

BUSINESS HEADS ASKED TO RELATE DESIRED CHANGES

Senator Lewis Insists Roosevelt Wants To Know What He Wants

WASHINGTON, July 18.—(AP)—President Roosevelt was described Sunday night by Senator Lewis (D. Ill.) as willing to amend legislation passed at the last Congress if businessmen can make known any changes that should legitimately be made.

Lewis, chairman of the Democratic Senatorial Campaign Committee, said in a statement the President was anxious to have business men present their views for discussion in the fall election campaign.

"Through some misunderstanding," Lewis said, "there is being published that in a conference the

President had before he went on holiday, he stated that he desired his particular political advisors to prepare for other measures to be passed by the incoming Congress as part of and of necessary importance to present legislation lately passed by Congress.

"This statement has caused large business interests to assume that the present legislation is not complete and is to be amended by additions, leaving uncertain the manner in which business shall conform itself to the present laws."

Lewis said the President is anxious "that there shall be gathered from the public, wherever possible, whatever objections exist as to legislation lately passed."

"He desires particularly," Lewis added, "to know where business feels that the legislation is inappropriate to its welfare or where some change in the legislation would best serve the general uses of legitimate business in the promotion of general prosperity in all branches of commerce and industry."

"The President is anxious that in the present political campaign the public shall be advised that there will be corrections and readjustments of anything necessary to make the legislation fit the needs that will serve the just purposes of prosperous business. He wishes to authorize the candidates going to the people to assure the people of those changes when the people have found such necessary, rather than to wait until after the election and merely make the demonstration at the meeting of Congress."

"The President prefers that the public shall know before they vote for congressional candidates that whatever is necessary in the way of changes or in the application of the enforcement of the legislation to serve the uses of finance and industrial welfare, the public will have become acquainted with the assurance he gives now when the public shall have become acquainted with the legislation and the manner of operation. He wants the people to be assured while the campaign is on and while the people are studying the measures, so that the voters may vote with the consciousness that whatever they find in the meantime to be corrected as necessary to the welfare of every form of commerce and industry will be carried out."

"I say that this plan enables the public to feel free in passing its criticisms now. It allows the candidates of all parties to know from the public what is desired and that the people may be assured that the President will advise the Congress to be elected

MOLEY ADVISES AGAINST NAZI INFLUENCE HERE

Brain Truster Warns House Committee On Hitler Propaganda

NEW YORK, July 18.—(AP)—A warning by Raymond Moley, former under-secretary of state, against the spread of Nazi influence in this country and testimony of "sales of propaganda" sent here from Germany, were heard yesterday by the subcommittee of the special House committee on un-American activities.

Moley, an advisor to President Roosevelt, appeared before the committee briefly as editor of the magazine "Today."

"Whether an organic connection with the government is proved or not, any organization that has the same ideas as the Nazis in Germany is a danger to our country," Moley said.

Fritz Glasbi, member of the National Socialist Party of Germany, made the disclosure regarding propaganda pamphlets, some of them attacking Jews and Masons. He declared the material was distributed by the "Friends of New Germany," an organization for which Glasbi is the newly-appointed Middle Western leader.

The committee also made public testimony taken at a previous private hearing purporting to show that Dr. Hans Luther, German ambassador at Washington, had arranged free transportation to Germany for several American writers because he hoped they would present Germany in a favorable light in subsequent articles.

Glasbi asserted that the "sales of propaganda" came from the foreign propaganda office in Germany.

"He wishes—as I gather—that this assurance be given now when the public shall have become acquainted with the legislation and the manner of operation. He wants the people to be assured while the campaign is on and while the people are studying the measures, so that the voters may vote with the consciousness that whatever they find in the meantime to be corrected as necessary to the welfare of every form of commerce and industry will be carried out."

Cronin's American League All-Stars Beat Nationals 9-7

(Continued from page one)

both runners, and Cuyler fled out. The American Leagueers picked up two runs in the fourth off Warneke who took Hubbell's place on the mound as the fourth opened. Foxx was an infield out, but Simmons doubled to center. Cronin singled to left, scoring Simmons, and after Dickey struck out, Earl Averill of Cleveland, batting for Cronin, tripled to right, scoring Cronin. Gehrigger walked but Mungo fled out to right.

The Nationals got a single hit but no runs off Red Ruffing of the Yankees who replaced Gomez at the start of the fifth.

The American Leagueers went at it with a vengeance in their half of the fifth. Ruth drew a walk, as did Gehrig, as Warneke protested to the umpires about balls and strikes. Manager Terry pulled Warneke at this point, and Van Mungo of Brooklyn came in to replace him. Mungo was not yet been accepted, was given so he could become a leader in the Friends of New Germany.

The Americans got another run in the sixth. Foxx was the first batter to face Dizzy Dean who

met by Jimmy Foxx, who hit the first pitch for a single, scoring Ruth and sending Gehrig to third. Simmons hit a slow roller to short, scoring Gehrig and sending Foxx to second. Cronin fouled out to Hartnett, and Bill Dickey drew a walk, filling the bases with one out. Averill doubled along the first base line, scoring Foxx and Simmons and sending Dickey to third. Gehrigger was purposely walked, but Red Ruffing singled to left, scoring Dickey and Averill. Ruth was an infield out, and Gehrig struck out, ending the inning.

The Nationals scored three runs in the fifth. Pepper Martin, batting for Mungo, drew a walk. Frutch singled to left sending Martin to third, scoring Martin, sending Frutch to second. Chuck Klein, batting for Frutch, singled to right, scoring Frutch, sending Traynor to second. Mel Harder relieved Red Ruffing on the mound. Mel Ott, batting for Cuyler forced Klein at second on a fielder's choice in right field, sending Traynor to third. Paul Waner struck out but Traynor stole home.

Arky Vaughn was an infield out.

The Americans got another run in the sixth. Foxx was the first batter to face Dizzy Dean who

started the sixth in place of Mungo. Foxx struck out. Simmons got his second double to center, and Cronin doubled to left, scoring Simmons. Dickey walked, and Mickey Cochran ran for him, but Cochran was caught off second as Averill was struck out.

Dizzy Dean had fine support in the seventh and eighth after long hits had put him in the hole, and Fred Frankhouse, pitching the ninth for the Nationals had no trouble at all, although he walked

Gehrigger.

In the twelfth Mel Harder was having things his own way. He held the Nationals hitless in the fifth, sixth, seventh, and eighth. In the ninth, Frankhouse was out. Cochran to Gehrig, but Herman doubled to left, the first hit off Harder. Traynor fled out to Sammy West in center, and Klein ended the game when he went out. Harder to Gehrig.

The NEW Firestone CENTURY PROGRESS TIRE

Ten Million People HELPED TO BUILD THE TIRE SENSATION of '34!

Beyond Comparison in Quality, Construction, Appearance and Price With Any First Quality Tire Made

THE way to create a TIRE SENSATION is to give the people what they want, and Firestone has done this with the new Firestone Century Progress Tire.

As millions of people visited the Firestone Factory at the World's Fair last year, we asked this question—"What do you value most in a tire?" They answered—"Give us Blownout Protection, Non-Skid Safety, and Long Wear, at a moderate price." This was a big order, but Firestone has a habit of giving car owners what they want when they want it.

We knew there was only one way to build Quality and Value into a tire at a moderate price, and that was by volume production. We built the greatest tire ever made to sell at these low prices. Car owners are profiting because we found out what they wanted and found the way to give it to them.

The new Firestone Century Progress Tire IS EQUAL OR SUPERIOR to any first quality tire built, regardless of name, brand, by whom manufactured, or at what price offered for sale.

CHECK THESE AMAZING VALUES
Come in and equip your car with this marvel of tire construction, at the lowest price we have ever been able to make on a tire of this high quality and construction, carrying a Triple Guarantee.

- for Unequaled Performance Records
- for Life Against All Defects
- for 12 Months Against All Road Hazards

GRAIN MARKET IS ELECTRIFIED BY CROP NEWS

Wheat Prices Soar 5 Cents On Opening Transactions With Other Grains After

CHICAGO, July 11.—(A.P.)—Grain markets were electrified today as a result of the sensational government crop report placing the nation's 1934 production of grain at the lowest figure in 33 years. Wheat prices soared five cents on opening transactions, all that is permitted in a day's trading. Corn went up to the allowable four cent limit and other grains followed suit.

WASHINGTON, July 11.—(A.P.)—The story of the drought is written in figures of the government's crop forecast which now predicts a wheat harvest of only 423,623,000 bushels, the smallest in 30 years.

The estimate showed the same situation in the case of oats, barley, rye, and corn save for 1930, when the corn crop was ravaged by mid-summer dry weather. Corn production for 1934 was estimated at 2,118,187,000 bushels.

"Due to acreage reduction and losses from drought, the total acreage of field crops harvested will probably be the lowest in 25 years," the report said, adding that "the crop situation is less promising than at this season in any recent year and little if any brighter than it was a month ago."

Private observers had felt that crops since the official crop forecast in June had improved conditions to the extent that the tentative figure of 500,000,000 bushels of wheat a month ago would be raised.

The five-year average production of wheat for 1927-1931 was 838,350,000 bushels. Secretary Wallace announced only Monday that the 18 percent reduction in wheat acreage might be continued for the new crop year but he specifically reserved the right to decree that those who signed contracts plant more of the grain.

McKay Denies That Utilities Control Tampa Daily Times

TAMPA, July 11.—(A.P.)—D. E. McKay, for many years owner of the Tampa Daily Times, testified at a federal trade commission inquiry here yesterday that he is still the owner of the property and that not one cent of utility money was involved in its lease a year ago to David E. Smiley and Ralph Nicholson, who operate it under such lease with an option to buy.

Called as the first witness at a hearing at which Commissioner Davis presided, McKay hit the table with his fist and declared "emphatically no" in answer to a question by William J. Chantland, commission counsel, as to whether there had been any payments or promises from outside sources in the making of the lease.

"In the spring of 1932," Chantland asked, "did you receive any substantial loan or advance from any utility or representative of a utility in consideration of making the lease?"

"I have never received any loan from any utility on any account," McKay replied.

"There were five other witnesses who were to be called today," McKay said.

Lupe Says Tarzan Bad Actor At Home

LOS ANGELES, July 11.—(A.P.)—Lupe Velez, Mexican peppercorn of the films, filed a suit for divorce today charging her husband, Johnny Weissmuller, screen actor and Olympic swimming champion, with cruelty. The Tarzan of the movies may be inarticulate on the screen, the valuable Lupe stated in complaint, but in his home he "cursed, swore, and threatened his wife."

DAVIS ADVISES AGAINST EVILS OF BUREAUCRACY

Erstwhile Democratic Leader Rises In Defense Of Old Order

UNIVERSITY, Va., July 11.—(A.P.)—In a defense of the "old order" John W. Davis warned last night against the death of representative democracy "by the slow strangulation of an engorged bureaucracy."

"If it must die," he said, "it would die a nobler death in the lightning and storm..."

"Surely we have warrant to believe," the 1934 Democratic presidential candidate told the Institute of Public Affairs at the University of Virginia, "that within the framework provided by the old order, progress is still possible, reforms are still practicable and recovery is still attainable."

"In the court of reason, in the light of history, the burden of proof rests wholly on those who would persuade us to the contrary."

The New York attorney said he was speaking "neither for nor against the 'New Deal' in the present use of that alluring phrase. Under that title good and bad alike may be done."

"And I share the general admiration evoked by the energy, promptitude and driving power shown by President Roosevelt," he continued. "On the other hand to approve or reject any policy or group of policies in mass and without analysis is an act solely of emotion, not of reason."

Declaring that he did not wish to be regarded "as an opponent of change" and that "as a liberal I put my faith now and always in the freedom of the human mind," Davis said:

"I am aware that one who comes as I do to lay his humble wreath at the feet of the old order runs serious risks. Someone is sure to denounce him as a Bourbon and others perhaps to baptize him as a Tory."

"He may be invited to be silent until he can bring forth some new thing of his own; although it is not quite clear why one who sees his friend driving headlong toward a precipice must wait to warn him until he can produce a road map of the district."

In emphasizing his precept that a greater faith and practice in democracy should obtain, Davis said the "Supreme Court has sanctioned the doctrine that Congress (Continued On Page Four)

Orlando Man Guilty Of Manslaughter

ORLANDO, July 11.—(A.P.)—Milled Branch, winter park surveyor, was found guilty of manslaughter Tuesday evening by a criminal court jury and sentenced to five years in the state penitentiary, but the mystery surrounding the disappearance of the brain of Preston Burnett, whom Branch was accused of slaying, remained unsolved.

The jury brought in its verdict after deliberating almost seven and one-half hours and after the opinion had grown among court observers and a large audience that a mistrial would be declared.

Twice the jury returned to the courtroom and announced to Judge W. M. Murphy that they were unable to arrive at a verdict. On their first re-appearance, Judge Murphy said that it was the desire of the court to have a verdict rendered and asked that they again retire and consider the case.

ASHBURN DIES

FORT PIERCE, Fla., July 11.—(A.P.)—Funeral arrangements for Ralph Ashburn, 54, drudge operator who, officers said, ended his life Sunday morning by firing a bullet through his brain while in his home in Fellsmere, were awaiting word from his half brother, Robert Fosney, of Richmond, Mo.

YOUTH SACRIFICED

BERLIN, July 11.—(A.P.)—All unmarried men and women in Berlin under 25 were urged in an appeal by various party organizations to surrender their jobs voluntarily to married workers. In addition to this "sacrifice for the state," the unmarried workers were asked to offer themselves for labor on farms, where they can "live and work in fresher and freer air."

NAZIS ADOPT MEASURES TO SPEED TRADE

German Foreign Minister Asks France, Others To Help Settle Lithuanian Row

BERLIN, July 11.—(A.P.)—Minister of Economics Kurt Schmitt today removed Phillip Kessler, leader of Germany's economic and trade bloc, replacing him by Count Ruediger von der Glos, formerly a member of the Reichstag. Kessler, who has had more industrial experience and can speed up activities. Warnings were issued throughout Germany against "rumor mongers" who were told that spreading false reports is forbidden.

Foreign Minister Konstantin Von Neurath received the ambassadors of Japan, Italy and France to impress upon them the necessity of intervention by Versailles treaty signatories in the Memel territory. In this Lithuanian territory, taken from Germany and made self-autonomous, difficulties have continued to pile up.

Threats to expel foreign correspondents because of some reports of the "second revolution" continued to be heard.

Trade Bodies Ought To Have Ad Funds

OCALA, July 11.—(A.P.)—Florida business men will be penalized if they fail to provide the chambers of commerce of their respective communities with adequate advertising funds for the season of 1934-35, Stephen H. Fifield, Jacksonville, told the regular monthly meeting of the Central Florida Council of Chambers of Commerce here Tuesday.

Florida should never advertise except as a state, the assistant vice president of the Board of National Bank and president of the Jacksonville Advertising Club said. "After the people get into Florida then let the communities seek to attract them."

He urged, particularly, more "spot" advertising in northern publications to direct attention to Florida's attractions.

When the North is excessively hot or cold, Fifield said, weather is front page news in northern cities. The "spot" advertising, he said, could be tied in with this.

FERA Workers Vote To Go On Strike

ORLANDO, July 11.—(A.P.)—Demanding more pay, medical attention and general supervision of the local FERA by Army officers, a general strike of FERA employees was called Tuesday at a meeting held here in Lake Nola Park.

How widespread the strike would take effect could not be determined today but the meeting was attended by some 300 men, both white and negro, and it was asserted that similar meetings were to be held at points over Orange county.

AIRSHIP CONDEMNED

WASHINGTON, July 11.—(A.P.)—Secretary Swanson told reporters today that the airship *Los Angeles* has been condemned as unsafe for further flights. It has been designated only for experimental use in its hangar and around its mooring mast at Lakewood, New Jersey.

Self-Slain New England 'Pirate' Identified As Conservative Selectman

BOSTON, July 11.—(A.P.)—The body of the pirate found with a bullet wound in the head beside the stolen yacht *Cumberland II* in Cohasset Harbor on June 21 was identified as that of James H. Newton, forty-three, of Marsh, N. H., a farmer, chairman of the Board of Selectmen of the town, father of five children and a member of a socially prominent South Shore family.

He was the son of George Frederick Newton, of Cohasset, an architect with offices at 6 Bacon Street, and a brother of Mrs. Margaret Allen, of Cohasset, well known as a sculptress; of George F. Newton, Jr., Harvard '12, of Cohasset, and of Jewett B. Newton, Harvard '10, of Hallowell, Me.

He had been missing from his home since June 22, the day the *Cumberland II* was stolen at gunpoint at New London, Conn., from one of a group of Yale College students after the Yale-Harvard crew race.

Chief Hector J. Pellegrini, of the Cohasset Police Department, after conferring with members of the family, reiterated his former

Directors Of Trade Body Offer County Commission Aid Of Legislative Group

Assurance was given the Board of County Commissioners last night by the board of directors of the Seminole County Chamber of Commerce that it would be glad to co-operate, through the work of its Legislative Committee, with any plans for legislation to handle the problem of the misuse of artesian water in this county.

Services of the committee, headed by H. E. Haines of Allamonte Springs, were placed at the disposal of the Commissioners, and suggestion was made that any legislation prepared should be drawn up on a basis that would be fair and equitable for all persons.

C. E. Dawson, newly appointed county agent, was elected unanimously as a member of the board of directors by virtue of his office, and members of the board assured him of their active co-operation with him.

Mr. Dawson made the announcement that he would be glad to handle the fruit and vegetable units of this county's future exhibition at the Central Florida Exposition in Orlando, and his offer was accepted.

Announcement also was made that the dues staged by the trade body for funds to be used by the committee which secured the State Farmers' Wholesale Market, had produced \$29 in cash and pledges on a total of \$250.

A request of the American Railway Express Co. for a petition in reference to the company's service in Sanford was referred to the Commercial and Civic committee of which J. E. Huddworth is chairman.

Joe J. Marquette was appointed (Continued on Page Three)

ASHBURN DIES

CAMPUS BELLE FOUND DEAD IN COOK'S ROOMS

Daughter Of College Professor Said To Have Died Trying To Avoid Motherhood

NORMAN, Oklahoma, July 11.—(A.P.)—Belief that Marjorie Mills, 20-year-old campus beauty at the University of Oklahoma, died to prevent motherhood was expressed today by County Attorney Paul Upligraf.

He said he based his theory upon a post mortem report upon the body of Mrs. Hazel Brown, a cook for the Delta Upsilon fraternity in whose apartment the girl's body was found yesterday afternoon shortly after Neal Myers, a pharmacy student had summoned a physician and then disappeared.

Mrs. Brown was Upligraf's admittance, said Miss Mills, daughter of Albert M. Mills, associate professor at the University, had been taking a "snack" medical preparation.

Search was continued for Myers who had come to the fraternity cook's apartment with the girl Monday, remaining until yesterday afternoon and telling Mrs. Brown that he and Miss Mills were married.

At the time the girl's parents thought she was attending a house party at Tulsa, Mrs. Brown told of the futile attempts to obtain medical aid for the girl dating from last April, Upligraf said, and of the desperate resort to a preparation when the couple became frightened.

Upligraf quoted Mrs. Brown as saying Myers came to her and asked the name of a doctor as he was in trouble with a girl.

He suggested one in Oklahoma City. He came back in a day or so and said he had seen the doctor but the doctor wanted twenty-five dollars and he could not raise the money. I tried then and several times later to get him to go to his father. He said he would rather die. After that he just worried me to death about it."

AUSTRIA BEGINS DRIVE TO STIFLE NAZI INFLUENCE

VIENNA, July 11.—(A.P.)—Engelbert Dollfuss, Austria's fighting little chancellor, announced a huge new drive against Nazis today after concentrating in his own hands all the military and police power of the nation.

For the death penalty will be dealt out for mere possession of explosives, Dollfuss announced in an effort to stop the widespread bombing outrages.

In a cabinet shake-up Dollfuss presented the resignation of the whole group to President Wilhelm Miklas and then submitted a new list for Miklas' approval. Dollfuss appeared determined to stamp out the whole Nazi movement in Austria.

Citizens Contribute \$438 With Several Teams Yet To Report

MIAMI, July 11.—(A.P.)—Miami's per capita fire loss for the fiscal year ending June 30 was the lowest in the history of the city and probably the lowest of any city of its size and population in the country, the fiscal report issued recently by E. A. Weston, fire chief, shows. The per capita loss was 30.1 cents, compared with \$1.01 last year. It is the lowest in the city's history as far as available records show and the lowest in the memory of veteran members of the fire department.

MIAMI PER CAPITA FIRE LOSS LOWEST IN HISTORY

MIAMI, July 11.—(A.P.)—Miami's per capita fire loss for the fiscal year ending June 30 was the lowest in the history of the city and probably the lowest of any city of its size and population in the country, the fiscal report issued recently by E. A. Weston, fire chief, shows. The per capita loss was 30.1 cents, compared with \$1.01 last year. It is the lowest in the city's history as far as available records show and the lowest in the memory of veteran members of the fire department.

St. Pete Ordered To Levy Taxes For Bonds

TALLAHASSEE, July 11.—(A.P.)—The Supreme Court Tuesday granted a preliminary writ of mandamus requiring the City of St. Petersburg to levy sufficient taxes to pay interest and principal on municipal bonds held by J. M. Parkin as receiver for two closed banks.

Barkin applied to the court for an order requiring payment of the bonds after, he said, the City of St. Petersburg had brought tax lien foreclosures against property of the two banks, for non-payment of taxes.

He contended he could not pay the taxes unless the city paid the bonds which constitute part of the assets of the closed banks, the First National and the Central National of St. Petersburg.

ROOSEVELT GOES TO PACIFIC VIA CANAL

CRISTOBAL, Canal Zone, July 11.—(A.P.)—President Roosevelt's cruiser U. S. S. Houston dropped anchor in the harbor here today and received aboard Secretary of War Dern preparatory to a trip of inspection through the Panama Canal. The President came on deck early to witness the trip through the gigantic canal connecting the two oceans. He is the first President to make the canal transit while in office.

ALL-STAR GAME IS LIKENED TO SAND-LOT TILT

Hubbell's Pitching Stood Out As Finest Of Several Displayed

NEW YORK, July 11.—(AP)—For three magnificent innings, the National League yesterday showed the American League and 48,555 howling faithful finest pitcher in baseball—Carl Owen Hubbell. Then everyone relaxed and the second annual battle of the all-stars turned into nothing so much as the major league equivalent on the married men v. the single men at the annual Sunday School picnic.

If all the hits the American League made off Warneke in the fourth had been laid end to end, they would have reached the home plate in the Yankee Stadium. Cronin's single went 315 feet. Averill's triple landed 455 feet from home plate.

Hubbell played no favorites in his string of six strikeouts in the first and second. After fanning Ruth and Gehrig, left handed batters, he got Fox, Simmons and Cronin, all right handers, before winding up his whiffing act against Gomez, who tries to hit from the port side.

Frankie Frisch's reputation as "money player" got no ground when the Cardinals manager socked Gomez's second pitch high into the right field stands for a home run. His single in the fifth likewise did no harm.

It looked like a baseball "brain trust" at the start when

The National League took the field. They had three managers in the infield, Frisch at second, Bill Terry of the Giants at first, and Pie Traynor of the Pirates at third. Later the two leaguers were all even in this respect. Frisch left the game and Mickey Cochrane of the Tigers came in to increase the American League managerial representation to two, the other being Joe Cronin.

As early as the sixth inning, the National League had used up 19 players and had only Fred Frankhouse, Braves' pitcher, left for substitute duty.

The sixth inning produced a triple play which, however, failed to get into the records. With one down, Averill fanned and Cronin was caught off second, retiring the side. The ambitious National League infield, just for fun, completed the play and caught Cochrane off first for the "fourth" out of the inning.

Every man in the National League squad eventually got into the game. Tommy Bridges, Jack Russell, Rick Ferrell, Jimmy Dykes and Frank Higgins never did find their way into the American League box score.

Lou Gehrig who failed to get a hit, struck out three times and made one of the game's two errors, had a bad day from the start. He drove up to the park late and was so excited, he locked his wife in the car. He had to send someone with the keys to get her out.

Ruth and Gehrig left all their big hits in batting practice. They drove at least eight balls into the stands while Knuckle Ball Eddie Rommel was in the work-out box but they failed to get even a single between them during the game. Ruth's substitute, Ben Chapman, connected for one of the longest drives of the game, a triple to the 455-foot mark.

In the clubhouse, Dixie Dean declined to admit the American League was a better team. "Just a bunch of wild sluggers," the Dixie one said.

Davis Advises Against Evils Of Bureaucracy

(Continued from page one)

having passed a reasonably specific statute may commit to an administrative department the duty by rules and regulations of "filling out the details."

"But that lock having been given, the ell that is taken runs in final statutory form not entirely unlike this: 'Something is wrong in the country which ought to be put right; it is hereby made the duty of the executive to find out what that something is and to promulgate such rules, regulations, edicts and decrees as he or it may deem useful to correct it.' Draconian penalties are not infrequently attached to discourage those who otherwise might imprudently resist."

"It stands to obvious reason, the attorney said, that no man, whether the President of the United States or another, either the present high-minded and industrious occupant of that office, or one less gifted, can carry out such commands of himself."

This brings into being, Davis said, the bureaucracy that threatens the existence of Democracy.

"For," he said, "be it remembered that, while there are, according to the latest computations I've seen, some 644,000 employees of one grade or another on the federal payroll, no single man or woman in the United States has ever cast his or her vote for more than five persons in all that mighty host. These five are the President, the Vice President, two senators and one congressman. That far and no farther marks the voters' choice."

Asserting that "drowning men have clutched at straws ever since the world began," Davis said the "battle cry has always been the same: 'The old order has failed us; Capitalism has definitely failed; something better be put in its place.'"

"Because in five brief, though painful, years we have fallen on evil days, we are entitled to say forthwith that capitalism has failed as a system? Is it not rather that those who in public or private life undertook to guide the course of events did not measure up to their duties and opportunities?"

"Men in office—I am not speaking of America alone—as well as the voters behind them lacked vision; others lacked courage to follow the vision they had. Men in private station, drunk with the desire for easy money, cast off all restraint and forgot the rules of prudence, and joined the dem-

MISSISSIPPI IS STILL DRY AFTER PROHIBITION POLL

Voters Defeat Hard Liquor Bill By Vote Of Nearly 2 To One

JACKSON, July 11.—(AP)—Mississippi today held its place among dry states by a vote of approximately two to one. On the basis of incomplete unofficial returns from the prohibition referendum yesterday, the voters defeated a hard liquor bill by a dry vote of 47,275 against a wet vote of 25,246 in 685 of the 1,998 precincts in the state.

Leflore, in the Delta, was the first county to report a complete vote showing a margin in favor of the state liquor control proposal. With all 12 precincts tabulated, the vote was: For state-wide prohibition 55; against 568; for sales in the county 578; against 559.

Joining Leflore was Harrison, on the coast, which gave a 165 wet majority in seven of its 32 precincts.

With the City of Jackson complete, Hinds, the state's heaviest populated county, returned a 9-5 dry majority.

Two Mississippi River counties, Warren and Tunica, with all boxes complete, voted wet 281 to 94, while Warren, with 11 of its 20 precincts in, gave 797 for repeal and 198 for state-wide prohibition.

LABOR BOARD

WASHINGTON, July 11.—(AP)—A 37-year-old dean of a law school stopped forward Sunday to try his hand at quelling the nation's often sanguinary labor troubles.

Lloyd Garrison, of the University of Wisconsin, realizing his task is no sinecure, has been on the ground for three days. Yesterday the new national labor relations board came into active existence and Garrison, great-grandson of the renowned abolitionist—IST—heads it as chairman. Simultaneously the old national labor board expires, leaving a pile of unfinished labor dispute business.

mands of honor also. But to lay the resulting crash at the door of the capitalistic system is to blame the automobile for the collision instead of the man who drives it.

Famous Air Award

HIGHEST prize in aviation, the Collier Trophy is awarded annually for "the greatest achievement in aviation during the year." The 1934 award, to Frank W. Caldwell, is a recognition of his invention of the "controlable pitch propeller," which has increased the speed limits of ordinary airplanes by more than 50 percent. This is 11th award of the famous trophy, which was founded in 1911 by the late Robert F. Collier, editor of Collier's Weekly and America's first sportsman pilot.

INTERNATIONAL BANK

BASEL, Switzerland, July 11.—(AP)—World financiers hope it was revealed Monday, to turn the Bank for International Settlements into an instrument for solving complex inter-governmental monetary problems on a wide scale, including clearance of postal and telegraph payments and international rail and air travel fees.

To carry out this ambitious scheme, financiers admit, co-operation of the U. S. would be necessary, and the plans are being talked about during the visit here of George L. Harrison, governor of the New York Federal Reserve bank.

Farley Raps Critics Of New Deal Plans

WASHINGTON, July 11.—(AP)—Postmaster General Farley Monday rapped to opposition criticism with the assertion that because Republicans have no constructive ideas they are seizing upon the "constitutional issues" about which they can be all vague "as they wish."

In a statement made on the eve of his departure for a Western speaking trip, Farley said: "The campaign is evidently deftly laid under way and I hope the opposition party has a good time even though its leaders have no more notion that Republican success is possible next November, than I have."

Farley goes to Philadelphia today and will be in New York Wednesday, that night he will start westward, making his first stop at Indianapolis on Friday. All told he will make more than a score of speeches, some of them at Democratic party rallies and others at dedications of new post-offices.

ALL NON-NRA GROUPS PUT IN BASIC CODE

Special Code Devised By Johnson For All Businesses Not Yet Under Code Of Own

WASHINGTON, July 12.—(A.P.)—Hugh S. Johnson yesterday promulgated a new "basic code" for industries still without the NRA fold and set a 30-day deadline for their compliance. In a special order, Johnson gave all uncodified industries the choice of merging with existing codes or operating under the new basic code with a general NRA code authority to be created by Johnson. Johnson said "it is not intended by this plan to force all remaining uncodified industries under codes," but gave notice that industries remaining outside NRA which appear to be harboring abuses may have a code imposed.

NRA said the mopping-up plan would cover 123 pending codes and any industries which had not yet applied for codes. Code agreements appeared near on 185 of them and NRA urged their completion in the next 10 days.

Johnson said the basic code group.

County Agent Gives Aid In Campaign To Conserve Our Water

With the warning that "The day our artesian wells stop flowing is the day which will bring the end of our celery growing activities in this county," County Agent C. H. Dawson today joined in a campaign to conserve our water.

The board of County Commissioners in endorsing their view that "it should be taken as a matter of course that the artesian wells in this county be conserved," Mr. Dawson volunteered to act as a "missionary" who will attempt to educate white and colored residents of this section in the matter, asks that all persons who have knowledge of artesian wells flowing on unused land communicate with him at the County House.

He indicated that he would undertake to map as many wells as possible, either in co-operation with Mr. J. L. Leffler and the Commission, or privately, as County Agent, and resident of the area which is affected.

In this connection, Mr. Dawson pointed out that Mayor Leffler is calling attention to the fact that few sulphur or artesian wells are running south of Fourth Street where only a few years ago, artesian wells were numerous all over the city.

"Attention of the public is directed to the absolute necessity for closing down all wells, the water from which is not needed for cultivation or drinking and building purposes," Mr. Dawson stated in the appeal every person to spread the message.

Test Suit Facing City Is Seen As Holding Important Far- Reaching Legal Points

PONZI'S PETITION FOR PARDON IS DENIED BY ELY

One Time "Financial Wizard" Seeks To Avoid Deportation

BOSTON, July 12.—(A.P.)—Governor Joseph Ely today denied the petition of Charles Ponzi, one-time "wizard of finance" for a pardon which Ponzi sought to prevent his deportation to Italy.

With only two hours of freedom remaining before he was to surrender to the federal immigration authorities, the little gray man who once promised 50 percent profits in 45 days in a postal reply coupon financial scheme, went before the governor to begin his clemency and to clear his record of one charge of moral turpitude.

The federal government has hoped to deport Ponzi on account of two offenses involving moral turpitude. One is Ponzi's conviction in Massachusetts of larceny. The other is a federal conviction for using the mails in a scheme to defraud. Ponzi argued that both were based upon the same offense and consequently there was but one moral turpitude charge against him.

Ponzi halted deportation proceedings again by seeking a writ of habeas corpus in the federal court. The hearing is set for July 17.

Legal points which City Attorney Fred R. Wilson today termed as "Unusually interesting and far-reaching" are involved in the views held by W. R. O'Neal of Orlando, finance chairman of the United Mutual Life Insurance Co., who has announced that his firm is preparing to bring suit against the City of Sanford seeking to establish its claim that it is a preferred creditor of the city.

Mr. O'Neal's views are contained in the following letter, read at a meeting of the City Commission Monday night, and turned over to Mr. Wilson for a reply:

"To the Honorable Mayor and City Council, Sanford, Fla. 'Gentlemen:

"In 1910 I purchased \$5000 worth of Sanford bonds voted Oct. 11, 1909, bonds No. 100-7-8-10-11. These bonds matured in 1930 and are unpaid.

"I am familiar with the conditions that have obtained in Sanford bond matters. Personally, for myself and clients I have kept out of all committee and litigation.

"As a bond buyer of 40 years experience, over which period I have purchased fifty million dollars of bonds, I have been interested in the legal and academic question as to whether bonds issued under restricted charter of a municipality can be avoided and reduced in value by any subsequent Act of Legislature or municipality.

"I am fully advised as to what the Supreme Court of Florida has ruled.

"Unless we can arrange some satisfactory settlement on the bonds I hold, the bonds will be used as a basis for test suit, which so far as my clients are concerned, will only be determined by the Supreme Court of the U. S.

"The United Mutual Life Insurance Company, of which I am chairman of the Finance Committee, owns \$5,000,000 of Florida bonds. We carefully avoided the purchase of any special assessment, improvement, drainage ditch, or similar bonds. The debts of municipalities when we purchased bonds were small and could easily be paid now.

"We have employed the best counsel obtainable and are advised that it is their opinion that our contention must be sustained by court of last resort. In any event we will find out.

"We do not wish to put Sanford to any unnecessary expense, and trust that unless you can arrange for the bonds that all expenses of service, court costs, be made as small as possible. At the same time we will try out the water works issue. Personally I dislike more than I can say to get into the matter, but my official position seems to make it necessary."

BIG TAX ITEM IS COLLECTED BY FLORIDA

Lee Announces Collection Of Largest Inheritance Tax In State's History

TALLAHASSEE, July 12.—(A. P.)—The biggest single tax collection in the history of the state was announced today by Comptroller Lee. The item was \$300,000 inheritance tax on the estate of Edward Goodrich Acheson of St. Petersburg and Pittsburgh, Penn.

In addition, Lee said, there is an expected payment within a few days of an additional \$448,503, bringing the total to \$748,503. The money goes into the general revenue fund for governmental operations. Acheson died in 1931.

Big Bass Wins Bout In Deland Pond With Battling Moccasin

DELAND, July 12.—(A.P.)—Robert Page Leland, angler of note who left Deland several months ago after making an exhaustive study of Volusia county fish and fishermen, missed the premier event of the season—a happening that is likely to go down in grand-father Leland's diary under the caption "Battle of the century."

This happening occurred near Deland early this week when a heavy denizen of the deep, age, army serial number and other pertinent data missing, undertook to devour a moccasin snake as a man among men, if the narrator may be believed.

The bass, so the story goes, got a head start on the snake which succeeded in swallowing as far as the reptile's waist line. The vermin then, sensing something amiss, set in to extricate himself from the jaws of the fish.

To and fro the tide of battle waged, the snake seeking to reach dry ground with the fish in tow, and the sealy warrior seeking just as diligently to tow his captive to deep water where he apparently planned to engulf the delectable tidbit that fortune had placed on his plate.

The battle waged for half an hour and at last reports the ball had apparently gained a temporary victory and was headed toward the deep water and accomplishment of his ultimate purpose.

What Ripley would like to know, and a lot of other people for that matter, is are there any bass in this section of sufficient bite to fight it out with a sea constructor for the heavy weight championship of the world? "Members in the local bass club say "Yes."

Fair Fund Donations Exceed \$440 Figure

Contributions toward the \$100,000 fund being sought in Florida to keep Florida's World's Fair Exhibit open for the summer have passed the \$440 mark, it was reported at the Chamber of Commerce office today.

Additional contributions reported are as follows:

- \$5 contributions: Speer & Son
- \$2 contributions: Seminole Creamery
- \$1 contributions: W. H. Schmidt, Ray Fox
- \$5 contributions: C. C. MacMahon, S. G. Gray, J. D. Callahan, T. E. Doss, T. E. Simpson, E. H. Laney, T. L. Hymas, R. L. Glenn, E. B. Randall, Jr., J. F. McClelland, Jr.
- \$10 contributions: Nell Underwood, Clyde Ramsey
- 25 cents Contributions: A. I. Campbell

MIRACLES GUARANTEED

PALATKA, July 12.—At the regular meeting of the board of directors of the Palatka Federal Savings and Loan Association held at headquarters early this week, the secretary was instructed to take advantage of the provisions of the national housing act passed by the last Congress whereby shares in federal savings and loan associations are to be insured by the government up to \$5000.

Quack Remedy Story Is Thought Untrue

NORMAN, Okla., July 12.—(A.P.)—Disatisfied with the story of Mrs. Hazel Brown, 30-year-old fraternity cook at the University of Oklahoma, County Attorney Paul Updegraff said today that he would demand a new statement concerning the death of 20-year-old Maxine Miller, the campus beauty queen. Updegraff said he didn't believe the girl died from the effects of a quack remedy in an attempt to avoid motherhood. "There's a lot happened out there at Brown's house we have not learned," he said. The girl died at Mrs. Brown's home.

FRENCH TO TRY SPENDING ON BROADER SCALE

8,720,000,000 Francs Voted By Parliament In Rush For Work

PARIS, July 12.—Urged on by Doumergue's idea that the "unemployed" expected something more than words, Parliament passed, before breaking up, a scheme of public works calling for expenditures of 8,720,000,000 francs. Adrien Marquet, minister of labor, who sponsored the plan, hopes it will give French economy the necessary impetus to enable it to draw itself out of the depression by bringing money into circulation and restoring confidence in the rebuilding and purchasing power of the internal market.

According to the government's statements it is to be financed out of social insurance funds at the disposition of the government. Special legislation will have to be introduced, however, to enable these funds to be freely used as present regulations to them up too tight.

The money will be allotted as follows: 2,500,000,000 francs for the Paris urban region, \$45,000,000 for roads, 215,000,000 for aerial tramways, 215,000,000 for airports, 1,350,000,000 for rural electrification, 1,145,000,000 for national education and 80,000,000 for bus acts and the touring industry.

The remaining 2,375,000,000 francs will be borrowed from social insurance funds by the railroads to be applied to quadrupling the tracks between Paris and Dijon and the installation of automatic signals, the suppression of level crossings and electrification. Lines to be electrified are the Paris and Lyons, Tours Bordeaux, Eastern Metropolitan suburban system and Colon Chambery.

The first three lines, at present, depend upon English coal for fuel. The railroad fuel alone is calculated to afford 9,700,000 labor days. Stinging penalties have been written into the law to guard against profiteering. Persons convicted of unjustified raising of prices will be liable with fines of 500 to 5,000 francs with, for the second offense, one to six months imprisonment.

During the debate P. E. Flan-din, Minister of Public Works, countered suggestions that the 8,720,000,000 francs be drawn from public funds could easily turn to the money market with the statement that the Minister of Finance wished to reserve it for consolidation operations. This indication of government intentions further strengthened rents, which have had a rising tendency for some time.

Present prices of the 4 1/2's give a yield of 4.95 percent and the market anticipates that they will rise to par. The government is more ambitious and hopes the 5 percent rate will be established for the long-term gilt-edged securities.

The Anglo-German agreement, reached in London, on the service of the Reich's foreign debt re-assured opinion here of the feasibility of a similar agreement between Paris and Berlin. It is pointed out, however, that while an agreement will probably be very similar, the bargaining basis will be altogether different. Opinion here holds that Germans in London were actuated by hope of eventual access to the money market. No such factor could operate here as French credit is and will remain resolutely closed to Germany. Negotiations for a new commercial treaty, which are now going on, are probably linked with debt service negotiations.

9 MONTH TERM EXPECTED FOR SEMINOLE HIGH

Grade Schools Will Open Oct. 1, While City's Senior High Opens On Sept. 17

All grade schools in Seminole County will open the Fall term on Monday, Oct. 1, for a period of eight months, while Seminole High School which was forced into an early start in its first term, will return to a nine months' term starting Sept. 17.

This was decided at a meeting of the Board of Public Instruction held at the offices of School Superintendent T. W. Lawton yesterday afternoon during a meeting in which several bus contracts were let, authority was given for the erection of a negro school at Forest City, and the negro school at Midway was ordered opened for an eight months' term beginning July 7.

The high school's proposed return to a nine months' term, plus other indications of a return to normalcy in the school system of the county, proved a source of satisfaction to the various members of the Board, each member of which expressed himself as pleased with the outlook.

Official budget of revenues and expenditures of the system for the fiscal year beginning July 1, 1934, also came in for a share of the discussion.

The budget anticipates revenues of \$244,020.00, which, with \$29,000 in cash on hand as of July 1 and \$300 representing the inventory of stores and state free text books, adds up to a total available revenue of \$273,020.00.

Total anticipated expenditures are set at \$274,520, leaving only a margin of \$150. Hazing the unusual, it was stated at the Court House today the system can operate within the budget estimate.

As a first item of business upon the opening of the meeting, authority was given for the advertising of bids for a tin roof which is to be placed on Wilson School at Palm J. E. Fox and C. H. McKenney, trustees of the Palatka district, had recommended this repair.

If H. White of the Lake Mary School also was authorized to repair the roof at Lake Mary School, using materials left over at Lyman School.

After a reading of bids and a check on bus drivers, the Board approved the following contracts:

- L. J. North, driving the North route to Lyman School, \$125.00 per month, W. E. Nowell, Road Lake Forest City etc. to Lyman School, \$145.00, H. M. Gleason, Lake Mary to Seminole High School, \$50.00, J. Kask, Kask Road, etc. to Winter Park, \$70.00, H. H. Hughes, Atlanta Monte Springs colored school route, \$85.00, J. A. Sent, Patrick route to Lyman School, \$10.00, R. E. Kealey, Wagner, Lake Chalm in Ovid, \$85.00, Milton Gore, Gabriella and Slavia to Ovid, \$80.00, C. A. Oldham, Geneva route, \$75.00, R. N. Strevell, Geneva to Seminole High route, \$90.00, R. H. Smith, Wilson School route, \$50.00.

Trustees of District No. 2 were authorized to spend not to exceed \$300 to build a school for colored. (Continued On Page Four)

Roosevelt Starts Trip Over Pacific

BALBOA, Canal Zone, July 12.—(A.P.)—President Roosevelt begins today the longest run of his vacation cruise, one over the Pacific to Hawaii. The cruiser Houston late this afternoon will swing into the Pacific and start a 12-day trip which will take Mr. Roosevelt the farthest from home any President has been since Woodrow Wilson went to Versailles. Mr. Roosevelt arose early today for a motor trip through the old city of Panama before lunch on board the Houston honoring President Arias of Panama.

SHOLTZ CUTS STATE LEVY BY 1/2 MILL

Reduction In State Tax Millage Made By Cutting Half Mill From Pensions

JACKSONVILLE, July 12.—(A.P.)—Governor Sholtz today announced a one-half mill reduction in the state tax levy for the 1934-35 fiscal year. The reduction which will bring the state levy down to 6 1/8 mills made by eliminating a half mill from the Confederate pension fund levy.

The Governor attributed the low tax to the fact that Florida had "balanced the state budget for the first time since the boom days." He added that "the state has paid \$100,000 back to the school fund from the general revenue fund. This money was borrowed in 1927. The state has also paid \$500,000 worth of bills inherited when this administration took office. All bills incurred during the past year have been paid and the state is now operating on a pay-as-you-go basis."

He said the cut is "just a step in the right direction. We can confidently expect further reductions during the coming year." It is his hope, the Governor said, that the counties will follow the state's lead and keep their millage as low as possible. The pension fund was cut from 3 1/4 to 3 mills. All other items remain the same as this year. They are, in mills, 16 mill for the State Board of Health, 1 mill for the schools, 3/4 mill for Railroad prison, 1/4 mill for tick eradication, and 3/4 mill for school text books.

Nazis Urge People To Hear Hitler's Speech On Friday

BERLIN, July 12.—(A.P.)—The Nazi government's radio broadcast turned into a town crier, Wednesday to announce over and over again the importance of the speech Chancellor Hitler will make to the Reichstag Friday night and urge every German to listen to it.

This move emphasized the importance attached by the government to the explanation Hitler will give of his suppression of the "Roehm revolt" on June 30 and the events of succeeding days.

At the same time, there were strong indications that a "White Book" reminiscent of World War days when governments pleaded their cases in various volumes—will be issued, probably in time for publication immediately after the speech.

The Reichstag, which is 100 percent Nazi, will meet at 8 P. M. Friday, an unusual hour for the session, but convenient to the general public.

A move by Minister of Economics Kurt Schmitt toward perfecting the country's economic organization along Nazi lines was the only development of major importance today during the political fall preceding the Reichstag meeting.

PLAY ENJOYED

PALATKA, July 12.—More than 55 boys helped inaugurate the FERA recreational program here in their class recently while a score of girls enjoyed both morning and afternoon schedules arranged for their group, according to announcements made by Alton Brown and Miss Francis Yelverton, directors of the respective divisions. Although the turnout was not as large as was expected more than 40 availed themselves of the opportunity to enjoy a free Keno party at the City Gym with Herman Lecks acting as master of ceremonies.

City News Briefs

Yesterday's local weather: High, 88; Low, 73.

Among local persons "on the mend" after a siege with illness are M. D. Tarbell, assistant tax collector, and John Carver, second chair, tonorial expert at Smith's Barber Shop. Mr. Tarbell has been suffering of late with an old ailment. Mr. Carver has been ill with influenza and malaria for over a week.

With the receipt this morning of checks for \$10 from the Texas Co. and the Standard Oil Co., the fund for the farmers' committee which secured the State Farm-ers' Wholesale Market for Sanford, had reached \$330. It was reported at the Chamber of Commerce today.

Three building permits were issued at the City Hall during June, their total value being \$10,075. Compared with last year, when \$14,220 in permits were issued in June, the past month was \$4145 off. Four plumbing and nine electrical permits also were issued last month.

Cash balance of the City of Sanford as of July 7 was \$68,538.24, it was reported at the City Hall today, but this sum was reduced over \$15,000 when checks were ordered sent to the Bondholders' Protective Committee, to Districts and Higgs, and the United Mutual Life Insurance Co. in payment of sums due each.

Slightly more than 38 percent of the 1934 city tax roll assessment had been collected through July 7, City Clerk F. S. Lamson stated today. The total assessment is \$122,919.03, and \$48,933.96 has been collected, leaving \$132,085.07 yet to be secured.

Fire Chief Mac Cleveland reported today that his department responded to but three calls during June, and that no damage was involved. He added that one call took his men outside the city limits in addition to the three mentioned.

Sixteen hundred and ninety-two water meters were in use during June it was reported this morning by Miss Charlotte Smith, water department clerk at the City Hall. Miss Smith added that there are 410 dead services in the city.

In his report for the month of June, John Abraham, chief engineer of the city waterworks plant on French Avenue says that 5900 kilowatt hours of electricity were used in pumping 17,742,000 gallons of water. He added that 757 gallons of fuel oil, 53 pounds of chlorine, 18 gallons of lubricating oil, seven gallons of kerosene and 30 pounds of ammonia also were used.

Fifty seven arrests were made by Chief of Police Roy G. Williams and his men during June, he reported today, arrests which involved 13 different charges, with (Continued On Page Two)

PRISON PHYSICIAN RESIGNS

TALLAHASSEE, Fla., July 12.—Dr. C. B. Whitaker, for several years chief physician at the Railroad state prison, has submitted his resignation to the state cabinet. Dr. Whitaker said he had entered the practice of medicine in Marianna. He left the prison several days ago. A successor has not been appointed. Nathan Mayo, head of the state prison division, said other physicians at the prison would handle the work for the present.

LUMBER LOAD

FORT PIERCE, Fla., July 12.—The S. S. MacIver of the J. M. Webster Company has tied up at the dock of the Indian River Refrigeration Terminal Company to take on a load of lumber for Jamaica.
