

### Grim Drama Being Enacted In Wilds Of Brazil Jungle

MIAMI (U. S. Press) — Grim drama was being enacted deep in the Brazilian jungles today where a U. S. civilian aviation investigator and a Brazilian air force major tried to win freedom from a "wildcat" group of parachutists.

Gordon Bennett, chief advisor of the Miami International district office of the CAA, said 30 or more armed parachutists were holding Scott A. Magnus, CAA aviation safety advisor from Miami, and Maj. Miranda Correa of the Brazilian Air Force.

He said they were being used as hostages in an attempt to gain transportation for the parachutists back to civilization from a helicopter landing strip 3.7 miles from the spot where a Pan American World Airways plane crashed April 28, killing 50 persons, including 10 Americans.

The pilot of a USAF helicopter messages his commanding officer at Albrook Air Force Base in the Panama Canal Zone that he had removed all U. S. government officials from the jungle "except one (Magnus) who is being held hostage by Brazilian parachutists."

He said he was forced to fly supplies to the armed group at the threat of death to Magnus and was making flights solo from an advance base on the Araguaria River and was "sending airmen out of here in Belem due to serious threat to life and limb."

The pilot added he was forced to make the 70-knot round-trip flights over dense jungle in dealing with the parachutists.

Bennett said the unauthorized expedition, led by Lino de Mattos, a deputy from the state of Sao Paulo, had been sponsored and financed by Adhemar de Barros, a former governor of Sao Paulo not mentioned as a possible candidate for president of Brazil in the next election.

No further information was available here, but it was known that there was conflict between the official expedition to the scene of the crash and the "solidarity caravan."

The de Barros group had been urged not to attempt the journey but it parachuted into the jungle a few days ahead of the official party.

The crash scene is 501 miles south southeast of Belem and 533 miles north of Rio de Janeiro. The plane was flown from Buenos Aires in New York when it crashed.

Final rites for the victims were held at the scene Sunday. Because of the difficulty of reaching the bodies, officials ordered immediate burial.

### McCarty Meeting

(Continued From Page One)

The first article stated that the County Commission unanimously went on record as opposing the abolition of the County following similar action by the Seminole County Bar Association. The second article contained a warning by O. P. Herndon, county clerk, of adverse consequences which might attend the passage of House Bill 482, pointing out among other results that the election position as now held by the county prosecuting attorney would be abolished, and would have to be filled by appointment by the County Commission.

Fletcher Rush told the group that Seminole County citizens are going to play a big part in electing Dan McCarty. He stated that McCarty had never feared meeting Odham on the same platform, and would meet him Monday in Orlando on a neutral platform. He requested that local supporters form a motorcade to attend the Monday night McCarty rally in Eola Park.

J. C. Buhlman predicted that McCarty would make a better showing next time in Seminole County precincts. Porter Lansing told of challenging Odham at Daytona Beach, and declared that the latter had side-tracked his questions.

### Bus Runs Into Car On Orlando Highway

A Greyhound bus, attempting to pass a car turning into the Boulevard Drive at 11th Street Thursday night, hit the car and both vehicles swerved clear of the Highway 172 into the entrance of the open-air inn. It was reported today by Highway Patrolman I. D. Harrison.

The collision caused an estimated \$300 damage but on one was injured. The automobile, driven by Roy C. Williams, 35, of Sanford, received damage from the impact while damages to the bus, driven by Millard C. Whaley, 48, of Jacksonville, were figured at \$100.

Both vehicles were traveling north at the time. Mr. Williams was reported to have slowed down and began turning left into the drive-in when the Greyhound passed him on his left at the time of the accident. No arrest was made.

Coxie Carter, a 69-year-old Negro, smashed into the rear-end of a log truck just north of Altamonte Springs Wednesday on route 427, causing \$500 worth of damage but no injuries. The truck was driven by Lewis M. Lewis, 48-year-old Negro of Altamonte Springs. Carter was arrested.

At 9:20 a. m. Thursday Thomas H. Wilcox, colored preacher of Sanford, was towing a truck that overturned just south of the Dr. Baker's Dairy on the old Orlando Highway. A 17-year-old Negro youth, Frank Lingard, was guiding the tow truck at the time of the accident. No one was injured.

### Insurance As A Saving

FOR THE FUTURE  
SOME - ALL - NONE  
BANK - SAVINGS - INSURANCE

The 1950 Chrysler equipped with the 160 horsepower V-8 Vito Power engine rolls off the assembly line. Unfilled orders for the V-8 equipped cars now stand at 25,000 with sales ahead of production. Shown with number 108,000 are: David A. Wallace, president of Chrysler Division, Chrysler Corporation, E. C. Quinn, vice-president and general manager, Joseph A. O'Walley, vice-president and general sales manager and A. W. Fleming, vice-president in charge of manufacturing.

### Mrs. Harriett Mickey Died Sunday Night

Mrs. Harriett E. Mickey, widow of the late Rev. L. A. Mickey, died in the Johnson Nursing Home in Deland at 7:00 p. m. yesterday following an illness of 10 years. She had been confined in the nursing home for the past 27 months. Born Apr. 13, 1882 in Canton, Ohio, Mrs. Mickey formerly lived at 114 Jasmine Avenue. She was 69 years old.

She is survived by three daughters, Mrs. Eula McClelland and Mrs. Charles L. Bridges of Sanford and Mrs. Flo McBride of Daytona Beach; one son, Victor Mickey of Zurich, Kas.; four grand children, Victor McClelland of Houston, Tex.; Mrs. Dalton Culbreth of Sanford; and John Charles Bridges, Sanford; seven grand grand children.

Funeral services will be conducted at 3:30 p. m. Wednesday at Brison Funeral Home with the Rev. J. E. McKinley officiating. Burial will follow in Lake View Cemetery.

### Florida Government Costs Over Average

WASHINGTON (U. S. Press) — Florida's state government cost its citizens \$280,801,000 in the fiscal year 1951, the Census Bureau reported today. This totaled \$103.94 per capita. State revenue for the fiscal year was \$203,022,000 or \$108.20 per capita.

Florida's state government cost its taxpayers more than the national average of \$100 per capita. The total of all state government expenditures in the nation was \$15,068,000,000 in the 1951 fiscal year. Revenues were \$11,574,000,000, or \$104 per capita.

In Florida, \$9,538,000 of the total expenditure for the year is insurance trust funds involving unemployment compensation and employee retirement systems. Of the total income for the state \$19,258,000 was insurance trust revenue. General expenditures in Florida, exclusive of state insurance systems, amounted to \$290,358,000, up 21.4 per cent from the 1950 fiscal year. General revenue rose \$18.5 per cent to \$274,834,000.

Biggest item in the state's general expenditures was \$88,418,000, or \$30.83 per capita, for education. Highways cost \$79,296,000; natural resources \$17,534,000.

Of the \$205,189,000 in Florida state tax revenues in the 1951 fiscal year, motor fuel sales taxes yielded \$37,268,000; general sales and gross receipts taxes \$47,625,000, and motor vehicle licenses \$24,310,000.

### Truman Bank

(Continued From Page One)

merate side of the Oregon primary. On a television program Sunday (NBC's Meet The Press), he claimed 127 delegates. His closest competitor, Mutual Security Administrator W. Averell Harriman, had 92.

The Washington State Democratic convention defeated Saturday night a Kefauver effort to get the state's 22 delegates pledged to him. The meeting decided to send the state's delegates to Chicago, unpledged.

Sen. Robert Kerr of Oklahoma called the "stunning setback" for Kefauver, and a definite forward step for his candidate. He made the statement at Boise, Idaho, where he was seeking Idaho's 12 convention votes.

### Warp Reported Killed In Wreck

WEST PALM BEACH (U. S. Press) — The pilot of a military private airplane walked into Good Samaritan hospital here today and reported his wife dead in the wreckage of the craft seven miles west of the city.

The pilot, Gordon Taylor, 28, said he walked and hobbled from the crash scene to the hospital to seek aid. He was given emergency treatment and told hospital authorities he was unable to detect any sign of life in his wife, Betty.

Coast Guardsmen were searching the area for Taylor's plane when he appeared at the hospital. It had been reported overdue on a flight from Sidney, Ohio, via Atlanta to Miami. A plane answering its description was seen over the ocean off Palm Beach Sunday with one engine dead.

H. R. (Jack) Perez, Miami, owned the twin-engine Cessna which Taylor flew. Perez said the pilot was to go to Venezuela for him and begin a small air line. Mrs. Taylor had gone to Sidney, Ohio, to tell her parents goodbye and Taylor flew there last week to bring her home.

### Auto Collisions Are Reported Last Night

A 24-year-old Negro from Daytona Beach was hit while driving north on Park Avenue at Twenty-fifth Street by a car driven by Alice Baker Davis, 30, colored, of Sanford last night at 8:45 p. m., it was announced today by Chief of Police Roy G. Williams.

The collision caused a total of \$120 worth of damages to both vehicles. Nathaniel Bradley and the woman were arrested for careless and negligent driving. Neither were injured.

Annie Lee McKinney, 17-year-old colored girl of 40A Hipes Avenue, was arrested for ramming her automobile into the side of a car driven by Ann Raborn, 16, 806 Seminole Boulevard. Miss Raborn was traveling west on Colery Avenue when the colored girl, going south on Locust Avenue, turned east on Colery Avenue at the time of the accident.

The crash caused \$40 to Miss Raborn's car and \$26 to the vehicle driven by Annie Lee McKinney.

### Communist Order Closes 1 German Border Crossing

FRANKFURT, Germany (U. S. Press) — A sudden Communist order today closed one of five border crossings for German passenger trains between the Soviet Zone with West Germany.

Without explanation, the East German government shut off passenger traffic on the feeder line between Gutenberg in Soviet-occupied Thuringia, and Hof, frontier communications center in the American Zone State of Bavaria.

West German railway officials said passenger traffic on this line was not explicitly covered by Soviet-Allied agreements. But it had been carried on by an unwritten "gentlemen's understanding" since the Berlin blockade was lifted May 12, 1949.

Today's Red order was the first to cut down international rail communications in post-war blockade years.

It left the Gutenberg-Hof line open for freight movements, however.

The Communist action jolted blockade-bitter Berlin and sent cold chills through West Germany, where fear of Soviet aggression has increased sharply as the Bonn government shares a peace contract with the West.

### Service Held Sunday For Richard Muse

Funeral services were held at the Church of Christ on Elm Avenue and Second Street yesterday at 3:00 p. m. for Richard Muse, 52 year old west side farmer who died Saturday morning. The Rev. J. C. Nicholson officiated at the service and interment was made in Sylvan Lake Cemetery.

Mr. Muse, who died had been ill for a week, was born in Bradford county, Va., and had lived in Sanford for 43 years where he engaged in farming and flower growing.

He is survived by the widow; two daughter, Mrs. R. C. Andrews of Sanford, and Mrs. I. M. Dyess, Jr., of Madison; four sons, J. C. W. C. C. G. and T. J. Muse all of Sanford; 17 grandchildren; 11 great grandchildren; three brothers, Cleve, John and Alfred Muse of Jacksonville; two sisters, Mrs. L. F. White of Jacksonville and Mrs. Martha Thomas of Clearwater.

### Chesapeake And Ohio Freight Is Derailed

SAWYER, Mich. (U. S. Press) — Railroad wrecking crews moved into this small Southwestern Michigan community today to clear 26-cars of a Chesapeake and Ohio freight train derailed Sunday night in a collision with a light pick up truck. The freight cars were scattered over a half mile section of the railroad right of way here. Cars were piled six high in the down-town area of the small community located south of Benton Harbor, Mich.

State police reported no persons were killed in the spectacular derailment. Three teen agers, passengers in the truck, were injured critically and taken to St. Joseph's Mercy Hospital in nearby St. Joseph.

Police said the three were in the pick-up truck which rammed the long Grand Rapids to Chicago freight train at a crossing north of here.

The fast train dragged the truck for 100 yards.

Railroad officials said the impact of the collision broke a brake beam on one of the cars causing the derailment of the other cars.

### Student Is Trapped In 90 Foot Crevasse

SPIRIT LAKE, Mt. St. Helens, Wash. (U. S. Press) — A young University of Washington student lay trapped at the bottom of a 90-foot crevasse here on the icy slopes of Mt. St. Helens today as experienced mountaineers battled frantically to reach him.

The youth, 20-year-old Art Jessett, son of a Seattle minister, dropped from sight at the 8,000-foot level shortly after noon Sunday as he and three companions were descending the northeast slope of the mountain after a climb to the summit.

Jessett called to his companions that he was trapped in the narrow ice hole about 35 below the surface of the snow. He said he thought he had broken his arm then as the ice about him melted from the heat of the body he called that he was slipping.

The party's only rope went with him. It was looped about Jessett's shoulder.

Mountaineers from Seattle and Portland were called to base camp here to aid in the rescue attempt. State patrolmen and members of the Mt. St. Helens ski patrol labored until nightfall Sunday without being able to reach the youth.

## Art Of Bawling Out Hired Hands Is Now A Lost One

By HAL BOYLE  
NEW YORK (AP)—The art of bawling out the hired hands is becoming a lost art in the American business world.

In the '60s, days when a boss saw something he didn't like, he'd let out a yelp and dress the culprit down on the spot—in burning language more memorable than grammatical.

But today most bosses seem to have lost the gift of tongue-lashing.

They have found it cheaper, by and large, to hire a psychiatrist to find out what is the matter with a derelict employe than it is to bawl the fellow out themselves and end up explaining it all to the U. S. Supreme Court.

So many employes know their rights now that an employer is hesitant about pointing out their wrongs.

Therefore, it came as something of a surprise to me to get the following letter:

"Dear Sir:

"I have a problem. My boss bawled me out last week, and I have a feeling he's going to bawl me out again this week.

"I would quit and get me another job except it's such a nice place

to work. The management even puts gin in the office water cooler. What can I do? It makes me nervous when the boss bawls me out.

(Signed) A Terrified Young Man

Well, Dear Terrified, your problem was so unusual that I took it up with all the oldtimers I know who can still remember being bawled out by their boss (There are only a few of them left). Here is the summary of their advice:

Build up the drama of the situation. When the summons comes to go see the boss, walk into his office with a look of utter happiness.

Get it! You make him think you have no idea of what is going to happen. He feels like a cat play-

ing with a near-sighted mouse.

As he tees off on your misde-means, don't make the mistake of listening to him. You already know more about what is wrong with your work than he does. Concentrate on your acting. Let the smile fade from your face. Replace it with a look of amazement, then horror, then abject hopelessness.

Don't make the mistake of arguing with him about your rights. He wouldn't bawl you out in the first place if he hadn't already considered a couple of attorneys and the National Labor Relations Board.

And don't interrupt him. Egg him on. If he gets tired of denouncing the faults you have he knows about, tell him a few he hasn't discovered.

As he launches out into a fresh tirade, lift your hanging head and let him see the tears in your eyes. Let the tears fall on his desk.

plop . . . plop . . . plop . . .

The main thing is to keep him attacking you as long as possible. Just remember that bosses are like wives—after they wear out their temper they feel ashamed of themselves.

When he finally runs down his vocal chords, reach up with one hand and brush away your tears. Reach out the other hand and grab his hand and say:

"Thanks, chief, thanks. I know I'll be a better man for this."

Then, as you go out the door, turn and look at the family photo he has on his desk and say:

"Whee, chief, you've got a fine-looking family. Why do you make me cry?"

This will bring out the father in him. After all, isn't the office just one big happy family, too? He will feel so guilty that next week he will probably quietly give you a raise.

In any case he won't bawl you out again. He will be too hoarse.

## OUR DEMOCRACY by Met

**"A BIRD IN THE HAND IS WORTH 2 IN THE BUSH"**

THAT'S AN ANCIENT ADAGE OF CAUTION—WHICH AMERICANS HAVE NEVER WHOLLY ACCEPTED. OUR DEMOCRACY HAS EXPANDED AND FLOURISHED BECAUSE OUR PEOPLE, NEVER CONTENT WITH THE SMALL SECURITY OF A "BIRD IN HAND," HAVE ALWAYS BELIEVED THAT THERE WERE PLENTY OF BIGGER AND BETTER BIRDS IN THE BUSH FOR THOSE WHO WENT AFTER THEM.

THIS READINESS TO TAKE A CHANCE HAS BEEN THE BASIS OF OUR GROWTH. AND THE RESOURCES THE AMERICAN PEOPLE HAVE BUILT UP THROUGH HARD WORK AND THRIFT, INCLUDING THEIR SAVINGS AND LIFE INSURANCE, HAVE GIVEN THEM THE COURAGE TO TAKE CHANCES—SEEKING THE BIGGER AND BETTER BIRDS IN THE BUSH.

### Rural Common Sense by SPUDS JOHNSON

That agricultural research is helping tremendously to feed and clothe an ever-increasing population is evident on all sides, and yet few of us stop to consider the contributions which research has brought and is bringing to farming in this country. Crop yields certainly could not be 46 percent higher now than they were 30 years ago if there had been no research. We are producing more food and fiber on fewer acres with fewer workers.

The fruits of research are evident on all sides—in animal production, in crop growing, in soil management, in disease and parasite control, and even in marketing.

Better animals—purebreds, cross-breeds and new breeds—have contributed to more and better meat production. For instance, the United States Department of Agriculture and cooperating state experiment stations recently have developed breeds of hogs which carry as much as 10 percent more meat in the choice cuts—more ham and less waste from the hog.

Balanced diets and the use of antibiotics in feed have tremendously increased the growth of hogs, poultry and other animals. Disease and insect control has played its part in livestock production advances also.

Hybrids and improved varieties of various crops have made possible markedly increased yields. Dixie 18 corn and Southland oats are two examples well known in Florida. Crops have been bred to resist destructive diseases as well as to produce higher yields. Plant explorers have brought 100,000 separate plant introductions from other countries to the United States in the last 50 years. The germ plasma of many of them is giving us increased disease resistance to crop widely grown here now.

Scientists in Florida and elsewhere are trying to develop varieties of crops resistant to several diseases, to insects, to nematodes, and to temperature and moisture extremes as well. There are indications that combined resistance may be obtainable.

And best of all, research holds promise of still greater advances for the future.

## HAS YOUR PRESENT SENATOR'S CONDUCT BEEN SUCH AS YOU WOULD APPROVE?

Read What Others Say Of Our Senator!

The following is an excerpt from the Orlando Evening Star, issue of August 7, 1950, written by Hanley Pogue in his column, "Around The Town."

"About the only thing of real importance brought out at the hearing in Tallahassee last week of P. A. Mero, Seminole County Sheriff, was that Lloyd 'Doc' Boyle, Seminole State Senator, was the attorney for the closed Seminole Club and that he is also listed in incorporation papers as attorney for the Seminole Grill Inc. (Twin Pines).

"The Seminole Grill is the spot visited by J. Bralley Odham and four companions the middle of July and found to be operating a "Cuba" gambling game.

"Mero told Gov. Warren that Sen. Boyle had interceded in behalf of the Seminole Club and had asked the Seminole Sheriff to let the gambling casino operate until the Sanford-Orlando Kennel Club closed for the season.

"Mero admitted that he heeded the Boyle request and that the establishment closed down the day after the dog track closed. The sheriff had no explanation for listening to Boyle, but several of the Sanford citizens who were in Tallahassee for the hearing said that Boyle had been instrumental in having Mero appointed to the sheriff post when the late, Sheriff Haif-

died. They said the yielding of Mero to Boyle was a political payoff.

"Regardless of the reason for the request by Boyle and the ensuing action of Mero it certainly looks as if the disclosure in Tallahassee will result in Boyle getting major opposition when he comes up for re-election in 1952.

"There are some rumors circulating to the effect that Odham, who did not seek re-election as Seminole Representative, will be a candidate for the State Senate toga.

"Some quarters have recently been hinting that Odham is eyeing the Governor's race and that if he receives encouragement he will be in there campaigning to succeed Gov. Warren. Other sources say that Farris Bryant is planning on running for Governor and that if the Odham makes the race that Odham will be on Bryant's side and off of the list of gubernatorial aspirants.

"Anyway Boyle has certainly been tied in with the gambling interest in our adjacent county and it's a better than even money bet that he will encounter the roughest opposition of his career if he seeks re-election."

MONDAY, MAY 19, 1952

**TODAY'S BIBLE VERSE**

Here is a magical cure for tension and high blood pressure. Stop worrying about yourself or thinking about yourself and fill your mind with God and his love. They will know that all is well with you and the universe. Thou wilt keep him in perfect peace, whose mind is stayed on thee.—Isa. 26:2.

Ed Lambright points out in the Tampa Tribune that Spessard Holland made something of a record in Florida on May 6 when he was renominated to the Senate. He polled 485,515 votes, the largest vote ever polled by any candidate in Florida, and he defeated his opponent by a 394,000 majority, probably also a record.

"Brailley Odham has picked up some daily newspaper support in the second primary," said Jim Powell in the Sunday Tampa Tribune. "The Orlando Sentinel-Star and the Miami Daily News are leaning now toward Odham." And Monday morning the Orlando paper came out with two strong editorials lending considerable support to Powell's contention.

The House of Representatives has approved a bill giving the coastal states control of the oil lands off their shores by a vote of 247 to 89, enough to override a probable presidential veto, and the Senate passes it the next day almost before you could say that. It now goes to the president who will not like to see the power over the distribution of so much oil taken out of his hands. But the victory which has already been won in Congress is a victory for states' rights.

We are surprised that General MacArthur is against electing a military man as president of the United States. "Nothing is more conducive to arbitrary rule than the military junta," he says. He says that now that General Eisenhower happens to be the only military man on the horizon with any chance at all of being president. There was a time when General MacArthur didn't speak out so strongly against military men in public office. Can it be that he simply means that he disagrees with Eisenhower's foreign policies, prefers Taft's?

Brailley Odham has come up with a road program in his second primary bid for votes that will appeal strongly to those who have to travel Florida's antiquated highways or fear the consequences of traffic hazards. He would build four lane highways up and down both coasts of the state, across north Florida and cross-cutting the great central area, and pay for it through the sale of state bonds to be repaid out of the two cents of the gasoline tax money. It would mean building over two thousand miles of super highways and entail a cost of several hundred million dollars, but if something like that has been done pretty soon, we are going to have to turn our cars in and go back to the horse and buggy days.

The evidence is just about evenly divided over whether the top man in the first primary always wins in the second, at least during the past 20 years. Four years ago Fuller Warren, who was the runner-up, also led in the first primary by about 22,000 votes. In 1944 Richard Caldwell led in the first primary by some 3,000 votes and the second by about 40,000 votes. And in 1940 Richard was ahead in the first primary by 23,000 votes, and in the second by nearly 70,000. The theory that it was a different rule that prevailed in 1952 is not supported by the evidence. The 1952 primary was the first in which the runner-up did not win the second primary. And in 1952 the runner-up did not win the second primary. And in 1952 the runner-up did not win the second primary.

**Baseball in Egypt**

"An eighth inning batting rally enabled the Pyramid Pirates to nose out the Cairo Cubs." Items like this may yet appear in the Egyptian newspapers if Hasseni Kamel Solim Bey, dean of the faculty of commerce of Faud I University in Cairo, has his way. A trip to the United States made him a baseball fan, and he is determined to make his countrymen see the merits of the game.

With help from Joe Nygaard, former baseball coach of St. Olaf's College, Minnesota, who is in Egypt as a Fulbright scholar, a National League of four teams and an American League of three have been organized. A game will soon be played to settle the championship of Egypt, and the king and other dignitaries have been invited. If the Egyptians really take up the game as a result of this royal patronage, they may work off some of the steam that now expresses itself in rioting.

Americans find it hard to understand why the game has taken so little root elsewhere. Canada has adopted it, but that is hardly a foreign country. There are teams in Latin America, and Cuba in particular has contributed several players of big league caliber. Outside of these, no one has manifested any interest in the game except the Japanese. Their colleges play it, and have sent teams to this country. These acquitted themselves creditably, except that they were weak hitters.

Perhaps we should not complain of baseball's failure to win favor abroad. Cricket has not done so well outside its own land either.

**New Fast Liner**

For many years the British liner Queen Mary has been acknowledged as the fastest ocean going passenger ship in the world. But a new American vessel, the S.S. United States, may soon challenge the record. It weighs 61,500 tons and is the largest of America's transoceanic liners.

The Queen Mary set the world's record for speed on an ocean crossing in 1938 with an average speed of 31 knots (miles per hour). The United States on a trial run reached a speed of 30 knots without any visible strain, her officers reported.

The new ship can be quickly converted into a troop carrier if the need should arise and could transport a division of soldiers. New air conditioning methods would make the conversion to a troop carrier easier and more comfortable for the troops than ships could be under previous war conditions.

It is exciting to speculate that the record for an ocean crossing may soon be held again by an American ship. America has been the land of rapid sea transportation since its earliest days. The graceful, craftmanlike construction of the clipper ships meant speed. If the S.S. United States should ever capture the speed mark for an Atlantic crossing it would be fulfillment of the heritage left by the men who made the clipper ships and of the hard-bitten Yankee seafarers who manned them. And how much happier it is to contemplate competition in speed of peaceful ships than in accomplishment of men-of-war!

**Older Worker Value**

The Federation Employment Service, a non-profit vocational guidance organization in New York, conducted a study recently on the performance of 170 workers between the ages of 40 and 60. It was found that the workers under study equaled or bettered the performance records of younger workers in 88 per cent of the cases. Employers described the older workers as more co-operative and more responsible than their younger counterparts.

One survey proves nothing and 170 cases are far from sufficient evidence on which to build a generalization. But it is comforting to note that there are chinks in the once solid belief that young workers are always better for every job. As an individual grows older it is natural that his co-ordination and his speed should grow less. But with maturity come compensating factors such as judgment, responsibility and craftsmanship. Underestimating the value of possible contributions from older workers would be a great waste of a potential source of production.

**Brazilian Measure**

(Continued From Page One)  
official party back to Lagoa Grande. Magness and Correa, however, reportedly went to the site cleared by the rival group.

There were several versions of how the trouble started. Meridional News Agency said Correa ordered the De Barros group to hike the 35 miles back to Lagoa Grande and wait for a plane to pick them up. The latter objected to the long walk and demanded a lift by the U. S. helicopter. The De Barros group's own helicopter apparently was out of action.

But a member of the official party who returned to Belem said the friction developed because the Brazilians and Indians in De Barros' party didn't think they were thanked sufficiently for clearing a landing spot near the crash scene and because of the presence of American members of the official party on Brazilian soil.

Others said the squabble arose because the official party left only enough water and supplies for its own members and ignored the De Barros group.

**REFUSAL TO FLY**  
SCOTT AIR FORCE BASE, Ill.—The 12 officers who refused to fly will not be court-martialed but will be relieved of their commissions by administrative action, the Air Training Command announced today.

It said this course of action was recommended by Air Force Headquarters in Washington.

The Pentagon said in a telegram that officers avoiding hazardous duty for which they are qualified have failed to live up to the responsibilities of commissioned officers and should be separated from the service.

All 12 of the stay-down flyers are reserve officers. Charges against two of them had been dropped before today's decision was announced.

**Major Turner**

(Continued From Page One)  
the hill he held, or the whole line would have to fall back for 10 miles.

Prior to this the hill had been held by another battalion which had lost it to an attacking Chinese division. Another American battalion after an attack that cost it, lost the hill again. When Major Turner's battalion was ordered into action, they counter-attacked the hill, secured and held it. The Chinese, following attacks that cost them heavily, gave up the attempt.

The British, he stated, had mined the hill heavily, and the Chinese method of breaching it was by sacrificing 500 to 700 men who exploded all the mines. Chinese are not as good soldiers as the Japanese, he added.

Since that time and during the peace talks, activities by the battalion consisted mostly of raids into enemy territory for prisoners. Most of the Chinese captured are very scared, fearing harm, he stated. As soon as they are convinced that they will undergo no harm, as they had been previously told by the Communists, they can be questioned.

The Chinese soldiers are now better equipped than during the early phases of the campaign, said Major Turner, and are adequately clothed, although not in a way to compare with our own men. They are well fed, carrying their own rations of rice. Manchurians captured are big men. Most of the Chinese who are being taken prisoners come from central China, he added.

Asked about the measures that have afflicted the Chinese and which Communist propagandists have referred to as due to germ warfare, Major Turner pointed out that rats, infested with disease carrying lice, may play a large part. There is a terrific number of rats in Korea, he stated, and told of the constant use of DDT spray in the front lines.

American and UN troops are also protected from disease by many inoculations, and their rations, which are far superior than during the last war, are another

factor in preserving health. Hot meals are carried in containers to even mountain top posts. Troops do not carry mess kits or eating utensils as formerly. These are brought to them and returned to kitchens for cleaning.

Spectacular results have been obtained from the use of armored vents which protect vital chest and back areas where 70 percent of fatal wounds occur, he declared. A new vest, now used, is six pounds lighter than the old one.

Major Turner also stressed the value of blood plasma in saving the life of those wounded in battle. "It is hard to visualize the terrific need for blood plasma," he said, and "impossible to express how important an adequate supply of blood plasma is to the boys on the fighting front, after deciding between life or death." He added that the Red Cross and the people who donate blood for the armed forces are to be commended, and stated that if any American wants to help win the war he can do no better than to donate a pint of blood.

While serving as a captain, Major Turner, in co-operation with Capt. William F. Long, wrote an article that appeared in the United States Army Combat Forces Journal which appeared in the January issue under the title, "Challenge Accepted." It described heavy action during April in which a Belgian Battalion was rescued from a trap in a complex and skillfully executed operation. Major Turner, at the time was a company commander in the 1st Battalion, 7th Infantry.

**Railroad Unions Studying Plan To End Three Year Old Dispute**

WASHINGTON (AP)—Three big railroad unions today studied a labor paper plan the White House hopes will end a 3-year dispute on the nation's railroads.

The Engineers, Firemen and Conductors, with a combined membership of more than 150,000, were handed the contract proposal by President Truman last night. Steelmen Monday afternoon. So were the railroads, and they accepted it quickly.

The unions were set for all-day separate sessions. But they agreed to act as one on final acceptance or rejection.

Steelmen's proposal, submitted on a take-it-or-leave-it basis, would do these things:

1. Boost wages for men in yard service by 37 cents an hour, of which 18 1/2 cents is already being paid.

2. Boost wages for men who work on the open road—that is, not in the yards—by 25 1/2 cents an hour, five cents of which is already in effect.

3. Give the train unions substantially what they want on a highly controversial working or operating rule involving crews which take a train through a division point. A change in this rule demanded by the carriers was described by union officials as the major obstacle to settlement.

They said that if the carrier demanded went into effect workers in many cases would have to travel twice as far and move their homes to new terminals.

4. Lay the groundwork for a 5-day, 40-hour work week for men in the yards who now work 48 hours.

A 6-cent pay boost would go to all men switching from a 48 to a 40-hour week when the change is made. This four cents would come on top of the basic 37-cent wage boost for all yardmen.

5. Put into effect a cost-of-living escalator clause, tying wages to the cost of living.

6. Submit to binding arbitration any disputes over the following two operating rules: The rule governing pay for men on a train which is assigned more than one

type of work at the same time; and the rule under which a railroad may extend its switching limits.

7. Give the unions substantially, but not quite, all they want on a rule governing pay for workers told to report late for work because their trains are late.

Inability of railroad labor and management to get together on these hotly disputed operating rules, rather than disagreement over wages, has been the main reason the long dispute was not settled months ago.

**GLANE CRASH**

WEST PALM BEACH (AP)—Civil Aeronautics inspectors studied the wreckage today of a twin-engine private plane which crashed in the Everglades Sunday night, killing a Miami Springs woman and injuring her pilot husband.

W. E. McLain, Orlando, CAA investigator, studied the wreckage and Civil Aeronautics Board officials said at Miami they would conduct an investigation if his report indicated engine or structural failure.

Dead was Mrs. Betty Miller Taylor, 27. Her husband, Gordon H. Taylor, 28, wandered through the Everglades after regaining consciousness and was brought to Good Samaritan Hospital.

West Palm Beach police said the 5-place Cessna was en route from Sidney, O., to Miami and apparently ran out of gas five miles short of the local airport.

**MILITARY PAY**

WASHINGTON (AP)—President Truman has signed the bill boosting pay and allowances in the military services by nearly half a billion dollars a year.

The White House announced the signing today. It came in time—Mr. Truman had until the end of this month—for the raises to become effective with this month's pay vouchers.

Intended to help offset higher living costs, they range from \$3 monthly for privates and sergeants to \$65 for 2-star generals and admirals.

**TUESDAY**  
The Junior G. A. will meet at the First Baptist Church at 6:45 p.m.  
The Chapel Choir will hold rehearsal at the First Baptist Church at 6:45 p.m.  
The Philathea Sunday School will have its regular monthly meeting at the home of Mrs. W. P. Smith 440 Sumner in Avenue at 8:00 with Mrs. Clyde Humphreys and Mrs. G. H. Sykes as co-hostesses.  
The Unity Truth Class will meet at 8:00 p.m. at the Valdes Hotel. The book "The Sermon on the Mount" by Emmet Fox will be studied. The public is invited to attend.  
The R. W. Ware Bible Class of the First Methodist Church will meet at 7:00 p.m. for a covered dish supper at the home of Mr. and Mrs. H. U. Huteblin in Cambridge.  
The American Home Department will have its May bridge and canasta party and regular meeting at the club house at 8:00 p.m.  
The Fidelity Class of the First Baptist Church will meet with Mrs. Hugh Duncan at her home at 820 Catalina Drive at 8:00 p.m.  
Monroe Chapter No. 15 will meet at Masonic Hall. Supper will be served at 8:30 p.m. following which the Royal Arch Degree will be conferred.  
There will be a covered dish supper and meeting at the new Fountain Club at 6:00 p.m. All attending are requested to bring a covered dish, rolls or sandwiches to pass and own table service.  
**WEDNESDAY**  
Midweek Prayer Service at Central Baptist Church at 8:00 p.m. The Sunbeams of the Church will also meet at this time—age 4 thru 8.  
The regular covered dish luncheon of the Women's Club will be at 12:30 o'clock at the club house.  
**THURSDAY**  
The Seminole County Audubon Group will take a field trip to the Wekiva River. Meet at Sanford Garden Center, E. First Street, at 7:00 a.m. The purpose of the trip is the identification and study of birds in the area. Transportation will be provided if necessary.

## Hints to Housewives

By ALICE L. CROMARTIE

Directions for making milk-rich fruit sherberts, recently developed for use by the armed forces in Korea, have possibilities also for use in home kitchens.

The frozen desserts can be made by using only canned and staple food supplies. This enables cooks in the military services to prepare ever-popular frozen desserts in situations where bulky and perishable supplies, or the usual ice cream mixes, are not available. The simple formulas were developed by the Bureau of Human Nutrition and Home Economics of the U. S. Department of Agriculture under the direction of Mrs. John Miller.

For the home cook, making sherberts from pantry shelf supplies is a handy way to provide milk-rich frozen desserts, say the food specialists of the Bureau. They add that canned juices originally included in these recipes may be replaced by equal quantity of frozen or fresh fruit juice, if desired. Here are three recipes by the Bureau on a scale providing about 8 servings.

**Orange Milk Sherbet**  
Ingredients: Two 14 1/2 ounce cans evaporated milk; 2 cups sugar; 1/4 teaspoon salt; 1 cup orange juice; 3 tablespoons lemon juice. To make: Combine evaporated milk, sugar, and salt. Gradually stir in fruit juices. Pour into two refrigerated trays and freeze until firm. Remove to chilled bowl and beat until smooth and fluffy. Return to trays and freeze until firm.

**Pineapple Milk Sherbet**  
Ingredients: Two 14 1/2 ounce cans evaporated milk; 3 cups sugar; 1/4 teaspoon salt; 2 1/2 cup unweetened pineapple juice; 1/2 tablespoon lemon juice. To make: Follow directions for Orange Milk Sherbet.

**Lemon Milk Sherbet**  
Ingredients: Two 14 1/2 ounce cans evaporated milk; 2 cups sugar; 1/4 teaspoon salt; 1 cup lemon juice; 3 tablespoons lemon juice. To make: Follow directions for Orange Milk Sherbet.

## Anna Miller Circle Of Elks Has Meeting

The Anna Miller Circle of the Elks Club met last night at the Club House for a social and initiation with Mrs. J. M. Cameron, president presiding.

Mrs. James Rosenow was initiated. Sponsor for the occasion was Mrs. J. R. Hoolahan. Mrs. A. Rosenow reported that \$16.71 was cleared from the covered dish supper held recently. It was reported that the money will go toward buying an automatic typewriter for the Harry-Anna Crippled Children's Home in Umatilla which is the project of the circle.

Refreshments were served by the social chairman, Mrs. Leo Butler, to those present who were Mrs. M. C. Glinder, Mrs. Henry Tamm, Sr., Mrs. Henry Thurston, Mrs. Peter Bukur, Mrs. L. E. Oiler, Mrs. H. Jacobson, Mrs. Ben Kay, Mrs. J. J. Clarke, Mrs. James Rosenow, Mrs. J. R. Hoolahan, Mrs. Marie David, Mrs. J. D. McNeill, Mrs. Ray L. Moughton, Mrs. A. Menendez, Mrs. C. W. Beck, Mrs. Ervin Feinberg and Mrs. J. M. Cameron.

## Mrs. Whitner Is New Auxiliary President

Mrs. Benjamin F. Whitner Jr. took office as the new president of the Women's Auxiliary of the Holy Cross Parish at its annual May luncheon meeting held yesterday at the church.

Other officers who will serve for the coming two years will be Mrs. Randall Chase, president; Mrs. Robert Williams, secretary; Mrs. Dean Turner, treasurer; Mrs. J. N. Robson Sr., chairman of united thank offerings; Mrs. J. B. Cogburn, Christian education; Mrs. Henry McLaughlin, Christian education; Mrs. W. R. Ruprecht, promotion and publicity; Mrs. S. O. Chase Jr., supply; Mrs. Dale Scott Jr., periodicals; Mrs. W. R. Kitchhoff, altar flowers; Mrs. Donald Jones, little helpers; Mrs. H. H. Coleman, kitchen committee; Mrs. William Potter, choir mother and Mrs. Fred Ball, prayer partner.

The speaker of the meeting was Mrs. Paul Harrison of Orlando, diocesan chairman of missionary supply. Mrs. Randall Chase, chairman of Christian education, had charge of the program and Mrs. Paul J. Chesteron, past vice-president, presided.

Following the business meeting a buffet luncheon was served.

## Hobo Party Enjoyed By Baptist Group

Members of the Training Union Department of the First Baptist Church enjoyed a hobo party and picnic Thursday afternoon at the lake near the home of Mrs. Paul J. Chesteron, past vice-president, presided.

The young people hiked from the church to the front of the lake and had a picnic and contest games under the direction of Mrs. John Miller.

Leaders were Mrs. F. E. Barbour, Mrs. John Miller, Mrs. B. Newman, Mrs. Harry Nelson, Mrs. Estelle Glisten, Mrs. A. L. Barneau, Miss Merri Crisay and Ray Thomas.

Those attending were Donna Newman, Laura Phillips, Edna Davis, Lois Barneau, Jackie and David Miller, Murray Nance, Eddie, Bobby, and Bertha Barbour, Frances Jobe, Marsha Bumgarner, Virginia Thomas, Ann Turner, Regis Ashley, Lonnie Driggers, Darrell Calvin, Faye Garner, Jane Osborne, Ines Prescott, Jo Ann Harrell, Charlotte Harrison, Marsha Carrie, Harry and Kelley Nelson, and Eva Jo and Juanita Wynn.

## Radio Briefs

By MARION HARMAN

W. A. Minor, chairman of the U. S. Department of Agriculture's fertilizer policy committee and assistant to the secretary of agriculture will be heard tomorrow at 12:15 on WTRN's "Radio Farm Digest". Mr. Minor's subject as he speaks to central Florida farmers is "Nitrogen Fertilizer Expansion and What It Means".

Roy Flynn has produced another "Repeat Performance" program for WTRN listeners tomorrow morning at 11:15 o'clock. Mr. Flynn has chosen many of the favorite excerpts from musical presentations on the campus of Florida State University and has combined them into one 15-minute radio show.

Jim Fields will tell about some of his own fishing expeditions around Central Florida's best fishing spots, along with reports from other fishermen and their fishing experiences over 120 minutes tonight at 8:15 o'clock on "The Fishing News of the Day".

Plans are underway, again, to bring you the complete election returns of the primary election Tuesday, May 27. WTRN will be

## Personals

Mr. and Mrs. R. W. Sturdivant are spending vacation in Alabama with relatives.

Mr. and Mrs. A. W. Ansley have returned from a two weeks vacation spent with Mrs. Dugger's parents in Georgia and in Tampa.

Mrs. Doyle Peacock and son Neil of Norfolk, Va., are visiting with Mrs. Peacock's parents, Mr. and Mrs. J. W. Dugger.

Mr. and Mrs. Elmer P. Lacey of Miami visited over the weekend with their son-in-law and daughter, Mr. and Mrs. Kent Chetlain, at their home on Locust Avenue.

Mr. and Mrs. Joe Dugger of Chattanooga, Tenn., are spending some time with Mrs. Dugger's parents, Mr. and Mrs. J. W. Dugger at their home on Myrtle Avenue.

Rev. and Mrs. E. C. White of Anderson, S. C. returned home today after spending the weekend with Mr. and Mrs. W. H. Duncan at their home on Catalina Drive.

Friends of Bob Cornell Jr. will be glad to learn that he has returned to his home from the Florida Sanitarium in Orlando and is doing nicely.

Friends of Bobby Pullin will be interested to learn that he has been chosen as the ideal active member of the Alpha Chapter of Tau Chapter of Tau Sigma Fraternity at Murray State College for the Spring Semester of the college year.

Miss Evelyn Natliff arrived by plane May 10 to spend a short time with her parents, Mr. and Mrs. Thomas Natliff Sr., and also with relatives and friends in DeLand. Miss Natliff, accompanied by Mr. and Mrs. R. C. Miller and daughter Charmion, returned to Morganton, N. C. yesterday.

## HOLLYWOOD

By BOB THOMAS

**HOLLYWOOD**—Several years ago, three struggling actors named Jean Pierre Aumont, Louis Jourdan and Claude Dauphin were living together in Paris. Whenever the phone rang they would jest: "If that's Hollywood with more movie offers, tell them we're not interested."

Today, Dauphin is the third member of the once-struggling trio to find fame and fortune in Hollywood. Having become a star of the French stage and screen, he made a hit on Broadway as the romance-minded father in "The Happy Time." Now he is making love to Doris Day in "April in Paris," and is slated to appear in Bing Crosby's next picture.

Dauphin (pronounced doe-fan) over lunch and he hastened to correct the common U. S. belief about Frenchmen.

"It is not true that we are usually great lovers," he said earnestly. "I don't think any nationality has a monopoly on that. Love is the same in every country. It is wonderful."

"I think you might say that during the courtship he treated our women more tenderly than Americans. We have a great concern for the little courtesies, such as the sending of flowers. The floral concerns do a big business in France."

Many Americans get wrong impressions from French postcards and saucy French movies, he indicated.

"We think much less about sex than Americans do," he observed. "I think it is because we have existed many more centuries as a people, and we have developed an attitude toward sex. It is taken for granted. Every French boy learns the facts of life when he is about eight, and he adjusts his life accordingly."

"But in America, there is much dwelling on sex. Open any magazine and you will see it on many of the pages. It is talked about and whispered about to a great extent. America is much more sex-conscious than France."

Dauphin's Hollywood activities climaxed a remarkable career. The son of a famous French journalist, he spent most of his 30 years as a set designer for plays. He was 29 before he ever acted on a stage. He was a last-minute substitution for an actor who fell ill. You know, just the way it has happened in dozens of movies.

"But it only happened because I WAS a set designer," he remarked. "It never happens to an understudy."

Dauphin became a reigning star of the French stage and screen inheriting the position vacated by Charles Boyer, who was lured to Hollywood. During the war, Dauphin distinguished himself in the French underground and as a liaison officer with the Allied forces.

## Dorothy Irene Knight To Be Bride In June

Mr. and Mrs. Austin Knight of Sanford announced today the engagement and approaching marriage of their daughter, Dorothy Irene, to Wilmer Thomas Stapleton, son of Mrs. Vera Stapleton of Sanford and M. L. Stapleton of Kite, Ga.

Miss Knight is a native of Sanford, attended local schools and graduated from Seminole High School with the class of 1950. She is at present employed by Seminole County Motors.

Mr. Stapleton is a native of Georgia and attended schools in Wrightsville and Georgia Institute of Technology, Atlanta. He served four years in the Army with the 58th Engineers, three and one half years of which were spent in Africa, England, and France. He is employed by H. B. Pope Company, Inc.

The wedding will be an event of June 1 at 9:00 a.m. at the First Methodist Church with Rev. J. E. McKinley officiating. No invitations are being issued but friends of the couple are invited to attend.

## Mrs. Harris Honored At Stork Shower

Mrs. Roger Harris was honored last evening with a stork shower given by Mrs. Roy Wall and Mrs. W. W. Tyre at the home of the former at 108 Virginia Avenue.

The party rooms were attractively arranged with pastel sweetheart roses and blue delphinium. Prizes were won by Mrs. Ashby Jones, Mrs. Max Fandom, Mrs. Bill Castle and Mrs. Ted Williams. A dessert course was served by the hostesses to those present who were Mrs. Clyde Percy, Mrs. Bill Castle, Mrs. Max Fandom, Mrs. Robert Jones, Mrs. Ashby Jones, Mrs. Lowell Tripp, Mrs. Ted Williams, Mrs. G. H. Hudson, Mrs. Bill Pate, Mrs. Morgan Tripp, Mrs. Emory Speer, Mrs. Edward McKinley, Mrs. Hope Jones, Mrs. Kenneth Eaddy, Mrs. Kyle Shormaker, Mrs. J. M. Leonard, Mrs. Fred Stone, Mrs. Howard Sigman, Mrs. Robert Wallace, Mrs. Bill Kirk, Mrs. J. C. Wolf, Mrs. P. T. Tyre, Mrs. J. C. Wolfe, Miss Sadie Williams and Miss Rebecca Stevens.

## Recital Is Given By Munson Studio

The second recital by the pupils of the Fannie R. Munson Piano School was presented last evening in the studio, 603 Myrtle Avenue, at 8:00 o'clock in memorial to Mrs. Fannie Strimbirg Munson with a large and appreciative audience in attendance.

The studio parlors were opened on suite and attractively decorated with coccus plumosa palms and white and yellow gladioli.

The program included "Russian Dance" by Engelmann, Janary Goren; "Blue Habits" by Manna-Zucca, Dorothy Tyre; "Orange Blossom Waltz" by Ludovic and "Dance of the Rosebuds" by Keats; Sarah Alice St. Black; "Twilight Lullaby" by Haines, Colleen Matthews; "Pretty Starlight" by Greenwald, Standa Vihlen; "Dance of the Baffordis" by Adair, Helen Pittard; "Black Hawk Waltz" by Walsh, Lisa Parker; "Nola" by Fox Trot by Arndt, Matt Earle; "Under the Double Eagle" by Wagner, Donna Sue Newton and "Shufflin' Along" (hoogie-woogie) by Whitefield Jimmie White.

Also on the program were "Marzuka Op. 7 No. 1" by Chopin, Jo Fisher; "Onward Christian Soldiers" by Sullivan-Sandley; "Jesus Saviour Pilot Me" by Gould-Shubie; "March" by Shuman; "Melody of Love" by Engelmann; Kay Phagan; "Nola" (original) by Arndt, Sidney Vihlen; "Mandolin Serenade" by Luter, Donna McTeer; "Polonaise Joyeuse" by Krentler; "Vivante Cadenza" (Glow Worm) by Lucke, Gibson Bates; "Minute Waltz Op. 64 No. 1" by Chopin, Ellen Vihlen; "Dance of the Candy Fairy" from the Nutcracker Suite by Tchaikowsky; Peggy Wright; "Deep Purple" by DeRosa, Nancy Rountree and "Rustle of Spring" by Rindler, Barbara Flynn.

## POW Riot

Unsettled from news that a Korean truce is agreed upon, Communist prisoners were kept on edge today.

Today the Army said Enclature 1 is a mixed camp for both Communist prisoners who want to return behind the Bamboo Curtain and anti-Communist prisoners who don't. It did not say whether the rioters were Chinese or North Koreans or both.

SEoul, Korea (AP)—U. S. Saboteur plots reported they shot down four Communist jets over North Korea today. The air battle near the Manchurian border produced America's 16th jet ace.

A U. S. Fifth Air Force announcement said the new kills raised total destruction of Russian MIGs in the Korean War to 302.

Col Harrison R. Thynn, Pitts field, N. H. commander of the Fourth Fighter Interceptor Wing, got his jet ace rating in the fight near the Yalu River.

Allied air losses, if any, are announced weekly.

Eight Japan-based B-29s Monday night bombed the Seimon rail by pass bridge across the Taedong River northeast of Pyongyang, the North Korean capital. The Air Force said pilots reported most of the 155-mile ground front area at Hamhung on the east coast and a lone B-29 bombed front line from prison positions.

The 155-mile ground front action was limited to patrol clashes.

By SAM SUMMERLIN  
MINNAN, Korea (AP)—United Nations truce negotiators today accused the Communists of "seeking every vicious means" to block a Korean armistice because of their fear of the truth.

The especially bitter 62-minute session at Panmunjom produced no progress on the lone issue blocking an armistice—what to do about captured Reds who don't want to return to Communist territory. The Communists want them back.

The truce delegations will meet again Wednesday.

Vice Adm. Turner Joy, closing out his last days as head of the Allied truce team, said that in 10 1/2 months of negotiations "I

## Sports Are Enjoyed By R.A.'s Of Church

The R.A.'s of the First Baptist Church met Saturday afternoon at the church at 2:00 o'clock from where they went by truck to Paola where they enjoyed swimming and baseball.

The study course was under the direction of Alton Tedford, counselor of the group of boys, and was taken from the "Ambassador Life", a study book for boys with the subject "Boys at Home in Foreign Lands". The subject was broken down into six categories including "War's Destruction", "Communism's Curse", "Catholic Power in Home Life", "Poverty", "Paganism" and "The Influence of Christian Homes in Foreign Lands".

Mr. Tedford stated that in order to decide on a permanent meeting place, various sites have been visited twice a month.

Those attending the outing were Buddy Foster, Dickie Rountree, David Wilson, Richard Sykes and Maurice Phillips.

# G. W. Spencer Wins Seminole Golf Title By Edging Powell

## Long Reign Of Jim Spencer Ends As Brother Triumphs; Aitman Is Winner

By KENT CHITLAIN  
A touch of irony resulted from G. W. Spencer's 2 victory over Jim Spencer last Sunday that won for him the Seminole County Country Club men's golf championship. Jim Spencer, who for the last six years annexed the title, retired this year to give the other players a chance and of all things the crown went to a Spencer again this year.

This time, however, it was Jim's brother, G. W., who captured the honors. Runner-up Powell defeated Roy Symes Jr. to gain the title last week while G. W. thumped John Levy to earn the right to play Powell. J. W. Aitman, second out of the semi-final round, defeated George Herndon in a 19-hole thriller to take the first flight title. It was the second straight match in which Aitman owned a teenager to gain the crown. In the semi-final round, Aitman defeated Herndon, a former baseball star, Mel Fleischer. Herndon beat Roy Holler in the semi-final.

The second flight championship between George Shury and Ed Cleveland of the Sanford Auxiliary Naval Air Station will be played out tomorrow. It was the only match that was not completed in the six flights.

Ed Cleveland annexed the third flight crown Sunday with a 4-2 win over Dr. Harold Kling. Robert Billinger slugged a 4-3 defeat on T. Grier to gain the fourth flight honors. Dr. F. McDaniel narrowly edged Capt. L. Chittenden of the Sanford Naval Air Station 2 and 1, to take the fifth flight.

The three-week tournament to determine the men's championship of the club saw 48 players vie for the sixth flight title. In the championship flight, 16 players participated while in the other five brackets eight or less competed.

The winning saga of Jim Spencer tells of his unmatchable domination of the men's championship of Seminole C. C. for the year's first preceding the war and the six years after 1945. During that time Jim tied his brother's all-time record on 15 courses last year with a 65, which is a better par. G. W. Spencer established the record in 1940.

## FIL Pennant Race Is Converted To Mass Confusion

By G. E. FLOWEN  
Associated Press Staff Writer  
It took a mathematician to figure out who stood where in the Florida International League today.

All home teams had Monday night as Miami walloped Lakeland 11-3; Havana blanked Miami Beach 2-0; Tampa downed St. Petersburg 5-1; and West Palm Beach took Fort Lauderdale 5-1.

As a result, Havana took over second place, Miami dropped to third, Tampa climbed into fourth, West Palm Beach moved into the fifth spot and St. Petersburg fell to sixth.

Miami Beach held a 2-game edge over Havana but the Flamingos wasted six hits while Havana got only two. A walk and two errors led to two Havana runs in the first. Silvio Garcia hit Havana's first hit in the sixth and Manager Mike Guerra collected the other in the seventh. The game drew 1,038 fans.

The late Lopez shackled Lakeland on nine hits while Miami raked four Lakeland pitchers for 10 and made them count. Rocky Retsell homered in the second with Paul Armstrong aboard. A double, single and triple but Miami failed to stay in that hit.

Rogelio Martinez doled out six hits before he St. Petersburg earned 2,306. Len Pecora's single started Tampa on a 2-run burst in the third and he singled in two more in a 3-run sixth. Howie Mence homered over the leftfield fence in the seventh for the home team's only tally.

Jennie Lent's 7th hit mounded and Butch Lawing's home run gave West Palm Beach the nod at Fort Lauderdale. Jack Fox hit safely twice in three trips and drove in two runs for the Indians. Jennie singled and batted five times. It was Fort Lauderdale's 4th loss in 41 starts this season.

# Cocca Nips Blues, 10-9, For Fourth Defeat In Last Five Games

## Aleno Clouts 4-Run Home Run To Raise RBI Total To 52; Tribe Plays Here

Amid the tropical rains and a stormy jungle setting of Provoost Park in west Cocoa, the Seminole Blues succumbed to a four-run eighth inning outburst by the Cocoa Indians to lose to the Tribe 10-9 last night. It was the third straight Sanford loss and fourth defeat in the last five games.

After staking the Indians to an early lead, the Blues picked a way at the score until the top half of the eighth game when Manager Chuck Aleno sent a rocketing blast over the left field wall with the bases loaded to put the Seminoles ahead 10-5.

It was Aleno's seventh homer of the year to put him in a two-way tie with Ed Levy for the circuit drive leadership in the Florida State League. Aleno raised his total runs batted in production to 52 for the year with the big blast.

The roof fell in on the Blues in the last half of the eighth when the Indians scored four runs, capped by a two-run circuit drive by Manager Pep Rambert. It was Rambert's third homer in the last three nights and his fourth of the year. The blow proved to be the undoing of the Seminoles.

The four-run outburst came off reliever Murray Byrd who supplanted starter "Chico" Corrales after the latter was taken out in the eighth for a pinch hitter, Ted Bromby, who singled.

Byrd's defeat marked the second in a row in the last four days and gave the slow balling right-hander a 5-4 overall record for the year.

After Aleno doubled in the third, John Imbra hit his second home run in as many nights to face the Blues their first two runs. It was Imbra's fifth circuit smash of the year. He has hit four of his five homers on the road.

Full blood Indian, Joe Pennington, fanned three straight Seminoles in the top half of the ninth to win the game for Cocoa.

Fred Castellano blasted out a double and two singles for the Blues to pace the 14 hit losing effort before being injured on a beautiful running catch in the eighth.

Tonight the Cocoa Indians will face the Blues in the Memorial Stadium at 8:00 p.m. Aleno will probably start Jose Fernandez, the Cuban flinger has won three while dropping four games thus far.

Press Box Patter: Jose Fernandez went to right when George Keith shifted to center replacing the injured Cavallaro. The Blues are now three games out of first place and only one game ahead of third place Jacksonville Beach.

## The Sports Register

By KENT CHITLAIN  
Sports Editor

An Orlando Sentinel sportswriter made an interesting analysis of the Seminole Blues during their recent winning streak, but he made some very glaring mistakes. In the first place, he said that "with few exceptions" the Blues were fielding the same team that started against the Senators in Orlando on opening night.

Actually, there is very little substance to this. The Blues had only five players from that original team that went to Orlando in April. 14, when he wrote the article. Since the beginning of the season the Blues had a very relaxed enough players to field another complete team with utility men.

Best of all, he never been under the 500 mark in games won and lost. This again was wrong, for on Apr. 20, at the conclusion of a Sanford four-game losing skid, the Seminoles had a five-win and seven-loss mark for a .416 percentage.

What we are interested in doing is not to criticize the Orlando writer or his source of information, but to straighten out the record. When the General Manager John Kridler and the Seminole Blues have been on their toes in acquiring new players to produce a winner for Sanford.

During the time from opening night until the conclusion of the Blues' big winning streak, 13 players have left the Sanford fold to be replaced by seven others with only the three veterans, Chuck Aleno, John Imbra, and Joe Parise, retaining their positions and rookie Fred Cavallaro and George Knie, limited service, still in the Seminole uniform.

In other words the secret of Sanford's success has been the constant shuffling of players to acquire the winning combination. Notable has been pitching the improved Blues obtained from such players as George Joe Parise, Smith, "Chico" Corrales, Jose Fernandez and Paul Chery.

Also added to the Sanford roster have been outfielders Bill Campo and Ted Brockley, as well as shortstop Elmer "Sherry" Sherry. Here is a box score of the Seminole Blue players who have been released:

Pitchers: Swalp, Carnett, Harrowe and Long (Milt) Street. Friday night at Fort Lauderdale. Catchers: Petrovino. Infielders: Miller, Burns, Fort. Outfielders: Malarky, Gomez, Patrick, Haber and Raschier.

The coach with probably the best record in Seminole County is Sanford Junior High School's mentor Howie Gordie. His Junior High produced the finest pitcher in the county, Brockley, when they won 10 games of 12 played, romping over every junior high opponent in this section of the state.

Now the responsible coach, who has been a guide for the charges through an undefeated baseball season. The Junior Feds have won three straight and will take on Winter Garden here tomorrow on the Little League Friday night at 4:00 p.m. The Gardeners stymied the Gardeners last Friday afternoon, 10-5, in Winter Garden. The Little Feds also hold two whopping victories over Enterprise.

Gordie doesn't deserve all the credit for he certainly has received an assist from Bobby Newman and his staff of Rotarians with their splendid job of coaching the Rotary Baseball League this spring that developed such Junior Feds stars as Jimmy Hawkins and Johnny Jones.

Not to be under estimated, however, is the role of E. G. Beale, principal of the Gramma School. He so diligently has worked to promote interest in baseball and personally supervised his embryo age stars... Jim.

## National League Clubs Wonder If Maglie Will Lose

### Sal Chalks Up 7th Win In Row With Not One Setback

By ORLO ROBERTSON  
Associated Press Sports Writer  
The seven National League rivals of the New York Giants were wondering today if Sal (The Barber) Maglie is ever going to be "taken." Their baseman Bobby Thomson said that "with few exceptions" the Pirates if they shake their heads in an emphatic negative manner.

The 35-year old right-hander from Niagara Falls, N. Y., hasn't been in this year in racking up seven victories to run his undefeated string over a 2-year span in 10. He has met and whipped all teams except the Boston Braves and the Chicago Cubs. He has allowed only seven earned runs for the enviable average of 1.02.

The Pirates have a special reason for wondering if Maglie is unbeatable. When he blanked them 4-0 on seven hits Monday in one of the three games played in the majors, it marked the 13th straight time the curve-ball ace has turned back the cellar-dwelling Buccas.

His baseman Bobby Thomson supplied the hitting power for Maglie's second shutout of the season as the Giants availed back into a tie for first place with the Dodgers, who played 1-1 with the Cubs in a game called by rain after one was out in the top half of the seventh. Maglie's other goose-egg came on April 20 at the expense of the Dodgers.

Billy Loew, who has won four straight for the Dodgers, and Turk Lowm hooked up in a hurling duel before rain put an end to the proceedings. The Dodgers, who made only one hit, were the first to score. When he blanked them last control and forced home a run. The Cubs tied it up in the fourth.

In the only game played in the American League, Lou Houtrout again called on his sharp fielding outliners to give the Boston Red Sox a 3-2 victory over the Detroit Tigers. The victory, credited to Rookie Bill Henry, lifted the Sox into a virtual second-place tie with the Cubs in the third inning. Lou Houtrout and Clyde Volmer drove in the winning runs with long flies in the seventh. Ellis Kinder and Mel Parratt, two more veterans, came in to save Henry when the Tigers threatened.

The only other scheduled game, St. Louis Cards at Philadelphia Phils, was postponed by rain.

## Matthews Hurdles 1st Heavyweight Title Obstacle

### Red Hats Are Now 3 Games In Front In FSL Flag Race

By JIM COUR  
PORTLAND, Ore. (AP) — Harry (Kid) Matthews cleared his first major heavyweight hurdle here Monday night. Matthews, 183½, beat Rex Layne, 187½, in a 10-round decision over Rex Layne, 198½, Lewiston, Utah.

Layne was the first heavyweight of reputation that Matthews had met. He was a better fielder than Matthews for a while some time in July with Rocky Marciano, the Brockton, Mass., better who knocked out Joe Louis.

Matthews was just too classy and hit too hard for Layne, a primitive-type mauler who nevertheless holds a decision over Heavyweight Champion Joe Walcott.

The sharp-shooting Sea veteran scored the only knockdown in the second round. He set the rugged Layne up with body punches to land his favorite left and right combination to the head.

Matthews had his Joe in trouble several times before the end of the eighth but was content to box and counter punch without running in for the kill. He apparently developed a healthy respect for Layne's punching power in the first round when the Utah man twice staggered him with lefts to the head.

A crowd of 11,000, the largest in Oregon boxing history, paid nearly \$75,000, a record rate in the state, to see the fight.

## Sportsmen

By ROBERT Z. JOHNSON

Fishing and hunting yesterday and today.

I can remember the time when a few men could go with their families on a camping trip to the St. John's River, Lake Jessup, Wekiwa River or what any of the lakes and streams in Florida and while the women and children pitched camp and gathered firewood the men could go out and catch fish for the meal. It did not take long to get all the fish a good size family or two could eat. It was a pleasure for several families to get together and go camping in the good old days.

But today it is quite different. You had better take your fish with you on these camping trips for you may catch them and you may not. Where the fish have gone no one seems to know but still the biologists of the Game and Fresh-water Fish Commission will tell you that there are so many fish in the lakes and streams that they are starving to death.

The game, especially the deer, has increased in the last few years. I have seen the time when you could go to the Ocala National Forest and hunt all day and never see a hunter except your own party and never see or kill a deer. But today there are hundreds of hunters each day in the season and several hundred deer killed each season.

The reason for this is we have had good protection of the deer and all or most all hunters protect the doe deer. With good protection we have the best deer hunting at this time that the state of Florida has ever had.

I believe if we could get the same protection of our lakes and streams we could get good fishing back. In my opinion we will never get good bass fishing back in the state until we can find some way to protect our swimming lanes and also some way to stop illegal fishing.

We are still getting good news from the Putnam County Fishing Contest.

There were 9 bass entered in the sixth week of the contest bringing the total entered up to this time to 70 with a combined weight of 886 pounds 3 ounces.

Mrs. Marjorie Fleming, Jacksonville, caught the largest fish for the week weighing 10 pounds and 10 ounces. It was taken on live bait from Crescent Lake while fishing out of the Bass Capital Resort. This has won a trophy given to the captor of the largest bass each week.

R. H. Robson, also of Jacksonville, took the lead in the light weight division of the three months contest this week with an 8 pound 8 ounce bass captured on a spinning outfit with a 6 pound line. The fish was taken from the St. Johns River while fishing out of Sportman's Lodge at Wekiwa.

A few bass are still being caught between Lemon Bluff and Lake Harney and west of Sanford from the railroad bridge to the mouth of the Wekiwa River.

Edgar Laprade, star center of the New York Rangers, operates a hotel during the off-season.

Manager Stan Karpulis pitched the St. Augustine Saints, the last place team, to one of their few victories. John Pawlick hit a 3-run homer for Leesburg in the seventh inning. Bob Rucker hit two doubles and a single in three times at bat for Leesburg.

Neil Zimmerman, sidelined for the past three weeks with a leg injury, pitched a 4-hitter for the Orlando Senators to beat Gainesville. Rain stopped the game after the fifth inning.

Reliever Ken Adams, backed by 13 hits from his teammates, was the winner for Palatka.

First baseman Pep Rambert's 3-run homer sparked Cocoa 4-0 victory in the last of the eighth inning, after Sanford had scored four times in the top of the eighth.

Jack Chesbro of the New York Yankees pitched 45 complete games in 1904.

## "Chico" Corrales Posts Sixth Lowest ERA Mark In State Loop

D. Florida State League's lowest earned run average of the 1952 season.

Working 32 innings in four games, Ralat had allowed but 13 runs, only four of them earned, for an earned run average of 1.13 per game.

The veteran lefty, Red Roberts, of the league, leading DeLand in 10 games, was second with a 1.61 average after five games during which he hurled 29 innings, allowing 18 runs, only seven earned.

Rookie Ronny Raper of Orlando is the nominal leader with an 0.97 mark in 10 games, he had pitched but 20 innings, allowing six runs; two of them earned.

Among loop hurlers with three or more decisions to their credit, there were but four undefeated as of midnight Thursday: Tommy Mills of Jacksonville Beach with nine straight; Fred Montsoda of Gainesville with six straight; George Smith of Sanford, and Roberts, with four straight.

Official figures through midnight Friday, 3 or more decisions:

Pitcher-Club	L	R	H	W	L	Pct.	ERA

### Quest For Panties Spreads As Other Colleges Join In Raids

By The Associated Press

The college boys craze to invade women's dormitories for panties flared anew on campuses from Vermont to Minnesota, Monday night. Harvard police were caught between raiders and the beleaguered girls in the dormitories.

Similar collegiate outbreaks have occurred at other schools in the nation. Apparently, some persons believe the spring revels represent the students' way of letting off steam before final examinations.

Here are Monday night's developments in silks and ties.

At Evanston, Ill., some 200 North western University women were ransacked in front of the men's dormitories. The boys applauded the girls, and then some 1,000 of them paid a "return visit" to the women's houses.

Singing and cheering the male students snatched lingerie in five dormitories. But 30 women at a sixth house repulsed the invasion with buckets of water. Police seized nine students but released them after a lecture.

At Columbia, Mo., 3,000 University of Missouri men students assaulted dormitories on their own campus and dormitories at Stephens College and Christian College, both women's schools.

Acting Police Chief J. L. Parks said damage might run into thousands of dollars at the three schools. He said he obtained permission to call out the National Guard but that the youths retired after he alerted the Civil Air unit. The forays lasted four hours. No serious injuries were reported.

At Minneapolis, some 500 University of Minnesota men students raided three women's dormitories but the raid netted only four bras, four pairs of panties and a silk slip.

Some 3,000 University of Connecticut students at Storrs, Conn., milled around the sorority quarters in another party raid. Girls retaliated by dousing boys with buckets of water.

At Tuscaloosa Ala., police kept would-be raiders more than 1,000 strong at one time across the street from a row of University of Alabama dormitories during a long and sometimes heated altercation.

### Hospital Plan

(Continued From Page One)

time. He pointed out that the Deland hospital is expected to be completed by July and that the Fish Estate has \$100,000 coming from the federal government and due within two years, and that an additional \$270,000 has been pledged by the federal government for the Seminole County hospital.

He also pointed out that architect's plans for the local hospital providing for 50 beds have been completed, that a meeting of the Fish trustees will be held in June and that with the completion of the Deland hospital it should be possible for the trustees to get a clear picture of just what the Seminole hospital will cost, and what funds will be available for its construction.

Mr. Pope revealed that the Fernald-Laughton Memorial Hospital is running in the red to the tune of about \$600 a month, though it showed a profit of approximately \$4,000 during the last 18 months of its operation at its former site at the Naval Air Station and he attributed this largely to the smaller bed capacity of the present hospital.

The present capacity of the Fernald-Laughton is 82 beds, whereas peak loads of 50 and 55 could be accommodated at the Navy site.

Mr. Pope also pointed out that the County is currently paying for the care of indigent patients in hospitals including the Orange Memorial Hospital in Orlando. Patients are sent to the Orlando hospital, Mr. Pope added, because of the need for specialist care, as well as for the lack of facilities here.

"The construction of a new hospital here," Mr. Pope said, "probably would not cost the County any more in actual operating expenses than our present hospital costs."

The approximate cost of indigent care in Seminole County is about \$50,000 a year with about \$2,000 a month going to the Orlando hospital, it was indicated.

Mr. Tucker urged immediate action on the hospital because of the present lack of facilities and resultant inability to care properly for Seminole County's sick and injured, and pointed out that the petition asking for a bond election has been properly filed and the question of raising not more than \$750,000 in bonds for a hospital must be submitted to the voters in the November election.

It is necessary to know before that time, he said, the bonds are being issued in cooperation with the Fish estate or whether Seminole County must go it alone in the construction of a hospital.

Mr. Tucker said he would like to see the members of the Fish estate make a proposal to the County Commission on the County's behalf, which would be well for a consideration of bonded citizens to visit the new hospital and see if it is something similar to it is what is needed.

Mr. McClelland said he would like to see the members of the Fish estate make a proposal to the County Commission on the County's behalf, which would be well for a consideration of bonded citizens to visit the new hospital and see if it is something similar to it is what is needed.

son as to whether the men students should enter the women's quarters.

A student said co-eds dangled bed sheets from the dormitory windows and a few threw out underwear.

Ten students were arrested and eight were charged with disorderly conduct, their trials being set for Thursday morning. Two were charged with disorderly conduct and possession of fireworks.

Several firecrackers were set off during the demonstration, which lasted three hours.

The feminine flimsy fast also sent some 600 students roaming the University of Vermont campus at Burlington and brought out a full complement of the city police and fire department plus men from the state police and Chittenden County sheriff's office.

At least two students were injured in hand-to-hand scuffling with police. The air was filled with rocks and tear gas, plus torrents of water from fire department hoses. Loads of collegians, transported by paddy-wagons, were locked up.

A mob of some 1,000 to 1,500 men students scampers into three women's halls at the University of Wisconsin at Madison. It was all in fun, the police said, and there were no incidents.

At Newark, Del., some 250 male students stormed eight co-ed halls on the University of Delaware campus. Girls at one house fought back with a fire hose.

### Governors Race

(Continued From Page One)

present road system built on a pay-as-you-go basis compares favorably with that of other states and he advocated continuing road construction under that system.

"I believe everybody will see clearly now what many have been pointing out about Mr. Odham's immaturity and insubility," McCarty said.

And taking an apparent slap at Gov. Fuller Warren, who defeated him four years ago, McCarty said: "We've had four years too much of too much talk. You've had four years of challenges for debates and exhibits of empty chairs. Do you want four more years of it?"

There were no empty chairs at the McCarty-Odham debate at Orlando Monday.

When the two candidates got together at a Junior Chamber of Commerce luncheon, extra chairs had to be brought into the hall to accommodate about 600 men.

### Attorney General

(Continued From Page One)

did not believe McCarty's performance would match his promise in this respect.

Besides contending McCarty would be less than vigorous in prosecuting any suspected graft among administration officials and supporters, Ferguson and Watkins said the jurist attempted to "dodge and straddle" on the issue of presidential powers.

McCarty replied his reports were in compliance with the law in effect in 1948, and that supporters who spent money for advertising, radio time and other campaign costs weren't required to do it through the candidate's central treasury as the new law requires.

Odham supporters grumbled that McCarty hadn't answered the question but it satisfied the McCarty backers.

McCarty's prime questioner for Odham was in apparent reference to the Sanford candidate's proposal to hold pre-legislative town hall

who jammed in to hear the give and take.

They weren't disappointed. Neither candidate pulled any punches, and neither was short of cheering, shouting, whistling supporters.

They talked about each other, their platforms, their campaign tactics and expenditures, school financing, taxation, gambling law enforcement, their legislative records and various other subjects.

They fired questions and answers at each other, and answered questions from the audience. Nearly all newsmen who covered the fracas declared it pretty much of a draw, although it probably would be hard to convince backers of either man that he didn't come out on top.

Odham got his chance to ask the question he has served notice repeatedly he would fire at McCarty when they met:

"How much did you spend in 1948 when you reported expenditures of \$9,345, and you put up the money?" He contended the count of newspaper advertising in the 1948 campaign showed far more than that had been spent in McCarty's behalf.

meetings at which attempts would be made to have legislators pledge in advance to support the Odham program.

"Do you feel the Legislature should be a rubber stamp for the executive department or be abolished?" McCarty asked.

Odham replied the Legislature "should serve the people." He again outlined his proposal for the town hall meetings to call his program to the citizens and legislators and to keep books on the legislators during the sessions and send report cards back to the people.

### OPS Grants Increase In Grocery Prices

WASHINGTON (AP)— Prices in many grocery stores go up one to two cents a can today on some canned vegetables, fruits and juices. Housewives can expect increases soon on a large variety of other foods.

The Office of Price Stabilization (OPS) said it was granting the higher prices on vegetables, fruits and juices to compensate wholesalers for "markedly lower earnings. Under this order some canned corn, green beans, peas, tomatoes, tomato juice, canned fruit cocktail, pineapple, peaches and pears.

OPS said most independent stores will be affected but few chain stores will be, since they normally buy direct from producers rather than from wholesalers.

The agency said it may issue before the end of this month an order permitting retailers to increase their markups on such foods as concentrated coffee, dry cereals, cookies and many canned

### Two Canadian Mills Up Newsprint Price

NEW YORK (AP)— Two of the large Canadian newsprint producers raised their prices \$10 a ton today to the highest newsprint price in history.

Consolidated Paper Corp., the second largest producer, and Abitibi Power and Paper Co., the third largest, notified their customers of price increases.

The price varies according to the section of the country but on a New York basis, the increase brings the cost to \$10 a ton.

This is the second price increase within a year and it compares with a year of \$40 during the depression years of the early 30s and the previous high of \$10 in the early 20s.

It adds about 50 million dollars a year to the costs of American publishers, who already are finding themselves in an increasingly difficult feat squeeze in getting out a daily paper.

OPS officials said the higher margins for wholesalers are subject to review when the agency completes a national survey of profit margins and earnings by both wholesalers and retailers.

### SCHOOL BUS ACCIDENT

DADE CITY (AP)— A school bus accident which left nine children hurt, two seriously, has brought plans for better maintenance of Pasco County buses.

Mark H. Clair, county school superintendent, told a delegation of school parents he has given the bus mechanic a higher and will seek a second regular mechanic for the next school year.

The children were hurt when the bus plunged into a ditch. One has a fractured neck and another serious internal injuries.

The driver said the steering mechanism failed when he applied brakes because of a hole in the road. The State Highway Patrol reported the bus was in poor mechanical condition.

The chrysanthemum probably has been known for 2,000 years. The word "mind" was originally a verb, not a noun.

Chlorophyll, which causes the green color of plants, is found in a brown color in certain algae. Light travels about 186,000 miles a second.

NOTICE IS HEREBY GIVEN that the following named persons have been appointed as Clerks and Inspectors of the various Election Boards for the Primary Election to be held throughout Seminole County, Florida, on May 27th, 1952:

- PRECINCT NO. 1 — SANFORD**  
Polling Place: Store Room at 805 West 3rd Street
- No. 1A — Day Board
