Five Rules for Women Talkers

In the November Woman's Home Companion a contributor advises women on talk. Five rules are laid down:

1. Don't tell long stories, or even short ones, unless you have an especial gift for it.
2. Remember that talking about yourself is an indulgence, and as such, should be strictly limited.
3. If another woman tells you of some sensation or experience of her own, don't immediately cap with one of yours. "Swapping tastes" is of the lowest order of conversation. I have been in circles where the talk consisted in each woman's taking her turn in telling how she thought or felt about some commonplace subject, such as the digestibility of shell-fish, or liability to colds.
4. Never lose consciousness of the proportion of the talk you are usurping, and, if you are taking more than your share, be sure that the quality matches the quantity.
5. Discriminate always between talk for your own pleasure and talk for your friends. People constantly tell the stupidest anecdotes because these have become charged with some extraneous charm impossible to transmit. Perhaps the occasion when it took place was important because some particular person was there, and every detail of it has taken on a radiance visible only to the narrator.

Book Club

A number of ladies met at the residence of Mrs. H. E. Tolar and organized a Book Club, which will be given a special name at a future meeting. The club will be composed of twelve members; they will meet once a month at the home of each member in turn. Twelve of the best, latest and most popular novels will be ordered, each member selecting her own book, which will be read, and passed on in turn to the other members, while, at the end of the year, each member will have read the twelve books. They will meet in turn at all the homes represented; the member at whose home the meeting is to be held, will plan the entertainment of her friends for the afternoon. The ladies who will compose the club will be Mesdames E. N. Luke, Roy Ludlum, Deane Turner, Geo. Fox, Chas. Polk, Fred Williams, R. J. Holly, Chas. Dingee, Henry McLaughlin, Ernest Tolar, Harry Ward. The twelfth member has not yet returned to the city, her name will be added later.

Appreciated

Friend Holly:

I say three cheers for you, you have struck the key note. Keep the good work going and maybe by the time our next legislature meets we poor devils of sheriffs and deputies may be able to lie down at night without dreaming of some law-breaker seizing the fresh water lakes or the noble old St. Johns river at the dead hours of night for the sake of making a few dollars. I say again that I am of the opinion if our public press will take this matter up as you have done and keep it up there will be no more such cases as the one that has just happened in our sister county of Volusia.

With the best wishes for you and your success, I beg to be,

Yours truly,
 J. A. Kirkwood,
 Sheriff, Orange County.

IDEAL FERTILIZERS BEST

To gain a place on our regular list a formula must not only produce results, but results with a PROFIT. The user of fertilizer considers the effect on his pocket-book the REAL result. IDEAL FERTILIZERS produces the right effect, for it works with Nature. The preference of each class of vegetation for its source of plant food is carefully studied as well as the proper proportions to give perfect balance—no lack, no waste. With proper application of proper food vegetation outgrows diseases and insects to a great extent, and being strong and vigorous, produces fruit that is pleasing to the eye and palate, and brings financial returns pleasing to the grower. Do not lose the maximum profit due you by using poorly balanced plant food from improper sources. IDEAL stands for PROFIT.

HAPPENINGS DURING THE WEEK

Here the Readers Will Find a Brief Historical Spring Flowing For Hurred Readers

In a fifty mile gale Wednesday Orville Wright went aloft and remained virtually stationary in his glider with which he is conducting experiments in aerial stability. He was up nine minutes and forty-five seconds and maintained an altitude of approximately 150 feet.

Removed Tuesday from the grave in the cemetery at Hyannis, Mass. the body of Miss Avis Linnel, for whose death by poisoning the Rev. C. V. T. Richeson, of Cambridge, is being held responsible, was brought back to Boston by order of District Attorney Pelletier. Uncertainty on the part of the prosecution as to the exact manner in which the young girl met her death is reported officially to be the reason for the sudden move and the announcement by the district attorney's office that the state had enlisted five medical experts gave some strength to this report.

Men who have lived from youth to old age in Arizona, some of them having resided in the territory for nearly half a century, went to the poles Tuesday and for the first time in their lives expressed by ballot their choice for governor and other executive, judicial and legislative officials. The occasion was the general primaries for the nomination of candidates to be voted for at the first state election in Arizona, which is to be held in December. New Mexico, which was admitted to state-hood at the same time as Arizona, held to the convention plan of nominations, but Arizona adopted the direct primary system and put it into operation for the first time.

Death has claimed Ida Lewis, keeper of Lime Rock light for more than half a century, heroine of numerous thrilling rescues, and frequently alluded to as the "Grace Darling of America". Mrs. Wilson, for her full name was Mrs. Ida Lewis Wilson, was stricken with apoplexy, while at her post. Ida Lewis was the only woman to be officially appointed to the charge of an American light house. As the keeper of Lime Rock light in Newport harbor for more than a half a century she had saved eighteen lives, some of them at great personal risk. Her deeds of daring carried her fame throughout the world, and she received many honors, including medals, a life pension and the thanks of congress.

Maxwell Car Wins

The great Glidden tour, New York to Jacksonville, came to an end yesterday. The Glidden trophy was won by the Maxwell team, which made a perfect score.

Glidden Tourist Killed

Grim tragedy entered the ranks of the 1911 Glidden tourists Wednesday when S. M. Butler, of New York, chairman of the contest board of the American Automobile Association, was instantly killed when the referee's car, in which he was a passenger, left the road at high speed, three miles south of Tifton, Ga., and plunged down an eight-foot embankment.

Mr. Butler who was riding in the right rear seat, was thrown from the car when it leaped into the air for its fatal plunge. It made a three-quarters turn and when it finally came to a stop, a complete wreck, the unfortunate man was pinned to the earth, with the hub of the right rear wheel buried in his chest and stomach. His life was crushed out in a twinkling of an eye. P. J. Walker, of San Francisco, the referee of the tour, his wife and Charles F. Kellman, representing the makers of the Cunningham car, were the other occupants, all of whom more or less injured. Mr. Walker had his collarbone broken, while his wife sustained a broken arm. The driver, Mr. Kellman, was badly bruised and shaken up. All except Mr. Butler were thrown clear from the car and thus escaped death. Kellman stated that he was doing about thirty-five miles an hour when his steering gear suddenly locked and the next instant his car was leaping to destruction down the embankment.

New Bye Lo Hotel

Proprietor Rose of the Bye Lo Hotel is anticipating a good winter season and large tourist travel, and in order to accommodate the multitude he has recently made a number of improvements in his house that will be appreciated by the guests. All the rooms have been renovated and received new paint and calomine and the furniture has been done over. New fittings of various kinds make the rooms very attractive. The fine large reception parlor and lounging room will appeal to the commercial trade.

Mr. Rose states that his rates are \$1.50 to \$2.00 per day, or 50 and 75 cents per day for rooms, prices according to the rooms. The hotel is centrally located and is very convenient for the tourist travel.

Philadelphia Wins

In the presence of thousands of fans who cheered themselves hoarse, the Philadelphia team of the American League Thursday afternoon for the second successive year proved its right to the title of world's champions by winning the sixth and final game of the world's championship series from the New York Nationals. The series stands: Philadelphia, won 4; lost 2; New York, won 2; lost 4.

Bust The Trust

The government yesterday filed a suit at Trenton, N. J., for dissolution of the United States Steel Corporation.

In its suit the government takes the ground that the big corporation is a trust operating in restraint of trade.

BERT LEIGH

Coming to The Imperial Theatre Friday November 3rd.

"The Man on the Box," which comes to the Imperial Theatre fully equipped for the road with the original New York City production, Mr. Bert Leigh, in the leading titular role has been surrounded with all the accessories that helped make Mr. Henry E. Dixey famous in this play. The supporting cast is of unusual excellence for a road production, and a first class performance is looked forward to by the Theatre going public of Sanford.

MEN AND RELIGION

A Forward Movement That is Sweeping The State

Jacksonville, Fla., Oct. 27.—A study of the Men and Religion Forward Movement which is soon to be sweeping the entire state of Florida lends itself to the comparison with the development of a great railroad. The survey work of the movement is operated upon the principle of the engineering department or a great construction company. Before a single spike is driven or a stone laid, the engineering corps of a railroad company studies the territory which is to be improved, with reference to soils and levels becoming thoroughly familiar with the topography of the country. No modern engineer would dream of conducting his operations merely upon inspiration or enthusiasm. He insists upon getting the facts, and then he makes his deductions upon a scientific basis.

The sane and forceful men back of the movement argue that modern Christian work must be done with the same thoroughness if they are to get at the great social problems of this generation. Before teams are sent into any town or city, local men make a thorough study of conditions and note their findings and conclusions on a series of twelve different survey blanks prepared by the social service department. Twelve hundred questions are asked in this study, each of them capable of almost indefinite elaboration, but each dealing with a specific fact of condition. Personal opinions are not asked for—the survey seeks to discover all things as they exist. These facts are translated into graphic form and displayed in a group of sixty charts, covering all forms of life in the community.

With these facilities in hand, the central body is able to direct the operations of its experts in various lines of work, and to place them where they are most needed in the general scheme of increasing the social and religious interest and raising the level of conditions in all parts of Florida.

It is a man's work and it is already making a strong appeal in Jacksonville and other of the large cities of the state, where it is soon to be undertaken.

At The Baptist Church

Nest Sunday will be observed at the Baptist Church as Rally Day. Following the Sunday School Exercises, at Eleven o'clock there will be a special program in which the children and the young people will take part with an address by the pastor. The public generally, and the members of the church, especially are invited to be present.

Game was plenty and hunting easy by automobile on the New Smyrna road, as Colonel Bingham discovered during a night drive to that city, when he scooped up a cow and a hog and chased a big black bear for nearly a mile. Cows and hogs are anybody's game on that road at night, but bears are different. Speaking of bears and domestic game leads easily to other delights of the sportsman. There are plenty of fine bluefish now running along the coast ready for the angler's hook.—Daytona-Halifax Journal.

Week of Prayer

The Foreign Missionary Society had charge of the first and preparatory meeting designed to be held during this week of prayer services in the Methodist church. There was a fine attendance. Mrs. H. V. Perry, the president presided. She gave, for the information of the society, a very interesting and comprehensive synopsis of the work of the general board in planning and controlling the large and intricate amount of work being done by these far away workers in the distant fields of service. The data gathered and arranged so instructively by Mrs. Perry represented a great deal of painstaking care and interest in her much loved work. Mrs. Albert Leigh distributed to the members a number of answers to questions which she asked concerning the work that had been done by the different conferences and explaining the urgent need of funds to carry on the work in the specified fields where help in funds and laborers are so urgently required. After singing "Watchman, Tell Us of the Night" the meeting adjourned, after receiving the offering in response to the request for help in specialized places, and will hold another meeting Thursday afternoon.

The second meeting for the week of prayer was held Tuesday afternoon and was in charge of the Home Mission Society. A large number of the members of both societies were present. The president, Mrs. H. H. Chappell presided. She stated for the benefit of those who had not been regular attendants the object of the meeting, the specified work that the Home Mission societies were requested to assist by their prayers and gifts. As the school for the children of the mountaineers of North Carolina, located at Brevard, was in urgent need for more school room and dormitories, a paper stating the conditions surrounding the school, the inestimable good that has and is being accomplished and the urgent call of those who have the work in hand for help was read by Mrs. R. M. Mason. Mrs. W. H. Williams read an article describing the country surrounding the school, the people whose homes were in that remote mountain region, their need of the great mental uplift which the education of their children would bring to them. An article on "What our Students are Doing" was read. The religious training in the school and how gladly these young minds and hearts are responding to the efforts made in their behalf; how they go out in the various communities after graduating and become home renovators and religious teachers in the little churches that are being built and the Sunday schools that they are organizing and teaching; these statements by one familiar with the facts were read from a leaflet by Mrs. M. H. Bowler. It has been asked that the Home Mission societies raise \$20,000 for an offering during the week, for the new building and equipment for this school at Brevard. After the reading of the above leaflets Mrs. Newton and Mrs. Summers sang "Sweet Hour of Prayer" arranged as a duet and accompanied by Maud Alice Wagner. The song was beautiful and charmingly sung. The meeting then adjourned, to meet again this afternoon.

New Ferry Boat Line

The Sanford-Enterprise ferry boat has at last materialized and Capt. J. B. Tuttle will make three trips a day each way. The service at present is for foot passengers only, but whenever the travel warrants a carriage ferry Capt. Tuttle will improve the line. The ferry service is something that has been needed badly for several years, and especially since Enterprise has started so many improvements and gained new residents. The Sanford-Enterprise ferry is a great boon to the traveling public and Capt. Tuttle should enjoy a most liberal patronage.

Secretary Bates

There are few people in the world more eminently fitted for the position of secretary of the Commercial Club than Thomas K. Bates and these few, do not live here. This being true it was natural that Mr. Bates should receive the appointment and he enters upon his duties at once. Now there will be something doing all the time in the advertising line, and T. K. will keep the ball rolling if it is possible to keep the organization alive, and if dead he will give it a decent burial and start a Booster's Club that will really get results.

Many are the schemes that are being concocted to make you vote against your convictions, and for people that care nothing for your welfare.

I have already been severely criticised by my friends who cannot see fit to vote for me for my attitude towards labor. Gentlemen I was raised among you. You were my friends then—you are now—you will be my friends when I am your Mayor. I stand for a square deal to all the people.

Welaka Club Notes
The weekly meeting of the Welaka Club last Tuesday was well attended and the afternoon passed pleasantly in conversation, cards and various ways of whiling away a few hours. Delicious refreshments from the deft hands of Mrs. Robert Newman were served before adjournment. Many subjects of vital importance to the ladies and to the city were discussed. The State Federation is doing good work along every line of social and civic improvement.

The seventeenth annual meeting of the Florida Federation of Women's clubs will be held in Jacksonville November 13-16. Delegates will be met at the station by a committee, who will conduct them to the hotel Seneca, where all delegates will be entertained, and which will be headquarters for the federation. On Monday evening at the Women's club on Duval street, will be the usual address of welcome and response, followed by an informal reception for the visitors and delegates. Day sessions of the meeting will be given over entirely to business.

On Tuesday evening the program will be in charge of the health department. Wednesday evening the music department will arrange program and the evening will close with a musical. Thursday afternoon those present will have the great pleasure of hearing Mrs. S. D. Carpenter on Art, her subject for the afternoon, Venice. Mrs. Carpenter has lectured before the Woman's club of Chicago where she was enthusiastically received and her lectures on art, literature and music have been very successful where given. She is a charming woman of attractive personality and the Florida federation is delighted to have secured her for this lecture. There will be no lectures this year, but proposed change in the constitution providing for district presidents and change in ratio of delegates to federation meetings will occupy a great deal of time. The president of the Florida Federation of Women's clubs, Mrs. Thomas Shackelford will formally open the conference for charities and correction.

The program as outlined by the program committee of charities and correction will be carried out on Thursday evening, the feature of the evening being the address of Dr. Devine of New York, who needs no introduction to Florida people. A reception for Dr. Devine will follow and people of the state who know this famous lover of humanity by reputation only, will have a chance to meet

and know him personally. All meetings of the federation will be held at the club house on Duval street, except the joint meeting of the federation and charities and corrections, on Thursday evening, which place will be announced later. The social features of the federation will be more limited than the business club "on hospitable thoughts intent," desires but it is the general wish of the federation. It is hoped this will go on record as a hatless convention and a place will be provided at the club to remove hats.

No scheme is resorted to sell Reno's New Health. The only kind of advertising that can be profitable is the recommendation that goes by word of mouth from those whom this marvelous medicine has cured to suffering friends, relatives and neighbors. It is in this way that the sale of Reno's New Health has increased from day to day, from year to year. The demand for it is steadily growing and it has done a world of good in the homes of the famous and wealthy as well as among the army of hard working women.

Reno's New Health is the prescription of an eminent physician whose life was spent in searching for a cure for female troubles, and when he discovered this remedy he at once put it within the reach of the poor as well as the rich, and today it may be obtained at nearly every drug store.

Until Reno's discovery there was no known cure for the many ills with which women suffer. The pains and aches which our mothers thought they must endure, soon vanish under the curative and health-giving influence of Reno's New Health. Like nothing else, it gives new vigor, life and strength. It makes nervous, ailing women well and cheerful. It dispels headaches and banishes all nervous troubles. Reno's New Health makes it unnecessary at any stage of life to suffer from those serious ills that afflict so many. It does not merely relieve, but permanently cures.

Stubborn Case

"I was under the treatment of two doctors," writes Mrs. R. L. Phillips, of Indian Valley, Va., "and they pronounced my case a very stubborn one of womanly weakness. I was not able to sit up, when I commenced to take Cardui.

I used it about one week, before I saw much change. Now, the severe pain, that had been in my side for years, has gone, and I don't suffer at all. I am feeling better than in a long time, and cannot speak too highly of Cardui."

TAKE The CARDUI Woman's Tonic

if you are one of those ailing women who suffer from any of the troubles so common to women.

Cardui is a builder of womanly strength. Composed of purely vegetable ingredients, it acts quickly on the womanly system, building up womanly strength, toning up the womanly nerves, and regulating the womanly system. Cardui has been in successful use for more than 50 years. Thousands of ladies have written to tell of the benefit they received from it. Try it for your troubles. Begin today.

The gentle rains may stop the world's series but they start the vegetables growing in Florida which is much more to the point financially.

The Sanford-Enterprise ferry boat will a long felt want and bring our little sister into closer relationship and help both places.

Hon. B. Beecham of Orlando may enter the race for Congressman at Large. There are persistent rumors afloat to this effect and as Mr. Beecham has ample means to make a thorough canvass and is a live wire in politics he may shy his castor into the arena and—well, at least he would give them a good run. He was Mayor of Orlando for two terms, a candidate for State Senator and is a promoter of Florida lands or has been. Just now he can retire on his laurels and devote his time to politics if he chooses.

THE UNLOADED GUN.

"Everybody is familiar with the tragedy of the unloaded gun which happened to be loaded. A gun is a dangerous instrument to fool with, as many persons have found out to their everlasting sorrow. To shoot one's neighbor is no pleasant experience for either party to the transaction. No one wants to be shot and no sensible person wants to be responsible for helping any body out of existence by contributory negligence or otherwise. If these trite but few facts were borne in mind there would be fewer accidents during the hunting season; fewer funerals, fewer prostrations and a whole lot more of individual enjoyment and general satisfaction".

A NEGLECTED OPPORTUNITY

If the present city council would keep up the progressive reputation which they have achieved they certainly ought to construct a sidewalk from the terminal on Palmetto avenue to the High School building. Under present conditions it is asking a trifle too much of the ladies to request their presence at the auditorium when they are compelled to wade through deep sand and high weeds. If the placing of the High School in the suburbs was good business then it would certainly be a progressive step to construct a sidewalk to said building. With a \$20,000 building and one of the finest auditoriums in the entire state a small matter of sidewalks should not stand in the way. At the present time the fine building seems to be wasting its fragrance on the desert air, as far as being a convenience to the public is concerned.

CONFINED TO FACTS.

Charges and counter charges are being made about the present status of the city government and that or a few years ago with an idea of comparison for the benefit or the confusion of the candidates as the case may be. Now as long as this wordy war is confined to home people and goes no further, all well and good.

However, this week a stranger in the city with an idea of locating here was scared away by the statement that taxes were enormous, were growing greater and this calamity and that calamity was about to overtake us if so and so were elected. The prospective citizen did not take the campaign into consideration.

He did not go to the clerk's office for a confirmation of these fairy tales but— He took the next train out of Sanford for a city where there was more talk of building operations and less about city taxes.

The Herald has warned the people repeatedly about the hot air being expended upon the street corners and the stories told that cannot be substantiated. This paper has kept out of the present unpleasantness because to take sides would have precipitated a riot, split the city in twain and accomplished nothing.

The Sanford Herald has as much at stake as any other business concern here. We made a plea for a safe and sane campaign and we make it now, and in conclusion The Herald calls for a statement from the city clerk showing our property values, our territory and our tax rates and every other item that an investor would desire to know—not for political news—not to assist any candidate for election, but because the city has suffered enough from these Munchausen tales and

We Want The Truth!

Because The Herald helped to make Sanford and deserves a good square deal in return.

Thomas K. Bates has been appointed secretary of the Commercial Club and that organization ought to take on a new lease of life and get busy doing something for the good of the town.

Sanford Heights needs a mounted policeman—one that could patrol that district day and night and give the people of that section the protection that the winter vagrants will make necessary.

CONFEDERATE VETERANS

Their Big Reunion Came To A Close Thursday Night

The convention of Confederate Veterans at Orlando terminated last night in a ball given at the Elks' Club under the auspices of the Sons of Veterans and a reception tendered by the Daughters of the Confederacy at the Rosalind Club. The Veterans marched to the high school and participated in exercises given by the high school children. Later in the day the veterans, their wives and daughters and the sons of veterans were taken on an automobile ride.

These festivities followed a business session, at which J. A. Cox, of Lakeland, was elected to command the Florida division of Veterans, succeeding General Samuel Pasco. T. W. Givens and J. M. Cathcart, of Tampa, supported General E. M. Law, of Bartow, for the office, but the latter declined to accept it. According to established custom, the division commander also commands the First Brigade.

Dr. A. D. Williams, commander of the R. E. Lee Camp, Jacksonville, was elected brigadier general commanding the Second Brigade, and General B. F. Taylor, commander of Camp Loring, Tampa, was chosen commander of the Third Brigade.

The veterans will hold their next convention in Lake City.

Florida Defeats Clemson

In a slow but stubbornly contested game the University of Florida defeated Clemson college at Clemson Wednesday by the score of 6 to 5. Clemson started off well, scoring in the first quarter, but Florida came back strong. Taylor, the visitors' star halfback, ran half the length of the field for a touchdown, following this with a brilliant goal from touch-down. His punting throughout the game was fine. Webb and Biasell did the best work for Clemson. The game was raggedly played.

IT STANDS FOR PROGRESS AND PUBLIC IMPROVEMENTS

You judge a man by the company he keeps.

You judge a candidate by his record, his platform and his running mates.

The Mayor of Sanford is of little importance unless his views are in harmony with those of the City Council.

The Mayor can recommend and assist--the Council must determine and finally act.

Unless the Mayor and Council work together demoralization results and your government is weak and non-effective.

H. R. Stevens, B. W. Herndon, W. H. Peters, W. W. Abernathy, S. Runge and S. O. Shinholser are my running mates--the candidates for the City Council, who are being supported by my friends, and who will be elected to serve you for the ensuing two years.

They are all young men, clean and capable. Each in his own line of endeavor has made a success of his life and his business.

Some of them have been reared here in Sanford, others have been with you many years, while others are among the more recent arrivals--new blood. Some are wage-earners, others are independent business men. None of them are rich but each one is a property owner and taxpayer.

Man for man--don't they stack up well with the opposition ticket?

AND THEY ARE ALL PROGRESSIVES

The fact that these clean, capable men, all younger than myself, have associated themselves with me in this campaign for the advancement and betterment of our city, is a compliment to me and an evidence of confidence which I will not forget while life lasts.

Elect them and by doing so say to the world that Sanford is committed irrevocably to Progress--that she has buried her dead past and her eyes are on the Great Future.

I am not a recent convert for this campaign only

Perhaps, we would be using some more clay roads if we had not tried to bit off too big lump last winter in that million dollar bond deal. Quarter of that sum no doubt would have suited us folks, especially as the million was to go to the main highways and the by roads were to wait we were told by an enthusiastic speaker. If by roads had been promised a mile of clay for every mile of brick we think there would have been more bond voter. Moral, don't ever forget "by roads farmer."

WOODLAND PARK NOTES

Special Correspondence to The Herald The government surveyors are busy laying out the channel opposite Woodland Park, where their house boat has been the past ten days. We hope it will not be long before a bridge will be built here. Mr. Branham, superintendent of roads, motored to the park Sunday with some friends and when he saw the ideal location for a bridge, where a point of land on one side of the river seems to say to the point on the opposite side: "What are they looking for a bridge site for? Can't they see?" He admitted that this was the only place for a bridge to connect Sanford with DeLand, Orange City and Enterprise. Mr. Branham also promised to have that railroad crossing, which the county commissioners granted five months ago, put in at once.

Mr. Bowman, the champion high diver, after many attempts, succeeded in touching bottom. The other boys try hard to imitate him. Nearly all the visitors Sunday were regular patrons. Of newcomers there were only ten or twelve. The trolley gives much enjoyment and is very in use.

Rev. Mr. Waldron with his Boy Scouts will visit the park soon and in order not to interfere with the boys' school the park will be opened and the pool filled for them on a Saturday. —WOODSMAN.

"No—Only the Idea Is Imported"

WOULDNT you like to be able to answer your husband in this way—when he expresses his approval of your new outfit?

Wouldn't you like to tell him that you had obtained that elusive something called "Distinction in Dress" and that the cost was no greater than you had previously paid for ordinary garments?

If you would—let your next garment be a PRINTZESS.

There's a delicacy of line—and grace of style to a PRINTZESS that proves that PRINTZESS designs are close to foreign inspiration and also that they know how to create.

The materials are of true wool quality—tested and retested before they are judged worthy of bearing the PRINTZESS label—there's reason in such testing—in such extreme caution—for the PRINTZESS label is a guarantee that each garment must give you two seasons of satisfactory wear.

The curving lines of PRINTZESS fit are more accurate than the "custom-made fit" of your tailor—never a wrinkle at collar, shoulder, front and

hips—and it's logical that they should be so, for PRINTZESS tailoring is the result of a perfected process—38 years of knowing how—that eliminates faulty work at these four proof points, where most garments fail.

PRINTZESS garments hold their shape. After months of wear they have the same dainty freshness that they possessed the day you purchased.

PRINTZESS Plio Canvas, the new shape-retaining fabric, is responsible for this—it's a new fabric, moist-proof—wear-proof—that is owned and controlled by the makers of PRINTZESS and can only be found in PRINTZESS garments.

It molds the wool materials of the garment to your figure—and holds them there. This shape-holding insurance costs you nothing extra.

The price of PRINTZESS garments represents unusual value; better materials than a custom tailor could afford to use; workmanship that never slights; fit that satisfies at the first try-on; and shapeliness without constant pressing expense and trouble.

New Arizona Industry.
Residents of Arizona have discovered that cactus needles or thorns are admirable for use as graphophone reproducing points, and a big export trade is anticipated.

The Odd Change.
The value of the farms in Kansas is only \$1,722,653,000.61. The sixty-one cents was for a new wrench and a quart of gasoline.—Kansas Industrialist.

Stenography 2,000 Years Ago.
It seems incredible, but it can be proved, already in the olden times there were stenographers who took down the speeches made in the Roman senate or in public. They were called notarii and we find a place in Suetonius where Augustus is angry because the stenographers reported the speech of Caesar for Metellus in a very imperfect manner.

Probably Would.
"That sentence is not incorrect," said the professor, "but it sounds odd to the English-speaking ear."—Harvard Lampoon.

Always the Best Way.
It takes courage to keep quiet and go on. It is not an easy way, but it is the way which, having taken, no one ever regrets.

Natural Inference.
A New York newspaper chronicles the arrival in that city of an American boy who speaks no English. It is inferred that the little chap converses habitually in the baseball dialect.

Here the Readers Will Find a Brief Historical Spring Flowing For Hurried Readers

Joseph Pulitzer, proprietor of the New York World and the St. Louis Post-Dispatch, and one of the most commanding figures in modern journalism, died Sunday aboard his yacht, the Liberty, in Charleston harbor. The immediate cause of Mr. Pulitzer's death was heart failure. He had been in ill-health for several days, but until a few hours before the end, none of those around him had any suspicion of the gravity of his condition.

In other respects than mere numbers of ships and power of armament, the great naval review to be held at New York, Nov. 2, promises to eclipse any naval pageant ever held in this country. President Taft not only will sail through the four lines of ships at anchor in the Hudson river, but will watch the vast army pick up its anchors and get under way. He will then lead the long column down the bay and off Staten Island will stand aside on the Mayowen and again review the fleet as it passes out to sea.

The situation in Peking is becoming worse. A veritable panic prevails among the Manchus and the Manchus women are adopting Chinese dress. Some of them are attempting to make their feet appear small by peculiarly constructed shoes. Most of the trains leaving the capital are drawn by two engines, so heavily are they loaded, the people sitting on top of their household belongings. Officials are seeking asylum for their wives and children among the foreigners.

The governors of several southern states, with their commissioners of agriculture, met in New Orleans to frame a way to increase the price of cotton and find more economic means of placing the staple on the market and getting adequate statistics beneficial to the seller.

Representative Burleson of Texas, chairman of the Democratic caucus of the house and one of the party leaders in congress, wants the department of justice to proceed against the officers of the steel trust, not merely against the corporation. He believes that the department can have Judge Gary and Mr. Frick indicted in Washington for their part in the conspiracy to get President Roosevelt to practically sanction the absorption of the Tennessee Coal and Iron company by the steel corporation.

The Italian troops have for the past three days been systematically slaughtering the Arab tribesmen outside the city of Tripoli. The tribesmen are unable to resist the troops and are gradually being beaten back.

The most severe sentence ever inflicted in a "white slave" case in New York was imposed by Judge Warren W. Foster on

Philip Solow yesterday in general sessions. Solow had been convicted by Assistant District Attorney Wasservogel of bringing Eloise Wendt from Pittsburg to this city for immoral purposes. His sentence was 24 years.

Monsignor Diomede Falconio, Apostolic delegate to the United States, and Archbishop O'Connell of Boston and Farley of New York, official notice of whose selection as additions to the college of cardinals was received yesterday, will probably sail for Rome not later than Nov. 10.

Marshall Glover, of Bridgeport, Ala. this morning shot a belled buzzard that has been seen in Tennessee and Alabama annually for several years. Around its neck was fastened a bell with inscription, "Genoa, Italy, 1874." It was a sleigh bell fastened by three copper wires, one of which was worn in two.

Hundreds of thousands of peach trees in Georgia are in full bloom, months in advance of the proper season. Owners of the orchards are very much cast down over the prospect of a failure of the crop next season as a result.

Goats' milk is a specific for the drink habit, according to Dr. Adelaide M. Abbott, superintendent of the health and heredity department of the Women's Christian Temperance Union.

Mrs. Wight To Make Address

Rev. Edwin A. Waldo, pastor of the Union Congregational church at West Palm Beach, has written Secretary Manning of the Florida Conference of Charities and Correction, that he will be unable to deliver an address when the convention meets in Jacksonville November 16-18. Dr. Waldo is in bad health, and his physician has absolutely prohibited the extra tax on his strength. He is not even certain whether he will be able to attend. "However," he writes, "I hope to be, on hand at the second conference, wherever that is held, for I am deeply interested in the success of the movement."

Dr. Waldo was the founder of the charitable organization which took care of the thousands of human derelicts left after the close of the great Chicago world's fair. This is now the Uniated Charities of Chicago, and one of America's foremost charity organizations.

Mrs. Sdaie B. Wight, who heads the philanthropic committee of the state Federation of Woman's clubs has written from her home in Sanford that she will accept the invitation to speak to the conference. Her topic will be Social Service and The Woman's Club.

Mrs. Wight is one of the most prominent members of the federation, and has for a long time been active in promoting the good work it has undertaken. The fact that the conference is to be held is largely due to the influence of the ladies and their persistent efforts.—Times-Union.

CELERY DELTA GROWS ANYTHING

The Best Net Results Last Season Came From Several Other Crops Than Celery

"Any one can grow vegetables as they are grown in Florida. No experience is necessary." This brought about a lot of thought on the part of the writer for he knows that the production of vegetables and the sale of the product is one of the most scientific phases of soil production that could possibly be achieved. To bear out this point the operations of one our celery delta growers for the past season will be given, showing the net results taken from a five-acre farm during one producing season.

INCOME FROM SALE OF PRODUCTS

No.	Kind of product	Amount received
1,891	Lettuce	\$2,532.53
939	Cauliflower	1,455.34
18	Oranges	19.06
885	Eggplant	511.98
31	Cabbage	32.58
702	Tomatoes	1,117.63
3	Beans	6.00
3	Beets	2.50

Total income \$5,677.52
Total packages, 4,652.

COST OF PRODUCTION

Crates	\$588.24
Labor	765.39
Fertilizers	607.42

Total expenses \$1,931.05

Net profits \$3,746.47

This is equal to a net profit of \$749.30 per acre.

The packages shipped each month were as follows:

October	63
November	53
December	558
January	1,265
February	114
March	1,123
April	40
May	449
June	739
July	250

Total packages 4,652

The first shipment was made on the 3rd of October and the last shipment was made on the 14th of July. The shipping season covered a period of nine months and eleven days.

The products shipped each month were as follows:

October	Eggplant, cabbage, cauliflower and oranges.
November	Cauliflower and oranges.
December	Lettuce and oranges.
January	Cauliflower, lettuce and cabbage.
February	Cauliflower, lettuce and cabbage.
March	Cauliflower, cabbage, beets and lettuce.
April	Lettuce, cabbage and beets.
May	Tomatoes and eggplant.
June	Tomatoes, eggplant and beets.
July	Eggplant.

This last state shows that one must be experienced in the culture as well as having the knowledge of when to prepare the seed beds so as to have the products come on the market at a time when the market is rushed with a good demand. This point should alone show the grower that he will have to proceed very carefully in order to make a success of the various lines.

The shipments from this farm were sold to thirty-nine different firms or individuals, besides a considerable number of packages which were sold on the express platform and were entered on the account slips as cash sales. One must not only be a good grower of vegetables, but must also be a business man of considerable proportions in order to select the proper firms to whom he should ship his products in order to secure the best results, all of which makes it very plain that a man fresh from a book-keeper's job or from other indoor work should have rough sailing to bring about a balance in the right side of his ledger unless he had some good previous knowledge of the trucking business and even then he might go wrong, if he brought his Northern

methods here and injected them into our subtropical way of making things grow.

It is an old saying in the celery delta that it requires three good years of work before the land is brought up to its maximum state of production and that it also takes three good hard years of labor in the field here to make a successful vegetable producer.

Sanford has the reputation of being the celery city and many persons are of the belief that nothing but celery is or can be grown here, while the very opposite is the actual condition. It will be seen that the \$749.30 per acre net profit made by the gentleman just quoted has naught to do with celery. There are many growers here who do not delve into the mysteries of the celery business. The price of good seed this season is \$12 per pound is none too much to the acre. The directions for propagating celery plants are as intricate as the management of a case of typhoid fever and it is not every one who cares to handle such dainty crops. Cauliflower seed sold for \$54 per pound this season and that is also a crop that requires very great care and experience.

There are some owners who come here late in the fall, live in town and hire all their work done and make a complete failure by the first of April and are ready to go back home just as soon as they are advised that the last vestige of snow has disappeared. From the above statements it will be seen that one-third of the above farm were shipped after April 1, which further demonstrates that the grower of truck can have ample work to look after every month in the year; and the man who makes a success is usually not one who is an adept at bridge, but one who loves nature and is happiest when he is making the soil respond profitably to his caressing touches.

Quiet Home Marriage

Miss Sallie Lou Peabody and W. R. Griffith surprised their friends by being quietly married Sunday evening at the home of the brides mother Mrs. E. W. Peabody at six o'clock; in the presence of the family and a few friends. Rev. C. H. Summers performed the ceremony.

Mr. Griffith is well known in Sanford where he was a resident for some years and an employee of the Atlantic Coast Line. The many friends of the happy couple and the Herald extends congratulations to Mr. and Mrs. Griffith and best wishes for a long and prosperous journey through life. The happy event became known soon after its occurrence, and quite a number of their acquaintances joined the family at the train to see them off on their trip to Sarasota, Fla., the grooms present home where he is engaged in the automobile business.
