## COX AND ROOSEVELT THE STANDARD BEARERS

### STATE ROAD DEPARTMENT AND WORK

DISCUSSED BY EDITOR CODRINGTON WHO KNOWS WHEREOF HE SPEAKS.

Between DeLand and Pensacola there are 18 counties, each with 5 county commissioners, making a total of 90 "export road men" in charge of county roads; besides these, there are 10 to 50 towns, each with 3 to 9 City commissioners of councilmen and each of these with pronounced ideas on the way to build and maintain roads. Take it by and large, there are probably 340 to 350 people in charge of the roads between DeLand and Pensacola.

One can tell when he gets out of one commissioner's district and comes into another; he can tell when he leaves the county road and strikes the city limits of a town.

These hundred men with three hundred minds, and each man in charge of a section of road, working it or leaving it alone as he sees fit; one man saving and grasping, getting every dollar's worth of work for the money spent, and the next man throwing the people's money away on work worse than useless—simply criminal.

Occasionally, within the 540 miles you strike a little piece of road which the State Road Department has taken over and is working under direction of a competent road engineer. No road signs are necessary to inform one of this. The condition of the roads speak in plainer letters than any sign-post.

Our whole road system is wrong. If the State Road Department is to spend the people's money on any section of road, the department should take entire charge. If it is not going to take over and care for the road it should leave it alone and let the county commissioners and the city councilmen be responsible for it.

There is entirely too much division of authority and responsibility. The 540 miles of road from DeLand to Pensacola is just like the road from Hardsen Ferry, on the south of Volusia county, to the Putnam county line—and in about the same condition. This little stretch of Volusia road is managed as follows: About 10 miles by the commissioner of District No. 1; 2 miles by the councilmen of the town of Orange City; 3 miles again by the commissioner of District No. 2; 2 miles by the commissioner of District No. 3 and by two bond trustees; 2 miles by the councilmen of DeLand; 3 miles again by the commissioner of District No. 2; 7 miles by the commissioner of District No. 3; a mile or so by the councilmen of the town of DeLeon Springs. (If DeLeon Springs has a city government at the present time) and the rest of the way, 10 to 15 miles, by the commissioner of District No. 3. The State Road Department is also doing some work on this road, working prisoners in the north end, and a truck and some men in the south end. In all these 18 county commissioners, 14 city councilmen, and the State Road Department in charge of this stretch of 45 miles of road.

The system is wrong. Volusia county pays about \$19,000 a year in auto licenses which is returned to the county, or spent on county roads by the State Road Department; less than one-half of this amount, if properly spent under the authority of a competent road engineer employed by the State Road Department (such a man is now in charge here) would keep this road in splendid shape and hard-surface two to five miles a year of it. But \$50,000 cannot keep it in shape with the present divided authority and ideas.

The State Road Department should take over all through roads and assume absolute authority over them. The county should pay the State Road Department a certain sum each year, per mile, for maintenance, depending on the type of road to be maintained. This pay should come out of the present auto

licenses fund—and not directly out of the pockets of the tax-payer.

If the State Road Department has authority under present law to enter into agreements with the Boards of County Commissioners and to take over roads as outlined above, the department should do this at once; if the department has no such authority, the next legislature should grant the authority by law.

There should be state roads and county roads with the state in charge of state roads and the county in charge of county roads; there should be no so-called "state-aid" roads, over which no one has authority or for which no one is responsible.—DeLand News.

#### George Hilty Here

We have with us this week George Hilty, general auditor, Assistant treasurer and secretary of the Southern Utilities Co., and if there were any other jobs running loose George would have them also. He makes Palatka his headquarters and he has been such a live wire and booster for Palatka and the Chamber of Commerce while there that the people have come to "let George do it" when there is anything needed in improvements, in civic reform, in better government, in getting what Palatka needs. Mr. Hilty is here this week putting on a campaign for selling stock in the Southern Utilities Co., and we are glad to have this progressive, public spirited Florida citizen in our midst. He is the right sort.

### VALDEZ ENTERTAINS BIG PARTY

#### BOARD OF TRADE LUNCHEON TONIGHT WILL BE GREAT GATHERING.

One of the best meetings of the Sanford Board of Trade of the year will be held tonight at the Valdez when about one hundred boosters will sit down to a royal banquet prepared by the famous Valdez chef and served in all the style of this hotel. The evening will be given over to short talks by local boosters and several out of town boosters and the men who attend the meeting will have a most enjoyable and profitable time.

President Frank Miller said this morning that there would probably be one hundred or more as he was sure that number of tickets had or would be sold. As the exact number had to be obtained this morning they have no doubt been sold for the evening's festivities.

It is so seldom that the business men of this city gather together in affairs of this kind that the meeting tonight will be a distinct treat to many of them who have not been in the habit of going this far from home after dark. However, it is thought that these events will prove so popular during the summer months that something can be arranged tonight to make the dinner parties a permanent affair and if the Board of Trade cannot hold the progressive-ness of this city together they will form a Rotary Club, or a Kiwanis Club or some kind of club that will boost the city as it should be boosted even if the membership is confined to a dozen men. It will also be their duty to do things here that need their attention and whether it be the Board of Trade or a club of another name the real men of this city intend to get behind the good movements of this city and push for a Greater Sanford.

Get in the game tonight and attend this meeting at the Valdez.

#### Card of Thanks

To those who were so kind in their bereavement in the loss of our son we wish to express our heartfelt thanks.

Mr. and Mrs. E. G. Hodges.

Mrs. O. J. Pope and family spent the Fourth at the Beach.

### Governor Cox of Ohio and Franklin D. Roosevelt of New York the Next President and Vice-President of U.S.

#### AFTER LONG DRAWN OUT BATTLE COX WINS OUT IN THE 4TH BALLOT.

MeAdoo Had Good Start But Could Not Keep The Lead.

San Francisco, July 8.—James M. Cox, three times governor of Ohio, was nominated for the presidency by the democratic national convention Tuesday morning in the breakout of one of the most prolonged and hotly fought in the history of national political parties.

It took 11 ballots to make a choice and it was not until the 18th, when Attorney-General Palmer withdrew from the race that the long succession of roll calls showed any definite trend.

In the turnover of the Palmer delegates, Cox gained the advantage over Wm. Gibbs MeAdoo, his rival for first place since early in the balloting, and that advantage was never lost.

With its choice made, the convention adjourned to noon today to name a candidate for vice-presidency.

Supporters of Gov. Cox won the way to the nomination by persistent battering at the MeAdoo and Palmer forces in many states throughout a long series of shiftings and rallies which left now and then another of the candidates in the lead.

In the opening ballot Friday the Ohio governor was in third place. He soon passed Palmer, however, and on the 12 ballot went ahead of MeAdoo. Then began a see-sawing between the Cox MeAdoo totals which at the end of the 39 roll call at midnight found the two virtually the same.

On the 42nd ballot the accession of most of the Palmer strength to Cox put him well ahead and after that great and little state delegations went into the Cox column in a procession. On the 43rd Cox got a majority, for the first time, of all the votes cast, and on the 44th he was plunging toward the required two-thirds when Colorado changed its vote to him and made the nomination of Cox obvious. It was made unanimous on motion of Sam H. Hildon of Kansas, a leader of the Cox forces.

Of the 11 ballots two were taken last Friday night; 14 at the first session Saturday and six at the Saturday night session.

Cox began the fight with 141 on the first ballot and climbed steadily until the 15th when he had 468 1-2. His lowest vote after that was on the 35th, the first taken at last night's session when it fell to 376 1-2.

A curious thing in the voting for MeAdoo was that he received 266 on the first ballot, the lowest cast for him, and 266 1-2 on the last ballot. His high water mark was 367 on the 40th ballot. At the time Cox had 190.

Palmer opened with 256 votes. His largest vote was 267 1-2 on the seventy ballot.

As the Cox total passed that of MeAdoo and surged upward, the MeAdoo managers made a desperate fight to stop it in time. Their candidates twice had held the lead and lost it, however, and many delegates supporting him had given up hope that he ever could be nominated. On the last four votes MeAdoo lost steadily several state delegates exchanging their standards for that of the leader.

Most of the Palmer delegates who at first swung to MeAdoo, drifted over the line to the Cox camp in increasing numbers and aided the change taking place in the vote columns of the two leaders. Once he had more than a majority the fight for Cox was easy. The end of another day of furious struggle, the convention stampeded to Cox, long aside its rules and made his nomination unanimous with a roaring shout.

A terrific uproar followed. The whole mass of delegates threw themselves into a final wild demonstration greater than any of the orgies of noise that had preceded.

In the midst of the din Chairman Robinson succeeded in restoring a semblance of order to get the adjournment until noon, so that Gov. Cox's wishes as to his teammate could be learned.

E. H. Moore, of Youngstown, O., national committeeman of the state and leader of the tireless and uphill fight that won the nomination for the governor, said it had been made without promise.

The struggle was exceeded in voting duration in Democratic primaries only by the fight at Baltimore in 1912, that gave President Wilson his first nomination on the 19th ballot.

San Francisco, July 8.—Franklin D. Roosevelt, assistant secretary of the navy and relative of the president who bore that name was chosen by the democratic national convention Tuesday as its candidate for vice-president and running mate for Gov. Cox.

The bandwagon movement for Mr. Roosevelt got under way very quickly soon after the convention assembled and although other candidates—among them Gov. Stewart, of Montana, and Maj. Gen. L. D. Tyson, of Tennessee were presented there was no doubt of Mr. Roosevelt's selection from the first.

Mr. Roosevelt was nominated for the vice-presidency by Timothy T. Ausherry, former representative from Ohio, who sat in the convention as a District of Columbia delegate.

Mr. Roosevelt's nomination from the District of Columbia instead of from New York state was accounted a bit of political strategy which would meet the demands of the western delegates for a candidate not accounted a member of the Tammany forces of New York.

Despite Mr. Roosevelt's political difficulties with Tammany it was reported about the convention hall that the organization was ready to "swallow him" as some of the politicians put it. These were cautious conferences while the nominating speeches were being made.

#### How Floridians Voted at Frisco

San Francisco, July 8.—Clark, Milan, Alexander, Mrs. Frank Clark Gilchrist, Bowden, Appleyard, Fitch and Collins supported Cox continuously almost throughout the balloting going to him when the state crystallized its vote early in the balloting.

Blanton, Graham and Yon supported MeAdoo until the 14th ballot when the unanimous vote of Florida for Cox started the stampede for him. Followed a moment later on the roll call by the Georgia delegation this probably put Cox across.

#### The Democratic Nominee

James, Middleton Cox, was three times governor of Ohio—an honor enjoyed by only one other Ohioan, Rutherford B. Hayes.

Born on a farm, educated in the public schools, a printer's devil, a school teacher, a newspaper reporter, a private secretary to a congressman, owner, manager and proprietor of two newspapers, member of congress for three years and three times governor of his state in his record to date.

Business success paralleled his political achievements and through his own efforts Cox has amassed a fortune. Mr. Cox became the leader of the Democratic party in Ohio in 1912 when he was nominated for governor. As one who had brought radical changes in the state constitution he took the field in its behalf. His first term as governor was devoted chiefly to forwarding the en-

actment of laws to put the new state constitution into effect.

But Ohio evidently was not prepared to assimilate all the new laws for Cox was defeated for re-election. But his party renominated him in 1916 and he was re-elected for a third term in 1918, being the only Democrat to win in Ohio.

Legislation for which Gov. Cox is best known includes a model workmen's compensation law and a child labor law which have been extensively copied by other states. Educators of the country say the Ohio school code, enacted under Gov. Cox's direction, will live as a monument to his achievements.

Mr. Cox was born in Butler county, in 1870. He attended district school and held his first position as a teacher of the school in which he took his first lessons. He spent evenings and holidays in a printing office. In a few years he received his first assignment on the reportorial staff of the Cincinnati Enquirer.

After ten years with the Enquirer, he went to Washington as a private secretary to Congressman Paul Song of Ohio. At the close of this service, he purchased the Dayton Daily News, borrowing most of the money to pay for it. Later he purchased the Springfield Daily News. He was first elected to congress in 1908.

He recently purchased the farm, near Jacksonburg upon which he was born, and is making it into a modern farm home where he expects to live on retirement from public office. He married and has four children.

### SOUTHERN UTILITIES SELL STOCK

#### WOULD MAKE CITIZENS AND EMPLOYEES PART OWNERS IN THE PLANTS.

The Southern Utilities Company has presented an unusual attractive investment proposition to its customers, employees and those interested in a safe sound and conservative investment as announced in a full page ad of this issue.

Mr. George R. Hilty assistant treasurer and General Auditor of the company arrived in the city Wednesday for the purpose of arranging for the sale of this stock here.

When seen by a representative of the Herald Mr. Hilty said: "We have here in Sanford the largest Re-Frigo Station in the world as far as I am able to find out. This means much for Sanford. My Company has expended considerable money here in improving your facilities. It must spend considerable more money here. Sanford is growing and unless my company is in a position to supply ample service, the growth will not advance as rapidly as it should. Our Vice-President and General Manager, who is the active head of our Company here, is one of the foremost and best Utilities operators in America today and it is his idea to make Sanford's plant among the best plants in the state. Mr. Morris, our Sanford Manager has done wonders when you consider what he has been up against here. We must enlarge and improve our operations here. This means, that we must raise new 'capita' for these improvements.

If we go north or outside of the State to raise this absolutely necessary capital, it will mean that we will have to pay dearly for same. This in turn will inflict a heavier burden upon our consumers. My company therefore decided that as the consumers are directly concerned in good service and if any advantage is to be given, why not let them, as well as our employees in on it? This resulted in the authorization of an insurance of 8 percent. Cumulation Preferred Stock, which means that every owner of this stock has preference on the Preferred and Common Stockholders in the assets of the company and that the Preferred stock dividend of 8 percent

### THE 4TH WAS SAFE AND SANE

#### SANFORD PEOPLE SPENT DAY QUIETLY BY WINNING TWO BALL GAMES.

Sanford passed a safe and sane Fourth that was different from the old time noisy days when the small boys had all the noise and fun he wanted and the doctors usually patched him up the following day. There was no noise here on the Fourth aside from the yells of the fans at the ball park as the home team put it all over Orlando which is right and proper on the glorious Fourth. In the afternoon most of the population hied to the woods and various resorts and to the beach and many went to Orlando to see Sanford win again the Fourth of July being our lucky day in winning from Orlando boys. Many of the homepeople spent the afternoon and evening at the lakes and springs and the day while quiet was most pleasant and demonstrated that Sanford people have more places of amusement than any other part of the state.

These holidays bring up the question of golf links and a country club that would not only be a place of recreation for the tourists but would be fine for the home folks also in the good old summer time and the golf links and country club will be the next place for the people of Sanford to place their money and it will be money well placed for it will come back to them four fold.

The Baptist Assembly at Stetson University, DeLand, this week is being attended by many Baptists of this part of the state and many cars with their banners flying have passed through the city going to DeLand. Those who are attending from this city are the Misses Mamie Steele, Camilla Berry, Virginia DeCoursey, Martha Garrison, Beatrice Martin, Julia Thorpe, Ruby Rivers and Virginia Horne Hyman. Also Mr. and Mrs. J. D. Hood, Mr. and Mrs. George Hyman, Mrs. A. J. Lossing, H. S. Sallee, Jno. D. Jenkins, John Hyman, Charles Ryan and Charley Henderson.

#### To Subscribers

The Herald had adopted the cash-insurance system. All subscriptions must be paid for in advance. There will be no deviation from this rule. The date of expiration appears alongside of your name and address. Note it carefully and remit before date of expiration so you will not miss an issue of the paper as we do not promise to furnish back copies. All real newspapers are adopting the cash-in-advance system, due to the high cost of production.

#### Strickland and Stevens At The Baptist Temple Next Sunday

On next Sunday morning at 9:30 Harry L. Strickland of Nashville, Tenn., Secretary of the Organized Class Movement will make an address to the Sunday Morning Club at the Baptist Temple, he will also speak at 11:00 A. M. at the preaching hour. Mr. Strickland is one of our great Sunday School men. "He tells you how to get them in Sunday School" Every Sunday School worker should hear him.

Dr. Bunyan Stevens, pastor of the First Baptist Church at Tallahassee will preach at 8:00 P. M. He will be remembered with pleasure as having preached the commencement sermon to the Sanford High School two years ago.

In the absence of the Pastor and Sunday School Supt. both of whom are attending the Baptist Assembly at DeLand, Judge Schelle Maine will be the presiding genius at the Sunday School and church services next Sunday.

You are most cordially invited to attend all of these services.

# COUNTY HAPPENINGS

A BUNCH OF INTERESTING ITEMS FROM CORRESPONDENTS--EVENTS OF SEMINOLE COUNTY--EFFICIENT REPORTERS FOR THE HERALD

**CHULUOTA NEWS**  
Hurrah for the glorious Fourth! Everything went off quietly here. Most every one went to church on the Fourth and celebrated the third or fifth in very sane manner.

There was a basket dinner on the first and another on the third. Both occasions were very enjoyable affairs.

Messrs. Billie George and Tilden Jacobs with their families attended church at Christmas on the Fourth.

Messrs. Sammie Long, Roland Dan and Noah Jacobs and their families and few friends went to Daytona to celebrate the Day of Independence.

The families of Messrs. Frank Story and Wm. Lee spent their holiday in Orlando.

Mrs. Theodore Aulin and little son of Oviedo spent the holidays with her brother, J. T. Jacobs and family.

Messrs. Carl Porterfield and Staten Smith of Arcadia were visiting at N. C. Jacobs over the Fourth.

Mrs. Suddie Long of Tampa who has been visiting her sister Mrs. Dolly Self has returned to her home.

Matthew Long of Aster Park visited friends here over the Fourth.

Mrs. Nannie Tew of Orlando, who has been visiting friends here for several weeks, has returned home.

Mrs. Dolly Self, who has been critically ill for several weeks, is not any better.

**In Memory of Mrs. Steever**  
The death angel visited our community last Tuesday week, and bore tenderly away to the heavenly home, the spirit of Mrs. Laura Steever. She had been a great sufferer for many years, and during her long illness bore her suffering with great Christian fortitude.

Mrs. Steever was one of the pioneer

of Chuluota having come to this place from Iowa with her husband and children about thirty-five years ago.

She had lived long past her three score and ten years and was a sister to Mrs. Malinda Johnson who preceded her to great beyond near last Thanksgiving time, who had reached over four score years.

Mrs. Steever leaves besides a host of friends, twin daughters, Mrs. May Nixon, wife of Dr. J. Nixon, deceased and Mrs. L. B. Collins, one son Charles Steever and the two grandchildren Ethel and Nixon Collins, to mourn the loss of a kind loving mother and grandmother.

Her remains were laid to rest in the Chuluota cemetery beside those of her husband, who preceded her a number of years ago. Many beautiful flowers were tenderly placed on her grave by loving hands which testified to the great esteem the friends and neighbors felt for this noble woman.

### LONGWOOD PICK-UPS

The Longwood hats were quite gay last week end, terracing a party of guests who enjoyed a refreshing swim at Beeman Springs also dancing at the hotel.

Mr. and Mrs. Henry Heath of Fort Myers are visiting friends and relatives.

Mrs. Carey of Ft. Myers stopped over a few days to visit her mother Mrs. Geo. Lewis, while en route to Asheville, N. C.

The "Glorious 14" was a quite uneventful day. The young people enjoyed a dance at the library in the evening.

J. E. Phillips was a visitor in town last week and says "Crunk Hill" looks better to him every time he comes.

Charles Polk of Jacksonville spent several days in Longwood with his family who are now located in the Clouser cottage.

The Ladies of the Civic League gave an entertainment Friday evening and the proceeds go towards the Building fund to enlarge the library building.

The following program was rendered: A song—"Carolina sunshine"—Miss Mary Eva McGabrey, Dialogue "Dad Say So anyhow"—Mr. and Mrs. Bistline, Recitation "A Yaller Dog's Love for a Nigger"—Ben Overstreet, Monologue "That Bald Headed Man"—Miss Margaret Stuart, Dialogue "A Fair Encounter"—The Messrs McGabrey, Monologue "Me and My Down Troudden Sox"—Mrs. J. S. Dinkel.

### EAST SANFORD

Mrs. Caroline McDougal, Mrs. Libbie Weeks, Annie and Okie Weeks, George McDougal and Mr. and Mrs. Norman Sevanson were at Daytona Beach on Monday.

Mr. Steel of Beardall Ave lost a horse and Mr. Biggers of Melonville lost two horses last week, said to be from blind staggers.

Fred Dörner's bull dog was bit by a large moccasin snake and died last week and two diamond backs were killed in Cameron City recently, both big ones.

Dr. Denton tells us it was not him who was unfortunate enough to injure Mr. Van while driving on Beardall avenue some weeks ago. We heard of the accident thru a reliable person, who told same in good faith as it was told to them and supposed it was true, we are always sorry to report anything that is not so, a country correspondent cannot always personally investigate every item that comes to them over an area of many miles, hence mistakes at times however careful.

#### WHAT A FORD WORKER CAN DO

##### A Day's Possibilities in the Ford Factory at Detroit

If this Ford man which we will follow through his day's activities at the Ford factory has been frugal, as many of them have, he will arrive at work in a Ford car. During his morning's work he may be stricken with toothache or headache whereupon he will visit the Ford doctor or dentist for relief. At noon, he is served with a lunch consisting of sandwiches, fruit, hot coffee or soup, and after that may see a Ford safety film.

Now supposing that this is the man's pay day. After subtracting living expenses, he may deposit the remainder toward a Ford Investment Certificate. Finished with the day's work, he can go to the shoe store for shoes for himself or son who is in school; or to the grocery store where, among other things, he can buy a sack of flour made from wheat grown on Henry Ford's farm—where Fordson tractors do the work and ground in Henry Ford's flour mill, and the hauled by Ford trucks to the Ford store where it is sold to Ford men; or he may want to order a custom-made suit, or buy one ready made which he does in the Ford clothes shop. Maybe, a toothbrush is all he needs, but he gets it at a Ford Store. Then he can purchase his meat in the Ford Market. Or order his winter's supply of coke from the Coke department. Every-

#### To Protect Papers From False News

Atlanta, Ga., July 8.—With the idea of affording protection to the newspapers and to the general public of Georgia, Representative John V. Smith of Fulton will introduce this week in the Legislature a bill making it a misdemeanor for any person furnishing false information to a newspaper.

It is understood that the need for such legislation has been emphasized recently by the fact that various newspapers throughout the State have been imposed upon by unscrupulous persons prompted by motives of revenge. Instances have occurred within the last two weeks where false announcements of marriages and engagements have been furnished to newspapers and in one case notably, that of a young lady in Dublin, Ga., the publication of such announcement is alleged to have caused her to commit suicide.

Mr. Smith's bill is expected to receive the solid support of both branches of the Legislature, as favorable expressions were heard today by all members to whom the subject was mentioned.

#### Marmaduke At Atlantic City

The following from the National Reporter will be interesting to the Sanford friends of Mr. Marmaduke who was assistant manager of the Valdez Hotel during the past season:

Mr. W. W. Marmaduke is meeting with his usual good success in the management of the New Sea Crest Hotel, at Atlantic City, N. J. Marmaduke's former connection with the Markham Hotel in New York and with hotels in Florida, has given him a particularly wide acquaintance among the tourist and traveling public.

#### St. Augustine Grass

Has any one had trouble in keeping alive their lawns in Orlando? Especially lawns of St. Augustine grass? If they have, nine chances out of ten it is because of the manner in which it is mowed. Few people know there is a difference in the way the St. Augustine and Bermuda grasses can be mowed. The latter grows close to the ground, while the former grows high. A lawn mower when purchased new is generally set to cut Bermuda grass and though there are adjustments upon the machine they are not sufficient to meet the needs for the St. Augustine grass. We are not boasting any person's business but take occasion to say "Dick" Holland will furnish any one with the necessary extension irons for two dollars.

Lawn mowers are not very deep subjects upon which to write, but if they mean the life and death of a lawn, it is of considerable weight, when viewed from a town's civic standpoint. Carl Dann remarked the other day, it cost him \$300 to learn St. Augustine grass could not be grown with the ordinary set mower, and if any one doubts whether Mr. Dann has profited by his experience, a look at his lawn would be convincing. And we do not wish to boost Mr. Dann unnecessarily either, but really if there were more lawns like his, Orlando would be more than ever entitled to that name "City Beautiful."

Any one in Orlando can have a beautiful lawn, all it needs is a little

fertilizer, lots of water and some fertilizer now and then.—Orlando Reporter-Star.

#### MONEY FOR ROADS

##### Florida's Share Federal Good Roads Funds Now Available

Washington D. C. July 5.—C. F. Marvin, assistant secretary of Agriculture announces that the large sum of \$1,147,447.9w has been apportioned to the State of Florida as Federal aid to be used in the construction of highways during the fiscal year which is to begin on Thursday, July 1.

This money is appropriated with the explicit understanding that either the State or the local communities to be benefited shall raise at least one dollar for every dollar the Government furnishes. Under this basis of apportionment at least \$2,291,855.85 will be made available for road work in Florida as a result of this Federal aid during the fiscal year ending July 1, 1920, and ending on June 30, 1921.

The amount of Federal funds made available comes from two separate acts of Congress, one approved July 11, 1920, and the other approved February 28, 1919. The former appropriates \$25,000,000 and the later \$75,000,000 for the use in the construction of rural postroads in the United States during the year 1921. Before making the apportionment to the several States the actings-secretary of agriculture deducted \$4,000,000 or 3 percent as the estimated cost of administering the two acts.

#### The Sunflower in Russia.

Sunflower cultivation has become an industry in southern Russia, where the people have found the seeds a substitute for olives in making oil. The Russian eats the kernel. An acre of sunflowers yields about 60 bushels of seeds, and these in turn yield more than 50 gallons of oil.

## FEDS TAKE 7 OUT OF 10

All of you Sanford fans that have been staying away from the Ball team waiting for Sanford to get a winning team should now look up. All of you good people who have been waiting for the time to come when there would be some real ball games staged in Sanford can get busy, because them Feds are going soon.

Out of the last ten games that Sanford has played they have won seven of them and we have a real good alibi for the three that were lost. One of them was lost to Lakeland and every one that saw the game knows that Johnson, umpiring for Lakeland helped them win. Another one of those lost was the eight-run one to one game in Daytona and that was because that Sanford Sanford did not have a pitcher to go in the box, as both Chapman and Boswell were out of the game, one in the hospital sick and the other called home on account of his father's illness. The third game was lost to Bartow and our only alibi for that game was, it just wasn't our day to win.

Since the last publication of the Herald Sanford played five games and won four of them.

Friday and Saturday Bradentown was here and we took them over for both of them, the first one fourteen to two and the second one eight to six. Monday we played a double header with Orlando and grabbed one to two and the second one eight to six. Monday we played a double header with Orlando and grabbed both of them, the morning game three to two after battling twelve innings and the afternoon game five to nothing.

In the afternoon game the Feds Orlando look like an old time backwoods team. Teske, after pitching part of the morning game was in the box and he allowed just three men to reach second base, and walked two of them. It was after the day Orlando was handled in this afternoon game that she decided that it would not be good policy for them to play the tie off that stands between Sanford and Orlando. This game was to have been played Tuesday an open date.

Tuesday the team did not work and Wednesday they lost their one piece of the week to Bartow, seven to three.

And there is a good reason for the way Sanford is going now, and that reason is, we now have some tea. To make our team the best, or at least as good as the best, in the league, we need but one more good pitcher.

With Riley behind the bat we never need have any more fear as far as a catcher is concerned as this guy is as good as anything that has been on the field this year and a lot better than the most of them that are in the league now.

Teske is our "iron man" pitcher and a good one. In the several games that he has worked for us he looked just as good as "Skinny" Watts ever looked, therefore making him one of the most valuable men ever added to our staff.

Chapman is another good one. He is sick right now, however and it may be a week yet before he can work. His sickness and his broken leg has kept him out of the game most of his time here, but what little he has worked has been that "big league" game. He pitched six innings in St. Pete, after relieving Philen and let them down without a hit. He also pitched a no hit game against Daytona. Schweitering and Boswell have both been going good lately and seem to be getting better right along.

Ollerman, Iman, Lavaty and Oster are good enough to hold down any of old and the way those guys are picking on the pitchers with their clubs nowadays is enough to give any fan's heart good. And Lavaty is a good little catcher too, and as Riley should the occasion require it.

It is not necessary to say anything about Gafney, Bur e and O'Lehney every one about the circuit knows and they are the "million dollar outfield". When anything gets by them, the batter is certainly entitled to his hit, because these three are always right on the job. And with the bat, they are there strong. Gafney is one of the league leaders and Burke and O'Lehney are always there with the hits when needed.

Biddy Burdick is our Utility man, and a good one. He can be used anywhere on the team in a pinch, with the exception of the

pitchers box, and we wouldn't be surprised if he were to pitch a game. Strings are now out for one more good pitcher and after he is landed then all we have to say to the rest of the birds about this circuit is, Beware unto yourselves, we are coming.

## CELERY SEED

By CHAS. L. BRITT

Going up!

And we grabbed a pair of them from Orlando.

In reading of too much Teske, the Orlando scorer speaks of him as being from Poland or Brazil. Well, we are glad he didn't tell the truth about it, because Teske comes from the same place that Henry does, the

one Sanford knocked all over the lot Monday.

Just a few more games left in this first half, but watch out for the next half.

Mr. Burt's Bunk speaks of Sanford, Lakeland and St. Pete, battling for the cellar. He must have forgot to look at Orlando and Bartow's standing. They are not miles away from the cellar at that.

Sanford plays a double header this afternoon with Bartow and another double bill with St. Pete Monday. This will close the first half up, half, unless one of the postponed games is played off in the meantime.

Orlando says she doesn't want to play off that tie game standing between Sanford and Orlando. We don't blame them.

Mr. Rose is in Chicago. When he

left, Sanford was in the cellar and Orlando in fourth place. Look at the standing now. Looks like bad luck for Orlando when Mr. Rose is out of town.

And speaking of Catchers. 'Aint that boy Riley there? Makes us all think of the days of Chapman.

It always looks like that every time there is a mistake made in the Tampa paper is has to be with Sanford's scores. We know it is not the fault of the local scorer because the Tampa paper contradicts itself in the same issue, in other words has it right one place and wrong another. What's the matter down there? Clutching the first half gone to your head?

### ORLANDO OUR MEAT

Five out of Seven

After looking over the way it all happened since the beginning of the season we find our easiest pick-

ing has been Orlando. Out of eight games played we won five and tied one allowing Orlando two.

We didn't do so bad with Daytona either, as we won four out of seven from them. We split even so far with Lakeland and St. Pete. The following shows how we did it:

With	W	L
Orlando	5	2
Lakeland	4	4
Daytona	4	3
Bartow	2	3
St. Pete	3	3
Bradentown	3	5
Tampa	0	8

### Music in Church.

For almost a thousand years Gregorian chant, without any instrumental or harmonic addition, was the only music used in connection with the liturgy of the church. The organ in its primitive and rude form was the first instrument to be introduced into church, and for a long time was the sole instrument to accompany the chant.

### Vaccination's Power.

According to a recent report vaccination is rapidly dying out. Yet there is nothing like vaccination to bring a fellow up to the scratch.—Exchange.

### Lead and Steel.

Lead is said to act like steel at ordinary temperatures in liquid air. It will serve as a helical spring, for example. This behavior of soft non-elastic metals is interesting. It shows how very important temperature is. Just as iron is soft and malleable at a high red color, so lead is dull and soft at ordinary temperatures, for it is well on its way to be melted.

### Birds That Speak.

Ravens, crows and juncos are all better speakers than parrots. They are not so versatile and the sounds they utter are less varied, but their voices and articulation are far more human. A crow's talk in the next room may easily be mistaken for that of a person. Parrots are the best imitators; that is to say, they imitate whistling and other noises, particularly laughing, or imitations. It has been remarked that their voices in speaking are like that of a crazy person.

### Precious Wood Carefully Preserved.

The rarest of all precious woods is said to be the catamander, a tree which grows in Ceylon, where it is held in reverent awe. The wood is beautifully mottled in veining when polished, but its almost priceless value is due a good deal to its rarity. At one time the trees were quite plentiful in Ceylon, but only a comparatively few specimens remain, and all these are numbered and jealously guarded by the government.

### How Fish Eat.

When a codfish eats it takes an oyster in its mouth, cracks the shell, digests the meat, and ejects the shell. Crabs crack the shells of their smaller neighbors and suck out their meat. This accounts for the mounds of shells which are found beneath the waves. And, as further illustrating the constant destruction going on in the oceans' depth, it is said that if a ship sinks at sea it will be eaten by the fish with the exception of its metal portions.

### Wedding Superstitions.

The popularity of June for weddings is due to the pretty notion that Juno takes an especial interest in marriage and she protects and blesses all who are wedded in June. The girl who becomes a bride on Christmas day has nothing to fear. If a widow marries a second time in the same month in which she was married before, she will be a widow twice.

### The Milkweed.

The milkweed, a plant that has a much longer name than that, but one which would not be nearly as attractive for us to use, is especially well-known in America. In the autumn when the pods have opened and there is a brisk breeze, the wind carries their seeds far and near. Then the downy seeds are seen flying like tiny airships almost everywhere, in search of a homelike growing place, where they may appear in the spring as tall, slender stalks.

### Reasons for Using Stone.

The forest rangers on Mount Rainier have a house on top of the mountain built of stone, whereas under usual conditions it is the custom to construct these buildings of wood. The proximity of the stone and the scarcity of wood and the difficulty of obtaining it from the lower levels is responsible for this departure.

### A Failure in Life.

A sad story reaches us from Southwest London. It appears that a girl of twenty attempted suicide because she realized she was too old to write either a popular novel or a book of poems.—From Punch, London.

Jimmy Cox, the nominee for pre-
sident on the Democratic ticket and
the next president was born in our
old county in Ohio, Butler county.
He was the private secretary of
Senator Paul Sorg the tobacco king
of Middletown when we were sup-
porting Paul. He is also the owner of
the Dayton Daily News and the
Springfield News and since the Flor-
ida delegation helped him to get the
nomination we opine that President
James Cox of Butler county will
lend us his ear should the occasion
ever arise when Florida needs the
president. The uncle of the editor of
the Herald, Horace P. Clough, was
the leader of the Democratic forces
in Middletown and in Butler county
for many years and Jimmy Cox of
Middletown getting the nomination
on our ticket and Harding of Marion
getting the nomination on the Rep-
ublican ticket makes us long to
get back to Ohio this fall and do a
little stump speaking in the cam-
paign in the state where they "make
politics" and maybe if the Honorable
Jimmy wishes an Ohio friend who is
now a Floridian to talk to the Irish
he will team us up with his former
city editor John Egan and we can
shake the buckeyes off the old buck-
eye trees in the Buckeye state.

HARD ON SANFORD

Either Bob Holly or Willis Powell
or both of them have a first class
libel suit against the Pensacola Jour-
nal which introduces an editorial
with this paragraph: "Editor Bob
Powell, of the Sanford Herald, in
his story of the convention of the
Florida state press convention at
Pensacola, while finding much to
commend, calls attention to the
backwardness of this part of the
state, in taking advantage of its
fine agricultural opportunities. Mr.
Powell is in position to know where-
of he speaks, and promises to write
again on the same lines and more at
length. Sanford, the home of Mr.
Powell, has made itself famous and
rich through shipments of celery
and other Florida vegetables to the
northern market." And the worst
of the whole unfortunate affair is
that article appears under the head-
ing, "For Mutual Benefit." St.
Augustine Record.

Aw, Herb, let Lacey alone. We
corrected the article and ran it as it
was meant to be. Lacey had too
much "Golden Dragon" made by the
Clock Co.

FOR MUTUAL BENEFIT

Editor Bob Holly, of the Sanford
Herald, in his story of the conven-
tion of the Florida state press con-
vention at Pensacola, while finding
much to commend, calls attention to
the backwardness of this part of the
state, in taking advantage of its
fine agricultural opportunities.

Mr. Holly is in position to know
whereof he speaks, and promises to
write again on the same lines and
more at length. Sanford, the home of
Mr. Holly, has made itself famous and
rich through shipments of celery and
other Florida vegetables to the north-
ern market.

With the climate and soil of Escam-
bia county there is no reason in
the world why this part of the state
should not be equally as successful
in raising and shipping vegetables
north.

If it is a fact, and The Journal
does not believe that it is, that the
western part of the state cannot com-
pete with the southern section in
raising vegetables for the northern
market, on account of the difference
in climate, it is most certainly possi-
ble for this part of the state to com-
pete with the more northerly of the
southern states.

For instance the town of Fayette-
ville, North Carolina, for a number
of years shipped regularly to the
northern markets the finest kind of
headed lettuce, grown in frame beds
it is true, but bringing such a splen-
did prices as to make it one of the
best paying crops. In this same town
were also raised and shipped quanti-
ties of strawberries and dewberries
and other small fruits and vegetables.

If west Florida farmers feel that
they cannot compete with the truck-
ers of the southern part of the state,
they can most certainly compete with
the farmers of North Carolina, in
their shipments of early vegetables.

The farmers of Holmes county
have recently shipped sweet potatoes
left over from last year's crop at
ten cents a pound, f. o. b. Farmers
of Escambia county have recently
shipped some of the finest Irish
potatoes grown in the state.

If we have the climate and the soil
why is it, then, that the farmers of
west Florida are not taking their
rightful place in agricultural de-
velopment of the state?

We know that we can grow the
vegetables for Escambia county has
carried off one blue ribbon at the

state fair, which means that Escam-
bia county led every county at one
of the finest agricultural fairs in the
country.—Pensacola Journal.

NO "JUNGLES" IN FLORIDA

A score of years ago Henry Flag-
ler was spoken of as a visionary en-
thusiast, because he was "sinking
money in a jungle swamp down in
Florida." Today, Daytona, Palm
Beach, Miami and a score of wealthy
little towns between mark the site
of the border line of that forgotten
jungle.

A score of years ago, witty friends
of Morgan Plant were asking him,
"Where is the west coast?" and to my
Tampa and St. Petersburg and the
Manatee and Fort Myers, echo back
the laughter that they flung to his
eyes.

Five years ago there was no Moore
Haven save in a dream. Today it
stands with paved streets and side-
walks, light and water systems,
nearly 500 voters, and an agricultur-
al money return account credited to
it totaling nearly a million dollars
for every year it has been in ex-
istence.

There are no jungles in Florida;
there are unborn spirits of a new
paradise waiting to be born.—Flori-
da Grower.

SIGNIFICANT EDITORIAL

Col. Bob Davis is editor of the
Gainesville Sun, thus the following
editorial about Women Suffrage
comes with unusual force. Col.
Davis is known as a "gentleman of
the old school"—a gentleman of the
"old South"—and yet he says: "We
shall hail the day when woman suf-
frage is made universal in the United
States. We shall hail the day when
the constitution of the United States is
ratified by one more state. We trust
the governor of North Carolina will
comply with the advice of President
Wilson and call the legislature of
that state to assemble and consider
the ratification of the amendment.
We believe the governor will do it
and that the legislature will ratify.
We shall hail the day when the wo-
men of Florida can vote. Millions
of women have already been en-
franchised by the independent ac-
tion of many state in the North and
Northwest and in California. They
will vote in November, amendment
or no amendment. They will be the
deciding factors in many states.
Before long we will be voting in many
states. Before long we will be voting
directly for president and vice-presi-
dent, just as we are voting now di-
rectly for Senators. Only the women
of the South are enfranchised the
Northern states will vote whom we
want. We are doing women a great
injustice to keep the ballot from her.
She owns at least twenty per cent
of the property of the United
States, and she ought in all fairness
to have a voice in the affairs of
government."

A jolly party of picnickers at Daytona Beach on Monday were Mr. and Mrs. L. Allen, Misses Anna and Juanita Allen, Miss Gertrude Lee, Mr. and Mrs. Sam Pevyhouse, Mr. Pevyhouse Sr. and Ernest Brotherson.

Mr. and Mrs. W. P. Stone and daughter, Mr. and Mrs. Ollerman and daughter and Mr. and Mrs. James Eaton and daughter formed a congenial party at Daytona Beach on Sunday.

Mr. and Mrs. Harry Herran were among the Sanford folks seen at the beach celebrating the glorious Fourth.

Messrs. W. O. Newman and Dick Branch spent the holiday at Daytona Beach.

Mrs. L. L. Harvey and little son with her sister Miss Harvey enjoyed the Fourth at Daytona Beach.

Mr. and Mrs. John Leonard spent the week-end at Coronado.

#### Births

Mr. and Mrs. Arthur Coleman announce the birth of a little son, June 29th at Tampico S. C. Mrs. Coleman will be remembered as Miss Alva Vaughn.

Mr. and Mrs. Harley Maines are rejoicing in the birth of a ten pound boy, at Jacksonville July 2nd. Mrs. Maines was Miss Bertha Macey of this city.

Ruth Tichnor is the name of the little daughter born to Mr. and Mrs. A. M. Tichnor, July 6th.

Mr. and Mrs. Floyd Pool announce the birth of a daughter, May 28th. She will be called Margaret.

#### Looks Farley

Mrs. Victoria Farley of Sanford and Mr. W. T. Brooks, passenger conductor on the Sanford-Orlando division of the Atlantic Coast Line, were united in marriage last night by Rev. J. W. Doyle, Baptist minister, at the home of J. W. Lynn, Port Tampa.

Mr. and Mrs. Brooks came down by automobile and met at the home of Mr. Lynn, an old friend. They were joined by Mr. and Mrs. Thurston, the latter being the daughter of the bride, and by W. R. Brooks, son of the groom, who dropped in on them unexpectedly.

The groom formerly was located at Port Tampa City, where he lived for a number of years.—Tampa Tribune.

#### Picnic Party at Lake Harney

One of the most enjoyable outings celebrating the Fourth was the all day picnic at Lake Harney with the following folks present: Mrs. Alexander Vaughn, Mr. and Mrs. S. A. Houston, Mr. and Mrs. Ross Long and family, Miss Mildred Huston and Lee McLain.

#### Prominent Visitor in Sanford

Dr. Claude F. Bredin, physician and surgeon of Anderson S. C. spent last week in Sanford, the guest of his sister, Mrs. J. N. Robson, while en route from the Mayo Clinic in California. Dr. Bredin has travelled the United States over and concurred the palm to Sanford for its climate that he states cannot be excelled. He was most favorably impressed with the town and vicinity. He left last Friday for Anderson.

#### McDermott-Linfos

The many Sanford friends of the bride will be interested in the marriage of Miss Annie McDermott to Mr. Gus Linfos which took place a Columbia South Carolina quite recently.

The bride who is an attractive and lovable girl is the niece of Dr. and Mrs. J. N. Robson with whom she made her home in this city for a number of years and is well known and popular with a large circle of friends.

Mr. and Mrs. Linfos spent a week of the honeymoon trip with Dr. and Mrs. Robson leaving for Columbia last Wednesday.

#### Camping at Hickory Lodge

Mr. and Mrs. D. L. Thrasher, Dr. and Mrs. S. Puleston pitched camp

at Hickory Lodge, Beeman Springs, Monday, chaperoning a gay group of young people who will spend the month of July in camp. Leaving on Monday were Misses May Thrasher, Dorothy Rumph, Ethel Henry, Norma Herndon, Mary Elizabeth and Camilla Puleston; Walter Connelly Hume Rumph, J. D. Woodruff and Ned Chittenden.

#### Farewell Party

A delightful informal and impromptu surprise was rendered Mrs. T. E. Puleston last Thursday evening when the "Gleaners" the Sunday school class of which she is teacher, gathered at her home for a farewell party in her honor. The "surprise" was complete and the evening passed most pleasantly, the happy event being planned upon the occasion of Mrs. Puleston's departure for Chautauqua Lake, N. Y. to spend the summer.

#### Bridge For Visitors

A charming event in society circles, Saturday afternoon was the lovely bridge party with which Mrs. J. G. Ball entertained in honor of her daughter, Mrs. W. J. Steed of Kissimmee and the latter's guest, Mrs. Sterling Willhoyp of Quincy.

Prizes were won by Mrs. S. O. Chase and Mrs. W. C. Hill to whom were presented respectively a pretty vase and a bathing suit bag. Mrs. Willhoyp was given a souvenir spoon and Mrs. Steed, a silver tea ball.

The decorations were particularly pretty, southern moss and graceful bamboo forming an effective background for quantities of red roses. The note of red was released in the dainty refreshment courses and in the punch and mints.

Teel punch was dispensed throughout the game by Miss Merrie Francis Ball. There were five tables of players and a number of tea guests.

#### Pretty Home Wedding

Surrounded with the beauty and charm of floral decorations, the wedding of Miss Mahel Lottie Allen to Mr. Clarence Clarke Alexander, was a pretty home affair of Saturday afternoon, with Dr. George Hyman of the Baptist church officiating.

A color scheme of pink and white was made charmingly effective with quantities of oleanders amid banks of ferns and potted plants. For the ceremony the young couple stood

## More than just materials

When you let us supply your building needs you get a great deal more than just so many feet of lumber—bundles of shingles—pounds of nails—or panels of Beaver Board.

#### The Southern Farmer

The following the Southern Review published at Asheville was sent in by a friend and is very much to the point:

"The Southern farmer gets up at the alarm of a Connecticut clock. Buttons his Chicago suspenders to Detroit overalls. Washes his face with Connecticut soap made in a Pennsylvania pan. Sits down to a Grand Rapids table. Eats Chicago meat and Indiana hominy fried in Kansas lard on a St. Louis stove. Puts a New York bridle on a Kentucky mule fed with Iowa corn. Plows a farm covered by an Ohio Mortgage with a Chattanooga plow. When bed-time comes he reads a chapter from a Bible printed in Boston and says a prayer written in Jerusalem. Crawls under a blanket made in New Jersey to be kept awake by a South Carolina dog—the only home product on the place."

The man who wrote this was no friend of the South. If he had been, he would have added: "And produces enough cotton to clothe the world, 100 per cent. of the country's cane sugar, 99 percent of the country's sulphur, 99 per cent. of the country's phosphate, 99 percent of the country's aluminum, 60 per cent. of the graphite, 100 percent. of the peanuts, 92 percent. of the sweet potatoes, 90 percent. of the rice, 90 percent. of the early spring vegetables, 45 percent. of the peaches, 45 percent. of the chickens and fowl." He would add that the South's manufacturers in a year amount to \$6,000,000,000, that it contributes \$18,000,000,000 feet of lumber to house the world, and that its taxable property is \$10,000,000,000. He would have reminded us that the Southern genius for government created the American Commonwealth; and that to-day it is the same political genius which must stabilize our national life.

#### After The Umpire

Bartow took the Highlanders into camp yesterday afternoon on our home lot by the score of six to three. The win was by no means a clean cut one as Umpire Kubat stood out as the best player on the Bartow team, missing a number of balls and strikes and pulling some rank decisions on the bases, all of which were factors in the Bartow scoring and, which when coupled with some attempted witty remarks to the grandstand. Saturday afternoon was the cause of a demonstration being made against him at the close of the game. Feeling ran so high that it was necessary for Kubat to be escorted from the grounds and to his hotel by the police.

Immediately following the close of the game the fans rushed to the field and Kubat took refuge in the press box. Be it said to his credit that as soon as he had changed shoes and packed his paraphernalia in his handbag that he came out. The attempted witticism of Saturday was of a vulgar nature and was plainly heard by many of the ladies in the audience. This and not any decisions that he made in the ball game was what came very near getting him messed up. The management of the Lakeland Land Club, after listening to at least a dozen protests, filed orally after Saturday's game, requested by wire that the assignment of umpires for Monday be changed, advising President Rose's office that it was not deemed for the best interest of the sport in Lakeland to have this umpire officiate. The management has since learned that President Rose was absent from his office, being either in Chicago or en route thereto, and that Mr. Crick, his secretary was at Daytona for the holidays. A vigorous protest has been filed against Mr. Kubat by the directors and officers of the Lakeland Club and it is earnestly hoped that the local fans who have been so loyal to the team in the past will not again have their women folks submitted to the language which was used Saturday the request being that this umpire be not again assigned to games in Lakeland. There is a scarcity of umpires just as there is a scarcity of ball players and it is believed that the president of the Florida State League will make a change as soon as a new man can be secured to take Kubat's place. If such is not done his retention will be over the heads of the officers and directors of the Lakeland Club.—Lakeland Telegram.

#### Japanese Smoking Customs.

Smoking is very common in Japan. All the men and most of the ladies smoke, the girls beginning when they are about ten years of age. The ladies have pipes with longer stems than the men, and if one of them wishes to show a gentleman a special mark of favor, she lights her pipe, takes a whiff, hands it to him, and lets him smoke.

#### Simple Explanation.

Why is it that fishes make no disturbance when swimming through the water, although there is a rushing noise when a stone is flung in? This is explained by the fact that, in the latter case, it is the filling of the cavity that is made, rather than the mere impact, which causes the noise, whereas the body of the fish is so shaped that when it moves through the water it leaves no such cavity behind it and therefore there is no disturbance.

#### That Busy Stork.

Elizabeth is a clever, observing little girl. A few months ago a baby brother came into the family, and it was duly explained to her that the stork brought it. On her birthday, when she was admitted to the room where her gifts were deposited, she spied a large doll sitting on a little chair. She regarded it attentively for a moment, then remarked as if to herself: "If that stork hasn't been here again!"

#### Pin and Candle Auction.

The many centuries old custom of letting "Poor Poll's Close" every fifth year has again been observed at Old Bellingbroke, where Henry IV. was born in 1394. The biddings cease when a pin inserted in a burning candle falls. The field three acres, was let for £12 10s. For about twenty years it has not made more than £5.—London Daily Mail

## A FAMILY MEDICINE

**In Her Mother's Home, Says This Georgia Lady, Regarding Black-Draught. Relief From Headache, Malaria, Chills, Etc.**

Ringsold, Ga.—Mrs. Chas. Gaston, of this place, writes: "I am a user of Theford's Black-Draught; in fact, it was one of our family medicines. Also in my mother's home, when I was a child. When any of us children complained of headache, usually caused by constipation, she gave us a dose of Black-Draught, which would rectify the trouble. Often in the Spring, we would have malaria and chills, or troubles of this kind, we would take Black-Draught, pretty regular until the liver acted well, and we would soon be up and around again. We would not be without it, for it certainly has saved us lots of doctor bills. Just a dose of Black-Draught when not so well saves a lot of days in bed."

Theford's Black-Draught has been in use for many years in the treatment of stomach, liver and bowel troubles, and the popularity which it now enjoys is proof of its merit.

If your liver is not doing its duty, you will suffer from such disagreeable symptoms as headache, biliousness, constipation, indigestion, etc., and unless something is done, serious trouble may result.

Theford's Black-Draught has been found a valuable remedy for these troubles. It is purely vegetable, and acts in a prompt and natural way, regulating the liver to its proper functions and cleansing the bowels of impurities. Try it. Insist on Theford's, the original and genuine. E 79

### Medicine in Literature.

And Tunkin says that half the good in a bottle of medicine does him in in the encouragement he gets from reading the literature wrapped around it.

**Do You "Hate" Yourself?**  
For I say, through the grace given unto me, to every man that is unrighteous, not to think of himself more highly than he ought to think.—Paul in his letter to the Romans, 12:3.

**Surprised Mother.**  
The subscription society was meeting at our house and the woman who was to lead the devotionals took the elastic band from her Bible, laid it on her lap and began to turn the pages to find the passage she was to read. During the solemn silence my young son marched over to her and, picking up the elastic, he announced: "Why, that's my mother's garter!"—Grit.

# ELDER SPRINGS WATER

THOMAS D. BAKER, Ph. D.  
Analytical and Consulting Chemist - Professional of Natural Science Emeritus, Rollins College, Florida

Private Laboratory of Rollins College Winter Park, Fla., Nov. 5th, 1918

Mr. T. O. Charles Sanford, Fla.  
Dear Sir:  
I have completed careful chemical analysis of the sample of water that you brought me early last week, and have obtained the following results:

Color	Clear	Chlorine	1.73 parts per million
Reaction	Neutral	Total Solids	8.03 parts per million
Free Ammonia	00 parts per million	Hardness	23.02 parts per million
Albuminoid Ammonia	Trace	Nitrate	Trace

The absence practically of free and albuminoid ammonia in this water and its very small amount of chlorine indicates its excellent quality for household purposes. In addition to the good quality characteristics of superior household water, it possesses special features of much value, especially those of excellent natural aeration and low degree of hardness.

The bacteriological analysis, resulting in an average total count, in four samples of the water, of 2 bacteria per cent, and in finding no color, or other harmful bacteria, fully confirm its good quality indicated by the CHEMICAL analysis.

Of the many waters of this and other regions that I have analyzed, I have found none superior in all good qualities to that of the "Elder Water."  
Yours very respectfully,  
(Signed) THOMAS D. BAKER
