First Local Game Will Be Played Tonight

Seventh Inning Spree Gives Locals Lead

Waller Tosses Nine Innings As Sanford Gets 15 Hits Off DeLand Hurlers

More than 900 people jammed Conrad Field stand in DeLand today to watch the Sanford Lookouts put on a seventh inning home run spree to blast the Red Hats and revenge a 14-3 opening day defeat handed them here on the opening day of the 1939 season.

The Lookouts, garbed in their new red uniforms, clubbed DeLand pitchers Tomes and Harrison for 14 safeties in seven innings, and then climbed aboard the home run spree to blast the Red Hats and revenge a 14-3 opening day defeat handed them here on the opening day of the 1939 season.

Baseball Makes Regal Return In Major League

Roosevelt To Toss Ball In Yankee-Washington Fray

NEW YORK, Apr. 17.—(AP)—Baseball, 100 years old and some say older, makes a regal return this week to its major league company.

Two games today, weather permitting, will sound a fanfare for the 1939 centennial season's general broadcast today.

With President Roosevelt pitching for the people, the world champion New York Yankees will inaugurate the American league campaign against the Senators of Washington, while the Pittsburgh Pirates and the Cincinnati Reds will lift the National league drapery at Cincinnati, birthplace of professional baseball.

100 Years Old Better Than Ever

ALL OVER the United States the centennial anniversary for America's favorite sport is being celebrated. The Sanford Lookouts will also participate in this observance.

Lookouts To Meet Red Hats From DeLand In Initial Game At Municipal Field

Mayor Edward Higgin, and the Campbell-Lewis Legion Band of the Legion Drum and Bugle Corps will be on hand for the opening ceremonies to be held 15 or 20 minutes before the Red Hats take the mound against the DeLand Reds at 8:00 o'clock this evening.

The Sanford Lookouts, who yesterday opened DeLand's opening 14-4, will probably be faced by the second team in taking the mound yesterday. Balknap Manager Alexander plans to use much the same line-up in tonight's game as he used in DeLand yesterday. That line-up includes Red Lane behind the plate; Alex on first; Barnett on second; Marion stop third; with Campbell slated to hold down the shortstop post.

Louis To Meet Roper In Los Angeles Go Tonight

LOS ANGELES, Apr. 17.—(AP)—Prize-battle oratory blared forth around the rival camps of Heavyweight champion Joe Louis and Challenger Jack Roper yesterday as the stage was set for their 10-round title fight tonight at Wrigley Field.

The Brown Bomber spent the day resting, which in his language means sleeping, and was pronounced in perfect shape for the sixth defense of the crown he battered off the aging brow of James J. Brodock in 1927.

Roper, a grim visaged fighter with a knockout punch in his left hand, a world of courage in his heart, and a decidedly sly character behind him, drove into Los Angeles after training for six weeks at Roper's ranch north of here.

Baseball Schedules Tuesday

Full schedules Tuesday are likely to attract an additional 200,000 fans to the ball parks of the eight other major league cities.

In the American league the Boston Red Sox will be at New York, Washington at Philadelphia, Chicago at Detroit, and Cleveland at St. Louis. In the National League Cincinnati goes to Chicago, the Phillies to Boston, the New York Giants to Brooklyn and St. Louis to Pittsburgh.

The fans as well as the players have been conditioned by two months of training camp fan and fact. All agree point toward baseball enjoying, if not a second childhood, certainly a very nice summer.

P.-T. A. Women And High School Play On Tuesday

Two diamondball games have been scheduled for tomorrow night which will bring together the women of the Seminole High School P. T. A. with the members of the faculty of the same school furnishing the competition, according to officials of the Recreation Committee of the Seminole County Chamber of Commerce.

The second game of the evening brings together a picked All-Star squad and the city diamondball loop champs, the Coca-Colas in a post-season game.

G-Men Take 7-2 Win From Daytona Beach

GAINESVILLE, Apr. 17.—(AP)—Whitney Davis, working on the mound for Gainesville, won his own game here yesterday afternoon by driving in five runs as the local club defeated Daytona Beach 7 to 2, in one of the four opening contests of the Florida State League.

Davis, besides holding his opponent to only four hits, slammed out a double, a triple and a single out of four trips to the plate.

Orlando Takes 5 To 0 Opener From Leesburg

ORLANDO, Apr. 17.—(AP)—Ken Kasper, 23-year-old Atlanta boy, wove three-hit mound magic with his elastic pitching arm as 1,100 rabid rooters, second largest crowd in Orlando's modern baseball history saw Orlando get away to a 5-0 opening victory over Leesburg in Florida State League play yesterday at Tinker Field.

Kasper's exhibition was the outstanding mound display since "Lefty" Brewer of St. Augustine pitched his no-hit, no-runner in the local ball orchard early last Summer. With a little luck, Kasper might have duplicated Brewer's performance.

Husband And Wife Could Avoid Many Petty Squabbles

LOS ANGELES, Apr. 27.—(AP)

The petty squabbles of married life could be avoided, says Dr. Paul Popenoe, if husband and wife would regard their household more as a business enterprise.

For eight years Dr. Popenoe has been trying to unravel domestic tangles in Los Angeles, and he is a divorcee. He is director of the Institute of Family Relations.

"If you're a partner in the business of running a home and managing a family," he says, "you can't afford to spend your time bickering with the other partner."

He draws on a long career as writer, lecturer and consultant on sex and family problems to lay down a five-point program of harmony.

"First comes a division of labor," he says. "Divide the responsibility so that most of the jobs can be done without confusion. Life is too short to discuss every trivial point."

"Second is the matter of efficiency. If we devote half as much effort to making a success of marriage as we do to making a success of our business there would be few divorces."

"Start with a budget. You'll not always live up to it, but it will help. If a man has to keep his wife ignorant of the family's financial affairs, there's something the matter with her. If he does so without necessity, something's the matter with him."

"Many a young woman secretly tries to handle her share of the partnership efficiently. She lies in bed late, gets into the kitchen in pajamas and scrapes the least while her husband is drinking weak and lukewarm coffee. She is always 'out of something' until her husband is correspondingly out of patience. She's a loafer, a slacker, a parasite."

"Many a young man on the other hand is so stingy—or perhaps so extravagant—that no wife can manage his home successfully. He'll spend money on hours of horse racing, but raise the roof when informed that 'baby needs new shoes.'"

"Such homes can't have any morale. They're the breeding place of squabbles."

"Third, avoid nagging. For a definition, let's say nagging is to mention the same criticism twice in the same conversation. Most of the bickering in family life would be avoided if husband and wife were as polite to each other as they would be to strangers."

"Fourth, take an annual inventory. Not a faultfinding session, but take stock yourself, privately, at the beginning of every year."

"Make a complete review of your partner's faults. Write them all down in a column. You may be surprised that there aren't as many as you thought there were. In a parallel column list many of the good things that he or she does for you. Most of the world probably note in you. Make up your mind how many of your own faults you can correct and correct them. Decide how many of your partner's faults are really due to you."

"Then burn the paper and don't ever mention it to anyone."

"Fifth, strive for good mental hygiene. Anyone finds it hard to be good natured, courteous, patient and unselfish when fagged out or worried or fearful."

"Don't let your marriage settle down. Keep yourself fresh, interested in a lot of things, and cheerful in conversation."

"Most of the bickering in family life would be avoided if husband and wife were as polite to each other as they would be to strangers."

"Don't let your marriage settle down. Keep yourself fresh, interested in a lot of things, and cheerful in conversation."

A GOOD CUP OF COFFEE EVERY TIME YOU TRY.

By Katharine Fisher, Director of Good Housekeeping Institute

Michael Angelo said that trifles make perfection—but perfection is no trifle! So it is with coffee making. A good cup of coffee can be made every time you try—but only if you will remember a number of seemingly small but vastly important things which enter into the process. Should you forget about them, it will only be luck if your coffee isn't too weak or too strong, cloudy or bitter. Here are the rules of good coffee making, rules that have been carefully checked and rechecked by months and months of research by coffee experts in our own Good Housekeeping Institute laboratories.

Be sure your coffee is fresh. The coffee you use, whether in the bean or ground, must be fresh. Be sure you know when the coffee you buy was roasted, or that it is vacuum-packed. In the case of coffee which is not vacuum-packed, if there is a date on the container it should be within a few days of the date of purchase.

Select coffee with flavor you like. The price of coffee varies according to the cost of the different coffees that make up a particular blend. The flavor also varies with the blend, so you may find it necessary to try several brands before you find one that appeals to your particular taste. Buy a brand with a name you know, and stick to it.

A universal grind makes good coffee. Usually it isn't necessary to ask your grocer to grind or re-grind coffee to suit the coffee-making device you use. If a universal grind is available, it will be satisfactory for any type of coffee maker. If the brand you prefer does not have a universal grind, buy a percolator or a drip coffee maker, and a drip grind for drip-coffee makers.

Don't mix fresh coffee with stale. It isn't necessary to transfer coffee, after you bring it home, to another container. In doing this you may impart the flavor of the fresh coffee by mixing it with coffee left in the container.

Keep coffee maker clean. Your coffee-making utensil should be scrupulously clean. Coffee oils have a habit of clinging to the inner surfaces of utensils and eventually give off an unpleasant starchy flavor to the coffee made in them. Thorough washing in warm soaps and thorough rinsing in clear hot water after each use will remove traces of the coffee oil. You can buy a small brush to clean spots and the tubes of percolators.

At least twice a month give your coffee maker a more thorough cleaning. Porcelain, enamelware or glass utensils should be cleaned by boiling in a solution of one tablespoon of washing soda or borax to each quart of water. If you wish, you can fill such a coffee maker with the solution and let it boil. If the appliance cannot stand such heat, let it soak in a dishpan full of this hot solution. Bases of coffee makers in which there is an electric heating element must never be immersed in water. Percolators can be filled with either of the foregoing solutions; the application of heat will clean the tubes. Be sure to rinse thoroughly after cleaning with any solution. And when the coffee maker is not used, keep the cover off so it can "air."

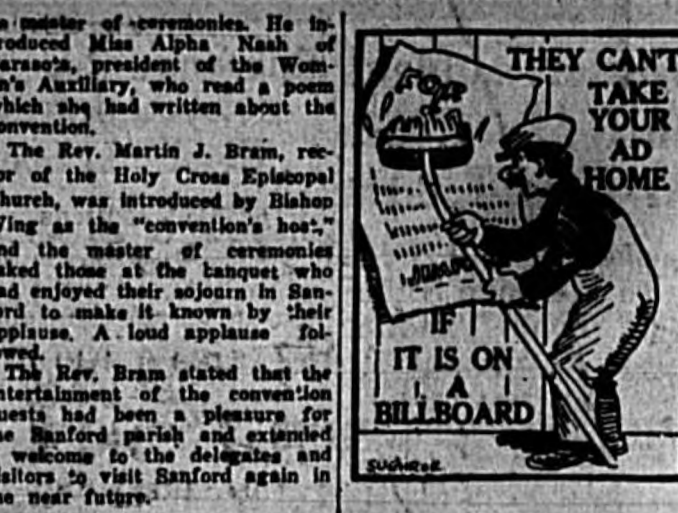

Use standard measure in making coffee. Now we come to the actual making of the coffee. For a brew which suits many people, use two level standard measuring tablespoons of coffee for each half standard measuring cupful of water. These proportions hold good for all methods of coffee making. If you prefer some other strength, determine your own proportions and stick to them. If you do not measure carefully, you will have coffee that may taste very good sometimes and very bad at other times.

Dr. Guerry Cites Need For Keeping Dignity Of Man

(Continued from page one)

The Rev. Martin J. Bram, rector of the Holy Cross Episcopal Church, was introduced by Bishop Wing as the "convention's host," and the master of ceremonies looked those at the banquet who had enjoyed their sojourn in Sanford to make it known by their applause. A loud applause followed.

The Rev. Bram stated that the entertainment of the convention guests had been a pleasure for the Sanford parish and extended a welcome to the delegates and visitors to visit Sanford again in the near future.

Beans and Pumpkin Seed Become Jewels

By ABELARD BERR

"By Abelard Berr, who goes to the country to find the Spring's most unusual fashion accents."

Gardens, fields and rural lanes have yielded materials and inspirations for unusual fashions. Lawnmowers and other things that put combinations of color on smart town clothes.

Familiar words and very basic, give hints for the new fashions. These are the things that you see in the country and that you see in the city. They are the things that you see in the country and that you see in the city. They are the things that you see in the country and that you see in the city.

ed pumpkin seeds also are made into gay little buttonieres in a colorful splash to a suit lapel.

Flowers and fruit-artificial versions of the garden, field and orchard varieties—make accents of other interesting new accents for this Spring's clothes. You may wear a little cluster of yellow lemon-red field strawberries or apple blossoms centered with a round red apple on your suit lapel this Spring. Or if you want to stick to flowers, there are accents of smart white clusters—snow-drops, lily-of-the-valley and lilies of the valley, to repeat the tone of your white checked suit.

But the most amusing trick with flowers are those done on hats and heads. Chanel puts a white poppy flower on the back of a daytime glove and a bouquet of pink roses on the back of a black net wrist-length glove for evening wear.

A smart Parisian repeated the color of the ruby necktie and wore with a white evening gown in a black bracelet five wide and studded with red emeralds. A chic New Yorker appeared at a New York Spring party wearing gold flower earrings to the top of her head. The other in the job.

Other New Yorkers are going places with clusters of gay blossoms clipped to the fabric turbans so much in evidence this Spring. One of them wears three clusters of field flowers (poppies, cornflowers and wheat) clipped in a dark blue fishnet turban and another accents a white chiffon turban with white gardenia buds.

Pension Act For Teachers Goes To Cone

House Approves Measure By 73-15 Vote; Governor Not Expected To Veto It

Funds Earmarked For Deficiencies

Graham Says Probe Of Racing Has Only Scratched Surface

WASHINGTON, Apr. 28. (AP)—The Florida Legislature today sent to Governor an act setting up a retirement plan for the State's 12,000 or more school teachers.

An organized majority whipped down amendments and pushed the Senate-approved measure to approval in the House 73 to 15.

Speakers said the 1939 bill contained only minor changes from the 1937 measure, but they predicted the Governor would not veto it.

The new bill was introduced and passed without effort to amend it.

The act sets up a system of retirement based upon the length of a teacher's service and maximum payments to be \$40 monthly.

The House adopted a Senate resolution earmarking \$300,000 to make up deficiencies in the Confederate pension fund.

Senator Graham of Miami, reporting on his committee's investigation of Florida racing, told the Senate he expected to prove Tropical Park at Miami "is owned by two of the biggest gangsters in the United States."

So far, he said, the investigation has only "scratched the surface."

The investigation is now in a recess until Thursday.

Cooper Is Named To Committee On Taxes

Walter O. Cooper has been appointed to represent Seminole County on the national committee on real estate taxation of the National Association of Real Estate Boards, which will be composed of representatives of every state in the country, and some 60 of the larger cities.

For the purpose of improving the tax structure, the committee will study the tax laws of every state and report back to the National Association of Real Estate Boards.

Cooper is a member of the National Association of Real Estate Boards, and has been active in the organization since its formation in 1922.

St. Johns Canal Project Forwarded By Col. Watkins

NEW YORK BOUND

The project for the construction of the St. Johns-Indian River Canal and the recommendations of District Engineer Lewis H. Watkins have been forwarded to the Division of Army Engineers' office in Richmond, Va., according to information received today by local officials of the St. Johns River Improvement Association.

Endorsement of the project by the division office is merely routine, those interested, expressing a belief that the project given the approval of Julian L. Schley, chief of the U. S. Army engineers, could be introduced in this session of Congress in time to receive an appropriation.

Local officials of the St. Johns Improvement Association expressed confidence that the project would be given early approval by the chief of the South Atlantic Division, Col. J. J. Bais, and also by Gen. Schley, both of whom have visited here and are familiar with the project.

Gen. Schley visited here several months ago with Col. Watkins and the two engineers studied the project in detail with Senator Charles G. Andrews, also Fred T. Williams, H. James Gut, Ralph Hogwell, and other officials of the St. Johns Improvement Association.

At the hearing which was held on the project, much interest was evidenced by representatives from all over Central Florida and in their testimony before Col. Watkins which was also submitted with the project, praised the merits of the proposal.

Both Senator Pepper and Senator Andrews have pledged their support, it was pointed out, and Congressman Lee Hendricks has announced that he has prepared a bill seeking an appropriation of more than \$2,000,000 for construction of the canal from Sanford in the east coast, in the event it is given the approval of the U. S. Army engineers.

President Asks Huge Amount To Continue Relief

Program Would Provide For 2,000,000 Jobs Through WPA

WASHINGTON, Apr. 28. (AP)—President Roosevelt yesterday asked Congress to appropriate \$1,722,000,000 for relief activities during the 1940 fiscal year, \$1,477,000,000 of it to go to the Works Progress Administration to provide for 2,000,000 unemployed, 1,000,000 fewer than the average enrolled during the past fiscal year.

He pointed out in a special message that his WPA recommendations call for about one-third less than the \$2,250,000,000 appropriated this year, which is maintaining an average of 2,000,000 persons on the relief rolls until June 30.

In addition to the WPA bill he asked \$123,000,000 each for the National Youth and Farm Security administrations which, he said, should be expected, with special emphasis on assistance for needy young people.

The President's message ran \$200 million more than that devoted to justifying the administration's relief policies, challenging critics to put forward a more constructive program, and sharply attacking Germany and Italy, which have not most of their unemployed to work manufacturing armaments.

Roosevelt denounced suggestions that the proper way to handle the unemployment problem is to let the market take care of it, and that the government should not be involved in relief work.

He said the government has a duty to provide relief for the unemployed, and that it is the responsibility of the government to see that the unemployed are not left to starve.

The President's message was the most detailed since he took office in 1933, and it was the first time he has asked for a large increase in relief spending.

The President's message was the most detailed since he took office in 1933, and it was the first time he has asked for a large increase in relief spending.

Bill Would Give Counties Debt Interest

Proposals To Repay Money Spent For Roads From Gasoline Tax Get Okey

A bill, given the endorsement of the Seminole County Board of County Commissioners, which would reduce the payment to counties of funds from the gasoline tax revenues by repaying them interest on money borrowed for the construction of roads and bridges, was unanimously endorsed in Tallahassee yesterday by the House Finance and Taxation Committee.

Another bill which County Attorney E. F. Housholder said the County Commissioners would likely support is a measure which the House committee also endorsed, covering tax money and borrowed money spent by the counties on roads which were not a part of the state highway system in 1931.

These bills, County Attorney E. F. Housholder said will give back to the counties millions of dollars they have spent in building public roads.

In Tallahassee, Speaker Wood appeared before the committee yesterday to give his personal endorsement to the measure. He was a leader in the original law in 1929 and 1931 which resulted in the present method of repaying counties for building roads which became part of the State Highway System.

Wood said the bills would not interfere in any manner with the \$107,688,461 due to counties under the 1931 law. Of this amount, \$50,738,419 was repaid up to July 1 of last year and \$56,949,442 remained due. Some counties will not receive their final payments until after 1936, but several counties already have received the amounts due to them under the 1931 law.

The two new bills, Wood said, are "extensions" of the original plan, because interest payments were not included in the original calculations, and since 1931 every Legislature has designated additional miles of State highways.

One of the new bills would provide for repaying to counties amounts they have spent on any road designated a State road at any time up to and including the 1936 Legislature.

Wood advised House members to contact county officials and get information about such expenditures, and then proceed with necessary bills to designate the State roads, which in the original plan, he said, was designated a State road this year, you will be entitled to reimbursement," he said.

Wood said the designations would cover "any road up to and back as the records go" on which public money was expended.

Committee use their share of the gasoline tax money to pay principal and interest of highway bonds. Representative Burks of Pasco County said the new bills would continue this plan and broaden it to cover obligations not included in the original 1931 act. After bonds are paid, counties may use the money for constructing local roads.

Airplane Club Gives Display Of Models

The Model Airplane Club organized by the Recreation Committee of the Seminole County Chamber of Commerce, has an display this week in the window of Emerick's Hardware Store a group of model planes constructed by the members of the club.

Included in the display are two Glider models, one a tan and the other painted red and yellow, which were constructed by Earl Jeter. Also in the display is a green and yellow Art Glider model, one built by Billy Rowland and a skeleton Glider model by John Bell.

British Naval Pact, Polish Non-Aggression Treaty Ended

By Associated Press
Reichsfuehrer Hitler conditionally accepted today President Roosevelt's proposal of non-aggression pledges for 31 states and cancelled the Anglo-German-Polish non-aggression pact of 1934.

Speaking for two hours and 17 minutes before the Reichstag of Greater Germany, Hitler devoted one-third of his speech to a point-by-point analysis of President Roosevelt's appeal of Apr. 14.

"Specifically we gave an assurance regarding those territories which would give him (Roosevelt) the most cause for apprehension, namely the United States itself and the other states of the American continent," Hitler said.

To the President's appeal for non-aggression pledges for at least 10 years for 31 states, Hitler replied: "The German government is prepared to give to each of the states named an assurance of the kind desired by Mr. Roosevelt on the condition of absolute reciprocity provided that the state which it and itself addresses to Germany a request for such an assurance together with appropriate proposals."

He blamed British "war mongers" for cancellation of the Anglo-German pact which limited the German fleet to 35 percent of Britain's. He cited Poland's calling up of troops as reason for cancellation of non-aggression pact with that nation.

He said his offers to Poland had been rejected. He disclosed they consisted principally of the return to Greater Germany of the Free City of Danzig, and the right to a sovereign German route connecting Germany proper with East Prussia through the Polish Corridor.

Specific assurances of peaceful intent toward the United States and the America's generally were offered by Hitler. He reiterated Germany's demands for her war-lost colonies.

At Hyde Park, N. Y., the White House secretary said President Roosevelt slept through the entire speech. Although earlier White House circles indicated the President would not consider Hitler's speech today a reply to his appeal, the Berlin U. S. Embassy was given a copy of the speech as Hitler's official reply to the President.

In London, Sir John Simon, chancellor of exchequer, declared today it was the "action of Germany" which was responsible for Britain's new foreign policy of firmness.

British naval authorities said they were "unsurprised and undisturbed" by the German renunciation of Anglo-German naval accord.

\$13,000 Bonds Ordered Retired By Commission

City Bond Debt Reduced \$150,000 Since Refunding

The purchase of \$13,000 worth of the City's refunding bonds has been authorized by the City Commission, City Clerk H. N. Sayer said today bringing the total amount of bonds retired since the inauguration of the refunding program to an even \$150,000.

The 12 bonds will be purchased from Cohn Brothers and Guggenheim of New York and the price quoted was 25 7/8. Mr. Sayer said.

All the inauguration of the refunding program two years ago the Commission adopted a policy of retiring bonds as rapidly as funds were available from the levy for debt service, above the amount needed for payment of interest.

The City also has a reserve fund of \$200,000 set up in interest on the accumulated coupons in the event the City is successful in obtaining the exchange of its refunding bonds for the old series.

Stores To Begin Thursday Afternoon Closing On May 4

Achievement Day Is Held In Paola

The 4-H playlet, "Clothes Closet Conversation" was the main feature of the Paola 4-H Club girls' annual achievement day program held Wednesday afternoon at the Wilson School Auditorium.
