

EARLY GENERAL ELECTION OR RESIGNATION TO RESULT TO PRIME MINISTER GEORGE

Upshot of Present Political Crisis in England is Believed

WIDENING BREACH

IN CONSERVATIVE PARTY TOGETHER WITH GAIN IN LIBERAL STRENGTH

(By The Associated Press) LONDON, March 2.—Either early general election of the resignation of Prime Minister Lloyd George will be the upshot of the present political crisis, it is generally believed. Apparently widening breach in conservative party together with consistent gain in strength of Liberals under former Premier Asquith, and laborites, have forced these alternatives on the premier.

LONDON, March 2.—The petition of Lady Rhonda, to sit in the House of Lords was granted by the committee on privileges today. If she takes her seat awarded her by the ruling she will be the first woman to sit in the upper house of the British parliament as Lady Astor was in the lower chamber.

WORK IS NAME OF SUCCESSOR TO WILL HAYES

DR. HUBERT WORK WILL DOCTOR THE WORK OF THE POSTOFFICES

(By The Associated Press) WASHINGTON, March 2.—Dr. Hubert Work, at present the first assistant postmaster general, will succeed Will Hays as head of postoffice department it was learned definitely today at the White House. Dr. Work, whose home is in Pueblo, Colo., will take over the postoffice portfolio Saturday, when the resignation of Will Hays becomes effective. The nomination of Work is expected to be sent to the Senate shortly.

BRIDGE KEEPER HAD NOT BEEN ROBBED

(By The Associated Press) PALATKA, March 2.—The bridge tender on the bridge across the St. Johns river here is going to purchase a new bank and night policeman Lawrence is going to receive a new flashlight, as a reward for the recovery of the toll funds one night last week. The bridge tender sent out an S. O. S. that someone had "lifted" all the money in his booth and Lawrence, engaged in a search for a stolen flivver was called off the scent and summoned to the bridge. It developed the bridge tender kept the tolls he had collected in a tin can and a search disclosed the can and the money on the floor in the keeper's office, whence it had fallen from his desk.

MRS. PARK TRAMMELL OPERATED UPON AT ORANGE GEN. HOSPITAL

Mrs. Park Trammell was operated upon this morning at the Orange General Hospital by Dr. J. S. McEwan, surgeon. When seen shortly before noon, Dr. McEwan reported Mrs. Trammell to be resting well and having a possible chance of recovery. There is no immediate danger, according to Dr. McEwan, unless some unforeseen developments take place. Senator Trammell arrived here from Washington on the early morning train, having been summoned from Washington by wire.—Orlando Reporter-Star.

HOUSE MILITARY COMMITTEE WILL GO TO SHOALS TO INSPECT THE PLANT

(By The Associated Press) WASHINGTON, March 2.—Members of the House Military Committee who are investigating various proposals for private operation and lease of Muscle Shoals, decided today in executive session in favor of making an inspection trip to Muscle Shoals.

ELECTRIC LIGHT PLANT IS MUNICIPAL ASSET TO JAX

Did you know that the gross earnings of the municipal electric plant since 1899 have been \$9,925,043.85?

It is with this plant that the city hopes to furnish residents of Jacksonville with electric fuel at such a low rate as well enable all to use electricity for cooking and heating.

During the last twenty-two years the plant has turned over to the city treasurer \$2,405,896.16. Net earnings have been \$5,675,061.59 and operating expenses \$4,249,081.36. Extensions and improvements have amounted to \$3,204,221.90.

During 1921 the gross earnings of the municipal plant were \$1,078,157.27, the operating expenses \$580,430.48, and the net earnings \$497,726.79. Extensions and improvements during 1921 cost \$295,558.5 and \$173,000 was turned over to the city treasurer. The assets of the plant are valued at \$5,149,962.75. Of these assets, the plant is valued at \$2,611,588.49, accounts receivable \$58,729.23, cash \$43,757.87 and profits transferred to the city \$2,405,896.16. Balancing these figures are the liabilities. Outstanding bonds \$202,500, accounts payable \$22,497.96, customers' deposits \$53,209.95 and excess assets over liabilities \$4,871,757.74.—Times-Union.

Tentative Contract is Let for Southern College at Lakeland

First Unit of Half-Million Dollar Plant to Be Erected at Once

LAKELAND, March 2.—The trustees of Southern College tentatively let the contract for the construction of the half million dollar college building here to Huggar Brothers, of Montgomery, Ala. Although nothing definite will be passed upon until the board meets again on March 7, with the contractors, every effort will be made to reduce the figures in many ways after consulting with the contractors, who were the lowest and best bidders.

The total amount of the bid will not be announced until next week when the final figures to be given out. Dr. R. H. Alderman, president of the college, stated last night that the trustees were going to take advantage of every possible opportunity to see that the work of construction is well done, and that the buildings would be erected now, on the unit plan. He said that he expected at least a half million dollars worth of construction would be completed here within a year and that the public interested in the college could be assured that the work will start within the very near future.

Ten bids were received on the work and all were higher than was anticipated by the college trustees.

"THREE LIVE GHOSTS" AT THE STAR TONIGHT

A picture of exceptional merit is "Three Live Ghosts," which will be the feature attraction at the Star Theatre today. It is a Paramount production by George Fitzmaurice in which many historic spots in London are pictured. Anna Q. Nilsson and Norman Kerry both well known to the Paramount audiences, are the featured players. The support is quite adequate.

Also "Face to Face With Japan" will be shown tonight as an added attraction.

FLORIDA AQUATIC MEET AT ROLLINS APRIL 20TH; BIGGEST OF ITS KIND

Many High Schools Are Entering in Competition for Cups and Medals

The Florida State Interscholastic Aquatic meet will be held at Rollins College, Winter Park, April 20, 1922. The meet this year will be the biggest meet of its kind that has ever been held in the United States. Requests for information and instructions are coming in daily to the office of the committee in charge of the meet. Several High Schools who have never competed will enter the contest this year and the governing committee are planning for a record breaking crowd of spectators. In the past parents and friends of contestants have made the trip to Winter Park by auto and have spent the week end either at Winter Park or Orlando. By doing this they have made it possible for high school teams to enter because such trips away are usually given up because of being too expensive.

Twenty-four sterling silver cups costing \$1,500 besides gold, silver and bronze medals will be offered to contestants taking part in the meet this year. This set of cups have been contributed by the business men of Winter Park and Orlando who are interested in developing the sport of swimming.

BONUS BILL TO BE ADJUSTED ON NEW PLAN

SOMETHING LIKE THE ONE OUTLINED BY THE SANFORD HERALD

(By The Associated Press) WASHINGTON, March 2.—Elimination of the cash feature of the soldiers' bonus bill, but under a plan which would enable former servicemen to obtain funds from banks on adjusted service certificates immediately after they were issued is under consideration by majority members of the house ways and means committee as a possible solution of the bonus question.

This would make unnecessary any heavy draft on the federal treasury during the next two years while the refunding of the \$6,500,000,000 short-dated debt is in progress and, it was said, would remove the fundamental cause of the differences in congress and between the administration and congress over the bonus question.

Unanimous agreement to eliminate the cash feature of the soldier's bonus, except in the case of men whose adjusted service pay would not exceed fifty dollars, was reached today by the special sub-committee of Republican members of House, Ways and Means committee, to which the whole bonus question was referred to yesterday.

In lieu of cash for other servicemen it was agreed to add a new provision to the bonus bill, under which the men accepting adjusted service certificates could draw from banks a sum equal to fifty percent of adjusted service, computed at a rate of one dollar per day for all domestic service and a dollar and a quarter per day for all foreign service.

KING GEORGE SUES PRESIDENT HARDING LOST CORNED BEEF

(By The Associated Press) FORT WORTH, March 2.—King George of England through his attorneys, has filed a suit in district court here against President Harding, asking damages of \$1,979 for the alleged non delivery by the Rock Island railroad of sixty-four cases of corned beef, during the war. The suit was filed yesterday, about the time of the wedding of Princess Mary, the King's daughter.

President Harding is a party to the suit because the railroad is the defendant and the United States government had control of the railroads for a period during the war. King George was the only plaintiff named in the suit.

According to the suit the corn beef which was to be shipped from here to Hoboken, N. J., never was delivered.

AMERICAN NAVY TIED UP, HAS NO FUNDS

TO PURCHASE FUEL DUE TO ACTION OF APPROPRIATION COMMITTEE

(By The Associated Press) WASHINGTON, March 2.—Necessity of tying up every ship in the navy for lack of fuel to permit operation faced the navy department as an immediate possibility due to action of the house appropriations committee in reporting out yesterday a deficiency item of \$6,200,000 for naval fuel to be used during the remainder of the fiscal year. The sum is about one-half of the original fuel deficiency estimate submitted by the department.

As drawn by the committee the bill does not provide for an additional appropriation but merely authorizes the department to spend money it might be able to take from other current appropriations for fuel up to the limit set.

Naval officials are known to regard the situation as serious, although Secretary Denby refused last night to authorize any comment on the action of the committee. There were indications, however, that orders must go forward to all parts of the navy almost immediately under which no ship would be permitted to operate under steam for the remainder of the fiscal year, unless administration officials were successful in inducing congress to make more liberal fuel provision.

PLANS FOR FLORIDA "CLEAN-UP" ARE NOW COMPLETE

(By The Associated Press) WASHINGTON, March 2.—Organization of the prohibition headquarters forces for the coming concentrated campaign in Florida against liquor smuggling is being rapidly completed, officials said last night.

E. C. Yellowley, chief of general prohibition agents, returned yesterday from an extended tour of the west and it was said will assume charge of the Florida operations and have general direction of the re-enforcements being sent into the state in an effort to put an end to the activities of rum runners.

Colonel L. G. Nutt, head of the narcotic section, it was understood, may be sent to Florida as field chief of the prohibition agents gathered there and to take active command of the combined forces of airplanes, submarine chasers and land officers which it is said are being concentrated for southern operations.

Assignment of Colonel Nutt to Florida it was thought would also mean a clean up of smugglers bringing illicit drugs into the country.

By the way the Senate has not yet been told what administration gave the postmasterships to the opposition.

PROHIBITION OFFICERS HERE ON SEA, LAND AND IN AIR TO STOP LIQUOR TRAFFIC

WATERWORKS PLANT IS ANOTHER DEPENDABLE ASSET TO JAX

From a gross yearly earning of \$2,441.75 in 1880, to a gross earning of \$221,260.72 during 1921, is the record established by the municipal waterworks here.

These figures speak for themselves as of the financial standing of the city of Jacksonville. The city's assets so far overshadow its liabilities that no comparison can be struck. It is these figures, through a prospectus sent out from the city hall, that the city commission hopes to convince bond buyers that they take no risk when buying Jacksonville bonds, \$2,000,000 of which have been advertised for sale.

The total gross earnings of the municipal waterworks up to and including 1921 were \$3,372,770.98. The net earnings amounted to \$1,682,908.09, \$1,683,862.89 going for operating expenses, \$1,048,092.82 for extension and improvements and \$781,183.22 being turned over to the city treasurer. The assets of the waterworks exceed the liabilities by \$1,700,552.93.

It is estimated with the increased revenue to the electric light plant through city-wide installation of electrical cooking and heating appliances Jacksonville will be considered one of the financial strongholds of the South. Times-Union.

Sweden Gets Ready For Prohibition—Movement on Way

DRY ADVOCATES HAVE INTRODUCED SEVERAL BILLS IN PARLIAMENT

STOCKHOLM, Feb. 1.—Advocates of prohibition in Sweden have introduced several bills in parliament intended to clear the way for making the country wholly dry or at least dry in spots.

Both houses of parliament have adopted a bill authorizing the government to submit to a general consultative referendum the prohibition question or any other on which the parliament desires a popular vote.

It is understood, however, the government will not ask parliament for a prohibition referendum in this session.

As the referendum is only consultative the approval of parliament will be necessary to enact its decision into law.

One measure introduced in the Riksdag would confer power upon municipalities to prohibit the sale of alcoholic liquors.

The experience of the United States under the prohibition amendment is being watched closely by both "wets" and "drys" and both sides of the campaign to outlaw John Barleycorn are making use of reports from America.

Sweden is now under a rationing system limiting the amount of intoxicants any person may purchase in any month.

U. S. DISTRICT ATTORNEY WILL INVESTIGATE CASE OF OCEAN MURDER

(By The Associated Press) KEY WEST, March 2.—Assistant United States District Attorney Yerkes is due to arrive here tomorrow to investigate the case of the crew of the British schooner Lewis Brothers, one of whom is charged with the murder of Captain Chute, master of the vessel.

The British government wants the men extradited to British territory for trial.

Will Make Concentrated Effort Against Smugglers in Fla.

DIFFICULT PROBLEM

SHALLOW WATER ALONG COAST GOOD SOIL TO PLANT BOOZE

(By The Associated Press) WASHINGTON, March 2.—Prohibition enforcement agents are being transferred from various states to Florida for a concentrated campaign against liquor smugglers along the coast of peninsula state prohibition officials said today. Officials declared a difficult problem was facing the government in connection with rum running on the Florida coast. One peculiar difficulty lay in the fact that great expanses of shallow water along the coasts made it possible for smugglers to hide cargoes of liquor on the bottom of the sea, upon approach of authorities. This practice is followed to such an extent they said that Florida shallows are almost carpeted with whiskey and rum.

WILL YOU NOW A BANKER

(By The Associated Press) FORT MEYERS, March 2.—J. Will You, formerly state auditor, has accepted a position with the St. Lucie County Bank and moved here to make his home.

PUBLIC DEBT HAS INCREASED 90 MILLIONS

DURING FEBRUARY AS ANNOUNCED BY TREASURY DEPARTMENT

(By The Associated Press) WASHINGTON, March 2.—An increase of more than \$90,000,000 in the public debt during February was announced today by the treasury department. Increase largely accounted for by issuance of \$600,000,000 treasury notes while government securities were retired during February of \$51,000,000.

Two Divorce Suits At Maysville, Ky.—Youth and Old Age

Mother-in-Law Runs Away With Her Young Son-in-Law

(By The Associated Press) MAYSVILLE, Ky., March 2.—Two divorce suits are pending in the Mason county circuit court here because Carl Kellum, 23, and his mother-in-law, Mrs. Addie Gallagher, 45, ran off together, according to petitions filed by Mrs. Irma Gallagher Kellum, 18, against her husband and by John Gallagher, 55, against his wife. Mrs. Kellum says she married two years ago and was very happy on her husband's farm four miles from here. A short time ago, she alleges, her mother, who lived at her home on an adjoining farm, ran off with Kellum and never returned. Gallagher's petition unfolds same story. Kellum and Mrs. Gallagher are now living together in this county the petitions charge.

BAR ASSOCIATION TO ASK LAW TO CONTROL STATE EXAMINATIONS

A bill to give the state bar association complete control in the matter of admitting lawyers to the bar in this state will probably be introduced at the next session of the state legislature, Judge C. O. Andrews, president of the association, said yesterday.

Judge Andrews explained that the recent action of the national bar association in adopting a resolution asking that a college course be required of candidates for admission to the bar did not effect the state laws.

A bill similar to the one planned now was introduced at the last session of the legislature but failed of passage in the house of representatives on the last day of the session.—Orlando Sentinel.

MEMBER THE ASSOCIATED PRESS

You never can tell about the dangers of all kinds of sports. Man dropped dead at St. Petersburg yesterday watching a game of horse shoes or barnyard golf as it is called down there.

All Orlando merchants should have their goods sent over the water route to Sanford and trucked to Orlando, it will mean the saving of thousands of dollars annually and may result in securing a fairer rail rate to Orlando. —Reporter-Star.

Judge Parkhill of Tampa announces for Governor in 1924. Well, if they are coming out this early we hereby announce for president of the United States—just to make it interesting and keep Mose Overstreet and Judge Parkhill company.

The Cleveland Plain Dealer says that Florida should send Bryan to the Senate. Wherein did the Cleveland Plain Dealer get on? We have never asked for any advice from the Plaindealer and we do not remember to have ever read in that sheet any complimentary notices of Florida.

Headlines say that "Judge Landis Sorrowfully Leaves His Office" to engage in baseball management. Don't believe it. He leaves his office just about as sorrowful as Will Hayes leaves the office of Postmaster-General. With the long green tucked in their top pockets there is no room for mourning handkerchiefs, wot?

The man that killed another man in Georgia fifty years ago and is just now being brought to justice should bring on a writ of habeas corpus or delicti or nolle contendere and prove that he was too young at the time to be responsible for his acts and is too old now to be executed. After a crime goes that long it ought to be "outlawed."

Saw a squib in the picture show last night that was certainly to the point and brings to our mind the truth about grafters striking Florida every winter. The squib said: "There will always be reformers inaugurated as long as the professional reformers are needing jobs." This is certainly the truth and is shown in Sanford and other Florida cities all during the winter months. Reformers want to spend the winter in Florida.

There may be snow storms sweeping the southwest and the northwest and every part of the country except Florida but it is rather difficult to make us believe it in the face of the hot summer weather in Florida today. You might even lead us to believe that a cold wave will strike Florida soon but this also seems out of proportion. Unless there comes a hard downpour of rain it cannot possibly get cold here in such short time. However, we are looking for colder weather for our celery crop must have it.

Some time ago the city commissioners made several property owners tear down their unsightly buildings. They picked on the non-resident first it seemed and let the Sanford residents severely alone. At least that is what the non-residents think about it and they have good reason to think so. Now what the people want to know is just why the city commis-

sioners have not made other property owners tear down their unsightly and unsafe buildings? We have several of them on the main business streets of the city.

Quite a controversy in the papers over "early marriages." We will not enter in the debate or express an opinion. We don't think there is anyone in the world qualified to say whether certain young people are too young to get married.

CITIES ARE BONDING.

Every city in Florida is talking about bonding for greater improvements during the summer months and Sanford is among the progressive cities that expects to pass a bond issue soon and make many needed improvements. The DeLand situation is so much like our present condition that the following from the DeLand News reads like it was happening in Sanford:

"While it is true that if bonds are voted it will be from six months to a year before the active work for the improvements will start, at the same time the very fact that the improvements are under way will give the needed incentive for the continued building up of DeLand. The reports of all committees on bonding will be given to the main bonding committee of the DeLand Commercial club and after tabulation will be turned over to the city commissioners. The commissioners will then call an election which will have to be advertised for five weeks. If the bonds are voted, as they will be, they then will have to be advertised for sale and sold to the highest bidder. When the money is available the trustees will have to advertise for contracts. Even if no one contests the bonds, although it is probable that this will be done, it will take at least six months before active construction work can start. This puts the improvements off until early winter this year. DeLand is fortunate in one respect in having its four main arteries of traffic already paved which will mean that when actual construction work does commence it will not mean a torn up city in the business section during the busy season."

KISSIMEE WANTS IT, TOO

Kissimmee is the latest town in Florida to become openly interested in the commissioner-manager form of city government. Always awake to the community's best interests, the Kissimmee Valley Gazette gives much space to a discussion of the commissioner-manager plan which it says is the only hope Kissimmee can have for getting back to a normal basis of successful operation. Such towns as St. Augustine, Sanford, Bartow and Fort Meyers are held up as examples. It is suggested that before definite action is taken, the charters under which these municipalities are now working, be given a thorough investigation and close study.—Lake and Telegram.

The commissioner manager form is alright but charters for different cities need different treatment. Charters are like dresses for children—they soon outgrow them and they must change them to keep pace with the growth. Sanford needs several changes but the charter and the form as a whole are all right.

FLORIDA WINS AGAIN

Under the above caption, the St. Petersburg Times pays a fine tribute to a Florida girl who answered correctly 100 questions recently propounded by the Review of Reviews on current events.

The despatch bearing the information of her wonderful performance reads as follows: "Patty Lyles, 16-year-old Sanford school girl, was the only one of 19,446 school children throughout the country who correctly answered 100 questions on current events propounded by the Review of Reviews of New York city recently.

Of the 19446 papers received from all over the country only 115 contained more than 90 per cent of correct answers while 15,288 answered less than 60 per cent correctly. The general average was only 41 per cent. The questions are sent broadcast twice yearly to schools of all grades in order to stimulate interest in the teaching of current events.

Boys made better grades than girls throughout Normal school students did little better than high school boys and girls. One normal school with 535 students averaged only 25 per cent of correct answers."

We have often heard a woman spoken of as "one in a thousand"; but here is Patty Lyles, a Sanford Florida, school girl who is one in 19,446! Of course Florida is proud; but then did you ever know it to happen when Florida was put to the test

there was not some one raised up to make it proud?

The idea of having school children read and discuss topics of the day is resulting in a more liberally educated more broad minded, a far better informed generation than the ones which preceded it. Never since the days when a weekly newspaper was the sole disseminator of happenings, and every one read every word of it regularly, has there been a time when the populace was better informed on national and world happenings. Full reading maketh a broad man; and ignorance is being chased from the land through the current events readings of the schools as much as through the grammars and histories and spelling books in use.

The Tribune takes off its hat to Patty Lyles, of the Sanford schools for having done what neither it, nor any other newspaper in the state could have done—answered categorically, and correctly, any 100 questions propounded like that.—Tampa Tribune.

OIL IN FLORIDA.

The Herald has often spoken of the fools who parted with their money on outside schemes that promised big returns for their hard earned investments. We have told them that the place to invest their money was in home enterprises and that the finest investment and the safest investment in the world was Sanford property. Some of them saw it and were wise enough to invest here. Others invested in foreign stocks and we would like to ask them today each and every one of them if they can produce anything except a fine engraved stock certificate for their money. And yet if they must invest in oil stocks we would like to see them invest in Florida oil stocks that carry ten acres of Florida land with the scheme. There is just as much reason to believe in oil in Florida as any other favored location. The Florida Post sums it up as follows:

"That considerable stock has been sold in Florida for prospective oil wells there is no doubt but up to this date there has not been a drop of oil found within the limits of the state and yet we cannot say they will strike oil in their boring or they will not. Nobody knows what they will find and all one can do is to make a guess.

Last week it was poised around in Tampa and St. Petersburg that gas had been struck in the well at Oldsmar and created a great deal of excitement and additional stock was sold and some of those who had got tired of holding on to their stock also sold. Just who started the story it is hard to tell, for the only gas that was found was spouting from the salmen's mouths.

Down on the East Coast several parties are boring for oil and selling stock, but they don't want everything and therefore give an acre of land with each ten shares sold, so if a duster is struck they will have the land to raise winter vegetables on.

The Miami Herald in speaking about boring for oil on the East Coast says: "W. J. Krome, chief engineer of the Florida East Coast railway has been making borings in the country south of Miami, in the hope of finding an artesian well to supply water for Key West. He bored several holes to a depth of three thousand feet without finding petroleum, or any indication of it, beyond what is usually found in deep borings."

"When the oil salesman sells he tells you of how a certain Jim Smith is making \$3,000 every day from oil. Tom Tom Jones is making a like amount and so on. But Smith, Jones, et al., are not making their wealth from oil stock. No, they are making it from oil leases and were smart enough to buy and lease it to oil speculators. That is how they make their money, on leases and not from stock.

Those that wish to buy oil stock should not be stopped. It is their money and any citizen over twenty-one years of age should be allowed to buy oil stock whenever he pleases, for if the oil salesman does not get it some other person will."

ELECTRICITY THE COMING POWER.

The Herald has called attention to the flowing streams near Sanford where water power could be developed. The Herald has called attention to the fact that we pay too much for electricity for it should be the cheapest commodity the manufacturer has to purchase. Henry Ford wants Muscle Shoals and the Alabama Power Co. wants Muscle Shoals because each of them want to supply current to the surrounding country and they claim it will be carried to a radius of 800 miles which means that Muscle Shoals will supply Sanford with current for power purposes. The following despatch proves this:

"Developments of hydro-electric power sufficient to industrialize a territory 800 miles in diameter with the center based on Muscle Shoals, Ala., was promised the House military

committed today by Thomas W. Martin, president of the Alabama Power Company in the event Congress accepts the offer if that company for purchase and development of the government owned steam and water power projects at the shoals.

Thorough studies had been made of power markets within a radius of 400 miles of Muscle Shoals, Mr. Martin said, and applications for energy already filed with the power company convinced him there was need for developing Muscle Shoals and distributing the power through out that section of the country. His company was prepared to serve the public, functioning as a public utility regulated by federal and state laws, he added, and deliver power in emergency cases to a greater distance by relay systems.

Representative Greene, Republican, Vermont, contrasted the power company's proposal with the offer submitted by Henry Ford. Under the latter Mr. Greene believed much of the power created at the shoals would be used in the manufacture of fertilizer, parts for automobiles and other commodities by a private concern. The question was, he said, whether the Ford or Alabama offers would best serve the public policy adding that the power company did not make any provision in its proposal for fertilizer production."

LOANS TO FARMERS

Senator Park Trammell introduced in the Senate two bills of great importance. One of his measures provides for an additional fund of fifty millions a year for loans to farmers through the Federal Loan Banks.

Senator Trammell says thousands of farmers at present are denied long time loans from the Federal Loan Banks because the funds are not available.

His other bill provides for the War Finance Corporation to have authority to make advances and loans to farmers and cattlemen through banks until July 1st, 1923, instead of having this relief to agricultural interests terminated in 1922, as provided by the present law. Under the law which Senator Trammell seeks to have extended for one year the citrus fruit and cattle industries of Florida have had advances of large sums made to them through Florida banks by the War Finance Corporation. With the law extended for one year beyond its present life Florida will no doubt receive further substantial aid.—Holmes County Advertiser.

These farm loans are a joke in the Sanford section and every other section of south Florida. The government wants to loan from \$50 to \$100 per acre on irrigated lands that are worth in the open market \$1,000 per acre or better. And there is so much red tape about the loan that a celery grower could raise three crops and have them to market while the government is talking about the loan. Just another government joke.

OPPORTUNITIES IN POULTRY

The poultry industry offers one of the best opportunities for making a comfortable living on a small investment of capital in land and equipment. Poultrymen in Florida do not need to worry about frosted combs and wattles on their fowls, which often occurs in some other states, reducing the egg production and sometimes permanently disfiguring the birds.

As proof that Florida conditions are exceptionally advantageous for raising poultry, an extensive poultry farm is operated in the state by a breeder of national reputation, to furnish hundreds of pure bred birds for exhibition at the early fairs and poultry shows.

The market prices in Florida for fresh eggs and live poultry are higher than in the great poultry producing states. Report by Missouri's secretary of agriculture for January shows twenty-six cents was average price per dozen for eggs, and seventeen cents a pound average price for chickens. Florida's January egg prices ranged from fifty cents per dozen upwards to ninety cents dozen. Several million dollars worth of eggs and poultry are shipped into the state each year.

Have you phoned 325, Bower & Roulmillat, for your free appointment with Miss Welch? 287-7tc

We have been fortunate in engaging the services of Miss Welch, the famous beauty specialist of Boston, Mass., for the week of February 27th to March 4th giving private demonstrations free of charge in your home of the proper method of caring for your complexion as well as hair and scalp. Please phone Bower & Roulmillat, 325 and make your appointments early as Miss Welch's time is very limited. 287-7tc

Don't experiment when you build your home—and above all, don't experiment with the plumbing. Cheap, inefficient plumbing is like a running sore to home owners. There is constant exasperation and expense. Every plan for a new home should include a visit to Mahoney & Walker, the plumbing headquarters. We will be glad to talk over your equipment needs on any phase of sanitation, heating, plumbing or kindred service.

## Mahoney & Walker

### BUILD YOUR HOME NOW TO AVOID THE HIGH RENT LATER

IS THE ADVICE OF A PROMINENT CHICAGO REAL ESTATE AUTHORITY

CHICAGO, March 2.—With the approach of spring, and further stimulated by the large number of "own your home" expositions scheduled during the next 90 days, building interests are devoting a good deal of thought to the question: "Is it profitable to build a home now?"

The question does not permit an unqualified answer of yes or no. Circumstances peculiar to one family may be such as clearly show that it would be unsound for it to attempt the great adventure of home building. Perhaps the best general reply to the question is that made by a prominent real estate authority in Chicago, Joseph K. Brittain, who as chairman of the building and finance committee of the "own your home" exposition has just completed a comprehensive study of the building situation.

Mr. Brittain says: "Convincing arguments are available to justify the statement that a man makes no mistake when he buys or builds a home, regardless of the then current conditions. The comforts, conveniences and undeniable benefits from a fuller home and family life are, after all, the chief dividends for the home owner. When the intangible and so-called sentimental values are considered, we may be justified in saying that the time to own a home always is now."

"But during the last few years we have learned that business sense sometimes dictates the prudence of denying ourselves, for the time being even such things as contribute materially to comfort and satisfaction."

"Are current conditions favorable to home building or buying? Two factors deserve special consideration today. One is the certainty of high rents for several years. The other is the slow but sure increase in land values on which the home owner may count if he uses fairly good judgment in his building site and avails himself of the protection offered by the zoning laws now operating in most cities."

"The Chamber of Commerce of the United States recently made a survey of the housing situation and came to the conclusion that the shortage could not be eliminated in less than five years. As long as we are short on housing, rents will remain above that normal level which prevails when supply and demand are equal."

"Granting that building material prices and labor costs may decline, the business question to be answered is: Will the decline amount to as much as one would save by virtue of being relieved of paying high rent plus the increase in the value of the building site."

"The answer to that question is, as a general proposition, favorable to building or buying now."

Realizing that residential building will be a chief factor in the 1922 activities and that lower prices for materials would tend to stimulate residential building, the construction industry right now is very deeply interested in the freight rate question. It is agreed by most authorities that before substantial price reductions can be made in the building material market the freight rates of basic materials must be lowered.

Under the leadership of the National Federation of Construction Indus-

(Continued on Page Eight)

# Electrical Helps

EIGHT hours is insufficient for human hands to perform all the household tasks. Tomorrow may offer yesterday's work undone—if you are still trying to keep house by the old-time methods.

But it is possible to establish the eight hour day in the home by making use of electrical helps,—a washing machine, vacuum sweeper, electrical iron, toaster, percolator and other labor saving devices. Those untiring "household assistants" will do your work quickly and efficiently. And the cost is indeed trifling when you think of the time, energy and health they save!

## GILLON & FRY

# BUILD A HOME

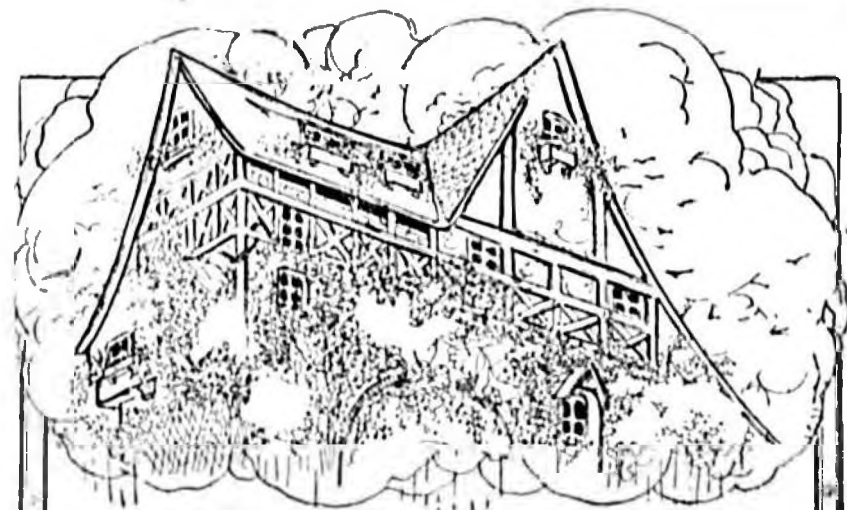

Plan NOW to Have Your Own Home and— Independence

OWNERSHIP of real estate gives you a definite place and influence in the community; it makes you a more desirable citizen; it frees you from the cares and worries of the man who doesn't own the roof over his head.

Building costs have been hammered down—way down. There is no longer any excuse for you to "wait for conditions to improve."

I will be glad to show you plans and quote the lowest possible price consistent with good work.

V. C. Coller

ANYBODY CAN BUILD A HOUSE BUT IF YOU WANT A REAL HOME

You should select a builder of known ability and business integrity. If you contemplate building any time this year consult your builder NOW and get through with the preliminary arrangements before the busy season opens—you'll get better service.

Only 10 Days More to do Business Here Sanford Avenue, Sanford, Florida The Goods Must Move in 10 Days

### GENEVA

Sam and Henry Levy returned home Sunday from a trip to Palm Beach.

Gilla Sipps has purchased the Logan property.

Mrs. Nooks and children spent Friday with Mrs. Logan.

Mrs. Ballard spent a few days in Sanford this week.

Mrs. Josie Prevatt and daughter, Verlie, and Mrs. C. C. Jacobs, of Chuluota, spent Saturday with Mrs. J. M. Prevatt.

Mr. and Mrs. Willie Siggs, of Chuluota, spent Sunday with Mrs. M. E. Wicks.

Mr. and Mrs. T. W. Prevatt were in DeLand Monday on business.

Mrs. J. W. Flynt sprained her right arm recently.

The revival meeting at the Methodist church has been well attended.

Rev. Wright and Rev. Lawhorn and Mrs. Roland Reed spent Monday in Ocala visiting friends.

Mr. Kendrick, of Cola Key, was visiting friends here this week.

Alice and Pauline Gieger and friends, of Orlando, spent the week end with Mrs. George Gieger.

Mrs. Helen Moran, of Longwood, spent the week end with her mother, Mrs. A. A. Moran.

Wm. Kilbe was in Sanford Friday on business.

Mrs. Grover Lefiles and son and Miss Alexin Mees called on Mrs. Sipps Friday.

### ENTERPRISE

On last Friday the public school was visited by Dr. Harvey, of the United States Health Board and Miss Clara Zeigler, the Volusia county nurse in the interest of the hookworm survey being conducted by the United States Health Board throughout the southern states.

In the recent inspection of the public school by state rural inspector, Hon. R. L. Turner, and Supt. C. M. R. Sheppard, the school made an average of 98 and 5-6 per cent in the inspection for standardization, therefore again being one of the standard rural schools of the state.

Miss Emma Tucker is now in Manatee, Fla., assisting in revival services there.

Mrs. Sam Toms left on Friday for her home in Montgomery, Ala.

Miss Christian McDonald, assistant superintendent of the Volusia county schools, was visiting the Enterprise schools on Friday.

Mrs. Louis Watjen returned Saturday after a visit with relatives in Jacksonville.

Dr. and Mrs. James H. Glass returned Wednesday from Johnston, N. Y., where they accompanied the remains of their nephew, E. C. Shotwell.

Five more children were added to the large family at the orphanage on Thursday. They were accompanied from Palatka by Calvin Brinkley.

Rex Holiday, from Rollins College at Winter Park, was visiting at the home of W. J. Burns on Sunday last.

Mrs. C. R. M. Sheppard, of DeLand, was visiting her father, H. P. Quackenbos, on Friday.

Dr. J. R. Cason, publicity agent of the Methodist Orphanage, and Calvin Brinkley, treasurer, of the orphanage board, were here last week to attend to business pertaining to new plans for the orphanage.

Mr. and Mrs. H. F. Quackenbos delightfully entertained at dinner on Thursday. Among their guests were Mr. and Mrs. Henry Murray, Mrs. Henry Murray, Mrs. Sam Toms and Mr. and Mrs. Charles Cochran.

Mr. and Mrs. V. A. Bishop and family, were calling on friends here Sunday.

birthday dinner dance held at the lodge.

The anniversary of Washington's birthday was observed in the social room at the Inn after the usual prayer meeting in the chapel which was led by Rev. Wakeman, of Lincoln, Ill. Col. Halford gave a brief address on Washington.

Dr. and Mrs. C. W. Crumb and Mr. and Mrs. H. P. Dillistin, were gone several days in the southern part of the peninsula, returning to the Inn on Saturday.

On Friday night Tharatt Gilbert Best, son of Mrs. Fred Best and grandson of Mr. Tharatt, who has just returned from a tour of the Caribbean countries, gave to the guests of the Inn an extremely interesting account of his observances and experiences on the trip.

Mr. and Mrs. Jackson, Mrs. Torrance, Mr. Fisher and Dr. Smith spent Thursday at Mt. Dora and Eustis.

Mr. and Mrs. Bunn, Mr. and Mrs. White, of Boston, Mrs. Torrance, Mr. and Mrs. Jackson, Tharatt Best and Miss Ruth Esther Wetenhall motored to DeLeon Springs on Sunday afternoon.

Mr. and Mrs. Bunn, Mr. and Mrs. White, Dr. E. H. Smith and Mrs. Day motored to Orlando on Monday.

Mr. and Mrs. Arthur, of Palconian Springs; Mr. and Mrs. Coowinham, of Utica, N. Y., and Mrs. Igleheart, of Evansville, Ind., are returning to their homes after spending several weeks at the Inn.

At the Sunday morning service the sermon was preached by C. W. Prentyman, of the Wilmington conference. Next Sunday morning the service will be held by Rev. Geo. W. Miller, of the Baltimore conference.

### OVIEDO

Miss Elizabeth Lawton, of Rollins College, spent the week-end with her parents this week.

Miss Ethel Taylor returned to Macon, Ga., Monday after spending several weeks with her uncle and aunt, Mr. and Mrs. H. R. McCall.

Mr. and Mrs. C. L. West and children, Mrs. M. West, Mrs. Bob Murphy and Mr. and Mrs. Joe Brown, spent Sunday at Daytona Beach.

Mrs. H. B. McCall left Monday for Lakeland where she will visit relatives all this week.

Miss Mable Swope is a very welcome visitor in Oviedo for the week.

Mr. and Mrs. C. S. Lee motored to Lakeland Sunday to meet Mrs. J. H. Lee, sr., who was returning home from a visit of several weeks to her daughter, Mrs. Matheson at Fort Myers.

About fourteen of the Oviedo people went to Geneva Sunday night to attend the revival services being held there at the Methodist church.

Miss Ruth Young entertained the young people at a party Tuesday eve. in honor of Miss Mable Swope of St. Augustine.

Miss Elsie Marshall, of Sanford, is spending a few days in Oviedo this week as the guest of her sister, Mrs. R. W. Lawton.

Mr. and Mrs. Hagan have moved into a cottage on Graham avenue.

Mrs. C. S. Lee entertained at a birthday dinner Tuesday in honor of Miss Mable Swope. Her guests were Miss Mable Swope, S. W. Swope, Francis Swope, Mr. and Mrs. W. J. Lawton and Miss Elizabeth Lawton.

W. N. Blackwood, of Orlando, was a business visitor to Oviedo Tuesday.

Miss Alice Bird, of Jacksonville, spent the week end with Mr. and Mrs. W. B. Englett.

R. R. Doble, of Winter Park, was a business visitor to Oviedo Wednesday.

Mrs. S. W. Swope returned Wednesday from Wichita, Kans.

Mr. and Mrs. H. F. Lane returned to Oviedo Tuesday afternoon after an absence of two months and are again located at the Oviedo Hotel.

### FIND NO TRACE OF WARING; BOND MAY BE FORFEITED SOON

Orlando, Feb. 1.—County authorities today were without a trace of the whereabouts of R. D. Waring, sentenced to serve six months in the county jail for the shooting last year of J. F. Ange, banker, and who was under \$1,000 bond to appear in Orlando February 24 to commence his sentence. Phil Goldberg and E. E. Keen were on Waring's bond.

Additional prosecution in the event Waring is found may be a result of his failure to appear on time, it was indicated by authorities today. The matter will be brought before the criminal court at its next sitting here, surrendered by his bondsmen, the bond will be forfeited, according to present plans.

This California school teacher who refused \$100,000 a year to go into the movies would need a bodyguard to keep off would-be-husbands—if she existed.

### FRUIT FLAVOR IMPROVED BY COLD STORAGE

WASHINGTON, March 1.—Specialists in the U. S. Department of Agriculture have just reached a decision, after extensive investigation, that the flavor of the grapefruit is improved by placing it in cold storage, which will be of great value to Florida, which state produces practically all of the grapefruit in this country.

Contrary to the prevalent opinion that citrus fruit will not ripen off the tree, the United States Department of Agriculture has found that, like pears and apples, grapefruit will develop a superior eating quality after a period of one to three months in cold storage if suitably cured before storing. One reason for this is that, while the sugar content remains about the same the acid content decreases markedly during storage, and apparently the bitter principle is broken down, which also enhances the sweetness of the fruit. The fruit store better when picked about mid-season.

These conclusions were reached by the Bureau of Plant Industry following a series of experiments begun in 1917. It was thought to be an advantage to the grapefruit market to determine whether the fruit could be kept without deterioration until after the peak of the harvest season in January, February and March. In the seed-producing varieties the seeds are likely to sprout while the fruit is still on the trees, which injures the delicate flavor of the fruits. Both producer and consumer are therefore benefited by the growers knowing that this fruit may be picked before the seeds sprout and retained in storage in good condition for several months.

In the work on grapefruit storage the most serious difficulty encountered was the tendency of the grapefruit to "pit" in cold storage; that is, to develop sunken spots in the skin. These spots did not affect the flavor of the fruit, but the appearance was less attractive and made the fruit unmarketable in competition with smooth, yellow fruit. Pitting can be largely controlled it has been found through these experiments, by curing the fruit in a warm room at about 70 degrees Fahrenheit for two or three weeks, and then placing it in cold storage at 32 degrees Fahrenheit for a longer storage period.

### WEATHER AND CROP CONDITIONS FOR THE WEEK ENDING FEBRUARY 28TH, 1922

Temperature: The week was abnormally warm, the average temperature being 5 to 11 degrees daily, above the seasonal. Midday temperatures were well up in the 80's. There was a high percentage of sunshine.

Precipitation: Showers fell over the various divisions, and locally heavy rain was reported from some localities, but the deficiency in rainfall continued over most of the interior of the southern division and locally on uplands of the peninsula. Low lands in portions of the Irish potato belt of the north were too wet, being unfavorable for the development of the crop. Some of the heavy rains of the week were: Miami, 2.5; Jacksonville, 2.1; Jupiter, 1.7; Satsuma, 1.2; and Brooksville, 1 inch.

Condition of Crops: The warm, moist conditions were favorable for a rapid growth of all vegetation; germination was hastened, the recent seeding of corn, melons and peanuts showing above ground. Early planted corn and melons were worked; planting continued over the central, northern, and western counties. The planting of peanuts increased during the week. Some few farmers continued to plant cane in the western division; most of the crop has been planted elsewhere. Citrus trees made a good growth, and citrus bloom is abundant in some groves. Truck was shipped in larger quantities, but the planting of beans, tomatoes and other truck continued over much of the northern and western counties; some sweet potatoes were also set out. The weather was too warm for celery and lettuce. Strawberries did fairly well. Onions generally are in good condition.

Kimball Pinnos, from factory to home prices. When you are out shopping, don't fail to stop in at T. J. Miller & Sons' and look them over. Then see Mr. Lanier, for prices and terms. 288-14c

### TOMATO GROWER GETS CHECK FOR DAMAGES TO TOMATOES IN TRANSIT

MIAMI, March 2.—Thomas J. Peters, styled hereabouts as the "tomato king" has received a check of \$69,098.68 from the Florida East Coast Railroad in payment for damages to his tomato shipments in 1920. Mr. Peters had filed 15 suits against the railroad claiming the tomato ship-

ments had been damaged because of the failure of the carriers to furnish adequate refrigerator service. The matter was finally settled by a board of arbitration agreed upon by the parties to the suits. Costs of the litigation will be borne by the railroad, which increases its loss to \$70,359.

### VIOLATION OF LAW TO LEAVE OLD LICENSE ON YOUR CAR

JACKSONVILLE, March 2.—Sheriff Merritt, of Duval County, holds that it is a violation of the state law for an automobile owner to leave last years tag on the front of his car even if the machine does carry the 1922 tag on the rear. The old law provided that tags be carried both front and rear, the new law that only one tag be displayed, and that on the rear. Numerous automobile owners attached the new tag at the proper place, but the sheriff declares many were too fatigued after the job to remove the old tag at the front end and that as a consequence they are law violators. The sheriff does not say what he intended to do about the practice.

Have you phoned 325, Bower & Roumillat, for your free appointment with Miss Welch? 287-74c

### COURT HOUSE JANITOR WOULD NOT STAND FOR HANGMAN'S ROPE

GAINESVILLE, March 2.—Two widely divergent views arose here over the propriety of retaining in the sheriff's office a hangman's noose used recently in administering the death penalty to a negro and Obie Ross, negro, failing to carry his argument, has resigned as courthouse janitor.

Sheriff Ramsey, after the execution placed the noose in his office to be kept as a memento. Obie protested, however, that its presence awoke weird emotions within his being; most certainly, he insisted, it wasn't conducive to a nervous temperament. He arrived on the job early one morning but after a few minutes with the office broom he realized that it was impossible for him to keep his mind on his business, and left.

The rope was so unlike a rabbits foot, he said.

The courthouse went along without a janitor for several days, too, but along came Hamp Du Bose, of practical mind, and the vacancy was filled.

Miss Welch, the Famous Beauty Specialist at Bower & Roumillat's all this week. 287-74c

### THE POWER OF SUGGESTION OVER HUMAN MIND IS GIVEN PROMINENCE IN "SHAME"

Ever since man put words on paper, the power of suggestion over the human mind has been the basis for countless stories.

A great drama was written once around a man who, being told repeatedly that he looked ill, actually became ill. The influence upon a person of certain jewels, of the odor of a flower, of a color, has been known to change the whole life of that person. This is not fiction; it has been proven by scientists.

Such a situation arises in "Shame" the William Fox special melodrama that comes to the Star Theatre Friday and Saturday of this week. Here the power of suggestion is clearly shown. That fine young actor, John Gilbert, is told by an unscrupulous person in the story that he is a half-caste. The suggestion preys on his mind. Soon he believes he sees his features changing to those of a half-caste. In the mirror he sees reflected what has been told him. A haunting shadow follows him wherever he goes—at least, he thinks it does. When his baby is born, he sees in the child's face the resemblance to the creature he believes himself to be.

It is an astounding theme and a

### Eeney - Meeney Miney - Mo!

To the Ball Hardware we wil go; if we don't find bargains there, no use looking anywhere.

### THE BALL HARDWARE CO.

weird situation. Around it the authors have woven a marvelous story of what happens to a man who becomes obsessed with a fixed idea.

Not until the suggestion is withdrawn and the man learns the truth does the haunting shadow leave him and his mind returns to normal.

A Sunshine comedy will be an added attraction at the Star Friday and Saturday.

### PERSONALS

Fair and warmer—yes, much warmer.

Where is that cold weather that was sweeping over the country?

Celery is the best in the history of Sanford and looks like the best prices in the history of the industry.

R. W. Greene of the faculty of Rollins College was here today and spoke at the high school about the Aquatic Meet that will be held at Rollins College. Mr. Greene is well known in Sanford and his many friends gave him a warm welcome.

J. Roy Smith of Jacksonville is in the city much to the delight of his many friends and while he is here he is taking measures for the Ed. V. Price Co., with headquarters at Perkins & Britt. Some of the niftiest fabrics and the lowest prices on these fine goods.

G. L. Bledsoe brought in two stalks of celery to the Herald office today that were simply great. They were of the new Pearly White variety and had never been under bonded. Yet were ready for the table and were crisp and fine. Mr. Bledsoe is one of the most successful growers of celery in the city and has about 65 cars that will be ready to go commencing this week.

L. M. Crosswaite, of Bloomington, Ill., is in the city for a visit with his many friends. Mr. Crosswaite has been spending the winter in the Ft. Myers section where he has large orange grove interests. He lived here several years ago being interested in the Geneva section. He says that it is ten degrees above zero in Bloomington and he has no wish to go back until he knows there is a change in temperature.

### BOWLING LEAGUE NOTES

By a Man Who Knows More About "Notes" than "Bowling"

#### ROTARY LOSES ANOTHER

Just what there is in the cellar of the Sanford Bowling League no one knows unless it is the Rotary Club because for some reason or other they have decided to stay there. And when they lost again last night to the Congregational Club they fixed it for themselves to keep the cellar as a permanent berth.

The game itself was a good one, it being anybody's game until the last part of the last game. Col Knight rolled the high score of the evening, and this is an achievement in itself when you consider that holding, the Congregational star was in the game.

Averages for the season, including last night's game will appear within the next day or two, and there will be quite a few changes since the last publication.

Last night's games were as follows:

	Rotary	Congregational
Householder	133 129 137 399	138 150 106 394
R. E. Stevens	113 123 114 350	
Henry	91 98 119 308	
Knigh	155 148 133 436	
Club total	1887	
Helding	150 138 135 423	
Pennington	141 149 142 432	
Bolly	121 108 154 383	
Renaud	135 132 149 416	
Kent	114 104 124 342	
Club Total	1996	

	W	L	Pct.
Congregational	5	2	.715
Men's Club	5	3	.625
Kivannis Club	3	4	.428
Rotary Club	1	5	.167

### MISS FLYNT TAKES CHARGE OF THE TEMPLE CLUB

Miss Lucy Flynt has assumed charge of the Temple Club as matron and proprietress, Miss Shaw having resigned to go to her former home. Miss Flynt is well known here having formerly resided at Geneva and had charge of the Geneva House for many years. For the past year she has been living at her old home in Forsythe, Ga. Miss Flynt will conduct the Temple Club along the same lines as it has been managed and will serve those fine chicken dinners that made the Geneva House famous. The Temple Club has proved a most excellent place for the young ladies of Sanford as well as some of the married folks and the Sunday dinners there have gained a great reputation for the Club.

Red Snapper Fish Steak—Stone & Corwin, 327 Sanford Avenue. Phone 372. 292-1tc

#### THE EVERLASTING DRIVE

While the war was on the American people were subjected to all sorts of "drives" for the raising of money. They originated of course in the patriotic impulse to raise money for the carrying on of the war. The ordinary methods of doing it by taxation were not speedy enough, and government came directly to the people, and asked them to exchange their good hard cash for government bonds, bearing the names of "Liberty Loans," which the people were assured would never be worth any less than their face value, because they were backed up by the full faith and credit of a great and rich government. Unfortunately that promise was not kept as many creditors learned to their sorrow when necessity forced them later to place their bonds on the market. But while it lasted there was a tremendous outpouring of money. Spurred on by patriotism the people withdrew their savings deposits, and ravished their old socks and tin cans and other hiding places for the money which they turned over to the government in exchange for its bonds. They carried every Liberty Loan triumphantly "over the top" and never stinted their giving. Never was there known before, such a universal outburst of patriotic fervor in a great and rich nation. It won the war in the final analysis, for it placed 5,000,000 men in the field, and compelled Germany to give up the fight for the odds against her were too great. More than that, it placed the "sinews of war" in the hands of the fighting nations of Europe to the extent of ten billions of dollars, without which they could not have "carried on." That enormous sum still remains unpaid, and is likely to be so for many years to come, but if it never comes back, we can always feel it was worth the price.

The war finally ended in the defeat of Germany, but it left the victorious nations impoverished and destitute. They were filled with the awful aftermath of war, thousands of widows and orphans and crippled soldiers, destitute of any means of support, who must perish without assistance from across the seas. Appeals were made to America, and America responded generously to the cry of distress, as it always has. Millions were sent abroad in the effort to keep the youth of life in the starving ones over there, and the good work is still going on, for the demand seems unlimited and never-ending. We do not regret our liberality. On the contrary we take pride in the fact that we have been able to come to the succor of the world in its hour of sore need.

But there is one feature of the case that is not so pleasing. The modern "drive" is an institution of the war time, and did its work well in that strenuous time. But it demonstrated that it is easy to wring money from the American people, provided a worthy object can be named, and there is a great host of plain grafters who found the engineering of "drives" profitable and pleasant, and are loath to see them discontinued. So they have instituted "memorials" for all sorts of purposes by which they hope to keep in the limelight and get a pleasant living for a while longer. We have memorial highways, memorial churches, memorial hospitals, and memorials to this, that and the other thing to which the people are asked to contribute. Some of them are worthy objects indeed, but not all are, and all should be scrutinized closely to see that the personal element and any possible graft is eliminated.—Tampa Times.
