A SHETLAND PONY FREE!

Boys & Girls

Here is your opportunity to become the owner of a beautiful Shetland Pony without investing one cent. The Sanford Herald is going to give this Pony to the boy or girl under 15 years of age who proves to be the best salesman, in other words, The Sanford Herald is inaugurating a salesmanship club, and the winners will be awarded valuable prizes.

ANY AMBITIOUS BOY OR GIRL CAN WIN

The Campaign is open to any boy or girl under the age of 15 years. Everyone has an equal chance to win. The one who proves the most capable will become the owner of the beautiful Shetland Pony when the campaign is over.

EASY TO GET SUBSCRIPTIONS

Every boy and girl wants a Shetland Pony and the one The Herald is going to give away will make you the pride and envy of all your friends. You can win it. Will you? All that it takes is a little effort on your part, with the help of your friends, securing subscriptions to The Sanford Herald.

HOW TO WIN

It is a simple matter to get subscriptions to The Herald. Renewals count just as much as new subscriptions and you will find it exceedingly easy to secure them in the neighboring towns as well as in Sanford.

DON'T STOP UNTIL YOU WIN

If you wish to win this lovely Shetland Pony you must get busy at once. Don't allow a single day to pass by without entering your name as a contestant, rolling up your sleeves, making up your mind and going to work.

It will be the boy or girl who gets an early start who will stand the best chance of coming out as the winner of this expensive prize. The one who waits until the campaign is nearly over before going to work will be at a disadvantage. Other contestants may pile up a big vote and have such a lead that it will be difficult to get to the top. The boy or girl who starts now will have a distinct advantage over others who start later.

Don't let a single minute go to waste, this campaign is of short duration, ending on Sept. 29th, just before school starts. See all your friends, enlist them in your behalf. But don't depend on them to do all the work for you. No doubt they will help you all they can but to make yourself the winner you must put in every spare moment you have piling up votes for yourself.

Cut this coupon out, fill it in and mail or bring to The Campaign Department of The Herald. It means 100 votes for the contestant whose name appears on it.

Having nothing else on their minds to worry about just now, Hillsborough county citizens have engaged in a controversy regarding the construction of a new courthouse. It's just a thought, but do you suppose the completion of Dade county's handsome new courthouse could have had anything to do with raising the question in Hillsborough?

The Bootlegging Industry

A grand jury investigation in Philadelphia has disclosed the information that a ring of bootleggers has deposited more than ten million dollars in the banks of that city during the past twelve months.

The inquiry has further revealed the systematic manner in which the rum traffic is handled. Powerful underworld gangs, perfectly organized, pursue their trade with efficiency that is astounding.

Secrety is the keynote of the rum runners' activities. They move stealthily, carrying on most of their operations under the cloak of darkness.

Thus is the wholesale bootlegging business carried on. Increasing in magnitude, it offers still greater obstacles to police officers.

Diversified Florida

When those uninformed speak of agricultural Florida they generally refer to the two major crops—truck and citrus.

The Orlando bureau of the United States Department of Agriculture has recently issued a statement on the condition of Florida crops as of August 1, showing that with the exception of sweet potatoes and sugar cane syrup, Florida's farm products show an indicated increase in condition in comparison with the total output of 1927.

Tobacco had the largest acreage increase of any other commodity grown in the state, the report asserts, there having been 143 per cent of last year's acreage planted to this staple.

Peanuts had the second largest acreage increase this year with 120 per cent, or a total of 53,000 acres, which were expected to produce 34,280,000 pounds as compared with 28,160,000 a year ago.

There was an increase in hay, tame, acreage, too this year, with 105,000 acres being planted to that commodity. The indicated yield for hay this year was 80,000 tons as compared with 64,000 tons a year ago, or during all of 1927.

A comparison of some of the other leading commodities, exclusive of citrus and those previously mentioned follows:

Oats, indicated yield this year 191,000 bushels, yield last year 121,000 bushels; corn, indicated this year, 7,533,000 bushels compared to 7,449,000 bushels last year; white potatoes, 3,875,000 bushels this year as compared with 3,045,000 bushels in 1927; peaches, indicated this year 108,000 bushels, against 69,000 bushels last year; pears, 55,000 bushels in 1928, and 44,000 bushels last year; and grapes 900 tons this year compared with 610 tons in 1927.

Manatee countians who have recently started the movement to bring tobacco to this county as a money crop will be interested in these figures showing the great increase in acreage planted in the state this year, an indicated gain in production of more than 2,000,000 pounds.—Bradenton Herald.

GOING TO COLLEGE

At this period an army of young people are college-bound for the first time. They come from city, village and countryside, and for the most part with high hopes. It is good to look upon these youthful troopers—they are so light-hearted, happy, and dreaming their great dreams.

Going to college, like setting up in business, or getting married, is an adventure, the outcome of which no one can foresee, much less forestell. Life itself is an adventure, with pluck, perseverance, and moral stamina all on the side of success. Given these assets, in college youth, the path to honors and a diploma is reasonably assured.

When the bill making possession of liquor a city offense comes before the council tonight we are convinced that councilmen will refuse to open this new gate to graft, hypocrisy and blackmail. Laudable in purpose and correct in theory, the proposed law is nevertheless thoroughly unworkable and dangerous. Better use up the anti-liquor laws already have before making any new ones.—John Temple Graves, II in Jacksonville Journal.

LIBERTY AND WALL STREET

WALL STREET JOURNAL

Readers familiar with the literature of the Civil War will remember a certain editor who did "agree against tyranny to draw—readers and triggers; but liberty's a sort of thing as don't agree with niggers."

Apparently it is the sort of thing which is not supposed to agree with Wall Street. Without rhyme or reason a number of prominent brokers were summoned to give evidence before the grand jury in the matter of night clubs charged with breaking the Volstead law.

These summonses seems to have been issued on the mailing lists of some night clubs. Such lists are called "sucker lists" and are greatly in use by advertisers of all kinds, reputable and otherwise.

That this sort of persecution has political origin may well be possible. Robinson Pledges Rigid Enforcement Of Dry Amendment

(Continued From Page 1)
under clearing skies, though the new pin seats and the elaborate decorations about the speakers platform were drenched and dripping.

Mrs. John B. Warner, daughter of Governor Al Smith, also came to Hot Springs as the personal emissary of her father and received generous applause when presented by Chairman Raskob.

There was a marked difference, however, between the roar which Senator Robinson and the scattered handclapping which followed Raskob's reference to Gov. Smith. Several later allusions to the presidential nominee by Senator Peter G. Gerry, chairman of the National Advisory Committee, were followed by the same perfunctory applause.

Robinson's speech began to the fading echo of "east side, west side" in the rich green pines of the Otark foothills. The dashing rendition of the famous Al Smith song by the notification band marked the introduction of the official campaign song in this part of the country. Many in the crowd apparently did not recognize the tune for its stirring cadence did not call out here the great vocal outburst which greets it in its native haath.

Patriarchs of the party, however, who had lived through the frenzy and din of Madison Square Garden recognized the old battle air in its first strident bar and greeted it with the great yell which has kept us all from ever learning the words.

"There has always been room in the Democratic Party for those who differ as to the best means of promoting temperance and of suppressing the traffic in alcoholic beverages," Robinson said.

Recalling that the platform committee of the Houston Convention rejected both a plank declaring for modification and one specifically declaring approval of the Eighteenth Amendment and the Volstead Act, the nominee branded as an impachment of intelligence the assertion that Gov. Smith's advocacy of modification makes him a "nullificationist."

"The convention recognized that the Democratic Party is neither a prohibition party nor an anti-prohibition organization, but if entrusted with the power its duty would be to enforce all laws" he asserted vigorously.

He echoed Gov. Smith's acceptance speech in his denunciation of Republican enforcement methods.

"To one who for 25 years has uniformly supported measures for prohibition it has been disappointing to note the methods and agencies employed by the Republican Party in the enforcement of national prohibition laws."

He declared also that President Wilson vetoed the Volstead Act. Defining agricultural problems as "perhaps the most important issue" of the campaign, Robinson closely followed Governor Smith

on farm relief. "If a more equitable and effective plan than the equalization fee is discovered, it should be adopted. The time has come, however, when an economic adventure is justified in behalf of the millions who engage in that industry."

He attributed to Herbert Hoover a large measure of responsibility for the eight years "record of feebleness" of the Republican Party in dealing with the problem. Hoover's acceptance speech utterances on agriculture he characterized as "old promises, often broken" used as a bid for a renewed lease on power.

Robinson's plea for religious tolerance was in the name, he said, of sound public policy.

In order to avoid bitterness,

the leaders on both sides must display a sense of justice and fairness by refusing to become the beneficiaries of political influences and processes which they themselves are unwilling to employ."

Democratic leaders generally interpreted this as in rebuke of William Allen White's attack upon Governor Smith's Albany legislative record, with which the Republican campaign organization disclaimed all connection.

This Mark Stands for Bread Goodness

Let us all rejoice!

People are living longer than they did.

Statistics, usually pretty cold and uninteresting, have given us a great story this time. They tell us the average of life has been extended thirty years during the past 100 years. Most of this increase has come during the past 50 years.

At the rate we are going the Biblical allotment of three scores and ten years as the maximum of a well rounded life, will probably be extended to five score and ten, perhaps more, according to scientists.

This is discouraging to Undertakers but to be honest with you, we cannot sympathize with them, and we do not believe you can, no matter how much you may like some of them personally.

Many Undertakers will have to find a more profitable vocation. In New York City for instance there are 1,800 Undertakers to take care of 72,000 people who die on the average annually.

This is an average of only 40 cases a year per Undertaker. The result is that most of them find it hard to make a living.

People will not die, even in highly congested New York City, where 6,000,000 people or more are getting along great, despite everything.

You realize, of course, why people are living longer, don't you? Is it not because they are taking good care of their stomachs?

Results: Better health and a brighter outlook on life. People are bound to live longer if they get good things to eat regularly. Of course, there is not a thing that is fit to eat unless one knows that it is made of pure food. Fortunately, people are protected these days by Honest Manufacturers of Pure Food Products. The labels they use for their products have proved their integrity. People are not now afraid to eat any food that carries an honest label.

It is said that one touch of ptomaine poisoning, even if it does not kill, shortens life five years. It is very seldom now that anybody gets a touch of ptomaine poisoning.

Quality Bakers of America all bear the above insignia which does not change to meet any new fad that comes up. It is a mark that spells Uniform Quality year in and year out, day in and day out. Hence, it has earned Public Confidence and Good Will.

The public always appreciates careful, sustained effort on the part of any body in any line to give them articles of food that can be consumed safely and at the same time can be counted on to preserve strength and health.

The greatest of all standards in every home is Bread. Called "the Staff of Life," it proves that it is every day. There is no other article of food used more universally or that is more necessary. Therefore, every family is entitled to Good Bread of a Quality that is sustained scientifically and conscientiously.

A very large part of this public knows our Bread and eats it regularly. More may eat it if they wish. Any Good Grocer can supply you.

Bootleggers Pour Stream of Gold Into Hands Of Philadelphia Cops

PHILADELPHIA, Aug. 31.—(INS)—A steady stream of gold has been poured into the hands of corrupt police and city officials by the bootleg ring working here, district attorney John Monaghan declared as a grand jury continues its investigation today of underworld conditions here.

"Enormous sums of money were paid police and officials for services rendered, Monaghan disclosed following examination records in which he asserts were kept the accounts for the principal bootleggers in the city.

"Unheard of sums were accepted by police and police officials," Monaghan said, He refused to amplify this declaration as the books were subpoenaed by the grand jury and all evidence is kept secret.

Further revelations even more startling are promised as the in-

quiry continues. It has already been brought out that \$10,000,000 was leaked by bootleggers here in the past year.

"Scarfare" Al Capone also was linked with conditions here. Testimony was given he was lavishly entertained here several times. A warrant is now in the hands of police for Sallor Freedman, former Chicago pugilist and alleged gunman.

Max "Boo Boo" Hoff, well-known prizefighter manager, termed the "king of Philadelphia racketeers," by his ex-chauffeur, Lou Elfman, was quizzed after the alleged booze records were found in offices adjoining those formerly occupied by Hoff. "Boo Boo," as he is known in sports circles here, will appear before the jury again today. He has been called almost daily since the inquiry started 10 days ago.

Levine To Make Hop To U. S. From France

LONDON, Aug. 31.—(INS)—Announcing that they had decided to make their transatlantic attempt from Paris instead of from one of the English flying fields, Charles A. Levine, Miss Mabel Bell, "Queen of Diamonds," and Bert Acosta, took off from Croydon field for Le Bourget flying field at 9:30 A. M. today.

Acosta was at the controls, the flying trio took all their luggage with them, explaining that Croydon officials had refused permission for the use of the field for a transatlantic attempt and that other English fields were unsuitable.

Police Suspect Foul Play in Motor Wreck

WASHINGTON, Aug. 31.—(INS)—Lt. Richard Wetherell, Jr., U. S. A. and W. F. R. Griffith, Jr., 29, a student, were found unconscious early today along the roadside on the Fairfax Pike in Virginia. Both are in serious condition.

While a wrecked automobile was nearby, Army and police authorities are investigating whether Wetherell and Griffith were the victims of foul play. Col. Guy V. Henry, commandant of Ft. Myer, expressed the opinion Wetherell had been "sandbagged and shot." Wetherell is the son of Lt. Col. Wetherell of Ft. Thomas, Ky.

German City Passes Its 700th Birthday
HANOVER, Aug. 30 (INS)—To the ordinary attractions of a zoo- logical garden a new one has been added in the Hanover Zoo. The young lions and bears born there are being taught various tricks. The lions in particular, in charge of an experienced tamer, have made rapid progress, but training the bears is more difficult. However, six young polar bears and a brown bear already form pyramids, "shoot the chutes," wheel baby carriages and perform other stunts that have greatly increased the number of visitors to the zoo.
