the governor's mansion if they don't disturb the new McCarty baby.
The more serious side of the campaign isn't being neglected, though, by either candidate.
At Orlando last night, Warren continued his charges of extravagance by the outgoing Caldwell administration "unless practical economy measures are adopted in Tallahassee, your state tax bill will continue to double and redouble itself," he said.
He read comptroller's vouchers for payment of legal fees during last July and August of \$22,500 to the Tallahassee law firm of Parker, Wigginton and Foster, with whom Caldwell was associated before he became governor.
Warren said the fees were for

"superfluous and duplicatory legal services." During the first primary campaign, Attorney General Tom Watson complained of about \$21,000 in fees being paid to the firm.
At Tallahassee, John T. Wigginton commented "Mr. Warren is trying to be elected governor and so far as I'm concerned he can say whatever he likes regarding our firm. Last Friday night we charged us with having received \$662,000 from the state last year. He seems now to have reduced it to \$22,500. It looks as though even Fuller is beginning to doubt his own statements."
That was the first public reply from anyone close to the Caldwell administration to Warren's series of blasts and his statement that a "state machine" is trying to defeat him. McCarty also has ignored them.

and benefactor."
"He was like a father, a mother, a teacher, a counselor, a big brother, your best pal, all wrapped in one. We know that he died as he had always lived, fighting for you." We'll never forget Father Flanagan," the Miami, Fla., boy said.
President Truman termed him "an ever faithful friend of American youth and youth everywhere."
Father Flanagan, who would have been 62 on July 13, was ordained to the priesthood in 1912. In 1917 at Omaha where he was an assistant pastor, he borrowed money, took over an abandoned house and made a home for five boys. In the succeeding 35 years 5,500 boys have found a home in Boys Town.

Anti-Truman

(Continued from Page One)
South takes will be such no elector from the South will feel it his duty to support Mr. Truman.
John O. Jackson and Helen Hunt West of Jacksonville, said they are opposed to President Truman and his Civil Rights Program, but they declined to say how they would cast their electoral votes.
Clayde W. Atkinson and Frank Hamilton of Tallahassee said they had no comments.
Florida voters have no way of voting directly for President and vice president. They cast their ballots only for the eight Republican or eight Democratic presidential electors.
Traditionally, though, a vote for electors from one party or the other has meant a vote for that party's presidential nominee. Casting the state's electoral vote in accordance with the majority popular vote has been nothing but a formality.
There is some doubt about just how much of a free dealer a presidential elector can be under Florida law.

Social Security

(Continued from Page One)
mers and small businessmen, domestic workers, farm hands and others eligible for old age pensions. It asked extension, too, to federal workers, members of the Armed Forces and railroad workers not now covered by their own pension systems.
It also proposed a jump in the maximum retirement payment, from \$85 to \$120 a month. To offset this, the Social Security tax would apply to the first \$4,800 of annual earnings instead of the first \$3,000.
Old age pensions are financed by a 1 per cent tax each on employer payrolls and employee earnings up to the \$3,000 limit. The employer alone is taxed for the unemployment compensation phase of Social Security. Other programs include non-contributory payments to the needy aged, aid for dependent and crippled children and maternal and child welfare.
Mr. Truman has been notably unsuccessful in getting Congress to go along with him on Social Security issues.
On Apr. 20 Congress overrode a presidential veto and put into law a bill to exclude some newspaper and magazine vendors from the Social Security Program.

## Truman Plans Major Talks On Coast Trip

WASHINGTON May 21 (AP)—Charles Franklin Brannan was announced today to be Secretary of Agriculture. He now is Assistant Secretary.

WASHINGTON May 24 (AP)—The White House said today President Truman probably will make major speeches on foreign policy, conservation and displaced persons on his cross country train trip in June.

Five major addresses are scheduled. The probable subjects for the other two speeches were not announced. One of them is to be before the 35th Division reunion at Omaha June 5. The setting suggests the possibility that it may deal with defense.

The major speeches will be at Chicago, Omaha, Seattle, Berkeley, Calif., and Los Angeles. Mr. Truman also plans many extemporaneous talks, mostly from the platform of the special train.

The President will leave Washington the night of June 3. He will speak at Chicago at 9 P. M. in the Chicago Stadium, June 4.

This and other major speeches will be from prepared manuscripts. All will run from 15 to 20 minutes.

The Chicago speech will be at the opening of the observance of the 100th anniversary of Swedish immigration into the Midwest. White House officials indicated it likely will deal at least in part with the problem of displaced persons.

The other major addresses: June 8, Omaha, Neb., before the 35th Division reunion, 9 P. M.; June 10, Seattle, probably in Victory Square, under auspices of Washington State Iron Club, 1 P. M. This will deal with reclamation, conservation and public power.

June 12, Berkeley, Calif., at commencement exercises at University of California, 2:30 P. M. This address may be on foreign policy.

June 14, at Los Angeles, under auspices greater Los Angeles Press Club at Ambassador Hotel at 11:15 P. M.

## Half Million Florida Voters To Choose Their Favorites Tomorrow

By ASSOCIATED PRESS  
Half a million Florida voters tomorrow will select a governor, attorney general and supreme court justice.

Polls for the second Democratic primary will open at 7 A. M. and although the statewide ticket is short there are hot contests for local offices in many counties which should bring in a steady stream of ballots.

The governorship contest between 36-year-old Dan McCarty, Fort Pierce fruit grower and rat-tlem, and 42-year-old Fuller Warren, Jacksonville lawyer, holds top interest. They eliminated seven others in the first primary May 4. Warren led McCarty then by 21,000 votes.

## Seminole County Voters Will Cast Ballots Tomorrow

Other candidates to be voted upon in Seminole County include attorney general, county judge, county commissioner in District No. 3 and presidential elector in Group No. 5. Also in a special primary for justice of the Supreme Court, the voters will decide among three candidates.

### Veritable Plethora Of Celebrated Mysteries Still Confound Humanity

By HAL HOYLE  
 NEW YORK (AP)—What kind of a figure did the face on the barroom floor have?  
 Who really put pussy in the well? Who mowed down Cock Robin and why? Where's Elmer?  
 These are celebrated mysteries still left unsolved by the reported discovery of Jesse James alive and well in Oklahoma at the age of 100—and drawing more interest than he ever got from a bank.  
 It is a dull year indeed when somebody doesn't revive the famous Missouri outlaw, and it is only recently that doubles for John Wilkes Booth, the man who shot Lincoln, quit reappearing. Booth would be 110 years old now and entitled to a lot of back payments on his old age pension.  
 The time is ripe for Congress to set up a permanent commission to investigate all the popular puzzles that rise again and again to worry a peaceful people.  
 Let's get rid of these uncertainties. Where is Elmer indeed?

Did the face on the barroom floor have piano legs? Why do we have to go on wondering what became of Sally? Who really did pay the rent for Mrs. Rip van Winkle while her husband was grabbing his long shut-eye? Let's don't just jest about why the chicken crossed the road. Let's find out.  
 There are enough of these unsolved, vexing riddles to keep a congressional investigating committee busy forever. An ideal counsel for the committee would be Jim Moran, the first man in history to sit on an ostrich egg and hatch it single-handedly by the warmth of his own personality. Moran boasts he also is the first man to sell an icebox to an Eskimo and find a needle in a haystack.  
 Let's put him in charge of the committee's "lost and found" department and send him off in Rudyard Kipling's phantom rickshaw to get the real lowdown on what happened to Charley Ross, the kidnaped Philadelphia boy. He

could also take sidetrips, expenses paid, looking for Ambrose Pierce, Justice Joseph Force Center, Adolph Hitler, and the cigar store Indian.  
 That still leaves plenty of problems for the committee members themselves.  
 Why has the fiend who put the overalls in Mrs. Murphy's chowder never been brought to justice? His capture might swing the Irish vote in an election year. Can't Congress find out after all these years who broke the lock on the hen house door? What about the lost Atlantis, the lost chord and the lost weekend? Can the FBI say for certain they weren't stolen? Can't it do anything about getting them back?  
 That goes for the missing list, too. Who misses it anyway? Do you? Maybe it's a dead issue now. Let's get the facts and tell the people.  
 Isn't it important in these dangerous times also to check into the identity of the little man that wasn't there? Where really was he then?  
 And there are other things worth checking—like where was everybody on the night of January 16th? And where was Moses

when the lights went out? You don't really believe the childish jingle that he was down in the cellar eating sauerkraut, do you?  
 Did the egg come first or the chicken? Does the old man sleep with his whiskers over or under the covers? What makes the rustic in a basket? How much did Shakespeare pay his ghost writer? Has Kilroy really been everywhere he says he has? Has he been wherever Elmer is?  
 Why does this country need a good five-cent cigar? What became of the nickel beer, the 40-cent blue plate special and the last of the Mohicans? Where are the snows of yesteryear? Can Sprig be far behind? Well, how far?  
 All these questions Congress has avoided for years. But I can save the committee the trouble of exploring one moony problem—what happened to Vaudeville.  
 Take a look at your television set. There's Vaudeville. Maybe Elmer will show up on the screen next.  
 Many Antarctic icebergs survive for 10 years while the life span of Arctic icebergs runs to about two years.

### Hints To Housewives

By Isabelle S. Thursty  
 Plumbing fixtures once installed are not easy to move, so it is wise to plan a bathroom carefully, considering convenience and safety, say housing specialists of the U. S. Department of Agriculture. They suggest that farm families who expect to build or remodel a house ask themselves these questions before approving a bathroom plan:  
 Have we planned for convenience so that: There is enough space between and in front of fixtures to move around them and clean them easily? Fixtures will not

keep the door from opening full width? There is enough towel rod space for family needs? There is storage space for all supplies to be kept in the bathroom?  
 Have we planned for safety so that: Floors will not get slippery when wet? The bathtub has a flat bottom? There are grab bars at tub and shower? To avoid burns, there is a mixer faucet combining hot and cold water at the lavatory, and a mixer valve at the shower? To avoid electric shocks, lights are controlled by wall switches and are out of reach of anyone in the bathtub or anyone using a water faucet? The heater is shielded and placed so that there is no danger of fire

or burns? The electric heater is properly grounded? The medicine cabinet is out of children's reach and can be locked?  
 Have we provided for light, air, and heat, so that: There is a window or ventilator? Light shines on the face of a person using the mirror? The room can be heated quickly?  
 Have we considered present and future family needs, such as: Arrangements for men to wash and change clothes when they come in from farm work, if there is no separate washroom for them? Special arrangements for children, sick or aged members of the family?  
 Help for the farm family in

RETURN Justice T. Frank HOBSON  
 To The  
 SUPREME COURT

- ★ **EMINENTLY QUALIFIED**  
 Aside from the fact that Justice Hobson, by experience, training and character is eminently qualified to sit on the Supreme bench, and by virtue of his appointment is entitled to favorable consideration at the hands of the electorate, solidified support behind his candidacy will make it unnecessary to hold a second primary, at considerable expense to the taxpayers.—Ocala Star-Banner.
- ★ **PROVED STABILITY**  
 Justice Hobson adds to Florida's Supreme Court a tower of strength in his combination of comparative youth with proved stability and eminent judicial experience and attainment. Florida should keep him on its highest perch.—Tampa Morning Tribune.
- ★ **PUBLIC CONFIDENCE**  
 At the age of 47 Justice Hobson has had 20 years of Circuit Court experience. Few are his decisions in the past 20 years that have been reversed by the higher court he now serves. He has conducted his court in a way that has advanced public confidence in law and order based on consent.—St. Petersburg Times.
- ★ **DEMONSTRATED ABILITY**  
 Three bar associations in the sixth judicial district, where Judge Hobson served as Circuit Judge, have endorsed his candidacy. These bar associations, made up of lawyers who have practiced in Judge Hobson's court, are in an enviable position to know the judge's qualifications for the high office which he seeks. They commend Judge Hobson to the remainder of the state. Judge Hobson has demonstrated his abilities. Florida should retain his services on the State Supreme Court.—Miami Daily News.
- ★ **HONESTY, FAIRNESS**  
 Hobson is unquestionably the best qualified candidate the voters could find for the Supreme Court post. When he was first named Circuit Judge in the Pinellas-Pasco district 20 years ago, he was the youngest man ever seated on a Florida Circuit Court bench. In the ensuing years he has established the reputation as one of the finest Circuit judges in the state. He possesses an excellent legal mind, and his honesty, fairness and his ability to see justice done is attested to by the fact that his record of reversals by the State Supreme Court is among the lowest in the state. Beyond a shadow of a doubt, Judge Hobson is by far the best candidate in the race.—St. Petersburg Evening Independent.
- ★ **Character and Youth**  
 Because of his wide experience, his judicial attainments, his knowledge of the law, his stability of character and his comparative youth, Justice Hobson should be elected to succeed himself.—Miami Herald.

**BIBLE VERSE TODAY**

**THAT WOULD MAKE US ADMIRABLE PERSONS. OUR ACTS SHOULD SQUARE WITH OUR PROFESSIONS.**—Phil. 1:27: Let your manner of life be worthy of the gospel of Christ.

Vote as you please . . . but please vote for McCarty.

From the Tampa Times comes the best editorial caption of the year. "Dan is the Man, Fuller, Not Millard."

We suggest that you save some of these political polls being issued on the eve of the primary, just to see how accurate they are after the votes are counted.

An Oklahoma newspaper reveals that it has "indisputable proof" that Jesse James is still alive. Well, we have met him several times in spirit only, if not in name.

We see where Joe Stalin is now campaigning for Henry Wallace. Mr. Wallace's program, says Uncle Joe over the Moscow radio, "could serve as a good and fruitful basis for the development of international cooperation." So vote for Henry, all you Communists, for Joe's man.

You do not need to worry about being struck by lightning. Statistics show that although lightning will strike somewhere in the United States 9 million times this year, only about 350 persons will be killed by it. Your chances of getting struck are just about one in 400,000.

"No bank in this country can afford not to advertise today. If it fails to do so, it will fall hopelessly behind in the procession," bankers were told at a Florida Bankers Convention in Daytona Beach last week. And the same thing applies to any other business.

"Beware of last minute attacks, rumors and charges," says the Orlando Sentinel. "These last minute attempts are old political tricks, used in the gaslight era with some success. The electorate today is too well informed by newspapers and by radio to fall for these old gags." That goes for the governor's race too.

We hear a lot these days about women drinkers and it may be that liquor is harder on their nervous systems than it is on men's. The fact remains, however, that for every woman alcoholic, there are five men alcoholics. Just why men should be less able to hold their liquor than the weaker sex, we do not know, but it is something for us men to think about.

Whom do the Liberals in this country feel sorriest for, the coal miner laboring away six hours a day in the bowels of this earth for \$70 a week, or the mother of four children without a provider? Life insurance companies paid \$377,206,000 in death benefits to some 353,000 persons during the first three months of this year. In Florida alone, more than \$1/2 million dollars in such claims were paid. Every person who holds a life insurance policy has a stake in the future success of the American system of free enterprise.

We are sorry that lack of space and time prevented us last week from publishing in full Jack Rattigan's speech at the Jaycee luncheon. He had a carefully prepared and well thought out address on the subject of law enforcement and the duty of citizens to vote in every election. One thing which struck us as particularly worthwhile remembering in this day and time of manifold rules and regulations was that every law which restricts you from doing something to someone else also restricts someone else from doing the same thing to you. That is not true in every country, but it is true in

**War Crimes**

Out of the war crimes trials conducted by the Allied Nations as a consequence of World War II has come the suggestion that a permanent world court be set up, within the structure of the United Nations, for the trial of future war criminals. The current war criminals have been officers and officials, mostly of Germany and Japan, accused of inhuman acts and other violations of international law. The International Court, under the United Nations, is to try states only.

To be of any effect in sustaining international law or the human rules of warfare, if there are such things, such a court would have to be clothed with such strength and authority that war criminals of either a losing or a victorious nation would be assured of being brought to trial. It has been denied that the defendants of the present period are being tried because they were officers of losing armies. But if any high officers or officials of one of the victor nations in the last war have been brought to trial before an international tribunal for war crimes, the cases have escaped our notice. Under such a situation, the jeopardy of war crimes trial is just another item of the cost of defeat.

The establishment of a permanent court and a body of law to make individuals responsible for acts committed in war, whether on the winning or losing side, might prove of some value as a deterrent to war.

**Under The Hammer**

These are auction days. Crowds are gathering to listen to auctioneers sing their unintelligible price spirals. The hammer drops and someone's treasure is handed to a new and glowering owner.

At sales in country barn yards, farm animals and implements change hands. On front porches of old houses and in town halls of little villages, it is furniture, some doubtful antiques, some rare finds, that moves to new destinies.

Or the marketing may be a "private showing" in an exclusive city gallery where single items go for four or even five-figure checks. The rarest of the rare tura up at such places, things like 12th century Mesopotamia pottery, a William and Mary inlaid highboy, fabulous precious-stone jewelry from the dowry of a Hindu princess, vellum manuscripts, presentation first editions autographed by Yeats, Rossetti, Stephens.

Material possessions are all of these, once prized by owners now passed beyond need or desire for them through death or falling fortune. Auctions are fun for buyers. They are milestones, too, that mark the brevity of life and of possession. One of the strange things in life is that people go and things remain.

**Use For Truth Drug**

Although it has not achieved much standing as an aid to the questioning of suspected criminals, the so-called "truth serum" has been found to have some value in dealing with amnesia. In Decatur, Ill., the truth drug was used recently in questioning an amnesia victim, and with its help psychiatrists were able to find some clues to the victim's identity.

As an amnesia patient often can be started on the way to complete recovery with only one or two shreds of memory to work on, experiment with the truth drug seems to offer new hope for sufferers from this distressing trouble. Also, it should provide quick detection of pretended amnesia.

Sanford Kiwanians yesterday celebrated the seventh anniversary of the organization of the local club. A. P. Connelly, first president of the club, gave a short address reviewing the work of the organization and praising the efforts of its members in behalf of Sanford.

The principal address was delivered by Judge Wallace Wright, whose remarks were accorded a hearty applause. Other features of the program included vocal selections by Mrs. Arthur Branigan and piano numbers by George Brockhahn. The entertainment was in charge of Joe Marenzette and Ray Fox.

**THE WORLD TODAY**  
By DEWITT MACKENZIE  
AP Foreign Affairs Analyst

Britain's trial of Socialistic government has taken a highly interesting turn—a pause for consolidation of "gains."

This indicates that Prime Minister Attlee and his cabinet are fearful of over-extending their communications if they continue in their present offensive. It also means, I believe, that the high command notes a decided increase in public resistance to further Socialist experiments until those already undertaken have demonstrated their value.

It's three years now since the Labor Party (Socialists) under leadership of Attlee came to power in the sensational general election which resulted in the downfall of England's famous wartime leader, Winston Churchill. The Socialists didn't conceal their aims from the voters but on the contrary laid down a platform which called for nationalization of some 20 per cent of British industry. This was a tremendous venture for capitalistic England, but she took the chance and put Socialism in the saddle for what, under normal circumstances, would be a five-year period.

In three years the Attlee government has nationalized coal, inland transport, civil aviation, the bank of England, foreign communications, electricity, and now is in process of nationalizing gas. In short the program has been carried out with one important exception—nationalization of iron and steel, which is one of the country's biggest industries.

The government has been encountering fierce resistance from the iron and steel industry, and has chosen to mark time, probably on the basis that discretion is the better part of valor. War Minister Emanuel Shinwell indicated in an interview the other day that the Socialist Party is split over proposed government ownership of the industry and declared: "Steel is still in the air."

Whatever may happen to iron and steel, the Socialist leadership made it plain at the annual labor conference this week, that to quote Deputy Prime Minister Herbert Morrison, "The time comes, as we know in war, when a headlong advance must be followed by detailed consolidation that is the stage which we are now reaching. If we go on always stretching out our hands for more and not making good the gains we have claimed, only disaster can follow."

Morrison said Parliament has "done its job and that it now is the citizens' task to match the new legislation with a new spirit and a new effort." He called for a "plan of re-equipment so that we can look forward in 10 to 15 years to a really efficient and modern British industry."

He noted bluntly that "vast checks have been drawn upon our national resources" and then declared: "We have no hope of meeting these checks unless we produce a lot more than we are doing at present. Don't let us think that we can meet this bill as a whole simply by squeezing the capitalists further, or by any other short cut other than producing more both to sell abroad and for our own needs."

So far so good, but there is a bit more to the pause for consolidation. Socialism is looking forward to the next general election which normally will come two years hence. The government will have to be able to present a good report of stewardship if it is to be returned to power by a public which, as a whole, has no ideological leaning towards Socialism. Many of those who voted for the Socialists in the last election decided to give the laborites their chance.

Thus we see the government embarking seriously on "consolidation." Moreover we find it conducting a purge of Communists

**Sanford Forum**

Dear Sir:  
 I am writing this letter in behalf of myself a home owner in Sanford and an acreage owner in the eastern part of Seminole County, Florida.

My claim is that it is unfair to come on a land owners place and just because he does not have a hunting license, pull him up before a judge and fine him. Then deny him a hunting license for the rest of the prevailing season. When someone who does not own a foot of land can go down and buy a license for \$2.50, then he can go out on my land every hunting day in the season and kill the bag limit if he chooses.

This same party never goes in the woods only to get something off someone's land for nothing. They don't know what game protection means, such as from fires and game destroying animals and Jews.

My honest conviction that a land owner should have more just and fair consideration than not being allowed to hunt on his own land without a license.

It surely seems to me that the man who owns the land and pays for upkeep of same and the taxes getting very little consideration in this case.

Here's hoping other land owners will look into this matter.

 Life today is lived at a very fast pace. Everything is geared for speed. It's no wonder then that so much emphasis is placed on relaxation. To forget completely your cares and duties for a short time is a necessity if you are to enjoy good health.

The kind of relaxation you need depends a great deal on your occupation, and your state of health. Often your doctor is the best judge of what activities will provide the most healthful relaxation for you.

A doctor has the training and experience to understand health problems. Relieve yourself of unnecessary worry by entrusting your health cares to him. For the same reason entrust your prescription to a worthy pharmacist.

**State Ballot**

(Continued from Page One)  
 years. He will be opposed by Republican Bert L. Acker in the general election, but Democrats hold a 14 to one voting edge in the state.

The state constitution prohibits Governor Millard Caldwell from succeeding himself.  
 The two gubernatorial aspirants are campaigning right down to the finish line today—McCarty in populous Miami, Warren in his native West Florida until late afternoon when he will fly to Jacksonville for his closing speech.

In Pensacola yesterday, Warren continued his 17-day attack on the outgoing Caldwell administration, which he contends has become a "political machine" behind McCarty.

His criticism drew answers during the weekend from two major figures in the present state government. Beverage Director James T. Vocelle called Warren's accusations "wild statements."

Chairman Elgin Bayless of the State Road Department said they were "political baloney."

Warren has claimed "the 165 employees of the beverage department" were told to work against him. Vocelle replied the department has only 141 employees and about 20 of them are known to be supporting Warren.

He said one of the Warren supporters is Joe Sears, Jacksonville lawyer and a key man in the Caldwell campaign four years ago who now is general counsel for the Beverage Department.

Mr. Sears has been devoting a major portion of his time for the past several months to the Warren campaign and is a member of

the board of strategy which has directed the attack against state employees," Vocelle said.

The beverage director said that in enforcing the liquor laws "I have stepped on the toes of the lawless element in the state and this element will find comfort from and give support to Mr. Warren's false accusations."

Dayless issued a statement that "to say the independent Florida men and women who work for the road department are coerced in the way they vote is to insult those employees and reflect upon their independence."

He denied Warren's charges that "pet contractors" have been given road construction favors, and defended as a legally authorized "good business practice" the awarding of supplemental contracts for extra work undertaken after a construction job has begun.

McCarty has taken no public notice of Warren's blasts at the Caldwell administration, except to say—without mentioning names—that he has made no binding commitments or political deals.

Both candidates stand generally for the same things—central purchasing of supplies, water and beach erosion control, better roads, expanded educational and health services, increased state advertising and opposition to a major sales tax.

There are three candidates in a special primary to fill a two-year unexpired term on the State Supreme Court—Justice T. Frank Hobson of St. Petersburg, who now holds the job by interim appointment; Circuit Judge W. May Walker of Tallahassee; and Attorney General Tom Watson of

Tampa.  
 If none of the three gets a majority, there will be a special runoff primary on June 4 to pick the Democratic nominee. There is no Republican candidate.  
 Richard W. Ervin of Tallahassee, a veteran attorney for state agencies, and State Attorney Grady Burton of Wauchula, are in the runoff for attorney general. They seek the job now held by Watson, who stepped out to run for governor, was eliminated from that contest on May 4 and got into the Supreme Court race 10 days later.

 from the effective date of the act Aug. 1, 1946. Because of a bitter confirmation battle, centering about Lillenthal, the terms actually did not start until Apr. 9, 1947.

"It is obvious," the majority said, "that there has been but one year for reliable formulation of programs and for observation and study instead of the two year period wisely contemplated by the law."

The minority noted that proponents have contended the two-year extension would avoid a "bitter political fight." They said there is "no justifiable reason" for such a fight, adding: "If politics intrudes this time, it will create a precedent that may live in indefinitely."

## Palestine War

(Continued from Page One) Council, said that Arab countries will not agree to unconditional cease fire in Palestine. He said they would agree only if Israel's provisional government quits.

McDermott confirmed that Ambassador Lewis Douglas conferred over the weekend in London on the Palestine question with British Foreign Secretary Bevin. The spokesman added it was "quite possible" they conferred again today.

Asked about published reports that the U.S. and Britain may take joint action regarding Palestine, McDermott said the State Department knows of no such suggestion.

He said that this government's study of a possible request of the embargo on shipment of American arms to the Near East is still in progress.

**Labor Law Change**  
(Continued From Page One)

Under a union shop, the boss may hire whom he pleases, but the new employee must join the union within a specified time, usually 30 days.

Landis, Senator Ives (R-N.Y.) and two officials of the NLRB—Chairman Paul M. Herzog and Counsel Robert N. Denham—joined today in asking that the union shop election system be junked.

They said that in the elections that have been held, the union shop has won in an overwhelming number of times. They said the elections have bogged NLRB work.

The Senate House Committee hearings are also to cover such broad fields as whether to forbid industry-wide bargaining and whether to change the Railway Labor Act in an effort to prevent another rail crisis.

Still other proposals deal with what to do about union welfare funds, such as the one which was at the bottom of the recent coal walkout.

Meanwhile Rep. Bender (R-Ohio) told the House that the Commerce Department should not let John C. Vidin resign.

Vidin is the official who handled in his resignation Friday to spare the government "embarrassment" because his 22-year-old daughter is employed here by Tass, official Russian news agency, a Cleveland, Ohio, manufacturer in private life. Vidin has headed the department's office of industry cooperation.

Bender told the House that "over this past weekend scores of highly responsible, thorough men and women" have urged Vidin to reconsider his resignation.

"I am adding my voice to this matter," Bender went on.

"I urge the Department of Commerce to reject his resignation and to demonstrate our confidence in him by trying him to remain in his post."

**Communist Strike Paralyzes Docks At Finnish Port**

HELSINKI, Finland May 24 (AP)—Communists paralyzed Finnish docks with a walkout today and were reported planning a general strike to support Yrjo Leino, dismissed Communist minister of interior.

Leino was ousted after Parliament voted non-confidence in him last week. Finnish leaders said they expected a general strike call would fail because of the strong opposition of the leading Social Democrat Party.

Some 34 ships were idle in Helsinki harbor. Strikes excepted a Russian ship and unloaded it promptly. In Turku, the strikes spread from the harbor to all loading factories.

Half the ships tied up in Helsinki are foreign and the government pay their owners strike compensation in scarce foreign currency.

Communists walked out of a Helsinki dockyard, but Social Democrats stayed at work. The yard's output goes mainly to Russia for reparations.

Government sources said efforts will be made to settle the crisis by compromise, probably tomorrow. The government prepared to use troops to operate Helsinki port.

The theory of a possible flare-up of juke box fencing was quickly abandoned. Penain said, after investigation failed to connect Friedman with juke box activities.

"We wanted to question Friedman about the shooting of Paul Wasczyk," the captain said.

Wasczyk, 60, was shot to death three weeks ago through the glass peep-hole of a gambling room in the rear of a cigar store in suburban Elmwood Park. The shooting occurred after the gunman had been denied admittance to the room where a poker game was in progress.

Police theorized that it's man who killed Wasczyk had intended to rob the poker players.

Detective Tim O'Connell said Friedman had been seen in Elmwood Park at the time of the Wasczyk killing.

Penain said Friedman was known as a close friend of Edward Jones, former policy racketeer who is now in Mexico. Friedman was questioned in May 1946 when Jones was reported to have been kidnaped. Friedman was later released.

lished that he had no connection with the Mercury firm although his brother, Harry, was employed there.

The theory of a possible flare-up of juke box fencing was quickly abandoned. Penain said, after investigation failed to connect Friedman with juke box activities.

"We wanted to question Friedman about the shooting of Paul Wasczyk," the captain said.

Wasczyk, 60, was shot to death three weeks ago through the glass peep-hole of a gambling room in the rear of a cigar store in suburban Elmwood Park. The shooting occurred after the gunman had been denied admittance to the room where a poker game was in progress.

Police theorized that it's man who killed Wasczyk had intended to rob the poker players.

Detective Tim O'Connell said Friedman had been seen in Elmwood Park at the time of the Wasczyk killing.

Penain said Friedman was known as a close friend of Edward Jones, former policy racketeer who is now in Mexico. Friedman was questioned in May 1946 when Jones was reported to have been kidnaped. Friedman was later released.

# Sanford Giants Bounce Into And Out Of Loop Lead

## Locals Trim G-Men Twice And Lose To Leesburg Pirates Over Past Weekend

By ARTHUR BECKWITH, JR., Herald Sports Editor

The Sanford Giants were in and out of the first slot in the Florida State League over the past weekend and it took them 14 victories in 16 games to do the trick, but today they rest just one-half game behind the Orlando Senators in one of the toughest battles ever waged in the circuit for the leading spot.

The three team slug-fest for first place in the league continues between the Senators, Giants and the Daytona Beach Islets. The Senators are tops, the Giants second and the Islets third, and one-half game divides one team from the other.

Friday night at the local park the Giants nipped the Gainesville G-Men in a wild scoring 16 to 11 game. The Giants invaded Gainesville on Saturday to take a 4 to 2 decision from the University City nine.

Yesterday at the Municipal Park the up-and-coming Leesburg Pirates took a 10 to 6 game from the Celery City aggregation.

By trimming the G's Saturday night, the Giants went on top of the heap in the loop. While Sanford was trimming the Gainesville club, the Leesburg Pirates knocked off the Senators by a 16 to 9 count at Tinker Field. Yesterday the Pirates blasted the locals from the top.

Friday night the Celerymen were riding high on a 16 to 3 lead over Gainesville until the seventh inning when trouble broke out. Art Dunham started the contest and coasted along easily until the eighth, but ran into difficulty.

The University City nine tallied six runs from Dunham's offerings, then Manager Hal Gruber sent Bill Spinks in as a relief chucker. Spinks walked two batters and pitched a two base blow to Sid Johnson to clean the sacks.

At this point in the contest, Manager Gruber fired up the old hand-by, Buddy Lake, and sent him to the mound to cool off the Gainesville swarms. Lake limited Gainesville to one hit in the remaining two and one-third frames, and was not touched for a run.

Saturday night Eddie Lislewski held the Gainesville aggregation in check, and limited them to seven well scattered hits, as his mates pounded out eight knucks from Dun Coker's right

## Seminole High Nine Cops Group 5 District 5 Baseball Tourney

The Seminole High School Celery Feds copped the Group Five District Five baseball tournament held at the Municipal Park on Thursday, Friday and Saturday.

The Celery Feds trimmed Daytona Beach High Saturday afternoon to win top honors in the Group.

The 5 to 1 victory over the Daytona Mainland nine sends the local aggregation to the District Tournament to be held in New Smyrna the last of this week.

Tonight the coaches of the winning clubs are scheduled to meet in Orlando to draw up a bracket for the New Smyrna tourney.

There is a discussion as to which teams are entitled to enter the New Smyrna event. It was stated by Principal Herman Morris of Seminole High School today.

"We are not sure if the winners and the runners-up or just the winners of the sub-district tournaments are entitled to enter the New Smyrna District Finals," Morris stated. "Anyway, we are sure that we will be in there," he chuckled.

"We are sure that Orlando, Apopka and Cocoa will enter the finals," Morris added.

Eddie Brooklyn tossed a three hit performance to send Sanford to the finals as the Feds tripped the Daytona Mainland aggregation here Saturday.

## Truman Seeks Hike Of Minimum Wage; Aid For Education

### 75 Cents An Hour Is Urged By President; \$300,000,000 Aid For Schools Waits

WASHINGTON, May 25 (AP)—President Truman today asked Democratic congressional leaders to press for passage at this Congress session of federal aid to education and a minimum wage boost to 75 cents an hour.

The President's request was made at a White House conference lasting more than an hour. The Senate has passed legislation for \$300,000,000 annual federal aid to the states for schools. The House has not acted.

There has been no action in either Senate or House on minimum wage legislation. The present wage-hour law fixes the minimum wage at 40 cents an hour for workers who come under the law's coverage.

Senator Lucas of Illinois and Representative McCormack of Massachusetts, assistant Democratic leaders in the Senate and House respectively, told reporters after the White House meeting that the President "is tremendously interested in legislation raising the minimum wage from 40 to 75 cents."

Lucas said that it was the opinion of most of the legislators

## Rossetter Wins 4 Year Scholarship In Princeton U.

Frederick Rossetter, son of Mr. and Mrs. A. K. Rossetter of Cedar Ave., has been awarded a four year scholarship in Princeton University. It was announced today by Princeton University, Morrisville, N. J.

Young Rossetter is completing his high school work this year and has been an honor student with an average of over 90 throughout his four years in the local high school.

The scholarship, one of ten given in the United States by Princeton, is awarded on a competitive basis. Rossetter took the examinations for the scholarship in Orlando on Apr. 3 and received notice of his winning the honor last Friday.

He is planning to enter Princeton this fall and is studying for a degree in chemical engineering with majors in chemistry and physics.

Rossetter is president of the Seminole High Key Club, a member of the Galtman staff, and president of the club and president of the camera club.

## Legion Worker Found Dead In Hotel Room

LONG BRANCH, N. J., May 25 (AP)—A 57-year-old American Legion worker, described by assistant prosecutor John M. Pillsbury as engaged in collecting data on local Communist activities, was found beaten to death in his hotel room last night.

Pillsbury said the legion worker, Harold R. Adams, probably had been attacked outside the hotel but had walked to his room and collapsed. He died of a fractured skull.

Pollie Chief Thomas J. Marks said the case "looks like murder," and Pillsbury said his office was going along on the investigation on "suspicion of murder."

Adams was a member of the American Legion in New Jersey. Last November he went to Washington to attend a legion school on combating subversive activities.

## Greek Army Reports Routing Of Guerrillas

SALONIKA, Greece May 25 (AP)—Greek third army officials announced today a guerrilla group driven from the Kroussia Mountains is surrounded and being mopped up in an area 13 miles northwest of Kilkis.

Cot. Temple G. Holland, of Dallas, Tex., chief of the U. S. Military Air Detachment with the Third Army, said the Kroussia range apparently is again clear of guerrilla forces. Greek army forces have had to clear it five times in two months.

Holland said army and national defense corps forces will occupy the Kroussia area to prevent re-iteration of more rebels from their central Macedonian stronghold, Mount Balak.

## Senate Passes 1.2 Billions Farm Measure

### Bill Passes After Solutions Refuse To Re- vise Soil Conservation Payments

WASHINGTON, May 25 (AP)—The Senate passed today a \$1,211,727,405 farm appropriation bill after refusing to revise soil conservation payments so that western farmers would get a larger share.

Senator Young (R-ND) tried to put in an amendment returning the soil conservation payment system to one in effect prior to this year. The Senate turned him down 40 to 38.

Young said the change he proposed would benefit northern and western states and give the southeastern states smaller allotments than they would receive under the present system.

Senator Russell (D-Ga.) opposed this, saying it was intended as a "punitive" step against Georgia and other southeastern states.

Russell yesterday put over an amendment raising the amount for soil conservation from \$225,000,000 to \$300,000,000. The payments are made to farmers for conforming to approved government programs for improving farm lands.

By a 41 to 39 vote, the Senate added \$125,000 to the fund for experiments, investigations and tests of forest products. The amendment, sponsored by Senator Wiley (R-Wis.), raised the total for forest products work from \$1,125,000 to \$1,250,000.

Over Republican protests and with the decisive help of three GOP members who broke party ranks, the Democrats won approval yesterday of a proposal to increase payments to \$300,000,000 for the 1949 crop year. The vote on the amendment by Senator Russell (D-Ga) was 41 to 38.

## Governor Osborn Of Arizona Dies After Long Illness

PHOENIX, Ariz., May 25 (AP)—Governor Sidney P. Osborn of Arizona died early today at his home after an illness of 18 months. He was 62.

He suffered from progressive muscular atrophy, the same ailment which brought death to Lou Gehrig, the late baseball star.

Governor Osborn, a Democrat, was serving his fourth successive two-year term as head of state. Member of a prominent pioneer family, he was born in Phoenix and spent almost all his life here.

He had been in a wheelchair for many months with a state highway patrolman assigned as an attendant to take him up and carry him to and from his office desk.

## President's Social Security Plea Touches Off GOP Cry of Politics

WASHINGTON, May 25 (AP)—President Truman touched off a Republican cry of "politics" today with his message calling upon Congress to hike Social Security benefits and his 20,000,000 more people share in them.

He asked that old age payments be upped by at least one-half. And to pay for the increases, the chief executive proposed that the present Social Security tax not only be boosted by 50 per cent next January but that it apply to an additional \$1,800 of income.

Chairman Reed (R-NY) of the ways and means subcommittee drafting its own Social Security expansion bill told reporters: "He is playing politics with the security program. This will not change our attitude. We are going along in a safe basis."

The subcommittee bill is not expected to propose any general increase in old age benefits. However, it may open the way for about 250,000 more people to take part in the program.

## Texas Demos Face Test Of Party Loyalty In Choosing Delegates

DALLAS, Tex., May 25 (AP)—Texas Democrats today came to the forks of the road of party loyalty. The state's Republicans, however, didn't face much of a loyalty problem. It had been settled for them in executive committee swarming, Ohio Senator Robert Taft was Texas' man. The best supporters of New York Governor Tom Dewey and Minnesota's Harold Stassen hoped for a National Convention.

Meeting at Enniswood, the 2,141 state Democratic convention delegates from 254 counties had to answer three questions:

1. Will we support President Truman without reservation?

2. Will we fight his Civil Rights Program and fight his rearmament but promise to support him if he is nominated?

3. Will we wait and see what the National Convention does? The answers depend on what the state convention does about choosing 50 delegates to the National Convention at Philadelphia, and what it does about naming 23 presidential electors.

Senator Young (R-ND) tried to put in an amendment returning the soil conservation payment system to one in effect prior to this year. The Senate turned him down 40 to 38.

Young said the change he proposed would benefit northern and western states and give the southeastern states smaller allotments than they would receive under the present system.

Senator Russell (D-Ga.) opposed this, saying it was intended as a "punitive" step against Georgia and other southeastern states.

Russell yesterday put over an amendment raising the amount for soil conservation from \$225,000,000 to \$300,000,000. The payments are made to farmers for conforming to approved government programs for improving farm lands.
