## ALL POWERS ACCEPT BIDS TO NAVY MEET

**France And Italy May  
Seek Restrictions  
Which Will Limit  
Conference's Scope**

By George R. Holmes,  
International News Service  
Staff Correspondent

Washington, Oct. 16.—All of the powers have now signified their acceptance of the invitations to the London naval conference. Official advice to this effect have reached Washington and assure at least start on the problem which President Hoover and Premier Ramsay MacDonald have set for themselves—the reduction of the world's navies.

There is gratification in Washington over the fact that all of the powers have finally signified their willingness to participate in the conference. But officials here are holding their enthusiasm in check until it can be seen just what conditions are hedged about France's acceptance.

The American note of acceptance, sent last week, imposed no conditions. Japan's acceptance was likewise unconditional. Conflicting reports have reached here as to whether Italy's acceptance is without reservations. As for France, there is little doubt here that her note of acceptance will lay down certain restrictions which may define the limits to which the conference may go.

More and more, it is being recognized here that the fate of the parity line in French hands. If the French are willing to "go along" on the general principals already agreed upon between President Hoover and Premier MacDonald the conference can be expected to encounter fairly smooth sailing if not, there will be storms in London in January.

The most that can be expected from the London meeting is a five-power naval agreement that will reduce existing naval establishments and place all future building on a fixed basis. The least that can be expected in a tri-party agreement between Great Britain, the United States and Japan, which will be of a temporary nature and endure only so long as France and Italy do not embark upon major building programs.

The cornerstone of British naval policy is that the British navy must always be sufficient to meet the sea-power of any European combination. The British successfully carried out that principle in the rationing of capital ships at the Washington arms conference, and there is no expectation that they will sacrifice it in London when the effort is made to attain auxiliary ships of war.

Consequently the success of the January conference in the larger sense, rests with France and Italy. A tri-party agreement between Great Britain, the United States and Japan, while satisfactory in some respects, would necessarily be elastic, stretching and contracting in accordance with French and Italian building.

## Flood Waters Near Miami Appear To Be Staying Stationary

MIAMI, Fla., Oct. 16. (INS)—The four flood lakes formed by rain waters in the interior moving toward the ocean, which for 30 hours have threatened Homestead, a suburb, appeared to be stationary today, with little chance of causing appreciable damage.

W. C. Watson, chairman of the county board of commissioners, said that the flood had receded in several places in the Homestead district, south of here, and Homestead city officials declared that a rise of less than an inch has been noted there in the last 24 hours. A recession was expected during the day.

Meanwhile, the first casualty of the flood was reported. A negro truck driver backed his truck into a high-tensioned wire which charged the water about the machine and caused his electrocution.

Two thousand members of the window cleaners' protective union were scheduled to call a strike as a gesture of respect to men who have been killed cleaning windows and as a protest against the inhumane methods of employers.

Still another field of industry that faces a tie-up is the making of false teeth.

## Stores Asked To Close For Funeral

**Mayor Vivian A. Speer to-day requested Sanford business houses to close their doors tomorrow afternoon between 2:30 and 4 o'clock out of respect for Theo. J. Miller whose untimely death yesterday cast a shadow of gloom over the city, and elicited many expressions of regret from merchants and other business leaders, many of whom had known Mr. Miller for a number years and some of whom had been associated with him in various enterprises.**

## FINAL RITES FOR T. J. MILLER TO BE HELD TOMORROW

**Masonic Ritual To Be  
Given At Cemetery  
After Church Service**

Final rites for Theo. J. Miller, pioneer resident and retired business man, who passed away Tuesday afternoon, will be held Thursday afternoon at 3 o'clock from the First Methodist Church, with the Rev. W. P. Bohman officiating, assisted by the Rev. A. S. Pack.

Brief services will be held at the church, with members of the various Masonic orders attending in a body. The Masonic burial ritual will be followed at Lakeview Cemetery, where interment will take place.

Honorary pallbearers will include P. M. Elder, G. W. Spencer Sr., Fred Turner, A. P. Connally, H. R. Stevens, R. J. Holly, B. J. Starling and H. M. Papworth. The list of active pallbearers is composed of George A. DeCotes, W. M. McKinney, G. M. Hand, L. A. Brumley, H. L. Thrasher, F. L. Woodruff, W. A. Leffler and George A. Speer.

The ruins alluded to by Col. Lindbergh in his eulogies, Ira'Brien declares, "have for years been perfectly well known to scientists."

Archaeologists have made many attempts to pierce the almost impenetrable jungles of Yucatan in search for Mayan ruins, but the territory was believed to have been the seat of an advanced civilization that flourished approximately 4,000 years ago.

Col. Lindbergh's 25-hour flight over the jungle wastes, in which he was described as accomplishing work that would have required five years under ordinary explanation, was made in connection with two scientists of the Carnegie Institute of Washington, Mrs. Lindbergh and a radio operator who participated.

**Self-Defense Plea  
Claimed By Milton  
In Hammer Slaying**

Rudolph Milton, negro alleged hammer slayer of John Hurd, operator of a Goldsboro garage, was returned to Sanford last night from Brunswick, Ga., where he was arrested upon request of local authorities. Deputies George Schaffley and Dave Broadhead, after being taken to check before the city was held in a jail.

In his seventy-eighth year, Mr. Miller had lived the major portion of his life in Sanford, coming here in 1870. He was born in Antwerp, Belgium, and immigrated to America when a youth of 21. After a residence of several years in New York and New Jersey, Mr. Miller moved to Florida. He settled first at Black Point, near Jacksonville, and later came to Sanford in a sailboat.

First in the employ of the South Florida Railroad, Mr. Miller later went into the furniture and undertaking business, which he followed to 40 years until 1924 when he retired.

Besides his widow, Mrs. Mamie Miller, the deceased is survived by two sons, City Commissioner Frank L. Miller and Dr. O. J. Miller.

Officers investigating the case learned that Milton had been with Hurd all Saturday night and that he had caught an early morning train, buying a ticket to Brunswick. A telephone call to the authorities of that city led to Milton's apprehension.

## DOUBT IS CAST ON DISCOVERY OF LINDBERGH

**Mexican Scientist Ri-  
dicules Story About  
Finding New Terri-  
to in Yucatan Jungle**

MEXICO CITY, Oct. 16. (INS)—The reported discovery of important Mayan ruins by Col. Charles A. Lindbergh and a party of flying geologists in the jungles of Yucatan and Quintana Roo was ridiculed today by Dr. Moreno Ira'Brien, noted Mexican archaeologist who spent many years exploring the territory traversed by the Lindberghs in their recent flight.

Writing in the newspaper *El Universal*, Ira'Brien attempts to cast grave doubts on the authorship of the alleged Lindbergh discoveries, claiming that the Indians sighted by the Flying Colonel have for years been familiar with the name of Lindbergh.

The examination of Ira'Brien, a member of the Mexican government expedition of 1921 which made a thorough exploration of Yucatan and Quintana Roo, created a sensation here. Col. Lindbergh's discoveries were hailed here with the same undisguised acclaim as those claimed by the Indians.

Mr. Ira'Brien's entry headed the list of candidates to four. The others are Mr. Thrasher, Mayor Vivian A. Speer and Leon L. Lewis. Mr. Lewis and Mr. Speer are opposing each other.

While Mr. Ira'Brien's name has been mentioned for some time, he has not encouraged the movement in his behalf. A group of friends called upon him Tuesday and urged him to make the race to be assured, declaring that if nothing else, he could be elected to the vacant position of vocational instructor at the Orphanage at Sanford.

Mr. Ira'Brien has been a resident of Sanford for nine years, coming from Crown Point, Ind., where he was born and where he had spent all of his life. He began working at an early age in his father's newspaper office. He followed this line until he was 16 when he entered the Dry Goods business, which he engaged in for 12 years.

Padring health compelled Mr. Ira'Brien to abandon the grocery line and he entered the general contracting business. He acquired a farm and engaged in agricultural pursuits on the side to gratify a life-long ambition to till the soil. For a period of three years Mr. Ira'Brien also served as a station cashier of one of the Carnegie libraries of one of the Carnegie branches.

A demand by inheritance, Mr. Ira'Brien served for many years as district chairman and as a member of the state committee of his party. He served Crown Point city treasurer, after being born to check before the city was incorporated.

Coming here in 1920, Mr. Ira'Brien invested extensively in the Eureka Hammock section and now one of the leading dealers in furniture of the community. Mr. Ira'Brien's home is at 607 Belmont Avenue.

**Witness Of Pantages  
Is Held For Perjury**

LOS ANGELES, Oct. 16. (INS)—The grand jury total to hear the case of Garland Biddle, first witness for Alexander Pantages, who was thrown in jail on perjury charges yesterday, for minutes after he had testified in the wealthy theater man's behalf. Little, borne by an Arkansas lawyer and now a low-key salesman, obtained his release from the county jail last night on a \$1,000 bond.

Testifying he overheard a conversation between Emilio Pringle, witness of Pantages in the attack case, and her friend Nick Damato. Biddle's story had the grand jury for the theater man's defense. Stalin was chiefly responsible for Tito's early became the latter's main opponent in Stalin's political battles.

Meanwhile, the first casualty of the flood was reported. A negro truck driver backed his truck into a high-tensioned wire which charged the water about the machine and caused his electrocution.

No great property damage has been done, officials declared today. Losses amounted mostly to bodily damaged highways and railroads. A drainage ditch to take some of the load of waters out of the Miami Canal is being constructed by a large crew of workmen. Others are building and strengthening dykes along the canals.

CHICAGO, Oct. 16. (INS)—An indictment charging first degree murder was to be asked of the Du Page county grand jury at Wheaton today against John Preston, the "model husband" who has confessed to strangling to death Agnes Johnston, 26.

## Equipment Contributions Make Possible Vocational Instruction At Orphanage

### LEHMAN ENTERS NAME IN CONTEST FOR COMMISSION

**Prominent Grower Is  
Urged By Friends To  
Throw Hat In Ring**

Interest in the local political campaign increased today with the announcement that H. J. Lehman, a prominent grower, will be a candidate in the coming election.

Despite handicaps, mostly because of a lack of equipment, rapid strides have been made in the race since it was undertaken a few months ago. D. B. Sweet, Jr., head of the department, told the Kiwanians at their weekly luncheon. He was a guest of A. J. Marquette.

Practical training in a dozen trades is already being offered under the direction of Mr. Edward Ahrens, the trades of which instruction are given by printing, carpentry and wood work, mechanics and plumbing. Other training is to be inaugurated from time to time as the necessary equipment is contributed.

The beginning of the vocational

program at the Orphanage was credited to T. L. Hanna and other Sanford Kiwanians, whose organization of industries, tools and equipment were greatly appreciated, Mr. Sweet said.

The speaker expressed a need for additional equipment. A machine shop is one of the biggest needs. A concrete block making machine is in demand as well as all kinds of wood working tools. A new dugout into the orphanage is used in masonry welding, iron and other equipment has been purchased, Mr. Sweet said. The printing shop is in need of more types and tools for five staple jobs, and benches could be used to advantage. What was decided was that Lehman should start several instruments, the Raylants having enough money to purchase a lathe and then the other tools.

The speaker went on to say that Hanna had asked how he, the trustee and the children he was visiting, could help him. He then asked me not to tell anyone of the affair. "Do you remember you left tickets for a benefit dance while we were at the front?" "Yes," he said, according to Mr. Sweet.

"The donor wanted me to attend," he said.

## PHILADELPHIA IS REJOICING OVER SERIES VICTORY

**Staid Quaker City Unlooses Orgy Of Celebrating After Win**

PHILADELPHIA, Oct. 15.—Outside, a city bereft of all reason shrieked its paean of joy, capering, gibbering, rioting with an abandon that was boundless. It had just been a witness to the most inglorious spectacle a World Series ever had known, a chili-and-fever fitish that had brought glorious victory and a world's championship to Philadelphia, tragic defeat and a sense of sickening disaster to Chicago.

Inside, the dressing room was dark and its vast quiet, by comparison, was ominous. Newspapermen, callous souls usually, waited with unswayed consideration, their voices lowered to a respectful note.

The curtain had been lowered for the last time, "Mule" Hays and "Bing" Miller, the stars of the piece, had bowed themselves off. Probably the greatest drama a World Series ever had produced was over. And the old "Blastrics," having outlined the years to see the day come, were unable to take their curtain call, Connie Mack, the man who made the miracle possible, had collapsed in his hour of triumph.

That was yesterday, five minutes after Hays had hit a home run over the fence in the ninth score with one out in the ninth inning, and Miller had followed with a double to right center, scoring Simmons with the winning run.

Today, the world, having indulged itself in its orgy of emotion, was at peace again and Connie Mack, himself once more, was able to make the curtain speech that the choir of his advancing years had denied him yesterday. It was typical that his first word was a tribute to his rival manager, Joe McCarthy, and his second a frank admission that he had controlled his fifth game of the series to the Cubs and had been rebuking his plans for a sixth game, that never came.

That was how fine they drew this series, in spite of the fact that the Athletics won four of the five games and outfit and outfit fielded the Cubs from the first to last. They never outgamed the Cubs for one split-second, and the hair-raising finish of Saturday and yesterday far from dispelling this declaration, actually sustains it.

On Saturday, the Cubs were in front, 8 to 6, going into the final half of the seventh inning and were beaten by a record 10-run rally. This was indeed passing like Charles Root's inexplicable collapse, an blinding sun that caused Hack Wilson to lose two flies in the same inning and something that caused Simon to smash to top giddily over McMillion's head.

Yesterday, the Cubs went into the last half of the ninth behind a 2 to 1 lead. The Athletics' cause was all but hopeless. The first man, French, a pinch hitter, was bundled down on the field and hopelessly lay on the ground and hoped. Over a period of 100 innings, the Athletics had made two futile hits and the side had been set down in order seven out of

## T. J. MILLER, 78 IS DEAD AT FIFTH GAME BATTLE

(continued from page one)  
was filled with interest and achievement. He was on a number of occasions a member of the old city council, which he also served as president at different times. On several occasions he was urged to accept the mayoralty but always declined.

Mr. Miller's business interests were many and varied. He was for many years a director in the First National Bank and an officer of that institution at one time. He was one of the founders of the Sanford Building & Loan Association, being president of that organization at the time of his death. He was a director in several other business organizations and was financially interested in many other enterprises.

Mr. Miller, with keen business judgment and shrewd policies, succeeded in accumulating considerable wealth in extensive property holdings and other interests.

He was the owner of several valuable business properties and maintained financial connections with other lines of endeavor.

Incidentally, "Red" McEwen had longed to play football. As a youngster he was so light that a career as a football player was out of the question, but in his amateur days at Waukegan he played 142 pounds frame football regularly and before the season had ended he scaled 124 pounds. He continued the sport and won three other "W"s in 1926.

Incidentally, "Red" advocated football for boys who wished to gain weight. Though a top-notch player, T. J. Miller finds that he loses pounds during truck season. Football seems to agree with him especially because he is thrilled during football season.

The one year of football at Waukegan showed him that another footballer's ambitions, but as a freshman and as a sophomore he encountered one disappointment after another. Quitting the squad would have been the easiest thing for "Red" to have done on many occasions, but he didn't.

He didn't think he was especially good, yet in the face of heartbreak and physical hurts, he "stuck on."

The McEwen spirit triumphed.

Last year he gained his opportunity, and football gave him the best of his opportunities. In the number of spectacular stunts, on the track, he sprang from the 400-yard relay to the 100-yard relay, but now those days go to football games, not track meets, "Red" and those of other "Giant" athletes, intrack, went virtually unnoticed.

Came this fall, "Red" was assigned to his customary half-back slot. One day a shortage of quarterbacks was realized and McEwen was pressed into service as a signal caller. Immediately he responded to the job in spontaneous fashion, and the coaches were pleased. Though unaccustomed to quarterbacking, "Red" was a natural, good, yet in the face of heartbreak and physical hurts, he "stuck on."

The McEwen spirit triumphed.

Perhaps it wasn't Malone's fault. Some critics today were in a fit to hold Zach Taylor responsible for the way in which Malone pitched. To Hays—and Miller, it is baseball fortune that sometimes you pitch one way and the perverse ball goes another. Perhaps a word from those in the box-score might do.

The ball to left, a big as a grapefruit and I hit it," said Hays.

In history, that he hit it over the right field fence on a line, tying the score with the aid of Bishop who previously had singled Malone, whether by fate or design, had pitched a fast one, high and inside to Hays. It was the kind he wanted.

## McEwen Demonstrates His Prowess As Substitute For Cannonball Clyde Crabtree

By FRANK R. WRIGHT.

GAINEVILLE, Oct. 15.—There are two reasons why you may have noticed one James Milton McEwen on the University of Florida football team this fall. First because he is the boy with the flaming locks, and secondly because he has shown some spectacular gridiron form as a fullback quarterback for the noted "Cannonball Clyde" Crabtree.

Many folks won't know who James Milton McEwen is, but most everyone will know "Red" McEwen, the drivable Waukegan flesh whose position in the Florida football tournament today can be attributed to an unquestioned McEwen doggedness and determination.

All his life "Red" McEwen had

In the summer of 1928, at R. O. T. C. camp, Atlanta, Ga., "Red"

chose "Red" as his nickname.

Mr. Miller's friends were legion; his acquaintances numbered by the hundreds. Of a retiring nature, he, nevertheless, won friendship by sincerity and an unfaltering personality. For square dealing, his death today was interpreted by many as the passing of one of Sanford's best friends.

Mr. Miller's sole affiliation included membership in the local Masonic chapter; the Blue Lodge, Taylor Commandery Knights Templar, the Shrine, and Woodmen of the World. He was also a devout member of the Holy Cross Episcopal Church, which he had served for 20 years as a member of the vestry.

Mr. Miller's earlier life was closely identified with that of Sanford's pioneering days. Those who knew him best said he always manifested a keen interest in the progress of the City. Prolific words of appreciation of his public service and of his civic pride and loyalty were expressed everywhere today as the public made plans to pay tribute to his memory.

That was yesterday, five minutes after Hays had hit a home run over the fence in the ninth score with one out in the ninth inning, and Miller had followed with a double to right center, scoring Simmons with the winning run.

Today, the world, having indulged itself in its orgy of emotion, was at peace again and Connie Mack, himself once more, was able to make the curtain speech that the choir of his advancing years had denied him yesterday. It was typical that his first word was a tribute to his rival manager, Joe McCarthy, and his second a frank admission that he had controlled his fifth game of the series to the Cubs and had been rebuking his plans for a sixth game, that never came.

**BIBLE VERSE FOR TODAY**

**LET US EXAMINE OURSELVES**—How to yourselves in righteousness, reap in mercy; break up your fallow ground; for it is time to seek the Lord, till the come and rain righteousness upon you.—Habakkuk 10:12.

**PRAYER**—Be merciful unto us, O God, enable us to turn from sin unto Thee.

**Things Against the Sky**

“The mountain barley is selling for fifteen dollars a bushel, while the cheapest grain brings no less than twelve to twenty-five cents a bushel. Starving families are tearing down their houses and exchanging the wood for bread. Others are selling their homes for just enough to eat for two or three days. Children have been killed by their parents to keep them from suffering the pangs of a slow death by starvation.”

**Hard Times That Are Hard**

Speaking of hard times—and someone was we can't remember who, but someone mentioned it the other day—how about China? There famine is spreading throughout the province of Shensi until death has left bodies lying in the streets with no one living strong enough to bury them. Entire families have been wiped out and in some instances whole cities depopulated. Bread lines in Sianfu are so long that it sometimes is necessary for a person to stand in line for two days before he reaches the station where he is given a small piece of bread.

This condition has been brought about largely by the drought which is said to be one of the longest in China's history. For four or five years fields which were formerly the most fertile in that land, have not felt a drop of rain and they have dried up and become as barren of vegetation as a desert. The civil strife which has existed in China since the death of Sun Yat Sen has contributed largely to the disastrous results of the famine. It has prevented the organization of any adequate system of relief for the afflicted provinces.

The Nationalist government, nevertheless, is doing what it can. The Nanking administration, itself, has called upon the citizens of other sections for relief funds. Shanghai has been asked for a contribution of five million dollars. Offices have been opened in larger cities of China for the collection of funds with which to purchase seeds. It is hoped by the government officials that the usual winter rains will not be lacking this year and that crops will soon begin to grow again.

In the meantime barley is selling for fifteen dollars a bushel, while the cheapest grain brings no less than twelve to twenty-five cents a bushel. Starving families are tearing down their houses and exchanging the wood for bread. Others are selling their homes for just enough to eat for two or three days. Children have been killed by their parents to keep them from suffering the pangs of a slow death by starvation.

Added to this, comes the more recent report that

troops sent to the front when China needs her forces concentrated on the Siberian front where Russian Bolsheviks are threatening to overrun Chinese territory. It seems that certain factions have become disengaged over the failure of Chiang Kai Shek, the Nationalist chief, to bring about unification and are seeking stronger leadership. The civil war is expected to be the most formidable in recent years.

Just what the result will be in this war torn country of starvation, no one can tell. There are four hundred million people in that country who are not finding life worth living. Perhaps they will discover a way out of their difficulties. Or perhaps they will go on fighting and starving not knowing why, and wondering if peace and happiness will never come.

**The Florida-Georgia Boundary**

Ask anyone where the boundary line between Georgia and Florida is and he will mention the St. Marys River, but further than that no one seems to know. As a matter of fact this question was once the subject of much legislative haggling, but in more recent years has not been discussed although it has never been finally settled.

It is likely to come into the limelight again according to an International News dispatch if the proposed trans-Florida canal is constructed.—The International News service continues this discussion as follows:

The exact boundary line between the two states has never been settled, according to Attorney General Napier who has made an exhaustive study of the dispute, because the land in question lying between the head branches of the St. Marys River is gravelly and arid, and no one has cared whom it belonged to.

Should the proposal to build a canal across northern Florida from the St. Marys through the Okefenokee swamp and southward to St. Marks, be carried out, says Napier, the value of this land would be greatly enhanced. Drainage of the Okefenokee swamp would result in a blossoming of this waste land which might lead both Georgia and Florida to press again their claims.

The example arose about 1800, when it was discovered that the terms of treatise between the United States and Spain, the United States and the Creek Indians, and in early British royal orders, placed the boundary from the junction of the Chattooga and Flint Rivers to the indefinite source or head of the St. Mary River and thence to the Atlantic. Attempts to survey the boundary were placed in a quandary when it was discovered that there were several streams which might be taken as the source or head of the St. Mary.

If the southernmost branch were taken as the source the land went to Georgia. If the northern branch was designated, the tract would belong to Florida. In 1827 a petition was filed by Georgia with Congress to settle the boundary by a commission which would survey it and report their findings. This commission was finally dissolved without settling a definite boundary, and the dispute continued to this day at intervals until 1860, when the State of Florida filed a bill in the Supreme Court for a definite boundary to be set.

The bill claimed that the farthest navigable point should be considered as the source of the St. Mary. The Supreme Court decided to leave the matter to the two states to appoint commissioners and submit report. Following this the dispute went to the Senate itself in the naming of a committee.

**HIGH SCHOOL FOOTBALL**  
TALLAHASSEE DEMOCRAT

It is hard to say why this nation does not pay more attention to college football when there are so many high school games to watch.

The college game, to be sure, is more interesting. It has higher standards, the "play" is better, and the football players are more skillful.

But, after all, who cares? There is a doctor going to make up all the stories. Plays and strategy always are out of business.

There is a queer feature about watching a high school game, though. Before the thing is over you are apt to find a riot coming into your eyes now and then, a thing rising to your throat.

For the high school kids have something that we older ones have pretty well lost—something that they themselves will lose in a few years. They have enthusiasm. They are able to make the crossing of a white-washed line an event as important as the World

War.

The game itself, of course, is not as entertaining technically as a

**A STRONG CHURCHMAN**

LENOIR NEWS-Topic

The Protestant Episcopal church suffered a real loss in the death at Atlantic City Thursday of Rt. Rev. John Gardner Murray, bishop of Maryland, and for the last three years presiding bishop and president of the National Council of the Church. Up to a few years ago the title of presiding elder was determined by seniority of consecration to the high office. But as this had the disadvantage of always having to look to aged men for leadership, it was decided to change the form of executive administration, and vest the guiding authority in the hands of a bishop who was yet in vigorous health, and so the governing body of the church was reorganized, and a member of the House of Bishops chosen for executive head on the grounds of fitness alone. Bishop Thomas E. Gadsden was the first to be elected to this position, but ill health forced him to retire, he was succeeded by Bishop Murray, to whom was granted even in re authority than had been enjoyed by his predecessor.

Bishop Murray's leadership of National Church affairs has given an unusual satisfaction to the whole membership of the church, and of course he is young to his bishopric.

**SPLENDID WOMANHOOD**

FLORIDA STATE NEWS

In solving the problem of the day, of laborers who have an opportunity to observe the students of the Florida State College for Women daily, that this body of some thousand and under half young women constitute one of the finest and strongest communities to be found anywhere or ever assembled in the east.

It is due to the credit of more and more young women and to the able faculty of the school that such a large and constantly increasing number assemble here each year and conduct themselves in such a manner that they reflect credit upon themselves, their parents, the institution of which they are a part and the state of Florida as a whole.

College institutions are not so severe as they were in the mid-victorian era. The young women of Fla. Co. are allowed with comparative freedom, visit the houses of the town, and their society hours and also walk at the proper hours, and when their studies are not interfered with at all times, admit themselves into gentlemen's parlors and are treated as such by everyone who comes in contact with them. This would not have been thought possible few decades ago.

We are proud of these fine girls from the most reliable source from the most reliable freshman and we know Tallahassee and all of Florida is proud of them.

BUILT BY BUICK

The Marquette is sweeping to nationwide success with an array of features that distinguish it once as the most outstanding value in the moderate-price field.

BUILT BY BUICK—The Marquette alone in its class can offer the priceless advantages of Buick engineering, Buick craftsmanship and nationwide Buick service facilities.

PERFORMANCE—Brilliant pickup—10 to 60 miles an hour in 31 seconds—driving speed—60 or 70 honest miles an hour—and a wonderful kind of smooth, flexible power.

PISTON DISPLACEMENT—The marvelous power plant has a larger piston displacement (31.8 cubic inches) than any car of its price.

ECONOMY—Even with larger piston displacement, this remarkable engine operates in the normal driving range with appreciably lower fuel consumption. Tire mileage is phenomenal. Basic needs are absolute minimums.

COMPLETENESS—Throughout the Marquette you will find a full complement of the finest features. Nothing but the very best has been good enough.

ROBUSTNESS—So perfect are its parts and devices that, at every speed, riding qualities and drivability are amazingly superior to those of cars of much higher price.

UPHOLSTERY—The Marquette alone is the moderate price class upholstered with a wonderful new material of ducked, wear-proof moire.

INDUSTRY—Buick-built cars are famous for dependability. The Marquette delivers many thousands of miles of brilliant, uninterrupted service over every kind of road.

EXTRA VALUE—Buick's unique rest room and quietness provide in the Marquette a great extra value—extra room and spaciousness of the price.

STYLE—The Marquette is distinguished in appearance as in performance. Its handsomely tailored bodies by Fisher chassis compare with the most elegant cars on the road.

See the Marquette. Take the wheel and discover performance that knows no rival in the moderate-price field!
