

Semi-Final Battle Best Attraction On Miami Fistic Menu

Campolo-Risko Fight Is Expected To Furnish Entertainment

By Alan Gould
Associated Press
Sports Editor

MIAMI, Fla., Feb. 26.—The one who has been on exhibit along Biscayne Boulevard gave way tomorrow as an attraction to another ten of heavy weight.

Tommy will put a great deal more to himself about the proceedings by the impounding of manager of Bill Schotz, 10 minutes before the start of the contest, collected from his countrymen for representation against him. All agree he will be back into the ring tomorrow evening in the second round of the knockout plan.

They will be put on view by the Miami Society Garden Corporation, in winter headquarters here for the exhibition of the Florida aristocracy of the Florida winter. Millions and others who may have been persuaded by the ballyhoo or the ballyhooing to pay from \$5.00 to \$25 for a peek at the battle festival.

Most of those who now sit outside the octagonal wooden arena on the outskirts of town expect to see the American champion Jim Sharkey beaten the British heavy weight hope pale and gaunt. Phil Scott, in a vain effort to be killed for 10 rounds and not expected to go beyond three or four, left a substantial amount of expertise. If the show is a financial and artistic success, it probably will be in spite of the main event which has developed a sufficient interest or rivalry to promote much ballyhoo.

On the other hand, an extra or dearly attractive cast of five international bouts, of level from which seem of sufficiency to call to the ring, to the Cuban, Argentina, Vicente Campolo and John Risick of Cleveland, who are the keepers of the American boxing's highest honor, to name of his own and private boxer entertainment is expected from the body-pitting Tom Longman, former lightweight champion—against the hard-hitting Belgian, Pierre Charles, Jimmy Maloney, the Boston veteran, against free swinging Moisés Baudouin of France.

There are at least eight boxers, all former boxers under contract for high heavyweight bouts, so far as the men involved are concerned, attached to the main card. The Sharts' Soar, one of the best known fighters of the day, was one of his own, which he dedicated to the champion of Germany for the world's championship in New York in June. The prospects today were the amount of between \$25,000 and \$30,000 will pay upwards of \$200,000 to witness the show. Frank Broon, general manager of Madison Square Garden and his helpers, were optimistic that their fighters would be exceeded and that the "giant" would pass \$100,000 with a heavy load during the last two days. This would insure a substantial profit.

Raskob Friend Has Claims Against Him Of Over 1 Million

NEW YORK, Feb. 26.—(AP)—The New York Evening World said today that Robert Lee Harrison, a lawyer who called himself a friend of John J. Raskob, Democratic national chairman, has been made defendant in a number of civil suits and that evidence and the district are without information as to his whereabouts.

Attorneys for some of his clients have intimated that his obligations would aggregate more than \$1,000,000, one of the chief allegations against Harrison is for \$114,000. Twenty-five employees of his office are said to have claims for pay ranging from \$300 to \$600.

Creditors—14 that more than \$100,000 Harrison was summoned to leave James J. Daly, assistant district attorney, he assured Mr. Daly that everything would come out all right. He promised to return Saturday for further questioning, but for a week has been missing.

There is no criminal action against Harrison. His brokerage offices at 200 Park Avenue, and his home at 30 East 71st Street have been stripped of their furnishings on writs of attachment.

GRACEVILLE—Southern Bell Tel. & Tel. Co. now located in Daniel residence on Cotton Street,

HARTNETT'S ARM CAUSES CHEER IN CUB STRONGHOLD

Husky Catcher Shows Good Form In First Practice Sessions

By Paul McNeilson
Associated Press Sports Writer

AVALON, Santa Catalina Island, Feb. 26.—(AP)—Only four abbreviated practices have been held since the championship Cubs visited their Spring training camp on Catalina Island, yet one of the highest question marks in Manager Joe McCarthy's mind up early answered favorably.

"Gabby" Hartnett's throwing arm, limp throughout the 1929 campaign, seems as good as ever.

For a non-husky Cub catcher threw his arm out in practice

a year ago, it was reasonably

assumed by everyone acquainted

with the muscular portion of a throwing arm that Hartnett was

through. But "Gabby," a big fellow with grit and a determination to come back, doctored and trained all winter, and now asserts his hairy wing is "right."

Manager McCarthy, still in

the skeptical, stepped on several

as during one of the early prac-

ses to get first hand infor-

mation on the much discussed

arm. After stepping half a dozen

feet, he mumbled something

about a "thin glove" and appeared

leashed enough.

"His arm is as good as ever,"

said Andy Lofstrand, 10th

inning and outfielder who will

be the star in the opening

game of the 10th District Tourney

today. "I think Gabby's

catching is as good as ever."

Hartnett's return to form and

unity is about the only spark the

husky believe they require, now

as a good left-handed pitcher

make a jump to another champion-

ship.

There are two or three mem-

bers of the Cub pitching staff

they believe they are certain of a

better year with the big follow-

up of the plate.

The winning of the 10th

District Tourney will be rated

the star test in the tourney

game. Orlando was placed in top

line, while Daytona Beach

Leaving and Sanford were placed

in the lower bracket.

The semi-final Indians, O-

akopee, Umatilla, O. M. W.

Gardiner, Tucumcari, 10th A. M.

and Altona, Pa., and

McKinley, Beloit, 10th A. M.

Leavenworth, Neodesha, 10th A. M.

Daytona Beach, 10th A. M.

Daytona Beach, 10th A. M.

and Lakeland, 10th A. M.

are the other teams.

The semi-final will be played

Saturday afternoon while the 10th

district will be played Sunday.

JUST VOLKS

Arguing with Janet.
Well I know that I should be
stern and dominant and strong.
None should ever bully me.
But I know what is wrong.
With sufficient strength of will;
I should control my actions.
But I know my views are still
subject to a sudden change.
Not with adults am I weak;
Book keeps the grownup stops.
And though heatedly we speak
One of us the quarrel drops,
But when Janet wants to do
Something which I have denied
When the argument is through
Hers is the victorious side.
Nothing daunts her; nothing
checks her determination
Now will be surprised when it is the greatest state in the
union.

She could wear a giant out.

Growth Of The South

Declaring that the South today is on the eve of a great expansion and in the midst of an economic advance "as fundamental as it is striking", Dr. Julian Klein, assistant secretary of commerce, addressed a meeting of international naval stores delegates in Jacksonville Tuesday, and showed conclusively how foolish those persons are who, because of temporary reverses are now contemplating returning to northern homes which they left in the hope of amassing quick fortunes in Florida during the late lamented boom.

Florida is not now a boom state and fortunes are not made quickly, but they are made, wherever there is honest industrious effort put forth, wherever men are willing to work for the success they hope to attain. "In the new industrial South", Dr. Klein said, "we are witnessing a display of extraordinary energy, skill and determination. The activities of the South have ramifications amazingly. Manifold new interests are being vigorously developed. All sorts of splendidly successful productive efforts have sprung up in recent years."

"And certain of these", the speaker continued, "are of an absolutely novel character, promising to make a vital contribution to our American economic life throughout the coming years. The value of southern manufactures and wages paid in southern factories have more than trebled in less than twenty years. Manufactured products of the south were valued in 1927 at \$10,371,000,000, a little more than twice the value of southern crops and livestock."

When one stops to consider that the South was for generations primarily an agricultural section, with practically no industries, the enormity of these figures are more fully understood. Dr. Klein listed the new industries of the South which include the tung-oil industry of Florida, the manufacture of wallboard from waste sugar cane, chemical development of atmospheric nitrogen in Alabama, and West Virginia, petroleum production, power production and many other new and powerful industrial developments.

There can be little doubt that the eyes of the whole nation are, and have been for two or three years, upon the South, particularly upon the southeastern south, and more especially upon Florida, which someone predicted the other day would have a population of forty millions by 1940. This may be an optimistic outlook for Florida, but this is a time for optimism. Florida can be the greatest state in the Union, and only those poor misguided fools who sell Florida short now will be surprised when it is the greatest state in the Union.

Unwise Methods

Time was when many small towns in Florida, evidently in an effort to avoid laying taxes with which to pay governmental expenses, adopted "flat methods" of raising funds. These flat tournaments were held up when driving along at twenty miles an hour, and subjected to a fine of fifty five or fifty dollars. But such tactics cost these men more than they made out of it, as tourists, learning from experience and reports, proceeded to avoid such towns. However, one MacLennan, has not learned yet. According to the Miami Herald:

"For a number of years the county seat of Baker county has been a favorite stopover to foreign motorists passing on the Old Spanish Trail running from Tampa to Jacksonville. Governor Carlton has

led upon by a Tennessee man to protect other people from his fate of being caught for speeding and subject to the 'kangaroo court' indigenous to such communities.

"There is nothing the governor can do about the actions of city officials. He can request MacLennan to quit baiting the passing motorist, but he has no jurisdiction there. Only public opinion can cure the evil, the public opinion registers very little on the people of Baker county.

"It used to be the pleasant custom of that county to bait strangers passing through, force them to sit at poker and some similar game and lose all their money before leaving. Ever since the highway from Jacksonville to Lake City was paved, it has been notorious as a speed trap.

"There is something to be said for MacLennan, in that it is not eager to have motor cars steaming through the heart of the business district at 50 and 60 miles an hour. But the 'kangaroo court' is not the way to accomplish a reduction in speed. Two signal lights and some courtesy would accomplish the purpose much better."

Jack Sharkey says he will claim the championship of the world if he beats Phil Scott at Miami. If he beats one of the worst fighters in the game, he will be entitled to the championship, of course.

Senator Wagg of West Palm has been favorably received by our arrow.

A number of Sanford citizens are contributing very generously and very effectively toward making Friday's special edition a most attractive feature. They are writing special articles on a wide variety of topics which we know will be of particular interest to Sanford citizens and visitors.

We note by the Tampa Tribune that Editor Benjamin throws his exchanges on the floor instead of putting them in a trash basket. We're that way too, Uncle Ben. We've never been able to find a trash basket big enough so that we could hit it with an open newspaper.

The death of one sixteen year boy, the blinding of a seven year old girl, and the blinding of two other boys, including himself, has

and girl, among them by their own

sons, has caused now that a new trial is to be held in a month and a half following an automobile accident where there was "insufficient evidence."

UNCOMMON SENSE

By John Blake

THE GIFT OF TIME

I often wonder how the people of a couple of hundred years ago found any time to anything but hard, drudging work.

The Americans, however, had a much lighter job than having to live.

"They had to get their own food from the soil, the woods or the sea.

"They had to spin the thread for their clothing, weave it into cloth and make it up."

And all the time they were conquering the wilderness around them they were often fighting for their lives, with savage Indians.

The people of to-day have a large measure of time as a gift from those who went before them.

A journey from the Atlantic to the Pacific over the plains or around Cape Horn took months.

Now it can be accomplished briefly by air or rail or via the Panama Canal.

"If I want a hat I go into a hat store, select one from a rack, pay for it, put it on and walk out.

The probability is that my ancestor, when they came to the country, had to make their own hats or ask their wives to make them, and each hat was a long time in the manufacture.

But what do we do with this gift of time?

Something, perhaps, but not nearly so much as we could do or as we should do.

I do not think that the boy or girl who goes to school in a bus or a trolley car or walks a few blocks to it learns any more than the school child who sometimes walked four or five miles to the little country school house.

If they do learn more it is because of better school books and better methods of instruction, not any extra time to study which is the gift from the past.

I think that amusement and recreation are very necessary and that people who tried to do without them would soon become a race of crabbled dandies.

But going to racing pictures, very slightly a bad use of the time that your ancestors have saved for you.

Or in contradistinction to night clubs and bathing around in other places where people gather to kill time."

The great scientist takes only time enough to do what he sees can be done in the way of study and research.

So does any great worker or thinker.

Upon them the gift of time is well bestowed.

But on those people who merely spend the extra hours in thinking up new ways to kill time away the gift from our ancestors is utterly wasted.

John L. M. Dookus will tell the stand again tomorrow and explain why he puts nitro-glycerine in gin.

When Senator Borah and Senator Wheeler, both as dry as the Sahara desert, stand up and denounce prohibition enforcement as a failure, there must indeed be something wrong with prohibition.

Seminary City Building, in the City of Sanford, Florida.
Dated this 10th day of February
A. D. 1930.W. H. TURNER,
Liquidator,
Bank of Orleans.**Beware Of Your
Cough From Colds
That Hang On**There's danger for you when
your cough from colds sticks and
hangs on for several days. That
is real danger. A tough, stub-
born cold can be the forerunner
of some serious trouble. Get rid
of such a cough or cold. Get
a bottle of Cremolish.When your throat feels bad
and you are coughing from a
chest cold after you should be
well, when you don't feel strong
when you aren't yourself after a
cold, go and get Cremolish.
It'll know its merits. It
soothes and relieves. We just
want you to feel your cough or cold
go away. Your money back if it
doesn't help. (Adv.)**How One Woman Lost
20 Pounds Of Fat**Lost Her Double Chin
Lost Her Prominent Hip
Lost Her Sluggishness
Gained Physical Vigor
Gained Awareness
Gained a Shapely FigureIf you're still trying to lose
weight, try Cremolish.KREMLIN SALES continue
the 6 mineral salts your body
craves, glands and nerves must
have to function properly.When your vital organs fail
to perform their work correctly
you feel weak and tired, your
skin dry, your hair brittle, your
bones fragile. If you want
to feel better, eat Cremolish.Cremolish contains a
