

GERMANS IN RUSSIA HALTED BY PEACE PACT FAVORING GERMANY

RUSSIAN TRAITORS HAVE WILLED COUNTRY TO KAISER

Russia's delegates at Brest Litovsk have halted the German invasion of great Russia by agreeing to the peace terms offered February 21.

Berlin also announces the signing of peace terms and the cessation of operations. When the German forward movement halted the invaders were at Narva, 100 miles west of Petrograd.

Germany apparently is determined to give the Bolsheviks but a narrow strip along the Gulf of Finland and at the request of the Finnish government is to undertake the expulsion of the Finnish revolutionists and Bolshevik Red Guard from southern Finland.

The Bolshevik foreign office, while permitting the American, Japanese, Chinese, Brazilian and Siamese delegations to leave without restraint, insisted upon endorsing all passports of the others before departure.

Foreigners not connected with the diplomatic service seem, however, to have accompanied the diplomat on their train, while reports suggest others will be able to get away sooner or later.

According to the correspondents of the Morning Post provision shops in Petrograd were absolutely empty on Saturday.

Washington, March 4.—The Russians have begun destroying bridges on the trans-Siberian Railroad, between Lake Balkal and the Chinese frontier.

While without details, officials here believe the Russians are destroying the bridges to prevent an expected advance of Japanese troops.

Mr. Stevens who sent his dispatches from Yokohama, and therefore undoubtedly from Japanese intelligence sources, said it was reported the bridges already destroyed were near Chita, east of Lake Balkal.

Officials do not believe that the destruction of the railroad is in any way part of a plan to prevent Ambassador Francis and the other dip-

lomats from leaving Russia if they choose to do so.

LECTURE FRIDAY NIGHT

Dr. Byrd Will Talk on Conservation of Children at Woman's Club

Dr. Hiram Byrd, scientific secretary of the State Board of Health will deliver a lecture here at the Woman's Club next Friday night at 8 o'clock.

There are some items regarding health and especially public health touched on by Dr. Byrd in his lecture and this is the opportunity to hear these important truths from a recognized authority.

While we are working to win the war in Europe we should also be working to preserve our health in this country and there is nothing quite as important as public health measures.

Come out all of you public spirited citizens Friday night. The lecture is free and is under the auspices of the Woman's Club.

Application for a charter has been made by the East Florida Ranch Company recently formed, with St. Johns county men composing the officers and directorate.

ELKS OPEN CARNIVAL FOR WEEK

KRAUSE SHOWS PUT ON GREAT EXHIBITION

The Elks Carnival opened last night with a large crowd present and while no one expects to have everything running smooth on the first night the carnival folks had the shows running full blast.

A wind storm and rain about nine o'clock put a crimp in the carnival but made the beach fine for today's events.

The Krause Shows are among the best on the road today and have the reputation of being clean, giving the public a place of amusement where the ladies and children can go and feel that they will be protected.

Every afternoon and every night the lake front will be the place for a good time. Come out and bring the children.

COMMITTEES APPOINTED FOR CIRCUS

BIG MEETING CALLED ON THURSDAY NIGHT THIS WEEK

At a meeting of the committee on entertainment of the Seminole chapter Red Cross at the home of Mrs. R. J. Holly last Saturday night the committees for taking care of the arrangements for the big Red Cross Circus to be held here on April 11th, 12th and 13th were appointed.

Several committees were left open as the task of naming them was too stupendous and it is expected that every member of the chapter will constitute themselves a committee in every way.

It has been definitely decided to have all the members of these committees to meet at the Woman's Club next Thursday night at 7:30 to meet with the promoters of the circus and definitely outline the campaign for publicity and getting the circus started.

Programme Committee—Mrs. W. E. Watson, Mrs. E. P. Morse, Mrs. J. S. Wilson.

Queens' Contest—Mrs. S. Buleton, chairman, Mrs. D. E. Thrasher, Mrs. R. A. Newman, Mrs. W. C. Hill, Mrs. C. E. Henry.

Show Committee—Mr. R. J. Holly, chairman, Mrs. E. F. Housholder, Mrs. Julius Takaeb, Mrs. R. J. Holly, Mrs. E. M. Galloway.

Ring Master—Mr. R. J. Holly. Ticket Committee—Mrs. H. C. Gerrard, chairman, Mrs. W. W. Alornathy, Mrs. Zeb. Ratliff, Mrs. W. L. Morgan, Miss Wilkie, Miss Charlotte Iland, Miss Annie Hawkins and chairman of all auxiliaries.

Country Store—Mrs. Fred Williams, chairman, Mrs. S. O. Chase, Mrs. Henry Wight, Mrs. David Speer, Mrs. E. Krupp, Mrs. Forrest Lake, Mrs. E. D. Mobley, Mrs. B. F. Whitner, Mrs. Rump, Mrs. Austin Williams, Mrs. H. McLaughlin, Mr. A. D. Parrish, Mr. Deane Turner.

Ticket Sellers on Grounds—Mr. R. R. Deas, chairman, Messrs. Keys, Dulbosc, Taylor, Abernathy, Couch, Henry, Britt.

Concert Committee—Mr. C. H. Dinger, chairman. Parade Committee—Mr. C. M. Hand, chairman.

Location—Mr. R. J. Holly. Current—Mrs. Turner and Mrs. Holly.

A company with the heading, the Jackson County Live Stock Association was the outcome of a meeting held at the court house of Marianna recently. The meeting was of the keenest interest and twenty members enrolled right away.

A wind storm and rain about nine o'clock put a crimp in the carnival but made the beach fine for today's events.

The Krause Shows are among the best on the road today and have the reputation of being clean, giving the public a place of amusement where the ladies and children can go and feel that they will be protected.

ONE DAY MEATLESS IS PROGRAM

INCREASED SUPPLY OF MEATS IS CAUSE OF CHANGE

Washington, D. C., Mch. 3.—Temporary suspension of the meatless meal and of the special restrictions against the use of pork on Saturday was announced by the food administration tonight as a readjustment of its food conservation program.

The suspension is made effective for an indefinite period, and it probably will last for three months or longer.

Since all restrictions on consumption of mutton and lamb had been lifted previously, the food administration now asks the public for the time being to deny itself in meats only beef and pork on one day a week—Tuesday.

Increased meat consumption, food administration officials believe will itself curtail the use of wheat and the present there is no intention to add to the restrictions already in force against the use of flour.

In a statement tonight setting forth the reasons for the change in program Food Administrator Hoover said:

"The allies have made further and increased demands for breadstuffs, these enlarged demands being caused to some degree by shortage in arrivals from the Argentine. It is, therefore, necessary for the food administration to urge a still further reduction in the consumption of bread and breadstuffs generally, if we are to meet our export necessities.

"Experience shows that the consumption of breadstuffs is intimately with the consumption of meats. For various reasons our supplies of meat for the next two or three months are considerably enlarged and we can supply the allies with all the meat products we have transportation facilities for, and at the same time somewhat increase our own consumption. In these circumstances the food administration considers it wise to relax the voluntary restrictions on meat consumption to some extent with a view to further decreasing bread consumption.

"So long as the present conditions continue the only special restrictions we ask are the beefless and porkless Tuesdays. The meatless meal and the porkless Saturday are no longer asked.

Several of the farmers of the United States are responding to the national call to increase hog production, their increase to all appearances is being attained more rapidly. Of more immediate importance, however are several complex factors which have effected an immediate increase in meat supplies.

"The transportation shortage before the government took over the railroads, the bad weather in January and early in February, the large percentage of immature corn in the last harvest, and the necessity of feeding this corn as rapidly as possible to save it from decay, have not only resulted in backing up the animals—particularly hogs—on the farms for a longer period of feeding

SEMINOLE COUNTY FOURTH AMONG FLORIDA COUNTIES AT THE STATE FAIR

THAT IS WHAT JUDGES SAY REGARDING PRIZES

Out of twenty-two counties entered at the Florida State Fair, Seminole county came out fourth winner. The winners in the order named are as follows: Alachua, Bradford, Palm Beach and Seminole.

This is a distinct addition to the nation's meat supply. It therefore now seems certain that we have such enlarged supplies for at least some months to come that we cannot only increase our exports to their transportation facilities, but at the same time can properly increase our domestic consumption.

The response to the public to our requests for reduced consumption of meat during the past two months has been most gratifying, and this service alone has enabled the government during this period to provide such supplies as transportation to the allies permitted. The enlarged supplies are likely to last for two or three months, after which there will be the usual seasonal decrease in the amount of animals coming to market.

The administration also suggests that in those parts of the country where the old fashioned home preservation of pork is still the custom, this practice should be extended at the present time, as it will relieve the burden upon transportation to and from the packing houses and is economy sound as saving the cost of packing operations and at the same time will provide home supplies of pork to last over the months of decreased supplies.

The food administration desires to repeat that it does not want to give the impression that these are times when simplicity and moderation of living are not critically necessary, but its sole desire is to secure adjustment between our different food supplies and meat changing conditions from time to time, and to keep the public fully and frankly advised of its position, with the full confidence and reliance that whenever it becomes necessary renewed appeals for saving will meet the same loyal response as in the past.

JACKSONVILLE WILL HELP OUR FARMERS

CARTER WILL INVESTIGATE TRANSPORTATION OF VEGETABLES

That the Jacksonville Chamber of Commerce is thoroughly interested in this section of Florida and particularly in Seminole county is indicated by the interest being demonstrated by that organization and by W. R. Carter, the able and impartial editor of the Florida Metropolis, who today is in Washington before Director General McAdoo of the railroads, seeking a better transportation for Florida's products.

Yesterday the Board of Trade of Sanford got busy with the Washington authorities and it is proposed to do all possible to secure results. It is needless to say, however, that unless the key note of the transportation situation is touched and that means a reduction of tonnage so that trains can get over the road, the farmers of this section alone will suffer to the tune of a million dol-

THAT IS WHAT JUDGES SAY REGARDING PRIZES

Without doubt Seminole county, according to the newspapers of the state has received the best advertising of any county exhibiting and the good done for the county cannot be estimated. The decisions, as awarded however did not meet popular acclaim, due to the excellent and varied exhibit put up by Bradford county which, according to many in position to judge concede that Bradford outranked any other county contesting and it was for this reason that several protests were made verbally by other counties—Seminole included.

The judges officiating were Dr. Hannaford, general manager of the fair, assisted by government representatives from Washington and with the exception of Dr. Hannaford's plate on the judges staff, Seminole county feels antipathy with the efforts of the officials of the Florida State Fair and takes pleasure in complimenting the fair officials, thanking them for their courtesies and help. It is also desired to especially extend to Col. Koeler, assistant general manager and to Secretary Kessler, our high appreciation of their impartial assistance to all counties and to commend their ability in connection with the carrying out of the program of the great fair.

Whether Seminole enters again next year or not awaits to be seen after a meeting of the Seminole County Fair Association, with D. C. Marlowe and Tilden Jacobs who were in charge of the exhibit.

Feast for Guards

Saturday night was a big night so far as the County Guards of Geneva and Chuluota were concerned, for on that night they were given a grand time by the good people of Geneva under the able leadership of County Commissioner E. H. Kilbee.

The meeting was held in the town hall of Geneva. At 7 o'clock the Geneva squad assembled at the post office and marched in squad formation to the hall where a good exhibition drill in the manual of arms was given. On account of bad luck the Chuluota boys were late in arriving; but were on the other hand in time for the pillau which was served by the ladies and which was pronounced by those lucky enough to be present as the "best ever."

After supper the entire platoon were given a good drill in the manual of arms, the night being too dark for any outside drill. At a late hour all departed for their homes with a kind spot in their hearts for the good people of Geneva.

The boys of the Geneva and Chuluota platoon are doing good work under the able direction of Sergt. Fred Robbins and Corporals Wm. Kilbee and M. S. Averette, and deserve much praise for the interest they are taking in the company.

Capt. C. H. Dinger, Lieut. W. D. Turner and R. S. Maxwell and 1st Sergt. W. M. Haynes of Sanford were present as invited guests of the occasion and expressed themselves as well pleased with the progress of these two squads. Friday night of this week nearly all the guards of the county will meet in Sanford for a drill and a good drill is expected.

lars within the next sixty days and the state of Florida will realize more than a ten million dollar loss before May 1st. The remedy required is personal action with the Washington officials.

FARMERS MEETING TONIGHT AT COURT HOUSE AT EIGHT O'CLOCK

The farmers of the county who are interested in celery are requested to meet at the court house tonight at eight o'clock. The meeting is called for the purpose of arriving at some definite plan for shipping celery that will reach the markets on time and also to investigate the idea of shipping it by the train load for the cold storage at the other end of the line. There will be much of importance for the growers at this meeting and a large attendance is urged by the farmers of this section. Tonight at the Court House at eight o'clock.

Mrs. McGUIN WAS GREST

Recital for Guards Successful From All Angles

A large and appreciative audience filled the High School Auditorium last evening when Mrs. Wren McGuin gave an "Evening of Story and Song." Mrs. McGuin held her audience spellbound carrying them from tears to laughter at her will.

At the M. E. Church

At the First Methodist church Sunday, March 3 the services will be as follows: Sunday school at 9:30 a. m. In the various organized classes visitors may find a place to spend an hour pleasantly and profitably.

Taylor Made Vice President

At the annual meeting of the stockholders of the Peoples Bank held last week Cashier O. L. Taylor was added to the board of directors and made second vice president.

Directors, D. R. Brissou, F. L. Woodruff, C. F. Williams, W. M. Davis, S. Pulestop, H. R. Stevens, C. M. Hand, O. L. Taylor.

Many improvements are to be made in the Peoples Bank and the interior is being decorated this week and the building improved in many ways.

At Presbyterian Church

Tr. Brownlee writes from the hospital at Orlando that while Mrs. Brownlee is not so well this week he hopes for a change for the better and that he will be able to fill his pulpit here next Sunday.

Sunday school at 9:45. Morning services at 11. Evening services at 7 p. m.

Woman Cures Horse Colic

The men were away as usual. The horse was bad. A lone woman could not "drench" in the old way. She called up a neighbor and her men were away—but: "We have Farris's Colic Remedy that you drop on the horse's tongue," says Mrs.

Neighbor. So she came over and dropped Farris Colic Remedy on the horse's tongue and the horse was well when the men came home. Moral: Get Farris's Colic Remedy so the women can cure horse colic. We sell it at 50 cents a bottle. L. Allen Seed Co.

Roumillat Makes Change

In this issue of The Herald is an announcement that F. E. Roumillat has resigned from the firm of L. R. Phillips & Co., and purchased an interest in the drug store of R. C. Bower where he will greet his friends in the future.

Mrs. A. W. Young, vice president

Section 5 Florida Federation of Vero, Fla., has been the guest of Mrs. Galloway this week. Mrs. Young is a most interesting talker and her address at the Woman's Club Tuesday afternoon was greatly enjoyed.

Percentage Day at Sunday School

Next Sunday will be percentage day at the Baptist Sunday school. This school has adopted a regular report card system as used in the common schools and the first Sunday in each month is set apart as percentage day, at which time each member of the Sunday school receives a report card signed by the superintendent.

Woman's Club Notes

The Club had the much appreciated privilege of having with them Mrs. Young, vice president of the fifth section on last Tuesday, who gave a most earnest and interesting talk on what the clubs are doing and want to do the coming year.

Recital by Celebrated Artist

The Woman's Club announces a dramatic recital to be given by Mrs. Jessie Eldridge Southwick Monday evening, March 11th at the club rooms. Mrs. Southwick is one of America's foremost Shakespearean interpreters and an instructor in Emerson College of Oratory, Boston.

Feed Out Your Hogs Six Weeks Earlier

In every lot of hogs on feed two or three weeks quickly and actually eat less than others. If all would fatten like these, the entire drove would be ready on the market six weeks earlier and to save six weeks feed is an item that you fully understand.

The hog that fattens easily must be in prime physical condition: The B. A. Thomas Hog Powder is a conditioner for hogs. It keeps their system healthy and enables them to fatten quickly without falling a prey to the usual diseases of hogs.

MASTER'S SALE

Notice is hereby given that pursuant to a final decree of foreclosure and sale made and entered by the Judge of Seventh Judicial Circuit, Seminole County, Florida, in chancery, wherein J. A. Check is complainant, and Zachary Crute & Novelty Works a corporation, is defendant, and dated January 30th, 1918, L. E. F. Housholder, as special master, will on Monday the 1st day of April, 1918, during the legal hours of sale, at the court house door in Sanford, Florida, offer for sale, and sell to the highest bidder for cash, the following described personal property located at the mill plant of the defendant in Sanford, Florida, to-wit: Two boilers, one steam engine, one A. Wood machine, one smith moulder, one hand re-saw and edge-comb, one Phillips machine, one turning lathe, one stick-cut, one steam mangle, one panel raising machine, one jointer, one mortising machine, one J. A. Fay and Egan Band-saw, one arched moulder, one slab and door clamp, one cut-off rig, one Newman machine, one pulley system, one main-line shaft and pulley, one log haul-up, one tank trucked

down, two one horse wagons, one flat topped derrick, one leading derrick, one iron safe, three office chairs, one typewriter, all piping, track and trucks, for one dry kiln four hundred feet of 2x4 framing, one large red iron or bar, said property to be sold as the property of the defendant, and to satisfy said decree and costs of said suit, and to satisfy the order of said court.

L. E. F. HOUSHOLDER, Special Master in Chancery.

In Circuit Court, Seventh Judicial Circuit of Florida, in and for Seminole County. In George R. Wendeburg Foreclosure

James H. Bryce, Respondent, James H. Bryce: It appearing from the sworn bill of complaint, George R. Wendeburg, herein filed, that the said James H. Bryce, a resident of the city of Orlando, county of Orange and state of Florida, and that he has been absent from said residence for more than sixty days, and that the said Bryce, and that there is no person in this state service upon whom would bind you, and that you are above the age of twenty-one years, and that I therefore ordered that you do appear in this court to the bill herein filed on the 1st day of April, A. D., 1918, the same being her husband and defendant, J. A. K. Powers, as special master shall offer for sale and sell to the highest bidder for cash before the front door of the court house in Sanford, Seminole county, Florida on Monday, the 1st day of April, 1918, the same being a legal sale day and during the legal hours of sale, the property described in the final decree aforesaid is as follows to-wit: Lot number Three hundred and forty nine (349) in Block or Section number 1 (1) of Section One (1), Township twenty one (21), Range Thirty one (31) east, according to the Hammock Tract, being a subdivision of Sanford, Seminole county, Florida, Dated at Sanford, Seminole county, Florida, this 28th day of February, A. D., 1918.

E. A. DOUGLASS, Clerk of Circuit Court, Seminole Co., Fla. W. Tilden, Solicitor for Complainant

NOTICE OF MASTER'S SALE

Notice is hereby given that under and by virtue of a final decree of foreclosure and sale made on the 4th day of January, A. D., 1918, by James W. Perkins, Judge of the Circuit Court of the Seventh Judicial Circuit of Florida in and for Seminole County, in chancery, in that certain cause therein pending wherein Oliver P. Swopes is complainant and Susan M. Rector and L. E. F. Housholder are defendants, J. A. K. Powers, as special master shall offer for sale and sell to the highest bidder for cash before the front door of the court house in Sanford, Seminole county, Florida on Monday, the 1st day of April, 1918, the same being a legal sale day and during the legal hours of sale, the property described in the final decree aforesaid is as follows to-wit: Lot number Three hundred and forty nine (349) in Block or Section number 1 (1) of Section One (1), Township twenty one (21), Range Thirty one (31) east, according to the Hammock Tract, being a subdivision of Sanford, Seminole county, Florida, Dated at Sanford, Seminole county, Florida, this 28th day of February, A. D., 1918.

A. K. T. HRS., Special Master. Davis & Gibbs, Attorney for Complainant.

POLITICAL ANNOUNCEMENTS

For Member Legislature To the Democratic Voters of Seminole Co.: I hereby announce my candidacy for representative in the next Florida legislature from Seminole county, subject to the democratic primary to be held June 4th of this year, and invite your consideration of my qualifications.

EVEN THE GATE POST NOT IN IT

A CHIEF IS AMONG YE TAKING NOTES AND FAITH, "HE'LL PRENT 'EM"---SO SAYS SAUNTERER.

¶ America is, for Americans. It was before the war and will be even more so after the war. At the present time it is more than that. If there are any here who are not Americans there is a remedy. You get me, you patriotic American citizens of Florida, don't you?

¶ No business can succeed without organization. I said this ten years ago in Sanford and have said it every year since. And certainly this applies to the business of raising crops if it ever applied to any business. No big business these days attempts to live without or-

ganization and system. Can the farmers of the Sanford section get this idea now and can they see the handwriting on the wall or do they need more hard knocks.

¶ There are no fishless days yet but there will be if that fool idea of allowing promiscuous seining carries with the government. The state laws are not what they should be regarding seining but they help some. However the next legislature should make them stronger and our fish supply should be conserved more during the war than ever before. This is no time to kill the

goose that lays the golden egg and the people of Florida are wise enough to realize this truth.

¶ Swat the fellow with the grouch. There never was any excuse for his being alive and there is less now when the great task of winning the war is on us. Hard times and trouble may overtake you just as it is bound to overtake all of us but we cannot help matters by continual grumbling and long faces. All of us have our troubles but all of these petty grievances pale into insignificance compared with the war and the boys who are bearing the brunt of the battle. Stop your knocking and help us win the war.

¶ Bert Walker, the "Village Deacon" in the Osborne, Kansas, Farmer very truthfully says:

"Yes," I heard a fellow say the other day in speaking about a neighbor, "everybody knows he is crooked, but he gets by, just the same." But he doesn't get by. Follow him day after day and you will find that the fellow who is known to be shady in his transactions does not get by half the time. Very likely people do not stop him on the street and tell him in a loud voice that he is a shyster, but they certainly do whisper it behind his back. Watch the crook when he goes into the bank. He gets only what is coming to him there—not a thing more. Fellows around town are always laying for him and they show him no mercy when they get their harpoon into a tender place. You may think the crook is getting by, but he is not, by a long shot. You have no idea the number of golden opportunities that stop before they get to his door. The crook sometimes succeeds, if he is smart. But if he is smart enough to be a successful crook, he could make doubly good by being honest and square. The boy who thinks he can live easier by being a crook has made a failure right off the reel.

The more "influence" you are supposed to have, the more they'll knock on you.

¶ I understand that there is a movement on foot among the merchants to endeavor to close their stores Saturday nights at nine or at least ten o'clock every Saturday night. I advocated this move many years ago on the supposition that the trading public would purchase their supplies earlier Saturday night if they knew that the stores would not keep open until midnight and after and if the merchants would close the patrons would buy earlier. This idea is certainly a good one. It saves lights and drayage and gives the employees a chance to get out early and have some time to themselves Saturday night instead of remaining until after midnight in the stores and I doubt if any money is made after nine o'clock that would not be made just as well before that time. This rule of early closing will not be any good however unless every store in the city enters into the agreement and it does seem that now in war times that such an agreement would meet with the approval of not only all the merchants but all the people.

¶ Now is the time for the people of this city to get together and establish all the business on a cash basis. If not strictly cash, thirty days for the limit. If all the stores would establish the cash idea they could do business upon a more economical basis and sell cheaper. The stores also should cut a lot of the useless delivery system and the buyers should encourage the stores in this and carry home as much of their goods as possible. Deliveries cost money and the delivery system has been worked to death and is one of the systems that will have to be conserved in war times just as food must be conserved. I hope the stores will get together and stay together on this subject and that the people will help them cut out much of the useless deliveries.

Crops for Spring Pasture
Cowpeas, sorghum and sweet corn make the best early spring pasture for all kinds of livestock and are good soiling crops, says J. M. Scott of the University of Florida experiment station. In sixty-five days after planting these crops will be ready for feeding.

Best results will come by planting these crops in rows which will permit cultivation to hasten the growth. A liberal application of fertilizer will of course hasten the growth and make it more abundant.

Make separate fields for each of the crops so that they may be harvested separately. Much difficulty is experienced in harvesting a combination of crops, even if they mature at the same time. If it is desirable to feed two or more crops at the same time mix them after harvesting.

The members of the W. C. T. U. are requested to attend the meeting next Thursday at 3 p. m. at the Methodist church.

Farmers and Fruit Growers

Items of Interest for the Man Behind the Plow

Grade Up The Dairy Herd
Dairying in Florida has not reached the point of greatest development. Neither will that point be reached until the proper breeding, feeding and care of the dairy cow is understood and practiced. John M. Scott of the University of Florida experiment station discusses the improved methods in Bulletin 142, "Dairy in Florida," recently published.

Mr. Scott believes that a dairy cow producing less than 450 gallons of milk a year will not be found profitable, yet the yearly average from the 41,949 dairy cows in the state is 265 gallons. He assigns lack of attention to the improvement of the herds as the chief reason for this low production record. Dairy men have been content to buy addition cows sawn more milk was needed and sell cows when a surplus was produced. To build up a profitable dairy herd economically will require several years' time. It must be done by careful selection and breeding.

Buying cows with high producing records is impracticable since such cows are not placed on the market at prices the average farmer is able to pay. He must choose his best producing cows and breed them to a bull backed by a line of heavy producers. The herd will show marked improvement within a few generations and the improvement will have come at the least cost.

Mr. Scott advises that a good bull be bought, one that has the ability to transmit the milk producing ability of his dam to his offspring, as much time may be saved and a possible loss through trying out a sire averted. The testing out of a sire requires from three to five years. Very few heifers freshen before they are two years old. As a rule, a cow with her first calf does not produce the maximum flow of milk. It may require a second or a third calf before a dairymen could be justified in retaining or discarding the offspring of a sire from the herd. That is why a long chance is taken when a young bull is bought. A proven sire will cost more, and is worth more than a young untried sire.

It can be readily seen why it takes years to build up a productive herd. The truth is there is no end to the work. To maintain a good herd means a constant culling out of the unprofitable cows and the addition of new heifers which are the offspring of the best producing cows in the herd.

Bulletin 142 may be had free by addressing the University of Florida, Experiment station, Gainesville.

Forage Crops Save Grain
Forage crops constitute a strong first line trench against high priced grain. If grain is to be saved, and the crops of production cut down, forage crops are fundamental for maintaining, growing and fattening hogs. Every swine-feeding investigation where an official record has been kept shows in every instance that the use of forage saved grain. Every hog raiser who has tried suitable pasture with the proper amount of grain does not hesitate to recommend the practice to all swine growers.

At the present price of corn and mill feeds a pound of pork can be produced from three to four cents cheaper on pasture than by dry-lot feeding. This statement covers the money value of the proposition—the saving of corn for human consumption and a better thrift of the pasture fed pigs are two more strong points which do not show up in the dollars and cents comparison.

It is advisable to select pasture crops that are known to thrive well in this section of the state in question. Pasture for May and June may be had by planting German millet, sorghum and corn in March, says the University of Florida extension division.

Broadcast the millet, using about ten pounds of seed to the acre, and it will be eight inches high and ready to feed early in May. Sorghum should already be broadcasted in a thick stand is desired. Three jacks will plant an acre and it may be passed when two feet high, which will be about the middle of May. Corn planted in 30 inch rows will require two pecks of seed, and it also will be about two feet high and ready for pasture by the middle of May.

Millet can be planted again in April for June feeding, and sorghum may be planted in May for feeding through July, August and September. The planting of cowpeas for pasture should be deferred until April; they will be ready for feeding early in June.

An acre of millet will pasture ten

60-pound hogs for ten to fifteen days and an acre of sorghum will accommodate fifteen hogs for twice that time. An acre of corn will pasture fifteen hogs for fifteen to twenty days.

Plant Disease-Free Cotton
Cotton growers anxious to avoid loss from cotton anthracnose this season must not overlook the importance of planting seed free from this disease. Anthracnose is a destructive fungus disease that may destroy the greater part of the crop if it gets a start in the field. It is spread mainly by planting seed containing spores or living parts of the fungus. There is no remedy for the disease after it appears in the field is the warning sent out by H. E. Stevens of the University of Florida experiment station. The only sure way to avoid the disease is to plant seed that are known to be free from anthracnose.

Old seed will offer the most reliable source of seed free from the disease. Seed between two and five years old, if they have been kept dry will be reasonably free from the fungus, and all such seed should be planted this season.

Tar Mixture Protects Corn
Some farmers have experienced difficulty in getting a good stand of corn in certain parts of their fields due to the ravages of birds and moles. These pests dig out the grains soon after the plants appear above ground and the stand is reduced. A. P. Spencer of the University of Florida extension division suggests a method whereby relief may be obtained. Dip the seed corn in a tar mixture before planting it.

Mix tar and linseed oil until the mixture will run well or will make a thin coat on the grains. A thin mixture can be had by heating. Pour this over the corn and then rub the corn in sand. The tar will not kill the birds or moles but it makes the corn distasteful to them. Treated corn must be dropped by hand as it will not pass readily through a drill.

It is not advisable to treat all corn in this way, but where land is near a hammock which birds frequent it may be necessary to treat the seed planted there.

Women Catch Fish With Hands.
Fishing in Samoan seas is often done by the women, and without nets, boats or hooks. They simply wade into the water and form themselves into a ring. The fishes being so plentiful, they are almost sure to imprison some in the ring. These women are very quick and active, and every time they catch a fish with their hands they simply throw it, alive, into the basket on their back.

RED CROSS MEETING
The Third Friday of every month will be a business meeting of the Red Cross at Woman's Club on Oak Avenue, at 2:30 p. m.

Plant Three Avocado Trees On Your Place; Better Still, Plant A Grove This Season

Owners of bearing avocado groves are making enormous profits. The delicious nutty flavor of the avocado, and its wonderful food value, have created a demand that for years to come will exceed the supply.

This season plant avocados—a grove, if possible. Even a few trees will mean ready money, besides supplying this delicious food-fruit for home use. Take advantage of the opportunity now.

Every Home in the Citrus Belt Should Have a Few Trees

We offer the choicest varieties—Mexican for the colder sections, Guatemalan for intermediate, and South American for extreme South Florida. For economic as well as other reasons every home owner should plant at least a few avocado trees—with a Calamondin, Lemon or Lime tree for acid.

By planting early-maturing, medium and late varieties you can have ripe fruit practically every month in the year. Plant Avocados—the investment will pay big.

New 1918 catalog, now ready, fully describes avocados. Tells about varieties, how, when and where to plant, and gives much other information. Write today for free copy.

It's Marvelous You Can Hear So Distinctly

"No, I am not visiting in the city. I am at home almost five hundred miles away. We have just had a Bell Telephone put in and I couldn't resist calling you by Long Distance. It's marvelous that we can hear each other as distinctly as though we were in the same room, and the Long Distance rates are so reasonable!

"I really don't see how we ever managed without a Bell Telephone. All the merchants and every one we know uses the Bell. It has saved me thousands of steps and hours of worry already.

"It's worth the cost simply to be able to sit at home and visit with friends hundreds of miles away."

Every Bell Telephone is a Long Distance Station.

THROUGH ORANGE BLOSSOM LAND

TOURIST SHOULD VISIT CENTRAL SOUTH FLORIDA

ST. AUGUSTINE RECORD

A large percentage of visitors to Florida come and go without obtaining any real intimate knowledge of the beauties of this favored state. There are many who have made the railroad journey from Jacksonville to St. Augustine and who have gone back home and told the folks that they "have seen all there is to see in Florida." There are thousands who make the journey by rail either from Jacksonville to Miami or from Jacksonville to Tampa and Fort Myers, who maintain they have seen all there is to see in Florida.

They are wrong. One cannot see the real Florida in all its beauty unless he travels by automobile over the hundreds of miles of good roads that are now open to the motorist.

Naturally the Dixie Highway down the East Coast is the most traveled through route in Florida because it is the most widely advertised in magazines and newspapers, but other portions of the state are now coming in for their share of traffic. A merchant over in Apopka the other day made the statement that there had been more strangers in that beautiful little town during the past year than have been seen there during the preceding half century.

The visitor to the upper East Coast resorts who desires to see something of the central portion of the state now has several alternative routes that offer attractive and agreeable traveling. One can go from Daytona across to DeLand, a distance of 22 miles, the only inconvenience being nine miles of rough road out of Daytona, which will soon be a matter of history, because the brick paving that extends thirteen miles further into DeLand will be continued right through to Daytona this coming summer. From DeLand there are splendid roads running south to Sanford, and a very fair sand-clay highway westward across the St. Johns at Crow's Bluff bridge into Lake county and for eighteen miles into Altoona. Here is encountered one section of Lake county's famous system of modified sheet asphalt highways and from this point there are hundreds of miles of this kind of road open to the motorist. Eustis, Leesburg, Tavares and other exceedingly attractive towns are within easy reach. There are no prettier places in all the south than Leesburg and Eustis with their hills, lakes and groves.

Another route from Daytona; and one that is very pleasant to follow is down the Halifax shores to New Smyrna and thence over a splendid new shell road to Sanford. In the Sanford section there are thousands of acres of celery and lettuce that are just being prepared for shipment to northern points. From Sanford to Orlando over 24 miles of grouted brick highway one passes through orange grove after orange grove, with here and there many exquisitely beautiful towns, such as Altamonte Springs and Winter Park.

Orlando continues to grow in importance and becomes more and more beautiful with the passing of the years. From Orlando alternative routes are offered through Florida's wonderful lake region. A splendid route to take is westward through Oakland to Clermont over wonderful sand clay roads 20 to 30 feet wide and as smooth as a floor. Up hill and down dale the motorist goes, with here and there beautiful lakes bordered by orange groves that pour forth a perfect flood of perfume. All this natural loveliness calls for expressions of delight from the northern visitor who has left the folks back home with the thermometer around zero. Tavares and Leesburg may be the objective points to the north or Kissimmee and Lakeland to the south, but in any and every direction good roads are the rule and not the exception. Despite the dry weather there is much of beauty everywhere to be seen.

A trip through the Land of Orange Blossoms just now is not only a delight but a privilege and one has to visit such beautiful and attractive places as Orlando, Leesburg, Eustis and Lakeland in addition to the more famous East Coast and West Coast resorts before they can truthfully say that they have seen Florida in all its glory.

RED CROSS NOTES

Seminole Chapter is Busy With Real Work. Minutes of executive board of Seminole County Chapter A. R. C., Feb. 11th, 1918, read as follows:

The chairman of the executive board presided at a call meeting on the above date. Minutes of last meeting read and approved.

Mrs. A. E. Hill, chairman of knitting committee received acknowledgment from the captain of Co. C.

at Camp Wheeler, Macon of the receipt of the sweaters sent our boys.

Mrs. David Speer, chairman work room stated it would take about one hundred dollars per week to supply the workers with material.

Mrs. S. O. Chase, chairman of purchasing committee has bills in hand amounting to \$50.00 and asked for funds to pay same, also for money to purchase more material. Mr. Marlowe made motion to appropriate one hundred and fifty dollars for this purpose. Seconded by Mrs. Turner.

Motion made by Mr. Marlowe, seconded by Mr. Deas, for Mrs. Hill to have \$100.00 for the purchase of wool. Carried.

Mr. Deas, treasurer, reported that his books showed at that time a balance of \$347.87.

Mr. Marlowe brought up for discussion card parties and dances for benefit of Red Cross. Motion by Mr. Healey, seconded by Mr. Marlowe this be left on the table. Carried.

Mr. Marlowe discussed plans for a minstrel or society circus. Mr. Healey moved, seconded by Mr. Deas, chairman appoint chairman for committee. Carried.

Mr. Marlowe named chairman of same with Mrs. Galloway, Mrs. Gerrer, Mrs. Curlett, Mr. and Mrs. Holly.

Moved by Mrs. Holly, seconded by Mr. Deas, date of entertainment be left to committee. Carried.

Mrs. McLaulin, chairman of cutting committee asked that Mrs. R. L. Peck and Mrs. E. P. Morse be added to her committee. Moved by Mr. Healey, seconded by Mrs. Speer. Carried.

Moved by Mr. Marlowe, seconded by Mrs. Speer, naming the second Thursday of each month for the executive board meeting. Carried.

No further business meeting adjourned.

Helen E. Curlett.

Sec'y pro tem.

A call meeting of the Chapter will be held on Friday, March 8th, 3 o'clock at the Woman's Club.

It is urged that all members be present, as the election of a secretary is to be held and other important matters are to be brought before the meeting.

List of Bulletins on Hand

For the benefit of those who may not yet have all the government bulletins they wish I herewith give a list of those now on hand available for immediate distribution from and for Seminole county. Those who wish any of these will please apply by postal:

- No. 565—Cornmeal as a Food and Ways of Using.
- No. 807—Bread and Bread Making in the Home.
- No. A-91—Partial Substitutes for Wheat in Bread Making.
- No. 559—Use of Corn, Kaffir and Cowpeas in the Home.
- No. 841—Drying Fruits and Vegetables in the Home.
- No. 881—Preservation of Vegetables by Fermentation and Salting.
- No. 359—Canning Vegetables in the Home.
- No. 391—Economic Use of Meat in the Home.
- No. 34—Meats: Composition and Cooking.
- No. 183—Meat on the Farm: Butchering, Curing and Keeping.
- No. 487—Cheese and Its Economical Uses in the Diet.
- Nos. 808-817 and 824: How to Select Foods.
- Nos. 653—Honey and Its Uses in the Home.
- No. 717—Food for Young Children.
- No. 871—Fresh Fruit as Conservators of Lither- Staple Foods.
- No. 602—Production of Clean Milk.
- No. 658—Cockroaches.
- No. 897—Fleas and Their Control.
- No. 659—The True Clothes Moth.
- No. 159—Some Poultry Pests.
- No. 15—Fla. Bulletin: Moderate Cost Menus and Recipes from Fla. Food Materials.
- No. 18—Jellies, Preserves and Marmalades.

Certain-teed Roofing

From every standpoint of service and cost—

Certain-teed has proved its claim—"The best type of roof for most buildings, and the best quality roofing of its type".

Certain-teed has made good all over the world under all conditions—as proved by its enormous sale. It has become the standard roof for buildings of all types and sizes—

for factories, round houses, elevators, garages, warehouses, hotels, farm buildings, stores, out-buildings, etc.

Its economy is three-fold—first cost moderate, laying cost low, up-keep practically nothing. Its efficiency embraces every important roofing quality—weather proof, spark proof, rust and rot proof, clean and sanitary, and very durable. Certain-teed is not affected by acids, fumes or smoke, and does not melt under the hottest sun.

Guaranteed 5, 10 or 15 years, according to thickness.

It pays to get Certain-teed because it costs no more to lay than ordinary roll roofing, and lasts much longer.

State Fair last week, carnival this week, Society Circus next thing on the program and the end is not in sight. And yet there are people who sigh for something to do.

Hoover says we can eat pork on Saturdays now and when people find out they can eat it on Saturdays it will not taste near so good. It is the forbidden fruit that takes the eye.

The farmers of Sanford may go bad on the celery crop but it will not dampen their ardor. They will be found coming back with some fine spring crops and trying their luck again.

Man committed suicide in Tampa by jumping off the end of the pier. He evidently was not one of the editors who had that camouflaged breakfast. All those fellows walked right off the end of the Tampa Bay and it never hurt them a bit.

Seminole county did not take the first prize at the state fair at Jacksonville but our good little county obtained plenty of advertising and that is the principal thing when it comes to fairs. To visitors to Jax knew Seminole was there you bet.

We are willing to give our fishing industry if need be to ensure defeat of the Huns; but we had burned if we propose to hand it over to fatten a bunch of camouflaging profiteers hiding under the flag and yapping about patriotic duty, which they know nothing of.—Tampa Tribune.

You express our sentiments, exactly, Jaw, and so say we all.

We could not attend the Rotary Club Camouflage Breakfast at Tampa Saturday night, or the Rotary Club Press Dinner at Jacksonville last night, although invited to make an address. But those good fellows at Tampa and Jacksonville have our thanks for the invitation and our regrets at not being able to attend. If there is anything better than a Rotary Club banquet we have never seen it.

WE TOLD YOU SO!

In the government report on the preliminary examination of Canaveral Harbor, Section 12 is as follows:

"The question of flood control and land reclamation are not directly involved, but the flood and reclama-

Non project for the upper St. Johns drainage district may be assisted if a water connection is made between the ocean and Banana river. In the upper St. Johns river drainage project one of the discharge canals is to enter the Indian River at Cocoa. To prevent flooding in Indian River, an outlet to the sea is desirable. There has been some discussion that this connection could be secured by opening an inlet at a point on the coast between Banana river and the ocean. The upper St. Johns river drainage district has in view works that would prevent the flooding of about 350,000 acres of land lying at the head waters of the St. Johns river. It is proposed to discharge the flood waters into the Indian river, diverting them from the St. Johns river.

From the above report we would imagine that some one had admitted that the INLET was in reality to be an OUTLET.—Cocoa Tribune

THE HOME GUARD

The Home Guard companies of Jacksonville lack between one hundred and fifty and two hundred men of being recruited up to their desired strength. They are already stronger than any National Guard organization ever was in this city, but it is desired that the companies be filled to the full war strength and those who have not yet joined should do so.

The guard is well drilled and well equipped. The organization is one of real soldiers who would do real service if occasion should arise and we do not know what circumstances will call them to do duty. Many of the members—in fact the majority of them have seen service for a number of years in the National Guard and this in addition to the training they have received since the Home Guard was organized has given them a very high efficiency in discipline and drill.

It is composed of the very best men in Jacksonville. We doubt whether there ever was in this city or state a military organization of men as high in standing and in intelligence as this organization. It is of our best and it is organized of men beyond the age called for by the war department to take the place of the younger men who have been called on to go to the front. It has already done good service and if it should do no more its organization would be abundantly justified.

But it is ready to respond whenever needed and those who have not yet become members should assume their share of the responsibility. The man who has not joined is placing his share of the duty of preserving order at home on other shoulders. Whether he means to be or not he is really a shirker.

We believe the drills of the Home Guard and the exercises its members take would prove of great benefit to any man. They will help to keep him in good shape physically. Men do not wear out; they rust out. Age with its infirmities is hastened by a lack of proper exercise. It could be longer postponed by a man who would subject himself to such exercise as will keep his blood pulsating, his nerves steady and his muscles strong. There is a double reason for becoming a member of the Home Guard since by doing so a man does his duty by the community and preserves his own health and strength.—Times-Union.

WHY IS THE FLORIDA RAZORBACK?

The razorback hog has long been considered a reproach to Florida, and justly so, for if he has any merit from either an economic or artistic point of view we have never been able to discover it. Even on the score of industry he deserves no credit and sets no good example, for it is simply a case of "rot hog or die" with him, and he roams the swamps and forests, a predatory desperado—a revolting allegory of starvation, lawlessness and degeneracy. Like many other things evil, his influence reaches far beyond the visible horizon, and he hurts the cause of immigration and industrial development, for he gives visitors to the state a poor opinion of both himself and his master, the critical world having a habit of judging a man not only by the company he keeps, but by the stock he raises.

His friends and defenders have never insisted on his beauty, but have been loud in proclaiming that he is "cheap meat" because it costs nothing to feed him, he being his own commissary department and food purveyor; also he is as good to eat as any other kind of hog, therefore he is fully an asset and almost an institution, and as such he deserves to be cherished and perpetuated. But as a matter of fact his meat is tough, stringy and tasteless, and around his starved and shrunk anatomy none of the succulent memories and flavors of "hog killing time" linger in the minds of those who know sure enough hogs when they see them and what a source of profit to the pocket and joy to the appetite they are.

The best that can be said for a razorback is that he is just a little better than nothing in the shape of a hog; but you wouldn't think much of a man who was just a little better than nothing in the shape of a man, and yet it is just as reasonable to approve that kind of a man as it is to approve that kind of a hog. Neither is a desirable citizen; both are liabilities rather than assets, and the sooner we speed up the processes of a beneficent evolution and eliminate them both the better it will be for all good men and all good hogs.

Plenty of good men in Florida own razorback hogs, but they are beginning to doubt their value and to substitute better stock for them, but with some the notion still persists that the razorback is profitable property. He is anything but that, and here are the cold facts and figures in convincing form to prove it:

A Florida farmer over near Hastings, who knew all about razorbacks from long experience, and knew thoroughbred hogs also, determined to find out just what was the difference to his pocketbook in their market value. The Tampa Times tells the rest of the story as follows:

"Here is what he did. He sent 16 hogs to the Jacksonville market; eight of them were pure bred Durocs and eight were razorbacks. Before shipping he had them photographed. When he got his returns he had the checks photographed. Then he published in the Florida Farmer and Stockman both sets of photographs. With all the evidence before them the readers had a chance to make comparisons. 'And this is what the photographs showed. The check for the eight Durocs, seven mouths and one week old was \$332.93.

"The check for the eight razorbacks, one year and a half old was \$25.50.

"Is any stronger evidence needed?"—Quincy Times.

READ THIS AND THINK

In the Washington Times of Thursday, Feb. 21, Arthur Brisbane used the first column of the front page to say some things that we are republishing in these columns today. They are paragraphs that should be published in every newspaper in the United States. The advice they give should be acted upon by congress, for every honest congressman knows it is eminently good advice and that it strikes home. Brisbane says:

"More than three years of fighting—and the war that was to end in a few weeks, because of its horrible destructiveness, would seem to be settling down for a long run.

"With Russia demoralized, a mere parade ground for Prussian troops, this seems to be the situation.

"Eastern Europe, Germany, Bulgaria and Turkey, with Russia for a feeding ground, recruiting field and field for taxation, stand against western Europe and civilization, PLUS THE NORTH AMERICAN CONTINENT.

"A little group of neutrals, Spain and Scandinavia, wait to see which way the cat will jump. Holland and Denmark, fearful of their bloody neighbor, remain inactive.

"If there is any question as to the result in the long run, with England, France and Italy PLUS NORTH AMERICA arrayed against Germany, her Turkish-Bulgarian friends, and her idiotic slobbering Russian slaves,—then the allies OUGHT TO LOSE.

"There have been combinations of murderers and barbarians before, and they have not overcome established civilization.

"If civilized intelligence, courage, power of self defense and organization have fallen so that the three most intelligent nations in Europe, plus the North American Continent are unable to handle the riffraff of Eastern Europe led by Prussian murderers, it would probably be just as well for this brand of civilization to be wiped out and start over again—as did the tail-end of the Greek and Roman civilization when the barbarians came from the north.

"Polite suggestion to statesmen: If you can't help the people don't scare them to death.

"Mr. Lever, chairman of the house committee on agriculture, says 'the food situation is critical but not hopeless.' Thanks for a few kind words.

"You could lose France in your one state of Texas. Yet the French announce that they can supply vegetables, fresh and canned, for all the troops we send over there, in addition to supplying themselves. How do they do it? It's very simple. Intensive cultivation plus one thing.

"What is that thing? It's very simple. THE FRENCH GOVERNMENT LENDS MONEY TO ITS FARMERS.

"The Bank of France has six hundred branches. At any branch the humblest Frenchman can borrow from five dollars up and he pays as low a rate of interest AS THE ROTHSCHILDS IF THEY BOR-

Fire Loss

The annual loss of valuables by fire amounts many millions of dollars. The loss by burglary and theft is also very large. You can avoid all this loss by renting a safe deposit box at our bank.

THE BANK THAT INSURES YOUR DEPOSITS

ROWED A NHUNDRED MILLIONS.

"Easily and simply the man producing food in France can borrow money from his government to help him produce the food. That is why France offers food to our soldiers as well as caring for her own.

"In this country what is the situation? The man that wants a hundred millions gets it from railroads, insurance companies, from the Government itself through the Federal Reserve System and pays a ridiculous low rate of interest.

"The American farmer needing money to buy fertilizer, seed, farm machinery is treated as a beggar when he goes to his local bank. He is charged at least eight per cent—a lucky if he doesn't pay twelve. He is turned away unless he gives perfect security.

"And the Government that finances every PROFITEERING CONTRACTOR ON GOVERNMENT WORK, every Hog Island contract criminal has no money to lend to the farmers.

"Every human being in a black coat and a stove pipe hat in the United States is telling the farmer his duty.

"Raise more wheat, raise more pork, raise more beef, plow, and plant your last acre—such advice and lots more is poured out on the farmer's head. Lend the farmer money and save your advice. If you finance him he'll supply the food and he won't if you don't.

"The most humiliating statement issued by the Government is this:

"We cannot borrow money from our rich men and big banks at 4 per cent. They will not lend it to their country at that rate.

"Therefore, we must raise the interest rate to 4 1/2 per cent, and perhaps raise it more and more, to meet the increase in greed of those that have money to lend."

"Why is it that this glorious Republic, where all men are equal, cannot treat the American dollar as it does the American man?"

"We know that the men are here and we conscript them.

"We know that the money is here WHY CAN'T WE CONSCRIPT THE MONEY?"

"A woman has five sons. We do not leave it to that woman to decide how many sons she shall give to the nation. The country takes the five.

"An American citizen has a thousand millions of dollars—and a great deal more.

"Why does the nation leave it to HIM to decide how many of those dollar children shall serve his country?"—Miami Metropolis.

Telephone Hearings Postponed
 The hearings for the Southern Bell Telephone Co. have been postponed by the railroad commission as the following letter would indicate:

Mr. David Laird, Gen. Mgr., Southern Bell Telephone & Telegraph Co., Savannah, Ga.
 Dear Sir:
 We beg to advise that due to sickness we find it necessary to postpone the following hearing heretofore fixed by formal notice as follows:

Notice No. 175, File No. T-283—
 In the matter of the application of Southern Bell Telephone & Telegraph Company to increase and change its telephone rates in Sanford, Florida, is hereby postponed from March 13, 1918, to April 17th, the city of Sanford, Fla.

Your company will please be governed accordingly.
 Yours very truly,
 R. Hudson Burr,
 Chairman.

The hearing for Geneva has been postponed to April 17th at 10:15 a. m. and Oviedo to April 17th at 10:30 a. m.

now calls for sugar. One cup of honey used in this way usually takes the place of two cups of sugar. The government is urging the conservation of sugar in order that the soldiers may have what is needed, and the use of honey by Florida housewives where possible is a mark of patriotism.

Not only may the women of Florida use honey in cooking, but bee keeping is an occupation in which they may indulge with profit. That is the opinion of Kenneth Hawkins, bee specialist to the U. S. Department of Agriculture, in cooperation with the University of Florida extension division.

Several Government bulletins on the use of honey in the home, and on bee culture are available to women

who are interested. If interested in bee keeping, whether they live in the country or plan to have a few hives in their back yards in town, such women will be given assistance in starting the work. The Department of Agriculture, cooperating with the extension division plans to give all possible assistance during 1918 to the women of the state who will replace sugar with honey in their homes, and who wish to become honey producers in this crisis.

Studying Plant Life in India.
 In order to encourage arboriculture and the study of plant life the government of India has offered a series of valuable prizes to be awarded to those who are most successful in various lines in connection with the growth of trees and shrubs on government land.

THE DOTS SOMEWHERE IN FRANCE.
 By Clifford Leon Sherman.

Dear Folks:—The map course is still going on and it won't be long until we are all expert at it. It seems kind of funny that some of us should be doing our bit with a lead pencil instead of a gun. But it pays in the long run. Yesterday we learned a whole lot of new signs, which I am sending home for the kids. The officer explained the signs for wells and springs, but said, if we wanted a whole lot of water in a hurry, we should study our maps very carefully, and look for the sign of the SAMMY.

To complete the picture, draw a line from dot 1 to dot 2, then from dot 2 to dot 3, and so on.

In and About The City

Summary of the
Floating Small
Talks Succinctly
Arranged for
Herald Readers

Lyceum benefit March 19.
Don't fail to hear Mrs. Southwick in dramatic recital Monday evening. See Club column. 56-1tp
Break your Cold or LeGrippe with a few doses of 666. 39-26tc
Fun by the gentlemen in their songs, March 19.

Osteopath—Dr. W. M. Harper—Office and operating rooms Seminole Bank building, phone 195. 52-5tp

The choruses by the ladies the evening of March 19 are alone worth the small admission fee.

Mrs. Jessie E. Southwick will give a dramatic recital Monday evening for club benefit at club rooms. See Club column. 56-1tp

Among the good things arranged for the concert March 19 is the cornet solo by Mrs. Herndon.

RUB-MY-TISM — Antiseptic Relieves Rheumatism Sprains Neuralgia etc. 39-26tc

The Ladies' Quartet is among the charmers for the evening's entertainment of March 19.

Our greatest and most conservative dailies refer to Mrs. Southwick's works with superlatives. Recital Monday evening. See Club column. 56-1tp

For Wood and heavy hauling see Murrell, or phone 378. 48-1f

Male voices in ensemble will tickle your risibles when you hear them Tuesday evening, March 19.

Middle aged woman with ten years' experience nursing confinement cases. Apply to 1201 Park avenue. 37-1f

Captivating selections, elocutionary, dramatic, pathetic, witty and convulsingly funny at the Lyceum benefit concert Tuesday evening, March 19th.

Regular meeting of Seminole Rebekah Lodge No. 43 Friday evening at 7:30 in Masonic Hall. Initiation. Visiting Rebekahs always welcome. Sec'y.

Pepper plants for sale, both Ruby King and World Beaters. J. E. Spurling, Phone No. 2. 55-2tc

You will certainly miss something if you don't hear "Johnny" Parker sing "April and November"—a comic love song, at the Lyceum benefit concert Tuesday evening, March 19.

Expensive Hemstitching Machine just installed at the millinery shop of Mrs. H. L. Duhart. Ladies of Sanford are invited to call and see this machine in operation. Fourth and Sanford Ave. 13-1f

The fine musical talent of our city and our charming readers will give an evening of entertainment long to be remembered. Remember the date, March 19.

Orlando hasn't anything on Sanford after all. We're to have a real artist too, Mrs. Jessie Eldridge Southwick, Monday evening at the Club rooms. See Club column. 56-1tp

Now is the time to plant your citrus trees. Visit the Lemon Bluff Nurseries, Osteen; Fla., and save money or get prices. 52-5tp

The pipe organ of the Congregational church will be heard in its sweetest of tones as well as majestic volume Tuesday night, March 19, skillfully manipulated by Mrs. Lucille Aspinwall Takach, who

has something 'delightfully entertaining awaiting the audience on that occasion.

For Rent
Both stores and houses. See me and I can supply your needs. H. C. DuBose. 49-8tc

Red Cross Meeting
Seminole Chapter Red Cross will have a meeting at the Sanford Woman's Club House Friday Mar 8th. at 3 o'clock. Business of importance and all requested to be present. 55-2tp

GOV. HANLEY NEXT SUNDAY

Speaks in Interest of State and National Prohibition-Free

Ex-Gov. Hanley comes to Sanford and will speak at the Congregational church Sunday afternoon, at three o'clock in the interest of State and National Prohibition. Gov. Hanley is one of the speakers of note that have devoted their entire time to the eradication of the liquor evil. He is an eloquent and entertaining talker, gives actual facts and figures on the great traffic that eventually ends in the damnation of souls. Every man that could should hear this man. Remember the time, Sunday afternoon three o'clock, the place, Congregational church, and no charge to get in or out. The ladies of the church have arranged a musical program for the occasion and a number of special selections will be rendered on the pipe organ—assuring all who care to go an afternoon of instructive and interesting entertainment.

Red Cross Meeting
Seminole Chapter Red Cross will have a meeting at the Sanford Woman's Club House Friday Mar 8th. at 3 o'clock. Business of importance and all requested to be present. 55-2tp

"The Ever Seeing God"

Using this subject with the text "Thou God Seest Me" Rev. Massey, pastor of the Baptist Temple delivered a most interesting sermon to his congregation Sunday evening. Truly Mr. Massey was feeling the fact that his God was ever seeing, as the message delivered by the pastor was as one divinely sent. The text was used with much effect throughout the entire sermon to drive home the most important points of the sermon. The pastor asserted that all a singer must do to obtain the benefits of the promises of God was "To make his draft sign it in the blood of the Cross" and that "God would honor the draft of his servants."

Mr. Massey is delivering a series of interesting sermons for his evening services at the Temple and the well filled houses at these services bespeak the interest that the Baptists as well as other folks are taking in the meetings.

Red Cross Meeting
Seminole Chapter Red Cross will have a meeting at the Sanford Woman's Club House Friday Mar 8th. at 3 o'clock. Business of importance and all requested to be present. 55-2tp

Miss Robson Entertains

The members of the Wesleyan Truth Seekers Class were delightfully entertained last Tuesday by Miss Sallie Robson, at her home on the Heights. The Truth Seekers, be it remembered, is the class organized by Mrs. Steinmeyer which grew to such goodly proportions under her guiding hand. Upon her removal to Live Oak the class unanimously elected Miss Robson as teacher in her stead. A large representation of the membership gathered Tuesday in response to her invitation to visit the Heights during the glorious orange bloom season.

The business affairs of the class were conducted by Mrs. Hagan, class president. A number of War Saving Stamps were sold by Mrs. Elder, the class representative of the Woman's Council of National Defence, after which, with clear conscience the guests entered upon a Ark Contest was announced. Squares of colored paper and scissors were distributed, and the ladies were told to cut out an animal, the name of which they would find upon their sheet of paper. When all were finished they were pinned up on the wall, two and two as they entered the ark. Dr. Hilburn was given the unenviable task of selecting the best and the worst. Mrs. Keely's horse was adjudged the best. This equine wonder had a head like a kangaroo and ears like a rabbit, it had madly trotting front legs, calmly trotting hind legs and a tail like a feather duster. Yet it really looked

enough like a horse to make more than two guesses as to its identity necessary and it was awarded the first prize, oddly enough, a horse, a prancing gilt horse with a little oblong opening in the back for the insertion of pennies, to promote thrills.

Mrs. Perry's rooster won the booby prize—one beet in a box. Mrs. Perry protested that some one was guilty of a fearful mistake—that there is always, as everyone perfectly well knows, four beats in a measure. The pleasant afternoon closed with a spirited conundrum contest.

Notice to Property Owners
Section 50 of Chapter 5596 of the Laws of Florida provides that "If the taxes upon any real estate shall not be paid before the first day of April of any year, the tax collector, shall advertise and sell."

Please take notice that state and county taxes, if remaining unpaid, will become delinquent on April 1st. Jno. D. Jenkins, Tax Collector, Seminole County. 56-8tc

Frank L. Woodruff Announces for Legislature

To the Voters of Seminole Co.:
"I beg to announce that I am a candidate for re-election to the house or representatives from Seminole county. Having served you in that capacity in the session of 1917 I feel I am prepared to give you better service in 1919. I do not know of any reason why you should not give me a second term, which has always been accorded all representatives in the past. I fully appreciate the high honor paid me in 1916 and I have endeavored at all times to look after the interests of the people of Seminole county and the state of Florida. I hope I have not failed to fulfill your expectations, and I trust you will see your way clear to give me a second term. Again thanking you for the many favors bestowed on me in the past I promise that I will ever be faithful to the trust imposed in me.
Yours very truly,
Frank L. Woodruff.

LETTER TO PRESIDENT WILSON

Regarding Soldiers Who Were Asleep on Sentry Duty

Sanford, Fla., Mar. 2, 1918. His Excellency, Woodrow Wilson, President, Washington, D. C.

My Dear Mr. President:
The cables say four American soldiers on duty on the front line in France were found asleep, that they were court martialled and ordered to be shot. That General Pershing referred the matter to yourself and the Secretary of War.

Mr. President, Henry Watterson once said, "You were not too proud to fight." That when aroused, Woodrow Wilson would prove to be a royal Bengal tiger.

Now is the time to show us France, England and the world that you know that war, common war, is hell, and that this war is ten times hotter than the hell that is baking and blistering the souls of the damned.

And that you mean business, that the War Department means business, and that the soldier who goes to sleep while on guard on the front line in France, supposed to be protecting, not only our army and his comrades in arms, in once sunny but now bleeding France, but also the entire allied army, as will also Christianity, civilization and the destiny of the world, ought to be shot. He should be shot whether from Florida, Maine or Idaho.

If he happens to be my kinsman or yours, or the kinsman or son of one of your secretaries, order General Pershing to execute the law and the judgment of that court martial, and shoot these four American soldiers on the spot.

Child's play—whimpering and whining, will not win the war. Listen to the appeal for clemency from no one.

In New Orleans the spy appealed to General Andrew Jackson and asked that he be given a fair trial. Old Hickory's reply was to the point: "Yes, you shall have a fair trial, but I'll be damned if you don't hang."

Like X-rays, the eyes of millions in these United States and hundreds of millions throughout the world are centered on you, Mr. President, and on our army in France, and you are expected to do your duty and your part, and those boys of ours are expected to do their duty. Our boys—yes, our boys. If those soldiers are not shot, then stop the manufacture of Brownings. Stop sending others of our boys over there, stop sending munition and wheat and meat and money. Mr. President, show the world that you have the backbone of Andrew Jackson, and that when necessary you are in fact a Royal Bengal Tiger.

The writer fought four years in Virginia under General Lee (The

immortal, and in the trenches and I think I know what war means and what it is.

Standing on the top rung of the ladder of fame, and with more power and authority than any man on this earth ever had, the inference is you will not shirk or wince or hesitate to do your duty, to America, to the allies.

And doing your duty, an admiring world will applaud and approve though in sorrow and in tears.

The issues are too tremendous to be ignored. Let me say, I am about 78 and a Woodrow Wilson man.
A. M. Thrasher.

Stork Express
Born to Mr. and Mrs. L. P. McCuller, a fine 12 pound boy.

Born to Mr. and Mrs. Leslie Went of Sanford Heights, a girl on Monday of this week.

Grand Recital Pipe Organ
There will be a treat for the music lovers of Sanford on Thursday evening next, March 7th, at the Holy Cross Church at 8 o'clock. Dr. Minor C. Jones will give the recital and it is given at the earnest request of those who have heard him several times and are anxious to hear him again.

A silver offering will be taken to help defray the expense, and the public is cordially invited to attend. Read the advertisement in another part of this issue.

Rest Room Notes
It has been decided by the committee in charge of the Rest Room and Woman's Exchange that for various reasons it will be wise to close the Exchange during the spring and summer months, and the Exchange members have been notified to that effect.

The committee wishes, however, to extend to the public the hospitality and privileges of the Rest Room, where a quiet hour may be spent when shopping, or while waiting for traveling connections. The residents of Sanford may also find it convenient and restful, during the hours between 9 a. m. and 6 p. m., noon hour included, and it is the hope of the committee to make this room as comfortable and convenient at all times as possible. The public is not only invited, but urged to take advantage of the accommodations offered.

The outlook for a large acreage to be planted in castor beans in Brevard county is very encouraging. The government is offering every inducement to the farmers to plant this crop. They are assured of a market for their crop and the price to be received therefor. The yield will depend largely on the fertility of the soil and cultivation, but as the cultivation is not expensive every one who plants this crop may expect a reasonable profit, besides performing a patriotic duty.

THE CHARM OF NOVELTY attaches to every hat in our exhibit of advance model hats. Every woman who sees them cannot fail to recognize their extra smartness and novel effects. And every woman will know when she prices these hats that we are offering hat values far beyond what could be expected in these days of soaring prices. Early selection is advised.

The Quality Shop

IN SOCIETY'S DOMAIN HAPPENINGS OF INTEREST IN AND AROUND SANFORD

Mrs. No ma King McLaughlin, Social Editor: Anyone having guests, parties or any article for this column, it would be appreciated if they would telephone 270-J

The members of the Junior Knitting League were delightfully entertained Saturday with a picnic by Mrs. Houston at her attractive home on the Heights. A most enjoyable day was spent by the little folks knitting and playing. At one o'clock a lovely picnic dinner was served under the trees. Those present were: Ruth Henry, Maude Lake, Isabel Hagan, Rhoda Vaughn, Mildred Holly, May Holly, Carol Stowe, Margaret Cowan, Helen Gonzales, Olive Newman, Margaret Neal, Mary Elizabeth Puleston, Georgia Mobley, Sarah Williams, Emily Griffin, Virginia Neely, Gladys Nelson, Mildred Houston and Emily Lingle.

Mrs. W. W. Long, in her usually charming manner entertained the Priscillas Friday afternoon at her home on Oak avenue. A most enjoyable afternoon was spent sewing and chatting. At five o'clock dainty refreshments were served. Among the guests were Mrs. J. D. Roberts, Mrs. Patton, Mrs. N. H. Garner, Mrs. A. E. Hill, Mrs. J. E. Pace and Miss Bessie Long.

Mrs. E. D. Mobley, Miss Natalie Moffet, Miss Agnes Edwards, Mr. Hume Rumph and Mr. Raymond Key motored to Daytona Beach Sunday morning and spent a delightful day at that popular resort.

Hon. and Mrs. Forrest Lake, Mrs. R. S. Keeler, Mrs. B. G. Hindley and Mrs. Norma McLaughlin left Sunday for Jacksonville where they will spend several days attending the fair.

Mrs. J. N. Whitner has as her guests Mr. and Mrs. James Dodge of Jacksonville who will spend several weeks with her at her home on Magnolia avenue.

Mr. and Mrs. L. P. McCuller announce the arrival of a son, born March 4th.

Mr. and Mrs. E. L. Ferran, Mr. and Mrs. C. L. Ferran of Eustis

and Mrs. D. L. Thrasher have returned from a delightful trip down the East Coast.

Mr. and Mrs. J. M. Wallace left Sunday for Jacksonville where they they will remain several days the guests of friends.

Mr. and Mrs. Leslie Went are receiving congratulations on the arrival of a daughter, born March 4.

Miss Florence Frank arrived Sunday from Palatka and will be the guest of friends for a few days.

Mrs. J. M. Gillen left Saturday for Plant City, where she will be the guest of friends for several days.

Charles Whitner, the popular salesman for the Armour Fertilizer Co., was in the city yesterday.

Dr. O. J. Miller is in New York City for a week or ten days, combining business and pleasure.

Sam Yountz has returned to Moorehaven after a few days spent in the city on business.

Mr. Gabbett and Mr. Irwin spent several days at Daytona Beach this week.

M. H. McGregor of Jacksonville is in the city for a few days on business.

Dr. Brown of Palatka is in the city for a few days on business.

Lew Hamburger has returned from a business trip to Hastings.

H. R. Roller of Orlando was a Sanford visitor yesterday.

Joe Davis of Orlando is registered at the Hotel Carnes.

Many Mica Deposits.
Mica deposits sufficiently large to develop exist in twenty states.

GRAND ORGAN RECITAL
to be given by
Dr. Minor C. Baldwin
on the
NEW BIG PIPE ORGAN
HOLY CROSS CHURCH
Thursday, March 7th, 1918
Eight p. m.

This recital and program has been arranged at the request of many people who have enjoyed Dr. Baldwin's most brilliant playing, but who have freely expressed themselves as desiring to hear a Recital given on the new large pipe organ of Holy Cross Church.

Thurs. Night, 8. p. m.
HOLY CROSS CHURCH
A silver offering is asked for to defray the expenses.

Announcement!

My store will be open all of this week closing Saturday for good. There are still some Choice Goods left to be sold at Cost. I thank you for your patronage during this sale.

See Me at the Beach

B. L. PERKINS

The HABERDASHER

A Call To Arms.

We stand awed and grieved in the presence of world calamities today. God is moving on the earth and is speaking to His children and His Church as never before.

As the United States enters the great war, the forces of the nation are mobilizing for the conflict. What of the churches of this great nation? Are they also mobilizing for the mobilizing for the momentous crisis that is about to endanger them? Are they ready to keep the war a war for righteousness, liberty and democracy, to hearten and encourage the men who go to the front and their loved ones at home? We hope our churches are ready to answer to this care and wage such Christian warfare that every soldier who stands under the starry banner of our great nation and defends his country will also with reverence defend the kingdom of God.

Friends, we have a far greater victory to win than the mere defeating of the German government, although that is one of the important steps in the great Christian warfare.

What of our missionary obligation at home, must we neglect that because of the fact we are at war with a great and cruel nation abroad? I say most emphatically no, we should strive harder than ever to reach the goal of a Christianized United States. We should at least strive to keep alive the spirit of prayer; to keep steadily in mind the ends for which we are fighting; to close our hearts to hate, arrogance and selfishness; to guard zealously against the lowering of moral standards; to strive as never before to uphold spiritual ideals among our young men and women; to recognize our supremacy of the missionary obligation; every preacher and teacher should hold these things up to their congregation with the em-

phasis it should have. Each preacher and home missionary should strive to bring his own field to God, the work is urgent, the need is great and we should be in earnest. We imagine sometimes some of our workers are unduly excited and overdraw the importance of this work, but friends of Seminole county, do you know what we are facing? Do you know the condition of the moral condition of our own county? If not, a few facts and figures may enlighten you and bring you to a realization of our condition. In Seminole county alone there are 2255 church members, out of a total of 9000 people of the white race, leaving the amazing number of white people who do not recognize our God or our religion, or the supreme importance of the holy Sabbath day, a total of 6745 white people who are entirely without a church. Think of it, my Christian friends, is not the harvest ready? But the laborers are few. And I must admit quite a few are powerless because of being afflicted with the same disease the apostles were at the time afflicted with and Christ had to admonish them so often—"Unbelief." Oh, ye of little faith Christians in Seminole county let us buckle on the sword of righteousness, and may we summon the Christian churches of the south and of Seminole county to such missionary service as will prove an antidote for the terrible poison of unbelief and worldliness which threatens to engulf us. This is our day of judgment. May God give us grace to meet it in Home and Foreign mission fields.

C. S. Bragg,
Chairman Missionary Comm.

"Please Give Me a Ride!"

The courtesies of the road are many, bringing out only the more strongly the failures to observe the

Golden Rule. It is warm walking these days, and will continue to be, and to be given a lift is a mighty comfort. Some auto drivers with room in their cars are thoughtful and kind, and the pedestrians profit thereby; others are thoughtless and selfish and only leave the foot traveler a cloud of dust. Too many simply speed in defiance of laws of safety and kindness.

On a recent day a woman, like many of the rest of us not owning any kind of a vehicle, walked nearly two miles to town to do some necessary errands, and carrying packages walked all the way home, not one of the passing autos having offered her a ride. In spite of the very many experiences of the other sort, it remains true that there should be more courtesy shown. There are three reasons when one has room in his auto for giving the pedestrian a ride. First, to help the traveler, resting his body and filling his soul with thoughts of how good people are; second, for the auto driver's own soul's sake—that he may be disciplined in kindness and saved from habits of selfishness; third, to help establish a habit which shall be the rule of the road—kindness and courtesy.

A favor which costs nothing is sadly lacking in value to the giver; a favor which means slowing up, stopping for a moment, a bit more gasoline, some effort of will—pays. Instead of "Get there!" how would this do for the auto driver's slogan. "Would you like to ride? Thank you?"

Spartan Feminine Poise.
Our idea of poise crystallized into definite form when a perfect 50, almost a stranger to us, with whom we happened to be lunching, inadvertently dropped a grape skin down her decollete and, except for one slight and almost imperceptible wriggle, gave no sign of nervous disturbance as long as we were around.—Olap State Journal.

ITALY TO SOLVE FOOD QUESTION

Mobilization of Agricultural Forces Planned as Emergency War Measure.

MEN TO BE FORCED TO WORK

Radical Action Rendered Imperative by the Necessity of Providing Larger Landowners With Labor Needed to Handle Crops.

Rome.—The first of a series of emergency war measures tending to improve as much as circumstances will permit the difficult food situation will be announced soon. The mobilization of all the agricultural forces of the country will be ordered and the new army sent to work wherever there exists a scarcity of farm labor.

According to the experts of the ministry of agriculture, the radical measure, for which there is no precedent, was rendered imperative by the necessity of supplying the large landowners and the organizations which have engaged in agricultural enterprises on a large scale with all the labor they need for sowing and taking in the crop. The scarcity of labor also has made imperative the co-ordination of work in farming operations.

Take Census of Farm Labor.
The mobilization will take place under the direction of Agriculture Minister Rainetti, who will be assisted by a few of the officers of the Italian general staff. The mayor of each town will be ordered to take the census of all the farm labor of both sexes in his district and state the approximate time needed for local farming work. The next step will be the compulsory enlistment of every man in a new army which will be under the command of regular petty officers.

Active operations will begin early in March. Thanks to different climatic conditions the harvesting season in the south of Italy and in the islands is a month in advance on that of the North. Consequently the authorities expect to move the different agricultural units from place to place till every crop has been taken in and then repeat the operation next year for the plowing and sowing season.

The general staff has promised its heartiest co-operation provided the military situation at the front improves or, at least, remains stationary. In this case two or three hundred thousand men will be temporarily released from the army and sent to work in the farming districts. The men and the women will be paid the prevailing rate of wages.

Expect No Hitch.
The authorities are confident the plan will work without a hitch, and if the results are as predicted, and if the prize and premium system fails, it is not improbable that compulsory farming will be among the after war measures with which the government expects to solve some of the most distressing problems connected with the resupplying and revictualing of the country.

In connection with the present food situation Premier Orlando announced in the chamber of deputies that it could not be improved even if hostilities ceased tomorrow, that the high cost of living and the scarcity of all the necessities of life would continue for a long time after the conclusion of peace, and that the solution of the problem of supplies is that, today, the country must resupply itself or be contented with the little that can be imported from abroad.

At the same time the premier said that before long the people will be called upon to make additional sacrifices, and that in order to increase the ration of the men in the trenches new food restrictions would be imposed on the country at large.

NOW IT'S "KNITTING NERVES"

New York Physical Director Says It's Due to Improper Handling of Needles.

New York.—Now it's "knitting nerves" caused by concentration of mind and hand on the needles. Thousands of women in New York are afflicted, according to Dr. Louis R. Westmiller, physical director of the West Side Y. M. C. A., who adds that his only patients that show symptoms of the new war-time complaint have been women. Dr. Westmiller says that there is liable to be an epidemic of "knitting nerves" unless knitters learn to knit properly.

Dr. C. P. Christenson, president of the Psychological Research society, said: "The women are overworking themselves. Knitting has become a craze. Nerves cannot stand this strain."

NEW INVENTION OF MARINES

It's Called a "Bazooka" and Will Make You "Shake Your Feet" When In Operation.

Port Royal, S. C.—United States marines at this station have a new invention. It's called a "bazooka." No, it isn't a cannon, nor a flying machine, nor a machine gun, but when in operation it will make you "shake your feet." The "bazooka" is a simple contrivance consisting of but two pieces of gas pipe and a funnel, but its secret is the playing. It is said that the Marine Corps Jazz band is the only one in the world that boasts of a "bazooka."

FRENCH TAKE WHEAT

Seven Ounces of Bread Daily Limit—It Except for Hard Workers.

Sacrifice Accepted by French People Uncomplainingly on Government's Explanation of Necessity.

Washington.—Only the very poor, and men and women doing the hardest kind of manual labor, may have more than seven ounces of war bread a day in France from now on, the United States food administration has been advised by the French government. The entire French wheat crop has been requisitioned by the government. This sacrifice has been accepted by the French people uncomplainingly on the government's explanation that only by such restriction can American reinforcements be transported in ships that otherwise would carry grain for their bread, and that, in addition, this grain for French bread can come from America only by virtue of the actual saving of this grain by reduced consumption of bread by the American people.

"These extremely severe measures," said the French statement, "especially the seven ounces a day, have deeply impressed public opinion."

Men who are very poor or who do hard manual labor get about 21 ounces of bread a day; women who are very poor or who are employed on hard work get about 17 ounces a day; everyone else gets seven ounces, which is less than half of a pound loaf, or not more than four or five slices.

This bread is made of flour comprising all the elements of wheat except bran, with a heavy admixture of flour from other cereal grains, which is obligatory.

The price of bread is fixed by various government agencies all along the line between producer and consumer. Baking of pastry or biscuits from flour that is fit for bread is prohibited. Confectioneries and other such shops are closed two days a week. Eating pastries in public is forbidden.

PLAN SPRING GARDEN NOW

Agricultural Department Says There Will Be Need for Large Production in 1918.

Washington.—Take thought of the spring garden now.

Notwithstanding the large production of vegetables last year and the great volume put into cans and jars for winter use, there is nothing to indicate that there will not be equal need for production and conservation in 1918, says the United States department of agriculture.

Many gardens failed last year because of poor soil or poor preparation or both.

This is the time in many sections to break and to fertilize. Then in the spring it will be easier to make the seedbed and the soil will contain plant food.

For the average householder it will be sufficient to prepare ground enough to produce the home supply for eating in the fresh state and for canning, drying or brining for use during the following winter. Producing vegetables for market, should not be undertaken without full knowledge of horticulture and sufficient capital and equipment.

MORE AMERICAN MADE TOYS

War Conditions Develop Industry to Point Where Foreign Competition is Broken Forever.

Washington.—America is now first in the toy making industry. Heretofore the United States has purchased the majority of its toys from Germany, Nuremberg being one of the chief manufacturing centers in former years.

Forced by war conditions to depend upon their own resources, the manufacturers of this country have been making toys and have been so successful that buyers for large stores claim the hold of other countries on this line of business has been broken forever. A few toys are still coming from France, England, Switzerland, and Japan, but the American toys have proved superior, as they are more educational.
