AN EMPLOYER'S DAILY NEWSPAPER

SANFORD, FLORIDA, FRIDAY, APRIL 1, 1938

Established in 1904

(NUMBER)

NINE DIE AFTER SERUM INJECTION

Nine women in Orlando, Fla., died of tetanus (lockjaw) following a serum injection for the treatment of cancer. Two others are in a serious condition. Shown here are Dr. H. A. Day (left), head of the Orange county medical association, and Dr. J. N. Patterson, director of the Florida state board of health laboratory, examining some of the serum. Physicians said all were treated from one bottle which apparently had become contaminated.

Two More Die In Orlando In Ensol Tragedy

Fatalities Reach 9 Following Serum Treatment For Relief Of Cancer

ORLANDO, Apr. 1.—Two more deaths today brought to nine the number of fatalities among the cancer patients who had been given injections of the serum known as Ensol.

Mrs. Lydia Morrison, 49, and C. R. Pace, 55, both of Orlando, died within two hours of each other.

The women died Wednesday and one yesterday after receiving injections of serum. All had symptoms resembling those of tetanus (lockjaw).

Two others of the original 11 who were stricken are gravely ill but are said to be "holding their own" while a 12th who entered the hospital last night was not in a serious condition.

After ordering an immediate autopsy performed on the body of Mrs. Moonort, the "blue ribbon" cancer's jury assumed to probe the strange and hideous deaths of the nine persons started that Dr. H. C. Connell, inventor of the Ensol serum, could not attend as he is in Orlando "because of the investigation at Ottawa and Washington, sm. unable to leave."

Dr. Connell, who had previously told the United Press that he would "be glad to make the trip to Orlando to aid in the investigation if necessary," replied to a telegram sent by Coroner Eugene G. Duckworth asking that he attend and testify at the hearing of the coroner's case and "advise as to what to do."

The jury yesterday declared that no further action was contemplated until 72 hours had passed to give State and government officials time properly to examine cultures of plantings of a portion of the Ensol serum. The cultures were prepared by Dr. J. N. Patterson, chief of the laboratory of the State Board of Health.

Meanwhile, patients of Dr. T. A. Neal, who injected the fatal doses of the serum, were rallying to herald Ensol as the virtual savior of their lives and testified to the beneficial results obtained from injections of the serum as they fought malignant cancer growth. Particularly warm in her praise of the drug was Mrs. Rhodes, who claims vehemently that she is alive today solely because of Ensol.

OVERSEAS HIGHWAY LINKS KEY WEST TO MAINLAND

A motorcade is shown heading for Key West, Fla., upon the official opening of the \$3,000,000 overseas highway which links the southernmost city in the United States to the mainland. These automobiles, first to officially roll over the still incomplete road, are traveling over a seven-mile-long bridge located halfway between Miami and Key West.

Battles Rage In East, West As End Nears

Spanish Rebels Capture Strategic Positions At Gateway To Barcelona

Chinese Defend Key City In East

Hitler Makes Boast After Page Of Pact

By Associated Press
Both Chinese and Spanish government armies fought today with their backs to the wall in battles that may prove decisive in the wars of the east and west.

Spanish insurgent commanders declared they had seized the dominating positions at Lerida, the gateway to Barcelona, the government's seat and hub of its resistance. Government forces, however, prepared a new defense line 10 miles to the east on which to fall back if their hold on Lerida is broken.

Border reports told of a steady stream of soldiers and civilians fleeing to France from Spanish government territory. One thousand troops and 5,000 civilians crossed the frontier yesterday.

The Chinese, desperately defended the vital city of Tientsin where three street fighting has continued for eight days with all the modern weapons of war and with primitive knives and broadswords.

In Vatican City the official newspaper L'Osservatore Romano reported it was authorized to say the Austrian bishop's recent declaration concerning National Socialism was made without consultation with the Vatican.

The bishop had voiced recognition of the Nazi rule in Austria and had proclaimed their loyalty as Germans to the greater German realm.

A widespread belief that Mussolini believed was to be imminent and inescapable had an adverse effect on the bourse in Rome, driving down leading aviation and industrial shares as much as 13 points.

While Adolf Hitler, in a rousing Austrian plebiscite speech at Frankfurt-am-Main, told with pride of "tearing the pages" from the Versailles treaty it became evident that any hope of a truce between the third realm and the Roman Catholic church had been shattered.

The Vatican's official newspaper, Osservatore Romano, reported strongly to a denial by Field Marshal Goering—Hitler's No. 1 lieutenant—that Germany was guilty of any religious persecution.

In South America, the government of Argentina was urged by provincial officials to suppress Nazi activities in La Pampa territory where Argentine-born children of German immigrants are taught only German history.

The French government, struggling with a grave financial crisis and a wave of sit-down strikes that may topple the popular front regime of Premier Blum, was unable to deal in a strong manner with the troubled situation.

Gains Registered On Life Insurance Sales

HARTFORD, Apr. 1.—(AP)—New ordinary life insurance sales during 1937 in Florida registered a gain of six per cent over those of the previous year, the life insurance sales research bureau reported here today.

Sales of new ordinary life insurance in Florida during 1937 totaled \$78,000,000 against \$73,348,000 in 1936.

The figures were compiled from reports of paid for ordinary life insurance, excluding group and industrial insurance.

LOCAL WEATHER

Partly cloudy, with showers in afternoon and evening. Wind from the south at 10 to 15 miles per hour.

Census Reveals City Officials Jacksonville Has Discuss Way To Most Unemployed Get Truck Taxes

Jax, Tampa, Miami Law Passed At Last Session Of Legislature Stops Levy

When more than 11,000 reported as "totally unemployed" in the Jacksonville census, city officials in the State in unemployment, according to a detailed summary of the results of the census in Florida's three largest cities.

In addition to the 11,051 reported as "totally unemployed" in Jacksonville there were 5,523 "emergency workers" which includes those working at WPA, NYA, CCC or similar over emergency work.

Miami followed with 963 persons reporting "totally unemployed", in addition to 1,220 "emergency workers."

In the Tampa census, 511 reported as "totally unemployed" and 3,398 reported as "emergency workers," making a total of 3,909 registering as totally unemployed in these three cities and a total of 5,351 registering as emergency workers.

The total registering as "totally unemployed" and also as "emergency workers" in Jacksonville was 14,044 or 13.3 per cent of the 105,721 persons who reported in these two classes of unemployment in the state. Tampa reported a total of 11,007 in these two classes of unemployment, making 16.5 percent of that reporting in the state. Miami at the lowest percentage with 6 percent of those reporting as unemployed.

The survey revealed that 30 percent of those reporting as "totally unemployed" or as "emergency workers" in the State were in these three cities.

Of those reporting as totally unemployed in Jacksonville, 8,129 were males and 2,928 were females; in Tampa, 4,184 were males and 2,127 were females.

Income Drops Below February Year Ago

MINNEAPOLIS, Apr. 1.—A drop of 17 cents on the dollar in "real income" in February from that of the same month a year earlier resulted from the fact that cash incomes fell much more rapidly than living costs, according to a monthly study made public here today by Investors Syndicate.

"Although a slight seasonal increase in wages is shown," the consumers' study explained, "on Mar. 1, 1938, cash income from all sources was only 82 cents on last year's dollar. For each dollar received in March, 1937, Mr. Average Consumer is now credited with 79 cents in wages, 85 cents in salaries, 91 cents in investment income, and 79 cents in income from all other sources."

Commission Head Warns Employers

Harold C. Wall, Director of the Unemployment Compensation Division of the Florida Industrial Commission today warned employers to demand credentials from all persons representing themselves as employees of the Division of the Florida Industrial Commission.

"It has come to our attention that unscrupulous persons have been using the name of the commission to obtain employment and in some instances provided upon them to such extent which have proven worthless," Wall said.

"Every employee of this Division who is authorized to contact employers or the public for the purpose of obtaining work should be furnished with credentials and authorized to contact employers in this manner."

Orlando Talk Given By E. F. Lane

Edward F. Lane, past president of the local Shrine Club, was the speaker at a meeting of the club at the Shrine Temple in Orlando on Wednesday at 12:15.

Lane outlined to the Orange County Shrine Club and its members the history of the Shrine Temple of Orange County, Fla., and the Shrine Temple of North America, which was founded in New York in 1878 to help the poor and suffering.

South Missouri Faces Threat Of Serious Floods

Danger Of High Water Abates In Arkansas; Relief Is Organized

A flood threat arose today in southeastern Missouri while reconstruction crews tackled a big job in the rest of the midwestern states where tornadoes killed 25 persons, Wednesday, and caused property damage approximating \$2,000,000.

In Missouri, one of the regions hit by the twisters, the St. Francis and Black rivers threatened trouble. High waters abated in Arkansas.

In two places where the wind struck hardest—Columbus, Kas., and Perkins, Ill.—relief was organized for homeless hundreds.

A preliminary Red Cross survey showed at least 2,500 persons in the central Illinois area lost their homes. At Columbus about 600 required help.

The storms swept out of Arkansas and northeastern Oklahoma, across the corner of Kansas, up through Missouri and then dipped into Illinois and Kentucky.

W. R. DuPres

City Commissioner W. R. DuPres announced his candidacy early this week for State Comptrollerman from Seminola County. Mr. DuPres has been a resident of this county for the past 17 years where he has been prominently identified with various civic and business organizations.

Navy Chiefs Ban Night Flying In Pacific Maneuvers

HONOLULU, Apr. 1.—The U. S. Navy today banned night flying in the vicinity of the Hawaiian Islands as the result of two plane disasters that cost 11 lives during the current war games.

Despite the mishaps, naval officials said the aircraft performed "wonderful services" as scouts during the mock defense of the Islands.

Aboard the plane lost yesterday were Lieut. Charles Signer, Aviation Cadet R. J. Irrobino, Aviation Machinist's Mate P. E. Fanchon and J. A. Bingham, and Radioman G. T. Williamson and C. E. Oulundson.

Regardless of their fate the Navy counted at least 24 aviation deaths and numerous fleet injuries as the result of the 1938 Pacific operations, which perhaps more nearly approached war conditions than any previous American peacetime naval maneuvers.

Near the northwest shore of Oahu, naval salvage workers found bodies from the wreckage of a long-range bombing plane which crashed in a heavy rain squall yesterday with five men aboard.

Fleet authorities reported that five sailors and one Marine were injured in the successful landing of 1,000 bombs at a submarine base, 75 miles southeast of here, heavy surf swamped the beach and four were washed in the landing.

The landing plane was the first of a series of similar operations in the Pacific.

Low Prices For Florida Celery Still Prevail

Nature Aids Control Group With Prorations For Next Week

Even though only a small portion of the available supply of celery is being shipped from the Florida fields to terminal markets, celery prices continue low and heavily sufficient returns to the shipping costs of the last season.

During the past week there was some reduction in the truck holdings at terminal markets but this seemed to have little effect on the market prices or the demand for the commodity. Truck holdings yesterday were reported as 187 cars as compared with over 300 cars a week ago.

This reduction was effected through the shipping of only one-third of the available supply of celery and the declaration of a three-day holiday for last week, a drastic effort taken by the Celery Control Committee and celery shippers over the state to raise the price of celery.

Celery marketing, however, must be the exception to the rule which says that supply and demand work inversely, for little or no increase in demand has been noted and prices are no better than for previous weeks.

Celery shipments to date this year are over 500 cars short of the amount of the commodity marketed from the state last year, according to the Federal State Market News Service. The total shipped this year is also lower than the number of cars shipped to date in 1937 even though the largest crop in history was planted in the state this year.

Nature, aiding the Control Committee in its prorations, has stepped in with continued warm and dry weather and wrought havoc to the remainder of the crop in most producing sections.

A number of acres in the Sanford and Sarasota sections have been plowed under by growers this week because of insects, blight, plagues, which have gotten out of control. The late celery crop in the Ocala section, however, has been apparently overlooked by Mother Nature since reports indicate that the hot dry weather has had little adverse effect on the crop, which will not be ready for market for some time yet.

In view of this fact, members of the Control Committee are expected to recommend only a low price for celery to the Secretary of Agriculture at the weekly meeting.

The meeting will open in the Malach building at 7:30 o'clock for members in this section and a similar meeting will be held in Sarasota and connected with the group here by long distance telephone.

Apples Given To Local Relief Clients

Approximately 400 bushels of fresh apples have arrived at the local Commodity Distribution Office to be given to relief clients in this County, officials announced today.

The apples will be given to certified clients who present their cards and bring containers. In addition to the apples, canned peas, dried beans, soup and other commodities purchased by the Florida Commodity Corporation are available for certified clients.

CITY NEWS BRIEFS

County Judge R. W. Ware left today for Coolidge, Ga., where he will visit relatives for a few days.

L. E. Jordan today qualified with County Clerk O. P. Herndon as a candidate to succeed himself as a member of the Board of Public Instruction from District No. 3 subject to the May primaries.

Believe it or not, Phil King, Zoo caretaker, was currying "Sandy" Bactrian camel, with a garden rake this morning. The caretaker is grooming the animal for summer weather by removing last winter's heavy coat of hair.

The chances of obtaining Robert Taylor and Greta Garbo to take the leading roles in the Junior Play "Calm Yourself" seemed slim today, Junior Class officials reported, since the stars are holding out for \$100,000. "Any way we have better talent in our school" and besides, it's April Fool," the officials concluded.

A Dictator Machine

It was hardly necessary for President Roosevelt to get the reporters out of bed in the middle of the night to deny that he wants to become a dictator. Only the blindest partisan could conceive of T.D.I. arising around a highly polished boots and a brown shirt shouting "Heil!" at the top of his voice as he extends his palm to the multitudes. This picture simply doesn't suit him at all.

No bogies have been planned under our bed that he has any "inclination to be a dictator," or that he has any "of the qualifications which would make a successful dictator," or that he does not have "too much historical background and too much knowledge of existing dictatorships to make us desire any form of dictatorship for a democracy like the United States of America."

However, to say that it is not enough to satisfy those who have sincere doubts as to the wisdom of current political trends in this country. President Roosevelt's term of office ends in 1940. In a little more than two years someone else will be President of the United States—we believe President Roosevelt will prove his belief in the traditional American democracy by not standing for a third term—and that is where the danger of dictatorship begins.

This President Roosevelt recognizes this danger was shown in one of his 1938 campaign speeches in which he stated that new and powerful machinery had already been created by the government which in the hands of a less humanitarian President could be used as much to oppress the people as he is using it to relieve them. The powers which are given to a Democratic President are apt to remain after the Republicans have returned to office.

It should never be forgotten that the power to raise wages is the power to reduce them, that the power to increase agricultural prices is the power to lower them, that the power to pack the Supreme Court with liberal members is the power to remake it with reactionaries, and that the power to reorganize the entire federal government along lines desired by Democrats is the power to reorganize it similarly by Republicans.

Nor should it ever be forgotten that the Democrats have never held control in the nation's capital for longer than eight years at a time, that the pendulum swings from one extreme to another. These are the things which frightened Democrats are thinking these days realizing that a scientific political machine is being created which some day will be turned over to others to run.

Celery Growers
(From The Lakeland Ledger)
Florida celery growers, faced with a large surplus and the most uncertain marketing problem in years, adopted an agreement and united to help themselves.

Recently they cut their shipments to 220 cars and made a gentleman's agreement not to move a carload for three days. A grower in the Belle Glade section felt free to ship a carload, and other growers gave their consent. But they did not use this as a pretext to break the verbal agreement among themselves. They complied to a carload.

A representative of the celery control committee is in California to seek co-operation from celery growers in that state.

The Department of Agriculture must realize that here in Florida is a group of producers who seek to help themselves in every possible way. It is the finest example of co-operative effort and the department at Washington, which is desirous of lending a helping hand, must be impressed with the earnestness and the patriotism of these Florida growers.

Time For The Soul
A FRIEND OF MINE, a distinguished explorer who spent a couple of years among the savages of the upper Amazon, once attempted a forced march through the jungle. The party made extraordinary speed for the first two days, but on the third morning, when it was time to start, my friend found all the natives sitting on their haunches, looking very solemn and making no preparation to leave.

"They are waiting," the chief explained to my friend. "They cannot move farther until their souls have caught up with their bodies."

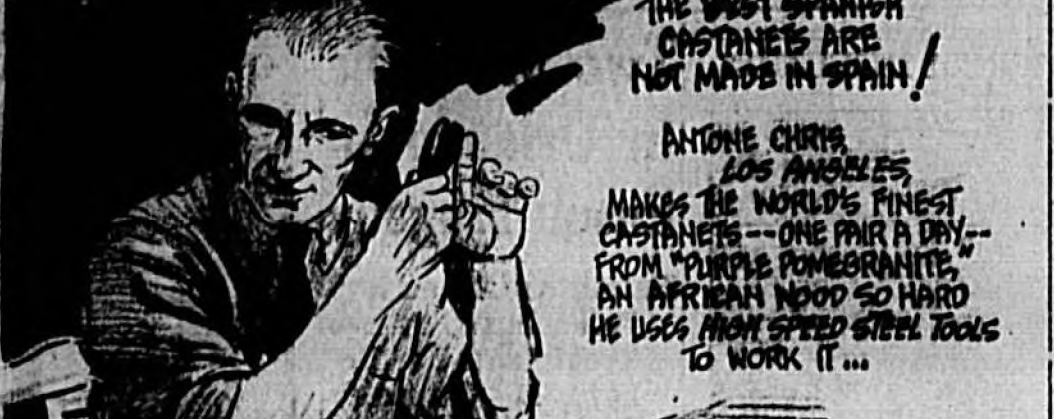

I can think of no better illustration of our own plight today. Is there no way of letting our souls, so to say, catch up with our bodies? If one thinks over the sort of life led in innumerable homes a generation ago, our immediate speeding up in the process of living today is clear. People then, as we say, "had time." Now, no one "has time."

SANFORD TWENTY YEARS AGO
The best wishes of a host of friends follow these young people on their journey through life. San Yonke of Ocala was in the city on business.

Monday night, Quaster Puppe returned his plates to work for the usual extra meal which will cost some \$20,000,000 and make the underground water supplies of Central Florida. The city, he said, had well come home to work for it in the States. Underneath that will get a lot of votes around the State.

Claims Against State Is Bother To Venezuelans

Government Rejects 40 Percent Of Over 7,000 Suits Filed

CARACAS, Venezuela, Apr. 1.—The chief problem confronting Venezuela at present is not a political one but concerns the thousands of claims filed from the estate of the late Generalissimo Venesio Gomez, iron-fisted dictator who ruled the country for nearly 30 years.

Gomez died in 1935, leaving an estate estimated at \$30,000,000. Seventy-five per cent of the property, in accordance with a law enacted after the general's death and which many legal experts contend is unconstitutional, was seized by the Government to repay the nation for loans and lands allegedly taken illegally by Gomez.

The problem, however, concerns the difficulties of dividing the remainder of the estate among the claimants. The estate is chiefly in land, with little actual cash. Government experts have been unable to agree on a method to solve the problem to everybody's satisfaction.

On Feb. 22, the special board investigating claims announced it had rejected 40 per cent of the 7,007 suits filed. The remaining 60 per cent were awarded slightly more than \$16,000,000 but because of the confiscatory law, the award automatically was reduced to \$7,500,000. The distribution is now being worked by the Government.

It has been suggested that a complete inventory of the estate be made and that all claimants to be paid in cash, with Government retaining the lands. Financial experts, however, oppose the plan on the grounds that payment of 25,000,000 bolivares (\$7,500,000) in cash would cause inflation, depress the bolivar's value and raise price levels.

As a result, the newspaper El Heraldo suggested that the best system would be for the Government to take the properties and pay the claims in bonds which could be liquidated at par value for the payment of taxes or other debts.

ESTELLE PAGE RECORD—BREAKING MEDALIST

Mrs. Estelle Lawson Page (right), Chapel Hill, N. C. housewife, was all smiles when she set down to add up her score after chalking up a record-breaking 69, five under par, in qualifying for the North and South Women's golf tournament at Pinehurst, N. C. Kathryn Humphill (left) of Columbia, S. C., who qualified in third place with a 76, also seems very happy about Estelle's feat.

DEATH SHADOWS RESCUE WORKERS IN BARCELONA

In the midst of carrying the dead and dying from Barcelona's bomb-battered streets, these rescuers to-day search for the shadow of death falling from the sky. Blasting a path through government's territory toward the eastern coast, Gen. Franco's insurgent fliers flow over Barcelona and showered the city with bombs that killed nearly 900.

Notice of Chapter 1929, Acts of 1931 and upon written request of GARY HANN I will offer for sale at public outcry to the highest bidder for cash at the Court House entrance in Sanford on the 15th day of April 1932 at 11 o'clock A. M. tax certificate or certificates held by the State together with all omitted and subsequent levied taxes on the following described lands in Seminole County, Florida, to-wit:

Cert. No. 1997 of August 1, 1931, covering 7 1/2 of NW 1/4 of NW 1/4 of Section 28, Township 21 South, Range 23 East.

Cert. No. 1998 of August 1, 1931, covering NW 1/4 of NW 1/4 of Section 28, Township 21 South, Range 23 East.

GENEVA

Mrs. J. T. McLean, Sr., has returned from a visit to Brandon and Dunedin. In Dunedin she was the guest of her daughter, Mrs. J. C. Hall.

Mr. and Mrs. Glenn Whitcomb and children and Mr. H. Spencer of Winter Garden spent Sunday afternoon in Geneva.

The following enjoyed an eye-ear treat at New Smyrna Sunday: Mr. and Mrs. E. S. Hall, Mr. F. Mulkey, Mr. and Mrs. P. H. Dooley, Mr. and Mrs. C. W. Dooley, Mrs. M. E. Dooley, Dr. H. C. Miller and daughter, Mabel, of St. Petersburg, Mrs. F. Reich, Mr. and Mrs. W. J. Sieg, F. Mulkey Jr., Robert LaFis, Jean Moran, Helen Moran, Mrs. C. W. Miller, and H. N. Stivell.

Mrs. M. E. Dooley entertained the party with a buffet supper at her home.

Mrs. E. S. Hall entertained Sunday evening in honor of her sister and brother Jennie Hall and F. Mulkey, Jr. Those present were Miss Mulkey, Jean Moran, Margaret Guipover, Irma and Helen Alderman, Flein Franklin, Edna Bradley, Klidie Lyons, Elicanor Myrhill, Virginia Yarbrough, John Davis, Robert LaFis, Hugh Bradley, F. Mulkey, David Greer of Sanford, Joe Bradley, and Frank Wheeler of Orinda.

Mr. and Mrs. E. N. Hall, Mr. F. Mulkey, Jennie Belle and F. J. Mulkey left Wednesday for Miami where they will visit a few days before returning to their home in Sarasota, Fla.

City Officials Discuss Way To Get Truck Taxes

Continued From Page One
was paid under protest or entered another suit, as the high tribunal upheld the Legislative Act and the license taxes collected under its ordinance.

In the suit to enjoin Haines City from imposing the license fee, Judge H. C. Peltaway in the lower court ruled that the renewal law did not repeal the charter.

City attorney Fred H. Wilson stated that he did not know definitely whether the City of Sanford would abide by the decision of the Supreme Court in the Haines City suit or continue to enforce collection of the fee which would result in a similar suit against this city.

It was announced that representatives Saturday morning would start work on the hospital, which local citizens had offered to build.

The hospital is a WPA project and Robert J. Duval, board chairman, and Gov. Fred P. Cone are slated to be here Saturday morning to participate in the exercises.

It was believed she had been a new field for her and she became sports editor of the Evening Commercial.

Bill Okehed To Give RFC More Power

Continued From Page One
against attempts to evade or delay in the Administration's Reorganization Bill and the House into a parliamentary knot.

Strong opposition to bringing the measure to a final vote during the day was considered an indication that final action might be delayed over the week-end.

Telegraph companies reported they delivered thousands of telegrams to representatives and senators during the night, and the morning managers all were in support or opposition to the bill.

FDR Modifies Demands For Revamp Bill

President Said To Have Decided On No Change For Education Department

Agrees To Give Congress Power

Executive Takes New Stand After House Setback Yesterday

WASHINGTON, Apr. 2.—(AP)—President Roosevelt, upon the advice of house leaders, agreed today to modification of the controversial government reorganization bill.

Informed sources said today as the House convened to consider the program that Mr. Roosevelt had given approval to a demand that the education office remain in the Interior Department and that Congress be permitted to set aside by simple majority any of his reorganization orders under authority of the bill.

The President's modified stand was taken, it was learned, when some of his leaders talked with him by telephone this morning about the setback they suffered last night when the House balked a move to shut off debate on the measure.

The action came after a day of searching debate and crafty parliamentary tactics, in which the opponents of the measure used every device available under the "filibuster-proof" rules of the House to delay action.

Their purpose, they repeatedly asserted, was to postpone final action until a flood of telegrams protesting against passage of the measure could have an effect upon wavering supporters of the bill. More than 50,000 telegrams were received today.

Striving to offset the effect of these messages, Representative Rayburn (Democrat, Tex.), the Democratic floor leader, recalled "faked" telegrams which were sent during the battle over the Public Utilities Holding Company Act, and said at least one of the messages received today could be proved false.

Monkey Island To Be Next Zoo Addition

A "Monkey Island" may be the latest improvement to the Municipal Zoo, according to Supt. of Parks James Moughton.

This method of caging monkeys, Mr. Moughton said, has been adopted in some of the largest Zoos of the nation and he declared that he expected this to be the best improvement at the local menagerie.

The "monkey island" Mr. Moughton explained will consist of an island with trees and a monkey house surrounded by a moat about 10 feet wide filled with water. On the outer edge of the moat a wall approximately 4 feet high will be constructed as a protection to visitors. Monkey's have a natural horror of water, and will never attempt to cross the water filled moat, thus no feeding around the island will be necessary, it was pointed out.

Mr. Moughton further explained that he had almost enough money in the Zoo fund to complete this project and purchase additional Ethopian monkeys which will be the inhabitants of the proposed island, but that any contributions of materials or cash will be appreciated.

Mr. Moughton reported that during the past weeks several hundred parakeets and canaries have been born at the Zoo and that others will be hatched soon. A number of the birds are nest-

Doctor Says Serum Bottle Contaminated

Briskly striding down a street in Dr. T. A. Neal of Orlando, Fla., who recently explained that one bottle of a serum used for treating 11 persons at a clinic must have become contaminated. 10 patients died following injection of the serum.

Hangar Razed By Flames At Miami Plane Terminal

Fourteen Ships Valued At \$1,000,000 Totally Destroyed

MIAMI, Apr. 2.—(AP)—An early morning fire today razed a hangar at the municipal airport, destroying 14 planes and attendant gear valued at \$1,000,000 or more.

W. R. Davis, airport Weather Bureau employee, received face and arm cuts when he broke into a window to reach fire extinguishers.

Al Hansen, city aviation director, said the planes were expensive custom-built craft costing from \$45,000 and \$85,000. Among them were a Palmair stratosphere plane, an amphibian owned by Alexander de Soveraky and a plane built for Jimmy Matern, said to be valued at \$100,000 each.

Origin of the blaze was undetermined. An explosion of gasoline storage tanks which destroyed part of the hangar kept firemen back from the blaze.

CITY NEWS BRIEFS

Roy Burkhalter today qualified with County Clerk O. P. Herndon as a Democratic Committeeman from Precinct 11.

The weekly luncheon of the Rotary Club will be held in the Valdez Hotel Monday at 12:15 o'clock, officials stated today.

The three local detachments of National Guards will hold weekly drills at the Armory Monday night beginning at 8:00 o'clock.

Violators of City ordinances will be tried before Judge Frank L. Miller in a session of the Municipal Court at the Police Station Monday afternoon at 4:00 o'clock.

The monthly meeting of the County Commissioners will be held in the Court House Tuesday morning beginning at 10:00 o'clock, Clerk O. P. Herndon announced today.

Commander of the Campbell Loring Post of the American Legion, G. D. Workman, announced today that the monthly (Continued on page 2)

Celery Group To Continue Heavy Protests

Compromise Of 610 Cars Is Reached After Controversy Between Sections

With growers and shippers in the Sarasota-Manatee section advocating "removing the lid" and allowing shipment of a variable quantity of celery, and growers and shippers in this section desiring a drastic prorata to continue through next week, even to extent of allowing only one-third of the available supply to go to market, the first controversy between the two principal celery producing sections of the state developed at a meeting of the Celery Control Committee last night.

The decision to ship 610 cars in interstate commerce next week was reached only after several compromises and heated arguments which found members of the Sarasota-Manatee section hurling accusations that the nine members here were trying "to throw the books" into the industry in that section.

In advocating at least a 100 percent shipping allotment for the coming week, Committee members at Sarasota declared that the market could satisfactorily absorb the entire amount of good quality celery available for shipment from this state. They charged that this section had very little good celery left and would be only slightly affected by a heavy prorata while the section in the South must discard a large quantity of "good" celery under the heavy prorata.

In upholding their contention, members in this section pointed out that although there was a large amount of celery in this section adversely affected by nature this was taken into consideration in the estimates of the available supply for the week. Chief Estimator, V. Y. Bowman reported estimated yield ranged from 244 to 800 crates per acre in this area.

Localities further pointed out that this section is more affected by heavy proratas than the southern section as they are being made during the peak of the celery season while the peak weeks for the other section are just beginning. Members here declared that the market decline was largely a result of the shipment of 800 cars to terminal markets several weeks ago and declared that the industry could not withstand a similar decline in the markets due to overshipments.

The compromise in which members of the Committee commended shipment of 610 cars was passed by a vote of 10 to 5 and came only after five other motions had been killed.

Another surprise move at the meeting came when the Committee members voted to dispense with purchases through the Stripps Commodity Corporation for the coming week. Reasons given for this action were "a psychological movement to improve the market" and to ship all the celery to market. It was pointed out that much of the best quality celery had been sold for distribution through several channels during past weeks.

Reports at the meeting indicated that there will be no shipments from California during the coming week and that the celery supply of the nation will be shipped solely from Florida.

J. C. Lettice, secretary of the Committee, reported one flagrant violation of overshipment to the Committee which he noted to report to the Secretary of Agriculture and recommend that action be taken. Celery acreage reported for shipment from the Sanford-Oviedo district this week was 430 acres with 153 acres for the Sarasota-Manatee section. This figure is somewhat higher than the available acreage for last week.

RECORD SET ST. PETERSBURG, Apr. 2.—(AP)—An all-time record for visitor registrations at the City Information Bureau was set Thursday night when books were closed for the winter season with a total of 68,507 persons registered.

The figure was 5245 more than registered last season when the previous high mark was established. All of the 48 States, every province of Canada and 51 foreign countries were represented on the visitors' books.

ENTHRONED AS FESTIVAL QUEEN

From among 150 beautifully gowned young women including 10 state queens and 32 princesses, blonde, 20-year old Mary Wright of Lawrence, Mass., was selected to occupy the queen's throne at the Festival of States at St. Petersburg, Fla. She is shown wearing the jeweled crown emblematic of her rank.

Frost And Flood Threaten South Over Wide Area

Sanford Has Driest March Experienced Through Many Years

A cool wave bringing predictions of frost moving into the south today followed a heavy rainfall which set rivers rising in several states. Near freezing temperatures were reported in parts of Arkansas and Tennessee. Excessive rains damaged early crops near Selma, Ala., flooded small streams and washed out several roads. Flood threats in Arkansas abated, however, with predictions of continued fair weather. Creeks were expected today and tomorrow on all Arkansas streams.

White states to the north of Florida suffered from deluges of rain and faced new flood threats. (Continued on Page 2)

Time Extended For Entry In Tourney

Entries for the City golf championship will be accepted as late as tomorrow night, it was announced today.

Pairings for the first round matches will begin immediately. Prizes will be given for winners and runners-up in each flight and for the winner in each consolation flight.

All participants are urged to pay their entry fees as early as possible in order to speed up pairings.

Salvation Army Drive For Funds To Begin Monday

Officials Ask Earl Lehmann To Give Talk At Breakfast

A number of the campaign workers met at Campaign Headquarters yesterday afternoon at 5:00 o'clock to discuss plans for the Salvation Army fund drive which begins Monday morning. At the meeting it was decided that the majors representing the various civic clubs and fraternal lodges will take a number of the prospect cards and contact these prospects as quickly as possible.

Campaign Officials have invited Karl Lehmann former Secretary of the local Chamber of Commerce to speak at the kick-off breakfast Monday morning at 8:00 o'clock in the Valdez Hotel. Fred R. Wilson, general chairman, has invited Mayor Edward Higgins as a special guest at the breakfast.

The prospect cards have all been prepared and grouped by business firms of the city and surrounding territory, and they have all been arranged in such a manner that it will be very little trouble for any worker to do his share in the drive. Capt. Rose stated adding that pledge cards, workers' report forms and other material have been sent to all of the county committees so that they may contact prospects beginning Monday also.

All County Committeemen are invited to the breakfast, and officials hope that as many of them (Continued on Page 2)

Tests Reveal Tetanus Toxin In Two Vials

Physicians Believe Entire Lot Of Serum Contaminated; 10th Death Occurs

ORLANDO, Apr. 2.—(AP)—Dr. Horace Asa Day, president of the Orange County Medical Society, announced today that laboratory tests and animal experiments had proved that the tetanus toxin was present in two vials selected at random from the shipment of cancer serum received by Dr. T. A. Neal, 10 of whose patients have died in the past four days.

Four others of Dr. Neal's patients who had received injections of the serum were in hospitals, three in critical condition. Dr. Day said he, Dr. J. N. Patterson, director of the State Board of Health laboratory in Jacksonville, and Dr. W. G. Workman of the United States Public Health Service gave serum injections to guinea pigs in reaching their conclusion.

Some guinea pigs were given serum and anti-tetanus toxin simultaneously and others were given only the serum. Those given only serum were dead today. The result of the test, said Dr. Day, caused physicians to believe the entire lot of serum received by Dr. Neal had been contaminated by tetanus toxin.

E. F. Bolte, 70, retired vice president of the International Harvester Company was the 10th fatality. He died shortly after four o'clock this morning.

Young Negro Wants To Fight For U. S.

"Where do I go to sign up to go to war?" a patriotic young negro asked County Clerk O. P. Herndon this morning.

"In which War do you want to fight?" the Clerk asked the sincere negro, "there is a war in Japan, in Spain, and recently there was one in Ethiopia."

"I don't care where I fight," the negro replied, "I just want to fight for the United States. I've been reading about wars in the newspapers and I want to fight for the United States."

"Do you want to fight for the City or for the country," the Clerk asked.

"I lives in the City but I want to fight for my country," he replied.

The pugnacious young negro was directed to the County Welfare Office where he could "sign up" to go to a CCC Camp.

Tourist Club To Hold Final Meeting Monday

The final entertainment for members of the Sanford Tourist Club will be held in the Chamber of Commerce Building Monday evening, at 7:30 o'clock, Mrs. C. C. Earl, president of the Club, announced this morning.

The program will be devoted to a discussion of hobbies, and several members plan to exhibit their hobbies, including handicraft, needlework, etc.

Guest entertainers of the evening will be Willard Connolly, with his guitar and Charles DeWane with the accordion. Mr. DeWane will also lead singing.

Negro Man Injured In Truck Accident

Josh Moore, negro, was in the hospital today suffering from a broken hip and arm sustained when he evidently stepped in front of a truck driven by Frank Jones on Geneva Avenue yesterday evening. It was learned at the office of Sheriff C. M. Hand today, Deputy Sheriff Jack Hickcox investigated the incident and stated that, according to witnesses, the negro stepped into the street and was run down by the approaching truck which he apparently had not noticed. The driver of the truck was not held.

SIX SAILORS DROWNED LE HAVRE, France, April 2.—(AP)—Six French sailors were drowned yesterday when the Norwegian tanker Mosell collided with a tug that was attempting to make fast to the vessel in the harbor.

One Of Ten Dead After Taking Serum

Mrs. Jack Sweetman, 42, (above) of Orlando, Fla., was one of 10 patients in Orlando who died following an injection of a serum used for the treatment of cancer. Doctors believed that one bottle of the serum had somehow become contaminated.

Work Progresses Satisfactorily On WPA Park Project

Over 50 Men On Relief Roles Have Been Given Work

With the removal of debris and with the grading well under way on the \$30,000 WPA project for improvement of Fort Mellon Park, work has been acquired by the City and materials have been ordered by the WPA officials so that the project may be pushed to completion with the least possible delay, according to City Engineer Fred T. Williams.

Over 50 men on work relief rolls have been assigned to this project and at least half as many more will be added as work is further advanced, local WPA officials indicated.

The next step in the project will be the hauling of 3,000 yards of muck to cover the area to be improved by this project. D. L. Thresher solved the worries of the City Commissioners in regard to purchase of muck by donating the entire 3,000 yards from his property in Sanford. Tests have shown this muck to be of high quality; it is easily accessible and will not necessitate a long, expensive haul.

Installation of the sub-irrigation system prior to the mucking was planned. City Engineer Fred T. Williams stated but added that the materials for the sub-irrigation system had not arrived, and that the muck could be hauled while awaiting material.

The sand used for the park is being dumped at the West Park Street Dump, Supt. of Parks James Moughton stated, adding that this former muck bed is being made into desirable property because of the large amount of filling that has been done by the City during the past few years.

The cable gas pipes on the park property are now being removed and workers are repairing damaged palms on the parkway bordering the lake between the St. Johns River Line rock and the Maple Hotel.

As work on the park progresses members of the Garden Club are making preparations to aid the City in furnishing necessary plants and shrubs for beautification of the park, according to Mrs. H. M. Papworth, president of the Club.

At the next meeting, Mrs. Papworth stated, a canvass will be made to find what each member is planning to donate for beautification of the park so that some definite idea of the trees and shrubs still required may be ascertained.

WPA officials also reported that materials for the construction of shuffle board, roque, tennis, and other courts included in this project will be forthcoming soon. The project is drawn up on a 7-month basis and, according to local WPA officials, will be easily finished within that time.

Rebels Seize Gandesia, 21 Miles To Sea

Last Important Loyalist Stronghold, Barring March To Sea, Is Captured

French Prepare To Leave Barcelona

Vatican Censures Vienna Bishop For Accepting Hitler Coup

By Associated Press Insurgents moved a step nearer their goal of dividing loyalist Spain as Navarrese forces under General Garcia Valino occupied Gandesia today, only 21 miles from the government's eastern coast.

It was the last important stronghold in Tarragona province barring the insurgent march to the Mediterranean. The insurgents reported the capture of 2,000 prisoners in the seizure of the city.

Insurgent dispatches said the entire northeast Spanish front was moving forward except at Lerida where persistent government resistance forced Generalissimo Franco's forces to circle the besieged city.

France made preparations for a quick evacuation of French citizens from Barcelona if the insurgent march to the sea should cause an emergency there. The possibility of similar aid to U. S. citizens was shown by the fact that the U. S. Cruiser Raleigh was within 12 hours of the threatened Spanish Republican capital.

The French studied the problem of the disposition of 3,000 Spanish government soldiers on French soil and thousands of civilians who fled before the sweep of the insurgent armies in the northeast.

A Vatican radio broadcast referred to pastors who "no longer recognize a wolf in sheep's clothing" and was regarded as censure of the week-old pastoral letter of Theodore Cardinal Inghier of Vienna which asked Austrian Catholics to vote for the Austro-German union in the Apr. 10 plebiscite on Hitler's coup.

French Deputy Saloman Grumbach in an address to the People's Front demonstration warned Germany against any effort to engulf Alsace-Lorraine in Pan-Germanism.

The Chinese sent fresh mechanized units into the battle raging at Taiherchwang on the Grand Canal—a bulwark against Japanese attempts to reach the East-West Lunghai railway. Japanese guns blasted at the walls of Taiherchwang but the Chinese held fast.

Oviedo FFA Chapter To Compete At Meet

The Oviedo chapter of future farmers are planning to enter the majority of contests to be held in DoLand May 14, and will take part in the following contests: public speaking, diamond ball, horseshoe throwing, string-bend, quiet, and parliamentary procedure. The winners of these district contests go to Gainesville to compete in the state convention in June.

The date for the Father and Son Banquet was changed from Apr. 4 to Apr. 12. H. E. Wood of the State Department will be the guest speaker.

The Oviedo chapter is planning to put out a winning diamond ball team for the district meet. Edward Jordan was elected captain of the team and Spencer Wainright was selected alternate. The chapter won first place in quartet singing and diamond ball last year and also first place in the oral presentation in public speaking.

LOCAL WEATHER

Cloudy, showers in south portion tonight or Sunday and on northeast coast early tonight. Colder in north and west coast portions tonight and in south and extreme southeast portions Sunday.
