

### Much Depends On Williams Boys Of Celery Fed Squad

#### Bob And 'King Kong' Occupy Important Positions At Guard

Much depends on Bob ("Bill") Williams and his younger brother, Theodore ("King Kong") Williams, who hold down the important guard positions on Seminole High's football squad, when the Celery Feds go against the Ocala Wildcats in Ocala next Friday evening. But they have always been dependable players, fill their positions as well as any player in the Northeastern Conference, and those who have watched their gridiron performances agree that they are really there to fight for Coach and the School.

"King Kong" was selected as all-conference guard last season, and from all appearances he will be selected again this year. He was also awarded the Judge Shanon Trophy for the most valuable man in the line last season. He tips the scales at 175 pounds, and that is 176 pounds of power on both offense and defense.

Last season the Ocala team was laying for this "King Kong" and next Friday it will be out there again to get him regardless of his weight as he is one of the big obstacles the opposing team must pass in order to gain a victory over the traveling Celery Feds.

Bob or ("Bill") Williams will be in that game and it is believed he will spill plenty of the Ocala Wildcats before it may become necessary to take him out because of a knee injury received in DeLand last Friday. Bob weighs 170 and, like "King Kong," is just that much power in his game. Bob is one of the best defense guards Seminole High has had in the last few years.

Bob is a senior and one of the three veterans on the team. "King Kong" and Elwin Niquires at center are the other two veterans and "King Kong" is a junior this year and will be out there next season spilling the opposing team all over the field as he did last fall and during the present season.

If Bob's knee gives him too much trouble next Friday in Ocala Jack Wilkerson or Bill Wright, two junior guards weighing 165 each, may see some of the game from the playing field. Both of these boys are ready to go in and prove their worth. They have been in a few minutes this season and showed up well. Jack has only one hand, but is in no handicap to him as he is there fighting for a position as a regular guard next season.

Brady Odham, one of the heaviest men on the team, is out for a guard position. He was used as a utility man all last season and it is hoped that he will see some service this season or next. He is a junior and tops the scales at 185.

Jimmie McElhannon, another junior out for the guard position, is handicapped by his weight, which is only 140 pounds, but if he can put on some weight by next season he probably will see lots of service on the first string.

### Can't Win Unless We Practice, Says High School Coach

Wednesday afternoon's scrimmage practice on the High School field did not leave Coach McLane in a happy frame of mind. He said he was frankly discouraged and that "Ocala will beat us by about 40 points if the squad doesn't come out for practice." Only a few of the first string men turned out yesterday, and not many others, he said. The Celery Feds play Ocala in Ocala on Friday night of this week, and Coach McLane said after yesterday's disappointing workout that he expects to start the men who turn out for practice. "Members of the squad do not need to think they are going to play in every game if they won't come out for practice," the coach declared.

Startling! Thrilling! A Story of Love and Adventure!

### Young McRory Wins High Test Score At Military Academy

MARION, Ala., Oct. 31.—The seventh highest score made on the difficult English Placement Test taken by 100 members of the Freshman College Class this fall at Marion Institute was made by Cadet George Whitfield McRory, a graduate of Seminole County High School of Sanford, Fla. McRory's score was 205, out of a possible 300.

Cadet McRory is the son of Captain and Mrs. G. W. McRory, 1118 Magnolia Avenue, Sanford, and is a student in the Army department of the Institute taking preparatory to entering the United States Military Academy at West Point, New York, and in a student body of unusually high ranking holds an outstanding position.

The ten highest scores in the test, exclusive of McRory's, were made by Cadet Hunter Taylor, Jackson, Tenn., 218; Cadet Virgil Hancock, Jr., Tallahassee, Fla., 212; Cadet Joseph A. Dremette, Tallahassee, Fla., 211; Cadet Peter W. Beers, Laurel, Miss., 210; Cadet M. Lemley, Hope, Ark., 208; Cadet Frank Harvey Miller, Jr., Montgomery, Ala., 207; Cadet Clarence M. Grace, Huntsville, Ala., 205; Cadet Paul Dickson, Jr., Raeford, N. C., 202; and Cadet Carl H. Merrill, Heflin, Ala.

### Army Recruits Must Meet Eight "Musts"

Uncle Sam's Army wants recruits for service in the Panama Canal Zone, but applicants for enlistment are required to come up to certain qualifications. Eight "musts" are listed as follows: Every applicant must be between the ages of 18 and 25 years, be at least 5 feet 4 inches high, weigh not less than 115 pounds, be sound in health with no organic disease, have sufficient teeth to properly perform the function of mastication, be of good moral character as attested to by three reputable citizens, be a citizen of the United States, have no dependents and be able to pass the intelligence test.

cents per box, according to the weekly market review issued by the Florida Citrus Exchange. Both oranges and grapefruit sales were heavier, 48 cars of oranges as against only 8 cars the previous week, 11 cars more of grapefruit, making 203 cars to the auctions.

Total sales of oranges and grapefruit in the auction markets were 259 cars, compared with an even 200 cars for the week ending Oct. 19. Total shipments out of the state by rail and boat last week were 448 cars compared to 376 cars the week before.

### Shivering with Chills Burning with Fever

Save Relief for Malaria! Don't buy homemade remedies or be fooled by cheap imitations. Only the genuine Grew's Tonic will give you relief. It is the only medicine that will relieve you of the symptoms of Malaria, such as chills, fever, and headache.

### United Colonies Was Once U. S. A. Name Old Money Proves It

Originally the United States was known as the "United Colonies," as shown by currency in the possession of F. D. Scott. The bill was printed by Hall & Sellers in Philadelphia in 1776 and bears this inscription:

"The United Colonies Four Dollars. This bill entitles the bearer to receive four Spanish Milled Dollars, or the value thereof, in gold or silver, according to a resolution of Congress passed at Philadelphia, Nov. 29, 1776."

Other old American coins have been brought to light by P. T. Meriwether, the oldest of these being a large copper cent minted in 1807. He also has a 25-cent piece (called a "Quar. Dol.") on the coin, minted in 1837, and two Indian head pennies, one minted in 1834 and the other in 1835.

Not American money, but still interesting nevertheless, is a Roman coin evidently minted in the days of the Caesars, which is in the possession of Herbert Messer. It was given to him by a friend who served on the Italo-African front during the World War and from whom it was acquired when the friend was discharged a medal for service.

### Rollins Coach Is Far From Pleased With His Eleven

#### Says He Fears That Tampa Will Win On Monday In Orlando

VINTER PARK, Oct. 31.—With a pair of scrimmage sessions with the freshmen eleven behind him, the "rats" using Tampa plays, Coach Jack McDowall is still far from pleased with his Rollins College football team. Meeting Tampa University in Orlando Monday, Nov. 4, the Tars will have to show almost miraculous improvement before they can be regarded as a threat to the invading crew.

George Miller has been held out of the rough work to give his ankle a chance to be in tip-top shape for the Tampa fracas. Miller, the key to the Tar offense, suffered a painful ankle injury last week-end and the bruised pedal is taking time to round into shape.

"Bo" Young, an Orlando boy, is being given a chance at the regular fullback berth. Carmoly, who has been starting at the fullback position, was moved over and Young was put in his place. With Don Murray's bruised rib responding to medical treatment, the backfield will more than likely lineup with Murray at quarter, Howe and Miller at halfbacks, and Young, fullback.

R. Brown, reserve guard of last year who reported for practice last, stands an excellent chance of being in the starting lineup when the Tars clash with Tampa. The rugged Nebraska has shown some fine blocking and defensive ability the short time he has been out. With Argyris "storing and Little suffering from an injured knee, it is probable Brown will earn himself a starting place before the whistle blows Monday night.

Danny Winant, veteran center, will more than likely get the cover Carroll Goodwin for the pivot job. In the scrimmage against Tampa plays, Winant had some success stopping the plays over center, while Goodwin was drawn out of position often.

Ellen Baker, sophomore, continues to show improvement at a tackle. Baker looks like the Arthved advanced sophomore in the line. Mobbey, a guard converted from a back last season, has also been showing steady improvement. Powell and Levy are two dependable men at the end positions.

### A Three Days' Cough Is Your Danger Signal

No matter how many medicines you have tried for your cough, chest cold or bronchial irritation, you can get relief now with Cromolium. Serious trouble may be brewing and you cannot afford to take a chance with anything less than Cromolium, which goes right to the seat of the trouble to aid nature to soothe and heal the inflamed membrane as the germ-laden phlegm is loosened and expelled.

### Mail or Phone For Your LIQUOR SHORT DELIVERS

A post card addressed to box 916, Sanford, Fla., or call Short's Camp by phone. Prompt delivery day or night. We will gladly supply you with a price list or you may select your price and brand from any liquor advertisement. Short's Family Liquor store is 5 miles out on DeLand Road at Short's Camp, Fla.

## County Ready Any Time For PWA Projects

Commission Notifies  
Engineer Promised  
Contributions Will  
Be Made As Needed

## Totals Come To Tremendous Sum

Projects Scattered  
Throughout County  
Will Employ Many

Seminole County is "ready and willing" to proceed at any time with the large number of PWA projects scheduled for this county.

The Board of County Commissioners yesterday advised the Works Progress Administration. The decision was made at a special meeting of the commission, and of the Board, to inform the PWA.

Aggar, assistant engineer for District No. 2, WPA, advised the Board of the following:

"The Board of County Commissioners desire to inform you that they are ready and willing to proceed at any time with the PWA projects scattered throughout the county."

Project	Amount
Tuskawilla Road	10,000
Lake Mary Rd.	2,000
Forest City	1,000

## Hoover Will Test '36 Sentiment; Roosevelt To Silence Antagonist

WASHINGTON, Nov. 1. — With Hoover now almost unopposedly convinced that former President Hoover determined again if convinced of a wide, popular demand for it, it is learned that he has arranged to make his first political speech in the East since the 1932 campaign. In effect, carrying to the Atlantic seaboard his independent campaign against the New Deal, he will return to the attack in an address before the Ohio Society, scheduled for the near future.

J. Edgar Hoover

WASHINGTON, Nov. 1. — Agreeing on the details of a demonstration calculated to undermine Governor Eugene Tammidge of Georgia and the last clear focal point for independent action against the New Deal, President Roosevelt has advised two Democratic Senators that he would deliver a Georgia address in Atlanta on Nov. 20, the day after Thanksgiving.

Franklin D. Roosevelt

## Cold Weather Extends East, Ice In Texas Earthquake Is Felt In East, Helena Shaken

Sub-Zero Readings In Western States; South May Escape, Weather Man Says

NEW YORK, Nov. 1. (AP) — The East's most serious earthquake, in decades rolled across 17 states and three Canadian provinces today, but the damage was trifling. Thousands of persons fled from their homes, many of them in night clothes, as they feared a tremor such as wrought havoc at Helena, Montana.

## National Automobile Fatality Chart

This map illustrates the progress of the movement toward reckless drivers and safety organizations cooperating with state and local authorities.

## Italy Goes To Geneva Today Talking Peace

'Not Running After,' Says Spokesman, But Negotiations Won't Be Refused

## Italy Requires More Territory

Italian Mandate In Africa Proposed By Church Paper

Italy went to Geneva today talking peace. "We are not running after peace," said the Mussolini spokesman at the League of Nations' headquarters, "but we are not refusing to negotiate."

There had been heard earlier some talk that with the failure of sanctions being applied to Italy, the Mussolini government was ready to consider withdrawing from such a border dispute as the Abyssinian. However, the spokesman at Geneva said that Italy would not be satisfied until it had secured a mandate in Africa.

The Italian publication in Rome, the Quotidiano, suggested an Italian mandate over Ethiopia would be the proper solution. There was nothing whatever to substantiate any belief that the Italian Government was speaking for the League of Nations.

Both British and Italian officials were in Geneva today, but the Italian spokesman said that Italy would not be satisfied until it had secured a mandate in Africa.

## Ruth Bryan Owen Is Made Doctor Of Laws

TALLAHASSEE, Nov. 1. — Florida State College for Women yesterday morning presented Ruth Bryan Owen, United States minister to Denmark and American first woman diplomat, the honorary degree of doctor of laws in an impressive ceremony in the college auditorium. The award was the first of its kind to be conferred by the college.

## Birth Rate Fall Is Seen As U. S. Peril

WASHINGTON, Nov. 1. (AP) — The birth rate in the United States is declining so rapidly, Dr. G. E. Barker of the Department of Agriculture told the National Conference on Rural Life today, that if the present decline in births continued in the nation, "old age will creep upon it prematurely only 25 to 50 years hence."

Four deaths in the Far West were attributed to the cold wave. The eastward march of winter picked up speed as the Kansas plains were reached.

Snow blanketed North Dakota and covered parts of Northern and Western Minnesota. A hard freeze was predicted throughout Kansas tonight.

Residents at Yakima saw the ground covered with snow, the earliest in Weather Bureau records or in the memory of oldest pioneers. Six inches of snow covered Coconville, Ore.

South Carolina Road Board "Digs In" For Siege Of Eleven Days

COLUMBIA, S. C., Nov. 1. — The reorganized South Carolina State Highway Commission last night "dug in" behind National Guard rifles for an eleven-day siege pending a Supreme Court test of its right to exist.

Bank Robbers Flee With Unknown Sum

AUSTELL, Ga., Nov. 1. (AP) — Two men robbed the bank of Austell of an undetermined amount of money yesterday and fled in a motor car toward Atlanta. Two women employees of the bank and a customer witnessed the hold-up.

Georgia-Florida In Citrus Rule Accord

ATLANTA, Nov. 1. (AP) — Officials of Georgia and Florida figuratively shook hands across the border yesterday to strengthen regulation of citrus fruit shipping and selling classifications.

Hofmann Believes That Hard Fighting Will Win Bond Settlement For Sanford

Stating that he does not believe "we can damage the reputation of Sanford by fighting," because that reputation was "ruined" when city bonds were defaulted in 1929, W. D. Hofmann, candidate for the City Commission, today made the declaration that "if we fight hard enough, we can get a satisfactory settlement" of the bonded indebtedness. Mr. Hofmann's prediction statement follows:

Sanford's Record Kept Clear As To Auto Fatalities

None In City During Year; 751 Less In Country Reported

Comparison of police records for the first nine months of 1935 with the first nine months of last year show that there were no automobile fatalities in Sanford while there were two during the corresponding period in 1934.

Administration Is Still Far Short Of Its Price Level Goal

WASHINGTON, Nov. 1. — The Administration's two-year-old drive to raise the price level was still far short of its original goal, the 1926 level. Two years ago President Roosevelt inaugurated his move to decrease the dollar by purchasing gold through the Reconstruction Finance Corporation. The labor department's wholesale commodity index was then 70.8 percent of the 1926 level. It is now 60.1.

Another Disturbance Off Bermuda Coast

WASHINGTON, Nov. 1. (AP) — The Weather Bureau last night issued the following storm warning: Advisory 9:30 P. M. disturbance of increasing intensity centered about 250 miles west-northwest of Bermuda at present moving west-northwestward with some indications of turning northward. Wind will cause strong north winds south of the Virginia Capes to Hatteras and strong north east winds and gales north of Virginia Capes to Boston.

Hunting, Fishing Pictures Wanted For Sanford Book

Wanted: Recent hunting and fishing pictures taken in Seminole County. To be used in an advertising booklet to be issued by the Seminole County Chamber of Commerce. Pictures suitable for the purpose desired will be returned unharmed after cuts have been made. Any person having photographs or clear kodak snapshots which they believe might advertise the county as a sportsman's paradise is asked to telephone the Chamber of Commerce, No. 51, or take the picture to the Chamber of Commerce building. The call for pictures is issued by S. D. Higleyman of the trade body's committee on publicity.

FRIDAY, NOVEMBER 1, 1935

Bible Verse For Today: ALCOHOLIC EXCESS: And he not drunk with wine, whowin is excess; but be filled with the Spirit.—Ephesians 5: 18.

1935 version: the next gate that sweeps from East to West may bring to our ears the sound of receding tom toms and drum dums.

The recent outburst of gangland slayings in New York was the result of competition for the "numbers racket" . . . what we know here as Cuba and bolita.

The United States is determined to remain neutral and keep out of this Italian-Khithian war if it had to slap every American into jail who sells any food to Mussolini.

This country stands for sanity," says Queen Wilhelmina of Holland. Well, we stand for a little of it over here now and then, but we protest like the very devil.—Atlanta Journal.

We dare say that it would come as somewhat of a shock to the electrical wizard to know that his wife has married again. In fact, he'd probably do a few revolutions in his grave.

Dr. Tiger says he would have no trouble developing a Rose Bowl team if all ideals of sportsmanship are to be abandoned. But he seems to have forgotten that Ohio State has already signed most of the leading professionals.

President Roosevelt says there will be no new taxes in 1936. And this comes just when business had begun to hope there would be no new taxes in 1936!—New York Sun. It seems that that was what he said with respect to 1936.

Some day we are going to write a book beginning "Once upon a time there was a candidate for office who kept his promises after election" . . . but on second thought maybe the public is fed up on fairy tales.

1935—Marathon dancers. 1930—Tom Thumb golf. 1931—Tree-sitters. 1933—Jigsaw puzzles. 1934—Hog-calling contests. 1936—Scratch out the top names and send a dime.—Denver Rocky Mountain News.

Not all the big rich are against the New Deal. One of them, who had some \$16,000,000 worth of securities a few years ago and now they depreciate to \$3,000,000, has watched them climb back up to \$12,000,000 since the Roosevelt inauguration. He says that nothing anyone can say can keep him from voting the Democratic ticket next year.

We see where Jimmy Walker is both in New York. He's the fellow you know, who invented the vice crack. He left New York several years ago just about one day ahead of the pro-corn servent after a long and successful administration of New York politics during the height of the boom. But all that seems to have been forgotten now. Why, we can't imagine.

Weather Rex Tagwell says that the Federal budget will be balanced by 1939 and that by that time the gross debt will be only \$10 billion dollars. Add the \$15 billion which the cities, states and states owe, and we have a grand total of 25 billion, which must come out of the taxpayers' pockets. It's a good thing we've got lots of money!

Before Breakfast Smoking

As a result of a five-year study made at Tulane University by Doctors Alton Ochsner, Mims Gage, and Kiyoshi Horoi, it was announced recently at the American College of Surgeons that smoking before breakfast is one of the quickest ways there is for incurring ulcers of the stomach.

You get ulcers, it seems, primarily because you have a weakness for them. There is no generally effective medicine to prevent or cure them, the report said. You have to make a lifelong change in your habits, particularly in your ways of eating, drinking and smoking. The ulcers occur on the "lesser curvature" of the stomach, the name for the roof of that portion of the stomach which is curved somewhat like a fish hook.

The weakness for them consists in "tissue susceptibility," which seems to be vulnerability of this upper fish-hook area, and "constitutional predisposition." The latter appears due to certain arrangements of the networks of nerves and of small veins of the stomach. Too much acidity, the Tulane physicians reported, is almost certainly one of the general causes of ulcers when it occurs in stomachs with these peculiarities.

Care about eating and drinking habits, they held, was the only safe way to avoid the danger line of acidity. Taking alkaline drinks, the report said, had little effect. Most important of all are the eating, drinking and smoking habits. "Excessive use of tobacco," the report stated, "especially between meals on an empty stomach is dangerous. Very bad is smoking in the morning before breakfast."

Alcohol, condiments and excessive use of meat were listed as dietary temptations needing special caution.

The Impending Burden Of Taxation

"The deadliest reality in our situation today," says Mr. Bainbridge Colby, secretary of state during Woodrow Wilson's Administration, "is taxation. Not legitimate taxation for the support of the legitimate functions of government. Not taxes equitably apportioned to the ability of the people to pay them, nor even extraordinary taxes which upon occasion the people of the United States have cheerfully assumed to meet an emergency to provide for the national defense, but taxes of uncalculated and incalculable amount—even now making their weight and impact felt, and in a few months destined to fall upon us and bear us to the ground with their insupportable burden.

"The average man has no realization of what is in store for him, and the New Deal is determined by every artifice it can employ to conceal the truth from him—until after election day. But it will not be easy. There are signs that the significance of the wild waste of money and credit by the Administration is being brought home to the people and that they are reacting to it precisely as would be expected of people who are still in their right minds. The Administration does not possess either the courage or the strength to stop it. The only way it can be stopped, and the only way in which the insane and headlong plunge into national bankruptcy can be arrested, is to stop the Administration—stop its expenditures, stop its appropriations and curtail its vast and misused powers."

Grammar As She Is Mutilated

The editor of Harper's Magazine is astonished by the number of writers, many of them gifted, submitting manuscripts to him, who use "lay" as an intransitive verb, as "I wanted very much to lay down." One would suppose that any person hoping to sell articles to a national publication at least would have mastered rudimentary English grammar. We do not propose to become stuffy or school-marmish about this, but it is a fact that ordinary English speech, as heard in the streets, in restaurants and occasionally even in the theater (where, of all places, the language should be spoken impeccably), is a shambles of bad grammar. "Ain't," "He don't," "Could of went," I seen him when he done it," and similar monstrosities are common. We hate to hear the language mutilated in this fashion. We propose to start a movement, organize a crusade or something. In fact, there ought to be a law.—The St. Louis Post-Dispatch.

SANFORD TWENTY YEARS AGO

Mrs. L. B. Bouchelle, little daughter, Francis, and Miss Marian Marie, of New Smyrna are the popular guests of Mrs. Henry Wright.

A marriage in which a very cordial interest is taken by the many friends of the bride and groom is that of Miss Kate Brown and Mr. Grever Sperring which occurred at the home of Mr. and Mrs. Edward Lane Saturday evening at half-past six o'clock. The marriage ceremony was performed by the Rev. F. E. Steinhilber of the Methodist Church. The bride is the attractive eldest daughter of Mr. and Mrs. E. R. Brown and possesses a charm and sweetness of disposition that has endeared her to a large circle of friends. The groom is a young man of sterling qualities and is identified with Mr. Brown in the farming business. Mr. and Mrs. Brown have gone to housekeeping at the home of Mr. and Mrs. Ray on Sanford Heights.

A. H. Munn, the well known vegetable buyer, is in the city again. Mr. and Mrs. Ray Selvin were in the city yesterday arriving from their home at Daytona Beach where they will visit Mr. Selvin's sister, Mrs. O. W. Talley.

Friends of Dr. J. N. Robson will regret to hear of the death of his father who passed away Sunday morning in Charleston, S. C. at the age of 92 years. Until his last illness of two months, he was actively engaged in business, having been a commission merchant, conducting his business in the same building which he established in 1859.

Ernest Betts and John D. Jiggins spent Sunday in Geneva attending the Fifth Sunday meeting of the Baptist Church at Geneva, Chulucha, Ovid, and other towns and report a splendid meeting. One of the loveliest of the Holmwood parties was given by Sarah Wright on Friday night to 25 young friends and the fun was fast and furious for Sarah is quite as charming a hostess as her gracious mother, Mrs. Henry Wright. As it is quite the thing for Holmwood parties to be given in the little Stuyvesant party up on there too, which was visited by way of strings, dark sidewalks, and snowy snowdrifts, a delightful and snow-dusted.

this, underfed animals of doubtful value. Even nations, ordinarily most reluctant to sell cattle, come the situation and are cutting off the "oldest residents" of their herds for the Italian troops.

Persons who are increasing interest in the Italian army. "Any army which can fight on North transversal arch units, must be tough," is a "curved" slogan for sale at high prices. It is

THE COMPASS

What Causes Recovery? By Arthur Evans

MONTGOMERY, Ala., Nov. 1.—All are pretty well convinced that war causes depression, but the causes of recovery seem shrouded in mystery.

The Old Guard alleges that Mr. Roosevelt has had nothing to do with recovery, except to retard it; that recovery really started in the summer of '32. This view is shared by the believers in the law of trends. According to them, business is subject to action and reaction; the swing is upward for about so long and then downward for about the same period and to the same extent.

Charts are plotted to illustrate this. These trend believers contend there isn't much anyone can do about it. No matter who was elected president, the time had come for the upturn, and if Mr. Roosevelt had let the law of action-reaction have full play, we would be much further along.

A chart of business volumes for the past 100 years is a succession of ups and downs. The up side is a series of peaks, hills and valleys of varying heights, widths and depths; the down side shows similar features. No two up-swings or down-swings are alike or of equal duration. The fall from the boom of '29 is about four times as great as the rise. If those charts prove anything at all, they prove that the law of trends is pure myth. Ex-Vice-President Dawes came nearer the truth recently when he said it was all a matter of mass psychology.

Fear causes people to reduce their spending—which makes for decreased production, throwing workers out of jobs, who in turn throw others out of work. Competition for jobs starts a downward spiral of wages. This curtails buying power faster than production is curtailed, and the resulting surplus of products starts price reductions. Prices do not recede as fast as wages because idle people have savings to spend for awhile. Their demand holds off prices, so that declining incomes buy less and less.

Buying power is represented by wages, interest, dividends, savings and borrowing. When the amount of these (or their use) declines faster than the volume of things grown and manufactured, the law of supply and demand operates. The supply decreasing more slowly than the demand, forces a continuing drop in prices.

As long as buying power falls faster than production, there is no stopping the downward spiral. Unless stopped, the debtors lose all to their creditors, and the latter acquire real estate they cannot own or sell, and securities which no longer pay interest or dividends.

Somewhat, sometimes, somewhere, something must be done to reverse this downward spin. Sufficient buying power must be created, and so that the demand for products and property at least equals the supply. If buying power is made to exceed the supply, wages and prices start upward and we are on our way back.

But what causes that necessary increase in buying power? Mr. Dawes, if quoted correctly, has made a remarkable discovery—that always, after being in the dumps about five years, people recover their optimism and commence to increase their spending. This brings the unemployed back to work, and so they have five years of prosperity.

The General's philosophy decries the Old Guard contention that recovery started in the summer of '32, for from then until March '33 we passed through our psychological depths of mass despair—bank failures, suicides, unemployment multiplied, gold disappeared into hiding, and even our insurance companies tumbled on the brink of insolvency.

What really happened in the spring of '33 was this: Faith in President Roosevelt and his New Deal caused many to use their dormant buying power; fear of the effect on the purchasing power of the dollar if gold were re-monetized, induced others to exchange their money for stocks and bonds; and the increased demand quickly sent up prices. This gave millions of people, hundreds of millions of people, hundreds of millions of new buying power.

The NRA, by spreading employment, added to the buying power of wages. Increased purchases brought profits to corporations, allowing increased buying power to the stockholders of dividends. The AAA created buying power for the farmer. More buying power meant more goods distributed, and when this is combined for enough, to have recovery.

The prevent of any depression now nearer continents with buying power (actually used) causes production. The cause of recovery, therefore, and whatever creates buying power and brings confidence to the consumer is to use it.

FLORIDA HIGHLIGHTS

JOHN MILTON FLORIDA'S CIVIL WAR GOVERNOR

Though a denizen of the deep, the kite-shaped WHIP RAY, which is quite common off the coasts of Florida, often takes to the air. With its mighty "wings" it can easily carry its huge body above the water, for variable distances by merely touching the water like a ricocheting shell and again soaring aloft.

The entire administration of JOHN MILTON was filled with the vicissitudes of war. Hardly had he taken office, when, on January 18, 1862, the state convention voted that Florida secede from the Union and she was the third state to do so. Governor Milton died eight days before the surrender of General Lee.

Another "New Deal" Straw Vote Started

Latest straw-vote ballots put out by the "Literary Digest," New York magazine of public opinion, in a nation-wide poll on the popularity of the New Deal, are beginning to arrive in Sanford. Publishers of the magazine announce that 10,000,000 ballots will be mailed, more than half a million, with return postage paid by the magazine, from New York daily.

The question asked of those to whom the ballots are being sent is: "Do you approve the acts and policies of the Roosevelt New Deal to Date?" The ballots are being sent to the same persons who, in the spring of 1934, expressed themselves as 71.16 percent for the New Deal and 28.84 percent against it.

The high degree of accuracy in "Literary Digest" polls in the past gives important political significance to this forthcoming test of public opinion, coming just as the political parties are warming up to the national campaign of next year. Its value in correlating the swings in public sentiment will be increased by an additional question on the ballot, asking each voter to indicate how he voted in 1932.

The straw vote will be the eleventh national poll conducted by the magazine.

LAKE MARY

The local celebration of Girl Scouts Week, was ushered in last Sunday morning by the attendance in a body of Lake Mary troop and leaders at the Community Church service.

The church was decorated with flowers and with the Christian and American flags. The uniformed Scouts entered as the prelude "Holy, Holy, Holy" was played. The Scriptures were read by Scout Grace Whidden and a Scout hymn was sung by the troop. Rev. J. M. Thompson preached an able sermon in Scots from the text, "I Am the Door."

The broadcast last Sunday night by the Lake Mary and Sanford Scouts was enjoyed by a large number of our people as was also "The Iroquois Smile" given by our local Iroquois Park.

In place of the regular meeting of the Scouts on Tuesday the troop and leaders attended the Silver Tea given in Sanford by the Sanford troop.

Several members of the Nazarene Church are in Miami this week at the meeting of the General Assembly. Those attending from here are: Rev. and Mrs. Graham, Mrs. Garrell, Mr. and Mrs. Leonard Shriner, Mr. Emery, Evelyn Lord, and Duane Chase.

The men of Community Church put on a Halloween party last Thursday night at the Chamber of Commerce. Games of various kinds were enjoyed throughout the evening. Refreshments of hamburger sandwiches, pie, candy, chocolate milk, orangeade and coffee were sold. Prizes were given for girls' prettiest costumes, which was won by Ruth Pugh, first prize, and Natalie True, second prize. Prize for the funniest boy's costume was won by Raymond Ball. A fine of one cent was exacted at the door for those not in costume.

Mrs. Lamb is holding a class in Home Nursing at the "Little House" and all of the Girl Scouts signed up for it.

The Lake Mary troop went to Sanford on Thursday and Saturday of last week to rehearse for the broadcast last Sunday night. Those taking part from Lake Mary were Frances Thompson, Grace Whidden, Natalie True, Claire Evans and Ruth Pugh. The other girls assisted in the costuming.

Tuesday the troop meeting was postponed so that the girls could attend the Silver Tea which was given for the Sanford troop. Mrs. Roy Howell and Mrs. Cochran, Boy Scout leaders, Mrs. Hall and Mrs. True, Scout leaders and Mrs. J. M. Thompson and Mrs. Frank Evans of the Troop Committee accompanied the girls.

Nov. 6, at 4:00 o'clock, there will be a Iroquois Fly-up at the Community Building. At the same time there will be a Court of Awards and all parents and friends are invited to attend.

### State Library Is Developing Into Research Bureau

#### Majority Of Shelves Loaded With Books On Florida History

TALLAHASSEE, Nov. 1. — (AP)—Librarian W. T. Cash today said Florida's state library is not only a book-lending agency, but it also is a research information bureau. If all his answers to persons seeking such information were printed, he said they would fill a book of about 800 pages.

While there are popular novels and current magazines on the state library's shelves, a major portion of the shelves are stacked with governmental publications and documents on Florida's early history.

It is from this collection, consisting of some 12,000 volumes and that many more pamphlets and informational circulars, that Cash said he finds the answers to the thousands of Florida research problems presented to him for solution.

"Digging up" this information is a pleasure, Cash said, "but there's considerable more fun in resending state documents that would have gone to the

rubbish heap." One of these rescued documents is a handwritten Florida legislative journal for 1831-1836, which Cash said a collector estimated to be worth at least \$2,000.

The library's Florida collection, which Cash described as "invaluable," includes publications of state officials and governmental agencies, books relating to Florida, Florida newspapers dating back to 1824, manuscripts and old letters concerning the state, Florida maps from 1874 to date, photographs of important state historical documents, out-of-state publications relating to Florida history, civil war letters by a Florida soldier at the front, atlases and gazettes dating back more than 100 years, early church publications and military documents.

Some of the information Cash has been asked to furnish recently is naming all the governors of the state to date with certain facts concerning each, a bibliography of reading concerning Ferdinand and Fort Clinch which recently was made a national monument, routes used by soldiers in south Florida during the Seminole War, information concerning Florida's first constitutional convention, historical facts on Fort Gadsden and Chattahoochee, biographical details on Prince Murat's life, and taxation data for certain Florida counties during their early years.

### Mild 'Gold Rush' Spurring Nome's Rise From Ashes

NOME, Alaska, Nov. 1. — (AP)—As snow flies again, Nome faces a different winter than last, largely rebuilt and encouraged by another mild "gold rush," and with the disastrous fire of Sept. 17, 1934, a memory.

The fire, which destroyed eleven blocks of buildings on that windy, gale-swept day and night, was not without its blessings, although the loss was set at \$2,000,000. It was the worst of three disastrous fires in Nome's history.

"Now we see new buildings occupying the area," says George Maynard, publisher of "The Nome Daily Nugget," Alaska's oldest newspaper. "The Nugget" plant was destroyed but has been rebuilt.

"Many of those old historical structures had outlived the first gold rush period," he says. "In many respects, last winter was a hard time for everyone. Privations of living and hardships of one kind and another beset many of the people; but with the coming of summer reorganization of business and the building of homes and business houses, a brighter and more cheerful city has been the result."

Unable to "hole in" in the burned city last winter, many residents, possibly 500 of the 1,200

here, including those who "go out" every winter left for the United States and Fairbanks and other Alaska points after the fire.

They came back this spring and summer and with them, as the government's higher gold price encouraged a resumption of gold mining activity, came others. The Seward peninsula stretching north from here has seen a mild flurry of mining activity and many of the new miners and prospectors will remain north through the winter.

### Exports-Imports Almost Balance For Current Year

WASHINGTON, Nov. 1.—For the first time in 40 years Amer-

ican exports and imports will almost balance in 1935, Administration experts revealed on the basis of figures made public by the Commerce Department for foreign trade for two-thirds of the year.

Marking attainment of an objective of the New Deal, the so-called favorable balance of trade, which is no longer considered by this Administration to be a favorable factor in American economy, will be materially less than \$100,000,000 for 1935. The Commerce Department has to go back to 1895 to find a year when the excess of exports over imports was below \$100,000,000.

Exports this year, according to present estimates, will be about the same as in 1934 when the figure was \$2,133,000,000. Perhaps the exports for 1935 will be a trifle larger. But imports, jumping 20 percent in value for the first eight months of this year,

will almost parallel in value American sales abroad.

Administration experts attribute the increase in imports this year to the following factors:

A heavy increase in imported foodstuffs due to the drought and the domestic farm control program.

Improvement of domestic business, bringing a general increase in demands for goods, particularly raw materials, and a somewhat better price for the latter.

Increase of alcohol beverage imports and products for making liquor.

Increase of oil seed imports due to decrease in domestic cotton production.

Administration spokesmen regard the evening of the trade balance as a favorable development on the thesis that exports can be paid only in imported goods and gold or silver. The United States

is already getting control, without economic advantage, of the world's monetary metal supply it is pointed out. Further lending abroad to help foreigners buy American goods, the method by which export balances have hitherto been largely financed, is regarded by the Administration as so much lost money in the long run.

### Another Contract On Florida Canal Let

OCALA, Nov. 1.—(AP)—Word went out yesterday to seven contractors that they may proceed with the stripping of overburden from the right of way of the ship canal across Florida. Large scale soil removal probably will not begin before the middle of November.

### Hofmann Believes Fighting Will Win Bond Sentiment

(Continued from page 1)

fighting. We turned our reputation all it can be turned when we defeated on our honor back in '29. As far as bond owners are concerned, what they get after this money is paid gets spread to the limit by the Committee, isn't going to be any healing valve for their old wounds. The fact that payments to bond owners have been low and far between as well as small, has me to believe that they are pretty well fed up on the whole thing and consider that they have done no worse than most of us who made a lot of poor investments along about the same time. And I believe that if we could get at them individually, we might get somewhere. A big majority of them would like to be freed to take a real settlement of say twenty cents on the dollar, which is about what the bonds are now bringing in the open market. Then every penny we could get them to go to reducing our debt. All that we could pay off the whole debt in about 15 years. I think the Committee

"At one time I understand that Judge Akerman ordered the Committee to give us the names and addresses of the owners they represented. Nothing was ever done about this, our lawsuits were dropped and we never got the names. I understand that we do have the names of the owners of about two million dollars worth of our bonds; why not get the rest and deal dire? At least get the percentage necessary to go into court on the Wilson law. Let's do something to get the nose from around our eyes. If the Sanford voters want the sort of a deal I'll do my best."

"I'm not leaving for the job as commissioner, it'll take a lot of time from my business, but if Sanford voters want me to try to help our City, I'll use my best judgment and work for the things that will affect the majority of the people to their best advantage and that of the City, if elected."

### 10,000 Flints Are Dug Up In Ireland

BELFAST, Nov. 1.—Ten thousand flints, shovels, axes, knives and other implements, by Mesolithic Irishmen, have been

### Selassie Nibbles Vegetables As His Men Eat Raw Meat

ADDIS ABABA, Nov. 1.—(AP)—100,000 thousand ferocious warriors engaged themselves with raw meat before Emperor Haile Selassie, but the little monarch ate none. Instead, he dined on a plateful of vegetables and a glass of tea. In fact, the fighting he watched.

The emperor's feast was served in relays to five armies of 10,000 warriors each, 312 cows having been slaughtered for the banquet.

Although the Negro adored the "primitively" soldier, culture upon them again to "show true scriptural hospitality, courtesy and kindness to all foreigners in the land."

uncovered by the Harvard University archaeological expedition in Ireland.

Researches by the expedition the fourth season of which was completed here last week, have unearthed a great number of flint implements, including axes, knives and other implements, by Mesolithic Irishmen, have been

### Stetson To Play Miami University In South Tonight

DELAND, Nov. 1.—After an early breakfast the Stetson Hatters left yesterday for Miami, bearing the hopes of students and faculty for victory in tonight's game there against the University of Miami.

Brady Cowell, head coach, put the Green and White eleven through a final practice in Miami shortly after 4 o'clock. The team and coaches were full of confidence that they would give a good account of themselves in this sixth meeting with the Hatters, who have never defeated Stetson.

The full power of the Hatter eleven will start the game when Coach Brady leads out the boys in a spring ankle may, held in Perry, N. C., at 10 o'clock. Miller's injury will handicap strength somewhat but he will probably be seen in a short time. The squad will include 15 players and Managers Paul W. Gray.

Minimal practice of Stetson in Deland, Fla., will be held tonight, mainly to polish up.

### Tallahassee Bonds Are Not Validated

TALLAHASSEE, Nov. 1.—(AP)—Circuit Judge F. C. Love of Quincy has refused to validate the proposed issuance of time warrants by Leon county for construction of a county jail. He held such warrants would amount to county-wide obligation, and therefore should be submitted to a referendum.

Judge Love also prohibited the City of Tallahassee from selling electric power to Wakulla Springs, about 15 miles south of here, where a power rate as is charged in Tallahassee.

RESERVE OFFICERS MEET

JACK O'NEILL, Nov. 1.—Florida's 10th Reserve Officers will meet in the annual convention here at 8 o'clock tonight in the Casino. If all the sessions will continue through tomorrow.

NEWSPAPER MEN MEET

JACK O'NEILL, Nov. 1.—Daily newspaper publishers from all parts of the state will be in Jacksonville and Jacksonville Daily News will entertain all of the annual fall meeting of the Associated Presses of Florida.

### WINN-LOVETT MANAGERS

J. D. Cochran (left) and Rex Harrison, managers of the Pacific Wrigley Store on Sanford Avenue, and Lovett, who are competing in a system-wide contest to win the right to sell Wrigley's chewing gum and tooth paste in the state.

Roosevelt Rally To Silence Antagonist

(Continued from page one)

Mr. Roosevelt's speech will be held at the Waldorf-Astoria Hotel, 1000 Broadway, New York City, at 8 o'clock tonight. The speaker will be Mr. Roosevelt, who will be accompanied by Mrs. Roosevelt and their children. The rally will be held in the ballroom of the hotel, which is one of the largest in the city. The speaker will be Mr. Roosevelt, who will be accompanied by Mrs. Roosevelt and their children. The rally will be held in the ballroom of the hotel, which is one of the largest in the city.

### Hoover Is To Test Sentiment In 1936

(Continued from page one)

The speech is to be made at a private dinner of the society at the Pennsylvania Hotel in New York, at which the 100th anniversary of the society will be celebrated. The society will have a year's work to do for about 1,000 persons. Other societies in other states are expected to be attending in by radio, a special dinner and other functions arranged for the occasion. Hoover is to be a national speaker.

Mr. Hoover will be accompanied by Mrs. Hoover and their children. The dinner will be held in the ballroom of the hotel, which is one of the largest in the city. The speaker will be Mr. Hoover, who will be accompanied by Mrs. Hoover and their children. The dinner will be held in the ballroom of the hotel, which is one of the largest in the city.

# Florida And Georgia Fight 14th Grid Battle Tomorrow On Field In Jacksonville

## Gators Have Been On Winning Side Only Twice In 2 Decades

By Frank S. Wright  
GAINESVILLE, Nov. 1.—Whom the Georgia Bulldogs and Florida Gators clash tomorrow afternoon in Jacksonville it will be the 14th meeting between the two natural rivals in the past two decades.

Whatever the outcome, chances that even if the Gators lose, and Georgia will be a big pro-game favorite, the defeat will not be nearly so decisive as the 56 to 0 Georgia win over Florida in 1920, nor is it likely that in the event of a Gator triumph, the margin will not approach the 26 to 6 victory which the Orange and Blue hung into the records in 1922.

Florida has not won from Georgia since that 1922 victory and the following year when an 18 to 6 triumph was registered. In 1920 the two teams played to a scoreless tie. All games, some half dozen of them, played prior to 1922, turned out to be wins for the Bulldogs, and all games since 1920, some four of them, have been Georgia from start to finish.

Having won but twice in 13 cracks at the Georgia Bulldogs, the Gators have much ground to regain before the historians will talk of football on an equal basis, but this 1935 Florida aggregation is more concerned with the immediate job at hand than the pages of history will write years from now. They know that to beat Georgia this Saturday will mean more than anyone has an idea, and that it will certainly contribute, all that any one team can to the record books.

Scheduled to officiate the Florida-Georgia game are: Ervin Drake, referee; Sholar, Presbyterian umpire; Gardner, Georgia Tech head line-man; Moutt, Armour, field judge; Gardner was the only one of the group officiate in the Georgia-Florida game a year ago. He was umpire in that game.

The fact that the Gators have dropped three in a row is not bothering the fans as they make plans in the St. Pauli stadium for the kick off at 2:30 o'clock Saturday. The fact that Georgia lost in Alabama last week, first defeat for the Bulldogs this season, is not mitigating against a full house.

The 22,000 or more in Jacksonville, Saturday may be one of the year's most sensational air battles, for it is certain that the two great natural rivals will strike through the air each time there's a possibility and sometimes when the pass play might be unorthodox, it may be called. But apart from the passing game, the fact that the Gators rolled up 176 yards from scrimmage against Maryland while the Old Lineers were gaining but 33, showed for once the Stanley running attack was working, and that the Gator line and the secondary was holding in check the Maryland defense.

The Georgians will have many of the crowd looking in Jacksonville Saturday that were there a year ago plastering a 14 to 0 reverse on the Gators, the same scene incidentally as the year previous. And particularly, the chaps who struck the tell-tale blows which were the first touchdowns late in the second quarter, and it was Green who tossed a long aerial to Bond in the fourth period for the second touchdown, just after Green had cracked through for a 32 yard run to Florida's 30. After both scores Bond piece-kicked the extra points.

Among the large and valuable collections of old coins owned by residents of Sanford is that assembled by Mrs. J. P. LaRoche, living on the County Club road. There are more than 100 American coins in the collection, and included in the lot are several of the Calif. 25-cent and 50-cent gold pieces. One of the first pennies ever circulated is in the collection, as well as a large one-cent coin minted in 1223, a two-cent coin dated 1855, several half-cent pieces of the dates 1800, 1825 and 1834, and an Independence Dollar 1776-1878 issued to commemorate the world fair of the latter date.

## Here's How Gators Played Georgia in Previous Years

Scores of Florida-Georgia Grids on the football gridiron in the past two decades are as follows:	
1918—Florida 0; Georgia 27.	1918—Florida 0; Georgia 21.
1919—Florida 0; Georgia 19.	1920—Florida 0; Georgia 56.
1921—Florida 0; Georgia 23.	1922—Florida 26; Georgia 6.
1923—Florida 18; Georgia 0.	1924—Florida 0; Georgia 0.
1925—Florida 6; Georgia 33.	1926—Florida 12; Georgia 33.
1927—Florida 0; Georgia 14.	1928—Florida 0; Georgia 14.
1929—Florida 0; Georgia 6.	1930—Florida 0; Georgia 0.
1931—Florida 0; Georgia 33.	1932—Florida 0; Georgia 14.
1933—Florida 0; Georgia 14.	1934—Florida 0; Georgia 14.

## All Celery Feds Out For Practice Coach Is Hopeful

## Local Squad Looks Much Better, Play Ocala This Evening

"All indications are that we ought to take them," said Coach McLucas shortly before the Celery Feds left Sanford early this afternoon for Ocala where they will meet the Bulldogs on the gridiron at 8 o'clock tonight.

The coach was somewhat dubious a few days ago, but he said today that members of the squad had worked hard the last two days and that every man on the team showed up for scrimmage yesterday afternoon.

"If we can get our passing attack working we ought to win," he declared.

The coach said he expected to start the following men in tonight's game: Squires, center; Hob Williams, right guard; Theodore "King Kong" Williams, left guard; Stasler, left tackle; Warren, right tackle; Pardon, left end; Colbert, right end; Wright quarterback; Bachry, left halfback; Lawson, right halfback; McClelland, fullback.

Jas vs. Orlando  
ORLANDO, Nov. 1.—Orlando High's undefeated team meets Andrew Jackson High football squad from Jacksonville here tonight. Victorious over Daytona Beach, Plant City, St. Petersburg and Gainesville, Coach Harry Green's charges constitute a real threat to Jackson's hopes for its third straight triumph.

Fast and able to execute their play with remarkable skill and precision, Orlando lacks only room to be one of the strongest teams in the state. Against Jackson, Orlando will have to give away much poundage.

Leesburg vs. St. Augustine  
ST. AUGUSTINE, Nov. 1.—The Katterlin High School Mulets wound up preparations yesterday for their Northeast Conference football engagement tonight with the powerful Yellow Jackets of Leesburg.

Generals vs. Mingers  
JACKSONVILLE, Nov. 1.—Robert E. Lee High's unbeaten and united Generals tonight will risk their spotless record in a battle with the celebrated Miami High Mustangs at Cavethon Field. A crowd of 4000 persons is expected to watch these two teams, two of the outstanding eleven in Florida scholastic football circles, swing into action at 8 o'clock.

Tampa vs. Newberry  
NEWBERRY, S. C., Nov. 1.—The University of Tampa maintained its record of no defeats here yesterday by winning a football game from the Newberry Indians 18 to 7.

STORKS FLY TO WAR BOND  
MEMEL, Lithuania, Nov. 1.—(AP)—Storks in Memel territory have started their migration southward with accompanying peeping, according to peasant belief. The birds are in pairs and the peeping is a favorite wintering place for the long-legged birds.

## The Herald-Milane Football Pick The Winner Contest

Selections Must Be Made in Special Office before Saturday Noon, Nov. 2.  
Name .....  
Address .....  
SELECT FROM THE ENTIRE NATION, TEN COLLEGE FOOTBALL GAMES TO BE PLAYED THIS SATURDAY

IN THE SPACES BELOW—LIST YOUR TEN GAMES—WITH YOUR CHOICE OF THE WINNERS IN THE PROPER COLUMN.	
WINNER	LOSER
1	1
2	2
3	3
4	4
5	5
6	6
7	7
8	8
9	9
10	10

EACH OF YOUR GAMES MUST FINISH LIKE YOU SELECT THEM IN ORDER FOR YOU TO WIN TWO MILANE TICKETS

Note: Send your selection in quickly. Only the first 10 correct lists will receive tickets. Tickets issued as soon as results of games can be recorded. All Games must be properly listed in columns above.

Playing At Milane Wednesday, Nov. 6  
Writing must be legible. Tickets Good For Wednesday Picture.

## JUNIOR HIGH SCHOOL NOTES

Girls' Sports: The Seventh and Eighth Grade girls under the direction of Miss Takach will begin work on the second six weeks program of play on Monday of the coming week. The groups will be arranged similar to the groups assembled for the volleyball period. Players will be chosen by rooms with a captain elected from each room. These teams will play under the same team title as of the first six weeks of school.

Special News Items  
A Halloween party has been planned for the boys and girls of the Athletic Club tonight. The party will be given by Mary Frances Wells and Peggy Hoolahan of the latter's home on First Street. All invited are expected to attend in full costume and come prepared for a "spooky" good time.

School Heavy Bell  
Requirements for the honor roll are essentially the same as last year. A pupil must have no absences, must be in the A in his department, in his studies, the pupil is required to have four E's in his studies, and no failing marks. We feel that a pupil who achieves this is worthy of congratulation, and we proudly present this list of real students:

Arthur: Beckwith, Harold Hamlin, Mabel Chapman, Edith Lundquist, Rosa Daniels, Edward Owen, Louise Moughten, Mary Biddin, Allen Newman, Edwin Brennan, Milton Haddleton, Harold Malton, Martha Bertleson, Mary Ann Hubber, Miriam Mochlin, Elizabeth Whigham, Mary One Schellman, Erma Doudney, Grace Sullivan, David Green, Ralph Rex, Jane Lord, Muriel Range, Hazel Lodge, Pat Wilkie, Joe Van Roy, Anna Benark, Eugene Oberman, O. W. Matthews, Charles Schmidt, Olive Chapman, Martha Prichard, Mary Lodge, Rebecca...

Boys' Sports: Mr. King and Mr. Schirrad have been working on a new schedule of play for the boys of the Seventh and Eighth Grades for the coming six weeks. This schedule briefly is one which calls for division of the boys of both the grades into groups determined by each boy's age, height, weight, and grade. The groups will be assigned to play tennis ball, tennis, football, and diamond ball. Each group of boys of both grades will play the three sports three times a week. The sets of boys rotate from one sport to another after having played at one sport for twenty-five minutes.

In this way it is hoped that a more disciplined group of boys will be on the play ground than has been in the past. Also, the boys may be more accurately graded on their work this way.

## Boy Boxers From Sanford Put On Show In DeLand

Boy boxers from Sanford thrilled a crowd in DeLand last evening when they went to help put a boys' athletic club on its feet. Twenty-eight members of the Sanford Boys' Athletic Club went to the neighboring city, and, according to Judge B. A. B. Wilkinson, club sponsor, they made a big hit with the crowd. He reported that the fans were outspoken in their praise of the youngsters and accorded them much applause during the evening's program.

The bout that seemed to get more applause than any other was between Harry Lee Moore and Earl Peiry, 9-year-old youngsters. It went to a draw. Next in line was the Billy Wilkinson-Milton Edge bout which also went to a draw, though there were several knockouts in that contest. The most skillful bout of the evening was that between Clarence Barrineau and Pete Tills, resulting in no decision.

Lawrence - Barrineau defeated Ray Edge, J. R. Ellis outpointed Clifford Williams, and Edward Smith of Sanford defeated Andy Rainey of DeLand.

at the Sanford-Oviedo game Wednesday when a ball came in contact with his face, or maybe it was visa versa. . . . The Best Future Contest commences this Monday for the girls. . . . Why is it that all the boys want to play in the scheduled games, but only a few can get around to practice. . . . According to our losses, the boys need lots of practice. . . . The girls hope to arrange a volleyball game with the freshman girls at Seminole High this coming week. . . . and we'll win too. . . . Mr. Morris came out to show the boys how to play touch football the other day. . . . he can play touch as well as he can play volley ball. . . . It seems that June Bryan wants to "bite" the volley ball every time she serves it. . . . really June you can't do that. . . . The "Old Maid" are rather a sporty bunch so perhaps we can make mention of them in this section. . . . we hope their play is good. . . . Miss Takach and Miss Earls, we missed you at the game Wednesday. . . . The boys hope to make a trip to Lyman High at Longwood for a touch football game the early part of next week.

WANT HOTEL CONVENTION  
ST. PETERSBURG, Nov. 1.—Florida in general and St. Petersburg in particular will invite the American Hotel Association to hold its 1935 convention in the city, it was announced yesterday.

Announcements  
HAVE YOUR WASH supplied by one who really knows how. . . . SPECIAL FOR 3 days, 5 places on Chas. 6428, McLaughlin's the Jeweler, Park Ave.  
WREN WASH Repairing a Specialty at McLaughlin's, the Jeweler, Park Ave.

## Does Your Carrier Boy Give You Good Service?

In an effort to find out whether or not our subscribers are satisfied with their delivery service, we are presenting this questionnaire, the answers to which will be kept in strict confidence.

- Does your paper arrive at a time which suits your convenience?
- Is your carrier boy courteous and does he respond readily to suggestions to assure more efficient delivery?
- Would you prefer to have another boy carry your paper?
- Are you satisfied with the present carrier?
- What are your suggestions to improve the delivery service?

Please cut out this questionnaire and bring or mail to The Sanford Herald, thereby helping us to give you the service which you deserve. Under no circumstances will the carrier know what you have written.

### Celery History, Uses, Desirability Given In New York Radio Broadcasts

An address on "Celery, Its History, Uses and Desirability," was broadcast over two New York radio stations by C. W. Havener, under the auspices of the New York City Department of Foods and Markets. It was as follows:

"We have come a long way in the use of celery when we consider that there was a time when this now everyday vegetable was nearly as precious as an orchid is today. In ancient Greece its use was restricted to glamorous occasions, or those of great sorrow. Then it was mainly used to reward victors in athletic games, and to twine amidst floral wreaths.

"How different it is with celery today! Its succulent richness is available to everyone. No longer do people associate it merely with great occasions, for now-a-days, every day is celery day. This is because its growers are busy the year round and so perfect have become the means of its distribution that fresh celery is taken granted daily, just as fresh bread is taken for granted every day.

"New York and the metropolitan area are fortunate, for at no time are they without choice celery, and this fact is emphasized when one considers the ease of obtaining it. The humblest pushcart to the most exclusive store, the most inconspicuous lunchroom to the most deluxe hotel, all neighborhood stores and restaurants are in the position to furnish the choicest celery day in and day out.

"This happy present condition didn't happen overnight, though most of the developments took place within the last thirty years. Too much credit cannot be given the growers of celery, for they have done an unexampled service in adding to its every-improving quality, its flavor and its hearty richness. Credit must also be given to the receivers who have been largely responsible for making celery available to New Yorkers 365 days each year. I should explain that term 'receivers.' It is a trade name and refers to the wholesaler, who, receiving commodities from the grower, arranges promptly for distribution into channels where purchases can be readily and easily made by the public. To accomplish this efficient distribution, much thought and money have been spent to improve transportation conditions and encourage diversified sources of origin. Celery is followed all the way from the farm to the retail store. Such activity on the part of receivers has made possible prices so attractive that the housewife is able to buy and use ever increasing quantities of celery.

"To illustrate the point. Not so many years ago, celery was a Thanksgiving, a Christmas, or a

### Alien Grasses To Carpet Western Prairies So Urgent

WASHINGTON, Nov. 1.—(AP)—Government plant explorers have introduced so many new crops to this country, have been on the march again, bringing from the far ends of the earth strange, alien grasses that someday may dot the American great plains.

A two-year search, in which three expeditions took part, has been ended and now more than 2,200 lots of seeds and plants, collected from Russia, Turkistan and Manchuria, are being carefully tested by Department of Agriculture scientists to see just how they will stand under drought, wind, severe heat and cold. If any species shows remarkable toughness, it will be reproduced in larger quantities preliminary to possible intro-

duction in the great wind-swept sections of the country to reduce the devastation of recurring dust storms by binding the soil. Nearly all lots were collected from areas where the life of a plant is very precarious unless it is extraordinarily resistant.

Russian, Japanese, Manchurian, the Cobi desert, Persia, Russia, Japan, Afghanistan—all have been hunting ground for one or another for Uncle Sam's plant explorers. They "bring 'em back here" for long expeditions here. Specimens brought in are inspected for disease and kept in cold storage until they are ready for their development in the field. Some months, sometimes years, the discovery of one weed variety in a field is the result of a search of hundreds of acres of land. The percentage of success being obtained is necessarily so small.

Burrs and certain types of hard weeds, which are hard to control in the red spring wheat, now a great commercial crop, were unknown here until a department plant hunter found them in Russia and

Siberia years ago and brought them back here. They are now being translated into millions of bushels of material each year, annually. The United States government has been very successful in its plant explorations. It has introduced into this country a great many new crops and plants, some of which have become staples of our food and life. The department plant hunter found them in Russia and

through heavy rains, the almost unknown, in New Guinea. Some of these plants are being tested for their ability to grow in our soil. They are being tested for their ability to grow in our soil. They are being tested for their ability to grow in our soil.

Writer Sues Thaw for \$10,000 Damages

WASHINGTON, Nov. 1.—(AP)—A writer has sued for \$10,000 damages for the use of his name in a radio broadcast. The writer, who is a resident of New York, claims that the broadcast was a defamatory attack on his character and reputation.

Like Seasoning Herbs In Old Fashioned Garden

In the old fashioned garden, herbs for seasoning food were grown in abundance. When mature, they were gathered, dried and put away for kitchen use. Much the same story about Black Draught. This popular, vegetable laxative is made of selected, scientifically approved, medicinal herbs, dried, finely ground and packaged for convenient use.

BLACK-DRAUGHT

recommended to all who occasionally need a good, reliable laxative. Adv.

# VISUAL NEWS of the WORLD in PICTURES

### BLIND SENATOR TAKES BARRIER

Despite his blindness, Senator Schall (R-Minn), astride Kismet, famous show horse, is shown taking a barrier successfully at Washington, D. C. An expert horseman, the senator, who has been blind for many years, has resumed his riding with the aid of bells and buzzers of different tones which give him directions and locations. (Associated Press Photo)

### TRAIL OF RUIN LEFT BY CUBAN HURRICANE

Four persons were killed, thirty or more were injured and heavy damage was done to property when the second hurricane of the season tore through sections of Cuba. This picture shows the splintered ruins of buildings in the Santiago region. (Associated Press Photo)

### As De Bono Looks At the War Front

In the midst of directing Italy's conquest in Ethiopia Gen. Emilio De Bono consented to stand still long enough for the photographer to take this fine portrait of him at the battle front. (Associated Press-Paramount News Photo)

### FORMER OLYMPIC STAR WEDS

Emmett Toppino, former Olympic track star from Loyola university, is shown with his bride, the former Elva Palestou, after their marriage in New Orleans. A few years ago Toppino was one of the fastest 100-yard runners in the south. (Associated Press Photo)

### McINTYRE'S DAUGHTER WEDS

The former Marie McIntyre is shown with her husband, Frederick Hayes Warren of Phoenix, Ariz., just after their marriage at the Francis Asbury Methodist church, South in Washington. She is the daughter of Marvin McIntyre, secretary to President Roosevelt. (Associated Press Photo)

### MERCY CHARIOT OF THE STORMS

Although this thing looks like some gigantic death-dealing implement of war, it is a vehicle of mercy designed to rescue marooned persons in event of another Florida hurricane. Built by Donald Runkling of Clearwater and owned by his father, John A. Runkling of Lava Beach, Fla., it travels on land as well as water by means of a 110 horsepower motor. (Associated Press Photo)

### A MOVIE GIRL FROM 'JAW-GA'

Five-year-old Betty Ann Pritchett of Griffin is Georgia's latest contribution to moving pictures. Signed by Paramount, she is shown at the piano as she started work in New York on a forthcoming production. And so Betty Ann follows in the footsteps of fellow-Georgians such as Miriam Hopkins, Colleen Moore, Ben Lyons, Oliver Hardy, Randolph Scott, the late Walter Hiers and little Jane Withers. (Associated Press Photo)

### YES, WE STILL HAVE BLACKSMITHS!

Those who believe blacksmithing passed out with the auto era had better think again. Charley Marling, 63, who is shown shoeing one of the horses at the American Royal Livestock exposition in Kansas City, says he still finds plenty of work to do. (Associated Press Photo)

### ALICE JOYCE'S DAUGHTER WEDS

Alice Moore, daughter of Alice Joyce and Tom Moore, both famous on the screen in the days of silent pictures, is shown in Hollywood with her husband, Felix Knight, just after their elopement to Yuma, Ariz. Felix is a concert and screen singer and Alice has just signed a long-term film contract. (Associated Press Photo)

### AT THE BATTLE OF ADIGRAT

These original pictures from the Aduwa-Adigrat front show the battle raging between invading Italians and native tribesmen defending that section of northern Ethiopia. At the top is a billowing cloud of smoke from the Italians' big cannon as they shelled the Ethiopian lines. Below, Italy's native colonial artillerymen are seen firing a barrage in the heat of battle. (Associated Press-Paramount News Photos)

### 'CHIP' ROBERT AND BRIDE RETURN

Lawrence Wood ("Chip") Robert and his bride are shown as they arrived in New York on the liner Majestic after their marriage October 11 in England. Robert, formerly of Atlanta, is Assistant Secretary of the Treasury. Mrs. Robert is the former Evelyn Walker of Washington. (Associated Press Photo)

### 'YEAH! HE CAN LICK THAT MUT'

Disappointed because his German police dog, Rex by name, won only second prize in the dog show at Palmouth, Va., Robert Rook, three and a half years old, gallantly tells the world he still has the best dog regardless of what the judges have to say about the matter. (Associated Press Photo)

Seminole County Produces More Fruits And Vegetables Than Any Similar Area In America

# The Sanford Herald

Sanford Is The Only Central Florida City Affording Rail, Highway And Water Transportation

VOLUME XXV Member Associated Press SANFORD, FLORIDA, SATURDAY, NOVEMBER 2, 1935 Established In 1908 NUMBER 8

## Reduced City Costs Lower Sanford Debt

### Municipal Expenses Cut Over \$242,000 Or 77 Percent In Seven Years' Time

### Outstanding Bonds Are Also Reduced

### Assessed Valuations Slashed Since '27 By \$15,000,000

Cutting operating costs of the municipality to the lowest possible minimum and thereby making possible the setting aside of sums annually for taking care of the reduced interest charges of the bonded debt, the Sanford City Commission has been able to scale down the City's debt by over one million dollars, official records in the office of City Clerk F. S. Lamson disclose.

Interest payments on the year will reduce the charge against the City \$100,000. To the extent figures will not be available until after the close of the year, the City Commission has been able to scale down the City's debt by over one million dollars, official records in the office of City Clerk F. S. Lamson disclose.

## Commissioners' Statement

We, the undersigned members of the City Commission of Sanford, Fla., being all the members of that Commission with the exception of VIVIAN SPEER, who is a candidate in Tuesday's election, have recently noticed the implications which have been made in the press and on the streets during the past few days to the effect that the Commission has followed a "do nothing" policy, with regard to its bonded indebtedness, and is subservient to the Bondholders' Protective Committee. We therefore wish to submit the facts in the case in order to clarify this situation for the voters of Sanford.

Such charges spring either from ignorance or political bias, and have no relation whatever with the facts as we know them. The City Commission has contacted the Bondholders' Protective Committee in repeated efforts to effect a permanent readjustment of our bonded obligations. We have held numerous meetings with them and their attorneys in the City Hall in which the problem was approached from every conceivable angle. We have submitted every proposition to them that we could think of which would be of definite advantage to the City of Sanford and to the taxpayers' interests.

They have with complete consistency rejected our offers. The City Commission is no more able to force the bondholders' committee to accept a permanent settlement than you would be to compel your banker to compromise your note. The bondholders' committee controls 87 percent of the City's outstanding bonds. Under the terms of the Wilson Municipal Bankruptcy Act, control of only 75 percent is necessary to make a settlement binding, consequently any compromise which may be effected must be made between the City and the Bondholders' Protective Committee.

Meanwhile, although we have been unable to effect a permanent settlement, we have been operating under a temporary agreement which has made unnecessary any increase in taxation and has avoided any pyramiding or increase in our indebtedness. We are paying approximately 1 percent interest on about six million dollars worth of bonds, which are supposed to bear 5 1/2 percent interest, and the balance of the interest which could not be paid, has been cancelled. At the same time we are not being required to pay anything on the principal of the debt. We believe that is the best possible agreement which any city in Florida has with its creditors, and we do not think it is possible for any permanent settlement to be made at this time which would not result in an increase in taxation.

The present City Commission favors a settlement of our bonded indebtedness on the basis of the people's ability to pay, it has worked out a plan for this kind of a settlement, and we hope with reasonable success. Let the present City Commission be opposed to any kind of a settlement which would increase our taxes.

L. J. DUMAS, Mayor  
W. A. LEFFLER, City Clerk  
H. J. LEHMAN, City Commissioner  
S. O. SHENKHOUSER, City Commissioner

## Protest Sent To Washington By Celery Men

### Objections Filed To Pact Provisions; 150 Sign Petition

Protesting against certain provisions of the proposed celery agreement, a petition bearing the signatures of about 150 celery growers, representing approximately 2,500 acres in this section, was forwarded to Secretary of Agriculture Henry A. Wallace in Washington yesterday.

None of the provisions of the Warren Potato Act can be dodged and the new law, soon to become effective will be strictly enforced. This is the information County Agent C. R. Dawson brings back from Gainesville where he attended a week long conference between farm agents and government officials from Washington. He returned last evening.

The announcement as to the enforcing of the potato act was made by R. F. Dennis of Gainesville, district agent of the Extension Service of the Department of Agriculture in charge of the administration in Florida of the Warren Potato Act. He told the county agents that while it has been rumored there was some doubt as to whether the act would be enforced, "there has been no official action on the part of anyone not to enforce it, and instructions are to go ahead." The Bureau of Internal Revenue is preparing to collect the tax, Mr. Dennis stated, as it is an Act of Congress, signed by the President and is a law.

Mr. Dawson issued the warning today that Nov. 11 is the last date on which applications from potato growers for tax exemption can be received.

Six of eight Department of Agriculture officials attended the conference. Mr. Dawson reported, and suggesting aid and reports, were given by others in attendance, many of them of interest to Seminole county farmers.

One result of the conference was the decision to offer free treatment of cattle afflicted with Bangs disease. Dr. G. W. Baker and Dr. P. S. Roy, Sanford veterinarians, were authorized to treat the animals.

## Cannot Dodge Any Provision Of Potato Act

### Tax Collection Will Be Made Promptly, Administrator For State Tells Agents

None of the provisions of the Warren Potato Act can be dodged and the new law, soon to become effective will be strictly enforced. This is the information County Agent C. R. Dawson brings back from Gainesville where he attended a week long conference between farm agents and government officials from Washington. He returned last evening.

## Embargo On Products Of Duce Needs In East Africa War Will Begin Then

## Hoare And Aloisi Discuss Troubles

## Conversations Said To Be Cordial But Tension Continues

By The Associated Press  
The general committee of the League of Nations made up of 52 countries today formally designated Nov. 18 as the date for the beginning of a world-wide economic siege of Italy. Separate proposals for fixing this date for financial sanctions as well as for a boycott against Italian and an embargo against shipping "any products" to Italy were voted by the big meeting without opposition. Key products covered all goods which assembled experts believe could be converted by Italy for use in her war against Ethiopia.

As an economic boycott of the Mediterranean power was made ready another serious question—relations between Italy and Great Britain—was discussed by Sir Samuel Hoare and Baron Paganò. The Italian spokesman said the conversation was cordial but no indications appeared in diplomatic circles that the general situation had improved. Most spectacular of the incidents eloquent of tension between Italy and Great Britain were the anti-British riots in Rome.

Hoare's Italy struck back at the League boycott by driving forward with its war in East Africa, against nations imposing the sanctions. Passage and sale of newspapers from all nations imposing sanctions were forbidden in Turin. Hotels in that city were required to withdraw magazines, journals, posters and booklets from "non-sanctioned" countries.

## New Action Taken In Slot Machine Fight

TALLAHASSEE, Nov. 2.—(AP)—Mandamus action was filed in the Supreme Court yesterday in an effort to require Comptroller J. M. Lee to issue slot machine licenses without awaiting the outcome of an injunction which Circuit Judge H. F. Atkinson of Miami issued against licensing the devices. The court will hear the case on a date yet to be named.
