## U.S. Helicopter Rescues Crewmen

# Iranian Speedboats Attack Cargo Vessel In Gulf

**By JOHN PHELPS**  
MANAMA, Bahrain (UPI) — Iranian speedboats attacked a sulfur-laden Maldivian cargo vessel in the southern Persian Gulf today and a U.S. helicopter rescued crewmen from the deck of the blazing ship, shipping officials said.

Seven hours later the Iranian speedboats launched a second attack on the burning, crewless

vessel for a second time and fired across the nose of a CBS News helicopter flying near the ship to record the attack.

The reported American rescue operation, which could not be immediately confirmed by the Navy, was the second by U.S. forces in the gulf in less than a week.

On Saturday a U.S. Navy helicopter took part in the dra-

matic rescue of 40 crewmen from a Cypriot-registered tanker that was set ablaze by Iranian gunboats.

That rescue was the most significant action taken by American forces in the gulf to protect a merchant vessel flying a foreign flag since the U.S. role in the gulf escalated in July.

Iranian gunboats attacked the Maldivian-registered cargo ship

Island Transporter at 4:30 a.m. as it was steaming out of the Persian Gulf laden with sulphur taken on in Saudi Arabia, a supporter of Iraq in the war.

The gunboats sent several rocket-propelled grenades streaking through the early-morning sky into the crew's quarters, igniting a severe fire that threatened to spread to the cargo and release toxic fumes,

shipping officials said.

The USS Chandler responded to the Island Transporter's plea for assistance and dispatched a helicopter that snatched 19 crewmen from the deck of the blazing ship, according to shipping officials who spoke on condition they not be identified.

The helicopter took the crewmen to the Chandler, a guided missile destroyer that

usually patrols with at least one SH-2 Lampa surveillance chopper on deck.

The other eight crewmen from the stricken, Bombay-bound vessel were taken aboard the firefighting tug Mark I, shipping officials said.

They were later joined by the crewmen taken aboard the Chandler and no crewmen were **See Iran, Page 12A**

## Will Save Sanford Plaza

# Expressway Design Change Proposed

**By Brad Church**  
Herald Staff Writer

A possible redesign of the interchange of the Seminole County Expressway and Highway 17-92 to save Sanford Plaza is two or three months away, the expressway authority was told Wednesday.

A proposed new design for the interchange was to be presented to the county expressway authority Wednesday. However, Gerald Brinton, the authority's executive director, said the authority's consultants want to wait until new maps are available, and environmental and citizen advisory committees have a chance to review the new design before presenting it to the authority.

New aerial maps of the expressway route, showing the area in greater detail, aren't available yet, he said.

Last month Brinton brought a proposal from the Greater Sanford Chamber of Commerce Roads and Bridges committee to the authority. The proposal was to widen the loop which will provide access between 17-92 and the expressway, so that it passes behind the shopping plaza instead of through it, as proposed now.

One concern of the consulting team is that the redesign would eliminate the access to the plaza

from State Street which would involve compensating the plaza, which might affect the cost effectiveness of the alternate plan, Brinton said. However, he said the consultants still consider the redesign feasible.

Authority member Bill Kirchhoff asked if the consultants could also look at the possibility of redesigning the interchange on the west side of the highway to save Zayre's Plaza. Brinton said the consultants have been instructed to look at the entire interchange for possible changes which might mean less cost and fewer properties taken.

Brinton also told the commission that all 31 properties needed for the half-mile stretch of the expressway from the Orange County line to Highway 426 have been acquired, 20 by negotiation and 11 by condemnation. A construction schedule for that portion of the project is expected to be decided within a week.

Authority Chairman Fred Streetman said a request for state funds for the expressway cost had been presented to the Florida Association of Expressway Authorities. The association will combine requests for all the authorities and present it to the state legislature next spring. The requests are for funds from the state's toll road revolving fund.

## Apartment Project Approval Sought Tonight

**By Nancy Simmons**  
Herald Staff Writer

Representatives of Sanford Arms, a townhouse apartment complex to be constructed in Sanford, will ask Planning and Zoning commissioners to extend approval tonight on the site plan for that complex for another six months.

Construction of Sanford Arms is slated to begin in early 1988, according to Joseph Kantor, president of Weacott-Invo Development, Inc., who is developing the complex. The complex encompasses 10 acres in the 2540 Hartwell Ave. area, a multiple-family zone (MR-2), and will contain 140 apartment units, including facilities such as a club house and swimming pool, Kantor said. The cost of the project is estimated at \$5 million.

The complex will be completed within a year, Kantor added.

A public hearing will be conducted to consider a site plan for Enaley Corporation, a paving contractor located at 408 Holy Ave. The site plan was tabled at the com-

mission's Dec. 3 meeting, to give the corporation time to resolve a technical difficulty regarding storm drainage.

At that meeting Mack Lazenby, who gave a slide presentation of the area, told commissioners that Enaley could put the drainage anywhere the city preferred, but that Enaley had planned on utilizing about 75 feet of an alley. Additional runoff would be handled by a retention pond.

Engineering and Planning Director Bill Simmons objected to that plan saying that putting stormwater into the alley would increase the stormwater flow, and possibly create an erosion problem due to the slope of the alley. Simmons also noted that an inoperative storm drain system creates a second problem by running down the alley, that fire hydrant distance has to be considered, and that one additional fire hydrant is needed. He also told Enaley representatives they need an arbor permit, and that a future building on the site is not approved at this time.

Lazenby stated that the future storage building is a shade structure to get the equipment out of the weather and onto a concrete surface.

A request to rezone property at 2524 S. Palmetto Ave., from restricted commercial (RC-1) to general commercial (GC-2), will be the subject of another public hearing. The owner and representative is Selma Williams, who wants to open a retail store on the property.

City Planner Jay Marder is recommending that the P&Z commission deny the request because several single family residences are in the immediate area, and the area is restricted commercially at this time.

Another public hearing will be conducted to consider a request to rezone property 1,000 feet Southwest of Collins Drive, on the East side of 17-92, from agricultural (AD) to general commercial (GC-2). Hassan and Farideh Mokhberi are the owners and representatives. They want to open a car dealership on the property.

## Minor Crisis 'Blacks Out' Lake Mary Police Station

**By Brian Hedberg**  
Herald Staff Writer

A power outage in Lake Mary early this morning left the city's police department in "a bit of a crisis" without communication to its officers, who were directing traffic at intersections, a police department employee said.

A backup generator at the police department should have kicked on but didn't during the outage, which lasted from about 7:30 a.m. to 8:26 a.m.

Should someone have called the police about an accident or crime during that hour, dispatchers would not have had any way to contact officers, another police department employee said.

With the police computer system down, the normal police radio channel — Tach 1 — was not in operation. Dispatchers were using portable walkie-talkie type radios and the fire department's channel, Tach 2. However, out-in-the-field officers, expecting the generator to kick on at any time, were not tuned into Tach 2.

The power surges are fairly common in Lake Mary, said Sgt. Tom Taggart. "Every now and then we have a problem in the area of Lake Mary Boulevard and Eighth Street," he said. "But it usually doesn't go all the way over to the P.D."

**See Crisis, Page 12A**

## At Least Two Commissioners Endorse Idea

# Independent Personnel Study May Be Approved By Lake Mary

**By Brian Hedberg**  
Herald Staff Writer

For the past five years, the city of Lake Mary has hired and given its workers merit raises without any solid basis for evaluation, according to city officials, but a vote at the city commission tonight will determine whether that practice is prolonged.

"How can you give merit increases without job descriptions?" asked Commissioner Randall Morris Wednesday, who said he intends to vote tonight for approval of an independent proposal for a personnel study.

For \$2,000, Long Associates of Fort Lauderdale has offered to write job descriptions for Lake Mary's 47 workers and compare their salaries with the wages of workers in Florida cities of a similar size.

Commissioner Thomas Mahoney, who heads a committee that is looking at city personnel policies and practices, has recommended that the wage study and job descriptions be done.

Commissioners George Duryea, John Percy and Paul Mahoney said Wednesday they had not thoroughly reviewed Long Associates' proposal

and had not made up their minds on how they would vote.

Currently, the city is "winging it," said City Manager Bob Norris, when it comes to hiring and raise evaluations. Norris said that all city departments work from department-written job descriptions, but that practically none have been approved by the commission.

Job descriptions may have their shortcomings, Lake Mary Mayor Dick Fess said, such as lack of objectivity due to the difficulty of pointing out workers' deficiencies. "But they are better than automatic pay raises. Across-the-board increases stymie initiative, and they stymie anyone who's doing extra work. Everyone may get two percent raise, but everyone didn't do equal work."

"I think it's just been a policy of 'go along and get along,'" Morris said of the basis for raise and hiring decisions. "Those days have been canned. I think this commission is serious about correcting the problem."

In an earlier commission meeting, Morris recommended that, rather than approving a new

# POLICE

## IN BRIEF

### Accused Drug Purchaser Beeped To Arrange For Buy

Two men were arrested early Wednesday morning after one of them reportedly arranged to purchase drugs from a law enforcement officer he inadvertently contacted with a electronic beeper.

Thomas W. Farino, 22, of 610 Little Wekiva Road, Altamonte Springs and Christopher John Ratest, 20, of 114 Sandalwood Way, Longwood, have been charged with possession of cocaine.

At approximately 11:30 p.m., Tuesday, a Seminole County law enforcement officer was reportedly processing an unidentified man he'd just arrested through the Seminole County jail when the arrestee's beeper went off, according to an arrest report.

The officer answered the page and reportedly contacted Farino, who allegedly told him he wanted to buy \$40 worth of cocaine.

The officer told Farino to meet him at the Wendy's Restaurant, located at the Seminole Center in Sanford.

When the officer arrived at the center he saw two men sitting in a car parked near the restaurant.

The officer then approached the car and conducted the transaction, in which the officer said both money and approximately \$40 worth of rock cocaine were exchanged, according to the report.

The officer answered the page and reportedly contacted Farino, who allegedly told him he wanted to buy \$40 worth of cocaine.

The officer told Farino to meet him at the Wendy's Restaurant, located at the Seminole Center in Sanford.

When the officer arrived at the center he saw two men sitting in a car parked near the restaurant.

The officer then approached the car and conducted the transaction, in which the officer said both money and approximately \$40 worth of rock cocaine were exchanged, according to the report.

Afterwards, the officer identified himself and placed Farino and Ratest under arrest.

Ratest, who was a passenger in the car, had supposedly supplied the money for Farino to use in the drug purchase.

Both men were transported to the Seminole County jail, where their bond was set at \$2,000.

### Driving Under Influence Arrest

The following person has been arrested in Seminole County for charges of driving under the influence:

—Terry Michael Vaden, 31, of 118 Dorchester Way, Lake Mary, was arrested Tuesday by Lake Mary Police after he was seen speeding and falling to maintain a single lane on State Road 46-A.

### Booze, Cash Cache Brings Arrest

Sanford Police officers arrested a local man Tuesday morning after they responded to a alarm at George's Tavern, 1011 S. French Ave., Sanford, at 11:58 p.m. Monday night.

Alan Carl Borsdorf, 28, of 1200 Elm Ave., was reportedly seen leaving the business as officers arrived. He was reportedly exiting through a glass door he allegedly broke to get into the building, according to the police.

The reporting officer claims he saw Borsdorf leave the scene with two bottles of what appeared to be liquor in his hands. Upon seeing the officers Borsdorf allegedly fled the scene.

The officer chased Borsdorf across 11th Street, where the suspect reportedly ran into the rear of a business known as Tropic Cool. He then ran out of the building onto 12th Street, where he was apprehended by another officer.

The officer and Borsdorf allegedly struggled on the ground until the other officer arrived and assisted in handcuffing the suspect.

Two bottles of Jack Daniels whiskey and \$14 in cash were found about 20 feet from the point Borsdorf was subdued.

Borsdorf was arrested and transported to the Seminole County jail.

His bond was set at \$1,000.

## Man Sentenced For Rape

A Sanford man, who was once questioned about the disappearance of a 14-year-old girl in Lake Mary last May, has been sentenced to seven years in prison for raping a Matland woman.

Anton Daryl Meyers, admitted he raped a 35-year-old woman in the woods adjacent to the mobile home park, at 500 Carriage Cove Way, Sanford, where he lived then.

The charges claim Meyers raped her at knife point last May,

also beating her during the attack.

Meyers was also picked up and arrested by the Lake Mary Police Department in connection with the May 24 disappearance of Kathy Engles, 10 days after the attack on the Matland woman.

The charges were later dropped due to lack of evidence, according to police reports.

Meyers may be the last known person to see Engles alive, according to LMPD.

## Sanford Woman Faces Homicide Sentence

A Sanford woman faces a year in the Seminole County jail, two years on house arrest and three years on probation as a result of her Tuesday guilty plea to a charge of vehicular homicide by driving drunk.

Dorothy Roane Kimber, Apt. 1607, 2600 Georgia Ave., will be sentenced Jan. 29 in connection with a July 2 traffic accident on Highway 46-A which killed a 23-year-old bicyclist. State law requires that Kimber also permanently lose her driving privileges.

Sanford police said Audie Lee Lawson of Sanford was killed about 11 p.m. July 2 when he was hit by a westbound car on Highway 46-A. The driver of the

car, later identified as Kimber, continued west to Oregon Avenue where the car got stuck in a flower bed.

Police reports say Kimber then called for assistance on her citizens band radio. Those who arrived at the scene in response to the call for help said they saw blood on the front of Kimber's car and persuaded her to return to the scene of the accident. Police stopped her on the way back to the accident scene and arrested her.

## FIRE CALLS

**Sanford Tuesday**  
—10:37 a.m.—1010 Willow Ave. Youth, 15, III, Rural/Metro transported to Central Florida Regional Hospital.

12:03 p.m.—950 Mellonville. Man, 59, fell off roof. Applied cervical collar. Immobilized. Rural/Metro transported to Central Florida Regional Hospital.

5:03 p.m.—Airport Blvd., entrance to Zayre's. Automobile accident. Woman, 18, hematoma to head, pain in head and legs. Transported to hospital by private vehicle. Woman, 19, glass in hair and on face, lacerations on face, hematoma to right knee and hand. Not transported.

6:12 p.m.—410 Hanson Parkway. Man, 62, III, Rural/Metro transported to Central Florida Regional Hospital.

## Trial Judge: Bundy Competent

By Bill Wood

ORLANDO (UPI) — Ted Bundy exhibited no erratic behavior and proved through manipulating fine legal points he was competent when convicted of killing a 12-year-old girl, the judge who tried the case testified Wednesday.

"Mr. Bundy was one of the most intelligent, articulate and coherent defendants I have ever seen," said Columbia County Circuit Judge Wallace Jopling, contradicting earlier witnesses at a competency hearing for the serial sex killer trying to elude the executioner.

As he has throughout the hearing's three previous days, Bundy rocked in his chair, chewed gum and listened impassively.

Jopling presided at Bundy's 1980 trial in Orlando, moved from north Florida due to extensive publicity, for the 1978 abduction and murder of Kimberly Leach of Lake City.

The judge also rebutted testimony from witnesses called by Bundy's attorney that Bundy was drunk and used drugs during the trial and showed signs of intoxication in open court.

"I never at any time heard any slurred speech or ... any other indications he was not in full possession of his faculties,"

Jopling said under questioning from Florida prosecutors.

The judge said he was impressed on several occasions when Bundy "very coherently, very logically and very cogently" argued motions and points of law during the trial.

The hearing into Bundy's mental condition during the Leach trial was ordered by the 11th U.S. Circuit Court of Appeal in Atlanta, which stayed Bundy's third scheduled electrocution in November 1986, and upheld by the U.S. Supreme Court.

Orlando U.S. District Judge G. Kendall Sharp will send his report to the Atlanta court, which could order a nede of Florida's Death Row.

Bundy, a one-time University of Utah law school student, is also under a death sentence for the Jan. 15, 1978, bludgeoning and mutilation murders of Chi Omega sorority sisters Lisa Levy and Margaret Bowman of Florida State University in Tallahassee.

Leach disappeared 31 days after the Chi Omega slaughter, and her body was found two months later.

The hearing is expected to conclude today.

## Psychiatrists To Examine Accused Sniper

TITUSVILLE (UPI) — Two Brevard County psychiatrists were appointed to help determine whether accused shopping center sniper William Cruse is competent to stand trial for the slayings of six people last April.

Circuit Judge Gilbert Goshorn gave Dr. Miguel Rivera and Dr. David Greenblum, both of Titusville, until Dec. 28 to complete their evaluations. A hearing was scheduled for 2 p.m. Dec. 29.

At a hearing Wednesday, Cruse's attorney Burton Green argued against appointing local psychiatrists because he said they would be under pressure to rule in such a way that Cruse would come to trial.

He also wanted the date moved up, because he said the fasting Cruse could be

required to undergo force feeding later this week. Cruse has lost 33 pounds since the beginning of the month.

At an emergency hearing Tuesday at the county jail in Sharps where Cruse is being held, Brevard County Circuit Judge Charles Harris ruled that Cruse may be force-fed if he continues the fast.

Harris said Brevard County Sheriff C.W. "Jake" Miller was obligated to take "all reasonable care" to ensure that Cruse does not take his life.

If Cruse still refuses food Thursday, jail doctors are expected to begin feeding him intravenously or through a tube inserted through his nose down into his stomach.

## Warm Air Back? Check Almanac

By Fred H. Cooper  
Herald Staff Writer

Boy, you talk about beratings and snide remarks, they have been received today! There is nothing magical about predicting the weather and forecasts provided in this section for your daily perusal are not to be considered infallible. As a matter of fact, the other day when the prediction was for clear skies with little chance of rain, the heavens turned cloudy and we had a gully-washer. Well, the obvious thing to do was to confess to the United States Government Professional Weather Cognoscenti who stated that the benchmark in "official" weather forecasting was the profusion of error. Then the most significant query of the month was proffered by the Professional: "Don't you read the Farmer's Almanac?"

Yea, it's read but nowhere in it is there reference to the 30s readings of this morning. We gotta do something about this, and quick. In fact, the Lord must be looking over us 'cause the warming trend is on the way. Back to the 70s tomorrow and the lows shouldn't be lower than 50 degrees by the week-end.

Thinking about the Lord, it gives pause when you read that Gary Hart goes to New Hampshire to renounce his campaign and state that his sin-ridden past is no one's business. There was no thunder, but the winds started howling and snow started falling. A near blizzard hit the area. Maybe it's Heavenly editorial comment.

That snow was not restricted to New England and bore other signs of retribution. Not long ago the city fathers in Hollywood, California attempted to copyright the city's name citing confusion with Hollywood, Florida. The quest

didn't go far but it provoked acid-like comments from both cities. Anyway, last night it snowed on Hollywood, California, that is. The famous sign turned white. Nice weather down in the Florida-type town though. Just goes to show you - something.

That snow also hit Malibu and other suburbs of Los Angeles. Those western hotshots should hotfoot it to Vail, Colorado where they will find...you guessed it: No Snow. Those lavish condos on the slopes are encircled in brown. Poor things.

Ever wonder how the Lord created all this stuff we call our galaxie? Well NASA is working on the question, and think they're progressing towards an answer.

A NASA campaign to study a rare nearby supernova paid off with major proof that iron and other heavy metals present in planets such as Earth were created, at least in part, by catastrophic stellar explosions.

"This is actually the first time, ever, anybody has any real concrete proof that in a supernova you can synthesize the elements," said Edward Chupp, a University of New Hampshire scientist and principal investigator of a NASA satellite instrument that contributed to the discovery.

"The idea is our sun was formed out of material, debris, that was the result of the explosions of other stars," he said in a telephone interview Wednesday with William Harwood of the UPI from Washington. "So in a sense, we're finding out our own origins."

Late last summer we worried about the terrible forest fires blazing across the U.S. West Coast. Well, they're already starting to fix up the area.

## Local Report

**Daytona Beach:** Waves are about 2 1/2 feet and choppy. Current is strong to the south with a water temperature of 60 degrees. **New Smyrna Beach:** Waves are 3/4 feet and semi-choppy. Current is to the south with a water temperature of 60 degrees. Sun screen factor: 12.

## Area Readings

The temperature at 9 a.m.: 42; overnight low: 38; Wednesday's high: 64; barometric pressure: 30.27; relative humidity: 52 percent; winds: NW at 15 mph; rain: None; Today's sunset: 5:31 p.m.; Friday's sunrise: 7:12 a.m.

## Area Forecast

Today...sunny and rather cold. High 60 to 64. Wind north 15 to 20 mph.

Tonight...fair and cold. Low from the mid 30s to near 40. North to northeast wind diminishing to 10 mph or less.

Friday...mostly sunny and not so cold. High in the mid to upper 60s. Wind northeast around 15 mph.

## Extended Forecast

The extended forecast, Saturday through Monday, for Florida except northwest — A slow warming trend statewide. Partly cloudy statewide with only a slight chance of showers north Monday. Highs near 70 north...mid to upper 70s central...upper 70s to lower 80s south. Lows Saturday from near 40 north to near 50 central to near 60 south.

## Area Tides

**FRIDAY:**  
**SOLUNAR TABLE:** Min. 2:25 a.m., 2:40 p.m.; Maj. 8:30 a.m., 9:00 p.m. **TIDES:** Daytona Beach: highs, 5:35 a.m., 5:54 p.m.; low, 11:47 a.m.; New Smyrna Beach: highs, 5:40 a.m., 5:59 p.m.; low, 11:52 a.m.; Bayport: highs, 12:05 a.m., 10:42 p.m.; lows, 5:35 a.m., 5:14 p.m.

## Boating

St. Augustine to Jupiter Inlet— A small craft advisory is in effect.

Today...wind northwest to north around 20 kts. Seas 4 to 7 ft but up to 10 ft in the Gulf Stream. Bay and inland waters choppy to rough.

Tonight...wind north to northeast around 20 kts. Seas 5 to 7 ft but up to 12 ft in the Gulf Stream. Bay and inland waters choppy to rough.

## Gymnastics Association Given Lease

Sanford Gymnastics Association, Inc., will be leasing property at the southeast corner of the intersection of 25th Place and Poinsettia Avenue, as soon as city Attorney William Colbert draws up a lease that is agreeable to both the city and the association. The city commission has granted the association a 30-year lease.

The Gymnastics Association plans to build a gym and office facility at the location formerly leased by the Kiwanis Club. Bob Whittaker, of Whittaker Construction Company, represented the association and he told commissioners that the cost of the building should be about \$75,000 or less. He said that the association hopes to pay cash, and that they have \$50,000 toward the costs right now.

Whittaker estimates that one or two fund raisers will supply the remaining funds. He assured the commission that "there will be no financial burden as far as the city of Sanford is concerned." He also noted that if construction begins in January the facility should be completed by March. The commission approved the site plan two years ago. The plan will have to be resubmitted due to the time lapse, Whittaker said. Commissioner John Y. Mercer asked Whittaker to submit to the commission a list of trustees, and a timetable for construction of the facility.

Mercer, who acted as mayor at the Monday meeting, commended the association for its involvement with youth. "These people devote all their time, for nothing, to the kids of Sanford," he said.

Whittaker said the facility will be 10,800 square feet, that it will have two baths strictly for the gym association, and two other public baths, if a park is built in the area. He also said the ceiling heights will be a minimum of 20 feet.

In another matter, commissioners appointed board members to the Goldsboro Community Development Board, and one new member was appointed to the Youth Advisory Board, and members were reappointed to two other boards.

Appointees to the Goldsboro CDBG Committee included: Willie King, 141 Behrman Circle; Alfreda Wallace, 904 W. 13th St.; Ruben Burch, 1303 W. 7th St.; Ruthia Heister, 1838 Coolidge Ave.; and Turner Clayton, Jr., 1401 Mara Circle. Other members will be added to the board later. Commissioners particularly want representatives of the Goldsboro business community to be part of the committee.

The new committee will assist the Community Development Office in developing policies and procedures for the development and upgrading of the Goldsboro area. Funds have been made available through a block grant that the city and Seminole County will be jointly administering. According to Richard Woods, community development officer, \$300,000 is available for housing rehabilitation in the Goldsboro area. About \$265,000 of that amount will go to housing and the remainder will go to administrative costs, he said. An additional \$103,000 is available for general rehabilitative projects and costs.

The following persons have been reappointed to the Minimum Housing Code Board of Adjustments and Appeals: Phil Gonzalez, 1807 Palm Way; Don Howe, 110 Highland court; and Mary Smith, 1703 W. 13th St.

Also reappointed to the Public Employees Relations Commission are Garnett White, 200 W. 1st St., and Howard Wheelchel, 405 W. 25th St.

## Trust Fund Established

An Oviedo mother has set up a trust fund for her 8-month-old daughter, who needs open-heart surgery.

Tasha Lowe has high blood pressure and hopefully will have the surgery by January, said her mother, Kathie McCawlie.

McCawlie said she has applied for aid from Medicaid and the children's medical services division of the Florida Department of Health and Rehabilitative Services. She said she is not certain of getting funds from the two sources and has set up the trust fund as something to fall back on.

Contributions may be made to the Tasha Marie Lowe Trust Fund, Barnett Bank of Sanford, 3094 Orlando Drive, Sanford, FL 32771.

—Brian Hedberg

## 1988 Budget Announced By Chamber

Dave Farr, executive director of the Greater Sanford Chamber of Commerce has announced the Chamber's 1988 Board of Directors, and its officers. Budget figures for the new year have also been released.

Officers on the 1988 Board of Directors are: Jack Greene, president; Jim Teasor, vice-president; and Karen Coleman, treasurer.

1988 Board members serving three-year terms include: W.E. "Duke" Adamson, Ernie Cavallero, Mack N. Cleveland, Jr., Gib Edmonds, Kay Gallagher, John Mercer, Shirley

Schilke, Larry Strickler, Jim Teasor and W. Garnett White.

1988 Board members serving two-year terms include: John Carli, J.S. "Red" Cleveland, Karen Coleman, Jack Greene, Art Grindle, John C. Horner, Jim Jernigan, Daryl McLain, Dr. Earl Weldon and Martha Yancey.

Board members for 1988 who are serving a one-year term are: Wayne Albert, Vic Arnett, Lee P. Moore, Brent Carl, James R. Dycus, Walter Gielow, Howard Hodges, Tony Russi, Janice Springfield and Edward "Ned" Yancey.

Mayor Betty Smith is the city appointed director.

Budget figures for 1988 have also been released. The total budget for 1988 is estimated at \$127,500, a \$4,000 increase over last year's figure of \$123,500.

Revenues the chamber will receive include a city of Sanford appropriation of \$15,000, and also a Sanford Promotion and Building Maintenance and Repair allotment of \$10,500; membership dues of \$95,000; and interest income of \$3,000. These figures were the same in

the 1987 budget.

The chamber expects to pay out \$71,440 in salaries. That figure includes Farr's salary of \$38,500, of which \$2,240 is for travel expenses. The remainder is divided between two secretaries. The salary allotment is an increase of \$5,700 over the 1987 figure of \$65,740. Farr's salary last year was \$33,240.

Approximately \$5,700 is budgeted for social security and unemployment taxes, an item which cost \$3,460 last year. Group insurance will cost

\$4,800 this year, a decrease of \$800 from last year's figure of \$5,600. The chamber will pay \$5,800 into retirement funds in 1988, the 1987 figure was only \$50 less at \$5,750.

Utilities are expected to cost about \$5,900 in 1988, and maintenance and repairs about \$4,000. Those two categories were not separated in last year's budget, but the total for the two categories was listed at \$9,250. The two categories this year represent an increase of \$650.

## Two-Term Limit Is Unnecessary

Ronald Reagan was re-elected by one of the widest margins in American history, yet his presidency is crippled today and is likely to remain so for the remaining 14 months of his tenure. The mindless Iran-Contra affair and the Republicans' loss of the Senate certainly helped to undermine Reagan's political power. But his clout also has been impaired by the institutional shackles imposed by the 22nd Amendment.

Enacted in 1951 as a back-lash against Franklin D. Roosevelt's unprecedented election to four terms, the amendment restricts a president to eight consecutive years in office—whether he is a scoundrel or a saint.

The two-term limitation means that Reagan became an unavoidable lame duck in November 1984. Thus the president's leverage in dealing with lawmakers and others is weakened considerably by his opponents' knowledge that they will never share a ballot with him again. Meantime, such pressing national problems as the budget deficit continue to fester, in part because of the discounted leadership in the Oval Office.

In all likelihood, Reagan's influence will continue to ebb as the remainder of this time in the White House dwindles. Dwight Eisenhower, the only other chief executive to complete a second term after the 22nd Amendment was adopted, encountered similar frustrations during his waning months.

Besides strengthening the presidency, repealing the amendment would restore to Americans the fundamental right to choose their leader without arbitrary restraints. Restricting that right betrays a distrust of representative democracy itself, the essence of which is the collective wisdom of the people to decide their future.

Is it reasonable to fear the electorate would return an ineffectual president to a lifetime tenure when modern history shows that most voters are impatient for fresh leadership much sooner than eight years? On the other hand, is it unreasonable to assert that a remarkably capable president might indeed deserve a third or even a fourth term?

Earlier this year, British voters re-elected Margaret Thatcher to a third term as prime minister, providing a strong mandate for continuation of her conservative policies. Yet, with the 22nd Amendment, a similarly popular and able American leader would be cast into retirement despite the voters' wishes to the contrary.

Consider, too, the consequences of forcing a president out of office during a national emergency. Abraham Lincoln won re-election during the Civil War largely because of the voters' common-sense realization that 1864 was the worst possible moment to change horses in midstream.

Removing the 22nd Amendment's limitation on voter choice is hardly a radical idea. The framers of the Constitution considered such a restriction and rejected it 200 years ago. As is often the case, the Founding Fathers' considered judgment is as sound today as ever.

## Summit Offers Hope For Further Agreements

A year ago, while President Reagan struggled to preserve his presidency after the Iran-contra scandals, former President Richard Nixon and I were asked if Reagan could retrieve his leadership position. Each of us said this could be done if Reagan held a summit with Mikhail Gorbachev and negotiated a successful arms agreement.

Now that has happened, and according to public opinion polls Reagan has climbed back to a 60 percent approval rating with the American people. The same surveys show that the public overwhelmingly supports the new arms reduction agreement.

I have always believed the sentiment for arms reduction and peace is stronger among the people of all nations than it is among politicians and military strategists. The late President Eisenhower, who shared this view, once told then British Prime Minister Harold Macmillan: "I believe that the people of the world want peace so badly that some day their leaders had better get out of the way and let them have it."

The elimination of intermediate and shorter-range missiles from Europe as provided in the

new treaty certainly is a gain for the United States and the West in that the Soviets have agreed to eliminate four missiles for each U.S. missile eliminated.

Likewise, the proposed agreement for a mutual reduction by 50 percent of strategic missile systems to be negotiated perhaps next summer also makes good sense. Some critics worry that these proposed nuclear reductions weaken the nuclear deterrent and place too much strain on Western conventional forces.

However, the proposed strategic reductions will still leave each side with nearly 5,000 strategic nuclear warheads — each one much more powerful than the Hiroshima bomb of 1945.

The only practical purpose for nuclear weapons is to deter the other side from using them. For this purpose 5,000 missiles are as effective as 10,000. In addition, each side retains thousands of short-range nuclear missiles and nuclear artillery weapons to say nothing of nuclear weapons-carrying aircraft.

Further, Gorbachev and Reagan have already discussed reductions in conventional forces with

Gorbachev indicating that he understands the need to adjust Soviet superiority in tanks and manpower if the nuclear agreements go forward.

More important than the exact mathematical formulas worked out in arms reduction agreements is the process itself. There can be little doubt that direct conversations between Gorbachev and Reagan have given each man a better understanding of the fears and hopes of the other.

It is also clear that the extensive media coverage of the summit offered Americans and Russians a feeling for their shared humanity and their common concerns over survival in the nuclear age.

The major unresolved issue between the two sides turns on the "Star Wars" SDI project, which the president has pushed despite the skepticism of most scientists and arms experts and despite its incredible cost.

It is possible that Reagan might agree to some kind of compromise on this issue so that other aspects of arms reduction can go forward. Next year's presidential election may also have something to say about SDI and related issues.

### SCIENCE WORLD

## New Scan Predicts Damage

By United Press International

It is not always easy for doctors to tell whether frostbite damage to toes or other extremities will make amputation necessary.

But a new bone scanning technique developed at the University of Wisconsin in Madison offers a quick and accurate diagnosis to determine whether treatment might save a frostbitten body part.

"We know right away, within hours, whether the injury is just superficial or a lot more serious," says Dr. Rahul Mehta. "It really helps guide therapy, and in some cases, can reassure the patient."

The technique involves injecting the patient with a low-dose radioactive tracer and taking repeated scans of the affected area with a gamma camera. Those patients who still have any blood flowing to the extremity will show some radioactive uptake within 2.5 hours. Tissues failing to show such flow are likely dead, Mehta says.

"Of course, you would still want to try treatment," he says. "But a doctor might want to tell the patient it looks like there is nothing we can do."

Post-traumatic stress disorder, a mental illness involving heightened anxiety, depression and emotional distance, is most often associated with Vietnam veterans. Until recently, the psychiatric diagnosis of PTSD has been confined to adults who have been exposed to situations in which their life was in extreme danger.

But a study by researchers from the University of California at Los Angeles suggests children can suffer from the disorder as well.

The UCLA researchers studied 159 school children after a 1984 sniper attack on their elementary school playground in which one adult and one child were killed and 13 other children were injured.

Using the same measures used to determine post-traumatic stress in adults, the researchers found a high incidence of PTSD. Nearly half (48.6 percent) of the children on the playground at the time suffered from severe PTSD, and another 45.7 percent suffered either mild or moderate symptoms. About 34 percent of children who were not at school during the attack suffered mild, moderate or severe PTSD.

WILLIAM RUSHER

## Who Won Most?

Most Americans, evaluating the recent summit, will have little trouble pushing aside such trivia as Gorbachev's alleged display of "PR genius" in getting out of his car to shake a few hands. The real question is which side accomplished most.

It is wise to assume that both sides think they managed to accomplish something; otherwise there would have been no summit, and certainly no agreement. What did they, in fact, accomplish?

From the American standpoint, our long-range objective is to blunt the communist drive for world domination, by persuading the communists to abandon it, if possible, or by maintaining effective political, economic and military defenses against it, at a bearable cost.

From that perspective, the Washington summit can probably be scored as a modest success. We succeeded in eliminating from both arsenals one small category of nuclear missiles, and have a reasonable prospect of making much bigger cuts in much more important (and expensive) categories at another summit next spring in Moscow.

President Reagan accomplished this over the dead bodies of his critics on both the liberal left and the mutinous right. The liberals have been bellyaching for years that Reagan was too preoccupied with building up America's defenses to Soviet levels, too insistent on "impossible" kinds of verification, and too unwilling to use SDI "as a bargaining chip." But the president firmly refused to stop rearming, or waive effective verification, or bargain SDI away — yet lo and behold, he has his treaty.

For their part, certain inconsol-

able conservatives argue that mutual withdrawal of intermediate-range missiles will benefit the Soviets most, because it will heighten West Germany's sense of insecurity and thus threaten to "decouple" NATO. Since the withdrawal was Washington's idea, first proposed in 1981 and sternly rejected by the Russians until recently, one wonders why these critics didn't make their reservations known earlier? (And where was "German insecurity" in all the years before the first Pershings were deployed, late in 1983?)

In addition, Reagan's right-wing critics point to the large number of subjects on which American remonstrances apparently got nowhere: Soviet meddling in Afghanistan, Nicaragua, Angola and Cambodia; Moscow's disgraceful human rights record; its brazen cheating on earlier arms treaties, etc.

There certainly are a great many instances of Soviet misbehavior on which this summit accomplished little or nothing. On the subject of cheating, though, it really isn't reasonable to ask President Reagan to mop up all the messes left by the ill-considered and unverifiable treaties negotiated by Messrs. Kissinger, Nixon, Ford and Carter.

And what about Gorbachev? Pretty clearly, he too wanted to reduce the cruel cost of arms, and has done so — a little now, and far more later if a START treaty is negotiated. He probably also hoped to soften the moral resistance of the West to himself and his system, with a view to weakening its will and obtaining its technology. The extent to which he succeeded is, however, for the West to decide.

### DICK WEST

## Boring Awards Given

WASHINGTON (UPI) — While I was out having a bowling ball bored, a couple of my favorite organizations weighed in with their people-of-the-year awards.

Remember how nice and convenient it was when only males were eligible and organizations could refer to them as "man of the year" awards with impunity?

It was even OK to recognize a woman of the year as long as the awards were kept separate.

Nowadays, as you have noticed, any ol' sex is likely to win and some donors present awards to more than one person. So, to be on the safe side, we reporters are obliged to call them people of the year awards.

Ironically, or perhaps merely coincidentally, the first award I wish to recognize was bestowed by NOT-SAFE, a California-based safety organization.

If I learned anything in Miss Pringle's English class it was that irony, used sparingly, is more striking. Later, a bowling instructor tried to make the same point, but I rather doubt he had irony in mind. But then I never paid as close attention to bowling instructions as I did in Miss Pringle's English class.

That's only part of the problem, of course. A bigger hurdle for her ex-students was a shortage of female nomenclature.

Suppose Miss Pringle had been married. Even though they may be bachelors, bowling instructors, men of the year, etc., can be identified as "Mr." But "Ms." never caught on.

Anyway, NOT-SAFE has announced it has chosen Peter Baghdasarian of Uxbridge, Mass., for this year's "Sir The Pot" award.

What? You never heard of Baghdasarian before?

Neither, frankly, did I. NOT-SAFE, however, identifies him as a "do it yourself" plumber, and that's good enough for me.

The safety organization adds that "after notifying authorities that he intended to install his own plumbing (in the house he was building)," Baghdasarian was told he would be violating all sorts of laws.

"By challenging the monopolistic and intimidating Massachusetts plumbing laws," it says, "Mr. Baghdasarian has inspired" others and won the 1987 "Sir The Pot" award.

NOT-SAFE, incidentally, endeared itself to me by adopting as a motto: "Protecting Everyone From Everything — At Any Cost."

### JACK ANDERSON

## Pilots Who Drive Drunk Can Still Fly

By Jack Anderson  
And Joseph Spears

WASHINGTON — Pilots with chronic alcohol or drug problems who have lost their drivers' licenses can still climb into the cockpit of an airliner full of passengers and take off. That is because the Federal Aviation Administration trusts the pilots to confess their drunken driving records. And a hefty share of those pilots with a record lie.

An ongoing investigation by the Department of Transportation's Office of Inspector General looked for serious traffic violations in the driving records of the nation's 711,648 licensed pilots. The sample turned up 10,300 pilots who had lost their driving privileges in the past seven years for driving while intoxicated. Of those, 76 percent or 7,850 pilots lied about the convictions in their periodic medical reviews submitted to the FAA, in which they are required to report DWI convictions.

Even if the pilots had told the truth, the FAA has no uniform policy for revoking flying licenses

based on drunken driving offenses. And 10 states have no laws on the books that make it illegal to fly drunk.

The FAA is finally examining its "self-disclosure" policy after years of making excuses for doing nothing. One of the more startling excuses offered by the FAA is that there is no correlation between drunken driving convictions and aircraft accidents.

FAA Administrator Allan McArtor has decided he will give pilots a grace period until Jan. 1 to correct the record of drunken driving convictions on their medical certificates. That grace period would make the pilots immune from FAA administrative penalties, but not from prosecution for lying on a government form, an offense that carries a penalty of up to five years in prison and a \$10,000 fine.

McArtor said that even after Jan. 1, the FAA would not punish a pilot for lying on the medical form if the pilot learned about the driving problem from another source.

Our reporter Frank Byrt has seen the inspector general's report and it lists several examples of airline pilots with serious DWI convictions. A Milwaukee man with seven DWI convictions died in the February 1986 crash of a cargo plane he was piloting. He had a blood alcohol level four times that which the FAA considers pilots impaired for flying. A local district attorney had complained to the FAA about the man's driving record, but the FAA took no action on his pilot's license.

A pilot in Titusville, Fla., buzzed an airfield so low that he took the top off a parked van. Witnesses said he was drinking before, during and after the flight. The man also had a prior drug arrest and had flown his plane between the towers of a hotel at the third-floor level. The FAA knew about the episodes and certified him in October 1985 to continue flying planes.

The investigators found 262 first-class pilots with at least one DWI conviction each. Thirty of them were working for major airlines. One had eight traffic convictions in

six years, and his most recent DWI offense in 1986 cost him his driver's license for five years. Yet he is still licensed to fly.

Among non-commercial pilots, the auditors found that 10.5 percent of toxicology tests on pilots who died in plane accidents turned up alcohol in their blood.

But the FAA continues to find reasons not to act. FAA officials say they don't have the resources to investigate pilots; that they don't have easy access to driving records; and that cumbersome regulations make it hard to revoke a pilot's license in less than a year.

The inspector general's office has taken matters into its own hands, preparing a list of offenders gleaned from driving records. Sen. Frank Lautenberg, D-N.J., proposed legislation in October to allow the FAA access to the National Driver Register, a nationwide data bank that lists serious driving convictions.

The FAA reports that it will consider an objective standard for revoking a pilot's license and will look at the relation between drunken drivers and aviation accidents.

# NATION

## IN BRIEF

### Deaver Vows To Appeal His Conviction Of Perjury

WASHINGTON (UPI) — Ex-White House aide Michael Deaver, so confident of his innocence that he presented no defense in his perjury trial, vows to appeal his conviction on three counts of lying under oath about his private lobbying activities.

"I believe in my heart that I am innocent," Deaver said outside the federal courthouse Wednesday following the verdict that carries a maximum sentence of 15 years in prison and \$22,000 in fines. Sentencing was set for Feb. 25 and Deaver was allowed to remain free on personal recognizance.

Chief defense lawyer Herbert Miller Jr. conceded he may have erred in deeming the case by independent prosecutor Whitney North Seymour Jr. unworthy of a response. Miller rested his case Dec. 7 without presenting any witnesses.

"We did not put on a defense because we didn't think we had to," Miller told reporters, his jaw set in anger. "The jury verdict suggests I may have made a mistake. But I will tell you one thing, that we will file our motion for a new trial and we will appeal."

### PSA Victims Buried Near Crash

LOS OSOS, Calif. (UPI) — The 26 unidentified victims of last week's mass murder of 43 people killed when a fired airline employee caused the crash of a PSA commuter jet will be buried just 20 miles from the scene of the disaster.

In an interdenominational service presided over by a rabbi, a priest and two Protestant ministers, the families and other mourners braved chilling winds under gray skies Wednesday to pay last respects to the victims of an act of vengeance.

"Palms and words of consolation cannot make sense of the senseless deed," said Rabbi A. Manhoff of congregation Beth David in nearby San Luis Obispo. "Grief is a great teacher if we learn from those who loved. Take that love and use it to make the world better."

### AIDS Victims Will Conduct Tests

Homosexual rights advocates accused the government in federal court of delaying testing of AIDS drugs, and AIDS patients said they will conduct their own human trials of a drug thought to prevent a deadly type of pneumonia.

Members of the People With AIDS Coalition, criticizing government researchers for progressing too slowly, said Wednesday they received a \$400,000 contract from a pharmaceutical company to test whether aerosol pentamidine prevents pneumocystis carinii pneumonia, a major killer of AIDS victims.

"This is a case of people with the disease rolling up their sleeves to do something about the slow pace of research," said Tom Hannan, administrative director of Community Research Initiative, a subsidiary of the coalition.

## Billy Carter Joins Ceremony

# Resource Teams End Anti-Drug Meeting

Billy Carter, the brother of former president Jimmy Carter, and his wife, Sybil, will join a private ceremony at the Lake Mary-based Care Unit of Orlando today for the dedication of a lecture room in their names.

A final planning meeting for training the drug resource team members for Seminole County schools took place Wednesday at the facility.

The county's 43 school drug resource teams, one for each public school, aim, through planning and formalized curriculum to prevent the chemical dependency that afflicted Billy Carter before he was diagnosed as having terminal pancreatic cancer. A series of sessions will begin in mid-January to train team members — administrators, counselors, classroom teachers, parents, students, school resource officers, and alternative education teachers.

The training sessions will

sharpen or develop skills in DRT members for identifying, assessing, intervening, referring and following up on alcohol- and drug-impaired students, said Tom Roll, the county drug resource person employed by the Seminole County School Board.

The school board has approved the teams' 1987-88 objectives for creating drug- and alcohol-free schools, which include:

- Revitalizing and expanding the teams at each school site.

- Lake Mary and Lake Brantley high schools have dynamic DRTs, said Henry Harlow, director of community relations at Care Unit. However, he said, other schools' teams are not as enthused and active.

- Planning and beginning a drug awareness/family life management skills class, available to parents at all school levels.

- Training and assisting teachers to lead classes which emphasize that drug use is wrong and aid students in devel-

oping life management skills.

Bill Moore, assistant principal at Lake Mary High, said the school's DRT will be busy looking at ways to inject drug education into 10th, 11th and 12th grade levels, in compliance with a new state law which says drug education must be in curriculum at all grade levels. Drug education already was being taught in ninth grade's life management skills course.

Moore said.

—Brian Hedberg

Chief defense lawyer Herbert Miller Jr. conceded he may have erred in deeming the case by independent prosecutor Whitney North Seymour Jr. unworthy of a response. Miller rested his case Dec. 7 without presenting any witnesses.

## IN BRIEF

### Stepfather Receives Immunity, Confesses To Mercy Killing

FORT MYERS (UPI) — The mercy-killing case against Dr. Peter Rosier has taken a bizarre twist with the disclosure that after being granted immunity from prosecution, his wife's stepfather confessed to ending the terminally ill woman's life.

Rosier is scheduled to go to trial April 18 on charges he murdered his wife, Patricia Rosier, who was suffering from terminal cancer.

But court records released at the request of several news organizations Wednesday show Rosier's efforts to end his wife's life with drugs was not working, so Vincent Delman ended her life by suffocating her with his hands.

"They both killed her," said prosecutor Ed Volz. "But only one was given immunity to testify."

### AIDS Linked To Steroid Needle

WEST PALM BEACH (UPI) — Health officials believe a weightlifter testing positive for exposure to AIDS caught the virus from an infected hypodermic needle used for anabolic steroids injections, thought to be the nation's first such documented case.

Palm Beach County health officials said Wednesday they do not know whether the unidentified weightlifter, married and in his early 20s, has developed acquired immune deficiency syndrome. The body builder learned he had been exposed to the virus last year through a screening program where he worked.

"I Just Hope Barnett's Offering Their Senior Partners Program Years From Now When I Turn 55"

Barnett Bank's Senior Partners Program comes with free checking, free personalized checks, free travelers checks, free cashier's checks, itemized monthly statements, a financial planning guide and, believe it or not, even more. All at no charge. And all you need to qualify is a Barnett checking account, one of our investment savings accounts and to have celebrated your birthday at least 55 times. Come by for complete details.

# Letters To Santa

This week Santa Claus received letters from these area children:

## DEAR SANTA

I Love you, Hope you don't get sick  
 Please get me all of these toys  
 Hope you get better if you get sick  
 I Love you I want a suitcase  
 and baby doll and a bear and shirts, pants  
 and shoes  
 I love you Santa  
 Kristeen Joy

## DEAR SANTA

I hope my letter finds you  
 happy + healthy. I have thought about  
 you a lot the last year. I was wondering,  
 how is it that you can see me all the time  
 but I can't see you? If you think  
 I have been good enough this year please  
 bring me a purple car, Fisher price power  
 tools, ashkoka overalls + cowboy boots.  
 I will have to bring my presents to my  
 Grandma + Grandpa Krolls in Charlotte because that is  
 where I will be for Christmas this year

RS-Please also bring some snow  
 Love,  
 Timmy Kroll

## DEAR SANTA

I've been really nice! I want  
 you to bring me a kitchen for  
 Christmas, You don't have to bring  
 me a stereo till next Christmas.  
 I will leave oreo cookies and milk  
 for when you come. Make sure you  
 park your reindeer by my window  
 and not on Mom's Flowers Don't  
 bring any toys with small pieces  
 because my baby sister will put them  
 in her mouth  
 C.A.C.I.E WILLIAMS

## DEAR SANTA

My Mommy is helping me, because I  
 will not be two until February. I have  
 really tried to be good this year. (SOME-  
 TIMES IT WAS REALLY DIFFICULT.) I would  
 like a doll, a tri-cycle, a school bus +  
 Books. And, if you have time... please  
 bring my cousin, CACIE Williams a play  
 kitchen + my cousin Nicki a soft teddy  
 bear

Love Always,  
 Sara Kay Wright

# WORLD IN BRIEF

## 5 Shot, 1 Stabbed As Israeli, Palestinian Battles Continue

GAZA CITY, Israeli-occupied Gaza Strip (UPI) — Five Palestinians were wounded and an Israeli soldier was stabbed in the neck during an eighth day of running street battles between troops and protesters in the occupied territories.

Wednesday's unrest in the territories, however, appeared less intense than in earlier days, with fewer protesters in the streets and many Palestinian workers staying home at the urging of protest leaders.

At least 15 Palestinians have been killed and dozens wounded in the West Bank and Gaza Strip during disturbances that have drawn sharp criticism of Israeli policy from abroad.

## Czech Communist Leader Resigns

PRAGUE, Czechoslovakia (UPI) — Gustav Husak, one of the most durable leaders in the East Bloc, resigned today as general-secretary of Communist Party, the official news agency CTK reported.

Husak was immediately replaced by Central Committee Secretary Milan Jakes, CTK said.

Husak, under whose leadership Czechoslovakia has resisted the political and economic reforms of Soviet leader Mikhail Gorbachev, is the first of the aging East Bloc leaders to step down since Gorbachev took power in March 1985.

# Four File Civil Suits Seeking Damages

The following civil suits were filed at the Seminole County Courthouse recently. They include:

● Sarah W. Osborne vs. Granada Management Corporation and Chatham Harbor, LTD.  
Filed on Dec. 9, Osborne is seeking damages from both companies for injuries she claims she suffered as a result of an accident at the Chatham Harbor Apartments on June 24, 1987.

● Yvett Lycans vs. William C. Taylor.  
In this case, Lycans claims Taylor is negligent for injuries she suffered resulting from an accident she claims was caused by Taylor on Dec. 2, 1986.

Osborne, who was visiting her daughter, who was living at the complex, claims she slipped and

fell on a grassy slope behind her daughter's building while on the way to the swimming pool.

The suit further contends the management of the apartments had just had the grassy area watered, making the surface even more dangerous.

The accident reportedly occurred on State Road 436 in

Altamonte Springs.  
Lycans is seeking in excess of \$5,000 damages in the case, which was filed on Dec. 7.

● Larry A. and Nanci K. Daigneault vs. Gustafson's Dairy, Inc. and James Canady.  
This suit was filed by the Daigneaults on Dec. 7, claiming a driver of a Gustafson's Dairy truck was negligent in a Dec. 8, 1983 accident that allegedly left Mr. Daigneault with permanent injuries.

The accident occurred near the intersection of Lake Mary Boulevard and Hidden Lake Drive.

The Daigneaults are seeking damages in excess of \$5,000 against the company.

● Eugene A. Butler vs. Curley Barber.  
In this suit Butler claims Barber was intoxicated on Jan. 12, 1986, when a car driven by Barber struck Butler's car.

The suit, filed on Dec. 7, contends Barber's faculties were impaired to the point at the time of the accident that he acted in willful and wanton disregard for Butler's safety.

Butler is seeking damages in excess of \$5,000 in the case.

# SCHOOLS IN BRIEF

## UCF Professor Will Head State Writing Program

A professor with the University of Central Florida has been appointed state coordinator of the 1988 Achievement Awards in Writing program, directed by the National Council of Teachers of English.

Dr. Nancy R. McGee, with UCF's College of Education, will oversee regional committees composed of high school and college teachers who will judge high school seniors' entries statewide.

More than 6,000 students were nominated for NCTE awards this year. Of that number, 800 received citations for excellence in writing and were recommended to colleges and universities for admission and financial aid, if needed.

Award nominations, which originate with high school English departments, are based on an impromptu theme and a sample of the student's best writing.

## Lyman Stages Music Event

A seasonal treat for the ears will be presented by the Symphonic Band and Jazz Band at Lyman High School in Longwood as they give their Winter Concert on Thursday.

The musical evening will begin at 7:30 p.m. in the school auditorium.

Admission is free.

## Students Of Month Lauded

Oviedo High School in Oviedo has named its Students of the Month for November.

Teachers have honored David Moser, 12th grade; Sivorn Lim, 11th grade; Tricia Blaker, 10th grade; and Christie Goodnough, ninth grade.

The non-academic award is based on citizenship, courteousness, helpfulness and other social virtues.

## Kids Christmas Party Planned

Only kids are invited to a Dec. 22 party hosted by the Sanford Recreation Department.

Children in eighth grade and younger are welcome to the party at the Sanford Civic Center from 6:30 p.m. to 11 p.m.

Cake and soda will be free, two 8-foot stockings will be given as prizes, and games and other activities are planned.

No admission fee will be charged.

HERALD FISHING WRITER

## Woodcock Season Opens

The woodcock is known by so many different names that you could call it the "alias bird." Woodcocks are also known as timber doodles, bogackers, whistlers, little whistlers, hill partridges or wood snipes.

No matter what you call them, the birds are legal game from Dec. 12 through Jan. 25. Hunters may take no more than three woodcocks per day; the possession limit is six. Legal shooting hours are one-half hour before sunrise to sunset.

Woodcocks are about 12 inches long and have short necks and straight bills. They are reddish brown in color and live in lowland hammocks and other poorly drained areas.

Because they prefer cooler climates, they usually venture no further south than central Florida.

Since woodcocks are migratory game birds, hunters must have their shotguns plugged to a three shell capacity before taking the birds. It is not legal to hunt woodcocks with shotguns larger than 10 gauge, rifles, pistols, or crossbows.

For young hunters who receive their first guns for Christmas, a free enrollment in the Hunter Education Course might be a good Christmas gift idea too. The course is offered throughout the state by the Florida Game and Fresh Water Fish Commission. The 12-hour course includes instruction on firearm safety, wilderness survival, first aid, ethics, wildlife identification, conservation laws and marksmanship.

This course is not just for youngsters or beginners. If you are new to the area and are unfamiliar with this state's wildlife or hunting laws, this course can prepare you to enjoy a safe and successful hunting season.

Also, some federal areas in Florida and in 40 other states now require successful completion of such a course before allowing sportsmen to use their property for hunting.

### SHUPE'S SCOOP

When you purchase ammunition for your rifle, it is a good practice to buy several boxes at the same time in order to get shells with the same lot number. The lot number is on the box, and theoretically ammo from the same lot is loaded the same and will provide you with consistent accuracy.

### FISHING FORECAST

Look for plenty of specks in Lake Woodruff. Ron Rawlins of Highland Park said that all boats are catching their share on Hat Flies or Missouri minnows. Wild river shiners are producing quite a few bass in the 7-10 pound class fished near heavy cover.

Dell of the Osceola Bridge Fish Camp reports that the high water hasn't slowed down the bass fishing. Just make sure to fish off of the main river channel. The bass are up in the sloughs and creeks in areas of moving water. Once you find them, they are usually concentrated and you can load the boat. Spotted perch are all over. Some are in Lake Woodruff, others are in the old river channel, around the new bridge, and in the Lilly pads. Give Dell a call for daily hot spots.

Giant flounder are starting to make their annual winter appearance at Sebastian Inlet. The best bait is a finger mullet bounced slowly across the bottom. Each winter, flounder to 14 pounds are caught by this method. Bluefish are also thick, and it is hard to catch trout or snook because they jump on anything that is smaller than themselves.

Captain Jack of Port Canaveral reports that snook are thick in 120-140 foot of water. A lot of small kingfish are being caught on Pollock Flats and some blackfin tuna are also being caught. Bottom fishing for grouper and snapper is hot, with these fish moving in to shallower water during the winter months. Some good catches have even been made on Pelican Flats and on some of the leeward wrecks.

Bluefish and big sheepshead are keeping rods bending at the New Smyrna jetties. You can always count on these fish to bite, even if the other species won't cooperate. The best bait is a fat, live shrimp fished with a small weight on the bottom.

### FISHING GEAR FAIR

TAMPA — With the holidays coming up, it might be a good idea to take some time out to get entries ready for the annual Florida State Fair fishing gear competition. The deadline is 5 p.m., Jan. 8.

Judging will be based on workmanship, accuracy, attention to detail, finish and design.

Brochures and entry forms are available for the Youth and Adult Fishing Gear Competition by writing Fran Heath, Florida State Fair, P.O. Box 11766, Tampa, FL 33680 or by calling (813) 621-7821.

## Seabreeze Shoots Down 'Noles, 59-46

By Mark Blythe  
Herald Sports Writer

DAYTONA BEACH — Gerald Smith scored a game-high 20 points, 14 in the second half, to lead Daytona Beach Seabreeze past Seminole, 59-46, in prep basketball action Wednesday night at Seabreeze High School before 301 fans.

Seabreeze, 8-0 and ranked third in the state in Class 3A, came back from a four-point halftime deficit to upend fourth-ranked Class 3A Seminole, 6-2.

"We didn't execute in the second half," Seminole coach Greg Robinson said. "We were

rolling in the first half but couldn't get back on track in the second half."

Seminole came out on fire early with Andre Whitney and Reginald Bellamy leading the way. Whitney led the team with 17 points, Bellamy contributed 13.

The Tribe had a 12-7 lead at the end of the first quarter and built the lead up to as much as 10 points. A jumper by Whitney followed by free throws from Craig Walker and Bellamy put them up 18-9 with 5:13 left in the second quarter. James Cove then put down a free throw followed by a Bellamy bucket to

### Basketball

SEMINOLE (68) — Whitney 17, Bellamy 13, Hopson 7, Gadsden 2, Hartley 4, Walker 2, Lucas 8, Edwards 8. Totals: 17-11-14-6.  
SEABREEZE (91) — Beckton 12, Hughes 8, Garvin 4, Smith 20, Belgrave 4, Stephens 4, Cove 2. Totals: 21-12-13-20.  
Halftime — Seminole 25, Seabreeze 21.  
Fouls — Seminole 14; Seabreeze 16. Fouled out — Walker, 3 point goals — Seminole 1 (Whitney); Seabreeze 5 (Garvin 2, Beckton 2, Hughes 1). Records — Seminole 6-2, Seabreeze 8-0.

up the lead to 20-10 with 3:37 remaining in the half.

Ed Garvin then drilled a, three-pointer to give Seabreeze a

shot in the arm. After a steal off the press, Stacey Beckton connected on another shot from three-point land, cutting the lead to 21-18 with 2:18 to play.

Seminole then picked up a free throw from Walter Hopson and a Bellamy hoop to surge to a 24-18 lead with 42 seconds remaining. Garvin sank another three-pointer, though, cutting the lead to 24-21 with 30 seconds to play. Seminole then worked for the last shot before giving the ball up with just eight seconds to play in the half. Sammy Edwards, though, came up with a steal and fed Freddie Gadsden for the layup opportunity.

Gadsden's attempt rolled out Hopson was in position, though, and tipped in the last points of the half, making the score 25-21.

The Sandcrabs came out ready in the second and got their running game going, confusing the Tribe's efforts. Kevin Hughes opened the second half with a three-point play with Walker picking up his fourth foul.

With Walker out of the middle, Seabreeze kept attacking and reeled off 11 points as Seminole could not buy a basket. Seabreeze scored four consecutive times in its offense as

See SEABREEZE, Page 10A

Seminole's Don Sellers (above) has the upper hand on DeLand's Rion Hewitt in Wednesday's season-opening wrestling match at Seminole High. Sellers claimed a 17-0 technical pin over Hewitt at the 130-pound weight division. At left, 103-pounder Karl Gipe of Seminole looks for an escape hatch against DeLand's Thomas McCarter. Gipe did manage to escape in time for a 7-3 victory. Seminole won the match, 43-33.

Herald Photos by Tommy Vincent

## Seminole Sticks Bulldogs, 43-33

By Chris Fister  
Herald Sports Writer

Seminole High built up a big lead with five consecutive victories in the middle weight classes and held on for a 43-33 victory over DeLand's Bulldogs in the Tribe's season-opener Wednesday night at Bill Fleming Memorial Gymnasium.

"We had some good points and bad points, but it's always nice to start the season with a win," Seminole coach Glenn Maiolini said. "Some kids looked real good and some also need to improve in some areas. But, overall, I was pleased."

Karl Gipe got the 'Noles off to a good start Wednesday as he decisioned DeLand's Thomas McCarter, 7-3, at the 103-pound weight class. DeLand, though, came back with three wins in a row to take the early lead.

The key sequence of matches then came for the Seminoles and Don Sellers started the rally with a technical pin over Rion Hewitt, 17-0, at 130 pounds. After Larry Nathan picked up a win by forfeit at 135, Trent Schake came threw with a big pin as he stuck DeLand's Scott Bell in 4-04 at 140 pounds.

Kevin Nathan kept the rally going as he pinned Bob Scorpio in 1:28 at 145 pounds and 152-pounder Troy Rollins then pulled out an 11-8 decision over Brian Frasier to put the 'Noles comfortably in the lead.

DeLand then made a run at its own as it came up with consecutive pins at 160, 170 and 189. But, Julius Bennett then sealed the victory for Seminole as he pinned Brad Updike in just 53

### Wrestling

seconds at 220 pounds. Heavyweight Todd Revels made the final 43-33 with a win by forfeit.

"We got five wins in a row from the strong area of our team and that was the key," Maiolini said. "DeLand almost caught up with three consecutive pins but they couldn't come all the way back."

The 'Noles will compete in the Pinellas Park Tournament this weekend with some of the best teams in the state and a few from out of state.

"We had most of our kids wrestle up a weight class tonight," Maiolini said. "They will drop down for the tournament and that will be good for them."

Seminole High's junior varsity also came away with a victory in its season opener Wednesday, 38-30, over the DeLand JV. Scott Gipe, Tom Peters and Mitch Wiggs had the key victories for the 'Noles.

## Apopka Nips Lyman On Last-Second Shot

By Scott Sander  
Herald Sports Writer

LONGWOOD — Dewey Varner hit an 18-foot jump shot as time expired, lifting Apopka to an exciting 61-60 victory over Lyman before 231 fans at the Lyman gym on Wednesday night.

For Lyman, losing close games is nothing new. The Greyhounds have lost their last three games in the final minute. The Greyhounds have now lost four in a row and have dropped to 1-4.

Apopka raised its record to 3-1. It was the second time this season that the Blue Darters pulled out a tight win over Lyman.

"We just can't seem to win the close ones," Lyman coach Tom Lawrence said. "Once again, we didn't execute our offense the way we should have."

Lyman took a 60-59 lead with only four seconds left when Mike Whittington hit a driving layup. But Varner, who scored a game high 20 points, quickly dribbled the ball upcourt and hit from just inside the three-point line as time expired.

The game was a see-saw affair from the outset. The lead changed hands nine times throughout the game. Lyman had a three-point lead several times in the final quarter, but couldn't hold it.

The game was extremely sloppily played throughout. Lyman committed 12 turnovers while the Blue Darters had 14 turnovers.

"It was a very sloppy game," Lawrence said. "We have been in all of the games that we have been playing, but we just can't win them. We have to win a close one sooner or later, and I thought it would be tonight."

### Basketball

APOPKA (61) — D. Varner 20, C. Varner 8, Cherry 4, Clark 14, Beauford 4, Stokes 4, Davis 2, Hardwick 1. Totals: 22-17-28-6.

LYMAN (60) — Starks 15, Radzak 4, Whittington 10, Lamb 12, Miller 5, Weeks 4, Flint 2, Holtgrete 1, Wright 2, Kendrick 4. Totals: 23-19-26-6.  
Halftime — Apopka 26, Lyman 25. Fouls — Apopka 12, Lyman 21. Fouled out — Lyman, Radzak. Technicals — Apopka (book technical).

But luck wasn't on Lyman's side once again.

The Greyhounds were paced by senior forward Darryl Starks. Starks scored 15 points while collecting seven rebounds. "This was another tough one to swallow," Starks said. "But I think that we can come back. It is still early in the season, and we have got a lot of time to improve."

Lyman's main offensive threat is usually senior Craig Radzak. But Radzak got in foul trouble early and was held to just six points. He fouled out early in the fourth quarter. Radzak snatched five rebounds while he was in.

"We haven't been getting the ball inside to Craig enough," Lawrence said. "We are going to have to start in a hurry."

Lyman's Whittington and Matt Lamb both had strong games as they scored 10 and 12 points respectively.

But the glass was dominated by the Darters. Lyman was outmuscled inside and seldom got an opportunity for a second shot.

Derrick Clark was Apopka's other primary offensive threat as he dumped in 14 points. Varner, a shifty senior, scored 11 of his 20 points in the second half.

The game was close from the

## Gators Wipe Out Buckeyes

GAINESVILLE (UPI) — Even Dennis Hopson wouldn't have made enough of a difference.

Ohio State's all-time leading scorer is playing for the NBA's New Jersey Nets after leading the Buckeyes to the NCAA Tournament last season. Despite Hopson's departure, the Buckeyes ventured into Stephen C. O'Connell Center Wednesday night unbeaten in their first four games.

They wobbled out looking for a place to land.

Pat Lawrence hit a pair of 3-point shots to trigger an early 16-2 spurt and Vernon Maxwell scored 25 points in leading 11th-ranked Florida to a 102-69 romp. En route to the 25th victory in their last 28 home games, the Gators outmuscled the smaller and slower Buckeyes and took command just seven minutes into the game.

"I'm shocked," Florida Coach Norm Sloan said. "It certainly wasn't the type of game I expected. We just had it going tonight and this was as complete a game as we've played on both ends of the floor this year."

Lawrence finished with 20 points and freshman Livingston Chatman had 18 for Florida, 6-1, which led 50-33 at halftime. Jay Burson scored 20 points for Ohio State and fellow guard Curtis Wilson added 18, but the Buckeyes rarely got inside and were outrebounded 51-33.

"They showed they are one of the top five teams in the country," Ohio State forward Tony White said. "Chatman has a combination of quick feet and a good body. He's a player with his future in his own hands."

# Packers' Hopes Rest In Saturday Game With Giants

**EAST RUTHERFORD, N.J. (UPI)** — Last year's game between the New York Giants and Green Bay Packers ended with the Giants winning 55-24 and the Packers swearing they would seek revenge.

The Packers' chance for vengeance will come Saturday at Giants Stadium. Green Bay, 5-7-1, will try to keep alive slim playoff hopes while the Giants, 4-9, finish a season in which they went from Super Bowl champs to the bottom of the NFC East.

The Giants blasted the Packers in the 1986 season finale, setting up a touchdown with a fake field goal and kicking a field goal with three minutes left for a 31-point victory.

The Packers screamed about the Giants' running up the score and assistant coach John Hilton, no longer with Green Bay, made an obscene gesture toward the Giants' bench near the end. The Giants countered that the Packers were taking cheap shots.

"Knowing their coaching staff, that will be one of their motivating tools," said New York

## win, lose & DREW

safety Tom Flynn, a former Packer who scored on a blocked punt last year against Green

Bay. "They'll talk about rubbing it in, that whole thing — the score, the fake field goal, going

for it on fourth down. "It's not like he (Packers Coach Forrest Gregg) is going to

try to explain that we were preparing for the Super Bowl and trying to tell teams, 'Don't rush the kicker or this will happen.'"

Gregg said he won't tell his players anything about that loss to New York.

"Last year at the time, it did bother me," Gregg said. "But it's kind of hard to stay angry a whole year. In Green Bay, we try to put the past behind us, especially the last few years. We have no grudge to bear."

Giants Coach Bill Parcells said Gregg's hard feelings didn't last long.

"I saw Coach Gregg a few weeks after the game, he was very amiable," Parcells said. "He said he understood the situation."

The players didn't at the time. "There was some contention that we ran up the score," Giants nose tackle Erik Howard said. "I don't think we did it intentionally. I think it was a situation where they let us do it."

"I'm sure the Giants had a reason for doing it," Green Bay quarterback Randy Wright said.

## Bills Can Clinch East; Seahawks Face Bears

**United Press International**  
ORCHARD PARK, N.Y. (UPI) — If they get some help from the San Diego Chargers and Washington Redskins, the Buffalo Bills can clinch their first division title in seven years Sunday.

For this to happen, Buffalo must win its game against the New England Patriots at Rich Stadium, the Chargers would have to defeat the Indianapolis Colts and the Redskins beat the Miami Dolphins.

The Bills also can secure the title by winning their two remaining games against the Patriots and the Philadelphia Eagles. If that occurs and the Colts win their two last games, both teams would finish 9-6, but Buffalo would be awarded the title on a tie-breaker.

"I'd rather keep it in simple terms," Bills Coach Marv Levy said. "If we win both of our remaining games, we win the division. We're not playing poker beyond that."

**SEATTLE (UPI)** — Seattle Seahawks Coach Chuck Knox said the Chicago Bears' embarrassing loss on Monday night will not affect how his team gets ready for Sunday's game.

The Bears, 10-3, lost a shot to take control of the home-field race for the NFC playoffs by getting routed 41-0 by San Francisco. Chicago already has clinched the NFC Central.

"It won't affect our preparation, but I see that (San Francisco Coach) Bill Walsh feels sorry for the next team that plays the Bears," Knox said. "I expect they'll be fired up, but we will be fired up too. We've got everything going on this game."

The Seahawks, 8-5, trail AFC West-leader Denver by a half-game and are one of 11 conference teams still battling for five playoff berths.

Knox said he's more worried

## Football

about the possible return of Bears quarterback Jim McMahon and the Chicago defense than which team will have the psychological edge.

**LOS ANGELES (UPI)** — Bo Jackson, who sprained his right ankle last week, was listed as questionable by the Los Angeles Raiders for Sunday's game against the Cleveland Browns.

"It's a day-to-day thing," Raiders Coach Tom Flores said Wednesday. "His ankle is a little sore, but there is no tremendous swelling. We'll monitor the ankle as the week goes on."

Jackson, who has gained 544 yards on 81 carries after concluding his season as an out-fielder for the Kansas City Royals, suffered the injury on the first play of a loss last Sunday to Kansas City that eliminated the 5-8 Raiders from playoff contention.

Quarterback Marc Wilson, whose million-dollar-a-year contract expires in two games, threw three interceptions, but Flores said he will start against the Browns. The coach said he sees no reason to activate 40-year-old quarterback Jim Plunkett, adding it is too early to tell if Plunkett will return next season. The Raiders also have Rusty Hilger, Vince Evans and Steve Beuerlein on their roster.

**PHILADELPHIA (UPI)** — Philadelphia Eagles Coach Buddy Ryan intends to use the last two games of the season to examine rookie Byron Evans.

Evans, the Eagles' fourth-round draft pick, started at middle linebacker in Sunday's 28-10 loss to the Miami Dolphins because of an injury to Mike Reichenbach.

## NFL Playoff Picture

**NEW YORK (UPI)** — Team by team look at playoff possibilities for each conference:

### AFC

**Eastern Division**  
Buffalo can clinch division title Sunday by defeating New England if Indianapolis and Miami also lose. Bills will also win the title by closing with two victories.

**Indianapolis** can win division title by winning its last two games if Buffalo loses once. Colts will also win the title by defeating San Diego Sunday if Buffalo or Miami lose both its games.

**Miami** can win division title by winning its last two games if Buffalo and Indianapolis also lose once. Dolphins will also win the title if they defeat New England in the final game. Buffalo and Indianapolis each lose twice and the New York Jets lose once.

**New England** can win division title by defeating Buffalo and Miami if Indianapolis loses once. Patriots can also win title by winning both games and finishing tied with either Buffalo, Miami or Indianapolis.

**New York** can win division title by winning both games if Buffalo and Indianapolis lose both games, and Miami loses to Washington Sunday and defeats New England Dec. 28.

**Central Division**  
Cleveland can win division title by winning both games. Browns can also win title if they defeat Pittsburgh Dec. 27 and finish tied with Pittsburgh or Houston. Browns can earn home field throughout playoffs by winning twice and Denver and San Diego each lose once.

**Pittsburgh** can win division title by winning both games. Steelers can earn home field throughout playoffs by winning twice if Denver loses once.

**Houston** can clinch division title by winning both games if Cleveland loses to Pittsburgh.  
**Western Division**  
Denver can clinch playoff berth by defeating Kansas City Saturday, if Cleveland, Pittsburgh, San Diego or Seattle lose once. Broncos can clinch division title if they win final two games, or if they defeat Kansas City and San Diego and Seattle lose once. Broncos can earn home field throughout playoffs with two victories.

**San Diego** can win division title by winning twice if Seattle loses once. Chargers can clinch playoff berth with two victories.

**Seattle** can win division title if they win twice and Denver loses once. Seahawks can clinch playoff berth with two victories.

**NFC**  
**Eastern Division**  
Washington has clinched division title and will be home team in divisional playoff Jan. 9 or 10 if Redskins win twice and San Francisco loses twice or Chicago once.

**St. Louis** can be wild card by winning twice if the LA Rams and Minnesota both lose once. Cardinals can also be wild card if they win once and the LA Rams and Minnesota both lose twice and Green Bay loses once.

**Central Division**  
Chicago has clinched division title and will be home team in divisional playoff Jan. 9 or 10 by winning twice. Bears will also be home in divisional playoff if they win once and Washington loses twice. Bears can earn home field throughout playoffs if they win twice and San Francisco loses twice.

**Minnesota** will be wild card if it wins twice or wins once and St. Louis loses once. Vikings will also be wild card if they lose twice and St. Louis loses twice and LA Rams, Green Bay and Philadelphia each lose once.

**Green Bay** can earn wild card with two victories if New Orleans and Minnesota each lose twice and St. Louis and LA Rams each lose once.

**Western Division**  
San Francisco has clinched playoff berth and can win division title by winning twice. The others can also clinch division if New Orleans loses twice or if they win once and New Orleans loses once. San Francisco will earn home field throughout playoffs with two victories.

**New Orleans** has clinched playoff berth and can win division by winning twice if San Francisco loses once.  
**Los Angeles** will be wild card if it wins twice and Minnesota loses twice. Rams will also be wild card if they finish 7-8 or 8-7 and finish in three-way tie with Minnesota and St. Louis.

WE RESERVE THE RIGHT TO LIMIT QUANTITIES

# Miller Boosts Lake Mary

By Chris Pieter  
Herald Sports Writer

With a pretty balanced offensive attack and a sound defensive club, the one thing Lake Mary's Rams need to become a contender this season is leadership.

If senior point guard Terry "The Cat" Miller can continue to come through like he did Wednesday night, the Rams will certainly be a team to be reckoned with come tournament time.

Miller pumped in 18 points, including 8 of 8 free throws in the second half, and did a superb job running the show as Lake Mary downed Orlando Boone's Braves, 57-52, at Boone High.

"Terry (Miller) showed us some good leadership tonight," Lake Mary assistant Steve Carmichael said. "He really took control of the game in the second half."

The Rams improved to 3-1 overall and return to Seminole Athletic Conference action Friday night at home against DeLand.

Boone, behind the shooting of Kevin Bannon and Larry Holt, took a 32-24 lead at halftime. Lake Mary came back behind Miller and Bernard Mitchell to draw close after three quarters, then made its move in the fourth period.

"We didn't play well early but we got strong defensively and picked it up offensively in the second half," Carmichael said. "We didn't get the lead until two minutes left and then we hit the free throws down the stretch."

Included in Miller's 18 points were a pair of three-point shots while Mitchell also had an outstanding night for the Rams as he matched Miller's game-high 18 points. Cory Prom added nine points, including one three-pointer, while Carlos Hartfield provided the spark off the bench with eight points, including 3 of 3 shooting from the floor and 2 of 2 from the free throw line.

In junior varsity action Wednesday, Lake Mary fell to 2-2 for the season with a 52-39 loss to Boone.

**LAKE MARY (57)** — Prom 9, Miller 18, Worden 2, Mitchell 18, Hartfield 8, Hillman 2. Totals: 21 12 52.  
**BOONE (52)** — Banton 7, Jackson 5, Bannon 12, Holt 10, Kelly 4, Dickman 8, Lee 4. Totals: 21 11 52.  
Halftime — Boone 22, Lake Mary 24. Fouls — Lake Mary 12, Boone 9. Fouled out — none. Three point goals — Miller 2, Prom, Bannon 2, Banton. Records — Lake Mary 3-1, Boone 4-2.

Herald Photo by Tommy Vincent

Seminole goalkeeper Chris Bowlin unloads a punt. The Seminoles return to conference action tonight at Lake Howell. Seminole is 3-3 overall, but is still searching for its first SAC win.

# Brandon Sets Record

BRANDON (UPI) — The Brandon Eagles have set a national high school boys' wrestling record by going unbeaten in their 176th consecutive match, surpassing the former record set by Bismarck, N.D., High School.

The Eagles set the record Tuesday night with an 84-0 rout of Tampa Jefferson High School.

The Eagles have won the Western Conference title 15 straight times and are 6-0 this year.

Their last loss was a 28-19 decision against Bradenton Manatee Feb. 20, 1973, and their last non-victory was a 24-24 tie with Bradenton Manatee Jan. 26, 1974.

# Lady Rams Upend Lake Howell, 2-1

By Chris Pieter  
Herald Sports Writer

Michelle Mattingly and Donna Rohr scored one goal each and Tammy Scott made some key saves as Lake Mary's Lady Rams downed Lake Howell's Lady Silver Hawks, 2-1, Wednesday night in Seminole Athletic Conference action at Lake Howell High.

The Lady Rams, ranked seventh in the state, improved to 8-2 overall and 3-1 in the SAC. Lake Howell, No. 9 in the state, now stands at 6-1 overall and 4-1 in the conference. Lake Mary will play DeLand Friday at 4:30 p.m. in the first round of the Burger King Classic Tournament. Lake Howell's opening opponent, South Plantation, pulled out of the tournament as did Brantley's first-round foe, Tarpon Springs. That means Howell and

# SAC: One Rugged League

By Chris Pieter  
Herald Sports Writer

You would have to look long and hard to find a soccer conference as strong as the Seminole Athletic Conference. In fact, there may be no equal in the state of Florida.

Seminole High knows that first hand. The 'Noles have one of their most competitive teams ever in 1987-88. Seminole has a spotless 3-0 record outside of the SAC but is in the cellar in conference play at 0-3. DeLand was always competitive in the Volusia County conference, but is winless in its first year in the rugged SAC.

Lyman (No. 7) and Lake Mary (No. 10) are both ranked among the state's best while Lake Howell and Lake Brantley have each been ranked high in previous seasons and Oviedo is currently among also-receiving-votes in Class 3A.

RAC action heats up again tonight with three games on the slate. Seminole, which played well in a 3-2 loss to Lake Brantley on Tuesday, is at Lake Howell. Lake Mary hosts DeLand and Lyman is at Oviedo. In nonconference action, Lake Brantley hosts Orlando Colonial.

At Lake Howell High, Seminole looks for its first SAC win in two years against a young but talented Lake Howell side. The 'Noles are led by Darren Fogle and Chuk Roll on offense. J.J. Partlow in defense and goalkeeper Chris Bowlin has also played well this season. Erik Bird leads the Lake Howell charge while the Hawks also have a top-notch goalkeeper in Joey Schulman.

At Lake Mary, the Rams will look to fill the gap left when Ernie Broenne was lost with an ankle injury. Broenne, the leading scorer in the league a year ago, may be lost until late in the season and perhaps the entire season according to coach Larry McCorkle. While the Rams will look for help in the scoring department, their defense is certainly capable of holding its own led by two of the state's best players, Scott Schmitt and goalkeeper Pete McNally.

At Oviedo High, Lyman's Greyhounds invade the Lions' Den after playing some impressive soccer the past few games. Mark Dubin has done an excellent job creating opportunities for Lyman while Tom Sells and Greg Bailey are putting on the finishing touches. Duncan Jones and Rob Seltzer lead an Oviedo team that is capable of playing with the best when it is on.

At Lake Brantley, the Patriots look for their second win in a row against Colonial's

# Soccer

## SPORTS TONIGHT

**GIRLS BASKETBALL:** Lake Howell at Seminole (JV 8, varsity 7:45); Lake Mary at DeLand (7); Lyman at Oviedo (JV 8, varsity 8);  
**BOYS SOCCER:** Seminole at Lake Howell (JV 5:45, varsity 7:30); DeLand at Lake Mary (JV 5:45, varsity 7:30); Lyman at Oviedo (JV 5:45, varsity 7:30); Colonial at Lake Brantley (JV 5:45, varsity 7:30).

Grenadiers. Pablo Garzon has been Brantley's top scoring threat while Billy Langston is another top performer for the rebuilding Brantley squad.

**SOOPS: HOWELL-SEE VIB FOR SAC LEAD**  
While there promises to be the usual excitement on the soccer fields, the basketball arenas will also have some big matchups tonight. In Seminole Athletic Conference girls action, Seminole plays host to Lake Howell while Lake Mary goes to DeLand and Oviedo entertains Lyman.

At Seminole High, Seminole and Lake Howell play for at least a share of first place in the SAC. The Lady Seminoles, 4-3 overall, are 1-0 in the league and 10th-ranked (Class 4A) Lake Howell, 9-1 overall, is 2-0. Seminole will be missing two of its main players, guard Adrian Hillsman and center Sherri Reddick, who are out with knee injuries.

"We need the Christmas break for the kids to get well," Seminole coach Charles Steele said. "Every time I think I have them all ready, another one gets hurt. But, I still think we can give Lake Howell a game."

At DeLand, the host Lady Bulldogs look to keep their unbeaten conference record going. DeLand is 2-0 in the league while Lake Mary stands at 0-2. C.C. Hayden's 30 points enabled DeLand to fight off peaky Oviedo on Tuesday while Lake Mary dropped a six-point decision at Lake Howell.

At Oviedo, Lyman and the host Lady Lions look for their first SAC victory. Oviedo is 4-2 overall and 0-2 in the league while Lyman is 4-6 and 0-1. Suzanne Hughes and Bridget Jenerette have been the most consistent performers for Oviedo while Shari Siegrist and Jennifer Krueger lead Lyman.

# Soccer

Brantley will play Saturday afternoon at 2.

"It was a very hard-played game," Lake Howell coach Art Raynor said. "Lake Mary played very well the first half, had a lot of nice combinations and won most of the balls in the air. We had a better second half because the midfield started playing better but we could only get the one goal."

Lake Mary took a 1-0 lead with 13:21 left in the first half when Mattingly scored an unassisted goal. The Lady Rams were slowed a bit late in the first half, though, when Crisalie Snow went out with an ankle injury.

# DelRusso 'Assists' Brantley Victory Over Seminole

By Chris Pieter  
Herald Sports Writer

Christmas is the season of giving and Julie DelRusso is certainly doing a lot of it for Lake Brantley's Lady Patriots.

DelRusso dished out three assists and also scored a goal Wednesday night as Lake Brantley's Lady Patriots stormed to a 7-0 Seminole Athletic Conference victory over Seminole High at Seminole Stadium.

Lake Brantley, ranked fifth in the state, ran its record to 8-0-1 overall and is in sole possession of first place in the SAC at 5-0. Seminole dropped to 3-5 overall and 1-4 in the conference.

"We've changed our philosophy with Julie

# Soccer

(DelRusso) this year," Lake Brantley coach Wolfgang Halbig said. "We want her to be our playmaker. Once you win conference as the scoring leader, people expect you to come back and do the same thing. But, her role is to be out on the left wing and create the plays. And she is doing a real good job of it, averaging three assists per game."

Seminole defense held tough for 15 minutes before the Lady Patriots exploded. Cara Marlen scored the game's first goal on an assist from Jennifer McMasters. DelRusso then scored on

Marten's assist for a 2-0 lead and Brantley took a 3-0 halftime advantage when Stacy Fox scored on DelRusso's first assist.

DelRusso got the assist again as Karen Kopp opened the second half scoring and DelRusso's third assist resulted in a goal by McMasters. McMasters' second goal, on an assist from Kopp, made it 6-0 and Cindy Becker closed out the scoring on an assist from Shannon Anderson.

"I'm really pleased with the team so far," Halbig said. "We're not scoring as much as last year, because we're trying to find the right combinations. We've been experimenting about three weeks and, now, I feel like we've found it."

Lake Brantley took 28 shots on goal compared

to two for Seminole. The Lady 'Noles were slowed on offense because it had to play most of its skilled offensive people on defense due to injuries.

"We didn't have anyone to move it up on offense so I didn't think we could score on Brantley," Seminole coach Suzy Reno said. "But the girls did a good job on defense and I was proud that they held Brantley scoreless the first 15 minutes. The girls kept fighting to the end and I was happy with that."

Both teams return to action in the Burger King Classic Tournament this weekend. Seminole plays Bishop Moore Friday night at 6:30 while Lake Brantley played Lake Howell Saturday at 2 p.m.

# Lady 'Noles Fall To Seabreeze

By Chris Pieter  
Herald Sports Writer

The temperatures outside continued to fall and Seminole High's girls basketball team couldn't get warmed up once they got inside either.

The Lady 'Noles had one of their worst shooting nights of the season Wednesday in a 52-40 loss to Seabreeze's Lady Sandcrabs at Daytona Beach.

Seminole, 4-3 overall, will look to rebound tonight in Seminole Athletic Conference action at Lake Howell. Seminole is 1-0 in the league and Lake Howell is 2-0.

"We got the shots all night but couldn't hit anything," Seminole coach Charles Steele said. "The first quarter we could have had a 10 to 15 point lead easily but blew at least five uncontested layups on fastbreaks."  
"I hope we don't play like that

# Basketball

anyone this year," added Steele. "It was pretty terrible."

No player for Seminole scored in double figures Wednesday as Adrian Hillsman's nine points led the way. Liz Long added eight points and Leticia Strickland and Chineta Gilchrist had seven apiece. Along with its troubles from the floor, Seminole also managed only 10 of 25 from the free throw line.

All-State player Kenya Robinson had a game-high 22 points to lead Seabreeze and Sandra Moore tossed in 13.

Seminole was without sophomore center Sherri Reddick who injured a knee in Tuesday's game against Lake Brantley. Reddick will not play tonight's game either.

# Seminole

SEMINOLE (40) — Higgins 8, Cash 2, Long 8, Hillsman 9, Gilchrist 7, Strickland 7, Toombs 6. Totals: 15 10 25-40.

SEABREEZE (52) — K. Robinson 22, S. Moore 13, Brown 6, L. Robinson 0, Youmans

# Seabreeze

5, Mellon 6. Totals: 20 12 17-52.

Halftime — Seabreeze 26, Seminole 22. Fouls — Seminole 16, Seabreeze 21. Fouled out — K. Robinson. Three point goals — none.

# ...Apopka

Continued from 8A

end of three quarters. Apopka held a 57-53 lead with just 1:40 left, but a pair of buckets by Lamb cut the lead to 59-58. Whittington scored what appeared to be the winning basket after Clark missed a free throw and Starks fed Whit-

tington with a perfect pass.

But Varner calmly dribbled up court, took a quick peek at the clock, and sank the 18-footer.

"I don't know what we have to do to win one," Lawrence said. "You dig yourself a hole, and it is tough to get out of."

**LYMAN JV WINS** — The Lyman junior varsity squad pulled out a 50-38 victory over Apopka on Friday night. Octavius Holliday led all scorers

with 18 points.

The triumph lifted the Greyhounds to 4-1. Marvin Reed also chipped in with 11 points.

# BRANTLEY STINGS HORNETS

The Lake Brantley Patriots jumped out to a quick lead and never looked back en route to a 60-51 victory over Bishop Moore on Wednesday night at Lake Brantley.

The triumph upped the Patri-

ots to 3-1. The Pats will return to the hardwood on Friday night at Winter Park.

Darren Leva led the Pats with 16 points. Bo Pamplin added 11 while Doug Lawson added 10 points.

"It was kind of a slow game," Lake Brantley coach Steve Jucker said. "But I was happy with our overall performance. Bishop Moore was a very pesky team."

# ...Seabreeze

Continued from 8A

Seminole went over three and a half minutes without a score.

"We had a lot of mental breakdowns during that period," Robinson said. "We were all right until we got our heads out of the game."

After the Sandcrabs had taken a 35-30, lead Whitney nailed a short jumper and appeared to wake the sleeping Seminoles up. A steal and a score by Bellamy cut the lead to 35-34 with 2:06 left in the third quarter.

Seminole could not convert again in the quarter and Seabreeze put five more points on the board for a 40-34 lead going into the final period.

Chris Belgrave opened the fourth quarter with a long jumper to give the Sandcrabs a 42-34 advantage with 7:32 to play. Whitney answered with a jumper at the other end to narrow the margin to 42-36 with 7:16 left.

Smith then hit a driving jumper and came up with a rebound off a missed Whitney jumper. Seabreeze's offense then set up and again went to Smith who dished the ball off to Scott Stipalta inside for an easy hoop.

Whitney then sank four consecutive free throws to bring the Tribe to within, 48-40, with 3:31 remaining in the game.

Seabreeze scored the next nine points to put the game out of reach. Smith scored six point in the run leading it off with a

jumper with 3:08 left. Stipalta followed the shot with one of two from the line with 2:27 to play.

Smith then canned another jumper with 2:25 left forcing Seminole into a must foul situation to come back. The Sandcrabs shot 7 of 8 from the line in the fourth quarter including 6 of 6 in the final two minutes.

Beckton and Smith ended the Seabreeze scoring binge with a pair of free throws each to extend the lead to 55-40 with 1:34 left.

Danny Hartley hit consecutive buckets for the Tribe but it was too late for the Seminole offense to pose any kind of a threat.

"We just had a dropoff that killed us," Robinson said. "We can't get down though, we have two more games to play this week."

# SEMINOLE JV WINS

Earl Williams, Bernard Eady, Andreas Redding, Brandon Cash and Robert Moore all scored in double figures for the Tribe as the junior varsity squad whipped Seabreeze, 79-62, at Seabreeze Wednesday night.

Williams led the way with a game-high 20 points for the Tribe, now 5-0. Cash added 14, Eady and Moore each tallied 13 and Redding netted 11.

Williams also dished out four assists in the winning effort. Cash pulled down a game-high 12 rebounds as Moore ripped down 10 more for the Seminole's.

Seminole will take the floor again Friday night at Lake Howell. Tip-off time is scheduled for 6:15.

## Market Active, Prices Mixed

NEW YORK (UPI) — Prices opened mixed today in active trading of New York Stock Exchange issues.

The Dow Jones industrial average, which jumped 32.99 Wednesday, was down 3.85 to 1970.82 shortly after the market opened.

Advances led declines 565-443 among the 1,422 issues crossing the New York Stock Exchange tape.

Early turnover amounted to about 17,556,000 shares.

Stock prices scored sharp gains Wednesday as a spate of computer-driven buy programs drove the market higher in the last half hour of trading.

"There's been a relative lack of selling," said Rodd Anderson, a vice president in the equity

trading department of Shearson Lehman Brothers Inc.

Anderson attributed the late gain in the Dow, which showed a mere 3.65-point gain an hour before the close, to futures-related buy programs.

The market started the day mixed and then drifted within about 10 points above or below the opening level for most of the day. Analysts said that after an early round of profit-taking many investors spent the day repositioning their portfolios to take advantage of the market's gains.

"We've been up in a pretty straight line for a number of days and what the market is doing now is consolidating," said Hildegard Zagoraki, market analyst with Prudential-Bache Securities Inc. "It's moving sideways."

## Dollar Continues Dip Gold, Silver Mixed

By United Press International

The dollar closed at another new post-World War II low in Tokyo today and fell to record lows in Frankfurt, Amsterdam and Zurich as the battered currency slumped across the board at the opening of major world money markets. Gold was mixed.

Dealers in Tokyo said the new fall was triggered in part by remarks by Japanese and West

German officials that indicated the two nations would accept a further decline in the dollar.

In Tokyo, despite central bank intervention, the dollar closed at a new low of 126.55 yen, down 1.05 yen from Wednesday's close of 127.60 yen.

Japanese Finance Minister Kiichi Miyazawa said the government would intervene to prevent wild fluctuations of exchange rates.

## GNP Growth Called Robust

WASHINGTON (UPI) — The gross national product grew at 4.3 percent between July and September, even better than the robust gain for the quarter estimated last month, final government figures showed today.

The revised estimate from the Commerce Department said the nation's output of goods and services in the third quarter increased \$40.6 billion.

In the second quarter, the GNP increased 2.5 percent, or \$23.1 billion. The numbers are adjusted for inflation.

In its first estimate of economic growth for the third quarter, the government said it expected a 3.8 percent gain, then last month revised the number to 4.1 percent.

The new rate of 4.3 percent reflects how much the GNP would rise after inflation if every three-month period performed like the third quarter.

The Commerce Department's Bureau of Economic Analysis nudged the figure upward after finding more personal spending and more government purchases of goods and services than it first detected. Those overcame cuts

in earlier estimates of exports and business and residential investment.

Today's revision suggests America is in even better shape than previously thought to survive October's stock market crash.

### Citrus Shipments

WINTER HAVEN (UPI) — Today's citrus shipments reported by the Division of Fruit and Vegetable Inspection. Shipping total in 4-5th bushel cartons and cannery totals in 1.3-5th bushel boxes:

Export — 7,338 grapefruit, 4,113 early-mid oranges, 1,399 navels, 608 Orlando tangelos, 5,234 Dancy tangerines.

Export — 120,270 grapefruit, 138,370 grapefruit, 121,811 early-mid, 82,213 navels, 259 Nova tangelos, 62,589 Orlando tangelos, 24 Robinson tangerines, 31,344 Dancy tangerines.

Cannery — 120,540 grapefruit, 807,205 early-mid, 9,242 navels, 46,400 tangelos, 8,342 tangerines.

Shipping total — 575,672. Cannery total — 991,729.

## Earthquake Injures 53 In Japan

TOKYO (UPI) — An earthquake measuring 6.6 on the Richter scale rocked central Japan today, killing two women, injuring 53 people and damaging more than 7,500 homes, police said.

Geologists said the quake, with an epicenter 6 miles off the coast of Japan and 44 miles below the seabed, would have caused much greater damage if it had hit closer to the ocean floor. The quake measured 6.6 on the open-ended Richter scale at its epicenter.

The quake struck at 11:08 a.m. (9:08 p.m. EST Wednesday) and shook the Tokyo area for 10

minutes, cutting off electricity and phone lines in the central business district and halting most train traffic, which affected thousands of passengers, officials said.

The strength of Japanese buildings was credited with helping keep damage to a minimum.

The quake hit hardest in Chiba Prefecture, a state bordering Tokyo on the southeast, where it registered 5 on the Richter scale.

The 32-year-old wife of a priest was killed when a stone lantern fell on her in Mobarra City, 30 miles southeast of Tokyo, Chiba

Prefecture police said.

In nearby Ichihara City, a stone wall collapsed, killing one woman, police said.

The public-funded NHK television reported 53 people were injured, most by falling concrete walls which surrounded many Japanese homes, and 7,533 houses were damaged.

Several windows broke at the New Tokyo International Airport in Narita where traffic was temporarily halted.

Chiba police said one house was destroyed, 14 were partially damaged and 15 people were hospitalized with injuries.

## McCollum Hearing Set

The Winter Springs man accused of murdering and then mutilating his mother last July is scheduled to appear at the Seminole County Courthouse Friday afternoon for a hearing to decide whether he will stand trial or should be institutionalized because he was insane when he committed the crime.

Seminole County Public Defender Arthur Haft said he plans to stipulate that Sean Bernard McCollum, 21, of 1046 Chokecherry Drive, was insane on July 9, when he allegedly beat his mother to death with a baseball bat and then cut off her extremities and other portions of her body with a hatchet.

The hearing will take place before Circuit Judge S. Joseph Davis, according to the judge's secretary. She said the hearing was expected to be a "very short" one.

Haft said McCollum has been determined insane at the time of the crime after psychiatric examinations by four different doctors, including one doctor who also performed testing on convicted killer Ted Bundy.

"All of the experts agreed he (McCollum) was insane at the time of the crime," Haft said. He added that he didn't believe he would have any difficulty in getting McCollum judged insane and incompetent to stand trial.

If McCollum is found insane, he will be committed to a Department of State Health and Rehabilitative Services (HRS), according to Haft. McCollum is expected to then be assigned to a state mental facility, probably for the remainder of his life.

McCollum has been confined at the Seminole County Jail since his arrest.

## Iran

Continued From Page 1A

reported injured. The crew refused to board the tanker and port authorities were making arrangements to bring them to Dubai in the United Arab Emirates.

Shipping officials said the blaze was brought under control by crewmen and a salvage tug but that the ship was still on fire in the afternoon.

The Iranians attacked the 16,322-ton cargo ship 11 miles south of Abu Musa — the Iranian island in the heart of the southern gulf used by Revolu-

tionary Guards to stage attacks on shipping.

At 11:25 a.m. the Iranian speedboats returned and sprayed the Island Transport and a tugboat with cannon and machine gun fire, a shipping official said.

A CBS News chartered helicopter that was near the tanker recording the incident came under fire as well but the Iranian shots missed the chopper and no one was injured, according to the CBS bureau in Dubai.

The Iranian attacks were part of the most devastating series of attacks on merchant shipping in the gulf by Iran and Iraq since the two nations began preying on commercial vessels in the

vital waterway in March 1984.

On Wednesday Iranian gunboats attacked and set ablaze a Greek tanker bound for Bahrain, the island nation critical to U.S. Navy operations in the gulf.

Three grenades crashed into the crew quarters of the World Produce and a fourth slammed into the engine room, killing her giant motors and leaving her dead in the water off the coast of Ras al Khaimah in the United Arab Emirates.

Iraq responded to the Iranian strike on the World Produce — the second on a Greek tanker in two days and the fifth Iranian attack on shipping in the gulf since Friday — by attacking two more ships serving Iran's northern gulf oil facilities.

## Lake Mary Mayor Wants State Deposit 'Bottle Bill' Approved

By Brian Hedberg  
Herald Staff Writer

Wanting less solid waste going into landfills and the state's aquifers protected, Lake Mary Mayor Dick Fess will ask the city commission Thursday to approve a resolution calling for action on the issue by the State Legislature.

The resolution urges the legislature to make a proposed container-deposit legislation a law during its 1988 session, a law which would provide for a minimum 5-cent deposit on every beverage can and bottle turned in.

Fess said the resolution was prompted by Florida's League of Women Voters, which is supporting a state "bottle bill" similar to such bills in nine other states. "I am totally in support of this," he said. "We're just the first ones to do it (the resolution). I like to jump on these things and move on to whatever's next."

According to the resolution, other states with the law show up to a 90 percent reduction in beverage container-type litter and up to 6 percent — or 2,000 tons — less solid waste going to landfills.

"I think we need to bite the bullet, incinerate all of our garbage that's possible, shake out the byproducts, and keep the aquifer from possible pollution by the landfill," Fess said.

He said 75 to 80 percent of what goes into the landfill could be burned.

The resolution urges state lawmakers to adopt and pass a "bottle bill," using the Oregon and Michigan bottle bills as guides, during their 1988

legislative session.

Regardless of the material used in the manufacture of bottles and cans, collectors should give the consumer at least 5 cents per empty container he returns, the resolution says.

Fess said a bottle bill in Florida would cut solid waste pouring into landfills; reduce litter in parks, lakes, rivers and roadsides; and conserve energy by recycling rather than manufacturing with raw material.

While Fess said he claims no affiliation with Greenpeace or any other conservation group, he would do "anything to conserve the water, to protect our aquifer. The aquifer is entirely too valuable to risk polluting."

Nobody wants to pay for a recycling program, Fess said, despite the conservation benefits. "Most people say a reclamation project is too expensive, that it would cost millions. But how much is your

atmosphere and aquifer worth? That's something we don't have much choice about."

The city has had its share of volunteer newspaper, and can, recycling projects. Fess said, all of which fizzled out for eventual lack of motivation by contributors. "If there's a monetary value to it, we assume more people would want to do it," he said.

"Lake Mary is a drop in the bucket statewide," Fess added. "We need a statewide effort."

Recycling bills and similar proposals have come to the legislature floor over the past several years, said Peggy Potter with the League of Women Voters of Florida.

Effects of container-deposit legislation in other states will be discussed and analyzed when the league sponsors workshops for that purpose in five cities in January, Potter said. She said the league now is being compiling data on such legislation's effects.

## ...Crisis

Continued From Page 1A

A representative with the Florida Power Corporation, which provides Lake Mary's electricity, said a traffic accident in Longwood brought down a power pole and lines and cut off power to Longwood and Lake Mary.

The police generator should have kicked on when the electricity went down, Taggart said.

Capt. Sam Belfiore was called to try to fix the dead generator. "That's what happens when you

buy a Chrysler product," he said. "Chrysler motors are known for not starting in cold weather."

Belfiore tried by phone to get operating directions from Tampa Armature Works Inc. of Orlando, which provides maintenance repair work for the police department generator. He said they could not direct him by phone but that they were sending an employee to Lake Mary.

Several police department employees said the gas pump and battery, both of which appeared to be malfunctioning, recently had been replaced or checked and should not be out.

## ...Plan

Continued From Page 1A

personnel study, the commission approve updating a study Long Associates did for Lake Mary five years ago. Other commissioners agreed. City Manager Bob Norris said the study update would save Lake Mary "thousands of dollars" over instituting a new study.

That former study, however thorough, was left to collect dust on a shelf, apparently because then-city leaders were unhappy with the recom-

mendations.

Norris said the Long Associates proposal includes job descriptions and comparative wage studies for Lake Mary's police department. Police Chief Charles Lauderdale has said his officers' pay increases are not enough to remain competitive with other law enforcement agencies.

Percy commented, "I think what we'll see next year, once the new city manager gets his feet on the ground, is a more comprehensive plan for overall salary — what various positions are worth and what kind of allocation in the budget should be made for merit raises and cost-of-living increases."

## Ixora Garden Club Landscapes Marina Entrance

At the entrance to Sanford Marina stands a stately palm tree surrounded by a beautiful landscape. But the plot was not always so attractive.

Last Friday, the Sanford Scenic Improvement Board officially dedicated the recently landscaped site with the public invited to the dedication ceremonies.

The landscaping has been a project of Ixora Garden Club of Sanford. The clubwomen took on the landscaping program funded by the proceeds from the club's 1986 Holiday Boutique which amounted to about \$3,200. Ixora Garden Club purchased the plants and city crews provided the labor.

The club initiated the beautification project when members, Juanny Mercer and Judy Wimblish, were on the SIB committee. The project began under the presidency of Amelia Royster and continued through to the presidency of Louise Dotson.

"We are proud of it," Juanny Mercer said.

Ixora Garden Club has never let any grass grow under its feet. Several years ago, the club started a Poison Plant Garden at Central Florida Regional Hospital which has been an excellent source of education on poison plants for scheduled tours through the interesting garden.

### Volunteer Of The Month

Monthly, the Woman's Club of Sanford Inc. honors a woman for dedicated volunteerism. At the December meeting, Mayor Betty Smith, right, club president, cited Helen Kaminsky as the club's "Volunteer of the Month." According to the president, Mrs. Kaminsky has worked with senior citizens in the community for more than 20 years and has made numerous outstanding contributions in their behalf.

### Eclectic Is The Word

Clint Rhodes, center, holding scissors, his wife, Bonnie, left, owners of Wayward Eclectic, and Cheryl Turner, right, store manager, are surrounded by members of the Greater Sanford Chamber of Commerce Welcoming Committee at the ribbon-cutting arranged by the chamber. The specialty shop, located at 205-E East First St., Sanford, carries a complete line of unique items including cards, gifts, toys and a bridal and gift wish registry.

## Friend Wants To See Woman But Without Hearing Her Kids

**DEAR ABBY:** Within the last few years, I became very friendly with a young woman I met through work. (I'll call her Jane.) We used to spend a lot of social time together. Jane has two young children. I have one. My child is no angel, but she has been taught good manners and proper behavior. Jane's children are disruptive, ill-mannered and careless (breaking toys, spilling things), and scream at the top of their lungs until they get their own way. They also interrupt every conversation Jane and I try to carry on. Meanwhile, Jane makes no effort to discipline them. Finally, I could no longer stand to go to Jane's house and hold my tongue, so I started making fewer and fewer visits.

Eventually she asked me what was wrong. Did she do something offend me? I assured her that nothing was wrong and she had not offended me, but I'm not sure that was a fair explanation. Abby, how can I tell her I get fed up with battling for conversation time with her while her children were around? And I certainly couldn't tell her I couldn't invite her to my home because her children were too ill-mannered and uncontrollable.

What should I do? Must I wait until Jane's children grow up? Or tell her the truth, and risk losing her friendship?

#### NO-WIN SITUATION

**DEAR NO WIN:** Tell Jane the truth with all the love and diplomacy you can muster. She's doing a grave disservice to her children who cannot be expected to know what they have not been taught. Ill-mannered and badly behaved children are obnoxious and, therefore, friendless. You would be doing Jane and her children an enormous favor.

**DEAR ABBY:** My mother is giving me the silent treatment. Here's the story: I'm 34, my wife is 33. We've been married for six years, both have good jobs and have never asked our parents for a dime. We are a sensible couple who have always lived within our means.

We just moved into a new condo that we are renting. My mother asked me how much rent we are paying. I said something like: "Oh, Mom—don't worry—we're able to handle it." She wasn't satisfied, so she asked me again. Again I told her she didn't have to worry—but I did not tell her how much rent we were paying.

Ever since then, she's been giving us the silent treatment.

Dear Abby

Knowing my mother, this is her way of punishing us. Do you think she was wrong to ask me how much rent we were paying? And do you think I was wrong for refusing to tell her?

#### SOMEWHERE IN THE USA

**DEAR SOMEWHERE:** Your mother was out of line to have asked. You were within your rights to have politely refused to tell her.

**DEAR ABBY:** I have worked at this fairly large office for two years. I also have a part-time job because I am deeply in debt following a bad marriage to a compulsive gambler and drinker.

I'm handling my life quite well, but there is a problem I can't handle. It seems that every time I turn around, a co-worker (at both jobs) asks me to pitch in for someone's birthday, anniversary, bridal shower, going-away present, baby gift, flowers, a card—I think you get the idea. All they want is a dollar or two, but it all adds up. Abby, I don't want to appear stingy, and I hate to be the only one in the office to say no, but if I say yes to all these requests, I'll be short of money that's already been earmarked for rent, groceries, insurance, utilities, car payment, gas and so forth.

Is there an excuse that's acceptable?

#### NOTHING TO SPARE

**DEAR NOTHING:** Don't look for an "excuse"—give a reason. You are not obligated to give if it's a hardship for you. The next time you're asked, smile pleasantly and say, "I would love to give, but I have some pressing obligations that make it impossible at the moment." Nothing more. Nothing less.

**DEAR ABBY:** Our small office group (seven) recently took up a collection of bets and played paycheck poker. The person with the best poker hand among his paycheck's six digits wins the pool.

I held the winning checkstub (three 8s) and went to the gal who had collected the bets to show her my winning numbers.

She checked them out, and then in the center of the office floor proceeded to flip seven \$1 bills around her feet, saying in a voice for all to hear that the winner must pick up the bills and collect the money for the next payday pool. I was appalled and told her I felt humiliated. She said, "Think what it's doing for your waistline." (No one laughed.)

I went over to her desk later in the afternoon (after building up some steam) and told her how upset I was. She said it was a joke. Later I heard her telling others (ha ha) that she was surprised I should be upset over the "fun."

The next morning I returned everyone's money, saying that I would not be participating in any future pools and couldn't

therefore, accept my winnings. To the "lady" in question, I placed the \$1 bill on her desk (not on the floor as many people had suggested) and told her I thought what she did was sadistic and unfunny.

Is something wrong with my sense of humor?

#### NOT LAUGHING IN PHOENIX, ARIZ.

**DEAR NOT:** No, I think something is wrong with hers.

### Ronnie C. Barnes

In loving memory of my dear son and our brother who passed away one year ago, December 17, 1986. It has been very difficult without you this past year. Our heart aches with sadness, our eyes shed so many tears, only God knows how much we miss you. Sadly missed by Mother Eva, sisters, brothers, sister-in-law, brother-in-law, nieces, nephews and family.

# Symphony Orchestra To Present Coffee Concert

The Florida Symphony Orchestra will present the second Coffee Concert of the 1987/88 season, featuring Guest Conductor Andrew Litton and critically acclaimed cellist Carter Brey at 11 a.m. Jan. 8 in the Carr Performing Arts Center. Coffee and doughnuts will be served and informal modeling by Brown & Company Feminine Attire will be presented from 10 until 11 a.m.

The program will feature Elgar's Serenade for String Orchestra and Concerto in E Minor for Violincello and Orchestra and Rachmaninoff's Symphony No. 3 in A Minor. Hailed by Mstislav Rostropovich as "one of the finest cellists of the new generation," Carter Brey has been honored with an Avery Fisher Grant, the Michaels Award of Young Concert Artists and

the Piatigorsky Memorial Prize. Winner of the 1982 BBC/Rupert Foundation International Conductors Competition, Guest Conductor Andrew Litton regularly leads the major North American and European orchestras and enjoys especially close associations with the National Symphony of Washington, D.C. and the Royal Philharmonic and English Chamber

Orchestras of London. Tickets are priced from \$6.50 to \$13 and can be purchased at the FSO Box Office at 1900 North Mills Ave., Suite 3, Carr Box Office, Select-A-Seat locations, or by calling 894-2011 and charging to MasterCard, VISA, or American Express. For more information about tickets call 894-2011.
