BIBLE VERSE FOR TODAY

IF YOU LACK DEPTH OF ROOT YOU WILL GET NO HAPPINESS OUT OF SPIRITUAL LIFE. FORGET SPECULATION AND SEEK LIVING EXPERIENCE OF RELIGION. Sprayed by every passing wind of doctrine. —Eph. 4:14.

Did you know that more children are killed in traffic accidents during the months of July and August than any other time during the year? Now is a good time to put on a little safety campaign of your own.

What would fire cost the state of Florida is revealed in a report from Florida Forest Service which says that last year there were about 25,000 of these state resulting in a loss of about \$8,000,000 worth of property. This figure, of course, does not include urban property.

A good way to cure those who persist in hunting out of season has been hit upon by Judge Wilson of Brevard who has recently sentenced two out-of-season hunters to buying ten deer to replace the two deer which they killed. At that rate hunting out of season might soon stock Florida's woods with game, if other judges followed Judge Wilson's lead.

The story of the unloaded gun has been told thousands of times, but apparently it has not been told often enough. In Chicago the other day William Sheridan shot and critically wounded his best friend while playing "comando" with a gun he thought was unloaded. Seeing what he had done, he then turned the gun on himself and took his own life.

Every union man should read the evidence being brought out by the House Un-American Activities Committee which shows that in at least some unions Communists control them "lock, stock and barrel" though they do not represent more than 1 percent of the membership. Communism is a minority movement, and wherever it has gained power it has represented only a small but well organized group. We had better stick to majority rule in this country.

Federal housing experts have estimated that nearly two million veterans have been unable to find homes of their own since returning from the war and are living with their parents or in laws or in many cases cooped up in tents, trailers, basements or attics. A veterans organization insists that over seven million veterans are suffering in one way or another from the housing shortage. The nation owes a debt of gratitude to the veterans which calls for immediate action on the matter of housing. And there is only one solution to the problem. . . That is WORK. Houses don't build themselves.

What Florida farms are worth to Floridians was disclosed the other day in a report from the Florida Vegetable Committee which said that Florida farms combined have a total value of \$515,000,000, or over half a billion, and that less than 30 years ago such farms were worth only \$42,000,000. Celery is still one of the two or three big money crops and in 1946 this state produced more than 60 percent of all the Spring and Winter celery grown in the United States. Citrus, of course, is big business in Florida, so are tourists and their entertainment, but the production of Winter vegetables need take no back seat to any of them.

Learn To Swim

What does a person think about as he goes down for the third time in a swimming accident?

We asked a friend of ours this question once just after he had been rescued in a semi-conscious condition after the rowboat in which he had been riding overturned and he had struggled in the water nearly 15 minutes before attracting the attention of some people on shore who came to his help.

"I thought about the hundreds of times I had been in swimming," he said "without ever really learning how to swim. I thought of what a fool I had been to neglect the many opportunities which had been given me to learn, and how much I would give right then to be able to strike out in a good strong American crawl and make for shore only a few hundred yards away."

How many people in your own life time have you seen like that? People who go swimming more or less frequently every summer, all their lives, but never really learn how to swim? People who when they go swimming paddle aimlessly around, floating most of the time, or merely jumping over the waves, or plunging through them, but never actually swimming more than 15 or 20 feet at a time.

Ask one of these people if he knows how to swim. "Oh yes, I know how to swim." He will tell you. "Been swimming all my life. You don't have to worry about me."

But let him fall overboard a hundred yards from shore. Let the boat from which he is fishing a half mile out in the ocean catch fire, or suddenly sink. Let him be forced to go to the rescue of some little child who has fallen off the dock and been carried by the current a short distance away. Can he swim then? Can he swim well enough to save the child, or take care of himself in an emergency?

There is just one way to learn to swim, and that is by swimming. Of course, it is necessary to get someone who knows the fundamental principles of the basic strokes to get you started, but after that it is up to you. Anybody can learn to swim. Anybody can learn to swim well enough to make shore from several hundred yards out in the lake. But they can't do it by dreaming about it.

They have to practice, maybe not more than 25 or 50 feet at first. Then increase it a little more every day. After a while two or three hundred yards will come as easily as 50 feet did at first. Then it is a simple matter to build up to 500 yards or 1,000. Then when your boat turns over out in the lake, you will know what to do.

And you will thank God that you have learned how to swim.

Denham of NLRB

President Truman's appointment of Robert N. Denham as general counsel of the National Labor Relations Board should prove to be a wise one.

Denham has had a varied career which he began as a machinist's apprentice in St. Louis, going on to study law. His career was interrupted by service in the first World War, after which he began working for a Wall Street firm as a trouble shooter. With a few years in the financial district behind him he went to Washington to do legal work in the field of finance, and eventually was persuaded to go to work for the NLRB as a trial examiner.

He is liberal in his ideas, and has believed for years that responsibilities went with the privileges granted to unions by the Wagner Act. He says the Taft-Hartley law "does nothing more than respect the ordinary tenets of human relationships." He says also that he is "just naive enough to feel that labor leaders are honest men, and will play decently."

With such a man as counsel in disputes about the labor law, decisions should be fair to everyone concerned, and labor peace be easier of attainment.

Turkeys

They have been holding a national turkey convention in northern Ohio—"Turkey Federation" they called it—and the reports are rather overwhelming. Local reporters told casually of turkeys the size of ostriches, and it seemed to be generally accepted that if the supplies of pork and beef failed, the turks would be fully equal to the meat demands.

It really wouldn't be right, however, to develop turkeys of such size, explains a conscientious turkey-raiser, because they might go around swallowing all the other poultry in sight, so that there wouldn't be any chickens and ducks and geese to eat, and the poultry lovers' diet would be somewhat restricted in non-turkey brackets, and that would never do. Such considerations, of course, must be respected. But look out for turkey steaks this autumn.

Daring Young Man

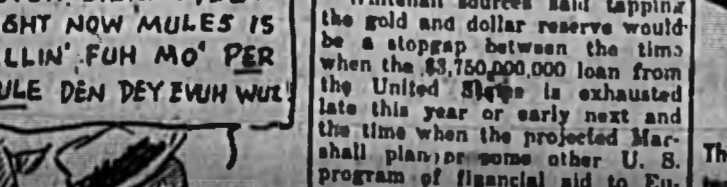

Nobody thinks you're smart, young fellow, when you go whizzing around the corner at 60 m.p.h. an hour.

Nobody marvels at your exceptional skill at keeping her right side up when you smear black rubber on the pavement while the tires scream the warning, "Look out! Here comes a jackass."

Of course, people look up from what they are doing and crane their necks at you as you go whizzing by, but that look of awe you see on their faces isn't open-mouthed admiration for your daring, your hell-bent super ability

HAMBONE'S MEDITATIONS

FOLKS SAYIN' MACHINES GWINE PUT DE MULE OUTER BIZNESS, BUT RIGHT NOW MULES IS SELLIN' FUR MO' PER MULE DEN DEYEVUH WUR.

What Florida farms are worth to Floridians was disclosed the other day in a report from the Florida Vegetable Committee which said that Florida farms combined have a total value of \$515,000,000, or over half a billion, and that less than 30 years ago such farms were worth only \$42,000,000. Celery is still one of the two or three big money crops and in 1946 this state produced more than 60 percent of all the Spring and Winter celery grown in the United States. Citrus, of course, is big business in Florida, so are tourists and their entertainment, but the production of Winter vegetables need take no back seat to any of them.

CAN HE STOP IT?

SANFORD FORUM

Editor, Sanford Herald. Dear Sir: In your July 25 issue, Mrs. Lucia Chappell Lovell mentions the trough system of irrigation used by early growers of Celery in this section.

Dr. L. W. Moore, a Methodist minister, father of the late T. V. Moore of Miami, was the originator, about 1896.

For an experiment he laid wooden troughs in the ditches on each side of Sanford Avenue between Second and First Streets, and diverted the overflow from artesian wells through these troughs.

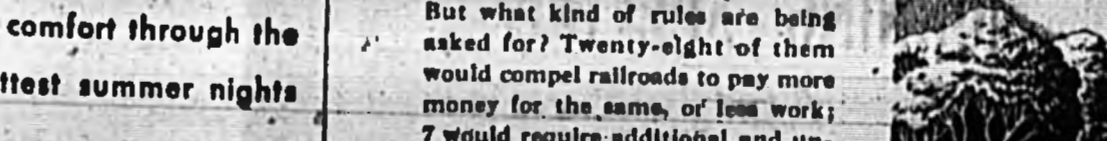

Sanford Avenue was paved with shell at that time and water seeping through cracks kept the street moist, thus proving Dr. Moore's theory.

From this beginning we now have the underground tile system. Sincerely yours, Mary Leffler Strong

United Nations delegates and staff consume between 20,000 and 25,000 meals daily at their Long Island headquarters.

Is your bedroom hot as blazes?

The new Carrier Room Air Conditioners let you sleep in cool comfort through the hottest summer nights

These new units will sweep sweltering summer from bedrooms and wait in air itself as an April morning. There's a Carrier Room Air Conditioner for every room and office. It filters out dust, cools and dries the air... circulates it without draft... blows away stale air. Three smart models. Quiet... easily installed, backed by Carrier, creator of air conditioning. See them here today.

British Plans

(Continued from Page One) Labor government concerning reduction of the armed forces, these informants said.

Whitehall sources said tapping the gold and dollar reserve would be a stopgap between the time when the \$3,750,000,000 loan from the United States is exhausted late this year or early next and the time when the projected Marshall plan, or some other U. S. program of financial aid to Europe, becomes operative. (Congress adjourned until January, would have to approve and appropriate any conditional billions for Europe.)

A wave of selling dropped some British securities as much as \$4 yesterday on the London stock exchange. The financial Times attributed the bearishness to "disquiet over the economic situation with possible political repercussions."

The possibility that Prime Minister Attlee's government might call a new general election was considered seriously in financial and political circles. The Labor Party's Daily Herald said talk of a possible coalition government was "fantastic."

More Money For Less Work

But what kind of rules are being asked for? Twenty-eight of them would compel railroads to pay more money for the same, or less work; 7 would require additional and unnecessary men to do the same work; the rest would bring about changes in operating practices at increased cost.

For Instance:

The Union leaders demand additional train and engine crews on Diesel-powered trains—one full crew for every power unit in the locomotive. A freight train hauled by a 4-unit Diesel would have to carry 4 engineers, 4 firemen, 4 conductors, and at least 8 brakemen, or a total of 20 men instead of 6.

"Made Work"—Sheer Waste

The Union leaders demand that full-length freight trains be cut to about half their length, even though such trains are most efficient for low-cost service to you. This rule would call for twice as many locomotives, would double the number of trains, and make accidents more likely.

Additional equipment, yards, and other facilities required to take care of these short trains would cost hundreds of millions. What the Union leaders really want is to make more jobs.

The Union leaders demand that when a crew in one class of service perform incidental service of another class, they will be paid not less than a day's pay for each class, even though all service

Glades Park May Become New Home Of Rare Flamingos

MIAMI, July 29, (FNS)—The Everglades National Park area may again be the home of the flamingo, the exotic pink bird native to the southeast coast before white men came to Florida. The authority for this statement is Joe W. Morrow, superintendent of grounds at Hialeah Race Course, and in charge of the track's flamingo flock.

Repopulating of the new national park with flamingos will call for all the breeding knowledge Morrow has acquired through 17 years of trial and error. When the birds were first imported from Cuba to Hialeah, they showed a discouraging disinterest in mating. Then in 1937 came the ornithologist's delight—the first flamingo egg laid in captivity. About a year later, Smithsonian Institute photographic equipment, a young bird was hatched July 5. But nobody—no even the mother, apparently—knew anything about the care and feeding of baby flamingos. The bird lived only 14 days.

Morrow set about improving the nesting place of the flamingos in shallow water and are flooded by heavy rains or dried up by drought. Morrow built a small reservoir on the south island of the infield lake with running water to keep the level of the pond constant. As a result a high of 73 flamingos was hatched in 1944.

In a single year the female flamingo lays only one egg—chalk white in color, longer than a hen egg, but smaller in circumference. Bird lovers used to feel sorry for the old girl straddling the nest during the incubation period because of her non-colonial legs. Observation at Hialeah, however, confirmed Dr. Frank Chapman's findings in the Bahamas—flamingo colony that she is capable of folding her legs underneath for 30 days of nesting. Besides, papa is well trained and relieves her on the nest at intervals.

What finally comes out of the egg does not look much like a flamingo. It has a straight bill and feet longer than its legs. The distinctive pink shade does not appear in the bird for six months. It is a lazy youngster and lets the mother feed it regurgitated food until it is full grown.

Thousands of sightseers visit Hialeah every Spring for the nesting and hatching of flamingos.

Camp Winona Cabin 1 came in first place in the pajama party for the week. All agreed that the boys of cabin 1 sure looked handsome in their pajamas.

As the different cabins filled with packed up beds and suitcases, the boys had heavy hearts for each knew they would not see back until another year. Knowing they would be missing being awakened by the bugle and hearing the echo of "Ole Dixie wow-wow" until next summer.

Herman E. Morris has actually directed a super camping period this year. The two weeks has been crammed full of activities. Seminole County boys are fortunate to have this opportunity of a summer camp under a supervised program and within the price range of the average boy.

Camp broke Saturday noon with the hearty hope that boys' plans would be so good they could attend camp again next summer.

Dr. Charles L. Persons, Optometrist, Sanford Atlantic Bk. Bldg. Hours: 9-12-3 Phone 296 Sat. 9-12 Eyes Examined - Glasses Fitted

44 ways To get "Something for Nothing"

The railroads have received 44 "rules" demands from the leaders of the operating unions... representing engineers, firemen, conductors, trainmen and switchmen. They say they are seeking only changes in working conditions—NOT a wage increase.

More Money For Less Work But what kind of rules are being asked for? Twenty-eight of them would compel railroads to pay more money for the same, or less work; 7 would require additional and unnecessary men to do the same work; the rest would bring about changes in operating practices at increased cost.

For Instance: The Union leaders demand additional train and engine crews on Diesel-powered trains—one full crew for every power unit in the locomotive. A freight train hauled by a 4-unit Diesel would have to carry 4 engineers, 4 firemen, 4 conductors, and at least 8 brakemen, or a total of 20 men instead of 6.

"Made Work"—Sheer Waste The Union leaders demand that full-length freight trains be cut to about half their length, even though such trains are most efficient for low-cost service to you. This rule would call for twice as many locomotives, would double the number of trains, and make accidents more likely.

Additional equipment, yards, and other facilities required to take care of these short trains would cost hundreds of millions. What the Union leaders really want is to make more jobs.

The Union leaders demand that when a crew in one class of service perform incidental service of another class, they will be paid not less than a day's pay for each class, even though all service

is performed as a part of the same day's work. The crew would get at least two days' pay for one day's work. The Union leaders demand that the present basic day for passenger con-

ductors and trainmen be reduced from 150 to 100 miles, which would have the effect of increasing their pay 50%. Such a run often takes only two or three hours! You Can't Afford This Waste Demands like these are against the interests of the whole American people, who depend on railroad service for nearly everything they eat, wear and use. These rules would cost a BILLION DOLLARS annually—a gigantic waste which neither the railroads nor the country can afford. Railroad workers are good citizens and good employees, with pride in their calling. Their record during the war was outstanding. We do not believe they fully understand the "featherbed" rules which the Union leaders are demanding. We do not believe they understand the harmful results which these rules would have to the railroad industry, to the millions of men and women dependent on railroads for their livelihood, and to the shipping and consuming public. The great strength of America is in production—an honest day's work for an honest day's pay. For only through greater production can we hope to stop the steady upward surge of living costs. Surely, if ever there was a time in our history when we needed to work not waste, this is it.

SOUTHEASTERN RAILROADS We are publishing this and other advertisements to talk with you at first hand about matters which are important to everybody.

**WEDNESDAY**  
The Truthseekers Class of the First Methodist Church will hold an all day picnic at the home of Mrs. J. H. Cowan in Lake Mary.

**BIRTH ANNOUNCEMENT**  
Mr. and Mrs. Ben Young announce the birth of a son, Joel Benson, on July 27, in Fernald-Laughton Memorial Hospital. Mrs. Young is the former Doris Dunn.

Mr. and Mrs. J. E. Courter, Jr. announced today the birth of a son, James Marshall, on July 25 at the Fernald Laughton Memorial Hospital. Mrs. Courter will be remembered as the former Dorothy Marshall.

**Hints To Housewives**  
Weekly from Home Demonstration Specialist, Tallahassee

**VACUUM CARE**  
Vacuum bottles and jugs, now used so widely by picnickers and travelers for carrying cold and hot foods, need special care if they are to last and keep food in best condition. Household equipment specialists of the U. S. Department of Agriculture offer the following advice:  
Ordinary dish-washing will not do for these containers because they cannot be immersed in water without injuring the insulation on the outside. Clean by rinsing and shaking, with the help of a soft bottle brush if necessary. Before a new bottle is used, rinse with lukewarm water before cold food goes in, chill the bottle with cold water, and before putting in hot food, heat with hot water.

After a bottle has held food, first rinse with lukewarm water, then fill with clean warm soapy water and shake up for soak for an hour or so. Any traces of food may be removed with a bottle brush. Finally, rinse with clear lukewarm water and then with water containing a little chlorine. Turn upside down to drain, dry and air. Scrub corks and screw top with soapy water, then rinse and dry.

When containers are not in use, leave them open. Fresh air keeps bottles and corks fresh. If they are closed, mold or stale odors may develop.

Sudden changes of temperature may crack the glass in glass-lined bottles. Before filling such a bottle with hot liquid, warm it gradually by rinsing first in lukewarm and then in warmer water. Before filling with a cold liquid, chill gradually by cooler and cooler rinses. It is safe to pour in very cold, pasteurized milk in vacuum containers, and to have the bottle well chilled before putting it in. At a warm temperature milk spoils rapidly. If cocoa or soup made with meat stock is carried, bring it to a boil, and pour it in very hot, having the bottle well heated in advance. These foods should not be kept in the bottle more than an hour or two before using.

**Miss Chapman Heads Youth Fellowship**  
Miss Barbara Chapman is the president of the Youth Fellowship of the First Methodist Church which will take part in the youth week to be held at the church under the direction of the "Youth Caravan." The "Caravan" will arrive on Saturday afternoon from Appopka and is made up of Miss Clio Metcalfe of Bartow and Orlando who serves as counselor of the team.

Other members of the team are Miss Naomi Rupert, Iola, Kas, who is a graduate of Pettsburg State College at Pettsburg, Kas. where she was president of the Wesleyan Foundation, vice president of her social society, secretary of the Kansas Methodist student movement, treasurer of Kappa Phi, Methodist girls' club, and active in YWCA work.

Miss Nelle Rose Beck of Myrtlewood, Ala. is a sophomore at Huntington College in Montgomery, Ala. and is planning to be a director of religious education also. She is at present vice president of the Methodist Club on the campus at Huntington. Another member of the team, Porter Anderson, Jr., of Donelson, Tenn. was born and lived until 1940 in Korea where his parents are Methodist missionaries. In the fall of 1946 he returned to Duke University after three years in the Navy.

Miss Iris Flowers who is serving as registration chairman stated today that registrations are desired but not necessary and said that those who want to make registrations are asked to call 607-M. Other local members of the Youth Fellowship include Joanne Williams, Barbara Ann Edelfield, Al Brock, Pete Brock, Joynie Mae Jones and Edward McKinley.

**Jewelry Fashions Create Excitement**  
By BETTY PROSSER  
CHICAGO, July 29 (AP)—The well-jeweled woman of the coming season will look like a lady—with capital letters.

Daintiness, even quaintness, will be emphasized in her jewelry, but the emphasis won't be subtle. Opulence is the keynote and it complements the Fall fashion in its femininity.

At a fashion show last night sponsored by the jewelry industry council in connection with the convention of the National Association of Credit Jewellers the attention-getting creations were big, bright, and brilliant.

But they had the air of the gentlewoman about them, whether they were 88 carat brooches or the joys of the career girl, tailored costume jewelry set.

The "antique look" will be important this season and—from the fashion expert's comments—it would seem preferably that mid-century jewelry be brand new pieces made to look like the antiques rather than the real article.

Enameled jewelry, to demurely suggest the baubles of grandmother's time, is extremely fashionable, as are ropes of pearls, pearls in choker fashion, or several strands of pearls treated as beads. Colored beads and jade have their enthusiasts, as do semi-precious stones.

Top item of the fashion showing was a pair of blue-white pear shaped diamond clips weighing 75 carats and valued at \$10,000.

Other jewelry ensembles included a diamond brooch, earrings and a square cut emerald ring worn with a black moire dinner dress; a 55 carat emerald and diamond bracelet and emerald and diamond clip and a 13 and a half carat emerald ring, and an antique diamond flower spray once presented by Napoleon to the Empress Josephine.

## Personals

Miss Frances Mahoney is spending a week at Daytona Beach with relatives.

Mrs. Edward Kircher and son have returned from spending some time at New Smyrna Beach.

Mr. and Mrs. Cauthen Hutchison and daughter Penny are spending some time in the New England states.

Mr. and Mrs. Earl Broome, Miss Jackie Brochie and Jimmy Ingley spent last Sunday at Daytona Beach.

Mr. and Mrs. C. K. Carter and son Buddy have returned to Sanford after spending two weeks in the Carolinas.

Mr. and Mrs. C. W. Appleby of Deals were the weekend guests of Mrs. Appleby's parents, Mr. and Mrs. L. T. Stringer.

Mr. and Mrs. D. L. Thrasher plan to leave on Sunday to spend several weeks in New Rochelle, N. Y. visiting F. D. Gaines.

Mr. and Mrs. M. F. Nelson have returned to their home at 601 Palmetto Avenue after spending a three month's vacation at Daytona Beach.

Mr. and Mrs. Edward Smith have returned from a three weeks' vacation spent in Louisville, Ky., the Great Smoky Mountains and Atlanta, Ga.

Mr. and Mrs. M. J. Lodge returned on Sunday by plane after visiting for a week in Savannah, N. Y., Niagara Falls, Watkins Glen and Syracuse.

Mr. and Mrs. John L. Sauls have as their guest Mr. Sauls' sister, Miss Dorothy Sauls, of Charleston, S. C. She arrived Sunday to spend a week in Sanford.

Mr. and Mrs. Andrew Mahoney had as their guests on Sunday, Mr. and Mrs. Charles Ryan and son, Charles, Jr., of Palatka, and Miss Florence Eddie of Louisville, Ky.

Mr. and Mrs. Martin Stinecpher and daughter, Grace Marie, are spending a month at New Smyrna Beach. They have as their guests for the next two weeks, Mr. and Mrs. Roy Blackburn and children of Maryville, Tenn.

Mr. and Mrs. J. F. Stinecpher and family of Chattanooga, Tenn. have been the guests of Mr. and Mrs. Martin Stinecpher and daughter, Grace Marie, at New Smyrna Beach.

J. W. Renshaw, Jr. of Atlanta, Ga. was the guest last week of Miss Mary Edna Landress at the home of her parents, Mr. and Mrs. O. D. Landress, Sr. Kelly Massey, also of Atlanta, spent the weekend with them and returned home with Mr. Renshaw.

Mr. and Mrs. James Rowland and Dr. and Mrs. L. T. Doss have returned to Sanford after attending the Elk's convention in Portland, Ore. This convention was attended by 27,000 Elks and they were entertained by lodges in Vancouver, Wash., Salt Lake City, Utah and Denver, Colo.

## Planes Carry Odd Assortment Of Cargo

By CYNTHIA LOWRY  
AP Newsfeatures Writer

Carrying oddly assorted cargo seems to be an air-age specialty. For instance, British Overseas Airways carried a sample bottle of rye whiskey to the homegrounds of Scotch whisky; TWA whisked 75 birds from Egypt to Ontario and Pan-American stuffed five small planes inside a big DC-4.

A number of Stockholm residents have discovered they can get quick dry-cleaning service by patronizing—by plane—New York City stores. During a temporary bread shortage in New York last winter, a number of travelers returning from wheat-short and bread-rationed France carried long sticks of baked goods under their arms.

One airline sent a cargo of rainbow trout eggs to the Palestine Purchasing Commission for use in restocking the River Jordan and also forwarded an assorted selection of hatching eggs to pretty up the pools of the royal palace at Alexandria.

Emperor Haile Selassie received an air shipment consisting of a jewel-encrusted saddle for his favorite horse; and a number of crocodiles traveled as air cargo from Cairo to a zoo in California.

While plenty of sensible articles do some plane traveling, some sound rather odd: a single brassiere to Bangalore, two bottles of Milwaukee beer to Ceylon, an un-LEVIN to India.

A thoroughbred Brazilian favorite, Endeavor, was flown to New York for some Belmont racing this season; 10,000 earthworms were hurriedly shipped through the clouds to Panama to relieve a threatened earth-worm famine facing three New York-bound duck-billed platypuses.

Plenty of flowers are flown from stem to market, but an outstanding bit of horticultural flying was a chestnut tree from Paris' Champs Elysees to Los Angeles. A grapefruit tree was carried by air from the southwest to Saudi Arabia where agriculturists wanted to experiment with its production possibilities.

Cocktail at a publisher's party were cooled by 6-million year-old ice, chipped on order from an Alaskan glacier and flown in a cooler to Manhattan. But at about the same time, another plane was winging its way across India

**NEW developments in the mysterious disappearance of heiress Ann Straw, 20, of Holderness, N. H., lead to the belief that she may have been kidnaped. It is reported that an unnamed government official stated a ransom note has been received by the girl's father, banker H. Ellis Straw. (International)**

Use of enameled and wooden utensils is recommended for making soap at home. Lye cuts through aluminum.

In peacetime, beeswax is used in making ointments, cold creams and nail polishers; it is also employed for wood finishing and candle making.

When your fireplace is not in use, it can be dressed up with branches of evergreens and several giant-sized pine-cones laid in the center of the hearth.

Other jewelry ensembles included a diamond brooch, earrings and a square cut emerald ring worn with a black moire dinner dress; a 55 carat emerald and diamond bracelet and emerald and diamond clip and a 13 and a half carat emerald ring, and an antique diamond flower spray once presented by Napoleon to the Empress Josephine.

# Palatka Azaleas To Appear Here Tonight For Contest

### Toncoff Doubled To Send Buck Across To Win 13 Inning Game Last Night

PALATKA, July 29 (Special)—Manager Johnny Toncoff swatted a two ply poke from the right-handed slants of Buddy Lake in the bottom half of the 13th frame to drive Shaw Buck home with the winning rally in a 2 to 1 hurler's duel.

Al McGahagin and Lake tangled in the nip and tuck affair in which no runs were scored after the second frame until the 13th.

Tonight the Feds entertain the Azaleas at the Municipal Park in a single contest and it is likely that Manager John Krider will call on Carl Kettles to handle the hillock assignment.

Tomorrow the Feds motor to Leesburg to play the Pirates.

### COMMENTS from the SIDELINES

By ARTHUR BECKWITH, JR.

**New Skipper**  
What does he know about baseball?

It so happens that he is a former Major Leaguer.

That is the history of John Krider, the new Fed Skipper, in a nutshell.

John started baseball back in 1926, when he was a youngster 18 years of age. In 1928 he was signed by the Chicago White Sox with whom he pitched for one month before the season closed, and played in the Fall city series between the Cubs and Sox.

In 1927 he went to Spring training with the White Sox and was touted as "the Boy Wonder" by Ray Shaw and Ed Walsh. After Spring training he was sent to Jackson, Miss. in the Cotton States League. Later in the same year he was farmed to Rocky Mount, N. C. After getting off to a good start he hurt his arm and was forced to stay out of baseball for nearly a year.

1928 brought new life to Krider. He won ten games in a row for Rocky Mount. After the good showing with Rocky Mount he was purchased by the Brooklyn Dodgers and farmed to Macon in 1929, for whom he won 13 games.

Krider was recalled to Brooklyn during the Spring of 1930, but was later returned to Macon where he won 16 games and aided the Peaches to win the pennant.

The Dodgers still liked Krider's work so they brought him back for another tour of duty in the big show. Late in 1931, after a few months with Brooklyn, he was sent to Hartford, Conn., in the Eastern League where he led all organized baseball leagues with his impressive won-loss record of 18-2. Included in the 18 victories in 1931 were 11 shutout ball games.

The jovial Fed boss again found himself in a Brooklyn uniform in 1932, and after two months was farmed to Jersey City in the International League.

Jersey City traded John to Nashville in 1933 for Lonnie Frey and in 1934 he was bought by the Philadelphia Phillies.

After toasting several games for the Phillies he was hit with a batted ball in a contest between the Phillies and the New York Giants, and over a month. The Phillies sent him to Baltimore of the International League, then to Hazelton.

Krider started the 1935 season with Hazelton, and was later sent back to Wilkes Barre.

Johnny could not take Spring training in 1936 because of an arm injury, so he came to Sanford to get some sun treatments for his arm. He pitched a while for Sanford in 1936 and returned to Scranton to complete the season, winning 16 games. He won 2 games in the Shaughnessy playoffs for Scranton.

He decided to give up baseball and return to Sanford to make his home in 1937 and Johnny has been here ever since.

### BILLY KINARD SCORES TRIUMPH IN ORLANDO RING

ORLANDO, July 29 (Special)—Billy Kinard scored another knockout victory last night in the Legion arena as he belted Dave Stewart of Spartanburg, S. C., with everything but the water bucket to chalk up a second round victory.

Shortly after the second round opened Kinard pounded Stewart with a crushing left hook, and on August 1st, it was stated.

the rebound Billy finished off the South Carolinian with a vicious right to the mid-section.

Chuck Aleno Slated To Return To DeLand

DELAND July 29 (Special)—The sagging DeLand Red Hats expect to get a shot in the arm tonight when Charles (Cock) Aleno returns to resume his position at third base. It was announced by DeLand club officials yesterday.

Aleno was scheduled to leave Atlanta yesterday and should be here in time to play against St. Augustine tonight, it was stated.

### CALUMET FARM IS CHALLENGED TO FACE ARMED

CHICAGO, July 29 (AP)—The King Ranch handlers of Assault today weighed a challenge to face Calumet Farms Armed in a winner-take-all match race for \$100,000 during the current Washington Park meeting.

The bid made by the Washington Park Jockey Club yesterday for the long-awaited showdown between the two great thoroughbreds became a challenge affair when owner Warren Wright promptly said his "Armed" was ready and willing for a crack at the 1946 triple crown winner.

That put Assault on the spot, but trainer Max Hirsch of King Ranch said he wanted to make sure his horse was in condition for the proposed match at a mile and a quarter with each runner carrying 126 pounds.

Hirsch said that if upon his return east he finds Assault full of run he will recommend that owner Robert J. Kieberg accept the match.

The distance would be the same as the Kentucky Derby which Assault won last year on his way to copping racing's triple crown in the three-year-old realm.

Assault this year won five consecutive stakes in New York and Maryland before finishing third to Styrim and Natchez in Empire City's \$100,000 Gold Cup Race.

Armed established a mark of 1:49 1/5 for a mile and an eighth in the \$50,000 Stars and Stripes handicap. In his latest start, he climaxed his Arlington Park campaign by winning the \$50,000 Arlington Handicap.

Tris Speaker played a few games at first base for Washington in 1927.

### Errors Decide Tilt Between Saints, Hats

Three costly errors by Ted Madjeski allowed the St. Augustine Saints to score an 8 to 3 victory over the DeLand Red Hats. Yago Aleno allowed the Saints six scattered singles in the top.

The Gainesville G-Men lashed out a 12 hit attack on Ed Davis of Orlando to take a 5 to 0 decision over the Senators.

The Leesburg Pirates and the Daytona Beach Islets tilt was washed away.

Line scores:  
DeLand 000 300 000 3 7 4  
St. Augustine 201 310 102 8 6 0  
Aleno and Madjeski; Hallman, Heiner and Stillwell.

Gainesville 200 001 101 5 12 1  
Orlando 000 011 001 3 8 5  
Coker, Biles and Dulaney; Davis and Abreu.

**Merchants in Poland Are Closing Stores**

**LODZ, POLAND** — Many merchants in this great Polish textile center are closing their shops and "giving up trade on quite a large scale," says the newspaper Dziennik Lodzi.  
It added: "Lodz official circles find this fact alarming and reflecting unfavorably on economic life."  
A special government commission has ordered that a special permit must be obtained before any business can cease operating. Officials said they didn't know why shops were closing.  
In Lodz, as elsewhere in Poland, shopkeepers display a bare minimum of goods they have to sell but keep most of it stored away from public view.

**FORMER Congressman Andrew J. May** of Kentucky leaves Federal Court in Washington after he was sentenced, along with Henry and Murray Garrison, on charges of bribery and conspiracy to defraud the government. The wartime chairman of the House Military Affairs Committee and the Garrisons will appeal the sentence of eight months to two years imprisonment. (International Soundphoto)

**Coastal Guns Fire One Time in 20 Years**

**AP Newsfeatures**  
**FONTANA, Calif.**—Fired but once in their 20-year duty guarding California's coast, two huge 14-inch railway coastal defense guns have been scrapped.  
The two 375-ton monsters roared just once. That was in 1942, and in practice. They never fired again because the concussion from their blast damaged too many buildings and windows over a wide area.  
They were mounted as harbor defense weapons at Fort Meade, Arthur, in southern California, after being brought from Massachusetts 20 years ago over a special route on which bridges and culverts had to be reinforced all the way. Now, their muted duty ended, they have been cut up for scrap to feed the furnaces at the Kaiser Steel mill here.  
Making scrap of the big rifles wasn't much less of a job than bringing them west.  
To prepare them for shipping in railway gondola cars, they had to be cut up. Cutting took one man eight hours to make just one slice through the 60-foot barrels. During the process, eight tanks of oxygen went into the heat torch every 15 minutes.  
Their new non-martial role will be that of steel plate, sheet and strip for western industry—a literal beating of swords into plowshares.

**268,626 Vets Have Exhausted Benefits**

**AP Newsfeatures**  
**WASHINGTON**—The Veterans Administration says one way to get an out of the new "get rich quick" chain letter, Emerson declared that the theory is "in violation of the lottery fraud law and persons participating are subject to prosecution and loss of mail privileges."  
When an individual turkey is targeted to indicate its U. S. grade, the grade tag also must state the age, that is, whether the bird is young or old.  
Hawaiian veterans of Japanese descent are so proud and patriotic they have declined to accept benefits to which they are entitled.  
A VA survey showed that in the United States, southern veterans in general were leading the allowance-exhaustion rate.  
Hawaii boasted the only clean record of no exhaustions, although 2,900 of her 28,000 war veterans have drawn some unemployment payments. One official said many

**ILLEGAL CLAIM LETTER**

**MIAMI, Fla., July 28, (AP)**—Postmaster Hugh Emerson reported today that new chain letter found going through the mails is illegal. Although only money is sent under the new "get rich quick" chain letter, Emerson declared that the theory is "in violation of the lottery fraud law and persons participating are subject to prosecution and loss of mail privileges."

China Objects To Foreign Assistance

NANKING, July 22, (AP)—Representatives of the Democratic League told Lieut. General Albert C. Wedemeyer today that the Chinese people are bitterly opposed to any foreign assistance which would likely prolong the civil war "whether it comes from the United States or the Soviets." Lo Lung-Chi, league spokesman, told newsmen after a conference with Wedemeyer's American fact-finding mission that he was convinced the investigation was impartial "but we are more interested in what happens after they return to Shanghai," the Daily Chen Yuen Pao editorially accused the United States, through the medium of the Wedemeyer fact-finding mission, of "interference in China's domestic politics." The newspaper, reportedly owned by a dissident member of the Kuomintang (government party), said: "To fact find is hardly a complication. It is not glorious that one state should investigate another that is on an equal footing."

Kaiser's Claim

(Continued from Page One) "hell have you been doing?" Kaiser continued. Kaiser said the letter to President Roosevelt caused top Navy officials to "reverse" themselves. "I got an order for 100 air carriers," he said. "All hell broke loose. They did not want aircraft carriers. They wanted destroyers. I told them 'I could not build destroyers. Finally they cancelled orders for 50.'" The baby aircraft carriers have been credited by the Navy with playing a major part in the winning of the war. Kaiser swung into the story of them as Ferguson pressed a line of questions aimed at uncovering whether Mr. Roosevelt had a hand in award of the plane contracts to Kaiser and Hughes. Under this question, Kaiser said it would appear that the President "left a note" (presumably to Navy officials) about the carriers. But he said he knew of no such note about the "flying boat" airplanes. Kaiser told the committee that he conceived the idea for a 200-ton cargo plane in the Spring of 1942. He said he discussed it with planebuilder Donald Douglas and Douglas was "tremendously enthusiastic."

Fishing Rules

(Continued from Page One) fishermen have been using seines in the two big fresh water areas since May when the legislature passed special acts designed to reopen them. Both the big lake and the St. Johns have been areas of dispute between sports and commercial fishermen for years. The legislature has designated them as salt water in attempts to remove them from jurisdiction of the Game Commission, which has constitutional power to regulate fresh water fishing. Circuit Judge Hugh M. Taylor of Quincy ruled last week that three acts of the 1947 legislature attempting to place the two areas under the State Conservation Commission, which regulates the salt water seafood industry, were unconstitutional. Earlier, Circuit Judge W. H. Harrison handed down a decision at Arcadia declaring unconstitutional a 1947 act exempting St. Johns and Okeechobee fishermen from punishment for violating game board rulings. Honey is used as a sweetening agent by bakers and confectioners because it imparts flavor and helps preserve foodstuffs.

NEW HEARING AID DEVELOPMENT TO BE DEMONSTRATED FOR FIRST TIME

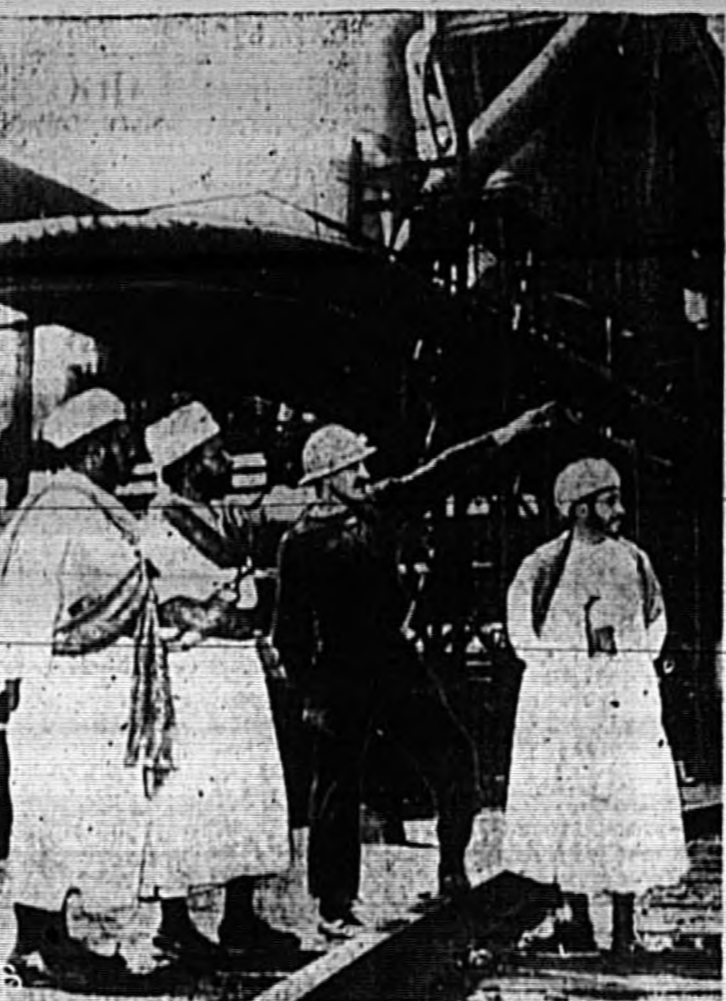

A new development for the hard of hearing will be demonstrated by Mr. S. C. Maxcy on July 31st from 10 A. M. to 5 P. M. at Mayfair Inn Sanford, Fla. Mr. Maxcy has been specially selected as a world's first and oldest manufacturer of electrical hearing aids. This new hearing instrument presents so many of the very things the hard-of-hearing have long been seeking. It's a tiny instrument, so small it barely covers the palm with its batteries enclosed - making it convenient to carry, it's light, slim and beautiful - making it attractive to wear. It offers an etched clarity of tone that's hard to imagine because it picks up even a whisper yet fades background noises as if smothered by a velvet blanket. The makers of this new development say this new Acousticon hearing aid has gathered favorable comment from users all over the country. These people have written of the unusually clear hearing they've acquired since wearing the new Acousticon. All hard-of-hearing are urged to attend this FREE HEARING CLINIC at Mayfair Inn. Those who find it impossible to come should write to Mr. S. C. Maxcy, 428 So. Osceola St., Orlando, Fla. for complete free information.

HOLDING A FIRM GRIP on his night-stick, a Michigan police officer takes William C. Stacey, Coloma, Mich., into custody following an outbreak of violence at the strike-bound Remington-Rand plant at Benton Harbor. Pictured right, officers turn powerful fire hoses on the milling strikers in an effort to disperse them. State police were ordered to the scene after Michigan's Governor Kim Sigler had been notified by Berrien County officials that a state of "riot and insurrection" existed at the struck plant. (International Soundphoto)

Political Emergency

(Continued from Page One) production, and that in turn is due to low coal production as I pointed out in yesterday's column. The solution of the difficulty depends in large degree on persuading the coal miners, who finally won their five day week, to surrender their cherished prize for a time in the interests of the country and return to the old grind - temporarily, but be sure, still to turn the clock back. That's where the question of leadership enters in, and why British newspapers are suggesting that Foreign Minister Ernest Bevin may succeed Mr. Attlee in event of the latter's resignation. Bevin is credited with being the country's most powerful leader of the Labor masses. He himself came up through union ranks, and he thinks the thoughts and talks the language of the laborer. The union members love him. Bevin is one of Britain's most forceful personalities, and a born leader. He has acute judgment and is a good executive. Foreign sometimes rash in his bluntness, he is a brilliant and careful speaker, capable of dealing either with an audience of workers or a conference of international statesmen. He is a fighter and likes a good scrap. Small wonder then that many of his party should think of him as being the right man to inspire the workers of the country to undertake the production needed to put England on her feet, especially since he is exceedingly strong with the miners. Small wonder, too, that there are many who feel sure he would like to be prime minister, although the question of his loyalty to his present chief doesn't arise. However, Bevin isn't the only fighter among the Labor leaders. Prime Minister Attlee is one of the sturdiest of the lot, and is sure to battle to retain his leadership - unless he becomes satisfied that he has lost the support of the Labor Party. But Attlee has a universal reputation of being a sincere and loyal servant of the state, and few doubt that he would resign if he found that he had lost the confidence of his party. Then he might recommend to the King that Bevin be named prime minister.

STEEL WORKER Steven Glednich plays the role of guide to three picturequely garbed visitors from Arabia as they tour a plant of the Carnegie-Illinois Steel Corporation in Pittsburgh. Pictured are (l. to r.): Al Quadi Mohammed Al Amri; Prince Saif Al Islam Abdullah, of Yemen; Glednich; and Sayed Hassan Ibn Ibrahim. (International)

Counties To Use New Plan To Build Roads

TALLAHASSEE, July 22 (AP)—The State Board of Administration today gave its formal approval to issuance of gasoline tax revenue certificates for financing \$1,225,000 of road and bridge construction in Broward, Suwannee and Highland counties. The certificates will be issued by the State Improvement Commission and will be repaid out of surplus gasoline taxes to the credit of the counties over a period of years. The State Road Department will build and maintain the roads and bridges, and take title to them when the debt is cleared. The financing plan, first of its kind in Florida, was approved by the Supreme Court last week. Bids for the securities will be opened on Aug. 11.

Occupational Tax

(Continued from Page One) time application of M. K. Reome for a lease on the Winn-Lovett dock building on the lakefront will be taken up said Mr. Sayer. The building has been put in good condition by the City, he declared. Action was deferred by the Commission on a proposal by the Silver Fleet Cab Company for increases in rates. They proposed a 25 cent fare within the area bounded on the east by Mellonville Avenue, one on the south by Twentieth Street and on the west by Cedar Avenue, and that all single fares outside that zone in the city be increased to 50 cents. With two or more passengers, the 25 cent rate would prevail. The Commission was informed that three new Chevrolet trucks were ready for delivery by Holler Motor Sales. The trucks to which bodies will be added, are to be used for garbage and trash delivery, said Mr. Sayer. Applications for lease of several buildings at the Municipal Airport were received but action was delayed pending securing by the City of the balance of the Airport property. Two applications for street lights were taken under consideration, said Mr. Sayer. One request was by The Church of God at Fifth Street and Hickory Avenue, the other by The Church of God at Twenty-fifth Street and Elm Avenue.

Indonesian Fight

(Continued from Page One) and half the docks had been destroyed. (A Republican communique issued in the Indonesian capital of Jogjakarta said a Dutch warship bombed Pekalongan, 30 miles east of Tegal, Saturday.) In southern Sumatra, the Dutch army reported, fires engulfed four wells in the Poasopai fields, two of them caused by sabotage and two of them ignited from burning oil. Officials were quoted as saying the fires, on the flank of the fields, were of minor importance. The army said the Republicans had cut off the water supply to Salatiga, and were committing sabotage on telephone communications in the Semarang area. Economically, however, the com-

THIS DRAMATIC PHOTO made in the courtroom at the Overell yacht murder trial at Santa Ana, Calif., shows reconstructed alarm clock time bomb which the prosecution charges set off the fatal blast resulting in the deaths of the parents of Louise Overell. Criminologist Roger Greene is shown using the mechanism to set off a photo flash bulb after defense objection to the experiment had been withdrawn. The time bomb arrangement was built from the evidence shown in ruins of the cabin cruiser on which Mr. and Mrs. Walter Overell died. (International)

Board Begins Work On Aviation Policy

WASHINGTON, July 22 (AP)—President Truman's temporary Air Policy Board today began its studies to assist in formulating a national policy on aviation. A department official said the board began organizing the study ordered by Mr. Truman July 18 to aid the nation in obtaining the "greatest possible benefits from aviation." The job assigned the board is similar to that given the Morrow Board in 1926. The Morrow recommendations laid the basis for American air policy today. Squirrel holes, frequently are found on the east slopes of trees.

LUCKY STRIKE presents THE MAN WHO KNOWS—

Advertisement for Lucky Strike tobacco featuring a man in a hat and glasses, John L. Cummins, who is an independent tobacco auctioneer. The text reads: 'THE TOBACCO AUCTIONEER! "I was born on a tobacco farm and I've sold tobacco at auctions for over 19 years. In all that time I've seen the makers of Lucky Strike buy fine, good-tastin' tobacco... tobacco that's got quality, real quality." John L. Cummins, Independent Tobacco Auctioneer of Ocala, Florida. (22 Years a Lucky Strike Smoker)'. The man is holding a large sack of tobacco.

Advertisement for Lucky Strike cigarettes featuring a woman's face and a pack of cigarettes. The text reads: 'FINE TOBACCO is what counts in a cigarette. JOHN CUMMINS IS RIGHT!... And like him, scores of other experts... who really know tobacco... have seen the makers of Lucky Strike buy "tobacco that's got quality." After all that's what you want in a cigarette... the honest, deep-down enjoyment of fine tobacco. So remember... L.S./M.F.T. LUCKY STRIKE MEANS FINE TOBACCO So Round, So Firm, So Fully Packed—So Free and Easy on the Draw'.

## Attlee Reported As Promising Cut In Foreign Troops

### Laborite Members Of Parliament Give Confidence Vote To Prime Minister

LONDON, July 30 (AP)—A Socialist source said Prime Minister Attlee told Labor legislators today that Britain would slash her military commitments in Germany, Italy and Greece almost immediately because of the nation's looming economic crisis.

Attlee won a "virtual" vote of confidence from Labor members of Parliament after explaining to them the "broad lines" of his plan for meeting the crisis.

The Socialist source, who is connected closely with Labor members of Parliament, said Attlee promised quick and complete troop withdrawals from the Venezia Giulia sector of northeast Italy and from Greece and substantial reductions in the British occupation forces in Germany.

Left Wing Labor Party members have been demanding reductions in the armed forces, which totalled 1,297,300 men July 1.

A well-informed source said Attlee also had decided to ask miners, now on a five-day week in the recently socialized coal pits, to work an extra hour a day to increase production of critically needed coal, the mainstay of the British economic program structure.

After Attlee told the Labor M. P.'s of plans of troop reductions (Continued on Page Two)

## New Restaurant, Barbecue To Begin Serving Tomorrow

The Pic 'n Whistle, Sanford's newest barbecue and luncheon, will open Thursday under the management of Robert Bryan, recent sergeant of the Army Air Corp. It was announced today by J. B. Bryan, 2725 Fifth Street, an who has been here since April, has operated a similar barbecue at Macon, Ga., since 1929.

The one story building of concrete block construction and 50 foot square is located at Park Avenue and Twenty-fifth Street. A large area of lime rock and slag has been smoothly rolled outside of the building to allow plenty of parking space. There are two large neon signs, one on the building, the other near the road way.

The entire front of the building is occupied by the serving counter which is within a windowed room, with windows open for easy service. There is a canopy shelter outside. To the left a door opens to a well lighted dining room with tables and enough steel chairs to seat 48 persons. The floor is inlaid linoleum and there is plenty of window lighting.

Behind the serving counter is a 25 foot square kitchen, also a storage room. Tables and a steam table are of stainless steel finish. There is a large gas range. Two big refrigerators are stored with food and meat. Sink space is ample.

Outside, and near enough to the main highway to what the applicants of passing motorists, is the large brick barbecue oven where beef, pork and ham are rotated by electric power in front of a glowing fire of coals contained in a grate. The entire oven is covered by a shed.

Riley L. Hogan of Winter Park was general contractor for construction of the building which was started on May 20.

## Randall Goff Is In Detroit With "Babe"

Randall Goff, 14 year old son of Mr. and Mrs. O. E. Goff, is now reported to be in Detroit, Mich. on a tour with Babe Ruth, who is on a Ford Motor Company sponsored tour of leading cities to promote American Legion Baseball leagues.

Randall was accompanied by his father on the train to Montgomery, Ala. where the former had his picture taken with Babe Ruth, James P. Chagman, uncle of Randall and Ford public relations official took the father and son to a press conference in regard to the tour, which was held at Alabama, and Babe Ruth, after the Jefferson Davis Hotel.

They met Governor Folsom of being presented with the big key to the city, gave it to Randall and his mother, and Mr. Goff brought it home with him.

## Jews Report Britons Killed In Retaliation

### Underground Reports Slaying Of Hostages After Conviction By "Court"

JERUSALEM, July 30 (AP)—Two British soldiers were killed and three were injured today by an electrically detonated mine near the Hedera railway station. It was officially announced.

By EDWARD CURTIN  
JERUSALEM, July 30 (AP)—Irgun Zvai Leumi issued a "communique" today asserting that two British soldiers were killed and three were injured today July 12 had been hanged in a forest near Natanya in reprisal for the execution of three Irgun members at Acre prison yesterday.

Shortly after the "communique" was issued from Tel Aviv, a police source there reported the bodies of the two soldiers had been found.

Official government sources, however, were not immediately able to confirm that the sergeant, Clifford Martin and Mervin Paice, had been slain.

In issuing its "communique," Irgun Zvai Leumi also disclosed that it had received an appeal for clemency from Paice's father, but said it had been ignored because it should have been directed "to those who refused clemency" to the executed Irgunists.

"We cannot do anything about it," Irgun said the elder Paice had been told.

The underground Jewish organization asserted the Britons, joined at Natanya, were tried by a "military court" and convicted on charges of "illegal entry into Palestine." (Continued on Page Two)

## Arthur Godfrey Extends Sanford More Publicity

Arthur Godfrey, Columbia Broadcasting Program announcer and talent discoverer extraordinary, yesterday morning informed the world on his broadcast that he had extended his itinerary to Sanford, Fla., and proceeded to read The Herald article of July 11 and the headline: "Arthur Godfrey Admits Error Regarding Aiken's Home Town."

He then reminded his listeners of his morning broadcast when he announced Dick Aiken, his Sanford tenor program guest, as from Orlando, and the resulting deluge of protesting telegrams he received from Sanford citizens.

Mr. Godfrey again extended his best regards to Kiwanis President Lester Sharp, one of the telephone callers, declared that Sanford must be a great town, and said that if he ever got "down that way" he would remember to look up Sanford.

Edward Higgins, manager of the Seminole County Chamber of Commerce said he is delighted with all this radio publicity resulting from Dick Aiken winning an Arthur Godfrey contest, and is seeking to get a recording of Godfrey's broadcast yesterday.

## Fate Of Refugees Is Still Unceded

PORT-DE-BOUC, France, July 30 (AP)—Twelve Jews who were put ashore from a convoy arriving here yesterday from Palestine were reported officially to have agreed today to return to the transports if the British should decide to take the 4,500 immigrants to Cyprus.

The Jews, nearly all from Poland, were turned back from Palestine after the British intercepted their vessel, Exodus of 1947. Upon reaching France, from which they sailed July 10, they refused to land.

The British destroyer Cardigan Bay, main escort vessel, put into Marseilles in search of needed food supplies from the French. The sick who were taken ashore were under French military guard in a hospital.

Convoy officers awaited instructions from Paris or London.

## U. S. Protests To Russia For Taking Assets

### Note Requests Information On Removal Of Property From 3 Balkan States

WASHINGTON, July 30 (AP)—The United States has protested to Russia against Soviet removal of former German and Italian assets from the defeated Balkan states, Hungary, Bulgaria and Romania.

Undersecretary of State Robert Lovett told a news conference today that a note had been delivered to Soviet Foreign Minister Molotov in Moscow yesterday asking full information regarding such transfers of property.

Lovett said the State Department took the position in its note that: 1. All removals of property from Russia before the Hungarian, Bulgarian and Romanian peace treaties came into effect are "unlawful and illegal."

2. Austrian assets in these countries can not be seized on the grounds that they are German properties pending allied agreement on a definition of "German assets."

3. Only removals made in accordance with peace treaty provisions can be recognized by the United States as legal.

The note said the United States is concerned because it was one of the signers of the peace treaties with Hungary, Bulgaria and Romania and thus bears responsibility for enforcement of the peace provisions.

In discussing Italian assets in these countries, the note said disposal of such properties is specifically provided for in the peace treaty.

Dispatches from London said the British Government had delivered a similar protest to the Russians yesterday. Lovett told reporters in answer to questions that he does not know the value of the properties involved but assumes it is considerable, otherwise the United States would not be concerned.

## Dominican Rumors Of Invasion Try Are Unconfirmed

MIAMI, Fla., July 30 (AP)—Reports of a revolutionary attempt to overthrow the government of Rafael Trujillo of the Dominican Republic continued to pour into Miami today, and all had one factor in common, none was confirmed.

The rumor was this: An invasion army, purportedly financed and backed by Communist interests, was preparing to invade the Dominican Republic. The army was alleged to have trained in a remote, mountainous region of south-east Cuba.

The fact was this: No one single person, agency or government has yet reported actually seeing the alleged invasion army, its fleet or its aircraft.

Virtually each report had its counter-report. Summarized, the situation boiled down to this: The Puerto Rican youths arrived in Miami from Cuba with the story that they had "escaped" a training camp where men were being recruited and trained into an army to invade the Dominican Republic.

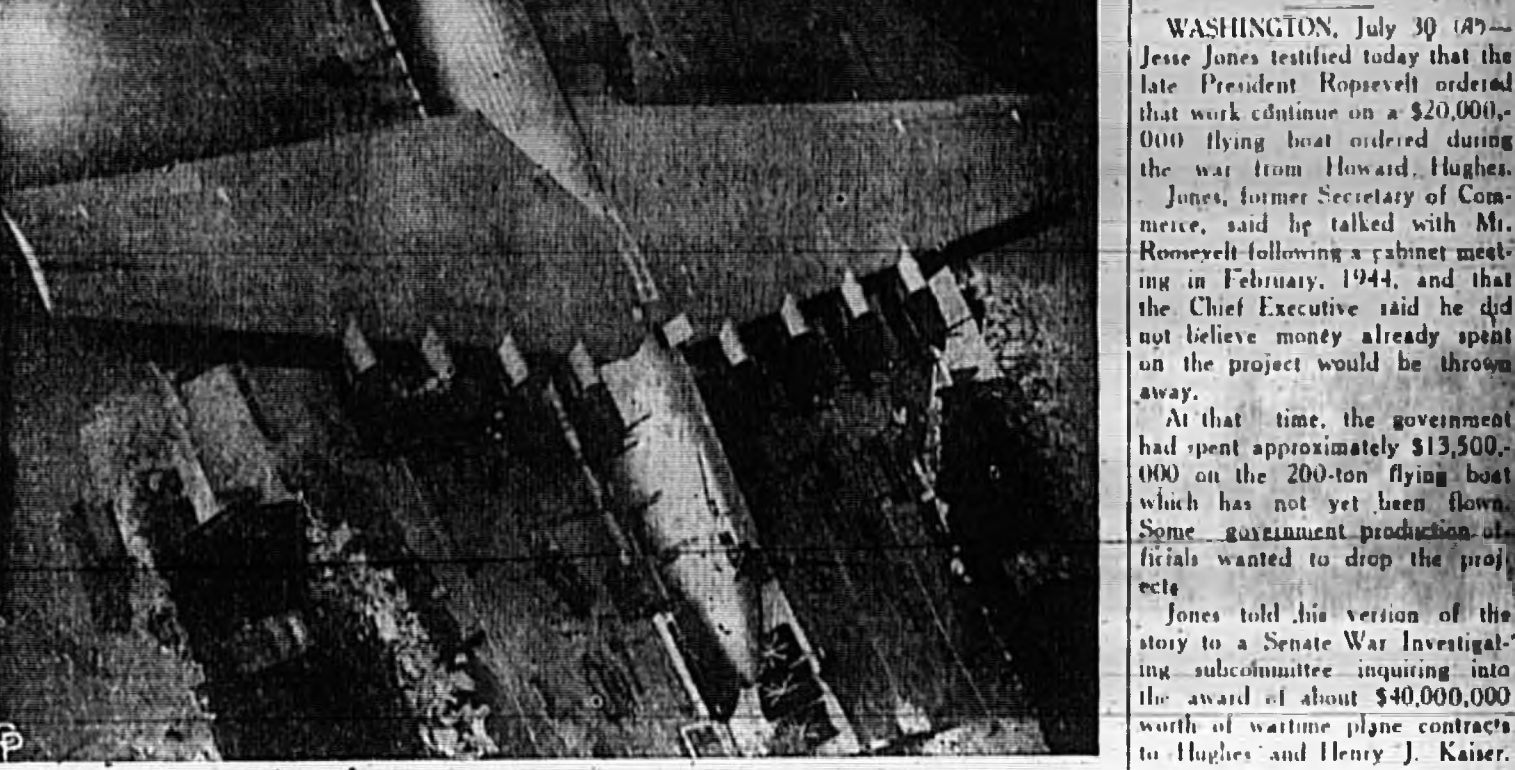

An Associated Press correspondent in San Juan, Puerto Rico, later interviewed the same youths who told of the army—identified as Cesar Anibal Torres and Serafin Rivera—and quoted them as denying they had seen any troops or armament in Cuba.

## Lions Meet Works On World Peace Plan

SAN FRANCISCO, July 30 (AP)—The Lions International convention today worked on a plan to promote world peace through pipelines from town halls in Washington and Lake Success.

## Jones Reveals FDR Wanted Hughes Cargo Plane Built

### Hughes Giant Plane Highlight In Senate Probe

HERE IS AN AERIAL VIEW of the giant plyform flying boat which is being constructed by millwright aircraft builder Howard Hughes in California. The plane is designed to carry 700 soldiers. The Senate War Investigating Committee is probing the \$10,000,000 wartime plane contract awarded Hughes. (International)

## Popularity Of Outboard Racing Is Told Kiwanis

### Joe Swift Is Guest Speaker At Lunch; Meet Here Sept. 1

Growth in popularity of outboard motorboat racing since 1925 was told today to Kiwanis at the Tourist Center by Joe Swift, head of the Orlando Outboard Association, and secretary of Outdoor Florida Federation of Outdoor Clubs. He was introduced by Edward Higgins, who outlined the outboard racing that will take place here on Sept. 1.

John L. Hughes, Stetson University baritone and law student, sang three solos which were well applauded: "I Love Life," "The Desert Song" and "Through the Years." He was accompanied by Mrs. O. Fuquay and, was introduced by J. Martin Stincerpher.

The club went on record as favoring the writing of a letter to Kiwanis International stating that lotteries and door prizes are not favored by the Kiwanis Club as a means of raising funds for the club.

Mr. Swift told the Kiwanians that prior to 1925, all motorboat racing was of the inboard type, but by 1929 the outboard racing proved more popular according to the number of schedules for racing.

Before the war, outboard manufacturers, stimulated by the publicity attending outboard racing, made special racing motors totaling at about \$475 each he said. Since the war they have discontinued this, he said, due to the fact that they cannot build such motors at a decent price. Racers get requisite parts for (Continued on Page Two)

## 2.05 Inches Of Rain Reported Last Night

The heavy downpour that flooded low lying areas throughout this area last evening was officially reported at 2.05 inches by H. P. Whitner, weatherman. No reports of damage to celery seed beds were reported this morning at the office of County Agent C. R. Dawson. Some motor cars were reported to have been stalled in Sanford as water sloshed over the running boards.

July has this year to date totals 44.7 inches as compared with the 42.10 inches recorded through July 1946; the 35.84 inch rains of 1944 and the 33.51 inches through July, 1945. Rainfall in 1946 totaled 64.30 inches as compared to normal rain of 61 inches.

## Big Appropriation Measures Signed By Pres. Truman

### WASHINGTON, July 30 (AP)—President Truman worked rapidly at his desk today to sign legislation passed by Congress in its final days before adjournment, signing many bills including important government appropriation measures.

Mr. Truman took up the task immediately upon his return yesterday from Missouri, where he attended cancer services for his mother, Mrs. Martha Truman.

Bills signed into law by Mr. Truman include: \$5,482,629,633 appropriations for the Army; \$8,112,227,227 appropriations for independent offices, providing funds for a dozen big federal agencies, including the Veterans Administration and the Atomic Energy Commission.

\$1,556,992,197 appropriation bill carrying funds to implement his foreign-aid program. Almost all of the money is for expenditure abroad; the aggregate being \$266,781,620 below the President's budget estimates.

\$414,194,536 appropriations for the Agriculture Department; \$5,000,000 appropriations for a score of miscellaneous government corporations, including the National Housing Agency, the Institute of Inter-American Affairs, and \$18,700,000 for the Tennessee Valley Authority.

One of the main conference topics in how to put to best use the two weeks before school opening now required by law of teachers in order to fill out a 10 month schedule, he said.

Edward Henderson, a graduate of Seminole High School, and one of the State regional education supervisors, has promised to do all he can to aid Seminole County principals in preparing the new schedules. Mr. Lawton declared.

## Principals Attend Meet At Gainesville

Three of Seminole County's school principals; B. C. Steele of the Sanford Grammar School; Mrs. J. C. Mitchell of South Side Primary and Z. J. Laney of the Lyman School, are attending a three day conference of principals in Gainesville at the University of Florida. It was announced today by Supt. F. W. Lawton.

One of the main conference topics in how to put to best use the two weeks before school opening now required by law of teachers in order to fill out a 10 month schedule, he said.

## Russia Announces Veto Intentions On 3 UN Applications

### China Accuses Russia Of Sponsoring 2nd Front In Mongolia

LAKE SUCCESS, July 30 (AP)—Russia served notice today that it would veto Ireland, Portugal and Trans-Jordan again when the United Nations membership applications of those three nations go to a formal vote in the Security Council.

The Council first will come to August and the repeated veto balls would boost the Soviet vote total to 14. Late yesterday the Russians vetoed the American proposal for a Balkan Investigating Commission.

Alexei Kravtchikov, deputy Soviet delegate, laid down Moscow's position after China accused Russia of sponsoring "a second front" against the Chinese government through Outer Mongolia's invasion of Sinkiang.

Kravtchikov also formally moved to block consideration of applications for membership in the United Nations.

At Portland, he said, he had a fine convention, a big parade with floats and L. E. Lewis of California was elected as Grand Exalted ruler, he said.

Bonneville Dam, where 250,000 salmon have ascended the runways this year, proved very interesting, he declared. At San Francisco, they visited Nob Hill and other points of interest while Dr. Duss took advantage of a special pass to visit Alcatraz prison.

At Hollywood they visited the Warner Brothers Studio, saw Humphrey Bogart and other screen stars and visited the Brown Derby restaurant, the NBC studios and the Hollywood bowl. In Arizona they saw the Grand Canyon. All of us were much impressed with the courtesy of the westerners, and we did much to correct the general impression that Florida is a gator and snake infested swamp, said Mr. Rowland.

## Australia Backs U. S. Jap Treaty Meeting

TOKYO, July 30 (AP)—Deputy Prime Minister H. V. Evatt swung Australia behind the United States today in the quest for a speedy 11-nation peace conference on Japan at which the veto power would be eliminated.

## Martin Says Kaiser Could Get Contract When Nobody Else Was Able To Get It

WASHINGTON, July 30 (AP)—Jesse Jones testified today that the late President Roosevelt ordered that work continue on a \$20,000,000 flying boat ordered during the war from Howard Hughes.

Jones, former Secretary of Commerce, said he talked with Mr. Roosevelt following a cabinet meeting in February, 1944, and that the Chief Executive said he did not believe money already spent on the project would be thrown away.

At that time, the government had spent approximately \$13,500,000 on the 200-ton flying boat which has not yet been flown. Some government production officials wanted to drop the project.

Jones told his version of the story to a Senate War Investigating subcommittee inquiring into the award of about \$40,000,000 worth of wartime plane contracts to Hughes and Henry J. Kaiser.

Jones said he had signed the original contract on direct instructions from the War Production Board and without knowing the project was opposed by the Army and Navy.

When Jones told of his conversation with Mr. Roosevelt, Chairman Ferguson (R-Mich.) of the Senate subcommittee asked: "Did the President have anything to do with the making of the contract?"

"Not to my knowledge," Jones said.

Jones read into the record a memorandum, dated Feb. 19, 1946, which he said he dictated for the (Continued on Page Two)

## Local Delegates To Elks Meeting Return From Trip

James Rowland, exalted ruler of the Sanford Lodge of Elks, who returned Saturday with his "Elk" Secretary Dr. L. T. Doss, Mrs. Doss and Mrs. Rowland, after attending the national convention of Elks in Portland, Oregon, had a hard time, he said, explaining to natives of Portland that it was cooler back home in Sanford.

"Portland was much hotter than here," he declared. "It was often 94 or 95, but the nights were cool. He also revealed that the Pullman train with Florida delegation visited San Francisco and Los Angeles and at Hollywood it was 110 in the shade.

The local group left here on July 8 on a trip of 7,765 miles. The Elk train went from Jacksonville to Chicago, to Denver, and to Salt Lake City which impressed Mr. Rowland with its cleanliness and beauty more than any city he visited, he asserted. While there they visited the Mormon Temple and the Snake and heard the great organ, the third largest in the United States.

At Portland, they had a fine convention, a big parade with floats and L. E. Lewis of California was elected as Grand Exalted ruler, he said.

Bonneville Dam, where 250,000 salmon have ascended the runways this year, proved very interesting, he declared. At San Francisco, they visited Nob Hill and other points of interest while Dr. Doss took advantage of a special pass to visit Alcatraz prison.

At Hollywood they visited the Warner Brothers Studio, saw Humphrey Bogart and other screen stars and visited the Brown Derby restaurant, the NBC studios and the Hollywood bowl. In Arizona they saw the Grand Canyon. All of us were much impressed with the courtesy of the westerners, and we did much to correct the general impression that Florida is a gator and snake infested swamp, said Mr. Rowland.

## "Paul Revere" Given Life Imprisonment

BOSTON, July 30 (AP)—Douglas Chandler, 58-year-old former Baltimore writer, today was sentenced to life imprisonment and fined \$10,000 for treason in serving as a Nazi radio mouthpiece during the war.
