Something Must Be Done - What?

Auto Insurance Debate Rises

WASHINGTON- Debate over whether "no-fault auto insurance" is a good thing is intensifying in the capital.

The arguments are the result of a snowballing feeling over the past years that insurance ought to be utilized to assure that injuries and damages arising from auto accidents are compensated, regardless of the liabilities of the individuals in-

In an effort to separate fact from myth on the no-fault system, the nonprofit Amberican Enterprise Institute has prepared a "Legislative Analysis of No-Fault Auto Insurance Pro-

The institute makes no conclusions other than to note that something must be done and soon because of the increasingly heavy burden of automobile ac-

states, "there are more than 20 million auto crashes, 30 million damaged vehicles, more than four million injuries, 55,000 deaths and economic losses ex-

ceeding \$6 billion." Most motorists purchase auto mobile insurance to protect themselves in case they cause an accident, injury or death-A large percentage of motorist buy additional coverage to protect themselves against their own economic loss.

But as automobiles became more sophisticated, so did their Public and congressional dissatisfaction has been expressed

over the way the automobile insurance system operates. Some critics insist that the present system is extremely in-These opponents of the status

fitable basis, and from insur

This baby is 5 years old.

At least that's the way FPL sees him. Because we had to start planning to provide for his needs (and for other new customers) five or more years ago. And we're already planning and building to serve the new arrivals five years from now.

It's a must because, by 1976, Floridians will need almost twice the electric power that's available today. And since it takes years to build power plants, we're in the middle of a monumental construction program. We must invest about \$300 million a year—close to a million dollars a day for the next five years. Quite a challenge for a public utility.

And this isn't the only financial challenge we must meet if we are to serve you, this infant, and the other people and businesses in our service area. FPL shares the widespread concern for our living environment... for cleaning the air and protecting the waters.

But environmental action costs money, In the past three years FPL environmental expenditures amounted to, respectively, \$15 million, \$19 million and \$29 million. Next year the sum will be about \$32 million-almost \$100,000 a day! This is a lot of money, but if we want a cleaner, better world for ourselves and our children, this is the price we must pay.

FPL intends to meet these challenges. We will do it because its our job to serve you. And to make your dreams for today's babies come true in a clean, comfortable world tomorrow.

Under the latter program, some control will be held by the state over the waterways, in that certain anti-pollution concepts are brought into being which does not exist with the "scenic canoe" program.

In other matters, it was brought up by Harold Kastner, director, of the need to popularize the new Auto-Train concept more with Sanford. It also was brought out by John Krider, chamber manager, that chamber and city are working on plans to install signs directing train passengers to Sanford areas. Krider also pointed out the need for additional apartment

houses for Sanford and explained that people are having to go to South Seminole to find suitable apartment accommodations. Krider said he would pursue a suggestion by Michael Capko, director, that a brochure of Sanford be printed and distributed

to Auto-Train passengers at the Virginia terminal. There were 36 out of the total 30 chamber directors attending this morning's quarterly meeting.

Income Tax Deadline Changed

BOCA RATON, Fla. (AP)-In dividual federal income tax forms won't have to be filed until June 15 next year, but taxpayers still have to ante up what they estimate they owe by the regular April 15 deadline. Johnnie M. Walters, U.S. commissioner of the Internal Revenue Service, announced the two-month extension of the deadline at a conference of the American Institute of Certified Public Accountants Thursday. Those who take the extension

and estimate their final tax bill too low will also face late payment penalties and 6 per cent interest on the unpaid balance. he said. Walters said the late payment

penalty will apply if the total tax owed is more than 10 per cent above the amount paid by April 15. No penalties will be assessed, he said, if the difference is less than 10 per cent and if the balance due is remitted with the final tax return. He called it a milestone in tax administration. More than 50 per cent of all

individual income tax returns

are now prepared by someone other than the taxpayer, Walters told the CPAS. The professionally trained and ethical persons who prepare these returns contribute to a high degree of accuracy, Walters said. But he added that the Internal Revenue Service will be watchful through its regional offices for unethical preparers of tax returns and misleading ad-

This was the case whether it was in municipal affairs as mayor and city commissioner, or in the chamber of commerce as president or active committee chairman, or in the local civic clubs where he served as contributing member and officer.

No such tribute as this is would be complete without a major reference to the golf links. For it characteristics of honesty and purpose which shine was on the links that Ivey's hobby turned into a place where much information was offered and exties for solid growth which now are more than knock- changed which had nothing to do with "slices" and

Nor can the important role this dedicated citizen played as the adventure which opened the Mayfair Inn and brought the New York Giants farm team here was undertaken. He was always a champion of

This characteristic was obviously displayed in his business operations as a major factor in the drive to make downtown Sanford a true center of business. Operation of the Ivey Shoe Store on East First Street was much more than a dollars and cents affair. For in his conduct of his business the same

through every facet of this man's life, were visible. It almost goes without saying, but must not, that the religious side of the Ivey career was equally purposeful and important. A member of the First

Presbyterian Church in Sanford, his spiritual life stemmed from those convictions,

Any city must get its strength from its citizens. Its citizens also display their strength or weaknesses as major issues arise and are dealt with wisely. In the annals of Sanford, there will be few whose

considerable strength and energy were devoted to the improvement of his home town as was John

At this time of loss our sympathy goes to his family. But it is a rather wonderful situation when the loss of such a man can be viewed by his family. as this can, as a time when all the good that their beloved husband and father exemplified remains as a goal which future Sanford leaders can well strive to make their own.

Another Dime!

Most of us distrust parking meters. They deyour pennies, nickels, dimes and flip to "violation" before the driver can reclaim his car, no matter how precisely he times himself, But outmoded meters, like Dewey for Presi-

cent buttons, were bound to become collector items, memorabilia of bitterness past, we sup-It took an editorial from the Hartford Courant to reveal that a Texas department store, can't you guess which one? - added meters to

its Christmas catologue as a gift for the man who has everything to use as a mod piggybank. The Courant doesn't think much of the gift sug-But uses come to mind which make it worth thinking about. Install one in the bathroom to be used between 6:30 and 8 a.m. Monday through Friday. One could limit teenage phone calls. Or a husband could put one by his better half's dressing table with the understanding

that if time runs out, they don't go out. Do they come with tickets? - Beaumont

Cashless Society

Checking account customers of the Hempstead Bank in Syosset, N. Y., are enjoying - if that is the right word - the benefits of a cashless and checkless society. Thirty-five retailers in Syosset are cooperating in a scheme which lets customers use a special plastic card to make purchases. When the card is inserted into a machine the retailer gets an automatic credit to his account at the bank and the buyer's account is given an automatic debit.

This is progress, we suppose, even if it makes going broke easier than ever. To many people the cashless society is the one they're in Don Oakley Says: most of the time. - Charleston (S.C.) News

Browse Here For Yule Gifts 'Femininity' Is The Word

By ANN SIECZKOWSKI

There is a bit of "coquette" in all of us gals, wouldn't you say? And the fellas probably would be happy to see a bit more coquettish gal from time to time, to, I betcha.

Well, the place to go for the be results is Coquette Styles at 316 Commercial Street, any day of the week. By appointment, of course, 'cause these are busy busy operators. The hours are from 8 a.m. to 5 p.m. six days a week.

Femininity - a many splendored word that conveys the very essence of charm, beauty an elegance.

Femininity-the eternal symbol of gentleness and temptation. The word that captures the enchantment of the new bairstyles featured at Coquette

Three key words are essential for the new feminine look -ght, color, movement. Light flects from the luminous color, which provides shimmering shades to replace dull, drab monotonous hair. And movement is the very basis of the modern hairdo - when not endowed by mother nature herself, it is captured by a professional salon permanent.

properly administered. less rigid and defined. man) can resist.

licate young look - you know perky bangs.

than ever now, but somewhat cative hair designs - sophisti- of Seminole County women, are tomers' affairs and fair pricing which includes oil, patches, sol- antiques to rifles, shotguns and paper back books, rods, reels, with change - new hairstyle, cinating style borrowed from a movement and graceful lines - cial hair grooming for that vent and other necessities. She automatic weapons and of So don't throw away your old new color, in the new feminine forgotten era, now making a all extremely versatile - you very special occasion - which every day is a magnificent moment.

Progress Report On Osteen Span

DeLAND - Seminole County commissioners here Tuesday heard A. A. Davis, State Department of Transportation district planning engineer, report that the Osteen bridge project is scheduled for construction start during the current budget year. He added, however, since federal funds will be involved . . . and federal agencies currently are interested in ecology . . . the project start may be delayed until the 1971-72 fiscal year.
