conference. And after losing twice to Kentucky and twice in the first game, the team's enthusiasm was about dead even, except with players and coaches. But just before mid-season LSU whipped North Carolina 18-7.

From then on the Tigers came from nowhere to the Sugar Bowl—a trip unmatched.

With the exception of the very modern split "T" formation, the Oklahoma team plays like a power of the pre-passing era.

Oklahoma averaged throwing only three times per game—a paddling number in this day of high flying formations.

LSU produces its powers from a plain "T" and believes in running with a passion. Seventeen per game is the LSU average.

Each team played 10 games. Oklahoma scored 328 points to 226 for LSU, but in allowing points they were much closer against Oklahoma to 74-72.

Again Oklahoma by far gained the most in rushing—3,203 yards to 2,418. LSU was the most potent in passing, but by only 22 yards even though LSU completed 11 more throws.

Boaz Takes Ruth To Be His Wife And Bore Him A Son Named Obed

AP Newsfeatures Writer

Now there was a boor in the land. And a certain man went to sojourn in Moab, he Edimelch and his wife Naomi, and his two sons Mahlon and Chilion. And they came into Moab, and continued there. And Naomi's husband died. And her two sons, the wives of the world, were of Moab, named Orphah and the other Ruth; and they dwelt in there about ten years. And Mahlon and Chilion died also; and the woman was left of her two sons and her husband.

Then she arose to return unto her land. And Naomi said to her daughters-in-law, "Go, return each to her mother's house. The Lord grant that we may find rest each in the house of her husband." Then she kissed them, and they lifted up their voices and wept. And she said unto her mother-in-law, "Go back unto thy mother's house." And she said, "Behold, I will hold, thy sister-in-law is gone back, return thou after thy sister-in-law. And Ruth said, "Entreat me not to leave thee, or to return from following after thee; for whither thou goest, I will go; and where thou lodgest, I will lodge; the people shall be my people, and thy God my God. Where thou dost, will I die, and there will I be buried. The Lord go to me, and never also let me go out of death, part from me."

So there went out and came Ruth before him in the beginning of barley harvest. And Naomi had a kinsman of her husband, a mighty man of wealth, and his name was Boaz. And Ruth the Moabitess said unto Naomi, "Let me go and glean ears of corn after the reapers." And she said, "Go, my daughter; go, thyself." And Ruth said, "I will go to thy field, and lay me down near thee, and thou shall tell me where thou shalt lie down." And she said, "All that thou sayest, do."

And she went down unto the floor, and did according to all that her mother-in-law had said. And at midnight, the man turned and behold, a woman was at his feet. And he said, "Who art thou?" And she answered, "I am Ruth, thine handmaiden. Since then have thy servants looked unto thy kinsman, and found him kindred." And he said, "Blessed be the Lord, my daughter; for thou hast shewed more kindness in the latter end than at the beginning, inasmuch as thou followest not young men, whether poor or rich. And now, my daughter, fear not; I will do to thee all that thou requirest, in all the city of my people, that thou art." And then she said, "I am a Moabitess."

And Boaz said, "I will do for thee, and will keep thy name before all men."

And Boaz came, and said to his servant that was set over the reapers, "Whom dost thou see this?"

The servant answered, "It is the Moabitish damsels that came back with Naomi out of Moab."

Then Boaz unto Ruth, "Hast thou not, my daughter?"

"No, I have not, my daughter."

"Thou shalt not go after another man; to me thou shalt be given."

And Boaz said, "Behold, Ruth, thou art this day a kinswoman to me, and to me shall be thy name in Israel."

And he said, "Behold, I will make you a name in Israel, and you shall be known as the mother of a
