State Health Board Report Is Made Public Yesterday; Best Test Has Count Of 70 Giving Nearly 100 P.C. Pure Rate

A test of city water made on Mar. 30 by E. L. Filly, chief sanitary engineer for the State Health Board, showed that it contained a bacterial count of only 70 and that the water was almost 100 percent pure, according to a statement made to the City Commissioners yesterday by City Manager W. E. Williams in reply to recent complaints regarding the city's water supply.

Churchill Budget Attacked By Labor In British Commons

LONDON, Apr. 12—(INS)—Churchill's budget was under fire today in the House of Commons, Philip Snowden, former chancellor of the exchequer, bitterly attacking the government for its policy of economy.

Large Alligator Is Captured Near City For Municipal Zoo

A large alligator, measuring 12 feet, was captured near the city this morning to take up his residence after he had been coaxed upon a city truck with the aid of ropes at the scene of his capture, the Geneva Bridge near Lake Jessup.

U.S. Boat Has Thrilling Fight With Rum Vessel

CLEVELAND, O., Apr. 12—(INS)—Details of a running battle with a 35-foot launch, alleged to be carrying rum, were reported today from the coast guard vessel CG-120. One man was wounded when the coast guard vessel opened fire on the alleged rum runner, after the latter refused to respect a challenge.

Major Leagues Will Open Season On Tuesday Before Biggest Crowds In History

By DAVIS J. WALSH
International News Service Sports Editor

NEW YORK, April 11.—Professional pessimists, who like to think that the seige of Troy was a carry-over to make the things look good, will be trampled under foot in the rush toward the turnstiles tomorrow by a quarter million souls, faithful always to their annual tryst with the game that is as much a part of America as baseball's liberty and the corner of a major league baseball, buffeted and abused through a winter of discontent, is to have its official opening within 24 hours and regardless of whether its feet be clay or white lead, America is willing to line its pockets with gold in order to renew a friendship that will endure through the ages.

Here in New York, Ty Cobb, a central figure in a mid-winter scandal that came to nothing, will be shown in the uniform of the Philadelphia Athletics for the first time since he entered the major leagues 22 years ago. With him will be Eddie Collins, returning to the scene of his early fame; Zack Wheat, almost a hallowed figure now; Joe Haley and Dudley Brannan, a pair of \$500,000 millionaires and probably the most interesting ball club since the days of the old Orioles.

The co-attraction will be Babe Ruth, most famous of all players, and the New York Yankees, the playing-through champions, and the first standpoint. Only the world series itself has witnessed a bigger advance sale than the local opening.

The first reservation for the Washington premiere arrived the day after this Speaker was purchased by the Senators and today you couldn't keep the boys away with a shot gun. So much for some of the 1926-27 scandals that had Speaker on the pistol with Cobb.

The other scandal named a score or more players, but it backfired so badly that the identity of many of the accused has been forgotten, even in the few short months intervening.

For baseball, always a favorite of the fates, also enjoyed a million dollars worth of advertising that was far less adverse and far more wholesome. Babe Ruth, for instance was signed with a flare and a flourish to a \$70,000-a-year contract. Rogers Hornsby, manager of a world's championship, was traded to New York and only two days ago did he consent to accept \$110,700 for his stock in the Cardinals, with result publicity.

Eight new managers took charge of teams in both leagues, Bill Carrigan, famous as Fenway Park itself, coming back to Boston and the town where in his own world's championship. Other new ones are Bob O'Farrell with the Cardinals; Dan Howley with the Browns; Donie Bush with Pittsburgh; Ray Schalk with the White Sox; George Murray with the Tigers; Staffie McInnes with the Phillies and Jack McAllister with the Indians. It is a matter of record that a new manager never kept an adduct away from an opening game.

TOBACCO CROP FOR THIS YEAR NEW PROBLEM

Change In Market Needs Is Bringing Growers More Demands, Survey Indicates

WASHINGTON, April 11.—American tobacco growers are facing a number of difficult problems due to rapid changes that have taken place in market requirements, the Department of Agriculture announced today.

"For several years there has been a tendency, both at home and abroad, for cigarette consumption to outrun the consumption of cigar, pipe, chewing and snuff tobacco," tobacco experts of the Department said in an official report.

"This tendency, which is expected to continue, has produced sharp contrasts in the position of various groups of tobacco producers. Growers of the lighter tobacco suitable for cigarette manufacture are selling their output at great prices on an expanding market, while the growers of dark fired and dark air-cured types of tobacco seem compelled to reduce their production."

Foreign Markets

A study of foreign tobacco markets made by the Department indicates that competition is increasing strongly in the production of dark tobacco. Moreover, pressure is stronger in the inferior than in the better grades.

"American growers are accordingly advised to improve the quality of their leaf," the report said. "Attention to the foreign market situation is imperative, because more than one-third of the tobacco crop of the United States is exported annually."

In 1926 the amount of unmanufactured tobacco exported totaled 478,768,738 pounds or 36.1 percent of the total United States crop. Most of our exported tobacco goes to Western Europe and the Orient, with Great Britain and China constituting the most important markets.

Among changes in foreign tobacco growing which the Department advises American producers to note are the following: rapidly increasing of cigar tobacco in Porto Rico; continued high production in Italy; some decline of production in the Balkan countries and in parts of Southern Europe; and gradual increase in British countries under a preferential tariff.

Raffeld's Stock Is Now Complete For The Summer Trade

The complete stock of goods for Raffeld's new ladies' shop on First Street has arrived and is now ready for inspection by the women of Sanford, according to a statement made today by Mr. Raffeld, who stated that his opening on Saturday was all that could be desired in view of the hurried preparations made for it.

"Our fixtures and conveniences will all be finished by the end of this week but our store today is prepared to handle the trade in a satisfactory manner," Mr. Raffeld said.

Business last Saturday night was very good he announced, and today there has been a stream of customers coming into the store, where the new modes of the season are being displayed.

"The people of Sanford treated me exceptionally well on my opening and I am sure they will always be pleased with the goods I have to offer," the owner said.

Prince Will Soon Move To Quarters At Marlborough

LONDON, Apr. 11.—(INS)—With the work of renovation steadily proceeding according to schedule, it is anticipated that the Prince of Wales will be able to take up residence at Marlborough House, the former London home of the late Queen Alexandra, by July at the latest.

Latest information from the Board of Works is to the effect that the house is practically habitable, having been brought into line with modern requirements.

A model garage, equipped with the latest mechanical improvements will shortly replace the old-fashioned stables. Bathrooms and lighting systems installed, have been added, modern heating and necessary structural alterations effected. Marlborough House today, if somewhat large for the ideal bachelor residence, is an up-to-date for practical working purposes as the latest thing in labor-saving apartments.

Almost all that remains to be decided on is the color scheme for some of the Prince's personal rooms. Queen Mary is advising the Prince in this matter, and the choice will probably be made shortly.

In the State Apartments the pictures, tapestries, and other objects d'art are to remain as they were in Queen Alexandra's day.

Seven Bandits Take \$40,000 From Store

PORTLAND, Ore., Apr. 11.—(INS)—Approximately \$40,000 in cash was reported taken from seven bandit holdups from the Olds, Workman and King Co., department store here, police reported.

While one of the bandits forced the night watchman to make his regular call box runs, the other six blew two small safes and drilled through a large vault, according to reports to police.

620 Cars Grapefruit Shipped In Past Week

ORLANDO, Fla., Apr. 11.—(INS)—Florida grapefruit shipped during the week ending last Saturday totaled 620 cars, an increase of 205 cars over the same week last year, according to the weekly citrus index of Chase & Co. here today.

After 13 Days

Katriina Van-Rensselaer, Washington society girl, wedded 13 days, asked a capital court to annul her marriage to Gustavo de Medina, Spanish embassy employe. She charges coercion, fraudulent promises, and says she was in a 'highly nervous and excited state.' She charged, too, that Medina, who has gone back to Spain, already had a wife.

BIG CALENDAR FACING SOLONS FOR THIS WEEK

(Continued from Page One)
national News Service.

Senator W. W. Phillips of the fourteenth district has prepared a resolution for introduction today proposing an amendment of article five of the Florida state constitution relating to the judicial department, to be known as section 45 of that article, in reference to the selection of the circuit court judges of the state.

Phillips told the International News Service that as every state officer circuit court judges are elected, he desired to see them elected also. Under the method provided by the state constitution, circuit court judges are appointed by the governor. It has been the custom of the past few years to include candidates for circuit court judges on the county ballots, but if one received a majority of the votes cast, it merely acted as an endorsement and placed no obligation upon the state's chief executive to appoint the high candidate, Phillips said. Under Phillips' proposed amendment, it would be mandatory upon the governor to appoint him.

Senator Pat Whitaker has prepared a local bill to be presented this week providing for the election of the municipal judge and city clerk of Tampa, who are appointed by the city commission at present.

ORLANDO—New municipal auditorium to be dedicated here.

COCOA—200 piles will be driven to support Cocoa-Merritt Island bridge.

TRONTON—Gilchrist County courthouse is improved.

Church Of England Announces Change In Its Prayerbook

LONDON, April 11.—(INS)—Many minor, but interesting changes have been made in the final form of the — permissive — composite prayer Book of the Church of England, which has just been authorized for use. Among these are:

A ruling that the Reserved Sacrament — consecrated Bread and Wine intended for the sick — shall be kept in a locked safe in the wall of the church.

A new prayer for the British Empire.

A ruling that the godparents of a child must be people who have been baptised.

The restoration of four Saints to the Calendar — St. Denis, St. Nicholas (Santa Claus), St. Crispin and St. Catherine of Alexandria.

There is nothing in the final draft which any clergyman is bound to use. It will be for each to decide whether he shall use the old or the new Book.

In the Preface, the Bishops state: "Since 1662 there has been change almost beyond belief in the facts and modes of English life."

There is little alteration in the Marriage Service. Instead of saying "All my worldly goods I give thee share," the bridegroom says, "All my worldly goods with thee I share."

COCOA—Gulf Refining Company starts \$10,000 storage plant here.

TRONTON—Gilchrist County courthouse is improved.

Tunnel Bill Will Be Presented To Solons

TALLAHASSEE, Fla., April 11.—(INS)—Authority to construct a six-mile tunnel under Tampa Bay or to build a bridge from Gadsden Point to a point opposite is asked in a bill prepared by Senator Pat Whitaker of Tampa for introduction in the senate today.

The bill provides for a \$25,000 surety bond from the contractors to whom the contract is awarded to be forfeited if the proper United States permits from the War Department and actual construction is not started within three years from the awarding of the contract.

Former Boxing Champ Drops Dead In Denver

DENVER, Apr. 11.—(INS)—Young Corbett, 45, once wearer of the featherweight boxing crown, is dead here today.

Corbett, whose real name was William Rothwell, dropped dead from a heart attack in front of a downtown theater last night not far from the old arena where he first entered the ring, in 1897.

Corbett, enjoyed a meteoric rise to glory when he knocked out "terrible" Terry McGovern in the second round in Hartford, Conn., in 1911.

Proposed Luxury Tax Opposed My Citizens

TALLAHASSEE, Fla., April 11.—(INS)—Petitions protesting against a proposed luxury tax on cigars, cigarettes, cosmetics and ice cream for advertising purposes have been received by the House of Representatives, from Jacksonville,

Alabama Homicide Validated By Court

WASHINGTON, Apr. 11.—The Supreme Court today validated the 'Homicide Law' of Alabama under which penal duties may be recovered for an accidental death.

In the case before the court, administrator of the estate of Corrie Yeldell won a \$9,500 verdict against the Loma Plaza Dry Cleaning Company for her death, which occurred in an elevator accident.

JACKSONVILLE, Fla., Apr. 11.—(INS)—The 1927 Southeastern League race gets under way this afternoon when the Jacksonville Turf club stacks up against the many Nuts before what is expected to be a record-breaking opening day crowd.

Employees of the city and many private concerns have been granted a half holiday for the occasion.

AVON PARK—Florida Power Service Company erecting a power station here costing \$25,000.

VERO BEACH—Rapid progress being made on erection of bridge for new causeway across lake River near here.

Board Of Advertising Is Urged By Orlando Man In Speech At Daytona Beach

DAYTONA BEACH, Fla., April 12.—(INS)—Creation of a state Board of Advertising and Publicity was advocated by Carl Hunt of Orlando, former general manager of the Associated Advertising Clubs of the World, in an address before the Florida Advertising Convention here today.

He favors such a board, Hunt declared, because there is such a serious waste in the expenditure of publicity and advertising tax funds in Florida that some action must be taken soon or the public will lose speaks of publicity, not advertising, but publicity includes advertising and as a matter of practical application, paid advertising space must be considered to be a very important part of what the law contemplates.

"I am not one of those people who wishes laws for the correction of every problem that presents itself, but I do believe we have a greater need in Florida today than to follow the example of the state of Massachusetts which has established a State Board of advertising."

The need in Florida, he asserted, is urgent for two reasons.

"In the first place," Hunt continued, "practically every city and county in the state, and this even includes quite small cities, has a tax levy for advertising, and if this is to be continued, which of course we hope it will be, there must be more intelligent use of these funds. People will get tired of the advertising tax unless the money raised for the purpose of advertising can be employed so that it will yield at least some return.

"And in the second place while I am not intimately informed upon the manner in which tax advertising funds have been employed in

other sections of the States it would be difficult to imagine a looser or less intelligent expenditure of funds than has come to my attention through inquiry among a number of chambers of commerce men about the state."

Much of this money, Hunt charged, is used for purposes that are only distantly related to advertising, publicity and tourist entertainment.

"And any advertising agent who has had experience in handling community advertising funds in Florida will tell you even that position which does find itself into recognized advertising mediums is often used in a way that is utterly astonishing because some committee of local characters—and a new committee each year—determines the mediums without knowledge either of the advertising problem or the circulation or appeal of the mediums used."

His remarks Hunt told the convention do not apply to all community advertising tax money in Florida but to a great deal of it.

"It is only because the general public—the taxpayer—has so little knowledge of advertising and the wonderful things that it can do and because the public is often misinformed as to the results obtained that we still have faulty administration of advertising tax levies in many of our communities," he asserted.

"Such a State Board as I have suggested would do a world of good if the law establishing it did nothing further than to require that each municipality prepare an advertising plan and budget and submit it to the State Board for constructive criticism."

"The public is at least entitled to know what it is getting for its money."

company described how he had been unsuspecting accomplice of a Chicago clothing company in defrauding the customs department.

DEATH OF SEVEN BABIES LAID TO QUEBEC WOMAN

Evidence Shows Little Infants Of Farm Died From Insufficient Nourishment; Woman Is Held For Murder

HULL, Que., —Apr. 12—Mrs. Diana Lacroix, proprietress of a baby farm here, faces a manslaughter charge in connection with the death of three of seven infants in her keeping. Evidence showed the babies died of insufficient and impure nourishment and lack of care. Their bodies, it was stated, were like skeletons.

After the bodies of seven infants had been found a coroner's jury was called to inquire into the case. Upon hearing the evidence submitted the jury at once returned a verdict holding Mrs. Lacroix criminally responsible for the deaths.

A warrant for Mrs. Lacroix's arrest was issued and a charge of manslaughter was placed against her.

It is intimated by the authorities that when she comes to trial further evidence will be submitted by the prosecution, to show that the baby farm was conducted on an extensive scale, as many as eight babies being kept there at one time, and that since August last seven deaths have occurred there.

A mother of one of the children testified that on January 29 she had taken the baby, only a month and a half old, but weighing six and three-quarter pounds, and perfectly healthy, to Mrs. Lacroix. On February 10, it was said and

Gives Hollywood the Ha-Ha

Claire De Lorez

Claire De Lorez worked hard in Hollywood cinema studios for three years, and could get nothing but minor parts. So she went to Europe. Word has just reached the film colony from Paris that the former "extra" has been cast for the star role in "Morgane, the Siren," a Rex Ingram production being made at Nice, France.

in such terrible changed condition that the mother almost fainted when she saw it.

Dr. F. E. Champagne of Hull, testified he had paid five visits to the Lacroix establishment and had attended five children, three of whom had died. In each case he had found the children to be suffering from acute lack of nourishment.

TRIBUTE IS PAID TO GILCHRIST BY FLORIDA SENATE

Resolution Passed In The Upper House Eulogizing Memory Of Dead Governor; Watson Draws Resolutions

TALLAHASSEE, Fla. Apr. 12.—(INS)—Albert W. Gilchrist, who became governor of Florida, in 1919, and who died in New York on May 15 of last year, has been honored by the Senate in a resolution presented by Senator John P. Watson (Miami) of district 11.

"Whereas, the honorable Albert Waller Gilchrist, a former governor of Florida, died in New York City May 15, 1926, in the sixty-eighth year of his age; and

"Whereas, it is appropriate that the legislature department should take official notice of the death of those who have been chief executives of the state, and have made an impress for good upon the laws, the government, and the development of the state, thereby showing its appreciation of their noble work while living, and the deep grief which is felt when they pass away. Albert Columbia, South Carolina, Janu-

CUSTOMS PROBE HAS UNEARTHED SMUGGLING PLOT

Shoes, Clothing And Autos Sent Across The Border On Faked Invoices; Bootleggers Make Big Profits

WINEPEG, Manitoba, Apr. 12.—(INS)—A widespread conspiracy between American shoe exporters and Winnipeg retailers by which the Canadian customs has been defrauded of thousands of dollars; and the scheme of a Chicago clothing house which meant a loss of thousands of dollars to the evaded; and clever tricks of the disclosures made at the recent sittings of the federal customs and smuggling probe here.

Shoe firms in Chicago and Boston were charged by officials with deliberately sending fraudulent invoices to shoe firms in this city to aid them in evading duties and thereby hold a lucrative Canadian trade. One claim against a shoe company here totals \$12,000 and there are others.

How It Was Done

Testimony disclosed that the Canadian shoe man would go to the United States, make a large cash deposit on a shipment of shoes and present the invoice of the balance to the customs department as a statement of the total value of the shipment. It was charged that one Chicago firm involved a shoe, which they sold for \$3.75 in the United States at \$1.75 to a Winnipeg firm.

Cyril Knowles, assistant inspector of customs, offered the bulk of the testimony in the shoe fraud. When the practices of the American shoe exporters became known to the customs authorities they cut off future shipments, he stated, but the "black-listed" exporters defied this order for a long time by shipping goods into Canada under the names of American firms in good standing.

The manager of a local storage

company described how he had been unsuspecting accomplice of a Chicago clothing company in defrauding the customs department.

DEATH OF SEVEN BABIES LAID TO QUEBEC WOMAN

Evidence Shows Little Infants Of Farm Died From Insufficient Nourishment; Woman Is Held For Murder

HULL, Que., —Apr. 12—Mrs. Diana Lacroix, proprietress of a baby farm here, faces a manslaughter charge in connection with the death of three of seven infants in her keeping. Evidence showed the babies died of insufficient and impure nourishment and lack of care. Their bodies, it was stated, were like skeletons.

After the bodies of seven infants had been found a coroner's jury was called to inquire into the case. Upon hearing the evidence submitted the jury at once returned a verdict holding Mrs. Lacroix criminally responsible for the deaths.

A warrant for Mrs. Lacroix's arrest was issued and a charge of manslaughter was placed against her.

It is intimated by the authorities that when she comes to trial further evidence will be submitted by the prosecution, to show that the baby farm was conducted on an extensive scale, as many as eight babies being kept there at one time, and that since August last seven deaths have occurred there.

A mother of one of the children testified that on January 29 she had taken the baby, only a month and a half old, but weighing six and three-quarter pounds, and perfectly healthy, to Mrs. Lacroix. On February 10, it was said and

in such terrible changed condition that the mother almost fainted when she saw it.

Dr. F. E. Champagne of Hull, testified he had paid five visits to the Lacroix establishment and had attended five children, three of whom had died. In each case he had found the children to be suffering from acute lack of nourishment.

Sapiro Quarrel With Farmers Is Revealed

FEDERAL BUILDING, DETROIT, Apr. 12.—(INS)—Another picture of Aaron Sapiro, so-called co-operative king, in a quarrel with a farmers' association over his fees, was given the jury today in the million-dollar Ford-Sapiro libel suit in federal court.

By documentary evidence and Sapiro's own testimony, it was shown the co-operative king first asked \$10,000 in fees from the Oregon Growers Association but later compromised on \$5,500. On the latter sum, Sapiro stood firm, demanding that the association pay its debt. It issued stock to Sapiro finally in paying the fee.

The trial proceeded slowly and mildly after yesterday's tempestuous session.

What Men Admire

All men admire a healthy woman. She is not beautiful to them no matter how regular her features, if she is sickly, illing. No chance of a marriage proposal for such a girl. If she is pale, weak and nervous, she is doomed to be an old maid. Fortunately for such a woman there is an old reliable remedy that will restore charm and youthful bloom. Dr. Pierce's Favorite Prescription, made of herbs, will tone up the nerves, relieve woman's weaknesses, and with renewed health, beauty will follow.

Waller Gilchrist was born at age 15, 1858, while his mother was visiting her parents. His father, General W. E. Gilchrist, lived at Quincy Florida, where Albert was reared. At the age of twenty he entered West Point Military Academy, resigning three years thereafter and coming back to Florida, and was appointed inspector general of the state militia by governor Perry.

"At the outbreak of the Spanish-American war he was brigadier general in the Florida militia and resigned to enter the regular army as a private and was sent to Santiago, Cuba, where he was honorably discharged as a captain.

"His political career began with his election to the Florida House of Representatives, in which body he served four sessions, those of 1893, 1895, 1903 and 1905. He was elected speaker of the House of Representatives of the 1905 session and served with great credit to himself and honor to the state. In 1909 he was elected governor of Florida, and rendered distinguished service as one of Florida's most careful, hard-working and economical governors. He was an orator, but kept well up with all state affairs, and al-

Too Much "Acid?"
Excess Uric Acid Gives Rise to Many Unpleasant Troubles.

AUTHORITIES agree that an excess of uric acid is primarily due to faulty kidney action. Retention of this toxic material often makes its presence felt by sore, painful joints, a tired, languid feeling and, sometimes, toxic buckache and headache. That the kidneys are not functioning right is often shown by scanty or burning passage of secretions. Thousands assist their kidneys at such times by the use of Doan's Pills—a stimulant diuretic. Doan's are recommended by many local people. Ask your neighbor!

DOAN'S PILLS

Stimulant Diuretic to the Kidneys
Foster-McMurray Co. Mfg. Chem. Buffalo, N.Y.

After the "Flu" is over — you need a Tonic

Help Is Needed to Restore Your Wasted Strength and Energy.

"Flu" leaves the body weakened and run-down. In such case, a tonic is clearly indicated. Restore the appetite and rid yourself of that let-down feeling.

"Flu" is a very enervating disease. It leaves its victims so weak and debilitated that there is as much danger from the after-effects as from the disease itself. In other words, after an attack of the "flu" you need a selective tonic to rebuild the system so that you may have your old-time strength and energy restored.

S.S.S. is unequalled for restoring strength and vitality.

You owe it to yourself and family to give S.S.S. a trial. It helps Nature build up red blood corpuscles. It improves the processes by which the body is nourished. It is time-tried and reliable. S.S.S. is made from the roots of fresh herbs and plants, and is prepared in a scientific way in a modern laboratory.

S.S.S. is sold at all good drug stores in two sizes. The larger size is more economical.

"Whereas, this body, in common with all departments of the state government, is sensible to the great loss the state has sustained in the death of this former governor and record with pride this expression of appreciation of his long service to the state, therefore, be it

"Resolved, by the Senate the House of Representatives concurring, that in the death of Albert Wallace Gilchrist the state of Florida has lost one of its foremost citizens, a time friend and a wise counselor.

"Resolved further, that these resolutions be spread upon the statute and house journals, and that the secretary of state be directed to prepare a copy of these resolutions, and forward under the great seal of state to the surviving relatives of deceased.

BIG WELCOME TO AWAIT TOURISTS ON LONDON VISIT

1927 Visitors Are To Find Transformed City During Coming Summer; Building Operations Are Extensive

LONDON, Apr. 12—(INS)—A great welcome will be staged by London this summer for American visitors.

Travelers from the United States will find what, in many ways, might be described as a "transformed London." All the great building operations that have been under way during the past four or five years have, almost in a night, reached the stage of completion. In many places London looks like a new city.

The transformation of Piccadilly Circus, the hub of the city, is practically complete. The gigantic operation of transforming Regent Street, the city's greatest shopping way, from an eighteenth century atmosphere into the finest and most modern street in the world, is now finished. The old-fashioned air of dinginess has departed. In place, one has a beautiful curve of palatial buildings all in glistening white.

—Old Places Gone

Similarly, in Oxford Street, Piccadilly, Bond Street, even Fleet Street a transformation has taken place within the past two years. The old-fashioned houses and have gone. In their places are the buildings—so dear to Londoners—most up-to-date structures that the combined skill of British and American architects have been able to produce.

Three new hotels have been opened in Mayfair—the heart of aristocratic London—during the past three months. They have aimed deliberately at excelling the standard set by the premier American fashionable hotels. Even in moderate priced suites one finds baths of onyx and jade alabaster set into marble floors in rooms the walls of which are of black glass inlaid with silver.

In every room, wardrobes are fitted with double lighting sets, showing clothes as they appear in the daylight and under artificial light.

—PERRINE—More than 233 cars of tomatoes valued at approximately \$350,000 shipped during recent work from this section.

Foreign Banks in Hankow Menaced

If anti-foreign rioting breaks out in Hankow, China, it is very likely to center around these beautiful foreign properties along the Bund. Left to right are the buildings of the National City Bank of New York, the Hongkong and Shanghai Banking Corporation (a British concern) and the A. P. C. Building, where foreigners are concentrated. Recent dispatches state these two banks are closed and that the situation is tense.

BIBLE VERSE FOR TODAY

THE FAVOR THAT IS LIFE:—Sing unto the Lord, O ye saints of His, and give thanks at the remembrance of His benefits. In His favour is life; His favour is life, but joy cometh in the morning. Psalm 30: 4, 5.

PRAYER:—"There will be no dark valley when Jesus comes to gather His loved ones home."

THAT YOU KNOCKING, GENTLE ANNIE.

The birds in the trees seem to chirp beehive-deeds. The brook's runic rhyme, hints it's straw hat time. Each tender young shoot suggests Palm Beach suit. But we murmur, "Oh, dear—Is spring really here?"

— P. H. A.

But wait, that ain't all! There's your fond sweetie's call that takes you to the park in a corner that is dark. And turns your gentle fancy far from others, see? And makes you murmur, "Yes, dear—Spring is really here."

It appears that Representative Householder's bill for the enactment of a Florida Banana law is destined for rough sailing in the legislature.

The dignified and unrelenting campaign of dry advocates of the type of Senator Borah will do more to defeat wet propaganda than all of the circus antics of former congressman Uphaw of Georgia.

The newspaper that attracts the advertiser is the one that is most widely read. The Herald has the largest paid circulation of any newspaper in Seminole County and therefore offers the advertiser more for his money.

Paris Singer, New York millionaire, has been arrested in connection with a \$1,500,000 fraudulent land deal in Florida. His affairs don't seem to be running as smoothly as the sewing machine that bears his name.

The Royal Scots, of which Princess Mary, Viscountess Lascelles, is Colonel-in-Chief, is the oldest of all British regiments. The popularity of the regiment in Scotland is shown by the fact that 50,000 men enlisted in it during the Great War.

Clarence Saunders, founder of the Piggly-Wiggly chain of stores and who was bankrupt two years ago after being ousted by the other stockholders of his corporation, has just paid his last obligation to Piggly-Wiggly and proudly admits that he is about two million dollars in the good in his efforts to stage a financial comeback. "The battle has only begun," he declares, and somehow a fighting spirit like this against tremendous odds arouses our fullest admiration.

Tammany, in an effort to secure support in the South for Al Smith, has put the soft pedal on the prohibition question and is booming the New York governor as only a "modest" candidate. But the South will not fall for this kind of propaganda. The New York executive has always been an avowed enemy of the Eighteenth Amendment and always will be and the states below the Mason-Dixon line will never support him for the nomination of for the presidency. He should become his party's choice.

The Florida State League is scheduled to open on April 23 with Sanford playing in Orlando. The following day, Friday, the teams again play in Orlando coming to Sanford to play the third game on Saturday. Why can't arrangements be made for the two teams to come here for that Friday game so that we may have our opening game on some day other than Saturday? Many merchants and other business men will be unable to attend and take part in greeting our Champion Celery-Feds as they start out on another drive for the pennant. The day should be a gala affair, but here it is impossible to make the occasion as auspicious as it should be.

Snakes Admit They're Enemies

The other day the editor of this paper received a well written letter conveying progressive ideas proposed for the betterment of municipal conditions. It was in full accord with our own ideas on a matter of much civic importance. It was intended for the "Sanford Forum," but unfortunately, it was not signed.

Such an oversight is always most regrettable. It makes it absolutely impossible to use a letter no matter how good it might be otherwise. No newspaper can afford to encourage the practice of anonymous letter writing if for no other reason than that things in general have a tendency to go from bad to worse and it probably would not be long before "XYZ" would be writing the most slanderous and hateful things about "BUZ," and vice versa, and a personal war would be carried on in the columns of the paper.

But why should anyone write a communication anonymously? If a person feels about a subject so strongly that he wants to exert his personal influence in its behalf, certainly he should not be ashamed or afraid to say so. If a man's opinions are not fit for him to stand back of, certainly they are not fit to be used in influencing others.

The trouble with the anonymous letter writer is that he is inately a coward and a hypocrite. By "talking around" he can play to both sides. He can "gum shoe" with this crowd and "gum shoe" with that, but when he signs his name to an article in a newspaper his place is fixed. He is on one side or the other. That's why he doesn't do it—he's afraid somebody on the other side will get sore.

A man who hasn't the "guts" to sign his name to a letter ought not to write it.

The Goats Of The Florida Boom

The inimitable Enquirer-Sun of Columbus, Georgia, has a good deal of fun over a poor, despondent mule which police found near West Palm Beach carrying a sign, "I may be a jackass but I'm no fool. I'm bound for Georgia." This mule probably had the best of intentions, probably thought he was making a change for the better—Georgia is a great state—but like most mules he lived up to their reputation for being exceedingly dumb.

In this respect he was not so different from most of the Georgia people who flocked to Florida in 1925, only to return to their native state during the slow months following. Failing in their efforts to make a million the first year of their real estate investments, they threw down their holdings and returned to the red clay hills. There they will grow old in poverty thinking of the wealth that might have been theirs if they had just hung on to this little Florida lot or that little Florida acre.

The Enquirer-Sun speaks of the mule as an "intelligent beast," this mule leaving Florida for Georgia. But those from Georgia who have stuck it out are the "intelligent beasts." Almost without exception they have gone to work, in the cities or on the farm, digging in with tooth and nail, building houses and running stores, or trying to make two potatoes grow where one had grown before, determined to accomplish what they set out to in the first place. They are waging a great fight, trying to live, and keep up their realty payments.

And they will win. It will not be so many more months before there will again be demand for Florida land and those who have made sacrifices in order to hang on, will be amply repaid. They may look like jackasses now, but most of them are too busy to do any braying. And what of those who became disgusted, refused to work, and returned to the red clay hills of Georgia?

The Enquirer-Sun, with becoming fair-mindedness, does "not suggest that he who does not come to Georgia is a jackass; neither would we intimate that he is a fool. We would say, though, that he who does come to Georgia is neither a jackass nor a fool." Possibly so, but isn't it equally true, that those who came to Florida and did not remain are the goats, the goats of the Florida boom?

I SAW MYSELF EXCHANGE

All the newspapers agreed yesterday that Alexander Kerensky had been slapped in the face by a young woman on the stage of the Century Theatre. As a matter of news-reporting, illustrative of the difficulty of obtaining agreement even to an eye-witness account of the same incident taking place publicly, it is interesting to note some of the variance as to details.

These are descriptions of the manner in which the young woman struck the blow:

World: "Slashed him viciously across the cheek with her gloves."

News: "Struck him across the left cheek with the bouquet."

American: "Dropped her flowers and slapped him in the face with her gloves."

Times: "Slapped him vigorously with her gloves three times."

Herald Tribune: "Beat him on the face and head . . . a half-dozen blows."

Evening World: "Struck him across the forehead 'several times.'"

Mirror: "Struck him a single time."

Post: "Vigorously and accurately slapped him."

WILL HE RECOGNIZE IT? PALM BEACH POST

On the eleventh day of the coming month of July there will occur, says the Rev. Walter Wynn, British clergyman, a dire event that will have a profound and regrettable influence on the world's history.

This prognostication is based on certain inscriptions on the ancient Egyptian pyramid at Giza. These inscriptions, the Rev. Wynn says, contain prophecies of great moment.

Well, he may be right for all we know. He leaves himself a loophole, too; he says that very likely we won't recognize the event at the time as being particularly momentous. It may be long afterward that we see its true meaning.

That's right, too. As a matter of fact, the really important things are not always recognized as such at the time they take place.

For example, on the 28th of June, 1914, when you read in your paper that Archduke Ferdinand of Austria had been assassinated at Sarajevo, did you think that was something that was going to affect the life of every man on earth? Of course you didn't.

Or, if you want to dig deeper into history, consider this, when the Roman emperor, nearly 2,000 years ago, received a report from the outlying province of Palestine that a Jewish healer and agitator had been executed, he doubtless failed to give it a second thought—and no one else in Rome even heard about it. Yet the dissolution of the Roman empire and the birth of a whole civilization and religion began then.

So don't laugh too loudly at the British minister if July 11th passes without any cataclysmic upheaval. Something important easily may happen without our recognizing it at the time. That's true of every day in the year.

RACE TRACK SLUSH FUND DAYTONA BEACH JOURNAL

Reports from the southern part of the state tell of a big slush fund that is being raised to push through a favorable race track gambling bill at the present session; that New York interests who own the race track concessions at Havana have raised a slush fund to defeat any legislation that may be favorable to racing in Florida. They realize, it is said, that if they can prevent race track gambling in Florida Havana will have a corner on the winter racing business. So, if "inside stuff" is to be credited, two gamblers' lobbies are on the job at Tallahassee, each armed with plenty of money.

In the light of these reports it will be interesting to watch the vote of various members of the legislature if race track gambling bills are presented for consideration.

As Brisbane Sees It

Class War in Britain. Religious War in Mexico. Box Profits Here. Study Vitamins. By ARTHUR BRISHANE. Copyright 1927 by Star Co.

BRITAIN IS WORRIED about the government's "trade disputes—trade unions" bill. It is intended to cripple the power of trade unions, limiting the extent of strikes, etc. Britain fears the rise of a dangerous class war. Organized labor's ability to establish its own government, with Ramsay MacDonald as prime minister shows the power of British labor organization, a power that in this country is scorned by both political parties.

HOWEVER, Baldwin, and others responsible for the British Empire, know the empire cannot rule all around the world if power is divided at home. The general strike and long coal strike showed that the empire might be destroyed at home. Those responsible must fight that, even if it does mean "class war."

It is trouble at home not rebellion abroad, that threatens Great Britain. In China the north now has the advantage over the hitherto, victorious south. Those hundreds of millions fighting back and forth, killing each other, help to solve Europe's Chinese problems. A British warship riddles the Yangtze forts.

Russia is mobilizing an army to make China respect bolshevism, which it refuses to adopt. "If you won't love me, fear me," says Russia.

WHEN BRITISH statesmen read five lines cabled from Lucknow telling of Mohammedans praying at the tomb of one of their saints, bombed by Hindus, they know that Asia will long be busy with class war. The problem is to control class war at home, in the happy land of aristocratic and capitalist glory.

Religious war continues in Mexico. General Amario, Mexican secretary of war and navy, accuses Mexican Knights of Columbus of holding up a train recently, burning cars and seizing government funds. American passengers on the train say the band of 300, attacking the train, repeatedly raised the revolution's cry, "Long Live Christ, the King."

The Rev. Jose Garcia, Catholic priest arrested, is held for trial, accused of communicating with rebels against the government.

OUR FOREFATHERS were wise keeping national government and public schools separate from religion, forbidding government to interfere with religion and forbidding religion to interfere with government or schools.

Those that would force religious control on schools or government risk the welfare of the religion that interests them.

IN GERMANY there is religious agitation, a clash between Protestant and Catholic churches and the republic, based on a religious effort to control the schools.

To let the citizen believe what he likes and teach it to his children, at home, and in his own schools, if he chooses to pay for them, to keep religion absolutely apart from government is the safest course. Especially for religion.

TWENTY-FOUR trust companies in New York city earned more than \$59,000,000 in one year.

"Great heavens," exclaims the worried radical, "what chance has the individual, competing with gigantic aggregations of money?"

WELL, HENRY FORD is an individual, and in that same year his net profit was \$90,000,000, 30 millions more than all of New York city's trust companies combined.

Then just as the good radical begins to worry about the individual capitalist, he hears "that one great automobile corporation, General Motors, earned in the year twice as much as Henry Ford."

THE question is not how much the individual or corporation earned, but how the money is earned, how the public is treated in the earning process, and to what extent, if any, individual opportunity is crippled by great combinations.

THE MORE THE individual or organization earns, the better for the country, if the earning is done on a fair basis. Great earning normally means high efficiency, cheap production, wide distribution—three things that the country needs.

INTEREST YOURSELF in vitamins. Dr. H. C. Sherman, learned professor of chemistry, proves that vitamins bring maturity earlier and make it last longer. Vitamins are found in milk, butter, lettuce and all green vegetables, cod liver oil, red wine (barred here), fruits, yeast, etc.

In addition to vitamins mineral salts are absolutely necessary to life. No animal can live without them.

Public school education should include information on diet. Mothers especially are interested in vitamins. Experiments with animals show vitamins influence the number of the young and successfully rearing.

Father Thinks He Is Still Too Young

A HELP IN TROUBLE TAMPA TIMES

Laugh a little; laugh more if you can within reason; laugh often if possible. Laughter in moderation is fine for the system—for the individual digestive system and complex system we sometimes allude to as the body politic. Americans may not need the urge of laughter as badly as some more ancient and burdened peoples; but a little suggestion now and then is fitting for the best of men—even of America, where even with frequent laughter in use there is need for pure general laughter in broken doses, in steady treatment, in encouraged consumption as an every day diet. It aids digestion, it sweetens life, it helps along social intercourse, it prolongs the years and makes them better as they extend. Disinfectants were made to be tickled. Expose them now and then and get all the merriment out of the process possible. There's a reason in this age.

Despite the reputation Americans have for being quick to see and appreciate a joke, for being given, sometimes overmuch, to levity that borders upon irreverence, for a boisterous and good-humored

spirit that has grown to be a disposition of general American there are needs for laughter now as never before. The age is a fast and furious one, competition here and there is desperate and merciless; the burdens are heavy that many must bear; laughter—death of the heart good like medicine—means of a more than stimulating quality, of a real tonic efficacy.

Wholesome laughter is good for the emergency. Many a crisis has been safely passed over when somebody saw the ridiculous in the situation, drolly dragged it out and flapped it in the faces of those who were ready to growl—or to weep. Many a social tension has been relieved when somebody mischievously thought of and told a joke.

A good laugh is the universal shock absorber of these furious, rushing, stressful times. One can deftly shove a really good joke in between two doggedly opposing factions bent on each other's utter destruction and so reduce the impact that even the joke will be as good as new for another occasion when the bump is present help in time of trouble.

TELEVISION MIAMI HERALD

It is announced that Herbert Hoover, speaking in one place, was both seen and heard in another place some hundred miles away. A play presented in one place was both seen and heard at a distant place. Well, what of it?

Supposedly the age of miracles is past. As a matter of fact the age of miracles is here. Miracles have ceased to be more than casually interesting. A miracle is the departure from the known and accepted facts of life and nature. Television is such a miracle, and it arouses passing interest.

In abundant prosperity slightly added abundance is of no great concern. It is only when one is starving that he becomes intensely interested in food. It is only when life is barren that the addition of some comfort or luxury arouses interest.

The past half century has been replete with inventions most amazing, because they have utilized pre-

viously unknown or unused forces. If there had never been the telephone, the telegraph, the radio, the motion picture, the aeroplane, the creation of the devices for television would have been a marvel that would have set the world talking—provided the world could have learned about it.

Under present conditions the invention receives a front page headline. A few people will talk about it. The scientists will proceed to perfect it for commercial and other uses. It will quickly become just as much a commonplace of life as is the telephone today. No one takes down the receiver of the telephone with a thrill as he thinks how marvelous it is that he can talk to someone across the continent.

Modern science is rapidly making humanity very blasé. The senses are becoming dulled. It is increasingly difficult to create a thrill. The marvelous is becoming drab and dull.

HOW NEWS SUPPRESSION WORKS FORT MYERS TROPICAL NEWS

English divorce cases are peculiarly unpleasant affairs, owing to the fact that ordinary violation of the marriage vow must be established in court. As a natural consequence, British newspaper accounts of divorce trials have not been without their unpleasant features. For this reason, parliament a few months ago passed a bill prohibiting newspapers from publishing detailed accounts of divorce proceedings. Passage of the bill was hailed as a victory for virtue, but it seems to have been a victory in which only an ostrich could find any great satisfaction.

It is now reported that there has been a very heavy increase in divorce cases, dating from the time of the passage of this bill. We can only conclude that the secrecy with which the divorce procedure is now surrounded is being used to advantage by persons unable to face publicity and has only encouraged the scandal, mendacity and corruption which seems to go hand in hand with the business

of dissolving marriages. Thus while ostensibly—but not actually—eliminating what has been regarded as a social evil, namely, the exploitation by the press of sensational divorce cases, the gag law has greatly stimulated a far greater evil. This we think is bound to be the result of any effective suppression of newspaper publicity bearing on any phase of social or political problems. The principle of the free press is the first and only indispensable factor in the maintenance of a democracy. In almost as vital a measure is it a factor in the maintenance of standards of conduct and morals.

We do not deny that many newspapers, as for example some of the utterly unspeakable tabloids of this country, thrive on scandal and exploit prurience for profit, but we do contend that the truth lies in this more offset by the ultimate social good which lies in full knowledge of the truth. When we can no longer face the truth, the end of our civilization is not far off.

TAMPA—Peninsular Telephone Company to expend \$1,000,000 on new telephone construction in this district.

BONITA BEACH—\$50,000 bridge to be built on for road bridge construction in this district.

JACKSONVILLE—Cornerstone laid for new Riverside Presbyterian Church at Park and Post Streets.

FRIDAY
 "The Story Hour" will be sung by Com- munity Chorus at 8 o'clock at the First Baptist Church.
 Musical from 9:30 A. M. to 11:30 at the First Presby- terian Church.
 Meeting of the W. C. T. U. will meet at 3:30 o'clock at the First Baptist Church.
SATURDAY
 "The Story Hour" at 10 o'clock at the Library.

ANDERSON-MOORE WEDDING QUIET AFFAIR AT PRESBYTERIAN CHURCH

A simple yet most impressive wedding was that of Tuesday morning at 7:30 o'clock when Miss Evelyn Anderson became the bride of Elwyn Moore. The ceremony took place at the First Presbyterian Church in the presence of relatives and a few of their most intimate friends. Rev. E. D. Brownlee, pastor of the church, officiated using the impressive ring ceremony.
 The decorations were elegant in their simplicity. The altar and chancel were banked with potted plants and palms, forming a beautiful background for tall, wicker baskets filled with white roses and other cut flowers. The colors of green and white were most effectively carried out in every detail.
 The bride was radiantly lovely in her smart tulle of dark blue with small close fitting hat, slippers and other accessories of gray. She wore a corsage of lilies of the valley.
 Little Miss Louise Anderson Wells, niece of the bride, was the only attendant. She acted as ring bearer, carrying the ring in the heart of a white rose bud. She wore a dainty frock of sky blue georgette over flesh crepe de chine.
 Immediately after the ceremony the young couple left in their car for a short wedding trip keeping their destination a secret. Upon their return they will make their home at the Holly Apartments on Sixth Street.
 Mrs. Moore is the youngest daughter of Mr. and Mrs. Andrew Broadus Anderson of Lake City, N. C. She came to Sanford about two years ago and has been making her home here with her sister, Mrs. James L. Wells. She is a graduate of Flora McDonald Presbyterial College at Red Springs, N. C. During her short residence here Mrs. Moore has made a host of friends by her winsome manner.
 The groom came to Sanford about two years ago from Columbia, S. C. He is a graduate of the Citadel at Charleston, S. C. He is now connected with the Florida Power and Light Co.

Mrs. Daniel Webster who has been spending the winter here with her daughter, Mrs. Stephen Pierpont left Tuesday for Savannah, Ga., where she will spend a short time before returning to her home at Providence, R. I.

Mrs. C. H. Cook left Monday for Harriman, Tenn., where she was called by the illness of her father.

Mr. and Mrs. Robert E. Herndon and children motored to the East Coast on Sunday.

Mrs. Eleanor Pasquire who has been visiting in Sanford as the guest of Mrs. Robert E. Herndon and Mrs. J. M. Stumon left Monday for her home at Indianapolis, Ind.

Judge W. Wallace Wright returned home Sunday evening from Jacksonville where he attended the State Bar Association.

L. V. Duane left Monday for Hollywood where he will attend the Florida section of the American Waterworks Association.

H. G. Cooley of Atlanta, Ga., who has been spending some time here on business left Tuesday for Wilmington, N. C.

DAYTONA BEACH—State road No. 4 to be routed through Daytona Beach.

CONGREGATIONALISTS OBSERVING HOLY WEEK WITH FINE PROGRAM

The observance of Holy Week at the Congregational Church is meeting with ready response. Tonight the second of the last seven words from the cross, "this day shalt thou be with me in Paradise," will be considered. On Good Friday evening at the close of the service the sacrament of the Lord's Supper will be observed.
 On Easter Sunday evening the pageant, "The Immortality of Love and Service," written by Professor Augustine Smith of Boston University, will be presented at the Congregational Church with 50 persons taking part, many in rich oriental costumes.
 The author of the pageant is internationally known both as a writer of pageants and in his dramatic ability in presentation. A few years ago he was invited by the Mikado of Japan to visit that land and had the full responsibility of representing a pageant with 3000 participants.
 In the first scene of "The Immortality of Love and Service" when the prolocutor has finished reading, the high priest in magnificent costumes with a retinue of servants appears to read the words of prophecy from a scroll. A professional junior Girls in white, sing, "From out the Peaceful Village," as they cross the stage slowly and finally disappear.
 The second scene reveals two Roman Guards before the sepulcher near at hand three women who finally join in "There is a Green Hill Far Away."
 The third scene due to lighting effects works a transformation from songs of sorrow to those of joy.
 In the fourth scene the prophet Isaiah in the posture of Sargent's famous painting, brings the pageant to a climax, while 12 girls representing the 12 foundations stones of the city of God, give a new meaning and significance to that city.
 "Eight Spirits of 'Service,'" "Faith in one's own Community," "Triumph over Ignorance," "Investigation," "Honor in Business," "Brotherhood in Industry," "Devotion to Children," and "Logs in the Home" lend color to the tableau.
 Then the whole audience will join with the chorus in "The House of Brotherhood."

Milk, Cream and Butter Milk fresh daily. Produced in Seminole County. No shipped milk or powdered products used. Get the best, it costs no more. Double delivery.
SPENCER'S DAIRY, Phone 400

Alfred Robson of Orlando with the F. J. Coledge Co., spent the day here Monday on business.
 Miss Love Turner spent the week-end very pleasantly in Tampa as the guest of her brother.
 Mrs. Howard P. Smith and son, Howard Jr., Mrs. E. A. Douglass and Miss Virginia McDaniel spent the day Sunday at Daytona Beach.
 Mrs. E. A. Douglass returned home Monday from Bunnell where she spent the week-end with her son and wife, Mr. and Mrs. Martin McDaniel.

Community Chorus Is To Sing The Messiah Next Friday Evening

One of the most interesting musical events of the week, in keeping with the observance of Holy Week, will be the singing of the "Messiah," by the Community Chorus on Friday evening at 8 o'clock at the First Baptist Church. The chorus will be under the direction of Mrs. W. S. Lesk.
 The soloists for the evening will be Mrs. Victor Robertson, soprano, Mrs. Claire Everette, alto; Paul Emge, tenor and Martin Stinecipher baritone. Mrs. Frances Aspinwall Woodruff will be the organist.
 The program will begin with the chorus "Behold The Lamb of God That Taketh Away the Sins of The World," and is followed by an alto solo, "He was Despised and Rejected of Men." The chorus then sings "Surely He Hath Borne Our Griefs and Carried Our Sorrows." The preceding group of three numbers is straight from the oratorical order given.
 Following this is a group of three short tenor solos, "Behold His Sorrow," "He Was Out of the See of There Be Any Sorrow Like Land of the Living," and "For The Transgression of Thy People Was He Stricken." This brings the program to the Easter Chorus, "Lift Up Your Heads," followed by the soprano solo, "I Know That My Redeemer Liveth." A bass solo, "Behold I Tell You A Mystery," follows this. At the singing of the last Chorus, the audience will arise in number, the wonderful "Hallelujah" is custom.

BOOTH-WIDEMER

Mr. and Mrs. Edgar Vliet Booth announce the engagement and approaching marriage of their daughter Edith Viola to Ernest Widmer on Thursday, the twenty-eighth of April at five o'clock First Baptist Church

Women's Guild Holds Meeting Monday With Mrs. Chase As Hostess

The Women's Guild of Holy Cross Episcopal Church met Monday afternoon with Mrs. S. O. Chase at her home on Oak Avenue.
 During the business session, which was presided over by the president, Mrs. A. P. Connelly, it was decided to serve supper for the delegates of the Young People's Service League Convention on May 13.
 Committees for the next three months were appointed and other matters of much importance were discussed.
 The required articles for the box work were brought in and turned over to the box chairman. At the conclusion of the business, Mrs. Alexander Vaughan, educational Secretary, took charge of the meeting.
 The next meeting of the guild will be held the first Monday in May at the Home of Mrs. R. A. Newman in Rose Court.

Parent-Teacher Body Of Grammar School Will Meet Thursday

On Tuesday afternoon at 3:30 o'clock the regular meeting of the Parent-Teachers Association of the Grammar School will be held at the grammar school auditorium. A most enjoyable program is being prepared in which children of every grade will take part.
 As this is the last meeting of the association for the year, every mother of children in the grammar school is urged to attend.

Announcements Made By Christian Church

The Christian Church has made the following announcements for the week:
 Prayer Meeting, Wednesday evening at 7:45 o'clock at 1205 Elm Avenue, led by Mrs. Rudick. This is a special Passion Week Service.
 Thursday at 7 o'clock a baptismal service for candidates will be held at the First Baptist Church. At 8 o'clock the monthly Workers Conference and rehearsal for Easter music will be held at the home of R. A. Wilson on Willow Avenue.
 Mr. and Mrs. S. R. Burleigh of Providence, R. I., who have been spending the winter at the Montezuma Hotel, left Tuesday afternoon for Savannah, Ga., where they will visit friends before returning to their home.

Organ Members With Mrs. Sharon Monday Afternoon

Regular meeting of the Pipe Organ members will be held Monday afternoon at the home of Mrs. James G. Smith on Tenth Street with Mrs. J. H. Colebaugh as hostess.

Members Hold Study Period The Lenten Season

The series of lessons "Church's Program" was by members of the St. Guild at a meeting held after noon at the chapel. Mortimer Glover, who has conducted the classes during the Lenten season, had charge of the meeting.
 The lesson a short business was held presided over by R. Key, who reported that containing the Easter message for the child clothed by members at St. Mary's Mountain, had been shipped.

MAJOR LEAGUE CLUBS TO OPEN SEASON TODAY

(Continued from Page One) carries quite the appeal of the present one. Ty Cobb will appear at the local stadium as the co-attraction with Ruth and he will be wearing them form of the Philadelphia Athletics for the first time in league competition. On the same club will be Eddie Collins and Zach Wheat, also noted off-season transfers, and Joe Boley and Dudley Brannan, noted minor leaguers, to say nothing of the fact that the outfit has two stars for every position.

The teams will play to the stadium's more than 60,000 capacity, if given a fair break in the weather. The reserved sections were sold to the last ticket. Hardly less intriguing than the spectacle of Cobb in a Philadelphia uniform will be that of Tris Speaker playing centerfield for Washington. The man who managed the present world's champions will be playing second base for a rival club when Rogers Hornsby takes the field in Philadelphia today as a member of the New York Giants, supported in the outfield by Ed Roush, previously regarded as a Cincinnati institution.

The clubs that haven't new stars are satisfied with what they had and those that weren't, lost no time in getting new managers. Of these, there are eight in all—Donie Bush, of the Pirates; Ray Schalk, of the White Sox; Bill Carrigan, Boston idol who returns to the Red Sox; George Moriarty, of the Tigers; Dan Howley, of the Browns; Stuffy McInnes, of the Phillies; Jack McAllister, of the Indians, and Bob O'Farrell of the Cardinals.

President Leads Yankee Fandom

Coolidge To Be Present WASHINGTON, April 12.—(INS)—President Coolidge leads the hosts of fandom into action today.

The first bill of the 1927 season will be chucked out of the presidential box to open the series between Senators and Red Sox. Mrs. Coolidge will accompany the president, and there will be many high government officials scattered through the boxes.

Coveleskie will pitch the opener for Washington, against Harris for the Red Sox.

Chilly Blasts in Boston BOSTON, April 12.—(INS)—Chilly blasts swept across Braves Field today but failed to cool the ardor of baseball fans for the opening game of the Major League season here, between the Braves and the Brooklyn Dodgers. Pitchers were Jess Petty for Brooklyn and Bob Smith for Boston.

Clean Skies in Cleveland CLEVELAND, O., April 12.—(INS)—Greeted by clear skies, the Speakerless Cleveland Indians and Chicago White Sox, minus Eddie Collins, open the American League season here today—if it doesn't rain.

Although the weatherman has predicted showers, there was no sign of threatening clouds this morning.

Browns Have Many Injuries ST. LOUIS, Apr. 12.—(INS)—Whitehill and Bassler and Zachary and O'Neil were to be the respect-

ive batteries for the Tigers and Browns today. The Tigers are in fine condition while the Browns are handicapped by injuries.

Weather Is Threatening CHICAGO, Apr. 12.—(INS)—If the weather man is kind, Chicagoans to the number of 40,000 are expected to turn out today for the opening of the National League season at Cubs Park.

Advance ticket sales is the heaviest on record. Weather indications however, are that it may be either snowing or raining at game time.

RAIN POSTPONES GAME ST. LOUIS, Apr. 12.—(INS)—

The opening game of the season between the Tigers and Browns was called off this afternoon on account of rain.

SOLONS VETO MOVE TO HELP STATE SCHOOLS

(Continued from Page One) ering a bill introduced by Stal-

er at last night's session authorizing sheriffs or any other police officers of the state to search for and seize with or without search warrants any intoxicating liquors.

The drastic search and seizure bill provides for authorization of police officers to stop and search any car or vehicle or to enter any home or premises where liquor is believed to be kept illegally.

The committee on education, up is today considering also Florida's first anti-evolution bill. The bill's title, in full, as introduced last night, is as follows:

"A bill to be entitled an act to prohibit the teaching in any school, supported in whole or in part by public funds, of any theory that mankind either ascended or descended from a lower order of animals, or any theory of evolution pertaining to the origin, descent or development of mankind, or any theory not in harmony with the biblical account of the creation of mankind, and to prohibit the use of adoption for use in any part by public funds, of any text school, supported in whole or in book which contains any theory that mankind either ascended or descended from a lower order of animals, or any theory of evolution pertaining to the origin, descent or development of mankind, or any theory not in harmony with the biblical account of the creation of a kind and fixing the penalty for the violation of this act."

A bill providing for the collection of ad valorem taxes on automobiles at the same time state license plates are applied for is in the process of preparation by representative W. W. Weston of Jackson county and will probably be introduced this week.

The ad valorem tax on automobiles, which amounts to more than \$1,000,000 annually, is rarely collected over 50 per cent each year and as a result, the taxes are increased for those who do pay them. Weston said today. The tax is now collected separately from the annual automobile license tax and is turned into the general revenue fund when collected.

Governor John W. Martin's recommendations that an act be passed raising the limits on the amount of money candidates for state offices can spend in their campaigns, is today in the hands of the committee on governor's message and administrative reports in the form of house bill 31 introduced last night by Representative A. O. Kanner of Martin county.

The bill provides for the expenditure of \$15,000 by candidates for the United States senator, \$12,000 for governor, \$5,000, for all other offices, \$4,000 for honorees, \$4,000 for railroad

commissioners, adjutant general, state chemist, state auditor, assistant state auditor and justices of the supreme court; \$1,200 for state's attorneys, \$400 for state senator \$400 for representative, \$800 for congressional district delegates to national convention.

The delegate at large to the national convention and for membership on the national Democratic Executive Committee and presidential electors may spend \$1,000; county office candidates in counties of 40,000 or over, \$1,500; in counties of 30,000 and less, \$1,000; counties of 20,000 to 30,000, \$800; counties less than 20,000, \$500, and candidates to congressional executive committee of any party, \$200.

Senator Edgar Wainwright of the eighteenth district will introduce in the Senate this week his automobile liability insurance bill, providing for the compulsory insurance of all automobile drivers in Florida for liability up to \$5,000. Under Wainwright's bill, every motorist in the state must take out \$5,000 liability insurance in order to assure persons injured by the car driven by the driver or the amount in case of law suits.

A prison commission of three persons with a prison commissioner at the head of the organization is expected to be another major bill to be introduced this week. The prison commission of three would investigate every application for pardons, paroles and commutation of sentences and make a report to the state pardon board, of which the governor is chairman. They would go into all exactions and records in each case and report favorably or unfavorably to the board concerning any application before them.

The race track controversy is also likely to come up in one of the two houses of the legislature this week and bills both pro and con are looked forward to with keen anticipation by various legislators.

It is understood that the author of the Kentucky pari-mutuel law is in Tallahassee and other faces that have been familiar on southern race tracks, are seen in the lobbies of the state capitol building.

There have been 131 bills introduced in the house and 49 bills introduced in the senate since the beginning of the 60 day session a week ago. Ninety four bills were introduced in the house last evening and 14 in the senate.

BENNETT, BYRD MAKING PLANS FOR OCEAN HOP

(Continued from Page 1) tic trip. Then, also, Charles A. Lindbergh, air mail aviator, is planning a flight to Paris in a monoplane equipped with Wright whirlwind motors, is expected to hop off next week from San Diego for a test flight to St. Louis.

"No matter what airship makes the Paris flight it will be a great impetus to aviation", said Bennett. "I am confident it will be made this year."

"How long it will take to fly to Paris is a matter of conjecture but, I think it may be done in as low as 25 hours and perhaps it will require as long as 45 hours. Navigation is the big thing. The distance will be cut if the navigation is properly handled. We are fortunate in having a most able and experienced navigator in Commander Byrd."

MINEOLA, N. Y., Apr. 12.—(INS)—A Bellanca monoplane, piloted by Bert Acosta and Claz-

Nationalist Begin To Bolster Position In Impending Fight

(Continued from Page One) The fighting caused grave apprehension among the residents, as many believed that the Northern army had arrived and was driving the Cantonese from Shanghai.

Widespread defections of Southern troops to the Northern army are reported. There are indications that the armies under Gen. Sunchuan Fang and Gen. Chang Tsung Chang are meeting with but feeble resistance in their drive towards Shanghai from three different points.

The most serious break on the Cantonese front is threatened in Northerners under Gen. Chang are attacking the Southern defenders in the vicinity of Tanyang where the and are menacing the Shanghai-Nanking railroad.

Now that Gen. Sun's forces have swept across the Yangtze River, his line extends from Shihherwei to Tungchow and is only 70 miles northeast of Shanghai.

Military developments in the vicinity of Nanking, although temporarily shrouded in more or less doubt, indicate the possibility of Shanghai again changing hands.

MOSCOW, Apr. 12.—(INS)—The Soviet foreign today received a telegram from Eugene Chen, foreign minister in the south Chinese (Cantonese) government, giving assurances that "this government would take the strictest measures to prevent a repetition of the international scandal, the atrocious crime and the unprecedented insult to the sovereignty and authority of the Soviet government inflicted by Chang Tso Lin."

The message referred to the raid made upon the Soviet embassy compound in Peking by police and soldiers acting upon orders from Marshal Chang.

The Cantonese official's message added that "Chang Tso Lin, although a lawless robber, is nevertheless a Chinese."

ence C. Chamberlain took off at Roosevelt Field at 9:30 o'clock this morning in an attempt to make a sustained flight of 50 hours and set a new world record. Part of the flight will be over New York City.

This plane may after attempt the dash from New York to Paris in an effort to win Raymond Orteig's \$25,000 prize. This depends largely upon the test started today.

The world record for sustained flight is 45 hours 11 minutes and 59 seconds made in France in August, 1925, by pilots Drouhin and Landry.

Want Ads Are Quick, Inexpensive; Read For Profit---Use For Results

Classified Rates

TRANSIENT ORDERS are classified according to the number of words and number of lines. The reduced rates are for consecutive insertions. No ad for less than 30c.

EXTRACT RATES will be upon request, and charged as a line instead of the word average as a line.

TELEPHONE ADS, will be re-ferred to patrons and collector immediately for payment, in advance of publication.

RECEIVING HOUR: Copy received at the office by 11:00 AM will be published the same day.

NOTES: If an error is made in the Sanford Herald will not be responsible for more than one re-peat insertion, therefore notice should be notified at once.

CONTINUANCE ORDERS

Continuance orders are made in person at the Herald office or by telephone. Telephone orders are not valid.

CLASSIFICATION INDEX: The following classifications are used in the classified rates and are numbered for reference. They are made alphabetically and numerically. The ads under each heading are also made up alphabetically.

CLASSIFIED RATE SCHEDULE

The following schedule tells the rates of set solid ads from 10 to 35 words for one to 12 insertions. When centered in the paper, each line will be counted as 6 words. Each word rate is 6¢. Applies to each word rate for example 15 words for 10 insertions at 1¢ a word is 15 times 10 or \$1.50, while 15 times less than 15 words is 15 times 10 or \$1.50.

10 WORDS	15 WORDS	20 WORDS	25 WORDS	30 WORDS	35 WORDS
1.00	1.50	2.00	2.50	3.00	3.50
2.00	3.00	4.00	5.00	6.00	7.00
3.00	4.50	6.00	7.50	9.00	10.50
4.00	6.00	8.00	10.00	12.00	14.00
5.00	7.50	10.00	12.50	15.00	17.50
6.00	9.00	12.00	15.00	18.00	21.00
7.00	10.50	14.00	17.50	21.00	24.00
8.00	12.00	16.00	20.00	24.00	28.00
9.00	13.50	18.00	22.50	27.00	31.00
10.00	15.00	20.00	25.00	30.00	35.00
