

Wright Is Elected President Sanford Baseball Club Of Florida State League

Working Agreement With Chattanooga Almost Ready

W. F. Wright, first street manager of the Sanford baseball club of the Florida State League, was elected president of the club at a meeting held in the Chamber of Commerce building last night. Wright, who has been in charge of the club since its organization last year, was elected by a vote of 10 to 2. The other officers and directors of the club were also elected. Wright will also be on the executive committee. The club also elected a financial committee, composed of W. M. Watson, George McHenry, Bob Chapman, Theo. Pop, Henry Thurston and Bill Anderson. Wright reported to the group that a working agreement with the Chattanooga baseball club is nearly ready. Under this agreement the Chattanooga club will furnish five players to the Sanford club, paying their expenses, and in return Sanford will give Chattanooga first claim on any players who show up well on the team this summer.

Elimination Race Preceding Derby On Track Tonight

Best Out Of First 8 Entrants Are To Be Chosen For Classic

Eight of the 22 dogs which have been selected as possible entrants in the first annual Sanford Florida Greyhound Derby will be featured on April 2, with \$1,000 as added purse, will run tonight in the ninth race at Sanford-Orlando Kennel Club track near Longwood. The race will be the first of its elimination events leading to the Derby, and the entries are Chance Charlie, Skinny Barney, Smokey Kay, Mollie Malone, Miss Way Behind, Lady Traffic, Careless Wager, and Officer Dala. Four of these dogs will be eliminated tonight. All elimination races will be over the 5-16 mile course but the Derby will be over the 7-16 mile distance in which dogs will pass the judge's stand twice before the winner is crowned. Eight dogs selected to run in the feature next Tuesday are Golden Lad, Traffic Chance, Ballyclava, Miss Mark, Ann Hope, Paddy Blue, Newt, and Wild Faunty. Entrants in the third elimination, set for next Thursday, are Flash Past, Ann Will, Hawk's Light, Traffic Sing, Just Wilbur, Maiked Fairy, Ash Tray and Beckfielder. Five of the 22 dogs will run Tuesday night Mar. 21. They are Morvick, Careless Guess, Smokey Kay, Teeny Snowspot, Untamed, Hawkeye Chief, Sand Queen and Wild Maiden. Then will follow a semi-final elimination Thursday night Apr. 1 with the final elimination on Saturday night Apr. 3. Wild Maiden's victory in the ninth last night had the form players raising their eyebrows.

Supreme Court Will Rule Upon State Base Law

TALLAHASSEE, Mar. 19.—(AP)—The Supreme Court was asked yesterday to decide whether a courtman can ship his dog's catch of Florida Mack bass to his home in another state.

A 1938 act halted the sale and shipment of Mack bass but provided that a dog's catch may be carried out of the state as a part of the fisherman's "personal baggage."

F. D. Fulwood of Titon, Georgia, brought the suit on the claim that the Southeastern Express Company had refused to accept a bass in Florida for shipment to his home at Titon, Ga.

The attorney general's office, supporting Fulwood's contention, pointed out that common carriers were prohibited by the act from shipping bass.

Through his attorney, the Georgia man declared that the wording of the act prohibited transporting bass by common carrier only "within the state of Florida," and that a dog's catch could be transported to any other state.

Program Outlined In Aviation Interview

LAKELAND, Mar. 19.—(AP)—A program to create more interest in aviation and to bring together facilities and equipment here as a joint meeting of the State Chamber of Commerce and the Florida Department of American Legion.

Major A. E. McMillan, chief of the State Road Department Aviation Division, outlined the work done by the department during the past five years.

The program adopted provides that the chamber will lend assistance to the expansion of air mail and passenger routes in Florida, join in a campaign to obtain a major air base in the state, carry on a campaign to encourage establishment of aircraft manufacturing plants in the state, continue to co-operate with the State Road Department and encourage sportsmen's and private flying.

Anglers Planning To Enter Bass Contest

ORLANDO, Mar. 19.—A number of local anglers are preparing to win Florida much valuable publicity by entering huge black bass in Field & Stream's national fishing contest, which commences April 1, according to Captain Merrill Mitchell, state president of the Florida Sportsman's Association here today. The captain once won second prize in this angling event with a Florida black bass of 16 1/2 pounds which he caught in Johns Lake which is on the Lake-Orange county line.

Rag Doll Test Gives Farmers Corn Index

CINCINNATI, Mar. 19.—(AP)—Ohio agricultural experts are cautioning farmers against planting seed corn before careful testing.

Severe cold weather has caused much seed corn to deteriorate due to freezing of the moisture content, Carl R. Billie, Hamilton county agricultural agent, says farmers may find "rag doll" fields unless they conduct careful tests. He adds, corn that tested as rag doll examination before planting may have been found to test only 25 percent now.

Eight Million Tons Of Soil Every Day

KANSAS CITY, Mo., 19.—(AP)—Eight million tons of earth are carried away every day by the steady erosion of soil, says Dr. L. C. Cline, professor of soil conservation at the University of Missouri, Columbia.

The erosion, he says, is a constant factor in the soil, and the amount of soil carried away every day is about equal to the amount of soil that is added to the earth by weathering of rocks.

The Johnstown Flood

Heavy floods in Pennsylvania, Ohio, and West Virginia have already cost the lives of more than a hundred persons and caused property damage running into hundreds of millions of dollars, and which have resulted in a special drive for Red Cross funds to relieve the suffering of the victims, recall the famous Johnstown flood of 1889 in which more than two thousand lives were lost.

Johnstown, a city in western Pennsylvania, situated at the confluence of the Stony Creek and Conemaugh River, was at that time a mere babe in arms. It was the same year of the flood that the city was incorporated, but it was the center of a teeming agricultural section in which thousands of families resided, all of whom were at the mercy of flood waters in the valley.

At about this same time of year, melting snows and unusually heavy rains had flooded Conemaugh Lake and brought dangerous pressure to bear against the dam which had been constructed across the South Fork, a branch of the Conemaugh River, at a point about 12 miles east of the city. Almost without warning, this dam gave way one night and released the entire lake, already flooded as it was, and containing water, 2 1/2 miles long and 1 1/2 miles wide, at places more than 100 feet deep.

The entire valley was quickly engulfed. Farm houses were completely inundated. Giant trees were washed away and scarcely a building or a shrub was left standing in the whole valley. There was virtually no place that the excited populace could go to escape the raging waters. Hundreds of them were drowned like rats in a trap, and only those escaped who found some boat or floating debris to cling to until they could be rescued.

However, the tragedy seemed to be the turning point in the civic life of Johnstown. Though more than ten million dollars' worth of damage was caused by the flood, it did promptly pour in from all parts of the country. The town, which up to that time had remained a country village, was immediately rebuilt and expanded. The 1900 census shows a population of 35,936, and by 1920 it had grown to 71,476.

Meanwhile, the foremost engineers of the country had come in and endeavored to make the valley flood proof. Gigantic dams were built, the rivers dredged, and all that engineering science could do to prevent the re-occurrence of disaster was finally consummated at enormous expense. And yet the rivers are raging again. A hundred million dollars' worth of damage is done in this one valley alone, and more than forty lives lost. There is fear that one of the strongest dams may give way. The elements are hard to conquer.

Counting The Duck Population

Completion of the first serious and accurate census of wild ducks reveals that the duck population of the North American continent today is 65,000,000. This figure was reached after long and painstaking examination of reports from 2,000 volunteer census takers employed by the Country Home, a national farm magazine. The number is about half what it ought to be, according to the alarmed wild life experts who have supervised the undertaking.

The count was made not as a stunt, but for the serious purpose of determining how many ducks there were, in order to create proper legislation and otherwise provide for conservation. The report of the census committee says: "Beset by enemies, animal and human, hunted legally and by poachers the length of the North American continent, the danger of the wild duck becoming extinct is shown to be very real and immediate."

Duck counting is a strange business. The census takers who volunteered for this job achieved their totals by following the ducks all the way to their refuges in the north. Airplanes, canoes, punts and floating blinds were employed. More than 2,000 Americans and Canadians, most of them farmers, helped with the counting. The Canadian Mounted Police enlisted and so did game wardens and fire rangers.

"Airplanes were used in this waterfowl census for the first time. They flew over 14,000 miles, covering a vast area of the wild Northwest territory of Canada. All told, close to a million square miles were tallied for their ducks, including the states of Minnesota, North and South Dakota, the provinces of Alberta, Saskatchewan and Manitoba. "So far as the ducks are concerned this area comprises the significant mileage, for here come each spring and summer, virtually all American ducks to nest and breed and raise their young."

SANFORD TWENTY YEARS AGO

The marriage of Miss Mary A. Clark to Hon. Gordon Smith of Orlando on Thursday, Mar. 18, 1918, was a surprise to many friends of the couple in this city and in this section. Mrs. Smith is the youngest daughter of the Hon. and Mrs. J. A. Clark of Orlando and has a large circle of friends in the county where she spent her girlhood days and is a graduate of Rollins College, Class of 1910. Mr. Smith numbers his friends by his acquaintances in this county and in the state. As conductor on the A. C. L. for many years, as postmaster of Orlando, and as a progressive and most enterprising citizen of the county "B. O." as he is known far and wide has the confidence and esteem of everyone.

Mr. and Mrs. E. P. Morse announce the birth of a son, Edward Thomson, on Mar. 1.

Mr. and Mrs. G. L. Loecherer moved over to Daytona on Sunday and were the guests of friends at the Ridgewood.

The many friends of Dr. Ralph Stevens are glad to see him back in Sanford and to know that he will open an office in the People's Bank building and practice medicine. Ralph has been away from home for some time in a hospital and for the last few months has been suffering from a severe case of neuritis.

CROW-EATING, COMES TO GEORGIA

Florida citrus growers are paying a "tremendous penalty" to the railroads on such fruit as is being shipped to inland destinations—for example, the Middle West—Curtis Robinson, executive vice president of the Growers & Shippers League of Florida, points out here today in connection with a freight rate survey on citrus, just completed.

The cost of shipping Florida's fruit to such a market as New York is as much less than to such markets as Cleveland, Chicago or Detroit that these "inland" markets are being neglected (and are buying less Florida fruit), while the movement of Florida citrus to the big eastern centers continues at an increase in volume, the analysis shows.

"The need for lower all-rail rates on citrus from Florida to inland markets is being emphasized more every month, as shippers recognize the tremendous penalty Florida is paying to the rail carriers on shipments to these inland destinations—in an effort on the part of shippers to make an equitable distribution of Florida's citrus crop," Mr. Robinson comments.

"Florida growers and shippers have suffered a penalty in F. O. B. returns of approximately 24c on every box sold in western inland, auctions—and this is equivalent to 20c per car," the league executive said while analyzing shipments made since Dec. 12, 1935. "This is the penalty paid when comparison is made with what the returns would have been had the freight rates to these inland destinations been made on a relative basis with the reduced truck-boat 'competitive' rates now in effect to New York to meet truck-boat competition," he said.

The Robinson analysis showed that the existing "unhealthy" conditions exist:

Liberia's New President Picks American Experts To Speed Reform Plans

MONROVIA, Liberia, Mar. 20.—(AP)—Proved to give a reform administration to the 2,000,000 inhabitants of Africa's only native republic, Edwin Barclay, former minister to Washington, has just been inaugurated as president for an eight-year term.

Conceived more than a century ago as "a sovereign refuge" for freed American slaves, Liberia is a land of sleepy inertia, now looking forward to progress that will wipe out the stigma attached to charges of inefficiency and corruption, filed before the League of Nations.

The Barclay administration has promised a school in every village, no matter how small, and new opportunities for citizens to sell the products of the country. Foreign specialists in sanitation, education, agriculture, administration and military affairs have been put to work organizing a three-year program for interior development.

As proof of "reconciliation" with the United States, President Barclay selected three of these specialists in America. They are: Maxwell Bacon, administrative specialist, will deal with hinterland affairs. He has had wide experience with aborigine groups in Latin America.

Prof. Kensington L. Embree, educator, has been made president of the College of West Africa here in Monrovia.

Capt. William D. Nabors, military specialist, had his training with the New Jersey National Guard. He won credit as an officer of the Liberian frontier force under a previous administration. The foreign specialists were selected in accordance with a plan suggested by the League of Nations' active assistance on the ground that it would undermine the republic's sovereignty, but welcomed the idea of bringing in foreign experts to carry out the vigorous reforms outlined by President Barclay.

One of the early acts of President Barclay after his inauguration was to open Liberia's first national exposition of agriculture and industry. The exposition grounds covered 11 acres on the outskirts of Monrovia.

More than 50,000 natives from the interior, including 400 chiefs, attended the fair and on the last day the grounds were turned over to the tribal dances and horse races.

Smoke drifted from both entrances of the mine. Officials said it probably would be two weeks before the smoke cleared sufficiently to permit them to enter the mine to determine the extent of the damage.

When 17-year-old John Douglas Fitzman was fired \$15 for trying to place a dynamite cap on a mine he was told an American expert had done it to prove his competence.

 PORT SAUNDERS

High Rates Paid On Shipments To Interior Markets

Carrying Charge To Coastal Points Is Considerably Lower

ORLANDO, Mar. 20.—Florida's citrus growers are paying a "tremendous penalty" to the railroads on such fruit as is being shipped to inland destinations—for example, the Middle West—Curtis Robinson, executive vice president of the Growers & Shippers League of Florida, points out here today in connection with a freight rate survey on citrus, just completed.

The cost of shipping Florida's fruit to such a market as New York is as much less than to such markets as Cleveland, Chicago or Detroit that these "inland" markets are being neglected (and are buying less Florida fruit), while the movement of Florida citrus to the big eastern centers continues at an increase in volume, the analysis shows.

"The need for lower all-rail rates on citrus from Florida to inland markets is being emphasized more every month, as shippers recognize the tremendous penalty Florida is paying to the rail carriers on shipments to these inland destinations—in an effort on the part of shippers to make an equitable distribution of Florida's citrus crop," Mr. Robinson comments.

"Florida growers and shippers have suffered a penalty in F. O. B. returns of approximately 24c on every box sold in western inland, auctions—and this is equivalent to 20c per car," the league executive said while analyzing shipments made since Dec. 12, 1935.

"This is the penalty paid when comparison is made with what the returns would have been had the freight rates to these inland destinations been made on a relative basis with the reduced truck-boat 'competitive' rates now in effect to New York to meet truck-boat competition," he said.

The Robinson analysis showed that the existing "unhealthy" conditions exist:

Cities	Ship'd Under Ventilation Refrigeration (Per Box)	Pen. Under Pen. Refrigeration
Pittsburgh	26c	30c
Buffalo	33c	37c

1. This season, through February, 64 1/2 percent of Flor-

54% citrus fruit was marketed in territory containing only 30 percent of the population of the United States.

2. Only 21 percent of the citrus from Florida was marketed in territory containing 81 percent of the nation's population.

3. Prior to Dec. 12, 1935 the percentage of all-rail distribution of citrus to the "West" was 52 percent of the total, but during the month of February, 1936 (for example) the western movement was only 31 percent of the total. This is a decline of 21 percent—and the loss of business there is the result of too high freight rates, as compared with rates to the East.

4. The distribution of fruit from Florida to the western states which contain 51 percent of the U. S. population has declined 22 percent since Dec. 12, 1935.

5. Distribution of fruit by rail to eastern territory (containing 30 percent of the U. S. population) has increased 19 percent since Dec. 12, 1935.

The following table was prepared by Mr. Robinson to illustrate the penalty now paid (that Florida fruitmen now pay in the respective markets (shown below) over the charge for the same service all-rail to New York. The conclusions are reached by assuming that citrus fruit were sold at \$3 per box in each of the markets (carload of 400 boxes) for the delivered amount of \$1,200 per car of fruit:

Social Calendar

MONDAY
Monthly business and social meeting of the Truth Seekers' Club of the First Methodist Church will take place at 3:00 P. M. at the church annex with Mrs. W. I. Hughey, Mrs. W. L. Clark, Mrs. R. M. Mason, Mrs. Byron Squires, and Mrs. J. F. Riser as hostesses.

Dr. Neuman of the Phytic Science Church will give a message service at 8:00 P. M. at the Woman's Club Building on Oak Avenue. The public is invited.

TUESDAY
Mrs. C. R. Mason will be at the Girl Scout Little House from 11:00 A. M. until noon for conferences.

Miss Ruth Williams Weds C. Melsted

Mr. and Mrs. W. O. Stansell of this city today announced the marriage of their daughter, Miss Ruth Williams, to Clarence Melsted of Cleveland. The ceremony was performed Thursday in Tavares.

Mrs. Melsted has been living in Sanford for the past 10 years and was graduated from Seminole High School with the class of 1935. Since then she has been working at the Court House with the National Youth Administration.

Mr. Melsted is the son of Mr. and Mrs. J. E. Melsted of Oklawaha. He was graduated from Seminole High School in 1935 and lived here for a short time with his sister, Mrs. J. C. Faircloth.

The couple are now with the bride's parents but plan to leave their home for Cleveland to make their home. Mr. Melsted is manager of the Bannawee Grocery store in that city.

Mrs. W. M. Scott Addresses Students

Mrs. W. M. Scott gave a talk on art and exhibited several of her paintings at a special program given Thursday morning during chapel period at Seminole High School with the Seminole High School P. T. A. as sponsor. Special music was rendered by Mrs. R. L. Glenn.

The program opened with a flag salute by S. J. Nix, Jr., William Goetsch, and John Morris and Scripture and prayer by Professor G. B. McKay. Miss Clifford Shindler directed the music and introduced Mrs. Scott and Mrs. Glenn.

Karlisle Householder presented Edwin Bonlake, who gave a silver cup to Billy Zechry, president of the Junior Class, the prize which the class won in a recent "Sally" contest. It was announced that Mrs. Scott who conducted the contest among other classes were Doris Rocky, Caroline Hill, and Doris Walker.

R. E. Kipp announced that the Senior Class had the largest attendance at the Senior play, "The King Rides By," and Mrs. F. E. Rounklat, in behalf of the Senior mothers, gave the attendance prizes to Roy Wright, president of the class.

Mr. Kipp also stated that Coach Leonard McClucas was recently elected secretary and treasurer of the Coast Association of the State of Florida and was a referee at the state tournament in Leesburg.

Mrs. Glenn sang, "Old-Fashioned Garden," and "Praise Moon," with accompaniment by Miss Mildred Nix. Mrs. Scott closed her talk by reading a poem, "Lovely Florida," written by Frank Benjamin, a member of the Senior Class.

Special music was rendered by the High School orchestra, directed by T. M. Dollison.

Personals

Friends of Miss Adelaide Higgins will regret to learn that she is ill at her home on West Tenth Street.

Miss Dorothy Thurston is planning to return Sunday to Washington, D. C. after spending a week here with her parents.

Mrs. W. F. Garner, Miss Sadie Garner, and Miss Helen Garner left today for Hollywood to spend the week-end with Mrs. Garner's daughter, Mrs. Alvie Moore.

Friends of Mrs. W. C. Muse will be glad to learn that she is able to be up after a three weeks' illness at her home on West First Street.

Mrs. Rodney Ashdown has returned from Jacksonville where she has been spending several weeks. She and Mr. Ashdown are residing at 311 Park Avenue.

The Rev. and Mrs. Stewart H. Long of Murphy, N. C. announce the birth of a son, Stewart Hansen, on Wednesday, Mar. 18. Mr. Long is the son of Mr. and Mrs. J. O. Long of this city.

Mrs. Fred Pepe is in Oklawaha where she was called by the critical illness of her father, W. M. Marshall, at the Orange General Hospital. Mr. Marshall is a brother-in-law of Mrs. Paul Radford of this city.

Miss Lillian Branan served as one of the violinists at the concert given Thursday evening in Winter Park by the Central Florida Symphony Orchestra. She was accompanied to Winter Park by her mother, Mrs. Arthur Branan, and Mrs. J. N. Tenhet.

East Side Primary Has Regular Meeting

About 35 members attended the regular meeting of the East Side Primary P. T. A. held Thursday afternoon at the school auditorium with Mrs. E. L. Peck presiding. Mrs. E. D. Brownlee was main speaker for the afternoon.

Plans were made for the Spring play to be given on May 7 by the pupils of the school. Plans were also discussed for an entertainment during April.

Mrs. A. R. Meriwether gave a report of the County Council meeting held in February and Mrs. C. R. Dawson and Mrs. E. D. Rolston were appointed as delegates to the next County Council meeting in Geneva, Mar. 31.

Mrs. Theo Miller, Mrs. W. F. Ravenel, and Miss Dorothy Stokes were appointed as a nominating committee for 1936-37 officers. Attendance prize for the day went to Miss Elizabeth Adams' Second Grade.

Following the business session Mrs. Brownlee gave her talk, "The Friendly Home," in which she stressed the importance of co-operation, love, religion, and harmony in the home. The keynote was, "He that ruleth his spirit is greater than he who taketh a city."

Pipe Organ Club Honors Two Visitors

Honoring Mrs. R. A. Winston of Washington, D. C., and Mrs. J. F. Hawkins of Mocksville, N. C., the members of the former Pipe Organ Club of the First Baptist Church entertained last night at the home of Mrs. H. W. Rucker in San Lanta. Mrs. Winston and Mrs. Hawkins are former members of the club.

A covered dish supper was served from the dining room table which was overlaid with an Irish lace dinner cloth and centered with a bouquet of mixed garden flowers. The honor guests received corsages from the club and bouquets of flowers from Mrs. J. H. Colclough and Mrs. Roy R. Pipkin.

Following dinner an informal meeting was conducted by Mrs. Francis E. Bolt, former president. The guests were entertained by accounts of recent trips made by the members.

Those present were: Mrs. R. A. Winston and Mrs. J. F. Hawkins, honor guests, Mrs. Francis E. Bolt, Mrs. S. J. Nix, Mrs. J. C. Mitchell, Mrs. Roy R. Pipkin, Mrs. Irah Hall, Mrs. Volie Williams, Mrs. C. P. Henderson, Mrs. Kent Rosseter, Mrs. R. O. Meriwether, Mrs. George W. Huff, Mrs. Basil C. Moore, Mrs. R. F. Cooper, Mrs. J. H. Colclough, Mrs. James G. Shannon, Mrs. G. S. Selman, Mrs. W. M. Scott, and Dr. and Mrs. H. W. Rucker.

Master Walter Beal Celebrates Birthday

Mrs. Lourine Beal and Mrs. Lillian Vekary entertained with a birthday party Wednesday afternoon in honor of Walter Beal who celebrated his ninth birthday anniversary at that time. Games and contests were enjoyed and a prize was awarded to Bobby Shafter.

Late in the afternoon refreshments were served in the dining room which was decorated to accentuate a color scheme of green and white. Small rubber balls were presented to the guests as mementoes of the occasion. Mrs. Lillie Fraser assisted the hostesses in serving.

Those present were: Walter Beal, honor guest, Billy Wilkin, Marion Baurin, Henry Tamm, Gerald Lousing, Miller Williams, Al and Jimmy Riney, Stanley and Adrian Stacey, Clyde Mills, Frank Johnson, Walter Steele, and Shirley Fraser.

Cabaret Dinner Is Planned By Club

Plans are being forward for the cabaret dinner to be given Thursday evening, Mar. 20, at the Sanford Women's Club by the board of managers for the benefit of the building fund. Reservations are being made at the club house, telephone 792.

During the dinner amateur entertainment will be featured with Mrs. Frances A. Hickson will present song and dance numbers from the recent Junior High School Minstrel.

Following dinner the guests will witness a program by the Griswold Duo, professional entertainers from out-of-town. The Duo is composed of Jessilyn Griswold who does dialect, mimicry, and presents "homespun" philosophy in the manner of the late Will Rogers; and Joyce Griswold, business and accompanist, who creates an atmosphere for the odd characters that her versatile sister causes to unnerve forth in life-like reality.

At The Mayfair

J. P. Nettleton returned this morning to Tampa after spending a few days at the Mayfair, Overnight guests at the hotel

Rogers' Films Renew Dixie's Old Glory

Will Rogers seems to have taken over the job of glorifying old Dixie.

In the third of his films which have their locale in the old south land, "Steamboat Round the Bend," Rogers plays a return engagement at the Ritz tonight.

"Judge Priest," one of the comedian's most popular pictures, and "County Chairman" were both stories of Dixie. And his next picture, "In Old Kentucky," will be a story of the "blue grass" country.

Irvin S. Cobb and Anne Shirley support Rogers in "Steamboat Round the Bend."

Orlando Ladies' Aid Society Meets Here

Members of the Ladies' Aid Society from the First Lutheran Church of Orlando motored to Sanford Thursday afternoon to attend the March birthday social given by Mrs. Peter Thurston and Mrs. George Herbert at the home of Mrs. Thurston on the West Side.

Singing and games were enjoyed and prize winners were Mrs. A. Hanson, Mrs. Don Park, Mrs. Irwin Fritz, Mrs. Earl, Mrs. F. Jenkins, Mrs. Hooker, Mrs. E. Monroe, Miss Marion Zurichle, and Miss Noark. Refreshments were served at the tea hour.

Those attending from Orlando were: the Rev. and Mrs. George Trapp and son, Mrs. A. Huppel, Mrs. G. Gardner, Mrs. M. Kasper, Mrs. M. Kusel, Mrs. Wise, Mrs. A. Hewitt, Mrs. M. Lamos, Mrs. Buckman, Mrs. W. Kasper, Mrs. J. Martzoff, Mrs. E. Knapp, Mrs. Steinbach, Mrs. Knapp, Mrs. E. Davenport, Mrs. D. Tannes, Miss Joan Davenport, Miss Joy Barz, and Miss Noark.

Guests from Sanford were: Mrs. J. Senkarik, Mrs. George Zur, Heide, Mrs. Louise Holly, Mrs. E. John, and Edward Senkarik.

Applications For Loans Made At Housing Shows

WASHINGTON, Mar. 20.—A preliminary summary of results achieved at the first nine National Home Shows indicates a total of \$14,061,666 worth of business done under the Federal Housing Administration program. This survey includes reports of shows at Baltimore, Houston, Miami, Fort Worth, Kansas City, Detroit, San Bernardino, Philadelphia, and the first four days of the Louisville exhibit.

The total attendance at these shows was reported at 747,072, with 214,000 persons attending the Philadelphia exposition. Sales in the value of \$91,643 were reported. This did not include the Detroit show, which had not made a report at the time the summary was written, and no report had been received from Louisville.

Applications received under the Federal Housing Administration's single mortgage system totaled \$18,000. This figure did not include the report of business done during the Houston exhibit nor all of the Louisville show. Modernization loans applied for, exclusive of the Houston and Louisville business, totaled \$838,512.

U. S. Jaunt Planned By British Autoists

LONDON, Mar. 20 (AP)—An "overseas rally" of British motorists and their cars, involving a 2,000-mile tour of the United States and Canada, has been announced for this summer by one of the leading English motor clubs.

The party will embark July 20 on the new liner Queen Mary, with official receptions scheduled in Washington, Pittsburgh and Detroit.

Among advertised attractions of the trip are:

A "triumphant entry" to New York, escorted by motorcycle police up Broadway.

Gasoline at approximately 15 cents a gallon. It costs 37 cents over here.

Weather insurance, with a guarantee of \$15 a day for rain weather.

Shriners To Gather At Palatka Sunday

PALATKA, Mar. 20.—More than 200 members of Morocco Temple, Jacksonville, headed by Potentate George Blume and including all uniformed bodies of the organization, are expected here in a motored Sunday in participation in the celebration of the "All-Florida Shrine Day," which will be held at the Riva Gardens.

In addition to Morocco Temple the Daytona Beach Shrine Club is planning to attend the affair in a body and their patrol will compete with the Jacksonville patrol in an exhibition drill at the Avalea Bowl slated to be held prior to 3 o'clock when a basketball game between the Louisville Colonels and Nashville Vols will get under way.

Model illustrated is K-30

If you've waited until now—wait no longer. Come in to our store today and see the 1936 Kelvinator. We assure you that never before have we seen an electric refrigerator which in one year has stepped out so far ahead.

Visible Cold—Kelvinator gives you a Built-In Thermometer so you can see how cold it is... Visible Economy—Kelvinator gives you in advance a signed Certificate of an amazingly Low Cost of Operation... Visible Protection—Kelvinator gives you a Five-Year Protection Plan.

In addition—a rubber grid in every ice tray of this most beautiful, most convenient, most reliable Kelvinator ever built.

See it for yourself. You'll be glad to find out it's no higher in price than ordinary refrigerators, and that buying terms are more than even.

Mrs. Rucker Gives Bridge Luncheon

Mrs. H. W. Rucker entertained the members of her bridge club with a luncheon and bridge Tuesday afternoon at her home in San Lanta. A color scheme of yellow and white was used for party decorations and appointments.

Immediately after the arrival of the guests luncheon was served in the dining room where the table was set with white crocheted mats and centered with a bowl of yellow calendula, white snap dragons, and anemions.

Mrs. J. M. Stinescoper won high score prize, white linen handkerchief, and Mrs. J. F. Hawkins of Mocksville, N. C. was the recipient of a sports handkerchief, a gift from her hostess.

Those present were: Mrs. J. N. Tenhart, Mrs. J. L. Ingley, Mrs. J. M. Stinescoper, Mrs. Arthur Branan, Mrs. Margaret Loucks, Mrs. C. W. Baker, Mrs. J. F. Hawkins, and Mrs. H. W. Rucker.

Educational Group Meets At School

The Association of Childhood Education held its regular meeting Thursday evening at the South Side Primary School and continued its study of art by taking up water colors.

Vases, lanterns, and landscapes were painted. Those taking part on the program were Mrs. S. J. Nix, Miss Zillah Welsh, Mrs. Irene Watt, and Miss Westphal.

A short business session was held when members discussed sending a delegate to the national convention in New York City in April. It was announced that the next meeting will be in the form of a banquet at the Mayfair Hotel.

Mer Business and Indicated Incorporators

Charters Issued At Any Other Time In Many Years

MEMPHIS, Mar. 20.—Pick-up of business has been according to Secretary M. A. Gray, in the formation of more corporations in than at any time in a year, and in a material way in capital stock tax col-

lection division in the presents an excellent barometer that shows well on the rise," said Gray, pointing to the volume of incorporation accomplished by his of-

the only state cabinet unopposed for re-election. The fiscal year ending last year collections from the stock tax totalled \$243,000, Gray said, while for the first months of the current year, collections already amounted to \$215,000. This, he said, is in excess of the collections of the previous year.

corporations, he continued, shaping their capital stock structure, especially those firms during Florida boom days was customary to deal in figures. Gray said the corporation today has a capital stock structure

CAN HE PITCH LIKE DAD?

"Just pitch like your dad, son!" That was the advice of Connie Mack (right) to Walter Johnson, Jr. (left), 21, when the son of the "Big Train" reported to the veteran manager of the Philadelphia Athletics for a try-out at the training camp in Fort Myers, Fla. (Associated Press Photo)

Story Of Quick Called Symbolic Of The Marines

NEW ORLEANS, Mar. 20.—The story of Sergeant John H. Quick, of the U. S. Marine Corps, was related today by Lieut. Edward A. Robbins, U. S. M. C., in charge of Marine Corps recruiting here, as a symbolic story of the nation's sea-going soldiers who for 150 years have been in the front lines of national defense, either in peace-time routine or in the heat of battle.

Quick, one of the Marine Corps heroes, according to Robbins, was a sergeant of Marines during the Spanish American War. At the time the Americans had driven Spanish outposts from their position and had stopped for rest in the shadow of the Cuzco hills.

Quick was awarded a medal of honor. Later, this heroic Marine won honors in the Philippines, in Mexico and elsewhere. Twenty years later, he won the Distinguished Service Cross in France and also the Navy Cross for assisting in taking a truck load of ammunition from a road that was swept by enemy shells.

When Quick died in 1925, he left behind him an imperishable record in the annals of the U. S. Marine Corps. Lieut. Robbins said, "Something had to be done quickly to inform the Dolphin it

was firing on American troops." Quick volunteered to signal the Dolphin. Exposed to bullets of the Spaniards, he signalled the position of the Marines three times, while enemy guns clipped branches overhead and splashed mud and sand about him. Eventually, the Dolphin saw the signals and corrected its fire in time to save the lives of the Marines.

Quick was awarded a medal of honor. Later, this heroic Marine won honors in the Philippines, in Mexico and elsewhere. Twenty years later, he won the Distinguished Service Cross in France and also the Navy Cross for assisting in taking a truck load of ammunition from a road that was swept by enemy shells.

Washington-Florida Short Route Officer Visitor In Sanford

Lester Ross, secretary of the chamber of commerce of Wilmington, N. C. and secretary of the Washington-Florida Short Route Association, Inc., was in the city this week, a guest of the Sem-

inoles County Chamber of Commerce. He is making a tour of Florida visiting the principal towns and cities in the interest of promoting an extensive campaign directing tourists as to the shortest automobile route North.

The Washington-Florida Short Route Association, Inc., was organized and is sponsored by the Chambers of Commerce and Boards of Trade in several towns and cities in Virginia, North and South Carolina. Mr. Ross said that the data and statistics used in their maps and other forms of advertising are authentic and were obtained from official sources. For the Northbound trip via this route the traffic is directed to follow US 17 from Sanford to Waltherboro, N. C., then follow US 15 to Summer-ton, S. C., then follow US 301 to Petersburg, Va., and from there US 1 to New York and points North.

Mr. Ross further said that although this entire route is paved, and there are no toll bridges and no ferries, the route through Virginia, North and South Carolina is being greatly improved as a result of work being done by the highway commissions in those states in a program which includes widening, grade-crossing elimination, etc.

ularity of the route, says Mr. Ross, is explained by the in past two years.

Single Mortgage System Adopted Throughout U.S.

Radical Changes in Lending Practice Noted in Country

WASHINGTON, Mar. 20.—It has taken the nation's mortgage-lending business only a little more than a year to undergo a radical change in character and to adopt principles of practice that make for long-range security and safety both to lender and borrower.

A survey of the business today,

according to officials of the Federal Housing Administration, reveals the interesting fact that the amortized single mortgage based on a high percentage of a correctly estimated appraised value has gained almost universal adoption in this country.

While the long-term amortized mortgage actually was not introduced by the National Housing Act, the law at least served as the vehicle on which it has ridden to nationwide acceptance by industrial leaders whether they operate with the additional protection of Federal Housing Administration insurance or not, officials said.

Use of this type of mortgage formerly was confined largely to certain sections and to certain lending agencies, such as the

building and loan associations as well as a score of years ago held to the principle that this type of mortgage was sound.

Among the many advantages which develop and grow out of standardized practices is the elimination to a considerable degree of dangerous competition among lenders which might result in over-lending on real property and react against the quality of the mortgages as an investment, according to Frederick M. Babcock, chief of the underwriting section of the Federal Housing Administration.

DEMPSEY'S BABY UNDER GUARD

Jack Dempsey's 19-month old daughter, Joan Hannah, was placed under heavy guard at Atlantic City, N. J. after the former heavyweight champion was warned of a purported plot to kidnap her. Here's a recent picture of Joan with her daddy and mother, the former Hannah Williams of the stage. (Associated Press Photo)

stances, such as meats, may at the termination of the chemical transformations involved in metabolism leave an acid residue.

But behind all of these considerations stands the fact that acids have their own role to play in human physiology, no less important than alkalies. One can indeed suffer from alkalosis (the result of excess alkalies) as from acidosis.

Unless one is willing to study thoroughly and completely the intricate subject of physiologic chemistry, one had better leave the acid-alkali problem alone.

If one's diet includes a variety of foods, such as milk and milk products, vegetables, fruits and meats, one need not be concerned with acids or alkalies.

THE CANCER PROBLEM
Cancer has ceased to be an intractable mystery and is being fought longer far than it has in the past. The W. E. C. G. C., director of the Imperial Cancer Research Fund, England. An abstract of his review of progress made in cancer study follows:

The pessimism with which both public and medical profession viewed the cancer problem at the beginning of the century can hardly be exaggerated today. The extreme confusion of thought in this field warranted much of the pessimism. Thirty years ago it was thought by many that cancer was a disease limited to man and that it occurred only in civilized communities. The opinion was widespread that it still is, in a measure even today, that cancer is increasing rapidly.

Talk was common of cancer families and cancer houses. Almost everything was blamed for it. Ecologic formations, diet, climate, diet and dwelling practices, trees and rivers were suspected of bearing a causative relation to cancer.

Cancer was thought by some to be infectious and even contagious. "Cancer germs" were "discovered" and re-discovered, time and again. Many theories were propounded to explain the origin of cancer, and because of their number and the flimsy basis in which they rested they added to confusion rather than understanding.

The break in this train of confusion came with the realization that cancer is not "a disease of civilized man". First veterinary surgeons observed it in dogs and horses.

Later it was shown that cancer is to be found in rats and that tumors of one rat can be transmitted to other rats by the transplantation of the cancerous tissue. Human cancer, however, could not be propagated in animals, nor could the cancer of one species of
