Bervice "WELCOME"

OF LAKE MARY Rev. Joe Chambers Pasto: The Model

> "Now I'm big-with a hat like Mommy's!" Amy was really full of herself when we went shopping yesterday.

I was amused, too, as I watched her imitate her mother on the way to church the next day. She really had that walk down to a "T." I'm glad her mother is her model. She couldn't have a better one. Mary's love of God is reflected in everything she does. Her happiness in serving God

and His church is contagious. I should know! When we were married, I was a sometime church-goer. Now, I teach Sunday School, sing in the choir and am chairman of the building committec. I find it deeply satisfying to know that my church needs me.

Every church needs the dedicated effort of its members. Experience the toy of serving God.

Gaulle steps down today as president of France, ending more than 10 turbulent years of power that profoundly altered the nation's political outlook. economy and foreign policy. France's 78-year-old leader had turned a referendum Sunday on comparatively minor constitutional changes into a vote of confidence, gambling that his threat to resign would once more swing the electorate behind him. When the voters rejected his proposals, he announced his stepdown in two brief sentences: "I am ceasing the exercise of

my functions as president of the Republic. This decision takes effect at poon today." Senate President Alain Poher was to take over as interim president. No formal ceremony was scheduled, and De Gaulle was expected to remain cloistered in his home at Colombey-Les-Deux-Eglises.

Poher must organize a presidential election within 20 to 35 days. He has been mentioned as a candidate, but former Premier George Pompidou is considered the favorite. It is, at this writing, very much endangered. What was bound to take place, has taken place: confrontation between an ambitious Republican Governor and an equally determined and traditionminded Democratically controlled state legislature. If the Democrats had planned to hand over to the Republican governor an issue which has all the qualities of political success in allowing the chief executive to don the mantle of the "People's Voice"

North Korean Danger Rises

Much Too Big

In connection with the movement for another Hoover-type overhaul of the Federal Government the U.S. News & World Report has assembled some striking statistics.

At the present time, according to this summary, there are 6.4 million federal employes in various civilian and military agencies, which works out one federal payroller for every 12 million gainfully employed Americans. Federal salaries total \$39 billion a year. The Government owns 760 million acres, one third of the Country's land area. Standing on this land - vast stretches of which are idle - are 421,493 buildings. Government real estate is worth \$103 billion, It owns 380,000 vehicles, 46,742 airplanes

Other interesting items from the inventory assembled in the Congressional Republican Newsletter as one means of measuring the magnitude of the reorganization job facing the new Administration, follow:

many programs it has going. Some 1,090 have been catalogued. The Government spends \$4 billion a year on research in its own laboratories, but has no report on who is doing what in how many other labs. Federal agencies, with their fetish for multiple copies of everything, wade through a trillion sheets of paper every year in administering federal laws that are codified in 16 books containing 11,749 pages. Government is spending \$350,000 tax dollars a minute, \$3.5 billion a week. The Defense Department alone has more real estate in its \$41 billion holdings than 125 of the Nation's biggest corporations

Reports of the Federal Bureau of Investigation disclose a shocking 89 percent increase in crime in the United States between 1960 and 1967. Last year more than 3.8 million serious crimes were reported. Many more-no one knows how manywere not reported. The 16 percent increase in the figures for 1967 over the preceding year included an upward climb in violent crimes against persons and

Arrests reached a staggering five and a half million persons, of whom more than a third were under age 21. The causes of crime and social unrest are many and varied. The remedies are not simple. They call for the combined efforts of government and individual citizens in many spheres of American life. Achieving social justice and equality under law must be the common

goals of all of us. This year on May 1 we again observe LAW DAY USA. The theme for 1969 is: "Justice and equality depend upon law-and you!" It's a short way of saying that justice and equal op portunity do in fact rely both upon laws and courts and upon the attitudes of individual Americans to

OVIEDO HIGH School Band under the direction of Richard Feinberg attended the Florida Bandmas-ter's Association District Festival in Titusville recently. They received one first division rating and three second division ratings from the four judges. Combined with the marching rating of excellent they received last November, this festival rating gives the Oviedo Band an overall rating of excellent for the 1968-69 school year. Student conductor Mike Domansky took a first division rating when he led the band in "The Brigadier," an overture by Richard W. Bowles. Future plans for the band include a concert tour of several Seminole County schools during the week of May 12. On May 17, the band will participate in the first annual Oviedo Band Day.

Oh a few words in for the kid, but I was a stranger and I felt it would be in the best interest to remain silent until I could get to my typewriter.

A few days later the telephone on my desk rang, it was a mother already complaining about her son sitting on the bench. She said the youngster loved baseball but it seemed that the coach liked to play nine boys during the entire game, while six of the other kids sat on the bench and watched. Is this what you can call youth competition? Is winning that important, or is competition and participation? I'll leave that decision up to you. If you have any feelings on this subject, send me a card or letter. I'll withhold your name if you wish, but express your opinion whether pro or con. Back on the subject again, and looking at the brighter side. Many interested adults are giving of their time and efforts to make this program the best for youth. Each day they go out and work with their particular team making their youngsters realize the importance of good clean recreation

It might be good for Little League rules to state that each player on the roster must play one inning during a game. Winning and losing is important, but being a part of the team by competing is the most important aspect. Every individual deserves that chance.

Many Sanford sports fans had their bumps and bruises after this weekend's local baseball and track competition. This sports scribe also took a few. The Raiders will enter the double elimination tourney with high hopes. Bergman's first hope is that his team will clobber Chipola of Division I. Chipola was the runner-up team in that conference and things look very bright for the hard hitting

Don't let sunset dim your outdoor fun!

Light up the night and keep right on enjoying outdoor life. A few well-placed fixtures, postlights and floodlights can give you hours more fun in your yard, patio and garden. (And for cookouts, there's nothing better than portable flameless electric grills; they're cleaner and easier to use!) Outdoor lighting has practical advantages, too: it helps prevent accidents and discourage prowlers...while enhancing the beauty of your home and grounds. And all for pennies a night! Ask your electrical contractor, lighting dealer or appliance dealer for the latest bright ideas.
