## GRANDI PAYS 2-HOUR VISIT TO NEW YORK

### Noisy Welcome Given Italian Premier Who Goes To City Hall To Meet Mayor Walker

NEW YORK, Nov. 19. (A.P.)—Declaring Italy and America are joined in a cause of world peace, Italian Foreign Minister Grandi paid a brief visit to New York today and was accorded a hearty public and official welcome.

He came here from Washington where for several days he has been considering matters of world welfare with President Hoover and after a 10-hour stay departed for Philadelphia. Arriving from the Jersey shore on the welcoming tug Marco to the accompaniment of screaming sirens of harbor, Grandi was escorted to City Hall where he was welcomed by Mayor James Walker who pinned a medal of the City of New York on the visitor's breast. Grandi made a short speech and then departed for Philadelphia.

From Premier Mussolini, by way of the transatlantic telephone, the minister received assurances yesterday of his chief's gratification of the progress of the Italian-American conversations.

A general feeling of harmony was described by American officials and members of the minister's mission as a direct result of the discussion.

The Italian's visit was the fourth occasion in the last two years on which President Hoover has talked with foreign statesmen in the quiet of the White House.

The other visitors were Prime Minister Ramsay MacDonald, of Great Britain; Premier J. B. Bennett of Canada; and Premier Pierre Laval of France. In each instance, divergent views on particular subjects were clarified which helped subsequent negotiations to work out problems, in detail.

A fairly close understanding of viewpoints on several subjects furnished a groundwork for discussion at the outset of the Hoover-Grandi conversations.

Secretary Blinson, who had known Grandi previously and who

## Lecture Given On Home Improvement By Visiting Experts

Once again Sanford housekeepers responded in large numbers to a lecture and demonstration relating to home improvement. Last week they crowded the Milano Theater to enjoy the Herald's all electric cooking school, and yesterday 300 or more were present at the Princess Theater to hear an illustrated talk on the use of light in promoting health and adding beauty to the home, as well as to secure many prizes donated by Sanford merchants.

The speaker was Walter F. Nelson, recognized authority on home lighting and an associate of the Westinghouse Lamp Co. and he was introduced by Mrs. L. B. Borch, Milano representative of the Florida Power and Light Co.

Sanford merchants whose donations of valuable prizes assisted in making the event a success were: Spear and Sons; Stokes Seed Co.; Mac-Mac Battery Co.; Randall Electric Co.; Sanford Electric Co.; Hill Hardware Co.; Yawall's; Smith Furnishers Co.; Sanford-Atlantic National Bank; Coleman's Automobile Electric Co.; Florida Power and Light Co.; S. C. Fosny and Co.

## Last Rites Are Paid To G. C. Hartley Today

Funeral services for G. C. Hartley, 81, Sanford resident who died at a local hospital yesterday after a short illness, were held this morning at 10 o'clock in the Lutheran church. The Rev. C. W. DeLoach of Orlando read the service. Burial followed at the cemetery.

## Byrd Plans Another Expedition To Pole

BROCKTON, Mass., Nov. 20. (A.P.)—Rear Admiral Richard Byrd, speaking here today, revealed he plans to return to Little America next September. The explorer recently sent word to an agent in Europe to find a suitable ship for the forthcoming expedition to the South Pole for further research and exploration work.

## SUPREME COURT REAFFIRMS OKEY OF GAS TAX LAW

### Also Denies Petition For Rehearing Filed By John E. Mathews

TALLAHASSEE, Nov. 20. (A.P.)—The Florida supreme court yesterday reaffirmed the constitutionality of the 1931 State gasoline tax revenue distribution law and denied a petition for rehearing filed by John E. Mathews, Duval legislator, who attacked the act as invalid.

The opinion, written by Associate Justice Armistead Brown, was the fourth written in the case. As the original decision, the court was divided four and two. Justice J. B. Whitfield, Justice Glenn Terrell and Circuit Judge A. G. Campbell concurred. Chief Justice Rivers Buford and Justice William H. Ellis dissented.

The act under attack levies 7 cents of the state's 7 cents per gallon gasoline tax and divides the revenue equally between the State Road Department and the counties. The 3 cent tax revenue going to the counties is apportioned on a basis of area, population and money spent by the counties on roads taken over by the state as provided in the act.

## Preliminary Plans Made To Open Hotel

Representatives of an important southern hotel chain met with Mayor T. L. Dumas, the City Commissioners and Harry M. Pappworth, president of the Seminole County Chamber of Commerce yesterday afternoon at the City Hall, and laid preliminary plans which may see the Mayfair Hotel open to the public within a few weeks.

The conference was the culmination of a long and intensive correspondence and a series of interviews participated in by Mr. Pappworth, the City Commissioners and hotel officials, and a very satisfactory basis of operations is reported as having been arranged.

## Bumper Cards Being Put On Automobiles

Bumper cards announcing Seminole County Progress Day on Dec. 15, are today being placed on every Florida Motor Lines bus operating in central Florida, according to an announcement from the county trade body offices today.

There is still a supply of these cards at the Chamber of Commerce offices, and all motorists are urged to call and attach one to their automobiles. Although several motorists who tour this section daily report that they have been questioned by several persons asking information as to the nature of the Day and the program.

## Citizen Gives \$5 To Buy Tickets For Persons Who Haven't Seen Talkie

Through the generosity of an unidentified resident of Sanford, 10 persons in this county who have never seen or heard a talking motion picture performance will, next Wednesday night at the benefit performance for the unemployed at the Milano Theater, be the guests of the unknown "Mr. X."

Joe L. Marantette, manager of the theater, announced today that a citizen of Sanford, who walked into his office this morning, tendered a \$5 bill and asked that it be used to purchase 10 tickets to be given to persons who have never witnessed a talkie performance.

Any person who has not seen such a performance and is unable to purchase a ticket for this performance, is invited to make application for one of the 10 tickets offered. Applications for the tickets may be obtained at The Herald office, where an investigation will be held to determine the names of the persons to whom the tickets will be given.

## ACCORD LOOMS OVER ISSUE OF NEW TAX LAWS

### Watson Proposes To Lay Aside Politics To Pass Legislation As Soon As Possible

WASHINGTON, Nov. 20. (A.P.)—Olive branches of peace were extended yesterday by congressional party leaders on the controversial tax-increase legislation now in formulation.

Senator Watson of Indiana, the Republican leader, made the first step in an offer to Representative Garner of Texas, House Democratic chief, to lay aside politics in the interest of enacting the new revenue legislation as speedily as possible.

Garner later predicted the new tax measure would be formed on a non-partisan basis with putting the law on the statute books as quickly as possible the first consideration.

Secretary Hurley told a New York audience last night that President Hoover would not be swayed from proposing an increase in taxes by fear of his political future.

Theodore Joslin, a secretary to the president, informed newspapermen that the president will reserve decision on his tax recommendations until he has had time to consider findings of the treasury.

Despite the overtures of peace on the tax legislation and no doubt whatever is held by Republicans.

## Legion Auxiliary Is Praised For Work In Orphanage Drive

Members of the American Legion Auxiliary of the Camp Hill, Dunning Post of the Legion set today played over the contents of a letter, received from Marcus Papp, superintendent of the Children's Home Society of Jacksonville, which contains the information that the local auxiliary's efforts in a recent drive for funds have topped those of any group in the entire state and that Sanford's contribution is the "largest that we have ever had from any auxiliary in Florida."

Here are excerpts from Mr. Papp's letter:

"I could hardly believe my eyes when I read your letter and saw the check for \$186.34, this amount representing the proceeds of the tag day sale recently held for the benefit of our Society. This is one of the finest contributions that we have ever had from any American Legion Auxiliary in Florida. Considering just now when we are in such desperate need, you can all rest assured that this very generous contribution is particularly appreciated at this time."

"I hope that you will say the biggest thank you that you can possibly put into words, to all of your officers, and members, and any others who may have assisted in any way, for we want even the smallest contributor to know that every penny means a lot to us at this time."

"This money will be used in providing the actual necessities of life for our children, and will be of tremendous help to us."

Members of the Auxiliary are to be commended for their work in this drive.

All funds derived from the sale of tickets on that night will be turned over to the Seminole County Chamber of Commerce's committee on unemployment relief, which is supervised by the county supervisor.

Members of the Auxiliary are to be commended for their work in this drive.

## Employers And Employees Of Railroads Hold Meet To Talk Over Wage Views

NEW YORK, Nov. 20. (A.P.)—Employers and employees from the great railway systems of the United States met in joint conference yesterday and informally discussed their viewpoints on wages and working conditions.

At the conclusion of the day's session it was unofficially reported that the views of the railroad officials and labor leaders were highly divergent upon many points.

At the conclusion of the session, Daniel Willard of the Baltimore and Ohio railroad and chairman of the committee of railway presidents, and L. H. Ross, chief man of the Association of Railway Labor Executives, issued the following statement:

"The meeting this afternoon was given up largely to the consistent statement of the carefully prepared matters discussed are naturally much involved and the conference will be continued at 10 o'clock today."

## LOTTERY CROOKS GET SENTENCES FROM U. S. JUDGE

### Promoters Had Promised To Divide Big Sum Among Clients

SANTA FE, N. M., Nov. 20. (A.P.)—Thirteen men, dubbed by the government as "knight of the double cross," were given sentences ranging up to two years in prison by Federal Judge Colin N. Little yesterday for conspiring to defraud the National Sweepstakes lottery last summer.

Nine of the defendants were convicted by a jury earlier in the day, and previously they had pleaded guilty and one had been sentenced.

Curtis Cannon of Little Rock, a state representative in Arkansas, was the only one acquitted.

The government presented evidence that more than one million of the 21 lottery tickets were distributed throughout the country. No prizes were awarded, although the promoters had promised to divide \$100,000 among the holders.

## Agricultural Club Planning Exchange To Handle Produce

The Seminole Agricultural Club last night appointed a committee to draw up plans at once for a Farmers' Exchange where the local grower of smaller truck crops may bring his produce, have it packed in standard containers, and sold at prevailing market prices to local and out-of-town wholesale or retail dealers. The committee is headed by R. B. Papp, chairman, with C. P. Homan, John Holly, John Zverner, and James Wilson, Chuluota, as assistants.

In an effort to make the exchange a success, the same committee is expected to visit as many growers as possible, to induce them to grow more mixed vegetables on all available farm lands. This thought was raised by several growers who have been advocating other means of increasing revenues as well as providing numerous vegetables which may be sold or canned for winter use.

At the suggestion of D. J. Garrett, the group also unanimously passed a resolution approving the construction of the cross-state canal now being advocated by many Florida interests.

Last night's affair was attended by members of the Orlando Agricultural Club who were special guests. The business and subsequent discussions on farm problems were presided by a barbecue dinner served on the farm grounds at the rear of the school. Musical entertainment during the dinner was furnished by the Truppe Brothers. Approximately 50 representative farmers attended the event.

## LINDY FLYING BIG PLANE ON FIRST PAY HOP

### "American Clipper" Is On Its Way To South America Carrying 33 Passengers, Mail

MIAMI, Nov. 20. (A.P.)—Carrying passengers and mail over the transatlantic route to Cristobal, Colon, Panama, Lindbergh took off today in the giant Pan American amphibian "American Clipper."

The hours of the southward trip, the first landing will be made at Georgetown, Guyana, where Lindbergh will be taken aboard, while passengers lunch. From there Lindbergh will hop into a Caribbean Sea plane will bring the plane to Kingston, Jamaica.

Arrival there is expected after midnight. The party will spend the night, leaving tomorrow for Barranquilla, Colombia, where Lindbergh will leave the plane for four days of business resuming the plane at Cristobal for the return flight.

The plane carried 33 passengers, four crew members and 234 pounds of mail.

## Geneva Celebration Adds To Features

As a unique and added feature of the celebration attending the first annual Seminole County and Geneva Citrus Day to be held at Geneva next Monday, the voice of Mayor James L. Giles of Orlando, will be broadcast to the moon-day paddlers through the courtesy of the Hof-Mac Battery Co., Sanford and the Milano Theater.

Mayor Giles yesterday announced to say a few words to the residents of the county and declared that if possible he would attend the meeting later in the day. His short talk will be broadcast over radio station WJLD, Orlando at 1:30 o'clock Monday afternoon. It will be picked up by radio, and broadcast through the amplifying system.

Mayor John T. Aiken of Jacksonville, and President Tiger of the University of Florida have also been invited to speak over radio stations in their cities, and if time can be arranged from the regular programs, they will also broadcast greetings to the residents of this county.

## Bungalow And Tract Of Land Are Bought

Another indication of real estate activity in this section is noted in the announcement through the Seminole County Chamber of Commerce office today that the Dayand Realty Co., Sanford, has sold a tract of land and a bungalow on the Sanford-Paola road near the Country Club, to Mr. and Mrs. John Senkarik, of Augusta, Ga.

Mr. Senkarik has moved his family here and has begun development of their new home, and declared that he is pleased with the prosperous appearance of this section and the cordial hospitality of its residents.

## Lions Club Decides Not To Sponsor Bringing Of State Air Tour To City

If the decision of a majority of the members of the Sanford Lions Club who met at the Montezuma Hotel today in luncheon session is upheld by the 10 absent members, that group will this year leave the details of the visit here of the annual air tour of Florida to some other group.

George McHenry, Lion and legislative chairman of the Florida State Aviation Society, brought the matter of the club's participation or sponsorship of the scheduled stop here late in January to the attention of the 10 members present. He urged that they again sponsor the event as was the case last year, declaring it to be one of the finest methods of keeping the club in the public eye as well as performing a service to the community and aviation.

## Knell Sounded For Balloon Golf Ball

NEW YORK, Nov. 20. (A.P.)—The balloon golf ball made its exit today with the announcement by H. H. Ramsay, president of the United States Golf Association, that the executive committee has adopted a new and heavier ball effective Jan. 1, 1932. Weight of the new ball will be not greater than 1.62 ounces. Ramsay said the old ball, which has been the object of the widespread complaint that it is too light to hold true to its course in the wind, weighs 1.52 ounces.

## COUNTY GROUP OF WOMEN'S CLUBS HOLDS MEETING

### Votes To Push Drive To Get County Dem- onstration Agent

At an enthusiastic meeting of members of the Seminole County Federation of Women's Club, held at the Longwood Library yesterday morning that organization went on record as advocating the reestablishment of efforts to secure a county home demonstration agent at the earliest possible moment. The unanimous vote of the nearly 40 women present accompanied the action.

Decision to continue with greater effort a drive which had its beginning several years ago followed an interesting talk by Miss Mary Keown, Doland, state home demonstration worker for Central Florida, who was the principal speaker of the day. Dr. Elizabeth Tracy who presided over the meeting, introduced Miss Keown, Karl Lehmann, secretary of the county trade body, and other speakers.

Miss Keown, in her talk on the purpose of home demonstration work and its accomplishments said that the work the rural women and girls is conducted throughout the nation by the United States Department of Agriculture and the state colleges of agriculture, cooperating with such local agencies as county commissioners and school boards. Home demonstration work is a part of the extension service.

## Plant Lovers Invited To Attend Meeting

Dr. Thomas G. Lee, of Babson Park, president of the Quist Society of Florida, publicly invites all plant and bird lovers of this state to gather at Winter Park at Recreation Hall, Rollins College, Sunday, Nov. 22, at 3:00 o'clock.

The occasion is to do honor to the memory of the late Dr. Henry Nehrling of Gotha and Naples, who died in November 1929. Dr. Nehrling's studies and research were directed principally toward amaryllis, calladiums, palm and Lantana, and he had established a wide reputation as an expert on those matters at his death. He was also an authority on birds.

The speakers will be: Dr. H. Harold House, of Gainesville; Mrs. Mary Francis Baker, Winter Park; and Theodore L. Mead, of Oviedo. Rollins College has arranged a religious and musical program in which the ministers of Winter Park and the musical organizations of the College will take part.

## DAWES, BRIAND CONFER ON JAP ISSUE IN EAST

### League Circles Hope Parley May Provide New Course Of Action In Difficulties

(By The Associated Press)  
Ambassador Dawes and Chairman Briand of the League Council concluded a conference at noon which it is understood the attitude of the United States on the Manchurian question was discussed and which League circles hoped might provide a new course of action.

The council is expected to meet privately this afternoon but Dawes said no American representative will be present. The Chinese government at Nanking published a telegram from General Mah Chan-Shan in which he is quoted as saying he evacuated Taihshai to save lives of civilian inhabitants after Japanese airplanes began to bomb.

Weeping women greeted the arrival of 10 Japanese dead and 40 injured from the Nonni River battle at Mukden today. The total Japanese casualties are reported at 49 killed and 155 wounded.

At Washington Japan's ambassador said his country's troops will be withdrawn from Taihshai very soon and at Tokyo the minister of war said they would be taken out within a few days. But at Mukden Japanese sources said the troops will remain in Northern Manchuria "so long as the presence" of General Mah existed.

General Mah Chan-Shan tried yesterday to reorganize his shattered Chinese army at Kusan, 40 miles northeast of Taihshai, from which he fled after a series of vicious Japanese attacks.

Chinese authorities said General Mah planned to withdraw to Hailun of Suihwa and set up a new Heilongkiang provincial government.

Chinese civilians were fleeing from the area of the Chinese Eastern Railway. The refugees suffered heavily in the sub-zero weather.

Tokyo dispatched a friendly warning to Moscow that serious complications will result if Soviet troops are sent into North Manchuria.

Japan charged Russia with partial responsibility for the Japanese offensive south of Taihshai which carried the Japanese army well within the zone of Russian influence.

China indicated her intention of staying in the fight.

Chiang Kai-Shek, president of the Nanking government, announced he was going immediately.

## Assembly Outlaws Ex-Ruler Of Spain

MADRID, Nov. 20. (A.P.)—Don Alfonso De Bourbon, former King Alfonso, XIII of Spain, was declared outlawed and banished by the constituent assembly today. Alfonso is in voluntary exile in France. The assembly voted by acclamation after a lone dramatic protest by Count Dermomones, one of Spain's wealthiest men, who said the assembly violated the first law of the criminal code by condemning the former king without a hearing. When the vote came there was no dissenting voice.

## Germany Asks For Debt Consideration

BERLIN, Nov. 20. (A.P.)—The German government in a memorandum to the world bank made public today applied for a convention of the special advisory committee to examine the possibility of new plans of the Hague agreements of Jan. 20, 1924. It stressed the urgency of the application.

tion work has come to be a comprehensive system of education for rural home makers," she said, adding that "its object is the fullest and finest development of women and girls through the use of all the many resources of the farm home and farm community." Its chief means of realizing these aims is in the initiative aroused by the demonstration which the individual makes as an object lesson for her family and community, she said.

Karl Lehmann spoke briefly on plans which the Chamber of Commerce is formulating for various county-wide events, and pointed out the part which the Federation can play in each. He also discussed the difference between the Smith-Hughes and Smith-Lever acts relating to education.

Among the accomplishments of the Federation since its beginning in 1922 are the following, recited at the meeting for the information of several members: creation of a five acre park near Wekiva, with the land donated by Joe Cameron, Sanford; sponsorship and subsequent employment of a county school nurse; sponsorship and subsequent employment of Mrs. Helen T. Morse as county welfare director; creation of several day sanitariums, and consistent sponsorship of the new for a county demonstration agent.

Mrs. Herberta Leonardy was appointed head of the publicity committee, and Mrs. C. Russell Mason head of the home demonstration agent committee.

The Federation voted to extend and invitation to Mrs. Doyle E. Carlton, asking that she accompany Governor Carlton to Sanford on Semple County Progress Day and be the guest of the Federation.

At the conclusion of the meeting, luncheon was served under the

supervision of Mrs. H. M. Tanner, hostess for the day. Those present included: Mrs. Wallace Billingsley, Mrs. H. M. Tanner, Miss Cora Dolly, Mrs. W. S. Entzinger, Mrs. Harold Jackson, Mrs. R. Gray, Mrs. Henry Menick, Miss Florence Lovell, Mrs. L. Cramer, Mrs. C. H. Gilbert, Mrs. F. J. Nelmeyer, Mrs. H. E. Fuller, Mrs. M. H. Langerbach, Mrs. C. B. Searcy, Mrs. J. A. Bietline, and Mrs. L. W. Entzinger, of the Longwood Civic League; Mrs. John D. Abrahams, Miss E. M. Carroll, Mrs. T. E. Threlkley, Mrs. W. I. Hughey, Mrs. F. E. Mitchell, of the Sanford W. C. T. U.; Mrs. E. C. Sheffer, Sanford, of the Spanish War Veterans Auxiliary; Mrs. Herberta Leonardy, Mrs. W. T. Langley, Dr. Elizabeth Tracy, Miss J. M. McCaskill, of the Sanford Woman's Club; Mrs. Emma Abbott Lyman, of the county welfare board; Mrs. W. H. Gilman, Mrs. W. B. Ballard, of the Altamonte Civic League; Mrs. C. Russell Mason, of the A. A. U. W.; Miss Mary Keown, of Deland, and Karl Lehmann, Sanford.

### Advertising Value Of Newspapers Is Stressed In Talk

ORLANDO, Nov. 20.—Newspaper advertising is one of the most important parts of a well planned merchandising program, W. E. Nelson, sales promotion expert with the Westinghouse Lamp Co., told a group of merchants assembled last night at the Chamber of Commerce building by the Orlando Merchants Association of Orlando.

"In planning your advertising and merchandising program, do not overlook the most important medium you have at your disposal—your local newspapers. The newspapers are your closest contact with the consumer and you should always plan newspaper advertising campaigns to tie in

with the manufacturers' national advertising. No advertising or promotion program is complete without the local newspaper tie-in."

Nelson's talk, "Making Store Buyers Out of Window Shoppers," was illustrated with slides. It is the same talk he has been presenting to groups of electrical men in collaboration with chambers of commerce in a number of cities throughout the South. Every phase of window decorating was discussed.

### U. S. IS BECOMING MORE ANXIOUS IN FAR EAST CRISIS

#### Latest Jap Offensive May Result In Serious Complications

WASHINGTON, Nov. 20.—(A.P.)—Intense activity and grave faces at the state department yesterday gave evidence the American government is considering a new step in the Manchurian crisis.

Secretary Stimson alternately talked with Paris on the long distance telephone and called his associates into consultation in various phases of the problem, seriously complicated by the latest Japanese offensive.

The Japanese ambassador, Katsuj Dohuchi, called at the department twice to talk with Stimson and Undersecretary Castle. He appeared more nervous than usual. "I came to tell the secretary the actual situation in Taitshai," he said, adding that he was "sorry it happened" and realized a "very bad situation" had been created.

The attack, he said, was launched in self-defense by the small Japanese army after the Chinese under General Mah had violated a 10-day truce agreement.

"As soon as Mah is completely defeated," he said, "the Japanese troops will retire southward."

Then he quickly added, "of course I must make a reservation," and qualified his statement by adding the phrase "unless untoward events should happen."

"There are no serious complications between Russia and Japan," he continued, "because the Russians know it is not our intention to approach the Chinese Eastern Railway."

The northward thrust to Taitshai placed Japan beside this railway which is controlled jointly by Russia and China.

The area is usually referred to as the "Russian sphere of influence," but Dohuchi questioned whether there is any such thing.

He also said there is "no secret treaty between Russia and Japan at present."

Dohuchi was asked whether there was full accord between the Japanese military officers in Manchuria and the Tokyo government.

"That point I can't discuss," he replied, "then with a shrug he added, 'Japan is one government.'"

Shortly after the dapper little Japanese ambassador walked out of Secretary Stimson's office, that official was in telephonic communication with Ambassador Davis, America's representative at the League of Nations' council gathering in Paris on the problem.

The question of joining the other nations in withdrawing diplomatic representatives from Japan or applying an economic boycott presented serious problems.

Chairman Borah of the Senate foreign relations committee said yesterday he was convinced that Japan intends to dominate Manchuria. The senator, an outspoken critic of recent Japanese activities, had been visited by Yukio Ozaki, a member of the Japanese diet.

In Chicago, Senator Johnson of California a Republican, said the present situation showed the ineffectiveness of treaties and the League of Nations.

"Japan will take what she wants," he said, "and what Japan takes, she keeps."

Martin's Announcement

The political season is gradually getting under way. After his previous announcement that he would make an important announcement on Thursday no one can hardly be said to have been knocked cold by the surprise of John Martin's announcement yesterday that he is a candidate for governor of the state of Florida.

Looking over that formidable area of gubernatorial timber, one is impressed by the rather obvious lack of any really seasoned hickory. Not that the names of some good men do not appear in the list, they do; but what Florida needs at this time is something a little better than a good man.

The race as it looks today will probably develop into a neck and neck struggle between two of the candidates; the rest will be also rans. Our advice is to bet both Hardee and Martin on the nose. You are almost sure to win on one or the other. Or if you are a conservative, bet both to show, and you will probably win both ways.

Both men are ex-governors, affording the state its first spectacle of two former governors splashing each other. Hardee served in the pre-boom period when everything was Jake and nobody knew anything about booms or depressions.

For Which We Can Be Thankful
As the season of Thanksgiving approaches one naturally reviews in his own mind the things for which he can be thankful during the past year.

As the season of Thanksgiving approaches one naturally reviews in his own mind the things for which he can be thankful during the past year. The editor of the Manufacturers Record doing that, recalls that Nature has been most lavish with her gifts.

Table with 4 columns: Crop, 1930, 1931, Increase over 1930. Rows include Wheat, Corn, Oats, Hay, Grain sorghums, Rice, Peanuts, White potatoes, Sweet potatoes, Tannin hay, Tobacco.

The combined production of the three principal Southern grain crops—corn, wheat and oats—will be about 1,334,000,000 bushels, or 683,000,000 more than in 1930, the Record explains.

"Never in the South's history has there been a larger amount and variety of food produced and processed for home use. The low cost of farming operations, and the rise in crop prices in recent weeks, increasing purchasing power by at least \$200,000,000, means that the Southern farmer is better off than he has been since 1929.

"From this materially better condition of the farmer there will spread a better state of affairs for the merchant and the manufacturer. The signs of better business generally are multiplying. It should be a time for Thanksgiving."

THE MANCHURIAN IMBROGLIO

BY KENNETH SCOTT LATOURNETTE

No situation more difficult of solution today plagues international relations than that in Manchuria. This is partly because there is so much history back of it. The present clash is the latest, but unfortunately, almost certainly not the last of a series of incidents reaching back for a little more than thirty-five years.

Of the main factors the first is Manchuria. The main field is significant. It is derived from the fact that the region was the home of the Manchurians, a nomadic people who were driven from their country by the Mongols in the 13th century.

It is not strange that an immense number of Manchurians have fled from the outside increasing and the Manchurians in their years of decadence were able to offer less and less resistance, neighboring peoples established themselves there.

Chinese have poured in from the nearby provinces of China Proper and form the bulk of the population. When, very lately, disorder in North China became particularly acute, the immigration amounted to about a million a year.

The Russians still share with the Chinese the control of the Chinese Eastern Railway, which dominates economically and politically the northern and major part of Manchuria. This in effect makes the road a Russian line and the region a Russian sphere of influence.

Japan's active interest in Manchuria dates from the China-Japanese War (1894-1895). By the treaty which ended that struggle and sealed Japan's victory, China ceded the Liaotung Peninsula to the island empire.

Japan's active interest in Manchuria dates from the China-Japanese War (1894-1895). By the treaty which ended that struggle and sealed Japan's victory, China ceded the Liaotung Peninsula to the island empire.

A second major factor in the situation, then, is Japan. The Japanese insist that their interest in Manchuria is economic and not political. They believe that having lost in 1904-1905, depending so much blood and treasure to give the region from Russia, having since made an heavy a capital investment, and having their rights acknowledged by treaties, including especially agreements with China, they cannot but have a right to be there.

The Manchurian imbroglio is a complex situation. It is a result of the collision of two great powers, China and Japan, over a region of strategic importance. The Japanese view is that they have a right to be there because of their economic investment and the treaties that have been signed.

most capable of maintaining order through the area of the republic, including Manchuria, and if at the same time they would give due recognition of Japanese economic interests, a large proportion of the difficulty would be time.
