

Green Beret Patrol Falls To Viet Cong

SAIGON (UPI) — At least 22 members of the elite U. S. Special Forces may have been killed or captured during an advance patrol in the An Lao Valley region this week, it was learned today. The Communist stronghold later was occupied by Allied troops with a fight.

There were only two known survivors from among three teams of the hand-picked Green Beret troops attached to the top secret Project Delta group. A Special Forces team has eight to 12 members and sometimes 15 to 20.

Citrus Shipments Moving North After Big Freeze

LAKELAND (UPI) — Fresh citrus shipments began heading to northern markets in heavy volume today as the Florida Citrus Commission lifted its five-day shipping embargo.

U. S. officials declined to discuss the Special Forces disaster in detail because one of the survivors, seriously wounded and hospitalized in the Philippines with 14 bullet and shrapnel wounds, was Maj. Charles Beckwith, of Miami.

Two views of NATO by NEA's Bill Crawford.

No Help From NATO For War

By Leon Dennen
NEW YORK (NEA) — It is a sad fact that none of the NATO nations has responded to the plea of Secretary of State Dean Rusk for help to fight the undeclared war in Vietnam.

That it will be of top quality fruit, he said. Riley told the Florida Citrus Commission that the check of early and mid-season oranges delivered to processing plants during the freeze embargo showed an average of about 25 per cent damage.

Handyman Tells Of Candy's Love For Her Nephew

MIAMI (UPI) — The scene is a courtroom. Elegant, as courtrooms go, heavily carved wooden beams overhead and ceiling high with windows draped covering the huge windows along one wall.

President Johnson and his diplomatic envoys have repeatedly called on the European nations to contribute to the war effort. Johnson said the United States would find itself today in the same tragic plight as Vietnam.

At the last meeting of NATO's Council held in Paris the U. S. representative, Harlan Cleveland, even told the Europeans that "practical aid" does not necessarily mean troops and military equipment.

Apollo Flight Blastoff Feb. 22

CAPE KENNEDY (UPI) — America's first Apollo space ship and its powerful boosters are being mated to the Lincoln kistat and bugle.

Florida Records Top Traffic Toll

TALLAHASSEE (UPI) — Highway deaths hit a record high of 1,666 in 1965 — the worst year in Florida history. The was the price reported from Highway Patrol Director H. N. Kirkman.

Style Contest For Hot Dog

NEW YORK (UPI) — The City Parks Department is offering a \$2,000 prize to the architect who can design the most stylish hot dog stand for Central Park.

Plant Expands Palm Beach

PALM BEACH (UPI) — The Radio Corporation of America is expanding its station WPTB-TV on the grounds of the \$10 million addition to its electronic computer plant here.

'Storage Space' Topic For Club In Lake Mary

By Frances Wester
A program on ways of improving and stretching clothing storage spaces throughout the house was presented by Mrs. Virginia Tomlinson to the Lake Mary Homemakers' Club at the February meeting.

FIVE GALLONS of blood have been donated to the Seminole County Blood Bank by E. J. Moughton, but not all at one time. Moughton has given 40 pints over the past several years. The gallon jug is symbolic. With Moughton are Mrs. Louise Bateman, recruiter; Mrs. Vera Mathers, RN, and Mrs. Mary Doucette, RN, blood bank director. (Herald Photo)

Seminole Teepee Talk

Ed. Note: Today a new column, devoted to news of Seminole High School activities, begins in The Sanford Herald and will run weekly. Members of the journalism class under the direction of Mrs. Kathleen Lee will take turns as guest columnists. Turning off to Perry Eckelberger, editor of the Seminole SEMINOLE HIGH is all hearts and flowers this week. The Seminole Indians are using their bows and arrows for hunting — hunting hearts that is Seminole students are busy sending greetings to each other through clubs.

Barely Scratched

RISICO, III (UPI) — Donald Farrell hurt one of his fingers when a freight train ran over it. His car was smashed by the train at a grade crossing. He jumped from the vehicle first, but a wheel of the train caught one finger as he rolled from the vehicle. Doctors said the finger was squashed, but not permanently damaged.

Showman Billy Rose Dies

MONTEGO BAY, Jamaica (UPI)—Billy Rose, show business' most successful promoter, died of pneumonia here today.

'Most Excellent' Service Award Won By Hunt's

Hunt Lincoln-Mercury announces the return of service manager Bill Neider, following a short leave of absence. Neider, who has 50 years experience in the automotive business, has been associated with Hunt Lincoln-Mercury for the past 16 years. The service department, for the past three years, has been presented the "Most Excellent Service Award" by Lincoln-Mercury. In addition to Neider, the department boasts five skilled mechanics, trained to give the utmost in quality service using the most modern, up-to-date auto diagnostic equip-

BILL NEIDER

ment. Neider has been trained in all of the modern service techniques and has studied in the mechanic's schools of Lincoln-Mercury. Originally from Michigan, Neider and his wife, Myrtle, now make their home in DeBary. They have five children and nine grandchildren. Neider has invited all his friends and former customers to drop by Hunt Lincoln-Mercury and say "hello."

Ex-Solon Held For Murder

JACKSON, Miss. (UPI) — Former state legislator Fred was on \$10,000 bond on a murder charge stemming from the fatal beating of a Jackson waitress. Sison, 38, a Gulfport attorney, was arrested in connection with the death of Janette Rowlette, a 30-year-old native of Anchorage, Alaska. Police said an autopsy report revealed the woman died of "brain hemorrhage caused by trauma to the head, face and neck." She also had several bruises on her body, officers said. Dist. Atty. William Walter said bruises on the victim's neck indicated she may have been choked as well as beaten. Walter said the woman and Sison went to a motel room Sunday night from the night-club where she worked. He said she was found injured in the room Monday morning by a taxi driver and his wife. Miss Rowlette was taken home by the taxi driver, Walter said, and a woman who lived in the house called police later when she found Miss Rowlette in a "hysterical state." She died in a hospital 14 hours later. Walter said Sison was in the motel room when the injured woman was taken to her home.

Nuclear Dangers Told To Students

Eugene Kelley, Sanford architect, and Herb Johnson, Civil Defense director of Seminole County, visited South Seminole Junior High School, at the invitation of Richard Miller, science teacher. Kelley addressed Miller's science class and pinpointed the dangers from nuclear detonations and the measures individuals can take to protect themselves from these hazards. Kelley said there is very great hope for survival during and after an all-out nuclear attack, if people will inform themselves, and act on this information.

HUNT LINCOLN-MERCURY has received a special shipment of Mercury Comet's new custom sports coupes as part of a national "White Hot" Promotion observing the recent sale of the one millionth Comet. The car thus became the first in its class to reach the million salesmark. The custom sports coupe is a special model just released by Lincoln-Mercury Division, with vinyl trim and carpeting replacing the customary cloth upholstery and rubber floor mats, and with decorative brightwork and wheel covers.

Psychiatrist Sought For Seminole Practice

Local civic clubs are getting behind a push by the Seminole County Mental Health Association's efforts to interest a doctor trained in psychiatry in practicing in Seminole County. Sanford Civilians, Jaycees and Kiwanis Club have added their approval to a resolution passed by the SCMH, in an attempt to arouse public interest and stimulate a concerted effort to establish care here for mentally disturbed persons. The resolution points out that Seminole Memorial Hospital is now in the process of constructing a new wing with facilities set aside for the care and treatment of the mentally ill. There have been 14 cases of attempted suicide hospitalized during 1964-65 and 15 persons held in the county jail. Mental Health Association officials, led by Rev. John Hires, president, notes that 12 local doctors have indicated the need for additional facilities and trained help to care for persons with psychiatric and emotional disorders. It is estimated that for every 1,000 inhabitants of the community, 71 persons will be emotionally disturbed to the point of needing professional help. There were 1,407 cases recorded in this area during 1964. More than 100 cases per month are referred to the Juvenile Court center. "If the community expresses its interest and need we feel this can be communicated to psychiatric doctors who are considering a change of location or young doctors who are setting up practice," Rev. Hires explained. Dr. Frank Leone, director of the Seminole County Health Department, noted that all of the surrounding counties have some kind of full or part-time mental health clinic and services. "Only Seminole County is without service of any kind and the need here is great," Dr. Leone said.

Troop 507 To Have Campout

By Frances Wester
In observance of Boy Scout Week, Troop 507 of Grace Methodist Church will have a campout this Friday and Saturday on the church grounds located off Onora Road. There will be open house all day Saturday and the public is invited to visit at any time. The boys will be practicing skills and working on advancements. Russ Kliner is scoutmaster and Bill Lester is assistant.

A native of Atlanta, Ga., the younger Hunt attended school in Sanford and was graduated from Seminole High School in 1955. He received his bachelor and master of science degrees from Georgia Tech, graduating in 1961. Following his graduation from college, Joe was employed as senior engineering planner with Dynatronics, Inc. in South Seminole, and McDonnell Aircraft in St. Louis, Mo., as a cost analyst. It was Joe's "love of Sanford" that made him return, and he says the "expansion and growth of Lincoln-Mercury sales in Seminole County gave me the wonderful opportunity to join my father in his growing operation." Joe is married to the former Miss Iris Casway, of Sanford, and they are presently residing at 1308 Locust Avenue.

Board Meeting

A meeting for executive board members only of the Geneva Historical and Genealogical Society will be held at 4 p.m. Sunday at the Museum. Plans for upcoming projects and activities will be discussed.

The Good Ol' Florida Sunshine

Abhh!... in Florida weather great. Here we are in the first half of February, the sun is shining bright, the temperatures are near the 80 mark and spring sports are getting underway at Seminole High School.

Up north in our native "snow-bond" hills of West Virginia, its still quite chilly, you can hardly feel the sun in its few moments of light between mountains and spring athletes are still hibernating. They might get outside by mid-March but it usually always drows during and April baseball games.

But down here it's different. The warm days (most of 'em are, anyway) have enabled the Seminole High basketball and tracksters to enjoy outdoor practice sessions for the past three weeks and initial competition begins one week from Saturday, Feb. 19, when the Fighting Seminole track team enters the Wildcat Open Meet on the Evans High track.

Track Coach Dick Williams is conservatively optimistic about this year's track squad. "We should be better than last year," says Dick, "but I don't know whether we'll be strong enough to win any championships or not."

Last year the Seminole track team finished second in the Metro Conference, some 20-points behind powerful Winter Park, but was outdistanced in the state AA meet.

During the season, 10 of the 16 Seminole High track records were surpassed and four of the six standards that didn't were in the hand of Coach Williams.

Williams, a cheerful, but stern and beautiful mentor, feels that this year's team will surpass even last year's efforts, but a contender again in the Metro Conference and have an even better shot in the state AA meet.

Williams, Gray and Weber will be the captains of this year's team.

Walstrom Heads Seminoles Sprinters Looking at his squad, event by event, here's what Williams sees:

100-yard high hurdles - Returning to letterman Tom Foreman, a senior, whose best time last year was around 16.0 flat. The school record is 15.1 set by George Markos last year. Two sophomores, Darrell Yoderick and Fred Weber, back up Foreman in the high hurdles.

100 and 200 yard runs - Rick Walstrom and Bill Pettit are two outstanding runners in the sprint and relay. Walstrom holds the school record in the 100 with a 10.12 clocking, while Pettit turned in a 10.1 last year. Other sprinters are junior Mike Underwood, Al Peoples, Ken Martin and Ralph Foley, with Martin probably the fastest of the four. The school's 200 record is 22.5, set by the late Buddy Lawson in 1962.

100 and 200 yard runs - Rick Walstrom and Bill Pettit are two outstanding runners in the sprint and relay. Walstrom holds the school record in the 100 with a 10.12 clocking, while Pettit turned in a 10.1 last year. Other sprinters are junior Mike Underwood, Al Peoples, Ken Martin and Ralph Foley, with Martin probably the fastest of the four. The school's 200 record is 22.5, set by the late Buddy Lawson in 1962.

100-yard hurdles - Walstrom is a good bet here. He holds the school record of 20.2 which he set last year. Foreman will be the other entry.

800-yard run - Riel Weber will be one of the best around in the half mile event. He ran a 2:00.2 last year, a school record, and a mere second improvement would put him near the 1:58 that won the state in Class A last year.

1600-yard run - Riel Weber will be one of the best around in the half mile event. He ran a 2:00.2 last year, a school record, and a mere second improvement would put him near the 1:58 that won the state in Class A last year.

400-yard run - Riel Weber will be one of the best around in the half mile event. He ran a 2:00.2 last year, a school record, and a mere second improvement would put him near the 1:58 that won the state in Class A last year.

800-yard run - Riel Weber will be one of the best around in the half mile event. He ran a 2:00.2 last year, a school record, and a mere second improvement would put him near the 1:58 that won the state in Class A last year.

1600-yard run - Riel Weber will be one of the best around in the half mile event. He ran a 2:00.2 last year, a school record, and a mere second improvement would put him near the 1:58 that won the state in Class A last year.

3200-yard run - Riel Weber will be one of the best around in the half mile event. He ran a 2:00.2 last year, a school record, and a mere second improvement would put him near the 1:58 that won the state in Class A last year.

DICK WILLIAMS

Optimistic

RICK WALSTROM

Top Sprinter

including the conference, group, regional and state meets, some 20 dates have been scheduled by Coach Williams. The big ones after the Wildcat Open are the Kivans Relay, March 12 in Orlando; Leasure Invitational, March 17; Edge-water Relay, March 18; Florida Relays in Gainesville, March 19; Evans' Day Invitational, April 8; Seminole County Meet, April 15; Metro Conference Meet in Orlando, April 23; group meet, April 30; regional meet, May 7; and state meet, April 14.

One small, but important meet will be a March 4 trip to Deland against the Bulldogs and Daytona Seabreeze. All three schools were Class AA last year, but have dropped to class A this year and appear to be the best in the region and all should be contenders in the state also.

An April 1 meet at Thomasville, Ga., is being eyed by Coach Williams, but this trip is not definite yet. If the team goes, it will be to the best in the region and all should be contenders in the state also.

Walstrom, Gray and Weber will be the captains of this year's team.

Kentucky Begins 4-Game SEC Tour

Cats, Auburn on TV Saturday

ATLANTA (UPI)—Unbeaten Kentucky, the nation's No. 1 college basketball team, moves into Auburn Saturday as the first stop on a four-game Deep South tour expected to lead the Wildcats to their 23rd Southeastern Conference title and a chance for a fifth NCAA crown.

The fast-breaking Wildcats, overcoming a lack of height with sharp shooting and great ball handling, hope to make the Tigers their 19th straight victim of the season and thereby extend their winning streak to 21 games.

In addition to Auburn (beat by Kentucky 117-78 at Lexington), the Wildcats' road trip includes visits to Alabama (beaten 82-64 here), Mississippi State (beat by seven-ranked Vanderbilt for runnerup spot in the SEC), and Mississippi (a conference west sister).

Then comes what now shapes up as the toughest of the tour: a game at Georgia on this date, then they'll visit the Peach Relays at Daytona.

Williams feels Winter Park is the team to beat again in the conference. "You know they had 150 boys out for track," he remarked, "and we had only 37."

Presently no major injuries have popped up on the track team, although Walstrom is overcoming a strained foot and may be a while before he hits top form.

Walstrom, Gray and Weber will be the captains of this year's team.

Ralston, Ashe Head Cup Team

NEW YORK (UPI)—An all-star team, including top-ranked Dennis Ralston and current sensation Arthur Ashe, have been named to represent the United States in Davis Cup competition this year.

Completing the team, named Wednesday, are third-ranked Cliff Rickeney of Dallas, Chuck Pasarell of Puerto Rico, the nation's No. 5 player, Marty Riessen No. 8 of Evanston, Ill., and Clark Grabner of Beachwood, Ohio, ranked 12th.

Fourth-ranked Chuck McKinley was omitted after information in double figures for Hawk, topped by Tom Duff's 23 points as St. Joe's handed Seton its worst home defeat in history.

In games not involving the top eight, ranked past Temple in double overtime 17-12. North Carolina, 83-78, Duquesne, 76-70 and Notre Dame halted its 13-game losing streak by topping Duquesne 84-64.

The squad, with the exception of Ashe and Rickeney, who must attend school, will be under the direct supervision of McCall during the year.

The weekend, Ralston and McKinley will play in an indoor tennis tournament at the University of North Carolina, 83-78, Duquesne, 76-70 and Notre Dame halted its 13-game losing streak by topping Duquesne 84-64.

The weekend, Ralston and McKinley will play in an indoor tennis tournament at the University of North Carolina, 83-78, Duquesne, 76-70 and Notre Dame halted its 13-game losing streak by topping Duquesne 84-64.

The weekend, Ralston and McKinley will play in an indoor tennis tournament at the University of North Carolina, 83-78, Duquesne, 76-70 and Notre Dame halted its 13-game losing streak by topping Duquesne 84-64.

Petty Has 175.9 Lap Spares

MIAMI BEACH (UPI)—Richard Petty turned the Daytona International Speedway 175.9 miles in an hour Wednesday. Track officials couldn't remember a faster lap by a stock car.

The following laps are in the record books: 175.9 by Petty, 175.8 by Dan Gurney, 175.7 by Dan Gurney, 175.6 by Dan Gurney, 175.5 by Dan Gurney, 175.4 by Dan Gurney, 175.3 by Dan Gurney, 175.2 by Dan Gurney, 175.1 by Dan Gurney, 175.0 by Dan Gurney, 174.9 by Dan Gurney, 174.8 by Dan Gurney, 174.7 by Dan Gurney, 174.6 by Dan Gurney, 174.5 by Dan Gurney, 174.4 by Dan Gurney, 174.3 by Dan Gurney, 174.2 by Dan Gurney, 174.1 by Dan Gurney, 174.0 by Dan Gurney, 173.9 by Dan Gurney, 173.8 by Dan Gurney, 173.7 by Dan Gurney, 173.6 by Dan Gurney, 173.5 by Dan Gurney, 173.4 by Dan Gurney, 173.3 by Building Progress Seen At Midway

By Paul Brookshire
 The progress to be made to clear up the Midway-Canaan alum area on the eastern fringes of Sanford.
 Figures released today by the Farmers Home Administration office in Sanford reveal that the federal government has made seven loans of \$64,500 value to replace substandard housing.
 These new homes have been completed in Midway at a cost of \$20,800. Four more new homes are under construction at a value of \$15,000 and another loan has been approved for a new house at \$5,200.
 In addition, the FHA says that there are several applications for new homes pending. It says that the new dwellings are replacing ramshackle houses of substandard classification.
 The FHA also is handling loans for repairs to existing dwellings. These loans are being handled through the Economic Opportunity Act (poverty program).
 In all cases the new dwellings are replacing ramshackle houses of substandard classification.
 The FHA also is handling loans for repairs to existing dwellings. These loans are being handled through the Economic Opportunity Act (poverty program).
 In all cases the new dwellings are replacing ramshackle houses of substandard classification.

HOME OF MRS. REBECCA CUMMINGS, Rt. 2, Sanford, is inspected by Wilson Gordon (left) and Ramon McGough, FHA official. The home was built with a loan from the FHA and replaced a substandard dwelling.

FHA OFFICIAL Ramon McGough looks over one of the new homes built in Midway. The federal government has been making loans to help eliminate poor housing conditions in the community east of Sanford.

A supply of water also would do much to reduce the slums, FHA officials say.
 At the present time most of the residents rely on shallow wells for their water supply. Many of the wells do not have any pumping at all.
 The government has approved a loan of approximately \$95,000 for a water system in the community. Residents are hopeful that it can be tied to the Sanford water system.

Bridge Winners Are Announced

DeBary Duplicate Bridge Club had 16 tables, in two sections, playing at this week's Tuesday afternoon game in the Fireman's Recreation Hall.
 Winners in Section A, directed by Frank Matheson, were, NS, first, Mrs. Mickey Murphy and Mr. Raulin Rose; second, Mrs. Agnes Wacher and George Pearsall; third, Mrs. Pearsall and Mrs. Norman Meyer.
 SW, first, Mrs. Jody Bunell and Mrs. Joanne Paulk; second, Donald MacLaughlin; third, Mrs. Julia Finn and Mrs. Bertha Ballenberger.
 Winners in Section B, directed by Miss Ethel Johnson, were, NS, first, H. Thompson and Mrs. O. N. Lacey; second, Col. and Mrs. William Hague; third, K. Franklin and John Vanderhaegh;
 EW, first, Mrs. Mildred Dozier and Mrs. A. G. Beeson; second, Mrs. William Woodcock and Mrs. E. M. Hinkle; third, Mrs. Richard Stevens and Virgil Metz.

You Can Beat City Hall

TALLAHASSEE (UPI) — A Fort Lauderdale kindergarten owner won a court fight to keep two ponies on his property despite a city ordinance to the contrary.
 Bertram Ellison bought the two ponies for use at his kindergarten in 1961. At that time, there was no ordinance prohibiting horses on such property.
 The ordinance was later changed to prohibit horses and Ellison was arrested. The District Court of Appeals refused to take jurisdiction of the case and Ellison went to the state's highest court.
 The Supreme Court ruled that the District Court should have accepted the case. The judge said, however, they would decide the matter without returning it to the District Court.
 The court ruled the ordinance invalid because the city did not give adequate notice of the proposed change.

FBI Probing Latest FEC Wreck

MELBOURNE (UPI) — Florida East Coast Railway trains were routed around the wreckage of freight cars today while investigators sought clues to the derailment.
 The derailment of two engines and 23 cars Wednesday was the second this year and the latest in a long series of troubles that have plagued the FEC.
 Board Chairman Edward Hall, of Jacksonville, said the FBI was investigating the incident but feared the trucks and road-bed were too badly torn up to reveal the cause of the wreck.
 Fifty-seven cars of an FEC freight train derailed Jan. 7 at Rockledge just north of here, but police said it apparently was accidental.
 The railroad has been operating freight service almost since the beginning of a strike by 11 non-operating unions that walked out Jan. 23, in a wage dispute. It recently started limited passenger service last August under a court order.

Fire Auxiliary Rummage Sale Nets \$52

By Margaret Coakly
 The North Orlando Fire Department Auxiliary held its regular business meeting Tuesday evening at the home of Mrs. William Stratton who, perhaps, will be hosting the group for the last time. Her husband will be transferred to the Egyptian consulate in the not too distant future, and the entire family soon will be leaving the ways of fires, departments, and auxiliaries in another land.
 It was reported that the rummage sale netted the group over \$52 for their efforts in the recent frosty winter.
 Mrs. Arthur DeVoe was named greeting card chairman and Mrs. Robert La Follette accepted the post of chaplain. Among the excellent turnout of members, Mrs. John (Yvonne) Sturm was the only guest of the evening.
 The Auxiliary will sponsor a fashion show Feb. 22 at 81 South Fairfax Avenue. Ruth Holman will be the demonstrator, assisted by Rita Hahn. Adjournment of the meeting was followed by refreshments and a social hour.

MEET TILLIE, five-month-old Maltese kitten looking to be adopted from Seminole Humane Society shelter, located at the old county home site on Hwy. 17-92 south of Sanford. Tillie and other homeless pets are waiting for some nice person to give them a home.

Troop 242 To Observe Scout Week

By Frances Webster
 Boy Scout week will be observed in Lake Mary with a special set of camp by Troop 242 at the Scout Hut this weekend.
 The public is invited to visit the grounds and learn more about the scout program. Roy Howell Jr. is the scoutmaster of this group, with Bob Rugenstein, assistant.
 Scout Sunday will be observed at the Community Presbyterian Church 4:15 p.m. with local scouts attending the regular morning worship service in uniform.

New World On Horizon

Science has always been a handy whipping boy when people have worried themselves up in a lather over steel and stone, of running the eternal rat race.
 For science discovered the knowledge which its handmaid, technology, has used to build the machines and invent the inventions that have increased the deadliness of wars, fostered the cancerous growth of cities, added to the complexities of life.
 "There are many people," says Dr. Glenn T. Seaborg, chairman of the Atomic Energy Commission, "who fear the current explosion of science and technology, who see in it a dehumanizing effort, who believe that it is running away with us and that we are becoming its slaves instead of remaining its masters."
 He cannot agree. A comparison of the conditions of people in any age with those of today will show that we are better off, he maintains, than we are not just in creature comforts, health and control of our environment.
 "More of us share a larger, richer culture—one international in scope, containing a vast heritage from each other's lands and from the past, the art, music and literature of bygone days preserved, reproduced and recreated for our enrichment."
 We have, as well, more leisure to enjoy all this. And if the methods of mass production have created a certain framework of superficial conformity, there is also a larger degree of freedom and individuality within that framework.
 "Today," he says, "we have more freedom of choice than any of our ancestors ever had. We have more freedom of expression. We have more freedom from ignorance, superstition and ironical tradition and, as a result, more freedom to change, to enrich and direct our future, our creative evolution."
 While some 114-odd sovereign, selfish nations still search for some way of living together in peace, scientists, whose world-travelling interests know no national limitations, have created a functional, cooperative, international society.
 "It exists," says Seaborg, "and it works, in spite of all who doubt it."
 Science, in sum, has given us both a glimpse of a better new world and the means to attain it. If we fail, some latter-day Shakespeare might well write: "Shake, dear Brutus, lay not in their sciences but in themselves."

Thought For Today

Truthful lips endure for ever, but a lying tongue is but for a moment.
 —Proverbs 12:19.

Dr. Crane's Worry Clinic

Hank zoomed his sales in the next 6 months after starting this memory factory.
 You can't improve his memory personally. But more important, thinking won't do it! You must employ the simple strategy outlined below.
 Most of us never use 25 percent of our gray matter, so don't fear you will burn out a synapse by excess thinking. CASE Y-434: Hank J., aged 23, is starting into sales work. "Dr. Crane," he says, "how can a fellow improve his memory for names and faces?"
 "I never was good at recalling names. In fact, within 2 minutes after an introduction, I have usually forgotten the prospect's name."
 So can I ever become even halfway successful at memorizing names?
 "Your capacity to remember is probably as good as that of any other man. The trouble is, you don't know how to use it."
 For example, if you and the memory expert sit down, side by side, and present a pencil point into the back of your hands for 30 seconds, you don't see a depression as soon as you removed the pencil. And this depression would take several minutes to disappear.
 If you timed yourself and also the memory expert, you'd generally find that the depression lasted just as long as the expert's.
 In your skin as in that of the memory expert, there is a skin depression in the form of a shallow groove. In a similar manner, the impression on your nervous system is also a physiological matter.
 It doesn't vary significantly between normal people. So what permits the memory experts to sound audiences by their remarkable ability to recall names?
 They use a special device, the memory expert's sound device, to produce a clear print from a fuzzy camera negative.
 So the first step in a good memory is to be sure you obtain a clear-cut imprint of the name.
 Visualize it as written on a blackboard. That involves the eye.
 Then speak the name, too, for this brings to play the sensations of your throat muscles.
 And if you utter the name aloud, your ears are also involved.
 The more sense organs that employ with reference to the new name, the easier it will be to remember it.
 Also, "duration" is a factor, so the longer you toy with the name, as by repeating it or writing it on making bizarre mental pictures concerning it, the greater will be the clear imprint on your brain.
 Then act upon that name as soon as possible.
 If you meet a famous newspaper editor like Bob Early, don't just stammer, "Glad to meet you."
 For then you haven't used his name.
 Instead, say, "I'm glad to meet you, Mr. Early."
 Then visualize that name on a blackboard or actually write it on a slip of paper.
 And connect bizarre images, such as visualizing your alarm clock as set on hour EARLY. Get your wife and family to compete. On Sunday, see who can recall the most names of sermon ideas your clergyman has used. Pay 10 cents apiece for each one they can recall, over and beyond your own written list.
 Send for my booklet "How to Improve Your Memory and Study More Efficiently," enclosing a long stamped, return envelope, plus 20 cents.

NEW EFOR BATTERLION
 FALL RIVER, MASS. (UPI) — A plan to use a docked ship as a Civil Defense center is under discussion here. The ship is the USS Massachusetts, a battleship of World War II which has been permanently moored beside the waterfront. Thousands visit it each month to see monuments of the war.
 Civil Defense officials have proposed using the ship's Combat Center as a Civil Defense operations center. And they are debating use of Dick Bay as the nucleus for a 200-bed emergency hospital.

"Relax, Fellows, McNamara Says You're Obsolete!"

Dick West's The Lighter Side

WASHINGTON (UPI) — Rooms and rooms have been written recently about the new intellectual movement known as "camp."
 Intellectual movements are, of course, only dimly understood, particularly by intellectuals. Therefore, the explanation of what camp is has tended to be rather murky.
 Some experts say camp means that something "is not what it is good." That much it can follow. Thereafter it gets complicated.
 There are, for instance, degrees of camp — "high camp," "low camp," "middle camp," "pure camp," "classic camp" and so on.
 Tiffany lamps, feather boas and the movie "King Kong" are regarded as "classic camp." "Pure camp" occurs accidentally. That is, the original failure that caused it to become camp was purely unintentional.
 The new television series "Batman" is said to be "high camp." It is supposedly planned that way. And this is where I become un-camped. I agree that the "Batman" producers have succeeded in turning out a pretty dismal show, but I am unable to recognize wherein the business reaches the point of goodness.
 Frankly, it doesn't seem to me to be much more than most of the other programs on television.
 Despite this blind spot, however, I believe I am qualified to list some of the things in Washington that might be classified as camp.
 These are things that are the affogato, affectionally, to totally lacking in esthetic appeal they have a certain attraction.
 The new Bayburn Building on Capitol Hill is definitely "high camp." At least the upper portion is. The part that runs down to the foot of the hill is "low camp."
 The Smithsonian Institution's statue of George Washington draped in a Roman toga is "classic camp." So is Sen. Everett M. Dirksen's hair in surely as camp as "Batman" but I am not certain that his hair looks as if it had been camping out.

The Iron Curtain Isn't soundproof.

Siberian Exile Harsh

The Russian Republic, largest of the 15 republics within the Soviet Union, has decided that Siberian exile is a bit too harsh for its economic parasites.
 This information is turned up by researchers from the American organization which lists the late Herbert Hoover, Harry Truman and Dwight D. Eisenhower among its honorary chairmen and which bears its name in honor of the late President.
 A decree sponsored by former Premier Nikita Khrushchev authorized on May 4, 1961, exile as a means of punishment for "parasitic elements" who do no socially useful work.
 Among those classed as parasites were persons living on unearned income, engaging in illicit trade, private enterprise activities, speculation, begging, illegal use of building materials and privately distilled alcohol.
 As a result of the decree thousands of Russians suddenly found themselves in various remote areas of Siberia, often in a sort of revolving door justice which ignored both legal procedures and individual rights.
 The system also created new problems in some areas, the black marketeers or bootleggers simply set up shop in their new place of exile.
 In others, authorities said they had no labor shortage, had not asked for handiwork and refused to find jobs for them. Radio Liberty, the special case of the small Siberian mining community of Bobadid.
 Bobadid was selected as a place of exile for convicted city prostitutes who immediately set up shop.
 A report by V. Marina in the March 14, 1963, Literary Gazette said disarrayed housewives of Bobadid protested to the government but to no avail. Now the girls will be heading west.

Horoscope Forecast

FRIDAY, FEB. 11, 1966
GENERAL TENDENCIES:
A day and evening to delve deeply into whatever has to do with the specific information you need that can be found out of your present knowledge...

ARIES (March 21 to April 19)
Now is the time to get busy with paying bills and making collections that you have been procrastinating about...

TAURUS (April 20 to May 20)
Concentrating upon how to come to better understanding with associates is imperative today. Remember that it's a matter of mutual dependence...

GEMINI (May 21 to June 21)
Hurry up and finish all those small duties that have been worrying you so that you can then be out for pleasure...

LEO (July 23 to Aug. 21)
Concentrating upon how to be more successful in business. Gemini is on them bringing you results. Then you find that...

LIBRA (Sept. 23 to Oct. 23)
Put aside wishful thinking and get busy on monetary affairs that will improve your status in the community...

SCORPIO (Oct. 23 to Nov. 21)
Self-analysis will reveal how best to gain your goals and make proper plans for the future...

SAGITTARIUS (Nov. 22 to Dec. 21)
Do some research work that will give you the answer to many perplexing matters and then verify this work over time in your favor...

AQUARIUS (Jan. 21 to Feb. 19)
You can improve your status in the community by showing uncommon intelligence and being steady handed in your daily occupation...

PISCES (Feb. 20 to March 20)
New outlets are excellent now and you can improve them by using your ability and fine mind so that you expand easily...

YOUR CHILD IS BORN TODAY or she will be one of the interesting youngsters who are able to figure out problems...

Fifty years ago today in Sanford.

A new drainage across Lake Monroe opened.

A government dredge boat was in the lake making a better channel.

The Sanford Herald announced a contest to give away a Ford roadster.

A Maxwell automobile was on sale for \$535 at the Seminole County Garage, owned by J. B. Lawson. The Maxwell was brand new.

A five-room house was advertised for rent at \$10 a month.

A grass plot in front of The Herald was "embellished" with two fine grapefruit trees.

Citizens were being asked to plant orange and grapefruit trees in front of their property for ornamental purposes "even if small boys get the fruit."

Ground Broken For Herald Plant

Dignitaries Take Part In Rites
Construction on the new Sanford Herald building near the lakefront on French Avenue got under way this morning with ground-breaking ceremonies.

City and county officials, business leaders and military personnel attended the ceremonies with Charlie Morrison, Seminole County Chamber of Commerce, at the microphone.

Walter A. Gielow, editor and publisher, assisted by Mrs. Gielow, symbolically turned the first soil with a gold-plated shovel.

Sanford was described as a "rapidly growing city of 8,500."

Daily steamboat connections with Jacksonville were advertised.

More than 2,000 feet of the lakefront was reclaimed and added to the city.

Sanford will have one of the handsomest waterfronts in the country and will be eligible for membership in "Cities Beautiful."

PUBLISHER Walter A. Gielow and Mrs. Gielow

Freewax Sold To Texize

Texize Chemical, Inc., of Greenville, S. C., has acquired the chemical operations of America (Freewax) plant in Sanford, it was learned today.

The nationwide chemical company plans to expand its operations and will take over the Sanford plant operations.

Our information is that Texize will greatly expand current Sanford plant operations.

Texize makes cleaners, detergents, starch and other products for the textile industry and for home consumption.

Teenagers Held In Parts Theft

A warrant was sworn out this morning for the arrest of two Sanford teenagers in the theft, Wednesday, of an automobile transmission.

Summons to appear in court this afternoon were issued for Larry Lee Lee, 17, of 1218 West Sixth Street, and Richard Freston Windsor, 17, of 1400 West Fifth Street.

Search Still On For School Sites

Negotiations still are going on in the search for a site for the Seminole Junior College, the school's administrative building.

School board members met in routine session Thursday, heard reports from various groups working with property owners of several sites who said they are still in communication with the school.

Bennett Joins 'Base Battle'

WASHINGTON (Sp.) — U. S. Rep. Charles E. Bennett of Florida, protested again to the Department of Defense and Secretary of Defense Robert S. McNamara on the Closing of Naval Air Station Sanford.

Bennett outlined his protest of the planned change of mission of NAS Sanford to Turner Air Force Base in Georgia.

"On behalf of the chamber of commerce," Bennett said, "I am proud that you are moving into the Lake Monroe Industrial park and we hope you have a lot of neighbors in the future."

Miss USA Is 'Real Livin' Doll'

By Doris Williams
She's blonde, she's beautiful, and she's built with architectural dimensions properly proportioned at 5'2 1/2."

Sue Ann Downey is a real livin' doll—holmes and griffin in an unaffected sort of an ideal American girl, which she has the coveted title of "Miss USA."

MRS. ELOISE SMALL and wreath for 'Rebel'

Lightning Hits Twice For Tavern Owner

Mrs. Eloise Small, of Longwood, was the victim of two hit-and-run accidents this week.

Tuesday night, Mrs. Small's pet dog of 10 years, "Rebel," was run down and killed near her home at 831 Land Avenue.

Thursday morning, Mrs. Small's tavern, "Eloise's Tap Room" on U. S. 192 at Five Points, was struck by a hit-and-run driver.

"We believe there is an enormous increase of traffic on this road when it is improved," Peebles said.

The SRB official's remarks came at a meeting of the Seminole County long-range planning committee at the Lakeland Inn, Palm Thursday evening.

Resurfacing and widening of SR 426 from Oviedo to Colquhoun was discussed. The program, as now planned, is expected to cost about \$10 million.

Little Theater Elects Officers

Initial plans for a county-wide community little theatre were formulated Thursday night during an organizational meeting at the Capti Club in Sanford.

The 21 persons who attended the session elected the following officers: Jerry Covington, president; Mrs. Cathy Stowell, vice president; Tom Freeman, treasurer, and Mrs. Sandra Conway, secretary.

Another meeting will be held next Thursday night at the Capti Club, beginning at 7:30 o'clock. At that time, final plans will be made for a series of plays to be performed as the group's first season.

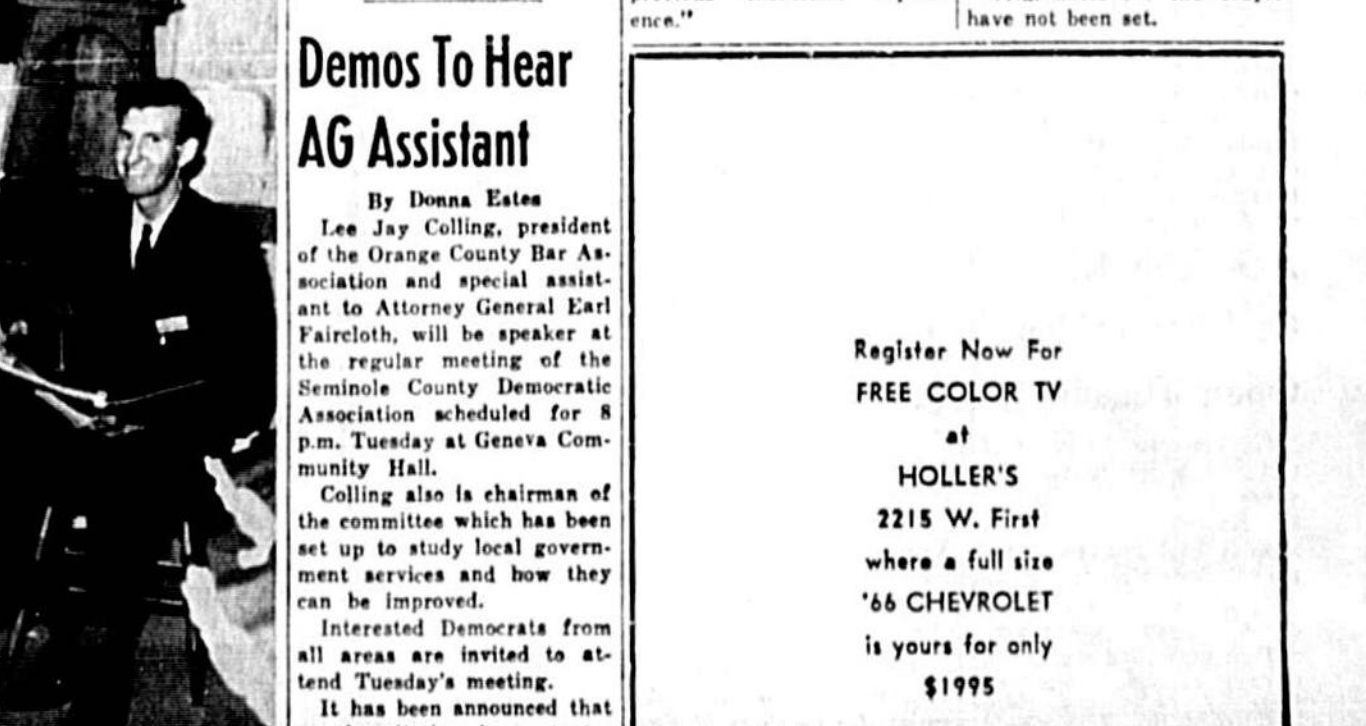

"I would like for the person who sent the wreath to come forward and make themselves known," Mrs. Small said.

"I do not plan to prosecute the person who hit my dog," she said.

Swap Defendant Released On Bail

Joseph Tendall, 39, of Howey-in-the-Hills, charged with contributing to the delinquency of a minor in the swapping of a 14-year-old dead-male girl for an old washing machine and automobile, is free on \$1,000 bond pending trial.

Tendall was taken into custody Jan. 31. The girl's mother, Mrs. Mary B. Ovelto, is still in Seminole County jail, also charged with contributing to the delinquency of a minor.

By Donna Estes
Lee Jay Colling, president of the Orange County Bar Association and legal assistant to Attorney General Earl Faircloth, will be speaker at the regular meeting of the Seminole County Democratic Association scheduled for 8 p.m. Tuesday at Geneva Community Hall.

Colling also is chairman of the committee which has been set up to study local government services and how they can be improved.

Interested Democrats from all areas are invited to attend Tuesday's meeting.

It has been announced that an installation of new officers of the association and the Young Democrats will be held March 16 with cooperation of the Democratic Women's Club. A firm commitment has been received from Secretary of State Tom Adams to be guest speaker at this time.

SUE ANN DOWNEY, MISS U.S.A., chats with Grover Roberts, department manager of J.C. Penney's and co-ordinator for the Sea Lure Swimwear fashion show last night at Penney's. Sorry, boys, 'tis "lucky" for the beauty queen to wear a bikini. (Herald Photo)
