"TESS" AT STAR FRIDAY

Dangerous Calomel Going Out Of Use

A Safer more Reliable Remedy Has Taken its Place in the Drug Store and in the Home

A few years ago men, women and children took calomel for a sluggish liver and for constipation. They took risks when they did so, for calomel is a dangerous drug. Your family doctor will be the first to tell you this if he discovers you dosing yourself with calomel.

But the drug trade has found a safer more pleasant remedy than calomel in Dodson's Liver Tone.

L. R. Philips & Co. tell us that their drug store sells Dodson's Liver Tone in practically every case of biliousness and liver trouble where calomel used to be taken.

Dodson's Liver Tone is a vegetable liver tonic that is absolutely harmless for children and grown people. It sells for 50 cents a bottle and is guaranteed to be entirely satisfactory by L. R. Philips & Co. who will refund your money with a smile if it does not give you quick, gentle relief without any of calomel's unpleasant after effects.

Executive Committee Will Meet

The Democratic Executive Committee of Seminole county has been called to meet by Chairman Whitner to recommend a successor to fill the vacancy of the office of County Judge on account of the death of Judge B. F. Whitner. The meeting is called for Tuesday, Nov. 25th at 11 a. m. in the county court house.

The following is from Governor Trammell:

I have learned with great regret of the death of the Honorable B. F. Whitner Sr. late County Judge of Seminole County.

The vacancy in said office caused by Judge Whitner's death will be filled by the appointment of a suitable person upon the recommendation of the Executive Committee of Seminole County at a meeting regularly called for such purpose. Such meetings should be held in a public place with open doors. Adequate notice should be given each member of the committee of the time and place of the meeting. All members of the committee should attend the meeting in person and no proxies should be permitted. I deem it advisable that each member of the committee refrain from committing himself to the support of any candidate prior to the open meeting. The people of the county should be notified either by publication in the newspapers or by posting of notices in public places of the time and place of the meeting so that they may have ample opportunity to express their wishes as to the recommendation to be made. It is desired that the meeting be held as early as will suit the convenience of the members of the committee.

A copy of this letter is being mailed to each member of the committee.

Very truly yours

PARK TRAMMELL

Governor.

The Men's Meeting Last Night

Much interest was manifested in the men's meeting of the Presbyterian Brotherhood Monday evening as was evidenced by the good attendance. Speaker Ingold told the audience many pertinent things regarding the Hungarians in both this and their native land. After the speaker had finished a discussion took place in which several of the audience took part. The orchestra under the direction of Prof. Brock discoursed sweet music and the entire congregation raised its voice in several songs.

This Tuesday evening the men's meeting will be addressed by Hon. D. L. Thrasher the topic being the Germans in America. It is hoped that every German in the city will attend this as well as the following meetings. Wednesday evening the meeting will be open for both women and men and the speaker will be Thomas K. Bates the topic being the immigrant in America. Thursday evening Robert J. Holly will address the meeting on the Italians in America. This as well as the Friday evening meeting will be for men only. Mr. H. C. DuBose will address the Friday evening meeting on the duty of the laymen and the church to the immigrant to our shores.

It is hoped that for the remainder of the series that every seat in the house will be occupied as these meetings are bound to be the forerunner of the instituting of some kind of men's meetings each week in this city which will be conducted in their entirety by the laymen of Sanford. An active men's movement in our community means much toward the elevation of morals a better understanding of economic conditions and a cementing of the good fellowship that must be part and parcel of any community that desires to forge ahead spiritually as well as materially.

Fine Sabbath School Record

The Sunday schools of Sanford are growing. They are now in the most flourishing condition in their history.

Sabbath morning there were 523 present:

Baptist	131
Congregational	76
Episcopal	69
Meth. E. C.	135
Presbyterian	121

Woman's Club

Notes From All Departments Of The Sanford Woman's Club

Literature Department

The meeting of the Literature Department of the Woman's Club on Wednesday afternoon was one of unusual interest.

The program embraced a wide variety of subjects. Mrs. Key gave a brief but comprehensive sketch of the Birth of American Literature. Miss Guild followed with a study of the Bay Psalm Book New England Primer. First American Epic and Tenth Muse. Mrs. Tetherly gave the life story of the Mother's. A glimpse into the life of that surely old New England preacher Jonathan Edwards was given by Mrs. Dunn.

The Music Department of the Woman's Club met in regular session in the club rooms Saturday, Nov. 14th with a gratifying number of members in attendance. A fine vocal program was rendered having the following: Mrs. G. K. leader for the afternoon. The solo's of the program were: Miss and G. G. choral work by Mrs. Polk and Mrs. Tetherly.

Dues: The Rustic Club, Mrs. M. M. Davis and Mrs. C. M. Davis. Hope Gottschalk, Mrs. M. M. Davis, Miss Post, Gottschalk, Mrs. S. S. Davis, Mrs. My Love, Mrs. S. S. Davis, Mrs. Claude Herndon, Mrs. G. G. Love is a Bubble, Mrs. G. G. Love.

EVERGLADES LAND IN COURT

PROMOTERS WILL HAVE TO FACE FEDERAL JURY

SOLD LAND BY THE QUART

UNITED STATES AUTHORITIES EXPECT TO PROVE FRAUDULANT TRANSACTIONS BY MAIL

Eight officials and agents of the Florida Fruit Lands company were indicted by the federal grand jury here today on a charge of conspiracy to use the mails to defraud in connection with the sale of 180,000 acres of land in the Everglades district of Florida to 12,000 purchasers in various states.

Those named in the indictments are Richard J. Bolles, Jacksonville, Fla.; George A. Paddock, Chicago; Jesse L. Billingsly, Jacksonville, Fla.; John Mathews, U. H. Martin, R. J. Borders, Edward C. Chambers and A. D. Hart of Kansas City. Each was indicted on twenty-one counts.

The Florida Fruit Lands company case has come before the department of justice several times. Attorney-General Mc Reynolds, however, shortly after he took office, turned the case over to S. T. Graham, assistant attorney-general, who after an investigation directed the United States district attorney at Kansas City, to ask indictments from the grand jury. Mr. Graham said today that the prosecution would be pushed with vigor.

The Florida company, with R. J. Bolles, Robert L. Martin and Joseph H. Borders, as moving spirits, acquired about 180,000 acres of land in the counties of Dade and Palm Beach in Florida, in March, 1911. At that time the land was under water but the claim was made that the state of Florida had contracted to drain the lands through canals and that purchasers would get the benefit of those improvements.

The state of Florida did have under consideration about that time a scheme to drain a portion of the Everglades, but when the company secured its lands the covenant with the state declared that no burden lay upon the state to drain the lands. They have not been drained, according to department of justice investigators.

The Florida Fruit Lands company, organized four years ago by R. J. Bolles of Jacksonville, is said to control nearly 500,000 acres of land in the Everglades. It is alleged that 180,000 acres were placed in the hands of Robert J. Martin and Joseph J. Borders, by them sold tracts to 12,000 persons, mostly in Kansas City and adjoining territory.

The grand jury investigation was undertaken two weeks ago at the behest of small purchasers who were dissatisfied with drainage conditions on their tracts. It was said that more than \$700,000 already has been paid to the company.

NO DAMAGE ST SANFORD.

Later reports are that cold did not injure the vegetables.

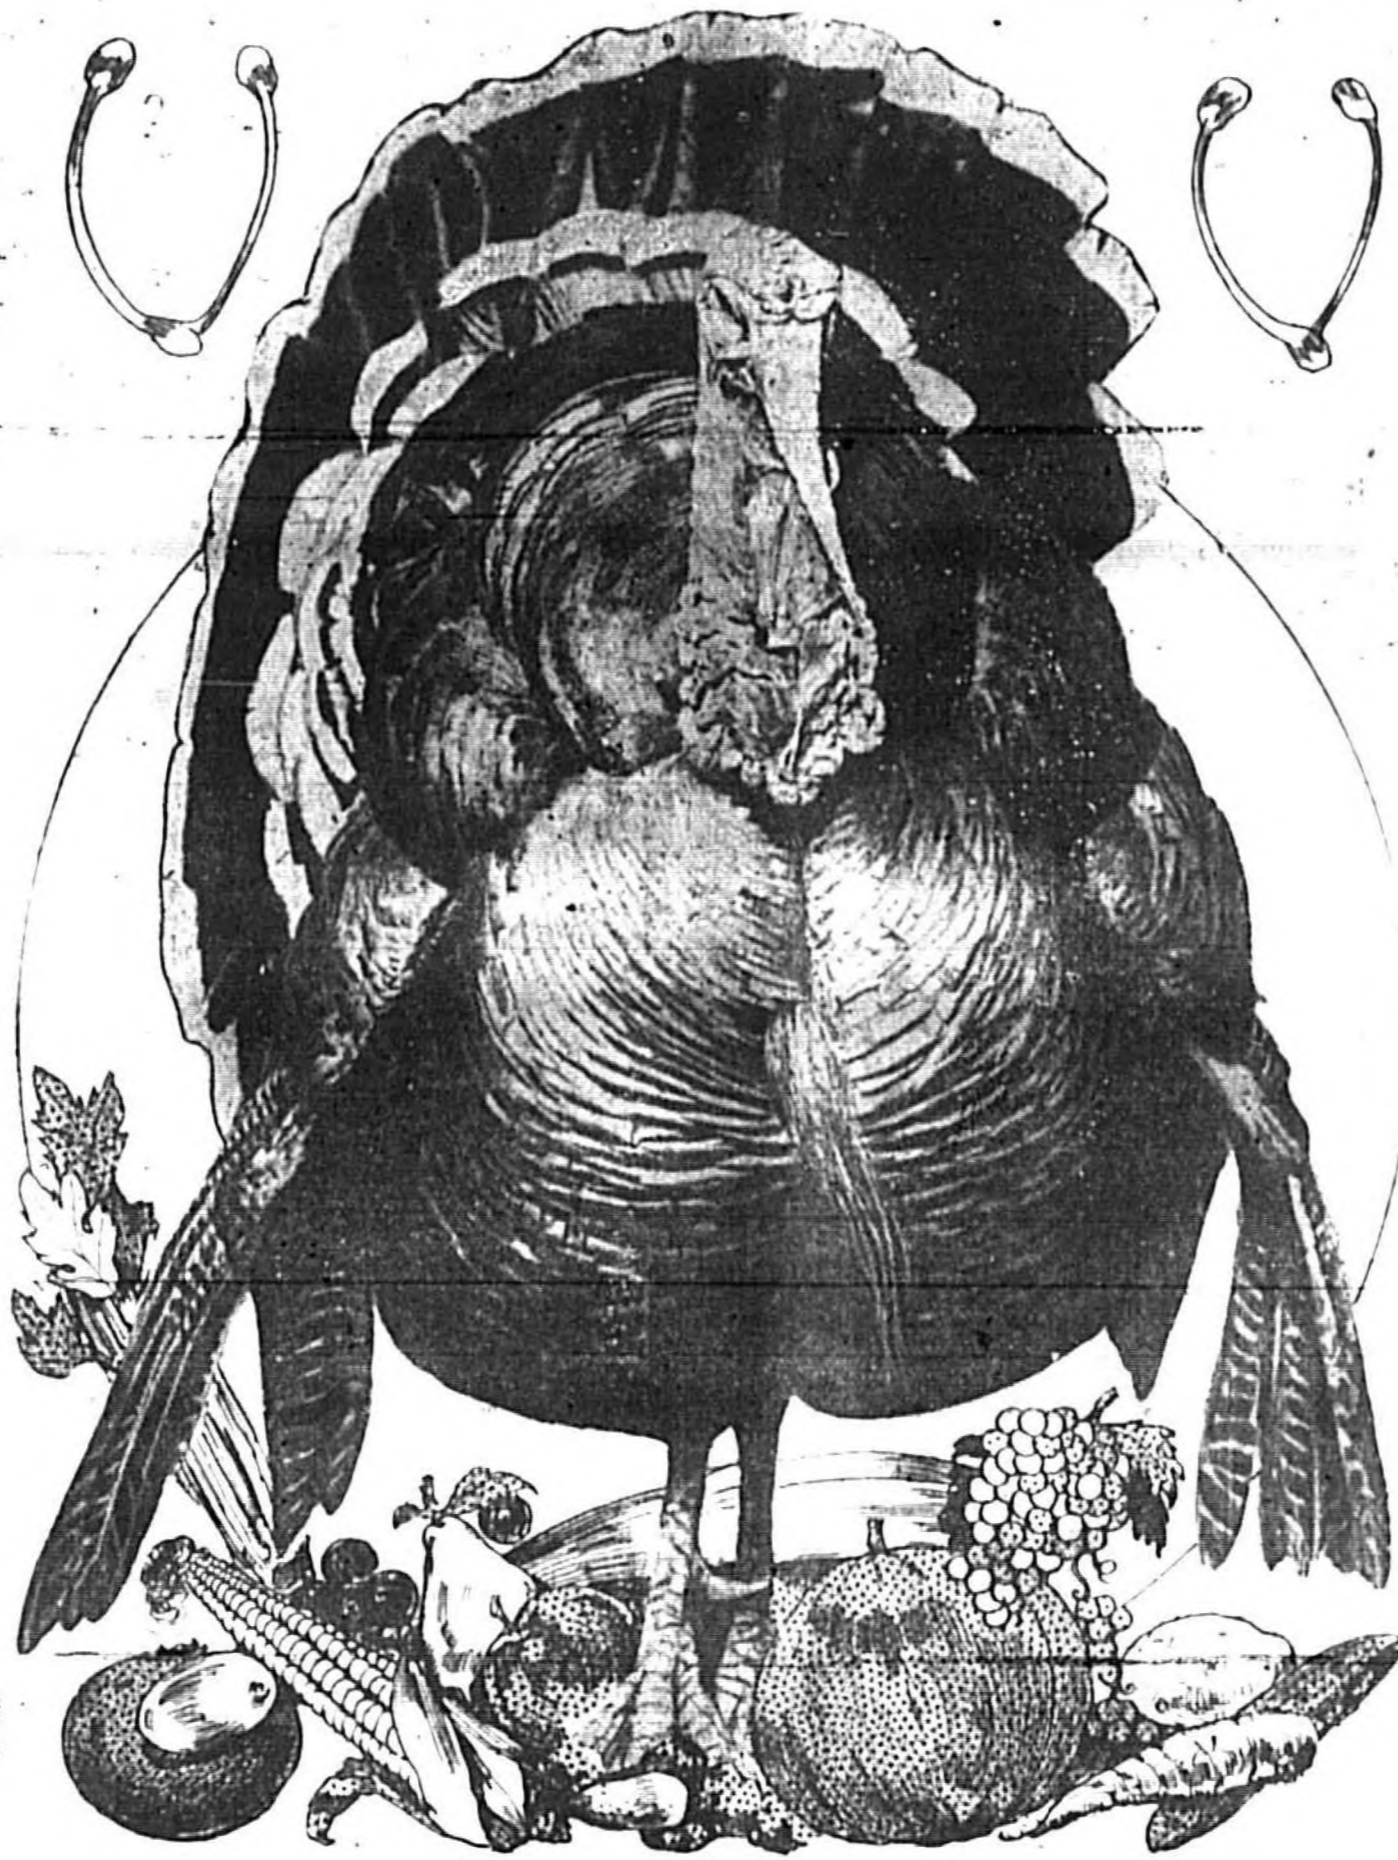

Sanford, Fla., Nov. 21.—The cold last week did considerable damage to tender vegetables in some sections, but the Celery City escaped without loss. Some pioneer growers claim the cold wave was worth thousands of dollars to them, as it destroyed millions of insects that would have done the crops more or less injury. Celery, lettuce and cabbage are in good condition and do not show the slightest signs of having passed through severe weather. Growers attribute their escape to the high winds and cloudy weather the greater part of Sunday night and Monday. This, no doubt, saved the lettuce from being hurt.

The weather remained quite cold until Wednesday when there was a decided change. It turned warm and cloudy weather prevailed the latter part of the week. Express shipments of lettuce are steadily increasing and from present indications it is believed the loading of refrigerators will start the first of next week. Sanford has nearly 1,500 acres in celery, lettuce, cabbage, cauliflower, beets, potatoes, English peas and romaine. —Produce News.

Notice

The County at their meeting on Dec. 2d will buy a pair of mules for road work. Anyone having mules for sale suitable for this work please have same where they can be seen at that time.

E. A. Douglass, Clerk.

HIS MAJESTY, KING TURK

THANKSGIVING DAY

PROCLAMATION BY THE PEOPLE OF SEMINOLE

To The World at Large:

There are times in the affairs of state when it becomes necessary for the American people (which includes Seminole county) to throw off the yoke of temporary business depression and a wholesome respect for the welfare of mankind requires that a fitting expression be given the determination.

Whereas, The American people and those of Orlando by their suffrage have elected a chief executive under whose policy a period of general prosperity will be inaugurated and the low tariff will reduce the price of turkeys and

Whereas, It is believed that even those who may differ with him can still hold postoffice and other positions of trust and will promote the general public interest by continuing to draw their salaries from a Democratic government and will cooperate with us at least until events may disclose the wisdom or unwisdom thereof and

Whereas, Sanford is the metropolis of Seminole county recently formed by the grace of God and several others whose names we cannot now recall and in the Great Little County of Seminole there are other cities that are flourishing and making great progress and the entire county is prospering to such a remarkable degree as to be beyond comprehension and

Whereas, Sanford lettuce having started the season of prosperity with such a high price that several commission men have dropped dead with heart disease, this being cause for congratulation and thanksgiving and may they never have to eat another Thanksgiving dinner in the old hotel and

Therefore, Be it resolved; That we the people of this most favored county hereby urge the necessity of setting aside all rivalry and aspirations for office and for a few hours forget about politics and by combined effort seek to encourage industrial, mercantile and financial pursuit by awakening our people to a restored sense of their responsibility, if such a miracle is possible.

Let us all in this season of bountiful crops and restored confidence in general financial conditions unite in their efforts to promote a broad reciprocal spirit which does not mean patronizing the mail order houses by a jugful and to bring back that degree of business activity which in years past has characterized the country in general and Sanford in particular.

While every cultivated acre is laden with plenty, every heart responds to the inspired hope of good times; every ripple on the broad bosoms of Lakes Monroe and Jessup and Harney breathes an invitation to our people to engage in the commerce of the world. As the happiness of one is the concern of all we ask the cooperation of our neighbors here and all over this neck of the wood in all pursuits and as this season marks the advent of a new era industrially and otherwise we desire it to be known that Sanford throws open her gates and we invite the world to enter, barter, trade, sell and buy and aid in inaugurating a prosperity that may extend throughout the land like a tidal wave and to meet us in a spirit of broad patriotic good fellowship intent only upon the common good of our great county.

THE PEOPLE OF SEMINOLE, By The Herald.

Sanford, Florida, November 25th, 1913.

THANKSGIVING DAY

GENEVA HAS NEW CHURCH

THRIVING CITY OF SEMINOLE MAKING GREAT STRIDES

METHODIST CHURCH DEDICATED

BASKET PICNIC MADE A MOST DELIGHTFUL OCCASION WELL ATTENDED

One of the most enterprising and thrifty communities in Seminole county is that surrounding the beautiful little city of Geneva. The people of Geneva not only have fine homes surrounded by beautiful orange groves fronting the many lakes of that vicinity but they know how to dispense hospitality that is traditional with the southern people.

Last Sunday the city of Geneva dedicated the elegant new Methodist church recently built at that place and invitations were extended to the people of every denomination to join in the services, an invitation that was gladly accepted the proverbial hospitality of that section being a household word. The new Methodist church is a fine structure that would grace a city twice the size and was recently built through the untiring efforts of the good people of Geneva and especially the ladies who assisted in and the ladies can. The church is large and of fine appearance having an assembly room, auditorium and a large parlor for the altar and choir. The windows are of stained glass and the woodwork is finished in mission, the pews finished to match. The church is especially adapted for a special assembly gas plant and is up to date in every particular, in fact can be classed among the best of the kind in Seminole county.

The services on Sunday consisted of several fine musical numbers rendered by the choir assisted by the church orchestra. Dr. Blackburn, the presiding officer made the dedicatory address and the pastor, Mr. Hope, in his remarks, directed toward the church extension and the good work being accomplished along this line.

After services the congregation and guests adjourned to the grove adjoining the church and here a most beautiful repast was spread beneath the shade of the oaks and pines and the well filled baskets were almost too much for the hastily constructed tables.

The day was a memorable one not only because it meant the dedication of another house of worship in Seminole county, but because of the fact that these good people were allowed to assemble and to mingle again one with another and the day was most pleasantly spent and too soon ended.

Geneva is one of the rare gems in the diadem of Florida and has recently forged to the front by the East Coast Ry. building a rail connection between Maytown and Okeechobee points thus giving the buyers and shippers an outlet. Nestling among the piney hills and dotted with sparkling lakes, a paradise for tourists, a place for the farmer and fruit grower, Geneva is appealing to the investor and man of means and town lots are selling and new people are going there to buy and build homes.

New stores, new residences, new packing houses and other industries did not blind the good people of Geneva with the financial interests to the exclusion of the spiritual and new churches followed the first being the Methodist dedicated on Sunday.

Rev. A. L. Hope is the pastor of the new church and also has the Methodist church of Oviedo in the pastorate and the people of that section are to be congratulated upon having this forceful and earnest minister in their midst.

Will Build Parish House

The Episcopalians will build a parish house 30 by 68 feet on the south side of their property at the corner of Park avenue and Fourth streets. The building will be started this week and will be a fine improvement in the church property. The parish house will be used for the Sunday school and entertainments and bazaars and other work of the church. The Episcopal church like all the other churches of Sanford is making a remarkable growth and larger quarters are necessary.

County Jail Work Starts

The jail fixtures for the new county jail have arrived and work will start immediately. As related in The Herald some months ago the county purchased the Hill building next to the city hall and this building will be put in first class shape for the county jail. All steel cells will be used and the ceilings and floors will be of steel and concrete, making one of the finest jails for the size in the state.

Subscription Price, \$2.00 a Year in Advance

Delivered in the City by carrier \$2.00 per year in advance or 20c per month. Payments in advance must be made at office.

Entered as second-class mail matter August 22nd 1908, at the Postoffice at Sanford, Florida, under Act of March 3rd, 1879.

Office in Herald Building Telephone No. 148

LETTUCE IN FULL SWING. Sanford, Fla., Nov. 21.—The lettuce deal is on in full swing. Up to date 26 cars have moved with every promise of 50 cars next week, or 10 cars a day.

The celery crop is in good condition; a recent census of the acreage shows 550 acres now in the fields, while the acreage of lettuce will reach fully 500. This is surely a steady supply and as growers are holding back supplying the markets as it is wanted there is every likelihood that a steady, even f. o. b. price can be maintained.

Sanford is now at its best from a real estate man's point of view. There are busy scenes around the refrigerator line terminals from which 3 to 5 cars have been moving. When 10 to 20 cars a day are rolling out every one will be on the rush.

LOW PRICED TURKEYS

Thanksgiving turkeys are now almost tariff free. The import duty, which has been six cents per pound, will be two and a half cents hereafter.

The official birds for this holiday come to more from the New England states. Mr. P. Q. Fox, editor of the Daily Market Report, says that Texas and Kentucky are among the chief turkey-producing states.

Greater New York alone requires one million and eighty thousand Thanksgiving turkeys, but the fresh stock now being offered at reduced prices will furnish an ample supply.

EVERY WEEK BRIDGE

Mrs. Cruse Barnes was the hostess of the Every Week Bridge Club, which met at the home of Mrs. C. A. McLaughlin. The regular club members were joined by a table of guests, and the game of auction was played during the afternoon.

MEAT ADVERTISING METE

John Stemper, a wide awake meat dealer of this city has sprung into national notice by the advertisements in the Herald as witness the following from the Guilford, Connecticut Times:

The Commercial Club of Sanford has subscribed for 500 copies for six months of the Herald, Bob Holly's paper, which will be mailed to parties in the North and West seeking information about Florida.

A great deal of curiosity is shown in our tango dance. Nor is it without its humiliations. Several women who expect to be there and know that we shall insist upon tangoing with them say 'I expect to be there, but I'll have to talk out all my dances, my feet hurt so.

LONG WAGON TRIP

From Michigan To Sanford Made Fine Trip

From Michigan to Florida by rail seems a long and tiresome trip. From Michigan to Florida by auto seems much longer and more tiresome, but to come from Michigan to Florida in a wagon drawn by two mules seems longer and more tiresome and yet this last named means of locomotion was employed by A. J. Lemmer, wife and son and they say the trip was not long or tiresome, but was enjoyed throughout the entire journey.

The Lemmers first conceived the idea on account of Mrs. Lemmer's health, her physician prescribing the open air treatment and Florida immediately became their Mecca. Sanford seemed good to them because their friend, A. Fisher was interested here and had extolled the virtues of this section to them.

The Lemmers left Detroit on June 23 at noon and reached Sanford, a distance of 1524 miles at noon on November 18th covering the distance in 98 traveling days. They spent 9 days in Greenfield, Indiana, 9 days in Nashville, 15 days in Atlanta and a day or two at many of the beautiful places along the route where they camped out to rest the team and enjoy the scenery.

Speaking of the trip Mr. Lemmer said: "I can certainly recommend the trip to my friends, as Mrs. Lemmer's health has improved remarkably and if there are any invalids in the north who are afraid to get out of the house in the winter time such a trip would be of untold benefit."

Our diet has been plain but substantial. Leaving Detroit we passed through the southeastern part of Michigan to Toledo, Ohio, traveling southward through the northwestern part of Ohio, thence over to Ft. Wayne, Ind., from there southward to Indianapolis, Ind., and to Louisville, Ky., from there our trip was very interesting as well as exciting, being compelled to go up and down long and steep hills and camping alongside of fine springs where deep water was well, it is hard to say how delicious, some of them being as nature left them.

Florida Points Show Decrease of 30 Per Cent From Last Year. Gainesville, Fla., Nov. 21. Information from the most important lettuce sections concerning the present crop are in the acreage. At many points the acreage is less than 50 per cent of last season and in only a few sections is the acreage normal.

Length, 16 feet; width, 5 feet; inside finish white enamel and nickel; outside carriage finish; plenty of lockers; folding couch; kitchenette screened in; curtains to protect from the rain; oil stove;

enamel dishes; aluminum cooking utensils; folding table. Before many years the people of the northern states will make these trips by wagon and auto very popular and the big hunting clubs that now use these wagons for their trips to northern climes in the summer will journey to Florida in the winter and camp out on the many beautiful lakes. Or those who would like to travel over the state of Florida will come down by wagon and spend the winters in their moving van and enjoy Florida as they could enjoy it in no other manner.

FOR BETTER FREIGHT RATES

East Coast People Will Fight for Water Rate

With a statement that they intend to see if anything can be done in the next legislature in the matter of seeing whether the company that was given 800,000 acres of Florida land to build a five-foot navigable canal down the Florida East Coast, can be made to dig the remaining two and a half feet needed in many places to get the contract depth, the Florida East Coast Canal Association announces that it will be an active organization from this time on.

Members of the association in the city this morning declare that they will take a hand in the election of legislators, and conduct a publicity and educational campaign during the next two years that must result in the state either taking back the lands and taking over the canal and finishing it, or compelling the company to make good its contract at once.

"We are not fighting any other proposed canal in the state," said C. F. Burgman of Seabreeze, one of the party and a member of the new association this morning; "we are after our rights, and we are after lower freight rates down the East Coast of this state."

"It is more than seventy miles from the entrance of the East Coast canal in the St. Johns river near Mayport to Titusville by the East Coast canal than it is by the proposed route via the St. Johns river and the canal to connect that stream with Titusville. This means a day at least for the average boat."

A remarkable showing of the difference between transportation charges where water enters into competition with rail, and where there is nothing but rail facilities is shown in the following table compiled by the Florida East Coast Canal Association, which has recently been formed:

The association takes the two cities of Sanford and New Smyrna, both distant from Jacksonville 125 miles. The former having water competition to the A. C. L. Railway, and the latter having served alone by the Florida East Coast Railway.

Table with 4 columns: Class, Sanford to Jax, N. Smyrna to Jax, Per cent of Increase. Rows 1-6 showing increasing freight rates.

Lumber in carloads and shingles are the only commodities that have the same rate from both cities, viz. \$16.00.

To New Smyrna bacon costs 8 cents more, flour in sacks 7 cents more, feed and grain 5 cents more, syrup 13 cents, coal, cement and plaster 40 cents per ton more, while hardware, plug tobacco, jellies and food in glass, cost 29 cents per hundred more than to Sanford. Machinery in carloads costs \$4 per car more than to Sanford. Jacksonville Metropolitan.

LETTUCE ACREAGE SHORT

Florida Points Show Decrease of 30 Per Cent From Last Year.

Gainesville, Fla., Nov. 21. Information from the most important lettuce sections concerning the present crop are in the acreage. At many points the acreage is less than 50 per cent of last season and in only a few sections is the acreage normal.

Oakland will fall short of its usual acreage. Leesburg will drop below normal by about 50 per cent. Center Hill is short about 40 per cent. The Micanny section, which embraces the territory between Micanny and Arango Lake, will show a shrinkage of at least 50 per cent. The Gainesville section, which includes Rocky Point to Tacoma, will drop to about half of the usual acreage. Other points show 40 to 75 per cent decrease. There is a wide difference of opinion as to the extent of the total shortage, but it is believed that it will show a decrease of fully 30 per cent.

Catholic Church Thanksgiving Services

On Thursday morning a special mass of Thanksgiving will be offered in the Catholic church at 9 o'clock. Our non-Catholic friends are invited to join with Catholics on that occasion.

TO SPEND YOUR MONEY. This is the message to be gleaned from most advertising. BROTHERHOOD MEETINGS

End With Informal Luncheon at Home of W. H. Underwood

For the past five evenings the members of the Presbyterian Brotherhood have held meetings, having for their purpose the discussion of the immigrant in America. These meetings were conducted by laymen, of which the class was composed, each of the meetings being largely attended, the Wednesday evening meeting being for women as well as men, the program being a most interesting one.

After the Friday evening service the entire congregation was invited by the brotherhood to partake of an informal luncheon, which had been prepared at the residence of Mr. W. H. Underwood. Covers had been arranged for sixty persons and a musical program of a very pleasing nature was given.

The luncheon was composed of oyster stew, salads, pumpkin pie and coffee, and was largely enjoyed by those in attendance.

The Church Orchestra of Sanford, which is composed of members of the various congregations, and is at all times ready to furnish music for extraordinary functions, was on hand in full force, under the direction of Mr. A. B. Brock, the other members being W. S. Thornton, F. W. Munson, Ed Hess, C. V. Mahoney, M. E. Aspinwall, C. V. Mahoney and Earl B. Paxton.

The ladies who assisted Mr. Underwood with the luncheon were Mrs. A. C. Williams, Mrs. W. S. Thornton, Mrs. R. H. Marks, Miss Mamie Kate Williams and Master Robert Williams.

It is the second of a series of informal luncheons which will be given by the brotherhood during the winter as "get together meetings," and it is conceded by all that they are performing this function most beautifully.

BUDGET OF OPINION "JUST BETWEEN YOU AND ME."

EVEN THE GATE POST NOT IN IT.

A CHIEF IS AMONG YE TAKING NOTES AND FAITH, "HE'LL PRENT 'EM"—SO SAYS SAUNTERER.

How thousands of consumptives lose their lives annually by taking fake cures for tuberculosis, will be depicted here produced by Thomas A. Eison, in cooperation with the National Association for the Study and Prevention of Tuberculosis. The film is entitled "The Price of Human Lives" and will be placed on exhibition in theatres throughout the United States on December 2. It has been designed to further the Red Cross Christmas seal sale and the general anti-tuberculosis campaign.

The story of the picture centers about the wealthy owner of a drug concern named Gregory Cort and his daughter, Beth. In the earlier scenes of the play a striking contrast between the lavishly furnished Cort home and the dingy tenement room of Nellie Linn is given. While Cort and his family live in luxury and happiness, his principal source of income is derived from the sale of a fake consumption cure called "Concure." Neither his daughter nor any of his intimate friends know the exact nature of his business.

Nellie Linn is shown taking "Concure" to cure herself of a hard cold, while her lover, Ed. Grant, goes to a fake consumption cure doctor in answer to a newspaper advertisement. Both is engaged to a young man by the name of Harry Bruce, whom Cort finally induces to become his advertising manager by showing him the huge profits which he makes in his business. Meanwhile Beth, as a result of her interest in Red Cross Christmas seal, has enlisted as a social service worker and in this capacity becomes acquainted with Nellie and Ed. She becomes a friend of the family and attempts to urge them to stop taking fake cures for consumption including "Concure." Neither of them pay much heed to her advice until one day Nellie receives a letter telling her that a near relative had just died from tuberculosis, simply because she had delayed treatment too long by relying on "Concure." Nellie shows the letter to Beth who declares that it is a crime to allow the manufacture and sale of such false remedies. Burning with indignation and with the wrapper of the "Concure" bottle in her hand she goes to the office of the company, where she finds to her surprise and sorrow that the business is conducted by her own father and that her affianced husband is the chief promoter of the swindle. She refuses to recognize her lover after this discovery and forgives her father only after he has promised to make full restitution as far as he can to the suffering consumptives whom he has robbed. As part of his reformation he sends Nellie and Ed to a sanatorium, where they may be cured.

The closing scenes of the story show Gregory Cort as a changed man. Bruce is also seen in a new role, namely as the friend of the Linn family and also as the manager of the Red Cross seal campaign. The story closes on Christmas eve of 1913 with the lovers restored to each other, and Ed and Nellie making good progress on the road to recovery.

The National Association for the Study and Prevention of Tuberculosis, 105 E. Twenty-second St., New York, will send free of charge to any one literature on fake consumption "cures" and will be glad to give as much information as possible with reference to particular alleged cures for this disease.

I am told by my grocer that eggs here are being sold to the consumer at from 40 to 50 cents per dozen, while chickens are sold for 75 cents each and almost everything else in proportion. A daily subject of discussion among the people especially housekeepers and dealers is the high cost of living and I am told that the worst has not yet been experienced. A remedy for the high price of eggs, being one item, has been suggested. If farmers would build good chicken houses and feed and care for their poultry properly, and see that they are well fed and kept warm and clean, more eggs would come into market. Then the consumer, that is everybody, must furnish the market house, where the farmer may sell directly to housekeepers. Something of this sort would help check the greed of the trusts to some extent. It was only about a year ago that the "corner" on eggs over-reached itself, fixed a price on eggs too high and carried the cold storage supply too long, causing many thousands of eggs to be thrown away, or if sold at all, the speculators were obliged to part with them at a loss. I wonder that statesmen do not find some remedy for prevailing unsatisfactory conditions.

Governor Trammell once said in my hearing, referring to another phase of monopolistic conditions, that it was the business of statesmen to find and furnish remedies against the greed and oppression of organized speculators. But since the average legislator is timid or incompetent or both, it behooves consumers to take care of themselves by organizing. Farmers and gardeners could sell directly to consumers and thus take care of their customers and themselves as far as possible.

The Herald does not accept whiskey ads I understand and never did, and this also makes it imperative for the church people to stand by the paper in every way, for there are very few papers these days that will put the spiritual above the financial. Therefore the churches of Sanford should not only poll for their people but should pull for their paper that strives to do so much for them, and in the general get together spirit they ought to help the paper by sending in the news items each week and letting the outside world know that Sanford is a city made up of godly people and that the spirit of righteousness prevails. Another thing that should be done right soon is the building of several new churches in Sanford, for they certainly need new buildings (not new churches).

A great many things are wrong with the world, and not the least of the evils is the advice peddled by Mr. Andrew Carnegie and Mr. Rockefeller in Monday morning's papers, when news is dull as for example: "Don't hoard your millions." "Let us be guided by sweet kindness and charity."

A Friend Indeed
What is a friend?
A man who comes to say "The path I walk is mankind's only way, And this alone?"—who takes a brother's hand
And bids him come else he shall wear the brand
Of wickedness? who "saunterer than thou,"
Says "Follow me, or perish here and now?"
Is this the friend in whom the years won't show
The acid test? And something answers "No!"
What is a friend?
A man who lives to do
The little things that Love impels him to?
The kindly word, the greetings, round and full,
The world so needs to make it tenable?
"But these," you say, "are part of all the plan."
Mere kindnesses that man must show to man?
Is this man, then, the sort of man to glow
In Friendship's acrol? And something answers "No!"
What is a friend?
When all is said and done
The world unmasked and all romance is gone,
False notions shelved and lexicons are felted,
Poetic myths and sentiments dispelled,
When this is done, I count that man a friend
Who stays with me unto the bitter end,
Who bets and boosts and then, midst ghostly hush,
Lays down three kings against my timely "thrust!"
JOHN D. WELLS

Two schools in Huntington, W. Va., where discipline has always been a matter of the instructor's strength of arm, have been transformed by means of an electric "spanker" into institutions of learning with the best average deportment of all the schools in that city, according to Spt. Wilson M. Foulke.

Both schools, known for years as unruly, had exhausted the patience of the school board. A day or so after the school season opened a carpenter and an electrician appeared at one of the schools and began the installation of a spanker in a small ante-room. As the spanker gradually assumed shape and the electric connections were made the unruly pupils began to ask questions, and finally they were given a demonstration of its ability to administer punishment. The spanker delivers about five short, sharp blows a second. After several of the boys had become subjects of a test of a spanker they had some stories to tell of its punishing powers.

Immediately after the spanker was completed in one school it was installed in the other institution. According to Supt. Foulke, since the "persuaders" have been installed and their abilities become known, not one unruly pupil can be found in either school.

I am glad to see the spirit of unity among the Sanford churches and the recent formation of the Ministerial Association in which the preachers hold a meeting once each week and discuss things helpful for all churches and religion in general. There has been too much of the clanish feeling in the past among the churches in every city and in every country and whenever they get together for the benefit of all, right then the churches will begin to get somewhere. Another good thing is the publication of more church news in the newspaper and the record of attendance of the Sunday schools. I never saw a paper before that would give so much space to the churches as the Herald paper of this city and since the editor seems inclined to give all the space the churches ask for it would seem that the ministers would give a little time each week to writing up the progress of the churches.

NEWS OF THE WORLD

Resigned apparently in these conditions which make it necessary to carry on a dilatory campaign against these enemies President Huerta and his dependents appeared several days ago confident that the United States will take no more drastic actions toward the Mexican Government than those already taken. It is reported that the Congress will not continue to meet that it will be dissolved automatically and that General Huerta was about to quit office. All these rumors have been disproved by Congress launching into a protracted session.

No definite date for the official opening of the Panama Canal is set in the annual report. Colonel George Goethals, chairman and chief engineer of the Canal Commission, which has just been substituted to Secretary Garrison. Neither is there any prediction of when the ship may first pass from ocean to ocean. The first day of the canal's operation still depends upon its treacherous slides of Culebra Cut and how fast the slides can keep the channel open.

The long special session of Congress promises to merge into the regular session December 1, and there is a ripple of interest in Washington. There has been a re-arranging of chairs by part of President Wilson and the Congressional leaders since it became apparent that consideration of the emergency bill would continue into the regular session, and the promised new legislative lines, such as anti-trust and road legislation, probably will manifest themselves until early next year.

MEXICAN REBELS BELIGERENT THREATEN UNITED STATES

WANT GUNBOAT REMOVED FROM TAMPICO

BANDITS ARE ASSEMBLING

OTHER NEWS OF THE WORLD AT LARGE FRESH FROM THE PUBLIC CENTERS

Mexico City, Nov. 28.—"Remove the gunboat Bravo or we shall fire on the oil tanks in the city of Tampico and along the banks of the river above." This threat, according to private information received here today was sent to the commander of the federals at Tampico yesterday. So long as the garrison at Tampico is aided by the guns of the Bravo, which is anchored in the river just off Fiscal pier, there appears to be little chance for the rebels to capture and hold the city, but they might easily have deflated the entire region by carrying out this threat to shoot up the tanks and fire the oil, estimated at 100,000 barrels. Should the oil in the tanks upriver be fired, the floating flame would be carried into the heart of the city, most effectively removing the menace offered by the gunboat, destroying all shipping and probably a large part of the town. That the rebels will carry out their threat is regarded by some of the officials here as by no means improbable, although foreigners own property in the neighborhood of Tampico are depending on the promises of the rebels not to molest the wells.

Operations of every kind of the Southern railway system were suspended for a period of five minutes at 1 o'clock yesterday this morning out of respect to the memory of the late president of the road, W. W. Hayley, whose funeral was held at 12 o'clock in Wash. D. C. Trains were brought to a standstill, machinery in all shops shut down, and all telegraph, telephone and signal apparatus remained idle during this period. Orders to this effect were issued by Vice President and General Manager F. H. Copman of the Southern Railway.

The 1913 Thanksgiving dinner will be the most expensive meal the average American has eaten during the last twenty-five years. It will cost from 25 to 300 per cent more than it did ten years ago and from 15 to 200 per cent more than the last six years, according to the newly gathered government statistics.

On the Everglades

Washington, D. C., Nov. 26. Representative Frank Clarke, of Gainesville, Fla., today issued the following statement bearing on Kansas City indictments for Everglades land frauds.

"I saw the interview of Commissioner of Agriculture McRae in the Metropolis, and see that Mr. McRae seems to lament the fact that Mr. Bolles and the other persons indicted at Kansas City had no chance to appear before the grand jury. "I desire to say that no defendant in a criminal transaction ever has the right to appear before the grand jury. The grand jury simply investigates to determine whether or not there are facts sufficient to warrant them in putting the defendant on trial, and Mr. Bolles and his fellow defendants will have ample time to defend themselves before a court and jury.

"I want to say further that in these indictments the question is solely as to the fraudulent representations made by these men. It makes no difference whether the land is good or bad. There are plenty of other facts upon which they can be and ought to be convicted."

Fisher Builds Another One

Low Fisher has an abounding faith in the future of Sanford and in the past two years has built four new residences in Sanford. His fine home on Sanford Heights was sold to Dr. Fletcher several months ago and during the summer Mr. Fisher built three new houses on Tenth street, occupying one for himself. He has recently purchased vacant lots on Palmetto avenue and is starting a new residence there for rental purposes. Mr. Fisher evidently finds it both pleasant and profitable to reside in Sanford.

Notices

The County at their meeting on Dec. 2d will buy a pair of mules for road work. Anyone having mules for sale suitable for this work please have same where they can be seen at that time. E. A. Douglass, Clerk.

HONOR ROLL

The following pupils of the grammar school have been neither absent nor tardy, have not failed below 90 per cent in their department, and have an average percentage of 90 or over, as follows: On the "Honor Roll" for the month:

Sunday School Report

The Sunday schools of the city are growing each Sabbath. Last Sunday there were 626 present as follows:

CITY ELECTION STRENUOUS AND GOOD VOTE POLLED

BEST OF GOOD FEELING PREVAILS DURING DAY

THRASHER WILL BE MAYOR

RACE FOR ALDERMAN WAS A VERY PRETTY FIGHT AND HOTLY CONTESTED

The primary election last Tuesday will go down in history as being one of the best conducted and most ladylike affairs that has ever been pulled off in Sanford. The vote was heavy and well canvassed and much enthusiasm was displayed all day by the various candidates and their friends. The voting started as soon as the polls opened and Capt. K. R. Murrell cast the first vote. From that time on until the polls closed the voting was desultory, but exciting and at no time was there any evidence of bitter feelings, the candidates and their friends bantering one another and soliciting votes in the best of spirits and good nature.

The election was one that no man could tell much about and this is one election where there was but little money wagged on the result and the amount of money spent at night. Early in the day the candidates for mayor and alderman were in the city and the result was at night all the dope handed out for the political horse race during the past week before the battle. Charles Hooper was known as a popular man and a good man for the position as every one recognized the fact that Sanford Heights was entitled to an alderman, but Charlie himself was surprised when the result showed that he led the alderman ticket and he was the recipient of many congratulations after the result was known. H. J. Fear also made a very good showing in the late election, receiving 100 votes and coming under the second vote. Right behind him came Dick Maxwell, followed by W. W. Abernathy and then Jack Adams, B. W. Herndon and Jack Davidson came along running some to escape the flag. The race for seventh place gravitated between S. Range and J. D. Davidson and finally closed up with Davidson two votes ahead. The mayor's race was a very close one after the counting of the votes. The race was very close, although the Maxwell men would rally now and then and it was some time before the Thrasher delegation could count their man safe at home and only one man out. The final score on the mayoralty race gave Thrasher 232 against Maxwell's 196 and although Maxwell is defeated there is no doubt that he feels mighty good over his showing.

The race for clerk and collector was between Lovell and Terwilliger, although Lovell's friends seemed confident throughout the evening. Starling did not do much in this race and Davis joined the also rans. For treasurer and assessor Preston was the greatest surprise of the evening leading the ticket by the handsome vote of 258, while his opponents were in the race as spectators. Williams getting 99 votes and Randall received 63 votes.

The executive committee candidates composed of Geo. DeCottis, G. H. Fernald, Forrest Lake, A. T. Rosetter and W. E. Watson were elected by a handsome majority after a hard struggle with no opposition. The alderman left out the regular election in December that were defeated yesterday are F. A. Bissett, W. S. Hand, C. O. McLaughlin, J. Musson, C. C. Woodruff and S. Runge, but they are taking their defeat philosophically as they realize that all could not win and they acknowledge the will of the majority.

Following is the result of the election in toto:

For Mayor—S. Maxwell 196, D. L. Thrasher 232.

For Councilmen—W. W. Abernathy 264, John Adams 236, F. A. Bissett 143, J. D. Davidson 222, C. H. Dingle 339, W. S. Hand 162, B. W. Herndon 233, R. C. Maxwell 282, C. O. McLaughlin 104, J. Musson 133, S. Runge 220, H. E. Tolar 234, C. C. Woodruff 194.

For Clerk and Collector—S. Davis 258, M. W. Lovell 170, B. J. Starling 30, J. E. Terwilliger 157.

For Treasurer and Assessor—A. Preston 258, J. B. Randall 63, Addison E. Williams 99.

For Executive Committee—Geo. A. DeCottis, Geo. H. Fernald, Forrest Lake, A. T. Rosetter, W. E. Watson.

PRESIDENT'S DAUGHTER WEDS

Big Social Event of the Season at the Nations Capital

The wedding of Jessie Woodrow Wilson, daughter of President and Mrs. Woodrow Wilson of Morris B. Moore occurred 12 o'clock at 1:30 o'clock Tuesday afternoon in the east room of the white house.

Simplicity with dignity—the same ideal which President Wilson has cherished for his administration since its inauguration—was predominant note in the arrangements for the marriage.

During the 113 years that have elapsed since the white house was built, twelve weddings have taken place there and it fell to the lot of Miss Wilson to be the thirtieth, a coincidence all the more remarkable because the president-elect has his friends that the wedding, through its simplicity and dignified character, was the best party and master number just thirteen.

The ceremony was solemnized in the historic east room, majestically decorated in memory of flowers for the occasion, at 12 o'clock this afternoon, that day before the white house.

The bride wore a simple, dignified, and becoming gown of white tulle, with a high collar and long sleeves. Her hair was styled in a simple and becoming manner. The groom wore a dark suit and a white shirt with a high collar and a white tie.

The bride's maid was Miss Margaret Wilson, the bridesmaids were the bride's youngest sister, Miss Eleanore Randolph Wilson, and Miss Mary G. White of Baltimore, Miss Adeline Mitchell Scott of Princeton, and Miss Marjorie Brown of Atlanta, the last a relative, and the others chums of girlhood.

The two young people who have lived the hardships of the poverty settlements in big cities and who have acquired into life's social and economic problems first hand, would have preferred a quiet wedding, limited to the family circle and close friends, such as it might have been had not parents of the bride been elevated to the foremost social position in the gift of the nation. Reluctantly, as it made an official affair. The diplomatic corps, it was realized, had never been omitted on any important social occasion at the white house, nor had the members of the cabinet and the supreme court. To Washington society, today's was the supreme event of the season, yet the guests were hardly drawn from official life but from the vast circle of friends of the two families throughout the land.

Marshal Tillis made a good capture yesterday, getting a young negro who had just tapped a cash register at a hardware store. Marshal Tillis had a bunch about the negro and followed him to Canaan City, where the money was found in his pants' leg.

PETERSBURG RAISES LICENSE ON SALOONS AND BREWERIES

PINELLAS CAN'T BE DRY BUT THEY CAN RAISE LICENSE

RESTRICTIONS WILL BE DRASTIC

OTHER NEWS OF THE STATE AT LARGE CITED FOR BUSY HERALD READERS

St. Petersburg, Fla., Nov. 27.—While there has been no attempt to establish a brewery here and there is no prospect of any immediate attempt, the city commissioners took steps yesterday to make it more unlikely that any one should try to open a brewery, here by imposing a \$5,000 license on such a business. All bars to saloons have been thrown down, however, in the repeal of two former ordinances restricting saloons to some extent, and limiting the number of saloons. It is expected that any one who can secure a license from the board of county commissioners will be able to secure a city license at the rate of \$1,000 over the former fee. Clubs that sell only to members which have heretofore been exempt from taxation, will have to pay \$100 for the privilege now. Clubs and clubs that sell only to members will have to pay \$100 for the privilege now.

More About Oviedo Band

Oviedo, Nov. 27.

Dear Sir, I write you for publication an account of the first band concert given by the new band, and being in a hurry, to be in time for the train over-looked some items I would like in it.

Miss Brooks' vocal solos were very ably rendered. She comes to us from Winona, Minn., and is spending the winter here.

Prof. T. H. Kirkpatrick's humorous readings were well received. He is formerly of Erie, Pa.

I write this article at the request of the band.

T. H. KIRKPATRICK.

Dr. Robson has purchased another car, a Ford runabout, to take care of his constantly increasing prattles.

EXECUTIVE COMMITTEE MEETS

George C. Herron Is Recommended for Position of County Judge

The Democratic Executive Committee met in regular session at the county house at last Tuesday morning at 11 o'clock with the following members present: J. N. Whitner, D. H. C. Babun, W. V. Dunn, G. M. Jacobs, J. M. Williamson.

Chairman Whitner called the committee to order and had the secretary read the call for the meeting, after which the object of the meeting was stated and that a recommendation for County Judge would be made and all those who were applicants were asked to bring their names before the committee. But one name was put forth for the recommendation, that of George C. Herron and there being no other applicants it was resolved that the ballots be dispensed with and a rising vote taken on the name of Mr. Herron. The vote for the applicant was unanimous and the secretary was instructed to wire the Governor and also to write him stating the recommendation of the meeting.

It was also resolved by the committee that an assessment be made against each ward to defray the expense of the committee in attending the meeting and also to pay the expense of the committee in attending the meeting.

Oviedo Band Concert

The Oviedo Band, under the direction of Prof. Stumton of Sanford gave their initial performance in this town last week most creditably to themselves and Prof. Stumton. There were two vocal numbers on the program rendered beautifully by Miss Bosky, daughter of Mr. and Mrs. S. W. Swapp of Wichita, Kansas, who are winter residents of Oviedo.

Several most enjoyable readings were given by Mr. Kirkpatrick, formerly of Liberal, Kansas, now residing in Oviedo. Mrs. H. B. McCall and Miss Allison were the pianists of the evening.

The numbers given by the Band showed good training and good work and Oviedo has a right to be proud of her boys and to feel grateful to Prof. Stumton.

Are You Guilty?

A farmer carrying an express package from a Chicago mail order house was accosted by a local merchant. "Why didn't you buy that bill of goods from me? I could have saved you the express, and besides you would have patronized a home store, which helps pay the taxes and builds up this locality." The farmer looked at the merchant a moment and then said: "Why don't you patronize your home paper and advertise? I read it and don't know that you had the stuff I have here."—McAtee (Ohio) Bulletin.
