

Radioactive Isotopes Are Shipped To 16 Nations From U. S.

WASHINGTON—Sixteen nations now are receiving radioactive isotopes, by-products of the atomic bomb project, from the United States.

This means that thousands of scientists in Europe and other parts of the world have the opportunity to participate in or observe isotope experiments and results. It doesn't mean we are giving these other nations a glimpse of our atomic secrets.

Radioactive isotopes are elements such as iodine, gold, tin and zinc that contain radioactivity. Except for this radioactivity they are identical to regular elements. The radioactivity is produced as a by-product of splitting atoms, or exposing elements to an atomic pile. Making them radioactive is like placing a bell or a highlight on a face on a globe.

He can place these radioactive elements in soil, on plants or in water. They are absorbed by plants that live in the soil. He can still detect them in the body of a cow that has eaten the plant that grew in the soil. He can inject them into an animal body. Then he can detect them as the circulation carries them through the organs of the body.

In fact the possible uses of these isotopes in nearly all branches of science seem almost unlimited. They have opened up a whole new field of study for research scientists. Before the atomic project such radioactive isotopes were produced only at great cost and in minute quantities. Only a very few chosen scientists could work with them. Now the U. S. isotope program produces them in comparatively large quantities and makes them available to thousands more scientists. The isotopes were made available to foreign scientists because the U. S. wanted them led in attempting to solve as many scientific mysteries as rapidly as possible.

Any nation may apply for U. S. radioactive isotopes, and receive them merely by meeting a few simple qualifications. The most important qualification is that the foreign scientist, (as well as American scientists), have the facilities, permission to visit their laboratories. They also are urged to publish the results of their experiments. The purpose of this requirement is to distribute as much information as rapidly as possible among all the world's scientists.

So far more than 200 isotope shipments have gone to Argentina, Australia, Belgium, Canada, Denmark, Italy, The Netherlands, Norway, Peru, Spain, Switzerland, Sweden, Turkey, The Union of South Africa, the United Kingdom and France.

Cuba, Chile, Iceland, India, Ireland and New Zealand have qualified to receive shipments.

Among those nations that have not applied for shipments are Russia and her satellites.

Cancer Clinic

(Continued From Page One) a mole in any area where it can be irritated (by clothing, tight or not), should have it removed by surgery—an it is very dangerous to remove it otherwise.

Moles are among the most malignant of growths, he said. Not all of them need be removed, but if they are irritated they can be very dangerous, he explained. Many people fear bruises may become cancerous, but Dr. Ochsner said they won't.

Admiral Says

(Continued From Page One) manding the maneuvers, and the snorkels would have sunk or seriously defeated our task forces in actual combat. "They have far greater speed under water than old types and the new breather tube makes it possible for them to remain submerged indefinitely," he said.

Submarines and part of the main fleet continued northward today into Davis Strait between Greenland and Labrador while most of the fleet moved to Canada—an ports for shore leave before returning to New York and Little Creek, Va.

THIS WRECKED PLANTATION NEAR YAZOO CITY, MISS., was in the path of "snork" hard-hitting tornadoes that cut a crazy-quilt pattern across Georgia, Mississippi, Kentucky and Louisiana. Seven persons were killed and 21 others were injured in the Yazoo County area. Heavy rains accompanied the twisters and Red Cross crews were struggling through mud to perform rescue and rehabilitation work. (International Soundphoto)

TRIUMPHANTLY RETURNING TO WASHINGTON, President Harry S. Truman speaks to the nation via radio from the portico of the White House. The nation's Chief Executive asked for "help and cooperation of the people." Applauding him is Vice-President-elect Alben W. Barkley. In picture at right the procedure is reversed. President Truman leads the applause that greets Senator Barkley's statement that "the American people do their own thinking and their own voting on the day of the election." (International Soundphoto)

Old Tobacco Plant Has Been Recreated

TUCUMAN, Argentina (AP)—A plant which died thousands of years ago has been recreated and is growing happily in California. It is the grandfather of all tobacco plants, even though it would be a considerable disappointment if you tried to smoke it. The story of how it was created is a side-light on how modern tobacco works.

Dr. Thomas H. Goodspeed of the Berkeley Botanical Garden is responsible for the recreation of the plant. He told about its birth during a visit to the South American botanical congress here.

Tobacco was originally a hybrid between two entirely different plants. Under some unusual conditions back before history began, they were cross-fertilized and produced a new plant which contained as a new type. The new plant gradually changed and ultimately became modern tobacco. The parent plants also continued to exist and their modern descendants still grow near each other here in northwest Argentina.

Dr. Goodspeed discovered one of the parents many years ago during an exploring trip in this area. In 1912, during another trip, he found the other parent. Back in California, he crossed the two plants.

Diphtheria germs were discovered in 1883.

Britain's Favorite Guessing Game Is Naming Royal Baby

LONDON, Nov. 9. (AP)—Britain's favorite guessing game this week is: What are they going to name Princess Elizabeth's baby? The royal infant, second-in-line for the crown, is expected to be born at Buckingham Palace this weekend. There is no rule for British Royal names. Some youngsters get short names, some get long ones. The favorite choice for boys is George and for girls, well, there's a wide choice.

Today's best hunches were: For a boy: George Albert for Louis Philip. For a girl: Mary Elizabeth Alice or Victoria Elizabeth Mary.

In the first case the reasons are: George for King George VI, the maternal grandfather; Albert for Prince Albert, cousin of great Queen Victoria, or Louis for Lord Louis Mountbatten, uncle and chief sponsor of the baby's father, Prince Philip; and, of course, Philip, for the father, the Duke of Edinburgh.

In the second case it would be: Mary for the maternal great-grandmother, Queen Mary; Elizabeth for the mother and grandmother, Princess and Queen Elizabeth; and Alice for the paternal grandmother, Princess Alice of Greece and Victoria for Queen Victoria.

The postmaster general announced in the House of Commons today that the government would not contrary to a recent publication of any commemorative postage stamp in connection with the Royal birth.

Demo Control

(Continued From Page One) Office committee. Eastland also is a member of a special Senate committee, that to investigate problems of small business. He will be second ranking majority member.

On the House side, Rep. Whittington (Miss.) will head the important Public Works group, which passes on all flood control and rivers and harbors projects.

Among other committee assignments for Mississippians: Rep. Rankin will head Veterans Affairs and be second ranking Democrat on Un-American Activities.

Rep. Abernethy will be third ranking Democrat on the District of Columbia group and also on Agriculture.

Rep. Whitten will rise a notch or two on Appropriations. Rep. Winstead, an Armed Services, will have a more important voice.

Rep. Colmer will gain some seniority on foreign affairs, and Rep. Williams will advance a step or so on the Post Office and House Administration Committees.

Some of the Louisiana House members, it is stated, will draw one of the lesser committees, such as House administration, or District of Columbia.

Senators usually serve on two major committees. House members on one.

As members gain in seniority they can shift to more important committees. Chairmanships go to the majority member of the committee with the greatest length of service, except that no senator or representative serves as chairman of more than one regular committee.

Senator-elect Willis of the Federal Louisiana district, as a new member, likely will draw one of the lesser committees, such as House administration, or District of Columbia.

Senators usually serve on two major committees. House members on one.

As members gain in seniority they can shift to more important committees. Chairmanships go to the majority member of the committee with the greatest length of service, except that no senator or representative serves as chairman of more than one regular committee.

BARRE, Vt., Nov. 9. (AP)—A Republican party tie-in with the more solid elements in the Democratic Party was proposed today by Senator Ralph F.landers.

Flanders told a chamber of commerce meeting the Republicans "should actively, not passively, concern ourselves with legislation whose objective is the public welfare."

He suggested the Republicans "search out the more solid elements in the Democratic Party and join them in promoting the solid underlying interests of the American people."

He said the programs should be in the interests of the ordinary citizen "and should not be merely flashy and attractive without any hope of real benefit."

The senator expressed the belief there was "grave danger" that the administration and the Congress may be moving in that direction.

U. S. food packers sell their goods through more than 750,000 retail outlets.

Insecticide Paint Gets More Lethal

GAINESVILLE—(AP)—Paint treated to kill insects becomes more rather than less poisonous as time goes on, studies by the University of Florida indicate. The University's engineering and industrial experiment station made tests with insecticidal paints, lacquers and varnishes over a two-year period.

"It was observed that the coating surfaces did not become less toxic but rather, became more toxic with age," S. S. Block of the experiment station reported. He said the insecticide appeared to force itself gradually on the surface of the paint to form tiny crystals. The crystals were produced because the paint was so full of the poison that it threw some of it off from time to time.

Because of this characteristic, poison which was lost through wiping or washing the painted surface was replaced shortly after being removed. One test, made with asphalt varnish mixed with DDT, showed the poison crystals appearing on a white dust on the surface of the painted article.

"When the surface was wiped with a cloth, the crystals were removed and the surface was as black as when the coating had been applied. Within three to four days after reapplication of DDT, it had again reappeared," Block said.

"This process was repeated several times with similar results. Even after several months, when the same surface was again wiped clean, the crystals of DDT reappeared at the surface within a few days."

Though most of the station's experiments were with DDT, several other insecticides were tested and similar results were obtained.

Block said there is no risk of poisoning people in the use of this paint. It acts the same as sprays now used on walls for killing insects and is no more dangerous. If the paint should peel and fall off, it should be kept out of food.

Truman, Stalin May Meet, Says Soviet Press

Tass Dispatch Says President Presumes He Can See Premier In Capital Of U.S.

WASHINGTON, Nov. 10 (AP)—Undersecretary of State Lovett said today he knows nothing to bear out Moscow reports of a possible meeting between President Truman and Premier Stalin. Lovett was asked at a news conference about the reports that Mr. Truman is considering plans for such a meeting either in Washington or Moscow. He replied he thought the answer was given by presidential press Secretary Eben Ayers at Key West, Fla.

KEY WEST, Nov. 10 (AP)—Reports out of Moscow that President Truman is considering a trip there to talk with Premier Stalin puzzled White House aides today. Eben Ayers, assistant presidential press secretary, had no comment on the Russian dispatches. He did call attention to Mr. Truman's repeated news conference assertions that he would be glad to talk to the Soviet leader any time the latter wishes to visit this country. The president has said repeatedly he will not leave this country again for such a meeting.

PARIS, Nov. 10 (AP)—Well-informed American sources said today they expect President Truman and Secretary Marshall to confer soon on prospects for either direct talks with Russia or through a third party. It is expected that the two would be to ease the strain on East-West relations in the world's tension areas.

By EDDY GIEMORE
MOSCOW, Nov. 10 (AP)—The Moscow press gave heavy play today to a Tass dispatch from Washington quoting an American newspaper as saying President Truman may come to Russia for a personal talk with Premier Stalin.

The fact that this item was published here at all is not without significance. The newspapers made no comment on the report, but it is hardly likely it would have been published if the editors did not look upon it as a serious, worthwhile piece. Its publication caused much comment in the foreign colony of Moscow.

The Soviet news agency dispatch said the Washington Times Herald printed the report. (The dispatch may have referred to a syndicated column. Tass Coffin's daybook, published in the Times Herald, it said Monday President Truman wants a conference with world leaders on peace and might even go to Moscow.)

The dispatch said that "Although no definite decision has been reached, Truman presumes he can meet Stalin at his place (presumably Washington) instead of going to Moscow."

"However," it added, "if Stalin does not leave the Soviet Union, Truman is filled with such a determination to put into effect his program of peace that possibly he will himself go to Moscow."

U.S. Ambassador Walter Bedell Smith planned to leave for Berlin this week, but an informed source said there was no connection between this and the Truman-Stalin report. Smith is said to be going to Germany on personal business. A snowstorm delayed Smith's departure today.

New Comet May Be Visible For Few Days

CAMBRIDGE, Mass., Nov. 10 (AP)—You may get a good look at the new comet, wherever you may be.

Charles Federer, editor of Sky and Telescope, said it may stay well in our sky "for a couple more days."

Chances of seeing it tomorrow or Friday from any part of the United States are favorable; the time to look just before sunrise, near where the sun first appears.

Clear weather would make the prospects better. And there's a big "if" too—if the comet doesn't do a feat in the sky, sometimes do.

CUB SCOUTS
A new Boy Scout Cub Pack will be formed this evening at 7:30 o'clock at the Methodist Church, Sanford. C. G. Hanna, scout executive of the Central Florida Council, will aid in the organization.

Key West Welcomes The President

SEATED ON THE BACK of an open car, President Truman acknowledges the cheers of the crowds on his arrival at Key West, Fla., for a vacation. With the President are Capt. C. A. Aldred (left), Commandant of the Key West Naval Base, and Mayor A. Maitland Adams. (International)

Youths' Problems Are Discussed At Kiwanis Meeting

Dr. J. B. Root, instructor and vocational guidance counselor at Seminole High School, today addressed a Kiwanis luncheon at the Tourist Center, discussing the problems encountered in guiding young people to find vocations for which they are best fitted.

He was introduced by Principal Herman E. Motin, who pointed out that according to a recent survey 77 percent of the juniors attending the University of Florida had not yet determined upon what profession to enter.

Dr. Root Points Out Need Of Finding Correct Profession

Prior to the talk the Kiwanians were entertained by high school students. A lively tap dance was given by Gertrude Kitchbold, P. R. Bach and Betty Duncan, attended down at the back tramps, sang a comic number, "A Couple of Swells," with Miss Olive Reed Whittle accompanying.

Dr. Root pointed out the vital need of finding out the main interest or hobby of youth, before advising them as to the profession they should follow. Interest alone in a profession is not enough, however, he stated, as ability must be had along that.

165 Children Of Grammar School Get Low Cost Meals At Lunch Room

By WILLARD CONNOLLY
More than 165 children of the fifth and sixth grades, have fine, nourishing lunches daily at surprisingly low cost at the Sanford Grammar School lunch room, which is presided over by Miss Annie Nelson.

Miss Nelson, who is especially famed for her pies, is ably assisted in her work by Mrs. T. B. Middleton, Mrs. Amelia Nobis, Mrs. E. D. Mabley and a colored helper, Amanda Tucker. In addition, about 20 boys and girls pitch in and help daily, and so get their lunches free.

Here is a typical menu, served in generous portions: beef stew, mashed potatoes, cubed beets, sliced tomatoes, two slices of buttered bread and a glass of orange juice and all for 20 cents. A generous slice of pie is 10 cents extra.

The lunch room, located in the rear of the school in a separate building is reached by a covered walk. In order that there may be no confusion all the pupils rushing in at once, the pupils of the eight rooms use a staggered schedule, so that every eight weeks, each room is first on the eating schedule. The schedule is also arranged so that neither grade gets special preferences.

Organized a year ago, the lunch

Wildcat Strike Ties Up Port Of New York

10,000 Men Refuse To Work Due To Agreement Completed By AFL Union Officers

NEW YORK, Nov. 10 (AP)—The larger part of the huge port of New York was tied up today by a wildcat walkout of AFL longshoremen who dashed an agreement worked out by their union officers.

Harry Dunham, collector of customs of the port, announced the extent of the tie-up. But the number of workers who walked out was in dispute.

Joseph P. Ryan, president of the AFL International Longshoremen's Association, said 10,000 had refused to work. However, police said 3,335 were away from their jobs and that 1,400 were working. Ryan also said 5,000 longshoremen had stopped work in Boston. Authorities there said, however, only a few ships were immediately involved.

The 65,000 members of the IILA from Portland, Me., to Hampton, Va., will complete voting on the agreement by Friday, Ryan said. He said the membership included 45,000 longshoremen and 20,000 checkers.

"I'm local, reported about 4,000 men idle in Brooklyn, 4,000 on the (Continued On Page Three)

Hurricane Churns Off North Carolina With 80 Mile Winds

MIAMI, Nov. 10 (AP)—Chief Storm Forecaster Grady Norton said today that a hurricane appears to be heading off the Cape Fear coast. "The storm center is swinging a bit more toward the north-northeast," said the meteorologist. "If that tendency continues, there will be a close miss but no storm effects will be felt along the North Carolina coast."

CAPE HATTERAS, N. C., Nov. 10 (AP)—Hurricane warnings were issued along a 75-mile stretch of North Carolina coastline today as a small tropical hurricane with 80 miles an hour winds churned toward the mainland.

R-29 Drops Bombs In Gulf Of Mexico

TAMPA, Nov. 10 (AP)—A MacDill Field B-29 bomber dropped 5000 pounds of bombs in the Gulf of Mexico about 45 miles west of St. Petersburg early today. The west coast residents from Tampa's interbay area south to Bradenton reported they felt the shock.

Recinded Action At King George High School

KING GEORGE, Va., Nov. 10 (AP)—King George County's school board has rescinded in part its action in dropping five courses at white high school as a means of equalizing white and negro school instruction.

The board yesterday restored three of the courses, physics, chemistry and biology were the other courses dropped last week at King George High School (white).

Tomorrow is Armistice Day. Just 30 years ago tomorrow, Buddy, you were some pumpkins!

A Marion county grand jury has indicted the famous Mr. X for killing a deer out of season.

It is too bad that the grand jury investigating the payroll of the chairman of the House Un-American Activities Committee could not have indicted him for un-American activities.

This is National Education Week and a lot is being said about schools not being what they used to be.

Angelo Patri quotes a letter from a distraught mother who worries because her 14 year old daughter has already become a chain smoker.

Beware of live wires, not the kind that brings in more business, but the kind that lie around on the ground after a hurricane.

On a train near Dade City a man from New York had taken some pills. Suddenly he heard "voices" whispering to him to jump through the window.

The public admires militant journalism, says an important editor at the St. Petersburg convention.

Once in a while, as we scan the daily news reports of murders, riots, scandal and divorce, we almost lose faith in human nature.

Carrollville, Ill., a congressman was elected last week after promising to give 100 underprivileged children a free trip to Washington.

Carrollville, Ill., a congressman was elected last week after promising to give 100 underprivileged children a free trip to Washington.

Prices In China

There is sound reason to fear that the Chinese government may have abandoned more of financial policy than just the effort to control prices when it recently announced lifting of wage restriction and most price controls.

No indications have been reported, as yet, that the government again has taken to grinding out printing press money to meet its own expenses.

If the Chinese government had the means to continue supporting its currency on a sound basis while allowing prices and exchange to find a natural level, stability might be won.

Flow, Don't Jerk

An eminent social scientist once expressed the following sound advice: "To save wear and tear on yourself and to keep relaxed."

The truth of this advice is brought home forcibly as we observe the great number of people who literally "jerk" their way through life.

Many of us have a tendency to be "jerkers" but barring certain physical ailments this trait can be corrected rather easily.

Many Deaths

"The coward dies a thousand deaths; the brave but once." So wrote Shakespeare.

Such incidents of revival after the vital functions of the body have stopped still seem miraculous.

Too Late To Classify

While I do not consider myself an authoritative "outsider" writer, I occasionally deal with the subjects of hunting, boating or fishing.

Attending the annual convention of the organization at Orange Lodge on Lake Apopka, last week I was deeply impressed with the work these writers and commentators are doing, above and beyond the call of duty.

It seemed to me that just about every subject under the sun was discussed from dog stealing to deepening the channel of the inter-coastal canal.

Tony Chenna Awarded 10 Year Service Pin By F. P. L Company

A 10-year service pin has been awarded to A. J. "Tony" Chenna, Waka Apartments, by the Florida Power & Light Company.

Chenna, an electrician in the company's transmission department, joined the Florida Power & Light Company in November, 1938.

Chenna is a member of the American Legion, Florida State, and is receiving service pins, Coleman announced.

THE WORLD TODAY

By DEWITT MACKENZIE AP Foreign Affairs Analyst

This column rarely uses the term "desperate" in describing a situation because that word implies hopelessness.

That unhappy land—housing close to a quarter of the globe's population—has sunk to deep in the chaos of civil war and economic collapse that no man can predict her fate.

The question of whether Generalissimo Chiang Kai-Shek can maintain his Nationalist government and defeat the Red rebellion is a matter of anxious speculation.

Meantime the economic situation has worsened. The military disasters in the north have further shaken the confidence of the people.

As for Chiang, he gives the impression of having no doubts of success. He has called on his followers to prepare for eight more years of war against the Chinese Communists.

Secretary of State Marshall conferred privately in Paris yesterday with China's United Nations delegation chief, Dr. T. F. Tsiang.

World Federation May Be Considered By 81st Congress

NEW YORK, Nov. 8.—(Special)—The emergence of World Federation as one of the vital issues to be dealt with by the 81st Congress was considered likely today.

Although the listing included only a small percentage of those Senators and Representatives who have at one time or another indicated support for world government, it is illustrative of the Congressmen's attitude.

In the Senate: Paul H. Douglas, Ill.; Hubert Humphrey, Minn.; Robert C. Hendrickson, N. J.; Estes Kefauver, Tenn.; and Lyndon B. Johnson, Tex.

In the House: Brooks Hays, Ark.; Clinton D. McKinnon, Calif.; John A. Carroll, Colo.; John Davis Lodge, Conn.; Walter H. Judd, Minn.; Wm. M. Colmer, Miss.; Richard Bolling, Mo.; Mike Mansfield, Mont.; C. R. Howell, N. J.; Emanuel Celler, Jacob K. Javits, J. P. Murphy, N. Y.; W. B. Huber and John M. Vary, Ohio; J. G. Fulton, Penna.; James P. Richards, S. C.; and Hugh B. Mitchell, Wash.

Connecticut voters last Tuesday registered their approval of world federal government, 11-to-1 in a statewide referendum.

11 Major League Clubs Draft 19 Minor Loop Men

CINCINNATI, Nov. 10.—(AP)—Eleven Major League clubs picked up 19 minor league players in the annual draft today, at a total cost of \$182,500.

Sixteen of the drafted players were from the Triple A circuits, as the majors raided the three top minor leagues to bolster their rosters for the 1949 pennant race.

British Defenses Rapped By Churchill

LONDON, Nov. 10.—(AP)—Winston Churchill said today another British defense of the labor government encourages Communist aggression.

In a letter of good wishes to E. Hubert, Conservative candidate in the Edmonton (London) parliamentary by-election to be held Saturday, the former Prime Minister declared:

Some fashion experts suggest that men wear red-blue-green parkies with gray suits, red brown-green for brown suits and red blue-gray-yellow with blue suits.

TUESDAY
The Brotherhood of the First Baptist Church will meet for a supper meeting at 7:30 P. M. at the church annex.

Carol Landis Will Be Contested

LOS ANGELES, Nov. 10, (AP)—The late Carol Landis did not intend to disinherit him in her 1944 will, Horace Schmidlapp, the movie beauty's fourth husband contends. The wealthy theatrical producer filed suit yesterday claiming most of her \$150,000 estate. He held that the will is invalid because it was made before their marriage in 1945. It left the bulk of her estate to her mother.

Ginger Prince Gets Approved Contract

LOS ANGELES, Nov. 10, (AP)—Actress Ginger Prince disclosed two pleasing front lines when she smiled as Superior Judge Clarence Hanson approved her movie contract.

LOS ANGELES, Nov. 10, (AP)—The average female star is 5 feet 4 1/2 inches tall and weighs 110 pounds. Top gal is Lauren Bacall at 5 feet 8; June Allyson and Ann Sothern tie for shortest at 5 feet one.

Nov. 10, (AP)—The average female star is 5 feet 4 1/2 inches tall and weighs 110 pounds.

The average male star is a fraction under six feet tall and weighs in at 175. Tip-topper is Dan Dayley at six foot four; low man in the glamor poll is Mickey Rooney with a rugged five feet two.

Lake Mary Meet

The coveted dish supper planned for Thursday evening at the Lake Mary Community Building, has been postponed until Friday evening, it was announced today by the Rev. Clarence C. White.

Lake Monroe P.T.A. Meet

The Lake Monroe P.T.A. held its regular meeting in the Principle's room of the school on Nov. 9 and plans were made for a Christmas party to be held on Dec. 15. Following the business session a motion picture was enjoyed in the school auditorium.

Grammer School Sale

A rummage sale will be sponsored by the Sanford Grammar School Parent-Teachers Association on Saturday beginning at 9:00 A. M. The sale will be held at Sanford Avenue and Second Streets. Proceeds will be used for the library fund. All donations are to be left at the school.

Card of Thanks

To our friends who were so understanding and sympathetic following the death of one loved one in Leeburg, we wish to express our sincere appreciation. Mr. and Mrs. Harris Yolds.

WARD'S HOLIDAY INN Full Course Meals and Cocktails

Personals

Dr. Ralph G. Woodruff and daughter, Mary Kethryn, of Englishtown, N. J. are visiting in Sanford with relatives.

Mrs. L. R. Harvey returned today from Jacksonville where she spent the past week with her sister Mrs. R. E. Carus.

R. T. Cowan and Z. A. Davis have returned from Augusta, Ga. where they attended the Spring shoe showing and purchased new Spring shoes for the Cowan Company.

Mrs. W. F. Jackson and Mr. and Mrs. A. B. Duxbury have as their guests at their home on Magnolia Avenue Mrs. Harold A. Duxbury of Pawtucket, R. I. and Mrs. William Moran of Lowell, Mass.

Clarence R. Jones of this city and James G. Lee, formerly of Sanford and now of Deland, have pledged to Sigma Alpha Chi, honorary accounting fraternity, at Boston University. Mr. Jones is the son of Mr. and Mrs. C. R. Jones and both he and Mr. Lee are majoring in business at the university.

Leslie Brooks' Mate To Contest Divorce

HOLLYWOOD, Nov. 10, (AP)—Leslie Brooks has been advised that her husband, D. Anthony Shay, plans to contest her divorce suit and demand custody of their daughter, Victoria, five.

Shay's lawyers notified the actress yesterday. Miss Brooks contends she hasn't seen the child since her husband left for New York July 8.

Holly Wood

Second of three articles on Hollywood star system. HOLLYWOOD, Nov. 10, (AP)—Do you want to be a movie star? Well, it might help if you hailed from New York.

And had brown hair and stage experience. These are some more conclusions from a survey of the "golden luncheon" top stars in Hollywood. I have added up the facts and figures about the current film favorites and here are the findings:

New York State is far ahead in the number of stars it has produced—the screen—19 out of the 78 U. S.-born acting stars.

Twenty-one of the stars are foreigners—eight being from Canada and the rest scattered.

Horsepower may figure some way, but it isn't the only one. Many film stars were born in May—14 of them. Closest months are Aug. with 12 and September with 10.

The stage is still the best source for top film talent. Of the hundred 77 have had footlight training. Fourteen had no previous acting experience and five came from the music field. Two came from sports (Katharine Williams, Sonia Henie) and radio (Gene Autry, Roy Rogers.)

How would you like to go through life with a name that didn't belong to you? That happens to 10 of the stars. Only 10 use the names they were born with. Small towns are well represented in stellar ranks. A third of the stars came from hamlets, two-thirds from cities.

Now we come to the facts about the figures.

LAKE MARY MEET
The coveted dish supper planned for Thursday evening at the Lake Mary Community Building, has been postponed until Friday evening, it was announced today by the Rev. Clarence C. White.

LAKE MONROE P.T.A. MEET
The Lake Monroe P.T.A. held its regular meeting in the Principle's room of the school on Nov. 9 and plans were made for a Christmas party to be held on Dec. 15. Following the business session a motion picture was enjoyed in the school auditorium.

GRAMMER SCHOOL SALE

Unnatural Silence Wins Divorce Suit

WASHINGTON, Nov. 10, (AP)—Silence may be golden—but not when a husband starts giving his wife the silent treatment on their silver wedding anniversary and walks out three years later—still silent.

That's "unnatural," Judge Alexander Holtzoff ruled yesterday in granting Mrs. Dora M. Hartley, 62, a divorce and \$60 monthly alimony.

Furthermore, Holtzoff said, Mrs. Hartley's refusal to cook her husband's meals the last ten or fifteen days was not a legal justification for the 64 year old Hartley to leave home. He did so in 1937 after 28 years of married life.

This obviously is unexceptional grounds in the eyes of the law in a divorce suit.

Witnesses testified that the couple maintained communications during the three year silence by notes passed on by their two children.

Ingley To Direct Episcopal Drive

H. L. Perkins, Jr. presided at the first meeting of the Fall season of the Men's Club of Holy Cross Episcopal Church at the Parish House last night. J. L. Ingley has been appointed chairman of the every member canvass of the church which will begin on Nov. 28. It was announced.

Rev. H. L. Zimmerman was the principal speaker at the evening and told the men of the importance of the world is to survive the age of materialism and the atomic bomb. He defined Christianity as more than the Golden Rule, emphasizing the importance of love of God, love of enemies as well as neighbors, and returning good for evil.

Supper was served under the direction of the Ladies Auxiliary.

Fidelis Class Meets With Mrs. Hodges

Members of the Fidelis Class of the First Baptist Church met at their meeting held last night at the home of Mrs. M. G. Hodges in Paola, to dispense with the annual Christmas party this year and to give the amount of money usually spent on the party to the building fund of the church.

Cookesses with Mrs. Hodges was Mrs. C. W. Beard. Mrs. A. I. Thomas conducted the devotional using as her theme, "Thanksgiving," and the business session was presided over by Mrs. F. Cooper, at which time various suggestions for raising money were discussed.

Following the reading of a letter concerning Miss Anna Belle Eason, former member who confined to a hospital, the club voted to prepare and ship her Christmas box. At the close of the meeting refreshments were served to the following:

Mrs. F. E. Gatchel, Mrs. Cora R. L. Johnson, Mrs. J. L. Jackson, Mrs. H. E. G. Giddens, Mrs. H. E. G. Giddens, Mrs. J. L. H. Thayer, Mrs. S. C. Graham, Mr. Thomas, Mrs. H. M. Pearce, Mr. H. E. Morris, Mrs. Frank J. Woodruff, Mrs. V. V. Meinger, Mr. John Fox, Mrs. L. Williams, Mrs. J. A. Howard, Mrs. Daniel, Mrs. C. W. Erwin, Mrs. Myron Smith and Miss Lorraine Franklin.

Teen Talk

By VIVIAN BROWN AP Newsfeatures

Isn't it just ducky to get all dressed up in your super-formal and then draw a dud for a date?

Besides the fact that he is poor company, he probably can't dance either. Worse than that, neither can his friends. Why is it that girls always stick together?

If course some jerky tokeys just can't help themselves. And they have to be admired for trying to learn how to get by. You should be kind to these pathetic creatures.

Try to refrain from saying "ouch" when he steps on your foot. He'll know that he's hurting you and will be sorry next time.

Don't embarrass him by suggesting a "cute little dancing school" that can teach him a step or two in 25 easy lessons.

If you are unfortunate enough to draw a cowboy as a dancing partner, change your tune to "You're a Good Man, Brother."

There's the clutch and the squeeze so tight that you think you'll be smothered to death. With him you must change your courage from left to right shoulder before he crushes it to pieces.

If he gallops, hold your hat up slightly, so it will not be blown to tatters.

If his hands perspire, he probably is nervous. This may mean you, but try to be sweet about it. The "creeps" is the largest

Photo by Raymond Studdiford. Mrs. Edith Virginia Steakley's civic engagement as being announced today to James Lowell Padgett of Enterprise. The marriage will take place in mid-November.

Mrs. Millard Lowe Honors Daughter

Mrs. Millard Lowe celebrated a Saturday afternoon with her daughter, Edith Virginia, at the home of Mrs. J. C. Hill, program chairman, introduced Mrs. Curlett who spoke on flower shows, giving information concerning the show to be held in Geneva in April by the club. Miss Kirchoff's talk was based on flower arrangement accentuated with actual arranging in various containers.

Miss Steakley Will Wed James L. Padgett

Miss Edith Virginia Steakley announced today to James Lowell Padgett of Enterprise. The marriage will take place in mid-November.

Mrs. Curlett and Miss Kirchoff served as guest speakers for the November meetings of the Geneva Garden Club held recently at the home of Mrs. Henry Simpson. The meeting was conducted by Mrs. W. L. Sieg and 30 members responded to the roll call with the botanical and common name and specimen of a flower from their gardens. Announcement was made of the Christmas party to be held at the next regular meeting in December at the home of Mrs. Bihrey.

Mrs. J. C. Hill, program chairman, introduced Mrs. Curlett who spoke on flower shows, giving information concerning the show to be held in Geneva in April by the club. Miss Kirchoff's talk was based on flower arrangement accentuated with actual arranging in various containers.

Following the reading of a letter concerning Miss Anna Belle Eason, former member who confined to a hospital, the club voted to prepare and ship her Christmas box. At the close of the meeting refreshments were served to the following:

These showing the afternoon with Barbara were announced by Mrs. Edith Virginia Steakley. The marriage will take place in mid-November.

The wedding will be an event of Nov. 21.

on the dance floor.

Don't ask him to stuff his hand into your paraphernalia. A better number goes, put it in your pocket, take a weekend bag and go. Don't wear a costume such as a mink coat or a powder bag. You may not have a chance to change.

Whatever happens, don't be tempted into a wild night. If you must go, tell him you'll be home early. After all, you don't want to be a dope and become a party animal.

Some girls dance in high heels and have a couple of hours' fun at the club, when they are home they turn new steps. This is a wonderful way to keep your dance without spoiling your beautiful friendship with your partner.

Many tanga chicks are being vacuum packed tonight. Turners to assume a position and flavor until the morning ready to use them.

Miss Steakley attended local schools and was formerly employed by the United States government for three years. At the present time she is employed as a bookkeeper at Radio Station WFRB. Mr. Padgett received his schooling in Deland and served for three and one half years in the Marine Corp. He is now employed as bookkeeper at Tacy's Plumbing and Pumps in the Deland.

The wedding will be an event of Nov. 21.

AROUND the TOWN

MRS. FRANK WOODRUFF III looked like a New York model walking along First Street in a good looking beige suit carrying a hat box. We've been thinking recently about how much tonight's Sanford need the courts of the former station building up and put in a fine condition.

MRS. DALE SCOTT, JR. and MRS. CHARLES VODD were in Touchton's bistro a quick drink.

CLAUD WHITTEN, JR. was looking over the Thomas page of the dog for a PRUD MYR, striding down First Street after lunch.

ED HIGGINS, I. J. ROYLE and JACK RAUFMAN were taking the situation over in front of the Post Office.

M. N. L. Y. of Melbourne spent his hours today looking over in The Florida State Bank. MISS BILL WYNN was moping happy over these three road sized perch in her hand.

ANDREW STINE wearing a low top like Frank Sinatra's. MRS. DELBERT KREINBERG was polishing up the shop store show case a hot white offshoot at the counter.

Among these seen at the budget luncheon and fashion show given by the Federation of Women's Clubs at the Longwood Hotel yesterday were: MRS. L. E. BRYAN, chairman with MRS. GEORGE BRIDGE, who looked nice in a dark crepe gown trimmed with sequins.

MRS. C. R. CHAVIS, JR. who wore a dainty little black lace bonnet. MRS. CASANDRA STEINLEZ with dark crepe dress and water who had.

MRS. BRAD FORD WARD wearing an attractive hat trimmed with blue feathers. MRS. BOB HARRIS in coral like dress and matching hat.

A Boston sweater was checked at the Longwood hotel by working reporter telephone wires near the phone company.

The manager who had the job to make a report and know what the form said. "Well, I was on the pole and accidently let the lead fall on my neck and I word down his neck. That's Spiky looking up at me and "Well, Harry, you must be more careful."

The wedding will be an event of Nov. 21.

on the dance floor.

Mrs. F. E. Gatchel Hostess To Circle I

Members of Circle One of the Women's Missionary Union of the First Baptist Church gathered at the home of Mrs. F. E. Gatchel, 2520 Laurel Avenue Monday morning at 10:00 o'clock to study the mission book, "Touchstones in Honor."

Chapters were taught by Mrs. M. F. Smith, Mrs. George Dixon, Mrs. H. W. Rucker and Mrs. Gatchel. At the noon hour a delicious covered dish luncheon was enjoyed and the afternoon talk was with the regular meeting of the circle over which Mrs. Smith presided.

Those attending were: Mrs. W. Steadman, Mrs. W. C. Bule, Mrs. R. J. Jones, Mrs. Frank L. Woodhuff, Jr., Mrs. John L. Fox, Mrs. George McCall, Mrs. Dixon, Mrs. Smith, Mrs. Rucker and Mrs. Gatchel.

Lavender yields will thicken a cup of milk for a soft custard sauce to serve over fresh orange slices or other fruit. Add a dash of salt and two tablespoons of sugar before cooking over hot water; when thickened and cooled, add a quarter teaspoon of vanilla.

The wedding will be an event of Nov. 21.

Powerhouse Of Army Is Pacing College Grid Teams In Rushing

By WILL GRIMBLEY

NEW YORK, Nov. 10. (AP)—War, they say, are won by the infantry. Army must figure the same is true of football games.

The power-minded Cadets, who have never yielded to the modern pass-happy trend, are vying toward a new collegiate record for advancing the ball by hand.

In seven games they have rolled up a staggering total of 2,640 rushing yards—an average of 377.1 yards a game.

If this keeps up, the National Collegiate Athletic Bureau records us, the Black Knights of the Hudson are bound to wreck their own existing mark of 361.3 yards a game set in 1916 when Joe Blanchard and Glenn Davis were atop all opposition.

Blanchard and Davis have a touchdown tandem counterpart in the present Army team in Gill Stephenson and Bobby Stuart, who are almost a clutch to shatter the all-carrying records of the wartime duo.

Led by Stephenson and Stuart, unblemished Army smashed 525 yards over the ground Saturday in beating Stanford, 18-0. It was season's greatest display of power.

If they win rushing offense honors this year it will mark the third time in five years the Cadets have turned the trick. They were beat on the ground also in 1944 and 1945.

Hoitsma Is Named Nation's Lineman Of Week In AP Poll

By TRD MIEHL

NEW YORK, Nov. 10. (AP)—Lou Hoitsma, William and Mary end linebacker, was named today as the nation's best linemen in the Associated Press Poll.

Football fans will remember it was Hoitsma's great catch a year ago that brought Columbia a startling upset triumph over Army. Hoitsma's feat gave the underdog William and Mary team a surprise 7-0 tie with the previously unbeaten and untied Tarheels.

Hoitsma's remarkable catch came in the second period. Tommy Korowowski got off a long pass towards Hoitsma in the end zone. Two North Carolina players were guarding Hoitsma, but somehow he leaped up and snared the ball for a touchdown.

Hugh Fullerton, Jr., Associated Press Sports Writer who covered the game, said Hoitsma "was making tackles all over the field. He pulled down Charlie (Charles Hultes, N.C. back) on his one long run, intercepted a pass in addition to his remarkable catch and discovered two fumbles."

Laurence Leonard, of the Richmond News-Leader, asserted "I've never seen better play." Hoitsma's performance overshadowed the play by his teammate, center Tommy Thompson, and that of Paul Kelly, Penn State guard.

Black May Undergo Operation On Brain

By WILL GRIMBLEY

CLEVELAND, Nov. 10. (AP)—Don Black, Cleveland Indians pitcher recently released from the hospital after suffering a brain hemorrhage, may undergo an operation to relieve continuous headaches.

Dr. Edward Castle, team physician, said X-rays will be taken today to determine if surgery is necessary. In the event it is, Dr. Sprencer Braden, brain specialist who has been treating Black, will perform the operation.

Black, who was hit for his ninth straight Philadelphia hit in 1947, collapsed at bat last Sept. 13. He was released from the hospital Oct. 24 after he had remained unconscious for several weeks.

Physicians said the operation was not expected to prevent Black from resuming his baseball playing next spring.

COACHING CHANGES
NEW YORK (AP)—Three coaching changes have taken place in the Basketball Association of America. Douglas Julian, formerly of Holy Cross, replaces Honey Russell at Boston. Ken Loeffler, coach of the Providence Steamrollers, having resigned, a member of the St. Louis Bombers, He takes Nat Hickey's place. Grady Lewis, purchased from Baltimore, takes over the Bombers as player-coach.

Stormy Husard, by Fred Vaught of Harrison, took the futurity lead a grand total of 580 points in the first two casts.

Brown, place-kicker of the Syracuse University team, booted 27 straight castings last year before missing one kick of this season.

COMMENTS From The SIDELINES

By ARTHUR DECKWITH, JR., Herald Sports Editor

FSL Roundup
Much speculation and chatter about clubs of the Florida State League were featured in the Florida State League directors meeting in Orlando Sunday.

Two clubs are definitely set for managers for the coming year. George Wavell, former Washington Senators infielder, will manage the St. Petersburg team.

Orlando is in hopes that George Wavell, former Washington Senators infielder, will manage the team for the coming year. "I think that he has an excellent chance of becoming the manager for the club next year," Bob Hayes, sports editor of the Orlando Sentinel reported.

It is expected that the manager of the St. Petersburg team will be the former major league director from St. Augustine, Johnny Sebastian would return to the helm of their club, but he reported that the selection of the manager of the Saints is up to the Chicago Cubs under whom the Ancient City men work.

Bussay added that the Saints will be the only Class D ball club in the Chicago chain during the coming year. "They have dropped all other 'D' clubs, so they speak pretty well of the Florida State League for the Cubs to keep our club over entries in other leagues. They seem to believe we have one of the fastest circuits in the nation for Class D organizations," Bussay declared.

By keeping the Saints as their only Class D club, the Cubs will probably have a greatly improved club in the Ancient City for 1949. "This will mean that the Cubs will not have to spread their talent to so many 'D' clubs," Bussay said.

Leasing is in very bad condition. The Pirates pulled out of the Lake county city, leaving four ball players and a couple of worn out bats. It was reported by Syd Farren, Jack Anthony, Holo Braun, and Joe Maszka and Doug Johnson were the players left on the Leasing reserve roster. Maszka and Johnson did not play last year. Farren added:

Gene Fisher, Deland's director said, "We are mighty low right now, but we are ready to throw in the sponge by any means. I think we will be in there all the way."

The league now has four teams either getting assistance from or operated by clubs of higher standing. Sanford is operated by the New York Giants, St. Augustine is under the direction of the Cubs, Orlando is owned by the Washington Senators and Gainesville has a working agreement with the Atlanta Braves.

Deland, Daytona Beach, Palatka and Leesburg have no affiliation. "Sanford's future looks pretty good," Manager Hal Fischer asserted. "We already have around ten men listed on our roster for the coming year, and we can still draw some from the school to be held in Sanford in February," he added.

Palatka is another of the dark horses in the league. The Azaleas have been working with several people to take the club over and run it in Palatka. "We do not want it to get away from Palatka if we can help it," Jeff Emerson said.

RETURNING TO HALEAH MIAMI (AP)—Greenlee Blahnik and Trainer Hirsch Jacobs were missing from Haleah racing last season, but they'll be back this year. Haleah Secretary Sam H. McCormick reports. Greenlee is owned by John Hay Whitney and Hirsch is owned by Mrs. Charles Shipman Payson.

BACK AT HOOKS EAST LANSING, Mich. (AP)—Marty Hansen, former Michigan State College baseball captain, is back at the books after his first season in professional ball. A shortstop, Hansen fielded brilliantly and hit .343 for the Philadelphia Phillies' Terre Haute, Ind. farm team.

Harvard Coach To Outlaw Plastic Gear

CAMBRIDGE, Mass., Nov. 10. (AP)—Informer that the broken ankle suffered by Ken O'Donnell, Harvard football player, resulted from contact with a plastic helmet. Athletic Director William J. Bligh today advised the Crimson coaching staff that such equipment would be illegal after the 1949 season.

Bligh, head of the football rules committee, said his body notified the manufacturers to cease making plastic helmets last year because of their hard and unyielding surfaces.

When our committee meets again in January, I am going to remind the manufacturers that plastic helmets will not be permitted during the 1950 season," Bligh said. "All of the makers will have had time to dispose of all such stock by then."

The injury ended O'Donnell's collegiate football career.

The Philadelphia Eagles have won five of the last six games played against the Washington Redskins.

The 12 teams in the Basketball Association of America will play 60 games each this season.

The Clubhouse

By JIM BECKER AP Newfeature Sports Writer

NEW YORK — It's a typical November Saturday and 40,000 shivering fans are grimly watching Tech slaughter State 27-0 at the Coliseum. The crowd, gathered in anticipation of a stirring contest, now faces only the prospect of a cold second half, which will feature State tossing desperation passes.

Along about the end of the third quarter the fans will begin moving to the exits, with a long drive home ahead.

On that same Saturday at my house I sit in my favorite chair, feet propped up, refreshment in hand. The television set has brought the news that State hasn't a chance. I've switched to a tight ball game between the U. and the visiting Terriers that isn't settled until the final minutes of play. Between halves I get a line on the Titanic grid struggle being waged in Philadelphia, and during time outs a game in Boston comes in.

The contest in Washington was early on I've skipped it since the first quarter.

After the game a man reads me the scores of the other matches around the country. And as I sit there I wonder if the time isn't very far away when the 40,000 fans aren't packed in TIMB easy chairs, warm and comfortable as they watch some 300 die-hard alumni cheering on the teams.

In addition to the comfort and the assurance that there will be an exciting game somewhere, there is the added inducement for television that there are no better seats than yours in your living room. If the ball's on the 50-yard line, you're on the ten, you're there too.

There are now 38 television stations operating in 22 cities and a lot more buildings. And these stations drag their equipment out to every type of sports event in the vicinity.

I've seen polo, tennis, baseball, football, hockey, boxing, basketball, golf, horse and business racing on television set, and I've attended only a few of these sports in person since I got the set — then only because I had to interview one of the contestants, or the event wasn't to be televised.

In the case of every one of these sports I can see the action better at home than I can in the press box. And even where the diamond sport is concerned there are certain advantages — close-up, intimate glimpses into dugouts, facial expressions — that are not available to the fan who pays his way in.

It just makes me wonder if something pretty radical isn't happening to sports. Could it be that someday the game will be played before only relatives while the rest of us catch it from the easy chair?

SUSPENSION LIFTED

SAN FRANCISCO, Nov. 10. (AP)—The California Horse Racing Board has lifted the suspension of J. R. (Red) Gregory, race horse trainer, effective Dec. 31.

Gregory's trainer's license was suspended during the Del Mar meeting last summer. It was alleged that Gregory had failed to register the horse Gallant with Art Meadows as his own property whereas Gallant actually was owned by Robert B. Howard.

HEADS MIAMI SWIMMERS

MIAMI, Nov. 10.—(Special)—A Coral Gables boy will captain the 1948-49 University of Miami swimming team.

Bob Caffrey, holder of a number of titles in the state of Florida, Saturday was elected by Hurricane teammates to captain the new Hurricane aquatic team.

Knynes, Sutton And Belden Return To Gator Grid Drills

GAINESVILLE, Nov. 10. (AP)—Center Jimmy Knynes, Right Tackle Cliff Sutton and Quarterback Doug Belden were all back at their first string berth with Florida's Gators as Coach Ray Wolf took his boys into their mid-week work today.

With a one-two record in the Southeastern Conference, the Gators are tuning their big guns to go against Kentucky, another hoop foe, in Lexington Saturday. The Floridians have a four-peat three-year record for the year.

Speedy little Hal Griffin appeared on the verge of slipping back into the starting right half-back spot he held earlier in the year. In practices he is running in the first string backfield along with Helden, Chuck Humminger and Fullback Russell Godwin.

Marcelino Huerta is fast becoming something of a fixture at the left guard post he took over last week from Georgia and is the most likely starter there against Kentucky.

The Floridians are scheduled to take their first plane trip of the season this week. They will fly from Jacksonville to Cincinnati Saturday, then to Lexington and to Lexington on Sunday.

The two dozen individuals who are doing most of Florida's playing this season are slated to divide their time equally between offensive and defensive for today's practices. While one set is studying the Kentucky attack from a defensive angle the other will be raring through offensive maneuvers in order to have the brilliant Gator ground attack at its peak.

Dick Hendry Will Start At End For Hatters On Friday

DELAND, Nov. 10. (Special)—Dick Hendry, who is playing his first year on the Stetson Hatters' football team, probably will get the call in left end Friday night when Stetson plays Presbyterian College in Clinton, S. C.

Hendry played three years with the Fort Myers High School team before entering Stetson. He is 5 feet tall, 19 years old and weighs 200 pounds. He has seen action in most of the Stetson games this year.

Tailback Harry G. Hincley, of Miami who was in the Erskine game in the final quarter, also will be in the lineup Friday. Hincley played two years at Miami Senior High, following in the footsteps of his father as a football player. The elder Hincley was an outstanding athlete at Western Michigan in the 1920's. Young Hincley was injured in pre-season practice and was in uniform last week for the first time.

The Hatters will leave Deland tomorrow morning by chartered bus and will arrive in Clinton Thursday night. They will make headquarters at the school gymnasium. The game is called for 8:00 P. M. Friday. The team will leave Clinton Saturday morning, reaching Deland Saturday night.

Gator Bowl Official Says Good Seats Are Available For Clash

JACKSONVILLE, Nov. 10. (Special)—George G. Robinson, executive secretary of the Gator Bowl Association, stated here yesterday that there were plenty of good seats available for Jacksonville's New Year's Day football game.

Several thousand good seats in the newly constructed west end east stands are now on sale in Jacksonville at Donaldson's, Inc., 117 West Adams Street, according to Robinson.

Seats in the west end east stands are reserved, priced at \$5 each. Seats in the south end zone are also reserved, priced at \$2.50 each. General admission seats are located in the north end zone and seats available for \$1.50 each. All prices include tax.

Donaldson's is handling all null orders for tickets in addition to taking care of the local sale.

Checks included with mail orders should be made out to the Gator Bowl Association, Inc.

FRUIT BOWL GAME

SAN FRANCISCO, Nov. 10. (AP)—The Second Annual Charity Fruit Bowl game is scheduled in Keene Stadium here Dec. 5, between San Francisco State College and the Stanford University of Haton Rouge, La.

The game is sponsored by the Fruit Bowl Association and proceeds will go to the Fannie Wall home for negro children in Oakland, Calif.

to cover junior varsity sports this fall. Lefty Gomez has taken over the job abandoned by Bob Quinn as contact man for a big sporting goods house. Miami's Harry Gray averaged 27.3 yards per punt against Archibald last week although he had a lot of yardage lopped off for various reasons.

U. S. To Have Bumper Toy-Production Year

By DOROTHY ROE AP Newsfeatures Writer It's a bumper year for Santa Claus in the good old U.S.A. Peak production in practically any line you can mention is being up a gift pack expected to set an all-time record.

A scene from the Broadway stage success "John Loves Mary", Drama Festival attraction to be presented by the Seminole County Junior Chamber of Commerce at the Seminole High School direct New York cast.

Three Outstanding Hit Shows To Be Offered By Jaycees

Three outstanding hit shows have been selected for the 1948-1949 Drama Festival to be sponsored in Sanford by the Seminole County Junior Chamber of Commerce to be presented at the Seminole High School auditorium.

The local Jaycees are offering the program to Central Florida audiences in an effort to increase interest in the legitimate theater.

The plays are contemporary and may be enjoyed by a local audience at the same time they are playing in New York, Chicago, Boston and San Francisco.

It was selected by the late Burns Mantle, dean of drama critics, for inclusion in his yearly publication, "The Ten Best Plays of The Season."

For Mother, fabulous nylon lingerie that looks like the finest silk, wears like iron, can be washed out at night, is dry in an hour or so and needs no ironing.

For Father, shrink-resistant wool socks, shirts and sweaters that can be tossed in with the family wash.

For gadgeteers, watches set in cuff-links, lighters, lipsticks.

For future scientists, atomic chemistry sets and construction sets from which they can build robots that walk and flash their eyes.

For small-fry housekeepers, miniature pop-up toasters, mixers, real washing machines, real electric stoves and refrigerators.

Some of those promised post-war marvels are really waiting in the shops to make Mother's dreams come true.

The new automobiles that some lucky families will get for Christmas are so full of modern gadgets that they almost drive themselves.

Whether luxuries or utilities are on the 1948 gift list, they're all available.

And if the family bankroll disappears in the process, at least it will be a merry Christmas.

Demos Warned Not To Purge Dixiecrats

MONTGOMERY, Ala., Nov. 10 (AP)—Former NYA Administrator Aubrey Williams advised national Democratic leaders today to let local party members have the final say on purging of States' Righters.

In a telegram to national Chairman J. Howard McGrath, he said it would be a "grave violation of elemental Democratic processes" for the committee itself to undertake such action.

Williams, who is publisher of the Southern Farmer, pointed out that he was one of those in the South who supported President Truman and his Civil Rights proposals.

EDITOR DIES CHARLESTON, W. Va., Nov. 10 (AP)—Calvert L. Estill, 55, Charleston correspondent for the Ogden chain of newspapers in West Virginia died at his home last night.

He had suffered with a heart ailment for the past two years, but Estill formerly was general manager of the Wicomico News at Salisbury Md.; managing editor of the Charleston S. C. American, and manager and part owner of the Daily News at Palatka.

TEMPERATURES DROP CHICAGO, Nov. 10 (AP)—Rain, snow and cool temperatures put a damp chill over an area from the Rockies to the Appalachian Mountains today.

Temperatures above the east coast are generally above normal but the mass of cool air west of the Appalachians was expected to move into that section tonight.

The mercury was below freezing over most of the Midwest and Rocky Mountain states early today.

MARKET SLUGGISH NEW YORK, Nov. 10 (AP)—The stock market tried hard to get ahead today but it was tough going. Gains and losses were pretty evenly distributed.

Trading was active for a while immediately after the opening, but later quieted. Wall Streeters said the market was due for a rest after the battering received on Wednesday and Friday last week and again yesterday.

Because of its many islands, Korea has 11,000 miles of coast line.

Chemical Engineers Outline Hopes For Defense Against Atom Bombs

By HOWARD W. BLAKENLEE Associated Press Science Editor NEW YORK, Nov. 10 (AP)—Two hopeful things for American defense against atomic bombs were reported to the American Institute of Chemical Engineers today by Ralph F. Dimmitt, of the National Security Industrial Resources Board, Washington.

One he said is the probability that the number of atomic bombs will be limited. There is not enough uranium to use them for any except very important targets.

The other is the fact that American industry already is dispersing on a big scale. This scattering out over large spaces is the best defense against atom bombs.

"Recent surveys," he said, "show that only one-third of the plants built since 1940 have been located in cities of over 100,000 population. About 30 per cent of all plants built in that time are in towns of 10,000 or less.

Dimmitt said the manufacturer can figure out much of what to do for himself, on the basis of things that are not impossible, if he wants to survive.

"It must be assumed," Dimmitt said, "that soon no area in the United States will be immune from attack because of its location alone. There is an enormous advantage to an aggressor in having a choice of time and place for a surprise blow."

"Substantial areas having high concentrations of industry or population offer the logical targets for atomic warfare. An area less than five square miles, or under 50,000 population, would not be economically attractive, unless it contained a highly strategic war plant."

A manufacturer in planning, he said, should draw an imaginary circle with a three mile radius around the spot where he wants to build. In that circle—six miles in diameter—a bomb in flat land can destroy or damage any sort of present building.

The manufacturer will then list in this area every plant that might interest an enemy planner, and stay away, if there are many of these.

By picking a hilly or a rolling country, the manufacturer can expect to cut in half the chances of destruction or damage.

Tiny fibers spilt out from kangaroo tail tendons are valuable in testing chemicals used in tanning leather.

At temperatures below 70 degrees the larvae of clothes moths are not active, but they do not die.

RED DEAN SPEAKS

MONTREAL, Que., Nov. 9 (AP)—The Very Rev. Hewlett Johnson, the "Red Dean" of Canterbury, addressed members of the McGill University Student Christian Movement last night without benefit of loudspeakers. Somewhat out of the loudspeaker wires.

Heckled constantly and heard only by those on the main floor, the leftist British churchman said that discussions for lasting peace would begin ultimately on the basis of points made by Henry A. Wallace in the recent presidential campaign.

CHURCH AND KING LONDON, Nov. 10 (AP)—The Church of England assembly approved today the use of atom bombs as a "defensive necessity" against an aggressor.

Only three delegates out of more than 400 present voted against this stand, which was presented in a report by a special commission of the church.

Dr. Cyril F. Garbett, Archbishop of York, said: "The bomb would almost certainly be used if another war broke out. The temptation will be very great for the weaker state which possesses the bomb to use it a few hours before its possible enemy."

"If possession of the bomb is a deterrent to war, we have no right to say beforehand that we shall never use it."

Good steam engines convert about 10 per cent of energy fed into them to power; good gasoline engines, 20 per cent; good diesel engines 40 per cent.

AFL DRIVE

AUBURNDALE, Nov. 10 (AP)—Five full-time AFL representatives are conducting one of the biggest organizing drives ever attempted in the Florida citrus industry, a union official said here today.

Frank E. Daigo, secretary of the Florida Council of Citrus Workers Unions (AFL), said previously announced plans for a membership and wage campaign are getting into full swing.

At present the emphasis is on preserving wage scales rather than raising them.

THURMOND VOTE

CONCORD, N. H. Nov. 10 (AP)—Southerners had some sympathizers in New Hampshire in the elections last week.

Official tabulations of the Nov. 2 presidential election showed that Governor J. Strom Thurmond, of South Carolina, States Rights standard bearer in the recent campaign received seven votes for president as a write-in candidate.
